Subject: Spyware Workshop - Comment, P044509

I am an engineer who uses his computer daily for work and home and the office. Action needs to be taken to eliminate the intrusive action of "spyware" and "adware" programs on the Internet. I am constantly bombarded with unwanted e-mails, pop-up adds, etc. which slow down my computer and hinder my efforts to obtain needed information from the Internet. I cast my vote to impose restrictions on these types of programs.
