Regardless of whether economists invariably identify the existence of implicit assumptions lurking in each other's models, Professor Watt overlooked a cardinal rule of communication: *Know your audience.* Here, his audience is comprised of three Judges, only one of whom is also an economist.[78] Failing to appreciate Professor Watt's implied *ceteris paribus* assumption, the Majority transformed his limited (albeit important) ''insight'' regarding the equal split of the Shapley surplus between the two classes of rights holders—and the seesaw effect that would have if the mechanical rate were increased when the split was imposed—*into a justification for the imposition of an uncapped TCC rate prong over the five-year rate term.* The Majority's language reveals this point clearly:

> As to the issue of applying a TCC percentage to a sound recording royalty rate that is artificially high as a result of musical works rates being held artificially low through regulation, the Judges rely on Professor Watt's insight . . . *demonstrated by his bargaining model* that sound recording royalty rates in the unregulated market *will decline in response to an increase in the compulsory license rate for musical works. See* 3/27/17 Tr. 3090 (Watt) (''[T]he reason why the sound recording rate is so very high is because the statutory rate is very low. And *if you increase the statutory rate, the bargained sound recording rate will go down.''*)
>
> Professor Watt's bargaining model *predicts* that the total of musical works and sound recordings royalties would stay ''almost the same'' in response to an increase in the statutory royalty. *Id.* at 3091.

Determination at 73–74 (emphasis added).

Making the point ever so plainly, Professor Watt *now* expressly acknowledges that his '' 'see-saw effect' was never really a '*prediction*' '' at all! Watt RWRT ¶ 117. Rather, he now cautions the present panel of Judges, that, ''to make the jump from the model to the actual real-world effects, one cannot ignore the words that are omnipresent in all economic modeling,

---

remain ''constant,'' or ''controlled,'' *i.e.,* ''equal'' to their measure prior to the change of the independent variable being examined. *See* W. Nicholson, *Microeconomic Theory: Basic Principles and Extensions* at 649 (9th ed. 2005) (defining ''*ceteris paribus*'' as ''[t]he assumption that all other relevant factors are held constant when examining the influence of one particular variable in an economic model'').

[76] The Judges note now that Professor Watt did not claim that his bargaining model generated any *predictions,* but rather that it explained the splitting of the Shapley surplus by the sound recording and musical works copyright owners, respectively, and the impact of that split on royalty rates, *given the assumptions and the data in his model.*

[77] In the language of econometrics, Professor Watt describes this problem as the ''almost sure[ ] impossibil[ity] of ''introduce[ing] a control variable for each and every possible aspect that could potentially impinge upon the relationship [that] could easily lead to such a low R^2, and/or statistically insignificant key coefficients, as to make the regression meaningless.'' *Id.* ¶ 118.

[78] The dissenting Judge (the only economist on the panel) warned that the seesaw effect was rife with assumptions that rendered it too speculative to be relied upon to support the uncapped TCC rate prong. *See* Dissent at 7–8.

that predictions about causal relationships are understood to be ''all else equal.'' *Id.* ¶ 32.

Without the benefit of these caveats regarding an extrapolation of the ''seesaw'' theory to the real-world, and with absence of an explicit statement of the *ceteris paribus* assumption, the Majority misapplied his testimony as a basis to adopt a fixed TCC rate, based upon data from a snapshot in time (2016) to cement that rate relationship for the entire five-year period.[79] The Majority misapplied Professor Watt's *correct* insight from bargaining theory regarding the use of a fixed ratio for the equal division by two ''Must Have'' input suppliers of the Shapley surplus to set royalty rates in a period, by using that insight *incorrectly* to establish a fixed ratio of royalty rates over the rate term.[80]

[79] The importance of Professor Watt's failure to make explicit the *ceteris paribus* assumption in his WRT is demonstrated by his need to make it explicit in his RWRT. But even now, rather than acknowledge that the Majority missed the point, he claims that the Services' are wrongly blaming the Majority for failing to understand this assumption: ''The Services' testimony on this remand seems primarily focused on creating a ''straw man'' argument . . . accus[ing] the [Majority] of something that the [Majority] did not do—that is, rely on a guarantee of a particular decrease in sound recording royalty rates—and the Services then attack the Board's determination by claiming that the decrease did not occur.'' Watt RWRT ¶ 5. As shown *supra,* however, this is precisely how the Majority interpreted Professor Watt's ''insight.'' The Judges understand that, as a matter of tact and tactics, Copyright Owners may be reluctant to acknowledge that the error lies in the combination of their witness's opaque testimony and the Majority's lack of understanding of the assumptions economists make. Copyright Owners might prefer to cast the Majority as the victims of the Services' incorrect accusation. But the plain language of the Determination belies Copyright Owners' characterization as to how the confusion arose.

[80] The forgoing analysis as applied to the uncapped TCC rate needs to be contrasted with the application of Professor Watt's bargaining model to increase the percent of-revenue rate to 15.1%. That higher rate was set by the Majority after its consideration of the same Shapley approaches, pursuant to the Judges' combination of inputs from Professor Gans model (his [REDACTED] round recording-to-musical works ratio) and the Shapley Value Model of Professor Marx that adjusted for complementary oligopoly power by establishing a lower total royalty level ([REDACTED]%). But the difference is that the 15.1% revenue rate was set by applying the Shapley results *based on actual and projected market data, see* Gans WRT ¶ 38, whereas the uniform uncapped TCC rate (26.2%) was based on the *ceteris paribus* assumption that held constant the actual data regarding the aforementioned independent variables. As explained above though, Professors Watt and Spulber make it clear that the ''insight'' from bargaining theory did not have implications to allow for a ''prediction'' of rates in future periods.

Thus, when the Majority engaged in its analysis and ''line-drawing'' to apply the data and market projections relied upon by Dr. Gans's data, the Majority was operating—to use the D.C. Circuit's phrase—in its ''wheelhouse,'' making a finding that withstood appeal. *Johnson, supra,* 969 F.3d at 385–86; *see also* Determination at 69–70 (''Professor Gans utilized data from projections in a Goldman Sachs analysis to identify the aggregate profits of the record companies and the music publishers, respectively. . . . The Judges also find Professor Gans's reliance on financial analysts' projections for the respective industries to be reasonable.'').

Additionally, an examination of the expert economists' testimony reveals that their facial disagreements vanish once the necessary assumptions are laid bare. Professor Watt and the Services' three economists all identify the following independent variables that will impact the relative levels of sound recording and musical works rates paid by interactive services:

(1) the level of downstream consumer demand;
(2) entry costs;
(3) exit costs;
(4) oligopolistic interaction;
(5) the timing of sound recording agreements *vis-à-vis* statutory rate setting; and

Professor Watt and the three Service economists agree with regard to the relevancy of these six independent variables. *Compare* Watt RWRT ¶¶ 6(iv), 118 (identifying all five independent variables) *with* Leonard WDRT ¶ 18 (identifying independent variables 1–4 above); Marx WDRT ¶¶ 4–5, 42; (identifying independent variables 1–5 above); Katz WDRT ¶¶ 127, 134 n.115 (identifying independent variables 4 and 6 above). Accordingly, the remand record shows a consensus as to the lack of modeling of independent variables that would be important to estimate an uncapped TCC royalty ratio that could be utilized by the Judges to lock-in a ratio over the rate term.

Indeed, as noted *supra,* a careful reading of the remand testimony by Copyright Owners' economists, Professors Watt and Spulber, reveals that neither of them actually testifies that there is sufficient theoretical and empirical evidence to support the uncapped TCC rate prong and the 26.2% TCC rate phased in on that prong. Rather, those two witnesses testify to something far narrower: the alleged correctness of Professor Watt's ''seesaw'' theory as demonstrating an equal splitting of the surplus between the two ''Must Have'' input suppliers, and the effect of that split when all other relevant independent variable are held constant.

In this regard, it is noteworthy that none of Copyright Owners' several economic experts in this proceeding (Dr. Eisenach, Professor Gans, Dr. Rysman, or Professor Watt) ever *proposed* an uncapped TCC rate prong in any form, let alone within a greater-of formulation. Such a proposal would have been improper, because, as the expert testimony described above makes clear, the *ceteris paribus* assumption, reasonable for modeling purposes to provide insight as to the surplus split, lacks the input of the omitted variables that the experts on both sides find relevant to the application of economic modeling in this proceeding. A further review of Copyright Owners' economic expert witness testimony on remand—the first time any of them had occasion to weigh-in on the appropriateness of the uncapped TCC prong—reveals that they also *have not endorsed* the uncapped TCC rate prong as a proper form of rate setting. To be sure, they strongly endorse the insight first described by Professor Watt in his WRT that the Nash surplus would be split essentially evenly between the two suppliers of essential content, given his simplifying assumptions. But such endorsement is hardly the same as endorsement of the uncapped rate prong itself.

For these reasons, the Judges find erroneous the Majority's identification of a fixed relationship between the sound recording and mechanical royalty rates that could serve as a basis for the Majority's first rationale for yoking the mechanical rate to an uncapped TCC rate prong.

(b) The Services Have Not Rebutted Copyright Owners' *Prima Facie* Showing That Professor Watt's Model Demonstrates a More Limited ''Seesaw'' Effect

The foregoing analysis and decision related to the absence of a fixed relationship between the sound recording and mechanical royalty *rates.* A *separate* fixed relationship—the one Professor Watt has clarified he was demonstrating all along—is that if the Judges increase the mechanical royalty rate, the Shapley surplus realized by the labels will decrease almost dollar-for-dollar with the increase in the mechanical rate. The Services' economists aver that even this version of the seesaw is defective.

According to Professors Katz and Marx, the Nash Bargaining Model constructed by Professor Watt is deficient because it fails to properly characterize the ''disagreement payoff'' to the sound recording company when it and an interactive service fail to reach an agreement. More particularly, as explained *supra,* they assert that Professor Watt's model omits the value of ''outside options'' available to the sound recording company. This criticism relates to the issue of whether the seesaw effect would occur as posited in Professor Watt's model. That is, the increase in the sound recording

company's ''disagreement payoff'' (a/k/a ''threat point'') would lead to a higher royalty in the Nash bargain between the sound recording company and the interactive service than needed to generate the seesaw effect to offset the higher mechanical royalty rate.

As the several experts' positions in this regard, discussed *supra,* make clear, however, each side has a different understanding of whether an ''outside option'' is properly included in the definition and calculation of the ''disagreement payoff.'' On the one hand, Professors Katz and Marx claim that the existence and value of ''outside options'' should be included in the ''disagreement payoff.'' However, they provide no economic authority for that assertion.

By contrast, Professor Watt cites to multiple economic game theory publications and authorities for the proposition that the presence and value of ''outside options'' are not to be included in the ''disagreement payoff'' contained in a Nash Bargaining Model. *See* A. Muthoo, *Bargaining Theory with Applications* at 105 (1999) (''I thus emphasize that *the outside option point does not affect the disagreement point.*''); M. Osborne & A. Rubinstein, *Bargaining and Markets* at 88 (1990) (''it is definitely *not* appropriate to take as the disagreement point an outside option. . . .''); K. Binmore, A. Rubinstein & A. Wolinsky, *The Nash Bargaining Solution in Economic Modeling,* 17 RAND J. Econ. 176, 185 (1986) (''An outside option is defined to be the best alternative that a player can command if he withdraws unilaterally from the bargaining process.'').

According to Professor Watt and these authorities, the reason for excluding ''outside options'' from the Nash Bargaining Model is fundamental to the nature of the model itself. In the Nash approach, the negotiating parties are bargaining with each other only over the surplus *their deal* can generate, and they are attempting to agree upon an allocation of that surplus that exists within the bounds of their respective ''disagreement payoffs.'' Each may have ''inside options,'' which are alternatives available to them *while bargaining is ongoing and they temporarily disagree. See Muthoo, supra,* at 137. However, ''outside options'' are available to a Nash bargaining party *only* in lieu of continuing the Nash bargaining with the original counterparty if it ''withdraws'' from the Nash bargaining process. *See Binmore et al., supra.* Professor Watt characterizes the distinction as follows:

> [T]he Nash bargaining model [is] designed as [a] self-contained portrayal[ ] of negotiating behavior. . . . Given a surplus to share, the Nash model . . . provide[s] allowance for *financial* payments that a party is *actually* receiving, only while negotiations are *ongoing, without* walking away for another option, and that would cease as a result of the deal, to be factored into modelling as a cost in some situations.'')
>
> . . .
>
> [A]n outside option (a potential payoff that is not directly related to a share of the surplus that is being negotiated) . . . comes in as a constraint upon the set of feasible deals that could be struck. . . .''

Watt RWRT ¶¶ 56, 58.[81]

The Services never sought to introduce further testimony regarding this important dispute. This is particularly striking because the Services filed a motion to strike certain portions of the CO Reply, or for leave to file supplemental testimony responsive to those itemized portions. The portions the Services identified in their motion *did not include Professor Watt's criticisms as to the inclusion of* ''*outside options*'' *in their experts' Nash modeling.* Further, after the Judges granted the Services' motion by providing them leave to file supplemental testimony—consistent with the designations in their motion—the supplemental testimonies did not address this ''outside options'' issue.

In the course of discussions among the parties and the Judges regarding remand procedures, the Judges invited the parties to produce witnesses for a hearing, at which one or more of the Services' economic expert witnesses could have addressed this ''outside options'' issue. However, the Services (and Copyright Owners) waived the opportunity to produce witnesses at a hearing. Rather, they offered, and the Judges agreed, that they would stand on their written testimonies and proceed to closing arguments by counsel.

In the closing arguments, each side argued numerous points of controversy and provided the Judges with dozens of demonstrative aids summarizing record evidence and the parties' arguments, but none of those arguments or demonstrative aids so much as mentioned this ''outside options'' dispute. Moreover, when the Judges inquired during closing arguments as to whether Services' counsel would be addressing any of the experts' ''modeling disputes,'' counsel said that they were resting on their papers. 3/8/22 Tr. 86–87 (Closing Argument). Similarly, when the Judges inquired of Copyright Owners' counsel whether he would be addressing the modeling ''dust-up'' between Professors Watt and Katz, counsel demurred, stating that although he would ''love to engage on it but . . . ''there would be too many slides. . . .'' *Id.* at 262–64.

Simply put, the Services' economic experts made an assertion regarding the need for Professor Watt to have included ''outside options'' in his Nash Bargaining Model, but Professor Watt presented authority clearly stating that such inclusions would be improper. Thus, Copyright Owners made a *prima facie* showing that in a Nash Bargaining Model, the surplus generated by the streaming surpluses acquired by the content providers would be split equally as between the sound recording licensors and musical works licensors, and that, *ceteris paribus,* an increase in the mechanical rate to provide Copyright Owners more of the surplus (per the Shapley-based results relied on by the Majority) would be essentially offset through a nearly 1:1 reduction in the sound recording rate. In response to Copyright Owners' *prima facie* case, the Services stood mute in response to the rebuttal argument claiming that their experts misapprehended the Nash modeling distinctions between ''inside options'' and ''outside options.''[82]

Accordingly, the Judges find that the Services' criticisms in this regard are insufficient to rebut Copyright Owners' *prima facie* showing that Professor Watt's Nash Bargaining Model properly

[81] Professor Marx in fact cites several of these authorities (for other points), without noting the distinction they make between the appropriate inclusion of ''inside options'' and exclusion of ''outside options'' in Nash modeling. *See id.* ¶ 59.

[82] The third economic expert for the Services, Dr. Leonard, did not utilize the ''outside option'' phraseology to describe his critiques. Rather, he first criticized Professor Watt for assuming the existence of a ''fixed surplus.'' Leonard WDRT ¶ 16. However, as discussed *supra,* that assumption came from the Majority's extrapolation from Professor Watt's hearing testimony. His explicit statement regarding the *ceteris paribus* assumption makes clear that he was not assuming a ''fixed surplus.'' Watt RWRT ¶¶ 110–11. (Again, the only ''fixed'' surplus was not ''assumed,'' but rather *quantified,* in order to establish the Majority's percent-of-revenue prong royalty rate of 15.1%.)

Dr. Leonard next claims that Professor Watt's assumption that the labels would bear virtually the entirety of an increase in the statutory rate, because they previously ''have captured almost all'' [the] surplus,'' has been contradicted by the evidence. Specifically, he refers to the 33-month period in which the Phonorecords III rates were effective (January 2018 through September 2020). Leonard WDRT ¶ 16. However, as the Judges find in this Determination, that 33-month period was marked by significant uncertainty with regard to the ultimate rates and rate structure (and the rates were being phased-in), so no findings could reliably be made based on sound recording rate changes during that period.

The remainder of Dr. Leonard's critique concerns issues that would make a fixed TCC ratio inappropriate over the rate term. The Judges agree with those criticisms as previously discussed, but they do not pertain to this narrower issue of whether the *surplus* generated by interactive streaming would be split in a manner consistent with Professor Watt's Nash Bargaining Model.

identified and valued the ''disagreement payoff.'' [83] [84]

b. Rejection of Second Rationale for Including Uncapped TCC Rate Prong

In the Determination, as noted *supra,* the Majority also justified the adoption of the uncapped TCC rate prong because it had the effect of ''import[ing] into the rate structure the protections that record companies have negotiated with services to avoid the undue diminution of revenue through the practice of revenue deferral.'' Determination at 36; *see also Johnson,* 369 F.3d at 372 (''By pegging the mechanical license royalties to an uncapped total content cost prong, the Board sought to ensure that owners of musical works copyrights were neither undercompensated relative to sound recording rightsholders, *nor harmed by the interactive streaming services' revenue deferral strategies.* . . .'') (emphasis added).

(i) Parties' More Specific Arguments

Copyright Owners likewise argue that the uncapped TCC rate structure should be ''adopted to provide protection against revenue deferment and displacement in a revenue-based rate structure.'' CO Initial Submission at 38; *see also id.* at 40 (describing uncapped TCC rate prong as ''critical backstop in a revenue-based rate structure.'').

Whereas Copyright Owners echo the Majority, the Services adopt the reasoning of the Dissent. They argue as follows:

> [A] rate structure with a capped TCC prong, like the *Phonorecords II* settlement, achieves the same goal of protecting the Copyright Owners from any potential revenue deferral through a ''structure that provides alternate rate prongs and floors, below which the royalty revenue cannot fall,'' . . . and does so *without allowing Copyright Owners to impermissibly share in the labels' complementary oligopoly power.* . . . [T]he streaming industry has twice concluded, after extensive negotiations, that the appropriate way to address any concerns regarding revenue deferral is to have a rate structure that includes a capped TCC prong. *Phono I,* 74 FR 4510; *Phono II,* 78 FR 67938.

Services' Joint Opening Brief at 62 (quoting *Dissent,* 84 FR 1990) (emphasis added).

In their Reply, Copyright Owners argue that the Majority maintained the benefits of price discrimination contained in the prior *Phonorecords II* framework, but balanced that goal with added protection against Service revenue deferral and displacement. Copyright Owners' Reply Brief on Remand at 49 (''In adopting a rate structure with [an uncapped] TCC for all service offerings, the [Majority] balanced its concerns about fostering price discrimination while also protecting against proven revenue diminution by the Services.'').

The Services, in their Reply, take note that pre-remand, Copyright Owners had strenuously objected to any yoking of the mechanical royalty rate to the sound recording rate, maintaining that, although the Copyright Owners now advocate for an uncapped TCC rate to protect against revenue displacement and diminution:

> [I]n their [pre-remand] reply proposed findings, the Copyright Owners had expressed a very different view, arguing that an uncapped TCC prong ''does nothing to protect Copyright Owners from the Services' revenue displacement and deferment'' [and] Copyright Owners have not even tried to explain away their complete about-face on this issue.

Services' Reply at 43.

(ii) Analysis and Decision Regarding Revenue Diminution or Deferral

The Judges find that the second rationale put forth to support an uncapped TCC rate does not justify the adoption of that rate prong. Several reasons support this finding.

First, there is insufficient evidence to show how the sound recording companies contractually structure their own royalty rates, which would constitute the rate base for an uncapped TCC rate for the mechanical royalty. The sound recording royalty rate, when proffered for use as a mechanical royalty rate base, is analogous to pegging the value of a foreign currency to the U.S. dollar. That is no mere benchmark. The Judges must have the benefit of sufficient record evidence to demonstrate that the pegging (or, to use the D.C. Circuit's word in *Johnson,* ''yoking'') of a statutory rate to an unregulated rate serves the statutory purposes for the rate at issue, here, the mechanical rate.

But Copyright Owners presented virtually no evidence regarding how the sound recording companies structure their interactive service royalties. Indeed, in the hearing, Dr. Eisenach acknowledged that the ''relative value of sound recording [to] musical works licenses may depend on a variety of factors,'' but he intentionally eschewed unnecessary ''assumptions, complexities and uncertainties associated with theoretical debates'' as to why the particular market ratios existed. *See* Determination at 44. Indeed, the Majority found fault with Dr. Eisenach's willful ignoring of these issues, agreeing with the Services' criticism that Dr. Eisenach's ''use of sound recording royalties paid by interactive services embeds within his analysis the inefficiently high rates that arise in that unregulated market through the complementary oligopoly structure of the sound recording industry and the Cournot Complements inefficiencies that arise in such a market. *See* Determination at 47. The uncapped TCC rate advocated now by Copyright Owners suffers from the same affliction.

The only reference to such sound recording rate formulae in Copyright Owners' voluminous PFF after the hearing was its statement that the effective revenue calculations in two of the Major labels' agreements with the

---

[83] To be clear, the Judges' ruling is narrow; they make no finding beyond crediting this *prima facie* showing and the failure of the Services to rebut sufficiently that showing. It might be the case that the existence and definition of ''outside options''—and their relationship to ''inside options''—have other implications *vis-a-vis* a Nash Bargaining Model applied in the context of a rate setting proceeding. However, the Judges may not introduce and rely on analytical approaches not developed by the parties. *See Johnson,* 969 F.3d at 381 (the Judges must not ''procedurally blindside[ ]'' the parties with an ''approach . . . first presented in the determination and not advanced by any participant.''). *See generally* P. Wald, *Limits on the Use of Economic Analysis in Judicial Decisionmaking,* 50 J. L. & Contemporary Problems 225, 228 (1987) ('' judicial analysis, economic or otherwise, takes place only in the context of lawsuits between two or more parties imposes a practical constraint on the judge's ability to use economic analysis.'').

[84] Professor Katz also criticizes Professor Watt's assumption that ''a label's non-content costs are proportional to licensing revenues.'' Katz WDRT ¶ 22. More particularly, Professor Katz claims that this is not ''plausible'' because ''the royalty rate does not directly affect the sound recording copyright owners' non-content cost.'' *Id.* ¶ 133. The effect of eliminating this assumption, according to Professor Katz, is to reduce the seesaw effect in Professor Watt's model of [REDACTED] slightly further away from a 1:1 ratio, to .92. *Id.*

In rebuttal, Professor Watt says this criticism is inconsistent with Professor Katz's own analysis, because the latter also ''sets the cost equal to a fraction of revenue. . . .'' Watt ¶ 82 n.31 (referring apparently to a comparison of Katz WDRT ¶ 129 with *id.* ¶ 133). Professor Watt concludes that not only does ''[Professor] Katz's own model contain the same feature that he is critical of in my model,'' it is also ''not a flaw in the bargaining model.'' Watt ¶ 82. As a substantive matter, Professor Watt defends the assumption that non-content costs would rise with royalty income, because ''[g]reater revenue should be directly equated with a larger scale of business'' and ''the additional royalty income would have to be managed (*i.e.,* distributed to those who need to be paid from it, such as artists), implying higher administration costs.'' *Id.* ¶ 79.

The Judges find that the common use by both experts of this assumed proportionality of a label's non-content costs to licensing revenues alone blunts Professor Katz's criticism of Professor Watt's modeling. Further, Professor Watt reasonably posits that higher revenue would imply a larger scale of business with associated general cost increases. (But the Judges do no agree that it was reasonable for Professor Watt to assume that distribution and administrative costs in particular would increase merely because of an increase in royalty rates; simply paying more money, *ceteris paribus,* is not self-evidently associated with an increase in costs.)

services was based on [REDACTED]. *See* Copyright Owners' PFF ¶¶ 72, 91 (cited post-remand at Copyright Owners' Motion for Reconsideration or Clarification at 25, n.14). On remand, the Services have provided a further summary of the types of [REDACTED]. *See* White WDRT ¶¶ 6–7, 14–15, 20, 24–26, 28–29 ([REDACTED]); Bonavia WDRT ¶¶ 15–17 ([REDACTED]); Mirchandani WDRT ¶¶ 16, 21–24 ([REDACTED]). Clearly, the levels of [REDACTED] would have to be weighed and the impact of complementary oligopoly power would need to be identified in order to adjust the rate prongs to account for that power. But the record is devoid of such details.

Second, compounding this problem, because the uncapped TCC rate is embedded in a ''greater-of'' rate structure, the labels can exploit their complementary oligopoly power when creating *the switching points that toggle royalty payments between and among rate prongs.* As the Judges have explained previously, in declining to import a ''greater of'' structure from the unregulated interactive market, this structure[it] is based on ''agreements [which] were all negotiated in a market characterized by the lack of effective competition, and that *the lack of competition would affect the structure* as well as the level of rates.'' *SDARS III,* 83 FR 65210, 65228 (Dec. 19, 2018) (emphasis added). Further, the Judges held therein that the ''advantageous'' nature of a ''greater-of'' structure to sound recording licensors ''may well represent an example of what licensors can and would obtain when they exploit their ''must have'' status for a special competitive advantage.'' *Id.; see also* Dissent at 47 (in absence of testimony explaining how greater-of structure is consonant with effective competition, use by licensor suggests a game of ''heads I win tails you lose.).''

Thus, there is insufficient evidence or testimony that would permit the Judges to make any adjustment for the complementary oligopoly power that may be built into each prong of the sound recording royalty rate structures.

Third, as the Services note, Copyright Owners pre-remand, opposed the *identical rate structure*—consisting of a percent-of-revenue prong and an uncapped TCC prong—before Copyright Owners were in favor of it, post-remand.[85] Although Copyright Owners took a 180-degree turn on this issue, they never stated they were wrong to oppose it previously. Indeed, the *Dissent* relied upon Copyright Owners' strenuous objection to an uncapped TCC rate, quoting it verbatim:

> Copyright Owners rightly note that they obtain no legal protection under such a TCC prong. In making this argument regarding displacement and deferral of revenue, Copyright Owners lay out comprehensively *all the problems* inherent in an uncapped TCC prong set in a greater of rate structure, such as adopted in the majority opinion:
>
> The notion that [the] TCC prong will provide protection from revenue gaming, deferral and displacement, and other revenue prong problems is unsupported and speculative. *Relying on just the TCC to solve those admitted problems leaves the Copyright Owners' protection from such problems entirely outside the statute.* . . . the per-user rates in the label deals are what protects the Copyright Owners from price-slashing by the services. *What is left unanswered . . .is . . . how can it be reasonable to ask the Judges to set a rate that does not itself provide for a fair return . . . but simply puts the Copyright Owners' fair return in the hands of the labels to negotiate terms that will adequately protect the publishers and songwriters as well? The labels do not have a mandate to ensure that the Services provide a fair return to the Copyright Owners, and cannot be directed to ensure such.* Indeed, labels may not have the same incentives as songwriters and publishers to negotiate such protections in their deals. To wit, a label could make an agreement with a service that includes only a revenue prong in exchange for equity or some other consideration that it may never include in the applicable revenue subject to the TCC. . . . [W]hat if Google purchased one or more record labels and did not have to pay *any* label royalties? Or what if Spotify chose to avail itself of the compulsory license to create its own master recordings embodying musical works—which it is already doing . . . and chose to compensate itself for its use of the master recordings on a sweetheart basis (or not at all)? Or what if one or more labels decided to enter the interactive streaming market and did not have to pay themselves royalties? In each case, the Copyright Owners' protection—the protection that the Services admit the Copyright Owners need and is provided by the TCC—would be gone.

Dissent at 5–6 (quoting Copyright Owners' RPFF-Google at 39–41) (emphasis added). To make the identical point post-remand, *but from the Services' perspective,* Pandora's economic expert witness, Professor Katz, simply utilizes Copyright Owners' verbatim language (bolded above), but substitutes the word ''Services'' for ''Copyright Owners'' (and ''income'' for ''return'') to highlight how reliance on the sound recording royalty rate is improper:

> What is left unanswered . . . is . . . how can it be reasonable to ask the Judges to set a rate that does not itself provide for a fair income . . . but simply puts the Services' fair income in the hands of the labels to negotiate terms that will adequately protect the Services as well? The labels do not have a mandate to ensure that the Copyright Owners provide a fair income to the Services, and cannot be directed to ensure such.

Katz WDRT ¶ 71.

The Judges find this argument persuasive, both in its own right and in the fact that it has been advanced by Copyright Owners and the Services alike.[86]

Fourth, the Judges note that the Majority did not find that revenue diminution, via displacement, deferral, or otherwise was pervasive, as Copyright Owners aver. *Compare* CO Initial Submission at 40 (''The record overwhelmingly established that the percent of revenue prong *often* results in musical works royalties that are too low . . . drive[n] [by] . . . . revenue deferral [and] revenue displacement'') *with* Determination at 21 (''The Judges agree that there is *no support for any sweeping inference that cross-selling has diminished the revenue base.*'') (emphasis added) *and* 36 (''The Judges find that the present record indicates that the Services do seek to engage *to some extent* in revenue deferral in order to promote their long-term growth strategy.'') (emphasis added).

Given that the Majority found revenue diminution through displacement and/or deferral exists only ''to some extent'' and is not a ''sweeping'' issue, the Judges on remand find that the uncapped TCC rate structure creates the potential for unbalanced harm. As noted *supra,* the only protection against runaway mechanical rates, the seesaw hypothesis, cannot justify yoking the mechanical rate to a fixed ratio with the

[85] When Copyright Owners opposed the concept of an uncapped TCC rate prong in a greater-of structure, the proposed uncapped TCC rate was Google's 15% (and its proposed percent-of-revenue rate was 10.5%). Determination at 13. But after the Majority set the uncapped TCC rate at 26.2%—a *75% increase over the 15% TCC rate*—Copyright Owners became zealous converts to the concept of an uncapped TCC rate proper.

[86] At Closing Arguments on remand, Judge Strickler queried counsel for Copyright Owners regarding their prior *rejection of an uncapped TCC prong* within a ''greater-of'' rate structure. Counsel's response was that an uncapped TCC doesn't provide *enough* protection against revenue diminution: ''It provides more than the *Phonorecords II* rates, but not as much as we want,'' although ''still better than'' the negotiated *Phonorecords II* approach. 3/8/22 Tr. 240–41(Closing Argument). But Copyright Owners have neither distinguished nor disavowed their persuasive legal point quoted in the text above, to wit that an uncapped TCC rate would be unreasonable if the ''protection'' it affords lies ''entirely outside the statute.'' Whether the ''protection'' relates to Copyright Owners' concern over revenue diminution or to the Services' concern over uncapped mechanical rates, the legal defect is the same—the unreasonableness of leaving the purported protection ''entirely outside the statute.''

unregulated sound recording rate.[87] By contrast, and as discussed *infra,* the *Phonorecords II*-based benchmark approach, despite its own imperfections, is superior in this regard, because its series of alternate rate prongs and floors represents a negotiated compromise (negotiated by trade associations with countervailing power) between the potential for revenue diminution that would harm Copyright Owners, on the one hand, and the potential for runaway mechanical rates (yoked to the sound recording companies' complementary oligopoly power) that would injure the Services, on the other.

(iii) Distinction Between the ''Reasonable'' Rate Statutory Standard and the Factor (D) Objective To Minimize ''Disruptive Impact''

The Judges next consider an issue emphasized by Copyright Owners: whether the Services have demonstrated that the uncapped TCC rate prong would cause a ''disruptive impact'' as set forth in Factor (D) of section 801(b)(1).[88]

Section 801(b)(1) provides that one of the competing priorities of the Judges in setting the mechanical rate is ''[t]o minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.'' 17 U.S.C. 801(b)(1)(D). In *Johnson,* the D.C. Circuit did not identify any argument by the Services that was predicated on a claim that this statutory form of ''disruption'' had occurred, or was likely to occur, as a consequence of the Majority's rates and rate structure. Additionally, the D.C. Circuit did not ground its decision to vacate and remand the Judges' uncapped TCC rate and rate structure rulings based on the potential that these rulings would be disruptive to the Services, let alone would cause a statutory ''disruptive impact.''

After the D.C. Circuit's ruling, an argument regarding ''disruption'' was first made by Copyright Owners, not the Services. Copyright Owners argued that the vacated rates should nonetheless be maintained as interim rates, during the pendency of the remand proceeding. Motion of Copyright Owners to Adopt Interim Rates and Terms Pending the Remand Determination, *passim* (Nov. 2, 2020). Copyright Owners argued that reverting to the rates that existed before the Determination would constitute a ''disruption'' and self-servingly predicted that the Services would attempt to argue that the uncapped TCC rate and rate structure were themselves ''disruptive.'' Copyright Owners opined that such an argument would be a ''hollow exercise.'' *Id.* at 12, n.5; *see id.* at 2–3, 9 (claiming absence of disruption from uncapped TCC rate and structure despite absence of such argument by Services).

In response to that motion, the Services did *not* assert that the Majority's uncapped TCC rates and rate structure would constitute disruption or have disruptive impact, whether under statutory Factor D or otherwise. *See* Services' Opposition to the National Music Publishers' Association (NMPA) and Nashville Songwriters Association International's (NSAI) ''Interim Rates Motion'' (Nov. 18, 2020). In reply, Copyright Owners shifted from anticipating a ''disruption'' argument to misinterpreting *Johnson,* asserting, *without citation:* ''With respect to the TCC prong, *the remand directs only that services be given opportunity to offer evidence of disruption* from rates that have now been in effect for three years without any disruption.'' Copyright Owners' Reply in Support of Motion to Adopt Interim Rates at 7–8 (Nov. 25, 2020) (emphasis added).

On December 10, 2020, the Services submitted to the Judges their Proposal for Remand Proceedings, in which they made *no argument* that the uncapped TCC rates and rate structure (or, for that matter, any aspect of the Determination) would cause disruption or have a disruptive impact, whether under statutory Factor D or otherwise. By contrast, in their remand proposal, Copyright Owners reference twelve times that, for the Judges to reject the uncapped TCC rates and structure, the Services must show the presence of ''disruption'' arising from the Majority's uncapped TCC rates and structure. Copyright Owners made this argument notwithstanding that the ''reasonable'' rate standard is separate from the ''disruptive impact'' issue, which is an itemized objective (one of four) to be considered as an adjustment to what would otherwise constitute a ''reasonable'' rate. *See* Proposal of Copyright Owners for the Conduct and Schedule of the Resolution of the Remand at 2, 7–8, 22–24 (Dec. 10, 2020).[89]

In the CO Initial Submission, Copyright Owners assert, *without citation to any of the Services' filings:* ''The Services contend that, had they been given such an opportunity [at the hearing], they supposedly could have established that an ''uncapped'' TCC *is disruptive* because the market for sound recordings is not effectively competitive.'' *Id.* at 5. Copyright Owners further aver that the Services must ''provide evidence, consistent with the [CRB Judges'] well-established disruption standard, that because of the labels' supposed market power, the TCC structure adopted by the Board has *actually, substantially, immediately* and *irreversibly* threatened the continued viability of the interactive streaming industry'' in a manner that will ''threaten the viability of the music delivery service currently offered to consumes under [the] license.'' *Id.* at 7, 56 (citations omitted).

Copyright Owners then assert that *the Services* bear the burden of proving disruption under Factor D from the

[87] Even Google, the party that, post-hearing, broached in its PFF the idea of an uncapped TCC prong, candidly identified the risk arising from an uncapped TCC: ''Having no cap on TCC . . . leaves the services exposed to the labels' market power, and *would warrant close watching if adopted.* . . .'' Google PFF ¶ 73 (emphasis added). But as the Dissent noted, there is no satisfactory way to monitor an uncapped TCC rate prong: ''*Who* would do the ''watching''? *When* would such watching occur? Congress directed the Judges to be the ''watchers,'' and Congress instructed that the ''watching'' should occur only through rate proceedings. . . .'' Dissent at 4 (emphasis in original).

[88] Separate and apart from the ''disruptive impact'' argument made by Copyright Owners, there is no need to consider how this prong would relate to Factor D, because the Judges find the uncapped TCC rate prong with the (phased-in) 26.2% rate to be ''unreasonable.'' If it were necessary to separately consider the four itemized factors, the Judges would confirm that Factor A is satisfied, because, as the D.C. Circuit found, the Majority reasonably found that rates should increase from the *Phonorecords II* period, and the 15.1% revenue rate represents a 44% increase. The Judges would also find Factors B and C to be satisfied without a separate uncapped TCC rate prong. The reason is that, under the section 801(b)(1) standard, the ''reasonableness'' standard filters out more statutorily infirm rates than the fairness objectives. By contrast, when a rate does satisfy the ''reasonableness'' standards under section 801(b)(1), the Judges must also consider the rate through the finer ''fairness'' filter. *Cf.* Determination at 68 & n.120 (distinguishing between: (1) a Shapley Value analysis that filters out *unreasonable* rates by reducing licensors' ability to *abuse* market power by threatening or exercising their refusal to license (''hold-out or ''hold-up'' power); and (2) a Shapley Value analysis that further filters out *unfair* rates by going beyond eliminating *abuse* of market power to also make a ''market power *adjustment*'' explicitly to address Factors B and C). Finally, as the text *infra,* explains, the Judges also find no basis under Factor D to alter their analysis.

[89] When Copyright Owners do address an argument that the Services *actually* made (on appeal) regarding the uncapped TCC rates and structure, they note *not* that the Services had made a ''disruption'' argument, but rather that ''the Services appealed for the reversal of the TCC prong as *substantively unreasonable.*'' *Id.* at 22 (emphasis added). But Copyright Owners then assert, coyly, that ''this request was not granted by the Circuit'' (citing *Johnson,* 969 F.3d at 383), when in actuality, the D.C. Circuit did not rule against the Services on this point, but rather stated only that it was not addressing substantive arguments made by the Services ''[b]ecause we have vacated the rate structure devised by the [Judges] for lack of notice. . . .'' *Id.*

uncapped rates and rate structure embodied within the rate proposal (even though only Copyright Owners are pursuing this approach on remand). Further, Copyright Owners assert that the Services' objection to the uncapped rates and rate structure must fail unless they can show that such a disruptive impact occurred during the 33-month period (from January 2018 through September 2020) when the *Phonorecords III* rates were in effect. *Id.* at 56.

In their initial substantive remand briefing, the Services once more *did not* assert that the Determination's uncapped TCC rates and structure would cause disruption pursuant to Factor D of section 801(b)(1), or even assert a non-statutory disruption arising therefrom. Rather, the Services directly attacked this rate approach as inconsistent with the statutory ''reasonable'' rate requirement, maintaining that ''[t]ying the mechanical rates directly to the complementary oligopoly sound recording rates in the manner of the Majority's uncapped TCC rates and rate structure is plainly *unreasonable.*'' Services' Joint Opening Brief at 46 (Apr. 1, 2021) (emphasis added). The Services also asserted that the uncapped TCC rates and rate structure are ''unreasonable'' because they do not promote the statutory objectives of Factor B (''fair income'' to the copyright user) and Factor C (reflecting the copyright users' itemized role in making the musical works ''available to the public.''). *Id. a*t 45, 50–51, 55.[90]

In the Services' Reply, the Services attack Copyright Owners' ''singular focus on the disruptive impact of the uncapped TCC prong.'' Services' Reply at 35. In particular, the Services argue:

1. they have maintained and demonstrated that Copyright Owners' uncapped rates and rate structure are ''*unreasonable,*'' separate and apart from demonstrating that this uncapped approach also fails to satisfy the four itemized statutory factors;

2. the burden of proof with regard to Factor D disruption lies with Copyright Owners, because they are the ones who are advocating for the uncapped TCC rates and rate structure;

3. the presence of Factor D disruption, *vel non,* is not dispositive, because section 801(b)(1) and *Johnson* require the Judges to apply the entirety of the statutory standard (which consists of the ''reasonable rate'' requirement and consideration of all four itemized Factors; and

4. the ''full extent of the disruption to the Services from an uncapped TCC prong was never tested in the marketplace [because] [t]he Majority set escalating rates, and the [ ] Determination was vacated before the significant hike in rate levels was fully implemented.''

Id. at 35–36.

In their Remand Reply, with regard to the issue of ''disruption,'' Copyright Owners assert:

1. The Services have ''completely abandoned'' their appellate argument asserting disruption, and admit to having no evidence that the Board's adopted rate structure has any materially disruptive impact. Copyright Owners' Reply Brief on Remand at 5 (July 2, 2021).

2. The Services have not even attempted to show any Factor D related effect or other disruption from the adopted rates and structure. *Id.* at 15, n.9.

3. The failure of the Services to provide evidence of disruption or to pursue the argument that disruption had occurred was inconsistent with their prior assertions that the uncapped TCC rates and rate structure created ''a real risk of economic harm'' and the ''impact'' or ''harm' that the uncapped approach generated. *Id.* at 35.

4. Each of the Services, in response to Copyright Owners' discovery requests, acknowledges that it was not offering new evidence regarding the ''impact'' of the Phonorecords III rates and rate structure. *Id.* at 36–38.

5. The Services did not merely suffer no disruption, they experienced unprecedented growth and profit under the uncapped TCC rate prong. *Id.* at 45.[91]

6. The Services on remand have attempted to replace their prior ''disruption'' assertion with a claim of ''unreasonableness.'' *Id.* at 50, n.36.

(iv) Analysis and Decision Regarding ''Disruption'' Issue

The full Factor D ''disruption'' standard, as set forth by the Judges, states that an adjustment is warranted by Factor D if the rate analysis made by the Judges would otherwise:

> directly produce[ ] an adverse impact that is substantial, immediate and in the short-run because there is insufficient time for either [party] to adequately adapt to the changed circumstance produced by the rate change and, as a consequence, such adverse impacts threaten the viability of the music delivery service currently offered to consumers under this license.

Determination at 87. Factor D is not applicable, particularly as proposed by Copyright Owners. Thus, the Judges reject Copyright Owners' assertion that the uncapped TCC prong should be adopted because of the absence of evidence of ''disruptive impact'' proffered by the Services. This rejection is based on several findings of fact and conclusions of law.

First, the issue of ''disruptive impact'' pertains here to the proposal advanced by Copyright Owners, not the Services. Thus, the burden of proving that this uncapped TCC rate prong proposal satisfies the elements, including Factor D, of the section 801(b)(1) standard in a sufficient manner lies with Copyright Owners, not the Services. *See* 5 U.S.C. 556(d). Accordingly, the fact that the Services did not affirmatively assert an argument of ''disruptive impact'' is of no consequence. Moreover, as the review of the Services' filing makes clear, *the Services never abandoned that argument, because they never made it.*

[90] The Services' only references to the concept of ''disruption'' relate to their argument that their own benchmark premised on the prior *Phonorecords II* rate structure and rates would not be disruptive. *Id.* at 4, 24, 29–30. That argument is properly made by Services in this context, because a party seeking to persuade the Judges to adopt its proposal bears the burden of proof, pursuant to section 556(d) of the APA, regarding the consonance of its proposal with all the standards contained in section 801(b)(1). The Judges do note that one of the Services' expert witnesses, Professor Katz, found the Majority's attempt to avoid disruption by phasing-in the new rate provisions insufficient ''to mitigate the risk of short-term market disruption''. That testimony does not constitute a direct reliance by the Services on the statutory disruption objective in Factor D, but rather emphasizes the Majority's own concern with such disruption and the witness's concern that the phase-in did not prevent the disruptive effect that the Majority itself had contemplated. In any event, Professor Katz, as an economist, cannot make a *legal* argument regarding the applicability of the Factor D objective, the Services did not rely on his testimony in that regard and, as noted, the Services made no legal Factor D ''disruption'' argument on remand. Thus, the Judges do not give any weight to Professor Katz's testimony in this regard.

[91] The Judges allowed the Services to make a supplemental filing in response to Copyright Owners' remand reply, because those papers contained direct as well as reply materials. In their supplemental filing, the Services argued that they had not ''thrived,'' that the financial data on which Copyright Owners' relied did not isolate revenue attributable to interactive services, was not limited to U.S. generated revenue, and used changes in the market capitalization of Amazon and Alphabet (Google's parent corporation) as a proxy for the economic fortunes of their interactive services. Services' Joint Supplemental Brief at 13–15. As explained *supra,* the Judges find the permanency of the *Phonorecords III* rate structure during the 33-month period from January 2018 through September 2020 to have been in question, pending the appeal that resulted in the vacating and remanding of the Determination and the reversion back to the *Phonorecords II* rates and rate structure. Given that uncertainty, the Judges find it wholly inappropriate to draw any conclusions from the change or stasis in the sound recording rates or the total royalty payments by a Service over that period.

Rather, they have consistently argued that the uncapped TCC rate prong was *unreasonable,* not that it was statutorily ''disruptive'' as that standard has been applied by the Judges.

Second, Copyright Owners did not demonstrate with sufficient evidence or testimony that the uncapped TCC rate would be consistent with Factor D. To be clear, by this the Judges do not mean that Copyright Owners were obliged to prove a negative. Rather, they needed to prove, and indeed attempted to do so, that it was unlikely that their rates would cause a ''disruptive impact.''

In this regard, as an *empirical* matter, Copyright Owners proffered the testimony of an economic expert witness, Dr. Eisenach, who opined that the Services' [REDACTED]. Eisenach WRT ¶¶ 12–41 ([REDACTED]) CO Reply at 40–41. However, as the Judges discuss *supra,* that period reflected ''33 months of uncertainty,'' during which no one could predict the final mechanical rate and structure that would be adopted by the Judges and/or the D.C. Circuit after appeals. Accordingly, that factual evidence is unpersuasive.

Further, as a *theoretical* matter, Copyright Owners rely on Professor Watt's testimony regarding the ''seesaw'' effect. In that regard, and as discussed *supra,* the Majority took comfort in what it understood to be Professor Watt's ''prediction'' that increases in mechanical royalties would be offset almost dollar-for-dollar by reductions in the sound recording royalty. However, as also discussed *supra,* Professor Watt has now clarified on remand that he never made such a ''prediction,'' and that his testimony regarding the so-called ''seesaw'' was limited to shifts in the share of the surplus to Copyright Owners and from sound recording companies as a consequence of an increase in the mechanical rate, holding all other factors unchanged (the *ceteris paribus* assumption).

Moreover, Professor Watt further explained that many other factors would likely impact the sound recording rate together with an increase in the mechanical rate, including ''a measure of oligopolistic interaction, different timings of different rate bargains, and the actual values of outside options.'' Watt RWRT ¶ 118. Professor Watt candidly acknowledged that he has not modeled these independent variables, and he further notes that the data may not exist to allow for such modeling. *Id.* But the inability to model the impact of independent variables does not mean that their potential to cause disruption can be ignored.

In particular, the purpose of the ''seesaw'' contention was that it prevented economic harm to the Services in connection with a rise in the mechanical rate. Although not of Professor Watt's design, that connection is intentionally built into the Majority's uncapped TCC rate. *See* Determination at 35 (''Incorporating an uncapped TCC metric into the rate structure permits the Judges to influence that ratio directly.'') But the ''measure of oligopolistic interaction'' referenced by Professor Watt was the very concern expressed by the Dissent, which cautioned that there was no evidence that the sound recording companies would be compelled to maintain the same industry structure and accept the loss of substantial royalty income. *See* Dissent at 4 (''[T]he record companies may decide to keep their rates high despite the increase in mechanical rates, or decide it is in their interest to avoid a reduction in royalty revenue by creating a completely different paradigm for streaming, by which the record companies move the streaming service in-house and effectively destroy the existing services.'').[92]

Also, the ''different timings of different rate bargains,'' another independent variable identified in Professor Watt's remand testimony, was an issue raised to him at the hearing by Judge Strickler. Professor Watt candidly agreed that the Judge was ''absolutely correct'' that there is a ''risk, then, of *disrupting the market* by having *a total royalty* that's greater than what is indicated by your Shapley testimony, simply because of *the disparity of times* in which the rates are . . . implemented.'' 3/27/17 Tr. 3091–92 (Watt) (emphasis added). However, this *admitted risk of disruption* was not addressed by sufficient record evidence.[93]

Third, disruption in the narrow sense of Factor D as applied by the Judges previously is not relevant to the present problem. An increase in total royalties is not a short-run immediate issue, but rather an ever-present possibility that the seesaw analysis does not sufficiently address. Rather, the uncapped nature of the TCC rate prong renders it unreasonable rather than narrowly disruptive.

Balancing the foregoing considerations, the Judges find that Copyright Owners' disruption-based argument lacks merit.

6. Conclusion Regarding Uncapped TCC Rate Prong

For the foregoing reasons, the Judges decline to adopt the uncapped TCC rate tier proposed on remand by Copyright Owners.

III. Rejection of Phonorecords II Settlement as a Benchmark

A. D.C. Circuit Ruling

Each of the Streaming Services advanced somewhat different rate plans, but all four proffered a benchmark that ''broadly sought to maintain the *Phonorecords II* rate structure,'' while lowering or eliminating the mechanical floor.[94] *Johnson,* 969 F.3d at 371. With regard to the Services' proposed benchmark based on the *Phonorecords II* rates, rate structure, and terms (hereinafter, PR II-based benchmark),[95] the Judges are guided by several rulings in *Johnson.*

In particular, the D.C. Circuit found the Judges' treatment of the PR II-based benchmark to be ''muddled.'' *Johnson,* 969 F.3d at 387. The D.C. Circuit emphasized that the Judges ''failed to

[92] The Dissent noted that this risk was speculative in nature because there was no evidence proffered at the hearing regarding the reactions of the sound recording companies. But no such evidence was forthcoming in the remand proceeding either, and, as noted *supra,* the burden of proof in this regard falls on Copyright owners as the proponents of the uncapped TCC rate prong. In fact, because the major publishers who are members of the NMPA (a constituent of Copyright Owners) are part of the same corporate structure as the sound recording Majors, the burden of producing evidence would fall on Copyright Owners as well regarding the sound recording companies' reaction to the ''seesaw'' effect.

[93] As noted *supra,* Copyright Owners did not call any sound recording industry witnesses, or provide evidence from sound recording companies, indicating that labels would even be amenable to considering such renegotiated rate reductions. Instead, at the hearing, Professor Watt merely *speculated* that the sound recording companies might renegotiate their rates downward to reflect the seesaw effect when mechanical rates increased. Tr.3/27/17 3093–94 (Watt) (''I'm not able to comment on how, you know, how possible it is to take an agreement that's in force and then change it.''). Not only was that mere speculation, it was provided by an economist who is neither a music industry executive nor an attorney, and the witness did not testify that he had spoken to anyone who would have industry knowledge regarding whether a label would even be amenable to considering such rate reductions.

[94] The ''mechanical floor'' refers to an alternative rate calculation. ''If the All-In Rate calculation results in a dollar royalty payment below the stated Mechanical Floor rate, then that floor rate would bind.'' Determination at 26 n.59.

[95] *See* Services' Joint Rate Proposal (in Services' Joint Written Direct Remand Submission at Tab C) (Apr. 1, 2021). According to the Services, their rate proposal in this proceeding is meant to ''update the *Phonorecords II* terms to include terms of the Determination, as amended during the implementation of the Music Modernization Act, that were upheld in *Johnson* . . . including terms relating to student and family plan products, or that were not challenged by either the Copyright Owners or the Services.'' *Id.* at 2. The Services include in their Joint Rate Proposal a chart summarizing the proposed rates for their offerings. That chart is attached as an Addendum to this Initial Ruling.

explain'' their rejection of the PR II-based benchmark. *Id.* at 367. *See also id.* at 376 (Judges ''failed to ''reasonably explain'' rejection).

In the appeal, Copyright Owners attempted to defend the Judges' reliance on the absence of evidence of the settling parties' subjective intent in reaching the *Phonorecords II* terms. *Id.* at 387. The D.C. Circuit dismissed Copyright Owners' *post hoc* attempt, noting that ''nowhere does the [ ] Determination explain why evidence of the parties' *subjective intent* in negotiating the *Phonorecords II* settlement is a prerequisite to its adoption as a benchmark.'' *Id.* at 387 (emphasis added).

The D.C. Circuit also criticized the attempt by the Judges' appellate counsel to ''change tack'' and argue that their rejection of the PR II-based benchmark was reasonable because: (1) evidence showed that the prior rates had been set far ''too low'' and (2) it was ''outdated''. The D.C. Circuit found that those arguments also were ''nowhere to be found in the [ ] Determination's discussion'' of the appropriateness of the *Phonorecords II* settlement as a potential benchmark. *Id.* at 387 (emphasis added).[96] In the end, the D.C. Circuit agreed with the Streaming Services that, *inter alia,* the Judges failed to reasonably explain their rejection of the benchmark and, for all of the reasons cited, vacated and remanded the adopted rate structure and percentages for further proceedings. *Id.* at 381.

B. Remand Procedure Regarding the PR II-Based Benchmark

On December 15, 2020, subsequent to the D.C. Circuit's decision, the Judges entered an Order Regarding Proceedings on Remand, in which the Judges stated:

> The Judges accept the parties' proposals to resolve the issues concerning the use of the Phonorecords II settlement as a benchmark. . . .
>
> . . .
>
> The Services and Copyright Owners also agree that the Judges should resolve this issue based on the existing record, after receiving two rounds of additional briefing from the parties.

Remand Order at 1–2.

Based on the ruling in *Johnson* the Judges reject Copyright Owners' position that they need not engage in a full analysis of the issue. The Judges conclude that they must engage in, and fully articulate, a reasoned analysis that adequately addresses ''*the issues concerning the use of the Phonorecords II settlement as a benchmark.*'' *Id.* (emphasis added). If the Judges determine that the Majority properly rejected the Services' proposed use of the PR II-based benchmark, the rejected portions will play no part in the Judges' remand ruling. On the other hand, if the Judges find, after engaging in that analysis, that the PR II-based benchmark was not properly rejected then, as a matter of law and logic, the Judges must weigh the Services' PR II-based benchmark for application, in whole or in part.

The Judges reject Copyright Owners' reading of *Johnson* as holding that the Judges cannot fully consider the PR II-based benchmark on remand. Copyright Owners argue that the D.C. Circuit ''did not suggest the [Judges] substantively erred'' in rejecting that benchmark, or that they ''needed to reconsider [their] decision,'' but had ''merely remanded for a 'reasoned analysis' . . . as to why it did so.'' CO Initial Submission at 10; *see also* Copyright Owners' Reply Remand Brief at 7–8. Because *Johnson* ruled that the Majority's reasoning was muddled, indiscernible, unexplained and lacking in reason, the D.C. Circuit obviously neither accepted nor rejected the Majority's disregard for the PR II-based benchmark—thus requiring the CRB Judges to take a comprehensive look at that benchmark. In this regard, the Judges agree with the Services that, pursuant to apposite case law, if the outcome of the remand as to this issue was preordained pending the further ''reasoned analysis,'' the D.C. Circuit would have expressed a desire simply to remand *without vacating* as to this issue. Services' Joint Remand Reply Brief at 7–8 (citing *Allied-Signal, Inc.* v. *NRC,* 988 F.2d 146, 150–51 (D.C. Cir. 1993) (''The decision whether to vacate depends on the seriousness of the order's deficiencies (and thus the extent of doubt whether the agency chose correctly) and the disruptive consequences of an interim change that may itself be changed.'')).[97]

Because *Johnson* held that the Majority's reasoning was muddled, indiscernible, unexplained, and lacking in reason, the D.C. Circuit obviously neither accepted nor rejected the Majority's disregard for the PR II-based benchmark. Thus, the Judges take a comprehensive look at that benchmark's rates and rate structure to evaluate its usefulness in this proceeding.

Relatedly, the Judges also reject Copyright Owners' assertion that the Judges can only consider on remand the *Phonorecords II rates,* and cannot consider on remand the relative strengths and weaknesses of the *structure* in which those rates are embedded. *See* Copyright Owners' Reply Brief on Remand at 14. This distinction is impractical and unworkable. If the (non-''headline'' rates[98]) themselves can be reviewed and found acceptable (as they are *infra*) into what structure would they be placed? There are multiple provisions in the *Phonorecords II* rate structure providing for different rates, designed to balance (1) the ability of services to attract consumers with a low Willingness-to-Pay and/or a low Ability-to-Pay (the price discriminatory and differentiated features[99]) with (2) the revenue diminution protections for which Copyright Owners had successfully negotiated. Moreover, the D.C. Circuit has vacated the Determination, and in doing so did not make any rulings critical of the rate structure in the *Phonorecords II*-based benchmark that would suggest the cramped review advocated by Copyright Owners. Indeed, the D.C. Circuit explicitly stated, *without distinguishing between rates and structure,* that it ''agree[s] with the Streaming Services that the [Judges] . . . failed to reasonably explain [their] rejection of the Phonorecords II settlement as a benchmark . . .'' *See Johnson,* 969 F.3d at 376; *see also id.* at 389 (issues relating to ''rates'' and ''rate structure'' are ''intertwined'').

Further, the Judges emphasize that the rate structure of the PR II-based benchmark provides protection *sought by Copyright Owners* against revenue diminution by the Services—*protection they would otherwise lose*—because in this Initial Ruling the Judges are not adopting the vacated uncapped TCC prong for which Copyright Owners are now advocating, and which they claim

[96] In the present remand ruling, the Judges do not rely on their appellate counsel's *ad hoc* arguments that the D.C. Circuit found to be absent from the Determination. The Judges note though (as discussed in more detail *infra*) that in this Initial Ruling they are increasing the 10.5% royalty rate in the *Phonorecords II* rates by 44% to 15.1% (as phased-in by the Determination), thus addressing appellate counsel's *ad hoc* assertion that the *Phonorecords II* rates were ''too low.'' Similarly, as discussed *infra,* the Judges address the notion that the PR II-based benchmark is outdated.

[97] However, the Judges note that section 803(d)(3) may require the D.C. Circuit to remand rather than reverse when the issue concerns more than rates alone. Thus, the statute appears to require a remand in order for the Judges to apply their statutory authority and expertise *in toto.*

[98] As explained elsewhere in this Initial Ruling, the Judges are increasing the ''headline'' rate from 10.5% to 15.1%.

[99] Specifically, the PR II-based benchmark would incorporate the price discriminatory features for product differentiation as between: (1) subscription vs. ad-supported services; (2) portable and non-portable services; and (3) unbundled vs. bundled services. *See* Determination at 10; Dissent at 26. The third category—bundled vs. unbundled—is discussed *infra* in the context of the Bundled Revenue definition.

would have protected them in that regard. *Cf.* CO Additional Submission at 4–6 (acknowledging PR II-based benchmark provided some TCC provisions, allowing for protection against revenue diminution). Thus, the Judges' remand rulings on the PR II-based benchmark rates and on the uncapped TCC rate prong are inextricably interlaced. *See Johnson,* 969 F.3d at 381 (absence of ''reasoned explanation'' for rejecting PR II-based benchmark was problematic because it occurred ''*when*'' Judges adopted an alternative proposal that called for ''setting . . . total content cost and revenue rates.'') (emphasis added).

The Judges weigh each benchmark's *intrinsic* strengths and weaknesses, as well as its *comparative* advantages and disadvantages *vis-à-vis* other proffered benchmarks. On remand, the interrelationships of the competing benchmarks are of particular importance, given Copyright Owners' need for the aforementioned protections against revenue diminution via price discrimination.[100]

Through this approach, the Judges ultimately may adopt only one of the parties' benchmarks or other methodologies, or they may modify the proposals by combining them, provided such a modification is ''within a reasonable range of contemplated outcomes . . . piecing together a rate structure, the economic and policy consequences of which had already been explored and developed by the parties in the record.'' *Johnson,* 369 F.3d at 382.

In their consideration of the PR II-based benchmark, the Judges are not suggesting that this benchmark is the optimal tool to use in order to identify rates and terms among all approaches that *might* have been proffered (but were not). But the Judges are cabined by the evidence they receive. *See* 17 U.S.C. 803(a)(1) (''the Judges shall act . . . on the basis of a written record . . . .''); *see also* P. Wald, *supra,* (noting that parties' economic proposals made in an action ''impose[ ] a practical constraint'' on judge who will, ''for the most part, be limited by what the parties serve up to her.''). Based upon the available record evidence, the Judges find that the Services' PR II-based benchmark—although not necessarily perfect—is more than sufficient to satisfy the legal requisites for application, as well as a practical benchmark, when used in conjunction with the 15.1% headline revenue rate advocated by Copyright Owners. *See generally Nat'l Cable Television Ass'n* v. *Copyright Royalty Tribunal,* 724 F.2d 176, 182 (D.C. Cir. 1983) (rate-setting is an intensely practical affair).

C. Parties' Remand Arguments Regarding PR II-Based Benchmark [101]

1. Services' Arguments

The Services maintain that their PR II-based benchmark satisfies the ''reasonable'' rate requirement and is consistent with the four itemized factors set forth in section 801(b)(1). They make several arguments in favor of this position.

First, they aver that their PR II-based benchmark possesses all the characteristics of an ''ideal'' benchmark. Services' Joint Opening Brief at 19. In this regard, they argue that their proffered benchmark ''involves the same sellers, the same or similar buyers, and the same rights as at issue in this proceeding,'' and that there has been ''no material change in the economic circumstances of the marketplace that would warrant adjusting the rate levels or rate structure in the benchmark.'' *Id.* at 20.

Applying the facts to these benchmark characteristics, the Services assert that the first three elements—same sellers (here, licensors), same buyers (here, licensees) and same rights (the mechanical license for interactive streaming) are satisfied. In particular, they note that the majority of the participants in the present proceeding either directly participated in the *Phonorecords II* settlement process or were active in the market contemporaneous with that settlement. *Id.* at 20–21.

Turning to the next benchmark characteristic—the absence of a ''material change in the economic circumstances of the marketplace that would warrant adjusting the rate levels or rate structure in the benchmark''—they emphasize that the PR II-based benchmark contains different rate levels for different product offerings, to account for (a) consumers' varying willingness-to-pay (WTP) and (b) the zero marginal physical cost of digital reproductions of sound recordings containing musical works. *Id.* at 21–22 (citing multiple experts).

Next, the Services point to the fact that the ''headline'' [102] royalty rate is based on a percent-of-revenue, so that revenue growth (or decline) on this rate prong allows for royalty payments to directly adjust in tandem. *Id.* Further, the Services assert that the importance of streaming as ''the future of the music industry'' was known to the *Phonorecords II* negotiators, as evidence by the then-recent launch in the United

[100] The Judges categorically reject Copyright Owners' assertion that the PR II-based benchmark cannot be considered because the parties agreed in the *Phonorecords II* settlement that any future statutory mechanical rate determination would made ''*de novo*'' *vis-à-vis* that settlement determination. In fact, the industrywide representatives (NMPA and Digital Media Association (DiMA)) who entered into the settlement conspicuously did not agree that the existing rate structure or rates could not be considered as the bases for future rate determinations. By contrast, the *Phonorecords I* settlement agreement expressly stated ''[s]uch royalty rates shall not be cited, relied upon, or proffered as evidence or otherwise used in the [Phonorecords II] Proceeding.'' Trial Ex.6013, Ph*onorecords I* Agreement at sec. 3. *Compare* Trial Ex. 6014, *Phonorecords II* Agreement at sec. 5.5 (omitting clause precluding reliance on evidentiary value of *Phonorecords II* royalty rates and including full-integration clause). This change objectively demonstrates that the parties to the 2012 settlement understood the evidentiary value of the *Phonorecords II* settlement in the next section 115 proceeding, *i.e., this proceeding. See* Dissent at 15–16.

On the other hand, the Judges reject the Services' argument that the *Phonorecords II* rates and structure should be retained merely because the Services relied on their continuation to make investments in their business models. As Copyright Owners note, the applicable regulations provide that ''[i]n any future proceedings the royalty rates payable for a compulsory license shall be established *de novo*.'' 37 CFR 385.17; *see also* 37 CFR 385.26. A party may feel confident that past is prologue and that the parties will agree to roll-over the extant rates for another period; a party could be sanguine as to its ability to make persuasive arguments as to why the rates should remain unchanged; a party might even conclude that the mechanical rate is such a small proportion of the total royalty obligation that its increase would be unlikely to alter long-term business plans. But for sophisticated commercial entities to claim that they *simply assumed* the rates would roll-over—without the reasonable possibility of significant adjustment or outright abandonment—strikes the Judges as so irrational and reckless as to raise serious doubts about the credibility of that position. (If the Services had made a persuasive argument that certain fixed cost investments were ''sunk'' and had useful lives that substantially exceeded the five-year rate term, then such costs could be considered under Factor C of section 801(b)(1), but they did not make a persuasive argument in this regard. *Cf. SDARS II,* 78 FR 23054, 23069 (Apr. 17, 2013) (adjusting rates downward under Factor C, and distinguishing *internet* music transmissions, to reflect that—because Sirius XM needed to make ''unique and substantial'' investments in the form of ''sunk'' costs paid for satellites with a useful life of l2–15 years—''it is not unreasonable for Sirius XM to expect to recoup a certain amount of those costs over the expected useful life of the [s]atellites,'' which exceeded the five-year rate term.)

[101] The parties made arguments both in the original hearing and in this remand proceeding regarding the Services' proffer of the PR II-based benchmark. Each party's pre-remand and post-remand arguments overlap to some extent. Examination of the pre-remand arguments is also necessary because of the findings in *Johnson* and because the parties agreed that the evidentiary record on this remanded issue would not be enlarged.

[102] The Judges and the parties characterize the percent-of-revenue of revenue rate as the ''headline'' rate. *See Johnson,* 969 F.3d at 383 n.10.

States of the popular Spotify service. *Id.* at 23.

Beyond these benchmark requisites, the Services also emphasize that the PR II-based benchmark is the product of a settlement whose *negotiated* features burnish the value of this benchmark as reflective of effective competition. Specifically, they note:

- The settlement was negotiated in the same statutory context, concerning the identical rate standard and factors as applicable to the present proceeding.
- Neither side would have accepted a deal materially worse than what it expected from a section 115 proceeding applying the section 801(b)(1) considerations.
- The statutory alternative diminishes any additional licensor-side negotiating power arising from ''Must-Have'' complementary oligopoly of the licensors of the musical works publishers.

Id. at 22. Moving from the negotiating context to market performance under this standard, the Services aver that this approach has borne fruit for the industry as a whole. They point to the evidence of the licensors' consistent profitability and the licensees' ability to ''benefit'' from the *Phonorecords II* approach. *Id.* at 23.

The Services also maintain that the *Phonorecords II* structure ''addresses any concerns with bundling and the potential for revenue deferment.'' *Id.* at 24.[103] They assert that these issues were specifically addressed by Copyright Owners during the *Phonorecords II* negotiation, because ''multiproduct firms such as Yahoo and Microsoft'' that offered streaming services had the capacity to make bundled offerings to consumers. These concerns were addressed in the *Phonorecords II* rate structure, the Services note, through the use of ''multiple rate prongs, minima and floors,'' ensuring that ''the total musical works royalty for certain types of offerings does not fall below a specified level,'' thereby ''mitigat[ing] the effect of any potential revenue deferrals and appropriately address[ing] any concerns with bundling.'' *Id.*[104]

Finally, the Services maintain that ''[d]irect agreements between Copyright Owners and Services also support adoption of the PR II-based benchmark.'' *Id.* at 34. In particular, they note that many of the royalty rates (and terms) in these direct agreements apply the *Phonorecords II* rates. Moreover, the Services maintain, because these direct agreements are in the nature of blanket license of a publisher's entire catalog, they provide an added ''access'' value in the form of full-repertoire licensing. These direct agreements do not include a rate above *Phonorecords II* levels; thus, the Services contend, they underscore the reasonableness of the *Phonorecords II* rates. *Id.*[105]

Finally, the Services aver that the PR II-based benchmark satisfies the itemized four section 801(b)(1) factors. With regard to Factor A, they maintain that: (1) the *Phonorecords II* framework has corresponded with an increase in the supply of musical works; (2) the PR II-based benchmark will increase the likelihood that the Services will increase subscriber counts, generating profitability, which will make streaming available to more listeners; and (3) the price discriminatory aspects of this royalty rate structure allows the Services to afford to offer streamed music to listeners with a low willingness (or ability)-to-pay, at lower rates or through ad-supported services. Services' Joint Opening Brief at 25–27.

Regarding Factors B and C (the ''fair return'' and ''relative contributions'' objectives), the Services emphasize that the PR II-based benchmark satisfies these statutory elements because it: (1) was the result of negotiations between industrywide representatives who had every incentive to obtain a ''fair'' return and to receive recompense for their ''contributions'' to streaming; and (2) allowed interactive streaming to become ''a significant means for consumers to listen to music'' while simultaneously generating growth in annual royalties for Copyright Owners.'' *Id.* at 27–29.

Lastly on the subject of the statutory factors—regarding Factor D (minimizing disruptive impact)—the Services make a succinct argument: ''By renewing the rate levels and structure of *Phonorecords II,* there is minimal risk of disruption.'' *Id.* at 29–30.

The Services also address several further criticisms of the PR II-based benchmark contained in the Determination. Focusing first on an issue specifically addressed in *Johnson,* they assert the irrelevancy of the ''subjective intent'' of the parties that negotiated the *Phonorecords II* settlement—a factor on which the Majority relied in deciding not to adopt the PR II-based benchmark. In this regard, the Services are also responding to the D.C. Circuit's concern regarding this issue. *See Johnson,* 969 F.3d at 387 (''In rejecting that settlement as a possible benchmark, the [Judges] faulted the Streaming Services for failing to explain why the parties to the *Phonorecords II* settlement agreed to the rates in that settlement . . . [b]ut nowhere does the [ ] Determination explain why evidence of the parties' subjective intent in negotiating the *Phonorecords II* settlement is a prerequisite to its adoption as a benchmark.'').

The Services note that no benchmark evidence presented by any party is proffered with supporting evidence of the subjective intent of the bargainers who negotiated the benchmark. Moreover, they note that the Majority in fact acknowledged that ''[r]elying on a benchmark as *objectively* useful without [the need for] further inspection'' is ''typical and appropriate for the benchmarking method.'' *Id.* at 35 (quoting Determination at [55] & n.106 (emphasis added)).

With regard to other criticisms of the Majority's failure to use the PR II-based benchmark, the Services argue that the Majority misapplied their previous rulings that they ''cannot and will not set rates to protect any particular streaming service business model.'' *Id.* at 37 (quoting *Phonorecords III,* 84 FR 1945). The Services find this principle inapposite, because their point is that the multiple price-discriminatory aspects of the *Phonorecords II* approach made it ''a valuable benchmark . . . because it had allowed for different service types to emerge and grow, which benefits the entire market.'' *Id.* at 37. The Services also take issue with the Majority's assertion that the *Phonorecords II* rate structure was too complex, deriding it as a ''Rube-Goldberg-esque'' contraption. *Id.* at 38. Rather, the Services maintain that the structure was as complex as necessary to effectuate the parties' needs, particularly the price discriminatory features and the protections against

[103] The issue of bundling is addressed in this Initial Ruling *infra,* in connection with the Judges' definition of Service Revenue generated through the offering of sound recordings as part of a bundle containing other goods or services.

[104] The Services also reiterate their pre-remand argument that the *Phonorecords III* settlement of subpart A rates for sales of physical and digital download phonorecords (now reorganized in subpart B) confirms the appropriateness of the Phonorecords II-based benchmark. However, any further reliance by the Services on that argument is moot, because the D.C. Circuit affirmed the Majority's analysis of the subpart A rates. *Johnson,* 969 F.3d at 386 (noting that the Majority adequately explained treatment of the subpart A rates as '' 'at best' a floor'' below which the mechanical royalty rates paid by the Services for interactive streaming cold not fall).

[105] Under section 115—prior to the effective date of the 2008 Music Modernization Act—an interactive service was required to serve a ''Notice of Intent'' to use the copyright license (NOI) with the owner of a copyright for each musical work before streaming the sound recording embodying that musical work. By contrast, a direct license with a publisher covers more than an individual musical work by providing ''access'' value to an entire catalog, without the transaction cost burden of filing multiple individual NOIs.

revenue diminution. *Id.* at 38–39. Further, the Services note that the record is devoid of any testimony or evidence indicating any actual confusion caused by the *Phonorecords II* rate structure. *Id.* at 39. Finally in this regard, the Services maintain that the rate structure adopted by the Majority is essentially as complex as the structure in *Phonorecords II,* with the only major change being the replacement of the capped TCC rates with uncapped TCC rates.[106] *Id.*

The Services address another criticism—that the rates in the PR II-based benchmark are too low. This issue is largely moot, as the D.C. Circuit's affirmance of the Majority's expert ''line-drawing'' and ''reasoned weighing of the evidence'' confirmed that a rate increase was necessary. In this Initial Ruling, the Judges have acknowledged specifically the appropriateness of the 15.1% revenue rate—a 44% increase over the 10.5% headline rate in the PR II-based benchmark.[107]

2. Copyright Owners' Arguments

Copyright Owners assert that the record evidence overwhelmingly supports the Judges' rejection of the PR II-based benchmark. At the outset, they maintain that the Judges found—and the D.C. Circuit affirmed—that a rate increase was required in the *Phonorecords III* terms. CO Initial Submission at 13. (As noted, an increase in the headline rate by 44%, to 15.1%, is adopted in this Initial Ruling.)

Next, Copyright Owners maintain that the evidence established that ''market conditions'' were ''radically different'' at the time of the *Phonorecords III* proceeding compared with when the parties entered into their 2012 industrywide agreement in *Phonorecords II. Id.* at 17. In particular, Copyright Owners point to testimony describing the streaming industry as ''nascent'' in 2012, with fewer streams, subscribers, services, and choices of music; operating in a consumer environment when download purchases and Pandora's noninteractive service were the predominant means for consumers to listen digitally to music. *Id.* at 18–21. In sum, Copyright Owners maintain, that streaming was ''economically insignificant'' to the music industry when the PR II provisions were adopted. *Id.* at 20.

Copyright Owners particularly emphasize the substantial increase in streaming revenue during the *Phonorecords II* period. They point out that while ''total streaming revenue had ranged from approximately $150 million in 2005 to $212 million in 2010, . . . after 2012[,] annual [streaming] revenue exploded to reach approximately $1.6 billion by 2015.'' *Id.* at 23. Further, they note there is no evidence that the music publishers or anyone else had predicted this substantial rise in streaming and the revenues it generated, and that in no way could it be inferred that those rates had ''baked-in'' future growth. In fact, Copyright Owners assert at the hearing that the PR II rates were merely ''experimental''—consistent with the relatively nascent stage of the streaming industry. *Id.* at 25.

Additionally, Copyright Owners maintain that the identities of the parties involved in the *Phonorecords III* proceeding are different from those who established the *Phonorecords II* framework. Although they acknowledge the presence of current interactive services Spotify and Rhapsody in this market prior to the *Phonorecords II* framework agreed to by the trade associations for the interactive services and the music publishers, they point out that ''[n]one of the other participants in this proceeding even entered the streaming business until after the *Phonorecords II* settlement.'' *Id.* at 21.

Next, Copyright Owners assert that the Services' evidence is inadequate to support a finding that the rates in their PR II-based benchmark are suitable for use in setting royalty rates in this proceeding. First, they echo the Determination, which stated that the Services (1) did not examine in detail the particular rates within the existing rate structure; (2) relied on the 2012 rates as objectively useful without further inspection; and (3) did not call witnesses to testify regarding the 2012 settlement negotiations. *Id.* at 27 (citing Determination, 84 FR 1944 & n.106). Because of the absence of the foregoing evidence, Copyright Owners assert that the Services were left with ''no evidence explaining how the particular rates and percentages in those settlements were calculated or derived, how they were negotiated, or how they were reasonable in light of the explosive growth in the streaming marketplace between the time of those settlements and the *Phonorecords III* proceeding.'' *Id.* at 28. The absence of such evidence, according to Copyright Owners, meant that the Services had failed to carry their burden of proof under 5 U.S.C. 556(d) with respect to their proposal, a burden Copyright Owners assert the Services acknowledged they bore. *Id.* at 29–30.

Additionally, Copyright Owners claim that the D.C. Circuit found ''validity'' in Copyright Owners' assertion that the subjective intent of the parties to the *Phonorecords II* settlement is relevant because it would have revealed whether the agreed-upon rates were based on economic realities or instead were driven by other considerations. *Id.* at 30–31 (citing *Johnson,* 969 F.3d at 387). However, Copyright Owners acknowledge that, because this was not a reason given by the Majority, it carried no weight with the D.C. Circuit on appeal. *Id.* at 31.

3. Analysis and Decision Regarding PR II-Based Benchmark [108]

a. PR II-Based Benchmark Meets Most of the Requisites for a Useful Benchmark

The four classic characteristics of an appropriate benchmark are:

(1) the degree of comparability of the negotiating parties to the parties contending in the rate proceeding,

(2) the comparability of the rights in question,

(3) the similarity of the economic circumstances affecting the earlier negotiators and the current litigants, and

(4) the degree to which the assertedly analogous market under examination reflects an adequate degree of competition to justify reliance on agreements that it has spawned.

In re Pandora Media, 6 F.Supp.3d 317, 354 (S.D.N.Y. 2014, *aff'd sub nom Pandora Media Inc.* v. *ASCAP,* 785 F.3d 73 (2d. Cir. 2015). As discussed below, the PR II-based benchmark meets criteria (1), (2) and (4), but requires adjustment to fully satisfy criterion (3).

First, the PR II-based benchmark obviously pertains to the same rights at issue in this proceeding, as it reflects the licensing provisions from the immediately preceding mechanical license proceeding.

Second, the licensors (songwriters and music publishers) and licensees (interactive streaming services) are

[106] As discussed *infra,* the relative complexity or simplicity of the rate structure is not a statutory factor, nor is it a decisive element of a reasonable rate structure, when the details of that structure effectuate price discriminatory configurations that would increase the availability of music and streaming revenues and otherwise satisfy the statutory criteria.

[107] The Judges characterize this issue as largely moot because the PR II-based benchmark includes on its ''lesser of'' prongs price discriminatory rates, discussed *infra.* But those ''lesser of'' rates are overridden by the ''greater'' 15.1% rate. As also discussed *infra,* Mechanical Floors continue to bind at lower mechanical royalty levels (without reducing the songwriters' ''All-In'' musical works royalty that includes the performance royalties), because these floors were retained in the Determination and were not the subject of appeal.

[108] The setting of statutory royalty rates involves to a significant degree the application of economic analysis. Accordingly, the Judges find it appropriate to set forth certain key aspects of microeconomics that guide the application of the section 801(b)(1) standard in the present proceeding. That guidance is set forth more fully in the Dissent at 29–39.

comparable (albeit not identical). While Copyright Owners emphasize the different identities and market involvement of the licensees, particularly the greater market penetration of Amazon, Apple, and Google, the Services note that even prior to the more significant entry of these three entities, similar multiproduct firms, such as Yahoo and Microsoft, were active licensees. The Judges find that the changing identities of the large multiproduct technology firms does not demonstrate the absence of comparability between and among such firms in the *Phonorecords II* and *Phonorecords III* rate periods. The shifting market entries, exits, strategies, successes and setbacks of otherwise comparable firms are expected occurrences in a dynamic capitalist market system and are not factors that materially diminish the necessary comparability of the parties for benchmarking purposes.

Third, important economic fundamentals of the marketplace are sufficiently similar in crucial respects. First, the heterogeneity of the willingness-to-pay among subscribers and listeners in the downstream market continues to support price discrimination and thus differentiated royalty rates upstream pursuant to the concept of ''derived demand.'' *See* Determination at 19 (and record citations therein) (''Weighing all the evidence and based on the reasoning in this Determination, the Judges conclude that a flexible, revenue-based rate structure is the most efficient means of facilitating beneficial price discrimination in the downstream market.''); Dissent at 32, 51, 86, 121, 126 (and record citations therein).[109] Second, the items being licensed for transmission—''second copies'' of sound recordings (with embedded musical works)—have a marginal physical cost of zero, a critical economic point on which the experts for both parties concur, and as to which the Majority and the Dissent repeatedly and significantly rely. *See* Determination at 18, 21, 36, 59, 80 (and record citations therein); Dissent at 30–31, 33–34, 37, 47, 49–50, 59, 122, 127–128 (and record citations therein).[110]

Copyright Owners are clearly correct, however, in noting a substantial change in economic circumstances that distinguished the *Phonorecords II* negotiations from the current proceeding; *viz., the dramatic growth of interactive streaming revenues.*[111] The economic impact of this revenue growth is incorporated into the experts' Shapley Value Models and the Judges' analysis of same. This analysis has generated the 44% increase in the headline royalty rate, from 10.5% to 15.1% (as phased-in by the Majority and again in this Initial Ruling).[112]

Simply put, three economic principles co-exist. First, the downstream interactive streaming market remains differentiated among listeners with different willingnesses and abilities to pay, based on varied preferences (utility) and disparities in income. Second, streaming of the ''second copy'' of the sound recordings (with embedded musical works) remains physically costless (but generates potential ''opportunity costs''). But, third, streaming revenues have grown substantially. There is no incompatibility or inconsistency in the simultaneity of these economic principles. Each of them must be taken into account and they are in this Initial Ruling.

This economic context refutes the arguments made during oral argument at the D.C. Circuit that the PR II-based benchmark should be rejected *in toto* because it was supposedly ''outdated.'' The heterogeneity of the downstream demand of listeners and the zero physical cost of ''second copies'' are enduring features that affect the upstream market via the principle of derived demand. The substantial growth of streaming revenues, however, necessitated an increase in the headline rate from 10.5% to 15.1% (as phased-in), for the reasons discussed in the Judges' analysis in this Initial Ruling of the interrelationship among: (1) Shapley Value modeling; (2) Nash Bargaining; (3) complementary oligopoly power; and (4) effective competition.

Further, the foregoing analysis also undermines the pre-remand argument made by Copyright Owners that the PR II-based benchmark reflects a market that was not yet ''mature,'' or was only ''experimental.'' Markets are not ''mature'' as opposed to, say, ''adolescent.'' Indeed, the metaphor is strained because all economic models are subject to revision if the salient facts have changed, without rendering the prior models mere ''experiments.'' Markets simultaneously exhibit enduring characteristics—here, heterogeneous customers and zero marginal physical costs and dynamic change—here, significant revenue increases.[113]

And yet, Copyright Owners seek to deny the idea that these principles could exist simultaneously. In an attempt to disqualify the application of the PR II-based benchmark, Copyright Owners complain:

> [W]hile streaming activity and revenues grew under the Phonorecords II royalty rates, the [REDACTED]. For example . . . [REDACTED].

CO Initial Submission at 15–16 (emphasis added).

But as the Services explained, the economic defect in Copyright Owners' analysis, is that it ignores the principle of price discrimination and its beneficial effects:

> [A]s [Professor] Hubbard explained, it is ''meaningless'' to compare growth in streams to growth in royalties in the context of Prime Music in particular because the record showed that Prime Music brings ''new people into the market.'' . . . If not for the flexibility (and beneficial price discrimination) the

[109] The Determination asserts that it includes a price discriminatory feature because a revenue percentage-based rate is itself price discriminatory, in that it does not set royalties on a per-play basis. Determination at 35 n.71. But that ''blunt'' form of price discrimination does not capture the granular discriminatory features that the parties had negotiated. There is no sufficient basis for the Judges to substitute their own blunt conception of the appropriate form and extent of price discrimination for the structure generated in negotiations by the market participants. *See* Dissent at 37.

[110] It bears emphasis that the fact ''second copy'' reproductions are physically costless does not even suggest that the market price should be zero. Rather, in this ''second-best'' economic context, pricing above marginal physical costs is imperative in order for Copyright Owners to recover their ''first copy'' costs, avoid ''opportunity costs,'' and earn profits. *See* Dissent at 36–38.

[111] Copyright Owners also cite data demonstrating the increase in listeners and the number of streams. The Judges find those data to be causal for the key point in rate setting in this proceeding—the significant increase in revenues.

[112] At first blush it may seem that the increase in interactive revenues is not an economic fundament that would support an increase in a percentage-of-revenue based royalty formula. However, as more fully discussed herein, under the Shapley Value approach, the increase in revenues has generated an increased ''Shapley Surplus'' (roughly analogous to interactive streaming industry profits), which the two ''Must Have'' input suppliers (record companies and Copyright Owners) will essentially split equally. If this surplus increases faster than the interactive services' non-content costs (or if those costs remain stable or fall), the increased revenues would flow disproportionately to theses input suppliers, thus causing the increase in revenues to support an increase in the royalty rate, all other things held constant. And, because the ''Must Have'' input suppliers have complementary oligopoly power, the Majority relied on a Shapley model constructed by Spotify's expert, Professor Marx, that adjusted for this market power.

[113] If one were to indulge the ''maturity'' metaphor, the ongoing creative destruction in the streaming industry has only reinforced the fact that, according to one of Copyright Owners' own economic expert witnesses, the interactive streaming market (as of the *Phonorecords III* hearing) was not yet mature, but rather remained ''a relatively new enterprise.'' Watt WRT ¶¶ 39–40. Thus, it is hardly clear from the record that interactive streaming has ''matured'' in a manner that would render anachronistic the enduring marketplace characteristics.

existing Service Provider Revenue definition and rate structure facilitated, the Copyright Owners ''would have gotten zero'' from those new listeners. . . . ''So they're better off by that amount'' of royalty growth. . . . The undisputed fact that [REDACTED]—reflects that the existing rule enables beneficial price discrimination that expands the total royalty pool and benefits Copyright Owners.

Services' Reply at 58–59.

This rebuttal by Professor Hubbard is an example of the important distinction between ''increases in demand'' (when the demand curve shifts outward) and movements ''down the demand curve'' (when sellers use price discrimination to generate more revenue without additional cost to attract buyers with a lower willingness or ability to pay). The parties' otherwise dueling economists agreed on this point. *Compare* 4/3/17 Tr. 4373–74 (Rysman) (Copyright Owners' witness acknowledging that under the current rate regime overall revenues might be increasing because of movements ''down the demand curve'' (*i.e.,* changes in quantity demanded in response to lower prices), rather than because of, or in addition to, an outward shift of the demand curve (*i.e.,* increase in demand at every price)) *with* 3/13/17 Tr. 701 (Katz) (the Services' witness who likewise noted that the present structure enhances variable pricing that allows streaming services ''to work[ ][their]way down the demand curve.'').

Moreover, Copyright Owners baldly cherry-pick the data they present. [REDACTED] CO Initial Submission at 15–16. So, by their own data, presented in their own brief, they acknowledge that [REDACTED]. *See* Services' Reply at 57–58 (Copyright Owners have proven the ''opposite'' of what they intended). This is precisely what beneficial price discrimination is designed to accomplish.[114]

The appropriateness of adopting the price discriminatory rate provisions of the PR II-based benchmark is further underscored by Copyright Owners' candid acknowledgement at the hearing that they were essentially urging the Judges to adopt what is known as the ''Bargaining Room'' approach to rate setting. *See* Dissent at 24 (and record citations therein).[115]

In the present proceeding, the appropriateness, *vel non,* of the Bargaining Room approach boils down to the following:

Copyright Owners emphasize the inability of the Judges (or anyone) to identify present market rates precisely, let alone over the five-year rate period because the compulsory license set by the Judges cannot possibly contemplate every single business model that may develop in the ensuing time. . . . If the statutory rate is set *below* market rates, then the parties will *never* negotiate upward toward the market rates, because the licensees will always prefer to invoke the right to use the licensed work at the below-market statutory rates. However, if the Judges set the statutory rate *above* what they find to be market rates, different licensees who each have a maximum willingness to pay (WTP) *below* such a statutory rate would seek to negotiate lower rates with the licensors. In response to such requests to negotiate, according to this argument, Copyright Owners would respond by negotiating various lower rates for those licensees, provided lower rates were also in the self-interest of Copyright Owners.

Dissent at 24–25 (and record citations therein).

The Judges find no reason to depart from the policy decision in *Phonorecords I* that the rate setting policies made explicit in section 801(b)(1) are best discharged if the Judges eschew the Bargaining Room approach and continue to identify rate structures and rates that reflect the standards set forth in the statutory provision. To supplant the statutory factors with a Bargaining Room approach would essentially be to adopt a purely market-based rate-setting approach that is inconsistent with section 801(b)(1) and with the Judges' application of that statute to set rates, rate structures, and terms consonant with effective competition.

With this background in mind, the Judges turn specifically to the interrelationship between the price discrimination aspects of the rates in the PR–II benchmark and the Bargaining Room approach.

Copyright Owners have demonstrated (albeit tacitly) their understanding that, if the statutory provisions did not contain a price discriminatory rate structure to reflect the varying WTP, *they would have to invent it.* This finding is apparent from their advocacy for the adoption of a Bargaining Room approach to rate-setting. *See, e.g.,* 4/3/17 Tr. 4390, 4431 (Rysman) (lauding bargaining room approach as reflecting ''economical element of *price discrimination* . . . the [licensor] is picking its prices carefully.'') (emphasis added); *id.* at 4431 (explaining that under this approach, when negotiating with Spotify regarding a rate for ad-supported service, ''Must Have'' music publishers would ''have the right . . . to set that price.''); 4/4/17 Tr. 483–45 (Eisenach) (acknowledging Copyright Owners' approach was consistent with Bargaining Room theory because they were seeking rates so high as to force would-be licensees to negotiate for the ''Must Have'' mechanical license.).

Thus, the Judges find there to be no real dispute as to *whether* there is a market-based need for an upstream discriminatory rate structure.[116] Rather, the parties appear to be in disagreement as to *who* shall be in control of the setting of rates, the Judges, through their application of *law,* or Copyright Owners, through the exercise of their complementary oligopoly *power.* The resolution of this choice is clear; the Judges, not the licensors, are statutorily-charged with establishing provisions that are reasonable and otherwise properly reflect the itemized objectives of section 801(b)(1).

Fourth, the PR II-based benchmark reflect a rate structure with an adequate degree of competition, because there

[114] Further, [REDACTED] because: (1) the marginal physical cost of ''second-copy'' streams is zero; (2) royalties were calculated [REDACTED]; and (3) Copyright Owners' original proposed a per-play (*i.e.,* per-stream) metric, which was rejected by all three of the Judges.

[115] The Bargaining Room approach was first proposed for incorporation into the statutory license standard in 1967 by the NMPA, to be included in the predecessor section, later reorganized in section 801(b)(1) that governs this proceeding. *See* Dissent at 22–24 (and citations therein). Ultimately, Congress punted on the Bargaining Room approach, and adopted into law the four-factor language set forth in section 801(b)(1). A subsequent attempt by NMPA to have the Copyright Royalty Tribunal (CRT) (a predecessor to the Judges) adopt the Bargaining Room theory was rejected by the CRT, a rejection that was affirmed on appeal. *See Recording Industry Ass'n. of America* v. *Copyright Royalty Tribunal,* 662 F.2d 1, 37 (D.C. Cir. 1981), *aff'g* Adjustment *of Royalty Payable under Compulsory License for Making and Distributing Phonorecords,* 46 FR 10466, 10478 (1981). *See generally,* F. Greenman & A. Deutsch, *The Copyright Royalty Tribunal and the Statutory Mechanical Royalty: History and Prospect,* 1 Cardozo Arts & Ent. L.J. 1, 53, 64 (1982).

[116] The *Majority* recognized this point as well when—regarding the ''increase the total revenue that price discrimination enables—they ask (and answer) rhetorically: ''How could Copyright Owners and their economic experts argue against a rate structure that inures to their benefit as well? The answer is: They do not. . . . [T]hey advocate for a rate set under the bargaining room theory, through which mutually beneficial rate structures can still be negotiated, but not subject to the ''reasonable rate'' and itemized factor analysis required by law.'' Determination at 85 & n.153. The Judges also note that Copyright Owners' acknowledgement that they too would set price discriminatory rates and structures is not simply a feature of *this* market. Rather, ''discriminatory pricing . . . is the normal attribute of equilibrium . . . in a broad range of market types and conditions where consumers can be separated into distinct groups with different demand elasticities.'' W. Baumol, *Regulation Misled by Misread Theory: Perfect Competition and Competition-Imposed Price Discrimination* at 2 (2002). *See also* Dissent at 38, n.74. Given the ubiquity of discriminatory pricing, the Judges also find that the adoption into the statutory license of such pricing is not—as Copyright Owners contend—simply the inappropriate favoring of a particular business model, but rather a necessary reflection of the fundamental nature of market demand, particularly, the varied WTP among listeners.

was a balance of bargaining power between the two negotiating industrywide trade associations, offsetting the complementary oligopoly effects in place when a ''Must Have'' licensor bargains separately with each licensee. Recently, the Judges discussed in detail how the presence of countervailing bargaining power generates royalty rates at effectively competitive levels. *See Web V,* 86 FR 59452, 59457 (Oct. 27, 2021).

