RE: BUSINESS OPPORTUNITY RULE, R511993

Dear Madam or Sir,

My name is Gina and I am 28 years old. I have lived in California my entire life and my entire family is also here. When I moved out at age 18 I got hit with a huge dose of reality... The cost of living in California is EXPENSIVE!! I have struggled month to month, for the past 10 years and have had to live off of my parents. I also have no college degree.

I started my Sunrider business over one year ago, and I have been able to build my own business and begin to live on my own. It has helped develop my people skills and build my confidence as a young woman.

I have an opportunity to one day be a stay-at-home mom... if I can sustain my at-home (Sunrider)business. I am writing this letter because I am concerned about the BUSINESS OPPORTUNITY RULE

R511993. I believe that in its present form, that it could affect the potential of my business and future.

I depend on this income. Please reconsider the seven-day wait period as well as required references. Most people come to me through references, and I'm happy to give someone twenty if they asked. Due to the increase of identity theft in this country, it is not smart to require me to disclose other Sunrider's private information to strangers.

The BUSINESS OPPORTUNITY RULE, R511993 should be dropped. Thank you for taking the time to read my letter.

Sincerely,
