Federal Trade Commission / Office of the Secretary
Room H-135 (Annex W)
Business Opportunity Rule R511993
600 Pennsylvania Ave, NW
Washington, DC. 20580

Dear Sir or Madam!

I am writing this letter because I am quite concerned about the proposed Business Opportunity Rule R511993. This rule will make it alot harder for me to help people. I am an associate for Mannatech, Inc. and their products are wonderful, + everyone who eats, drinks, or breathes needs them because in todays world we are all eating, drinking + breathing toxins! And people with cancer, or who are suffering needs these products now — Now — not wait awhile for all these rules. It is a race as to how many cells can get saturated with these products compared to how many cells the cancer gets. So I ask you to

rules & paper work. It needs more programs & better health. We come in #37 in the world for health. That's pretty bad — for training & accident we have great doctors but when it comes to over all health we come #37. So we don't need more rules. We need people looking at the website, & getting on the Mannatech products. We need congressmen who don't just listen to the pharmaceutical companies.

I've been an Independent Mannatech associate for over 9 years & my family has been blest so much & so have others because we are going out & telling them about these wonderful products. I do it because I care. And somehow God is bringing some money back to me as a blessing too, besides our good health.

I appreciate the work of the Fed Trade Comm to protect consumers but. If the Business Opportunity Rule R11993 has gone too far & will be a great hindrance, so please