Further with regard to this fourth point, the parties have been operating over the past ten years under this basic rate structure, with profits accruing to the licensors and admittedly tolerable losses befalling the licensees. Moreover, after experience with these rates and this rate structure in the *Phonorecords I* period, they renewed and expanded this structure for use in the *Phonorecords II* period, when the alternative of a statutory rate proceeding was available to licensors and licensee alike. Their mutual willingness to continue in this manner is important evidence of the workability and reasonableness of this approach.

b. Evidence of Subjective Intent Not Prerequisite to Partial Adoption of the PR II-Based Benchmark [117]

The Judges rely on the PR II-based benchmark as an *objective* benchmark. Thus, the absence of testimony regarding what went through the minds of the negotiators of the *Phonorecords II* agreement (and the predecessor *Phonorecords I* agreement) does not diminish the objective value of this benchmark. The Judges view the provisions of the PR II-based benchmark as they would any benchmark, in the context of the requisite benchmarking elements identified and discussed *supra.* This approach allows the factfinder to analyze the benchmark through the lens of its service in the marketplace as an objective model for the market at issue, the *Phonorecords III* market. *See, e.g.,* 3/13/17 Tr. 550–51, 566 (Katz) (knowledge of why parties negotiated specific provisions is unnecessary, because objective results demonstrate satisfactory performances of market).

Both Professors Katz and Hubbard noted that the current rate structure remains useful, not based on consideration of the parties' subjective understandings at the time of its creation, but because the market has not since changed in a manner that would create a basis for departure. Katz WDT ¶ 80 (''My analysis has identified no changes in industry conditions since then [2012] that would require changing the fundamental structure of the percentage-of-revenue prong.''); 4/13/17 Tr. 5977–78 (Hubbard) (changes in market are ''not uncorrelated with the structure that was in place'' in 2012).[118]

In this regard, it bears emphasis that Copyright Owners' own witness, Dr. Eisenach, relied on several potential approaches that the Majority characterized as benchmarks for his rate analysis, without attempting to examine the subjective intent of the parties who negotiated those agreements. Indeed, the Majority found that the PR II Rates were properly considered as an objective benchmark, in the same manner as Dr. Eisenach's proffered benchmarks:

> The Services do not examine in detail the particular rates within the existing rate structure. Rather, they treat the rates within that structure as benchmarks, *i.e.,* generally indicative of a sufficiently analogous market that has ''baked-in'' relevant economic considerations in arriving at an agreement. Dr. Eisenach did not analyze *why* he chose the levels for the rates and ratios on which he relied as benchmarks or consider the subjective understandings of the parties who negotiated his benchmarks. Similarly, the Services' economists elected to rely on the 2012 rates as objectively useful without further inspection.
>
> This point is not made to be critical of Dr. Eisenach's approach, but rather to show that the Services' reliance on the 2012 settlement as a benchmark shares this similar analytical characteristic, typical and appropriate for the benchmarking method. (The factual wrinkle here is that, hypothetically, the Services could have called witnesses and presented testimony regarding the negotiations that led to the 2012 (and 2008) settlements, but did not, rendering the 2012 benchmark similar to other benchmarks taken from other markets.)

Determination at 55 & n.106.[119]

Copyright Owners also aver that they entered into the *Phonorecords II* settlement simply to avoid litigation costs. Copyright Owners' Reply Brief on Remand at 29. At the hearing, this assertion was presented by David Israelite, NMPA's President. Israelite WRT ¶ 28; 3/29/17 Tr. 3649–52 (Israelite) (claiming NMPA lacked financial position to fund rate litigation). The Services countered by noting that there was no evidence to support Mr. Israelite's testimony in this regard, or how it may have impacted the NMPA decision to participate. And, the Services pointed out, notwithstanding his testimony regarding financial constraints, NMPA had incurred the expense of a year-long negotiation with the Services to seek higher rates, create new service categories in subpart C, and change the TCC calculations. *Id.* at 159, 161–64; 3/29/17 Tr. 3856 (Israelite).

Further, as a general principle, a party's mere assertion that the *Phonorecords II* approach was the product of a settlement that was predicated on the avoidance of litigation costs savings does not invalidate its use as a benchmark in proceedings before the Judges, especially because, by statute, the Judges are authorized to consider such agreements. *See Music Choice* v. *Copyright Royalty Board,* 774 F.3d 1000, 1014–15 (D.C. Cir. 2014) (testimony alleging agreement was reached to avoid litigation costs does not invalidate evidentiary use of that agreement for rate setting purposes, absent other evidence demonstrating settlement was involuntary or otherwise unreasonable.). Thus, the Judges find that the evidentiary record does not support Copyright Owners' position that this ''litigation cost avoidance'' assertion constituted a separate, idiosyncratic value that diminishes the

[117] At the outset, the Judges reject Copyright Owners' contention that the D.C. Circuit found ''validity'' in their assertion that there was merit in Copyright Owners' assertion of the ''subjective intent issue.'' Rather, on this issue, *Johnson* first held: ''[N]owhere does the [ ] Determination explain why evidence of the parties' subjective intent in negotiating the Phonorecords II settlement is a prerequisite to its adoption as a benchmark.'' *Johnson,* 969 F.3d at 387. Then, when Copyright Owners' appellate counsel attempted to cure that failure by making their own ''subjective intent'' argument, the D.C. Circuit responded to that ''subjective intent'' argument with a single word: ''*Perhaps.*'' *Id.* (emphasis added). This does not in any way suggest that *Johnson* found ''validity'' in the ''subjective intent'' argument, but rather was a non-committal response, consistent with the D.C. Circuit's ruling finding that the Determination had not explained this point.

[118] As noted *supra,* the relevant material change since the *Phonorecords II* agreement was reached is the significant growth in streaming revenues. That change is reflected in the Judges' application of the Shapley Value analyses, by which the Judges increased the headline royalty rate by 44%, from 10.5% to 15.1% (phased-in).

[119] Copyright Owners do not deny that they did not offer evidence of subjective intent for Dr. Eisenach's benchmarks. Rather, they assert Dr. Eisenach's reliance on benchmarks without examining the subjective understandings of the negotiators of the benchmarks is irrelevant because: (1) Copyright Owners were not seeking the adoption *in toto* of the rates contained in any specific benchmark cited by Dr. Eisenach; (2) Dr. Eisenach analyzed multiple benchmarks to derive a reasonable range of rates; (3) his benchmarks were not adopted; and (4) his benchmarks and are not at issue on this remand. Copyright Owners Reply Brief on Remand at 28 n.19. But Copyright Owners confuse evidentiary *standards* with evidentiary *application.* Benchmarks are subject to the same evidentiary standards, regardless of the breadth of purpose for which they are proffered and regardless of whether they were adopted or rejected. Further, the fact that Dr. Eisenach's chosen benchmarks are ''not at issue on this remand'' does not render Copyright Owners' reliance on purely objective benchmarks uninformative as to their own understanding of the irrelevancy of the subjective thoughts of benchmark negotiators. *See generally Web IV,* 81 FR 26370 (proposed benchmark adjustment based on alleged ''additional value'' should be supported by ''record evidence . . . to provide a basis for such for such an adjustment.'').

Judges' partial reliance on the PR II Rates in this Initial Ruling.

Copyright Owners also mistakenly rely on the fact that the Services bore the burden of proof regarding the absence of any subjective idiosyncratic factors that hypothetically could have diminished the useful value of the PR II-based benchmark. *Id.* at n.21. The Services indeed bore the burden of *proof* (*i.e., persuasion*) with regard to their proffered benchmark PR II Rates, and they presented adequate objective evidence and testimony that this approach has worked in the marketplace to serve as *prima facie* proof to support the Judges'(partial) use of this benchmark in this remand proceeding. And, as explained above, such subjective intent was not a necessary element of their benchmark proofs. But, with regard to Copyright Owners' *rebuttal* to those proofs, Copyright Owners bore the burden of *production,* to present sufficient evidence and/or testimony that the Judges could rely on to reject the (partial) use of the PR II-based benchmark. This Copyright Owners failed to do.[120]

In fact, given Copyright Owners' reliance on the subjective intent of the parties to a benchmark, the Judges attempted to identify potential subjective evidence of how the capped TCC rates in the PR II-based benchmark [121] were derived, during the examination of Dr. Eisenach at the hearing:

> [JUDGE STRICKLER] Do you discuss, Dr. Eisenach, . . . in your written direct or written rebuttal testimony how the parties arrived . . . at the ratios for sound recording to musical works in [witness interrupts]
>
> [DR. EISENACH] That process is opaque to me, Your Honor.
>
> [JUDGE STRICKLER] Did you [witness interrupts]
>
> [DR. EISENACH] I know—I know there was a 2008 negotiation. I know there was a 2012 negotiation. I wasn't . . . present, and I'm not privy to any of the details.
>
> [JUDGE STRICKLER] You were not informed by your client or by any other source of information as to how they arrived at those particular ratios?
>
> [DR. EISENACH] *When I've asked the question, I've found people chuckle* and—and there doesn't seem to have been too much system—systematic thought that went into it, *but I don't really know that.* I just—when I ask the question, people say: *Nobody really knows.* . . . Someone may know, but that's what I've been told.

4/4/17 Tr. 4611 (Eisenach) (emphasis added). The Judges find it perplexing, to say the least, that Copyright Owners would ''chuckle'' when asked by their expert witness for the very subjective evidence which they claim to be relevant. But of perhaps greater relevance is Dr. Eisenach's further testimony, quoted above, that he was also told by Copyright Owners that ''nobody really knows'' how the parties arrived at those rate ratios. Copyright Owners' ''chuckle,'' in response to its expert's critical inquiry as to the derivation of rates—and that expert's understanding that his client *simply did not know how those rates were derived*—undercut Copyright Owners' claim that subjective understanding of those rates could undermine their usefulness in the benchmark.[122]

c. Substantial Evidence Demonstrates That PR II Rates, Other Than the Headline Rate, Are Not ''Too Low''

As noted *supra,* one reason the D.C. Circuit vacated and remanded the Determination was because it declined to entertain the argument made only by appellee's counsel that ''the prior rates had been set far too low, thus negating the usefulness of the prior settlement as a benchmark.'' *Johnson,* 969 F.3d at 387. The Judges have noted throughout this Initial Ruling their adoption of the Shapley Value modeling analysis undertaken by the Majority, and raised the headline royalty rate by 44% from 10.5% to 15.1% (as phased-in), rendering moot appellate counsel's suggestion regarding the rate level.

Here, the Judges further consider whether other rates within the PR II-based benchmark are reasonable, not only because they are part and parcel of the workable structure of that benchmark, but also to determine if they are supported by record evidence. To put this issue in context, those rates would apply on the second prong of the ''greater-of'' rate structure in the PR II-based benchmark. The first prong in the PR II-based benchmark rates is the 10.5% revenue rate—increased to 15.1% (as phased-in) by this Initial Ruling. The second prong consists of the ''lesser of'' a TCC rate or a per subscriber rate.[123] For certain delivery configurations, these rates also cannot fall below any applicable Mechanical Floor. *See Johnson,* 969 F.3d at 370.[124]

The Services describe the key feature of these non-headline rates as the fostering of beneficial price discrimination, *i.e.,* the adoption of ''different rate levels for different product offering,'' in order [t]to account for consumers' different willingness to pay [WTP] for music. Services' Joint Opening Brief (on Remand) at 21. As an example of how these price discriminatory rates impacted the market, the Services compare and contrast two Amazon offerings, Amazon Music Unlimited (for Echo) and Amazon Prime Music.

Amazon Music Unlimited, with more than 30 million available songs as of the *Phonorecords II* proceeding period, *see* Mirchandani WDT ¶ 41, [REDACTED].[125] By contrast, Amazon Prime Music, calculated as a ''bundled subscription'' configuration, makes available only an abridged repertoire of 2 million songs, see Mirchandani, supra, and [REDACTED]. *See id.* at § 385.13(a)(4).

Thus, Amazon pays [REDACTED] for listening by the more casual consumers who use the limited catalog Prime Music service at no additional charge beyond their Prime membership fee, compared to consumers who want the full repertoire provided by Amazon Music Unlimited on their Echo devices. *See* Services' Joint Opening Brief at 71. These royalty obligations demonstrate the combination of price discrimination, product differentiation and ''derived demand'' in action; that is, the [REDACTED] are derived from the lower demand of consumers of the limited Amazon Prime Music service compared with subscribers to Amazon Music

---

[120] As described in this Initial Ruling, the Judges identified this same distinction between the burden of proof and the burden of production to find in favor of Copyright Owners' proffered expert testimony in support of their Nash Bargaining analysis, testimony which constituted *prima facie* proof that was not adequately rebutted by the production of sufficient testimony from the Services' expert economic witnesses.

[121] The ''capped'' TCC rates are elements of the *Phonorecords II* rates.

[122] The Judges also find Copyright Owners' assertion that they did not know how those rates were established is not credible, given that they and their representatives negotiated those rates.

[123] This second prong contains only a TCC rate (*i.e.,* an uncapped rate) for: (1) the ad-supported the service, because there are no subscribers to such a service; and for (2) bundled subscription service, for which there is a $0.25 per month floor but no per-subscriber cap, and Service Revenue for such bundles is calculated pursuant to 37 CFR 385.11 (''Service Revenue'' definition, ¶ 5).

[124] As *Johnson* explained, the CRB Judges ''retained the mechanical floor'' because, like so much of the PR II-based benchmark, it '''appropriately balances the [streaming service providers'] need for the predictability of an All-In rate with publishers' and songwriters' need for a failsafe to ensure that mechanical royalties will not vanish[.]'' *Id.* at 371–72. It is noteworthy that Copyright Owners urged the Judges (successfully) to maintain the Mechanical Floor provisions, which are the product of the *Phonorecords II* (and *Phonorecords I*) negotiations. Thus, it seems apparent that Copyright Owners as well as the Services consider provisions from the negotiated rates and rate structure to be in the nature of benchmarks, although differing as to which elements such be included or excluded. (The Services unsuccessfully argued for the elimination of the Mechanical Floors.) This perspective underscores the correctness of the Judges' decision on remand to treat the PR II-based benchmark as useful.

[125] [REDACTED].

Unlimited on their Echo devices, which in turn drive higher revenues.

It is also important to note that these differential rates on the second prong of the ''greater-of'' structure of the PR II Rates are overridden by the revenue percentage rate on the first prong if that first prong rate generates more revenue. For example, [REDACTED], *see* Dissent at 29 (Table) and 116; *see also* [REDACTED]. With the headline rate now increased on a phased-in basis, the price discriminatory royalty generated by this [REDACTED].

It is noteworthy that *Johnson* affirmed the Majority's setting of other price discriminatory features, *e.g.,* the family and student plan provisions, based on the Judges' reliance on the Services' expert testimony regarding the benefits of ''having a way . . . where low willingness to pay consumers can still access music in a way that still allows more monetization of that provision of that service.'' *Johnson,* 969 F.3d at 392–93. In similar fashion, the multi-tiered rates in the PR II-based benchmark likewise were supported by the same type of testimony; indeed, from expert testimony proffered by both parties, as considered below.

First, Professor Katz notes that the existing rate structure captures two important aspects of the economics of the interactive streaming market: (1) the variable WTP among listeners; and (2) the corollary variable demand for streaming services. *See* 3/13/17 Tr. 586–87 (Katz); *see also* Marx WRT ¶ 239 *et seq.;* 4/7/17 Tr. 5568 (Marx) (noting that the present structure serves differentiated products offered to customer segments with a variety of preferences and WTP). In more formal economic terms, Professor Katz notes that the present structure enhances variable pricing that allows streaming services ''to work [their] way down the demand curve,'' *i.e.,* to engage in price discrimination that expands the market, providing increased revenue to the Copyright Owners as well as the Services. 3/13/17Tr. 701 (Katz).

Second, in similar testimony, Professor Hubbard captures the interrelationship between the economics of this market and the existing rate structure:

> [F]rom an economic perspective, you can think of this market and this industry as being composed of different customer segments by tastes and preferences and willingness to pay. And so no rate structure can really work without understanding that, and no business model can really work without understanding that.
>
> [I]n terms of rate structures, the *Phonorecords II* framework from the previous proceeding does offer a benchmark to start because it provides for differences in distinct product categories in terms of music service offerings, pricing possibilities, and so on. And it has encouraged a very diverse digital music offering set from actual competitors.

3/21/17 Tr. 2175–76 (Hubbard). Moreover, Professor Hubbard [REDACTED] 4/13/17 Tr. 5978 (Hubbard); *see also* Hubbard WDT ¶ 4.7 (the 2012 rate structure provides the ''necessary flexibility to accommodate the underlying economics of Amazon's various digital music service offerings.''). *See also* 3/15/17 Tr. 1176 (Leonard) (notwithstanding changes and growth in the streaming marketplace over current rate period, underlying economic structure of marketplace, which made percent-of-revenue based royalty appropriate, has not changed).

Third, the Services' experts further assert that the multiple pricing structures necessary to satisfy the WTP and the differentiated quality preferences of downstream listeners relate directly to the upstream rate structure to be established in this proceeding. For example, Professor Marx opines that the appropriate *upstream* rate structure is derived from the characteristics of downstream demand. 3/20/17 Tr. 1967 (Marx) (agreeing that rate structure upstream should be derived from need to exploit willingness to pay of various users downstream via percentage of revenue because downstream listeners have varying willingness to pay that should be exploited for mutual benefit of copyright licensees and licensors). Professor Marx further acknowledged that this upstream:downstream consonance in rate structures represents an application of the concept of ''derived demand,'' whereby the demand upstream for inputs is dependent upon the demand for the final product downstream. *Id.* Moreover, Dr. Leonard notes that reliance on the Services to identify segmented demand and develop price discriminatory approaches is appropriate because ''the downstream company is going to have a lot more information about . . . the business, about what makes sense.'' 4/6/17 Tr. 5238 (Leonard).

Regarding a comparison of revenue growth to streaming growth, Professor Hubbard dismisses as economically ''meaningless'' Copyright Owners' argument that they have suffered *relative* economic injury under the current rate structure simply because the increase in their revenues from interactive streaming has been proportionately less than the growth in the number of interactive streams, leading mathematically to a lower implicit or effective per stream royalty rate. That is, he notes there is no evidence to rebut this *prima facie* indication of beneficial price discrimination, *i.e.,* no contrary evidence indicating that, if the Services had sought to increase the price of the services available to these low to zero WTP listeners because of higher royalties, they would have paid the higher price, rather than declined to utilize a royalty-bearing interactive streaming service. *See* 4/13/17 Tr. 5971–73 (Hubbard); *see also Dissent* at 52.

The Services also link their price discrimination argument to the fact that the marginal physical cost of streaming is zero to the need for a flexible rate structure such as now exists. In this regard, Professor Hubbard notes that, because ''[t]he marginal production cost at issue here is—is zero. . . . it's not clear why it's not better to bring new customers into the market on which royalties would be paid and, of course, zero marginal cost incurred.'' 4/13/17 Tr. 5917–18 (Hubbard). *See also* Marx WDT ¶ 97 (''Setting the price of marginal downstream listening at its marginal cost of zero induces more music consumption and variety than per-song or per-album pricing.'').

Professor Marx makes the same argument as to the salutary nature of price discrimination in this context with regard to Spotify's ad-supported approach. Focusing on the first purpose, Spotify is attracting ad-supported listeners who have a relatively low WTP, whether they have low incomes, (a budget constraint) or low interest in music (low ''utility,'' in the parlance of economists). These listeners, and the advertising revenue they generate are real and reflect the WTP of a large swath of all interactive listeners. *See* Marx WRT ¶ 115–16 & Fig. 9 (''While I agree that one aspect of the ad-supported service is to provide an on-ramp to paid services, it also has another important aspect, namely to serve low WTP customers. . . . Copyright Owners' economists err in not calculating the impact of the Copyright Owners' proposal on ad-supported services. Ad-supported services currently make up a majority of subscribers and [REDACTED]% of all streams in the industry.'').

Accordingly, a separate tier for an ad-supported service accounts for the different nature of the downstream listenership, allowing the upstream royalty to be based on that characteristic. This differentiation was essentially acknowledged by Copyright Owners late (*too late,* actually) when they proposed in their post-hearing filing that ''if the Judges intend to include the Spotify ad-supported

service in the rate structure and rate calculations, that they do so by establishing separate *rates and terms* for the ad-supported service. *See* COPCOL (Corrected) ¶ 228 & n.34. But the PR II-benchmark already incorporates separate rates for free/ad-supported services![126]

Another important evidentiary factor buttressing the need for price discriminatory rates and structures was the testimony of the Services' survey expert, Mr. Robert Klein, Chair and co-founder of Applied Marketing Systems, Inc. Mr. Klein surveyed 2,101 people (the Klein Survey) who were listeners to streamed music and found, *inter alia,* that: (1) the majority of listeners would not pay for a monthly streaming subscription; and (2) for those who do subscribe, their demand was elastic, with increases in subscription prices causing overall greater percentage reductions in quantity demanded, moving customers to free, ad-supported and non-streaming alternatives. *See Klein* WRT ¶¶ 60–67. By contrast, Copyright Owners did not present any survey testimony. The Determination fully credited the Klein Survey, finding as follows:

> It is important to note that Copyright Owners' attacks on the Klein Survey are not levelled by any witnesses, nor contradicted by their own survey expert, because Copyright Owners elected not to proffer such an expert in their direct (or rebuttal) cases. Rather, Copyright Owners elected to make a descriptive argument regarding the elasticity of demand among different segments of the market, as opposed to a survey-based or econometric study of price elasticity.
>
> [Although] Copyright Owners attack the Klein Survey on several fronts[,] [t]he arguments made by Copyright Owners are insufficient . . . to seriously weaken the probative value of the Klein Survey. In the end, the Judges are not persuaded by the Copyright Owners' revenue bundling arguments not to adopt a flexible, revenue-based royalty rate.

Determination at 22–23 & n.53; *see also* Dissent at 64–67 (including point-by-point rejection of Copyright Owners' non-expert criticisms of Klein Survey).

The Services also note that the existing rate structure has produced generally positive practical consequences in the marketplace. Their joint accounting expert, Professor Mark Zmijewski, testified that the [REDACTED] from the sale of product under (former) Subpart A since 2014 has been [REDACTED] over the same period. Expert Report of Mark E. Zmijewski February 15, 2017 ¶¶ 38, 40 (Zmijewski WRT); 4/12/17 Tr. 5783 (Zmijewski); *see also* 4/13/17 Tr. 5897 (Hubbard) (''the evidence that I reviewed suggests that the copyright holders have actually benefitted from this structure. . . .'').

More particularly, Professor Zmijewski testified that:

- Total revenues reported by the NMPA for NMPA members from all royalty sources [REDACTED]. Zmijewski WRT ¶ 41.
- This [REDACTED]. *Id.*
- The [REDACTED]. *Id.*
- Mechanical royalty revenue for the sale of downloads and physical phonorecords [REDACTED]. *Id.* ¶ 38.[127]

In sum, the foregoing analysis demonstrates the economic reasonableness and appropriateness of the price discriminatory *Phonorecords II rate structure* and its negotiated safeguards to address the real possibility of revenue diminution. As discussed below, the record evidence also supports royalty *rates* within the PR II-based benchmark.[128]

The PR II-based benchmark contain several alternate rates explicitly calculated as a percentage of payments made by interactive streaming services to the record companies for sound recording rights. *See* Addendum to this Initial Ruling. In the Subpart relating to streaming, the (former) subpart B category, the TCC is 22% for ad-supported services and 21% for portable subscriptions. *Id.; see also* 37 CFR 385.13(b)(2) and (c)(2). These percentage figures correspond to sound recording: musical works royalty ratios of 4.55:1 and 4.76:1, respectively.

With regard to these ratios, Copyright Owners' economic expert witness, Dr. Eisenach, stated: ''In my opinion, the evidence . . . indicates that the relative valuation ratios implied by the current Section 115 compulsory license . . . represent *an upper bound on the relative market valuations* of the sound recording and musical works rights.'' *Id.* ¶ 92 (emphasis added). (As an ''upper bound,'' these ratios would represent the *lower bound on the relative market valuations* of the reciprocal percentage of the value musical works rights relative to sound recording rights, again, 22% and 21%.[129]) Thus, there appears to be consensus between Copyright Owners' witness and the Services (who advocate for applying these rates on the price discriminatory tier of their benchmark) that these rates constitute ''relative *market* valuations'' (even if they are not Dr. Eisenach's preferred market valuations within the bounded zone of such values).

Dr. Eisenach's testimony regarding the ''bounds'' of useful market valuations is noteworthy because his acknowledgement is consonant with judicial precedent. The Judges' setting of reasonable rates often requires them to identify a ''zone of reasonableness,'' within which they identify appropriate statutory rates. *See, e.g., Intercollegiate Broadcasting System, Inc.* v. *Copyright Royalty Board,* 684 F.3d 1332, 1340 (D.C. Cir. 2012) (The CRB Judges' rate setting can necessitate the finding of a ''zone of reasonableness [because] ''[s]tatutory reasonableness is an

[126] Copyright Owners also belatedly proposed that the Judges establish specific functionality limits on a separate ad-supported prong to avoid cannibalization of subscriber-based streaming with fuller functionality. *Id.* [REDACTED].

[127] By contrast, Copyright Owners assert that the appropriate approach would only consider interactive service payment of mechanical royalties, and exclude performance royalties. On that basis, revenue, for the sale of digital downloads and physical phonorecords mechanical royalty revenue [REDACTED] from [REDACTED] in 2014 to [REDACTED] (as noted in (4) above, whereas mechanical royalty from streaming [REDACTED] from [REDACTED] in 2014 to [REDACTED] in 2015. Thus, the [REDACTED] in mechanical royalty revenue from streaming [REDACTED] in mechanical royalty revenue from the sale of digital and physical phonorecords. The Judges do not agree with Copyright Owners. Performance royalty and mechanical royalty payments made by the Services are for perfect complements—neither license has any value to the Services unless they acquire both. Indeed, that is a critical reason why the mechanical rate is calculated on an ''All-In'' basis. Thus, it makes sense to make the comparison in the manner undertaken by Professor Zmijewski.

[128] Again, to be clear, the Judges are substituting the 15.1% revenue rate for the 10.5% revenue rate as the headline rate in the ''greater-of'' structure of the *Phonorecords II* benchmark. Thus, the price discriminatory royalty rates discussed below would apply only if they generated a ''greater'' level of revenue than the headline 15.1% revenue rate. And, although the Mechanical Floor rate is not tied *directly* as an alternative to the ''greater-of'' revenue rate (now 15.1% as phased-in), it is not a floor that ignores the effect of that ''greater of'' rate. For example, assume the popular standalone portable subscription streaming service that people access on their mobile phones would pay an ''All-In'' musical works royalty of 15.1% based on the application of the two ''greater-of'' prongs. However, assume also the ''Performance Royalty'' that must be subtracted is 12%. That would leave 3.1% of service revenue attributable to the mechanical right. However, if that revenue rate of 3.1% yielded mechanical royalty revenue that was less than the royalty revenue generated by the applicable monthly mechanical floor of $0.50 per subscriber, then the mechanical floor would control. This application, like any other application of the mechanical floor, does not diminish the value of the 15.1% right, but rather limits *its reduction* under the ''All-In'' calculation. Recall also that the Determination, Dissent and *Johnson* do not disturb the All-In and Mechanical Floor features of the *Phonorecords II* benchmark.) And finally, with regard to the actual per subscriber monetary values in the mechanical floors, no party suggested changes from rate levels in the PR II-based benchmark, including in the mechanical floor rates. The Judges recognize, as did Dr. Katz, Pandora's economic expert witness, that alternate values might have been preferable for rates contained in the PR II-based benchmark, but none were in the record. *See* 4/15/17 Tr. 5056–58 (Katz).

[129] 1 ÷ 4.55 = .219, or 22% (rounded); 1 ÷ 4.76 = .210 (21%).

abstract quality represented by an area rather than a pinpoint.'').

The 21% and 22% TCC rates within section 115 identified by Dr. Eisenach as generating the ''lower bound on the relative market valuations'' imply certain approximate percent-of-revenue rates, *i.e.,* percent of total service revenue (not percent of sound recording revenue). *See Dissent* at 91, n.133 (sound recording rates clustered between [REDACTED]% and [REDACTED]% of revenue). For example, if the sound recording royalty rate for interactive streaming is [REDACTED]% of revenue, then the musical works rate would be calculated as 0.21 × [REDACTED], which equals [REDACTED]%, (or as .22 × [REDACTED] which equals [REDACTED]%). At the low end of the range, if the sound recording royalty rate is [REDACTED]%, then, applying these TCC figures, the implied musical work royalty rate would be calculated as [REDACTED]% (.21 × [REDACTED]) or [REDACTED]% (.22 × [REDACTED]).[130]

It is important to emphasize and detail the context of these price discriminatory rates. These capped TCC rates are on the ''greater of prong'' that is compared with the headline 15.1% revenue rate (phased-in) that the Judges are also adopting in this Initial Ruling. As phased in, the headline rate is greater than all the capped TCC-based rates identified in Dr. Eisenach's testimony, *supra,* [REDACTED]. For 2019, the phased-in headline percentage rate, 12.3%, is [REDACTED] the [REDACTED]% and [REDACTED]% revenue rates derived if the sound recording rates was [REDACTED]%. For 2018, the phased-in headline percentage rate, 11.4%, is [REDACTED] all the rates derived from the capped TCC rates Dr. Eisenach identified as ''market valuations'' (albeit the lower bound in his opinion). But that is of no negative consequence for Copyright Owners, because they would get paid on the ''greater-of'' metric (capped TCC or headline rate) under the *Phonorecords II*-based rate structure the Judges are adopting (For the portable subscriptions, even though the 80 cents/subscriber ''lesser-of'' portion of the non-headline prong would apply on that prong if it was lower than the capped TCC rate, the actual rate could not be lower than the phased-in headline rate.)

Dr. Eisenach also examined direct agreements between record companies and interactive streaming services that contain rates for sound recordings and mechanical royalties, respectively. *See, e.g., id.* ¶¶ at 84–91. In such cases, the ratio of sound-recording to musical-works royalties ranged tightly between [REDACTED] and [REDACTED], closely tracking the regulatory ratios implicit in the section 115 TCC. *Id.* ¶ 92. (The [REDACTED] ratio equates to a TCC rate of [REDACTED]%, and the [REDACTED] ratio equates to a mechanical rate of [REDACTED]%.). He concluded, as he did with regard to the actual section 115 license rates: ''In my opinion, the evidence presented . . . indicates that the relative valuation ratios implied by the . . . negotiations under [the statutory] shadow—ranging from [REDACTED] [[REDACTED]%] to [REDACTED] [[REDACTED]%]—represent an *upper bound on the relative market valuations of the sound recording and musical works rights.*'' Eisenach WDT ¶ 92 (emphasis added).

Dr. Eisenach also identified several additional useful benchmarks. First, he identified what was coined the ''Pandora Opt-Out Agreement'' benchmark,[131] which reflected a ratio of [REDACTED] of sound-recordings to musical-works in a comparable benchmark setting. This ratio translates to a TCC percent of [REDACTED]%. With sound recording royalty rates of approximately [REDACTED]% to [REDACTED]%, this TCC reflects an effective percentage of total revenue equal to [REDACTED]% to [REDACTED]%.

Second, Dr. Eisenach identified YouTube agreements with music publishers that relate to the combination of a commercial sound recording and a ''static image.'' The YouTube agreements contain an explicit royalty of [REDACTED].[132] That [REDACTED]% royalty is a denominator in the ratio concept utilized by Dr. Eisenach, and the numerator is the [REDACTED] sound recording royalty paid to the record companies. YouTube had agreed to pay [REDACTED]% of its revenues, and had agreed to pay [REDACTED] and other record companies [REDACTED]% of revenues. The [REDACTED] ratio reduces to [REDACTED], implying a TCC ([REDACTED]) of [REDACTED]%. The [REDACTED] ratio reduces to [REDACTED], implying a TCC ([REDACTED]) of [REDACTED]%. *See* Dissent at 101–102.

These additional rates identified in Dr. Eisenach's testimony further confirm the reasonableness of the non-headline rates within the PR II-based benchmark.

Finally, the Judges look at the effective rates paid by Spotify, the largest interactive streaming service in terms of in terms of the number of subscriber-months and the number of plays. *See* Marx WRT ¶¶ 37–38 & Figs. 8 & 9. Under the PR II based benchmark, Spotify paid on its *subscription* service an effective ''All-In'' royalty rate of [REDACTED]% of its total revenues. *See* Dissent at 80, 115, 149 (and record citations therein). Spotify paid this effective percent-of-revenue rate [REDACTED]. *See id.* at 29 (Table).

Turning to Spotify's free/ad-supported offering (and as noted *supra*), Spotify paid royalties under the PR II Rates at an effective ''All-In'' royalty rate of [REDACTED]%. Spotify paid this effective percent-of-revenue rate [REDACTED]. *See id.* When Spotify's two tiers are blended and averaged, the effective percent-of-revenue rate is [REDACTED]% of revenue. *See id.* at 116. The average rate has salience in this proceeding because Spotify's two

[130] Dr. Eisenach's identification of the 21%–22% TCC as within the bounds of market valuations may appear surprising at first in light of the higher 26.2% uncapped TCC rate pursued (unsuccessfully) on remand by Copyright Owners. But in the context of his testimony, Dr. Eisenach's opinion is understandable. The former headline rate of 10.5%, when sound recording rates ranged from approximately [REDACTED]% to [REDACTED]% of streaming revenues, yielded TCC rates between [REDACTED]% and [REDACTED]%. Thus, Dr. Eisenach was identifying a market valuation [REDACTED] (at his lower bound) between [REDACTED]% (the difference between 21% and [REDACTED]%) and [REDACTED]% (the difference between 22% and [REDACTED]%). Again, for context, this Initial Ruling raises the percentage rate by *44%* when fully phased-in (based on the experts' Shapley analyses, significantly above the TCC rates advocated by Dr. Eisenach, even assuming the [REDACTED]%–[REDACTED]% sound recording rates on which he relied.

[131] Pandora was only a noninteractive service at that time, and thus only paid the performance right royalty, not the mechanical right royalty, for the right to use musical works. Because the parties agree that the performance right and the mechanical right are perfect complements, Pandora's payments for the performance right are thus relevant and probative, as they reflect the full value of the musical works royalty to a noninteractive service. These factors became relevant because major music publishers had negotiated direct licensing agreements with Pandora for its *noninteractive* service covering the period from 2012 through 2018. Eisenach WDT ¶ 103. They negotiated these direct agreements after certain publishers had decided to ''opt-out,'' *i.e.,* to withdraw their digital music performance rights from PROs, and asserted the right to negotiate directly with a digital streaming service. Pandora thus negotiated several such ''Opt-Out'' Agreements with an understanding that the rates contained in those direct agreements might not be subject to rate court review and thus could reflect market-based rates. Given this unique circumstance, and given that the markets and parties involved in the Pandora Opt-Out agreements are somewhat comparable to the markets and parties at issue in this proceeding, Dr. Eisenach concluded that *these agreements provided* ''significant insight into the relative value of the sound recording and musical works rights in this proceeding.'' *Id.* (emphasis added). (The Judges did not adopt Dr. Eisenach's speculation that this performance royalty would continue to grow after 2018. *See* Determination at 51; Dissent at 102–103.)

[132] Dr. Eisenach preferred to use YouTube agreements that included [REDACTED], but the Judges relied on [REDACTED] as more comparative. Determination at 50; Dissent at 102.

tiers are interrelated, in that free/ad-supported listeners constitute a pool of potential converts to the subscription tier under this ''freemium'' model, even as this offering generates royalties under the PR II-based benchmark.

d. Copyright Owners' Concern Regarding Revenue Diminution Is Insufficient To Reject the PR II-Based Benchmark

Copyright Owners argue that what the Services tout as beneficial price discrimination generates an ''incredible'' level of revenue diminution, including displacement, resulting in a ''major problem'' that reduces reportable revenues and thus the royalty base. *See, e.g.,* 3/7/22 Tr. 193 (Copyright Owners' counsel). This argument is based upon documents and evidence that demonstrated the following:

- [REDACTED];
- [REDACTED].
- [REDACTED];
- [REDACTED];
- [REDACTED];
- [REDACTED]
- [REDACTED];
- [REDACTED];
- [REDACTED]; and
- Copyright Owners' expert, Dr. Rysman, testified that interactive services often elect to forgo current profit maximization, *e.g.,* by charging lower prices, in order to build a customer base and greater long-run profitability or value, from selling music and non-music products or services to its customers.

CO Initial Submission at 40–42 (and record citations herein).

The Services' economic experts do not ignore the fact that there can be revenue attribution problems when interactive streaming is combined with other products or services. They acknowledge that, even absent any wrongful intent with regard to the identification and measurement of revenue, attribution of revenue across product/service lines of various services can be difficult and imprecise. *See, e.g.,* 4/5/17 Tr. 5000 (Katz) (problem of measuring revenue ''certainly a factor that goes into thinking about reasonableness.'').

However, Professor Katz testified that the existing rate structure agreed to by the parties accommodates these bundling, deferral, and displacement issues via the use of an alternative rate prong that would be triggered if the royalty revenue resulting from the headline rate of 10.5% of streaming revenue fell below the royalty revenue generated by that second prong. Katz WDT ¶¶ 82–83; 3/13/17 Tr. 670 (Katz). Moreover, Professor Katz concluded that, because the marketplace appears to be functioning (in the sense that publishers are earning profits and new and existing interactive streaming services continue to operate despite accounting losses), these revenue-measurement issues are being adequately handled by the alternative rate prong, even if an altered second prong might work better. *Id.* at 738–39. More generally, Professor Katz further noted that, the existing rates within the PR II-based benchmark were performing well, and even if alternative minima might be preferable, no such alternative rates were in the record. *See* 4/15/17 Tr. 5056–58 (Katz) (under the PR II-based benchmark ''the industry . . . was performing well,'' but ''if someone had a proposal [with] a specific reason why we should adjust this minimum that's something I would have examined,''). But Copyright Owners did not propose alternative rates or minima within the PR II-based benchmark, but instead urged the Judges to disregard the benchmark *writ large.* Accordingly, there were no alternative rates or minima in the record.

Professor Katz further noted that the PR II-based benchmark rates were established when ''ecosystem'' entities such as Yahoo—akin to Amazon, Apple, and Google—were in the marketplace. 4/5/17 Tr. 5055–57 (Katz); see also Determination at 31 (and record citations therein) (noting the presence of Microsoft as well as Yahoo as licensees in the interactive market during the *Phonorecords II* negotiations).

More broadly, the Services' position regarding the use of the two prongs and their alternate rates to ameliorate the revenue-measurement problems is summed up by Professor Katz as follows:

> [T]he primary reason [for the two rate prongs] . . . is because of the measurement issues that can come up when having royalties based on a . . . percentage of revenues because there can be issues about how to appropriately assign revenues to a service. And so I think the minim[a] can play an important role when those—you know, when those measurement problems are severe, you can turn to the minimum instead. . . . [W]hat I have in mind, right, is that what would happen if you could imagine an entrepreneur coming along and saying we want to have a service and have some incredibly low price and not a very good monetization model, where a copyright owner would say—in an effectively competitive market, would say, wait a minute, I don't want to license to you on those terms. It's—I just think the possibility of getting a return is so low, I'm not going to do it, even though you, as an entrepreneur, are willing to try this. I as the copyright owner want some sort of, you know, return on it. And that's what the minimum also helps to do.

3/13/17 Tr. 599 (Katz.); *see also* 3/20/17 Tr. 1900–01 (Marx) (minima protect against revenue measurement problems); 4/7/17 Tr. 5584 (Marx) (statutory minima play ''two roles''—*protecting the Copyright Owners* from ''revenue mismeasurement'' by creating the ''greater of'' prong,'' but incorporating per subscriber rate prong in ''lesser of'' component *to protect services* from the record companies' use of their market power to engage in ''manipulation of the sound recording royalties'' on which the TCC prong is calculated).

After considering the record, the Judges determine that the Majority had not found—as Copyright Owners claim—that the activities and strategies by the Services were ''incredible'' or a ''major problem. Rather, the Majority's characterization was measured, stating repeatedly that the Services engaged ''*to some extent*'' in revenue diminution because they ''*might* focus on long-term profit maximization to promote their long-term growth strategy, which occurs ''even absent wrongful intent.'' Determination at 20–21, 36, 90; *accord,* Dissent at 59. In fact, the Majority specifically stated: ''The Judges agree that there is *no support for any sweeping inference that cross-selling has diminished the revenue base.*'' *Id.* at 21 (emphasis added). The Majority (and the Dissent) thus acknowledged the reasonableness of both sides of this issue, recognizing both the Services' use of price discriminatory approaches that can lower per user or per-stream revenues but grow royalties, market share and revenue, as well as Copyright Owners' concomitant desire to protect themselves from reductions in the royalty revenue base, however limited in extent, that would only serve to diminish royalties.

One way the input supplier can avoid this impact is to refuse to accept a percent of revenue form of payment and move to a fixed per-unit input price. This is what Copyright Owners originally and unsuccessfully sought in this proceeding, subject to a bargaining room approach by which they could switch back to the old approach (or any other approach) through purely market-based negotiations, unbounded by the statutory and regulatory standards of ''fairness'' and ''effective competition.'' *See* Dissent at 60.

The Judges must reconcile the parties' competing considerations. A way by which they are both accommodated is through a pricing structure with

alternate rate prongs and floors, below which the royalty revenue cannot fall. This is precisely the bargain struck between Copyright Owners and services in 2008 and 2012, and that has been the rate structure through 2017. And, because the Majority and the Dissent found that revenue diminution occurred only ''to an extent,'' rather than in the pervasive (sweeping'') manner averred by Copyright Owners, there is no sufficient reason in the record to depart from the bargained-for multi-tiered rate structure in *Phonorecords II* that allows for price discrimination but tempers its impact on royalties through the use of minima and floors.

e. Copyright Owners' Claim of ''Inherent'' Economic Value Is Belied by the Record, Including Their Own Arguments

Pre-remand, Copyright Owners approached this rate setting process with an overarching premise: A musical work has an ''inherent value'' that must be reflected in the royalty rates. As the NMPA's president, Mr. Israelite testified, when asked how ''inherent'' value is defined:

> [W]hoever owns an individual copyright is the one to define it. I think that would be the most appropriate definition of it. What someone is willing to license it for would be that inherent value to that owner . . . That would be market value.

3/29/17 Tr. 3707 (Israelite).

If the market for musical works was as atomistic as the above quote assumes, the songwriter of an individual musical work could indeed set his or her own royalty rate, and refuse to license to any streaming service or other distributor who refused to pay that royalty. But that is not how the licensing market works.[133] Songwriters typically assign their licensing rights to music publishers (to avoid ruinous transaction costs). These music publishers control huge ''Must Have'' repertoires that are offered under blanket licenses to streaming services. (The musical works market of course is subject to a compulsory license, but this is precisely how the unregulated market works for the licensing of sound recordings by labels to interactive streaming services.) It is acknowledged even by Copyright Owners' own expert witness, Professor Watt that the creation of these large collectives generates market power that necessitates rate regulation. *See* R. Watt, *Copyright and Economic Theory: Friends or Foes* at 163, 190 (2000) (quoted in Dissent at 35).

Further, this ''inherent'' market value notion is antiquated as a matter of economics. Although an individual Copyright Owner can announce his or her ''asking'' royalty, that is not sufficient to generate a ''market'' royalty, unless and until a licensee agrees to pay it. In market-based economics. that is to say, the economic consensus that has governed economics since the ''marginal revolution'' in the mid to late 19th century, value is ascertained through the intersection of supply and demand, with the price established at the margin representing the market value of the good or service bought and sold.[134] If there is no demand for a product, be it a musical work or anything else, it has no economic value. Even though costs have been incurred to produce the product, those costs cannot be recovered (or profit earned) absent a sufficient WTP in the market. And, as noted *supra,* the product being offered and at issue here is comprised of ''second copies'' of sound recordings (with embedded musical works), which are costless to reproduce for streaming purposes. Of course, these ''second copies'' do have actual value when they are in demand, and the royalties that their licensing generates must cover: (1) the first copy (creative) costs; (2) the ''opportunity cost'' (measured by the next best alternative for royalty earnings if the ''second copies'' could have been supplied through another distribution channel that paid higher royalties to attract the end-user/consumer at issue); and (3) profits to induce the creation of musical works.

Second, the fact that Copyright Owners originally proposed a per-subscriber alternative rate to their per-play rate itself belies their conviction that some ''inherent'' economic value exists. When the metric of value switches from ''per-play'' to ''per-subscriber,'' the focus of value likewise shifts from an emphasis on producer value to consumer value. That is, if there is truly an ''inherent'' value for a product or service, that singular value cannot divide into two distinct values with the ''greater-of'' the two controlling. Such an argument gives away the game, so to speak, demonstrating, perhaps unsurprisingly, that economic arguments (not unlike legal advocacy) are often situational—designed to support maximalist positions and the exercise of market power, however acquired. *See also* Determination at 28 n.64 (rejecting the ''inherent value'' argument).

f. PR II-Based Benchmark Not ''Too Complex''

Copyright Owners and the Majority complained that the PR II-based benchmark is too complex. *See* Copyright Owners' PFF ¶ 12 (criticizing complexity of PR II Rates as lacking ''transparency''); Determination at 36 (characterizing parties' negotiated, renewed, and expanded rate structure as Rube-Goldberg-esque in complexity and impenetrability.'')

After considering this issue on remand, the Judges disagree. If some songwriters or lyricists have been confused by their royalty statements, their confusion of course should be resolved. However, one of the benefits of a collective is that it possesses the expertise and resources to identify and explain how royalties are computed and distributed. Moreover, this claim of complexity cannot serve as a basis to override the multi-part negotiated benchmark that the parties, through their respective trade associations, negotiated and implemented. As the Dissent stated: ''There is no good reason why the rate structure that is consonant with the parties' ten-year history and with the relevant economic model should be sacrificed on the slender

[133] The record does not include evidence of self-marketing by songwriters through social media or via negotiation of individual royalty contracts by the exercise of overwhelming star power, whether through traditional payment mechanisms or new methods, such as the murky mechanism of non-fungible tokens (NFTs). The absence of incidents of such self-marketing from the record evidence in this proceeding suggests that they likely constitute but a small segment of the songwriter/publisher market. Accordingly, such self-marketing and individual negotiations do not impact the Judges' setting of statutory rates in this proceeding.

[134] As one scholar has summarized the 19th century transition from classical to neoclassical economics: ''By the early 1870s, economics reached a tipping point, and it ushered in a revolution in thought, signaling the beginning of the ''modern,'' or ''neoclassical'' era. Marginalists flipped classical economics on its head. Instead of focusing on the production side of economics, they turned to consumption. It is the satisfaction of the wants of consumers that matters for value, not the labor required for production. What established the overall value of a good is the value fetched by the final unit of that item on the market. As more units of a good are produced, the marginal value of the last unit tends to decrease. . . . According to marginal utility, the consumer, not the producer, therefore drives the valuation process.'' J. Wasserman, *The Marginal Revolutionaries* at 28 (2019). This transformation reflected the abandonment of the ''labor theory of value''—the cornerstone of Marxian economics. *See* E.R. Canterbury, *A Brief History of Economics* at 111 (2001) (''Marx's devotion to a labor theory of value was complete.''). It initially appears as irony that Copyright Owners espouse a Marxian approach to value while preaching the virtues of unregulated markets. The initial whiff of irony dissipates when one appreciates that a collective licensor with the market power of control over a ''Must Have'' input has every incentive to urge a pricing or valuation method that takes the focus away from the force of consumer demand in an effectively competitive market, which is a hallmark of neoclassical economics.

argument that ''simpler is better than complicated.'' Dissent at 88.[135]

Further, section 801(b)(1) does not identify ''simplicity'' as a statutory goal for the setting of rates, rate structure, and terms. Although there is certainly no need for gratuitous complexity, the price discriminatory structure and the associated levels of rates in the PR II-based benchmark that were eliminated by the Majority (while maintaining all the remaining complexity) were most certainly not gratuitous, but rather designed, after negotiations, to establish a structure that would expand the revenues and royalties to the benefit of Copyright Owners and Services alike, while also protecting Copyright Owners from potential revenue diminution by the Services. Moreover, when the market itself is complex—in that the WTP across consumer groups is heterogeneous and the offerings reflect that fact—it is unsurprising that the regulatory provisions would resemble the complex terms in a commercial agreement negotiated in such a setting. For the Judges to demand simplicity in this context would be to sacrifice the specificity that an effectively competitive market requires. *See* Dissent at 88 (rejecting the simplicity argument by invoking the advice attributed to Albert Einstein that ''[e]verything should be made as simple as possible, *but no simpler.*''

g. So-Called Statutory ''Shadow'' Does Not Diminish Value of the PR II-Based Benchmark Rates

Copyright Owners maintain that the rates in the PR II-based benchmark are infirm because, like any benchmark for which a statutory rate is the default, they are not actual market rates. That is, such a rate is said to exist in the so-called ''shadow'' of the statutory rate. *See* Dissent at 70 (and citations therein).

The Judges reject this argument for several reasons. First, the argument is undercut by the explicit language of section 115 of the Copyright Act, which states: ''In addition to the objectives set forth in section 801(b)(1), in establishing such rates and terms, the Copyright Royalty Judges may consider rates and terms under voluntary license agreements described in subparagraphs (B) and (C).'' 17 U.S.C. 115(c)(3)(D). Subparagraphs (B) and (C), respectively, refer to agreements on ''the terms and rates of royalty payments under this section'' by ''persons entitled to obtain a compulsory license under [17 U.S.C. 115(a)(1)]; and ''licenses'' covering ''digital phonorecord deliveries.'' *Id.* Thus, it is beyond dispute that Congress has authorized the Judges, in their discretion, to consider such agreements as evidence, irrespective of—or perhaps because of—the shadow cast by the compulsory license. Thus, the appropriate question is *how much weight* the Judges, in their discretion, should afford such benchmarks in any particular proceeding.

There is no basis to find, as Copyright Owners suggest, that statutorily-based or influenced benchmarks, including specifically the PR II-based benchmark in this proceeding, are *per se* inferior to other benchmarks or alternative economic evidence (*e.g.,* from models, surveys or experiments) that may be unaffected by the shadow. Those other benchmarks or forms of evidence will also be subject to their own imperfections and incompatibilities with the target market and must be identified and weighed accordingly.[136] Thus, the Judges must not only consider (i) the importance, *vel non,* of any potential so-called ''shadow-based'' distortionary effects from a benchmark derived from a *regulated* statutory benchmark market, but also (ii) how any such purported ''shadow'' effects compare to any distortions generated by other proffered benchmarks and competing alternative economic evidence, *e.g.,* distortions based on complementary oligopoly power, bargaining constraints and product differentiation in other benchmarks, models, surveys or experiments.[137]

The Services' experts discount the foregoing shadow-based criticism. Moreover, the Services laud a statutorily-influenced benchmark in general, and the specific PR II-based benchmark in particular, because the latter reflects more equal bargaining power between licensors and licensees. In this regard, one of the Services' economic expert witnesses, Professor Katz, points out that rates set voluntarily by the parties in a settlement under the ''shadow'' provide two important benefits. First, with a statutory rate-setting proceeding as a backstop, large licensors cannot credibly threaten to ''hold out'' and ''walk away'' from the negotiations without an agreement, thereby negating their ability to use their ''must have'' status to obtain rates above effectively competitive levels. Second, when, as here, such negotiations are conducted with *all the parties* at the figurative table—including here, trade associations—no single party has disproportionate market power in the negotiations. *See* 3/13/17 Tr. 661 (Katz).

The Judges agree that settlement agreements reached in the statutory shadow are useful. Although imperfect when considered in *isolation,* in that the statutory proceeding is the default backstop, in *context* they negate the power of any entity simply to refuse to strike a deal. The negation of that power blunts the complementary oligopoly power of licensors of ''Must Have'' repertoires (whether musical works or sound recordings), making a benchmark agreement reached in the so-called ''shadow'' advantageous in establishing an effectively competitive rate. *See Web IV, supra,* 26,316, 26,330–31 (May 2, 2016) (noting counterbalancing effect of statutory license in establishing effectively competitive rates). Further, when such settlement agreements are industrywide, they tend to eliminate disproportionate market power, *See* Dissent at 72; *Web III,* 79 FR 23102, 23111 (Apr. 25, 2014), *aff'd Intercollegiate Broad. Sys., Inc.* v. *Copyright Royalty Bd.,* Case No. 14–1098 (D.C. Cir. Aug. 11, 2015) (relying on two settlement agreements).

Nonetheless, Copyright Owners are correct to note that, hypothetically, some licenses might have otherwise been negotiated at rates higher than the settlement rate that was affected by the so-called shadow. But that is simply the tradeoff that the statutory scheme makes in its identification of settlement rates as evidentiary benchmarks. Such a theoretical problem cannot serve to override the salutary aspects of benchmark settlement agreements. *See Web IV, supra* at 26,630 (rejecting same argument as speculative and ''too untethered from the facts to be predictive or useful in adjusting for the supposed shadow of the existing statutory rate.'').

Lastly, with regard to a benchmark affected by the so-called ''shadow,'' the Judges find that, with regard to the application of the itemized factors in

[135] Copyright Owners' concern for transparency has apparently evaporated in connection with its eagerness to adopt the proffered uncapped TCC rates. Under that approach, the definition of revenue, the handling of bundled products and the exclusion of certain consideration from the royalty base will remain opaque to songwriters—and to the Judges.

[136] It has been famously and wisely said that ''all models are wrong, but some are useful.'' G. Box & N. Draper, *Empirical Model-Building* at 424 (1987). Benchmarks, Shapley, and Nash models, surveys and experiments are all models, in that ''[a] model is a representation of something beyond itself . . . being used as a representative of that something, and in prompting questions of resemblance between the model and that something . . . substitute systems . . . directly examined . . . to indirectly acquire information about their target systems.''). U. Maki, *Models are Experiments, Experiments are Models,* 12 J. Econ. Meth. 303 (2005).

[137] It is also important to note that the reasonable rate and rate structure identified under the section 801(b)(1) standard (before considering the four itemized statutory factors) need not be a market-based rate, as discussed *infra.*

section 801(b)(1), they have the same duty to independently weigh those factors as they do for all otherwise reasonable rates. Thus, the Judges reject the idea that rates and terms reached through a settlement must be understood to supersede—or can be *assumed* to embody—the Judges' current thinking as to the application of the statutory elements set forth in section 801(b)(1). The Judges are obliged to conduct the four-factor analysis anew when considering a previously adopted settlement in a subsequent proceeding—and they do so *infra.* Of course, if on such further analysis, the Judges find that the provisions in an otherwise useful benchmark agreement (including those in a benchmark influenced by the so-called ''shadow'') *do* appropriately reflect the four itemized statutory factors in section 801(b)(1), then the Judges may adopt the provisions of that settlement without a factor-based adjustment.

h. Conclusion Regarding PR II-Based Benchmark

Accordingly, the Judges find the PR II Rates to be a useful benchmark. However, this benchmark is modified by the Judges' substitution of the 15.1% headline percentage rate for the 10.5% headline percentage rate in the benchmark.

D. Precedent Permits Judges To Apply Elements of PR II Rates, Rate Structure and Terms Even if Those Are Not Proffered as Benchmarks

The D.C. Circuit has previously held that the Judges have the authority to adopt elements from the existing rate provisions, if they find that those prevailing provisions better satisfy the statutory requisites than any other proposed structures and rates discernible from the record evidence. *Music Choice* v. *Copyright Royalty Bd.,* 774 F.3d 1000, 1009 (D.C. Cir. 2014). This authority exists even when no party has proffered those provisions in the form of a benchmark.

In *Music Choice* (concerning the setting of satellite radio royalty rates under the same section 801(b)(1) standard), the CRB Judges rejected the parties' proffered benchmarks and instead relied on a percent-of-revenue rate (13%) that was neither a benchmark nor even the prior statutory rate, but merely ''a component of a prior determination.'' *Id.* at 1009. The licensor-party, SoundExchange, argued, like Copyright Owners here, that this component of a prior rate was ''stale,'' ''outdated,'' or ''obsolete.'' Rejecting this argument as ''erroneous,'' the D.C. Circuit stated that ''the Judges did not consider the 13% rate as a current benchmark,'' but rather used it to ''bridge the gap'' caused by the inadequacies of the parties' rejected benchmarks. *Id.* In so doing, the D.C. Circuit held that the Judges properly resolved ''serious problems'' with the licensor's proposal, even as it had ''partially credited it'' and also ''used permissible indicia of reasonableness to help fix the rate.'' *Id.*

Music Choice is highly instructive. Here, on remand, the Judges adopt a modified version of the prior rate structure and rates in *Phonorecords II.* The fact that it was also proffered as a benchmark, in another modified form by the Services, does not render *Music Choice* inapposite. Rather, because the *Phonorecords II* provisions were proffered as benchmark evidence, these provisions were placed squarely into the record, allowing the parties and the Judges to address the relative merits. *A fortiori, Music Choice* underscores the propriety of the Judges approach in this proceeding. That is, even if the Services had not proffered this approach as a benchmark, *Music Choice* allows the *Phonorecords II* approach to serve as a guidepost for establishing the rates and rate structure in this proceeding.

Further, here the Judges are adopting actual elements from the prior rate provisions, rather than, as in *Music Choice,* a mere ''component'' used to generate the prior rate. *A fortiori* yet again, *Music Choice* allows the Judges to prudently utilize the prior rate and rate structure regulations to synthesize a determination in this proceeding. The analogous nature of *Music Choice* is also seen in the Judges' use in the present case of the ''headline'' 15.1% revenue rate proposed by Copyright Owners on remand *combined with* elements from the PR–II regulatory provisions, including its price discriminatory rates. In *Music Choice,* the Judges likewise ''partially credited'' the licensor's proposal, which, as noted *supra,* the D.C. Circuit affirmed.

Finally, the Judges take note that *Music Choice* also addressed the Judges' findings regarding the setting of another statutory license, for Preexisting Subscription Services (PSS), by using a rate in a settlement from a prior period. This context is also analogous here, because Copyright Owners object to the use of the *Phonorecords II* rate structure and rates as the product of a settlement. It is instructive to consider how the arguments of the licensor (SoundExchange) in *Music Choice* mirror those of Copyright Owners in this proceeding:

- SoundExchange notes that this rate ''is *the product of settlement negotiations* that occurred in *SDARS I* between Music Choice and SoundExchange.''
- SoundExchange argues that the Judges arbitrarily rejected . . . more recent data points in favor of the ''outdated'' settlement rate.
- SoundExchange maintains that the Judges conceded that the prevailing rate had limited value, as the settlement rate ''was negotiated in the shadow of the statutory licensing system and cannot properly be said to be a market benchmark rate.''
- SoundExchange also argues that simply reciting that ''nothing in the record persuades the Judges'' that the prevailing rate is unreasonable . . . does not show that [it] is reasonable, or that it is supported by the written record.
- [G]iven the lack of creditable benchmarks in the record, the Judges did not err when they used the prevailing rate as the starting point of their Section 801(b) analysis.
- The Copyright Act contemplates that the Judges would . . . consider ''prior determinations'' and rates established ''under voluntary license agreements.''
- [T]he Judges did not err when relying on the settlement rate. The Judges conceded that the settlement rate does not represent a market rate. . . . But . . . the relevant portion of the Copyright Act does not use the term ''market rates,'' nor does it require that the term '''reasonable rates'' be defined as market rates. . . . The Act authorizes the Judges to consider rates set ''under voluntary license agreements.''
- Music Choice complains that it agreed to a higher rate to avoid litigation costs, but has not introduced evidence that the settlement was involuntary or otherwise unreasonable. It was not arbitrary, then, for the Judges to consider the voluntary settlement rate.

Music Choice, 774 F.3d at 1012–15. These aspects of *Music Choice* are highly instructive, considering the Judges' parallel findings regarding the same and similar arguments as discussed *supra* regarding prior settlement agreements and the so-called ''shadow'' of the statutory rates.

In sum, *Music Choice* provides ample support for the conclusion that, even if the Services had not proffered their PR II-based benchmark, the Judges would have acted well within their authority to give the same weight to the PR II rates and structure as they have in this Initial Ruling.[138]

[138] This ruling is in no way conflicts with the Judges' duty to set rates, rate structures, and terms *de novo* in each rate proceeding, as discussed supra.

E. Four Itemized Factors in Section 801(b)(1)

The Judges have considered the application of the four itemized statutory factors A through D, in connection with their application of the 15.1% revenue rate and their partial use of the PR II-based benchmark.

1. Factor A

The Judges have explained *supra* that price discrimination is a ''win-win'' for Copyright Owners and the Services. By serving low WTP listeners, it brings in new listeners and subscribers who increase royalty payments as well as revenues. Any licensor would prefer to increase its royalties, rather than ''leave money on the table,'' and a rate structure that effects such an increase (through the concept of ''derived demand'') is appropriate. Moreover, for purposes of applying Factor A, a rate structure that increases royalties, *ceteris paribus,* would induce more production of musical works, a result that Copyright Owners should desire.

This point appears to raise a question: How could Copyright Owners and their economic experts object to a rate structure that inures to their benefit as well? The answer is: They do not object. They are not economic naifs. As stated *supra,* they advocate for a rate set under the bargaining room theory, through which rate structures can still be negotiated, but not subject to the ''reasonable rate'' and itemized factor analysis required by law. In those negotiations, as Dr. Eisenach candidly acknowledged, Copyright Owners would have a different threat point to use in order to obtain better rates and terms. 4/4/17 Tr. 4845–46 (Eisenach).

Second, given a heterogeneous downstream WTP, it would not be more profitable simply to equate ''availability'' with a higher rate. As noted *supra,* any product that is priced beyond the WTP of a significant portion of the public is *unavailable* to that segment.[139] Royalties that are aligned with the varying WTP of different classes of listeners will make downstream price discrimination more affordable to the services, driving new revenue and royalties—precisely as the PR II-based benchmark allows.[140] In this regard, Copyright Owners have taken a cramped and unrealistic view of such incentives. In particular, the Judges disagree with Copyright Owners' expert economic witness, Professor Rysman, who startlingly asserted in response to a hypothetical from the bench that even a $10,000 per month subscription price would increase ''availability.'' 4/3/17 Tr. 4397 (Rysman).

The Judges find Professor Rysman misapprehends the nature of a price signal. If the price is so high as to eliminate or reduce total revenue to creators, in no way will higher rates simply induce the supply of creative works over time. Indeed, even monopolists do not seek the highest price possible, but rather seek to maximize profits. *See* E. Mansfield & G. Yohe, *Microeconomics* at 362–63 (11th ed. 2004) (''Monopolies maximize profits by producing where marginal cost equals marginal revenue.''). Thus, even monopolists, who have the most market power, are constrained in their pricing by the demand curve and the marginal revenue it creates. Simply put, although a higher royalty *rate* might have an immediate superficial appeal, if the consequence will be lower revenues, the high per-play rate would reveal itself as a form of fool's gold.

In sum, the Judges find that the Factor A objective of ''maximizing the availability of creative works'' is furthered by an upstream rate structure that contains multiple royalty rates reflective of and derived from downstream variable WTP, because it will facilitate beneficial price discrimination. Such price discrimination allows for access to be afforded ''down the demand curve,'' making musical works available to more members of the public. However, there is no evidence to suggest that the price discriminatory rates should be changed, in order to address the connection between price discrimination and the objective of Factor (A). Accordingly, the Judges find no basis to adjust either the rate structure or the rates based on Factor (A).

2. Factors B and C

The concepts of ''fair income,'' ''fair return'' and recompense for costs and other contributions was considered in connection with the setting of the 15.1% revenue rate. In that context, the Judges analyzed the Shapley Value modeling that was designed to generate ''fair'' rates that allowed the parties to recover their costs and to share the surplus (over and above costs) in a manner that: (1) prevented the ''Must Have'' Input Suppliers (the record companies and Copyright Owners) from using the essential aspect of their inputs to engage in hold-up by threatening to withhold their respective repertoires; and (2) allocated surplus shares according to each party's contribution to the surplus (as calculated though the ''arrival orderings'' in the Shapley model).[141]

The PR II-based benchmark was the product of an *industrywide* negotiation, with the music publishers represented by the NMPA and the interactive streaming services represented by DiMA, their respective trade associations. As explained in the Dissent, *supra,* at pp. 137–39, when an industrywide settlement is reached, particularly when the default procedure is a contested rate proceeding before the Judges, it contains the same benefits with regard to the avoidance of the ''hold-out'' effect and the equalizing of bargaining power as produced by Professor Marx's Shapley value modeling. *See* 3/13/17 Tr. 577 (Katz) (''I think of the shadow as balancing the bargaining power between the two

The *de novo* process requires the Judges to weigh new evidence regarding potential new rates, rate structures, and terms, but that is not inconsistent with the Judges' ability, as explicated by the D.C. Circuit in *Music Choice,* to adopt prior rates, rate structures, and terms in whole or in part if, in their discretion, the new evidence is deficient. *See Music Choice, supra,* at 1012 (''The Judges were under no obligation to salvage benchmarks they found to have fundamental problems.'').

[139] The concept of willingness-to-pay (WTP) as used by economists is an antiseptic phrase, because it includes not merely people who do not value a music streaming subscription highly, but also individuals and families who are ''income constrained'' (yet another antiseptic phrase, read ''low income'' people and families) who lack the ''ability-to-pay'' for an interactive subscription. That segment of the population likely reflects a significant portion of the nation, because ''40% of Americans would struggle to come up with even $400 to pay for an unexpected bill,'' let alone pay for a music streaming service. See *https://www.minneapolisfed.org/article/2021/what-a-400-dollar-emergency-expense-tells-us-bout-the-economy.* When the royalty rates paid by interactive services enable streaming services to satisfy the demand of these low-income consumers (through the principle of ''derived demand'') that segment of American society can enjoy the benefits of listening to interactive streamed music, even if the offerings they can afford lack the large catalogs and ''bells and whistles'' of a pricier service.

[140] To be sure, royalties will not increase in equal proportions with increases in the number of streams or listeners, but that is a feature of price discrimination, not a bug. The goal is to generate revenues from low WTP listeners who otherwise would be lost as sources of revenues and royalties to both the interactive services and Copyright Owners.

[141] As noted elsewhere in this Initial Ruling, Professor Marx, Spotify's economic expert witness, reduced the relative market power of the input suppliers in her model which she claimed would be consonant with the ''fairness'' objectives in Factor B. On behalf of Copyright Owners, Professor Watt disagreed, arguing that the Shapley approach takes the existing market power as reflective of the parties' market contributions, and thus needs no adjustment. The Majority utilized Professor Marx's Shapley-based calculation of a total royalty payment of [REDACTED]% of service revenue in setting a 15.1% revenue rate (phased-in), which the Judges are adopting in this Initial Ruling. The Majority also used Professor Marx's calculation to find that Factors B and C were satisfied without further adjustment. *See* Determination at 68 & n.120, 75, 86–87. But this issue is not relevant to the present discussion of Factors B and C with regard to the application of the PR II-based benchmark.

parties.''); Katz CWRT 136, n.236 (''there are market forces that promote the achievement of the statutory objectives in private agreements, such as the 2012 Settlement, when the parties are equally matched (it was an industry-wide negotiation) and the negotiations are conducted in the shadow of a pending rate-setting proceeding that can be expected to set reasonable rates in the event that the private parties do not reach agreement.'').

Accordingly, this benchmark already incorporates the dynamics of a negotiation between parties with mutually countervailing power (although those dynamics required updating of the headline rate to 15.1% to account for the higher revenues, as undertaken by the Majority's Shapley analysis). *See Web V,* 86 FR 59452, 59456 (Oct. 27, 2021) (''the licensor-side complementary oligopoly power could be ameliorated by the ''*countervailing power*'' of a licensee'').

Therefore, the Judges do not make any adjustment in their application of the PR II-based benchmark pursuant to Factors B and C.

3. Factor D

As noted *supra,* the Judges understand that a Factor D adjustment is warranted if the rate the Judges would otherwise establish

> directly produces an adverse impact that is substantial, immediate and irreversible in the short-run because there is insufficient time for either [party] to adequately adapt to the changed circumstance produced by the rate change and, as a consequence, such adverse impacts threaten the viability of the music delivery service currently offered to consumers under this license.

Determination at 87.

There is no record evidence to suggest that the Services' PR II-based benchmark, as utilized by the Judges in this Initial Ruling, would create the requisite ''adverse impact'' to trigger Factor D. The Services certainly do not assert that their own proffered benchmark would be disruptive. With regard to Copyright Owners, the Judges cannot identify any aspect of the PR II-based benchmark that would cause the type of disruption that can serve as an adjustment under the statutory language of Factor D or the Judges' application of same, as quoted above. The Judges understand Copyright Owners' complaint to be principally that [REDACTED] during the *Phonorecords II* period, [REDACTED] the number of musical works streamed via sound recordings performed on interactive services. However, that is most certainly not any sort of disruption, let alone a disruption cognizable under section 801(b)(1) and under the Judges' application of that provision.

F. Subpart C Offerings Covered by Foregoing Analysis

The *Phonorecords II* parties also negotiated several new service types—paid locker services, purchased content locker services, mixed service bundles, music bundles and limited offerings. These service configurations were described in subpart C of 37 CFR 385 under the *Phonorecords II* regulatory provisions.[142] Parness WDT ¶ 13; Levine WDT ¶¶ 38–39; Israelite WDT ¶¶ 28–30. These negotiations spanned more than a year. *See* 3/29/17 Tr. 3652–55 (Israelite) (involved protracted bargaining, in which NMPA rejected some categories, while others were accepted and became part of subpart C). *Id.* at 3654–56. The parties ultimately agreed on a structure for subpart C that resembled the subpart B structure, including a headline percentage of revenue royalty rate and per-subscriber and TCC minima. Parness WDT ¶ 14; *see also* 37 CFR 385.22. As with the bundling negotiations relating to subpart B, the parties negotiated and created a bundled service category under subpart C (with certain adjustments to the definition of ''revenue.'') 3/8/17 Tr. 161–64 (Levine); 37 CFR 385.21.

Copyright Owners urge the elimination of the subpart C provisions as essentially obsolete because locker services for ''purchased content'' (new download purchases) and for ''paid'' downloads (already owned) have largely disappeared, as listeners transitioned away from ownership models to access models. *See* 3/8/17 Tr. 159–160 (Levine); 3/16/17 Tr. 1458–1461 (Mirchandani); Mirchandani WDT ¶ 33; 3/22/17 Tr. 2523 (Dorn). Copyright Owners also re-assert the same arguments with respect to subpart C as they have for interactive streaming in subpart B. *See* CORPFF–JS at p.2.

The Services argue that Copyright Owners do not point to any evidence to show that locker services have *completely* disappeared, emphasizing that Apple and Amazon continue to offer locker service. Joyce WDT ¶ 5; Mirchandani WDT ¶¶ 16–17; 3/22/17 Tr. 2523–25 (Dorn); Ramaprasad WDT, Table 3. More generally, the Services urge the Judges to use the subpart C rate structure as the benchmark for rates in the forthcoming period for the same reasons as they urge the use of the subpart B rates as an appropriate benchmark. *See* Mirchandani WDT ¶¶ 58–62.

The Judges find no reason on remand to treat the subpart C offerings differently than the manner in which they are treating the subpart B interactive streaming offerings, for the reasons set forth in the Dissent at 118–119. That means, however, that the various ''headline'' rates for these subpart C offerings must also adjust to 15.1%,[143] whereas the alternative rates (identified in subpart C as ''minima'' and ''subminima)'' rates shall remain unchanged.

IV. Change in Definition of Service Revenue for Bundles [144]

The Judges analyze the definition of ''Service Revenue'' for bundled offerings in the context of the partial adoption of the PR II-based benchmark. As discussed *supra,* the Judges have found that the PR II-based benchmark is a useful benchmark, particularly because of its features that incentivize beneficial downstream price discrimination that generates more listeners, revenues, and royalties.

A. Background

In their Initial Determination, the Judges adopted a definition of ''Service Revenue'' (*i.e.,* a royalty base) for a ''Bundle'' [145] that provided, in pertinent part:

> Service Revenue shall be the revenue recognized from End Users for the Bundle less the standalone published price for End Users for each of the other component(s) of the Bundle . . .

Initial Determination, Attachment A at 7 (§ 382.2 therein).[146]

[142] The interactive steaming (and limited download) provisions that are the principal subject of this proceeding were contained in subpart B of the *Phonorecords II* (and *Phonorecords I*) regulations. (These subparts were reorganized pursuant to the now vacated Determination.)

[143] Accordingly, in the PR II-based benchmark, the subpart C ''headline'' rates that shall adjust to 15.1% are: 11.35% for Mixed Service Bundles; 11.35% for Music Bundles; 10.5% for Limited Offerings; 12% for Paid Locker Services; and 12% for Purchased Content Locker Services. *See* 37 CFR 385.22(a)(1) (*Step 1*); 385.23(a)(1) through (5).

[144] Judge Strickler disagrees with the *procedural* analysis of a different majority by which they readopt the Bundled Revenue definition from the Initial Determination, and he dissents on that specific issue. However, Judge Strickler concurs and joins with the Majority regarding the *substantive* re-adoption of that definition from the Initial Determination. Judge Strickler has drafted a separate opinion on this Bundled Revenue issue.

[145] For interactive streaming, the Judges' Initial Determination defined a ''bundle'' (in pertinent part) as an offering which combined the delivery of streamed music: ''together with one or more non-music services . . . or non-music products . . . as part of one transaction without pricing for the music services or music products separate from the whole offering. . . .'' Initial Determination, Attachment A at 2 (§ 385.2 therein).

[146] The definition added: ''[I]f there is no standalone published price for a component of the Bundle, then the Service shall use the average

After the Judges issued their Initial Determination, Copyright Owners submitted a Motion for Clarification or Correction of Typographical Errors and Certain Regulatory Terms which disclaimed any intent to seek rehearing, but sought ''clarification or correction'' of certain regulatory terms to conform them to what Copyright Owners claimed to be the apparent intent of the Initial Determination. (Motion for Clarification).[147] Copyright Owners purported to bring their motion under the Judges' general regulations governing motions. *See* 37 CFR 303.3 and 303.4 (formerly codified at 37 CFR 350.3 and 305.4).

The Motion for Clarification argued, among other things, that the definition of Service Revenue as applied to bundled offerings should be reworked. Copyright Owners argued that defining the revenue as the total price of the bundle, minus the standalone published prices for the non-streaming offerings in the bundle, undervalued the revenue created by the streaming offerings. They proposed that ''Service Revenue'' for bundled offerings be defined as the standalone price of the offering (or comparable offerings).

The Services objected to Copyright Owners' styling of their motion as something other than a motion for rehearing. The Services also objected that Copyright Owners had not previously proposed a definition of ''Service Revenue'' for bundled offerings, and that their ''late-proposed'' definition was unsupported by the record.

On October 29, 2018, the Judges issued an Order concluding neither party had met the exceptional standard for granting rehearing motions,[148] stating that the parties had failed to present ''even a *prima facie* case for rehearing under the applicable standard''. Amended Order Granting in Part and Denying in Part Motions for Rehearing (Order on Rehearing) (Jan. 4, 2019).[149]

The Judges explained that they nevertheless found it appropriate to resolve the issues that the parties had raised. Order on Rehearing at 2. The Judges added that, to the extent such resolution could be considered a rehearing under 17 U.S.C. 803(c)(2), the Judges resolved the motions on the papers without oral argument. *Id.*

Regarding the definition of ''Service Revenue'' for bundled offerings, the Judges summarized the parties' competing arguments:

> Copyright Owners presented evidence that the existing approach led, *in some cases,* to an inappropriately low revenue base—but did so in service to their argument that the Judges should reject revenue-based royalty structures. *They did not present evidence to support a different measure of bundled revenue* because their rate proposal was not revenue-based. The Services rely on the fact that the approach to bundled revenue in the extant regulations is derived from the 2012 Settlement. The Judges have, however, *declined to rely on the 2012 Settlement as a benchmark,* as the basis for the rate structure, or, therefore, as regulatory guidance.
>
> The Services have observed *correctly* that the evidentiary records in *Web IV* and *SDARS III* differ from the record in this proceeding.[150]

Order on Rehearing at 17 (emphasis added).

Despite these arguments, the Judges found that neither party presented evidence adequate to support the approach advocated in post-determination filings, because ''the 'economic indeterminacy' problem inherent in bundling'' remained unresolved.'' *Id.*[151] The Judges stated that the Services were the party in possession of the relevant information, and concluded that the Services bore the burden of providing evidence that might mitigate the ''indeterminacy problem'' inherent in bundling. Because the Judges concluded that the Services had not met that burden, they ruled that they must adopt an approach to valuing bundled revenue that is in line with what the Copyright Owners proposed. As a result, the Judges discarded the formula in the Initial Determination and ruled, instead, that streaming service providers will use their own standalone price (or comparable) for the music component (not to exceed the value of the entire bundle) when allocating bundled revenue. *Id.* at 16–18.

Consistent with the Judges' Order on Rehearing, the Judges' replaced the definition of ''Service Revenue'' for a ''Bundle'' that they had included in the Initial Determination with a new definition in the Determination. The final definition provided, in pertinent part:

> Service Revenue shall be the lesser of the revenue recognized from End Users for the bundle and the aggregate standalone published prices for End Users for each of the component(s) of the bundle that are Licensed Activities . . . [or] if there is no [such] standalone price, then the average standalone . . . price . . . for the most closely comparable product or service . . . or . . . the average of standalone prices for comparables.

Determination, Attachment A at 8.

The Services, Copyright Owners and George Johnson appealed the Judges' Determination to the D.C. Circuit. *See Johnson,* 969 F.3d 363. The Services challenged both the Judges' legal authority and the substantive soundness of the decision to reformulate the definition of ''Service Revenue'' for bundled offerings, after the Judges had issued the Initial Determination.

The D.C. Circuit examined several authorities under which the Judges may revisit and amend a determination. It addressed the three ways identified in the statute: ''(i) order rehearing 'in exceptional cases' in response to a party's motion, 17 U.S.C. 803(c)(2)(A); (ii) correct 'technical or clerical errors,' *id.* § 803(c)(4); and (iii) 'modify the terms, but not the rates' of a royalty payment, 'in response to unforeseen circumstances that would frustrate the proper implementation of [the] determination.' '' *Johnson,* 969 F.3d at 390. The D.C. Circuit found that the Judges' reformulation of the definition of ''Service Revenue'' fit none of those categories.

The D.C. Circuit noted that the Judges were explicit that they did not treat the Motion for Clarification as a motion for rehearing under 17 U.S.C. 803(c)(2). *Id.* Furthermore, the D.C. Circuit noted the Judges' own findings that the Motion for Clarification did not meet the exceptional standard for granting rehearing motions under section 803(c)(2) and that the Copyright Owners failed to make even a *prima facie* case under the rehearing standard.

In *Johnson,* the D.C. Circuit found that the change to the definition of Service Revenue for bundled offerings was not an exercise of the Judges' authority under section 803(c)(4) to ''correct any technical or clerical errors in the determination[.]'' 17 U.S.C. 803(c)(4).

standalone published price for End Users for the most closely comparable product or service in the U.S. or, if more than one comparable exists, the average of standalone prices for comparables.'' *Id.* at 7–8.

[147] Streaming Services submitted a motion for rehearing that was limited to fixing clerical errors and clarifying existing ambiguities in the proposed regulatory terms appended to the Initial Determination.

[148] The standard is set forth in the Order on Rehearing at 2 n.3. The Judges discuss and apply this standard *infra,* pursuant to *Johnson,* and in the context of this remand proceeding.

[149] Judge Strickler, who had dissented from the Initial Determination and the Determinations, did not join in this Order on Rehearing.

[150] In Web IV and SDARS III, unlike under the Phonorecords II-based benchmark, there were no minima or floors to provide licensors with royalties in the event bundled offerings would otherwise fail to generate royalties.

[151] The ''economic indeterminacy'' problem was described in SDARS III: ''Such bundling [for full quotation, see eCRB no. 27063 n.140].'' *SDARS III,* 83 FR 65264. As discussed in this Initial Ruling, this indeterminacy problem was addressed by the Phonorecords II-based benchmark through negotiated alternative royalty provisions for bundled offerings.

The D.C. Circuit observed the substantive nature of the change to the definition and determined that there was nothing technical or clerical about the amendment. The D.C. Circuit found that the Judges did not even purport to modify the terms in response to unforeseen circumstances that would frustrate the proper implementation of the Initial Determination. The D.C. Circuit observed that the Judges never mentioned section 803(c)(4) or unforeseen circumstances as the basis for revamping the Service Revenue definition.

Beyond the explicit statutory authorities for amendments to determinations, the D.C. Circuit addressed arguments for inherent authority to make *sua sponte* any appropriate substantive or fundamental changes after the Initial Determination. The D.C. Circuit foreclosed reliance on inherent authority, finding that Congress's decision to limit rehearing to exceptional cases, and to confine other *post hoc* amendments to cases involving technical or clerical errors, would be a nullity if the Judges also had plenary authority to revise their determinations whenever they thought appropriate. The D.C. Circuit noted that the Judges' decision to amend the definition said nothing of the sort, and prior decisions are silent on that topic.

In sum, the D.C. Circuit found that the Judges failed to explain the legal authority for reformulating the definition of ''Service Revenue.'' In relevant part, the D.C. Circuit ruled

> we must vacate the [ ] Determination's bundled offering Service Revenue definition and remand for the [Judges] . . . either to provide 'a fuller explanation of the agency's reasoning at the time of the agency action[,]' or to take 'new agency action' accompanied by the appropriate procedures.

Id. at 392 (citing *Regents,* 140 S.Ct. at 1908).

Because the D.C. Circuit determined that the Judges failed to identify any legal authority for adopting the new Service Revenue definition, it found no occasion to address the Streaming Services' separate argument that the definition was arbitrary, capricious, or unsupported by substantial evidence. *Id.*

The Services and Copyright Owners agreed that the Judges should resolve the definitional issue based on the existing record, after receiving two rounds of additional briefing from the parties.[152] *See* Services' Proposal for Remand Proceedings (Dec. 10, 2020) (Services' Proposal) at 5–6, 9–10; Proposal of the Copyright Owners for Conduct and Resolution of the Remand (Public) (Dec. 10, 2020) (Copyright Owners' Proposal) at 4–6. The Judges issued an Order Regarding Proceedings on Remand, which, in part, opened briefing on the issue of the adoption of a revised definition of ''service revenue'' for bundled offerings between issuing the Initial Determination and the Determination. Order Regarding Proceedings on Remand (Dec. 15, 2020). The Judges received the following relevant briefing.

- CO Initial Submission
- Services' Initial Submission
- CO Reply
- Services' Reply

On December 9, 2021, the Judges requested additional briefing. Dec. 9 Order. The Dec. 9 Order sought additional briefing setting forth the parties' views on whether this proceeding constitutes the type of new agency action addressed by the D.C. Circuit, which would allow adoption of a Service Revenue definition without limitation to the definition expressed in the Initial Determination. Additionally, the Judges requested additional evidence that the parties might offer to support adoption of the Service Revenue definitions expressed in either the Initial Determination or the Determination. In response to the Dec. 9 Order, the Judges received the following relevant briefing.

- CO Additional Submission
- Services' Additional Submission

On February 9, 2022, the Judges solicited further briefing on ''Whether the D.C. Circuit's *Johnson* decision permitting the Judges to engage in new agency action in this remand proceeding allows the Judges to engage in new agency action through a reconsideration of Copyright Owners' February 12, 2018 Motion for Clarification as a Motion for 'rehearing' pursuant to 17 U.S.C. 803(c)(2)(A) and 37 CFR 353.1.'' *Sua Sponte* Order Regarding Additional Briefing (Feb. 9 Order). In response to the Feb. 9 Order, the Judges received the following relevant briefing.

- Copyright Owners' Brief Responding to Judges' February 9, 2022 *Sua Sponte* Order Regarding Additional Briefing on New Agency Action Question, and Replying to Services' New Agency Action Arguments in their Joint Supplemental Brief Addressing the Judges' Working Proposal (in Additional Materials Rebuttal Submission of Copyright Owners at Tab B) (Feb. 24, 2022) (''CO Further Briefing'')
- Services' Joint Response to the Judges' February 9, 2022 *Sua Sponte* Order Regarding Additional Briefing and Rebuttal Regarding ''New Agency Action'' (Feb. 24, 2022) (''Services' Further Briefing'')

B. Authority for Modification to the Initial Determination

1. Copyright Owners' Position

Copyright Owners assert that this remand proceeding offers a straightforward path to take new agency action and that the law makes clear that new agency action can consist of issuing a new determination on remand. CO Initial Submission at 71. Copyright Owners maintain that:

> [T]the new agency action here is a determination after remand proceedings, the Board is largely free to chart its own procedural course, and the Board has done so in its December 15 Order. The Board is not required to undertake any of the procedural steps set forth in 17 U.S.C. 803(b) in order to take such ''new agency action.'' See 17 U.S.C. 803(d)(3) (requiring only that on remand further proceedings be taken ''in accordance with subsection (a)''); 37 CFR 351.15; *Intercollegiate Broad. Sys., Inc.,* 796 F.3d at 125 (''[N]either the Copyright Act nor the Board's regulations prescribe any particular procedures on remand.'') The Circuit's instruction that the action be ''accompanied by the appropriate procedures[,]'' *Johnson,* 969 F.3d at 392, does not dictate what those ''appropriate procedures'' must be but instead plainly refers to these flexible rules. See also *Oceana, Inc.,* 321 F. Supp. 3d at 136 (explaining that when remanding to an agency, a court generally ''may not dictate to the agency the methods, procedures, or time dimension, for its reconsideration'').

CO Initial Submission at 71, FN 33.

Copyright Owners acknowledge the Services' position that the asserted procedural error is an ''absence of authority'' that can never be cured. *Id.* at 74 (citing Services' Proposal for Remand Proceedings at 10). They note that the D.C. Circuit did not say the Judges lacked the authority to revisit the service revenue definition for bundles on remand. Nor, they observe, did it say the Judges have no authority to review the record evidence and the parties' arguments and reach the same conclusion or a different conclusion on remand. Copyright Owners opine that if the only possible outcome were for the Judges to reinstate a definition that lacked any explanation or evidentiary support solely because it was present in the Initial Determination, then the D.C. Circuit would not have remanded the issue but would have simply reversed and reinstated the Initial Determination definition. But instead, they note, the D.C. Circuit remanded and said the

[152] As indicated below, during the remand proceedings, the Judges solicited two rounds of additional briefing addressing specific issues.

Judges could take new agency action precisely to cure the asserted procedural defect. Copyright Owners assert that the remand allowed the parties to present the record evidence and their arguments so that the Judges can address the definition ''afresh'' in the remand determination. *Id.* at 74.

Copyright Owners argue that 17 U.S.C. 803(d)(3) states only that proceedings on remand must be in accordance with 17 U.S.C. 803(a). They contend that remand proceedings need not be confined to procedures the Services claim are too late in the game for the Judges to follow. The Copyright Owners point to the D.C. Circuit's ruling in *Intercollegiate Broad. Sys., Inc.* v. *Copyright Royalty Bd.,* that ''neither the Copyright Act nor the Board's regulations prescribe any particular procedures on remand.'' 796 F.3d 111, 125 (D.C. Cir. 2015) (citing 17 U.S.C. 803(a), (d)(3)). Accordingly, they argue, the Judges can reaffirm the adopted bundled service revenue definition following their review of the parties' submissions without regard to section 803(c)(2) or 803(c)(4). CO Reply at 65–66.[153]

Copyright Owners further argue that the Judges may properly justify the changed definition under section 803(c) as a fuller explanation of the agency's reasoning at the time it was made. They urge that the Judges could explain that, especially in light of the evidence of how the Services misused the prior definition to make service revenue completely disappear, carrying over the prior bundle service revenue from *Phonorecords II* into the Initial Determination was unintended and inadvertent.[154] CO Reply at 69. Copyright Owners also assert that the Judges could explain that Copyright Owners had, in their Motion for Clarification, identified an ''exceptional case'' under section 803(c)(2) because the prior definition failed to comport with Judges' precedent and economic principles, and was unsupported by evidence.[155] In addition,

Copyright Owners note that the Judges reheard the evidence and legal arguments as presented in the parties' briefs on the issue and, as a result, may choose to adopt the revised definition. Copyright Owners maintain that for the Judges to do so would not be impermissible *post-hoc* reasoning, because the D.C. Circuit remanded precisely because the Judges did not provide any reason in the Determination for revising the bundle revenue definition. CO Reply at 69–71.

2. Services' Position

The Services assert that the D.C. Circuit found only ''three ways in which the Board can revise Initial Determinations'' and that the Judges had failed to establish that the change to the service revenue definition fit any of those three categories. Services' Initial Submission at 64–65 (citing *Johnson* at 390).

According to the Services the *first* way the Judges may revise an Initial Determination is to ''order rehearing 'in exceptional cases' in response to a party's motion, 17 U.S.C. 803(c)(2)(A).'' Services' Initial Submission at 65 (citing *Johnson* at 390).[156] The Services argue that the D.C. Circuit held in *Johnson* that the Judges' ''material revision of the 'Service Revenue' definition for bundled offerings does not fall within the Board's rehearing authority under section 803(c)(2)(A)'' because ''the Board itself . . . was explicit that it 'did not treat the [Copyright Owners'] motion[ ]' . . . 'as [a] motion[ ] for rehearing under 17 U.S.C. 803(c)(2).' '' The D.C. Circuit also noted that ''as the Board found, the Copyright Owners' motion did 'not meet [the] exceptional standard for granting rehearing motions' under section 803(c)(2).'' *Id.* (citing *Johnson* at 390). The Services assert that the Judges were not able to make ''a volte-face'' and justify on appeal their revision to the definition as an exercise of rehearing authority. As the D.C. Circuit held, agency action must be justified by ''reasons invoked by the agency at the time it took the challenged action,'' and post-hoc rationalizations are insufficient. *Id.* (citing *Johnson* at 390).

The Services add their view that the Judges cannot revisit the decision to deny rehearing without engaging in impermissible *post-hoc* reasoning. They note that the Supreme Court has explained that, while an agency may ''elaborate later'' on its ''initial explanation'' of the reason (or reasons) for its action, it ''may not provide new ones.'' Services' Initial Submission at 66 (citing *e.g., Regents,* 140 S. Ct. at 1908). The Services offer that the Judges, having stated that they did not consider the Copyright Owners' motion to revise the definition to be a motion for rehearing, cannot now conclude that the motion qualified as one for rehearing and that the Judges in fact engaged in rehearing. Id.

The Services add that under section 803(c)(2)(A), the Judges can only use their rehearing authority '' 'in exceptional cases' in response to a party's motion.'' *Id.* (citing *Johnson* at 390). The Services argue that the Motion for Clarification cannot be found to have satisfied that standard. The Copyright Owners did not argue that their motion satisfied the ''exceptional cases'' standard before the Judges or the D.C. Circuit, and have therefore waived that argument. *Id.*

According to the Services, the *second* way the Judges may revise an Initial Determination, *viz.* action to correct a technical or clerical error under section 803(c)(4), cannot be used now to justify any modification of the Service Revenue definition in the Initial Determination. The Services note that the D.C. Circuit held specifically that the Judges' change to the Service Revenue definition could not be construed as correcting a technical or clerical error because it involved a substantive rewrite of the Service revenue definition. *Id.* at 67 (citing *Johnson* at 391).

The Services aver that the *third* way the Judges may revise the terms in an Initial Determination is in response to unforeseen circumstances that would frustrate the proper implementation of the determination. *Id.* at 67. The Services note that the D.C. Circuit held in *Johnson* that this authority did not justify the Judges' change to the Service Revenue definition because the Judges did not invoke this authority and ''the need to ground the original definition in the record'' could not credibly be described as ''an unforeseen circumstance.'' *Id.* (citing *Johnson* at 391).

The Services also note that the D.C. Circuit rejected the argument that the Judges have ''inherent authority'' to make changes to the Initial

[153] Copyright Owners reiterate this argument in the CO Additional Submission. Copyright Owners added that the parties in this remand were afforded the opportunity for further briefing and, if they wished, to submit additional evidence on this issue, thus providing broader opportunity for submission than in *Fisher* v. *Pension Benefit Guaranty Corp.,* 994 F.3d 664, 670 (D.C. Cir. 2021), in which the D.C. Circuit upheld new agency action after remand even though the agency did not provide appellant the opportunity to submit new briefing or exhibits. CO Additional Submission at 35–36; 38.

[154] Copyright Owners assert that the definition in the Initial Determination conflicted with, the Board's findings in the Initial Determination, including its findings that the adopted rates and terms would afford copyright owners a fair return for their creative works, thereby satisfying factor B of the 801(b) standard and thus needed to be revised so as to not ''frustrate the proper implementation of'' the Final Determination. CO Reply at 69 (citing 17 U.S.C. 801(b) and 803(c)(4)).

