No. 894219, Room 159  
Washington, D.C. 20580

Dear Commissioners:

I am opposed to the proposed change **to** the meaning of "Made in the U. S. A." The "Made in the U. S. A." label is important to me and I make every effort to purchase goods made in my country in order to save the jobs of my fellow citizens and because **I** have usually found such goods to be of high quality.

The commonly understood meaning of words have long been important to the FTC and consumers **alike** in the effort to avoid deceptive trade practices. It saddens me to think it **necessary** to write this letter to your agency in opposition to such a ridiculous proposal, **which**, if adopted, is nothing more than an FTC sanctioned deception of **consumers**.

In order to avoid any possible misunderstanding, when I wrote above that I am "opposed" to the proposed change to the meaning of "Made in the U. S. A.," I meant that I am 100% **opposed**; **I** most certainly did not mean that **I** am 75% opposed. Similarly, if government regulations are to **command** the respect of the people, they must say what they mean and **mean what they say**.

**Respectfully submitted**

**DAVID F. JENNY**
