

To FTC

Thank You for your interest in slowing down Get Rich quick schemes scams etc. My name is Ron Sloan I have been affiliated with Quixtar/Amway for ten years now. My next goal I'm working on is the Platinum level, the Quixtar business is flexible and the product line is things I would use anyway. The training that is offered has helped me in other areas of my life and provides a positive atmosphere. When I was shown the Quixtar business plan I was given plenty of information and they worked with me until I was ready, which was about 14 days. When I share business plan with prospects I also make sure I give them all the facts and work on their schedule. Also I work with them to understand that it will take hard work (persistent work over time) and its not a get rich quick scheme and there is no guarantees. And there is a 100% money back guarantee, which is about 120.00 when they register. I would like to see something done that would protect people against scams. My concerns on some of proposed rules is

- **7 day waiting period**- even though I waited about 14 days it was my choice, others I have registered have registered in 1-2 days and have been very successful right away, if they had to wait 7 days to register their prospects I feel it would slow down the process and people would get discouraged
- **Provide References**-This would be fine but the problem I see is often in a small town you would do the work, spend you time, money, gas etc. and the guy on the list who they know would get to register them and he would benefit and he did no WORK and didn't pay the price it takes to make any business work! Now that's something for nothing!
- **Litigation List**-needs to be clearer
- **Earnings Disclosers**-We already are required to provide SA-4400 to every prospect. This works for us.
- **Financial Substantiation**-My Earnings are private and don't reflect what someone else can do with a business.

**Thank you,
Ron & Carolyn Sloan**
