Re: Business Opportunity Rule R511993
600 Pennsylvania avenue NW
Washington, DC 20580

June 7, 2006

Dear Sir or Madam,

I am sending you this letter due to my concern over the proposed Business Opportunity Rule R511993.

I have been a Nature's Sunshine Products distributor for 8 years. In addition to purchasing products for myself, I provide the products for family and friends. I do not make a substantial living at this, however the extra income and savings I receive is helpful to me as a senior citizen.

I understand the need for the FTC to protect us, however this proposed rule is not fair to this industry. The waiting period is just unnecessary for purchasing the products that I distribute. John Q. Public can walk in any store and buy whatever they want without waiting, why make them wait for products that I distribute? The additional paperwork will be a waste of paper and I doubt many people will read it. Heck, most people don't take the time to read the directions on medicine bottles for their own safety.

I am confident in the products that I sell as a distributor through Nature's Sunshine. We have a very fair buy back policy, if I ever want to stop being a distributor, I can, and if I ever have a customer that is dissatisfied with a product, which I have not had to date, the situation would be remedied fairly to the consumer.

I enjoy telling people about Nature's Sunshine Products and it makes me feel good to make an improvement in other peoples lives through healthy living. Please do not make it difficult by passing this rule that IS UNFAIR TO US.

Thanks you for your time and consideration.
Sincerely,

[REDACTED]
Barbara Houck
