Washington, D.C. 20580

Reference: Business Opportunity Rule, R511993

Gentlemen,

World Association of Persons with disAbilities, (WAPD) is strongly opposed to the above referenced rule. It completely bashes the hopes and dreams of millions of disAbled people, their families and caregivers, that are striving for financial independence via the high quality small home-based business opportunities that are members of strong self-policing associations such as the Direct Selling Association (DSA)/ Multi Level Marketing International Association.

Firms such as Watkins, MaryKay, Fuller Brush, Pre-Paid Legal, Tupperware, Herbalife, TahiatianNoni, EcoQuest, Vemma and a host of other firms that have fully proven their accountability, should not be treated as dishonest business opportunities.

Representatives from these companies have/are joining hands with the WAPD advocacy of financial self sufficiency for people with disAbilities. Superior opportunities and consultants are offered through our main and chapters websites to the fifty six million (56,000,000) folks that are termed disabled in the U.S.A. alone.
