Subject: Spyware Workshop - Comment, P044509

So called spyware and adware have no business on my computer unless I give permission. Without my permission it is the same as trespass and I become a victim. The senders of this trash claim "free speech" rights. It is not such a matter unless I have the option of not listening. Any use of this material MUST be only with my permission.

Respectfully,

Richard F. Madden  
WA