[155] In response to an Order by the Judges, Copyright Owners provided additional briefing regarding reconsideration of the motion for clarification as a motion for ''rehearing'' which is addressed separately *infra.*

[156] In response to an Order by the Judges, the Services provided additional briefing regarding reconsideration of the motion for clarification as a motion for ''rehearing'' which is addressed separately *infra.*

Determination. The D.C. Circuit explained that the specific restrictions Congress placed on the Judges' authority in section 803 ''would be a nullity if the Board also had plenary authority to revise its determinations whenever it thought appropriate.'' *Id.* (citing *Johnson* at 391–92). The Services add that even if the Judges offered a new source of authority capable of justifying substantive changes to the Service Revenue definition now, the Judges would be unable to rely on this ''uninvoked authority'' without engaging in impermissible *post-hoc* reasoning. *Id.*

The Services counter Copyright Owners' position that the Judges need not respond to the error the D.C. Circuit identified with this aspect of the Determination and that the Judges' ''new agency action'' may consist of issuing a new determination on remand. The Services argue that failure to address the legal and factual issues on which the D.C. Circuit remanded would violate the D.C. Circuit's order and would result in a second remand. The Services surmise that the issue of authority to make the changes to the Initial Determination are particularly important in this context, where the D.C. Circuit recognized that the Copyright Act places limits on the Judges' authority to alter an initial determination by defining conditions for rehearing and the types of changes that are permitted absent a rehearing. In this regard, the Services maintain that the Judges cannot do on remand what they lacked authority to do in the first instance. The Services assert that the Judges must resolve the legal question whether there is authority to alter the revenue definition in the Initial Determination. They urge that the remanded issue is not what the substance of the service revenue definition should be as a matter of first impression, but instead is whether the Judges have properly exercised authority to alter the Initial Determination's definition. Services Reply at 52–54.[157]

The Services assert that the Judges have two paths available to them: (1) to provide a ''fuller explanation'' of the prior conclusion that the Judges had legal authority to revise the Service Revenue definition in the Initial Determination or (2) answer that threshold question through new agency action. The Services maintain that, if they pursue the ''fuller explanation'' path, the Judges are limited to elaborating on what they said previously, and that they cannot add new reasons they did not initially provide. With regard to what may constitute new agency action, the Services assert that path gives the Judges freedom to consider new reasons that the Copyright Act provided the Judges with the authority to make this change to the Initial Determination. The Services argue, however, that undertaking a new agency action does not, as Copyright Owners claim, obviate the need for the Judges to identify proper legal authority before substantively changing the Initial Determination, such authorities being limited to the authority of section 803(c)(4) or the rehearing authority of section 803(c)(2). *Id.* at 54–55.

The Services address Copyright Owners' position that if the only possible outcome were for the Judges to reinstate a definition that lacked any explanation or evidentiary support solely because it was present in the Initial Determination, then the D.C. Circuit would not have remanded the issue but would have simply reversed and reinstated the Initial Determination definition. The Services urge that the D.C. Circuit could not reverse because the Department of Justice raised for the first time on appeal new justifications for the Judges' decision to change the Initial Determination. Instead, the Services maintain, the D.C. Circuit had to remand and give the Judges the opportunity to address the Department of Justice's new justifications in the first instance, as the D.C. Circuit could not rule them out given the posture of the appeal. *Id.* at 56.

In the Services' Additional Submission, they concede that this remand proceeding is new agency action and that the Judges have provided the parties with sufficient procedural opportunities to present any new evidence and raise any additional arguments regarding the question the D.C. Circuit remanded. Services' Additional Submission at 38. But the Services still insist that the Judges may not alter the Service Revenue definition without first identifying legal authority in the Copyright Act for modifying the Initial Determination. In the Services' view the new agency action avenue provided by the D.C. Circuit merely offers a singular path beyond the Judges' ability to offer a ''fuller explanation'' of their previous reasoning for revisiting the definition in the Rehearing Order. According to the Services' argument, the new agency action provided for in this remand only offers the additional opportunity to offer new reasons supporting any legal authority for altering the Initial Determination's Service Revenue definition, beyond those that were raised in the appeal. Services' Additional Submission at 38–42

C. Reconsideration of Motion for Clarification as Motion for ''Rehearing'' [158]

1. Copyright Owners' Position

Copyright Owners argue that the Judges have the authority to engage in new agency action in this remand proceeding through a reconsideration of the Motion for Clarification as a motion for rehearing, pursuant to 17 U.S.C. 803(c)(2)(A) and 37 CFR 353.1. Copyright Owners urge, however, that proceeding in that fashion would add an entirely unnecessary and complicating step. They again suggest that there is no need to reconsider or recharacterize the Motion for Clarification as a motion for rehearing because the remand itself affords the opportunity for the Judges to take new agency action, which, as in a rehearing, permits them to reconsider evidence and arguments, but, unlike a rehearing, is not limited by the constraints of section 803(c)(2). CO Further Briefing, Tab B at 7–8.

Copyright Owners posit that if the Judges engage in new agency action to reconsider the Motion for Clarification as a motion for rehearing under 803(c), and to decide that motion based on all of the evidence in the record supporting the adopted bundle revenue definition and showing the prior bundle revenue definition to be unsupported and unreasonable, they may properly do so. They assert that the while they did not make a request for rehearing on the face of the Motion for Clarification, that is not the same as a finding that the standard could not have been met. The Judges may consider whether, based on the evidence in the record, the rehearing standard has been satisfied on this remand. In Copyright Owners' view, the Judges could conclude, revisiting on remand the question of whether the rehearing standard has now been met, that Copyright Owners have satisfied the ''exceptional case'' standard for granting rehearing motions under

[157] The Services agree that this remand proceeding qualifies as ''new agency action'' but again urge that failure to address the legal and factual issues on which the court remanded would nonetheless violate the D.C. Circuit's order. Services' Additional Submission at 38–42.

[158] The Judges consider the briefs filed in response to the Feb. 9, 2022 Order only to the extent that they are responsive to the Feb. 9, 2022 Order, which requested briefing on the specific matter of whether the D.C. Circuit's *Johnson* decision permitting the Judges to engage in new agency action in this remand proceeding allows the Judges to engage in new agency action through a reconsideration of Copyright Owners' February 12, 2018 Motion for Clarification as a Motion for ''rehearing,'' pursuant to 17 U.S.C. 803(c)(2)(A) and 37 CFR 353.1.

section 803(c)(2). Copyright Owners note that if the Judges do engage in new agency action that reconsiders the Motion for Clarification as a motion for rehearing, the Judges should fully explain their reasoning. *Id.* Tab B at 8–10.[159]

2. Services' Position

The Services assert that the Judges cannot invoke their rehearing authority by construing the Motion for Clarification as a rehearing motion. They maintain that the D.C. Circuit expressly found that the revision of the Service Revenue definition for bundled offerings does not fall within the Judges' rehearing authority under section 803(c)(2)(A). The Services assert that Copyright Owners did not satisfy either prong of section 803(c)(2)(A), which authorizes rehearing only ''upon motion of a participant'' and ''in exceptional cases.'' They note that the D.C. Circuit agreed with the Judges' decision not to treat Copyright Owners' motion as one for rehearing and that the D.C. Circuit also agreed with the Judges' further finding that ''Copyright Owners' motion did not meet the exceptional standard for granting rehearing motions.'' Services' Further Briefing at 7 (citing *Johnson* at 390).

The Services add their view that the Judges are bound by the D.C. Circuit's conclusions on this issue. They maintain that because the Judges' section 803(c)(2)(A) rehearing authority is among the grounds that *Johnson* addressed and determined, the Judges cannot rely on that authority on remand. *Id.* at 8–9. The Services urge that the Judges already correctly concluded that the Motion for Clarification was not a motion for rehearing, and note that Copyright Owners never presented their motion as one for rehearing. The Services add that because Copyright Owners did not challenge that decision on appeal, it is too late for them to do so now.[160] *Id.* at 9–10.

The Services argue that Copyright Owners' Motion did not make any attempt to satisfy the exceptional cases standard set out in 17 U.S.C. 803(c)(2)(A). They argue that Copyright Owners did not purport to identify any new evidence, new legal authority, or even a substantive error in the Judges' reasoning in the Initial Determination, but instead the motion asserted that the Judges' inclusion of the definition of service revenue in the Initial Determination was supposedly inadvertent. The Services add that Copyright Owners did not identify any specific evidence in the *Phonorecords III* record or any aspect of the Initial Determination that suggested the inclusion of this definition was a mistake. *Id.* at 10.

The Services point out that Copyright Owners' motion did not comply with the procedural requirements for a motion for rehearing. They then urge that the Judges cannot invoke their section 803(c)(2)(A) authority by rewriting a participant's motion to say it is seeking rehearing when that participant specifically and unambiguously disclaimed any intent to seek rehearing. *Id.* at 11.

The Services note that the Judges previous conclusion that even if the Motion for Clarification had requested rehearing, that motion would not and does not meet that exceptional standard for granting rehearing and failed to make even a *prima facie* case for rehearing. The Services observe that the Judges apply a strict standard to rehearing motions to prevent parties from using the rehearing process to seek a second bite at the apple by advancing theories and arguments that could have been advanced earlier during the proceeding. *Id.* at 12. The Services reiterate their view that Copyright Owners' motion did not point to any evidence in the *Phonorecords III* record at all, and, that the only evidence in the *Phonorecords III* record concerning bundles supports the longstanding definition of Service Revenue which has been effective in encouraging the Services to offer bundles that benefit Copyright Owners by growing the market for music streaming services. *Id.* at 14.

The Services finally assert that this is not an extraordinary case where a party has identified an error that, if left uncorrected, would result in manifest injustice. *Id.* at 15–16. The Services conclude by urging that given this procedural history and the unchanged state of the record since the initial hearing, any claim that Copyright Owners have somehow now satisfied the exceptional case standard would be clear error. *Id.* at 17.

D. Record Evidence Regarding Definition of Service Revenue

1. Copyright Owners' Position

Copyright Owners assert that the prior bundle revenue definition (published in the Initial Determination) failed to address the '' 'economic indeterminacy' problem inherent in bundling'' appropriately and in a way consistent with Judges' precedent. CO Initial Submission at 75 (citing Order on Rehearing at 16–18). Copyright Owners proceeded to cite several portions of testimony from the Services' economic experts who acknowledged this problem. *Id.* They then point to hearing testimony in which Copyright Owners repeatedly raised the ''economic indeterminacy'' problem and demonstrated what they characterized as the absurd results to which the prior definition had led. *Id.* at 76. They point out that under the prior definition, service revenue for bundled subscriptions started with revenues recognized from the bundle (*i.e.,* the price paid by the subscriber) and subtracted ''the standalone published price'' for all non-music components of the bundle. [REDACTED]. *Id.*

Copyright Owners point out that the Judges already found with respect to other licenses that such an approach is not only fundamentally unfair, but ''absurd.'' *Id.* (citing 81 FR 26316, 26382 (May 2, 2016) (webcaster licenses)); *see also* 83 FR 65210, 65264 (Dec. 19, 2018) (SDARS licenses) (rejecting proposed deductions by service for bundle revenues because of the ''acknowledged 'economic indeterminacy' problem inherent in bundling''). The Copyright Owners concur with the Judges' correct conclusion that the same reasoning applies to *Phonorecords III. Id.* at 76–77 (citing Order on Rehearing at 18) (''the 'economic indeterminacy' problem inherent in bundling is common to all three proceedings.''). The Copyright Owners offer that Spotify conceded to this flaw in the definition in the Initial Determination, but offered an alternative that contained the same loophole. *Id.* at 77–78.

Copyright Owners point out that the proponent of a term bears the burden of proof as to adoption. The Judges made clear that the licensee who wishes to offer bundles must bear the burden of providing evidence that might mitigate the acknowledged economic indeterminacy problem inherent in bundling, because any such evidence would be in its possession, not in the possession of the licensors. *Id.* at 79 (citing *SDARS III* Determination, 83 FR 65210, 65264) (''bundling [is] undertaken to increase [the Services']

[159] With regard to the obligation to fully explain their reasoning for any reconsideration, the Copyright Owners point to *United Food & Com. Workers Union, Loc. No. 663* v. *U.S. Department of Agriculture.,* 532 F. Supp. 3d 741, 769 (D. Minn. 2021) (''When an agency takes a new course of action, it must 'display awareness that it is changing position' and 'show that there are good reasons for the new policy.' ''), quoting *FCC* v. *Fox Television Stations, Inc.,* 556 U.S. 502, 515 (2009) (emphasis in original).

[160] In fact, the issue of whether to recharacterize the Motion for Clarification as a motion for rehearing is not one raised by Copyright Owners, but by the Judges *sua sponte.* The Services' estoppel argument as to the Copyright Owners cannot apply to the Judges' action.

revenues and it would be reasonable to assume that [the Services have] information relevant to the economic allocation of the bundled revenue.''). The Copyright Owners contend they presented unrebutted evidence showing the unreasonableness of the Services' proposed definition while the Services offered no evidence to support their definition. *Id.* at 78, 79 (citing Order on Rehearing at 18). Copyright Owners maintain that no Service offered evidence concerning the separate values of the constituent parts of the bundles, or any other evidence concerning the economic allocation of bundled revenue, let alone the reasonableness of the definition in the Initial Determination. *Id.* at 80. Copyright Owners assert that in the absence of evidence to support the proposed definition, the Judges may adopt or fashion a definition of service revenue for bundled offerings that comports with the record evidence, which is precisely what the Judges did and can, through new agency action, do again. *Id.* at 81.

Copyright Owners dispute the Services' assertion that there is support for the *Phonorecords II* approach to bundles in the record of this proceeding. Instead, Copyright Owners argue, the Services' purported evidence at most supports the benefits of the practice or strategy of bundling. They maintain that the strategy of bundling covered music services with other products or services has nothing to do with whether the Services should be free to reduce the revenue allocable to music to zero. They offer that the definition in the Initial Determination has nothing to do with such benefits, and that those benefits may be equally served by a definition that ensures value is apportioned to the music component in the bundle. CO Reply at 73–76.

2. Services' Position

The Services argue that the evidence in the existing written record addressing bundles shows both that this definition is supported by the *Phonorecords II* benchmark and that it has proven, industry-wide benefits. Services' Initial Submission at 68. They offer that the Copyright Owners did not propose an alternative definition of service revenue until after the Judges issued the Initial Determination and that any definition they propose now would fail the basic requirement that the Judges must adopt rules ''on the basis of a written record.'' *Id.* (citing 17 U.S.C. 803(a)(1) and 803(c)(3)).

Addressing the merits of the definition contained in the Initial Determination, the Services argue that it best serves the goals of the Copyright Act; that as a bright-line, easily administered rule, it continues the broad industry agreement from *Phonorecords II.* The Services contend the prior definition increases output and incentivizes beneficial price discrimination to reach listeners who would otherwise not pay for music. They argue that the record evidence confirms that the prior treatment of bundles enabled experimentation and variation in the distribution of music with long-term benefits for all parties. They state that Copyright Owners' argument that Services [REDACTED] also demonstrates the broad benefits of the definition of Service Revenue in *Phonorecords II* because the record showed that arrangement enabled funneling of many of listeners into full-priced, full-catalog services—such treatment of bundles enabled the flexibility and price discrimination that yielded beneficial growth of the royalty pool.[161] The Services allege that Copyright Owners also ignore the extensive royalties that were generated. They add that with the per-subscriber minimum guarantees that the Copyright Owners will still be paid a fair royalty. The Services then cite several portions of testimony from various Services' economic experts who point out the realization of an expanded royalty pool, which the Services offer as proving a functioning marketplace. *Id.* at 68–74.[162]

The Services then assert that no other definition of service revenue for bundles that has been before the Judges combines both the administrative simplicity of the Initial Determination's definition and the broad price discrimination benefits of promoting discounted bundles. They maintain that while neither the Services nor Copyright Owners submitted evidence specifically addressing the way that customers, Services, or Copyright Owners might value the component parts of bundles, such subjective valuations are unnecessary for the Judges to find ample support for the *Phonorecords II* approach to bundles in the record. *Id.* at 75–76.

The Services also argue that while the Judges' decision in *SDARS III* did involve valuation of the music and non-music components of a bundle, the resolution in *SDARS III* is inapposite because, here, the rate structure has a way of ensuring that Copyright Owners are fairly compensated for bundles: the statutory minimum payment. Services Reply at 62.

E. Analysis and Conclusions Regarding Definition

1. Remand Proceeding as New Agency Action

Having considered the entirety of the record of this proceeding, a majority of the Judges (Definition Majority) conclude that this remand constitutes ''new agency action'' and meets all of the criteria to qualify as new agency action. The Judges thus have the opportunity to consider the issue afresh consistent with their procedural rules regarding remands.

The Definition Majority finds that it is unnecessary to attempt to distinguish new ''agency action'' from ''new agency action.'' Neither approach is endorsed clearly by the varied judicial interpretations of a new agency action. *See* R.J. Krotoszynski, Jr., *Administrative Law Discussion Forum: ''History Belongs to the Winners'': the Bazelon-Leventhal Debate and the Continuing Relevance of the Process/Substance Dichotomy in Judicial Review of Agency Action,* 58 Admin. L. Rev. 995 (Fall 2006). As noted by Judge Bazelon, the D.C. Circuit ''believed in process-based review, [but] he argued that it was improper for judges to prescribe specific procedures.'' *Id.* at 1001. Judge Bazelon's remand orders focused on providing ''genuine opportunities to participate in a meaningful way'' and ''genuine dialogue'' with interested parties, while leaving the agency ''free to decide which specific procedures to undertake.'' *Id.*

Several reported cases point to new action as an alternative to a fuller explanation. But few define ''new agency action'' other than to say, as did the *Johnson* court, that the agency must take it ''accompanied by the [unspecified] appropriate procedures.'' *Johnson,* 969 F.3d at 392. Parties to the original action, already familiar with the issue and the factual and legal background, recognized that the D.C. Circuit identified the adoption of a modified definition in the Determination as one of three issues on remand. In repeated rounds of remand submissions, both the Services and the Copyright Owners included the definition issue. The Judges were not satisfied with the parties' lack of focus on the issue, however, and ordered expressly further briefing on the new agency action issue and sub-issues relating to the adoption of a definition of Service Revenue as it relates to

[161] Notably, the Services do not deny that the former definition did, in fact, [REDACTED].

[162] The Services' Reply reiterates this point and offers that the testimony cited by the Copyright Owners also shows why the Initial Determination's Service Revenue definition works for bundles and grows royalties. Services Reply at 57–58.

bundled service offerings. *See* (Dec. 9 Order) at 4; *Sua Sponte* Order Regarding Additional Briefing (Feb. 9, 2022).

New agency action is not synonymous with justification, or confirmation, of the prior action. New agency action is a procedural mechanism for reconsideration of the record, reopening the record for additional evidence and argument, and adoption of a conclusion based on the expanded record. In this instance, the presentations, written and oral, of participants on remand, together with a re-examination of the original record, support reversion to the definition originally announced in the Initial Determination. Ultimately, given repeated opportunities for legal analysis on the issue, both sides agreed that the remand proceeding itself, with ample notice and multiple opportunities for input was sufficient to constitute new agency action. *See* CO Further Briefing at 3, 7.

The Services argued, however, that notwithstanding this appropriate new agency action, the Judges remained without authority to adopt the revised definition as a term governing the royalty rates determined in this proceeding. Their arguments regarding procedures undertaken in the Determination are superseded by the Judges' conduct of extensive remand proceedings.[163] The gravamen of the Administrative Procedure Act is transparency in agency [164] rulemaking. Agencies must publish notice of their intentions, provide opportunities for interested parties to comment and object, and finalize regulations only after reconciling objections with the policies and purposes of proposed regulations. The adjudication of this remand proceeding was conducted openly. Interested parties had ample opportunity to object, to comment, and to brief legal and factual issues relating to the Judges' approach to promulgating an appropriate definition of bundled service revenue.

The present analytic approach merely takes the position that the Judges engaged in new agency action by conducting a fully open and broadly explored remand proceeding. Unlike a rehearing or exercise of continuing jurisdiction, this remand proceeding is not limited by the constraints of sections 803(c)(2) or 803(c)(4). Contrary to the Services' assertion, the Judges address the issue on which the D.C. Circuit remanded, the need to exercise authority within the lines drawn by the authorizing statute. This remand proceeding does not, therefore, violate the D.C. Circuit's order.

The *Johnson* opinion clearly states the two paths by which the Judges may address the issues presented to them on remand; they may either (1) provide ''a fuller explanation of the agency's reasoning at the time of the agency action[,]'' *or* (2) to take ''new agency action'' accompanied by the appropriate procedures. *Johnson,* 369 F.3d at 392. The Judges chose to pursue the second option: this new agency action. The Judges reiterate: the Services concede that, through this proceeding the Judges have provided the participants with adequate procedural opportunities to present any new evidence on the proper Service Revenue definition for bundles. The Judges also acknowledge, but disagree with, the Services' position that that they must return to the issues as they were presented after issuance of the Initial Determination, regardless of the admittedly complete and valid remand procedure, which constitutes new agency action.

The Judges (the majority on this issue) determine that any confining action on remand to the provisions of sections 803(c)(2)(A) or 803(c)(4) would misconstrue the clear expression of the ''new agency action'' alternative presented by the D.C. Circuit,[165] as well as chapter 8 of title 17. As the Copyright Owners correctly observed, in a remand proceeding, the Judges are not required to undertake any of the procedural steps set forth in section 803(b) nor are the Judges compelled to consider or be limited by sections 803(c)(2)(A) or 803(c)(4). The statute only requires that the Judges' remand proceedings are in accordance with section 803(a).[166]

The D.C. Circuit observed that the Judges have ''considerable freedom to determine [their] own procedures.'' *SoundExchange* v. *CRB,* 904 F.3d 41 at 61. The D.C. Circuit also cautions that such flexibility must be exercised within the lines drawn by the authorizing statute. Here, the Judges operate within the lines drawn with respect to remand proceedings set forth in chapter 8 of title 17.

2. ''Fuller Explanation'' of Modification to Initial Determination

Case law regarding development of a ''fuller explanation'' of an agency's action emphasizes that the agency cannot adopt *post hoc* reasoning on the same record. *See, e.g., SEC* v. *Chenery Corp.,* 332 U.S. 194, 201 (1947) (after remand, agency bound to ''deal with the problem afresh . . . .''). Certainly, adopting a *post hoc* argument of appellate counsel, just because it offers a rationale for the agency's original action is impermissible.[167] On the other hand, if the record in the initial proceeding is sufficiently robust to support a reinterpretation or additional reasoning, the agency may justify its initial action with that ''fuller explanation'' without considering any new evidence. *See, Fisher* v. *Pension Benefit Guar. Corp.,* 468 F.Supp.3d 7, 20 (D.C.D.C. 2020), aff'd *Fisher* v. *Pension Benefit Guar. Corp.,* 994 R.3d 664 (D.C. Cir. 2021), rehearing *en banc denied, Fisher* v. *Pension Ben. Guar. Corp.,* 2021 U.S. App. LEXIS 18793 (D.C. Cir., June 23, 2021) (requirement of new evidence a ''novel proposition of law'' without precedent). On remand, an agency may elaborate on its prior reasoning, but it may not provide new reasons for the original decision. *Fisher,* 994 F.3d at 669. If the Judges had chosen in this remand to rest on their Determination regarding the service revenue definition, they might have done so only if they could elaborate on the existing record.[168] In the alternative, the Judges issue a new decision after new agency action. *Id.*

The Judges, having engaged in new agency action to settle on the definition of service revenue for bundled offerings, do not find a need to address the statutory avenues or the confines that are provided for rehearing or continuing jurisdiction, nor do the Judges pursue the propriety of reconsideration of the

[163] Furthermore, the issue of the Judges' authority to take an action in issuing the Determination is moot. The Judges, after new agency action, have chosen not to defend the definition in the Determination but rather to conclude, following that new agency action, that the definition in the Initial Determination is more appropriate in these circumstances. Whether the Judges had the authority in the first instance is not at issue, as they are not repeating the former action.

[164] The proceedings of the Copyright Royalty Board (CRB) are subject to the standards of the Administrative Procedure Act. *See* 17 U.S.C. 803(a)(1).

[165] The case that the D.C. Circuit points to for the new agency action path clarifies that ''An agency taking this [new agency action] route is not limited to its prior reasons but must comply with the procedural requirements for new agency action.'' *Regents,* 140 S. Ct. at 1908).

[166] ''The court [United States Court of Appeals for the District of Columbia Circuit] may also vacate the determination of the Copyright Royalty Judges and remand the case to the Copyright Royalty Judges for further proceedings in accordance with subsection (a).'' 17 U.S.C. 803(d)(3).

[167] A rationalization is not *post hoc* simply because it is iterated by counsel. Denomination of a rationalization as *post hoc* is a matter of timing, not of the offeror.

[168] In this instance, had the Judges decided to keep the definition in the Determination, they probably could have given a fuller explanation based on the record in the underlying proceeding. Because the Judges have opted to rely on the fresh-look approach in the ''new agency action'' alternative and because the prior definition is appropriate given adoption of the PR II rate structure, development of that fuller explanation based on the record is unnecessary.

Motion for Clarification as a motion for rehearing.[169]

3. Substantive Analysis of Dueling Definitions of Bundled Revenue

The fundamental difference between the impact of the two alternative definitions is simply stated:

Under the Initial Determination: downstream bundling and its price discriminatory effect *would* be incentivized by a royalty structure that reflects the lower WTP of consumers who subscribe by paying for a Bundle;

Under the Determination: downstream bundling and its price discriminatory effect *would not* be incentivized by a royalty structure that reflects the lower WTP of consumers who subscribe by paying for a Bundle.

To explain this difference, the Judges find it helpful to describe (as in the Determination and Dissent) how bundling facilitates price discrimination and how lower royalties for bundled streaming services incentivize such bundling.

Price discrimination occurs when a seller offers different units of output at different prices. *See, e.g.,* H. Varian, *Intermediate Economics* at 462 (8th ed. 2010). The benefit to the seller arises from attempting to ''charge each customer the maximum price that the customer is willing to pay for each unit bought.'' R. Pindyck & D. Rubinfeld, *Microeconomics* at 401 (8th ed. 2013). For all goods, and intellectual property goods such as copyrights in particular,[170] the social benefit is that price discrimination more closely matches the quantity sold with the competitive quantity as the seller or licensor better aligns the price with the WTP of different categories of buyers or licensees. *See* W. Fisher, *Reconstructing the Fair Use Doctrine,* 101 Harv. L. Rev. 1659, 1701 (1988).

A seller can engage in price discrimination in several ways. One form is known as ''second-degree price discrimination,'' by which buyers self-sort the packages and quantities they purchase.[171] *See* W. Adams & J. Yellen, *Commodity Bundling and the Burden of Mo*nopoly, 90 Q. J. Econ. 470, 476 (1976) (the profitability of bundling ''stem[s] from its ability to sort customers into groups with different reservation price [WTP] characteristics.''). Bundling, *i.e.,* the ''practice of selling two or more products as a package,'' *Pindyck & Rubinfeld, supra* at 419, is thus a type of second-degree price discrimination. *See* A. Boik & H. Takahashi, *Fighting Bundles: The Effects of Competition on Second Degree Price Competition,* 12 a.m. Econ. J. 156, 157 (2020).

The applicability of these basic economic principles was understood and explained by the parties' experts at the hearing. *See, e.g.,* 3/15/17 Tr. 1224–25 (Leonard) (Google's economic expert testifying that price discrimination through bundling is ''very, very common . . . even by pretty competitively positioned firms . . . to sort out customers into willingness-to-pay groups.''); 3/30/17 Tr. 3983 (Gans) (Copyright Owners' economic expert acknowledging that bundling is a form of price discrimination); *see also* Dissent at 69 (same).

How does this downstream (retail level) benefit of price discrimination impact the setting of upstream royalty rates? As the Majority explained (in summarizing the Services' expert testimony) the linkage is explained by the economic concept of ''derived demand'':

> [M]ultiple pricing structures necessary to satisfy the WTP and the differentiated quality preferences of downstream listeners relate directly to the upstream rate structure to be established in this proceeding. Professor Marx opines that the appropriate *upstream* rate structure is derived from the characteristics of downstream demand. 3/20/17 Tr. 1967 (Marx) (rate structure upstream should be derived from need to exploit WTP of users downstream via a percentage of revenue). This upstream to downstream consonance in rate structures represents an application of the concept of ''derived demand,'' whereby the demand upstream for inputs is dependent upon the demand for the final product downstream. *Id.; see* P. Krugman & R. Wells, *Microeconomics* at 511 (2d ed. 2009) (''[D]emand in a factor market is . . . *derived demand* . . . [t]hat is, demand for the factor is derived from the [downstream] firm's output choice'').
>
> Determination at 19; *accord* Dissent at 32 (noting that ''the upstream demand of the interactive streaming services for musical works (and the sound recordings in which they are embodied)—known as ''factors'' of production or ''inputs''—is derived from the downstream demand of listeners to and users of the interactive streaming services . . . This interdependency causes upstream demand to be characterized as ''derived demand.'').

In the present proceeding, the PR II-based benchmark embodies the parties' negotiated definition of Bundled Revenue for purposes of calculating royalties on bundled interactive offerings. This is definition in the Initial Determination. Copyright Owners' preferred definition for Bundled Revenue—the Determination's definition—would not only ignore this agreed-upon definition, but would also de-link the royalty rate from the WTP of purchasers of bundles.[172] The Judges recognize that Copyright Owners have expressed concern the Services could use such bundling in order to diminish revenue otherwise payable on a higher royalty tier. However, the Majority noted that the evidence indicated such diminishment only occurred ''in some cases.'' Clarification Order at 17. Thus, the Judges find that eliminating the incentive for price discrimination via bundling would be a disproportionate response and inconsistent with the broad price discriminatory PR II-based benchmark they find useful in this proceeding.

Expert testimony in this regard is ''substantial evidence'' on which the Judges can rely. For example, the D.C. Circuit also relied in *Johnson* on the testimony of the same witness, Spotify's economic expert witness, Professor Marx, who explained how a downstream ''lower willingness (or ability) to pay'' among some cohorts of consumers supports definitional terms, for student and family subscribers, that lower royalty rates in order to further ''economic efficiency'' in a manner that

[169] The Judges also find no need to consider any inherent authority that may remain for consideration.

[170] Streamed copies of intellectual property, such as musical works and sound recordings, have a marginal production cost of essentially zero, making price discrimination particularly beneficial, because charging any positive price, even to a buyer with the lowest WTP, still exceeds the zero marginal production costs. *See* Dissent at *passim.*

[171] ''First-degree'' price discrimination is a hypothetical construct by which a seller can identify the WTP of every buyer. ''Third-degree'' price discrimination occurs when the seller offers different prices to buyers based on their different characteristics (*e.g.,* a senior citizen discount). *See Pindyck & Rubinfeld, supra,* at 402, 404–05.

[172] To see the incentivizing effect of the link between the royalty level and variable WTP, consider the following example. Assume a hypothetical bundle consists of a subscription to the ''Acme'' interactive music streaming service and the sports service NFL Sunday Ticket. Assume also that Acme and NFL Sunday Ticket have standalone monthly subscription prices of $9.99/month and $149.99/month respectively, so that purchasing both separately would cost $159.98/month. But assume the bundle price is only $140/month. Acme's purpose in bundling its interactive music streaming service subscription offering with NFL Sunday Ticket would be to attract customers who had a WTP for the standalone Acme service below $9.99/month, but a WTP at or above the $140/month for the bundle.

Under the definition in the Determination, royalties would be paid on the standalone $9.99/month Acme price. But the purpose of the bundling was to attract subscribers *who would not pay the standalone $9.99/month price,* so no such would-be subscribers would sign-up, and *no royalties would be generated by them.*

By contrast, under the Initial Determination, the standalone price of NFL Sunday Ticket, $159.98/month, would be subtracted from the $140/month bundle price. Although that would preclude a payment of royalties on a *revenue* prong, *royalties still would be paid, under a different tier or on the mechanical floor.*

''still allows more monetization of that provision of that service.'' *Johnson* at 392–93. Broadening her lens, Professor Marx also explained that this price discriminatory approach is appropriate ''across all types of services and subscribers,'' as in ''[t]he current law [and in the PR II-based benchmark]'' which ''accommodates . . . ad-supported services . . . and '*bundled services'* through different rate provisions.'' Marx WRT ¶ 41 (emphasis added). *See also* 3/21/17 2182–83 (Hubbard) (Amazon's expert witness testifying that ''Prime Music, which is *bundled* with an Amazon Prime service . . . sort[s] out customers' willingness to pay, with an idea of trying to maximize the number of customers,'' and agreeing that this approach constitutes ''sorting by way of bundling.'') (emphasis added). Further, Professor Hubbard opined that, given the revenue attribution ''measurement problem'' associated with bundled products, the ''Phonorecords II'' approach ''with the different categories and the minima . . . address this sort of problem [in] a very good way.'' 3/15/17 Tr. 1221 (Hubbard).

As in the case of family and student price discrimination, the beneficial effect of such differential pricing was supported by industry witnesses as well as expert witnesses. *See, e.g.,* Mirchandani WDT ¶ 71 (Amazon executive citing the Phonorecords II-based benchmark provisions regarding bundling that ''allowed Amazon to bundle Prime Music with Amazon Prime, enabling Amazon to bring a limited catalog of music [REDACTED]''). In sum, the same type of witness testimony that the D.C. Circuit found sufficient to support price discriminatory student and family plans also supports the use of the price discriminatory bundled definition contained in the Initial Determination.

Given the overall benefits from price discrimination, at first blush it is curious that Copyright Owners would risk ''leaving money on the table'' by removing the royalty-based incentive for price discrimination via bundling. The Judges have identified this problem earlier in this Initial Ruling, in connection with the broader issue of the overall beneficial price discriminatory structure of the PR II-based benchmark. As the Judges noted in that general price discrimination context, Copyright Owners' own expert economic witnesses acknowledged that they would not irrationally ''leave money on the table.'' In fact, Copyright owners' aim, according to that testimony, is to create an unregulated space—per the Bargaining Room theory—and to use their complementary oligopoly power to negotiate price discriminatory rates (in bundles or otherwise), which would free them from the section 801(b)(1) requirements of reasonableness and fairness.

The Judges further find that their prior ruling on this issue in *SDARS III* is distinguishable. There, a proffered bundled revenue definition eliminated the payment of any royalty at all. Copyright Owners quite correctly describe that result as ''absurd,'' but that is not the result here. Rather, in the present case, the parties' negotiated an approach that the Judges adopted in the Initial Determination requiring royalties to be paid on interactive services bundled with other products or services.

Even more distinguishable is Copyright Owners' assertion that *Web IV* provides support for their preferred definition of service revenue. The argument is immediately suspect, because *Web IV* involved per-play royalty rates—not percent-of-revenue rates, making the definition of revenue wholly inapposite. Further, the discussion of the price of an ''ice cream cone'' in *Web IV*—on which Copyright Owners rely—had nothing to do with bundling or isolating the WTP for different products or services. Rather, there the Judges criticized a bizarre argument made by a licensee (who had a quantity discount for plays steered in its direction), that was tantamount to arguing that if a vendor sells one ice cream cone for $1.06 but a buyer could buy two for $1.06, that the market price of an ice cream cone is thus only $.06. This argument was indeed fallacious, because the price of an ice cream cone would be the average of the total cost for the two cones, *i.e.,* $.53/cone. Here, the issue is how to address the WTP of different classes of buyers with heterogeneous WTP, not the pricing of a discount for all purchasers buying the same quantity. The parties utilized the Bundled Revenue definition from the PR II-based benchmark (and in the Initial Determination) to address the indeterminacy inherent in the variable WTP among purchasers of the bundles, by setting floors and minima, rather than attempt to sort out the WTP of individual (or individual blocs) of subscribers.[173]

[173] Accordingly, Copyright Owners' assertion that the Services did not satisfy their burden of proof with regard to the Bundled Revenue definition misses the point. The Services' burden was to show the reasonableness of utilizing the Bundled Revenue definition in the PR II-based benchmark, not to show that their proffered approach measured the WTP of individual subscribers (or blocs of subscribers). Such an alternative approach might have had merit but no alternative approach was presented to the Judges.

For the foregoing reasons, the Judges find that the definition in the Initial Determination (unlike the definition in the Determination) is consistent with the Judges' other substantive rulings herein. That is, just as the Majority abandoned its Bundled Revenue definition in its Initial Determination because it refused to credit the PR II-based benchmark (even as ''guidance''), the Judges here do partially rely on the PR II-based benchmark, and thus find that it supports the Bundled Revenue definition contained in the Initial Determination.

4. Application of Four Itemized Statutory Factors

As the forgoing analysis explains, bundling is a form of price discrimination. Accordingly, the Judges' explanation of how price discriminatory rates in the PR II-based benchmark interrelate with the Factor (A) through (D) objectives in section 801(b)(1) are equally applicable here. Accordingly, the Judges adopt by reference their discussion of those four factors set forth *supra* in connection with the PR II-based benchmark, and find that there is no basis pursuant to those four factors to adjust the PR II-based benchmark definition of Bundled Revenue.

V. Conclusion

On the basis of the foregoing analyses, and in consideration of the entirety of the record, the Judges make the following determination relating to the issues on remand from the D.C. Circuit.

To be clear, the Judges are not declaring that an alternative Bundled Revenue definition and/or alternative rates and structures for bundle, might not have been preferable. *See* 4/15/17 Tr. 5056–58 (Katz) (''[I]f someone had a proposal [with] a specific reason why we should adjust this minimum that's something I would have examined''); *see also* 3/15/17 Tr. 1227–28 (Leonard) (Google's economic expert testifying that ''if somebody had . . . suggest[ed] . . . a different sort of bucket that should be created . . . that's a good idea.''). But Copyright Owners did not propose such alternatives at the hearing, and the alternative in their Motion for Clarification simply eviscerated the ''derived demand''-based link between royalties and bundled offerings. As the Judges have noted *supra,* in the words of Judge Patricia Wald, all judges are cabined by the record evidence introduced by the parties. Therefore (in the absence of a way in which to synthesize the parties' proposals in a manner that does not ''blindside'' the parties) the Judges must choose between the proposals that are in the record, not potentially superior proposals that are not in the record. Here, the Judges favor the Bundled Revenue definition in the Initial Determination that was negotiated by the parties, incentivizes price discrimination and pays royalties on the bundled music, over the substituted definition in the Determination pursued by Copyright Owners that would eliminate price discrimination, except under the terms Copyright Owners could impose via their complementary oligopoly power, and without regard to the statutory requirements of a ''reasonable rate'' and a ''fair income'' for the Services.

As noted at the outset, the headline rate for all offerings throughout the *Phonorecords III* period shall be as follows:

2018–2022 ALL-IN HEADLINE ROYALTY RATES

	2018	2019	2020	2021	2022
Percent of Revenue	11.4%	12.3%	13.3%	14.2%	15.1%

In all other respects, the rates and rate structure of the PR II-based benchmark shall be effective as the rates and structure throughout the *Phonorecords III* period.

The definition of Service Revenue for bundled offerings throughout the *Phonorecords III* period shall be the definition contained in the Initial Determination.

VI. Order

In light of the foregoing analyses and conclusions, the Judges hereby *order* that the participants in this remand proceeding prepare and submit regulatory provisions consistent with this ruling.[174] The participants shall file agreed regulatory language within ten days of the date of this ruling.

The Judges *further order* that if the participants cannot agree on a joint submission, the Judges will accept separate submissions respectively from (1) Copyright Owners and (2) Services, jointly. In absence of an agreed submission, the participants shall file separate submissions not later than 15 days after the date of this ruling.[175]

The Judges *further order* that parties shall not file, and the Judges shall not consider, briefing or legal argument beyond necessary explanatory notes to the proposed language, section by section, not to exceed 250 words per proposed section.[176] The Judges specifically admonish the parties that they shall not use these submissions as a basis to object to this Initial Ruling, either explicitly or implicitly by proposing regulatory provisions inconsistent with this Initial Ruling.

The Judges *further order* that, within 30 days of the date of this Initial Ruling and the attendant dissenting documents, the parties shall file an agreed redacted version of this Initial Ruling, and the dissents, for *public* viewing.

After the Judges have reviewed the parties' regulatory submissions, the Judges shall adopt and format the necessary regulatory language format terms relevant to this ruling and issue a *restricted* Initial Determination after Remand, which shall embody their determination of rates and terms. The parties will have an opportunity to suggest redactions from the Initial Determination after Remand before it is issued as a public version.

The parties shall not file any motions seeking rehearing or reconsideration of this Initial Ruling. Subsequent to the Judges' issuance of their Initial Determination after Remand as identified in the immediately preceding paragraph, any party may file a Motion for Rehearing within 15 days of the issuance of said Initial Determination after Remand.

After ruling on any and all Motions for Rehearing as identified in the immediately preceding paragraph, the Judges shall issue a Final Determination after Remand.

So ordered.

Issue Date: July 1, 2022.

Suzanne M. Barnett,

Chief Copyright Royalty Judge.

ADDENDUM TO FINAL RULING AND ORDER

Offering	% of Service provider revenue (percent)	TCC % or TCC amount	"Mechanical-only" royalty floor
Standalone Non-Portable Subscription Offering—Streaming Only.	10.5	The lesser of 22% of TCC for the Accounting Period or 50 cents per subscriber per month.	15 cents per subscriber per month.
Standalone Non-Portable Subscription Offering—Mixed.	10.5	The lesser of 21% of TCC for the Accounting Period or 50 cents per subscriber per month.	30 cents per subscriber per month.
Standalone Portable Subscription Offering	10.5	The lesser of 21% of TCC for the Accounting Period or 80 cents per subscriber per month.	50 cents per subscriber per month.
Bundled Subscription Offering	10.5	21% of TCC for the Accounting Period	25 cents per month for each Active Subscriber during that month.
Mixed Service Bundle	11.35	21% of TCC for the Accounting Period	n/a.
Limited Offering	10.5	21% of TCC for the Accounting Period	n/a.
Paid Locker Service	12	20.65% of TCC for the Accounting Period	n/a.
Purchased Content Locker Service	12	22% of TCC for the Accounting Period	n/a.
Free nonsubscription/ad-supported services free of any charge to the End User.	10.5	22% of TCC for the Accounting Period	n/a.

[174] The Judges adopt this process in order to avoid a dispute regarding the regulatory provisions issued in connection with their ruling. Because this is a remanded proceeding, the Judges are not restricted to the procedures that would control in an original proceeding, and are exercising their authority to ''make any necessary procedural . . . rulings in any proceeding under this chapter.'' 17 U.S.C. 801(c).

[175] In their agreed upon or separate submissions, the parties shall address the issue identified in note 135 *infra,* regarding Copyright Owners' assertion that the Services omitted from their proposed subpart C rates a portion of the *Phonorecords II* rates.

[176] A section of the regulations is designated by a number following the decimal after the part number, for example, § 385.5. The regulations relevant to this proceeding are found in part 385.

B. Order 43 on Phonorecords III Regulatory Provisions (Public Version With Federal Register Naming and Formatting Conventions)

Introduction

The present Order concerns a single issue in dispute among the parties [177] regarding regulatory language implementing the Judges' Initial Ruling and Order after Remand (''Initial Ruling'') entered in this proceeding.[178] Subsequent to filing dueling submissions (*see* footnote 2 *infra*), the parties filed a Joint Submission, informing the Judges that they had ''agree[d] on all of the regulatory language'' except for certain rate percentages contained in Table 2 of the proposed § 385.21. Joint Submission . . . Regarding Regulatory Provisions Following Initial Ruling and Order (after Remand) at 1 (Nov. 30, 2022) (''Joint Submission'') (eCRB no. 27337).

The Regulatory Language in Dispute

The dispute between the parties is whether the Judges should adopt in the Phonorecords III regulations: (1) the several ''Total Content Cost'' (''TCC'') rates [179] set forth in the Phonorecords II-based benchmark; or (2) the single 26.2% TCC rate discussed in the Initial Ruling. This dispute relates to nine offerings made by interactive streaming services, as detailed below:

Offering	Copyright owners' proposal (percent)	Services' proposal
Standalone Non-Portable Subscription Offering—Streaming Only.	26.2	The lesser of 22% of TCC for the Accounting Period or 50 cents per subscriber per month.
Standalone Non-Portable Subscription Offering—Mixed	26.2	The lesser of 21% of TCC for the Accounting Period or 50 cents per subscriber per month.
Standalone Portable Subscription Offering	26.2	The lesser of 21% of TCC for the Accounting Period or 80 cents per subscriber per month.
Bundled Subscription Offering	26.2	21% of TCC for the Accounting Period.
Free nonsubscription/ad-supported services free of any charge to the End User.	26.2	22% of TCC for the Accounting Period.
Mixed Service Bundle	26.2	21% of TCC for the Accounting Period.
Purchased Content Locker Service	26.2	22% of TCC for the Accounting Period.
Limited Offering	26.2	21% of TCC for the Accounting Period.
Paid Locker Service	26.2	20.65% of TCC for the Accounting Period.

Sources: Offering column text from Exhibit A to Joint Submission . . . Regarding Regulatory Provisions Following Initial Ruling and Order (after Remand) at 17 (Nov. 30, 2022) (eCRB no. 27338); Services' Proposal column text from Services' Joint Submission of Regulatory Provisions Ex. A at 11 (July 18, 2022) (eCRB no. 27005).

The Issue

At a high level, the remaining regulatory issue is the following:

Whether a 26.2% TCC rate identified in the hearing record, and discussed both on appeal and on remand by the D.C. Circuit, should substitute for TCC rates in the Phonorecords III period, or whether these uncapped TCC rates should be set at the specific levels ranging between 20.65% and 22% set forth in the Phonorecords II-based benchmark adopted by the Judges in the Initial Ruling.

To frame, address, and rule on this issue, in this Order the Judges place the parties' dispute in the context of the prior rulings by the D.C. Circuit and the Judges in connection with this proceeding.

Background

On January 5, 2016, the Judges initiated proceedings to determine the appropriate mechanical license royalty rates and terms for the January 1, 2018 to December 31, 2022 period. *See* Notice Announcing Commencement of Proceedings in Phonorecords III, 81 FR 255 (Jan. 5, 2016). After the parties filed their written and rebuttal testimonies and engaged in discovery, they participated in a five-week evidentiary hearing presided over by the Judges. *See* Determination of Royalty Rates and Terms for Making and Distributing Phonorecords, 84 FR 1918, 1920, 1923–1925 (Feb. 5, 2019).[180]

In the Majority Opinion, the Judges adopted a ''greater-of'' royalty rate structure for the mechanical license, which contained a TCC rate applicable to all categories of offerings.[181] *See* 84 FR 1963; *see also Johnson* v. *Copyright Royalty Board,* 969 F.3d 363, 372 (D.C. Cir. 2020) (summarizing the Majority Opinion). More particularly, the Majority adopted the following rates and rate structure:

[177] The parties who have joined on this dispute (through filings after the issuance of the Initial Ruling) are the National Music Publishers' Association and Nashville Songwriters Association International (collectively, ''Copyright Owners'') and *Amazon.com* Services LLC, Google LLC, Pandora Media, LLC, and Spotify USA Inc. (collectively, the ''Services''). (Copyright Owners have informed the Judges that another party, George Johnson, joins in Copyright Owners' position with respect to the issue considered in this Order.)

[178] The Judges instructed the parties to ''prepare and submit regulatory provisions consistent with this ruling.'' Initial Ruling and Order after Remand at 114 (July 1, 2022) (eCRB nos. 26938, 27063). The Judges further instructed that, ''if the participants cannot agree on a joint submission, the Judges will accept separate submissions respectively from (1) Copyright Owners and (2) Services, jointly.'' *Id.* The parties did not initially file an agreed-upon joint submission as to regulatory provisions, but rather filed the permitted separate submissions.

[179] TCC is defined in the Initial Ruling as ''a shorthand reference to the extant regulatory language describing generally the amount paid by a service to a record company for the section 114 right to perform digitally a sound recording.'' Initial Ruling at 4 n.8 (citations omitted).

[180] The Determination was not unanimous. Judge David Strickler dissented from the Majority's setting of the TCC rate, and he proposed that the appropriate rates should essentially be those proposed in the Phonorecords II-based benchmark proposed by several of the Services. Thus, for clarity, this Order refers to the ''Majority Opinion'' and the ''Dissenting Opinion,'' rather than the ''Final Determination,'' when discussing the respective opinions.

[181] The other prong in the ''greater-of'' rate structure is the percent-of-revenue generated by the interactive streaming service, *i.e.,* ''service revenue.''

2018–2022 ALL-IN ROYALTY RATES: THE GREATER OF:

	2018	2019	2020	2021	2022
Percent of Revenue	11.4%	12.3%	13.3%	14.2%	15.1%
Percent of TCC	22.0%	23.1%	24.1%	25.2%	26.2%

Majority Opinion at 1918, 1960.

The Services appealed.[182] Among their arguments were the assertions—pertinent to this Order—that the Majority: (i) violated the Services' procedural right to fair notice by choosing a structure that was not advanced by any party; (ii) acted arbitrarily and capriciously by simultaneously combining a TCC prong (phased-in to 26.2% of TCC) with an increase in the percentages on the revenue prong (phased-in to 15.1%); and (iii) failed to reasonably explain its rejection of the Phonorecords II settlement as a benchmark. *Johnson, supra,* at 376, 380–81.[183]

Copyright Owners argued in opposition that: (i) the Services' procedural rights were not violated because ''every component'' of the Majority's approach was contained in the hearing record; (ii) the Majority's rate and rate structure rulings were well-reasoned, factually supported and, therefore, not arbitrary and capricious; and (iii) sufficient reasons existed in the record to support the Majority's rejection of the Phonorecords II-based benchmark. *Johnson, supra,* at 382–383; 387.

The D.C. Circuit vacated and remanded. More particularly, *Johnson* holds as follows:

1. The Majority Determination ''failed to provide adequate notice of the drastically modified rate structure [they] ultimately adopted,'' which was beyond ''a reasonable range of contemplated outcomes'' in ''the parties' pre-hearing proposals, the arguments made at the evidentiary hearing, and the preexisting rate structures.'' *Johnson* at 381–82. Accordingly, as to this issue, ''[i]f the [Judges] wish[ ] to pursue [their] novel rate structure, [they] will need to reopen the evidentiary record.'' *Id.* at 383.

2. The appellate issue of whether the Majority's adoption of the (phased-in) 26.2% TCC royalty rate was ''arbitrary and capricious'' could not be addressed—given the absence of ''adequate notice'' cited in point (1) above. *Id.*

3. The Majority's derivation, calculation *and application* of the royalty rate of 15.1% on the revenue prong was proper.[184] The D.C. Circuit explained that, as to *this* issue, the Majority had engaged in the ''type of line-drawing and reasoned weighing of the evidence [that] falls squarely within the [Judges'] wheelhouse as an expert administrative agency.'' *Johnson* at 386. More particularly, the D.C. Circuit approved of the Judges' reliance on ''substantial evidence'' in the form of expert testimony to set the 15.1% service revenue rate. *Johnson,* at 384–85 (emphasis added). *See also id.* at 388 (finding ''substantial evidence'' for the Judges' finding that an increase in the mechanical royalty rate was necessary to address a ''marked decline in mechanical royalty income. . . .'').

4. The Majority's rejection of the Phonorecords II-based benchmark is remanded because the D.C. Circuit ''cannot discern the basis on which the [Judges] rejected the Phonorecords II rates as a benchmark in [their] analysis, that issue is remanded to the [Judges] for a reasoned analysis.'' *Johnson* at 387.

On remand, the Judges adopted procedures that mainly followed the parties' requests. More particularly, the Judges followed the D.C. Circuit's directive and reopened the evidentiary record to receive evidence and testimony relating to the TCC issues. *See* Order Regarding Proceedings on Remand at 2 (Dec. 15, 2020). The post-remand supplementary record added: (1) rate evidence for the 33-months from January 2018 through September 2020, when the parties operated under the Majority's new (but subsequently vacated) regulations including the TCC rates; and (2) new testimony from economic expert witnesses on behalf of Copyright Owners and the Services. *See* Initial Ruling, *passim.* However, none of the post-remand evidence submitted and relied upon by the parties *specifically* addressed as a separate issue the rates for the nine offerings that are the subject of the present Order.

On July 1, 2022, the Judges issued their Initial Ruling[185]—applying *Johnson* and considering the entire record developed pre-remand and post-remand. In their Initial Ruling, the Judges made several findings that bear upon the issue at hand, *viz.,* whether to adopt in the Phonorecords III regulations the 26.2% TCC rate or the TCC rates (ranging from 20.65% to 22%) from the Phonorecords II-based benchmark. In particular, in the Initial Ruling, the Judges stated the following:

1. The Phonorecords II-based benchmark incorporates price discriminatory features for product differentiation as between: (a) subscription and ad-supported services; (b) portable and non-portable services; and (c) unbundled and bundled services. *See* Initial Ruling at 67–68 (noting the salutary price discriminatory nature of the Phonorecords II-based benchmark).

2. The Phonorecords II-based benchmark ''reflect[s] a rate structure with an adequate degree of competition, because there was a balance of bargaining power [''countervailing power''] between the two negotiating industrywide trade associations, offsetting the complementary oligopoly effects in place when a ''Must Have'' licensor bargains separately with each licensee.'' Initial Ruling at 69.

3. Based upon the available record evidence, the Judges find . . . the Services' Phonorecords II-based benchmark . . . ''more than sufficient to satisfy the legal requisites for application, as well as a practical benchmark, when used in conjunction with the 15.1% headline revenue rate advocated by Copyright Owners.'' Initial Ruling at 59.

4. ''Substantial evidence demonstrates that the Phonorecords II-based benchmark rates, other than the headline rate, are not 'too low.' '' Initial Ruling at 73.

5. A Copyright Owner expert witness opined that ''the evidence . . . indicates that the relative valuation ratios implied by the current Section 115 compulsory license [*i.e.,* the Phonorecords II-based benchmark] implies a ''*lower bound on the relative market valuations* of the reciprocal percentage of the value musical works rights relative to sound recording rights [*i.e.,* TCC rates] [of] 22% and 21%.'' Initial Ruling at 78 (emphasis therein).

6. The royalty rates and terms within subpart C of the Phonorecords II-based benchmark—*which include the rates and term for the offerings at issue in this Order*—

[182] The Copyright Owners and George Johnson also appealed; all three parties' appeals were consolidated by the D.C. Circuit. *Johnson* at 375.

[183] The annual phased-in rates are set forth in the Table *supra.*

[184] The italicization of the word ''application'' serves to foreshadow a critical point discussed *infra:* The D.C. Circuit did not affirm any application of the 26.2% TCC rate, *except* for the use of that 26.2% rate as an *input* derived from a specific dataset, to set the 15.1% service revenue-based royalty rate. *Johnson, supra,* at 385–86; *see also* at 386 n.11.

[185] The findings and conclusions in the Initial Ruling were adopted by a majority of the Judges, but two Judges filed separate opinions. *See* Initial Ruling at 2 n.5. One Judge, former Chief Judge Suzanne Barnett, dissented from the Majority's adoption in the Initial Ruling regarding the *Phonorecords II* rate structure (section II of the Initial Ruling), though not from the exception to that benchmark with regard to the headline rate of 15.1% and the imposition of a cap on the TCC rate prong. *See* Chief Judge Barnett's ''Dissent re Benchmark'' (July 1, 2022) (eCRB no. 26943). The other opinion was issued by Judge Strickler, who dissented from the *reasoning* relating to the adoption of the definition of Service Revenue (section V), but concurred in the *adoption* of that definition. *See* Judge Strickler's ''Dissent in Part as to Section IV of the Initial Ruling and Order after Remand'' (July 1, 2022) (eCRB no. 26965).

are expressly ''covered by [the] foregoing analysis.'' Initial Ruling at 93. In rejecting all of Copyright Owners' arguments for different treatment of Phonorecords II-based benchmark rates in Subpart C therein, the Judges declined to adopt Copyright Owners' ''re-assert[ion] [of] the same arguments with respect to subpart C'' that Copyright Owners advanced in opposing the Phonorecords II-based benchmark ''for interactive streaming in subpart B.'' *See* Initial Ruling at 93–94 (''The Judges find no reason on remand to treat the subpart C offerings differently than the manner in which they are treating the subpart B interactive streaming offerings . . . . That means, however, that the various ''headline'' rates for these subpart C offerings must also adjust to 15.1%, 131 *whereas the alternative rates (identified in subpart C as* ''*minima*'' *and* ''*submininma*'') *rates shall remain unchanged*.'') (emphasis added).

7. The D.C. Circuit had affirmed that: (a) the ''headline'' percentage royalty rate (not a TCC rate) of 10.5% was too low; and (b) that the Majority had not improperly exercised its authority when it increased that revenue royalty rate to 15.1% (as phased-in over the five-year rate term). Accordingly, on remand, the Judges maintained the 15.1% (phased-in) percentage royalty rate. *See, e.g.,* Initial Ruling at 4, 17.

8. The D.C. Circuit affirmed the Majority's *derivation and calculation* of the 26.2% TCC rate for use as an input in calculating the 15.1% (phased-in) service revenue percentage royalty rate. However, *Johnson* vacated and remanded the Majority's *application and inclusion* of the 26.2% TCC rate. Initial Ruling at 19–20.

For these reasons, the Judges decided in the Interim Ruling that: (1) the overall Phonorecords II rates comprise a ''useful benchmark,'' when the 15.1% headline percentage rate replaces the 10.5% headline percentage rate for the offerings in Subparts B and C of the Phonorecords II-based benchmark; and (2) ''[t]he (phased-in) 26.2% rate [is] unreasonable.'' Initial Ruling at 50 n.77; 88; and 93–94.

Procedures Following the Post-Remand Initial Ruling

In the Initial Ruling, the Judges directed the parties to attempt to submit jointly agreed-upon regulatory provisions implementing the Initial Ruling, for the Judges to consider. The Judges further ruled that, if the parties could not agree on all the regulatory language, they should make separate submissions regarding regulatory provisions in dispute. *See* Initial Ruling at 114.

The parties agreed to many regulatory provisions but disagreed as to several such provisions. Accordingly, they filed separate submissions and respective replies, regarding the regulatory provisions. Services' Joint Submission of Regulatory Provisions (July 18, 2022); Copyright Owners' Submission of Regulatory Provisions to Implement the Initial Ruling (July 18, 2022); Services' Joint Response to Copyright Owners' Submission of Regulatory Provisions (Aug. 5, 2022); Copyright Owners' Response to Judges' July 27, 2022 Order Soliciting Responses Regarding Regulatory Provisions (Aug. 5, 2022).

The Judges considered those submissions and entered an order addressing the disputed regulatory provisions. *See* Corrected Order regarding Regulatory Provisions following Initial Ruling and Order (After Remand) (Nov. 10, 2022) (''November 10th Order'').[186]

In the November 10th Order, the Judges directed the parties once more to file a joint submission ''of regulatory provisions that embody the rulings set forth in *Johnson,* the Initial Ruling and this [November 10th] Order, and any aspects of the [Majority] Determination (pre-remand) that the parties understand to remain effective after the foregoing rulings.'' November 10th Order at 31.

On November 30, 2022, the parties made the Joint Submission (as also identified at the outset of the present Order), in which they provided joint regulatory language no longer in dispute that applied the binding rulings of the Judges and the D.C. Circuit. However, as also noted above, the parties identified the single issue in dispute that relates to the nine service offerings described *supra*.[187]

The Parties' Respective Arguments in Their November 30th Joint Submission

Copyright Owners' Arguments

According to Copyright Owners, the Initial Ruling ''appears to plainly acknowledge that, in light of *Johnson,* the derivation and calculation of the (phased-in) 26.2% TCC rate percentage cannot be changed.'' Joint Submission at 6. More particularly, Copyright Owners aver that, according to the Judges' Initial Ruling, ''the D.C. Circuit affirmed the Majority's derivation and calculation of the 26.[2]% . . . TCC rate'' and further that ''both rate prongs''—the service revenue rate and the TCC rate—were ''derived from the same analyses.'' Initial Ruling at 19; Joint Submission at 6–7 (quoting Initial Ruling at 19 (emphasis removed)). Further to this point, Copyright Owners rely on the Judges' additional language in the Initial Ruling that the pre-remand Final Determination's ''*derivation and calculation* of the TCC rate [*i.e.,* the 26.2% rate] . . . is not subject to further consideration on remand by the Judges.'' Joint Submission at 7 (quoting Initial Ruling at 20 (emphasis in Initial Ruling)).[188]

According to Copyright Owners, the foregoing points are consistent with the limited scope of the remand, which ''was not opened for new evidence concerning TCC rate percentages.'' Joint Submission at 7 (citations omitted). Accordingly, Copyright Owners emphasize that ''there is no evidence in the record after remand to support changing the (phased-in) 26.2% TCC rate percentage.'' Joint Submission at 7. Copyright Owners—characterizing the former Phonorecords II TCC rates now at issue as newly derived and calculated—maintain that these ''new'' TCC rate percentages therefore are ''foreclosed'' by the Initial Ruling and post-remand orders cited above. Joint Submission at 7–8.

Copyright Owners also assert that the TCC rate at issue here—''was not appealed by the Services or challenged during the remand, nor called into question by the Circuit in *Johnson*.'' Joint Submission at 8 (emphasis removed). The absence of an appeal as to this issue, according to Copyright Owners, means that the only TCC rate supported by *Johnson* is the 26.2% TCC rate. Joint Submission at 8.

The Services' Arguments

According to the Services, the Judges should adopt in the regulations the TCC percentage rates—ranging from 20.65% to 22%—because those rates are contained in the Phonorecords II-based benchmark adopted by the Judges and thus essentially have been ''expressly set out by the Judges'' in two prior decisions. Joint Submission at 2 (citing Initial Ruling at 2; November 10th Order at 6 n.13). In light of these prior Orders, the Services characterize *Copyright Owners' position as the new argument,* improperly seeking regulatory provisions that ''reflect the 26.2% rate

[186] The November 10th Order corrected an otherwise substantively identical order issued two days earlier, on November 8, 2023, which had inadvertently included a small amount of text. See November 10th Order at 1.

[187] On January 10, 2023, Spotify USA Inc., *Amazon.com* Services LLC, Google LLC, Pandora Media, LLC, National Music Publishers' Association, Inc. and the Nashville Songwriters Association International filed a joint Motion (eCRB no. 27418) requesting modification of the previously proposed language for 37 CFR 385.3, which governs fees owed for late payment. There was no opposition to the January 10, 2023 joint Motion. The Judges find good cause to adopt the modified language, which provides that ''where payment is due to the mechanical licensing collective under 17 U.S.C. 115(d)(4)(A)(i), late fees shall accrue from the due date until the mechanical licensing collective receives payment.''

[188] However, Copyright Owners disregard the Initial Ruling's observation that *Johnson* vacated and remanded the Majority's *application and inclusion* of the 26.2% TCC rate. Initial Ruling at 19.

previously imposed by the [M]ajority in the now-vacated pre-remand Final Determination.'' *Id.*

More pointedly, the Services argue that the Judges' Initial Ruling already expressly considered and rejected application of the 26.2% TCC rate. *Id.* (citations omitted). Further, the Services maintain that it is because the Judges rejected the 26.2% TCC rate in the Initial Ruling that the Judges had no need to ''substantively address the topic of TCC rates'' in their November 10th Order. *Id.* at 4.

The Services further maintain that ''*Johnson* does not compel the Judges to simply reinstate their original pre-remand TCC rates.'' *Id.* To this point, the Services rely on the Judges' post-remand finding that, although the error made by the Majority in adopting the 26.2% TCC rate in the pre-appeal Phonorecords III Determination was procedural, the ''consequence . . . was *substantive.*'' *Id.* (emphasis herein).

For the above reasons, the Services maintain that the Judges could not possibly be required on remand to adopt an express 26.2% in any portion of the Phonorecords III regulations.

Turning from their argument that the 26.2% TCC rate was rejected by the Judges, the Services focus on the Judges' finding in the post-remand Initial Ruling that the ''*Phonorecords II* benchmark . . . is the 'better of the benchmarks proposed by the parties . . . one that satisfies the requirements of 17 U.S.C. 801(b)(1) in all respects,' '' Joint Submission at 5 (quoting Initial Ruling at 2). Because the Phonorecords II benchmark includes the TCC rates now at issue—ranging from 20.65% to 22%—the Services maintain that those rates should properly be included in the Phonorecords III regulations. *Id.*[189]

The Judges' Analysis and Ruling

Having considered the parties' submissions, the Initial Ruling and all other pertinent material, the Judges rule that the 26.2% TCC rate cannot and shall not be applied in the regulatory provisions now at issue. Rather, the Judges rule that the TCC rates set forth in the Phonorecords II-based benchmark shall be applied in the nine regulatory provisions now at issue, because they are consistent with and give effect to the Judges' Initial Ruling. The more particular bases for this ruling are set forth below.

Most fundamentally, the Judges note at the outset that in the Initial Ruling they expressly *did not apply* the 26.2% TCC rate in any manner other than as an input—using that TCC rate only as the D.C. Circuit directed—to calculate the 15.1% of service-revenue royalty rate. *See, e.g.,* Initial Ruling at 41 (''[A] careful reading of the remand testimony by Copyright Owners' economists, Professors Watt and Spulber, reveals that *neither of them actually testifies that there is sufficient theoretical and empirical evidence to support the . . . 26.2% TCC rate . . . .*'') (emphasis in original). *See also id.* at 40–41 n.69 (contrasting the improper application of the 26.2% TCC as a separate statutory rate from the use of the 26.2% TCC rate as input from a ''bargaining model'' solely to increase the service revenue rate to 15.1%.).[190]

In this regard, the Initial Ruling has relied upon the clear distinction made in *Johnson* between the 15.1% service revenue rate and the 26.2% TCC rate. *Compare Johnson, supra,* at 385 (affirming the Majority's *application* of the ''revenue rate of 15.1%'' as ''the type of line-drawing and reasoned weighing of the evidence falls squarely within the[ir] wheelhouse as an expert administrative agency'') *with id.* at 382–83 (vacating the Majority's decision for ''significantly hiking the TCC rate to 26.2% from approximately 17% to 22%'' without allowing the Services an opportunity to address the issue—an error that was even ''worse'' than the elimination of caps on certain other TCC offerings.).

Further, the offerings now at issue were contained in the Phonorecords II-based benchmark, and the Judges' application of that benchmark in the Initial Ruling is unambiguous: Other than the new and increased headline rate of 15.1%, ''the rates and rate structure of the *Phonorecords II*-based benchmark proposed by the Services . . .) shall constitute the rates and rate structure for the *Phonorecords III* period.'' Initial Ruling at 2. Accordingly, with regard to the single remaining issue, pertaining to the nine offerings listed *supra,* the regulatory provisions proposed by the Services in the Joint Submission are fully consistent with the Initial Ruling.

By contrast, Copyright Owners' proposed language introduces a change in the Phonorecords II-based benchmark rates that was never the subject of an evidentiary proceeding pre-or post-remand, whether through live or written testimony. But perhaps more importantly, as a matter of *substance,* Copyright Owners' proposed regulatory provisions are inconsistent with the language and a key purpose of the Initial Ruling, which is to adopt the Phonorecords II-based benchmark rates, the basis of which were generated consensually by the parties, through negotiations between industrywide trade associations, which prevented unwarranted and disproportionate complementary oligopoly market power from affecting the royalty rates. See Initial Ruling at 69–70.[191]

[189] The Services also argue that Copyright Owners' assertion *at this time* that the 26.2% TCC rate should substitute for the Phonorecords II-based benchmark rates is *procedurally* untimely and improper. The Judges only partially agree with Services' argument in this regard. If Copyright Owners had wanted to timely make this argument, they should have done so during the post-remand period *before* the Judges entered their Initial Ruling (or, of course, during the initial proceeding pre-appeal). In that sense, Copyright Owners failed to avail themselves procedurally of the right to make this substantive challenge. However, the Judges have afforded the parties the procedural right to propose regulatory language that they claim would implement the Initial Ruling; a procedural right exercised by both parties, as evidenced by, for example, their arguments in the Joint Submission. In that narrow sense, Copyright Owners' present argument is not procedurally improper. As a matter of *substance* though, as explained in ''The Judges Analysis and Ruling'' *infra,* the Judges have considered herein Copyright Owners' present arguments and found them inconsistent with the Initial Ruling.

Finally, with regard to subsequent substantive challenges to the Initial Ruling, the parties correctly understand that such challenges can be made after the Judges issue their post-remand ''Initial Determination'' (a statutorily-mandated ruling). *See* Joint Submission at 9 (Services agreeing with Copyright Owners' understanding that they continue to properly ''reserve all rights with respect to the Initial Ruling, any implementing regulations and any Initial and Final Determination, including the right to challenge any of the foregoing.'').

[190] The Services claim that this distinction constitutes a semantic twisting of words. *See* Joint Submission at 7. The Judges reject that characterization. Rather, their ruling is substantive, not semantic, because they have relied upon the testimony of several economic expert witnesses, including one of Copyright Owners' own economic experts, who identified five reasons that the Judges found to preclude adoption of the 26.2% TCC rate as a separate statutory rate. *See, e.g.,* Initial Ruling at 41. Moreover, not a single economist who testified at the hearing proposed that the Judges adopt the 26.2% TCC rate as a statutory rate, *see* Initial Ruling at 38, further supporting the Judges' adoption in the Initial Ruling of the consensual negotiated TCC rates contained in the Phonorecords II-based benchmark for the nine offerings at issue.

[191] The Judges also note that their adoption of these 20.65% through 22% TCC rates in the Phonorecords II-based benchmark—because they are lower than the 26.2% rate proposed by Copyright Owners—is consistent with their rationale for adopting that benchmark. As the Judges explained *repeatedly and throughout the Initial Ruling,* their adoption of the Phonorecords II-based benchmark purposefully incorporates into the Phonorecords III regulations the beneficial price discriminatory features that are hallmarks of that benchmark. *See, e.g.,* Initial Ruling at 65 n.98 (''[T]the granular discriminatory features that the parties had negotiated . . . reflect an ''appropriate form and extent of price discrimination . . . .'' The Judges emphasized this point repeatedly. *See generally* Initial Ruling, *passim.*

Further, as the Services note, Copyright Owners themselves—even when advocating for an otherwise across-the-board 26.2% TCC prong—had continued to propose the 20.65% to 22% TCC rates for the nine offerings at issue now. *See* Copyright Owners' Submission of Regulatory Provisions to

The Judges also reject Copyright Owners' argument that by maintaining the 20.65% through 22% TCC rates in the Phonorecords II-based benchmark they would be violating their prior rulings regarding the scope of the remand. Citing to the Judges' Order Regarding Proceedings on Remand at 1 (eCRB no. 23390) (''Remand Order''), Copyright Owners state in their Joint Submission that that the remand ''was not opened for new evidence concerning TCC rate percentages.'' Joint Submission at 7. But the decision to re-open the existing, and robust, evidentiary record only as to rate *structure,* did not limit the *scope* of the remand itself, nor consideration of evidence from the underlying proceeding.

Moreover, the Judges find no language in either the Remand Order or the Remand Scheduling Order, and no other basis, that would support Copyright Owners' characterization of the 20.65% through 22% TCC rates in the Phonorecords III-based benchmark as new evidence, given that they were expressly included in that benchmark which had been proffered at the hearing *prior to the remand.*

Further, the present issue of whether the regulatory provisions implementing the Initial Ruling should apply the Phonorecords II-based benchmark TCC rates or the 26.2% TCC rate is *not* a dispute regarding the derivation or calculation of a *new* TCC rate. The Phonorecords II-based benchmark rates are self-evidently *not new rates,* because they existed in that *prior* benchmark. Moreover, the present dispute relates to whether the language and reasoning in the Initial Ruling are consistent with maintaining the rates contained in the Phonorecords II-based benchmark for the nine offerings at issue, or whether the Initial Ruling calls for abandoning those benchmark rates and replacing them with the 26.2% TCC rate proffered by Copyright Owners. As explained *supra,* the 26.2% TCC rate was properly utilized by the Majority as an *input* (combined with other evidence) in order to calculate the 15.1% service revenue royalty rate. The record reflects no other context in which the 26.2% TCC rate can be utilized, let alone must be utilized. Indeed, as explained *supra,* the record reflects the Judges' rejection of the 26.2% TCC rate as a stand-alone statutory royalty rate.

The Judges also reject Copyright Owners' argument that the Services somehow waived their argument for maintaining the 20.65% through 22% TCC Phonorecords II-based benchmark rates. More particularly, Copyright Owners incorrectly assert that these rates were ''not appealed by the Services. . . .'' Joint Submission at 8. Rather, the D.C. Circuit stated unambiguously: ''[T]he Streaming Services object to the [Judges'] . . . rejection of the Phonorecords II . . . settlement[ ] as [a] rate benchmark[ ].'' *Johnson,* 969 F.3d at 384; *see also id.* at 386 (''The Streaming Services argue . . . that the [Judges] arbitrarily rejected . . . [a] potential rate benchmark[ ] . . . the Phonorecords II settlement—without adequate explanation.'').

Moreover, the D.C. Circuit repeatedly noted that it was vacating and remanding the Majority's Determination with regard to, *inter alia,* the Majority's improper decision to reject the Phonorecords II-based benchmark *writ large, i.e.,* without qualification by the appellate panel that some parts of that proffered benchmark might have been correctly rejected. *See Johnson,* 969 F.3d at 367, 376, 381, 387. Obviously, virtually all the elements of the Phonorecords II-based benchmark—including the offerings now at issue—were appealed, and not waived, foregone or forfeited by the Services.

Likewise, Copyright Owners are wrong in their claim that the Services had never ''challenged'' these rate issues ''during the remand.'' Joint Submission at 8. Rather, the Services argued on remand for the Phonorecords II-based benchmark to be applied *comprehensively,* without itemizing every element of that proffered benchmark. *See* Services' Joint Opening Brief (post-remand) at 19–44 (Apr. 1, 2021) (detailing why ''the Services' proposal based on the *Phonorecords II* settlement is reasonable . . . .''); *see also* Services' . . . Submission of Regulatory Provisions at 2 (July 18, 2022) (''Services' July 18th Submission'') (''[T]he Services have faithfully implemented the task at hand—to use the rates and rate structure of the ''Phonorecords II-based benchmark'' proposed by the Services during the remand proceeding . . . .'').[192]

Finally, the Judges find and conclude that their ruling in this Order sets forth reasonable rates satisfying the four objectives in the then-applicable (but now superseded) statutory rate standard contained in 17 U.S.C. 801(b)(1).[193] First, with regard to Factor (A),[194] the Judges recognize and follow the D.C. Circuit's ruling that the Majority's decision to increase in the ''headline'' service revenue royalty rate by 44% from 10.5% to 15.1% was supported by substantial evidence. *Johnson* at 387–88.

Further with regard to Factor (A), the Judges understand their analysis and reasoning in the Initial Ruling—applying the Phonorecords II-based benchmark and thus rejecting the 26.2% TCC rate—to be applicable to the present dispute regarding the adoption of regulations to implement the Initial Ruling. Accordingly, the Judges adopt by reference herein their analysis and reasoning set forth at pages 90–91 of the Initial Ruling. For those reasons, the Judges decide, as they did in the Initial Ruling, that there is no basis for yet a *further* increase in the royalty rate based on Factor (A), finding ''no evidence to suggest that the price discriminatory rates should be changed, in order to address the connection between price discrimination and the objective of Factor (A).'' *Id.* at 91.

Next, in considering Factors (B) and (C),[195] the Judges' Initial Ruling adopts the Majority's reasoning that the 15.1% service revenue royalty rate provided a ''*fair* allocation of revenue between copyright owners and services'' and it would be ''substantively unwarranted to engage in any new consideration on remand of the impact, if any, of Factors

Implement the Initial Ruling at 15–16) (July 18, 2022); see also Joint Submission at 6.

[192] The decision in *Johnson* could be construed as rejecting *one* element of the Phonorecords II-based benchmark, viz., the 10.5% headline rate, because the appellate panel affirmed the higher Majority's adoption of the (phased-in) 15.1% headline royalty revenue rate. The Initial Ruling is consistent with that ruling, and this rate is not now in dispute. *See* Services' July 18th Submission at 2 (the Services acknowledge that in their proposed regulatory provisions they ''replac[ed] the headline rate'' of 10.5% with the headline royalty rate ''set by the Judges [15.1%] in the Initial Ruling.'').

[193] The D.C. Circuit expressly declined to adopt most of the Majority's application of the explicit statutory objectives. As to Factor (A), regarding the objective of ''maximiz[ing] the availability of creative works to the public,'' the D.C. Circuit held that the Majority's finding that ''an increase in the royalty rates for mechanical licenses was necessary to ensure the continued viability of songwriting as a profession'' was ''supported by substantial evidence.'' *Johnson* at 387–388. However, with regard to the remaining statutory factors, *Johnson* instead vacated and remanded consideration of those matters to the Judges. *See Johnson* at 389. The Initial Ruling after remand considered these statutory objectives in detail. *See* Initial Ruling at 90–93. (The parties made no express argument regarding the application of these statutory objectives in their Joint Submission.).

[194] Factor (A) provides that rates shall be calculated to achieve the objective of ''maximize[ing] the availability of creative works to the public.'' 17 U.S.C. 801(b)(1)(A).

[195] The Factor (B) objectives (providing a ''fair return'' and a ''fair income'' to the licensors and licensees respectively) and Factor (C) objectives reflecting their relative roles in making the streamed music available to the public) are typically considered jointly, because of their overlapping concerns. *See* Initial Ruling at 15 n.31 (citing *Johnson,* 969 at 388). In this Order, the Judges likewise jointly address Factors (B) and (C).

(B) and (C) on the otherwise reasonable 15.1% revenue rate.'' *Id.* at 15–16.

In their Joint Submission, the parties have presented no arguments specifically addressing how Factors (B) or (C) might support their proposed TCC rates now at issue. Examining the record, the Judges find and conclude that maintaining the Phonorecords II-based rates ranging from 20.65% to 22% embodies the fairness associated with rates negotiated between industrywide trade associations wielding relatively comparable bargaining power, as discussed *supra* and in the Initial Ruling.[196] This notion of fairness is embodied in the determination of the reasonable rate and, as can be the case, when one of the four itemized statutory objectives of section 801(b)(1) is bound-up and appropriately addressed within the broader context of setting a reasonable rate, no further adjustment is necessary through an invocation of an itemized statutory factor. *See* Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III) 84 FR 1918, 1955, 2015 (Feb. 5, 2019) (Majority and Dissenting Opinions agreeing that ''to the extent market factors may implicitly address any (or all) of the four itemized factors, the reasonable, market-based rates may remain unadjusted.'').

Finally, the Judges see no reason to alter their adoption of the Phonorecords II-based benchmark rates for the nine offerings at issue in this Order based upon the final listed statutory objective, Factor (D).[197] In the Joint Submission, Copyright Owners did not make an express argument relating to this factor (nor did the Services). Independently considering the potential application of Factor (D), the Judges find no evidence that the continuation of the Phonorecords II-based benchmark rates for the offerings at issue in this Order would cause any disruption that Factor (D) is intended to address. Further, as noted *supra,* the Judges have phased-in an *increase* in the headline service revenue royalty rate from 10.5% to 15.1%—a 44% increase—rendering unreasonable any argument that the present decision to maintain the Phonorecords II-based TCC rates is ''disruptive'' to Copyright Owners under the statutory Factor (D) standard.

Moreover, the Judges reassert their point in the Initial Ruling that there is no need to independently consider any potential disruption under the Factor (D) standard because the Judges have already found an application of that rate to be unreasonable. *See* Initial Ruling at 50 n.77. Further, the D.C. Circuit was aware of the existence of the 20.65% to 22% TCC rates in the Phonorecords II-based benchmark for these nine offerings now at issue, and not only declined to affirm the Majority's increase in those rates to 26.2%—a significant increase of 19% to 27% [198]—but also condemned that increase. *See Johnson* at 383 (''Worse still . . .the [Judges] also raised the total content cost [TCC] rate to 26.2%. . . .That rate previously fell between approximately 17% and 22%''). Nothing in the record suggest that the Judges can or should utilize the narrow statutory ''disruption'' standard in Factor (D) of section 801(b)(1) as a basis to override the position of the D.C. Circuit or the Judges' analysis in the Initial Ruling as to the inapplicability of the proffered 26.2% royalty rate.

Order

For the foregoing reasons, the Judges shall adopt in the regulatory provisions [199] the several ''Total Content Cost'' (''TCC'') rates set forth in the Phonorecords II-based benchmark as proposed by the Services.[200]

Within two days of the date of issuance of this Restricted Order, the parties shall file an agreed proposed redacted version for public viewing.

Issue Date: April 26, 2023.

David P. Shaw
Chief Copyright Royalty Judge

[196] In this regard, the Judges agree with the Services' argument. *See* Initial Ruling at 61 (summarizing the Services' position as to Factors (B) and (C)).

[197] ''Factor (D) . . . instructs the Judges to consider the 'competing priority' of 'minimiz[ing] any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.'" Initial Ruling at 16. More particularly, ''disruption'' potentially remediable under Factor (D) requires that the contemplated rate ''directly produce[ ] an adverse impact that is substantial, immediate and in the short-run because there is insufficient time for either [party] to adequately adapt to the changed circumstance produced by the rate change . . . .'' Initial Ruling at 53–54.

[198] An increase from 20.65% to 26.2% is a 5.55 percentage point increase, which is an increase of 27% (rounded). An increase from 22% to 26.2% is a 4.2 percentage point increase, which is an increase of 19% (rounded).

[199] As addressed herein, the Judges find good cause to adopt the joint proposal for modified language regarding late fees, in 37 CFR 385.3.

[200] The Initial Determination shall issue forthwith.

C. Dissent in Part as to Section IV of the Initial Ruling and Order After Remand by Judge David R. Strickler [201] (Redacted Version With Federal Register Naming and Formatting Conventions)

I. The Contours of This Partial Dissent

I respectfully Dissent from Section IV of the Initial Ruling and Order after Remand (Initial Ruling). As explained herein, I conclude that the D.C. Circuit's rulings in *Johnson* preclude the Judges from engaging in ''new 'agency action.' '' [202] See *Johnson* v. *Copyright Royalty Board,* 969 F.3d 363, 386 (D.C. Cir. 2020). Accordingly, I cannot join with the present Majority in its determination that this remand proceeding constitutes ''new 'agency action' '' consistent with *Johnson.* That argument is circular and renders useless the D.C. Circuit's careful analysis of the procedures that are and are not available to the Judges after they have issued their Initial Determination.

As further explained herein, the argument is *circular* because it begins with the D.C. Circuit's ruling that the Determination [203] was improper because it invented a new procedure to change

[201] I am concurring in the Majority's *substantive* re-adoption of the Bundled Service Revenue definition from the Initial Determination. As explained herein, I disagree with the Majority regarding the *procedural* manner in which the Judges may reach this result. Thus, it would be more accurate to describe this ''Dissent'' as a ''Concurring Opinion'', or an ''Opinion Concurring in Part and Dissenting in Part.'' However, the Copyright Act does not expressly authorize Judges to issue a ''concurring opinion,'' but rather references the issuance of a ''dissenting opinion.'' *See* 17 U.S.C. 803(a)(3). Accordingly, I identify this opinion as a ''Dissent in Part as to Section IV of the Initial Ruling and Order after Remand.''

[202] I place the phrase *agency action* within quotation marks inside the broader phrase *new agency action* to avoid potential ambiguity and inconsistency with the directives in *Johnson.* There, the D.C. Circuit held that the Judges cannot assert ''plenary authority to revise [their] determinations whenever [they] thought appropriate,'' because such a power grab would render ''a nullity . . . the lines drawn by the authorizing statute . . . to confine . . . post hoc amendments'' to statutorily identified circumstances.'' *Johnson* at 392. So, ''new'' means the new application of an *existing* statutorily available ''agency action'' that had not previously been invoked—not ''new'' in the sense of a form of action conjured up to meet the moment. (When this phrase is used in a quotation I do not use the double quotation marks.) This distinction is important because the Majority and Copyright Owners advance new *forms* of (extra-statutory) agency action, not merely new applications of statutorily-authorized agency actions.

[203] *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 84 FR 1918 (Copyright Royalty Board Feb. 5, 2019) (final rule and order) (''Determination''); *See also* Final Determination, 16–CRB–0003–PR (2018–2022) (Nov. 5, 2018) (citations to the Determination and to the Dissent in this Dissent in Part are found in this document). The Dissent is appended to and part of the same document as the Determination.

the Bundled Revenue definition that was in the Initial Determination,[204] only to circle back to where it started by creating—through the D.C. Circuit's own remand no less—a further and extra-statutory ''new 'agency action'''.

The Majority also renders Johnson *useless,* by adopting a process by which—after the D.C. Circuit has remanded an issue because the Judges lacked procedural authority to rule—the procedural error is essentially honored in the breach, because the remand neuters the effect of the D.C. Circuit's ruling.[205]

I join with the Majority though on its *substantive* decision to re-adopt the definition of Bundled Revenue set forth in the Initial Determination. As explained *infra,* I too find that it is clearly preferable to the definition that was swapped into the (Final) Determination. But as explained herein, I reconcile the procedural and substantive points differently. I apply what I believe to be the proper understanding of the D.C. Circuit's ruling—finding, contrary to the Majority, no avenue for ''new 'agency action''' post-remand. Rather, the Judges must *revert* to the original—and substantively appropriate—definition of Bundled Revenue in the Initial Determination.

To explicate the bases of this Dissent, my opinion as to this issue is set forth below.

II. Introduction

The Majority and I analyze the definition of ''Service Revenue'' from ''Bundled Offerings'' (henceforth ''Bundled Revenue'' definition) in the context of our partial adoption of the PR II-based benchmark. As discussed *supra,* the Remand Majority found that the PR II-based benchmark is a useful benchmark, particularly because of its features that incentivize beneficial downstream price discrimination and generate more listeners, revenues, and royalties. As explained below, the Bundled Revenue definition—itself an element within the PR II-based benchmark—also embodies such price discriminatory incentives. Thus, the Judges' analysis of the PR II-based benchmark and the Bundled Revenue definition are connected.

In the Determination, the earlier Majority likewise found the issues relating to the PR II-based benchmark to be bound-up with the question of the appropriate Bundled Revenue definition. But because that earlier Majority *rejected* the PR II-based benchmark, it likewise rejected the Bundled Revenue definition contained in the Initial Determination. The definition in the Determination thus eliminated the royalty-based incentive to engage in price discrimination via bundling.

In the interregnum between the Initial Determination and the (Final) Determination, the Judges considered Copyright Owners' post-hearing motion which sought, *inter alia,* to strike the Bundled Revenue definition in the Initial Determination. The Majority agreed with Copyright Owners that the definition in the Initial Determination should be replaced. An important rationale—highly relevant in the present context—was as follows: ''The Judges have . . . declined to rely on the 2012 . . . benchmark . . . as the basis for the rate structure, or, therefore, as regulatory guidance.'' Amended Order Granting in Part and Denying in Part Motions for Rehearing at 17 (Jan. 4, 2019) (Clarification Order).[206]

Unlike in the Determination, in this Initial Remand Ruling the Judges *do* rely on the PR II-based benchmark in part because of its price discriminatory aspects. More particularly, because the bundling of interactive services also constitutes a form of price discrimination, the Judges find the PR II-based benchmark definition of Bundled Revenue set forth in the Initial Determination to be substantively reasonable and otherwise consistent with the four itemized factors in section 801(b)(1).

As a *procedural* matter though, I can neither: (1) offer any further or fuller explanation for why the Majority made this change in the Bundled Revenue definition nor (2) identify any ''new 'agency action''' that would permit this definitional switch. And contrary to present Majority on remand, I also cannot identify a ''new 'agency action''' that the Judges can now take to return to the definition in the Initial Determination. But, as explained *infra,* the Judges need not identify such action, because the absence of a justification for the definitional switch requires the Judges to *revert back* to the definition in the Initial Determination.

As a *substantive* matter though, the Judges unanimously agree to replace the post-hearing definition of Bundled Revenue in the Determination and reinstate the definition set forth in the Initial Determination.

III. Background

In this remand proceeding, the parties propose two starkly different definitions of Bundled Revenue. Each has a dramatically different impact on the use of the royalty structure and levels to incentivize price discrimination in the downstream market.

The Services argue in favor of the language contained in the Initial Determination, *i.e.,* in their PR II-based benchmark, which defines Bundled Revenue, in pertinent part, as

> the revenue recognized from End Users [*i.e.,* consumers] for the Bundle less the standalone published price for End users for each of the other component(s) of the Bundle . . . .

Initial Determination, Attachment A at 7 (§ 382.2 therein).

By contrast, Copyright Owners support the Majority's substituted language contained in the Determination, which defines Bundled Revenue, in pertinent part, as

> the lesser of the revenue recognized from End Users [*i.e.,* consumers] for the bundle and the aggregate standalone published prices for End Users for each of the component(s) of the bundle that are License Activities . . . .

Determination, Attachment A at 8 (§ 382.2 therein).

In *Johnson,* the D.C. Circuit succinctly summarized these conflicting definitions as follows:

> In its Initial Determination, the [Judges] directed that the revenue from streaming services that are included in bundled offerings would generally be measured by the value remaining after subtracting the prices attributable to the other products in the bundle.
>
> When the Copyright Owners objected to the substance of that definition in their motion for ''clarification,'' the Board adopted an entirely new definition of Service Revenue for bundled offerings. . . . This new definition generally measured the value of the streaming component of a bundle as the standalone price of the streaming component.

[204] Initial Determination, 16–CRB–0003–PR (2018–2022) (Jan. 27, 2018).

[205] The Initial Ruling suggests that the Judges *could* have utilized a ''further explanation'' for the switched Bundled Revenue definition, as opposed to using ''new 'agency action.''' I do not dissent from that general point. However, even though the Majority did not utilize this alternative approach on remand, I dissent to the extent that section could be read to allow a fuller explanation that would conflict with *Johnson.*

[206] This January 4, 2019 Order was issued in response to two motions; the Services' ''Joint Motion for Rehearing to Clarify the Regulations'' and Copyright Owners' ''Motion for Clarification or Correction of Typographical Errors and Certain Regulatory Terms.'' As explained *infra,* Copyright Owners did not style their motion as a ''rehearing'' motion and expressly declined to argue that their motion met the statutory and regulatory requisites for rehearing. This remand issue pertains only to the post-hearing switch in the Bundled Revenue definition sought and obtained by Copyright Owners via their motion. Accordingly, it is clearer to refer herein to the Judges' January 4, 2019 Order as the ''Clarification Order,'' rather than as a ''Rehearing Order,'' because the semantic distinction carries substantive overtones. (I had dissented from the Initial Determination and the Determination, and thus did not join in the Clarification Order.)

Johnson at 389.[207]

In the Clarification Order, the Judges succinctly summarized the parties' respective positions. *Id.* at 17. They noted that Copyright Owners had presented evidence that the PR II-based benchmark definition contained in the Initial Determination ''led *in some cases* to an inappropriately low revenue base,'' although the Judges ''agree that there is *no support for any sweeping inference that cross-selling has diminished the revenue base.*'' *Id.* at 17, 21 (emphasis added). The Judges further noted the Services' assertion that the Bundled Revenue definition in the Initial Determination is consistent with the Judges' ''endorsement of the classic price discrimination enabled by bundling strategies.'' *Id.*[208]

The Majority resolved this issue in the Clarification Order in favor of Copyright Owners. Specifically, the Majority found that, because of the ''indeterminacy problem'' [209] inherent in bundling, ''the Services—not the Copyright Owners—. . . are in a position to provide evidence of how they price bundles and value the component parts thereof.'' *Id.* at 17–18. However, according to the Majority, although the Services ''bore the burden of providing evidence concerning the proper economic allocation of bundled revenue,'' they ''failed to do so,'' and ''[b]y default . . . the Judges must adopt an approach to valuing bundled revenue that is in line with what the Copyright Owners have proposed.'' *Id.* at 18.

IV. The Rulings in Johnson Regarding the Bundled Revenue Definition

The Services appealed the Majority's abandonment of the Bundled Revenue definition in their Initial Determination. Their appeal ''challenge[s] both the legal authority and the substantive soundness'' of this switch.

First, the Services argued that the Majority failed to identify and explain the *procedural* basis for making the switch after the hearing had concluded. Second, the Services argued that, *substantively,* the replacement definition in the Determination ''was arbitrary, capricious, or unsupported by substantial evidence.'' *Johnson* at 389, 392.

The D.C. Circuit agreed with the Services regarding the *procedural* issue and therefore vacated and remanded that aspect of the Bundled Revenue definitional switch. In light of its procedural ruling, the D.C. Circuit explicitly declined to rule on the Services' *substantive* argument relating to the definitional switch. *Id.* at 392. (''Because the Board failed to explain the legal authority for its late-breaking rewrite, we vacate and remand that aspect of the decision [and] we have no occasion to address the Streaming Services' separate argument that the definition was arbitrary, capricious, or unsupported by substantial evidence.'').

The D.C. Circuit's rulings in *Johnson* pertaining to this Bundled Revenue Definition were clearly articulated. The D.C. Circuit found that the Majority ''failed to explain under what authority'' it made a material change to the definition ''so late in the game.'' *Johnson* at 389, 392. The D.C. Circuit noted that the Judges expressly declined to treat the Clarification Motion as a motion for rehearing; consequently, the motion did not request and the Judges did not reconsider either evidence or legal argument. *Id.* at 390. Although appellate counsel offered rationales, the D.C. Circuit rejected counsel's *post hoc* reasoning. *Id.* and 391–92. Ultimately, the D.C. Circuit remanded the adopted regulation ''either to provide 'a fuller explanation of the [Judges'] reasoning at the time of the agency action[,]' or to take 'new agency action' accompanied by the appropriate procedures.'' *Id.* at 392, citing *Dep't of Homeland Sec.* v. *Regents of Univ. of Cal.* 140 S.Ct. 1891, 1908 (2020).

To be precise, I take note of the following specific rulings in *Johnson:*

1. ''The problem is that the [Majority] has completely failed to explain under what authority it was able to materially rework that definition so late in the game.'' *Id.* at 389.

