May 19, 2006

The Honorable Bill Nelson  
United States Senate  
716 Hart Senate Office Building  
Washington, DC 20510-0905

Dear Senator Nelson:

On Wednesday, April 5, 2006, the Federal Trade Commission (FTC) issued its Notice of Proposed Rulemaking (NPR) dealing with business opportunities. The NPR is a follow-up to earlier revisions of the Federal Franchise Rule, and could very well create a new business opportunity regulatory regime.

As currently written, the proposed Rule would be detrimental to One-to One marketers, Distributors and the direct selling community. It would do nothing to improve consumer protection, and do much to hurt the struggling working class people. Please review this bill and vote it down if it comes up for action.

Sincerely,

M
