Re: Business Opportunity Rule R51193

To Whom It may concern:

Please don't pass the changes you are suggesting in this upcoming bill. I depend on my extra income from my company, Xango, to help me pay my bills.

Originally I joined this company because I liked the product and it made me feel so much better. Then I saw the opportunity to help others while also making myself some extra money, and it really has helped my situation.

I'm very concerned about the proposed 7 day waiting period, it will just be a handicap for me. Xango membership is only \$35 so it's not as though this is taking huge advantage of people. We believe the law as it reads now is certainly satisfactory.

This rule will not stop crooks, and there are many scams out there. We are not part of that and don't want to be! We are proud to be part of an honorable conscientious company named Xango. Please don't squelch our opportunity.

Thank you.

Sincerely yours,
