Re: Business Opportunity Rule, R511993
600 Pennsylvania Ave. NW
Wash., DC 20580**

To Whom It May Concern:

I am very concerned with the proposed Business Opportunity Rule R511993. It could end my career as a Distributor for Legacyforlife.....a company that I have been with for 8 years and very proud to be associated with them.

I have owned and operated a health club for 25 years and I must tell you that Legacyforlife has been a big plus to many aspects of my life. I believe strongly in word of mouth advertising in my Legacy business as well as my Club. I am a firm believer in our products and I spread the word. It took me a long time to do any sort of networking as I have a very good reputation in this town and would not want to jeperodize it, with a poor product or company. Legacyforlife has helped me financially as well as personal self growth. The company has been nothing but the best as far as customer satisfaction and in 8 years I have never had a problem with this company. Something that I would be hard pressed to say about many other companies out there.

I do not make promises to new distributors or people looking at the business end. I remind them that it is a business.....it takes time and ongoing doing as in any business....The MLM industry has changed....the good companies do not make those false claims. It is the same in any business/industry.....you have the good, the bad and the ugly and we can't control everyone.

Please help us stay in business without making us look shady, or added paperwork.....we do enough.

Please please take a good long look at what you could do to a lot of folks that work hard in this industry and make it another

source of income, gives many a business and a passion that they wouldn't have otherwise....

Thanks for your time....

Deni Maroni
