

consideration and the central core of the metropolitan area as identified by the Census Bureau.

C. *Federal facilities crossing pay locality boundaries.* To be in the pay locality, the portion of a Federal facility which crosses pay locality boundaries and which is not in the pay locality must—

1. contain at least 1,000 GS employees;
2. have the duty stations of the majority of GS employees within 10 miles of the locality; and
3. have a significant number of its employees commuting from the pay locality.

D. *Full-State areas of application.* In order to be evaluated for area of application status, an entire State may be considered as one county for purposes of applying the county-wide area-of-application criteria if—

1. no part of the State is already in a separate metropolitan pay area;
2. the State is adjacent to the pay area (exclusive of any other areas of application); and
3. the State is smaller than 115 percent of the average county size in square miles in the lower 48 States plus Washington, DC, as determined by OPM using land area data published by the Census Bureau and the number of counties in the United States as determined by the Census Bureau.

After application of the above criteria, the entire State must still pass the county-wide area-of-application criteria before it can become an area of application.

We received more than 800 comments on the proposed regulations. Virtually all of the comments were in support of the proposed changes. A few comments focused on issues outside the scope of the proposed rule, such as when other areas might become separate locality pay areas.

We also received a number of comments about a portion of Bristol County, MA, that lies between the Boston Consolidated Metropolitan Statistical Area (CMSA) and the State of Rhode Island. There are eight cities/townships in this small strip, which is about 10 miles wide (east to west) at its widest and about 30 miles long (north to south). Although there is a significant amount of commuting to and from both Providence and Boston from this area, all of the cities/townships in this area are part of the Providence MSA because there is a greater level of commuting to and from Providence.

Commenters, including affected employees, Members of Congress, an employing agency, and the Greater Boston Federal Executive Board,

concluded that Federal agencies in these areas will not be able to recruit and retain an adequate workforce if employees can drive 10 miles or less in virtually any direction and receive the higher Boston locality pay rate. After reviewing the comments and other pertinent data on this small area, including commuting patterns and population density, we have concluded that all of Bristol County, MA, should be included in the Boston locality pay area. The Pay Agent believes that excluding these eight cities/townships would create an egregious situation, unique under the locality pay program. This small area, which has significant ties to both Providence and Boston, is virtually surrounded by the Boston locality pay area and the new Rhode Island area of application. In addition, the entire area is within easy commuting distance of the rest of the Boston locality pay area. There are no other similarly situated areas.

Therefore, the final regulations include both the State of Rhode Island and all of Bristol County, MA, in the Boston-Worcester-Lawrence, MA-NH-ME-CT, locality pay area. In addition, as originally recommended by the Federal Salary Council and proposed by the Pay Agent, the final regulations include Monterey County, CA, in the San Francisco-Oakland-San Jose, CA, locality pay area.

E.O. 12866, Regulatory Review

The Office of Management and Budget has reviewed this rule in accordance with E.O. 12866.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities because they will apply only to Federal agencies and employees.

FEDERAL TRADE COMMISSION

16 CFR Parts 300 and 303

Rules and Regulations Under the Textile Fiber Products Identification Act; Rules and Regulations Under the Wool Products Labeling Act of 1939

AGENCY: Federal Trade Commission.
ACTION: Final rule.

SUMMARY: The Federal Trade Commission (FTC or Commission) amends the Rules and Regulations under the Textile Fiber Products Identification Act (Textile Rules) to revise the form for Application for a Registered Identification Number (“RN”) in order to facilitate receiving applications electronically; incorporate by reference the generic fiber names and definitions for manufactured fibers in International Organization for Standardization standard ISO 2076: 1999(E), “Textiles—Man-made fibres—Generic names;” clarify origin labeling

requirements for products made in the U.S. and assembled or finished abroad or products manufactured abroad of U.S. fabric; and correct a typographical error. The Commission amends the Rules and Regulations under the Wool Products Labeling Act of 1939 (Wool Rules) to clarify that only one RN will be granted to a qualifying firm; and clarify the origin labeling requirements for products made in the U.S. and assembled or finished abroad or products manufactured abroad of U.S. fabric. Because these amendments are technical and non-substantive, the Commission finds that notice and comment are not required. For this reason, the requirements of the Regulatory Flexibility Act also do not apply.

DATES: The rules are effective on December 1, 2000. The incorporation by reference of certain publications in this rule is approved by the Director of the Federal Register as of December 1, 2000.

ADDRESS: Requests for copies of this document should be sent to the Consumer Response Center, Room 202, Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580. The notice announcing the amendments is available on the Internet at the Commission's website: <http://www.ftc.gov>.

FOR FURTHER INFORMATION CONTACT: Stephen Ecklund, Senior Investigator, (202) 326-2841, secklund@ftc.gov, or Faith Vieno, Paralegal Specialist, (202) 326-2299, fvieno@ftc.gov, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW., Washington, DC 20580.

SUPPLEMENTARY INFORMATION:

I. Background

The Textile Fiber Products Identification Act (Textile Act), 15 U.S.C. 70, requires manufacturers and sellers of covered textile products to mark each product with: (1) The generic names and percentages by weight of the constituent fibers present in the product, in the order of predominance by weight; (2) the name under which the manufacturer or other responsible company does business or, in lieu thereof, the RN issued to the company by the Commission; and (3) the name of the country where the product was processed or manufactured. Pursuant to section 7(c) of the Textile Act, 15 U.S.C. 70e(c), the Commission has issued implementing regulations, the Textile Rules, 16 CFR Part 303. Similar information is required pursuant to the Wool Products Labeling Act (Wool Act),

15 U.S.C. 68, and the Fur Products Labeling Act (Fur Act), 15 U.S.C. 69. Implementing rules under those statutes are found at 16 CFR Part 300 (Wool Rules) and 16 CFR Part 301 (Rules and Regulations under the Fur Products Labeling Act).

