INTRODUCTION

Welcome to the first *National Do Not Call Registry Data Book*. Enclosed are statistical data regarding the registrations on the National Do Not Call Registry (“Registry”), the subscriptions of entities (e.g. telemarketers and sellers) accessing phone numbers on the Registry, and the complaints submitted by consumers to the Federal Trade Commission (FTC) about companies violating the do-not-call rules.

The Registry has continued to grow since its inception in the summer of 2003. At the end of Fiscal Year (FY) 2009, there were more than 191 million active registrations. Consumers can register their phone number(s) on the Registry by either calling a toll-free number [888-382-1222] from the telephone number(s) they wish to register or using the do-not-call website [<https://www.donotcall.gov>]. The do-not-call rules require telemarketers and sellers to remove from their call lists (at least every 31 days) the numbers on the Registry. Telemarketers can access the Registry through a website [<https://telemarketing.donotcall.gov/>] dedicated to that purpose.

Consumers notify law enforcement of violations of the do-not-call rules by submitting complaints to the FTC via either the toll-free number or the website. Law enforcement officials can then review these complaints, as well as consumer registration information and telemarketer access information, through the Consumer Sentinel Network (CSN), a secure Internet website maintained by the FTC. For more information about CSN, please visit www.FTC.gov/sentinel. Law enforcement personnel may join CSN at <https://register.consumersentinel.gov>.

The National Do Not Call Registry Data Book for Fiscal Year 2009 is based on unverified complaints reported by consumers. This report is not based on a consumer survey.
