This ruling may for some imply that there is something wrong with Sunrider's method of doing business. It also involves disclosure of people's personal information to other parties. Sunrider is income for my family and this could be jeopardized by this ruling and it's implications.

Sunrider already provides for returns and buybacks for it's customers. I have been with Sunrider for over twenty years with not one problem in business or product.

I have checked their information regarding lawsuits and believe it unfair to bring this up if there are no infractions. We are trying to help people not burden them with more rules and regulations. People want less complicated lives and we help provide this with no risks.

I appreciate what you are doing and believe you can come up with a new rule that will protect the consumer without being burdensome.

Thank you for your time

Sincerely,

Gregory K Pursley
