

THE government

US Citizen

We the People do not want our jobs going out of the country. We don't want the junk made in other countries. We don't want our patents given to any other country. We don't want one way free trade. We don't want anything marked "Made in USA" that is not made and assembled in **USA!**

It appears WE HAVE runaway government.  
Best wake up if you want your Job!!!!