2. ''The [Majority] did not treat Copyright Owners' motion to have the definition changed as a motion for rehearing . . . [because] Copyright Owners' motion did not request a literal rehearing of evidence or legal argument.'' *Id.* at 390 (cleaned up).

3. ''The [Majority] nowhere in its order or the [ ] Determination explains the source of its power to make 'fundamental' changes under the authorizing statute . . . .'' *Id.* at 392. [same as #1]

4. ''[I]t should go without saying that we may not sustain the Board's action based on its attorney's theorizing at oral argument . . . vacillating gestures to uninvoked authority will not do.'' *Id.* at 391–92 (the D.C. Circuit alluding to its rejection of arguments also made only by appellate counsel in support of the Majority's rejection of the PR II-based benchmark earlier in the decision).[210]

''We must vacate the [ ] Determination's bundled offering Service Revenue definition and remand for the [CRB Judges] either to provide 'fuller explanation of the agency's reasoning at the time of the agency action[,]' or to take 'new agency action' accompanied by the appropriate procedures.'' *Id.* at 392.

V. Remand Procedure Regarding Bundled Revenue Definition

Post-remand, the Judges stated their understanding, as well as the parties' understanding, of the issue on remand with respect to the Bundled Revenue definition:

> The Services and Copyright Owners agree that the proceedings on remand should be limited to three issues: * * * [3] the adoption of a revised definition of ''service revenue'' for bundled offerings between issuing their Initial Determination and [their] Determination.

Order Regarding Proceedings on Remand at 1 (Dec. 15, 2020) (Remand Order).

The parties proposed, and the Judges agreed, that the record would not be re-opened with regard to the Bundled Revenue definitional issue. Rather, the Remand Order permitted the parties only to provide further briefing on this matter. *Id.* Specifically, the Judges subsequently permitted each party to file simultaneous Initial Remand Submissions and simultaneous Reply Remand Submissions. *See* Order Adopting Schedule for Proceedings on Remand (Dec. 20, 2020). Thereafter, seeking further analysis on the question of ''new agency action,'' the Judges solicited, and received, further briefing on this issue. *See* Notice and *Sua Sponte* Order Directing the Parties to Provide Additional Materials (Dec. 9,

---

[207] As explained *infra* (including by way of an example), the Bundled Revenue definition in the Initial Determination aligns with and incentivizes price discrimination in the downstream market, but the definition in the Determination does not.

[208] The parties' substantive arguments are discussed in more detail *infra.*

[209] The ''economic indeterminacy arises when ''the input suppler . . . is paid as a percent of retail revenue, and the bundled revenue consists of some revenue attributable to the royalty base and other revenue excluded from the royalty base, the economic indeterminacy of the revenue attributable to each bucket creates a measurement problem, absent further information regarding the WTP [Willingness-to-Pay] of buyers/subscribers to the bundle.'' *SDARS III,* 83 FR 65264. As explained *infra,* the PR II-based benchmark addresses this informational uncertainty with the parties' negotiated alternative rate prongs and floors that guarantee royalties are paid, whereas the definition in the Determination eliminated the alignment of royalties to price discriminatory bundles designed to increase downstream access to musical works.

[210] Going beyond the Majority's actual rulings, the CRB Judges' appellate counsel argued that the Majority's authority for this definitional switch fell under either or both of the ''inherent'' statutory powers of the Judges or their ''rehearing power.'' *Id.* at 392. (The D.C. Circuit rejecting appellate counsel's argument that it was unnecessary ''for this Court to address which one it is because . . . it could properly be understood as both.'').

2021) (Feb. 9, 2021); *Sua Sponte* Order Regarding Additional Briefing (Feb. 9, 2021).

VI. The Parties' Submissions Regarding Bundled Revenue Definition

In their respective briefing, Copyright Owners and the Services made arguments relating to: (1) the *procedural* issue, *i.e.,* the Judges' authority, *vel non,* to switch to a new Bundled Revenue definition in the Determination; and (2) the *substantive* issue, *i.e.,* the relative merits of the two conflicting Bundled Revenue definitions. *See* Initial Remand Submission of Copyright Owners at 7–10 (Apr. 1, 2021) (CO Initial Submission); Services' Joint Opening Brief (in Services' Joint Written Direct Remand Submission at Tab D) at 64–76 (Apr. 1, 2021) (Services' Initial Submission); Copyright Owners' Reply Brief on Remand (in Reply Remand Submission of Copyright Owners, Vol. 1) at 64–88 (CO Reply); Services' Joint Reply Brief at 52–63 (Services' Reply).

A. The Procedural Issue

1. Copyright Owners' Arguments

Copyright Owners assert first that the Judges can preserve their post-hearing switch of the Bundled Revenue definition by sidestepping the D.C. Circuit's holding and rationale in *Johnson.* That is, Copyright Owners maintain that this remand proceeding itself constitutes the necessary form of ''new 'agency action''' that *Johnson* invites, while also liberating the Judges from the consequences of the procedural infirmities identified by the D.C. Circuit. More particularly, Copyright Owners argue:

> [T]he new agency action here is a determination after remand proceedings[.] [T]he [Judges are] largely free to chart [their] own procedural course, and [they] ha[ve] done so in [their] [Remand] Order. The [Judges are] not required to undertake any of the procedural steps set forth in 17 U.S.C. 803(b) in order to take such ''new agency action.'' See 17 U.S.C. 803(d)(3) (requiring only that on remand further proceedings be taken ''in accordance with subsection (a)''); 37 CFR 351.15; *Intercollegiate Broad. Sys., Inc.,* 796 F.3d at 125 (''[N]either the Copyright Act nor the [Judge's] regulations prescribe any particular procedures on remand.'') The Circuit's instruction that the action be ''accompanied by the appropriate procedures[,]'' *Johnson,* 969 F.3d at 392, does not dictate what those ''appropriate procedures'' must be but instead plainly refers to these flexible rules. *See also Oceana, Inc.,* 321 F. Supp. 3d at 136 (explaining that when remanding to an agency, a court generally ''may not dictate to the agency the methods, procedures, or time dimension, for its reconsideration'').
>
> CO Initial Submission at 71 n.33.

Copyright Owners reject the Services' position that the asserted procedural error is an ''absence of authority'' that can never be cured. *Id.* at 74 (citing Services' Proposal for Remand Proceedings at 10). They note that the D.C. Circuit did not say the Judges lacked the authority to revisit the service revenue definition from bundles on remand. Nor, they observe, did it say the Judges have no authority to review the record evidence and the parties' arguments and reach the same conclusion or a different conclusion on remand.

Copyright Owners further opine that if the only possible outcome were for the Judges to reinstate a definition that lacked any explanation or evidentiary support solely because it was present in the Initial Determination, then the D.C. Circuit would not have remanded the issue but would have simply reversed and reinstated the Initial Determination definition. But instead, they note, the D.C. Circuit remanded and said the Judges could take ''new agency action'' precisely to cure the asserted procedural defect. Copyright Owners assert that the remand allowed the parties to present the record evidence and their arguments so that the Judges can address the definition ''afresh'' in the remand determination. *Id.* at 74.

Further, Copyright Owners argue that 17 U.S.C. 803(d)(3) states only that proceedings on remand must be in accordance with 17 U.S.C. 803(a). They contend that remand proceedings need not be confined to procedures the Services claim are too late in the game for the Judges to follow, again relying on the holding in *Intercollegiate Broad. Sys., supra,* that ''neither the Copyright Act nor the Board's regulations prescribe any particular procedures on remand.'' *Id.* at 125. Accordingly, they argue, the Judges can reaffirm the adopted bundled service revenue definition following their review of the parties' submissions without invoking section 803(c)(2) or 803(c)(4) that were ruled inapplicable in *Johnson.* CO Reply at 65–66.

Also, Copyright Owners argue that the Judges may properly justify the changed definition under section 803(c) as a fuller explanation of the agency's reasoning at the time it was made. They urge that the Judges could explain that, especially in light of the evidence of how (in Copyright Owners' characterization) the Services misused the prior definition to make service revenue completely disappear, the Judges carry-over of the prior Bundled Revenue definition from *Phonorecords II* into the Initial Determination was unintended and inadvertent.[211] CO Reply at 69.

Copyright Owners also assert that, on remand, the Judges could explain that Copyright Owners had, in their Motion for Clarification, identified an ''exceptional case'' under section 803(c)(2) because the prior definition failed to comport with Judges' precedent and economic principles, and was unsupported by evidence. In addition, the Judges reheard the evidence and legal arguments as presented in the parties' briefs on the issue and, as a result, chose to adopt the revised definition. Copyright Owners maintain that for the Judges to do so would not be impermissible *post-hoc* reasoning. They note that the D.C. Circuit remanded precisely because the Judges did not provide any reason in the Determination for revising the Bundled Revenue definition. Copyright Owners note that it was the Services, not Copyright Owners, who appealed the Judges' modification of the bundled service revenue definition; thus, Copyright Owners cannot be penalized for not making every possible argument for affirmance. CO Reply at 70.

Further, and again notwithstanding the holding in *Johnson,* Copyright Owners argue that the Judges have the authority to engage in new agency action in this remand proceeding through a recasting of the Motion for Clarification as a motion for rehearing, pursuant to 17 U.S.C. 803(c)(2)(A) and 37 CFR 353.1. In this regard, Copyright Owners dismiss the point, raised by the D.C. Circuit, that their Motion for Clarification could not be recast as a motion for rehearing because Copyright Owners had explicitly disavowed that their motion sought rehearing under the statute, and that the Judges agreed. Rather, Copyright Owners maintain that the foregoing is not the same as a finding that the standard could not have been met. In Copyright Owners' view, the Judges could revisit on remand the question of whether the rehearing standard has now been met, and find that Copyright Owners have satisfied the ''exceptional case'' standard for granting rehearing motions under section 803(c)(2).[212] Copyright Owners

[211] Copyright Owners assert that the definition in the Initial Determination conflicted with the CRB Judges' finding in the Initial Determination that the adopted rates and terms would afford Copyright Owners a fair return for their creative works, thereby satisfying Factor B of the 801(b) standard. Thus, they maintain that the definitional switch was necessary so as to not ''frustrate the proper implementation of'' the Determination. CO Reply at 69 (*citing* 17 U.S.C. 801(b) and 803(c)(4)).

[212] The Majority set forth the rehearing standard in the *Clarification Order:* ''According to the

Continued

add that if the Judges do engage in new agency action that reconsiders the Motion for Clarification as a motion for rehearing, the Judges should fully explain their reasoning. *Id.* at 8–10.

However, Copyright Owners urge that proceeding in that fashion would add an entirely unnecessary and complicating step. They again suggest that there is no need to reconsider or recharacterize the Motion for Clarification as a motion for rehearing because the remand itself affords the opportunity for the Judges to take new agency action, which, as in a rehearing, permits them to reconsider evidence and arguments, but, unlike a rehearing, is not limited by the constraints of section 803(c)(2). *See* Copyright Owners' . . . Additional Briefing on New Agency Action . . . Question, etc., Tab B at 7–8 (Feb. 24, 2021).

2. The Services' Arguments

The Services' arguments are based on the reasoning of the D.C. Circuit in *Johnson.* Specifically, they assert that the D.C. Circuit found only ''three ways in which the [Judges] can revise Initial Determinations'' via ''new agency action,'' and the Judges failed to establish that the change to the service revenue definition fit any of those three categories. Services' Initial Submission at 64–65 (citing *Johnson* at 390).[213]

According to the Services, the *first* statutory way the Judges may revise an Initial Determination is to ''order rehearing 'in exceptional cases' in response to a party's motion, 17 U.S.C. 803(c)(2)(A).'' Services' Initial Submission at 65 (citing *Johnson* at 390). The Services argue that the D.C. Circuit held in *Johnson* that the Judges' ''material revision of the '[Bundled] Revenue' definition . . . does not fall within the [Judges'] rehearing authority under section 803(c)(2)(A)'' because ''the [Judges] [themselves] . . . w[ere] explicit that [they] 'did not treat the [Copyright Owners'] motion[ ]' . . . 'as [a] motion[ ] for rehearing under 17 U.S.C. 803(c)(2).'" *Id.* The D.C. Circuit also noted that ''as the [Judges] found, . . . Copyright Owners' motion did 'not meet [the] exceptional standard for granting rehearing motions' under section 803(c)(2).'' *Id.* (citing *Johnson* at 390). The Services assert, quoting *Johnson* once more, that the Judges were not able to make ''a volte-face'' and justify on appeal their revision to the definition as an exercise of rehearing authority. As the D.C. Circuit held, agency action must be justified by ''reasons invoked by the agency at the time it took the challenged action,'' and post-hoc rationalizations are insufficient. *Id.* (citing *Johnson* at 390).

The Services add their view that the Judges cannot revisit the decision to deny rehearing without engaging in impermissible *post-hoc* reasoning. They note the Supreme Court has explained that, while an agency may ''elaborate later'' on its ''initial explanation'' of the reason (or reasons) for its action, it ''may not provide new ones.'' Services' Initial Submission at 66, citing *e.g., Regents at* 1908. The Services offer that the Judges, having stated that they did not consider the Copyright Owners' motion to revise the definition to be a motion for rehearing, cannot now conclude that the motion qualified as one for rehearing and that the Judges in fact engaged in rehearing. *Id.*[214]

The Services next argue, relatedly, that the Judges cannot simply recast the Services Motion for Clarification as a rehearing motion in an attempt to satisfy the rehearing standard. In this regard, they maintain that Copyright Owners did not argue before the Judges or the D.C. Circuit that their Motion for Clarification satisfied the ''exceptional cases'' standard, and have therefore waived that argument. *Id.*

The Services assert that the *second* statutory way the Judges may revise an Initial Determination, *viz.* taking ''new agency action'' to correct a technical or clerical error under section 803(c)(4), cannot be used to justify the modification of the Bundled Revenue definition in the Initial Determination. The Services note that the D.C. Circuit held specifically that the Judges' change in the Bundled Revenue definition could not be construed as correcting a technical or clerical error because it involved a substantive rewrite of the Service revenue definition. *Id.* at 67 (citing *Johnson* at 391).

The Services argue that the *third* and final statutory justification for the Judges to engage in ''new agency action'' is to revise the terms in an Initial Determination is in response to ''unforeseen circumstances'' that would frustrate the proper implementation of the determination. *Id.* at 67. The Services note that the D.C. Circuit held in *Johnson* that this authority did not justify the Judges' change to the Bundled Revenue definition because the Judges did not invoke this authority and ''the need to ground the original definition in the record'' could not credibly be described as ''an unforeseen circumstance.'' *Id.* (citing *Johnson* at 391).

The Services also note that the D.C. Circuit rejected the argument that the Judges have an ''inherent authority''—unmentioned in the statute—to make changes to the Initial Determination. The D.C. Circuit explained that the specific restrictions Congress placed on the [Judges'] authority in section 803 ''would be a nullity if [they] also had plenary authority to revise [their] determinations whenever [they] thought appropriate.'' *Id.* (citing *Johnson* at 391–92). The Services add that even if the Judges offered a new source of authority capable of justifying substantive changes to the [Bundled] Revenue definition now, the Judges would be unable to rely on this ''uninvoked authority'' without engaging in impermissible *post-hoc* reasoning. *Id.*

The Services also reject Copyright Owners' position that the Judges may sidestep the D.C. Circuit's ruling by issuing a new determination on remand and simply arguing that *any* ruling after remand qualifies as new agency action pursuant to *Johnson.* The Services argue that failure to address the legal and factual issues on which the court remanded would violate the D.C. Circuit's decision and would result in yet another remand. The Services emphasize that the issue of authority to make the changes to the Initial Determination are especially important in this context, because the D.C. Circuit recognized that the Copyright Act places limits on the Judges' authority to alter an initial determination by defining conditions for rehearing and the types of changes that are permitted absent a rehearing. In this regard, the Services maintain that the Judges cannot do on remand what they lacked authority to do in the first instance. The Services assert that the Judges must resolve the legal question of whether authority exists to alter the revenue definition in

Copyright Act, the Judges may grant a motion for rehearing in exceptional circumstances, provided the moving party shows that an aspect of the determination is ''erroneous.'' *See* 17 U.S.C. 803(c)(2); 37 CFR 353.1. The moving participant must identify the aspects of the determination that it asserts are ''without evidentiary support in the record or contrary to legal requirements.'' 37 CFR 353.2. In general, the Judges grant rehearing only ''when (1) there has been an intervening change in controlling law; (2) new evidence is available; or (3) there is a need to correct a clear error or prevent manifest injustice.'' *See, e.g.,* Order Denying Motion for Reh'g at 1, Docket No. 2006–1 CRB DSTRA (Jan. 8, 2008) (*SDARS I* Rehearing Order) (applying federal district court standard under Fed. R. Civ. P. 59(e)).'' Clarification Order at 2, n.3.

[213] The Services acknowledge that the Judges could alternatively have attempted to provide on remand a fuller explanation of their prior reasoning (in lieu of engaging in ''new 'agency action''). That issue is considered *infra.*

[214] In fact, the issue of whether to characterize Copyright Owners' Motion for Clarification as a motion for rehearing is not one raised by Copyright Owners, but rather by the Judges *sua sponte.*

the Initial Determination. Services' Reply at 52–54.[215]

The Services also take note of the alternative path available to the Judges: to provide a ''fuller explanation'' of the prior conclusion that the Judges had legal authority to revise the Service Revenue definition. The Services maintain that if the Judges pursue the ''fuller explanation'' path, the Judges are limited to elaborating on what they said previously, and that they cannot add new reasons they did not initially provide. *Id.* at 54–55; *see also* Services' Joint Rebuttal Brief Addressing the Judges' Working Proposal at 38–42 (Feb. 24, 2022) (''Services' Additional Submission'').

The Services address Copyright Owners' position that if the only possible outcome were for the Judges to reinstate a definition that lacked any explanation or evidentiary support solely because it was present in the Initial Determination, then the D.C. Circuit would not have remanded the issue but would have simply reversed and reinstated the Initial Determination definition. The Services urge that the D.C. Circuit could not reverse because the CRB's appellate counsel had raised—for the first time on appeal—new justifications for the Judges' decision to change the Initial Determination. Instead, the Services maintain, the D.C. Circuit had to remand and give the Judges the opportunity to address appellate counsel's new justifications in the first instance, as the D.C. Circuit could not rule them out given the posture of the appeal. Services' Reply at 56.

VII. Analysis and Decision

A. The Procedural Issue: Is There ''New Agency Action'' Available to the Judges?

Having considered the parties' arguments, I conclude that the rulings in *Johnson,* which clearly rejected all of the Majority's procedural arguments seeking to justify their switch in the Bundled Revenue definition, foreclose any avenue for procedurally justifying this definitional switch. More particularly, I conclude that none of the procedural avenues proffered by Copyright Owners would constitute ''new 'agency action''' consonant with the holdings in *Johnson.* Further, I cannot identify any other procedural device (*i.e.,* an extra-statutory form of agency action) that would permit the switched definition in a manner consistent with *Johnson.*[216] In addition, I cannot identify any further or fuller explanation that might support the Majority's procedural reasoning for swapping out the Bundled Revenue definition in the Initial Determination and substituting the definition in the Determination.

In reaching this conclusion, I take note of the following specific language in *Johnson:*

> Section 803 identifies three ways in which the Board can revise Initial Determinations. It can (i) order rehearing ''in exceptional cases'' in response to a party's motion; (ii) correct ''technical or clerical errors,''; and (iii) ''modify the terms, but not the rates'' of a royalty payment, ''in response to unforeseen circumstances that would frustrate the proper implementation of [the] determination.''

Johnson at 390 (citations omitted). After identifying these three alternatives, the D.C. Circuit concluded that the CRB Judges ''rollout of an entirely new manner for calculating the streaming service revenue from bundled offerings fit none of those categories.'' *Id.*

First, I consider whether in the present case they can engage in ''new 'agency action''' pursuant to 17 U.S.C. 803(c)(2)(A) by recasting Copyright Owners' Motion for Clarification as a Motion for Rehearing. I conclude that this avenue has been unambiguously cut-off by *Johnson* and, indeed (as noted in *Johnson*), by the Judges' own prior ruling:

> The [CRB Judges'] material revision of the Bundled Revenue definition . . . does not fall within [their] rehearing authority under Section 803(c)(2)(A). We have that on no less an authority than the [CRB Judges themselves], [who were] explicit that [they] ''did not treat the Copyright Owners' motion'' to have the definition changed ''as a motion] for rehearing under 17 U.S.C. 803(c)(2).'' That is because the Copyright Owners' motion did not ''request[ ] a literal rehearing of evidence or legal argument.''
>
> Nor could they have because, as the [CRB Judges] found, the Copyright Owners' motion did ''not meet [the] exceptional standard for granting rehearing motions'' under Section 803(c)(2). . . . [The CRB Judges] explain[ed] that . . . Copyright Owners ''failed to make even a *prima facie* case for rehearing under the [rehearing] standard''.

Johnson, 369 F.3d at 390.

Further cutting off this ''rehearing'' approach, *Johnson* also expressly holds that it is a ''forceful'' principle that the D.C. Circuit ''cannot sustain action on grounds that the agency itself specifically disavowed. *Id.* Moreover, in this Initial Remand Ruling I echo the Majority's ruling in the Clarification Order that Copyright Owners had failed to present ''even a *prima facie* case for rehearing under the applicable standard''. Clarification Order at 2.[217]

Next, I consider whether the Judges can engage in ''new 'agency action''' by recharacterizing their switch of the Bundled Revenue definition as an attempted correction of ''technical or clerical errors,'' pursuant to their ''continuing jurisdiction'' under section 803(c)(4). Once again, they cannot, and the D.C. Circuit has effectively explained why this is so:

> The [Judges] do[ ] not even try to squeeze [their] substantive rewrite of the Service Revenue definition into that [§ 803(c)(4)] category. Quite the opposite, the [Judges] admit[ ] that the new definition ''represent[s] a departure'' from the definition in the Initial Determination, and was a substantive swap designed to ''mitigate'' the alleged ''problem'' of the original definition leaving the interactive streaming service providers free to ''obscure royalty-based streaming revenue by offering product bundles that include music service offerings with other goods and services[.]'' . . . To that same point, the order itself labels the initial and new definitions ''diametrically-opposed approaches to valuing bundled revenues.'' . . . . Nothing technical or clerical about that.

Johnson at 391.

On remand, I am unable to ascertain any basis for describing or justifying the changed Bundled Revenue definition as a technical or clerical correction. Thus, I conclude that the Judges cannot engage in ''new 'agency action''' pursuant to this section.

Next, I consider whether the Judges can engage in ''new 'agency action'''—

[215] In The Services agree that this remand proceeding qualifies as *a* ''new agency action'' but do not maintain that a ruling on remand that is inconsistent with *Johnson* would be the type of ''new 'agency action''' that *Johnson* permits. *See* Services Additional Submission at 38–42.

[216] In this section, Copyright Owners' arguments regarding recasting their Motion for Clarification as a request for rehearing, a correction for technical or clerical errors, or for unforeseen circumstances would constitute a new application of an *existing* ''form of agency action'' that the D.C. Circuit had rejected. But Copyright Owners' argument in favor of the Judges' supposed ''inherent authority'' to enlarge their post-hearing jurisdiction is an argument creating a *new form* of agency action, not an argument in favor of new application of an existing form of authority. Likewise, the next approach proffered by Copyright Owners, *i.e.* construing the remand itself as generating the requisite agency action, which is also the Majority's approach, is an example of an agency action that is not statutorily specified and, as explained *infra,* is inconsistent with section 803(a).

[217] The first two bases for rehearing under the statute, *viz.,* change in the controlling law and the availability of new evidence, clearly do not apply. The third basis, *i.e.,* to correct a clear error or prevent manifest injustice, also does not apply. As explained herein, the substantive difference between the conflicting Bundled Revenue definitions should be resolved consistent with the Judges' adoption of the PR II-based benchmark and the parties' negotiated compromise of the ''price discrimination vs. revenue diminution'' dilemma. This resolution does not constitute an ''error,'' let alone a ''clear error,'' and maintaining the parties' rate architecture from the Initial Determination does not generate any ''injustice,'' ''manifest'' or otherwise.

by trying to squeeze the square peg of their definitional swap into the round hole that is the ''unforeseen circumstances'' clause in section 803(c)(4). That provision permits the Judges to exercise ''continuing jurisdiction'' if necessary to modify a regulatory term in a determination in response to ''unforeseen circumstances,'' if the absence of modification would frustrate the proper implementation of the determination. Once again, *Johnson* shuts the door:

> Come oral argument, the [Judges] attempted to explain that ''the unforeseen circumstances would be that [they] initially adopted a definition that was not supported by the record, and that was in fact substantively unreasonable and would frustrate the proper implementation of their determination.'' . . . It is hard to see how the need to ground the original definition in the record was an unforeseen circumstance. That is Administrative Law 101. *See also* 17 U.S.C. 803(c)(3) (''A determination of the [Judges] shall be supported by the written record.'').

Johnson at 391 (cleaned up). I agree. The present panel of Judges is bound by the D.C. Circuit's ruling that the overlooking of the need to ground in the factual record the Bundled Revenue definition in the Initial Determination cannot constitute an ''unforeseen circumstance.'' Accordingly, I am unable to ascertain any basis for describing or justifying the changed Bundled Revenue definition as an ''unforeseen circumstance'' that would justify their invocation of ''continuing jurisdiction.''

I further consider the argument (made by the Judges' appellate counsel and by Copyright Owners) that the Judges have the ''inherent authority *sua sponte* to make any 'appropriate' substantive . . . or 'fundamental' changes after the Initial Determination . . . that [they] believe[ ] serve 'the interests of enhancing the clarity and administrability of the regulatory terms accompanying the [ ] Determination.''' *Johnson* at 391. The D.C. Circuit made short work of this argument as well, stating that, although the CRB Judges have ''considerable freedom'' with regard to determining their own procedures

> that flexibility must be exercised within the lines drawn by the authorizing statute. Congress's decision to limit rehearing to ''exceptional cases,'' and to confine other *post hoc* amendments to cases involving ''technical or clerical errors,'' would be a nullity if the [Judges] also had plenary authority to revise [their] determinations whenever [they] thought appropriate. The [Judges] nowhere in [their] order or the [ ] Determination explain[ ] the source of [their] power to make ''fundamental'' changes under the authorizing statute . . . any time [they] deem such changes ''appropriate'' . . . even after the Initial Determination.

Johnson at 392.[218]

As with regard to the proffered rationales discussed *supra,* I cannot identify any authority that would allow the Judges to declare for themselves in the present factual and legal context an ''inherent'' authority to override the Copyright Act and declare their right to engage in ''new 'agency action.'''

Finally, I consider Copyright Owners' suggestion that the *remand itself* by the D.C. Circuit permits the Judges, pursuant to the Copyright Act, to engage in any procedure necessary to support their switch in the Bundled Revenue definition. The present Majority essentially adopts this procedural approach. However, I reject that argument as meritless.

The argument begins with a correct premise but seriously veers off course. Copyright Owners correctly note (and the Services do not disagree) that this remand proceeding constitutes ''new 'agency action.''' Copyright Owners then maintain that, because the Copyright Act does not provide for procedures that govern remand proceedings, the Judges are statutorily unconstrained with regard to the procedures they may adopt. This premise, although perhaps correct in other contexts, is most definitely incorrect in this specific context, given the clear holding in *Johnson.*

Here, the D.C. Circuit has been unequivocal in identifying the statutory limitations that precluded the Judges from switching out the Bundled Revenue definition in their Initial Determination and replacing it with a different definition in the Determination that was, to use the Majority's phrase, ''diametrically opposed'' to the prior definition, in that it would eliminate the royalty-based incentive to price discriminate via bundling.[219] *But Copyright Owners assert that the remand itself clothes the Judges with the procedural authority to make the very switch that Johnson forbids!* I do not understand the D.C. Circuit to have admonished the Majority for its failure to respect the boundaries of its jurisdiction, only to provide them, via remand, with a back-door through which they may circle-back and exceed those very boundaries.

A reading of section 803(a), upon which Copyright Owners rely, provides a further demonstration of the error in this argument. This subsection lists the authorities whose pronouncements the Judges must ''act in accordance with,'' including, quite unsurprisingly, ''the decisions of the court of appeals under this chapter.'' 17 U.S.C. 803(a). In the instant case, the D.C. Circuit has unambiguously held that the Judges lacked the statutory authority to make the definitional switch at issue. For the Judges to construe that clear ruling as an implicit invitation to create new extra-statutory remand procedures that contradict the D.C. Circuit's rationale for the remand would be inexplicable and would render useless the procedural ruling in *Johnson.*[220]

In sum, I cannot and do not understand that the D.C. Circuit intended in *Johnson* simply to write a meaningless procedural opinion that the Judges could not merely ignore, but use to cleanse the very procedural error the D.C. Circuit had condemned.[221]

Accordingly, the Bundled Revenue definition in the Initial Determination should be reinstated. As explained in the portion of the Initial Remand Ruling in which I join, this reinstatement is harmonious with the entirety of the Judges' findings and conclusions regarding the other remanded issues.

---

[218] By the same reasoning, *Johnson* also rejected the Judges' explanation in the *Determination* that they were permitted to treat Copyright Owners' request as a general motion under § 350.4) of their regulations. *Id.*

[219] This substantive impact of the definitional switch is discussed *infra.*

[220] In fact, this argument is dangerous. The CRB Judges or any administrative agency, could willfully engage in extra-statutory procedures to obtain a particular substantive result. If there is no appeal, the extra-statutory procedure would be successful. But if the extra-statutory procedure was the subject of a successful appeal resulting in a remand, the CRB Judges (or any agency) could declare the remand as license to engage once more in extra-statutory procedures in order to obtain the same substantive result. This is a ''heads-I-win, tails-you-lose'' strategy.

[221] Copyright Owners also argue that if the D.C. Circuit had intended in *Johnson* to prohibit the Judges from engaging in ''new 'agency action''' on remand, they would have reversed and reinstated the Initial Determination, rather than vacated and remanded that aspect of the Determination. But that argument confuses prudence with uncertainty. The D.C. Circuit prudently allowed the Judges, who are presumed to have particular knowledge of their duties, to consider whether there exist further explanations of their reasoning or ''new 'agency actions''' they could invoke to support their definitional switch. That prudence hardly suggests that the D.C. Circuit was sanguine about the existence of further explanations or additional actions that might support the switch.

Also, 17 U.S.C. 803(d)(3) explicitly allows the D.C. Circuit to ''vacate [a] determination of the . . . Judges and remand the case to the . . . Judges for further proceedings,'' but only expressly allows the court to ''enter its own determination''' in connection with ''the amount or distribution of royalty fees and costs, and order the repayment of any excess fees, the payment of any underpaid fees and the payment of interest pertaining respectively thereto . . . .'' *Id.* Thus, it is hardly clear that the D.C. Circuit understood it had any choice upon vacating, save to remand for further proceedings.

B. The Substantive Issue: The Dueling Definitions of Bundled Revenue

1. Introduction: The Issue as Framed in the Clarification Order

Regarding the definition of ''Service Revenue'' from bundled offerings, the Judges summarized the parties' competing arguments:

> Copyright Owners presented evidence that the existing approach led, *in some cases,* to an inappropriately low revenue base—but did so in service to their argument that the Judges should reject revenue-based royalty structures. *They did not present evidence to support a different measure of bundled revenue* because their rate proposal was not revenue-based.
>
> The Services rely on the fact that the approach to bundled revenue in the extant regulations is derived from the 2012 Settlement. The Judges have, however, *declined to rely on the 2012 Settlement as a benchmark,* as the basis for the rate structure, or, therefore, as regulatory guidance. The Services have observed *correctly* that the evidentiary records in *Web IV* and *SDARS III* differ from the record in this proceeding.[222]

Clarification Order at 17 (emphasis added).

Despite these arguments, the Judges found that neither party presented evidence adequate to support the approach advocated in post-determination filings, because the ''economic indeterminacy problem inherent in bundling'' remained unresolved. *Id.* The Judges stated that the Services were the party in possession of the relevant information, and concluded that the Services bore the burden of providing evidence that might mitigate the ''indeterminacy problem'' inherent in bundling. Because the Judges concluded that the Services had not met that burden, they ruled that they must adopt an approach to valuing bundled revenue that is in line with what the Copyright Owners proposed. As a result, the Judges discarded the formula in the Initial Determination and ruled, instead, that streaming service providers will use their own standalone price (or comparable) for the music component (not to exceed the value of the entire bundle) when allocating bundled revenue. *Id.* at 16–18.

On remand, the parties have made the following arguments regarding the substance of the Bundled Revenue definition:

2. Copyright Owners

According to Copyright Owners, the prior Bundled Revenue definition in the Initial Determination failed to address the '' 'economic indeterminacy' problem inherent in bundling'' appropriately and in a way consistent with Judges' precedent. CO Initial Submission at 75 (citing Clarification Order at 16–18). Copyright Owners proceeded to cite several portions of testimony from the Services' economic experts who acknowledged this problem. *Id.* They then point to hearing testimony in which Copyright Owners repeatedly raised the ''economic indeterminacy'' problem and demonstrated what they characterized as the absurd results to which the prior definition had led. *Id.* at 76. They pointed out that under the Initial Determination, the first step in computing Bundled Revenue was to identify revenues recognized from the entire bundle (*i.e.,* the price paid by the subscriber). The second step was to subtract ''the standalone published price'' for all non-music components of the bundle. According to Copyright Owners, [REDACTED]. *Id.* at 76, 83.

Copyright Owners point out that the Judges already found with respect to other licenses that such an approach is not only fundamentally unfair, but ''absurd.'' *Id.* (citing *Web IV,* 81 FR 26316, 26382 (May 2, 2016) (webcaster licenses); *see also SDARS III,* 83 FR 65210, 65264 (Dec. 19, 2018) (SDARS licenses) (rejecting proposed deductions by service from bundle revenues because of the ''acknowledged 'economic indeterminacy' problem inherent in bundling''). Copyright Owners concur with the Judges' conclusion that the same reasoning applies to *Phonorecords III. Id.* at 76–77 (citing Clarification Order at 18 (''the 'economic indeterminacy' problem inherent in bundling is common to all three proceedings.'')). Copyright Owners offer that Spotify conceded to this flaw in the definition in the Initial Determination, but offered an alternative that contained the same loophole. *Id.* at 77–78.

Copyright Owners also point out that the proponent of a term bears the burden of proof as to adoption. The Judges made clear that the licensee who wishes to offer bundles must bear the burden of providing evidence that might mitigate the acknowledged economic indeterminacy problem inherent in bundling, because any such evidence would be in its possession, not in the possession of the licensors. *Id.* at 79 (citing *SDARS III,* 83 FR 65264 (''bundling [is] undertaken to increase [the Services'] revenues and it would be reasonable to assume that [the Services have] information relevant to the economic allocation of the bundled revenue.'')). Copyright Owners contend they presented unrebutted evidence showing the unreasonableness of the Services' proposed definition while the Services offered no evidence to support their definition. *Id.* at 78, 79 (citing Clarification Order at 18). Copyright Owners maintain that no Service offered evidence concerning the separate values of the constituent parts of the bundles, or any other evidence concerning the economic allocation of bundled revenue, let alone the reasonableness of the definition in the Initial Determination. *Id.* at 80. Copyright Owners assert that in the absence of evidence to support the proposed definition, the Judges may adopt or fashion a definition of service revenue for bundled offerings that comports with the record evidence, which is precisely what the Judges did and, through new agency action, do again. *Id.* at 81.

They further argue that the hearing record and the Judges' precedent and reasoning further explain the unreasonableness of the prior definition and support the adopted bundle revenue definition. *Id.* at 82. Copyright Owners offer that in contrast to the Services' evidentiary failure, they have provided sufficient evidence showing the unreasonableness of the Services' proposed definition. They maintain that the definition adopted by the Judges in the Determination was consistent with the statutory factors and the evidence in the proceeding showing how the prior definition had been manipulated and ''led, in some cases, to an inappropriately low revenue base.'' *Id.* at 83 (citing Clarification Order at 17–18).

Copyright Owners dispute the Services' assertion that there is support for the *Phonorecords II* approach to bundles in the record of this proceeding. Instead, Copyright Owners argue, the Services' purported evidence at most supports the benefits of the practice or strategy of bundling. They maintain that the strategy of bundling covered music services with other products or services has nothing to do with [REDACTED]. They offer that the definition in the Initial Determination has nothing to do with such benefits, and that those benefits may be equally served by a definition that ensures value is apportioned to the music component in the bundle. CO Reply at 73–76.

3. The Services

The Services argue that the evidence in the existing written record addressing bundles shows both that this definition is supported by the *Phonorecords II* benchmark and that it has proven industry-wide benefits. Services' Initial Submission at 68. They emphasize that

[222] In *Web IV* and *SDARS III,* unlike under the Phonorecords II-based benchmark, there were no minima or floors to provide licensors with royalties in the event bundled offerings would otherwise fail to generate royalties.

Copyright Owners did not propose an alternative definition of service revenue until after the Judges issued the Initial Determination and that any definition they propose now would fail the basic requirement that the Judges must adopt rules ''on the basis of a written record.'' *Id.* (citing 17 U.S.C. 803(a)(1) and 803(c)(3)).

Addressing the merits of the definition contained in the Initial Determination, the Services argue that it best serves the goals of the Copyright Act; that as a bright-line, easily administered rule, it continues the broad industry agreement from *Phonorecords II,* which ''was negotiated voluntarily between the Services and . . . Copyright Owners—strong evidence that its terms are mutually beneficial.'' Services' Initial Submission at 69.

The Services contend the prior negotiated definition increases output and incentivizes beneficial price discrimination to reach casual and passive listeners who would otherwise not pay for music and thus would not generate revenue from which royalties could be paid. With regard to [REDACTED]. *Id.* at 71 (and record citations therein).

They further state that the definition of Bundled Revenue in Phonorecords II also enabled funneling of many of listeners into full-priced, full-catalog services. The Services allege that Copyright Owners also ignore the extensive royalties that were generated. They add that, for casual/passive listeners and those who may be funneled to subscription services, the per-subscriber minimum guarantees that the Copyright Owners will still be paid a fair royalty. The Services then cite several portions of testimony from various Services' economic experts who point out the realization of an expanded royalty pool, which the Services offer as proving a functioning marketplace. *Id.* at 68–74.[223]

The Services maintain that while neither the Services nor Copyright Owners submitted evidence specifically addressing the way that customers, Services, or Copyright Owners might value the component parts of bundles, such subjective valuations are unnecessary—given that the parties' negotiated handling of the bundling issues provides the Judges with ample support for the PR II-based benchmark definition in the Initial Determination. See *id.* at 75–76.

The Services also argue that while the Judges' decision in SDARS III did involve valuation of the music and non-music components of a bundle, the resolution in SDARS III is inapposite because, here, the rate structure has a way of ensuring that Copyright Owners are fairly compensated from bundles: the statutory minimum payment. Services' Reply at 62.

C. Analysis and Decision

The fundamental difference between the impact of the two alternative definitions is simply stated:

Under the Initial Determination: downstream bundling and its price discriminatory effect *would* be incentivized by a royalty structure that reflects the lower WTP of consumers who subscribe by paying for a Bundle;

Under the (Final)Determination: downstream bundling and its price discriminatory effect *would not* be incentivized by a royalty structure that reflects the lower WTP of consumers who subscribe by paying for a Bundle.

To explain this difference, the Judges find it helpful to describe (as in the Determination and Dissent) how bundling facilitates price discrimination and how lower royalties for bundled streaming services incentivize such bundling.

Price discrimination occurs when a seller offers different units of output at different prices. *See, e.g.,* H. Varian, *Intermediate Economics* at 462 (8th ed. 2010). The benefit to the seller arises from attempting to ''charge each customer the maximum price that the customer is willing to pay for each unit bought.'' R. Pindyck & D. Rubinfeld, *Microeconomics* at 401 (8th ed. 2013). For all goods, and intellectual property goods such as copyrights in particular,[224] the social benefit is that price discrimination more closely matches the quantity sold with the competitive quantity as the seller or licensor better aligns the price with the WTP of different categories of buyers or licensees. *See* W. Fisher, *Reconstructing the Fair Use Doctrine,* 101 Harv. L. Rev. 1659, 1701 (1988).

A seller can engage in price discrimination in several ways. One form is known as ''second-degree price discrimination,'' by which buyers self-sort the packages and quantities they purchase.[225] *See* W. Adams & J. Yellen, *Commodity Bundling and the Burden of Monopoly,* 90 Q. J. Econ. 470, 476 (1976) (the profitability of bundling ''stem[s] from its ability to sort customers into groups with different reservation price [WTP] characteristics.''). Bundling, *i.e.,* the ''practice of selling two or more products as a package,'' *Pindyck & Rubinfeld, supra* at 419, is thus a type of second-degree price discrimination. *See* A. Boik & H. Takahashi, *Fighting Bundles: The Effects of Competition on Second Degree Price Competition,* 12 a.m. Econ. J. 156, 157 (2020).

The applicability of these basic economic principles was understood and explained by the parties' experts at the hearing. *See, e.g.,* 3/15/17 Tr. 1224–25 (Leonard) (Google's economic expert testifying that price discrimination through bundling is ''very, very common . . . even by pretty competitively positioned firms . . . to sort out customers into willingness-to-pay groups.''); 3/30/17 Tr. 3983 (Gans) (Copyright Owners' economic expert acknowledging that bundling is a form of price discrimination); *see also* Dissent at 69 (same).

How does this downstream (retail level) benefit of price discrimination impact the setting of upstream royalty rates? As the Majority explained (in summarizing the Services' expert testimony) the linkage is explained by the economic concept of ''derived demand'':

> [M]ultiple pricing structures necessary to satisfy the WTP and the differentiated quality preferences of downstream listeners relate directly to the upstream rate structure to be established in this proceeding. Professor Marx opines that the appropriate *upstream* rate structure is derived from the characteristics of downstream demand. 3/20/17 Tr. 1967 (Marx) (rate structure upstream should be derived from need to exploit WTP of users downstream via a percentage of revenue). This upstream to downstream consonance in rate structures represents an application of the concept of ''derived demand,'' whereby the demand upstream for inputs is dependent upon the demand for the final product downstream. *Id.; see* P. Krugman & R. Wells, *Microeconomics* at 511 (2d ed. 2009) (''[D]emand in a factor market is . . . *derived demand* . . . [t]hat is, demand for the factor is derived from the [downstream] firm's output choice'').

Determination at 19; *accord* Dissent at 32 (noting that ''the upstream demand of the interactive streaming services for musical works (and the sound recordings in which they are embodied)—known as 'factors' of

[223] The Services' Reply reiterates this point and offers that the testimony cited by the Copyright Owners also shows why the Initial Determination's Service Revenue definition works for bundles and grows royalties. Services' Reply at 57–58.

[224] Streamed copies of intellectual property, such as musical works and sound recordings, have a marginal production cost of essentially zero, making price discrimination particularly beneficial, because charging any positive price, even to a buyer with the lowest WTP, still exceeds the zero marginal production costs. *See* Dissent, *passim.*

[225] ''First-degree'' price discrimination is a hypothetical construct by which a seller can identify the WTP of every buyer. ''Third-degree'' price discrimination occurs when the seller offers different prices to buyers based on their different characteristics (*e.g.,* a senior citizen discount). *See Pindyck & Rubinfeld, supra,* at 402, 404–05.

production or 'inputs'—is derived from the downstream demand of listeners to and users of the interactive streaming services . . . This interdependency causes upstream demand to be characterized as ''derived demand.'').

In the present proceeding, the PR II-based benchmark embodies the parties' negotiated definition of Bundled Revenue for purposes of calculating royalties on bundled interactive offerings. This is the definition in the Initial Determination. Copyright Owners' preferred definition for Bundled Revenue—the Determination's definition—would not only ignore this agreed-upon definition, but would also de-link the royalty rate from the WTP of purchasers of bundles.[226] The Judges recognize that Copyright Owners have expressed concern the Services could use such bundling in order to diminish revenue otherwise payable on a higher royalty tier. However, the Majority noted that the evidence indicated such diminishment only occurred ''in some cases'' and that such practices were not ''sweeping.'' Clarification Order at 17, 21. Thus, the Judges find that eliminating the incentive for price discrimination via bundling would be a disproportionate response and inconsistent with the broad price discriminatory PR II-based benchmark they find useful in this proceeding.

Expert testimony in this regard is ''substantial evidence'' on which the Judges can rely. For example, the D.C. Circuit also relied in *Johnson* on the testimony of the same witness, Spotify's economic expert witness, Professor Marx, to affirm the inclusion of the price discriminatory structure for student and family plans. *Johnson,* 969 F.3d at 392–94. Professor Marx explained how a downstream ''lower willingness (or ability) to pay'' among some cohorts of consumers supports definitional terms, for student and family subscribers, that lower royalty rates in order to further ''economic efficiency'' in a manner that ''still allows more monetization of that provision of that service.'' *Johnson* at 392–93. Broadening her lens, Professor Marx also explained that this price discriminatory approach is appropriate ''across all types of services and subscribers,'' as in ''[t]he current law [and in the PR II-based benchmark]'' which ''accommodates . . . ad-supported services . . . and '*bundled services*' through different rate provisions.'' Marx WRT ¶ 41 (emphasis added). *See also* 3/21/17 2182–83 (Hubbard) (Amazon's expert witness testifying that ''Prime Music, which is *bundled* with an Amazon Prime service . . . sort[s] out customers' willingness to pay, with an idea of trying to maximize the number of customers,'' and agreeing that this approach constitutes ''sorting by way of bundling.'') (emphasis added). Further, Professor Hubbard opined that, given the revenue attribution ''measurement problem'' associated with bundled products, the ''Phonorecords II'' approach ''with the different categories and the minima . . . address this sort of problem [in] a very good way.'' 3/15/17 Tr. 1221 (Hubbard).

As in the case of family and student price discrimination, the beneficial effect of such differential pricing was supported by industry witnesses as well as expert witnesses. *See, e.g.,* Mirchandani WDT ¶ 71 (Amazon executive citing the Phonorecords II-based benchmark provisions regarding bundling that ''allowed Amazon to bundle Prime Music with Amazon Prime, enabling Amazon to bring a limited catalog of music [REDACTED]''). In sum, the same type of witness testimony that the D.C. Circuit found sufficient to support price discriminatory student and family plans also supports the use of the price discriminatory bundled definition contained in the Initial Determination.

Given the overall benefits from price discrimination, at first blush it is curious that Copyright Owners would risk ''leaving money on the table'' by seeking to remove the royalty-based incentive for price discrimination via bundling. The Judges have identified this problem earlier in this Initial Remand Ruling, in connection with the broader issue of the overall beneficial price discriminatory structure of the PR-based benchmark. As the Judges noted in that general price discrimination context, Copyright Owners' own expert economic witnesses acknowledged that they would not irrationally leave money on the table. In fact, Copyright owners' aim, according to that testimony, is to create an unregulated space—per the Bargaining Room theory—and to use their complementary oligopoly power to negotiate price discriminatory rates (in bundles or otherwise), which would free them from the section 801(b)(1) requirements of reasonableness and fairness.

The Judges further find that their prior ruling on this issue in *SDARS III* is distinguishable. There, a proffered bundled revenue definition eliminated the payment of any royalty at all. Copyright Owners quite correctly describe that result as ''absurd,'' but that is not the result here. Rather, in the present case, the parties' negotiated an approach that the Judges adopted in the Initial Determination requiring royalties to be paid on interactive services bundled with other products or services.

Even more distinguishable is Copyright Owners' assertion that *Web IV* provides support for their preferred definition of service revenue. The argument is immediately suspect, because *Web IV* involved per-play royalty rates—not percent-of-revenue rates, making the definition of revenue wholly inapposite. Further, the discussion of the price of an ''ice cream cone'' in *Web IV*—on which Copyright Owners rely—had nothing to do with bundling or isolating the WTP for different products or services. Rather, there the Judges criticized a bizarre argument made by a licensee (who had a quantity discount for plays steered in its direction), that was tantamount to arguing that if a vendor sells one ice cream cone for $1.06 but a buyer could buy two for $1.06, that the market price of an ice cream cone is thus only $.06. This argument was indeed fallacious, because the price of an ice cream cone would be reasonably identified as the average of the total cost for the two cones, *i.e.,* $.53/cone, and never as $.06 per cone.

Here, the issue, is how to address the WTP of different classes of buyers with heterogeneous WTP, not the pricing of a quantity discount. The parties addressed this issue by utilizing the Bundled Revenue definition contained in the PR II-based benchmark (and in the Initial Determination) to address the indeterminacy inherent in the variable WTP among purchasers of the bundles, by setting floors and minima, rather than attempt to sort out the WTP of individual (or individual blocs) of

[226] To see the incentivizing effect of the link between the royalty level and variable WTP, consider the following example. Assume a hypothetical bundle consists of a subscription to the ''Acme'' interactive music streaming service and the sports service NFL Sunday Ticket. Assume also that Acme and NFL Sunday Ticket have standalone monthly subscription prices of $9.99/month and $149.99/month respectively, so that purchasing both separately would cost $159.98/month. But assume the bundle price is only $140/month. Acme's purpose in bundling its interactive music streaming service subscription offering with NFL Sunday Ticket would be to attract customers who had a WTP for the standalone Acme service below $9.99/month, but a WTP at or above the $140/month for the bundle.

Under the definition in the Determination, royalties would be paid on the standalone $9.99/month Acme price. But the purpose of the bundling was to attract subscribers *who would not pay the standalone $9.99/month price,* so no such would-be subscribers would sign-up, and *no royalties would be generated by them.*

By contrast, under the Initial Determination, the standalone price of NFL Sunday Ticket, $159.98/month, would be subtracted from the $140/month bundle price. Although that would preclude a payment of royalties on a *revenue* prong, *royalties still would be paid, under a different tier or on the mechanical floor.*

subscribers. The ''ice cream cone'' issue in *Web IV* is wholly unrelated, and the *SDARS III* situation, as explained *supra,* is also distinguishable.[227]

For the foregoing reasons, I find that—even if the Judges had a procedural mechanism by which to support the switch in the Bundled Revenue definition—I would decline to utilize it in this Initial Remand Ruling, because the definition in the Initial Determination (unlike the definition in the Determination) is consistent with the Judges' other substantive rulings herein. That is, just as the Majority abandoned its Bundled Revenue definition in its Initial Determination because it refused to credit the PR II-based benchmark (even as ''guidance''), the Judges here do partially rely on the PR II-based benchmark, and thus find that it supports the Bundled Revenue definition contained in the Initial Determination.

VIII. Application of the Four Itemized Statutory Factors

As the forgoing analysis explains, bundling is a form of price discrimination. Accordingly, the Judges' explanation of how price discriminatory rates in the PR II-based benchmark interrelate with the Factor A through D objectives in section 801(b)(1) are equally applicable here. Accordingly, the Judges incorporate by reference here their discussion of those four factors set forth *supra* in connection with the PR II-based benchmark, and find that there is no basis pursuant to those four factors to adjust the PR II-based benchmark definition of Bundled Revenue.

IX. Conclusion

This Dissent in part is issued as a RESTRICTED document. Within 30 days of the date of issuance, the participants shall file a version of this Dissent with agreed redactions to permit viewing by the public.

Issue Date: July 2, 2022.[228]

DAVID R. STRICKLER,
Copyright Royalty Judge

D. Dissent in Part Re Benchmark (Redacted Version With Federal Register Naming and Formatting Conventions)

The Copyright Royalty Judges (Judges) sit as a panel in all determination proceedings. *See* 17 U.S.C. 803(a)(2). A majority of two Judges is sufficient to issue a determination. *See* 17 U.S.C. 803(a)(3). If any Judge dissents from the majority determination, that dissenting Judge may issue a dissenting opinion and file it with the majority's determination. *Id.* The Judges accept this same standard with regard to their issuance of the present Initial Ruling and Order after Remand (Initial Ruling).

The undersigned Judge, author of this dissent in part (Benchmark Dissent) respectfully dissents [229] from the Initial Ruling of the majority (Remand Majority) on the issue of adopting as a benchmark for current rates and terms the rates and terms adopted after a settlement by the parties to the preceding phonorecords proceeding.[230] It should be noted that the Remand Majority adopts the rate structure from *Phonorecords II,* but retains the headline percent-of-revenue rate adopted in the Determination.[231]

I. Areas of Concurrence

A. Background Statements

The Benchmark Dissent adopts the statements regarding the background and procedural posture of this remand proceeding. *See* Initial Ruling at 1–2.

B. Percent of Revenue Rate

The Benchmark Dissent agrees with the Remand Majority's retention of the headline percent-of-revenue rate and its phase-in over the period at issue.

C. Definition of Service Revenue for Bundled Offerings

For the reasons articulated in the Initial Ruling and the reasoning of the judge dissenting from that portion of the Initial Ruling, the definition of Service Revenue for bundled offerings contained in the Initial Determination must be adopted. *See* Initial Determination (Jan. 27, 2018). Adoption of the *Phonorecords II* (PR II) rate structure requires that the original definition pertain.

II. Area of Dissent

The first function of the Judges is ''to make determinations . . . of reasonable terms and rates of royalty payments. . . .'' 17 U.S.C. 801(b)(1). Under the statute in effect during the captioned proceeding, the rates shall be calculated to achieve four statutory objectives. *Id.* The terms of payment of the rates, however, are not subject to any particular statutory restrictions or guidelines. *See, e.g., Live365* v. *Copyright Royalty Bd.,* 698 F. Supp. 2d 25, 29–30 (D.D.C. 2010) (''In performing their duties, the [Judges have] broad discretion to . . . impose regulations

[227] The foregoing analysis also explains why Copyright Owners' assertion that the Services did not satisfy their burden of proof with regard to the Bundled Revenue definition misses the point. The Services' burden was to show the reasonableness of utilizing the Bundled Revenue definition in the PR II-based benchmark, not to show that their proffered approach measured the WTP of individual subscribers (or blocs of subscribers). Such an alternative approach might have had merit but no alternative approach was presented to the Judges.

To be clear, the Judges are not declaring that an alternative Bundled Revenue definition and/or alternative rates and structures for bundle, might not have been preferable. *See* 4/15/17 Tr. 5056–58 (Katz) (''[I]f someone had a proposal [with] a specific reason why we should adjust this minimum that's something I would have examined,''). *See also* 3/15/17 Tr. 1227–28 (Leonard) (Google's economic expert testifying that ''if somebody had . . . suggest[ed] . . . a different sort of bucket that should be created . . . that's a good idea.''). But Copyright Owners did not propose such alternatives at the hearing, and the alternative in their Motion for Clarification simply eviscerated the ''derived demand''-based link between royalties and bundled offerings. As the Judges have noted *supra,* in the words of Judge Patricia Wald, all judges are cabined by the record evidence introduced by the parties. Therefore (in the absence of a way in which to synthesize the parties' proposals in a manner that does not ''blindside'' the parties) the Judges must choose between the proposals that are in the record, not potentially superior proposals that are not in the record. Here, the Judges favor the Bundled Revenue definition in the Initial Determination that was negotiated by the parties, incentivizes price discrimination and pays royalties on the bundled music, over the substituted definition in the Determination pursued by Copyright Owners that would eliminate price discrimination, except under the terms Copyright Owners could impose via their complementary oligopoly power, and without regard to the statutory requirements of a ''reasonable rate'' and a ''fair income'' for the Services.

[228] Technical difficulties on July 1 caused the delay in filing of this Dissent until July 2.

[229] The dissenting Judge does not fault the economic analysis of the Remand Majority on this issue. The dissenting Judge is not the Judge selected for ''a significant knowledge of economics.'' *See* 17 U.S.C. 802(a)(1). This Benchmark Dissent is based on a broader reading of the requirements of section 801 of the Copyright Act, *viz.* ''to make determinations of reasonable terms and rates. . .'' consistent, of course, with the record evidence and sound legal and economic analysis. The role of the Judge is to weigh evidence; two Judges might rightfully and respectfully disagree on where that scale balances. The Remand Majority's analysis led those Judges to conclude that they were bound to re-introduce the rate structure devised in the *Phonorecords II* proceeding. The Benchmark Dissent concludes that the economic analysis outlined in the Initial Ruling supports, but does not dictate, that result, but that the goal of reasonableness can be met with different structure(s). The Benchmark Dissent does not construct or propose a detailed, different structure. To do so would be an inefficient application of judicial resources at this late stage of this proceeding. The Benchmark Dissent finds, however, that both licensor and licensee participants agreed in this proceeding that a less complex rate structure is warranted.

[230] The preceding proceeding, referred to as *Phonorecords II,* consisted of a final rule adopting the participants' settlement agreement as regulatory terms and rates. *See* Final Rule, Adjustment of Determination of Compulsory License Rates for Mechanical and Digital Phonorecords, Docket No. 2011–3 CRB Phonorecords II, 78 FR 67938 (Nov. 13, 2013), Technical Amendment at 78 FR 76987 (Dec. 20, 2013). In this partial dissent, references to *Phonorecords II,* PR II, and PR II-based benchmark are references to this final rule.

[231] *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 84 FR 1918 (Copyright Royalty Board Feb. 5, 2019) (final rule and order) (Determination); *See also* Final Determination, 16–CRB–0003–PR (2018–2022) (Nov. 5, 2018).

governing the rates and terms of copyright royalties. . . .'').[232]

In general, in promulgating regulations the Judges aim to effect efficient and effective payment of royalty license fees. Regulations relating to license royalty rates describe the rates the Judges determine to be reasonable, whether presented by agreement of the affected parties or after adjudication. The regulations include, where necessary, methods of calculation of the payable royalties. The regulations also include such provisions as recordkeeping requirements, late fee assessments, and audit authority. As the Remand Majority points out, simplicity and clarity were not among the statutory factors applicable to determining royalty rates in the captioned underlying proceeding. Simplicity and clarity should, however, be paramount among the Judges' considerations in governing rate payment procedures.

In recent proceedings, the Judges have emphasized that the statute requires that they set both rates and terms. At the end of a different royalty rate proceeding, having been confronted with competing proposed regulations, or even with largely agreed regulatory terms, upon which the parties had proffered no evidence, the Judges cautioned counsel in this proceeding:

> Please be reminded that the Judges have an obligation to set both rates and terms. . . . In any proceeding, just because a regulation is in the current Code of Federal Regulations does not mean that the Judges are adopting that term. . . . The Judges cannot determine rates or terms without an evidentiary record. . . . The Judges cannot adopt any terms of royalty administration unless the parties present evidence to support their proposed terms.
>
> Tr. 03/08/2017 (Barnett, J.) While chapter 8 of the Copyright Act encourages settlement, the Judges are not mandated to adopt parties' settlements if they find they face opposition that discounts reasonableness or if the proposed regulations are contrary to law. *See, e.g., Determination of Royalty Rates and Terms . . . (Phonorecords IV),* 87 FR 18342, 18347, 18349 (Mar. 30, 2022).

In the proceeding underlying the Determination, the parties proffered a variety of proposed regulations.[233] Copyright Owners contended that the extant rate structure ''should be modified and simplified.'' Copyright Owners' Amended Proposed Rates and Terms (5/17/2017) at 2. Copyright Owners argued that the ten different rate categories should be ''no longer applicable'' as Copyright Owners proposed application of the same rates and rate structure to ''all interactive streams and/or limited downloads [except bundles], regardless of the business model employed.'' *Id.* at 3. Copyright Owners' rate proposal hinged on a per-unit calculation across the board: the greater of a per-play amount or a per end user amount.

Amazon proposed retaining the PR II rate structure. *See* Proposed Findings . . . of Amazon (May 13, 2017) ¶ AM–F–25. Amazon argued that the PR II rate structure ''enabled Amazon to develop a varied assortment of services. . . .'' *Id.* Amazon contended that the different royalty rates permit price discrimination by the Services. *Id.* ¶¶ AM–F–47, 49. Amazon conflates price discrimination with provision of heterogenous musical tastes and preferences. *Id.* ¶ AM–F–48. Amazon's proposal mimicked the regulations adopted by agreement in the immediately prior proceeding.

Apple proposed a per-play rate calculation, which would render the PR II rates and rate structure obsolete. Notwithstanding the different structure, however, Apple offered valid criticisms of the PR II rate structure. Apple termed the PR II rate structure ''problematic.'' *See* Apple Inc.'s Findings . . . and Conclusions . . . (May 11, 2017) at 30. Apple argued that the PR II rate structure was ''overly complex, economically unsound, and unpredictable.'' *Id.* ¶ APL–F65. Apple acknowledged that these shortcomings resulted in ''a loss of trust and overall dissatisfaction with interactive streaming among songwriters. . . .'' *Id.*

Apple noted that across the ten rate categories in the PR II rates, ''there are roughly 79 different calculations that can be made.'' *Id.* ¶ APL–F67. Apple argued that the PR II rate structure was ''not transparent or easy to understand'' for copyright owners and created ''uncertainty for services, who may find it difficult to predict which prong . . . will kick in in any given month.'' *Id.* ¶¶ 68–69. Apple opined that, rather than encouraging new business models, the PR II rate structure ''tends to stifle innovation around new pricing or distribution models, as services are incentivized to create businesses that fit into the ten pre-defined 'boxes.' '' *Id.* ¶ 70. Apple further argued that the PR II rates were economically unsound because they are based on revenue, which is unrelated to demand for a given copyright owner's song. *Id.* ¶ 71.

Google's proposal, from which the Majority derived the uncapped TCC rate prong of the Determination, contended that the ''fragmented service categories are unnecessary under [its] proposal. . . .'' Google, Inc.'s Proposed Findings . . . and Conclusions. . . (May 11, 2017) ¶ GPFF58. Google acknowledged questions regarding the complexity of the PR II rate structure. Google, therefore proposed a rate structure that would both streamline the regulations and protect Copyright Owners' concerns regarding Services' revenue deferment and displacement. *Id.* ¶ GPFF57.

In the captioned underlying proceeding, the Judges heard little evidence offered in resounding support or vehement objection to the regulations the parties proffered. No party argued or supported the proposition that the PR II rate structure was the only way, or even the best way, to achieve license fee payment.[234]

In this remand proceeding, no party argued against the all-in approach to rate calculation. The parties disagreed regarding retention of ''mechanical floors'' for configurations for which the Services must pay mechanical royalties both to Copyright Owners in this proceeding under section 115 and to Performing Rights Organizations (PROs) according to the determinations of the ''Rate Court.'' [235] The parties disagreed over imposition of a cap on the TCC prong [236] in the greater-of percent-of-revenue calculation. They also disagreed over retention or elimination of the per subscriber sub-minima that were featured in the PR II rates.

The Remand Majority cites with approval the remand parties' criticism of the simplified rate structure in the Determination, *viz.,* that it is ''virtually as complex as'' the PR II rate structure. *See* Services' Joint Opening Brief (Apr. 1, 2021) at 39. This characterization is

[232] The Judges' regulations are, of course, subject to approval by the Librarian of Congress. 17 U.S.C. 802(f)(A)(i); *see Live365* v. *Copyright Royalty Bd.,* 698 F. Supp. 2d 25, 29–30 (D.D.C. 2010).

[233] Spotify, as the only pure-play service, offered simplified regulations, but only because it did not propose any rates or terms for bundled or locker services. Spotify advocated elimination of the per-subscriber stop-gap alternative in the greater-of percent-of-revenue/percent-of-TCC calculation.

[234] The Benchmark Dissent does not argue that the PR II rate structure did not achieve its purpose. Indeed, the all-in, greater-of, lesser-of scheme with payment minima and mechanical floors achieved the goals of (1) supporting increased absolute revenue through downstream price discrimination and (2) protecting creators from potential loss resulting from licensees' revenue deferral or displacement. The Judges have never denied the value of price discrimination in these or other rate setting proceedings.

[235] The District Court of the Southern District of New York determines performing rights royalties. Parties to those rate proceedings refer to that court, when engaged in the rate-setting cases, as the ''Rate Court.''

[236] ''TCC'' refers to a streaming services' costs of content, referring in this proceeding to the cost of sound recording royalties the streaming services pay to record companies.

a bit of hyperbole. The rate structure in the Determination is an all-in rate with ''mechanical floors'' where those are warranted. Except for the fundamentally different configurations included in subpart B, it does not set out separate calculations for different delivery configurations. On remand, the Remand Majority chooses to reinstate the PR II rate structure in its entirety, with all of its 79 permutations, changing only the headline percent-of-revenue rate and adding a cap on the TCC rate prong (which is an element of the structure itself). The Benchmark Dissent does not dispute the necessity and propriety of the increased headline percent-of-revenue rate or the cap on the TCC rate prong. Indeed, as noted in the Remand Majority, the D.C. Circuit endorsed the rate increase as well-reasoned and determined well within the Judges' discretion. The D.C. Circuit also found fault with ''yoking'' the TCC rate alternative to sound recording royalty rates, not subject to the Judges' control, without reins. The basis of this Benchmark Dissent is simply that the regulatory scheme is not efficient, transparent, or mandated by credible evidence; nor is the structure necessary to achieve the purposes of reasonableness and equity.[237]

A. Acceptance of Phonorecords II Settlement as a Proper Benchmark

This is a Dissent in Part. The undersigned Judge does not disagree with the headline rate being retained at 15.1% or with the imposition of a TCC cap, for the reasons elucidated by the Remand Majority. Nonetheless, the Benchmark Dissent continues to disagree with adoption of the entirety of the rate *structure* adopted by *Phonorecords II.* As noted above, the Judges solicited evidence to support adoption of regulatory language to effect payment of the rates they established. Copyright Owners, Google, and Apple submitted rate proposals that greatly simplified the rate structure. Their rate structure regulation proposals were crafted to support their varying approaches to rate calculations not adopted by the Judges. Their criticisms of the PR II rate structure are valid, nonetheless, and support the Benchmark Dissent's analysis.

In the underlying proceeding, the Majority declined to label the rate structure and resulting rates incorporated in the regulations promulgated after the *Phonorecords II* proceeding (rates and rate structure) as a benchmark, or starting point, for determination of new rates and terms in that proceeding. In the Determination in the extant proceeding, the Majority alluded to reasons they found the PR II rates to be inadequate to serve current circumstances.[238] The D.C. Circuit noted that appellate counsel offered further explanation on appeal for the rejection of the PR II rates and rate structure as a benchmark. *See Johnson* v. *Copyright Royalty Board,* 969 F.3d 363, 387 (D.C. Cir. 2020). Nevertheless, the D.C. Circuit faulted the Majority for not providing adequate explanation of their rejection of a PR II-based benchmark in the first instance. *See id.* Indeed, the D.C. Circuit found the Majority's reasoning on the issue in the Determination to be ''muddled.'' *Id.* at 386–87.

Copyright Owners argue that the D.C. Circuit's remand for further explanation did not equate to finding error in the Judges' rejection of the PR II-based benchmark. *See* Initial Remand Submission of Copyright Owners (Apr. 1, 2021) 1, 10 (CO Initial Submission). Notably, the Services did not address the question of a finding of error, but proposed on remand a rate structure substantially similar to that in PR II and offered a benchmark analysis therefor. *See* Services' Joint Opening Brief (in Services' Joint Written Direct Remand Submission at Tab D) (Apr. 1, 2021) at 19 (Services' Initial Submission).

While the Copyright Owners' parsing of *Johnson* might be technically correct, the Benchmark Dissent nonetheless accepts the wisdom of revisiting the analysis of the PR II rates and rate structure, focusing on the intricacies of the structure that ultimately come into play in determining the amount of royalty payable. The Benchmark Dissent disagrees that the record in this case demands adoption of the PR II rate structure as a suitable benchmark. The Benchmark Dissent hereby provides a full analysis of this issue, which includes a fuller explanation of the conclusions in the Determination and supports and justifies rejection of the *Phonorecords II* rate structure.

B. Attributes of a Useful Benchmark

As repeated by the parties in the initial proceeding and in their remand submissions, for an exemplar to serve as a useful benchmark, it must be compared to the target market. The hallmarks of a useful benchmark are: (1) unity of products, (2) unity of sellers, and (3) unity of buyers. In addition, (4) economic circumstances and market conditions can influence the value of a benchmark. *See* Services' Initial Submission at 20 (citing *Determination of Royalt[ies] for Transmission of Sound Recordings. . .,* 83 FR 65210, 65214 (Dec. 19, 2018) (*SDARS III*).

In the Remand Majority opinion, the Judges argue that the PR II rate structure meets ''most of the requisites for a useful benchmark.'' *See* Initial Ruling, section III. C. 3. Assuredly, in the real world one is unlikely to find a perfect benchmark; consequently, the Judges in these proceedings look to the best available benchmark(s) and make adjustments to compensate for their shortcomings when compared to the attributes and circumstances of the target rates. The Benchmark Dissent is not so sanguine about one's ability to reconcile the PR II rate structure with current market circumstances pertaining to music streaming (including participants and volumes of sales) almost a decade after the parties agreed to that structure. Because of the recognized gulf in market conditions between *Phonorecords II* and this *Phonorecords III* proceeding, the Benchmark Dissent rejects attempts to fit that square peg into the current round hole.

1. Unity of Products—the Same Rights

The PR II rates regulated ''sales'' of the same licensing rights as those at issue in the current underlying proceeding, *viz.,* the statutory license to utilize musical works embodied in the sound recordings that are the lifeblood of the music streaming services. This factor was not and is not in controversy. In this respect, the Judges could look to the PR II rates as a benchmark.

2. Unity of Sellers—Rightsholders

The songwriter or songwriters own the copyright for musical works, that is, the musical notes and lyrics. In general, songwriters sell or license their works to publishers who fix the works to a physical medium, for example, piano rolls or sheet music. Music publishers also market the musical works licenses to record companies for their sound recordings. In today's market,

[237] As part of the Judges' discretion to promulgate regulations to effect license rate collection, the Majority reorganized the regulations in part 385. This reorganization was completed to further the goal of clarity and conciseness. No party objected to or sought to overturn that reorganization of the regulations. Apparently, the perceived sanctity of the PR II rate structure is not unassailable. Reorganization can perhaps be seen as a first step to toward clarity, transparency, and simplicity for licensors and licensees.

[238] The D.C. Circuit found that the Majority articulated a reasoned and reasonable rejection of the negotiated rates applicable to the categories of phonorecords included in ''Subpart A'' of the regulations as a benchmark in this proceeding. The issue on remand is articulation of a reason for not using the other subparts of 37 CFR 385 as a benchmark in this proceeding. *See Johnson* v. *Copyright Royalty Board,* 969 F.3d 363, 386 (D.C. Cir. 2020).

publishers and songwriters exist in a symbiotic relationship. Without new works, the publishers have no new product to market.[239] To ensure a flow of new product, publishers often subsidize songwriters by providing working space or monetary advances on future sales of licensed work, or publishers might purchase outright the songwriters' copyrights. Whether the rightsholder is a writer, composer, or publisher, the rights are the same, those derived from 17 U.S.C. 106 and limited by 17 U.S.C. 115. *See* 17 U.S.C. 106(1), (3) (exclusive rights); sec. 115 (compulsory licensing). The sellers' interests are aligned.

3. Unity of Buyers—Streaming Services

The Services argue unity of rights and sellers between the time of the PR II rates and the current proceeding. With respect to buyers, the Services allege that the current buyers are ''the same or similar. . . .'' Services' Initial Submission at 20. The Services argue that the PR II rates involved ''either the same type of buyers or the very same buyers as this proceeding.'' *Id.* The license delimits the users it binds. It is axiomatic that current licensees are ''of the same type'' as licensees in 2012. Describing participants as ''similar to those currently in the market'' or ''of the same type'' as current participants is sufficiently imprecise to call into question the unity of buyers required to give great weight to a potential benchmark.

The Services allege that ''[m]ost of the participants in Phonorecords III were either directly involved in the Phonorecords II settlement or operated in the market at the time of the settlement.'' *Id.* ''Most of the participants'' does not reveal which participants were active in *Phonorecords II* or the reasons for their participation. Amazon began an MP3 digital music service in 2004; it launched steaming in mid-2014. *See* Written Direct Testimony of Jeffrey Eisenach (Nov. 3, 2016) (Eisenach WDT) ¶ 51. Tab. 2. Apple launched its streaming service in 2019. During the Phonorecords II negotiations, Apple's primary interest was digital downloads from the iTunes store. According to one of its witnesses, Google was, at the time of the Phonorecords II negotiations, ''planning to launch a store, a locker, and a subscription service.'' Google's participation in the Phonorecords II negotiations was ''primarily designed to make sure that our interests were met in—for our forthcoming music service.'' 3/8/17 Tr. 157:2–158:2 (Zahavah Levine).

Although the Services argue that the buyers in the current market are the same as, or similar to, buyers at the time of adoption of the PR II rates, the Services then and now advocate differing rate calculations for each music delivery configuration. Indeed, between 2008 and 2012, the delivery configurations multiplied and the parties negotiated different rate structures for those multiple configurations. Acknowledging participation by a service with one configuration—or a plan to launch one configuration—is insufficient to establish a unity of buyers for purposes of rate setting. Almost a decade after the effectuation of the 2012 rates, with new businesses tacking music streaming onto their digital ecosystems, the development of new and different delivery configurations continues to evolve.[240] Nonetheless, the Services would have the Judges adopt a rate structure that specifies current delivery configurations but excludes some current innovations and cannot encompass the next innovations, whatever form they might take.

The Benchmark Dissent acknowledges that buyers of the musical works for which licenses are at issue in this proceeding are of the ''same type'' as the *Phonorecords II* buyers. In some instances, they are the same participants. In the current landscape, however, the interests of those buyers are vastly different. The extent to which Apple, Amazon, and Google, were involved in Phonorecords II negotiations bears no resemblance to the interests of those services and their current service configurations. Without greater unity of buyers, the Benchmark Dissent must discount the viability of the PR II rates or rate structure as a useful benchmark in this proceeding.

4. Economic and Market Conditions

The Services argue that the music streaming industry in 2018 was essentially unchanged from 2008 or 2012.[241] *See* Services' Initial Submission at 20–21. The evidence in this proceeding compels a contrary conclusion. In 2008, musical works distribution consisted primarily of sound recordings reproduced in physical formats (vinyl and CDs) and digital downloads. *See* Eisenacht WRT ¶ 33 (Feb. 13, 2017). The record reflects that in 2008, of record labels' revenues 96% were derived from sales of physical and digitally downloaded sound recordings; 2.5% from interactive streaming.[242] By 2012, at the inception of the rates that were re-adopted as the PR II rates, musical works sales were beginning to shift from physical media to digital forms. In 2012, 8.1% of record label revenues were attributable to interactive streaming. *Id.* By 2015, evidence available in this proceeding showed that record labels' revenues from digital downloads approximately equaled revenues from streaming and digital sales were more than double the sales of physical configurations, such as vinyl and CDs. *Id.* ¶¶ 44–45 and accompanying tables.

Spotify, the dominant pure play streaming service in the U.S., did not enter the U.S. market until mid-2011. *See* CO Initial Submission at 20–21 (Apr. 1, 2021) *and evidence cited therein.* Spotify did not participate in the negotiations leading up to the adoption of the 2012 musical works royalty rates. *See* Eisenacht WRT ¶ 35, n.38. In fact, the record contains evidence that music streaming was not a major factor in setting mechanical license rates in 2008 or 2012.[243] *See* CO Initial Submission at 19–21, *and evidence cited therein.* As more and larger streaming services entered the market, music consumption changed in character. Music consumption in the 2018 market had changed character completely from an ownership model to an access model. *See* Determination at 6.

Further, three of the Services participating in the current proceeding are not pure play streaming services but are multidimensional marketing firms for whom music streaming is only one small facet of the business. From the perspective of those current licensees, the music streaming license is relatively insignificant to their overall financial

[239] Publishers may retain rights to songs no longer considered ''new'' or ''popular'' that might nonetheless still be subject to the section 115 license. The Services' revenue is driven, however, by streaming new music. They understand that reselling older music, even in new packaging (covers) would lower their desirability and decrease the sources of revenue, their end users.

[240] Some services offer different levels of access to consumers using their proprietary devices, *e.g.,* Amazon Echo. Some (non-satellite) music streaming services are now available directly via a button on a vehicle dashboard.

[241] The PR II rates and rate structure were the product of a negotiated settlement that began and ended with reference to the negotiated rates adopted in 2008. Some additional categories of service were added to the 2008 structure, *e.g.* locker services. Of those categories added in 2012, few remain a significant part of the current streaming industry.

[242] The difference is attributable to sound recording revenues from non-interactive streaming.

[243] The Services argue that only Mr. Israelite testified that the 2008 and 2012 rates were ''experimental'' and that the market is significantly changed since 2012. The Majority found, based upon the totality of the evidence, that Mr. Israelite's testimony was credible and accorded it due weight.

health. The Judges must, therefore, value the license objectively to assure the conglomerate licensees do not manipulate their revenues so as to reduce music streaming rights below what is fair and reasonable to the rightsholders.

The Services further advocate use of the PR II rates and rate structure as a benchmark because they assert that the multifaceted rate structure is reflective of the Services' own price discriminatory services. The Majority noted the Services' price discrimination as a way to optimally monetize segments of the market with a lesser willingness to pay.[244] Greater accommodation of users less willing to pay results in more streaming and more revenue for the Services at minimal to no marginal cost. A rate determined as a percentage of a service's revenue allows that price discrimination to continue, resulting in additional royalties. The Benchmark Dissent contends, however, that the Judges need not adopt a rate structure with ten different service categories to allow the Services to continue their price discriminatory downstream sales. The payable royalties are a percent of revenue. If the Services receive relatively less revenue by marketing a family plan, for instance, that reduced revenue is the basis for the royalty calculation. Nothing in a simplified rate structure would inhibit price discriminatory service plans. The PR II rates' multi-category structure might encompass the price discrimination the Services employ, but that does not make it a mandatory benchmark for current rates, especially if the target rate structure permits the same flexibility.

C. Adoption of PR II Rates and Rate Structure in Direct Licenses

The Services assert that the PR II rates and rate structure have been adopted in negotiated direct licenses they have signed with rightsholders rendering those rates and that rate structure a valuable benchmark. The Services' witnesses analyzed direct licenses and concluded that the *rates* closely matched the rates in the PR II regulations. [REDACTED].[245] Analysis of direct licenses executed belie the Services' assertion that the PR II rates *structure* is embraced by rightsholders.[246]

D. Additional Shortcomings of PR II Rates as a Benchmark

The D.C. Circuit dismissed the Majority's argument on appeal that (1) the PR II rates were too low and (2) the PR II rates were outdated. The D.C. Circuit noted that these two reasons might support the Majority's conclusions, but they could not be asserted in the first instance on appeal. *See Johnson* at 386.

1. Rates Too Low

The D.C. Circuit found that the Judges' finding that the PR II rates were too low was not fully articulated until the matter was on appeal. As a result, the D.C. Circuit could not evaluate that reason as support for the final rates. Indirectly, however, the D.C. Circuit nonetheless accepted that underlying reason for the rate changes when it approved the higher rates themselves. *See Johnson* at 384–86. The adopted rates were soundly grounded in the record evidence. *See id.* By implication, acceptance of increased rates means the PR II rates were too low to be continued. With or without the ''too low'' rationale, the final adopted rates prove the point.[247]

2. Rate Structure Outdated

In the Determination, the Majority cited several factors that implied the inadequacy of the PR II rates and rate structure as a compelling benchmark for *Phonorecords III.* As discussed above, the music streaming industry in 2018 was completely transformed from 2008 or 2012. Both the buyers and the economic market conditions were markedly changed. Referring to the PR II rates as ''outdated'' encompasses both a temporal element and a structural component.

a. Significance of the Passage of Time

Music streaming in the earlier rate setting periods was in its infancy. Listeners had not yet fully embraced the subscribed access model for music consumption. By 2018, listeners could choose from ''a diverse array of streaming offerings.'' *See* WDT of Rishi Mirchandani ¶ 63. Such industry shifts alone could render the PR II rates ''outdated.''

b. Clarity and Simplicity

Another salient factor the Majority addressed is the rate structure itself. To understand the PR II rate structure, one needed ten separate full-page flow chart diagrams, each featuring three formulae for calculating greater-of and lesser-of rate components. *See* Trial Ex. 846. The rates for some consumption configurations included a per-subscriber ''mechanical floor'' as a failsafe against overreaching by PROs, should the Rate Court increase their rates to an extent that all of the section 115 all-in percent of revenue royalty be consumed by the PROs. *See, e.g.,* [FORMER] 37 CFR 385.13(a)(1) (Standalone non-portable subscription—streaming only [$.15 per subscriber]); [FORMER] 385.13(a)(2) (Standalone portable subscription—mixed use [$.50 per subscriber]) (2018).[248] Other consumption configurations included ''minima;'' that is a lesser-of calculation comparing a percent of sound recording license costs (TCC) and a per subscriber amount. *See, e.g.,* [FORMER] 37 CFR 385.13(b) (2018). Further, rate calculations differed depending upon, for example, whether the listener streamed on a portable device or a non-portable device; or whether the listener purchased access to the music alone from a pure-play streaming service or as part of a bundled offering, such as ''free'' streaming for a limited period included in the purchase price of the streaming device.[249]

The rationale for these convoluted rate calculation differences is

[244] The adopted *Phonorecords III* rate regulations acknowledged price discrimination by, *inter alia,* permitting Services to account for discounted subscriptions in different ways. *See* Determination at 34.

[245] The [REDACTED] direct licenses reportedly adopt the rates in part 385, which open-ended adoption could indicate acceptance of both rates and rate structure.

[246] [REDACTED] *See* AWDT Leonard ¶¶ 63–64.
[REDACTED]. *See* Leonard AWDT ¶ 70–71.
[REDACTED]. *See* AWDT Leonard ¶ 54. (calculation is ''effectively simplified'').
[REDACTED].
[REDACTED].

[247] The Services argue that an agreed continuation of the Subpart A (now Subpart B) rates for, *inter alia,* physical phonorecords and permanent downloads, proves that the Phonorecords II rates are appropriate. *See* Services' Initial Submission at 30. This argument asserts a false equivalency. Physical Phonorecords and permanent downloads are fundamentally different in character from streamed music. Further, the evidence indicates that the prominence of streaming access over ownership of recordings is waning. The parties' agreement to maintain the *Phonorecords II* rates for this declining segment of the market does not equate to a mandate to adopt the entirety of the PR II rate structure.

[248] The Majority reintroduced these ''mechanical floor'' safeguards, notwithstanding a lack of evidence to explain, let alone justify, the difference between $0.15 and $0.50 per subscriber (the latter being 300% greater than the former) simply because one consumer listened to a song on a standalone non-portable device and another consumer listened to a song on a standalone portable device.

[249] The Services have not offered convincing, substantive evidence or argument to support the fractured structure of the PR II rates. Tellingly, the user's choice of consumption device is not a factor in license rates for other services. *See, e.g.,* 17 CFR 380.10 (Webcasters rates differentiate between commercial and non-commercial licensees, not based on users' reception devices); §§ 382.3, 382.12 (rates for satellite radio and pre-existing subscription services do not differentiate based on users' reception devices).

unknown.[250] They were the product of confidential negotiations among the parties involved in the music streaming business in the first decade of the 21st century. One side of the negotiating table sought reconsideration of those rates. The current licensees are not the same as those who negotiated the 2012 rollover of the 2008 rate scheme. Music streaming business models have witnessed significant growth and change. Meanwhile, the business models employed by songwriters and publishers remain largely unchanged—and not realizing a proportionate capture of the stream of dollars realized by the Services' monetization of ever-more consumption configurations. The marginal cost to the Services of additional streams, regardless of the business configuration or the user's reception device, is zero. The Services, therefore, are in a position to capture increased revenue without an increase in cost of goods sold.

In the end, a sound recording embodying a licensed musical work is being delivered to an end ''user'': one song; one listener. The calculation of what royalty the songwriter is entitled to should not rest on the medium of transmission or the location of the listening. *See* WDS Steve Bogard ¶ 34 (''Streaming music anytime, any place, on any device is the way today's music fans want to enjoy their music. Notwithstanding that the inherent value of a song is the same whether the consumer chooses to buy an album, permanently download an album or a single, or stream music on demand. . . .''). The incremental difference in value to the listener of hearing a song in the car as opposed to through earbuds during a workout is not likely measurable. Certainly, no participant in this proceeding presented any evidence of the relative value of a song to a listener depending on the delivery configuration.[251]

In the interest of making government more transparent and accessible to interested citizens, less is more. Opaque systems and formulae are or should be, in a word, outdated. The fact of settlement does not cure or even address the unnecessary complication of paying a royalty for the use of a statutory license under the PR II rates structure. More importantly, owners of the copyrights being licensed should be able to comprehend, calculate, and verify the sources and amounts of their royalty payments.

3. Not Business Model Neutral

The Services contend that the PR II rate structure is preferable as it is business model neutral. Nothing in the record supports that assertion. In fact, Apple argued that the PR II rate structure stifled innovation as streaming services sought to fit any new business into a business model already defined as one of the ten identified models in the *Phonorecords II* regulations. The statute does not require that rate structures be business model neutral. The reasonableness requirement demands, however, that the Judges find and adopt *reasons* for differentiation in rates based on business models.

4. No Evidence of Settling Parties' Subjective Intent

Copyright Owners participating in the current proceeding argued that the Judges should consider the subjective intent of the parties in agreeing to ''roll over'' the 2008 rates and rate structure into the PR II regulations. The Services countered that subjective intent is irrelevant, as the product of those negotiations serves as objective evidence of the parties' intents. On this question, the Services are correct. The negotiated rates show, objectively, that the negotiating parties agreed to a certain rate structure. The D.C. Circuit criticized the Majority for not including in the Final Determination an explanation of why the subjective intent of the parties to the settlement was a ''prerequisite'' to adoption of that settlement as a benchmark. *See Johnson* at 387. The Judges need not, however, accept that objective evidence uncritically.

Negotiating parties' subjective state of mind can serve as convincing evidence of the economic circumstances and the state of the market at the time of the negotiations. While ascertaining the parties' subjective intent in reaching the settlement is not a ''prerequisite'' to examination of the terms as a benchmark, the Benchmark Dissent finds subjective intent informative and useful as one factor in weighing the value of the settlement as a benchmark.

E. Statutory Factors

The Services argued to the D.C. Circuit that the Majority's rejection of the PR II rates and rate structure was erroneous because the Majority failed to evaluate that structure and those rates under the statutory factors delineated in 17 U.S.C. 801(b)(1). Evaluation under section 801(b)(1) is required by the statute applicable to this proceeding.[252] Nothing in section 801(b)(1) compels the Judges to evaluate compliance with the statutory factors of every proposed potential rate or rate structure. Neither are the Judges required to evaluate every potential benchmark or past rate structure under section 801(b)(1). The Judges are obliged to evaluate any rate structure they intend to adopt against the requirements of section 801(b)(1). If the Judges' promulgated rate structure meets the section 801(b)(1) standard, then the promulgated rate structure can be adopted. Whether other possible proposals might also meet the section 801(b)(1) standard is not at issue in a proceeding.

1. Maximize the Availability of Creative Works to the Public

The Services argue that the PR II rates and rate structure support and contribute to the maximization of musical works. As evidence, they cite the growth of music streaming overall, the profitability of all segments of the music industry.[253] It is beyond question that music consumption has grown exponentially since the co-incident

[250] Prof. Katz asserted that ''economic analysis'' indicates that varying rates based on the characteristics of the service ''facilitates continuing innovation, experimentation, and differentiation in means of making music accessible to consumers.'' Katz WDT ¶ 85. Prof. Katz did not identify that economic analysis. He asserted that the fractured rates allow services to benefit despite different consumers' willingness to pay. Nothing in the PR III rate structure at issue in any way inhibited services adapting to meet consumers' willingness to pay. The rates are, in the main, revenue based—even if the services choose to market the service at a lower rate to a particular segment of the market.

[251] The Remand Majority dubs analysis of value based on the cost of production rather than willingness to purchase as old-fashioned economic analysis. So it may be. In the modern economist's widget market, if buyers are unwilling to pay enough to cover the cost of widget components, then widget production ceases. But in the old-fashioned creativity market, the goods are not fungible. The inputs to a hit song are ephemeral; sometimes plentiful, sometimes elusive; they either coalesce or they do not. Songwriters will persevere because they cannot do otherwise. The demand for music continues to grow with each new innovation in delivery methods. The United States Constitution provides for protection of art and the creators of art. U.S. Const. art. I, sec. 8. Congress has specified how to protect, *inter alia,* the copyrights of songwriters. The Judges' small part in that effort is to continue to assure that royalty rates are reasonable—for both creators and exploiters. In the music streaming industry, the evidence supports devoting a greater share of licensees' increased wealth to the ''widget makers.'' The Dissent contends that the increase in the percent-of-revenue headline rate is a good step forward, but only the first step to assuring equity in the market. Streamlining, simplifying, and generally ''cleaning up'' payment calculations would go a long way in the right direction by removing twists and turns and confusing signals along the path of the royalty dollar from end user to creator.

[252] With the passage of the Orrin G. Hatch—Bob Goodlatte Music Modernization Act, Congress eliminated the four statutory factors for evaluating license royalty rates. *See* Public Law 115–264, 132 Stat. 3676 (2018) (codified in scattered sections of title 17, U.S.C.

[253] According to the Services, all segments of the music industry are thriving [REDACTED].

introduction of portable devices and streaming services. Growth continues as those devices and services become increasingly easy to actuate in vehicles.

No participant alleged, however, that music industry success is caused by or even correlated to the PR II rate structure. Coincidence is not probative evidence.

2. Assure Fair Return to Copyright Owner and Fair Income to the Licensee

The Services argued they were receiving a fair income and copyright owners were receiving a fair return under the PR II regulations. Although the Services argued that overall music royalties absorbed an inordinate portion of their revenues, none expressly laid that lack of available revenue at the door of mechanical royalties. Amazon's witness, Dr. Glenn Hubbard described a growing increase in streaming industry revenues and forecasts of continuing growth. *See* WRT of Glenn Hubbard (Feb. 15, 2017) ¶ 2.23–24 (Hubbard WRT). Dr. Hubbard deconstructed Amazon's increased revenues and concluded that the growth in streaming services' revenue resulted in increased royalty payments to music publishers and other rights holders. *Id.* ¶ 3.10. When royalty rates are calculated on a percent-of-revenue, the royalty payments increase when revenues increase.

The difficulty with this tautological argument is that revenue growth as between services and rightsholders has not been proportional. And, as Copyright Owners have argued, the *rate* at which the services share with mechanical rightsholders is the issue in this proceeding. The Judges are not called upon to set annual royalty payment dollar amounts; rather they are mandated to set the rates that drive those dollar amounts. And to adopt regulations that most closely effectuate actual payment to rightsholders, minimizing revenue deferral and other such loopholes. For all of the reasons provided in the Determination and in this Benchmark Dissent, the PR II-based rates and the controlling rate structure do not balance the section 115 fair income-fair return scale appropriately and reasonably.

3. Weigh Relative Roles of Licensors and Licensees in Making the Works Available to the Public

No participant presented evidence to elucidate specifically the relative roles of the parties relating to musical works. Economic evidence assumed that the marginal cost of streaming more music is minimal. This does not discount the services' sunk costs, such as the original technological or capital investments. With respect to the contributions of the copyright owners, the contribution is clear. It all begins with a song. Without new music, the Services could continue by streaming unregulated works, new arrangements or covers of existing works, and non-music content. Whether they would continue to enjoy the growth they have enjoyed over the last decade is unknown. The PR II rates might be a contributing factor to both stability and growth of the industry, but based on the totality of the evidence, the Dissent concludes that with regard to musical works, the relative role of the creator of the musical works, and to a lesser extent, the music publisher, is undervalued.

4. Minimize Disruption

The language for the fourth statutory factor requires the Judges to establish a rate structure in such a way as ''[t]o minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.'' [FORMER] 17 U.S.C. 801(b)(1)(D). The Services argue that the change in rate structure determined by the Majority in this proceeding is massively, and potentially fatally, disruptive to music streaming services.

Ironically, the music industry has been in a constant state of disruption since the introduction of digital music. From peer-to-peer sharing, to purchased permanent downloads, to interactive and non-interactive streaming, the history of modern music consumption has been a model of disruption. Entry into the streaming market by multifaceted digital ecosystem providers is just the latest significant change in music delivery to consumers. Innovation in music delivery is constant.

Allegedly to minimize disruption, the Services advocated retention of the PR II rates and rate structure.[254] While every aspect of the music industry is experiencing explosive growth, maintenance of the inadequate rates for mechanical licenses is unfathomable. Some change, phased in over time, might be uncomfortable for the licensees, but failure to change rates to acknowledge the music delivery revolution is not an option. With such a dynamic history and uncertain future, a change in mechanical license rates is not just inevitable, but mandatory.

Indeed, the Benchmark Dissent's approach in this proceeding advances the notion that streamed music is streamed music. This is certainly true from the viewpoint of the songwriters and publishers, and of music consumers. Rather than introduce separate rate structures for each new delivery technology or streaming business model, the Judges need to establish a rate that will fairly compensate Copyright Owners for the use of their works and permit a fair return to licensees, regardless of what next technological disruption they might choose to introduce to the industry. In the captioned proceeding, the Majority declined to label the rate structure and resulting rates incorporated in the regulations promulgated after the *Phonorecords II* proceeding as a benchmark, or starting point, for determination of new rates and terms in this proceeding.

