

I have been an Ibo for about 14 years. Quixtar has helped my wife stay home and raise our children, put them in the best public schools. We are now using it to create income for our retirement. If this goes into effect, it will severely hurt my business. I work 50 to 60 hours a week and only have one or two days a week to do a presentation. We tell every one this is not a get rich scheme and it takes a lot of work. If I have to wait 7 days it will hurt me and my prospects. It takes 3 to 4 day to register most prospects but some times we register prospects the first night. Don't take that away from us that are trying to secure our future. This will only affect those of us that run ligament business. The scam artist will not follow the rules.

Those of us that build network marketing business have to go through a lot of people to find one that want to change their future. If we have to give them a list of ten IBO's one of them might take my prospect. Is that fair after I have done all of the work? The best way to get a new IBO started is to let them meet the team as soon as possible. So there is no need to give them a list of 10 IBO's. We talk to all kind of people and I do not want Ibo giving out my number. To day all you need is a phone number and you can get any ones address.

And why do you want to require a list of litigation against Quixtar be given most of them will be without merit is this far to the direct selling industry? Every company has litigation against it but they don't have to disclose this to new hires. These new rules will almost put me out of business please don't do this it will only hurt us not the evil businesses.
