Subject: Spyware Workshop - Comment, P044509

Why is the FTC allowing JUNK to be placed in my Computer? The FCC is now doing it's job stopping JUNK from being placed on my TV and Radio. It is time the FTC stopped adware and spyware from causing untold problems to the public. This is the FTC job to protect the unsuspecting public. It is time for the FTC to step up and put a stop to adware and spyware, If this junk were to be placed in my mail box at my home the FTC and the US Postal Service would take the steps to stop it. Please help your citizens have a safe and trouble free computer.