In the Determination, the Majority alluded to reasons they found the PR II rates to be inadequate to serve current circumstances.[255] Nevertheless, the D.C. Circuit faulted the Majority for not providing adequate explanation of their rejection of the PR II benchmark in the first instance. *See Johnson* at 386–87. Indeed, the D.C. Circuit found the Majority's reasoning on the issue in the Determination to be ''muddled.'' *Id.*

F. Rate Structure

For all of the reasons outlined above, the Remand Majority's acceptance and adoption of the *Phonorecords II* rate structure results in a rate structure in this proceeding that suffers from the same deficits the Benchmark Dissent believes to be inherent in that rate structure. Changing the headline rate and capping the TCC rate prong do not cure the ills of the rate structure itself. True, the PR II-based rates permit price discrimination, which increases revenue, and therefore royalties, in absolute terms. Reinstatement of minima in the TCC prong introduces a failsafe to runaway TCC-based rates. The mechanical floors adopted in the Determination continue, protecting mechanical license rightsholders from runaway performance royalties.

The Benchmark Dissent maintains that all these goals could be met equally well with a streamlined, transparent, fair, and reasonable rate structure, as several of the participants in this proceeding advocated.

[254] Tellingly, on remand, the Services did not pursue any argument that the changes in the rates or rate structure in the Determination were disruptive.

[255] The D.C. Circuit found that the Majority articulated a reasoned and reasonable rejection of the negotiated rates applicable to the categories of phonorecords included in [FORMER] subpart A of the regulations as a benchmark in this proceeding. The issue on remand is articulation of a reason for not using the other subparts of 37 CFR part 385 as a benchmark in this proceeding. *See Johnson* at 386.

III. Conclusion

This Dissent in part is issued as a RESTRICTED document. Within 30 days of the date of issuance, the participants shall file a version of this Dissent with agreed redactions to permit viewing by the public.

Issue Date: July 1, 2022.

Suzanne M. Barnett

Chief Copyright Royalty Judge

List of Subjects in 37 CFR Part 385

Copyright, Phonorecords, Recordings.

For the reasons set forth in the preamble, the Copyright Royalty Judges amend 37 CFR part 385 as follows.

PART 385—RATES AND TERMS FOR USE OF NONDRAMATIC MUSICAL WORKS IN THE MAKING AND DISTRIBUTING OF PHYSICAL AND DIGITAL PHONORECORDS

■ 1. The authority citation for part 385 continues to read as follows:

Authority: 17 U.S.C. 115, 801(b)(1), 804(b)(4).

■ 2. Add appendix A to read as follows:

Appendix A to Part 385—Part 385 Applicable to the Period January 1, 2018, through December 31, 2022, as clarified on August 10, 2023

Note: Cross-references to part 385 in this appendix are to those provisions as contained within this appendix.

PART 385—RATES AND TERMS FOR USE OF MUSICAL WORKS UNDER COMPULSORY LICENSE FOR MAKING AND DISTRIBUTING PHYSICAL AND DIGITAL PHONORECORDS

Subpart A—Regulations of General Application

Subpart B—Physical Phonorecord Deliveries, Permanent Downloads, Ringtones, and Music Bundles

Subpart C—Eligible Interactive Streaming, Eligible Limited Downloads, Limited Offerings, Mixed Service Bundles, Bundled Subscription Offerings, Locker Services, and Other Delivery Configurations

Subpart D—Promotional Offerings, Free Trial Offerings and Certain Purchased Content Locker Services

Subpart A—Regulations of General Application

§ 385.1 General.

(a) *Scope.* This part establishes rates and terms of royalty payments for the use of nondramatic musical works in making and distributing of physical and digital phonorecords in accordance with the provisions of 17 U.S.C. 115. This subpart contains regulations of general application to the making and distributing of phonorecords subject to the license under 17 U.S.C. 115 (section 115 license).

(b) *Legal compliance.* Licensees relying on the compulsory license detailed in 17 U.S.C. 115 shall comply with the requirements of that section, the rates and terms of this part, and any other applicable regulations. This part describes rates and terms for the compulsory license only.

(c) *Interpretation.* This part is intended only to set rates and terms for situations in which the exclusive rights of a Copyright Owner are implicated and a compulsory license pursuant to 17 U.S.C. 115 is obtained. Neither this part nor the act of obtaining a license under 17 U.S.C. 115 is intended to express or imply any conclusion as to the circumstances in which a user must obtain a compulsory license pursuant to 17 U.S.C. 115.

(d) *Relationship to voluntary agreements.* The rates and terms of any license agreements entered into by Copyright Owners and Licensees relating to use of musical works within the scope of those license agreements shall apply in lieu of the rates and terms of this part.

§ 385.2 Definitions.

For the purposes of this part, the following definitions apply:

Accounting Period means the monthly period specified in 17 U.S.C. 115(c)(2)(I) and (d)(4)(A)(i), and any related regulations in this chapter, as applicable.

Active Subscriber means an End User of a Bundled Subscription Offering who has made at least one Play during the Accounting Period.

Affiliate means an entity controlling, controlled by, or under common control with another entity, except that an affiliate of a Sound Recording Company shall not include a Copyright Owner to the extent it is engaging in business as to musical works.

Bundled Subscription Offering means a Subscription Offering providing Licensed Activity consisting of Eligible Interactive Streams or Eligible Limited Downloads that is made available to End Users with one or more other products or services (including products or services subject to other subparts) as part of a single transaction without pricing for the subscription service providing Licensed Activity separate from the product(s) or service(s) with which it is made available (*e.g.,* a case in which a user can buy a portable device and one-year access to a subscription service providing Licensed Activity for a single price).

Copyright Owner(s) are nondramatic musical works copyright owners who are entitled to royalty payments made under this part pursuant to the compulsory license under 17 U.S.C. 115.

Digital Phonorecord Delivery has the same meaning as in 17 U.S.C. 115(e)(10).

Eligible Interactive Stream means a Stream in which the performance of the sound recording is not exempt from the sound recording performance royalty under 17 U.S.C. 114(d)(1) and does not in itself, or as a result of a program in which it is included, qualify for statutory licensing under 17 U.S.C. 114(d)(2).

Eligible Limited Download means a Limited Download as defined in 17 U.S.C. 115(e)(16) that is only accessible for listening for—

(1) An amount of time not to exceed one month from the time of the transmission (unless the Licensee, in lieu of retransmitting the same sound recording as another Eligible Limited Download, separately, and upon specific request of the End User made through a live network connection, reauthorizes use for another time period not to exceed one month), or in the case of a subscription plan, a period of time following the end of the applicable subscription no longer than a subscription renewal period or three months, whichever is shorter; or

(2) A number of times not to exceed 12 (unless the Licensee, in lieu of retransmitting the same sound recording as another Eligible Limited Download, separately, and upon specific request of the End User made through a live network connection, reauthorizes use of another series of 12 or fewer plays), or in the case of a subscription transmission, 12 times after the end of the applicable subscription.

End User means each unique person that:

(1) Pays a subscription fee for an Offering during the relevant Accounting Period; or

(2) Makes at least one Play during the relevant Accounting Period.

Family Plan means a discounted Subscription Offering to be shared by two or more family members for a single subscription price.

Free Trial Offering means a subscription to a Service Provider's transmissions of sound recordings embodying musical works when:

(1) Neither the Service Provider, the Sound Recording Company, the Copyright Owner, nor any person or entity acting on behalf of or in lieu of any of them receives any monetary consideration for the Offering;

(2) The free usage does not exceed 30 consecutive days per subscriber per two-year period;

(3) In connection with the Offering, the Service Provider is operating with appropriate musical license authority and complies with the recordkeeping requirements in § 385.4;

(4) Upon receipt by the Service Provider of written notice from the Copyright Owner or its agent stating in good faith that the Service Provider is in a material manner operating without appropriate license authority from the Copyright Owner under 17 U.S.C. 115, the Service Provider shall within 5 business days cease transmission of the sound recording embodying that musical work and withdraw it from the repertoire available as part of a Free Trial Offering;

(5) The Free Trial Offering is made available to the End User free of any charge; and

(6) The Service Provider offers the End User periodically during the free usage an opportunity to subscribe to a non-Free Trial Offering of the Service Provider.

GAAP means U.S. Generally Accepted Accounting Principles in effect at the relevant time, except that if the U.S. Securities and Exchange Commission permits or requires entities with securities that are publicly traded in the U.S. to employ International Financial Reporting Standards in lieu of Generally Accepted Accounting Principles, then that entity may employ International Financial Reporting Standards as ''GAAP'' for purposes of this subpart.

Licensee means any entity availing itself of the compulsory license under 17 U.S.C. 115 to use copyrighted musical works in the making or distributing of physical or digital phonorecords.

Licensed Activity, as the term is used in subpart B of this part, means delivery of musical works, under voluntary or statutory license, via physical phonorecords and Digital Phonorecord Deliveries in connection with Permanent Downloads, Ringtones, and Music Bundles; and, as the term is used in subparts C and D of this part, means delivery of musical works, under voluntary or statutory license, via Digital Phonorecord Deliveries in connection with Eligible Interactive Streams, Eligible Limited Downloads, Limited Offerings, mixed Bundles, and Locker Services.

Limited Offering means a Subscription Offering providing Eligible Interactive Streams or Eligible Limited Downloads for which—

(1) An End User cannot choose to listen to a particular sound recording (*i.e.,* the Service Provider does not provide Eligible Interactive Streams of individual recordings that are on-demand, and Eligible Limited Downloads are rendered only as part of programs rather than as individual recordings that are on-demand); or

(2) The particular sound recordings available to the End User over a period of time are substantially limited relative to Service Providers in the marketplace providing access to a comprehensive catalog of recordings (*e.g.,* a product limited to a particular genre or permitting Eligible Interactive Streams only from a monthly playlist consisting of a limited set of recordings).

Locker Service means an Offering providing digital access to sound recordings of musical works in the form of Eligible Interactive Streams, Permanent Downloads, Restricted Downloads or Ringtones where the Service Provider has reasonably determined that the End User has purchased or is otherwise in possession of the subject phonorecords of the applicable sound recording prior to the End User's first request to use the sound recording via the Locker Service. The term *Locker Service* does not mean any part of a Service Provider's products otherwise meeting this definition, but as to which the Service Provider has not obtained a section 115 license.

Mixed Service Bundle means one or more of Permanent Downloads, Ringtones, Locker Services, or Limited Offerings a Service Provider delivers to End Users together with one or more non-music services (*e.g.,* internet access service, mobile phone service) or non-music products (*e.g.,* a telephone device) of more than token value and provided to users as part of one transaction without pricing for the music services or music products separate from the whole Offering.

Music Bundle means two or more of physical phonorecords, Permanent Downloads, or Ringtones delivered as part of one transaction (*e.g.,* download plus ringtone, CD plus downloads). In the case of Music Bundles containing one or more physical phonorecords, the Service Provider must sell the physical phonorecord component of the Music Bundle under a single catalog number, and the musical works embodied in the Digital Phonorecord Delivery configurations in the Music Bundle must be the same as, or a subset of, the musical works embodied in the physical phonorecords; provided that when the Music Bundle contains a set of Digital Phonorecord Deliveries sold by the same Sound Recording Company under substantially the same title as the physical phonorecord (*e.g.,* a corresponding digital album), the Service Provider may include in the same bundle up to 5 sound recordings of musical works that are included in the stand-alone version of the set of digital phonorecord deliveries but not included on the physical phonorecord. In addition, the Service Provider must permanently part with possession of the physical phonorecord or phonorecords it sells as part of the Music Bundle. In the case of Music Bundles composed solely of digital phonorecord deliveries, the number of digital phonorecord deliveries in either configuration cannot exceed 20, and the musical works embodied in each configuration in the Music Bundle must be the same as, or a subset of, the musical works embodied in the configuration containing the most musical works.

Offering means a Service Provider's engagement in Licensed Activity covered by subparts C and D of this part.

Paid Locker Service means a Locker Service for which the End User pays a fee to the Service Provider.

Performance Royalty means the license fee payable for the right to perform publicly musical works in any of the forms covered by subparts C and D this part.

Permanent Download has the same meaning as in 17 U.S.C. 115(e)(24).

Play means an Eligible Interactive Stream, or a play of an Eligible Limited Download, lasting 30 seconds or more and, if a track lasts in its entirety under 30 seconds, an Eligible Interactive Stream or a play of an Eligible Limited Download of the entire duration of the track. A Play excludes an Eligible Interactive Stream or a play of an Eligible Limited Download that has not been initiated or requested by a human user. If a single End User plays the same track more than 50 straight times, all plays after play 50 shall be deemed not to have been initiated or requested by a human user.

Promotional Offering means a digital transmission of a sound recording, in the form of an Eligible Interactive Stream or an Eligible Limited Download, embodying a musical work, the primary purpose of which is to promote the sale or other paid use of that sound recording or to promote the artist performing on that sound recording and not to promote or suggest promotion or endorsement of any other good or service and:

(1) A Sound Recording Company is lawfully distributing the sound recording through established retail channels or, if the sound recording is not yet released, the Sound Recording Company has a good faith intention to lawfully distribute the sound recording or a different version of the sound recording embodying the same musical work;

(2) For Eligible Interactive Streams or Eligible Limited Downloads, the Sound Recording Company requires a writing signed by an authorized representative of the Service Provider representing that the Service Provider is operating with appropriate musical works license authority and that the Service Provider is in compliance with the recordkeeping requirements of § 385.4;

(3) For Eligible Interactive Streams of segments of sound recordings not exceeding 90 seconds, the Sound Recording Company delivers or authorizes delivery of the segments for promotional purposes and neither the Service Provider nor the Sound Recording Company creates or uses a segment of a sound recording in violation of 17 U.S.C. 106(2) or 115(a)(2);

(4) The Promotional Offering is made available to an End User free of any charge; and

(5) The Service Provider provides to the End User at the same time as the Promotional Offering Stream an opportunity to purchase the sound recording or the Service Provider periodically offers End Users the opportunity to subscribe to a paid Offering of the Service Provider.

Purchased Content Locker Service means a Locker Service made available to End User purchasers of Permanent Downloads, Ringtones, or physical phonorecords at no incremental charge above the otherwise applicable purchase price of the Permanent Downloads, Ringtones, or physical phonorecords acquired from a qualifying seller. With a Purchased Content Locker Service, an End User may receive one or more additional phonorecords of the purchased sound recordings of musical works in the form of Permanent Downloads or Ringtones at the time of purchase, or subsequently have digital access to the purchased sound recordings of musical works in the form of Eligible Interactive Streams, additional Permanent Downloads, Restricted Downloads, or Ringtones.

(1) A qualifying seller for purposes of this definition is the entity operating the Service Provider, including Affiliates, predecessors, or successors in interest, or—

(i) In the case of Permanent Downloads or Ringtones, a seller having a legitimate connection to the locker service provider pursuant to one or more written agreements (including that the Purchased Content Locker Service and Permanent Downloads or Ringtones are offered through the same third party); or

(ii) In the case of physical phonorecords:

(A) The seller of the physical phonorecord has an agreement with the Purchased Content Locker Service provider establishing an integrated offer that creates a consumer experience commensurate with having the same Service Provider both sell the physical phonorecord and offer the integrated locker service; or

(B) The Service Provider has an agreement with the entity offering the Purchased Content Locker Service establishing an integrated offer that creates a consumer experience commensurate with having the same Service Provider both sell the physical phonorecord and offer the integrated locker service.

(2) [Reserved]

Relevant Page means an electronic display (for example, a web page or screen) from which a Service Provider's Offering consisting of Eligible Interactive Streams or Eligible Limited Downloads is directly available to End Users, but only when the Offering and content directly relating to the Offering (*e.g.,* an image of the artist, information about the artist or album, reviews, credits, and music player controls) comprises 75% or more of the space on that display, excluding any space occupied by advertising. An Offering is directly available to End Users from a page if End Users can receive sound recordings of musical works (in most cases this will be the page on which the Eligible Limited Download or Eligible Interactive Stream takes place).

Restricted Download means a Digital Phonorecord Delivery in a form that cannot be retained and replayed on a permanent basis. The term Restricted Download includes an Eligible Limited Download.

Ringtone means a phonorecord of a part of a musical work distributed as a Digital Phonorecord Delivery in a format to be made resident on a telecommunications device for use to announce the reception of an incoming telephone call or other communication or message or to alert the receiver to the fact that there is a communication or message.

Service Provider means that entity governed by subparts C and D of this part, which might or might not be the Licensee, that with respect to the section 115 license:

(1) Contracts with or has a direct relationship with End Users or otherwise controls the content made available to End Users;

(2) Is able to report fully on Service Provider Revenue from the provision of musical works embodied in phonorecords to the public, and to the extent applicable, verify Service Provider Revenue through an audit; and

(3) Is able to report fully on its usage of musical works, or procure such reporting and, to the extent applicable, verify usage through an audit.

Service Provider Revenue, as used in this part:

(1) Subject to paragraphs (2) through (5) of this definition and subject to GAAP, *Service Provider Revenue* shall mean:

(i) All revenue from End Users recognized by a Service Provider for the provision of any Offering;

(ii) All revenue recognized by a Service Provider by way of sponsorship and commissions as a result of the inclusion of third-party ''in-stream'' or ''in-download'' advertising as part of any Offering, *i.e.,* advertising placed immediately at the start or end of, or during the actual delivery of, a musical work, by way of Eligible Interactive Streaming or Eligible Limited Downloads; and

(iii) All revenue recognized by the Service Provider, including by way of sponsorship and commissions, as a result of the placement of third-party advertising on a Relevant Page of the Service Provider or on any page that directly follows a Relevant Page leading up to and including the Eligible Limited Download or Eligible Interactive Stream of a musical work; provided that, in case more than one Offering is available to End Users from a Relevant Page, any advertising revenue shall be allocated between or among the Service Providers on the basis of the relative amounts of the page they occupy.

(2) Service Provider Revenue shall:

(i) Include revenue recognized by the Service Provider, or by any associate, Affiliate, agent, or representative of the Service Provider in lieu of its being recognized by the Service Provider; and

(ii) Include the value of any barter or other nonmonetary consideration; and

(iii) Except as expressly detailed in this part, not be subject to any other deduction or set-off other than refunds to End Users for Offerings that the End Users were unable to use because of technical faults in the Offering or other bona fide refunds or credits issued to End Users in the ordinary course of business.

(3) Service Provider Revenue shall exclude revenue derived by the Service Provider solely in connection with activities other than Offering(s), whereas advertising or sponsorship revenue derived in connection with any Offering(s) shall be treated as provided in paragraphs (2) and (4) of this definition.

(4) For purposes of paragraph (1) of this definition, advertising or sponsorship revenue shall be reduced by the actual cost of obtaining that revenue, not to exceed 15%.

(5) In instances in which a Service Provider provides an Offering to End Users as part of the same transaction with one or more other products or services that are not Licensed Activities, then the revenue from End Users deemed to be recognized by the Service Provider for the Offering for the purpose of paragraph (1) of this definition shall be the revenue recognized from End Users for the bundle less the standalone published price for End Users for each of the other component(s) of the bundle; provided that, if there is no standalone published price for a component of the bundle, then the Service Provider shall use the average standalone published price for End Users for the most closely comparable product or service in the U.S. or, if more than one comparable exists, the average of standalone prices for comparables.

(6) In the case of a Mixed Service Bundle, the revenue deemed to be recognized from End Users for the Offering for the purpose of paragraph (1) of this definition shall be the greater of—

(i) The revenue deemed to be recognized pursuant to paragraph (5) of this definition; and

(ii) Either—

(A) In the case of a Mixed Service Bundle that either has 750,000 subscribers or other registered users, or is reasonably expected to have 750,000 subscribers or other registered users within 1 year after commencement of the Mixed Service Bundle, 40% of the standalone published price of the licensed music component of the bundle (*i.e.,* the Permanent Downloads, Ringtones, Locker Service, or Limited Offering); provided that, if there is no such standalone published price for the licensed music component of the bundle, then the average standalone published price for End Users for the most closely comparable licensed music component in the U.S. shall be used or, if more than one such comparable exists, the average of such standalone prices for such comparables shall be used; and further provided that in any case in which royalties were paid based on this paragraph (6)(ii)(A) due to a reasonable expectation of reaching 750,000 subscribers or other registered users within 1 year after commencement of the Mixed Service Bundle and that does not actually happen, applicable payments shall, in the accounting period next following the end of such 1-year period, retroactively be adjusted as if paragraph (6)(ii)(B) of this definition applied; or

(B) Otherwise, 50% of the standalone published price of the licensed music component of the bundle (*i.e.,* the Permanent Downloads, Ringtones, Locker Service, or Limited Offering); provided that, if there is no such standalone published price for the licensed music component of the bundle, then the average standalone published price for End Users for the most closely comparable licensed music component in the U.S. shall be used or, if more than one such comparable exists, the average of such standalone prices for such comparables shall be used.

Sound Recording Company means a person or entity that:

(1) Is a copyright owner of a sound recording embodying a musical work;

(2) In the case of a sound recording of a musical work fixed before February 15, 1972, has rights to the sound recording, under 17 U.S.C. chapter 14, that are equivalent to the rights of a copyright owner of a sound recording of a musical work under title 17, United States Code;

(3) Is an exclusive Licensee of the rights to reproduce and distribute a sound recording of a musical work; or

(4) Performs the functions of marketing and authorizing the distribution of a sound recording of a musical work under its own label, under the authority of the Copyright Owner of the sound recording.

Standalone Non-Portable Subscription Offering—Mixed means a Subscription Offering through which an End User can listen to sound recordings either in the form of Eligible Interactive Streams or Eligible Limited Downloads but only from a non-portable device to which those Eligible Interactive Streams or Eligible Limited Downloads are originally transmitted.

Standalone Non-Portable Subscription Offering—Streaming Only means a Subscription Offering through which an End User can listen to sound recordings only in the form of Eligible Interactive Streams and only from a non-portable device to which those Eligible Interactive Streams are originally transmitted while the device has a live network connection.

Standalone Portable Subscription Offering means a Subscription Offering through which an End User can listen to sound recordings in the form of Eligible Interactive Streams or Eligible Limited Downloads from a portable device.

Stream means the digital transmission of a sound recording of a musical work to an End User—

(1) To allow the End User to listen to the sound recording, while maintaining a live network connection to the transmitting service, substantially at the time of transmission, except to the extent that the sound recording remains accessible for future listening from a Streaming Cache Reproduction;

(2) Using technology that is designed such that the sound recording does not remain accessible for future listening, except to the extent that the sound recording remains accessible for future listening from a Streaming Cache Reproduction; and

(3) That is subject to licensing as a public performance of the musical work.

Streaming Cache Reproduction means a reproduction of a sound recording embodying a musical work made on a computer or other receiving device by a Service Provider solely for the purpose of permitting an End User who has previously received a Stream of that sound recording to play the sound recording again from local storage on the computer or other device rather than by means of a transmission; provided that the End User is only able to do so while maintaining a live network connection to the Service Provider, and the reproduction is encrypted or otherwise protected consistent with prevailing industry standards to prevent it from being played in any other manner or on any device other than the computer or other device on which it was originally made.

Student Plan means a discounted Subscription Offering available on a limited basis to students.

*Subscription Offering m*eans an Offering for which End Users are required to pay a fee to have access to the Offering for defined subscription periods of 3 years or less (in contrast to, for example, a service where the basic charge to users is a payment per download or per play), whether the End User makes payment for access to the Offering on a standalone basis or as part of a bundle with one or more other products or services.

Total Cost of Content or *TCC* means the total amount expensed by a Service Provider or any of its Affiliates in accordance with GAAP for rights to make Eligible Interactive Streams or Eligible Limited Downloads of a musical work embodied in a sound recording through the Service Provider for the Accounting Period, which amount shall equal the Applicable Consideration for those rights at the time the Applicable Consideration is properly recognized as an expense under GAAP. As used in this definition, *Applicable Consideration* means anything of value given for the identified rights to undertake the Licensed Activity, including, without limitation, ownership equity, monetary advances, barter or any other monetary and/or nonmonetary consideration, whether that consideration is conveyed via a single agreement, multiple agreements and/or agreements that do not themselves authorize the Licensed Activity but nevertheless provide consideration for the identified rights to undertake the Licensed Activity, and including any value given to an Affiliate of a Sound Recording Company for the rights to undertake the Licensed Activity. Value given to a Copyright Owner of musical works that is controlling, controlled by, or under common control with a Sound Recording Company for rights to undertake the Licensed Activity shall not be considered value given to the Sound Recording Company. Notwithstanding the foregoing, Applicable Consideration shall not include in-kind promotional consideration given to a Sound Recording Company (or Affiliate thereof) that is used to promote the sale or paid use of sound recordings embodying musical works or the paid use of music services through which sound recordings embodying musical works are available where the in-kind promotional consideration is given in connection with a use that qualifies for licensing under 17 U.S.C. 115.

§ 385.3 Late payments.

A Licensee shall pay a late fee of 1.5% per month, or the highest lawful rate, whichever is lower, for any payment owed to a Copyright Owner and remaining unpaid after the due date established in 17 U.S.C. 115(c)(2)(I) or (d)(4)(A)(i), as applicable and detailed in part 210 of this title. Late fees shall accrue from the due date until the Copyright Owner receives payment, except that where payment is due to the mechanical licensing collective under 17 U.S.C. 115(d)(4)(A)(i), late fees shall accrue from the due date until the mechanical licensing collective receives payment.

§ 385.4 Recordkeeping for promotional or free trial non-royalty-bearing uses.

(a) *General.* A Licensee transmitting a sound recording embodying a musical work subject to section 115 and subparts C and D of this part and claiming a Promotional Offering or Free Trial Offering zero royalty rate shall keep complete and accurate contemporaneous written records of making or authorizing Eligible Interactive Streams or Eligible Limited Downloads, including the sound recordings and musical works involved, the artists, the release dates of the sound recordings, a brief statement of the promotional activities authorized, the identity of the Offering or Offerings for which the zero-rate is authorized (including the internet address if applicable), and the beginning and end date of each zero rate Offering.

(b) *Retention of records.* A Service Provider claiming zero rates shall maintain the records required by this section for no less time than the Service Provider maintains records of royalty-bearing uses involving the same types of Offerings in the ordinary course of business, but in no event for fewer than five years from the conclusion of the zero rate Offerings to which they pertain.

(c) *Availability of records.* If a Copyright Owner or agent requests information concerning zero rate Offerings, the Licensee shall respond to the request within an agreed, reasonable time.

Subpart B—Physical Phonorecord Deliveries, Permanent Downloads, Ringtones, and Music Bundles

§ 385.10 Scope.

This subpart establishes rates and terms of royalty payments for making and distributing phonorecords, including by means of Digital Phonorecord Deliveries, in accordance with the provisions of 17 U.S.C. 115.

§ 385.11 Royalty rates.

(a) *Physical phonorecord deliveries and Permanent Downloads.* For every physical phonorecord and Permanent Download the Licensee makes and distributes or authorizes to be made and distributed, the royalty rate payable for each work embodied in the phonorecord or Permanent Download shall be either 9.1 cents or 1.75 cents per minute of playing time or fraction thereof, whichever amount is larger.

(b) *Ringtones.* For every Ringtone the Licensee makes and distributes or authorizes to be made and distributed, the royalty rate payable for each work embodied therein shall be 24 cents.

(c) *Music Bundles.* For a Music Bundle, the royalty rate for each element of the Music Bundle shall be the rate required under paragraph (a) or (b) of this section, as appropriate.

Subpart C—Eligible Interactive Streaming, Eligible Limited Downloads, Limited Offerings, Mixed Service Bundles, Bundled Subscription Offerings, Locker Services, and Other Delivery Configurations

§ 385.20 Scope.

This subpart establishes rates and terms of royalty payments for Eligible Interactive Streams and Eligible Limited Downloads of musical works, and other reproductions or distributions of musical works through Limited Offerings, Mixed Service Bundles, Bundled Subscription Offerings, Paid Locker Services, and Purchased Content Locker Services provided through subscription and nonsubscription digital music Service Providers in accordance with the provisions of 17 U.S.C. 115, exclusive of Offerings subject to subpart D of this part.

§ 385.21 Royalty rates and calculations.

(a) *Applicable royalty.* Licensees that engage in Licensed Activity covered by this subpart pursuant to 17 U.S.C. 115 shall pay royalties therefor that are calculated as provided in this section, subject to the royalty floors for specific types of services

described in § 385.22, provided, however, that Promotional Offerings, Free Trial Offerings, and certain Purchased Content Locker Services shall instead be subject to the royalty rates provided in subpart D of this part.

(b) *Rate calculation.* Royalty payments for Licensed Activity in this subpart shall be calculated as provided in this paragraph (b). If a Service Provider includes different Offerings, royalties must be calculated separately with respect to each Offering taking into consideration Service Provider Revenue and expenses associated with each Offering.

(1) *Step 1: Calculate the all-in royalty for the Offering.* For each Accounting Period, the all-in royalty for each Offering under this subpart shall be the greater of the applicable percent of Service Provider Revenue, as set forth in table 1 to this paragraph (b)(1), and the result of the TCC Prong Calculation for the respective type of Offering, as set forth in table 2 to this paragraph (b)(1):

TABLE 1 TO PARAGRAPH (b)(1)

Royalty year	2018	2019	2020	2021	2022
Percent of Service Provider Revenue	11.4	12.3	13.3	14.2	15.1

TABLE 2 TO PARAGRAPH (b)(1)

Type of offering	TCC prong calculation
Standalone Non-Portable Subscription Offering—Streaming Only	The lesser of 22% of TCC for the Accounting Period and 50 cents per subscriber per month.
Standalone Non-Portable Subscription Offering—Mixed	The lesser of 21% of TCC for the Accounting Period and 50 cents per subscriber per month.
Standalone Portable Subscription Offering	The lesser of 21% of TCC for the Accounting Period and 80 cents per subscriber per month.
Bundled Subscription Offering	21% of TCC for the Accounting Period.
Free nonsubscription/ad-supported services free of any charge to the End User.	22% of TCC for the Accounting Period.
Mixed Service Bundle	21% of TCC for the Accounting Period.
Purchased Content Locker Service	22% of TCC for the Accounting Period.
Limited Offering	21% of TCC for the Accounting Period.
Paid Locker Service	20.65% of TCC for the Accounting Period.

(2) *Step 2: Subtract applicable Performance Royalties.* From the amount determined in step 1 in paragraph (b)(1) of this section, for each Offering of the Service Provider, subtract the total amount of Performance Royalty that the Service Provider has expensed or will expense pursuant to public performance licenses in connection with uses of musical works through that Offering during the Accounting Period that constitute Licensed Activity. Although this amount may be the total of the Service Provider's payments for that Offering for the Accounting Period, it will be less than the total of the Performance Royalties if the Service Provider is also engaging in public performance of musical works that does not constitute Licensed Activity. In the case in which the Service Provider is also engaging in the public performance of musical works that does not constitute Licensed Activity, the amount to be subtracted for Performance Royalties shall be the amount allocable to Licensed Activity uses through the relevant Offering as determined in relation to all uses of musical works for which the Service Provider pays Performance Royalties for the Accounting Period. The Service Provider shall make this allocation on the basis of Plays of musical works or, where per-play information is unavailable because of bona fide technical limitations as described in step 4 in paragraph (b)(4) of this section, using the same alternative methodology as provided in step 4.

(3) *Step 3: Determine the payable royalty pool.* The payable royalty pool is the amount payable for the reproduction and distribution of all musical works used by the Service Provider by virtue of its Licensed Activity for a particular Offering during the Accounting Period. This amount is the greater of:

(i) The result determined in step 2 in paragraph (b)(2) of this section; and

(ii) The royalty floor (if any) resulting from the calculations described in § 385.22.

(4) *Step 4: Calculate the per-work royalty allocation.* This is the amount payable for the reproduction and distribution of each musical work used by the Service Provider by virtue of its Licensed Activity through a particular Offering during the Accounting Period. To determine this amount, the result determined in step 3 in paragraph (b)(3) of this section must be allocated to each musical work used through the Offering. The allocation shall be accomplished by dividing the payable royalty pool determined in step 3 for the Offering by the total number of Plays of all musical works through the Offering during the Accounting Period (other than Plays subject to subpart D of this part) to yield a per-Play allocation, and multiplying that result by the number of Plays of each musical work (other than Plays subject to subpart D of this part) through the Offering during the Accounting Period. For purposes of determining the per-work royalty allocation in all calculations under this paragraph (b)(4) only (*i.e.,* after the payable royalty pool has been determined), for sound recordings of musical works with a playing time of over 5 minutes, each Play shall be counted as provided in paragraph (c) of this section. Notwithstanding the foregoing, if the Service Provider is not capable of tracking Play information because of bona fide limitations of the available technology for Offerings of that nature or of devices useable with the Offering, the per-work royalty allocation may instead be accomplished in a manner consistent with the methodology used for making royalty payment allocations for the use of individual sound recordings.

(c) *Overtime adjustment.* For purposes of the calculations in step 4 in paragraph (b)(4) of this section only, for sound recordings of musical works with a playing time of over 5 minutes, adjust the number of Plays as follows:

(1) 5:01 to 6:00 minutes—Each Play = 1.2 Plays.

(2) 6:01 to 7:00 minutes—Each Play = 1.4 Plays.

(3) 7:01 to 8:00 minutes—Each Play = 1.6 Plays.

(4) 8:01 to 9:00 minutes—Each Play = 1.8 Plays.

(5) 9:01 to 10:00 minutes—Each Play = 2.0 Plays.

(6) For playing times of greater than 10 minutes, continue to add 0.2 Plays for each additional minute or fraction thereof.

(d) *Accounting.* The calculations required by paragraph (b) of this section shall be made in good faith and on the basis of the best knowledge, information, and belief at the time payment is due, and subject to the additional accounting and certification requirements of 17 U.S.C. 115(c)(2)(I) and (d)(4)(A)(i) and part 210 of this title. Without limitation, statements of account (where applicable) shall set forth each step of the calculations with sufficient information to allow the assessment of the accuracy and manner in which the payable royalty pool and per-play allocations (including information sufficient to demonstrate whether and how a royalty floor pursuant to § 385.22 does or does not apply) were

determined and, for each Offering reported, also indicate the type of Licensed Activity involved and the number of Plays of each musical work (including an indication of any overtime adjustment applied) that is the basis of the per-work royalty allocation being paid.

(e) *Computation of subscriber months in TCC Prong Calculation.* In connection with the TCC Prong Calculation in step 1 in paragraph (b)(1) of this section for an Accounting Period, to the extent applicable, the total number of subscriber-months for the Accounting Period shall be calculated, taking all End Users who were subscribers for complete calendar months, prorating in the case of End Users who were subscribers for only part of a calendar month, and deducting on a prorated basis for End Users covered by an Offering subject to subpart D of this part. The product of the total number of subscriber-months for the Accounting Period and the specified number of cents per subscriber shall be used as the subscriber-based component (if any) in step 1 for the Accounting Period.

§ 385.22 Royalty floors for specific types of Offerings.

(a) *In general.* The following royalty floors for use in step 3 of § 385.21(b)(3)(ii) shall apply to the respective types of Offerings.

(1) *Standalone Non-Portable Subscription Offering—Streaming Only.* Except as provided in paragraph (a)(4) of this section, in the case of a Subscription Offering through which an End User can listen to sound recordings only in the form of Eligible Interactive Streams and only from a non-portable device to which those Streams are originally transmitted while the device has a live network connection, the royalty floor is the aggregate amount of 15 cents per subscriber per month.

(2) *Standalone Non-Portable Subscription Offering—Mixed.* Except as provided in paragraph (a)(4) of this section, in the case of a Subscription Offering through which an End User can listen to sound recordings either in the form of Eligible Interactive Streams or Eligible Limited Downloads but only from a non-portable device to which those Streams or Eligible Limited Downloads are originally transmitted, the royalty floor is the aggregate amount of 30 cents per subscriber per month.

(3) *Standalone Portable Subscription Offering.* Except as provided in paragraph (a)(4) of this section, in the case of a Subscription Offering through which an End User can listen to sound recordings in the form of Eligible Interactive Streams or Eligible Limited Downloads from a portable device, the royalty floor is the aggregate amount of 50 cents per subscriber per month.

(4) *Bundled Subscription Offering.* In the case of a Bundled Subscription Offering, the royalty floor is the aggregate amount of 25 cents per month for each Active Subscriber.

(b) *Computation of royalty floors.* For purposes of paragraph (a) of this section, to determine the royalty floor, as applicable to any particular Offering, the total number of subscriber-months for the Accounting Period shall be calculated by taking all End Users who were subscribers for complete calendar months, prorating in the case of End Users who were subscribers for only part of a calendar month, and deducting on a prorated basis for End Users covered by an Offering subject to subpart D of this part, except in the case of a Bundled Subscription Offering, subscriber-months shall be determined with respect to Active Subscribers. The product of the total number of subscriber-months for the Accounting Period and the specified number of cents per subscriber (or Active Subscriber, as the case may be) shall be used as the subscriber-based component of the royalty floor for the Accounting Period. A Family Plan shall be treated as 1.5 subscribers per month, prorated in the case of a Family Plan subscription in effect for only part of a calendar month. A Student Plan shall be treated as 0.50 subscribers per month, prorated in the case of a Student Plan End User who subscribed for only part of a calendar month.

Subpart D—Promotional Offerings, Free Trial Offerings and Certain Purchased Content Locker Services

§ 385.30 Scope.

This subpart establishes rates and terms of royalty payments for Promotional Offerings, Free Trial Offerings, and certain Purchased Content Locker Services provided by subscription and nonsubscription digital music Service Providers in accordance with the provisions of 17 U.S.C. 115.

§ 385.31 Royalty rates.

(a) *Promotional Offerings.* For Promotional Offerings of audio-only Eligible Interactive Streams and Eligible Limited Downloads of sound recordings embodying musical works that the Sound Recording Company authorizes royalty-free to the Service Provider, the royalty rate is zero.

(b) *Free Trial Offerings.* For Free Trial Offerings for which the Service Provider receives no monetary consideration, the royalty rate is zero.

(c) *Certain Purchased Content Locker Services.* For every Purchased Content Locker Service for which the Service Provider receives no monetary consideration, the royalty rate is zero.

(d) *Unauthorized use.* If a Copyright Owner or agent of the Copyright Owner sends written notice to a Licensee stating in good faith that a particular Offering subject to this subpart differs in a material manner from the terms governing that Offering, the Licensee must within 5 business days cease Streaming or otherwise making available that Copyright Owner's musical works and shall withdraw from the identified Offering any End User's access to the subject musical work.

the law of the State of Delaware, with its office and principal place of business located at Englewood, Colorado; Liberty Media Corp. (''LMC''), a corporation organized, existing and doing business under and by virtue of the law of the State of Delaware, with its office and principal place of business located at Englewood, Colorado; and the Federal Trade Commission (''Commission''), an independent agency of the United States Government, established under the Federal Trade Commission Act of 1914, 15 U.S.C. 41 et seq.

Whereas Time Warner entered into an agreement with Turner for Time Warner to acquire the outstanding voting securities of Turner, and TCI and LMC proposed to acquire stock in Time Warner (hereinafter ''the Acquisition'');

Whereas the Commission is investigating the Acquisition to determine whether it would violate any statute enforced by the Commission;

Whereas TCI and LMC are willing to enter into an Agreement Containing Consent Order (hereafter ''Consent Order'') requiring them, inter alia, to divest TCI's and LMC's Interest in Time Warner and TCI's and LMC's Turner-Related Businesses, by contributing those interests to a separate corporation, The Separate Company, the stock of which will be distributed to the holders of Liberty Tracking Stock (''the Distribution''), but, in order to fulfill paragraph II(D) of that Consent Order, TCI and LMC must apply now to receive an Internal Revenue Service ruling as to whether the Distribution will be generally tax-free to both the Liberty Tracking Stock holders and to TCI under Section 355 of the Internal Revenue Code of 1986, as amended (''IRS Ruling'');

Whereas ''TCI's and LMC's Interest in Time Warner'' means all of the economic interest in Time Warner to be acquired by TCI and LMC, including the right of first refusal with respect to Time Warner stock to be held by R. E. Turner, III, pursuant to the Shareholders Agreement dated September 22, 1995 with LMC or any successor agreement;

Whereas ''TCI's and LMC's Turner-Related Businesses'' means the businesses conducted by Southern Satellite Systems, Inc., a subsidiary of TCI which is principally in the business of distributing WTBS to MVPDs;

Whereas ''Liberty Tracking Stock'' means Tele-Communications, Inc. Series A Liberty Media Group Common Stock and Tele-Communications, Inc. Series B Liberty Media Group Common Stock;

Whereas Time Warner, Turner, TCI, and LMC are willing to enter into a Consent Order requiring them, inter alia, to forego entering into certain new programming service agreements for a period of six months from the date that the parties close this Acquisition (''Closing Date''), but, in order to comply more fully with that requirement, they must cancel now the two agreements that were negotiated as part of this Acquisition: namely, (1) the September 15, 1995, program service agreement between TCI's subsidiary, Satellite Services, Inc. (''SSI''), and Turner and (2) the September 14, 1995, cable carriage agreement between SSI and Time Warner for WTBS (hereafter ''Two Programming Service Agreements'');

Whereas if the Commission accepts the attached Consent Order, the Commission is required to place the Consent Order on the public record for a period of at least sixty (60) days and may subsequently withdraw such acceptance pursuant to the provisions of Rule 2.34 of the Commission's Rules of Practice and Procedure, 16 C.F.R. 2.34;

Whereas the Commission is concerned that if the parties do not, before this order is made final, apply to the IRS for the IRS Ruling and cancel the Two Programming Service Agreements, compliance with the operative provisions of the Consent Order might not be possible or might produce a less than effective remedy;

Whereas Time Warner, Turner, TCI, and LMC's entering into this Agreement shall in no way be construed as an admission by them that the Acquisition is illegal;

Whereas Time Warner, Turner, TCI, and LMC understand that no act or transaction contemplated by this Agreement shall be deemed immune or exempt from the provisions of the antitrust laws or the Federal Trade Commission Act by reason of anything contained in this Agreement;

Now, therefore, upon understanding that the Commission has not yet determined whether the Acquisition will be challenged, and in consideration of the Commission's agreement that, unless the Commission determines to reject the Consent Order, it will not seek further relief from Time Warner, Turner, TCI, and LMC with respect to the Acquisition, except that the Commission may exercise any and all rights to enforce this Agreement and the Consent Order to which this Agreement is annexed and made a part thereof, the parties agree as follows:

1. Within thirty (30) days of the date the Commission accepts the attached Consent Order for public comment, TCI and LMC shall apply to the IRS for the IRS Ruling.

2. On or before the Closing Date, Time Warner, Turner and TCI shall cancel the Two Programming Service Agreements.

3. This Agreement shall be binding when approved by the Commission.

Analysis of Proposed Consent Order to Aid Public Comment

I. Introduction

The Federal Trade Commission has accepted for public comment from Time Warner Inc. (''Time Warner''), Turner Broadcasting System, Inc. (''Turner''), Tele-Communications, Inc. (''TCI''), and Liberty Media Corporation (''LMC'') (collectively ''the proposed respondents'') an Agreement Containing Consent Order (''the proposed consent order''). The Commission has also entered into an Interim Agreement that requires the proposed respondents to take specific action during the public comment period.

The proposed consent order is designed to remedy likely antitrust effects arising from Time Warner's acquisition of Turner as well as related transactions, including TCI's proposed ownership interest in Time Warner and long-term cable television programming service agreements between Time Warner and TCI for post-acquisition carriage by TCI of Turner programming.

II. Description of the Parties, the Acquisition and Related Transactions

Time Warner is a leading provider of cable networks and a leading distributor of cable television. Time Warner Entertainment (''TWE''), a partnership in which Time Warner holds the majority interest, owns HBO and Cinemax, two premium cable networks. Time Warner and Time Warner Cable, a subsidiary of TWE, are collectively the nation's second largest distributor of cable television and serve approximately 11.5 million cable subscribers or approximately 17 percent of U.S. cable television households.

Turner is a leading provider of cable networks. Turner owns the following ''marquee'' or ''crown jewel'' cable networks: Cable News Network (''CNN''), Turner Network Television (''TNT''), and TBS SuperStation (referred to as ''WTBS''). Turner also owns Headline News (''HLN''), Cartoon Network, Turner Classic Movies, CNN International USA and CNN Financial Network.

TCI is the nation's largest operator of cable television systems, serving approximately 27 percent of all U.S. cable television households. LMC, a subsidiary of TCI, is a leading provider of cable programming. TCI also owns interests in a large number of cable networks.

In September 1995, Time Warner and Turner entered into an agreement for Time Warner to acquire the approximately 80 percent of the outstanding shares in Turner that it does not already own. TCI and LMC have an approximately 24 percent existing interest in Turner. By trading their interest in Turner for an interest in Time Warner, TCI and LMC would acquire approximately a 7.5 percent interest in the fully diluted equity of Time Warner as well as the right of first refusal on the approximately 7.4 percent interest in Time Warner that R. E. Turner, III, chairman of Turner, would receive as a result of this acquisition. Although Time Warner has a 'poison pill' that would prevent TCI from acquiring more than a certain amount of stock without triggering adverse consequences, that poison pill would still allow TCI to acquire approximately 15 percent of the Fully Diluted Equity, and if the poison pill were to be altered or waived, TCI could acquire more than 15 percent of the fully diluted equity of Time Warner. Also in September 1995, Time Warner entered into two long-term mandatory carriage agreements referred to as the Programming Service Agreements (PSAs). Under the terms of these PSAs, TCI would be required, on virtually all of its cable television systems, to carry CNN, HLN, TNT and WTBS for a twenty-year period.

III. The Complaint

The draft complaint accompanying the proposed consent order and the Interim Agreement alleges that the acquisition, along with related transactions, would allow Time Warner unilaterally to raise the prices of cable television programming and would limit the ability of cable television systems that buy such programming to take responsive action to avoid such price increases. It would do so, according to the draft complaint, both through horizontal combination in the market for cable programming (in which Time Warner, after the acquisition, would control about 40% of the market) and through higher entry barriers into that market as a result of the vertical integration (by merger and contract) between Turner's programming interests and Time Warner's and TCI's cable distribution interests. The complaint alleges that TCI and Time Warner, respectively, operate the first and second largest cable television systems in the United States, reaching nearly half of all cable households; that Time Warner would gain the power to raise prices on its own and on Turner's programming unilaterally; that TCI's ownership interest in Time Warner and concurrent long term contractual obligations to carry Turner programming would undermine TCI's incentive to sign up better or less expensive non-Time Warner programming, preventing rivals to the combined Time Warner and Turner from achieving sufficient distribution to realize economies of scale and thereby to erode Time Warner's market power; that barriers to entry into programming and into downstream retail distribution markets would be raised; and that substantial increases in wholesale programming costs for both cable systems and alternative service providers—including direct broadcast satellite service and other forms of non-cable distribution—would lead to higher service prices and fewer entertainment and information sources for consumers.

The Commission has reason to believe that the acquisition and related transactions, if successful, may have anticompetitive effects and be in violation of Section 7 of the Clayton Act and Section 5 of the Federal Trade Commission Act.

IV. Terms of the Proposed Consent Order

The proposed consent order would resolve the alleged antitrust concerns by breaking down the entry barriers that would otherwise be erected by the transaction. It would do so by: (1) Requiring TCI to divest all of its ownership interests in Time Warner or, in the alternative, capping TCI's ownership of Time Warner stock and denying TCI and its controlling shareholders the right to vote any such Time Warner stock; (2) canceling the PSAs; (3) prohibiting Time Warner from bundling Time Warner's HBO with any Turner networks and prohibiting the bundling of Turner's CNN, TNT, and WTBS with any Time Warner networks; (4) prohibiting Time Warner from discriminating against rival Multichannel Video Programming Distributors (''MVPDs'') in the provision of Turner programming; (5) prohibiting Time Warner from foreclosing rival programmers from access to Time Warner's distribution; and (6) requiring Time Warner to carry a 24-hour all news channel that would compete with Turner's CNN. The following sections discuss the primary provisions of the proposed consent order in more detail.

A. TCI Will Divest Its Interest in Time Warner or Accept a Capped Nonvoting Interest. The divestiture provision of the proposed consent order (Paragraph II) requires TCI and LMC to divest their collective ownership of approximately 7.5 percent of the fully diluted shares in Time Warner - the amount they will obtain from Time Warner in exchange for their 24 percent ownership interest in Turner—to a different company (''The Separate Company'') that will be spun off by TCI and LMC. The stock of The Separate Company would be distributed to all of the shareholders of TCI's LMC subsidiary. Because that stock would be freely tradeable on an exchange, the ownership of The Separate Company would diverge over time from the ownership of the Liberty Media Tracking Stock (and would, at the outset, be different from the ownership of TCI). TCI would therefore breach its fiduciary duty to its shareholders if it forestalled programming entry that could benefit TCI as a cable system operator in order to benefit Time Warner's interests as a programmer.

In addition to the divestiture provisions ensuring that TCI will have no incentive to forgo its own best interests in order to favor those of Time Warner, the proposed consent order contains provisions to ensure that the transaction will not leave TCI or its management in a position to influence Time Warner to alter its own conduct in order to benefit TCI's interests. Absent restrictions in the consent order, the TCI Control Shareholders (John C. Malone, Bob Magness, and Kearns-Tribune Corporation) would have a controlling share of the voting power of The Separate Company. To prevent those shareholders from having significant influence over Time Warner's conduct, the proposed consent order contains the following provisions that will wall off the TCI Control Shareholders from influencing the officers, directors, and employees of The Separate Company and its day-to-day operations:

- The Commission must approve the initial board of directors of The Separate Company;
- Within six months of the distribution of The Separate Company's stock, the stockholders (excluding the TCI Control Shareholders) of The Separate Company must elect new directors;
- Members of the board of directors of The Separate Company are prohibited from serving as officers, directors, or employees of TCI or LMC, or holding or controlling greater than one-tenth of one percent (0.1%) of the ownership in or voting power of TCI or LMC;
- Officers, directors or employees of TCI or LMC are prohibited from concurrently serving as officers, directors, or employees of The Separate Company, with a narrow exception so that TCI or LMC employees may provide limited operational services to The Separate Company;

• The TCI Control Shareholders are prohibited from voting (other than a de minimis voting share necessary for tax purposes) any stock of The Separate Company to elect the board of directors or on other matters. There are limited exceptions for voting on major issues such as a proposed merger or sale of The Separate Company, the disposition of all or substantially all of The Separate Company's assets, the dissolution of The Separate Company, or proposed changes in the corporate charter or bylaw of The Separate Company. However, no vote on any of these excepted issues would be successful unless a majority of shareholders other than the TCI Control Shareholders vote in favor of such proposal;

• The TCI Control Shareholders are prohibited from seeking to influence, or attempting to control by proxy or otherwise, any other person's vote of The Separate Company's stock;

• Officers, directors, and employees of TCI or LMC, or any of the TCI Control Shareholders are prohibited from communicating with any officer, director, or employee of The Separate Company except on the limited matters on which they are permitted to vote. Further restrictions require that, in order for a TCI Control Shareholder to seek to initiate action on an issue on which they are entitled to vote, they must do so in writing;

• The Separate Company is prohibited from acquiring more than 14.99% of the fully diluted equity shares of Time Warner, with exceptions in the event that the TCI Control Shareholders sell their stock in The Separate Company or in TCI and LMC; and

• The Separate Company is prohibited from voting its shares (other than a de minimis voting share necessary for tax purposes) in Time Warner, except that such shares can become voting if The Separate Company sells them to an Independent Third Party or in the event that the TCI Control Shareholders sell their stock in The Separate Company or in TCI and LMC.

The Commission has reason to believe that the divestiture of TCI's and LMC's interest in Time Warner to The Separate Company is in the public interest. The required divestiture of the Time Warner stock by TCI and LMC and the ancillary restrictions outlined above are beneficial to consumers because (1) they would restore TCI's otherwise diminished incentives to carry cable programming that would compete with Time Warner's cable programming; and (2) they would eliminate TCI's and LMC's ability to influence the operations of Time Warner.

The proposed consent order also requires TCI and LMC to apply to the Internal Revenue Service (''IRS'') for a ruling that the divestiture of TCI's and LMC's interest in Time Warner to The Separate Company would be generally tax-free. Upon receipt of the IRS Ruling, TCI and LMC has thirty days to transfer its Time Warner stock to The Separate Company. After TCI and LMC divest this interest in Time Warner to The Separate Company, TCI, LMC, Magness and Malone are prohibited from acquiring any stock in Time Warner, above a collective de minimis nonvoting amount, without the prior approval of the Commission.

Pending the ruling by the IRS, or in the event that the TCI and LMC are unable to obtain such an IRS ruling, (1) TCI, LMC, John C. Malone and Bob Magness, collectively and individually, are capped at level no more than the lesser of 9.2 percent of the fully diluted equity of Time Warner or 12.4% of the actual issued and outstanding common stock of Time Warner, as determined by generally accepted accounting principles; and (2) TCI, LMC and the TCI Control Shareholders' interest in Time Warner must be nonvoting (other than a de minimis voting share necessary for tax purposes), unless the interest is sold to an Independent Third Party. This nonvoting cap is designed to restore TCI's otherwise diminished incentives to carry cable programming that would compete with Time Warner's cable programming as well as to prevent TCI from seeking to influence Time Warner's competitive behavior.

B. TCI's Long-Term Carriage Agreement With Turner Is Canceled. As part of the transaction, Time Warner and TCI entered into PSAs that required TCI to carry Turner programming for the next twenty years, at a price set at the lesser of 85% of the industry average price or the lowest price given to any distributor. According to the complaint, the PSAs would tend to prevent Time Warner's rivals from achieving sufficient distribution to threaten Time Warner's market power by locking up scarce TCI channel space for an extended period of time. By negotiating this arrangement as part of the Turner acquisition, and not at arms length, Time Warner was able to compensate TCI for helping to achieve this result. Under the Interim Agreement, TCI and Time Warner are obligated to cancel the PSAs. Following cancellation of the PSAs, there would be a six month ''cooling off'' period during which Time Warner and TCI could not enter into new mandatory carriage requirements on an analog tier for Turner programming.[1] This cooling off period will ensure that such agreements are negotiated at arm's length. Thereafter, the parties cannot enter into any agreement that would secure Time Warner guaranteed mandatory carriage rights on TCI analog channel capacity for more than five-year periods. This restriction would not prevent TCI from having renewal options to extend for additional five-year periods, but would prohibit Time Warner from obligating TCI to carry a Time Warner channel for more than five years. The only exceptions to the cooling off period for Time Warner/TCI carriage agreements would relate to WTBS and HLN on which there are no existing contracts. Any such carriage agreements for those services would also be limited to five years.

In requiring the cancellation of the PSAs and prescribing shorter renewal option periods, the Commission has not concluded that any such long-term programming agreements are anticompetitive in and of themselves or would violate the antitrust laws standing alone. Rather, the Commission has concluded that the PSAs are anticompetitive in the context of the entire transaction arising from the merger and ownership of Time Warner stock by TCI and in light of those two companies' significant market shares in both programming and cable service. The divestiture and rescission requirements would therefore sever complementary ownership and long-term contractual links between TCI and Time Warner. This would restore incentives for TCI, a cable operator serving nearly a third of the nation's cable households, to place non-Time Warner programming on its cable systems, in effect disciplining any market power resulting from a combination of Time Warner and Turner programming.

C. Time Warner is Barred From Bundling HBO with any Turner Programming and CNN, TNT and WTBS with Time Warner Programming. Paragraph V bars Time Warner from bundling HBO with Turner channels—that is, making HBO available, or available on more favorable terms, only if the purchaser agrees to take the Turner channels. Time Warner is also barred from bundling CNN, TNT, or

[1] Analog technology is currently used for cable programming distribution and places significant limitations on the addition of new channels. Digital technology, which is still in its infancy and not currently a competitive factor in video distribution, has the potential to expand capacity sixfold, thereby substantially alleviating capacity constraints on the digital tier.

WTBS with Time Warner channels. This provision applies to new programming as well as existing programming. This provision is designed to address concerns that the easiest way the combined firm could exert substantially greater negotiating leverage over cable operators is by combining all or some of such ''marquee'' services and offering them as a package or offering them along with unwanted programming. Because the focus of the provision is on seeking to prevent the additional market power arising from this combination of programming, this provision does not prevent bundling engaged in pre-merger—that is, Turner channels with Turner channels and pre- merger Time Warner channels with Time Warner channels. Rather, it is narrowly targeted at Time Warner's use of its newly-acquired stable of ''marquee'' channels to raise prices by bundling.

The Commission emphasizes that, in general, bundling often benefits customers by giving firms an incentive to increase output and serve buyers who would otherwise not obtain the product or service. The Commission, however, believes that, in the context of this transaction, the limited bar on bundling is a prudent measure that will prevent actions by Time Warner that are likely to harm competition.

D. Time Warner is Barred from Price Discrimination Against Rival MVPDs. Paragraph VI is designed to prevent Time Warner from using its larger stable of programming interests to disadvantage new entrants into the distribution of cable programs such as Direct Broadcast Services, wireless systems, and systems created by telephone companies. The complaint alleges that, as a programmer that does not own its own distribution, Turner pre- merger had no incentive to and did not generally charge significantly higher prices to new MVPD entrants compared to the prices offered to established MVPDs. Under the terms of Paragraph VI, the preacquisition range of pricing offered by Turner is used as a benchmark to prevent Time Warner from discriminating against the rival distributors of programming in its service areas, and Time Warner may not increase the range of pricing on Turner programming services between established MVPDs and new entrants any more than Turner had pre-merger. Because Time Warner's incentive to discriminate against MVPDs stems from an incentive to protect its own cable company from those in or entering its downstream distribution areas, this provision only covers competitors in Time Warner's distribution areas. Because the price charged by Time Warner as a programmer to Time Warner's cable systems is, to some extent, an internal transfer price, the proposed consent order uses as a benchmark the price charged to the three largest cable system operators nationwide rather than the price charged to Time Warner. This provision, therefore, compares the price charged to Time Warner's competitors in the overlap areas with the price charged to the three largest cable system operators, and asks whether the spread between the two is any greater than the pre-merger spread between a similarly situated MVPD and the three largest cable system operators. It thus focuses on the greater possibility for price discrimination against new MVPD entrants arising directly as a result of this merger. It both ensures that Time Warner's additional market power as a result of this merger does not result in higher prices to new MVPD entrants, while it narrowly protects only those new entrants that Time Warner may have an incentive to harm.

E. Conduct and Reporting Requirements Designed to Ensure that Time Warner Cable Does Not Discriminatorily Deny Carriage to Unaffiliated Programmers. The order has two main provisions designed to address concerns that this combination increases Time Warner's incentives to disadvantage unaffiliated programmers in making carriage decisions for its own cable company. Paragraph VII, drawn from statutory provisions in the 1992 Cable Act, is designed to prevent Time Warner from discriminating in its carriage decisions so as to exclude or substantially impair the ability of an unaffiliated national video programmer to enter into or to compete in the video programming market. The Commission views these provisions as working in tandem with the collection and reporting requirements contained in Paragraph VIII. Under that paragraph, Time Warner is required to collect and maintain information about programming offers received and the disposition of those offers as well as information comparing Time Warner cable systems' carriage rates to carriage rates on other MVPDs for national video programming services. Such information would be reported on a quarterly basis to the management committee of TWE. TWE's management committee includes representatives of U S West since U S West is a minority partner in TWE. TWE owns or operates all of Time Warner's cable systems. Because U S West's incentives would be to maximize return to TWE's cable systems rather than to Time Warner's wholly owned programming interests, it would have strong incentives to alert the Commission to actions by Time Warner that favored Time Warner's wholly owned programming interests at the expense of Time Warner cable systems' profitability. Such information would also be available for inspection independently by the Commission. Furthermore, Time Warner's General Counsel responsible for cable systems is required to certify annually to the Commission its compliance with the substantive prohibitions in Paragraph VII.

F. Time Warner Cable Agrees to Carry CNN Rival. Of the types of programming in which the post-merger Time Warner will have a leading position, the one with the fewest existing close substitutes is the all-news segment, in which CNN is by far the most significant player. There are actual or potential entrants that could in the future erode CNN's market power, but their ability to do so is partly dependent on their ability to secure widespread distribution. Without access to Time Warner's extensive cable holdings, such new entry may not be successful. Time Warner's acquisition of CNN gives it both the ability and incentive to make entry of competing news services more difficult, by denying them access to its extensive distribution system. To remedy this potential anticompetitive effect, Time Warner would be required to place a news channel on certain of its cable systems under Paragraph IX of the proposed agreement. The rate of roll-out and the final penetration rate is set at levels so as not to interfere with Time Warner's carriage of other programming. It is set at such a level that Time Warner may continue carrying any channel that it is now carrying, may add any channel that it is contractually committed to carry in the future, and may continue any plans it has to carry unaffiliated programming in the future. It limits only Time Warner's ability to give effect to its incentive to deny access even to a news channel that does not interfere with such commitments or plans. Time Warner has committed to achieve penetration of 50% of total basic subscribers by July 30, 1999, if it seeks to fulfill this provision by increasing carriage for an existing channel, or to achieve penetration of 50% of total basic subscribers by July 30, 2001, if it seeks to fulfill this provision by carrying a channel not currently carried by Time Warner. This shorter period is possible in the former case because, to the extent that Time Warner is already committed to carry the channel on a portion of Time Warner's systems, less additional

capacity would need to be found in order to achieve the required penetration. On the other hand, the longer period if a new news service is selected assures that an existing news service or other service need not be displaced to make room for the new service.

This provision was crafted so as to give Time Warner flexibility in choosing a new news channel, without undermining the Commission's competitive concern that the chosen service have the opportunity to become a strong competitor to CNN. To ensure that the competing news channel is competitively significant, the order obligates Time Warner to choose a news service that will have contractual commitments with unaffiliated cable operators to reach 10 million subscribers by February 1, 1997. Together with Time Warner's commitments required by the proposed order, such a service would have commitments for a total of approximately 15 million subscribers. In the alternative, Time Warner could take a service with a smaller unaffiliated subscriber base, if it places the service on more of its own systems in order to assure that the service's total subscribers would reach 15 million. In order to attract advertisers and become a competitive force, a news service must have a critical mass of subscribers. The thresholds contained in this order give Time Warner flexibility while ensuring that the service selected has enough subscribers to have a credible opportunity to become an effective competitor. The February 1, 1997, date was selected so as to give competitive news services an opportunity to achieve the required number of subscribers.

Accordingly, this provision should not interfere with Time Warner's plans to carry programming of its choosing or unduly involve the Commission in Time Warner's choice of a new service. It is analogous to divestiture of one channel on some cable systems and is thus far less burdensome to Time Warner than the typical antitrust remedy which would require that Time Warner divest some or all of cable systems in their entirety. The Commission, however, recognizes that this provision is unusual and invites public comment on the appropriateness of such a requirement.

V. Opportunity for Public Comment

The proposed consent order has been placed on the public record for 60 days for reception of comments from interested persons. Comments received during this period will become part of the public record. After 60 days, the Commission will again review the agreement and comments received, and will decide whether it should withdraw from the agreement or make final the order contained in the agreement.

By accepting the consent order subject to final approval, the Commission anticipates that the competitive problems alleged in the complaint will be resolved. The purpose of this analysis is to invite and facilitate public comment concerning the consent order. It is not intended to constitute an official interpretation of the agreement and proposed order or in any way to modify their terms.

Benjamin I. Berman,

Acting Secretary.

Separate Statement of Chairman Pitofsky, and Commissioners Steiger and Varney In the Matter of Time Warner Inc., File No. 961–0004

The proposed merger and related transactions among Time Warner, Turner, and TCI involve three of the largest firms in cable programming and delivery—firms that are actual or potential competitors in many aspects of their businesses. The transaction would have merged the first and third largest cable programmers (Time Warner and Turner). At the same time it would have further aligned the interests of TCI and Time Warner, the two largest cable distributors. Finally, the transaction as proposed would have greatly increased the level of vertical integration in an industry in which the threat of foreclosure is both real and substantial.[1] While the transaction posed complicated and close questions of antitrust enforcement, the conclusion of the dissenters that there was no competitive problem at all is difficult to understand.

Many of the concerns raised in the dissenting Commissioners statements are carefully addressed in the analysis to aid public comment. We write to clarify our views on certain specific issues raised in the dissents.

Product market. The dissenting Commissioners suggest that the product market alleged, ''the sale of Cable Television Programming Services to MVPDs (Multichannel Video Programming Distributors),'' cannot be sustained. The facts suggest otherwise. Substantial evidence, confirmed in the parties' documents and testimony, as well as documents and sworn statements from third-parties, indicated the existence of an all cable television market. Indeed, there was significant evidence of competitive interaction in terms of carriage, promotions and marketing support, subscriber fees, and channel position between different segments of cable programming, including basic and premium channel programming. Cable operators look to all types of cable programming to determine the proper mix of diverse content and format to attract a wide range of subscribers.

Although a market that includes both CNN and HBO may appear somewhat unusual on its face, the Commission was presented here with substantial evidence that MVPDs require access to certain ''marquee'' channels, such as HBO and CNN, to retain existing subscribers or expand their subscriber base. Moreover, we can not concur that evidence in the record supports Commissioner Azcuenaga's proposed market definition, which would segregate offerings into basic and premium cable programming markets.

Entry. Although we agree that entry is an important factor, we cannot concur with Commissioner Azcuenaga's overly generous view of entry conditions in this market. While new program channels have entered in the past few years, these channels have not become competitively significant. None of the channels that has entered since 1991 has acquired more than a 1% market share.

Moreover, the anticompetitive effects of this acquisition would have resulted from one firm's control of several marquee channels. In that aspect of the market, entry has proven slow and costly. The potential for new entry in basic services cannot guarantee against competitive harm. To state the matter simply, the launch of a new ''Billiards Channel,'' ''Ballet Channel,'' or the like will barely make a ripple on the shores of the marquee channels through which Time Warner can exercise market power.

Technology. Commissioner Azcuenaga also seems to suggest that the Commission has failed to recognize the impact of significant technological changes in the market, such as the emergence of new delivery systems such as direct broadcast satellite networks (''DBS'').[2] We agree that these alternative technologies may someday become a significant competitive force

[1] Both Congress and the regulators have identified problems with the effects of vertical foreclosure in this industry. See generally James W. Olson and Lawrence J. Spiwak, Can Short-term Limits on Strategic Vertical Restraints Improve Long-term Cable industry Market Performance?, 13 *Cardozo Arts & Entertainment Law Journal* 283 (1995). Enforcement action in this case is wholly consistent with the goals of Congress in enacting the 1992 Cable Act: providing greater access to programming and promoting competition in local cable markets.

[2] DBS providers are included as participants in the relevant product market.

UNITED STATES OF AMERICA
BEFORE FEDERAL TRADE COMMISSION

In the Matter of	)	
	)	
INSILCO CORPORATION,	)	Docket No. C-3783
	)	
a corporation.	)	
	)	

COMPLAINT

The Federal Trade Commission ("Commission"), having reason to believe that respondent Insilco Corporation ("Insilco"), a corporation subject to the jurisdiction of the Federal Trade Commission, has acquired certain assets of Helmut Lingemann, GmbH, ("Lingemann") in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act ("FTC Act"), 15 U.S.C. § 45; and it appearing to the Commission that a proceeding in respect thereof would be in the public interest, hereby issues its Complaint, stating its charges as follows:

I. DEFINITIONS

For purposes of this Complaint the following definitions apply:

1. "Welded Aluminum Tubes", including welded aluminum tubes with diameters of 50 millimeters or greater ("Large Welded Aluminum Tubes") and welded aluminum tubes with diameters less than 50 millimeters ("Small Welded Aluminum Tubes"), means thin wall welded-seam aluminum tubes used in the manufacture of heat exchangers, which are devices that transfer heat from one fluid or gas to another medium, generally air.

2. "Non-Aggregated, Customer-Specific Information" means information about a product’s cost and/or price that is in such a form that the cost and/or price of a product for an identifiable individual customer can be identified.

II. THE RESPONDENT

3. Respondent Insilco is a corporation organized, existing, and doing business under and by virtue of the laws of

the State of Delaware, with its principal place of business at 425 Metro Place N, Box 7196, Dublin, Ohio, 43017.

4. Insilco is, and at all times relevant herein has been, engaged in commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and is a corporation whose business is in or affecting commerce as "commerce" is defined in Section 4 of the FTC Act, as amended, 15 U.S.C. § 44.

III. THE ACQUIRED COMPANY

5. Helima-Helvetion, Inc. ("Helima") was a corporation organized, existing, and doing business under and by virtue of the laws of the State of New York, with its principal place of business having been located at Duncan, South Carolina.

6. Helima, at all times relevant herein, was engaged in commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and was a corporation whose business is in or affecting commerce as "commerce" is defined in Section 4 of the FTC Act, as amended, 15 U.S.C. § 44.

IV. THE ACQUISITIONS

7. On or about July 10, 1996, Insilco purchased from Lingemann for $12.8 million the assets of Helima ("Helima Acquisition"); for $17 million, the stock of Lingemann’s European manufacturer of welded aluminum heat exchanger tubes, ARUP Alu-Rohr und Profil, GmbH; and the option to purchase Maschinenbau, GmbH, a Lingemann subsidiary in Germany that manufactures mills used in the production of aluminum tubes (together, the "Acquisitions").

8. Prior to the consummation of the Acquisitions, Insilco requested and received from Lingemann Non-Aggregated, Customer-Specific Information all of which is the type of information that would likely have been detrimental to competition in the relevant markets if the Acquisition had not been consummated.

9. The Non-Aggregated, Customer-Specific Information transferred from Helima to Insilco included descriptions of prior customer negotiations; detailed customer-by-customer price quotes; current pricing policies and strategies; and detailed, customer-by-customer future pricing strategies.

V. THE RELEVANT MARKETS

10. For purposes of this Complaint, a relevant line of commerce in which to analyze the Helima Acquisition is the market for Large Welded Aluminum Tubes.

11. For purposes of this Complaint, a relevant line of commerce in which to analyze the Helima Acquisition is the market for Small Welded Aluminum Tubes.

12. For purposes of this Complaint, the relevant geographic market for both relevant lines of commerce is North America.

13. Each of the relevant markets is highly concentrated. As a result of the Helima Acquisition, Insilco is currently the only supplier of Large Welded Aluminum Tubes with 100% of the market, and one of only two suppliers of Small Welded Aluminum Tubes, with a market share of over 90%.

14. There has been no entry into the market for Large Welded Aluminum Tubes since the time of the Acquisitions, and the threat of entry has not deterred anticompetitive effects resulting from the Helima Acquisition. Because the cost of entering and producing Large Welded Aluminum Tubes is relatively high compared to the limited potential sales revenues available to an entrant, entry into this market is not likely to be profitable. Consequently, entry into the Large Welded Aluminum Tube market is not likely to occur in a timely manner and counteract the additional anticompetitive effects likely to result from the Helima Acquisition. Entry into this relevant market is difficult and unlikely.

15. There has been no entry into the market for Small Welded Aluminum Tubes since the time of the Acquisitions, and the threat of entry has not deterred anticompetitive effects resulting from the Helima Acquisition. Additional anticompetitive effects resulting from the Helima Acquisition are likely and will continue until such time as actual and sufficient entry occurs.

16. Prior to the Acquisitions, Insilco and Helima were actual competitors in the relevant markets.

VI. EFFECTS OF THE ACQUISITION

17. The Acquisitions have substantially lessened or may substantially lessen competition in the following ways:

a. they have eliminated Helima as a substantial independent competitor in the relevant markets;

b. they have eliminated actual, direct, and substantial competition between Insilco and Helima in the relevant markets;

c. they have increased the level of concentration in the already highly concentrated relevant markets;

d. they have led, or may lead, to increases in prices in the relevant markets;

e. they have led, or may lead, to a reduction in service in the relevant markets;

f. they have led, or may lead, to the reduction in quality in the relevant markets;

g. they have led, or may lead, to a reduction in technological improvements in the relevant markets;

h. they have increased barriers to entry into the relevant markets; and

i. they have given Insilco market power in the relevant markets.

VII. EFFECTS OF INFORMATION TRANSFER

18. Insilco received from Lingemann competitively sensitive information prior to the consummation of the Acquisitions, that, but for the consummation of the Acquisitions, may have detrimentally affected competition in the relevant markets.

VIII. VIOLATIONS CHARGED

19. The effects of the Acquisitions may be substantially to lessen competition or tend to create a monopoly in violation of

Section 7 of the Clayton Act, 15 U.S.C. § 18, and Section 5 of the FTC Act, 15 U.S.C. § 45.

20. Insilco, through the Acquisitions, has engaged in unfair methods of competition in or affecting commerce in violation of Section 5 of the FTC Act, 15 U.S.C. § 45.

21. Prior to the Acquisitions, Insilco requested and received from Lingemann Non-Aggregated, Customer-Specific Information about customers for which they both competed in the relevant product markets in violation of Section 5 of the FTC Act, 15 U.S.C. § 45.

WHEREFORE, THE PREMISES CONSIDERED, the Federal Trade Commission on this twenty-seventh day of January, 1998, issues its Complaint against said respondent.

By the Commission, Commissioner Swindle not participating.

Docket No. C-4183

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act and the Clayton Act, and by virtue of the authority vested in it by said acts, the Federal Trade Commission ("FTC" or "Commission"), having reason to believe that Respondent TC Group, L.L.C. ("Carlyle"), a limited liability company, and Respondent Riverstone Holdings LLC ("Riverstone"), a limited liability company, each subject to the jurisdiction of the Commission, have through affiliates entered into an agreement and plan of merger to acquire equity interests in Kinder Morgan, Inc. ("KMI"), in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45, and that a proceeding in respect thereof would be in the public interest, hereby issues its complaint, stating its charges as follows:

I. THE PARTIES

A. TC Group, L.L.C.

1. Respondent TC Group, L.L.C. ("Carlyle") is a limited liability company doing business as The Carlyle Group, and is organized, existing and doing business under and by virtue of the laws of the State of Delaware with its office and principal place of business located at 1001 Pennsylvania Avenue, N.W., Suite 220 S, Washington, DC 20004.

2. Respondent Carlyle is, and at all times relevant herein has been, engaged in the business of originating, managing and operating private equity funds. As part of its private equity fund business, Respondent Carlyle directly or indirectly acquires interests in a variety of firms, including, as relevant here, midstream energy companies whose businesses include the terminaling of gasoline and other light petroleum products.

3. Respondent Carlyle is, and at all times relevant herein has been, engaged in activities in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

B. Riverstone Holdings LLC

4. Respondent Riverstone Holdings LLC ("Riverstone") is a limited liability company organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 712 Fifth Avenue, 51st Floor, New York, NY 10019.

5. Respondent Riverstone is, and at all times relevant herein has been, engaged in the business of originating, managing and operating private equity funds. As part of its private equity fund business, Respondent Riverstone directly or indirectly acquires interests in a variety of firms, including, as relevant here, midstream energy companies whose businesses include the terminaling of gasoline and other light petroleum products.

6. Respondent Riverstone is, and at all times relevant herein has been, engaged in activities in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

C. Carlyle/Riverstone Global Energy and Power Fund II, L.P.

7. Respondent Carlyle/Riverstone Global Energy and Power Fund II, L.P. ("CR-II") is a limited partnership organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 712 Fifth Avenue, 51st Floor, New York, NY 10019 (c/o Riverstone Holdings LLC).

8. Respondent CR-II is, and at all times relevant herein has been, a private equity fund that holds interests in a variety of investments.

9. Respondent CR-II is a joint venture between, and is managed and controlled by, Respondents Carlyle and Riverstone.

10. Respondent CR-II holds a fifty percent interest in MGG Midstream Holdings GP, LLC, the general partner of MGG Midstream Holdings, L.P., which in turn holds 100% of Magellan Midstream Holdings GP, LLC, the general partner of Magellan Midstream Holdings, L.P., which in turn holds 100% of Magellan GP, LLC, the general partner of Magellan Midstream Partners, L.P. ("Magellan"). Magellan is a midstream energy firm whose business includes the terminaling of gasoline and other light petroleum products.

11. Respondent CR-II has the right to designate two representatives on a four-member Board of Managers of MGG Midstream Holdings GP, LLC, and has the ability to veto actions by the Board of Managers. The CR-II representatives on the Board of Managers also serve as CR-II's representatives on the Boards of Directors of Magellan Midstream Holdings GP, LLC, and Magellan GP, LLC.

12. As a result of the interests and rights set forth above in Paragraphs 9, 10 and 11, Respondents Carlyle, Riverstone and CR-II have the ability to exercise veto power over actions by the Board of Managers of MGG Midstream Holdings GP, LLC and to receive non-public competitively sensitive information from and about Magellan.

13. Through the interests set forth above in Paragraphs 9 and 10, Respondents Carlyle, Riverstone, and CR-II are, and at all times relevant herein have been, engaged in the business of terminaling gasoline and other light petroleum products.

14. Respondent CR-II is, and at all times relevant herein has been, engaged in activities in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

D. Carlyle/Riverstone Global Energy and Power Fund III, L.P.

15. Respondent Carlyle/Riverstone Global Energy and Power Fund III, L.P. ("CR-III"), is a limited partnership organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 712 Fifth Avenue, 51st Floor, New York, NY 10019 (c/o Riverstone Holdings LLC).

16. Respondent CR-III is, and at all times relevant herein has been, a private equity fund that has been set up to hold interests in a variety of investments.

17. Respondent CR-III is a joint venture between, and is managed and controlled by, Respondents Carlyle and Riverstone.

18. Respondent CR-III is, and at all times relevant herein has been, engaged in activities in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

II. THE ACQUISITION

19. On August 28, 2006, Kinder Morgan, Inc. ("KMI") announced that it had entered into a definitive merger agreement under which a group of investors (collectively the "Investor Group") would acquire all outstanding shares of KMI for approximately $14.4 billion plus the assumption of more than $7 billion in debt (the "Acquisition").

20. KMI is a midstream energy firm whose business includes, directly or through affiliates, the terminaling of gasoline and other light petroleum products.

21. The Investor Group consists of (1) Members of KMI management, including Chairman and Chief Executive Officer Richard Kinder; (2) Goldman Sachs Capital Partners and affiliates; (3) American International Group and affiliates; (4) Carlyle Partners IV, L.P., a private equity fund managed and controlled by Respondent Carlyle; and (5) Respondent CR-III, a private equity fund jointly managed and controlled by Respondents Carlyle and Riverstone.

22. As a result of the Acquisition, Respondents Carlyle and Riverstone, through their interests in Respondent CR-III, will jointly hold approximately 11.3% of the equity of KMI.

23. As a result of the Acquisition, Respondent Carlyle, through its interest in Carlyle Partners IV, L.P., will also hold approximately 11.3% of the equity of KMI.

24. As a result of their interest in KMI held through CR-III, Respondents Carlyle and Riverstone will have the right to appoint a representative to the Board of Directors of KMI and to receive non-public competitively sensitive information from and about KMI.

25. As a result of its interest in KMI held through Carlyle Partners IV, L.P., Respondent Carlyle will have the right to appoint a representative to the Board of Directors of KMI and to receive non-public competitively sensitive information from and about KMI.

III. TRADE AND COMMERCE

A. Relevant Market

26. Terminals are specialized facilities with large storage tanks used for the receipt and local distribution of large quantities of gasoline and other light petroleum products. Terminals receive deliveries of gasoline and other light petroleum products from pipelines or marine vessels, store the products in large tanks, and redeliver them into tank trucks for ultimate delivery to retail gasoline stations or other buyers. There are no substitutes for terminals for the storage and local distribution of gasoline and other light petroleum products.

27. A relevant line of commerce in which to evaluate the effects of the Acquisition is the terminaling of gasoline and other light petroleum products.

28. Magellan and KMI both own competing terminals in each of the following metropolitan areas in the southeastern United States: (a) Birmingham, Alabama; (b) Albany, Georgia; (c) Atlanta (Doraville), Georgia; (d) Charlotte, North Carolina; (e) Greensboro, North Carolina; (f) Selma, North Carolina; (g) North Augusta, South Carolina; (h) Spartanburg, South Carolina; (i) Knoxville, Tennessee; (j) Richmond, Virginia; and (k) Roanoke, Virginia.

29. Because of costs and delivery logistics, buyers of gasoline and other light petroleum products in any of the metropolitan areas listed above in Paragraph 28, and shippers of such products into any of such metropolitan areas, would have no effective alternative to terminals located within the area.

30. Each of the metropolitan areas listed above in Paragraph 28 is a relevant section of the country in which to evaluate the effects of this Acquisition on the terminaling of gasoline and other light petroleum products.

B. Market Structure

31. Following the Acquisition, as a result of Respondents' holding of interests in both Magellan and KMI, the market for the terminaling of gasoline and other light petroleum

products in each geographic area would be either highly concentrated or moderately concentrated, and would become significantly more concentrated as a result of the Acquisition.

C. Entry Conditions

32. Construction of a terminaling facility and its necessary infrastructure, including tanks, pipeline connections, and truck loading facilities, is subject to significant regulatory and other legal constraints, and requires significant sunk costs and substantial time to accomplish.

33. Entry into the market for the terminaling of gasoline and other light petroleum products in any of the eleven geographic areas listed in Paragraph 28 above would not be timely, likely, or sufficient to prevent the anticompetitive effects that are likely to result from the Acquisition.

IV. ANTICOMPETITIVE EFFECTS

34. KMI and Magellan are actual competitors for the terminaling of gasoline and other light petroleum products in each of the relevant sections of the country. By holding significant interests in both KMI and Magellan, by having the right to board representation at both firms, by having the right to exercise veto power over actions by Magellan, and by receiving, using or sharing non-public competitively sensitive information from or about KMI or Magellan, Respondents Carlyle, Riverstone, CR-II and CR-III may substantially lessen competition in the relevant line of commerce in each of the relevant sections of the country.

35. The Acquisition may substantially lessen competition in the following ways, among others:

    a. by eliminating competition between KMI and Magellan in the terminaling of gasoline and other light petroleum products in the relevant sections of the country;

    b. by increasing the likelihood of, or facilitating, collusion or coordinated interaction between KMI and Magellan, or between KMI, Magellan and other providers of terminaling services, in the relevant sections of the country; and

    c. by increasing the likelihood that Magellan or KMI, or the combination of Magellan and KMI, will unilaterally exercise market power in the terminaling of gasoline and other light petroleum products;

each of which increases the likelihood that terminal fees and prices for gasoline and other light petroleum products would increase in each of the relevant sections of the country.

V. VIOLATIONS CHARGED

36. The effect of the Acquisition may be substantially to lessen competition or tend to create a monopoly in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

WHEREFORE, THE PREMISES CONSIDERED, the Federal Trade Commission on this twenty-fourth day of January, 2007, issues its complaint against Respondents.

By the Commission, Commissioner Leibowitz dissenting and Commissioner Rosch recused.

Donald S. Clark
Secretary

UNITED STATES OF AMERICA
BEFORE FEDERAL TRADE COMMISSION

COMMISSIONERS: **Deborah Platt Majoras, Chairman**
Pamela Jones Harbour
Jon Leibowitz
William E. Kovacic
J. Thomas Rosch

In the Matter of **FRESENIUS AG,** **a corporation.**	**Docket No. C-4159**

DECISION AND ORDER
[Public Record Version]

The Federal Trade Commission ("Commission"), having initiated an investigation of the proposed acquisition of Renal Care Group, Inc. by Fresenius AG and entities controlled by Fresenius AG, including (1) Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, the general partner of which is majority owned by Fresenius AG, (2) Fresenius Medical Care Holdings, Inc., a New York corporation majority owned by Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, and (3) Florence Acquisition, Inc., a Delaware corporation that is wholly owned by Fresenius Medical Care Holdings, Inc., and Fresenius AG (hereafter referred to as "Respondent") having been furnished thereafter with a copy of a draft of Complaint that the Bureau of Competition proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge Respondent with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondent, its attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Orders ("Consent Agreement"), containing an admission by Respondent of all the jurisdictional facts set forth in the aforesaid draft of Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondent that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission, having thereafter considered the matter and having determined that it had reason to believe that Respondent has violated the said Acts, and that a Complaint should

issue stating its charges in that respect, and having accepted the executed Consent Agreement and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, now in further conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Fresenius AG is a corporation organized, existing and doing business under and by virtue of the laws of the Federal Republic of Germany, with its office and principal place of business located at Else-Kröner-Straße 1, 61352 Bad Homburg, Germany. Fresenius AG is the ultimate parent of (1) Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, the general partner of which is majority owned by Fresenius AG, with its office and principal place of business located at Else-Kröner-Straße 1, 61352 Bad Homburg, Germany, (2) Fresenius Medical Care Holdings, Inc., a New York corporation majority owned by Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, with its office and principal place of business located at 95 Hayden Avenue, Lexington, MA 02420, and (3) Florence Acquisition, Inc., a Delaware corporation that is wholly owned by Fresenius Medical Care Holdings, Inc, with its office and principal place of business located at 95 Hayden Avenue, Lexington, MA 02420.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of Respondent, and the proceeding is in the public interest.

ORDER

I.

IT IS ORDERED that, as used in this Order, the following definitions shall apply:

A. "Fresenius" means Fresenius AG, its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries (including, but not limited to Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, Fresenius Medical Care Holdings, Inc., and Florence Acquisition, Inc.), divisions, groups, and affiliates controlled by Fresenius AG (including, after the Effective Date, Renal Care Group, Inc.), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "RCG" means Renal Care Group, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups and affiliates controlled by Renal Care Group, Inc.(including, but not limited to Renal Dimensions, LLC, and Summit Renal Care, LLC), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Commission" means the Federal Trade Commission.

D. "Acquirer" and "Acquirers" means NRI, and each Person that receives the prior approval of the Commission to acquire any of the Appendix A Clinic Assets pursuant to Paragraphs II or V of this Order.

E. "Appendix A Clinics" means the Clinics listed in Appendix A to this Order.

F. "Appendix A Clinic Assets" means the Appendix A Clinics, and all Assets Associated with each of those Clinics;

G. "Assets Associated" means the following assets Relating To the Operation Of A Clinic:

1. all rights under the Clinic's Physician Contracts;

2. leases for the Real Property Of The Clinic;

3. consumable or disposable inventory, including, but not limited to, janitorial, office, and medical supplies, and at least ten (10) normal treatment day requirements of dialysis supplies and pharmaceuticals, including, but not limited to, erythropoietin;

4. all rights, title, and interest of Fresenius in any tangible property (except for consumable or disposable inventory) that has been on the premises of the Clinic at any time since October 1, 2005, including, but not limited to, all equipment, furnishings, fixtures, improvements, and appurtenances;

5. any interest (other than leases) held by Fresenius in the Real Property Of The Clinic;

6. books, records, files, correspondence, manuals, computer printouts, databases, and other documents Relating To the Operation Of The Clinic located on the premises of the Clinic or in the possession of the Regional Manager responsible for such Clinic (or copies thereof where Fresenius has a legal obligation to maintain the original document), including, but not limited to:

   a. documents containing information Relating To patients (to the extent transferable under applicable law), including, but not limited to, medical records,

   b. financial records,

   c. personnel files,

   d. Physician lists and other records of the Clinic's dealings with Physicians,

e. maintenance records,

f. documents Relating To policies and procedures,

g. documents Relating To quality control,

h. documents Relating To Payors,

i. documents Relating To Suppliers,

j. documents Relating To the Clinic To Be Divested that are also related to the Operation Of A Clinic that is not a Clinic To Be Divested, *PROVIDED, HOWEVER*, if such documents are located other than on the premises of the Clinic To Be Divested, Fresenius may submit a copy of the document with the portions not Relating To the Clinic To Be Divested redacted, and

k. copies of contracts with Payors and Suppliers, unless such contracts cannot, according to their terms, be disclosed to third parties even with the permission of Fresenius to make such disclosure;

7. Fresenius's Medicare and Medicaid provider numbers, to the extent transferable;

8. all permits and licenses, to the extent transferable;

9. Intangible Property (other than Software, Licensed Intangible Property, and Unrelated Intangible Property) relating exclusively to the Operation Of The Clinic;

10. any contract Fresenius or RCG has to provide in-hospital dialysis services Relating To the Clinic To Be Divested; and

11. assets that are used in, or necessary for, the Operation Of The Clinic.

PROVIDED, HOWEVER, that "Assets Associated" does not include Excluded Assets.

H. "Assets To Be Divested" means the Appendix A Clinic Assets.

I. "Clinic" means a facility that provides hemodialysis or peritoneal dialysis services to patients suffering from kidney disease.

J. "Clinic's Physician Contracts" means all agreements to provide the services of a Physician to a Clinic, regardless of whether any of the agreements are with a Physician or with a medical group, including, but not limited to, agreements for the services of a medical

director for the Clinic and "joiner" agreements with Physicians in the same medical practice as a medical director of the Clinic.

K. "Clinic To Be Divested" and "Clinics To Be Divested" means the Appendix A Clinics.

L. "Contract Services" means services performed pursuant to any Clinic's Physician Contract.

M. "Divestiture Agreement" and "Divestiture Agreements" mean any agreement pursuant to which Fresenius divests any Appendix A Clinic Assets and the Joint Venture Equity Interests pursuant to this Order and with the prior approval of the Commission.

N. "Effective Date" means the date on which Fresenius acquires RCG.

O. "Employee Of A Clinic To Be Divested" and "Employee Of The Clinic To Be Divested" mean any individual (including, but not limited to, a clinic director, manager, nurse, technician, clerk, or social worker) who is not a Regional Manager, who is employed by Fresenius, by an Acquirer, or by another manager or owner of such Clinic To Be Divested, and who has worked part-time or full-time on the premises of such Clinic To Be Divested at any time since October 1, 2005, regardless of whether the individual has also worked on the premises of any other Clinic.

P. "Excluded Assets" means:

1. all cash, cash equivalents, and short term investments of cash;

2. accounts receivable;

3. income tax refunds and tax deposits due Fresenius;

4. unbilled costs and fees, and Medicare bad debt recovery claims, arising before a Clinic is divested to an Acquirer;

5. Fresenius's Medical Protocols (except if requested by an Acquirer pursuant to Paragraph II.B.17.b. of this Order);

6. rights to the names "Fresenius," and "Renal Care Group" and any variation of those names, and any names, phrases, marks, trade names, and trademarks to the extent they include the following, "fresenius medical care," "fresenius medical services, "bio-medical applications," everest healthcare," "spectra," "national medical care," "ultraCare;"or "national nephrology associates," "neomedica," and "qualicenters," and any variation of those names.

7. insurance policies and all claims thereunder, except as set forth in the NRI Divestiture Agreements;

8. prepaid items or rebates;

9. minute books (other than governing body minute books of the Clinic To Be Divested), tax returns, and other corporate books and records;

10. any inter-company balances due to or from Fresenius or its affiliates;

11. all benefits plans;

12. all writings and other items that are protected by the attorney-client privilege, the attorney work product doctrine or any other cognizable privilege or protection, except to the extent such information is necessary to the Operation Of A Clinic that is divested;

13. telecommunication systems equipment and applications, and information systems equipment including, but not limited to computer hardware, not physically located at a Clinic To Be Divested but shared with the Clinic To Be Divested through local and/or wide area networking systems;

14. e-mail addresses and telephone numbers of Fresenius's employees;

15. Software;

16. computer hardware used in the Operation Of The Clinic that is (a) not located at the Clinic, and (b) not otherwise to be divested pursuant to a Divestiture Agreement;

17. all Supplier or provider numbers issued to Fresenius or RCG by a Supplier or Payor with respect to any Clinic To Be Divested, except for Fresenius's Medicare and Medicaid provider numbers for each Clinic To Be Divested, to the extent transferable;

18. rights under agreements with Payors and Suppliers that are not assignable even if Fresenius and RCG approve such assignment or, that, according to their terms, cannot be disclosed to third parties even with the permission of Fresenius or RCG to make such disclosures;

19. office equipment and furniture that (a) is not, in the Ordinary Course Of Business, physically located at the Clinic To Be Divested, (b) is shared with Clinics other than the Clinic To Be Divested, and (c) is not necessary to the Operation Of The Clinic To Be Divested;

20. Licensed Intangible Property (subject to the requirements of Paragraph II.B.15);

21. Unrelated Intangible Property;

22. Intangible Property not relating exclusively to the Operation Of The Clinic (subject to the requirements of Paragraph II.B.18); and

23. strategic planning documents that

    a. Relate To the Operation Of The Clinic other than the Clinic To Be Divested, and

    b. are not located on the premises of the Clinic To Be Divested.

Q. "Fresenius Employee Of A Clinic To Be Divested" and "Fresenius Employee Of The Clinic To Be Divested" means an Employee Of A Clinic To Be Divested who is employed by Fresenius.

R. "Fresenius's Medical Protocols" means medical protocols promulgated by either Fresenius or RCG, whether in hard copy or embedded in software, that have been in effect at any time since October 1, 2005. *PROVIDED, HOWEVER*, "Fresenius's Medical Protocols" does not mean medical protocols adopted or promulgated, at any time, by any Physician or by any Acquirer, even if such medical protocols are identical, in whole or in part, to medical protocols promulgated by either Fresenius or RCG

S. "Governmental Approvals" means any permissions or sanctions issued by any government or governmental organization, including, but not limited to, licenses, permits, accreditations, authorizations, registrations, certifications, certificates of occupancy, and certificates of need.

T. "Government Approvals For Continued Operation" means any Governmental Approvals, other than Government Approvals For Divestiture, that an Acquirer must have to continue to operate a Clinic To Be Divested.

