my employer requires it / electronics acces to my pay, upgrades, banking,/ been an old fashion all of this is costing me lots of money and time,/ because people make mistakes and do as they wish example state of ca is one of them, att wireless phone services bank ofnot only at this have to spend time updating this toys and programs, spending money to have this gadgets safe and secure ,cause some people or companies want to sell their products and services / create this headaches (market), vulnerable people, simple hard working americans do not have the time to be fidgeting , even the people that does repairs think they are gods and want to mistreat- undermine their customers and just because ... instead lets all work together and find a solution,verily have time to make a day to day survival / ! people think by stroking a keyboard can make living on someone else headaches.....
