Dear Sir or Madam,

I am writing this letter to express my concern about the proposed Business Opportunity Rule R511993.

I have been in the direct selling industry for many years and I am concerned that the proposed rule mentioned above would hamper me in continuing with my business. I have participated in many direct selling companies, but the one in which I have found the most success is a company called Mamotech in Texas. They are a very ethical company. I understand that the FTC plays a key role in protecting the public from scammers, but I feel that adding a lot of complicated rules for the average person to understand & follow would be confusing & unnecessary in starting a network marketing business.

The parts of the proposed rule that concern me are:

The Seven day waiting period - it would project a feeling of danger. Legitimate companies offer an opportunity. My company offers a package for \$100 including product.

Disclosure of 10 Prior Purchasers: This would be very burdensome & confusing. Many take the products to get a cheaper price.

Litigation information: With the current litigious environment where companies can be sued for no reason, it is unproductive to divulge litigation until final judgment is reached.

Thank you for your time.