U. "Governmental Approvals For Divestiture" means any Governmental Approvals that an Acquirer must have to own, and to initially operate, a Clinic To Be Divested, including, but not limited to, state-issued licenses and state-issued certificates of need.

V. "Illinois Clinic Assets" means the Clinics listed in Appendix C, and all Assets Associated with those Clinics.

W. "Illinois Governmental Approvals For Divestiture" means any Governmental Approvals For Divestiture issued by the State of Illinois.

X. "Illinois Joint Venture Equity Interest" means the joint venture equity interest owned by RCG in each of the following joint ventures located in the State of Illinois: (1) Renal Care Group Buffalo Grove, LLC, and (2) Renal Care Group Schaumburg, LLC.

Y. "Intangible Property" means intangible property Relating To the Operation Of A Clinic To Be Divested including, but not limited to, intellectual property, software, computer programs, patents, know-how, goodwill, technology, trade secrets, technical information, marketing information, protocols, quality control information, trademarks, trade names, service marks, logos, and the modifications or improvements to such intangible property.

Z. "Joint Venture Equity Interest" means the joint venture equity interest owned by RCG in each of the following joint ventures: (1) RCG Brandon LLC (Brandon, MS), (2) Renal Care Group Schaumburg, LLC, (3) Brownsville Kidney Center, Ltd., (4) El Paso Kidney Center East, Ltd., (5) Renal Care Group Buffalo Grove, LLC, (6) Renal Care Group South Tampa, LLC, (7) Renal Care Group Canton, LLC (Georgia), (8) Renal Care Group Galleria, LLC., and (9) Summit Renal Care, LLC. The joint ventures are more fully described in Appendix D.

AA. "Licensed Intangible Property" means intangible property licensed to Fresenius from a third party Relating To the Operation Of A Clinic To Be Divested including, but not limited to, intellectual property, software, computer programs, patents, know-how, goodwill, technology, trade secrets, technical information, marketing information, protocols, quality control information, trademarks, trade names, service marks, logos, and the modifications or improvements to such intangible property that are licensed to Fresenius. "Licensed Intangible Property" does not mean modifications and improvements to intangible property that are not licensed to Fresenius, or Unrelated Intangible Property.

BB. "Material Confidential Information" means competitively sensitive, proprietary, and all other information that is not in the public domain owned by or pertaining to a Person or a Person's business, and includes, but is not limited to, all customer lists, price lists, contracts, cost information, marketing methods, patents, technologies, processes, or other trade secrets.

CC. "Monitor Agreement" means the Monitor Agreement dated March 7, 2006, between Fresenius, and Richard A. Shermer, of R. Shermer & Co. The Monitor Agreement is attached as Appendix E to this Order.

DD. "NRI" means National Renal Institutes, Inc., located at 511 Union Street, Suite 1800, Nashville, TN 37219, and which is a wholly owned subsidiary of DSI Holding Company, Inc.

EE. "NRI Divestiture Agreements" means the Amended and Restated Asset Purchase Agreement dated March 9, 2006, but effective as of February 14, 2006, by and among National Renal Institutes, Inc., Renal Care Group, Inc. and Fresenius Medical Care Holdings, Inc., including

all Exhibits (including, but not limited to, the Assignment and Assumption Agreement, Bill of Sale, License Agreement, Transition Services Agreement, Escrow Agreement, Lab Services Agreement, Supply Agreement, Transfer Documents for Real Property, and Partial Waiver Agreement) and Schedules.

FF. "Operation Of A Clinic" and "Operation Of The Clinic" mean all activities Relating To the business of a Clinic, including, but not limited to:

1. attracting patients to the Clinic for dialysis services, providing dialysis services to patients of the Clinic, and dealing with their Physicians, including, but not limited to, services Relating To hemodialysis and peritoneal dialysis;

2. providing medical products to patients of the Clinic;

3. maintaining the equipment on the premises of the Clinic, including, but not limited to, the equipment used in providing dialysis services to patients;

4. purchasing supplies and equipment for the Clinic;

5. negotiating leases for the premises of the Clinic;

6. providing counseling and support services to patients receiving products or services from the Clinic;

7. contracting for the services of medical directors for the Clinic;

8. dealing with Payors that pay for products or services offered by the Clinic, including but not limited to, negotiating contracts with such Payors and submitting claims to such Payors; and

9. dealing with Governmental Approvals Relating To the Clinic or that otherwise regulate the Clinic.

GG. "Ordinary Course Of Business" means actions taken by any Person in the ordinary course of the normal day-to-day Operation Of The Clinic that are consistent with past practices of

such Person in the Operation Of The Clinic, including, but not limited to past practice with respect to amount, timing, and frequency.

HH. "Other Contracts Of Each Clinic To Be Divested" means all contracts Relating To the Operation Of A Clinic, where such Clinic is a Clinic To Be Divested – including, but not limited to, contracts for goods and services provided to the Clinic and contracts with Payors – but does not mean the Clinic's Physician Contracts and the leases for the Real Property Of The Clinic.

II. "Payor" means any Person that purchases, reimburses for, or otherwise pays for medical goods or services for themselves or for any other person, including, but not limited to: health insurance companies; preferred provider organizations; point of service organizations; prepaid hospital, medical, or other health service plans; health maintenance organizations; government health benefits programs; employers or other persons providing or administering self-insured health benefits programs; and patients who purchase medical goods or services for themselves.

JJ. "Person" means any natural person, partnership, corporation, association, trust, joint venture, government, government agency, or other business or legal entity.

KK. "Physician" means a doctor of allopathic medicine ("M.D.") or a doctor of osteopathic medicine ("D.O.").

LL. "Real Property Of The Clinic" means real property on which, or in which, the Clinic is located, including real property used for parking and for other functions Relating To the Operation Of The Clinic.

MM. "Relating To" means pertaining in any way to, and is not limited to that which pertains exclusively to or primarily to.

NN. "Regional Manager" means any individual who has been employed by Fresenius or RCG with supervisory responsibility for three or more Clinics.

OO. "Regional Manager Of A Clinic To Be Divested" and "Regional Manager Of The Clinic To Be Divested" mean a Regional Manager who has had direct supervisory responsibility for a Clinic To Be Divested at any time since October 1, 2005.

PP. "Software" means executable computer code and the documentation for such computer code, but does not mean data processed by such computer code.

QQ. "Supplier" means any Person that has sold to Fresenius or RCG any goods or services, other than Physician services, for use in a Clinic To Be Divested. *PROVIDED, HOWEVER,* "Supplier" does not mean an employee of Fresenius or RCG.

RR. "Time Of Divestiture" means with respect to an Appendix A Clinic or a Joint Venture Equity Interest, the date upon which a Clinic or a Joint Venture Equity Interest is divested to an Acquirer pursuant to this Order.

SS. "Unrelated Intangible Property" means Intangible Property that is Relating To:

1. Renal products produced and sold by Fresenius including, but not limited to, dialyzers, bloodlines, hemodialysis machines, peritoneal dialysis cyclers, catheters and tubing, concentrates, water treatment systems and dialysis fluids;

2. Clinical laboratory testing services provided by Fresenius-owned laboratories;

3. Perfusion services provided by Fresenius, including without limitation, operation of heart and lung machines during surgery;

4. Auto transfusion services and products provided by Fresenius, including without limitation, blood processing devices allowing reinfusion of blood lost during surgery;

5. Ambulatory surgery services performed by Fresenius;

6. Disease and case management administrative and coordination services provided by Fresenius;

7. Pharmaceuticals produced and sold by Fresenius, including without limitation, peritoneal dialysis solutions, Vitamin D analogues and phosphate binders;

8. Biologicals produced and sold by Fresenius, including without limitation, therapies and products for the treatment of cancer and immunosuppression in organ and bone marrow transplantation;

9. Hospital and pharmaceutical industry facility development, engineering and management services provided by Fresenius;

10. Infusion therapy and products provided by Fresenius, including without limitation, anesthesia, electrolyte and glucose infusion solutions and nutritional infusion solutions;

11. Nutrition therapies and products provided by Fresenius, including without limitation, feeding tubes, feeding pumps, artificial feeding products and services;

12. Cell separation therapy and products provided by Fresenius, including without limitation, removal of diseased cells from blood in leukemia and auto-immune disease applications;

13. Adsorption therapies and products provided by Fresenius, including without limitation, products and therapies for the removal of undesirable substances from the blood (e.g., cholesterol) and products and therapies for the treatment of arthritis;

14. Blood bank products and services provided by Fresenius, including without limitation, blood collection and storage services and products and blood transfusion services and products;

15. Hydroxyethyl starch (HES) substitutes produced and sold by Fresenius, which are maize-based solutions that can compensate for deficient blood volume and improve blood viscosity; and/or

16. Genetic engineering, antibody and cell therapy products for the treatment of cancer currently under development by Fresenius.

II.

IT IS FURTHER ORDERED that:

A. Fresenius shall:

1. within ten (10) days after the Effective Date, divest to NRI, absolutely, and in good faith, pursuant to and in accordance with the NRI Divestiture Agreements:

   a. all the Appendix A Clinic Assets, except for the Illinois Clinic Assets, as on-going businesses; and

   b. all of its Joint Venture Equity Interests, except for the Illinois Joint Venture Equity Interests;

   PROVIDED, HOWEVER, if, at the time the Commission makes this Order final, the Commission determines that NRI is not an acceptable acquirer or that the NRI Divestiture Agreements are not an acceptable manner of divestiture, and so notifies Fresenius, then Fresenius shall within six (6) months of the date Fresenius receives notice of such determination from the Commission, divest the Appendix A Clinic Assets, except for the Illinois Clinic Assets, absolutely and in good faith, at no minimum price, as on-going businesses and the Joint Venture Equity Interests, except for the Illinois Joint Venture Equity Interests, absolutely and in good faith, at no minimum price, to an Acquirer or Acquirers that receive the prior approval of the Commission and only in a manner that receives the prior approval of the Commission;

2. within ninety (90) days after the Effective Date, divest to NRI, absolutely, and in good faith, pursuant to and in accordance with the NRI Divestiture Agreements, the Illinois Clinic Assets, as on-going businesses, and the Illinois Joint Venture Equity Interests;

   PROVIDED, HOWEVER, if, at the time the Commission makes this Order final, the Commission determines that NRI is not an acceptable acquirer or that the NRI Divestiture Agreements are not an acceptable manner of divestiture, and so notifies Fresenius, then Fresenius shall within eight (8) months of the date Fresenius receives notice of such determination from the Commission, divest the Illinois Clinic Assets absolutely and in good faith, at no minimum price, as on-going businesses, and the Illinois Joint Venture Equity Interests absolutely and in good faith, at no minimum price, to an Acquirer or

Acquirers that receive the prior approval of the Commission and only in a manner that receives the prior approval of the Commission.

3. The NRI Divestiture Agreements are incorporated by reference into this Order and made a part hereof as Non-Public Appendix F. Any failure by Fresenius to comply with the NRI Divestiture Agreements shall constitute a failure to comply with the Order. The NRI Divestiture Agreements shall not vary or contradict, or be construed to vary or contradict, the terms of this Order. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of NRI, or any obligations of Fresenius, under the NRI Divestiture Agreements.

4. If Fresenius has divested the Appendix A Clinic Assets and the Joint Venture Equity Interests to NRI prior to the date this Order becomes final, and if, at the time the Commission makes this Order final, the Commission determines that NRI is not an acceptable acquirer or that the NRI Divestiture Agreements are not an acceptable manner of divestiture, and so notifies Fresenius, then Fresenius shall within three (3) business days of receiving such notification, rescind the transaction with NRI and shall divest the Appendix A Clinic Assets and the Joint Venture Equity Interests in accordance with the provisos to Paragraphs II.A.1 and II.A.2 of this Order.

5. If Fresenius has divested to NRI the following Clinics in Rhode Island: North Providence (1635 Mineral Spring Avenue, Providence, RI 02904) and Providence (45 Hemingway Drive, Providence, RI 02915) and the Assets Associated with such Clinics (collectively, the "Rhode Island Clinic Assets"), and:

   a. if, after such divestiture, the Rhode Island Department of Health determines that NRI is not an acceptable acquirer or that the NRI Divestiture Agreements relating to the Rhode Island Clinic Assets are not an acceptable manner of divestiture, and

   b. the Rhode Island Department of Health so notifies Fresenius that it must reacquire the Rhode Island Clinic Assets,

   c. then Fresenius shall, within six (6) months of the date Fresenius receives notice of such determination from the Rhode Island Department of Health, divest the Rhode Island Clinic Assets absolutely and in good faith, at no minimum price, as on-going businesses, to an Acquirer or Acquirers that receive the prior approval of the Commission and only in a manner that receives the prior approval of the Commission. *PROVIDED, HOWEVER,* unless otherwise prohibited by the Rhode

Island Department of Health, NRI shall continue to manage such Clinics pending divestiture.

B. Fresenius shall divest the Assets To Be Divested on the terms set forth in this Paragraph II.B, in addition to other terms that may be required by this Order and by the Divestiture Agreements; and Fresenius shall agree with the Acquirers, as part of the Divestiture Agreements, to comply with the terms set forth in this Paragraph II.B.

1. Fresenius shall place no restrictions on the use by any Acquirer of any of the Assets To Be Divested or any of the Clinics To Be Divested.

2. Fresenius shall cooperate with the Acquirer and assist the Acquirer, at no cost to the Acquirer, at the Time Of Divestiture of each Clinic To Be Divested, in obtaining all Government Approvals For Divestiture, and all Government Approvals For Continued Operation, for each Clinic To Be Divested.

3. Fresenius shall, at the Time Of Divestiture of each Clinic To Be Divested and each Joint Venture Equity Interest:

   a. assign to the Acquirer all rights, title, and interest to leases for the Real Property Of The Clinic, and shall obtain all approvals necessary for such assignments; *PROVIDED, HOWEVER*, that (1) if the Acquirer obtains all rights, title, and interest to a lease for Real Property Of A Clinic To Be Divested before the Assets To Be Divested are divested pursuant to Paragraph II.A. of this Order, and (2) the Acquirer certifies its receipt of such lease and attaches it as part of the Divestiture Agreement, then Fresenius shall not be required to make the assignments for such Clinic To Be Divested as required by this Paragraph II.B.3.a; and

   b. assign to the Acquirer all of the Clinic's Physician Contracts, and shall obtain all approvals necessary for such assignment; *PROVIDED, HOWEVER*, that (1) if the Acquirer enters into a Clinic's Physician Contract for a Clinic To Be Divested before the Assets To Be Divested are divested pursuant to Paragraph II.A. of this Order, and (2) the Acquirer certifies its receipt of such contract and attaches it as part of the Divestiture Agreement, then Fresenius shall not be required to make the assignment for such Clinic To Be Divested as required by this Paragraph II.B.3.b; and

c. shall obtain all approvals by joint venture partners necessary for the Acquirer to acquire the Clinics To Be Divested that are owned by a joint venture, and shall assign all such approvals to the Acquirer; and

d. shall obtain all approvals by joint venture partners necessary for the Acquirer of Joint Venture Equity Interests to jointly own and operate the Clinics owned by the joint venture, and shall assign all such approvals to the Acquirer.

4. With respect to all Other Contracts Of Each Clinic To Be Divested, Fresenius shall, at the Acquirer's option and at the Time Of Divestiture of each Clinic To Be Divested:

a. if such contract can be assigned without third party approval, assign its rights under the contract to the Acquirer; and

b. if such contract can be assigned to the Acquirer only with third party approval, assist and cooperate with the Acquirer in obtaining:

(1) such third party approval and in assigning the contract to the Acquirer; or

(2) a new contract.

5. Fresenius shall:

a. at the Time Of Divestiture of each Clinic To Be Divested, provide to the Acquirer of such Clinic contact information about Payors and Suppliers for the Clinic; and

b. not object to the sharing of Payor and Supplier contract terms Relating To the Clinics To Be Divested (i) if the Payor or Supplier consents in writing to such disclosure upon a request by the Acquirer, and (ii) if the Acquirer enters into a confidentiality agreement with Fresenius not to disclose the information to any third party.

6. Until sixty (60) days after the Time Of Divestiture of each Clinic To Be Divested, Fresenius shall:

a. facilitate interviews between each Fresenius Employee Of A Clinic To Be Divested and the Acquirer of the Clinic, and shall not discourage such employee from participating in such interviews; and

b. not interfere in employment negotiations between each Fresenius Employee Of A Clinic To Be Divested and the Acquirer of the Clinic.

7. With respect to each Fresenius Employee Of A Clinic To Be Divested who receives, within sixty (60) days of the Time Of Divestiture of any Clinic at which he or she is employed, an offer of employment from the Acquirer of that Clinic:

a. Fresenius shall not prevent, prohibit or restrict or threaten to prevent, prohibit or restrict the Fresenius Employee Of The Clinic To Be Divested from being employed by the Acquirer of the Clinic, and shall not offer any incentive to the Fresenius Employee Of The Clinic To Be Divested to decline employment with the Acquirer of the Clinic;

b. if the Fresenius Employee Of The Clinic To Be Divested accepts such offer of employment from the Acquirer, Fresenius shall cooperate with the Acquirer of the Clinic in effecting transfer of the Fresenius Employee Of The Clinic To Be Divested to the employ of the Acquirer of the Clinic;

c. Fresenius shall eliminate any contractual provisions or other restrictions that would otherwise prevent the Fresenius Employee Of The Clinic To Be Divested from being employed by the Acquirer of the Clinic;

d. Fresenius shall eliminate any confidentiality restrictions that would prevent the Fresenius Employee Of The Clinic To Be Divested who accepts employment with the Acquirer of the Clinic from using or transferring to the Acquirer any information Relating To the Operation Of The Clinic; and

e. Fresenius shall pay, for the benefit of any Fresenius Employee Of The Clinic To Be Divested who accepts employment with the Acquirer of the Clinic, all accrued bonuses, vested pensions, and other accrued benefits, except extended sick leave, as to which NRI shall be solely responsible for its payment in full.

8. For a period of two (2) years following the Time Of Divestiture of each Clinic To Be Divested, Fresenius shall not, directly or indirectly, solicit, induce, or attempt to solicit

or induce any Employee Of A Clinic To Be Divested who is employed by the Acquirer to terminate his or her employment relationship with the Acquirer, unless that employment relationship has already been terminated by the Acquirer; *PROVIDED, HOWEVER*, Fresenius may make general advertisements for employees including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at Acquirer's employees; *PROVIDED, FURTHER, HOWEVER*, Fresenius may hire employees who apply for employment with Fresenius, as long as such employees were not solicited by Fresenius in violation of this Paragraph II.B.8; *PROVIDED, FURTHER, HOWEVER*, Fresenius may offer employment to an Employee Of A Clinic To Be Divested who is employed by the Acquirer in only a part-time capacity, if the employment offered by Fresenius would not, in any way, interfere with the employee's ability to fulfill his or her employment responsibilities to the Acquirer.

9. For a period of not less than forty-five (45) days, which period may begin prior to the signing of the Consent Agreement and which shall end no earlier than ten (10) days after the Time Of Divestiture of each Clinic To Be Divested ("Forty-Five Day Hiring Period"), Fresenius shall:

    a. facilitate interviews between each Regional Manager Of A Clinic To Be Divested and the Acquirer of the Clinic, and shall not discourage such Regional Manager from participating in such interviews; and

    b. not interfere in employment negotiations between each Regional Manager Of A Clinic To Be Divested and the Acquirer of the Clinic.

PROVIDED, HOWEVER, the terms of this Paragraph II.B.9 shall not apply after Acquirers have hired ten (10) Regional Managers who were each previously employed by Fresenius or RCG at any time since October 1, 2005.

10. With respect to each Regional Manager Of A Clinic To Be Divested who receives, within the Forty-Five Day Hiring Period required by Paragraph II.B.9. of this Order an offer of employment from the Acquirer of that Clinic:

    a. Fresenius shall not prevent, prohibit or restrict or threaten to prevent, prohibit or restrict the Regional Manager Of The Clinic To Be Divested from being employed by the Acquirer of the Clinic, and shall not offer any incentive to the Regional Manager Of The Clinic To Be Divested to decline employment with the Acquirer of the Clinic;

b. if the Regional Manager Of The Clinic To Be Divested accepts such offer of employment from the Acquirer, Fresenius shall cooperate with the Acquirer of the Clinic in effecting transfer of the Regional Manager Of The Clinic To Be Divested to the employ of the Acquirer of the Clinic;

c. Fresenius shall eliminate any contractual provisions or other restrictions that would otherwise prevent the Regional Manager Of The Clinic To Be Divested from being employed by the Acquirer of the Clinic;

d. Fresenius shall eliminate any confidentiality restrictions that would prevent the Regional Manager Of The Clinic To Be Divested who accepts employment with the Acquirer of the Clinic from using or transferring to the Acquirer any information Relating To the Operation Of The Clinic;

e. Fresenius shall pay, for the benefit of any Regional Manager Of The Clinic To Be Divested who accepts employment with the Acquirer of the Clinic, all accrued bonuses, vested pensions and other accrued benefits, except extended sick leave, as to which NRI shall be solely responsible for its payment in full; and

f. for a period of two (2) years following the Time Of Divestiture of the Clinic To Be Divested, Fresenius shall not, directly or indirectly, solicit, induce, or attempt to solicit or induce any Regional Manager of the Acquirer who was previously a Regional Manager of A Clinic To Be Divested to terminate his or her employment relationship with the Acquirer unless the individual has been terminated by the Acquirer; *PROVIDED, HOWEVER*, Fresenius may make general advertisements for Regional Managers including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at Acquirer's Regional Managers; *PROVIDED, FURTHER, HOWEVER*, Fresenius may hire Regional Managers who apply for employment with Fresenius, as long as such Regional Managers were not solicited by Fresenius in violation of this Paragraph II.B.10.f.

PROVIDED, HOWEVER, after the Acquirer has hired ten (10) Regional Managers who were each previously employed by Fresenius or RCG at any time since October 1, 2005, the terms of this Paragraph II.B.10 shall apply only to those ten (10) Regional Managers hired by the Acquirer.

11. With respect to each Physician who has provided services to a Clinic To Be Divested pursuant to any of the Clinic's Physician Contracts in effect at any time during the four (4) months preceding the Time Of Divestiture of the Clinic ("Contract Physician"):

a. Fresenius shall not offer any incentive to the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group to decline to provide services to the Clinic To Be Divested, and shall eliminate any confidentiality restrictions that would prevent the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group from using or transferring to the Acquirer of the Clinic To Be Divested any information Relating To the Operation Of The Clinic; and

b. For a period of three (3) years following the Time Of Divestiture of each Clinic To Be Divested, Fresenius shall not contract for the services of the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group for the provision of Contract Services to be performed in any of the areas listed in Appendix B of this Order that correspond to such Clinic. *PROVIDED, HOWEVER*, if the Contract Physician, or the Contract Physician's practice group, or other members of the Contract Physician's practice group were providing services to one or more Clinics, other than or in addition to a Clinic To Be Divested, pursuant to a contract with Fresenius or RCG in effect as of October 1, 2005, then Fresenius may continue to contract with such Contract Physicians, or the Contract Physician's practice group, or other members of the Contract Physician's practice group for services to be provided to such other or additional Clinics;

12. With respect to Material Confidential Information relating exclusively to any of the Clinics To Be Divested, Fresenius shall:

a. not disclose such information to any Person other than the Acquirer of such Clinic;

b. after the Time Of Divestiture of such Clinic:

(1) not use such information for any purpose other than complying with the terms of this Order or with any law; and

(2) destroy all records of such information, except to the extent that: (1) Fresenius is required by law to retain such information, and (2) Fresenius's inside or outside attorneys may keep one copy solely for archival purposes, but may not disclose such copy to the rest of Fresenius.

13. At the Time Of Divestiture of each Clinic To Be Divested, Fresenius shall provide the Acquirer of the Clinic with manuals, instructions, and specifications sufficient for the Acquirer to access and use any information

a. divested to the Acquirer pursuant to this Order, or

b. in the possession of the Acquirer, and previously used by Fresenius or RCG in the Operation Of The Clinic.

14. For two (2) years following the Time Of Divestiture of each Clinic To Be Divested, Fresenius shall not solicit the business of any patients that received any goods or services from such Clinic between October 1, 2005, and the date of such divestiture, *PROVIDED, HOWEVER,* Fresenius may (i) make general advertisements for the business of such patients including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at such patients, and (ii) provide advertising and promotions directly to any patient that initiates discussions with, or makes a request to, any Fresenius employee.

15. Fresenius shall convey to each Acquirer of a Clinic To Be Divested the right to use any Licensed Intangible Property (to the extent permitted by the third-party licensor), if such right is needed for the Operation Of The Clinic by the Acquirer and if the Acquirer is unable, using commercially reasonable efforts, to obtain equivalent rights from other third parties on commercially reasonable terms and conditions.

16. Fresenius shall do nothing to prevent or discourage Suppliers that, prior to the Time Of Divestiture of any Clinic To Be Divested, supplied goods and services for use in any Clinic To Be Divested from continuing to supply goods and services for use in such Clinic.

17. With respect to Fresenius's Medical Protocols:

a. Fresenius shall retain a copy of Fresenius's Medical Protocols until six (6) months after all of the Assets To Be Divested have been divested pursuant to this Order;

b. If any Acquirer of a Clinic To Be Divested requests in writing to Fresenius, within six (6) months of the Time Of Divestiture of that Clinic to that Acquirer, that Fresenius license a copy of Fresenius's Medical Protocols to that Acquirer, Fresenius shall within five (5) business days of such request, grant to that Acquirer a royalty-free, perpetual, worldwide license for the use, without any limitation, of Fresenius's Medical Protocols (including the right to transfer or sublicense such protocols, exclusively or nonexclusively, to others by any means); and

c. Fresenius shall create no disincentive for any Acquirer of a Clinic To Be Divested to make such a request for a license for Fresenius's Medical Protocols, and shall not enter into any agreement or understanding with any Acquirer that the Acquirer not make such a request.

18. Fresenius shall grant a royalty-free perpetual worldwide license for the use, without any limitation, of all Intangible Property (other than Software, Licensed Intangible Property, and Unrelated Intangible Property) not relating exclusively to the Operation Of The Clinic (including the right to transfer or sublicense such license rights in such Intangible Property, exclusively or nonexclusively, to others by any means).

C. Fresenius shall not acquire RCG until it has obtained for all Clinics To Be Divested and all Joint Venture Equity Interests:

1. all Governmental Approvals For Divestiture necessary for the Acquirers of such Clinics to be able to own, and immediately operate, the Clinics; *PROVIDED, HOWEVER,* Fresenius shall not be required to obtain Illinois Governmental Approvals For Divestiture prior to acquiring RCG;

2. all approvals for assignment of the leases for the Real Property Of The Clinics, as required by Paragraph II.B.3.a of this Order;

3. all approvals for the assignment of the Clinic's Physician Contracts, as required by Paragraph II.B.3.b of this Order; and

4. all approvals by joint venture partners necessary for (a) the Acquirer of such Clinics to be able to acquire the Clinics from the joint venture, and (b) the Acquirer of such Joint Venture Equity Interests to jointly own and operate the Clinics with the joint venture partners, as required by Paragraphs II.B.3.c and II.B.3.d of this Order.

Copies of all such approvals shall be incorporated into the Divestiture Agreements as appendices.

D. The purpose of Paragraph II of this Order is to ensure the continuation of the Clinics To Be Divested as, or as part of, ongoing viable enterprises engaged in the same business in which such assets were engaged at the time of the announcement of the acquisition by Fresenius of RCG, to ensure that the Clinics To Be Divested are operated independently of, and in

competition with, Fresenius, and to remedy the lessening of competition alleged in the Commission's Complaint.

III.

IT IS FURTHER ORDERED that, for a period of five (5) years from the date this Order is issued, Fresenius shall not, without providing advance written notification to the Commission in the manner described in this paragraph, directly or indirectly:

A. acquire any assets of or financial interest in any Clinic located in any of the areas listed in Appendix B of this Order; or

B. enter into any contract to participate in the management or Operation Of A Clinic located in any of the areas listed in Appendix B of this Order, except to the extent that the contract relates exclusively to:

1. off-site lab services or social worker support materials; or

2. billing services, collection services, bookkeeping services, accounting services, supply purchasing and logistics services, or the preparation of financial reports and accounts receivable reports (collectively "Such Services"), where appropriate firewalls and confidentiality agreements are implemented to prevent Material Confidential Information of the Clinic from being disclosed to anyone participating in any way in the operation or management of any Clinic owned by Fresenius or any Clinic other than the Clinic to which Such Services are being provided.

Said advance written notification shall contain (i) either a detailed term sheet for the proposed acquisition or the proposed agreement with all attachments, and (ii) documents that would be responsive to Item 4(c) of the Premerger Notification and Report Form under the Hart-Scott-Rodino Premerger Notification Act, Section 7A of the Clayton Act, 15 U.S.C. § 18a, and Rules, 16 C.F.R. § 801-803, relating to the proposed transaction (hereinafter referred to as "the Notification), *PROVIDED, HOWEVER*, (i) no filing fee will be required for the Notification, (ii) an original and one copy of the Notification shall be filed only with the Secretary of the Commission and need not be submitted to the United States Department of Justice, and (iii) the Notification is required from Fresenius and not from any other party to the transaction. Fresenius shall provide the Notification to the Commission at least thirty (30) days prior to consummating the transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting

period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Fresenius shall not consummate the transaction until thirty (30) days after submitting such additional information or documentary material. Early termination of the waiting periods in this paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition.

PROVIDED, HOWEVER, that prior notification shall not be required by this paragraph for a transaction for which Notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a.

IV.

IT IS FURTHER ORDERED that:

A. Richard Shermer, of R. Shermer & Co., shall be appointed Monitor to assure that Fresenius expeditiously complies with all of its obligations and performs all of its responsibilities as required by this Order.

B. No later than one (1) day after this Order is made final, Fresenius shall, pursuant to the Monitor Agreement and to this Order, transfer to the Monitor all the rights, powers, and authorities necessary to permit the Monitor to perform his duties and responsibilities in a manner consistent with the purposes of this Order.

C. In the event a substitute Monitor is required, the Commission shall select the Monitor, subject to the consent of Fresenius, which consent shall not be unreasonably withheld. If Fresenius has not opposed, in writing, including the reasons for opposing, the selection of a proposed Monitor within ten (10) days after notice by the staff of the Commission to Fresenius of the identity of any proposed Monitor, Fresenius shall be deemed to have consented to the selection of the proposed Monitor. Not later than ten (10) days after appointment of a substitute Monitor, Fresenius shall execute an agreement that, subject to the prior approval of the Commission, confers on the Monitor all the rights and powers necessary to permit the Monitor to monitor Fresenius's compliance with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements in a manner consistent with the purposes of this Order.

D. Fresenius shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor Fresenius's compliance with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of this Order and in consultation with the Commission, including, but not limited to:

    a. Assuring that Fresenius expeditiously complies with all of its obligations and performs all of its responsibilities as required by this Order, the Order to Maintain Assets, and the Divestiture Agreements;

    b. Monitoring any transition services agreements;

    c. Assuring that Material Confidential Information is not received or used by Fresenius or the Acquirers, except as allowed in this Order and in the Order to Maintain Assets, in this matter.

2. The Monitor shall act in a fiduciary capacity for the benefit of the Commission.

3. The Monitor shall serve for such time as is necessary to monitor Fresenius's compliance with the provisions of this Order, the Order to Maintain Assets, and the Divestiture Agreements.

4. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to Fresenius's personnel, books, documents, records kept in the Ordinary Course Of Business, facilities and technical information, and such other relevant information as the Monitors may reasonably request, related to Fresenius's compliance with its obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements. Fresenius shall cooperate with any reasonable request of the Monitors and shall take no action to interfere with or impede the Monitor's ability to monitor Fresenius's compliance with this Order, the Order to Maintain Assets, and the Divestiture Agreements.

5. The Monitor shall serve, without bond or other security, at the expense of Fresenius on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Fresenius, such consultants, accountants, attorneys and other representatives and assistants as are reasonably necessary to carry out the Monitors' duties and responsibilities. The Monitor shall account for all expenses incurred, including fees for services rendered, subject to the approval of the Commission.

6. Fresenius shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from misfeasance, gross negligence, willful or wanton acts, or bad faith by the Monitor.

7. Fresenius shall report to the Monitor in accordance with the requirements of this Order and/or as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by Fresenius, and any reports submitted by the Acquirer with respect to the performance of Fresenius's obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements.

8. Within one (1) month from the date the Monitor is appointed pursuant to this paragraph, every sixty (60) days thereafter, and otherwise as requested by the Commission, the Monitor shall report in writing to the Commission concerning performance by Fresenius of its obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements.

9. Fresenius may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER*, such agreement shall not restrict the Monitor from providing any information to the Commission.

E. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement Relating To Commission materials and information received in connection with the performance of the Monitor's duties.

F. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the same manner as provided in this Paragraph IV.

G. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order, the Order to Maintain Assets, and the Divestiture Agreements.

H. A Monitor appointed pursuant to this Order may be the same Person appointed as a trustee pursuant to Paragraph V of this Order and may be the same Person or Persons appointed as Monitor under the Order to Maintain Assets.

V.

IT IS FURTHER ORDERED that:

A. If Fresenius has not divested, absolutely and in good faith and with the Commission's prior approval, all of the Assets To Be Divested pursuant to Paragraph II of this Order, the Commission may appoint a trustee to divest any of the Assets To Be Divested that have not been divested pursuant to Paragraph II of this Order in a manner that satisfies the requirements of Paragraph II of this Order. In the event that the Commission or the Attorney General brings an action pursuant to Section 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Fresenius shall consent to the appointment of a trustee in such action to divest the relevant assets in accordance with the terms of this Order. Neither the appointment of a trustee nor a decision not to appoint a trustee under this Paragraph shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by Fresenius to comply with this Order.

B. The Commission shall select the trustee, subject to the consent of Fresenius, which consent shall not be unreasonably withheld. The trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Fresenius has not opposed, in writing, including the reasons for opposing, the selection of any proposed trustee within ten (10) days after receipt of notice by the staff of the Commission to Fresenius of the identity of any proposed trustee, Fresenius shall be deemed to have consented to the selection of the proposed trustee.

C. Within ten (10) days after appointment of a trustee, Fresenius shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the trustee all rights and powers necessary to permit the trustee to effect the divestitures required by this Order.

D. If a trustee is appointed by the Commission or a court pursuant to this Order, Fresenius shall consent to the following terms and conditions regarding the trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the trustee shall have the exclusive power and authority to divest any of the Assets To Be Divested that have not been divested pursuant to Paragraph II of this Order.

2. The trustee shall have twelve (12) months from the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the twelve (12) month period, the trustee has submitted a divestiture plan or believes that the divestiture can be achieved within a reasonable time, the divestiture period may be extended by the Commission; *PROVIDED, HOWEVER*, the Commission may extend the divestiture period only two (2) times.

3. Subject to any demonstrated legally recognized privilege, the trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be divested by this Order, and to any other relevant information, as the trustee may request. Fresenius shall develop such financial or other information as the trustee may request and shall cooperate with the trustee. Fresenius shall take no action to interfere with or impede the trustee's accomplishment of the divestiture. Any delays in divestiture caused by Fresenius shall extend the time for divestiture under this Paragraph V in an amount equal to the delay, as determined by the Commission or, for a court-appointed trustee, by the court.

4. The trustee shall use commercially reasonable best efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Fresenius's absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture shall be made in the manner and to an Acquirer or Acquirers as required by this Order; *PROVIDED, HOWEVER*, if the trustee receives bona fide offers for particular assets from more than one acquiring entity, and if the Commission determines to approve more than one such acquiring entity for such assets, the trustee shall divest the assets to the acquiring entity selected by Fresenius from among those approved by the Commission; *PROVIDED, FURTHER, HOWEVER*, that Fresenius shall select such entity within five (5) days of receiving notification of the Commission's approval.

5. The trustee shall serve, without bond or other security, at the cost and expense of Fresenius, on such reasonable and customary terms and conditions as the Commission or a court may set. The trustee shall have the authority to employ, at the cost and expense of Fresenius, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the trustee's duties and responsibilities. The trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission and, in the

case of a court-appointed trustee, by the court, of the account of the trustee, including fees for the trustee's services, all remaining monies shall be paid at the direction of Fresenius, and the trustee's power shall be terminated. The compensation of the trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Fresenius shall indemnify the trustee and hold the trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from misfeasance, gross negligence, willful or wanton acts, or bad faith by the trustee.

7. The trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order.

8. The trustee shall report in writing to Fresenius and to the Commission every sixty (60) days concerning the trustee's efforts to accomplish the divestiture.

9. Fresenius may require the trustee and each of the trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER*, such agreement shall not restrict the trustee from providing any information to the Commission.

E. If the Commission determines that a trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute trustee in the same manner as provided in this Paragraph V.

F. The Commission or, in the case of a court-appointed trustee, the court, may on its own initiative or at the request of the trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestiture required by this Order.

G. The trustee appointed pursuant to this Paragraph may be the same Person appointed as the Monitor pursuant to the relevant provisions of this Order or the Order to Maintain Assets.

VI.

IT IS FURTHER ORDERED that:

A. Beginning thirty (30) days after the date this Order becomes final, and every thirty (30) days thereafter until Fresenius has fully complied with Paragraphs II.A., II.B.3, II.B.5.a, II.B.6, II.B.9, II.B.13, and II.B.17 of this Order, Fresenius shall submit to the Commission a verified written report setting forth in detail the manner and form in which it intends to comply, is complying, and has complied with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements. Fresenius shall submit at the same time a copy of these reports to the Monitor, if any Monitor has been appointed.

B. Beginning twelve (12) months after the date this Order becomes final, and annually thereafter on the anniversary of the date this Order becomes final, for the next four (4) years, Fresenius shall submit to the Commission verified written reports setting forth in detail the manner and form in which it is complying and has complied with this Order, the Order to Maintain Assets, and the Divestiture Agreements. Fresenius shall submit at the same time a copy of these reports to the Monitor, if any Monitor has been appointed.

VII.

IT IS FURTHER ORDERED that Fresenius shall notify the Commission at least thirty (30) days prior to:

A. Any proposed dissolution of Fresenius,

B. Any proposed acquisition, merger, or consolidation of Fresenius, or

C. Any other change in Fresenius that may affect compliance obligations arising out of this Order, including but, not limited to, assignment, the creation or dissolution of subsidiaries, or any other change in Fresenius.

VIII.

IT IS FURTHER ORDERED that, for the purpose of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request with reasonable notice to Fresenius, Fresenius shall permit any duly authorized representative of the Commission:

A. Access, during office hours of Fresenius and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of Fresenius related to compliance with this Order; and

B. Upon five (5) days' notice to Fresenius and without restraint or interference from Fresenius, to interview officers, directors, or employees of Fresenius, who may have counsel present, regarding such matters.

IX.

IT IS FURTHER ORDERED that this Order shall terminate on June 30, 2016.

By the Commission.

Donald S. Clark

Secretary

SEAL

ISSUED: June 30, 2006

AREA DEFINITIONS

! Five digit numbers refer to zip codes.

! Geographic areas bounded by roads include all properties abutting the referenced road (*i.e.*, properties on both sides of the road).

! Zip codes or other areas fully surrounded by areas included in the area definition shall be considered part of the area definition.

! Area definitions are based on maps submitted to the Commission staff by Fresenius.

	Divested Clinics (Medicare provider numbers)	Corresponding Area Definition
1	FMC-Norwood Clinic Dialysis Unit (012516)	The area in and/or near Birmingham, Alabama, consisting of: 35060, 35064, 35068, 35204, 35205, 35206, 35207, 35208, 35209, 35210, 35211, 35212, 35213, 35214, 35215, 35217, 35218, 35221, 35222, 35223, 35224, 35228, 35233, 35234, 35235.
2	FMC-Chilton Peach (012587)	The area in and/or near Clanton, Alabama, consisting of: Chilton County (Alabama).
3	FMC-Walker County Dialysis (012533)	The area in and/or near Jasper, Alabama, consisting of: Walker County (Alabama), and 35062, 35575, 35553, 35565.
4	RCG-Osceola Dialysis Center (231656)	The area in and/or near Osceola, Arkansas, consisting of Mississippi County (Arkansas).
5	RCG-Avondale (032608)	The area in and/or near Avondale, Arizona, consisting of: 85035, 85037, 85043, 85307, 85323, 85329, 85338, 85340, 85353.
6	RCG-Mesa (032551), Southwest Mesa (032526)	The area in and/or near Mesa, Arizona, consisting of: 85201, 85202, 85203, 85204, 85205, 85206, 85208, 85210, 85213, 85224, 85225, 85233, 85234, 85236, 85281, 85282, 85283, 85296.
7	RCG-Northeast Phoenix (032596)	The area in and/or near Phoenix, Arizona, consisting of: 85020, 85022, 85023, 85024, 85027, 85028, 85032, 85050, 85254.
8	RCG-Phoenix North (032555)	The area in and/or near Phoenix, Arizona, consisting of: 85012, 85013, 85014, 85015, 85016, 85017, 85019, 85020, 85021, 85022, 85023, 85028, 85029, 85051; the portions of 85003, 85004, 85007, 85009 that lie to the north of I-10.

	Divested Clinics (Medicare provider numbers)	Corresponding Area Definition
9	RCG-South Phoenix (032583)	The area in and/or near Phoenix, Arizona, consisting of: 85040, 85041, 85042, 85339; the portion of 85009 that lies to the south of West Buckeye Road; the portions of 85007, 85003, 85004, and 85034 that lie to the south of I-17.
10	FMC-Tempe (032586)	The area in and/or near Tempe, Arizona, consisting of: 85202, 85040, 85044, 85048, 85224, 85225, 85226, 85248, 85281, 85282, 85283, 85284.
11	RCG-Cottonwood (032562), Prescott (R032523)	The area in and/or near Prescott, Arizona, consisting of Yavapai County (Arizona), and 86336.
12	RCG-Naples (102809)	The area in and/or near Naples, Florida, consisting of: 34102, 34103, 34104, 34105, 34108, 34109, 34110, 34112, 34113, 34114, 34116, 34117, 34119, 34120.
13	FMC-Lakewood (102733)	The area in and/or near Sarasota, Florida, consisting of: 34201, 34203, 34207, 34231, 34232, 34233, 34234, 34235, 34236, 34237, 34238, 34239, 34240, 34243; the portion of 34202 that lies to the south of State Road 64; the portion of 34208 that lies to the east of 57th Street East, the portion of 34241 that lies to the north of Clark Road/State Road 72.
14	RCG-Brandon (no CMS number)	The area in and/or near Brandon, Florida, consisting of: 33510, 33511, 33527, 33569, 33584, 33594, 33610, 33619.
15	RCG-Tampa Central (102761)	The area in and/or near Tampa, Florida, consisting of: 33602, 33603, 33604, 33605, 33606, 33607, 33609, 33610, 33611, 33614, 33615, 33616, 33619, 33629, 33634.
16	RCG-Canton (no CMS number)	The area in and/or near Canton, Georgia, consisting of: Cherokee County, Pickens County (Georgia), and 30102, 30139, 30171, and 30184.
17	RCG-Cartersville (112691)	The area in and/or near Cartersville, Georgia, consisting of: Bartow County (Georgia), and 30101, 30102, 30103, 30132, 30139, 30145, 30171, 30184.
18	RCG-Covington (112708)	The area in and/or near Covington, Georgia, consisting of: Newton County, Rockdale County (Georgia), and 30014, 30025, 30038, 30052, 30054, 30055, 30056, 30058, 30252, 30663; the portions of 30233 and 31064 that lie to the north of Route 16.
19	RCG-Cobb County (112675)	The area in and/or near Marietta, Georgia, consisting of: Cobb County (Georgia), and 30101, 30127, 30132, 30141, 30157.

	Divested Clinics (Medicare provider numbers)	Corresponding Area Definition
20	FMC-Neomedica Evanston (142511)	The area in and/or near Chicago, Illinois, consisting of: 0022, 60025, 60029, 60043, 60053, 60062, 60076, 60077,60091 60093, 60201, 60202, 60203, 60625, 60626, 60640, 60645, 60646, 60659, 60660, 60712, 60714.
21	RCG-Buffalo Grove (142650), Schaumburg (142654), Schaumburg Home (141626), Arlington Heights (142628)	The area in and/or near Chicago, Illinois, consisting of: 60004, 60005, 60007, 60008, 60015, 60016, 60018, 60025, 60047, 60056, 60061, 60062, 60067, 60069, 60070, 60074, 60089, 60090, 60101, 60103, 60106, 60107, 60108, 60010, 60133, 60139, 60143, 60157, 60172, 60173, 60188, 60191, 60193, 60194, 60195.
22	RCG-Scottsdale (142518)	The area in and/or near Chicago, Illinois, consisting of: 60402, 60406, 60415, 60419, 60453, 60455, 60456, 60457, 60458, 60459, 60465, 60482, 60501, 60608, 60609, 60615, 60616, 60617, 60619, 60620, 60621, 60623, 60628, 60629, 60632, 60633, 60636, 60637, 60638, 60643, 60652, 60653, 60655, 60803, 60804, 60805, 60827.
23	RCG-Markham (142575), Hazelcrest (142622), South Holland (142544)	The area in and/or near Chicago, Illinois, consisting of: 60406, 60409, 60411, 60419, 60422, 60425, 60426, 60429, 60430, 60438, 60443, 60445, 60452, 60461, 60466, 60469, 60471, 60472, 60473, 60475, 60476, 60477, 60478, 60617, 60619, 60620, 60628, 60633,60643, 60655, 60803, 60805, 60827, 46320, 46321, 46324.
24	RCG-Loop (142505)	The area in and/or near Chicago, Illinois, consisting of: 60406, 60601, 60602, 60603, 60604, 60605, 60606, 60607, 60608, 60609, 60610, 60611, 60612, 60614, 60615, 60616, 60617, 60619, 60620, 60621, 60622, 60623, 60624, 60628, 60629, 60632, 60633, 60636, 60637, 60642, 60643, 60647, 60649, 60652, 60653, 60654, 60655, 60657, 60661, 60827.
25	RCG-Waukegan (142577), Waukegan Home (142567)	The area in and/or near Waukegan, Illinois, consisting of: Lake County (Illinois).

TEPPCO PARTNERS, L.P.,	)	
a limited partnership.	)	

COMPLAINT

The Federal Trade Commission ("FTC" or "Commission"), having reason to believe that Dan L. Duncan, through EPCO, Inc. and Enterprise Products Partners L.P., acquired a controlling interest in Texas Eastern Products Pipeline Company, LLC and limited partnership interests in TEPPCO Partners, L.P. in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45, and that a proceeding in respect thereof would be in the public interest, hereby issues its complaint, stating its charges as follows:

I. THE PARTIES

A. Respondents Dan L. Duncan and EPCO, Inc.

1. Dan L. Duncan is a natural person whose office and principal place of business is located at 1100 Louisiana Street, Suite 1800, Houston, Texas 77002.

2. EPCO, Inc. ("EPCO") is a corporation organized, existing, and doing business under and by virtue of the laws of the State of Texas, with its office and principal place of business at 1100 Louisiana Street, Suite 1800, Houston, Texas 77002.

3. Dan L. Duncan is the ultimate parent entity of EPCO. Dan L. Duncan controls EPCO.

4. Dan L. Duncan and EPCO control, and at all times relevant herein have controlled, the general partner of Enterprise Products Partners, L.P. ("Enterprise").

5. Enterprise is, and at all times relevant herein has been, engaged in the midstream energy business, including the transportation, fractionation, and storage of natural gas liquids.

6. As part of its midstream operations Enterprise owns and operates salt dome storage for natural gas liquids in Mont Belvieu, Texas.

7. Dan L. Duncan and EPCO are, and at all times relevant herein have been, engaged in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

B. Respondents Texas Eastern Products Pipeline Company, LLC and TEPPCO Partners, L.P.

8. Texas Eastern Products Pipeline Company, LLC ("Texas Eastern") is a limited liability company organized, existing, and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 1100 Louisiana Street, Suite 1300, Houston, Texas 77002.

9. TEPPCO Partners, L.P. ("TEPPCO") is a limited partnership organized, existing, and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 1100 Louisiana Street, Suite 1300, Houston, Texas 77002.

10. Texas Eastern is, and at all times relevant herein has been, the general partner of TEPPCO.

11. TEPPCO is, and at all times relevant herein has been, engaged in the midstream energy business, including the transportation, fractionation, and storage of natural gas liquids.

12. As part of its midstream operations, TEPPCO, through its wholly-owned subsidiary TE Products Pipeline Company, Limited Partnership, holds a 50% interest in a joint venture called Mont Belvieu Storage Partners which owns salt dome storage for natural gas liquids in Mont Belvieu, Texas.

13. TEPPCO, through its wholly-owned subsidiary TE Products Pipeline Company, Limited Partnership, carries out the day-to-day operations of the Mont Belvieu Storage Partners storage facility.

14. TEPPCO and Texas Eastern are, and at all times relevant herein have been, engaged in or affecting commerce as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

II. THE ACQUISITION

15. On February 24, 2005, Dan L. Duncan and EPCO, Inc., through DFI GP Holdings L.P., acquired from Duke Energy Field Services, LLC: (1) TEPPCO Partners, L.P.'s general partner, Texas Eastern Products Pipeline Company, LLC, and (2) 2.5 million limited partnership units of TEPPCO Partners, L.P. (collectively "the Acquisition").

III. TRADE AND COMMERCE

A. Relevant Product Market

16. A relevant product market in which to evaluate the effects of the Acquisition is salt dome storage for natural gas liquids.

17. There is no economic alternative to salt dome storage for storing natural gas liquids.

B. Relevant Geographic Market

18. A relevant geographic market in which to evaluate the effects of the Acquisition is Mont Belvieu, Texas.

19. Customers of Mont Belvieu salt dome storage for natural gas liquids have no economic alternative to storing in Mont Belvieu.

C. Market Structure

20. The market for salt dome storage for natural gas liquids in Mont Belvieu was highly concentrated prior to the Acquisition and is significantly more concentrated as a result of the Acquisition.

21. Enterprise and TEPPCO compete in the market for salt dome storage for natural gas liquids in Mont Belvieu.

22. The Acquisition combined two of four providers of commercial salt dome storage for natural gas liquids in Mont Belvieu.

23. The pre-Acquisition Herfindahl-Hirschman Index was more than 3,400, and increased post-Acquisition by more than 3,000 points to a level exceeding 6,400.

D. Entry Conditions

24. Entry into the market for salt dome storage for natural gas liquids in Mont Belvieu would not be timely, likely, or sufficient to prevent the anticompetitive effects that are likely to result from the Acquisition.

25. Construction of a salt dome storage facility and its necessary infrastructure, including pipelines and brine storage and handling facilities, is subject to significant regulatory and other legal constraints, and requires significant sunk costs and substantial time to accomplish.

IV. ANTICOMPETITIVE EFFECTS

26. The Acquisition may substantially lessen competition in the following ways, among others:

    a. by eliminating competition between Enterprise and TEPPCO;

    b. by enhancing Enterprise's ability unilaterally to exercise market power; and

    c. by increasing the likelihood of, or facilitating, collusion or coordinated interaction between or among the remaining firms;

    each of which increases the likelihood that customers would be forced to pay higher prices for or would experience degradations in service for salt dome storage for natural gas liquids in Mont Belvieu.

V. VIOLATIONS CHARGED

27. The effect of the Acquisition may be substantially to lessen competition or tend to create a monopoly in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

WHEREFORE, THE PREMISES CONSIDERED, the Federal Trade Commission on this _____ day of _____, 2006, issues its complaint against Respondents.

By the Commission.

Donald S. Clark
Secretary

In the Matter of **American Renal Associates, Inc.,** **a corporation,** **and** **Fresenius Medical Care Holdings, Inc.,** **a corporation.**	**Docket No. C-4202**

DECISION AND ORDER

The Federal Trade Commission ("Commission"), having initiated an investigation of the proposed acquisition by Respondent American Renal Associates, Inc., of certain assets owned by Respondent Fresenius Medical Care Holdings, Inc., (hereinafter "Respondents") and of certain acts and practices of the Respondents, and the Respondents having been furnished thereafter with a copy of a draft of Complaint that the Bureau of Competition proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondents, their attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Order ("Consent Agreement"), containing an admission by Respondents of all the jurisdictional facts set forth in the aforesaid draft of Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission, having thereafter considered the matter and having determined that it had reason to believe that Respondents have violated the said Acts, and that a Complaint should

issue stating its charges in that respect, and having accepted the executed Consent Agreement and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, now in further conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent American Renal Associates Inc. is a corporation organized, existing, and doing business under and by virtue of the laws of Delaware, with its office and principal place of business located at 66 Cherry Hill Drive, Beverly, Massachusetts 01915.

2. Respondent Fresenius Medical Care Holdings, Inc., is a corporation organized, existing, and doing business under and by virtue of the laws of the State of New York, with its principal place of business located at 95 Hayden Avenue, Lexington, Massachusetts 02420.

3. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of Respondents, and the proceeding is in the public interest.

ORDER

I.

IT IS ORDERED that, as used in this Order, the following definitions shall apply:

A. "ARA" means American Renal Associates, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups, and affiliates controlled by ARA including, but not limited to, ARA-East Providence Dialysis LLC, ARA-Johnston Dialysis LLC, ARA-Fall River Dialysis LLC, and Dialysis Center of West Warwick LLC, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "Fresenius" means Fresenius Medical Care Holdings, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups, and affiliates controlled by Fresenius Medical Care Holdings, Inc. (including Renal Care Group, Inc. and Bio-Medical Applications of Rhode Island, Inc.), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Clinic" means a facility that provides Dialysis Services.

D. "Clinic Operator" means a person who owns or engages in the Operation of a Clinic, or who attempts to own or engage in the Operation of a Clinic.

E. "Commission" means the Federal Trade Commission.

F. "Cranston-Warwick Area" means the area within ZIP codes 02818, 02886, 02888, 02889, 02893, 02905, 02907, 02909, 02910, 02920, 02921, that portion of 02919 south of U.S. Route 6, and those portions of 02831 and 02816 east of Route 116, which are the ZIP codes in and around the cities of Cranston and Warwick, Rhode Island.

G. "Dialysis Services" means the provision of outpatient hemodialysis or peritoneal dialysis services to patients suffering from kidney disease.

H. "Governmental Approvals" means any permissions or sanctions issued by any government or governmental organization, including, but not limited to, licenses, permits, accreditations, authorizations, registrations, certifications, certificates of occupancy, and certificates of need.

I. "Joint Venture Clinic" means a Clinic in which a Respondent owns an interest of at least 50%, but less than 100%.

J. "Joint Venture Partner" means a Person other than a Respondent that owns an interest in a Joint Venture Clinic.

K. "Material Confidential Information" means competitively sensitive, proprietary, and all other information that is not in the public domain owned by or pertaining to a Person or a Person's business, and includes, but is not limited to, all customer lists, price lists, contracts, cost information, marketing methods, patents, technologies, processes, or other trade secrets.

L. "Operation Of A Clinic" means all activities Relating To the business of a Clinic, including, but not limited to:

1. attracting patients to the Clinic for dialysis services, providing dialysis services to patients of the Clinic, and dealing with their Physicians, including, but not limited to, services Relating To hemodialysis and peritoneal dialysis;

2. providing medical products to patients of the Clinic;

3. maintaining the equipment on the premises of the Clinic, including, but not limited to, the equipment used in providing dialysis services to patients;

4. purchasing supplies and equipment for the Clinic;

5. negotiating leases for the premises of the Clinic;

6. providing counseling and support services to patients receiving products or services from the Clinic;

7. contracting for the services of medical directors for the Clinic;

8. dealing with Payors that pay for products or services offered by the Clinic, including but not limited to, negotiating contracts with such Payors and submitting claims to such Payors; and

9. dealing with Governmental Approvals Relating To the Clinic or that otherwise regulate the Clinic.

M. "Ordinary Patient Transfer" means the occasional or periodic transfer of an individual patient from one Clinic to another Clinic at the request of the patient, or the patient's family, care giver or physician.

N. "Payor" means any Person that purchases, reimburses for, or otherwise pays for medical goods or services for themselves or for any other Person, including, but not limited to: health insurance companies; preferred provider organizations; point of service organizations; prepaid hospital, medical, or other health service plans; health maintenance organizations; government health benefits programs; employers or other Persons providing or administering self-insured health benefits programs; and patients who purchase medical goods or services for themselves.

O. "Person" means any natural person, partnership, corporation, association, trust, joint venture, government, government agency, or other business or legal entity.

P. "Physician" means a doctor of allopathic medicine ("M.D.") or a doctor of osteopathic medicine ("D.O.").

Q. "Relating To" or "Related To" means pertaining in any way to, and is not limited to that which pertains exclusively to or primarily to.

II.

IT IS FURTHER ORDERED that each Respondent shall not, expressly or implicitly, directly or indirectly, enter into, continue, maintain, enforce, or offer to enter into any agreement with any Clinic Operator to (1) close any Clinic, or (2) allocate any Dialysis Services market, territory, or customer.

PROVIDED, HOWEVER, that nothing in this Paragraph shall prohibit each Respondent from (i) unilaterally deciding to close any of its own Clinics (or, in the case of a Joint Venture Clinic, from making any such decision with its Joint Venture Partner for that Clinic), (ii) assisting the owner of any Clinic managed by such Respondent with respect to the closure of such managed Clinic, (iii) entering into non-competition agreements of reasonable duration and geographic

scope (a) ancillary to a lawful sale, acquisition, or formation of a Clinic or Joint Venture Clinic, or (b) ancillary to a contract for employment or professional services of an employee or medical director, or (iv) continuing the current non-competition agreements of employees, medical directors, Clinics and Joint Venture Clinics.

PROVIDED FURTHER, HOWEVER, that nothing in this Paragraph shall apply to any agreement entered into for an Ordinary Patient Transfer.

III.

IT IS FURTHER ORDERED that, for a period of ten (10) years from the date this Order becomes final, Respondent ARA shall not, without providing advance written notification to the Commission in the manner described in this paragraph, directly or indirectly:

A. acquire any assets of or financial interest in any Clinic located in the Cranston-Warwick Area, except to the extent that the acquisition is in:

   1. Clinics owned or operated by Respondent ARA at the time this Order becomes final; or

   2. in *de novo* Clinics opened by Respondent ARA.

B. enter into any contract to participate in the management or Operation Of A Clinic located in the Cranston-Warwick Area, except to the extent that the contract relates exclusively to:

   1. off-site lab services or social worker support materials;

   2. the management of Clinics owned or operated by Respondent ARA at the time this Order becomes final;

   3. the management of a *de novo* Clinic opened by Respondent ARA; or

   4. billing services, collection services, bookkeeping services, accounting services, supply purchasing and logistics services, or the preparation of financial reports and accounts receivable reports (collectively "Such Services"), where appropriate firewalls and confidentiality agreements are implemented to prevent Material Confidential Information of the Clinic from being disclosed to anyone participating in any way in the operation or management of any Clinic owned by ARA or any Clinic other than the Clinic to which such services are being provided.

Said advance written notification shall contain (i) either a detailed term sheet for the proposed acquisition or the proposed agreement with all attachments, and (ii) documents that would be responsive to Item 4(c) of the Premerger Notification and Report Form under the Hart-Scott-Rodino Premerger Notification Act, Section 7A of the Clayton Act, 15 U.S.C. § 18a, and Rules,

16 C.F.R. § 801-803, relating to the proposed transaction (hereinafter referred to as "the Notification), *PROVIDED, HOWEVER,* (i) no filing fee will be required for the Notification, (ii) an original and one copy of the Notification shall be filed only with the Secretary of the Commission and need not be submitted to the United States Department of Justice, and (iii) the Notification is required from ARA and not from any other party to the transaction. ARA shall provide the Notification to the Commission at least thirty (30) days prior to consummating the transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), ARA shall not consummate the transaction until thirty (30) days after submitting such additional information or documentary material. Early termination of the waiting periods in this paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition.

PROVIDED, HOWEVER, that prior notification shall not be required by this paragraph for a transaction for which Notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a.

IV.

IT IS FURTHER ORDERED that ninety (90) days after the date this order becomes final, twelve (12) months after the date this Order becomes final, and annually thereafter on the anniversary of the date this Order becomes final, for the next ten (10) years, Respondents shall submit to the Commission verified written reports setting forth in detail the manner and form in which they are complying and have complied with this Order.

V.

IT IS FURTHER ORDERED that, each Respondent shall notify the Commission at least thirty (30) days prior to any proposed:

A. dissolution of Respondent;

B. acquisition, merger, or consolidation of Respondent; or

C. any other change in the Respondent, including, but not limited to, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of the Order.

VI.

IT IS FURTHER ORDERED that, with respect to its own organization, for the purpose of determining or securing compliance with this Order, subject to any legally recognized privilege, and upon written request with reasonable notice to Respondent, each Respondent shall permit any duly authorized representative of the Commission:

A. Access, during office hours of Respondent and in the presence of counsel, to all facilities, and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of Respondent related to compliance with this Order; and

B. Upon five (5) days' notice to Respondent and without restraint or interference from Respondent, to interview officers, directors, or employees of Respondent, who may have counsel present, regarding such matters.

VII.

IT IS FURTHER ORDERED that this Order shall terminate on October 17, 2017.

By the Commission.

In the Matter of	)	
INVERNESS MEDICAL INNOVATIONS, INC., a corporation.	)	**Docket No. C-**

DECISION AND ORDER
[Public Record Version]

The Federal Trade Commission ("Commission"), having initiated an investigation of certain acts and practices of Respondent Inverness Medical Innovations, Inc., hereinafter referred to as "Respondent," and Respondent having been furnished thereafter with a copy of a draft of Complaint which the Bureau of Competition proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge Respondent with violations of Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondent, its attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Order ("Consent Agreement"), containing an admission by Respondent of all the jurisdictional facts set forth in the aforesaid draft of Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondent that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission having thereafter considered the matter and having determined that it had reason to believe that Respondent has violated the said Act, and that a Complaint should issue stating its charges in that respect, and having thereupon issued its Complaint, and having accepted the executed Consent Agreement and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, now in further conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Inverness Medical Innovations, Inc. is a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its headquarters address at 51 Sawyer Road, Suite 200, Waltham, Massachusetts 02453.

2. The Commission has jurisdiction of the subject matter of this proceeding and of Respondent, and the proceeding is in the public interest.

ORDER

I.

IT IS ORDERED that, as used in the Order, the following definitions shall apply:

A. "Inverness" or "Respondent" means Inverness Medical Innovations, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups and affiliates in each case controlled by Inverness Medical Innovations, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "Commission" means the Federal Trade Commission.

C. "ACON" means ACON Laboratories, Inc., a corporation organized, existing and doing business under and by virtue of the laws of the State of California, with its headquarters address located at 4108 Sorrento Valley Boulevard, San Diego, California 92121. The term "ACON" includes ACON Laboratories, Inc., its parent, directors, officers, employees, agents, representatives, successors and assigns; and its joint ventures, subsidiaries, divisions, groups and affiliates in each case controlled by ACON Laboratories, Inc., and the respective directors, officers, employees, agents, representatives, predecessors, successors, and assigns of each.

D. "Acquisition" means Respondent Inverness's acquisition of certain assets and rights of ACON pursuant to an Acquisition Agreement by and among Inverness Medical Innovations, Inc., ACON Laboratories, Inc., Azure Institute, Inc., LBI, Inc., Oakville Hong Kong Co., Ltd., ACON Biotech (Hangzhou) Co., Ltd., and Karsson Overseas, Ltd., dated as of February 24, 2006, and includes certain "Noncompetition Agreements" attached as exhibits thereto.

E. "Aemoh" means Aemoh Products, LLC, a limited liability company, organized, existing, and doing business under and by virtue of the laws of the State of Massachusetts, with its headquarters address at 12 Hopewell Farm Road, South Natick, MA 01760.

F. "Agency(ies)" means any government regulatory authority or authorities in the world responsible for granting approval(s), clearance(s), qualification(s), license(s), or permit(s) for any aspect of the research, Development, manufacture, marketing, distribution, or sale of

a product. The term "Agency" includes, without limitation, the United States Food and Drug Administration ("FDA").

G. "Assays" means any qualitative or quantitative analysis of a substance to determine its components or characteristics, the results of such analysis, and all information necessary to replicate such analysis, including without limitation, the following: all data, observations, and records relating to the analysis, the methodologies and procedures used in such analysis, all experiments performed, all information related to the development and qualification of such an analysis, and the identities of the person or persons responsible for such development and qualification of such an analysis.

H. "Bayer" means Bayer Healthcare LLC, a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware, with its headquarters address at 511 Benedict Avenue, Tarrytown, New York 10591-5097. The term "Bayer" includes Bayer Healthcare LLC, its parent, directors, officers, employees, agents, representatives, successors and assigns; and its joint ventures, subsidiaries (including Metrika, Inc.), divisions, groups and affiliates in each case controlled by Bayer Healthcare LLC, and the respective directors, officers, employees, agents, representatives, predecessors, successors, and assigns of each.

I. "Church & Dwight" means Church & Dwight Co., Inc., a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware, with its headquarters address at 469 N. Harrison Street, Princeton, New Jersey 08543-5297.

J. "Church & Dwight/ACON R&D Agreement" shall mean the "Research and Development Agreement" between ACON and Church & Dwight (dated April 27, 2005), as amended.

K. "Church & Dwight/ACON Supply Agreement" shall mean the "Supply Agreement" between ACON and Church & Dwight (dated June 23, 2006), as amended.

L. "Confidential Business Information" means all information owned by, or in the possession or control of, Respondent that is not in the public domain and that is directly related to the research, Development, manufacture, marketing, commercialization, importation, exportation, cost, supply, sales, sales support or use of the Digital Consumer Pregnancy Test Products and was created, generated, or Developed by either ACON or Church & Dwight under the Church & Dwight/ACON R&D Agreement or the Church & Dwight/ACON Supply Agreement; *provided, however*, that the restrictions contained in this Order regarding the use, conveyance, provision or disclosure of "Confidential Business Information" shall not apply to the following:

1. information that subsequently falls within the public domain through no violation of this Order or breach of confidentiality or non-disclosure agreement with respect to such information by Respondent;

2. information related to the Digital Consumer Pregnancy Test Products that Respondent can demonstrate it obtained without the assistance of ACON prior to the Acquisition; and

3. information that is required by Law to be publicly disclosed.

M. "Consumer Pregnancy Test(s)" means any product marketed, or designed to be marketed, to an end user in the over-the-counter market that uses a lateral flow strip to detect the presence or absence of a pregnancy-indicating hormone in a urine sample.

N. "Contract Manufacture" means the testing and manufacture of a Digital Consumer Pregnancy Test Product to be supplied by Respondent, ACON, or a Designee to Church & Dwight.

O. "Designee" means any entity other than Respondent or ACON that will manufacture a Digital Consumer Pregnancy Test Product on behalf of Church & Dwight.

P. "Development" means all product development activities, including: test method development and stability testing; toxicology; formulation; process development; manufacturing scale-up; development-stage manufacturing; quality assurance/quality control development; statistical analysis and report writing; conducting tests or trials for any and all approvals, licenses, registrations or authorizations from any Agency necessary for the manufacture, use, storage, import, export, transport, promotion, marketing, and sale of a product (including any government price or reimbursement approvals); and regulatory affairs related to the foregoing. "Develop" means to engage in Development.

Q. "Digital Consumer Pregnancy Test Product(s)" means the Consumer Pregnancy Test products that are the subject of Appendix 1 of Church & Dwight/ACON R&D Agreement and/or Attachment A-1 of the Church & Dwight/ACON Supply Agreement.

R. "Digital Consumer Pregnancy Test Product Assets" means all rights, title and interest in and to the following assets:

1. all Digital Consumer Pregnancy Test Product Intellectual Property;

2. all Product Approvals directly related to the Digital Consumer Pregnancy Test Products;

3. all Product Manufacturing Technology that was created, generated, or Developed by ACON and/or Church & Dwight under the Church & Dwight/ACON R&D Agreement or the Church & Dwight/ACON Supply Agreement;

4. all Product Development Reports directly related to the Digital Consumer Pregnancy Test Products;

5. all Trademarks used prior to, up to, and including, the Order Date by Church and Dwight and/or ACON to market or sell the Digital Consumer Pregnancy Test Products;

6. all options acquired by Respondent from ACON to acquire or exercise rights in the Digital Consumer Pregnancy Test Products;

7. all contingent interests or claims acquired by Respondent from ACON in the Digital Consumer Pregnancy Test Products; and

8. all of ACON's books, records, and files directly related to the foregoing;

9. *Provided, however*, that the Digital Consumer Pregnancy Test Product Assets:

    a. shall not include any and all technology, intellectual property or intellectual property right that was not created, generated, or Developed by ACON and/or Church & Dwight under the Church & Dwight/ACON R&D Agreement or the Church & Dwight/ACON Supply Agreement including the Reserved Patent Rights or the Metrika Patents;

    b. shall not include administrative, financial, and accounting records;

    c. shall include copies or relevant excerpts of documents and materials containing information relating to the Digital Consumer Pregnancy Test Product Assets in cases in which the documents or other materials included in the relevant assets to be provided to Church & Dwight contain information: (1) that relates both to any Digital Consumer Pregnancy Test Product and to other products or businesses of ACON or Respondent and cannot be segregated in a manner that preserves the usefulness of the information as it relates to such Digital Consumer Pregnancy Test Product; or (2) for which ACON or Respondent has a legal obligation to retain the original copies; and

    d. shall include access to original documents under circumstances where copies of documents are insufficient for evidentiary or regulatory purposes.

S. "Digital Consumer Pregnancy Test Product Core Employees" means the employees listed on Appendix A attached hereto.

T. "Digital Consumer Pregnancy Test Product Intellectual Property" means all of the following intellectual property to the extent owned, controlled, held, or otherwise possessed by Respondent:

1. any and all Patents that were or are filed by either Church & Dwight or ACON, after April 27, 2005, do not claim priority to a patent application filed before April 27, 2005 and claim an invention conceived, created, generated, or Developed under the Church & Dwight/ACON R&D Agreement;

2. any and all Other Intellectual Property, including the rights to obtain, file, and prosecute applications for patents and copyrights and registrations thereof, that was, or the subject matter of which was, created, generated, or Developed, by Church & Dwight and/or ACON under the Church & Dwight/ACON R&D Agreement or Church & Dwight/ACON Supply Agreement; and

3. rights to sue and recover damages or obtain injunctive relief for infringement, dilution, misappropriation, violation, or breach of any of the foregoing.

U. "Government Entity" means any Federal, state, local or non-U.S. government, or any court, legislature, government agency, or government commission, or any judicial or regulatory authority of any government.

V. "Interim Monitor" means any monitor appointed pursuant to Paragraph V of this Order.

W. "Law" means all laws, statutes, rules, regulations, ordinances, and other pronouncements by any Government Entity having the effect of law.

X. "May-Davis Patents" means any United States Patent claiming priority from British patent application numbers GB 8725457 and GB 8709873 (May), or GB 8903627 (Davis).

Y. "Metrika Patents" means the following United States Patents:

1. US Patent No. 5,580,794; and

2. US Patent No. 5,837,546.

Z. "Order Date" means the date on which this Order becomes final.

AA. "Other Intellectual Property" means trade secrets, copyrights (and right to obtain, file and prosecute copyrights and registrations thereof), know-how, techniques, data, inventions, practices, methods, and other confidential or proprietary technical, business, research, Development and other information.

BB. "Ownership Interest" means any and all rights, present or contingent, of Respondent to hold any voting or nonvoting stock, share capital, assets, equity or other interests or beneficial ownership in a Person.

CC. "Patents" means all patents, patent applications, including provisional patent applications, statutory invention registrations, and inventor's certificates, and rights to obtain, file and prosecute applications for patents, in each case existing as of the Order Date (*except* where this Order specifies a different date or time), and includes all reissues, divisions, continuations, continuations-in-part, supplementary protection certificates, extensions and reexaminations thereof, all inventions disclosed therein, and all rights therein provided by international treaties and conventions.

DD. "Person" means any individual, partnership, joint venture, firm, corporation, association, trust, unincorporated organization, joint venture, or other business or Government Entity, and any subsidiaries, divisions, groups or affiliates thereof.

EE. "Premarket Approval(s)" means the applications for a product filed or to be filed with the FDA pursuant to 21 C.F.R. § 814, and all supplements, amendments, and revisions thereto, any preparatory work, drafts and data necessary for the preparation thereof, all information submitted with or incorporated by reference, and all correspondence between Respondent and the FDA related thereto. The term "Premarket Approval(s)" includes all orders of approval and all reports and documents submitted to the FDA under postapproval requirements.

FF. "Premarket Notification(s)" means a premarketing submission for a product filed or to be filed with the FDA pursuant to 21 C.F.R. § 807, and all supplements, amendments, and revisions thereto, any preparatory work, drafts and data necessary for the preparation thereof, all information submitted with or incorporated by reference, and all correspondence between Respondent and the FDA related thereto, to demonstrate that a device to be marketed is as safe and effective as, or substantially equivalent to, a legally marketed device that is not subject to Premarket Approval. The term "Premarket Notification(s)" includes all notices of registration and all reports and documents required to be submitted to the FDA related to the marketing of such product.

GG. "Product Approval(s)" means any approvals, registrations, permits, licenses, consents, authorizations, and other approvals, and pending applications and requests therefor, required by applicable Agencies related to the research, Development, manufacture, distribution, finishing, packaging, marketing, sale, storage or transport of the product within the United States of America, and includes, without limitation, all approvals, registrations, licenses or authorizations granted in connection with any Premarket Approval and/or Premarket Notification.

HH. "Product Development Reports" means all of the following documents to the extent directly related to the Digital Consumer Pregnancy Test Products and Water Soluble Consumer Pregnancy Test Products:

1. inventory of research and development records, research history, research efforts, research notebooks, research reports, technical service reports, testing methods, invention disclosures, and know how;

2. all correspondence to or from the FDA related to such product(s);

3. annual and periodic reports;

4. approved product labeling;

5. currently used product package inserts;

6. customer circulars and information;

7. summary of product complaints from customers; and

8. product recall reports.

II. "Product Manufacturing Technology" means, to the extent owned, controlled, held, or otherwise possessed by Respondent, any and all of the following:

1. all technology, trade secrets, know-how, and proprietary information (whether patented, patentable or otherwise) directly related to the manufacture of the specified products including, without limitation, the following: all techniques and specifications, quality control processes, analytical methods for process controls, product designs, plans, trade secrets, ideas, concepts, manufacturing, engineering, and other manuals and drawings, standard operating procedures, flow diagrams, chemical, safety, quality assurance, quality control, research records, clinical data, compositions, annual product reviews, regulatory communications, control history, current and historical information associated with the Product Approvals, and labeling and all other information related to the manufacturing process;

2. the identity of all suppliers and subcontractors;

3. all Assays; and

4. all Product Development Reports.

JJ. "Reserved Patent Rights" means, collectively, any and all Respondent's rights in, to or under any and all patents and patent applications claiming the benefit of or priority to (i) U.S. Patent Application Serial No. 07/211,582, including, without limitation, U.S. Patent Nos. 5,714,389; 5,989,921; and 6,485,982; (ii) one or more of GB Patent Application Serial Nos. 8709873 and 8725457, including, without limitation, U.S. Patent Nos. 5,602,040; 5,622,871; 5,656,503; 6,187,598; 6,228,660; 6,818,455; and 7,109,042; (iii) GB Patent Application Serial No. 8903627, and including, without limitation, U.S. Patent Nos. 6,352,862; 7,238,537; 7,384,796; and 7,407,813; (iv) U.S. Patent Application Serial No. 07/072,459, including, without limitation, U.S. Patent Nos. 5,120,643; 5,578,577; and 6,534,320; and (v) any and all continuations, divisionals, reissues, reexaminations, and foreign counterparts or equivalents of any and all of the foregoing.

KK. "Technology Transfer Standards" means requirements and standards sufficient to ensure that the information and assets required to be delivered pursuant to this Order are delivered in an organized, comprehensive, complete, useful, timely (*i.e.*, ensuring no unreasonable delays in transmission), and meaningful manner. Such standards and requirements may include, *inter alia*,

a. designating employees knowledgeable about the Product Manufacturing Technology and intellectual property included in either the Digital Consumer Pregnancy Test Assets or the Water Soluble Consumer Pregnancy Test Assets, as applicable, who will be responsible for communicating directly with any Person designated to receive such information and assets, including the Interim Monitor (if one has been appointed), for the purpose of effecting such delivery;

b. preparing technology transfer protocols and transfer acceptance criteria for both the processes and analytical methods related to the specified product(s) that are acceptable to any Person designated to receive such information and assets;

c. preparing and implementing a detailed technological transfer plan that contains, *inter alia*, the transfer of all relevant information, all appropriate documentation, all other materials, and projected time lines for the delivery of all such Product Manufacturing Technology and all such intellectual property to any Person designated to receive such information and assets; and

d. providing, in a timely manner, assistance and advice to enable any Person designated to receive such information and assets (or its Designee) to:

(1) manufacture the specified product(s) in the quality and quantities achieved by ACON;

(2) obtain any Product Approvals necessary for any Person designated to receive such information and assets to manufacture, distribute, market, and sell the specified product(s) in commercial quantities; and

(3) receive, integrate, and use all such Product Manufacturing Technology and all such intellectual property related to the specified product(s).

LL. "Third Party(ies)" means any private entity other than the following: (1) Respondent; (2) ACON; (3) Church & Dwight or (4) Aemoh.

MM. "Trademark(s)" means all United States proprietary names or designations, trademarks, tradenames, and brand names, including registrations and applications for registration therefor (and all renewals, modifications, and extensions thereof), and all common law rights, and the goodwill symbolized thereby and associated therewith.

NN. "Water Soluble Consumer Pregnancy Test Product(s)" means the lateral flow immunoassay Consumer Pregnancy Tests based on the use of water-soluble dyes Developed or under Development by ACON prior to February 24, 2006 for sale in the United States and any improvement to such tests. The term "Water Soluble Consumer Pregnancy Test Product(s)" shall not include lateral flow immunoassay pregnancy tests that use particulate labels, *e.g.*, colloidal gold or latex particles.

OO. "Water Soluble Consumer Pregnancy Test Product ACON Patents" means the following United States Patents:

1. US Patent No. 6627460; and

2. US Patent No. 5543332.

PP. "Water Soluble Consumer Pregnancy Test Product Assets" means all Respondent's rights, title in and interest in and to the following assets related directly to the Water Soluble Consumer Pregnancy Test Products:

1. The sublicense described in Paragraph III.A.1 of this Order;

2. all Product Approvals directly related to the Water Soluble Consumer Pregnancy Test Products;

3. all Product Manufacturing Technology that was created, generated, or Developed by ACON for the Water Soluble Consumer Pregnancy Test Products;

4. copies of all Product Development Reports directly related to the Water Soluble Consumer Pregnancy Test Products; and

5. copies of all of Respondent books, records, and files directly related to the foregoing;

6. *Provided, however*, that the Water Soluble Consumer Pregnancy Test Product Assets:

   a. shall not include the administrative, financial, and accounting records;

   b. shall include copies or relevant excerpts of documents and materials containing information relating to the Water Soluble Consumer Pregnancy Test Product Assets in cases in which the documents or other materials included in the relevant assets to be provided to Aemoh contain information: (1) that relates both to any Water Soluble Consumer Pregnancy Test Product and to other products or businesses of Respondent or ACON and cannot be segregated in a manner that preserves the usefulness of the information as it relates to such Water Soluble Consumer Pregnancy Test Product; or (2) for which Respondent or ACON has a legal obligation to retain the original copies; and

   c. shall include access to original documents under circumstances where copies of documents are insufficient for evidentiary or regulatory purposes.

QQ. "Water Soluble Consumer Pregnancy Test Product Core Employees" means the employees listed in Appendix B attached hereto.

RR. "Water Soluble Consumer Pregnancy Test Product Intellectual Property" means all of the following intellectual property to the extent owned, controlled, held, or otherwise possessed by Respondent:

1. any and all Water Soluble Consumer Pregnancy Test Product ACON Patents and Patents that ACON filed that contain subject matter that relates directly to the Water Soluble Consumer Pregnancy Test Product(s);

2. any and all Other Intellectual Property, including the rights to obtain, file, and prosecute applications for patents and copyrights and registrations thereof, that was, or the subject matter of which was, created, generated, or Developed, by ACON for the Water Soluble Consumer Pregnancy Test Product(s); and

3. rights to sue and recover damages or obtain injunctive relief for infringement, dilution, misappropriation, violation, or breach of any of the foregoing.

SS. "Water Soluble Consumer Pregnancy Test Product Releasee(s)" means Aemoh or any entity controlled by or under common control with Aemoh ("affiliated entities"), or any licensees, sublicensees, manufacturers, suppliers, distributors, or customers of Aemoh or its affiliated entities.

II.

IT IS FURTHER ORDERED that:

A. Not later than ten (10) days after the Order Date, Respondent shall:

1. disclaim in writing any and all rights, title and interest in or to the Digital Consumer Pregnancy Test Product Assets in favor of Church & Dwight;

2. to the extent owned or controlled, directly or indirectly, by or otherwise in the possession of Respondent, and at the expense of Respondent, transfer and deliver all Digital Consumer Pregnancy Test Product Assets to Church & Dwight;

3. amend, or provide written clarification of, any contract(s) or agreement(s) between the Respondent and ACON, and enter into such other contract(s) or agreement(s) as may be necessary with ACON, in order to:

    a. permit ACON fully to transfer and deliver all of the Digital Consumer Pregnancy Test Product Assets to Church & Dwight to the extent such assets are owned or controlled, directly or indirectly, by ACON, or are otherwise in the possession of ACON, in a manner consistent with the Technology Transfer Standards;

b. remove any prohibitions or impediments that would prevent ACON from transferring and delivering such Digital Consumer Pregnancy Test Product Assets to Church & Dwight;

c. permit, and provide all rights within Respondent's control necessary to allow, ACON to perform the Contract Manufacture of Digital Consumer Pregnancy Test Products on behalf of Church & Dwight on an uninterrupted basis for a period of time continuing at least until December 22, 2010;

d. remove any prohibitions or impediments that would prevent ACON from performing the Contract Manufacture of Digital Consumer Pregnancy Test Products on behalf of Church & Dwight for a period of time continuing at least until December 22, 2010;

e. remove any financial disincentives to the extent that such financial disincentives would prevent ACON from making and retaining a profit on any Contract Manufacture of Digital Consumer Pregnancy Test Products on behalf of Church & Dwight for a period continuing at least until December 22, 2010;

f. permit, and provide all rights within Respondent's control necessary to allow, ACON to maintain the manufacturing and related testing, storage, and shipping facilities necessary to manufacture the Digital Consumer Pregnancy Test Products in finished form suitable for commercial sale for a period of time continuing at least until December 22, 2010; *provided however*, this requirement shall end if Church & Dwight exercises any rights it may have or otherwise determines to discontinue purchasing Digital Consumer Pregnancy Test Products from ACON at an earlier date;

g. to the extent the foregoing ACON manufacturing and related testing, storage, and shipping facilities are subject to any rights held by the Respondent, permit Church & Dwight to continue purchasing Digital Consumer Pregnancy Test Products for a period of time continuing at least until December 22, 2010, or to discontinue purchasing Digital Consumer Product Pregnancy Test Products, from such facilities, without penalty, upon Church & Dwight providing agreed-to or otherwise reasonable notification to ACON or Respondent; and

h. permit, and provide all rights within Respondent's control necessary to allow, ACON to provide all records that relate to the manufacture of the Digital Consumer Pregnancy Test Products by ACON on behalf of Church & Dwight that are generated or created after the Order Date, as such records are requested by Church & Dwight or the Interim Monitor (if one has been appointed);

provided, however, Paragraph II shall not require Respondent to transfer, disclaim, license, grant, or not assert, any technology, intellectual property or intellectual property right that was not created, generated, or Developed by ACON and/or Church & Dwight

under the Church & Dwight/ACON R&D Agreement or the Church & Dwight/ACON Supply Agreement, including the Reserved Patent Rights.

B. Respondent shall:

1. cooperate with, and take no action that interferes with or impedes:

   a. ACON's transfer and delivery of such Digital Consumer Pregnancy Test Product Assets to Church & Dwight in a manner consistent with the Technology Transfer Standards; or

   b. ACON's performance of the Contract Manufacture of Digital Consumer Pregnancy Test Products on behalf of Church & Dwight during the period of time continuing until December 22, 2010; and

2. not seek to enforce, directly or indirectly, any of Respondent's rights under any contract or agreement with ACON that would interfere with or impede ACON's ability to transfer and deliver such Digital Consumer Pregnancy Test Product Assets to Church & Dwight, or that would interfere with or impede ACON's ability to Contract Manufacture Digital Consumer Pregnancy Test Products on behalf of Church & Dwight for a period of time continuing at least until December 22, 2010;

3. not enforce any agreement between Respondent and ACON, a Third Party, or Church & Dwight against the applicable counterparty to the extent that such agreement may limit or otherwise impair the ability of Church & Dwight to acquire the Digital Consumer Pregnancy Test Product Intellectual Property or the Product Manufacturing Technology included in the Digital Consumer Pregnancy Test Product Assets from any Third Party. Such agreements include, but are not limited to, agreements with respect to the disclosure of Confidential Business Information directly related to such Product Manufacturing Technology; and

4. not later than ten (10) days after the Order Date, grant a release to each Third Party that is subject to any agreement described in Paragraph II.B.3 allowing such Third Party to provide all such Digital Consumer Pregnancy Test Product Intellectual Property and/or, all such Product Manufacturing Technology included in the Digital Consumer Pregnancy Test Product Assets to Church & Dwight. Within five (5) days of the execution of each such release, Respondent shall provide a copy of the release to Church & Dwight.

C. For a period of up to twelve (12) months from the Order Date, Respondent shall not interfere with the hiring or employing by Church & Dwight of the Digital Consumer Pregnancy Test Product Core Employees, and shall remove any impediments within the control of Respondent that may deter these employees from accepting employment with Church & Dwight, including, but not limited to, any noncompete or nondisclosure provision of employment or other contracts with Respondent that would affect the ability or incentive

of those individuals to be employed by Church & Dwight. In addition, Respondent shall not make any counteroffer to such a Digital Consumer Pregnancy Test Product Core Employee who has received a written offer of employment from Church & Dwight of which Respondent is aware.

D. Respondent shall take no action that would interfere with or prohibit knowledgeable employees of ACON from assisting Church & Dwight to defend against, respond to, or otherwise participate in any litigation directly related to the Digital Consumer Pregnancy Test Product Intellectual Property.

E. Respondent shall:

1. submit to Church & Dwight all Confidential Business Information;

2. deliver such Confidential Business Information:

   a. in good faith;

   b. as soon as practicable, avoiding any delays in transmission of the respective information; and

   c. in a manner that ensures its completeness and accuracy and that fully preserves its usefulness;

3. pending complete delivery of all Confidential Business Information to Church & Dwight, provide Church & Dwight and the Interim Monitor (if one has been appointed) with access to all such Confidential Business Information, and to employees who possess or are able to locate such information, for the purpose of identifying the books, records and files related to the Digital Consumer Pregnancy Test Products that contain such Confidential Business Information and facilitating the delivery of such information in a manner consistent with this Order.

F. Respondent shall not:

1. use, directly or indirectly, any such Confidential Business Information directly related to the research, Development, manufacturing, marketing, or sale of the Digital Consumer Pregnancy Test Products other than as necessary to comply with the following:

   a. the requirements of this Order;

   b. obligations to Church & Dwight under the terms of any pre-existing agreement between ACON and Church & Dwight; or

   c. applicable Law;

2. disclose or convey any Confidential Business Information, directly or indirectly, to any private-entity Person (including the Respondent) except Church & Dwight; and

3. provide, disclose or otherwise make available, directly or indirectly, any such Confidential Business Information to the employees of the Respondent associated with its business(es) related to rapid detection pregnancy tests.

G. Respondent shall require that each Digital Consumer Pregnancy Test Product Core Employee hired or retained by Respondent, the direct supervisor(s) of any such employee, and any other employee hired or retained by Respondent and designated by the Interim Monitor (if one has been appointed) sign a confidentiality agreement pursuant to which such employee shall be required to maintain all Confidential Business Information directly related to the Digital Consumer Pregnancy Test Products as strictly confidential, including the nondisclosure of such information to all other employees, executives or other personnel of Respondent (other than as necessary to comply with the requirements of this Order).

H. Respondent shall assure, in any instance wherein its counsel (including in-house counsel under appropriate confidentiality arrangements) either retains unredacted copies of documents or other materials provided to Church & Dwight, or accesses original documents (under circumstances where copies of documents are insufficient or otherwise unavailable) provided to Church & Dwight, that Respondent's counsel does so only for the following purposes:

1. to assure Respondent's compliance with this Order, any Law (including, without limitation, any requirement to obtain regulatory licenses or approvals), any agreement with Church & Dwight, any data retention requirement of any applicable Government Entity, or any taxation requirements; or

2. to defend against, respond to, or otherwise participate in any litigation, investigation, audit, process, subpoena or other proceeding relating to the transfer of the Product Manufacturing Technology directly related to the research, Development, or manufacture of the Digital Consumer Pregnancy Test Products or the Digital Consumer Pregnancy Test Product Intellectual Property or businesses associated with the Digital Consumer Pregnancy Test Products; *provided*, *however*, that Respondent may disclose such information as necessary for the purposes set forth in this Paragraph pursuant to an appropriate confidentiality order, agreement or arrangement;

provided further, *however,* that pursuant to this Paragraph, Respondent shall: (1) require those who view such unredacted documents or other materials to enter into confidentiality agreements with Church & Dwight (but shall not be deemed to have violated this requirement if Church & Dwight withholds such agreement unreasonably); and (2) use its best efforts to obtain a protective order to protect the confidentiality of such information during any adjudication.

I. Not later than ten (10) days after the Order Date, Respondent shall amend any contract(s) or agreement(s) between the Respondent and Bayer (including, without limitation such contract(s) or agreement(s) with Metrika, Inc.), and enter such other contract(s) or agreement(s) as may be necessary with Bayer, in order to authorize Bayer to sell a co-exclusive license to the Metrika Patents, in the United States, to Church & Dwight (*i.e.*, a license to the Metrika Patents under which license the Respondent and Church & Dwight would be co-exclusive licensees); *provided however*, that Respondent may condition the authorization granted to Bayer upon payment to Respondent of an amount not to exceed the lesser of: (1) one-half of Respondent's original purchase price for Respondent's exclusive license to the Metrika Patents, or (2) one half of the license fee paid to Metrika by Church & Dwight.

J. Respondent shall not enforce any agreement between Respondent and Bayer, a Third Party, or Church & Dwight against the applicable counterparty to the extent that such agreement may limit or otherwise impair the ability of Church & Dwight to acquire the above-described co-exclusive license to the Metrika Patents, and shall not interfere with, or take any action that might delay, such licensing of these patents to Church & Dwight.

K. The purpose of Paragraph II of this Order is to ensure the continued use of the Digital Consumer Pregnancy Test Product Assets in the research, Development, and manufacture of the Digital Consumer Pregnancy Test Products, including variations and improvements thereto, fully independent of the Respondent, and to remedy the lessening of competition resulting from the acts and practices of the Respondent as alleged in the Commission's Complaint.

III.

IT IS FURTHER ORDERED that:

A. Not later than ten (10) days after the Order Date, Respondent shall:

1. grant to Aemoh an exclusive, perpetual, fully paid-up and royalty-free sub-license in the United States, with rights to sub-license of all of Respondent's rights to the Water Soluble Consumer Pregnancy Test Product Intellectual Property to the full extent of the fields of use for which Respondent is licensed to use such Water Soluble Consumer Pregnancy Test Product Intellectual Property including, without limitation, the right and sub-license:

   a. to use, make, distribute, offer for sale, promote, advertise, sell, import, or export the Water Soluble Consumer Pregnancy Test Products; and

   b. to have used, made, distributed, offered for sale, promoted, advertised, sold, imported, or exported the Water Soluble Consumer Pregnancy Test Products;

2. deliver all Water Soluble Consumer Pregnancy Test Product Assets, or copies thereof, in the possession of or under the control of Respondent to Aemoh in a manner consistent with the Technology Transfer Standards;

3. amend, and/or provide written clarification of, any contract(s) or agreement(s) between the Respondent and ACON, and enter such other contract(s) or agreement(s) as may be necessary with ACON, in order to permit ACON fully to deliver any and all Water Soluble Consumer Pregnancy Test Product Assets to Aemoh to the extent such assets are owned or controlled, directly or indirectly, by ACON, or otherwise in the possession of ACON, in a manner consistent with the Technology Transfer Standards.

B. Respondent shall take all actions within its control to secure all consents and waivers from Third Party(ies) to the extent such consents are necessary to permit Respondent and/or ACON to grant, transfer or deliver such Water Soluble Consumer Pregnancy Test Product Assets to Aemoh, in a timely manner, and/or to permit Aemoh to research, Develop, manufacture, sale, market or distribute Water Soluble Consumer Pregnancy Test Products;

provided, however, Respondent may satisfy this requirement by certifying that Aemoh has executed all such agreements directly with each of the relevant Third Parties.

