Spyware and Adware are a nuisance, an intrusion and invasion of privacy. I strongly feel they should be banned - I cannot get some of the stuff off my hard drive - especially a nuisance is the "explorer.exe" file - and I don't even know HOW I got it on my drive in the first place.

Please ban all Spyware and Adware. These things should be clear, in the open and people who deliberately choose to use them will KNOW they are allowing it. Otherwise it is sneaky and a damned nuisance.
