FEDERAL TRADE COMMISSION
RECEIVED DOCUMENTS
JUN 19 2006
SECRETARY

Dear Sir or Madam,

I AM writing this letter because of my deep concern that if proposed BUSINESS Opportunity Rule R 511993 is adoped in it's present form, my livelihood as a Nature's Sunshine distributor will be significantly undermined.

I do not believe the goverment should interfere in free enterprise process, and that the FTC's OVERRegulation of an industry that is causing No harm is wrong.

I believe that this proposed rule is OVERbroad and misguided. The seven day waiting period is unnecessary and will interfere with my ability to enter into lawful transactions and enroll new distributors. People buy all kinds of costly items without a waiting period. This waiting period gives the impression something is wrong with the plan. The burdensome paperwork, which will never be read by the public, makes it extremely difficult for an individual participant to fully comply, thereby risking fines and other penalties for such failures, however innocent. By this action, the FTC does a disservice to the consuming public and Americans everywhere who are trying to get ahead by starting their own business, or earning necessary supplemental income to help support their family.

I believe that Litigation Reporting is unfair that it does not distinguish between winning and losing lawsuits.

I believe References - is impractical to find 10 nearest distributors, and also raises privacy issues due to ID theft and safety.

We understand there may be fraudulent groups out there, but the FTC's proposed rule would unfairly target legitimate direct selling businesses.
