Diabetes Breakthrough - How to Lower Blood Sugar

The WSN® Diabetic Pack Breakthrough Benefits* Include:

- ✓ Lower Blood Glucose Levels
- ✓ Higher Energy Levels
- ✓ Easier Weight Loss
- ✓ Lower Cholesterol Levels
- ✓ Higher Quality of Sleep
- ✓ Less Dependency on Medications

You're most likely here on our website because you have diabetes, or have just been diagnosed with it.

Diabetes is a disease that if you don't take effective action against, it simply gets worse.

Unfortunately, medications only treat the symptoms and usually do nothing to address the underlying causes. The good news is that cutting-edge science and nutrition have come together to create a truly monumental and natural breakthrough for diabetics.

Nobel Prize Validates Amazing Technology

The reason the WSN® Diabetic Pack works is because it operates at the cellular level and addresses a key problem that every type 2 diabetic has. All type 2 diabetics have a deficiency of key nutrients the body needs to support healthy blood sugar levels. Your cells simply do not process blood sugar like they should. The WSN® Diabetic Pack helps your body metabolize blood sugar more efficiently.

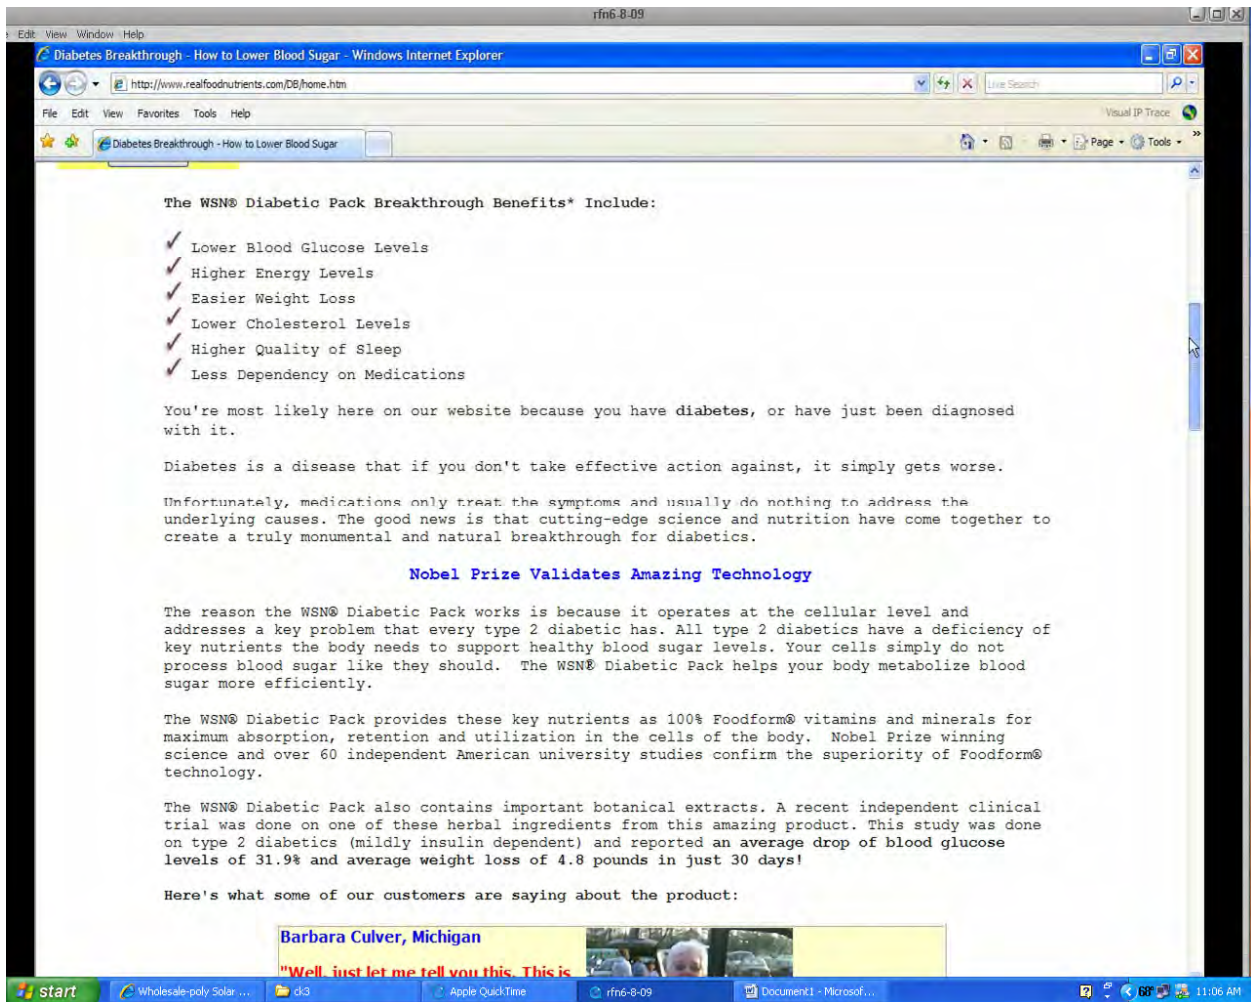

The WSN® Diabetic Pack provides these key nutrients as 100% Foodform® vitamins and minerals for maximum absorption, retention and utilization in the cells of the body. Nobel Prize winning science and over 60 independent American university studies confirm the superiority of Foodform® technology.

The WSN® Diabetic Pack also contains important botanical extracts. A recent independent clinical trial was done on one of these herbal ingredients from this amazing product. This study was done on type 2 diabetics (mildly insulin dependent) and reported an average drop of blood glucose levels of 31.9% and average weight loss of 4.8 pounds in just 30 days!

Here's what some of our customers are saying about the product:

Barbara Culver, Michigan

"Well, just let me tell you this. This is

Diabetes Breakthrough - How to Lower Blood Sugar

Here's what some of our customers are saying about the product:

Barbara Culver, Michigan

"Well, just let me tell you this. This is the first time that I have ever ordered a product that really did what it said it would do! I was taking 50 units of insulin plus pills twice a day and my blood sugar just kept going up. I was tired all of the time and could fall asleep as soon as I sat down. I also kept gaining weight.

"Since I've been using the Diabetic Pack I have lost 9 pounds I have all kinds of energy and my sugar is down in the low 100s also I don't take insulin any more!

[Click Barbara's picture to see her whole story.](#)

Click Here to Order!

The WSN® Diabetic Pack is the most technologically advanced product of its kind available anywhere and was validated by the 1999 Nobel Prize for physiology.

Shortly after its discovery, Foodform® products were challenged with a lawsuit filed by a major competitive USP; vitamin manufacturer.