II. Registered Identification Numbers Issued by the Commission

Pursuant to its Rules, the Commission issues RNs to qualified applicants, *i.e.*, those who manufacture or market textile, wool or fur products covered by the labeling requirements and who reside in the U.S.¹ In the past, applicants were required to submit RN applications to the Commission by mail or fax on the form that appears at 16 CFR 303.20(d).² The Commission now has the capability to receive applications and updates to applications online at its website, <http://www.ftc.gov>. Therefore, it is amending the application form in order to facilitate the online application process. The requirement for a signature, line 8 of the form, is eliminated. The online form will require entry of the name of a responsible official who certifies, in making the application, that the business is eligible for the RN by virtue of residing in the U.S. and manufacturing or marketing a product covered by one of the three labeling statutes. Other minor changes to the application form have been made to facilitate the process. The online application will require the same information as the printed application, although it necessarily will appear in a different format.

An amendment to section 300.4(b) of the Wool Rules clarifies that a qualified applicant will be assigned only one RN, which may be used for the labeling of any products covered by the Textile, Wool, or Fur Acts. In the past, the Commission did, on occasion, assign more than one RN to a particular company; however, it ceased this practice a number of years ago. Therefore, this section is amended, consistent with current RN procedures, by removing a clause that refers to assignment of multiple numbers.

The Commission's RN database is available on the FTC's Internet website. Businesses are urged to use this service to check whether the information concerning their RN is current and, if necessary, update the information. Updating an application also can be accomplished online.

¹ 16 CFR 303.20, 16 CFR 300.4, 16 CFR 301.26.

² The Wool and Fur Labeling Rules cross-reference the form that appears in the Textile Rules. See, 16 CFR 300.4(e) and 16 CFR 301.26(d).

III. Recognition of ISO Standard for Generic Fiber Names

In 1998, the Commission amended the Textile Rules to incorporate by reference the generic fiber names and definitions for manufactured fibers in ISO 2076: 1989, "Textiles—Man-made fibres—Generic names."³ The Commission noted that a revision of ISO 2076 was under consideration at that time and stated that when the revised standard was finalized, it would amend the Textile Rules to reference that revised standard. The revised ISO standard was finalized in 1999; therefore, the Commission amends the Textile Rules to incorporate the new standard.

IV. Clarification of Country of Origin Disclosure Requirements

The Textile and Wool Acts require that covered products be labeled to show the country of origin, whether domestic or foreign.⁴ The Commission's Rules implement the statutory requirement, explain how it applies to products made in part in the U.S. and in part in another country, and provide examples of proper labeling.⁵

Imported products must name the country where they were manufactured or processed. Products made in the U.S. of materials also made in the U.S. should be labeled as "Made in USA," or words to that effect. Products made in the U.S. of imported materials should disclose both the U.S. manufacturing and the imported component—for example, "Made in USA of imported fabric" or "Knitted in USA of imported yarn." Similarly, products partially manufactured in a foreign country and partially manufactured in the U.S. should be labeled to show the manufacturing process in both the foreign country and the U.S.—for example, "Imported cloth, finished in USA," "Sewn in USA of imported components," or "Made in [foreign country], finished in USA." The same disclosure principle applies to products manufactured abroad of fabric made in the U.S., or products assembled abroad of components manufactured in the U.S. Therefore, the Commission is revising section 303.33(a)(4)(i) of the Textile Rules and section 300.25(a)(4)(i) of the Wool Rules to add examples covering these latter situations. For example, a product manufactured abroad of U.S. fabric could be labeled "Made in [Foreign Country]/fabric made in USA" or simply "Made in [Foreign Country] of US fabric." A garment that is assembled or finished abroad of components made

For example, a product made in the U.S. then sent abroad for a minor finishing process, such as washing, dyeing, pressing, application of ink designs, adding buttons, repairs or alterations, tagging or labeling, etc., could be labeled simply "Made in USA." See, Comment of the FTC before the Dept. of Treasury, Customs Service, "In the Matter of Country of Origin Marking Rules for Textiles and Textile Products Advanced in Value, Improved in Condition, or Assembled Abroad," Dec. 18, 1998. Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order 793-78, 28 CFR part 16 is amended as follows:

PART 16—[AMENDED]

1. The authority for Part 16 continues to read as follows:

Authority: 5 U.S.C. 301, 552, 552a, 552b(g), 553; 18 U.S.C. 4203(a)(1); 28 U.S.C. 509, 510, 534; 31 U.S.C. 3717, 9701.

2. 28 CFR 16.92 is amended by revising the heading and paragraphs (a) and (b) to read as follows:

§ 16.92. Exemption of Environment and Natural Resources Division Systems—Limited Access.

(a)(1) The following system of records is exempted pursuant to 5 U.S.C. 552a(j)(2) from subsections (c)(3) and (4), (d), (e)(1), (e)(2), (e)(3), (e)(5), (e)(8), (f) and (g); in addition, the following systems of records are exempted pursuant to 5 U.S.C. 552a(k)(1) and (k)(2) from subsections (c)(3), (d), and (e)(1):

(i) Environment and Natural Resources Division Case and Related Files System, JUSTICE/ENRD-003.

(ii) [Reserved]

(2) These exemptions apply only to the extent that information in this system relates to the investigation, prosecution or defense of actual or potential criminal or civil litigation, or