C. Respondent shall:

1. not enforce any agreement between Respondent and ACON, a Third Party, or Aemoh against the applicable counterparty to the extent that such agreement may limit or otherwise impair the ability of Aemoh to acquire the Water Soluble Consumer Pregnancy Test Product Intellectual Property or the Product Manufacturing Technology included in the Water Soluble Consumer Pregnancy Test Product Assets from any Third Party; and

2. not later than ten (10) days after the Order Date, grant a release to each Third Party that is subject to any agreement described in Paragraph III.C.1 allowing such Third Party to provide all such Water Soluble Consumer Pregnancy Test Product Intellectual Property and/or all such Product Manufacturing Technology included in the Water Soluble Consumer Pregnancy Test Product Assets to Aemoh. Within five (5) days of the execution of each such release, Respondent shall provide a copy of the release to Aemoh.

D. For a period of up to twelve (12) months from the Order Date, Respondent shall not interfere with the hiring or employing by Aemoh of the Water Soluble Consumer Pregnancy Test Product Core Employees, and shall remove any impediments within the control of Respondent that may deter these employees from accepting employment with Aemoh, including, but not limited to, any noncompete or nondisclosure provision of employment or other contracts with Respondent that would affect the ability or incentive of those individuals to be employed by Aemoh. In addition, Respondent shall not make any counteroffer to such a Water Soluble Consumer Pregnancy Test Product Core Employee

who has received a written offer of employment from Aemoh of which Respondent is aware.

E. Respondent shall take no action which would interfere with or prohibit knowledgeable employees of ACON from assisting Aemoh to defend against, respond to, or otherwise participate in any litigation directly related to the Water Soluble Consumer Pregnancy Test Product Intellectual Property.

F. Respondent shall not join, file, prosecute or maintain any suit, in law or equity, against Aemoh or the Water Soluble Consumer Pregnancy Test Product Releasee(s) for the research, Development, manufacture, use, import, export, distribution, or sale of the Water Soluble Consumer Pregnancy Test Product(s) under the following:

1. any Patent owned or licensed by Respondent as of the Order Date that claims a method of making, using, or administering, or a composition of matter, relating to lateral flow immunoassay technology, or that claims a device relating to the use thereof, including, without limitation, the Reserved Patent Rights; or

2. any Patent owned or licensed by Respondent at any time after the Order Date that claims any aspect of the research, Development, manufacture, use, import, export, distribution, or sale of the relevant lateral flow immunoassay technology, including, without limitation, the Reserved Patent Rights, other than Patents that claim inventions conceived by and reduced to practice after the Order Date;

if such suit would have the potential to interfere with Aemoh's freedom to practice the following: (1) the research, Development, or manufacture of the relevant Water Soluble Consumer Pregnancy Test Product(s); or (2) the use, import, export, supply, distribution, sale, or offer for sale of the relevant Water Soluble Consumer Pregnancy Test Product(s) within the United States. Respondent shall also covenant to Aemoh that as a condition of any assignment, transfer, or exclusive license to a Third Party of the above-described Patents, the Third Party shall agree to provide a covenant to Aemoh whereby the Third Party covenants not to sue Aemoh or the related Water Soluble Consumer Pregnancy Test Product Releasee(s) under such Patents, if the suit would have the potential to interfere with Aemoh's freedom to practice the following: (1) the research, Development, or manufacture of the relevant Water Soluble Consumer Pregnancy Test Product(s); or (2) the use, import, export, supply, distribution, sale, or offer for sale of the relevant Water Soluble Consumer Pregnancy Test Product(s) within the United States;

provided however, this Paragraph III.F shall have no force or effect with respect to any product that uses particulate labels, *e.g.*, colloidal gold or latex particles, whether or not such product uses (i) conjugates claimed or described in the Water Soluble Consumer Pregnancy Test Product Intellectual Property and/or (ii) Water Soluble Consumer Pregnancy Test Product Intellectual Property created, generated, or Developed by ACON for the Water Soluble Consumer Pregnancy Test Products.

G. The purpose of Paragraph III of this Order is to provide for the future use of the Water Soluble Consumer Pregnancy Test Product Assets in the research, Development, manufacture, distribution, sale and marketing of Consumer Pregnancy Tests, and to remedy the lessening of competition resulting from the acts and practices of the Respondent as alleged in the Commission's Complaint.

IV.

IT IS FURTHER ORDERED that for a period commencing on the Order Date and continuing for the term of this Order, Respondent shall not, without providing advance written notification to the Commission, acquire, through subsidiaries or otherwise, directly or indirectly (including, without limitation, acquisitions by any joint venture in which Inverness is a partner from any other partner(s) of such joint venture), the following:

A. any Ownership Interest in any Person that is not already included within the definition of Respondent and that engages in manufacture, distribution, marketing of Consumer Pregnancy Tests for sale in the United States; *provided, however,* that this provision shall not apply to an acquisition of assets that are not used in the manufacture, distribution, or marketing of Consumer Pregnancy Tests for sale in the United States;

B. any right, title, or interest under exclusive license or assignment from any Person that is not already included within the definition of Respondent under a United States Patent that: (1) includes the term "hCG" or "chorionic gonadotropin," and (2) contains a claim directed to a lateral flow immunoassay technology for the detection of human chorionic gonadotropin (hCG); or

C. any right, title, or interest under exclusive license or assignment from any Person that is not already included within the definition of Respondent under a United States Trademark that has been used to market, sell or distribute a Consumer Pregnancy Test of such Person in the United States at any time since February 24, 2006.

Said notifications shall be given on the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations as amended (hereinafter referred to as "the Notification"), and shall be prepared and transmitted in accordance with the requirements of that part, except that no filing fee will be required for any such Notification, Notification shall be filed with the Secretary of the Commission with a copy to the Assistant Director, Bureau of Competition, Division of Compliance. Notification need not be made to the United States Department of Justice, and Notification is required only of the Respondent and not of any other party to the transaction. Respondent shall provide three (3) complete copies (with all attachments and exhibits) of the Notification at least thirty (30) days prior to consummating any such transaction (hereinafter referred to as the "first waiting period"), as follows: one (1) such copy to the Assistant Director of the Bureau of Competition, Division of Compliance, and two (2) such copies to the Secretary of the Commission. If, within the first waiting period, representatives of the

Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Respondent shall not consummate the transaction until thirty (30) days after substantially complying with such request. Early termination of the waiting periods in this Paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition; *provided, however*, that prior notification shall not be required by this Paragraph for a transaction for which notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a; *provided however*, that the notification requirements of this Paragraph IV shall not apply to the acquisition by Respondent of any of the assets and rights of ACON that are or were the subject of the Acquisition.

V.

IT IS FURTHER ORDERED that:

A. At any time after Respondent signs the Consent Agreement in this matter, the Commission may appoint a monitor ("Interim Monitor") to assure that Respondent expeditiously complies with all of its obligations and performs all of its responsibilities as required by this Order.

B. The Commission shall select the Interim Monitor, subject to the consent of Respondent, which consent shall not be unreasonably withheld. If Respondent has not opposed, in writing, including the reasons for opposing, the selection of a proposed Interim Monitor within ten (10) days after notice by the staff of the Commission to Respondent of the identity of any proposed Interim Monitor, Respondent shall be deemed to have consented to the selection of the proposed Interim Monitor.

C. Not later than ten (10) days after the appointment of the Interim Monitor, Respondent shall execute an agreement that, subject to the prior approval of the Commission, confers on the Interim Monitor all the rights and powers necessary to permit the Interim Monitor to monitor Respondent's compliance with the relevant requirements of the Order in a manner consistent with the purposes of the Order.

D. If an Interim Monitor is appointed, Respondent shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Interim Monitor:

   1. The Interim Monitor shall have the power and authority to monitor Respondent's compliance with the transfer of the Product Manufacturing Technology and the related intellectual property, and with the asset maintenance obligations and related requirements of the Order, and shall exercise such power and authority and carry out the duties and responsibilities of the Interim Monitor in a manner consistent with the purposes of the Order and in consultation with the Commission.

   2. The Interim Monitor shall act in a fiduciary capacity for the benefit of the Commission.

3. The Interim Monitor shall serve until the later of:

    a. the completion of Respondent's obligations regarding the transfer of the Product Manufacturing Technology included in the Digital Consumer Pregnancy Test Assets and the Digital Consumer Pregnancy Test Product Intellectual Property to Church & Dwight (or the Designee(s) of Church & Dwight) in a manner that fully satisfies the requirements of the Order; or

    b. the completion of Respondent's obligations regarding the transfer of the Product Manufacturing Technology included in the Water Soluble Consumer Pregnancy Test Assets and the Water Soluble Consumer Pregnancy Test Product Intellectual Property to Aemoh (or the Designee(s) of Aemoh) in a manner that fully satisfies the requirements of the Order;

   provided, however, that the Commission may shorten or extend this period as may be necessary or appropriate to accomplish the purposes of the Order.

4. Subject to any demonstrated legally recognized privilege, the Interim Monitor shall have full and complete access to Respondent's personnel, books, documents, records kept in the ordinary course of business, facilities and technical information, and such other relevant information as the Interim Monitor may reasonably request, related to Respondent's compliance with its obligations under the Order, including, but not limited to, its obligations related to the relevant assets. Respondent shall cooperate with any reasonable request of the Interim Monitor and shall take no action to interfere with or impede the Interim Monitor's ability to monitor Respondent's compliance with the Order.

5. The Interim Monitor shall serve, without bond or other security, at the expense of Respondent, on such reasonable and customary terms and conditions as the Commission may set. The Interim Monitor shall have authority to employ, at the expense of Respondent, such consultants, accountants, attorneys and other representatives and assistants as are reasonably necessary to carry out the Interim Monitor's duties and responsibilities.

6. Respondent shall indemnify the Interim Monitor and hold the Interim Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Interim Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Interim Monitor.

7. Respondent shall report to the Interim Monitor in accordance with the requirements of this Order and/or as otherwise provided in any agreement approved by the Commission. The Interim Monitor shall evaluate the reports submitted to the Interim Monitor by

Respondent, and any reports submitted by Church & Dwight with respect to the performance of Respondent's obligations under the Order. Within thirty (30) days from the date the Interim Monitor receives these reports, the Interim Monitor shall report in writing to the Commission concerning performance by Respondent of its obligations under the Order.

8. Respondent may require the Interim Monitor and each of the Interim Monitor's consultants, accountants, attorneys and other representatives and assistants to sign a customary confidentiality agreement; *provided, however,* that such agreement shall not restrict the Interim Monitor from providing any information to the Commission.

E. The Commission may, among other things, require the Interim Monitor and each of the Interim Monitor's consultants, accountants, attorneys and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Interim Monitor's duties.

F. If the Commission determines that the Interim Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Interim Monitor in the same manner as provided in this Paragraph.

G. The Commission may on its own initiative, or at the request of the Interim Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of the Order.

VI.

IT IS FURTHER ORDERED that:

A. Within thirty (30) days after the Order Date, and every sixty (60) days thereafter until Respondent has fully complied with Paragraphs II.A., II.E., II.I. and III.A of this Order, Respondent shall submit to the Commission a verified written report setting forth in detail the manner and form in which it intends to comply, is complying, and has complied with this Order. Respondent shall submit at the same time a copy of its report concerning compliance with this Order to the Interim Monitor, if an Interim Monitor has been appointed. Respondent shall include in its reports, among other things that are required from time to time, a full description of the efforts being made to comply with the relevant Paragraphs of the Order.

B. One (1) year after the Order Date, annually for the next nine (9) years on the anniversary of the Order Date, and at such other times as the Commission may require, Respondent shall file a verified written report with the Commission setting forth in detail the manner and form in which it is complying and has complied with this Order.

VII.

IT IS FURTHER ORDERED that Respondent shall notify the Commission at least thirty (30) days prior to:

A. any proposed dissolution of Respondent;

B. any proposed acquisition, merger or consolidation of Respondent; or

C. any other change in Respondent including, without limitation, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of the Order.

VIII.

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon five (5) days notice to Respondent made to its principal United States offices, registered office of its United States subsidiary, or its headquarters address, Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. access, during business office hours of Respondent and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence,

memoranda and all other records and documents in the possession or under the control of such Respondent related to compliance with this Order, which copying services shall be provided by such Respondent at the request of the authorized representative(s) of the Commission and at the expense of the Respondent; and

B. to interview officers, directors, or employees of such Respondent, who may have counsel present, regarding such matters.

IX.

IT IS FURTHER ORDERED that this Order shall terminate on the earlier of the following dates:

A. the date ten (10) years from the Order Date; or

B. the date on which the last of the May-Davis Patents to expire expires.

By the Commission.

HeartWare International, Inc.,	)	
a corporation.	)	

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act and the Clayton Act, and by virtue of the authority vested in it by said Acts, the Federal Trade Commission, having reason to believe that Respondents Thoratec Corporation ("Thoratec") and HeartWare International, Inc. ("HeartWare") have entered into an agreement, in violation of Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45, for the acquisition of HeartWare by Thoratec, which acquisition, if consummated, would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint, stating its charges as follows:

SUMMARY

1. Thoratec's proposed $282 million acquisition of HeartWare threatens to eliminate the one company poised to seriously challenge Thoratec's monopoly of the U.S. left ventricular assist device ("LVAD") market. LVADs are a life-sustaining technology for treating end-stage heart failure patients who have failed other courses of treatment and are likely to die while waiting for a donor heart or are ineligible for a heart transplant.

2. Thoratec's flagship product, the HeartMate II, and its first-generation LVAD, the HeartMate XVE, are the only LVADs approved for commercial sale by the U.S. Food and Drug

AR_000812

Administration ("FDA"). HeartWare is one of a small number of companies developing LVADs, and one of an even smaller number of companies that are permitted by the FDA to sell limited amounts of these devices pursuant to Investigational Device Exemptions. Of these companies, HeartWare alone represents a significant threat to Thoratec's LVAD monopoly.

3. HeartWare's HVAD, which is positioned to be the next LVAD approved by the FDA, offers a novel design that promises superior reliability with fewer surgical complications. [redacted] of Thoratec's competitors, only HeartWare poses a potential significant threat. [redacted] the HVAD will rapidly erode Thoratec's monopoly following the HVAD's projected FDA approval. [redacted] Likewise, [redacted] HVAD will quickly take market share from Thoratec. [redacted]

4. Competition from HeartWare has already forced Thoratec to innovate even though the HVAD is still in clinical trials. The intensity of this rivalry will only increase once HeartWare obtains FDA approval and [redacted] Competition through lower prices and enhanced features will increase the availability and quality of these lifesaving devices.

5. By acquiring HeartWare, Thoratec willfully seeks to maintain its LVAD monopoly, thereby denying patients the potentially life-saving benefits of competition between Thoratec and HeartWare. This conduct is reasonably capable of contributing significantly to Thoratec's maintenance of monopoly power.

6. Thoratec's acquisition of HeartWare will lead to an increase in market concentration that is presumptively unlawful whether the increase in concentration is based on [redacted] market share projections or based on current sales.

7. No other firm has the ability to replace the current and future competition eliminated by the merger. Any merger specific and cognizable efficiencies resulting from the transaction will not offset the transaction's profound anticompetitive effects.

PARTIES AND JURISDICTION

8. Respondent Thoratec is a corporation, existing and doing business under and by virtue of the laws of the State of California, with its office and principal place of business at 6035 Stoneridge Drive, Pleasanton, California 94588.

9. Thoratec is, and at all relevant times has been, engaged in "commerce" as defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and is an entity whose business is in or affects "commerce" as defined in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

10. Respondent HeartWare is a corporation, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business at 205 Newbury Street, Suite 101, Framingham, Massachusetts 01701.

11. HeartWare is, and at all relevant times has been, engaged in "commerce" as defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and is an entity whose business is in or affects "commerce" as defined in Section 4 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 44.

THE TRANSACTION

12. On February 12, 2009, Thoratec and HeartWare signed an Agreement and Plan of Merger ("Merger") through which Thoratec proposes to acquire 100% of the voting securities of HeartWare in a cash and stock transaction valued at approximately $282 million.

PRODUCT MARKET

13. There are three product markets in which to assess the effects of the Merger:
    a. LVADs;
    b. LVADs as a bridge to transplant therapy; and
    c. LVADs as a destination therapy.

14. By replacing the function of the left ventricle, LVADs provide full circulatory support for end-stage heart failure patients awaiting a donor heart (bridge to transplant) or function as a permanent therapy for patients ineligible for a heart transplant (destination therapy). LVADs are used only after all other potential treatments, including drugs, surgery, and other medical devices, have been exhausted. For that reason, other products used to treat heart failure are not substitutes for LVADs.

GEOGRAPHIC MARKET

15. The geographic market in which to analyze the effects of the Merger is the United States.

MARKET STRUCTURE

16. Thoratec maintains a monopoly in the U.S. LVAD market. It is the only company with LVADs approved for commercial sale in the United States. The HeartMate II accounts for the vast majority of Thoratec's LVAD sales.

17. HeartWare's LVAD device, the HVAD, is in the latter stages of clinical development and poised to be the first and most significant threat to Thoratec's Heartmate II when the HVAD is approved, as expected, in late 2011 or early 2012.

AR_000814

18. In addition to the HeartWare HVAD, there are several other companies working to develop LVADs. Each of these firms faces significant challenges before their LVADs can be approved. Even if they were to overcome these challenges and gain approval, none of these firms appears to have HeartWare's potential to challenge Thoratec's dominant market position. Moreover, it is unlikely that any other LVADs currently in development will reach the market before the HeartWare HVAD.

19. Under both case law and the government's Merger Guidelines, the Merger is presumptively unlawful. At current sales rates, Thoratec currently accounts for over [redacted] of sales in this market, while HeartWare accounts for [redacted] or more of sales, if measured by all sales, including sales for patients participating in clinical trials.

20. The Merger Guidelines measure concentration using the Herfindahl-Hirschman Index ("HHI"). Under that test, a merger is presumed likely to create or enhance market power (and is presumed illegal) when the post-merger HHI exceeds 1,800 and the merger increases the HHI by more than 100.

21. [redacted] HeartWare's HVAD will take significant market share from Thoratec once the HVAD is approved by the FDA in late 2011 or early 2012. As such, [redacted] the Merger would lead to profound increases in market concentration beginning in 2012. [redacted] HHI increases will range from over [redacted] points in 2012 to over [redacted] points in 2013.

22. Moreover, even with HeartWare's sales currently limited to sales for patients participating in the HVAD's clinical trial, the most recent historical market shares show a post-acquisition HHI of more than [redacted] reflecting an HHI increase of at least [redacted] over pre-acquisition levels.

ANTICOMPETITIVE EFFECTS

23. The proposed acquisition may substantially lessen competition in the relevant markets by, among other things:

a. eliminating current and future competition between Thoratec and HeartWare;
b. maintaining Thoratec's existing monopoly position;
c. increasing the likelihood that Thoratec will exercise market power unilaterally;
d. increasing the likelihood that end-stage heart failure patients will be denied life-sustaining treatments and forced to pay higher prices;
e. eliminating innovation competition; and
f. enhancing the likelihood of collusion or coordinated interaction between Thoratec and other LVAD manufacturers.

ENTRY

24. De novo entry into the relevant markets would not be timely, likely, or sufficient in its magnitude, character and scope to prevent or defeat the anticompetitive effects of the proposed acquisition.

25. De novo entry would take more than two years and is difficult, costly, and risky because of the research, development, and regulatory hurdles that companies seeking to market medical devices, such as LVADs, typically face. The FDA classifies LVADs as Class III medical devices, which are subject to its most rigorous medical device approval process.

EFFICIENCIES

26. Extraordinarily great merger-specific efficiencies would be necessary to justify the Merger in light of its potential to harm competition and decrease the availability of these lifesaving devices. Such efficiencies are not present in this transaction.

VIOLATIONS

COUNT I – ILLEGAL ACQUISITION

27. The allegations of paragraphs 1 through 26 above are incorporated by reference as though fully set forth.

28. The Merger would, if consummated, substantially lessen competition in the relevant markets in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

COUNT II – MONOPOLIZATION

29. The allegations of paragraphs 1 through 28 above are incorporated by reference as though fully set forth.

30. Thoratec has, and at all relevant times has had, monopoly power in the relevant markets.

31. Through the Merger, Respondent Thoratec is willfully attempting to and conspiring to maintain its monopoly in the relevant markets. Eliminating HeartWare, [redacted] a significant competitive threat, is conduct reasonably capable of contributing to Respondent Thoratec's maintenance of monopoly power.

32. Respondent Thoratec's acts and practices are anticompetitive in nature and tendency and constitute an unfair method of competition in violation of Section 5 of the Federal Trade Commission Act, 15 U.S.C. § 45.

COUNT III – ILLEGAL MERGER AGREEMENT

33. The allegations of paragraphs 1 through 32 above are incorporated by reference as though fully set forth.

34. Respondents Thoratec and Heartware, through the merger agreement described in paragraph 12, have engaged in unfair methods of competition in or affecting commerce in violation of Section 5 of the Federal Trade Commission Act, 15 U.S.C. § 45.

NOTICE

Notice is hereby given to the Respondents that December 28, 2009, at 10:00 a.m., or such earlier date as is determined by an Administrative Law Judge of the Federal Trade Commission, is hereby fixed as the time, and the Federal Trade Commission offices, 600 Pennsylvania Avenue, N.W., Room 532, Washington, DC 20580, as the place, when and where a hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission and Clayton Acts to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted.

If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material allegations to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint, and together with the complaint will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under § 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint, and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding.

The Administrative Law Judge will schedule an initial pre-hearing scheduling conference to be held not later than ten days after the answer is filed by the last answering respondent. The scheduling conference and further proceedings will take place at the Federal Trade Commission,

600 Pennsylvania Avenue, N.W., Room 532, Washington, DC 20580. Rule 3.21(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (and in any event no later than five days after the answer is filed by the last answering respondent). Rule 3.31(b) obligates counsel for each party, within five days of receiving a respondent's answer, to make certain initial disclosures without awaiting a discovery request.

NOTICE OF CONTEMPLATED RELIEF

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the acquisition challenged in this complaint violates Section 7 of the Clayton Act, as amended, or Section 5 of the FTC Act, as amended, the Commission may order such relief against Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. If the Merger is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores competition between distinct, separate, viable, and independent businesses in the relevant markets, with the ability to offer such products and services as Thoratec and HeartWare were offering and planning to offer prior to the transaction.

2. A prohibition against any transaction between Thoratec and HeartWare that combines their businesses in the relevant markets, except as may be approved by the Commission.

3. A requirement that, for a period of time, Thoratec and HeartWare provide prior notice to the Commission of acquisitions, mergers, consolidations, or any other combinations of their businesses in the relevant markets with any other company operating in that market.

4. A requirement to file periodic compliance reports with the Commission.

5. Any other relief appropriate to correct or remedy the anticompetitive effects of the transaction or to ensure the creation of one or more viable, independent entities to compete against Thoratec-HeartWare in the relevant markets.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, DC, this twenty-eighth day of July 2009.

By the Commission.

In the Matter of **FRESENIUS MEDICAL CARE AG & CO. KGaA,** **a partnership limited by shares.**	**Docket No. C- 4348**

DECISION AND ORDER
[Public Record Version]

The Federal Trade Commission ("Commission"), having initiated an investigation of the proposed acquisition by Fresenius Medical Care AG & Co. KGaA of Liberty Dialysis Holdings, Inc. ("Liberty"), and Fresenius Medical Care AG & Co. KGaA (hereafter referred to as "Respondent Fresenius") having been furnished thereafter with a copy of a draft of Complaint that the Bureau of Competition proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge Respondent Fresenius with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondent Fresenius, its attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Orders ("Consent Agreement"), containing an admission by Respondent Fresenius of all the jurisdictional facts set forth in the aforesaid draft of Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondent Fresenius that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission having thereafter considered the matter and having determined that it had reason to believe that Respondent Fresenius has violated the said Acts, and that a Complaint should issue stating its charges in that respect, and having thereupon issued its Complaint and an Order to Hold Separate and Maintain Assets ("Hold Separate Order"), and having accepted the

executed Consent Agreement and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, and having modified the Decision and Order in certain respects, now in further conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Fresenius Medical Care AG & Co. KGaA is a partnership limited by shares organized, existing and doing business under and by virtue of the laws of the Federal Republic of Germany, with its office and principal place of business located at Else-Kröner-Straße 1, 61352 Bad Homburg, Germany. Fresenius Medical Care AG & Co. KGaA is the parent of Fresenius Medical Care Holdings, Inc., a New York corporation, d/b/a Fresenius Medical Care North America ("FMCNA") with its office and principal place of business located at 920 Winter St., Waltham, MA 02451-1457.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of Respondent Fresenius, and the proceeding is in the public interest.

ORDER

I.

IT IS ORDERED that, as used in this Order, the following definitions shall apply:

A. "Fresenius" means Fresenius Medical Care AG & Co. KGaA, its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries (including, but not limited to Fresenius Medical Care AG & Co. KGaA, a partnership limited by shares organized under the laws of the Federal Republic of Germany, and Fresenius Medical Care Holdings, Inc.), divisions, groups, and affiliates controlled by Fresenius Medical Care AG & Co. KGaA (including, after the Effective Date, Liberty Dialysis Holdings, Inc.), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each. After the Acquisition, "Fresenius" includes Liberty.

B. "Liberty" means Liberty Dialysis Holdings, Inc., a corporation organized under the laws of Delaware, with its office and principal place of business located at 7650 SE 27th St., Suite 200, Mercer Island, WA 98040. Liberty Dialysis Holdings, Inc., includes Renal Advantage Inc. ("RAI").

C. "Commission" means the Federal Trade Commission.

D. "Acquirer" and "Acquirers" means each Person that receives the prior approval of the Commission to acquire particular Clinic Assets pursuant to Paragraph II or Paragraph V of this Order.

E. "Alaska Clinic Assets" means the Liberty Dialysis Clinic located at 901 East Dimond Blvd, Anchorage, Alaska, 99515, and all Assets Associated with that Clinic.

F. "Alaska Clinic Assets Acquirer" means Alaska Investment Partners (HC) LLC, or any Person that receives the prior approval of the Commission to acquire the Alaska Clinic Assets pursuant to Paragraph II or Paragraph V of this Order.

G. "Appendix A Clinics" means Clinics listed in Appendix A to this Order.

H. "Appendix A Clinic Assets" means the Appendix A Clinics, the Appendix A-2 Joint Venture Equity Interests, and all Assets Associated with each of the Appendix A Clinics.

I. "Appendix A-2 Joint Venture Equity Interests" means the joint venture equity interest in Clinics owned by Liberty and Respondent Fresenius described in Appendix A-2.

J. "Appendix F Clinics" means the clinics identified in Non-Public Appendix F that are (1) owned by Respondent Fresenius in locations proximate to the Liberty Clinics listed in Appendix A, or (2) Liberty Clinics in locations proximate to the Fresenius Clinics listed in Appendix A. In any given location, there may be a greater, smaller, or equal number of Fresenius Clinics in Non-Public Appendix F that correspond to Liberty Clinics in any given location, or greater, smaller, or equal number of Liberty Clinics in Non-Public Appendix F that correspond to Fresenius Clinics in any given location.

K. "Appendix F Clinic Assets" means the Appendix F Clinics, the Appendix F-2 Joint Venture Equity Interests and all Assets Associated with each of the Appendix F Clinics.

L. "Appendix F-2 Joint Venture Equity Interests" means the joint venture equity interest owned by Respondent Fresenius or Liberty described in Appendix F-2.

M. "Assets Associated" means the following assets Relating To the Operation Of A Clinic:

1. all rights under the Clinic's Physician Contracts;

2. leases for the Real Property of the Clinic;

3. consumable or disposable inventory consistent with the Ordinary Course of Business at the Clinics To Be Divested including, but not limited to, janitorial, office, medical supplies, dialysis supplies, and pharmaceuticals including, but not limited to, erythropoietin;

4. all rights, title and interest of Respondent Fresenius or Liberty in any tangible property (except for consumable or disposable inventory) that has been on the premises of the Clinic at any time since July 1, 2011, including, but not limited to, all equipment, furnishings, fixtures, improvements, and appurtenances;

5. books, records, files, correspondence, manuals, computer printouts, databases, and other documents Relating To the Operation Of The Clinic located on the premises of the Clinic or in the possession of the Regional Manager responsible for such Clinic (or copies thereof where Respondent Fresenius or Liberty has a legal obligation to maintain the original document), including, but not limited to:

    a. documents containing information Relating To patients (to the extent transferable under applicable law), including, but not limited to, medical records,

    b. financial records,

    c. personnel files,

    d. Physician lists and other records of the Clinic's dealings with Physicians,

    e. maintenance records,

    f. documents Relating To policies and procedures,

    g. documents Relating To quality control,

    h. documents Relating To Payors,

    i. documents Relating To Suppliers,

    j. documents Relating To the Clinics to be Divested that are also Related To the Operation Of Clinics other than the Clinic To Be Divested, *PROVIDED, HOWEVER,* if such documents are located other than on the premises of the Clinic To Be Divested, Respondent Fresenius may submit a copy of the document with the portions not Relating To the Clinic To Be Divested redacted, and

    k. copies of contracts with Payors and Suppliers, unless such contracts cannot, according to their terms, be disclosed to third parties even with the permission of Respondent Fresenius to make such disclosure;

6. Respondent Fresenius's and Liberty's Medicare and Medicaid provider numbers, to the extent transferable;

7. all permits and licenses, to the extent transferable;

8. Intangible Property relating exclusively to the Operation Of The Clinic; and a royalty-free perpetual worldwide license for the use, without any limitation, of all other Intangible Property Relating To the Operation Of The Clinic (including the right to transfer or sublicense such Intangible Property, exclusively or nonexclusively, to others by any means); and

9. assets that are used in, or necessary for, the Operation Of The Clinic.

PROVIDED, HOWEVER, that "Assets Associated" does not include Excluded Assets.

N. "Assets To Be Divested" means the Appendix A Clinic Assets, and any Appendix F Clinic Assets divested pursuant to Paragraph V.A. of the Order.

O. "Clinic" means a facility that provides hemodialysis or peritoneal dialysis services to patients suffering from kidney disease.

P. "Clinic's Physician Contracts" means all agreements to provide the services of a Physician to a Clinic, regardless of whether any of the agreements are with a Physician or with a medical group, including, but not limited to, agreements for the services of a medical director for the Clinic and "joinder" agreements with Physicians in the same medical practice as a medical director of the Clinic.

Q. "Clinic To Be Divested" and "Clinics To Be Divested" means the Appendix A Clinics, the Appendix A-2 Joint Venture Equity Interests, and where applicable, the Alaska Clinic Assets, Memphis Clinics Joint Venture Interests, or the Dallas Clinics Joint Venture Interests, and any Appendix F Clinics or Appendix F-2 Joint Venture Equity Interests divested pursuant Paragraph V.A. of the Order.

R. "Confidential Business Information" means competitively sensitive, proprietary, and all other information that is not in the public domain owned by or pertaining to a Person or a Person's business, and includes, but is not limited to, all customer lists, price lists, contracts, cost information, marketing methods, patents, technologies, processes, or other trade secrets.

S. "Connecticut Governmental Approvals For Divestiture" means any Governmental Approvals For Divestiture issued by the State of Connecticut.

T. "Connecticut Clinic Assets" means the following: Liberty Orange Clinic, 240 Indian River Rd., Orange, CT; and Liberty North Haven Clinic, 510 Washington Avenue, North Haven, CT; and all Assets Associated with each of those Clinics.

U. "Contract Services" means services performed pursuant to any Clinic's Physician Contract.

V. "Dallas Clinics Joint Ventures" means the following limited liability companies that own Clinics in and around Dallas, Texas: (1) Liberty Rockwall LLC; (2) Liberty Mesquite LLC; (3) WAXLD Holdings LLC; (4) Liberty Duncanville LLC; and (5) Liberty Lancaster LLC.

W. "Dallas Clinics Joint Venture Interests" means all of Liberty's equity and other interests held in each of the Dallas Joint Ventures.

X. "Dallas Clinics Joint Venture Interests Acquirer" means Gibralter 12 Holdings LLC, or the person who receives prior Commission approval to acquire the Dallas Clinics Joint Venture Interests pursuant to Paragraph II or Paragraph V of this Order.

Y. "Designated Fresenius Employee" means:

1. each Fresenius Employee Of A Clinic To Be Divested for the Acquirer of the Assets To Be Divested, the Acquirer of the Alaska Clinic Assets, the Acquirer of the Memphis Clinic Joint Venture Interests, and the Acquirer of the Dallas Clinic Joint Venture Interests, and

2. for the Acquirer of the Assets To Be Divested:

   a. any Regional Manager of a Clinic To Be Divested, and

   b. any of the additional Persons or a Person filling the job description (if the Person listed is no longer employed at that particular job) listed in Non-Public Appendix G to this Order.

Z. "Divestiture Agreement" and "Divestiture Agreements" mean any agreement pursuant to which Respondent Fresenius or a Divestiture Trustee divests any of the Assets To Be Divested pursuant to this Order and with the prior approval of the Commission.

AA. "Divestiture Trustee" means the person appointed to act as trustee by the Commission pursuant to Paragraph II.A or Paragraph V of this Order.

BB. "DSI" means Dialysis Newco, Inc., a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware with its office and principal place of business located at 424 Church Street, Ste. 1900, Nashville, TN 37219.

CC. "DSI-Fresenius Divestiture Agreements" means the following agreements:

1. the Asset Purchase Agreement dated February 1, 2012, by and among DSI and Respondent Fresenius, and all attachments and exhibits, thereto, and

2. the Transition Services Agreement, which is an exhibit to the Asset Purchase Agreement, between DSI and Respondent Fresenius, and all attachments and exhibits, thereto.

The DSI-Fresenius Divestiture Agreements are attached as Non-Public Appendix E to this Order.

DD. "Effective Date" means the date on which Respondent Fresenius acquires Liberty.

EE. "Employee Of A Clinic To Be Divested" and "Employee Of The Clinic To Be Divested" mean any individual (including, but not limited to, a clinic director, manager, nurse, technician, clerk, dietician, or social worker) who is not a Regional Manager, who is employed by Respondent Fresenius, or before the Acquisition, by Liberty, by an Acquirer, or by another manager or owner of such Clinic To Be Divested, and who has worked part-time or full-time on the premises of such Clinic To Be Divested at any time since July 1, 2011, regardless of whether the individual has also worked on the premises of any other Clinic.

FF. "Excluded Assets" means:

1. all cash, cash equivalents, and short term investments of cash;

2. accounts receivable;

3. income tax refunds and tax deposits due Respondent Fresenius or Liberty;

4. unbilled costs and fees, and Medicare bad debt recovery claims, arising before a Clinic is divested to an Acquirer;

5. rights to the names "Fresenius," "Liberty Dialysis," and "Renal Advantage," (unless otherwise licensed to an Acquirer pursuant to the Order), and any variation of that name, and any names, phrases, marks, trade names, and trademarks to the extent they include the marks and designs in Exhibit D to this Order;

6. insurance policies and all claims thereunder;

7. prepaid expenses;

8. minute books (other than governing body minute books of the Clinic To Be Divested), tax returns, and other corporate books and records;

9. any inter-company balances due to or from Respondent Fresenius and Liberty or their affiliates;

10. all benefits plans;

11. all writings and other items that are protected by the attorney-client privilege, the attorney work product doctrine or any other cognizable privilege or protection, except to the extent such information is necessary to the Operation Of A Clinic that is divested;

12. telecommunication systems equipment and applications, and information systems equipment including, but not limited to computer hardware, not physically located at a Clinic To Be Divested but shared with the Clinic To Be Divested through local and/or wide area networking systems;

13. e-mail addresses and telephone numbers of Respondent Fresenius's and Liberty's employees;

14. Software;

15. computer hardware used in the Operation Of The Clinic that is (a) not located at the Clinic, and (b) not otherwise to be divested pursuant to a Divestiture Agreement;

16. all Supplier or provider numbers issued to Respondent Fresenius or Liberty by a Supplier or Payor with respect to any Clinic To Be Divested, except for Respondent Fresenius's or Liberty's Medicare and Medicaid provider numbers for each Clinic To Be Divested;

17. rights under agreements with Payors and Suppliers that are not assignable even if Respondent Fresenius and Liberty approve such assignment;

18. office equipment and furniture that (a) is not, in the Ordinary Course Of Business, physically located at the Clinic To Be Divested, (b) is shared with Clinics other than the Clinic To Be Divested, and (c) is not necessary to the Operation Of The Clinic To Be Divested.

19. Licensed Intangible Property;

20. Fresenius Medical Protocols and Liberty Medical Protocols, subject to the licensing provisions in this Order;

21. Contracts to which Respondent Fresenius or Liberty or their affiliates (other than the Clinics To Be Divested) are a party and are not otherwise included in the Assets Associated with a Clinic To Be Divested; and

22. strategic planning documents that

    a. relate to the Operation Of The Clinic other than the Clinic To Be Divested, and

    b. are not located on the premises of the Clinic To Be Divested.

GG. "Florida Governmental Approvals for Divestiture" means any Governmental Approvals for Divestiture issued by the State of Florida.

HH. "Florida Viera Clinic Asset" means the FMC Viera Clinic, located at 8041 Spyglass Road, Viera, FL 32940; and all Assets Associated with such Clinic.

II. "Fresenius Employee Of A Clinic To Be Divested" and "Fresenius Employee Of The Clinic To Be Divested" means an Employee Of A Clinic To Be Divested who is employed by Respondent Fresenius or, before the acquisition by Respondent Fresenius, by Liberty.

JJ. "Fresenius's Medical Protocols" means medical protocols promulgated by Respondent Fresenius, whether in hard copy or embedded in software, that have been in effect at any time since July 1, 2010. *PROVIDED, HOWEVER,* "Fresenius's Medical Protocols" does not mean medical protocols adopted or promulgated, at any time, by any Physician or by any Acquirer, even if such medical protocols are identical, in whole or in part, to medical protocols promulgated by Respondent Fresenius.

KK. "Good Samaritan Hospital" means a hospital that is part of the Bons Secours Charity Health System located at 255 Lafayette Ave. (Route 59), Suffern, NY 10901.

LL. "Good Samaritan Hospital Dialysis Clinic" means the Regional Kidney Center Clinic owned by Good Samaritan Hospital and located at 331 Route 17M, Harriman, NY 10926.

MM. "Good Samaritan Management Agreement" means collectively:

1. the Administrative Services Agreement dated January 1, 2010, by and between Good Samaritan Hospital and Renal Research Institute, LLC, an affiliate of Respondent Fresenius, and

2. any other agreements between Good Samaritan Hospital and Respondent Fresenius Relating To the management of the dialysis clinics at Good Samaritan Hospital located at 255 Lafayette Ave. (Route 59), Suffern, NY 10901, and 331 Route 17M, Harriman, NY 10926.

NN. "Good Samaritan Management Termination Letter" means the February 1, 2012, letter from Renal Research Institute, LLC, an affiliate of Respondent Fresenius, and Good Samaritan Hospital giving sixty (60) days advance notice of termination of the Good Samaritan Management Agreement.

OO. "Governmental Approvals" means any permissions or sanctions issued by any government or governmental organization, including, but not limited to, licenses, permits, accreditations, authorizations, registrations, certifications, certificates of occupancy, and certificates of need.

PP. "Government Approvals For Continued Operation" means any Governmental Approvals, other than Government Approvals For Divestiture, that an Acquirer must have to continue to operate a Clinic To Be Divested.

QQ. "Governmental Approvals For Divestiture" means any Governmental Approvals that an Acquirer must have to own, and to initially operate, a Clinic To Be Divested, including, but not limited to, state-issued licenses and state-issued certificates of need.

RR. "Hawaii Governmental Approvals For Divestiture" means any Governmental Approvals For Divestiture issued by the State of Hawaii.

SS. "Hawaii Clinic Assets" means the following clinics and all Assets Associated with each of those Clinics:

1. FMC Aloha Clinic, 1520 Liliha Street, Honolulu, HI;

2. FMC Kapahulu Clinic, 750 Palani Avenue, Honolulu, HI;

3. FMC Pearlridge Clinic, 98-1005 Moanaloa Road, Suite 420, Aiea, HI;

4. FMC Honolulu Clinic, 226 N. Kuakini Street, Honolulu, HI;

5. FMC Kapolei Clinic, 555 Farrington Highway, Kapolei, HI;

6. FMC Ko'Olau Clinic, 47-388 Hui Iwa Street, Kaneohe, HI;

7. FMC Wahiawa Clinic, 850 Kilani Avenue, Wahiawa, HI;

8. FMC Windward Clinic, 45-480 Kaneohe Bay Drive #D09, Kaneohe, HI; and

9. FMC Waipahu Clinic (de novo), location to be determined, Waipahu, HI.

TT. "Intangible Property" means intangible property Relating To the Operation Of A Clinic To Be Divested including, but not limited to, intellectual property, software, computer programs, patents, know-how, goodwill, technology, trade secrets, technical information, marketing information, protocols, quality control information, trademarks, trade names, service marks, logos, and the modifications or improvements to such intangible property.

UU. "Liberty's Medical Protocols" means medical protocols promulgated by Liberty, whether in hard copy or embedded in software, that have been in effect at any time since July 1, 2010. *PROVIDED, HOWEVER,* "Liberty's Medical Protocols" does not mean medical protocols adopted or promulgated, at any time, by any Physician or by any Acquirer, even if such medical protocols are identical, in whole or in part, to medical protocols promulgated by Liberty.

VV. "Licensed Intangible Property" means intangible property licensed to Respondent Fresenius from a third party Relating To the Operation Of A Clinic To Be Divested including, but not limited to, intellectual property, software, computer programs, patents, know-how, goodwill, technology, trade secrets, technical information, marketing information, protocols, quality control information, trademarks, trade names, service marks, logos, and the modifications or improvements to such intangible property that are licensed to Respondent Fresenius. ("Licensed Intangible Property" does not mean modifications and improvements to intangible property that are not licensed to Respondent Fresenius.)

WW. "Memphis Clinics Joint Ventures" means the following limited liability companies that own Clinics in and around Memphis, TN: (1) NRA Memphis (South) Tennessee, LLC, owner of

the Liberty Pace Road Clinic at 4185 Pace Road, Memphis, TN 38116; and (2) NRA Memphis (Midtown) Tennessee LLC, owner of the Liberty Poplar Clinic at 1333 Poplar Avenue, Memphis, TN 38104.

XX. "Memphis Clinics Joint Venture Interests" means all of Liberty's equity and other interests held in each of the Memphis Clinics Joint Ventures. The "Memphis Clinics Joint Venture Interests" are also considered Secondary Divestiture Assets for purposes of Paragraphs I.H., I.I., and II of the Hold Separate Order.

YY. "Memphis Clinics Joint Venture Interests Acquirer" means Satellite Healthcare, Inc., a not-for-profit corporation organized, existing, and doing business under and by virtue of the laws of the State of California, with its office and principal place of business located at 300 Santana Row, Suite 300, San Jose, California, 95128, or another person who receives the Commission's prior approval to acquire the Memphis Clinics Joint Venture Interests pursuant to Paragraph II or Paragraph V of this Order.

ZZ. "Monitor Agreement" means the Monitor Agreement dated January 21, 2012, between Fresenius, and Richard A. Shermer, of R. Shermer & Company. (The Monitor Agreement is attached as Appendix C to this Order. The Monitor Agreement Compensation is attached as Confidential Appendix C-1 to this Order.)

AAA. "New York Governmental Approvals For Divestiture" means any Governmental Approvals For Divestiture issued by the State of New York.

BBB. "New York Clinic Assets" means the FMC Dutchess Clinic located at 2585 South Rd., Poughkeepsie, NY, and all Assets Associated with that Clinic.

CCC. "Operation Of A Clinic" and "Operation Of The Clinic" mean all activities Relating To the business of a Clinic, including, but not limited to:

1. attracting patients to the Clinic for dialysis services, providing dialysis services to patients of the Clinic, and dealing with their Physicians, including, but not limited to, services Relating To hemodialysis and peritoneal dialysis;

2. providing medical products to patients of the Clinic;

3. maintaining the equipment on the premises of the Clinic, including, but not limited to, the equipment used in providing dialysis services to patients;

4. purchasing supplies and equipment for the Clinic;

5. negotiating leases for the premises of the Clinic;

6. providing counseling and support services to patients receiving products or services from the Clinic;

7. contracting for the services of medical directors for the Clinic;

8. dealing with Payors that pay for products or services offered by the Clinic, including but not limited to, negotiating contracts with such Payors and submitting claims to such Payors; and

9. dealing with Governmental Approvals Relating To the Clinic or that otherwise regulate the Clinic.

DDD. "Ordinary Course Of Business" means actions taken by any Person in the ordinary course of the normal day-to-day Operation Of The Clinic that is consistent with past practices of such Person in the Operation Of The Clinic, including, but not limited to past practice with respect to amount, timing, and frequency.

EEE. "Other Contracts Of Each Clinic To Be Divested" means all contracts Relating To the Operation Of A Clinic, where such Clinic is a Clinic To Be Divested – including, but not limited to, contracts for goods and services provided to the Clinic and contracts with Payors – but does not mean the Clinic's Physician Contracts and the leases for the Real Property Of The Clinic.

FFF. "Payor" means any Person that purchases, reimburses for, or otherwise pays for medical goods or services for themselves or for any other person, including, but not limited to: health insurance companies; preferred provider organizations; point of service organizations; prepaid hospital, medical, or other health service plans; health maintenance organizations; government health benefits programs; employers or other persons providing or administering self-insured health benefits programs; and patients who purchase medical goods or services for themselves.

GGG. "Person" means any natural person, partnership, corporation, association, trust, joint venture, government, government agency, or other business or legal entity.

HHH. "Physician" means a doctor of allopathic medicine ("M.D.") or a doctor of osteopathic medicine ("D.O.").

III. "Real Property Of The Clinic" means real property on which, or in which, the Clinic is located, including real property used for parking and for other functions Relating To the Operation Of The Clinic.

JJJ. "Regional Manager" means any individual who has been employed by Respondent Fresenius, RAI, or Liberty with a geographic regional, or area supervisory, or management responsibility for one or more Clinics. A Regional Manager may go by various names including, but not limited to, director of operations.

KKK. "Regional Manager Of A Clinic To Be Divested" and "Regional Manager Of The Clinic To Be Divested" mean a Regional Manager with a geographic regional, or area supervisory, or management responsibility for a Clinic To Be Divested at any time since July 1, 2011.

LLL. "Relating To" means pertaining in any way to, and is not limited to that which pertains exclusively to or primarily to.

MMM. "Software" means executable computer code and the documentation for such computer code, but does not mean data processed by such computer code.

NNN. "Supplier" means any Person that has sold to Respondent Fresenius, RAI, or Liberty any goods or services, other than Physician services, for use in a Clinic To Be Divested.

OOO. "Time Of Divestiture" means the date upon which an Appendix A Clinic or an Appendix F Clinic is divested to an Acquirer pursuant to this Order.

PPP. "University of California, San Diego Clinic" means the Clinic currently located at 200 W. Arbor Dr., San Diego, CA 92103.

II.

IT IS FURTHER ORDERED that:

A. Respondent Fresenius shall:

1. within thirty-two (32) days after the Effective Date, divest to DSI, absolutely, and in good faith, pursuant to and in accordance with the DSI-Fresenius Divestiture Agreements all the Appendix A Clinic Assets, except for the Connecticut Clinic Assets, Hawaii Clinic Assets, the New York Clinic Assets, and the Florida Viera Clinic Assets, as on-going businesses, and grant to the Acquirer a royalty-free, worldwide non-exclusive license for the use, without any limitation, of the Fresenius Medical Protocols and the Liberty Medical Protocols (including the right to transfer or sublicense such protocols, exclusively or nonexclusively, to others by any means). Any failure by Respondent Fresenius to comply with the DSI-Fresenius Divestiture Agreements shall constitute a failure to comply with the Order. The DSI-Fresenius Divestiture Agreements shall not vary or contradict, or be construed to vary or contradict, the terms of this Order. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of DSI, or any obligations of Respondent Fresenius, under the DSI-Fresenius Divestiture Agreements.

2. within ninety (90) days after the Effective Date, divest to DSI, absolutely, and in good faith, pursuant to and in accordance with the DSI-Fresenius Divestiture Agreements, the Connecticut Clinic Assets, as an on-going business;

3. within ninety (90) days after the Effective Date, divest to DSI, absolutely, and in good faith, pursuant to and in accordance with the DSI-Fresenius Divestiture Agreements, the Hawaii Clinic Assets, as an on-going business;

4. within one (1) year after the Effective Date, divest to DSI, absolutely, and in good faith, pursuant to and in accordance with the DSI-Fresenius Divestiture Agreements, the New York Clinic Assets, as an on-going business;

5. within sixty (60) days after the Effective Date, divest to DSI, absolutely, and in good faith, pursuant to and in accordance with the DSI-Fresenius Divestiture Agreements, the Florida Viera Clinic Assets, as an on-going business;

6. within fifteen (15) days after the Effective Date:

    a. pursuant to and in accordance with the Good Samaritan Management Termination Letter, give notice to terminate the Good Samaritan Management Agreement, and pursuant to such letter and such management agreement, transfer management of the Good Samaritan Hospital Dialysis Clinic to Good Samaritan Hospital, who will either operate the Good Samaritan Hospital Dialysis Clinic itself or seek a new operator through a request for proposal process.

    b. enter into a transition services agreement with Good Samaritan Hospital which shall be submitted to the Commission for approval within the fifteen-day time period, and shall include, but not be limited to:

        (1) providing services consistent with, or similar to, the services currently provided to Good Samaritan under the Good Samaritan Management Agreement;

        (2) a term not to extend beyond December 31, 2012;

        (3) the unilateral option of Good Samaritan Hospital to terminate such agreement or phase out particular services or parts of such agreement upon notice as determined by Good Samaritan Hospital;

        (4) assigning values or costs for particular services, such that if the services are phased out before the end of the transition services agreement, there will be no dispute on remaining costs;

        (5) a firewall to protect Confidential Business Information Relating To the Good Samaritan Dialysis Clinic; and

        (6) a prohibition on Respondent Fresenius from assigning such agreement.

The Good Samaritan Management Termination Letter and the Good Samaritan transition services agreement, when final and approved by the Commission, are incorporated by reference into this Order and made a part hereof as Non-Public Appendix J. If Respondent Fresenius fails to submit an executed transition services agreement to the Commission for approval within fifteen (15) days after the Effective Date, or if the Commission denies its approval of any agreement submitted for approval, then the Monitor, in consultation with Commission staff, shall be given the immediate and absolute authority to negotiate all terms of the transition services agreement with Good Samaritan, consistent with the terms of this Order, and subject to the Commission's prior approval. After the Effective Date and until the transition services agreement terminates, Respondent Fresenius shall not disclose Confidential Business Information Relating To the Good Samaritan Hospital Dialysis Clinic; and Respondent Fresenius shall assure that any employee who obtains or possesses Confidential Business Information Relating To the Good Samaritan Hospital Dialysis Clinic shall not disclose it to any employee who does not have primary responsibility for providing transition services to the Good Samaritan Hospital Dialysis Clinic.

Any failure by Respondent Fresenius to comply with the Good Samaritan Management Termination Letter and the final Good Samaritan transition services agreement shall constitute a failure to comply with the Order. The Good Samaritan Management Termination Letter and the final Good Samaritan transition services agreement shall not vary or contradict, or be construed to vary or contradict, the terms of this Order. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of the Good Samaritan Hospital, or any obligations of Respondent Fresenius, under the Good Samaritan Management Termination Letter and the final Good Samaritan transition services agreement.

7. Within ten (10) days after the Effective Date, divest to the Alaska Clinic Acquirer, absolutely, and in good faith, pursuant to and in accordance with the Alaska Clinic Divestiture Agreement, the Alaska Clinic Assets as an on-going business, and grant to the Acquirer a royalty-free, worldwide non-exclusive license for the use, without any limitation, of the Liberty Medical Protocols (including the right to transfer or sublicense such protocols, exclusively or nonexclusively, to others by any means). The Alaska Clinic Divestiture Agreement is incorporated by reference into this Order and made a part hereof as Non-Public Appendix H. Any failure by Respondent Fresenius to comply with the Alaska Clinic Divestiture Agreement shall constitute a failure to comply with the Order. However, in the event that the Alaska Clinic Divestiture Agreement varies from or contradicts, or be construed to vary or contradict, the terms of this Order, the terms of this Order shall control. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of the Alaska Clinic Acquirer, or any obligations of Respondent Fresenius, under the Alaska Clinic Divestiture Agreement.

8. Within thirty-two (32) days after the Effective Date, divest to the Dallas Clinics Joint Venture Interests Acquirer, absolutely, and in good faith, pursuant to and in accordance with the Dallas Clinics Joint Venture Interests Divestiture Agreement, the Dallas Clinics

Joint Venture Interests, and grant to the Dallas Clinics Joint Venture Interests Acquirer a royalty-free, worldwide non-exclusive license for the use, without any limitation, of the Liberty Medical Protocols (including the right to transfer or sublicense such protocols, exclusively or nonexclusively, to others by any means). The Dallas Clinics Joint Venture Interests Divestiture Agreement is incorporated by reference into this Order and made a part hereof as Non-Public Appendix I. Any failure by Respondent Fresenius to comply with the Dallas Clinics Joint Venture Interests Divestiture Agreement shall constitute a failure to comply with the Order. The Dallas Clinics Joint Venture Interests Divestiture Agreement shall not vary or contradict, or be construed to vary or contradict, the terms of this Order. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of the Dallas Clinics Joint Venture Interests Acquirer, or any obligations of Respondent Fresenius, under the Dallas Clinics Joint Venture Interests Divestiture Agreement.

9. Within twenty-five (25) days after the date this Order becomes final, divest the Memphis Clinics Joint Venture Interests to the Memphis Clinics Joint Venture Interests Acquirer, absolutely, and in good faith pursuant to and in accordance with the Memphis Clinics Joint Venture Interests Divestiture Agreement, and grant to the Memphis Clinics Joint Venture Interests Acquirer a royalty-free, worldwide non-exclusive license for the use, without any limitation, of the Liberty Medical Protocols (including the right to transfer or sublicense such protocols, exclusively or nonexclusively, to others by any means). The Memphis Clinics Joint Venture Interests Divestiture Agreement is incorporated by reference into this Order and made a part hereof as Non-Public Appendix K. Any failure by Respondent Fresenius to comply with the Memphis Clinics Joint Venture Interests Divestiture Agreement shall constitute a failure to comply with the Order. The Memphis Clinics Joint Venture Interests Divestiture Agreement shall not vary or contradict, or be construed to vary or contradict, the terms of this Order. Nothing in this Order shall reduce, or be construed to reduce, any rights or benefits of the Memphis Clinics Joint Venture Interests Acquirer, or any obligations of Respondent Fresenius, under the Memphis Clinics Joint Venture Interests Divestiture Agreement.

PROVIDED, HOWEVER, if, at the time the Commission determines to make this Order final, the Commission notifies Respondent Fresenius that DSI, the Dallas Clinics Joint Venture Interests Acquirer**,** Memphis Clinics Joint Venture Interests Acquirer, or the Alaska Clinic Acquirer is not an acceptable Acquirer then, after receipt of such written notification: (1) Respondent Fresenius shall immediately notify DSI, the Dallas Clinics Joint Venture Interests Acquirer**,** Memphis Clinics Joint Venture Interests Acquirer, or the Alaska Clinic Acquirer of the notice received from the Commission and shall as soon as practicable, but no later than within five (5) business days, effect the rescission of the applicable Divestiture Agreement; and (2) Respondent Fresenius shall, within six (6) months of the date Respondent Fresenius receives notice of such determination from the Commission, divest the Appendix A Clinic Assets, the Dallas Clinics Joint Venture Interests, Memphis Clinics Joint Venture Interests, or the Alaska Clinic Assets, as applicable, absolutely and in good faith, at no minimum price, as on-going businesses to an

Acquirer or Acquirers that receive the prior approval of the Commission and only in a manner that receives the prior approval of the Commission.

PROVIDED FURTHER, HOWEVER, that if Respondent Fresenius has complied with the terms of this Paragraph before the date on which this Order becomes final, and if, at the time the Commission determines to make this Order final, the Commission notifies Respondent Fresenius that the manner in which any of the divestitures accomplished is not acceptable, the Commission may direct Respondent Fresenius or appoint the Divestiture Trustee, to effect such modifications to the manner of divestiture including, but not limited to, entering into additional agreements or arrangements, as the Commission may determine are necessary to satisfy the requirements of this Order.

B. Respondent Fresenius shall not acquire Liberty until it has obtained for all the Appendix A Clinics:

   1. all approvals for the assignment of the Clinic's Physician Contracts to the Acquirer;

   2. all approvals by joint venture partners necessary for the Acquirer to acquire the Appendix A Clinics that are owned by a joint venture; and

   3. all approvals by joint venture partners necessary for the Acquirer of Appendix A-2 Joint Venture Equity Interests to jointly own and operate the Clinics that are owned by the joint venture.

   Copies of all such approvals shall be incorporated into the DSI-Fresenius Divestiture Agreements as appendices.

C. Respondent Fresenius shall hold separate the entirety of Liberty, and not take control over or possession of Liberty, until it has obtained for all the Appendix A Clinics all approvals for the assignment of the rights, title, and interest to a lease for Real Property Of A Clinic To Be Divested to the Acquirer. The specific terms of the hold separate are in the Order to Maintain Assets and Hold Separate attached to the Agreement Containing Consent Orders.

D. Respondent Fresenius shall:

   1. place no restrictions on the use by any Acquirer of any of the Assets To Be Divested to such Acquirer or any of the Clinics To Be Divested to such Acquirer, or interfere with or otherwise attempt to interfere with any Acquirer's use of any of the Assets To Be Divested to such Acquirer or any of the Clinics To Be Divested to such Acquirer including, but not limited to, seeking or requesting the imposition of Governmental Approvals or other governmental restrictions on the Acquirer's business operations relating to the Assets To Be Divested or any of the Clinics To Be Divested.

   2. cooperate with the Acquirer and assist the Acquirer, at no cost to the Acquirer,

a. at the Time Of Divestiture of each Clinic To Be Divested, in obtaining all Government Approvals For Divestiture, and

b. all Government Approvals For Continued Operation, for each Clinic To Be Divested to such Acquirer.

3. at the Time Of Divestiture of each Clinic To Be Divested:

a. assign to the Acquirer all rights, title, and interest to leases for the Real Property Of The Clinic divested to such Acquirer. *PROVIDED, HOWEVER*, that (1) if the Acquirer obtains all rights, title, and interest to a lease for Real Property Of A Clinic To Be Divested before the Assets To Be Divested are divested to such Acquirer pursuant to Paragraph II.A. of this Order, and (2) the Acquirer certifies its receipt of such lease and attaches it as part of the Divestiture Agreement, then Respondent Fresenius shall not be required to make the assignments for such Clinic To Be Divested as required by this Paragraph; and

b. assign to the Acquirer all of the Clinic's Physician Contracts for the Clinics divested to such Acquirer. *PROVIDED HOWEVER*, that (1) if the Acquirer enters into a Clinic's Physician Contract for a Clinic To Be Divested before the Assets To Be Divested are divested pursuant to Paragraph II.A. of this Order, and (2) the Acquirer certifies its receipt of such contract and attaches it as part of the Divestiture Agreement, then Respondent Fresenius shall not be required to make the assignment for such Clinic To Be Divested as required by this Paragraph.

c. assign to the Acquirer all approvals by joint venture partners necessary for the Acquirer to acquire the Appendix A Clinics that are owned by a joint venture; and

d. assign to the Acquirer all approvals by joint venture partners necessary for the Acquirer of Appendix A Joint Venture Equity Interests to jointly own and operate the Appendix A Clinics that are owned by the joint venture.

4. With respect to all Other Contracts Of Each Clinic To Be Divested, at the Acquirer's option and at the Time Of Divestiture of each Clinic To Be Divested:

a. if such contract can be assigned without third party approval, assign Respondent Fresenius's rights under the contract to the Acquirer; and

b. if such contract can be assigned to the Acquirer only with third party approval, assist and cooperate with the Acquirer in obtaining:

(1) such third party approval and in assigning the contract to the Acquirer; or

(2) a new contract.

E. Respondent Fresenius shall:

1. at the Time Of Divestiture of each Clinic To Be Divested, provide to the Acquirer of such Clinic contact information about Payors and Suppliers for the Clinic, and

2. not object to the sharing of Payor and Supplier contract terms Relating To the Clinics To Be Divested: (i) if the Payor or Supplier consents in writing to such disclosure upon a request by the Acquirer, and (ii) if the Acquirer enters into a confidentiality agreement with Respondent Fresenius not to disclose the information to any third party.

F. Respondent Fresenius shall:

1. if requested by an Acquirer, facilitate interviews between each Designated Fresenius Employee and the Acquirer, and shall not discourage such employee from participating in such interviews;

2. not interfere in employment negotiations between each Designated Fresenius Employee and an Acquirer.

3. not prevent, prohibit or restrict or threaten to prevent, prohibit or restrict the Designated Fresenius Employee from being employed by an Acquirer, and shall not offer any incentive to the Designated Fresenius Employee to decline employment with an Acquirer;

4. cooperate with an Acquirer of a Clinic in effecting transfer of the Designated Fresenius Employee to the employ of the Acquirer, if the Designated Fresenius Employee accepts such offer of employment from an Acquirer;

5. eliminate any contractual provisions or other restrictions that would otherwise prevent the Designated Fresenius Employee from being employed by an Acquirer;

6. eliminate any confidentiality restrictions that would prevent the Designated Fresenius Employee who accepts employment with the Acquirer from using or transferring to an Acquirer any information Relating To the Operation Of The Clinic; and

7. pay, for the benefit of any Designated Fresenius Employee who accepts employment with an Acquirer, all accrued bonuses, vested pensions and other accrued benefits.

Respondent Fresenius shall comply with the terms of this Paragraph II.F. from the time Respondent Fresenius signs the Agreement Containing Consent Order until sixty (60) days after the Time Of Divestiture of each Clinic To Be Divested for the employees who are Designated Fresenius Employees described in Paragraph I.Y.1.

Respondent Fresenius shall comply with the terms of this Paragraph II.F. from the time Respondent Fresenius signs the Agreement Containing Consent Order until one-hundred twenty

(120) days after the divestiture required pursuant to Paragraph II.A.1. is completed for the employees who are Designated Fresenius Employees described in Paragraph I.Y.2.

PROVIDED, HOWEVER, that the terms of this Paragraph II.F. as it relates to the interviewing and hiring of Regional Managers shall not apply after the Acquirer has hired five (5) Regional Managers.

PROVIDED, FURTHER, HOWEVER, that if, at any time after the Time of Divestiture, DSI or the Acquirer of the Appendix A Clinic Assets gives Respondent Fresenius an unsolicited list of employees from the Non-Public Appendix G to whom the Acquirer does not intend to offer employment, then such employees may be hired by Respondent Fresenius as full time employees without violating this Paragraph II.F. *PROVIDED, FURTHER, HOWEVER*, that no earlier than fifteen (15) days after the Time of Divestiture, Respondent Fresenius may submit a written request to the Acquirer identifying those persons from the Non-Public Appendix G to whom Respondent Fresenius wishes to offer full time employment; and if the Acquirer within fifteen (15) days of receipt of such request grants, in writing, such request, then Respondent Fresenius may offer employment to such employees; but if the Acquirer within fifteen (15) days of receipt of such request either: (i) chooses to hire such employees, or (ii) chooses to defer a hiring decision and keep the requested employees on the Non-Public Appendix G, then Respondent Fresenius shall continue to comply with the terms of this Paragraph II.F. with regard to such employees.

G. For a period of:

1. two (2) years following the Time Of Divestiture of each Clinic To Be Divested, Respondent Fresenius shall not, directly or indirectly, solicit, induce, or attempt to solicit or induce any employee who is employed by any of the Acquirers to terminate his or her employment relationship with such Acquirer, unless that employment relationship has already been terminated by the Acquirer; *PROVIDED, HOWEVER*, Respondent Fresenius may make general advertisements for employees including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at any of an Acquirer's employees; *PROVIDED, FURTHER, HOWEVER,* Respondent Fresenius may hire employees who apply for employment with Respondent Fresenius, as long as such employees were not solicited by Respondent Fresenius in violation of this Paragraph; *PROVIDED, FURTHER, HOWEVER,* Respondent Fresenius may offer employment to a Designated Fresenius Employee who is employed by the Acquirer in only a part-time capacity, if the employment offered by Respondent Fresenius would not, in any way, interfere with the employee's ability to fulfill his or her employment responsibilities to the Acquirer; and

2. six (6) months following the Time Of Divestiture of each Clinic To Be Divested, Respondent Fresenius shall not, directly or indirectly, employ, directly or indirectly, including as a paid or unpaid consultant, any Person who owns any interest in any of the Clinics or interests in Clinics divested pursuant to Paragraph II or Paragraph V of this Order; *PROVIDED HOWEVER,* for purposes of this Paragraph II.G.2., a Person does

not include an individual who is part of the Alaska Clinic Assets Acquirer or the Dallas Clinics Joint Venture Interests Acquirer, and is employed or engaged as a medical director at a Respondent Fresenius Clinic, or otherwise engaged as a medical advisor for Respondent Fresenius.

H. With respect to each Physician who has provided services to a Clinic To Be Divested pursuant to any of the Clinic's Physician Contracts in effect at any time during the four (4) months preceding the Time Of Divestiture of the Clinic ("Contract Physician"):

1. Respondent Fresenius shall not offer any incentive to the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group to decline to provide services to the Clinic To Be Divested, and shall eliminate any confidentiality restrictions that would prevent the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group from using or transferring to the Acquirer of the Clinic To Be Divested any information Relating To the Operation Of The Clinic; and

2. For a period of three (3) years following the Time Of Divestiture of each Clinic To Be Divested, Respondent Fresenius shall not contract for the services of the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group for the provision of Contract Services to be performed in any of the areas listed in Appendix B of this Order that correspond to such Clinic. *PROVIDED, HOWEVER*, if the Contract Physician, or the Contract Physician's practice group, or other members of the Contract Physician's practice group were providing services to a Clinic pursuant to a contract with Respondent Fresenius or Liberty in effect as of July 1, 2011, then Respondent Fresenius may contract with such Contract Physicians, or the Contract Physician's practice group, or other members of the Contract Physician's practice group for services to be provided to that particular Clinic.

I. Respondent Fresenius shall:

1. not disclose Confidential Business Information relating exclusively to any of the Clinics To Be Divested to any Person other than the Acquirer of such Clinic;

2. after the Time Of Divestiture of such Clinic:

   a. shall not use Confidential Business Information relating exclusively to any of the Clinics To Be Divested for any purpose other than complying with the terms of this Order or with any law; and

   b. shall destroy all records of Confidential Business Information relating exclusively to any of the Clinics To Be Divested, except to the extent that: (1) Respondent Fresenius is required by law to retain such information, and (2) Respondent Fresenius's inside or outside attorneys may keep one copy solely for archival purposes, but may not disclose such copy to the rest of Respondent Fresenius.

J. At the Time Of Divestiture of each Clinic To Be Divested, Respondent Fresenius shall provide the Acquirer of the Clinic with manuals, instructions, and specifications sufficient for the Acquirer to access and use any information,

1. divested to the Acquirer pursuant to this Order, or

2. in the possession of the Acquirer, and previously used by Respondent Fresenius or Liberty in the Operation Of The Clinic.

K. For two (2) years following the Time Of Divestiture of each Clinic To Be Divested, Respondent Fresenius shall not solicit the business of any patient who received any goods or services from such Clinic between July 1, 2011, and the date of such divestiture, *PROVIDED, HOWEVER,* Respondent Fresenius may (i) make general advertisements for the business of such patients including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at such patients, and (ii) provide advertising and promotions directly to any patient that initiates discussions with, or makes a request to, any Respondent Fresenius employee.

L. Respondent Fresenius shall convey to each Acquirer of a Clinic To Be Divested the right to use any Licensed Intangible Property (to the extent permitted by the third-party licensor), if such right is needed for the Operation Of The Clinic by the Acquirer and if the Acquirer is unable, using commercially reasonable efforts, to obtain equivalent rights from other third parties on commercially reasonable terms and conditions.

M. Respondent Fresenius shall do nothing to prevent or discourage Suppliers that, prior to the Time Of Divestiture of any Clinic To Be Divested, supplied goods and services for use in any Clinic To Be Divested from continuing to supply goods and services for use in such Clinic.

N. Respondent Fresenius shall not terminate any transition services agreement that is a part of any of the Divestiture Agreements before the end of the term approved by the Commission without:

1. the written agreement of the Acquirer and thirty (30) days prior notice to the Commission; or,

2. in the case of a proposed unilateral termination by Respondent Fresenius due to an alleged breach of an agreement by the Acquirer, sixty (60) days notice of such termination. *PROVIDED, HOWEVER,* such sixty (60) days notice shall be given only after the parties have:

   a. attempted to settle the dispute between themselves, and

   b. engaged in arbitration and received an arbitrator's decision, or

c. received a final court decision after all appeals.

O. The purpose of Paragraph II of this Order is to ensure the continuation of the Clinics To Be Divested as, or as part of, an ongoing viable enterprises engaged in the same business in which such assets were engaged at the time of the announcement of the acquisition by Respondent Fresenius of Liberty, to ensure that the Clinics To Be Divested are operated independently of, and in competition with, Respondent Fresenius, and to remedy the lessening of competition alleged in the Commission's Complaint.

III.

IT IS FURTHER ORDERED that:

A. For a period of five (5) years from the date this Order is issued, Respondent Fresenius shall not, without providing advance written notification to the Commission in the manner described in this paragraph, directly or indirectly:

1. acquire any assets of or financial interest in any Clinic located in any of the areas listed in Appendix B of this Order; or

2. enter into any contract to participate in the management or Operation Of A Clinic located in any of the areas listed in Appendix B of this Order, except to the extent that the contract relates exclusively to:

   a. off-site lab services or social worker support materials; or

   b. billing services, collection services, bookkeeping services, accounting services, supply purchasing and logistics services, or the preparation of financial reports and accounts receivable reports (collectively "Such Services"), where appropriate firewalls and confidentiality agreements are implemented to prevent Confidential Business Information of the Clinic from being disclosed to anyone participating in any way in the operation or management of any Clinic owned by Respondent Fresenius or any Clinic other than the Clinic to which Such Services are being provided.

Said advance written notification shall contain (i) either a detailed term sheet for the proposed acquisition or the proposed agreement with all attachments, and (ii) documents that would be responsive to Item 4(c) of the Premerger Notification and Report Form under the Hart-Scott-Rodino Premerger Notification Act, Section 7A of the Clayton Act, 15 U.S.C. § 18a, and Rules, 16 C.F.R. § 801-803, Relating To the proposed transaction (hereinafter referred to as "the Notification), *PROVIDED, HOWEVER,* (i) no filing fee will be required for the Notification, (ii) an original and one copy of the Notification shall be filed only with the Secretary of the Commission and need not be submitted to the United States Department of Justice, and (iii) the Notification is required from Respondent Fresenius and not from any other party to the

transaction. Respondent Fresenius shall provide the Notification to the Commission at least thirty (30) days prior to consummating the transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Respondent Fresenius shall not consummate the transaction until thirty days after submitting such additional information or documentary material. Early termination of the waiting periods in this paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition.

PROVIDED, HOWEVER, that prior notification shall not be required by this paragraph for a transaction for which Notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a.indirectly:

B. For the duration of the Order, Respondent Fresenius shall not:

1. acquire, directly or indirectly, any interest in the University of California, San Diego Clinic, where currently located, or wherever subsequently located within San Diego County, California; or

2. enter into any agreement or otherwise agree to manage, operate, expand, or move such University of California, San Diego Clinic, wherever it may be located within San Diego County, California.

3. shall not acquire, directly or indirectly, without receiving prior Commission approval, any interest in the Clinics divested, or any Clinics divested, pursuant to the terms of this Order including, but not limited to, entering into a management or operation agreement with such Clinics.

IV.

IT IS FURTHER ORDERED that:

A. Richard A. Shermer, of R. Shermer & Company, shall be appointed Monitor to assure that Respondent Fresenius expeditiously complies with all of its obligations and performs all of its responsibilities as required by this Order.

B. No later than one (1) day after the Effective Date, Respondent Fresenius shall, pursuant to the Monitor Agreement and to this Order, transfer to the Monitor all the rights, powers, and authorities necessary to permit the Monitor to perform their duties and responsibilities in a manner consistent with the purposes of this Order.

C. In the event a substitute Monitor is required, the Commission shall select the Monitor, subject to the consent of Respondent Fresenius, which consent shall not be unreasonably withheld. If Respondent Fresenius has not opposed, in writing, including the reasons for

opposing, the selection of a proposed Monitor within ten (10) days after notice by the staff of the Commission to Respondent Fresenius of the identity of any proposed Monitor, Respondent Fresenius shall be deemed to have consented to the selection of the proposed Monitor. Not later than ten (10) days after appointment of a substitute Monitor, Respondent Fresenius shall execute an agreement that, subject to the prior approval of the Commission, confers on the Monitor all the rights and powers necessary to permit the Monitor to monitor Respondent Fresenius's compliance with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements in a manner consistent with the purposes of this Order.

D. Respondent Fresenius shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor Respondent Fresenius's compliance with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of this Order and in consultation with the Commission, including, but not limited to:

   a. Assuring that Respondent Fresenius expeditiously complies with all of its obligations and perform all of its responsibilities as required by the this Order, the Order to Maintain Assets, and the Divestiture Agreements;

   b. Monitoring any transition services agreements;

   c. Assuring that Confidential Business Information is not received or used by Respondent Fresenius or the Acquirers, except as allowed in this Order and in the Order to Maintain Assets, in this matter.

2. The Monitor shall act in a fiduciary capacity for the benefit of the Commission.

3. The Monitor shall serve for such time as is necessary to monitor Respondent Fresenius's compliance with the provisions of this Order, the Order to Maintain Assets, and the Divestiture Agreements.

4. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to Respondent Fresenius's personnel, books, documents, records kept in the Ordinary Course Of Business, facilities and technical information, and such other relevant information as the Monitor may reasonably request, related to Respondent Fresenius's compliance with its obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements. Respondent Fresenius shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor Respondent Fresenius's compliance with this Order, the Order to Maintain Assets, and the Divestiture Agreements.

5. The Monitor shall serve, without bond or other security, at the expense of Respondent Fresenius on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Respondent Fresenius, such consultants, accountants, attorneys and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities. The Monitor shall account for all expenses incurred, including fees for services rendered, subject to the approval of the Commission.

6. Respondent Fresenius shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from misfeasance, gross negligence, willful or wanton acts, or bad faith by the Monitor.

7. Respondent Fresenius shall report to the Monitor in accordance with the requirements of this Order and/or as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by Respondent Fresenius, and any reports submitted by the Acquirer with respect to the performance of Respondent Fresenius's obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements.

8. Within one (1) month from the date the Monitor is appointed pursuant to this paragraph, every sixty (60) days thereafter, and otherwise as requested by the Commission, the Monitor shall report in writing to the Commission concerning performance by Respondent Fresenius of its obligations under this Order, the Order to Maintain Assets, and the Divestiture Agreements.

9. Respondent Fresenius may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER*, such agreement shall not restrict the Monitor from providing any information to the Commission.

E. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement Relating To Commission materials and information received in connection with the performance of the Monitor's duties.

F. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the same manner as provided in this Paragraph IV.

G. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with

the requirements of this Order, the Order to Maintain Assets, and the Divestiture Agreements.

H. A Monitor appointed pursuant to this Order may be the same Person appointed as a trustee pursuant to Paragraph V of this Order and may be the same Person appointed as Monitor under the Order to Maintain Assets.

V.

IT IS FURTHER ORDERED that:

A. If Respondent Fresenius has not divested, absolutely and in good faith and with the Commission's prior approval,

1. all of the Appendix A Assets pursuant to Paragraph II of this Order, the Commission may appoint a trustee to (1) divest any of the Appendix A Assets that have not been divested pursuant to Paragraph II of this Order in a manner that satisfies the requirements of Paragraph II of this Order, which may include negotiations with landlords holding leases to the Assets to be Divested; or, in the event the Appendix A Clinics cannot be divested for whatever reason, (2) divest selected Appendix F Clinic Assets at the option of the Divestiture Trustee and the Commission.

2. all of the Dallas Clinics Joint Venture Interests pursuant to Paragraph II of this Order, the Commission may appoint a trustee to (1) divest the Dallas Clinics Joint Venture Interests that have not been divested pursuant to Paragraph II of this Order in a manner that satisfies the requirements of Paragraph II of this Order; or, in the event the Dallas Clinics Joint Venture Interests cannot be divested for whatever reason, (2) divest the Appendix F-3 Clinics in the Dallas area at the option of the Divestiture Trustee and the Commission.

3. all of the Alaska Clinic Assets pursuant to Paragraph II of this Order, the Commission may appoint a trustee to (1) divest the Alaska Clinic Assets that have not been divested pursuant to Paragraph II of this Order in a manner that satisfies the requirements of Paragraph II of this Order; or, in the event the Alaska Clinic Assets cannot be divested for whatever reason, (2) divest the Appendix F-4 Clinics in the Alaska area at the option of the Divestiture Trustee and the Commission.

4. all of the Memphis Clinics Joint Venture Interests pursuant to Paragraph II of this Order, the Commission may appoint a trustee to (1) divest the Memphis Clinics Joint Venture Interests that have not been divested pursuant to Paragraph II of this Order in a manner that satisfies the requirements of Paragraph II of this Order; or, in the event the Memphis Clinics Joint Venture Interests cannot be divested for whatever reason, (2) divest the Appendix F-5 Clinics in the Memphis area at the option of the Divestiture Trustee and the Commission.

In the event that the Commission or the Attorney General brings an action pursuant to Section 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondent Fresenius shall consent to the appointment of a trustee in such action to divest the relevant assets in accordance with the terms of this Order. Neither the appointment of a trustee nor a decision not to appoint a trustee under this Paragraph shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by Respondent Fresenius to comply with this Order.

B. The Commission shall select the trustee, subject to the consent of Respondent Fresenius, which consent shall not be unreasonably withheld. The trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondent Fresenius has not opposed, in writing, including the reasons for opposing, the selection of any proposed trustee within ten (10) days after receipt of notice by the staff of the Commission to Respondent Fresenius of the identity of any proposed trustee, Respondent Fresenius shall be deemed to have consented to the selection of the proposed trustee.

C. Within ten (10) days after appointment of a trustee, Respondent Fresenius shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the trustee all rights and powers necessary to permit the trustee to effect the divestitures required by this Order.

D. If a trustee is appointed by the Commission or a court pursuant to this Order, Respondent Fresenius shall consent to the following terms and conditions regarding the trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the trustee shall have the exclusive power and authority to divest any of the Appendix A Assets that have not been divested pursuant to Paragraph II of this Order and, subject to the provisions of Paragraph V.A. of the Order, divest Appendix F Clinic Assets.

2. The trustee shall have twelve (12) months from the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the twelve (12) month period, the trustee has submitted a divestiture plan or the Commission believes that the divestiture can be achieved within a reasonable time, the divestiture period may be extended by the Commission; *PROVIDED, HOWEVER*, the Commission may extend the divestiture period only two (2) times.

3. Subject to any demonstrated legally recognized privilege, the trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be divested by this Order and to any other relevant information, as the trustee may request. Respondent Fresenius shall develop such

financial or other information as the trustee may request and shall cooperate with the trustee. Respondent Fresenius shall take no action to interfere with or impede the trustee's accomplishment of the divestiture. Any delays in divestiture caused by Respondent Fresenius shall extend the time for divestiture under this Paragraph V in an amount equal to the delay, as determined by the Commission or, for a court-appointed trustee, by the court.

4. The trustee shall use commercially reasonable best efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondent Fresenius's absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture shall be made in the manner and to an Acquirer or Acquirers that receives the prior approval of the Commission, as required by this Order; *PROVIDED, HOWEVER*, if the trustee receives bona fide offers for particular assets from more than one acquiring entity, and if the Commission determines to approve more than one such acquiring entity for such assets, the trustee shall divest the assets to the acquiring entity selected by Respondent Fresenius from among those approved by the Commission; *PROVIDED, FURTHER, HOWEVER*, that Respondent Fresenius shall select such entity within five (5) days of receiving notification of the Commission's approval.

5. The trustee shall serve, without bond or other security, at the cost and expense of Respondent Fresenius, on such reasonable and customary terms and conditions as the Commission or a court may set. The trustee shall have the authority to employ, at the cost and expense of Respondent Fresenius, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the trustee's duties and responsibilities. The trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission and, in the case of a court-appointed trustee, by the court, of the account of the trustee, including fees for the trustee's services, all remaining monies shall be paid at the direction of Respondent Fresenius, and the trustee's power shall be terminated. The compensation of the trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Respondent Fresenius shall indemnify the trustee and hold the trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from misfeasance, gross negligence, willful or wanton acts, or bad faith by the trustee.

7. The trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order.

8. The trustee shall report in writing to Respondent Fresenius and to the Commission every sixty (60) days concerning the trustee's efforts to accomplish the divestiture.

9. Respondent Fresenius may require the trustee and each of the trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER*, such agreement shall not restrict the trustee from providing any information to the Commission.

E. If the Commission determines that a trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute trustee in the same manner as provided in this Paragraph V.

F. The Commission or, in the case of a court-appointed trustee, the court, may on its own initiative or at the request of the trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestiture required by this Order.

G. The trustee appointed pursuant to this Paragraph may be the same Person appointed as the Monitor pursuant to the relevant provisions of this Order or the Order to Maintain Assets.

VI.

IT IS FURTHER ORDERED that:

A. Beginning thirty (30) days after the date this Order becomes final, and every sixty (60) days thereafter until Respondent Fresenius has fully complied with Paragraphs II.A., II.B., II.C., II.D.1., II.D.2.a., II.D.3., II.D.4., II.E., II.F., II.G.2., II.I.2., II.J., II.L., and IV.B. of this Order, Respondent Fresenius shall submit to the Commission a verified written report setting forth in detail the manner and form in which it intends to comply, is complying, and has complied with the terms of this Order, the Order to Maintain Assets, and the Divestiture Agreements. Respondent Fresenius shall submit at the same time a copy of these reports to the Monitor.

B. Beginning twelve (12) months after the date this Order becomes final, and annually thereafter on the anniversary of the date this Order becomes final, for the next four (4) years, Respondent Fresenius shall submit to the Commission verified written reports setting forth in detail the manner and form in which it is complying and has complied with this Order, the Order to Maintain Assets, and the Divestiture Agreements. Respondent Fresenius shall submit at the same time a copy of these reports to the Monitor.

VII.

IT IS FURTHER ORDERED that Respondent Fresenius shall notify the Commission at least thirty (30) days prior to:

A. Any proposed dissolution of Respondent Fresenius,

B. Any proposed acquisition, merger or consolidation of Respondent Fresenius, or

C. Any other change in Respondent Fresenius that may affect compliance obligations arising out of this Order, including but not limited to assignment, the creation or dissolution of subsidiaries, or any other change in Respondent Fresenius.

VIII.

IT IS FURTHER ORDERED that, for the purpose of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request with reasonable notice to Respondent Fresenius, Respondent Fresenius shall permit any duly authorized representative of the Commission:

A. Access, during office hours of Fresenius and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of Fresenius related to compliance with this Order, which copying services shall be provided by Respondent at the request of the authorized representative(s) of the Commission and at the expense of the Respondent; and

B. Upon five (5) days' notice to Fresenius and without restraint or interference from Fresenius, to interview officers, directors, or employees of Fresenius, who may have counsel present, regarding such matters.

IX.

IT IS FURTHER ORDERED that this Order shall terminate on May 23, 2022.

By the Commission, Commissioner Ohlhausen not participating.

Donald S. Clark
Secretary

APPENDIX B

AREA DEFINITIONS TO APPENDIX A CLINICS, THE DALLAS JOINT VENTURE INTERESTS CLINICS, THE MEMPHIS JOINT VENTURE INTERESTS CLINICS, AND THE ALASKA CLINIC ASSETS

AREA DEFINITIONS

- Five digit numbers refer to zip codes.
- Geographic areas bounded by roads include all properties abutting the referenced road (*i.e.*, properties on both sides of the road).
- Zip codes or other areas fully surrounded by areas included in the area definition shall be considered part of the area definition.
- Area definitions are based on maps submitted to the Commission staff by Fresenius.

	Divested Clinics	**Corresponding Area Definition**
1	Liberty Alaska LLC	The area in and/or near Anchorage, AK, consisting of: 99501; 99502; 99503; 99504; 99505; 99506; 99507; 99508; 99515; 99516; 99517; 99518; 99520; 99540; 99567; 99577; 99587; 99654; and the portion of 99645 that lies south and west of Chickaloon, AK.
2	Liberty Flagstaff De Novo	The area in and/or near Flagstaff, AZ, consisting of: 86001, 86004, 86030, 86031, 86033, 86034, 86035, 86039, 86040, 86042, 86043, 86044, 86045, 86046, 86047, 86048, 86053, 86054, 86435, and 86510.
3	FMC Berkeley	The area in and/or near Berkeley, CA, consisting of: 94051; 94501; 94530; 94547; 94564; 94601; 94602; the portion of 94605 that lies north of 66th Avenue; 94606; 94607; 94608; 94609; 94610; 94611; 94612; 94613; 94618; 94619; 94702; 94703; 94704; 94705; 94706; 94707; 94708; 94709; 94710; 94611; 94613; 94618; 94619; 94801; 94803; 94804; 94805; and 94806.

4	Liberty Broadway Chula Vista	The area in and/or near Chula Vista, CA, consisting of: the portion of 91901 that lies south of Japatul Road; 91905; 91906; 91910; 91911; 91913; 91914; 91915; 91917; 91932; 91934; 91935; 91945; 91950; 91962; 91963; 91977; 91978; 92101; 92102; the portion of 92103 that lies south of West Washington Street; 92104; 92105; 92113; 92114; the portion of 92115 that lies south of University Avenue; 92118; 92135; 92136; 92139; 92154; 91962; 91963; 92173; and 92174.
5	Liberty El Camino Real Oceanside	The area in and/or near Oceanside, CA, consisting of: the portions of 91901, 91962, and 92021 that lie north of 8, 91916, 91948, 92003, 92004, 92007, 92008, 92009, 92010, 92011, 92014, 92024, 92025, 92026, 92027, 92028, 92029, 92036, 92037, 92040, 92054, 92055, 92056, 92057, 92058, 92059, 92060, 92061, 92064, 92065, 92066, 92067, 92069, 92070, the portions of 92071, 92111, 92123, and 92124 that lie north of Route 52, 92075, 92078, 92081, 92082, 92083, 92084, 92086, 92121, 92122, 92126, 92127, 92128, 92129, 92130, 92131, 92137, and 92145.
6	Liberty Pueblo	The area in and/or near Pueblo, CO, consisting of: 81001, 81002, 81003, 81004, 81005, 81006, 81007, 81008, 81022, 81023, and 81069.
7	Liberty Orange and Liberty North Haven	The area in and/or near New Haven, CT, consisting of: 06405, 06460, 06461, 06471, 06472, 06473, 06477, the portions of 06410 and 06492 that lie south of Route 68, 06511, 06512, 06513, 06514, 06515, 06516, 06517, 06518, and 06519.
8	Liberty Seaford	The area in and/or near Seaford, DE, consisting of: 19931, 19933, 19939, 19940, 19947, 19950, 19956, 19966, and 19973.
9	Liberty Wilmington	The area in and/or near Wilmington, DE, consisting of: 19701, 19702, 19703, 19706, 19707, 19709, 19711, 19713, 19720, 19733, 19801, 19802, 19803, 19805, 19806, 19807, 19808, 19809, and 19810.

10	Liberty Sarasota	The area in and/or near Sarasota, FL, consisting of: 34201, 34203, 34207, 34231, 34232, 34233, 34234, 34235, 34236, 34237, 34238, 34239, 34240, 34243, the portion of 34202 that lies to the south of State Road 64, the portion of 34208 that lies to the east of 57th Street East, the portion of 34241 that lies to the north of Clark Road/State Road 72.
11	FMC Viera	The area in and/or near Merritt Island, FL, consisting of: 32920, 32922, 32924, 32926, 32927, 32931, 32940, 32952, 32953, 32954, 32955, and the portion of 32937 that lies north of Route 404.
12	FMC Pine Street, BMA of Macon Inc., and FMC South Macon Dialysis	The area in and/or near Macon, GA, consisting of: 31017, 31020, 31032, 31033, 31044, 31052, 31066, 31201, 31203, 31204, 31206, 31210, 31211, 31216, 31217, 31218, and 31220.
13	FMC Milledgeville	The area in and/or near Milledgeville, GA, consisting of: 31024, 31031, 31042, 31054, 31061, the portion of 31082 that lies to the west of North Indian Trail Road and South Indian Trail Road, 31087, and 31090.

and,	)	
Arbitron Inc.,	)	
a corporation.	)	

DECISION AND ORDER
[Public Record Version]

The Federal Trade Commission ("Commission"), having initiated an investigation of the proposed acquisition by Respondent Nielsen Holdings N.V. ("Nielsen") of the outstanding voting shares of Respondent Arbitron Inc. ("Arbitron"), and Respondents having been furnished thereafter with a copy of a draft of Complaint that the Bureau of Competition proposed to present to the Commission for consideration and which, if issued by the Commission, would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondents, their attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Order ("Consent Agreement"), containing an admission by Respondents of all the jurisdictional facts set forth in the aforesaid draft of Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission having thereafter considered the matter and having determined that it had reason to believe that Respondents have violated the said Acts, and that a Complaint should issue stating its charges in that respect, and having accepted the executed Consent Agreement

and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, now in conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby issues its Complaint, makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Nielsen is a corporation organized, existing and doing business under and by virtue of the laws of the Netherlands, with its office and principal place of business located at 85 Broad Street, New York, New York 10004.

2. Respondent Arbitron is a corporation organized, existing and doing business under and by virtue of the laws of the state of Delaware, with its office and principal place of business located at 9705 Patuxent Woods Drive, Columbia, Maryland 21046-1572.

3. The Federal Trade Commission has jurisdiction over the subject matter of this proceeding and of the Respondents, and this proceeding is in the public interest.

ORDER

I.

IT IS HEREBY ORDERED that, as used in this Order, the following definitions shall apply:

A. "Nielsen" means Nielsen Holdings N.V., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups and affiliates in each case controlled by Nielsen Holdings N.V., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each. After the Acquisition, the term "Nielsen" shall include Arbitron.

B. "Arbitron" means Arbitron Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups and affiliates in each case controlled by Arbitron Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Acquirer" means a Person approved by the Commission to acquire particular assets or rights that Respondents are required, pursuant to this Order, to assign, grant, license, divest, transfer, deliver, or otherwise convey.

D. "Acquisition" means Nielsen's acquisition of Arbitron pursuant to an Agreement and Plan of Merger executed December 17, 2012.

E. "Arbitron Calibration Panel" means the subset of individuals recruited from the Arbitron PPM Panel that provides single source reach levels and overlaps for television, tablets, smartphones, personal computers, and radio (or any other device that performs similar functions), by asking the panelists in addition to their Arbitron PPM Panel responsibilities to download software on their home personal computer, tablets, and

smartphones (or any other device that performs similar functions); "Arbitron Calibration Panel" includes the panel of people as expanded pursuant to Paragraph IV. of this Order.

F. "Arbitron PPM Panel" means the panel of individuals in the U.S. who have been recruited by Arbitron to carry Arbitron's Portable People Meter® ("PPM") device to measure their exposure to encoded audio signals.

G. "Balance of Nation Panel" means a group of individuals recruited to supplement the Arbitron PPM Panel, such that when combined with the Arbitron PPM Panel, national audience projections are possible or enhanced.

H. "Calibration Panel Data" means the data from the Arbitron Calibration Panel or from the expansion of the Arbitron Calibration Panel.

I. "Commission" means Federal Trade Commission.

J. "comScore" means comScore, Inc., a corporation located at 11950 Democracy Drive, Suite 600, Reston, Virginia 20190.

K. "Confidential Information" means information not in the public domain, including, but not limited to, information regarding methodology, encoding share, customer identity, or customer contract details. "Confidential Information" shall not include any information that: (1) is publicly available when provided, disclosed, or otherwise made available; or (2) becomes publicly available after it is provided, disclosed, or otherwise made available by means other than a violation of this Order or Respondents' breach of a confidentiality or non-disclosure agreement.

L. "Cross-Platform Services" means any U.S. service that measures viewing of content, for the purpose of determining the size and composition of the audience of such programming and/or advertising across multiple distribution platforms including, but not limited to, television, online, mobile, radio and tablets (or any other device that performs similar functions), but in all events measuring at least television and online, and related insights and analytics.

M. "Direct Cost" means cost not to exceed the cost of labor, material, equipment, travel, and other expenditures to the extent the costs are directly incurred to provide the assistance or services required by this Order and that would not otherwise be incurred by Respondents. "Direct Cost" to the Acquirer for its use of any of Respondents' employees' labor shall not exceed the then-current average wage rate for such employee, including benefits.

N. "Encoding Equipment" means all equipment relating to the encoding of audio signals for detection by PPMs, including updates thereto.