Five independent scientists were brought in to study the validity of the claims, including the use of highly advanced technology from NASA as part of these studies.

On February 8, 1993, this \$3 million lawsuit (Case #C8920658SW) came to an end, and the following claims were found valid:

Foodform® vitamins are better than isolated USP; vitamins.
Foodform® vitamins are manufactured under an exclusive proprietary process.

(USP stands for United States Pharmacopoeia. This is what is commonly sold in most health food stores and pharmacies. You will see USP on most of the containers of the vitamins and minerals you buy today.)

Furthermore, the results of increased absorption, retention and utilization of Foodform® nutrients over isolated USP vitamins is impressive.

Mike Corcoran, California

nutrients over isolated USP vitamins is impressive.

Mike Corcoran, California

"About 60 days ago when I started your program my blood sugar count was at 332 and my kidneys were in very poor condition.

"Just today I was given my results from my last physical and can report that my blood sugar count is 117 and my kidney funtion is just slightly elevated.

"By the way, I forgot to mention... when I was first diagnosed, I weighed over 250 pounds and my blood pressure was high. I now weigh 193 pounds and my blood pressure is normal.

"I can't thank you enough and thanks so much for all your advice. You were there when things seemed bleak and answered my questions better than my doctor did. Now the sun shines every day and my doctor is shocked with my results!!

[Click Mike's picture to see his whole story.](#)

We're so sure about the quality and effectiveness of the WSN® Diabetic Pack and that you will experience the life changing results, that we offer a full 90-day money-back guarantee. Additionally, by ordering now, you will receive a \$33 savings off the retail price - a 30-day supply is now only \$76.70.

Our goal is to educate you and make you aware of this new and absolutely miraculous Foodform® technology.

I encourage you to read further, learn, ask lots of questions and certainly use health professionals for advice. But make your own decisions.

Joan Lynch, New York

"Thanks for your product, and thanks for the personal support. Incidentally, before I started with the WSN® Diabetic Pack my reading was 191, now after just a few weeks my readings

Diabetes Breakthrough - How to Lower Blood Sugar

Before I started with the WSN® Diabetic Pack my reading was 191, now after just a few weeks my readings range from 93 to 112. I have now started an exercise program and my blood pressure has dropped.

"All I can say is thank God I found you on the Internet because the 'medical model' information was just plain useless and unclear. If I followed the diabetic diet that the 'hospital nutritionists' recommend, I would be eating too many carbs and fruits. I would, by now, be on medication. Thank you so very much for being there and taking an interest in how I am doing.

"Oh, I forgot to mention that I have lost 14 pounds!!
