Re: Business Opportunity Rule, Matter No. R511993

Please do not allow the Business Opportunity Rule, Matter No. R511993 to pass. I am an Independent Consultant for Close To My Heart. The Business Opportunity Rule would negatively affect my business. One example of this negative influence would be requiring a list of all distributors who have cancelled their distributorships within the past two years. People leave their positions everyday in all professions, not just distributorships. To require this list in our profession as opposed to other profession sheds a negative light on a positive endeavor. Through Close To My Heart I am able to provide opportunities for women to grow both personally and professionally. We hear story after story about Consultants who started this position with very low expectations of themselves and have grown to develop self-confidence in both their personal and professional lives. We offer not only a wonderful product, but the opportunity to become more than we believe possible.

Thank you for not allowing this damaging ruling to pass.

Sincerely,

Jacquelynn Pleis
Independent Consultant
