Subject: Spyware Workshop - Comment, P044509

The Government has under the banner of "Terrorism" taken upon itself to infiltrate and monitor every aspect of our lives.

This in my opinion is no different that what Hitler did many years ago under the banner of "What is Good for Our Country".

Both the US and Israel are imposing their views and their ideas upon all the people of the world by the use of force along with manipulating and misleading their own people.

This TEFLON President has under false pretences bent and broke every imaginable international law and all standards of decency to finish what his dad did not.

Spy and monitoring is another way to obtain control over people, it violates all our constitutional guidelines, our government has lost sight of what we are about and what the USA did and should stand for in the eyes of the world. We have become the school bully.

May God have mercy on us, we are following in the foot steps of the roman empire and the Nazi empire.

I can say that as Vietnam Veteran I am appalled at the way our country has turned under the Bush regime, they went as far as rigging the elections in FI so they could maintain their stronghold on us.

GOD HELP US ALL.
