was definitely in excess of 20 hours which really keeps costs down. I believe that all of our web properties now comply with the ADA requirements. This is a moral and legal requirement. We haven't had to use the support or had any contact with the team so I can't attest to that, but I will update this if needed."

★★★★★

"Our lawyer recommended that we proactively make our website accessible for the disabled as per ADA requirements. I'm happy to say that this was made a rather easy task, thanks to accessiBe. If my math is right, we saved about 40 hours of in-house developer work (10,000+ pages). This would have cost many more dollars than accessiBe's fee."

★★★★★

"The easy installation is the best feature of accessiBe. It is a great product that covers all ADA, WCAG 2.1, and Section 508 and it works exactly as it is intended to. I'm using it for ADA Compliance... Many of our clients were being hit with frivolous lawsuits. accessiBe solved many of these."
