**Subject:** Comment on the sale of the Woods Cross Refinery

My name is Sue Hayden and I work at the Woods Cross Refinery and I am a member of Pace- Local 8-578. I would like to express my displeasure with the Federal Trade Commission in failing to enforce their ruling that all employees of the Conoco Phillips Refinery be treated fairly in the sale of the refinery. Conoco phillips decided that the union people that work in the refinery the ones out there running the units, fighting the fires, dealing with emergencies in the middle of the night, working holidays and weekends will not get Work Force Stabilization. And do you think this is fair?. I don't. The people here at the refinery are very upset and when the new company takes over they are going to feel it. This has taken away from me some of my Retirement money but more than that I have been here 24 years and some of the people that will be getting WFS have not been here but a couple of years. But what I am really surprised at is that you the FTC would allow this to happen. This is so unfair. If you do not know what WFS is I am sure that others like me will be writing you and letting you know.
