To Federal Trade Commission/Office of the Secretary
Room H-135 (Annex W)
RE: Business Opportunity Rule R511993
600 Pennsylvania Ave., N.W.
Washington, D.C. 20580

Dear Sir or madam:

We are concerned that the proposed Business Opportunity Rule R511993 if passed would reduce our livelihood for the most part. We are at an age that it is difficult if not impossible to find a way to make additional income. Our medical bills are already exceeding our income and we have had to search for ways to increase it.

We have participated in network marketing and direct selling most of our Adult lives. It has developed our abilities in business and dealing with the public. We are very careful to research those companies that we deal with. We are upset that there are those that wish to impose additional regulations that would do nothing more than increase the paperwork load and discourage any potential customers.

In addition the 7 day waiting period would chase away anyone else who might want to join our organization. It puts a negative light on direct selling totally.

People buy large items daily for higher prices than our fees for joining networking and there is no waiting period. Earning a living is laborious enough - Don't strangle our economy further with this ridiculous plan.

Sincerely, [redacted]