O. "Encoding Technology" means all intellectual property, rights, know-how, licenses, and agreement related to the encoding of audio signals for detection by PPMs, including updates thereto

P. "ESPN" means the multi-platform media company, ESPN, Inc., a subsidiary of The Walt Disney Company, which focuses on sports-related programming including live and recorded event telecasts, sports talk shows, and other original programming, that

distributes its content on multiple platforms including cable and satellite television, online, mobile, and radio.

Q. "Key Arbitron Employees" means the employees listed on Confidential Exhibit A of this Order.

R. "Link Meter Technology" means (1) all software (source code and object code) intended for use in Project Blueprint that enables comScore to synchronize its media measurement data with the panelists in the Arbitron Calibration Panel; and (2) all other rights and interests arising out of, in connection with, or in relation to such software, including, but not limited to, all rights to causes of action and remedies related thereto.

S. "MRC" means the Media Rating Council, which accredits audience measurement services.

T. "Monitor" means the monitor appointed pursuant to Paragraph VI. of this Order.

U. "Panelist Characteristics" means the following information, provided on a non-personally identifiable basis, for a panelist: (1) age; (2) gender; (3) race/ethnicity; (4) presence of children in the household; (5) size of household; (6) time zone; (7) DMA and metro market code; and (8) five-digit zip code .

V. "PPM Equipment" means all equipment related to the operation of, and collection of data from, PPMs, including updates thereto.

W. "PPM Technology" means all intellectual property rights, know-how, licenses, and agreements related to the operation of, and collection of data from, PPMs, including updates thereto.

X. "Person" means any individual, partnership, joint venture, firm, corporation, association, trust, unincorporated organization, or other business or government entity, and any subsidiaries, divisions, groups or affiliates thereof.

Y. "Project Blueprint" means the collaboration between Arbitron and comScore for ESPN as contemplated by (1) the Multi-Platform Research Agreement with ESPN between Arbitron, comScore, and ESPN, executed August 8, 2012; and (2) the Collaboration Agreement between Arbitron and comScore, effective August 1, 2012.

Z. "Prospective Acquirer" means the Person that Respondents (or the Divestiture Trustee, if appointed) intend to submit or have submitted to the Commission for the Commission's prior approval pursuant to Paragraph II.A. (or Paragraph VII., if applicable) of this Order.

AA. "Radio Data" means all data from the Arbitron PPM Panel that reflect Panelist Characteristics, dictionary of reported data fields, and records of encoded radio content detected by the panelists' PPMs as reported consistent with the practices Arbitron used for reporting data for Project Blueprint.

BB. "Remedial Agreement" means the agreement between Respondents and the Acquirer that includes the provisions required by this Order and that has been approved by the Commission, including all amendments, exhibits, attachments, agreements, and schedules thereto, related to the relevant assets or rights to be offered to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed.

CC. "Television Data" means all data from the Arbitron PPM Panel that reflect Panelist Characteristics, dictionary of reported data fields, and records of encoded video content detected by the panelists' PPMs as reported consistent with the practices Arbitron used for reporting data for Project Blueprint, and additionally including time shifted viewing data (which shall include video on demand) identified as such, which additional time shifted viewing data shall be provided to the Acquirer at Direct Cost.

II.

IT IS FURTHER ORDERED that:

A. No later than three (3) months after Respondents execute the Agreement Containing Consent Order, Respondents shall divest the Link Meter Technology absolutely and in good faith and at no minimum price, to an Acquirer that receives the prior approval of the Commission, and only in a manner that receives the prior approval of the Commission (including execution of a Remedial Agreement) and shall, pursuant to a Remedial Agreement, license to that Acquirer, on a non-exclusive basis, all know-how related to the Link Meter Technology;

1. Respondents shall obtain, and the Acquirer shall grant to Respondents, a royalty-free right to use the Link Meter Technology, for purposes of complying with the requirements of this Order;

2. *Provided, however*, that both the Acquirer and Respondents shall have unrestricted rights to use the know-how relating to the Link Meter Technology and each shall covenant not to bring litigation against the other to enjoin or seek recompense for the use of the Link Meter Technology or software designed to perform similar functions.

B. No later than the date Respondents divest the Link Meter Technology to the Acquirer pursuant to Paragraph II.A., above, Respondents shall, pursuant to a Remedial Agreement, for a period no less than eight (8) years from the date of the divestiture required by Paragraph II.A., above:

1. License to the Acquirer, on a royalty-free basis, for use in developing and providing a calibration panel and/or Balance of Nation Panel for the provision of Cross-Platform Services:

   a. the Encoding Technology; and

   b. the PPM Technology; and

2. Provide, at Direct Cost to the Acquirer, such technical assistance (including know-how relating to the Link Meter Technology), Encoding Equipment, and/or PPM Equipment, as requested by the Acquirer to enable the Acquirer to:

a. provide Cross-Platform Services, including to encode additional content and/or advertising and developing and managing any panel using the PPM Technology for Cross-Platform Services provided by the Acquirer to its customers, and

b. obtain accreditation by the MRC in connection with the provision of Cross-Platform Services.

C. No later than the date Respondents divest the Link Meter Technology to the Acquirer pursuant to Paragraph II.A., above, Respondents shall, pursuant to a Remedial Agreement and consistent with the requirements of Paragraph IV.B.1., for a period of no less than eight (8) years from the date of the divestiture required by Paragraph II.A., above, provide to the Acquirer for purposes of developing and providing Cross-Platform Services to its customers, and grant to the Acquirer a perpetual, royalty-free license (for data delivered during the term of the Remedial Agreement) for the use of:

1. Television Data;

2. Radio Data; and

3. Calibration Panel Data;

Respondents shall provide the Television Data, Radio Data, and Calibration Panel Data (except for five- digit zip code data) to the Acquirer on a respondent-level basis and an aggregated basis by specified customers' stations, networks, websites, and/or other media distribution platforms, as identified by the Acquirer, in such form, at such frequency as reasonably requested by the Acquirer, but in no event less frequent than the frequency Arbitron used for reporting data for Project Blueprint, and according to such metrics as reasonably requested by the Acquirer; *provided, however*, that, with respect to five-digit zip code data, Respondents shall provide the total number of individuals by zip code as reasonably requested by the Acquirer (but at least monthly); and if Respondents make any zip code data, or any segment reporting derived from zip codes, available to its customers of national Cross-Platform Services, then Respondents shall provide five-digit zip code data to the Acquirer sufficient to provide similar information to Acquirer's customers, as reasonably requested by the Acquirer; p*rovided further, however*, that Respondents shall have and retain full and exclusive right, title, and ownership interest in and to any information provided by Respondents to the Acquirer except that the Acquirer shall have the right to use the information to develop and provide Cross-Platform Services to its customers pursuant to the Remedial Agreement; p*rovided further, however*, that, with respect to Radio Data, the Acquirer may not disclose Radio Data to any customer of the Acquirer who is not also a subscriber to Arbitron radio ratings.

D. Respondents shall:

1. Have no authority to, and shall not exercise or attempt to exercise any authority to, market or price the Cross-Platform Services that the Acquirer sells to the Acquirer's customers,

2. Not be entitled to any revenue, or portion thereof, that the Acquirer collects from its customers, or attempt to collect any revenue, or portion thereof, from the Acquirer attributable to revenue that the Acquirer collects from its customers; and

3. Not make any change to the PPM Technology or Encoding Technology that has the effect of eliminating or impairing the ability of the PPM to collect records of encoded video content.

E. The Remedial Agreement shall be incorporated by reference into this Order and made a part hereof. Respondents shall comply with all terms of the Remedial Agreement, and any breach by Respondents of any term of the Remedial Agreement shall constitute a failure to comply with this Order. If any term of the Remedial Agreement varies from the terms of this Order ("Order Term"), then to the extent that Respondents cannot fully comply with both terms, the Order Term shall determine Respondents' obligations under this Order. No Remedial Agreement shall limit or contradict, or be construed to limit or contradict, the terms of this Order, it being understood that nothing in this Order shall be construed to reduce any rights or benefits of any Acquirer or to reduce any obligations of Respondents under such agreement.

F. The purpose of this Paragraph II is to ensure that the Acquirer can offer Cross-Platform Services, with the goal of providing a national syndicated cross-platform audience measurement service, and to remedy the lessening of competition resulting from the Acquisition as alleged in the Commission's complaint.

III.

IT IS FURTHERED ORDERED that Respondents shall:

A. No later than ten (10) days after a request from a Prospective Acquirer, provide the Prospective Acquirer with the following information for each Key Arbitron Employee, as and to the extent permitted by law:

1. Name, job title or position, date of hire, and effective service date;

2. A specific description of the employee's responsibilities;

3. The base salary or current wages;

4. The most recent bonus paid, aggregate annual compensation for Respondents' last fiscal year, and current target or guaranteed bonus; if any;

5. Employment status (i.e. active or on leave or disability, full-time or part-time);

6. Any other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

7. At the Prospective Acquirer's option, copies of all employee benefit plans and summary plan descriptions (if any) applicable to the Key Arbitron Employee;

B. No later than ten (10) days after a request from a Prospective Acquirer, provide to the Prospective Acquirer an opportunity to meet personally and outside the presence or hearing of any employee or agent of any Respondent, with any one or more of the Key Arbitron Employees, and to make offers of employment to any one or more of the Key Arbitron Employees.

C. Not interfere, directly or indirectly, with the hiring or employing by the Prospective Acquirer of any Key Arbitron Employees, not offer any incentive to such employees to decline employment with the Prospective Acquirer, and not otherwise interfere with the recruitment of any Key Arbitron Employees by the Prospective Acquirer;

D. Remove any impediments within the control of Respondents that may deter Key Arbitron Employees from accepting employment with the Prospective Acquirer, including, but not limited to, removal of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by the Prospective Acquirer, and shall not make any counteroffer to a Key Arbitron Employee who receives a written offer of employment from the Prospective Acquirer; *provided, however*, that nothing in this Order shall be construed to require Respondents to terminate the employment of any employee or prevent Respondents from continuing the employment of any employee.

E. For Key Arbitron Employees who have accepted offers of employment with the Acquirer, not, for a period of one (1) year following the date such Key Arbitron Employee begins employment with the Acquirer, directly or indirectly, solicit or otherwise attempt to induce such Key Arbitron Employees to terminate his or her employment with the Acquirer; *provided, however*, that Respondents may:

1. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at Key Arbitron Employees; or

2. Hire Key Arbitron Employees who apply for employment with Respondents, as long as such employees were not solicited by Respondents in violation of this Paragraph; *provided further, however*, that this Paragraph shall not prohibit Respondents from making offers of employment to or employing any Key Arbitron Employee if the Acquirer has notified Respondents in writing that the Acquirer does not intend to make an offer of employment to that employee, or

where such an offer has been made and the employee has declined the offer, or where the employee's employment has been terminated by the Acquirer.

F. For any employees (except those listed on Confidential Exhibit B) who are terminated by Respondents who had responsibilities for or were involved in Project Blueprint or who are engineers knowledgeable about the Encoding Technology, Respondents shall remove any impediments within the control of Respondents that may deter such employee from accepting employment with the Acquirer, including, but not limited to, removal, solely to the extent needed for the Acquirer's provision of Cross-Platform Services, of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by the Acquirer, and shall not make any counteroffer to such an employee who receives a written offer of employment from the Acquirer.

IV.

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. Manage and maintain (and expand as required by Paragraph IV.A.2., below) the Arbitron Calibration Panel consistent with Respondents' own business practices and under the following conditions:

   a. Respondents shall assure that the Arbitron Calibration Panel comprises at least two thousand panelists no later than six (6) weeks after the date of the signing of the Remedial Agreement;

   b. Respondents shall require the Acquirer to pay the Direct Costs directly attributable to managing and maintaining the Arbitron Calibration Panel*; provided, however*, that Respondents may enter into a Remedial Agreement that includes additional payments to which the Acquirer agrees, as approved by the Commission;

   c. the Acquirer shall have full and exclusive right, title, and ownership interest in and to any and all data generated by the Arbitron Calibration Panel; for the avoidance of doubt, Respondents shall retain all right, title and ownership interest in all underlying data from the PPM Panel that is an input into the data generated by the Arbitron Calibration Panel;

   d. at the Acquirer's option, Respondents shall have the right to use the data generated by the Arbitron Calibration Panel at a cost negotiated and agreed to by the Acquirer and Respondents, as reviewed and approved by the Monitor in consultation with Commission staff;

   e. *provided, however,* that Respondents shall have no obligation to manage and maintain the Arbitron Calibration Panel if the Acquirer requests in writing (with copies to the Commission staff and the Monitor) that it no longer requires that the Arbitron Calibration Panel be maintained; and

f *provided, further, however* that Respondents shall have no obligation to continue to manage and maintain the Arbitron Calibration Panel if (1) the Acquirer fails to pay the Direct Costs directly attributable to managing and maintaining the Arbitron Calibration Panel as required by the Remedial Agreement; (2) Respondents notify the Acquirer, the Monitor, and Commission staff of Acquirer's failure to pay Direct Costs and give the Acquirer thirty (30) days from receiving that notice to cure the failure; and (3) the Acquirer fails to cure.

2. At the request of the Acquirer, expand the Arbitron Calibration Panel beyond the two (2) thousand panelists required in Paragraph IV.A.1.a. to enable national projections under the following conditions:

   a. Respondents shall require the Acquirer to pay the Direct Costs directly attributable to the expansion of the Arbitron Calibration Panel; *provided, however*, that Respondents may enter into a Remedial Agreement that includes additional payments to which the Acquirer agrees, as approved by the Commission;

   b. the Acquirer shall have full and exclusive right, title, and ownership interest in and to any and all data generated by the expansion of the Arbitron Calibration Panel; and

   c. at the Acquirer's option, Respondents shall have the right to use the data generated by the expansion of the Arbitron Calibration Panel at a cost negotiated and agreed to by the Acquirer and Respondents, as reviewed and approved by the Monitor in consultation with Commission staff;

B. Respondents shall manage and maintain (and expand as required by Paragraph IV.B.2. below) the Arbitron PPM Panel consistent with Respondents' own practices and under the following conditions:

1. Respondents shall require the Acquirer to pay the Direct Costs directly attributable to the cost of providing the data generated by the Arbitron PPM Panel to the Acquirer; *provided, however*, that Respondents may enter into a Remedial Agreement that includes additional payments to which the Acquirer agrees, as approved by the Commission; and

2. At the request of the Acquirer, expand the Arbitron PPM Panel to enable national projections under the following conditions:

   a. Respondents shall require the Acquirer to pay the Direct Costs directly attributable to such expansion and to the collection of those data that are provided to and used solely by the Acquirer; *provided, however*, that Respondents may enter into a Remedial Agreement that includes additional payments to which the Acquirer agrees, as approved by the Commission;

   b. the Acquirer shall have full and exclusive right, title, and ownership interest in and to any and all data generated by the expansion of the Arbitron PPM Panel; and

c. at the Acquirer's option, Respondents shall have the right to use the data generated by the expansion of the Arbitron PPM Panel at a cost negotiated and agreed to by the Acquirer and Respondents, as reviewed and approved by the Monitor in consultation with Commission staff.

V.

IT IS FURTHER ORDERED that after the date of the divestiture of the Link Meter Technology, Respondents shall not disclose, provide, discuss, exchange, circulate, convey, or otherwise furnish Confidential Information of the Acquirer, directly or indirectly, to or with any of Respondents' employees, officers, directors, agents or representatives with responsibilities relating to Respondents' audience measurement business, except as necessary to comply with the requirements of this Order.

VI.

IT IS FURTHER ORDERED that:

A. At any time after Respondents sign the Consent Agreement in this matter, the Commission may appoint a monitor ("Monitor") to assure that Respondents comply with all obligations and perform all responsibilities required by this Order and the Remedial Agreement.

B. The Commission shall select the Monitor, subject to the consent of Respondents, which consent shall not be unreasonably withheld. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of a proposed Monitor within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed Monitor, Respondents shall be deemed to have consented to the selection of the proposed Monitor.

C. Not later than ten (10) days after the appointment of the Monitor, Respondents shall execute an agreement that, subject to the prior approval of the Commission, confers upon the Monitor all the rights and powers necessary to permit the Monitor to monitor Respondents' compliance with the requirements of this Order and the Remedial Agreement.

D. If a Monitor is appointed by the Commission, Respondents shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor Respondents' compliance with the requirements of this Order, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the underlying purpose of this Order and in consultation with the Commission or Commission staff.

2. The Monitor shall act in a fiduciary capacity for the benefit of the Commission.

3. The Monitor shall serve until termination of this Order.

4. The Monitor shall report in writing to the Commission every sixty (60) days concerning the Monitor's duties and responsibilities.

5. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to Respondents' personnel, books, documents, records kept in the ordinary course of business, facilities and technical information, and such other relevant information as the Monitor may reasonably request, related to Respondents' compliance with their obligations under this Order. Respondents shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor Respondents' compliance with this Order and the Remedial Agreement.

6. The Monitor shall serve, without bond or other security, at the expense of Respondents, on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Respondents, such consultants, accountants, attorneys and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities.

7. Respondents shall indemnify the Monitor and hold the Monitor harmless against all losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Monitor.

8. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys and other representatives and assistants to sign a customary confidentiality agreement; *provided, however*, that such agreement shall not restrict the Monitor (and its representatives) from providing any information to, or receiving information from, the Commission.

9. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Monitor's duties.

10. In the event the Commission determines that the Monitor is no longer willing or able to perform his/her duties under this Order, or has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the same manner as provided in this Paragraph.

11. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order.

12. The Monitor appointed pursuant to this Paragraph VI. may be the same person appointed as the Divestiture Trustee pursuant to Paragraph VII. of this Order.
.

VII.

IT IS FURTHER ORDERED that:

A. If Respondents have not fully complied with the divestiture and licensing obligations of Paragraph II. of this Order, the Commission may appoint a Divestiture Trustee to perform Respondents' obligations in a manner that satisfies the requirements of this Order, including, but not limited to, Paragraphs II. and IV. In the event that the Commission or the Attorney General brings an action pursuant to Section 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to divest the required assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Paragraph VII.A. shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to Section 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by Respondents to comply with this Order.

B. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a person with experience and expertise in acquisitions and divestitures in the media industry. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of a proposed Divestiture Trustee within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

1. No later than ten (10) days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effectuate the divestiture required by, and satisfy the additional obligations imposed by, this Order.

2. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Paragraph, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

   a. subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to effectuate the divestiture required by, and satisfy the additional obligations imposed by, this Order.

   b. the Divestiture Trustee shall have six (6) months after the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the six (6) month period, the Divestiture Trustee has submitted a plan to satisfy the obligations of Paragraphs II. and IV. of this Order, or believes that such obligations can be achieved within a reasonable time, the period may be extended by the Commission, or, in the case of a court-appointed Divestiture Trustee, by the court; *provided, however*, that the Commission may extend the period for only an additional three (3) months.

   c. subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be divested by this Order and to any other relevant information, as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestiture. Any delays caused by Respondents shall extend the time under this Paragraph VII. for a time period equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court.

   d. the Divestiture Trustee shall use commercially reasonable efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously subject to the provisions of Paragraphs II. and IV., including, but not limited to, the requirement that the Acquirer pay Direct Costs as required by Paragraphs IV.A.1.b, IV.A.2.a., IV.B.1., and IV.B.2.a. The divestiture shall be made in the manner and to an acquirer as required by this Order; *provided, however*, if the Divestiture Trustee receives bona fide offers from more than one acquiring entity, and if the Commission determines to approve more than one such acquiring entity, the Divestiture Trustee shall divest to the acquiring entity selected by Respondents from among those approved by the Commission; *provided further, however*, that Respondents shall select such entity within five (5) days after receiving notification of the Commission's approval.

e. the Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

f. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, malfeasance, willful or wanton acts, or bad faith by the Divestiture Trustee.

g. the Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order.

h. the Divestiture Trustee shall report in writing to Respondents and to the Commission every thirty (30) days concerning the Divestiture Trustee's efforts to accomplish the divestiture.

i. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however*, such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

j. the Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

C. If the Commission determines that the Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph VII.

D. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee, issue such additional orders or directions as may be necessary or appropriate to accomplish the divestitures required by this Order.

E. The Divestiture Trustee appointed pursuant to this Paragraph VII. may be the same person appointed as the Monitor pursuant to Paragraph VI. of this Order.

VIII.

IT IS FURTHER ORDERED that:

A. No later than thirty (30) days after the date this Order is issued, and every thirty (30) days thereafter until the Link Meter Technology is divested and the Remedial Agreement entered into pursuant to Paragraph II of this Order is approved by the Commission, Respondents shall submit to the Commission (and a complete copy to the Monitor) a verified written report setting forth in detail the manner and form in which it intends to comply, is complying, and has complied with this Order. For the period covered by this report, the report shall include, but not be limited to, among other things that are required from time to time, a full description of the efforts being made to comply with Paragraph II of this Order, including a description of all substantive contacts or negotiations and the identity and contact information of all parties contacted. Respondents shall include in the reports copies of all material written communications to and from such parties, all internal memoranda, and all reports and recommendations concerning completing the obligations.

B. One (1) year after this Order is issued, annually for the next seven (7) years on the anniversary of that date, and at other times as the Commission may require, Respondents shall file verified written reports with the Commission setting forth in detail the manner and form in which they have complied and are complying with this Order.

IX.

IT IS FURTHER ORDERED that Respondents shall notify the Commission at least thirty (30) days prior to:

A. Any proposed dissolution of such Respondent;

B. Any proposed acquisition, merger, or consolidation of such Respondent; or

C. Any other change in such Respondent, including, but not limited to, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of this Order.

X.

IT IS FURTHER ORDERED that for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon five (5) days' notice to Respondents made to either Respondents' principal United States office, registered office of its United States subsidiary, or its headquarters address, Respondents shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of Respondents and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of Respondents related to compliance with this Order, which copying services shall be provided by Respondents at the request of the authorized representative(s) of the Commission and at the expense of the Respondents; and

B. To interview officers, directors, or employees of Respondents, who may have counsel present, regarding such matters.

XI.

IT IS FURTHER ORDERED that this Order shall terminate on February 24, 2022.

By the Commission, Commissioner Ohlhausen recused, and Commissioner Wright dissenting.

Confidential Exhibits A and B

[Redacted From the Public Record Version, But Incorporated By Reference]

UNITED STATES OF AMERICA
BEFORE THE FEDERAL TRADE COMMISSION

COMMISSIONERS: **Maureen K. Ohlhausen, Acting Chairman**
Terrell McSweeny

In the Matter of: **Red Ventures Holdco, LP,** **a limited partnership, and** **Bankrate, Inc.,** **a corporation.**	**Docket No. C-4627**

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act and the Clayton Act, and its authority thereunder, the Federal Trade Commission ("Commission"), having reason to believe that Respondent Red Ventures Holdco, LP ("Red Ventures") has entered into a transaction with Respondent Bankrate, Inc. ("Bankrate"), that such transaction, if consummated, would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45, and that a proceeding in respect thereof would be in the public interest, hereby issues this Complaint, stating its charges as follows:

I. RESPONDENTS

Red Ventures

1. Respondent Red Ventures is a limited partnership organized, existing, and doing business under, and by virtue of, the laws of North Carolina, with its principal place of business located at 1101 Red Ventures Drive, Fort Mill, SC 29707.

2. Two private equity shareholders, General Atlantic, LLC and Silver Lake Partners, LP, own approximately 34% of Respondent Red Ventures. These shareholders each have one board seat and approval rights over two other board members of the seven person board of directors for Red Ventures GP, LLC, which is the management company that controls Respondent Red Ventures. These two shareholders must also approve certain significant capital expenditures by Red Ventures.

3. Respondent Red Ventures is a marketing company providing proprietary internet content and customer leads for providers in a variety of industries. Red Ventures' two private equity shareholders operate the following relevant domains: APlaceforMom.com, SeniorAdvisor.com, Caregivers.com, NursingHomes.com, OurParents.com, and SeniorLiving.net, which generate revenue by providing customer leads for senior living facilities.

4. Respondent Red Ventures and the corporate entities under its control are, and at all times relevant herein have been engaged in commerce, as "commerce" is defined in Section 1 of the Clayton Act, as amended, 15 U.S.C. § 12, and Section 4 of the FTC Act, as amended, 15 U.S.C. §44.

Bankrate

5. Respondent Bankrate is a corporation organized, existing, and doing business under, and by virtue of, the laws of Delaware, with its principal place of business located at 1675 Broadway, 22nd Floor, New York, NY 10019.

6. Respondent Bankrate is a marketing company providing proprietary internet content and customer leads for providers in a variety of industries. In connection with providing leads for senior living facilities, Bankrate operates the following relevant domains: Caring.com and SeniorHomes.com.

7. Respondent Bankrate and the corporate entities under its control are, and at all times relevant herein have been engaged in commerce, as "commerce" is defined in Section 1 of the Clayton Act as amended, 15 U.S.C. § 12, and Section 4 of the FTC Act, as amended, 15 U.S.C. §44.

II. THE PROPOSED MERGER

8. Respondent Red Ventures and affiliated companies under its control entered into a merger agreement ("Merger Agreement") with Respondent Bankrate, dated July 2, 2017, pursuant to which Baton Merger Corp., a newly created indirect wholly owned subsidiary of Red Ventures, will merge with and into Bankrate, with Bankrate surviving the merger (the "Merger"). On July 2, 2017, the Merger's total estimated dollar value was $1.4 billion.

9. The Merger is subject to Section 7 of the Clayton Act, as amended, 15 U.S.C. §18.

III. THE RELEVANT MARKET

10. A relevant product market in which to analyze the effects of the Merger is third-party paid referral services for senior living facilities. Senior living facilities provide a range of specialized long-term residential living options tailored to the needs of senior consumers. Referral services companies generate and collect customer leads for senior living facilities. Many small referral services generate leads through marketing and networking efforts similar to those

used by real estate agents. Larger referral services are internet-based; they attract consumers to their websites through both paid search advertising and search engine optimization, which includes, among other things, creating compelling free content to help the websites appear higher in search engine result pages. The referral services companies provide leads of qualified consumers to the senior living facilities. The senior living facilities' sales staff then contacts the consumers and seeks to consummate sales. When a consumer moves into a senior living facility, the senior living facility pays the referral services company a referral fee, typically based on a percentage of the first month's rent and care.

11. The relevant geographic market in which to analyze the effects of the Merger is the United States. Although the individual looking to move into a senior living facility has highly localized interests, large third-party paid referral services companies, like those controlled by the Respondents, compete on a nationwide basis to generate, collect, and refer qualified leads to senior living facilities located throughout the United States.

12. If there were a 5-10 percent post-merger price increase, senior living facilities likely would not switch to other lead sources in sufficient numbers to make the post-merger price increase unprofitable.

IV. MARKET STRUCTURE

13. Respondent Red Ventures' two large private equity shareholders jointly own A Place for Mom.com ("APFM"), which is the largest third-party paid referral service for senior living facilities.

14. Respondent Bankrate's Caring.com is generally recognized as the second largest third-party paid referral service for senior living facilities and its website claims to have the largest volume of traffic for individuals seeking information and support for placement of seniors into senior living facilities.

15. Caring.com is APFM's closest competitor. In addition to being the two largest third-party paid referral services for senior living facility operators, the two companies have similar business models. They both are internet-based referral services providers that compete to attract consumers via websites with national reach. They enter into contracts with senior housing operators both locally and nationally. Due to the popularity of its website, Caring.com represents one of APFM's most serious competitive threats. Besides APFM and Caring.com, there are numerous small third-party paid referral services for senior living facility operators, each with a negligible share of the relevant market.

V. BARRIERS TO ENTRY

16. There are substantial barriers to entering the third-party paid referral service for senior living facilities market. Network and scale effects on both the acquisition of potential leads and the supply of qualified leads to senior living facilities are significant. Achieving minimal viable scale means that entry into the relevant market would not be timely, likely, or sufficient in scope to deter or counteract the anticompetitive effects of the Merger.

VI. EFFECTS OF THE MERGER

17. The effects of the Merger, if consummated, may be substantially to lessen competition and tend to create a monopoly in the relevant market in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45 by:

a. increasing the likelihood that Respondent Red Ventures would unilaterally exercise market power in the relevant market; and

b. increasing the likelihood of or facilitating coordinated interaction between APFM and Caring.com in the relevant market.

VII. VIOLATIONS CHARGED

18. The Merger, if consummated, would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

19. The Merger Agreement entered into by Respondents Red Ventures and Bankrate constitutes a violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

IN WITNESS WHEREOF, the Federal Trade Commission, having caused this Complaint to be signed by the Secretary and its official seal affixed, at Washington, D.C., this second day of November, 2017, issues its complaint against Respondents.

By the Commission.

In the Matter of	)	
Red Ventures Holdco, LP, **a limited partnership,**	)	
and	)	**Docket No. C-**
Bankrate, Inc., **a corporation.**	)	

DECISION AND ORDER
[Public Record Version]

The Federal Trade Commission ("Commission"), having initiated an investigation of the proposed merger of Baton Merger Corp. ("Baton"), a wholly-owned subsidiary of Red Ventures Holdco, L.P., ("Red Ventures"), and Bankrate, Inc. ("Bankrate"), collectively "Respondents," and Respondents having been furnished thereafter with a copy of a draft of the Complaint that the Bureau of Competition proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45; and

Respondents, their attorneys, and counsel for the Commission having thereafter executed an Agreement Containing Consent Orders ("Consent Agreement"), containing an admission by Respondents of all the jurisdictional facts set forth in the aforesaid Complaint, a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in such Complaint, or that the facts as alleged in such Complaint, other than jurisdictional facts, are true, and waivers and other provisions as required by the Commission's Rules; and

The Commission having thereafter considered the matter and having determined it had reason to believe that Respondents have violated the said Acts, and that a Complaint should issue stating its charges in that respect, and having thereupon issued its Complaint and an Order to Hold Separate and Maintain Assets, and having accepted the executed Consent Agreement and placed such Consent Agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, now in further conformity with the procedure described in Commission Rule 2.34, 16 C.F.R. § 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Red Ventures Holdco, LP, is a limited partnership organized, existing, and doing business under and by virtue of the laws of the State of North Carolina, with its headquarters and principal place of business located at 1423 Red Ventures Drive, Fort Mill, SC 29707.

2. Respondent Bankrate, Inc., is a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware, with its headquarters and principal place of business located at 1675 Broadway, 22nd Floor, New York, NY 10019.

3. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the Respondents, and the proceeding is in the public interest.

ORDER

I.

IT IS HEREBY ORDERED that, as used in this Order, the following definitions, and all other definitions used in the Hold Separate Order, shall apply:

A. "Red Ventures" means Red Ventures Holdco, L.P., its directors, officers, partners, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates in each case controlled by Red Ventures Holdco, L.P., including, but not limited to, Baton Merger Corp., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each. Red Ventures includes Bankrate, after the Acquisition.

B. "Bankrate" means Bankrate, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, including, but not limited to, Caring.com, partnerships, divisions, groups, and affiliates in each case controlled by Bankrate, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Respondents" means Red Ventures and Bankrate, individually and collectively.

D. "Commission" means the Federal Trade Commission.

E. "Acquirer" means the Person approved by the Commission to acquire the Caring.com Assets pursuant to this Decision and Order.

F. "Acquisition" means the proposed merger of Baton Merger Corp., a wholly-owned subsidiary of Respondent Red Ventures, and Respondent Bankrate as described in the Agreement and Plan of Merger by and among Red Ventures Holdco, LP, Baton Merger Corp., and Bankrate, Inc., dated July 2, 2017, and any amendments, exhibits, or schedules attached thereto.

G. "Acquisition Date" means the date on which the Acquisition closes.

H. "APEX" means APEX Super Parent, L.P., a limited partnership organized, existing, and doing business under, and by virtue of, the laws of the State of Delaware with its headquarters and principal place of business located at Park Avenue Plaza, 55 East 42nd Street, 33rd Floor, New York, NY 10055.

I. "APFM" means A Place For Mom, Inc., a corporation organized, existing, and doing business under, and by virtue of, the laws of the State of Washington, with its headquarters and principal place of business located at 701 5th Avenue, Suite 3200, Seattle, WA 98104.

J. "APFM Confidential Business Information" means all Confidential Business Information relating to APFM.

K. "Board" means any board of directors or board of managers of a specified entity.

L. "Business Records" means all originals and all copies of any operating, financial or other information, documents, data, computer files (including files stored on a computer's hard drive or other storage media), electronic files, books, records, ledgers, papers, instruments, and other materials, whether located, stored, or maintained in traditional paper format or by means of electronic, optical, or magnetic media or devices, photographic or video images, or any other format or media, including, without limitation: distributor files and records; customer files and records, customer lists, customer product specifications, customer purchasing histories, customer service and support materials, customer approvals, and other information; credit records and information; correspondence; referral sources; supplier and vendor files and lists; advertising, promotional, and marketing materials, including website content; sales materials; research and development data, files, and reports; technical information; data bases; studies; designs, drawings, specifications and creative materials; production records and reports; service and warranty records; equipment logs; operating guides and manuals; employee and personnel records; education materials; financial and accounting records; and other documents, information, and files of any kind.

M. "Caring.com" means Caring, Inc., a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware, with its headquarters and principal place of business located at 2600 South El Camino Real, Suite 300, San Mateo, CA 94403.

N. "Caring.com Assets" means all of Respondents' rights, title, and interests in and to all of Caring.com's tangible and intangible assets and property of any kind, wherever located, used for or related to Caring.com or the Caring.com Business, and all improvements or additions thereto, including, but not limited to:

1. The Caring.com Corporate and Technical Facility;

2. All Tangible Personal Property;

3. All Caring.com Contracts;

4. All Intellectual Property relating to Caring.com;

5. All intangible rights and property, including goodwill, going concern value, and telephone and email address and listings;

6. All consents, licenses, certificates, registrations, or permits issued, granted, given, or otherwise made available by or under the authority of any governmental body or pursuant to any legal requirement relating to Caring.com, and all pending applications therefor or renewals thereof;

7. All Business Records relating to Caring.com; *provided, however,* that where documents or other materials included in the Business Records to be divested contain information: (a) that relates both to the Caring.com Assets to be divested and Respondents' other products or businesses, and cannot be segregated in a manner that preserves the usefulness of the information as it relates to the Caring.com Assets to be divested; or (b) for which Respondents have a legal obligation to retain the original copies, Respondents shall be required to provide only copies or relevant excerpts of the documents and materials containing this information, then Respondents may keep such records and provide copies with appropriate redactions to the Acquirer. In instances where such copies are provided to the Acquirer, Respondents shall provide the Acquirer access to original documents under circumstances where copies of the documents are insufficient for evidentiary or regulatory purposes.

H. "Caring.com Business" means the business of Caring.com related to the provision of paid referral services for senior living facilities, and all other operations and businesses related to Caring.com or the Caring.com Assets, including, but not limited to, any online website providing, among other things: (1) original editorial content related to senior care; (2) any comprehensive online senior living community directory(ies) for the United States; (3)

any local directory(ies) covering other senior caregiving services; and (4) access to support and advice from Caring.com Family Advisors.

I. "Caring.com Confidential Business Information" means all Confidential Business Information relating to Caring.com, the Caring.com Assets, and the Caring.com Business.

J. "Caring.com Contracts" means all agreements and contracts with customers (including, but not limited to, Senior Care Paid Referral Services Contracts), suppliers, vendors, representatives, agents, licensees and licensors; and all leases, mortgages, notes, bonds, and other binding commitments, whether written or oral, and all rights thereunder and related thereto related to the Caring.com Business.

K. "Caring.com Corporate and Technical Facility" means the facility located at 2600 South El Camino Real, Suite 300, San Mateo, CA 94403, including, but not limited to, all real property interests (including fee simple interests and real property leasehold interests), including all easements, appurtenances, licenses, and permits, together with all buildings and other structures, facilities, and improvements located thereon, owned, leased, or otherwise held by Respondents, and all Tangible Personal Property therein, and parts, inventory, and all other assets relating to the Caring.com Business.

L. "Caring.com Family Advisor" means any Caring.com Employee who provides individualized support and information to potential clients and their families regarding potential entry into a senior care facility or other senior caregiving services.

M. "Caring.com Employee(s)" means any Person employed by Caring.com on a full-time, part-time, or contract basis as of, and at any time after July 2, 2017: (1) at the Caring.com Corporate and Technical Facility; (2) as a Caring.com Family Advisor, information technology specialist, or sales and/or marketing support staff; or (3) otherwise identified by agreement between Respondents and an Acquirer and made a part of a Remedial Agreement.

N. "Caring.com Key Employee(s)" means those Caring.com Employees who are identified in Non-Public Confidential Appendix B attached to this Order.

O. "Confidential Business Information" means any information that is not in the public domain. The term "Confidential Business Information":

1. Includes, but is not limited to, all operating, financial or other documents, information, data, computer files (including files stored on a computer's hard drive or other storage media), electronic files, books, records, papers, instruments, and all other materials, whether located, stored, or maintained in paper format or by means of electronic, optical, or magnetic media or devices, photographic or video images, or any other format or media, including, without limitation: bid proposals and all related documents, data, and materials, including initial bid terms, final bid terms, documents that support cost and rate structures underlying the bids; term sheets, responses to requests for proposals or other solicitation for

bids; customer files and records; customer contracts; customer lists; customer service and support materials; customer approvals and related information; price lists; credit records and information; correspondence; referral sources; vendor and supplier agreements; vendor and supplier files and lists; advertising, promotional and marketing materials, including website content; sales materials; marketing methods, research and developments data, files, and reports; technical information; data bases; studies; drawings, specifications and creative materials; cost information; expansion and other plans and projects; proprietary design and engineering standards; operating guides and manuals; employee personnel records; education materials; financial and accounting records; and other documents, information, and files of any kind; and

2. Excludes the following:

   a. Information that is protected by attorney work product, attorney-client, joint defense, or other privilege prepared in connection with the Acquisition and relating to any United States, state, or foreign antitrust or competition law; or

   b. Information that Respondents demonstrate to the satisfaction of the Commission, in the Commission's sole discretion:

      i. was or becomes generally available to the public other than as a result of disclosure by Respondents;

      ii. is necessary to be included by Respondents' mandatory regulatory filings; *provided, however,* that Respondents shall make all reasonable efforts to maintain the confidentiality of such information in the regulatory filings;

      iii. was available, or becomes available, to the public other than as a result of disclosure by Respondents;

      iv. is information the disclosure of which is consented to by the Acquirer;

      v. is necessary to be exchanged in the course of consummating the Acquisition or the transaction under any Remedial Agreement;

      vi. is disclosed in complying with this Order;

vii. is information the disclosure of which is necessary to allow Respondents to comply with the requirements and obligations of the laws of the United States and other countries, and decisions of Government Entities; or

viii. is disclosed obtaining legal advice.

P. "Consents" means all consents, approvals, permissions, waivers, ratifications, or other authorizations that are necessary to effect the complete transfer and divestiture of the Caring.com Assets to an Acquirer and for the Acquirer to operate any aspect of the Caring.com Business.

Q. "Copyrights" means all rights to all original works of authorship of any kind owned or created by or for or related to Caring.com, the Caring.com Assets, or the Caring.com Business, and any registrations and applications for registrations thereof, and all copyrightable works, registered and unregistered copyrights in both published works and unpublished works, and all applications, registrations, and renewals in connection therewith, including, but not limited to, all such rights with respect to promotional materials and educational materials; market research data, market intelligence reports, and statistical programs (if any) used for marketing and sales research; customer information, promotional, and marketing materials; sales forecasting models; records, including customer lists, sales forces call activity reports, vendor lists, sales data, reimbursement data, and speaker lists.

R. "Direct Cost" means a cost not to exceed the cost of labor, material, travel and other expenditures to the extent the costs are directly incurred to provide the relevant assistance or service.

S. "Director" means an individual who is elected, or appointed by, or who is an agent or representative of, a specified Person to serve on a Board of a specified entity.

T. "Divestiture Date" means the date on which Respondents (or a Divestiture Trustee) closes on the divestiture of the Caring.com Assets as required by Paragraph II. (or Paragraph VI.) of this Order.

U. "Domain Names" means the domain name(s) (universal resource locators), and registration(s) thereof, issued by any Person or authority that issues and maintains the domain name registration.

V. "Employee Information" means, for each Caring.com Employee, a profile prepared by Respondents summarizing the employment history of each employee including, but not limited to, the following information:

1. Name, job title or position, date of hire and effective service date;

2. A specific description of the employee's responsibilities;

3. The base salary or current wages;

4. The most recent bonus paid, aggregate annual compensation for Caring.com Business's last fiscal year and current target or guaranteed bonus, if any;

5. Employment status (*i.e.*, active or on leave or disability; full-time or part-time);

6. Any other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly-situated employees; and

7. Copies of all employee benefit plans and summary plan descriptions (if any) applicable to the relevant employee.

W. "Firewalled Entity(ies)" means APEX, Silver Lake and General Atlantic individually and collectively, and includes the Firewalled Individuals.

X. "Firewalled Individuals" means the following:

1. All Persons appointed by, approved by, or who otherwise represent Silver Lake as Director on any Board of Respondents; and

2. All Persons appointed by, approved by, or who otherwise represent General Atlantic as Director on any Board of Respondents.

Y. "General Atlantic" means General Atlantic LLC, a limited liability corporation organized, existing, and doing business under, and by virtue of, the laws of the State of Delaware with its headquarters and principal place of business located at 55 East 52nd Street, Park Avenue Plaza, 33rd Floor, New York, NY 10055.

Z. "Geographic Territory" means the United States.

AA. "Government Entities" means any Federal, state, local or non-U.S. government, or any court, legislature, government agency, or government commission, or any judicial or regulatory authority of any government.

BB. "Hold Separate Order" means the Order to Hold Separate and Maintain Assets incorporated into and made a part of the Consent Agreement.

CC. "Hold Separate Period" means the time period beginning as of the date on which Respondents sign the Consent Agreement in this matter, and shall terminate pursuant to the provisions of Paragraph IX. of the Hold Separate Order.

DD. "Intellectual Property" means, and includes without limitation, all:

1. Patents;

2. Copyrights;

3. Trademarks, trade dress, logos, slogans, service marks, Websites and Domain Names, together with all translations, adaptions, derivations, and combinations thereof, and including all goodwill associated therewith, and all applications, registrations, and renewals in connection therewith;

4. Marketing Materials;

5. Computer software (including source code, executable code, data, databases, and related documentation);

6. Plans (including proposed and tentative plans, whether or not adopted or commercialized), research and development, specifications, drawings, and other assets (including the right to use Patents, know-how, and other intellectual property relating to such plans);

7. Trade secrets, technology, know-how, and confidential or proprietary information (including ideas, research and developments, techniques, data, inventions, practices, methods, and other confidential or proprietary technical, business, research, development, and other information), whether patented, patentable, or otherwise;

8. Licenses including, but not limited to, third party software, if transferrable, and sublicenses to software modified by Caring.com; and

9. Any other intellectual property used prior to the Divestiture Date in connection with Caring.com or the Caring.com Business; and

10. All rights to obtain and file for Patents, Copyrights, Trademarks, and registrations thereof and to bring suit against a third party for the past, present, or future infringement, misappropriation, dilution, misuse or other violations of any of the foregoing.

EE. "Marketing Materials" means all materials used in the marketing or sale of services or products by Caring.com or the Caring.com Business as of the Divestiture Date, including, without limitation, all advertising and display materials, promotional and marketing materials, training materials, educational materials, speaker lists, product data, mailing lists, sales materials, marketing information (*e.g.,* competitor information, research data, market intelligence reports, statistical programs used for marketing and sales research), customer information, sales forecasting models, Website content, and other materials

related to the marketing or sale of services or products by Caring.com or the Caring.com Business.

FF. "Monitor" means any monitor appointed pursuant to Paragraph V. of this Order or Paragraph V of the Hold Separate Order.

GG. "Monitor Agreement" means the Monitor Agreement between Respondents and R. Shermer & Company. The Monitor Agreement is attached as Appendix A to this Order.

HH. "Patents" means pending patent applications, including provisional patent applications, invention disclosures, certificates of invention and applications for certificates of invention and statutory invention registrations, in each case existing as of the Acquisition Date, and includes all reissues, additions, divisions, continuations, continuations-in-part, supplementary protection certificates, extensions and reexaminations thereof, all inventions disclosed therein, and all rights therein provided by international treaties and conventions.

II. "Person" means any individual, partnership, firm, corporation, association, trust, unincorporated organization, or other business entity other than Respondents.

JJ. "Remedial Agreement(s)" means any agreement between Respondents and the Acquirer (or between a Divestiture Trustee and the Acquirer) that have been approved by the Commission to accomplish the requirements of this Order, including any divestiture or assets purchase agreement(s) related to the Caring.com Assets, any Transition Services Agreement(s), and all amendments, exhibits, attachments, agreements, and schedules thereto, related to the relevant assets or rights to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed, and that has been approved by the Commission to accomplish the requirements of the Order.

KK. "Senior Care Paid Referral Service Contracts" means contracts with senior care facilities or other senior caregiving service providers for paid referrals to potential clients seeking entry into a senior care facility or senior caregiving services.

LL. "Silver Lake" means Silver Lake Partners LP, a limited partnership organized, existing, and doing business under, and by virtue of, the laws of the State of Delaware, with its headquarters and principal place of business located at 2775 Sand Hill Road, Suite 100, Menlo Park, CA 94025.

MM. "Tangible Personal Property" means all machinery, equipment, tools, furniture, office equipment, computer hardware, supplies, materials, vehicles, rolling stock, and other items of tangible personal property (other than inventories) of every kind owned or leased by the Caring.com Business, together with any express or implied warranty by the manufacturers or sellers or lessors of any item or component part thereof and all maintenance records and other documents relating thereto.

NN. "Trademarks" means all proprietary names or designations, registered and unregistered trademarks, service marks, trade names, brand names, commercial names, "doing business as" (d/b/a) names, logos, and slogans, together with all translations, adaptions, derivations, and combinations thereof, including registrations and applications for registration therefor (and all renewals, modifications, and extensions thereof), all common law rights, and all goodwill symbolized thereby and associated therewith.

OO. "Transition Services" means any transitional services required by the Acquirer for the operation of the Caring.com Business including, but not limited to administrative assistance (including, but not limited to, accounting, and information transitioning services), technical assistance, and supply agreements.

PP. "Transition Services Agreement(s)" means any agreement entered into between Respondents and an Acquirer (or the Divestiture Trustee and an Acquirer) for the provision of Transition Services.

QQ. "Website and Domain Names" means the content of the Website(s) located at the Domain Names, the Domain Names, and all Copyrights in such Website(s), to the extent owned by Respondents.

II.

IT IS FURTHER ORDERED that:

A. No later than six (6) months after the Acquisition Date, Respondents shall divest the Caring.com Assets, absolutely and in good faith and at no minimum price, to the Acquirer that receives the prior approval of the Commission and in a manner that receives the prior approval of the Commission.

B. At the Acquirer's option, and subject to the prior approval of the Commission, Respondents shall provide, at no greater than Direct Cost, Transition Services from knowledgeable employees of Respondents to assist the Acquirer in the transfer of the Caring.com Assets from Respondents to the Acquirer in a timely and orderly manner pursuant to a Transition Services Agreement. The Transition Services Agreement:

1. Shall be for a period of one (1) year following the Divestiture Date, with an opportunity to extend for up to one (1) year at the option of the Acquirer;

2. May be terminated at any time by the Acquirer without cost or penalty to the Acquirer upon commercially reasonable notice to Respondents; and

3. Must include provisions that:

    a. comply with the requirements and prohibitions of Paragraph IV. of this Order to ensure that Caring.com Confidential Business Information remains confidential; and

b. require Respondents, with the concurrence of the Acquirer, to certify in writing to the Commission as to the completion of all Transition Services provided by the Respondents to the Acquirer pursuant to any Transition Services Agreement approved by the Commission.

C. Prior to the Divestiture Date:

1. Respondents shall secure at their sole expense:

a. Consents from all Persons that relate to or are necessary to divest the Caring.com Assets to the Acquirer and for the Acquirer to operate any tangible or intangible assets of the Caring.com Business in a manner that will achieve the purposes of this Order; and

b. Consents from all Persons necessary for the assignment or transfer to the Acquirer of all the Caring.com Contracts;

provided, however, Respondents shall not be required to secure the consent of any Governmental Agency relating to any permit, license, or right that Respondents have no legal right to divest or transfer to the Acquirer; and

provided further, however, the failure of Respondents or the Acquirer to obtain any Consents that relate to or are necessary to divest the Caring.com Assets shall not extend the date by which Respondents must divest the Caring.com Assets.

2. Respondents shall use best efforts to assist the Acquirer to obtain the transfer from Respondents or issuance to the Acquirer of any permit, license, asset, or right that Respondents have no legal right to divest or transfer to the Acquirer.

D. Within ten (10) days of the Divestiture Date, Respondents shall submit to the Acquirer, at Respondents' expense, all Business Records of the Caring.com Assets, in good faith, and in a manner that ensures their completeness and accuracy and that fully preserves their usefulness; *provided, however*, pending complete delivery of all such Business Records of the Caring.com Assets to the Acquirer, Respondents shall provide the Acquirer, and the Monitor with access to all such Business Records of the Caring.com Assets and employees who possess or able to locate such information for the purposes of identifying the books, records, and files directly related to the Caring.com Assets and facilitating the delivery in a manner consistent with this Order.

E. Until Respondents (or the Divestiture Trustee) complete the divestiture and other obligations to transfer the Caring.com Assets as required by this Order, Respondents shall take all actions as are necessary to:

1. Maintain the full economic viability and marketability of the Caring.com Assets and the Caring.com Business;

2. Minimize any risk of loss of competitive potential for the Caring.com Assets;

3. Prevent the destruction, removal, wasting, deterioration, or impairment of any of the assets related to the Caring.com Business; and

4. Not sell, transfer, encumber, or otherwise impair the Caring.com Business (other than in the manner prescribed in this Order) nor take any action that lessens the full economic viability, marketability, or competitiveness of Caring.com, the Caring.com Assets, or the Caring.com Business.

F. The purpose of this Paragraph II. is to ensure the continued use of the Caring.com Assets in the same businesses in which such assets were engaged at the time of the announcement of the Acquisition by Respondents, minimize the loss of competitive potential for the Caring.com Business, minimize the risk of disclosure or unauthorized use of Caring.com Confidential Business Information; to prevent the destruction, removal, wasting, deterioration, or impairment of the Caring.com Business, except for ordinary wear and tear; and to remedy the potential lessening of competition resulting from the Merger as alleged in the Commission's Complaint.

III.

IT IS FURTHER ORDERED that:

A. Respondents shall cooperate with and assist the proposed Acquirer of the Caring.com Assets to evaluate independently and retain the Caring.com Employees, such cooperation to include at least the following:

1. Not later than forty-five (45) days before the Divestiture Date, Respondents shall, to the extent permitted by applicable law: (i) provide the proposed Acquirer a list of all Caring.com Employees, identifying which Persons are Caring.com Key Employees; and (ii) provide Employee Information for each Person on the list;

2. Not later than thirty (30) days before the Divestiture Date, Respondents shall provide the proposed Acquirer with:

   a. an opportunity to meet, personally and outside the presence or hearing of any employee or agent of Respondents, with any Caring.com Employee;

   b. an opportunity to inspect the personnel files and other documentation relating to any such employee, to the extent permissible under applicable laws; and

   c. to make offers of employment to any Caring.com Employee;

3. Respondents shall: (i) not interfere, directly or indirectly, with the hiring or employing by a proposed Acquirer of any Caring.com Employee; (ii) not offer any incentive to any Caring.com Employee to decline employment with a proposed Acquirer; (iii) not make any counteroffer to any Caring.com Employee who receives a written offer of employment from a proposed Acquirer; and (iv) remove any impediments within the control of Respondents that may deter any Caring.com Employee from accepting employment with a proposed Acquirer, including, but not limited to, any non-compete or confidentiality provisions of employment or other contracts with Respondents that would affect the ability of such employee to be employed by a proposed Acquirer;

   provided, however, that nothing in this Order shall be construed to require Respondents to terminate the employment of any employee or prevent Respondents from continuing the employment of any employee.

B. Respondents shall provide reasonable financial incentives:

1. to the Caring.com Employees including the continuation of all employee benefits offered by Respondents (*i.e.,* regularly schedule or merit raises and bonuses, and regularly scheduled vesting of all pension benefits) during the Hold Separate Period, to encourage such employees to continue in his/her position with the Caring.com Business until the Divestiture Date; and

2. to the Caring.com Key Employees as needed to facilitate the employment of such employees by the proposed Acquirer.

C. For a period of two (2) years after the Divestiture Date, Respondents shall not, directly or indirectly, solicit, induce, or attempt to solicit or induce any Caring.com Employee employed by the Acquirer or any Person employed by the Acquirer whose job responsibilities predominantly relate to the Caring.com Business, to terminate his or her employment relationship with the Acquirer;

provided, however, Respondents may: (1) advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, so long as these actions are not targeted specifically at any Caring.com Employee; and (2) hire employees of the Caring.com Business who apply for employment with Respondents, so long as such individuals were not solicited by Respondents in violation of this paragraph;

provided further, however, that this Paragraph shall not prohibit Respondents from making offers of employment to or employing any employee of the Caring.com Business if the Acquirer has notified Respondents in writing that the Acquirer does not intend to make an offer of employment to that employee, or where such an offer has been made and the employee has declined the offer, or where the individual's employment has been terminated by the Acquirer.

IV.

IT IS FURTHER ORDERED that:

A. Beginning on the date the Hold Separate Order is issued until six (6) months after the Divestiture Date, Respondents shall not:

1. Possess or control any APFM Confidential Business Information;

2. Request, solicit, seek, receive, obtain, or otherwise have access to, directly or indirectly, any APFM Confidential Business Information from any Person(s), including the Firewalled Entities; or

3. Provide any services to or have any business dealings with the Firewalled Entities as related to APFM.

B. Respondents shall not, except as expressly permitted by or as necessary to comply with the Hold Separate Order or this Order:

1. Provide, disclose, share, convey, discuss, exchange, circulate, or otherwise grant access to, directly or indirectly, any Caring.com Confidential Business Information, including information related to the divestiture of the Caring.com Assets, to or with any Person(s), including the Firewalled Individuals; or

2. Use, directly or indirectly, the Caring.com Confidential Business Information for any purpose.

C. As of the date Respondents sign the Consent Agreement, Respondents shall: (1) take all actions as are necessary and appropriate to prevent access to, or the disclosure or use of, Caring.com Confidential Business Information by or to any Person(s) not authorized to access, receive, or use such Confidential Business Information pursuant to the terms of this Order; and (2) with the advice and assistance of the Monitor, develop and implement procedures and requirements with respect to such Confidential Business Information to ensure that:

1. Caring.com or the Caring.com Business does not provide, disclose, or otherwise make available any Caring.com Confidential Business Information to the Firewalled Entities, and are in compliance with the requirements of this Order;

2. Employees of Respondents' retained businesses, including the Firewalled Individuals, do not request, solicit, seek, receive, obtain, use or otherwise have access to, directly or indirectly, any Caring.com Confidential Business Information from the Caring.com Business;

provided, however, employees of Respondents' retained businesses are not in violation of this Paragraph if: (1) they provide or are involved in the provision of Transition Services under the (i) Hold Separate Order or this Order, or (ii) any Remedial Agreement; or (2) are complying with financial reporting requirements or environmental, health, and safety policies and standards, ensuring the integrity of the financial and operational controls on the Caring.com Assets or the Caring.com Business, obtaining legal advice, defending legal claims, investigations, or enforcing actions threatened or brought against Caring.com or the Caring.com Business, or as required by law;

3. The Firewalled Individuals are:

   a. In compliance with the requirements of this Order;

   b. Prohibited from, directly or indirectly, influencing or attempting to influence or participate in any vote of Respondents' Board pertaining to Caring.com or the Caring.com Business; and

   c. Prohibited from participating in any discussions or communications with Respondents and the Firewalled Entities about Caring.com or the Caring.com Business.

D. As part of the procedures and requirements described in Paragraph IV.C. of this Order, Respondents shall:

1. Within ten (10) days of the date Respondents sign the Consent Agreement, require all Respondents' employees who have access to Caring.com Confidential Business Information, including the Firewalled Individuals, to sign an appropriate non-disclosure agreement agreeing to comply with the prohibitions and confidentiality requirements of this Order; *provided, however*, for Respondents' employees with access to Caring.com Confidential Business Information who have clerical positions but no operational or commercial responsibilities, Respondents may send an appropriate notification regarding the prohibitions and confidentiality requirements of this Order by email with return receipt requested or other similar transmission, and shall keep a file of such return receipts for one (1) year;

2. Require and enforce compliance with appropriate remedial action in the event of non-compliant access, use, or disclosure of Caring.com Confidential Business Information in violation of this Order; immediately report any event to the Monitor, if one has been appointed, and to the Commission or its staff; and include detailed information about any event and any remedial action taken by Respondents in Respondents' compliance reports to the Commission; and

3. Institute all necessary information technology procedures, authorizations, protocols, and any other controls necessary to comply with the Order's requirements.

V.

IT IS FURTHER ORDERED that:

A. At any time after the Respondents sign the Consent Agreement in this matter, the Commission may appoint a monitor ("Monitor") to assure that the Respondents expeditiously comply with all of their obligations and perform all of their responsibilities as required by this Order, the Hold Separate Order and the Remedial Agreements. The Commission hereby appoints Richard A. Shermer as the Monitor and approves the Monitor Agreement between R. Shermer & Company and Respondents.

B. Not later than one (1) day after the appointment of the Monitor, Respondents shall, pursuant to the Monitor Agreement and to this Order, confer on the Monitor all the rights and powers necessary to permit the Monitor to monitor Respondents' compliance with the relevant requirements of this Order in a manner consistent with the purposes of this Order.

C. The Monitor shall serve until the later of (1) twelve (12) months after the Divestiture Date or (2) the termination of all Respondents' obligations under all Remedial Agreements; *provided, however*, the Commission may extend or modify this period as may be necessary to accomplish the purposes of this Order and the Hold Separate Order.

D. Respondents shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor Respondents' compliance with the divestiture, hold separate and asset maintenance obligations and related requirements of the Order, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of the Order and in consultation with the Commission, including, but not limited to:

(a) Assuring that Respondents expeditiously comply with all of their obligations and performs all of their responsibilities as required by this Order, the Hold Separate Order, and the Remedial Agreements;

(b) Monitoring any Transition Services Agreements; and

(c) Assuring that Confidential Business Information is not received or used by Respondents or the Acquirer, except as allowed in this Order and in the Hold Separate Order;

2. The Monitor shall act in a fiduciary capacity for the benefit of the Commission;

3. The Monitor shall serve for such time as is necessary to monitor Respondents' compliance with the provisions of this Order, the Hold Separate Order, and the Remedial Agreements;

4. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to Respondents' personnel, books, documents, records kept in the ordinary course of business, facilities and technical information, and such other relevant information as the Monitor may reasonably request, related to Respondents' compliance with its obligations under this Order, the Hold Separate Order, and the Remedial Agreements. Respondents shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor Respondents' compliance with this Order, the Hold Separate Order, and the Remedial Agreements;

5. The Monitor shall serve, without bond or other security, at the expense of Respondents on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have the authority to employ, at the expense of Respondents, such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities. The Monitor shall account for all expenses incurred, including fees for services rendered, subject to the approval of the Commission;

6. Respondents shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from malfeasance, gross negligence, willful or wanton acts, or bad faith by the Monitor. For purposes of this Paragraph V.D.6, the term "Monitor" shall include all persons retained by the Monitor pursuant to Paragraph V.D.5 of this Order;

7. Respondents shall report to the Monitor in accordance with the requirements of this Order and/or as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by the Respondents, and any reports submitted by the Acquirer with respect to the performance of Respondents' obligations under this Order, the Hold Separate Order, and the Remedial Agreements;

8. Within one (1) month from the date the Monitor is appointed pursuant to this Paragraph, every sixty (60) days thereafter, and otherwise requested by the Commission, the Monitor shall report in writing to the Commission concerning performance by Respondents of their obligations under this Order, the Hold Separate Order, and the Remedial Agreements;

9. Respondents may require the Monitor and each of the Monitor's consultants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however*, such agreement shall not restrict the Monitor from providing any information to the Commission.

E. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Monitor's duties.

F. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor.

G. In the event a substitute Monitor is required, the Commission shall select the Monitor, subject to the consent of Respondents, which consent shall not be unreasonably withheld. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of the proposed substitute Monitor within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed substitute Monitor, Respondents shall be deemed to have consented to the selection of the proposed substitute Monitor. Not later than ten (10) days after appointment of a substitute Monitor, Respondents shall execute an agreement that, subject to the prior approval of the Commission, confers on the substitute Monitor all the rights and powers necessary to permit the substitute Monitor to monitor Respondents' compliance with the terms of this Order, the Hold Separate Order, and the Remedial Agreements in a manner consistent with the purposes of this Order.

H. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order, the Hold Separate Order, and the Remedial Agreements.

I. A Monitor appointed pursuant to this Order may be, but need not be, the same Person appointed as the Divestiture Trustee pursuant to the relevant provisions of this Order.

VI.

IT IS FURTHER ORDERED that:

A. If Respondents have not divested, absolutely and in good faith and with the Commission's prior approval, the Caring.com Assets and otherwise fully complied with the obligations as required by Paragraph II. of this Order, the Commission may appoint a Divestiture Trustee to divest the Caring.com Assets in a manner that satisfies the requirements of this Order. The Divestiture Trustee appointed pursuant to this Paragraph may be the same Person appointed as Monitor pursuant to the relevant provisions of this Order.

B. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to divest the relevant assets in accordance with the terms of this Order. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Paragraph shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by Respondents to comply with this Order.

C. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

D. Within ten (10) days after appointment of a Divestiture Trustee, Respondents shall execute an agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the relevant divestiture or transfer required by the Order.

E. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Order, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the relevant assets that are required by this Order to

be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed, and to enter into Transition Services agreements;

2. The Divestiture Trustee shall have twelve (12) months from the date the Commission approves the agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the twelve (12) month period, the Divestiture Trustee has submitted a plan of divestiture or believes that the divestiture can be achieved within a reasonable time, the divestiture period may be extended by the Commission, or in the case of a court-appointed Divestiture Trustee, by the court; *provided, however,* that the Commission may extend the divestiture period only two (2) times;

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information, as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestiture. Any delays in divestiture caused by Respondents shall extend the time for divestiture under this Paragraph VI. in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court;

4. The Divestiture Trustee shall use commercially reasonable best efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture shall be made in the manner and to an Acquirer as required by this Order; *provided, however,* if the Divestiture Trustee receives bona fide offers from more than one acquiring entity, and if the Commission determines to approve more than one such acquiring entity, the Divestiture Trustee shall divest to the acquiring entity selected by Respondents from among those approved by the Commission; *provided further, however,* that Respondents shall select such entity within five (5) days of receiving notification of the Commission's approval;

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all

monies derived from the divestiture and all expenses incurred. After approval by the Commission and, in the case of a court-appointed Divestiture Trustee, by the court, of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order;

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Divestiture Trustee. For purposes of this Paragraph VI.E.6., the term "Divestiture Trustee" shall include all persons retained by the Divestiture Trustee pursuant to Paragraph VI.E.5. of this Order;

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order;

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every thirty (30) days concerning the Divestiture Trustee's efforts to accomplish the divestiture;

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided*, *however*, such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission; and

10. The Commission may require, among other things, the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

F. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph VI.

G. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestiture required by this Order.

VII.

IT IS FURTHER ORDERED that:

A. The Remedial Agreements shall not limit or contradict, or be construed to limit or contradict, the terms of this Order, it being understood that nothing in this Order shall be construed to reduce any rights or benefits of an Acquirer or to reduce any obligations of the Respondents under such agreement.

B. The Remedial Agreements shall be incorporated by reference into this Order and made a part hereof.

C. Respondents shall comply with all provisions of the Remedial Agreements, and any breach by Respondents of any term of such agreement shall constitute a violation of this Order. If any term of the Remedial Agreements varies from the terms of this Order ("Order Term"), then to the extent that Respondents cannot fully comply with both terms, the Order Term shall determine Respondents' obligations under this Order. Any failure by the Respondents to comply with any term of such Remedial Agreement shall constitute a failure to comply with this Order.

D. Respondents shall not modify or amend any of the terms of any Remedial Agreement without the prior approval of the Commission, except as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5). Notwithstanding any term of the Remedial Agreement(s), any modification or amendment of any Remedial Agreement made without the prior approval of the Commission, or as otherwise provided in Rule 2.41(f)(5), shall constitute a failure to comply with this Order.

VIII.

IT IS FURTHER ORDERED that:

A. Within five (5) days of the Acquisition Date, Respondents shall submit to the Commission a letter certifying the date on which the Acquisition occurred.

B. Respondents shall submit to the Commission and, if appointed, the Monitor, a verified written report setting forth in detail the manner and form in which they intend to comply, are complying, and have complied with this Order:

1. Within thirty (30) days after the date this Order becomes final;

2. Every thirty (30) days thereafter until Respondents have fully divested, licensed, transferred and/or granted the Caring.com Business to an Acquirer;

3. Every three (3) months thereafter so long as Respondents have a continuing obligation under this Order and/or the Remedial Agreements to render Transition Services to the Acquirer; and

4. One (1) year after this Order is issued, annually for the next nine (9) years on the anniversary of that date, setting forth in detail the manner and form in which they have complied and are complying with this Order.

C. At such other times as the Commission may request, Respondents shall submit to the Commission a verified written report setting forth in detail the manner and form in which it has complied and is complying with this Order and any Remedial Agreement.

IX.

IT IS FURTHER ORDERED that Respondents shall notify the Commission at least thirty (30) days prior to:

A. Any proposed dissolution of Respondents;

B. Any proposed acquisition, merger, or consolidation of Respondents; or

C. Any other change in the Respondents, including, but not limited to, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of the Order.

X.

IT IS FURTHER ORDERED that, for the purpose of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request with reasonable notice to Respondents, with respect to any matter contained in this Order, Respondents shall permit any duly authorized representative of the Commission:

A. Access, during office hours and in the presence of counsel, to all facilities and access to inspect and copy all non-privileged books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of Respondents related to compliance with the Consent Agreement and/or this Order, which copying services shall be provided by Respondents at the request of the authorized representative of the Commission and at the expense of Respondents; and

B. Upon five (5) days' notice to Respondents and without restraint or interference from them, to interview officers, directors, or employees of Respondents, who may have counsel present.

XI.

IT IS FURTHER ORDERED that this Order shall terminate ten (10) years from the date the Order is issued.

By the Commission.

Docket No. 9382

REDACTED PUBLIC VERSION

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act ("FTC Act"), and by virtue of the authority vested in it by the FTC Act, the Federal Trade Commission ("Commission"), having reason to believe that Respondents CDK Global, Inc. and CDK Global, LLC (collectively "CDK") and Auto/Mate, Inc. ("Auto/Mate"), Robert Eustace, Elsa Eustace, G. Larry Colson, Jr., Michael Esposito, and Glen Eustace have executed an acquisition agreement in

violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45, which if consummated would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint pursuant to Section 5(b) of the FTC Act, 15 U.S.C. § 45(b), and Section 11(b) of the Clayton Act, 15 U.S.C. § 21(b), stating its charges as follows:

I. NATURE OF THE CASE

1. Respondents are providers of dealer management systems ("DMS") for franchise (new car) dealerships. The DMS is mission-critical business software used by dealerships to manage nearly every aspect of their business, including accounting, payroll, parts and vehicle inventory, service repair scheduling, and vehicle financing. Franchise DMS providers must also obtain car manufacturer ("OEM") certifications so that the DMS can share information between the franchise dealerships and OEMs, including information about new car sales, warranty services, parts, financial performance, and labor time.

2. CDK and Reynolds & Reynolds ("Reynolds") are the two largest franchise DMS providers in the United States. They are also the highest priced, and have similar business models, which include long-term contracts and significant initial and monthly fees for third-party applications (app) vendors to integrate with their respective DMS.

3. Auto/Mate is an innovative, disruptive challenger to the two market leaders. It offers franchise dealerships a distinct value proposition, including strong functionality, low pricing, an agnostic platform for third-party applications, extensive OEM certifications, short contracts, free software upgrades and training, and a reputation for high-quality customer service. In recent years, Auto/Mate has grown as a competitive threat in the franchise DMS market, including by specifically targeting CDK customers. Auto/Mate has consistently expanded its customer base and revenues through both aggressive pricing and adapting its differentiated product to match the preferences of many franchise dealers, placing pressure on CDK's pricing and margins. It has also developed features attractive to larger franchise dealerships and as a result, became an increasing threat to take more customers from CDK. CDK identified Auto/Mate as a current and emerging threat and responded aggressively by discounting and offering more flexible and better terms to customers.

4. In the fall of 2016 when Auto/Mate placed itself up for sale, CDK concluded that it could eliminate a strong current competitor, which was threatening to become an even more disruptive rival, by simply purchasing the company. However, CDK's plan to rid itself of a significant and growing competitive threat hit a roadblock: during the bidding process, CDK suspected that other well-financed, credible bidders recognized Auto/Mate's competitive strengths and were seriously interested in buying the company. CDK recognized that if Auto/Mate fell into the hands of a well-financed buyer willing to invest additional resources, Auto/Mate would become an even more aggressive and effective competitor. CDK was so concerned about this possibility that it [redacted]

5. After concluding that it could not allow Auto/Mate to fall into the hands of a larger, well-financed backer, CDK [redacted] CDK ultimately offered a price that was far in excess of its original standalone valuation of Auto/Mate [redacted] Indeed, the most credible explanation for CDK's [redacted]

6. CDK's post-merger plans for Auto/Mate provide substantial additional support for the conclusion that this Acquisition will reduce competition. Post-merger, CDK plans to substantially downgrade [redacted] features and service, raise [redacted] prices, and prevent CDK's larger customers from migrating [redacted].

7. Today, competition from Auto/Mate yields a myriad of substantial benefits to franchise dealers. Auto/Mate's presence in this market means lower prices, greater innovation, more flexible contract terms, and better service. If consummated, the Acquisition would eliminate the considerable and growing competition between CDK and Auto/Mate. It would also eliminate competition between Auto/Mate and other DMS providers, and thereby cause significant and pervasive harm to franchise dealers.

8. The Acquisition would entrench CDK's [redacted] share of the relevant market and would significantly increase market concentration. Post-Acquisition, CDK would control approximately 47% of the franchise DMS market. Reynolds would possess approximately [redacted] of the relevant market. Under the 2010 U.S. Department of Justice and Federal Trade Commission Horizontal Merger Guidelines ("Merger Guidelines"), a post-merger market-concentration level above 2500 points, as measured by the Herfindahl-Hirschman Index ("HHI"), and an increase in market concentration of more than 200 points renders a merger presumptively unlawful. Post-Acquisition market concentration would be more than 2500, and the Acquisition would increase HHIs in an already concentrated market by well over 200 points. Thus, the Acquisition is presumptively unlawful.

9. New entry or repositioning by existing producers would not be timely, likely, or sufficient to counteract the anticompetitive effects of the Acquisition. *De novo* entrants face considerable barriers including substantial and lengthy up-front investments in product development and OEM certification, with a high risk of failure. Similarly, existing DMS providers face substantial challenges in order to reposition to replace Auto/Mate's competitive significance, including but not limited to, a poor or non-existent reputation among customers, software with limited functionality, limited or non-existent OEM certifications, poor service levels, constrained capacity, and high prices. In brief, the remaining firms in this market are not likely to replace the unique, substantial, and growing competitive significance of Auto/Mate in a timely way, either collectively or individually.

10. Respondents cannot show cognizable efficiencies that would offset the likely and substantial competitive harm from the Acquisition.

II. JURISDICTION

11. Respondents are, and at all relevant times have been, engaged in commerce or in activities affecting "commerce" as defined in Section 4 of the FTC Act, 15 U.S.C. § 44, and Section 1 of the Clayton Act, 15 U.S.C. § 12.

12. The Acquisition constitutes an acquisition subject to Section 7 of the Clayton Act, 15 U.S.C. § 18.

III. RESPONDENTS

13. CDK is the largest provider of franchise DMS in the United States. CDK is a publicly traded company, headquartered in Hoffman Estates, Illinois. CDK had 2017 global revenues of over $2 billion. In the United States, CDK has DMS customers with more than [redacted] franchise dealership locations (or "rooftops," the industry's preferred term).

14. Auto/Mate is one of the fastest-growing providers of franchise DMS in the United States. Auto/Mate is a privately held company based in Albany, New York, with 180 employees in the United States. [redacted] Auto/Mate had 2017 revenues of approximately [redacted]. In the United States, Auto/Mate has DMS customers with more than [redacted] franchise dealership rooftops. Since 2012, Auto/Mate has grown rapidly, significantly increasing its customer base year-over-year. Auto/Mate is now the fifth largest franchise DMS provider in the United States with approximately [redacted] market share.

IV. THE ACQUISITION

15. Pursuant to a Stock Purchase Agreement, dated April 28, 2017, CDK proposes to acquire 100% of the shares of Auto/Mate for approximately [redacted] in cash.

V. MARKET PARTICIPANTS AND INDUSTRY DYNAMICS

16. The United States franchise DMS market is highly concentrated with CDK and Reynolds controlling approximately 70% of the market. Dealertrack, Auto/Mate, and Autosoft round out the top five franchise DMS providers in the United States. Each of the remaining franchise DMS providers accounts for a much smaller share of the market.

17. CDK and Reynolds have similar business models — both offer a broad set of features and OEM certifications, but both also charge relatively high prices, and both regularly require their customers to sign long-term contracts. In addition to these issues, both companies tend to charge relatively high fees for integrating third party applications, and CDK has a reputation for relatively poor customer service. Despite such business practices that frustrate

some of their customers, the two market leaders have maintained dominant positions in this market.

18. Customers frustrated with CDK's and Reynolds's business practices have faced significant challenges in switching DMS suppliers and, historically, a lack of good alternatives to the two market leaders. In order to change DMS suppliers, franchise dealers need to spend a significant number of hours training their staff, while dealing with losses in productivity that can lead to lower sales during the transition period. Because the DMS touches essentially every aspect of a dealer's business, there is considerable risk associated with switching to a DMS that does not perform adequately. This makes customers understandably wary of DMS suppliers without an established track record of success.

19. Auto/Mate is a low price, innovative company that has posted consistent, double-digit growth in recent years. A significant portion of Auto/Mate's wins in recent years have come at CDK's expense. Auto/Mate's value proposition includes but is not limited to, low prices, an ample and growing set of features, month-to-month contracts, the choice of on-site or cloud server deployment, a full roster of major OEM certifications, a low-cost agnostic platform for third-party applications, a strong reputation, and excellent customer service.

20. Today, no other DMS offers Auto/Mate's combination of low prices, high functionality, and strong customer service. These attributes position Auto/Mate well to effectively challenge the market leadership of CDK and Reynolds. According to its internal business documents, Auto/Mate plans to grow its market share both by continuing to aggressively court and win small franchise dealership customers as well as by continuing to expand on its recent successes in winning larger franchise dealership customers. In 2016, Auto/Mate stated it could grow [redacted]

21. Compared to Auto/Mate, each remaining DMS provider, including Dealertrack and Autosoft, lacks important features or value, including but not limited to, low pricing, important software functionalities, important OEM certifications, month-to-month contracts, or a strong reputation. Many of these DMS providers have failed to show significant growth or have stagnated or contracted in the last several years. Many of the remaining DMS providers have significant limitations on their capacity to add and support new customers.

VI. RELEVANT MARKET

22. The relevant market is the sale of DMS for franchise dealers in the United States ("Relevant Market" or "U.S. Franchise DMS Market"). A hypothetical monopolist of the sale of all franchise DMS in the United States would find it profit-maximizing to impose at least a small but significant and non-transitory increase in price ("SSNIP").

A. Relevant Product Market

23. The relevant product market in which to assess the effects of the proposed Acquisition is DMS for franchise dealers.

24. The DMS is a mission-critical business software that serves as the backbone of the dealer's information technology systems. Within a dealership, the DMS is used to manage nearly every aspect of the business, including accounting, payroll, parts and vehicle inventory, service repair scheduling, and vehicle financing. Much of the technology needed to run a dealership, including internet connectivity, telephones, website management, inventory, service scheduling, finance and insurance, and accounting is run or connected through the DMS. The DMS is also necessary for sharing information between the dealerships and OEMs like Ford, Audi, or Honda. This enables the dealer and OEMs to share real-time information on sales, inventory, parts, service, and warranties.

25. There are no reasonably interchangeable substitutes for franchise DMS, and franchise dealerships could not realistically switch to other products in the face of a SSNIP for DMS for franchise dealers.

26. DMS for franchise dealers has distinct qualities that other DMS products, including independent (used car) DMS does not have. A DMS for franchise dealers must have OEM certifications for the dealer to communicate with OEMs to share new car sales and parts information, and perform warranty services. Independent DMS providers and general business software do not have OEM certifications.

27. In addition to OEM certification, franchise dealers generally require software features tailored to franchise car dealership business operations, which are lacking in other DMS. In particular, franchise dealers demand complex automobile repair and parts software modules that independent DMS providers do not offer. In addition, independent DMS providers often lack other software modules important to the franchise dealer, including accounting and payroll modules.

28. Franchise dealers do not use independent DMS providers as a competitive restraint in negotiations with franchise DMS providers. General business software programs are also not a constraint on franchise DMS providers, and franchise dealers do not use general business software as a competitive restraint in negotiations with franchise DMS providers.

29. Thus, DMS for franchise dealers is the relevant product market in which to analyze the Acquisition's likely effects.

B. Relevant Geographic Market

30. The relevant geographic market is the United States. Auto/Mate does not compete outside of the United States. OEM certifications are frequently limited to specific countries and many OEMs require a United States-specific certification. Because franchise DMS customers demand OEM certifications that work within their country, and those certifications are frequently nation-specific, the relevant geographic market is the United States.

VII. MARKET STRUCTURE AND THE MERGER'S PRESUMPTIVE ILLEGALITY

31. The U.S. Franchise DMS Market is highly concentrated, with CDK and Reynolds controlling roughly 70% of the market. CDK has approximately [redacted] market share and Auto/Mate has approximately [redacted] market share. Post-Acquisition, the Relevant Market would be even more highly concentrated; CDK would control nearly half the market.

32. The Merger Guidelines and courts often measure concentration using HHIs. HHIs are calculated by totaling the squares of the market shares of every firm in the relevant market. Under the Merger Guidelines, a merger is presumed likely to create or enhance market power and is presumptively illegal when the post-merger HHI exceeds 2,500 and the merger increases the HHI by more than 200 points.

33. Post-Acquisition, the Relevant Market would be substantially more highly concentrated than it is today. Post-Acquisition, CDK would control approximately 47% of this Relevant Market. Reynolds, the next largest competitor, would possess approximately [redacted] of the Relevant Market. The Acquisition would result in a post-Acquisition HHI of over 2,500, and would increase concentration by well over 200 points. Therefore, the Acquisition establishes a presumption of competitive harm.

34. In this matter, the HHIs based on current market shares materially understate Auto/Mate's competitive significance in the Relevant Market because they do not take into consideration Auto/Mate's likely growth trajectory. Prior to the merger announcement, Auto/Mate posted significant growth year-over-year, adding new functionalities to its DMS and gaining large dealership customers. Moreover, Auto/Mate's reputation was growing in the industry and it was poised for continuing and significant growth.

35. The Acquisition is, therefore, presumptively unlawful under relevant case law and the Merger Guidelines.

VIII. ANTICOMPETITIVE EFFECTS: THE ACQUISITION WOULD ELIMINATE VITAL COMPETITION BETWEEN AUTO/MATE AND OTHER DMS PROVIDERS

36. The Acquisition is likely to substantially lessen competition in the Relevant Market. Auto/Mate competes aggressively against CDK today and would compete even more aggressively against CDK in the future but for the Acquisition. The merger would extinguish

this competition, as well as competition between Auto/Mate and other DMS providers. The result would be higher prices, inferior service, and reduced quality and innovation.

A. Auto/Mate Competes Aggressively Against CDK Today

37. To successfully challenge the large incumbent DMS providers, Auto/Mate deploys aggressive sales and marketing efforts. In attempts to win CDK customers, Auto/Mate has repeatedly emphasized CDK's price increases for both its core DMS and third-party integration, CDK's restrictive contracts, and CDK's business practices in marketing blasts it sent directly to CDK customers:

- "Pressure to increase margins has already caused prices to increase on third-party integration fees. This pressure will also cause increased prices on products for dealers directly if they have not seen it already."

- "CDK is letting go of a substantial amount of account managers in addition to other employees" and "[t]his will surely result in decreased communications between CDK and its dealers."

- "We believe that CDK dealers using an older web platform are being forced to migrate to a newer version and are required to pay for the cost of implementation."

- "[I]f you are currently using an in-house server, you may be alarmed to find out that you will be forced to migrate to a cloud-based solution by January 1st, 2018."

- "We are aware that these changes could drastically impact your bottom line. If you're tired of being locked down in an unsatisfactory contract and forced to pay for unnecessary updates, please feel free to contact me personally."

38. Auto/Mate also focuses on the overall price difference between Auto/Mate and CDK and Reynolds, using its website to assure prospective customers that "dealers often find their Auto/Mate monthly support bills to be 65-75 percent less than what they're paying with Reynolds and Reynolds or CDK." Auto/Mate is successful in its attempts to target CDK and Reynolds customers. Auto/Mate touted that "[o]ver 82% of our customers are converted from CDK Global and Reynolds & Reynolds DMS systems."

39. Auto/Mate also continually improves its product in response to customer demand for feature innovations. [redacted] Auto/Mate almost always provides these enhancements to its entire customer base, and in most cases, does so free of charge.

40. Auto/Mate's aggressive competition drew considerable attention at CDK. In 2016, CDK recognized that Auto/Mate was winning an increasing share of opportunities and that CDK was "losing more clients to Automate (sic) in the [redacted] than we've ever lost before," that Auto/Mate had "shrunken the gap in functionality to our core DMS," that Auto/Mate was "moving up toward Tier 1," and that Auto/Mate was now successfully acquiring large dealership customers. Internally, CDK discussed that Auto/Mate was getting "more and more aggressive with pricing" and that Auto/Mate was "making too much headway" relative to other franchise DMS competitors.

41. To respond to competition from Auto/Mate, CDK regularly offers [redacted] concessions. Reynolds also provides [redacted] and other benefits in response to competition from Auto/Mate.

42. In 2016, CDK implemented a plan specifically designed to reduce the risk that some of its customers would switch to Auto/Mate. [redacted] all of which were beneficial to customers.

43. Competition between CDK and Auto/Mate has substantially lowered prices for customers. The following are examples of this direct price competition:

- In a competition between CDK, Auto/Mate and Dealertrack, a franchise dealer's consultant produced a cost comparison showing that Auto/Mate's total price over 60 months was [redacted] less than Dealertrack and [redacted] less than CDK's DMS. In explaining his decision to leave CDK, the franchise dealer cited the price difference as "significant" and added that the decision to leave "wasn't a very hard call."

- A franchise dealer told CDK it was switching to Auto/Mate because "The price difference between R&R / CDK and a smaller DMS like Auto/Mate is a savings of [redacted] over 60 months. That is substantial and the main reason our owners wish to go this route."

- In competition with Auto/Mate, CDK was forced to provide a roughly [redacted] discount on monthly charges (an equivalent of approximately [redacted] over 60 months).

44. CDK also regularly responds to competition from Auto/Mate on non-price terms, including but not limited to, [redacted] For example, CDK typically offers a 60-month term contract, whereas Auto/Mate's contracts are month-to-month. Before the Acquisition's announcement, in response to Auto/Mate competition, [redacted] In another example, seeing Auto/Mate as the "real risk" to win one of its existing customers who expressed frustration with CDK's service, [redacted]

B. Auto/Mate Is Positioned to Compete Even More Aggressively in the Future Against CDK, Especially for Larger Dealership Customers

45. This Acquisition would lead to a real and significant loss of current competition. However, Auto/Mate's effect on the market is more significant than its current market share suggests, in part because of its compelling value proposition and history of continuous software innovations. These issues strongly indicate that, prior to the Acquisition, Auto/Mate was poised to become an even more aggressive and effective competitor in the Relevant Market.

46. For the past five years, Auto/Mate has been experiencing significant year-over-year rooftop growth. To drive this growth, Auto/Mate recently introduced several important functionality upgrades, including centralized accounting, which is a feature that dealerships with multiple rooftops value, and often strongly prefer. By adding centralized accounting to an already solid feature set at aggressive prices, Auto/Mate has attracted the attention of multi-rooftop dealers with very sophisticated DMS needs. Auto/Mate's introduction of centralized accounting was a [redacted] and amplified its competitive threat to CDK.

47. Prior to the Acquisition's announcement, Auto/Mate was on a clear growth path and believed it was well positioned to win larger DMS franchise customers. In 2016, Auto/Mate's Chairman made its growth plans clear: "We expect that as we continue to take larger groups from CDK/R&R, that we will eventually wake the sleeping giants. Right now, we're an annoyance, and they truly think that we are not a serious competitor at dealerships of a certain size. However, they are not really aware of some of the recent changes we have made to the software, and in the coming months we will begin installing a pilot store at a very large dealer group[] that, assuming we are successful, ought to shake up the industry, at least those who are paying attention."

48. As predicted, Auto/Mate had its best year yet in 2016, the last full year prior to the Acquisition's announcement, when it won several larger dealerships and successfully started [redacted] Auto/Mate believed its momentum would lead to further success: "Our success with these Groups is already generating interest from other large groups…. The large groups we installed in 2015 and 2016 are singing our praises."

49. In 2016, Auto/Mate won [redacted] customers with [redacted] rooftops from CDK in competitive situations. Auto/Mate also had significant success against Reynolds in 2016, winning [redacted] customers with [redacted] rooftops in competitive situations. Auto/Mate also won [redacted] customers with [redacted] rooftops from other DMS providers in competitive situations.

50. Auto/Mate knew its aggressive competition and strong reputation were working: "It seems that our reputation as tops in customer service, our successes at multi-store group installations, our more recent larger customer wins and some help from our competitors jacking up 3rd party integration fees has combined to create one of those 'perfect storm' moments, and we're perfectly positioned to take advantage of it."

51. At the end of 2016, Mike Esposito, the President and CEO of Auto/Mate highlighted to his team "We have worked very hard to get to the 'top of the hill'…we are almost on the other side. Our efforts are paying off! People don't ask anymore 'Who are you guys?' They now know who Auto/Mate is!" Mr. Esposito expected 2017 to "be the best year we have ever had."

52. As Auto/Mate won more and more customers, CDK executives knew they needed to respond to this competition, acknowledging that [redacted] and that CDK needed a [redacted] CDK determined that [redacted]

C. The Acquisition Will Eliminate the Consumer Benefits of Head-to-Head Competition Between Auto/Mate and other DMS providers

53. The Acquisition would eliminate the intense head-to-head price and quality competition between CDK and Auto/Mate occurring today. Consequently, CDK would not need to compete as aggressively on price to win franchise dealer customers, and would have the incentive and ability to raise prices and lower service quality. The Acquisition would also eliminate the competition between Auto/Mate and other DMS providers, reducing the need for those providers to compete as aggressively on price, service, and innovation.

54. After the Acquisition, CDK and other DMS providers would face less competition to retain and gain new customers and would have less incentive to offer shorter contracts, faster software enhancements, more third-party and less expensive app integration, additional training, and better customer service. CDK was aware that it would face less competition after acquiring Auto/Mate, internally touting: "We are so serious about acquiring new customers that we bought the DMS [Auto/Mate] that has been kicking our butts."

55. Indeed, CDK was willing to pay top dollar to keep Auto/Mate out of the hands of an acquirer that would increase Auto/Mate's already impressive growth trajectory. CDK predicted that, in the hands of a motivated and well-capitalized buyer, Auto/Mate would [redacted] To prevent this, CDK [redacted] over the next highest bidder to acquire Auto/Mate, and [redacted] CDK's original valuation of Auto/Mate. The gap between CDK's winning bid and its initial valuation substantially represents the defensive value to CDK of removing Auto/Mate as a competitor and preventing a well-financed alternative buyer from accelerating Auto/Mate's growth further.

56. Post-Acquisition, CDK plans to severely handicap the [redacted] DMS platform and remove it as a competitive alternative to CDK's other DMS products for large swaths of customers. [redacted] These are two Auto/Mate features its customers highly value. [redacted]

[redacted] Prior to the Acquisition announcement, Auto/Mate was successfully adding customers with three or more rooftops, often at the expense of CDK. [redacted] customers therefore would face degraded functionality and higher prices following the Acquisition, and [redacted] strong competitive attributes would be significantly dampened or withdrawn from the market. To the extent that Auto/Mate customers seek another franchise DMS provider, that provider would not be a close substitute to the unique value proposition they chose with Auto/Mate. Moreover, such alternatives may not be available given the significant installation and support capacity limitations of many other DMS providers.

IX. LACK OF COUNTERVAILING FACTORS

A. Barriers to Entry and Expansion

57. Respondents cannot demonstrate that new entry or expansion by existing firms would be timely, likely, or sufficient to offset the anticompetitive effects of the Acquisition.

58. New entry or repositioning by existing producers would not be timely, likely, or sufficient to counteract the anticompetitive effects of the Acquisition. *De novo* entrants into this market would face considerable barriers in replicating the competition that will be eliminated by the Acquisition. Effective entry into this market would require substantial, costly up-front investments in product development and OEM certification, and the risk of failure would be high given the substantial product development and reputational barriers to commercial success in this market. Collectively, these challenges would take many years to overcome. Auto/Mate's current success has taken many years of slow, careful growth to achieve, and new entrants would face a similarly protracted, high-risk path to success.

59. Similarly, existing DMS providers are unlikely to replace the competition that will be lost as a result of the Acquisition, because all of them lack important offerings Auto/Mate provides and that they are unlikely to develop in a timely manner if Auto/Mate is absorbed by CDK. While each firm's shortcomings are distinct, each faces real and significant challenges in becoming the next Auto/Mate. These challenges include, but are not limited to, a poor or non-existent reputation among customers, software with limited functionality, limited or non-existent OEM certifications, poor service levels, and constrained capacity. Moreover, other DMS providers are significantly higher priced than Auto/Mate and would not sufficiently replace Auto/Mate's aggressive pricing. The remaining firms in this market are not likely to replace the unique, substantial, and growing competitive significance of Auto/Mate in a timely way, either collectively or individually.

B. Efficiencies

60. Respondents have not identified and cannot demonstrate cognizable efficiencies that would be sufficient to rebut the strong presumption and evidence that Acquisition likely would substantially lessen completion in the relevant market.

X. VIOLATION

Count I – Illegal Agreement

61. The allegations of Paragraphs 1 through 60 above are incorporated by reference as though fully set forth herein.

62. The Acquisition Agreement constitutes an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

Count II—Illegal Acquisition

63. The allegations of Paragraphs 1 through 60 above are incorporated by reference as though fully set forth herein.

64. The Acquisition, if consummated, may substantially lessen competition in the relevant market in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and is an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

NOTICE

Notice is hereby given to the Respondents that the twenty-first day of August, 2018, at 10 a.m., is hereby fixed as the time, and the Federal Trade Commission offices at 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580, as the place, when and where an evidentiary hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission Act and the Clayton Act to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth (14th) day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted. If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material facts to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint and, together with the complaint, will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under Rule 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions, and a final order disposing of the proceeding.

The Administrative Law Judge shall hold a prehearing scheduling conference not later than ten (10) days after the Respondents file their answers. Unless otherwise directed by the Administrative Law Judge, the scheduling conference and further proceedings will take place at the Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580. Rule 3.21(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (but in any event no later than five (5) days after the Respondents file their answers). Rule 3.31(b) obligates counsel for each party, within five (5) days of receiving the Respondents' answers, to make certain initial disclosures without awaiting a discovery request.

Notice of Contemplated Relief

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the Merger challenged in this proceeding violates Section 5 of the Federal Trade Commission Act, as amended, and/or Section 7 of the Clayton Act, as amended, the Commission may order such relief against Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. If the Acquisition is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores two or more distinct and separate, viable and independent businesses in the relevant market, with the ability to offer such products and services as CDK and Auto/Mate were offering and planning to offer prior to the Acquisition.

2. A prohibition against any transaction between CDK and Auto/Mate that combines their businesses in the relevant market, except as may be approved by the Commission.

3. A requirement that, for a period of time, CDK and Auto/Mate provide prior notice to the Commission of acquisitions, mergers, consolidations, or any other combinations of their businesses in the relevant market with any other company operating in the relevant markets.

4. A requirement to file periodic compliance reports with the Commission.

5. Any other relief appropriate to correct or remedy the anticompetitive effects of the transaction or to restore Auto/Mate as a viable, independent competitor in the relevant market.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C., this nineteenth day of March, 2018.

By the Commission.

IN THE MATTER OF	)
GRIFOLS, S.A., **a corporation;**	) **Decision and Order**) **Docket No. C-4654**
and	) **[Public Record Version]**
GRIFOLS SHARED SERVICES NORTH AMERICA, INC., **a corporation.**	)

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of the proposed acquisition by Respondent Grifols Shared Services North America, Inc., a wholly owned subsidiary of Respondent Grifols S.A. (collectively "Grifols" or "Respondents") of all of the outstanding voting securities of Biotest US Corporation ("Biotest US"). The Biotest Divestiture Trust is the ultimate parent entity of Biotest US. At the time of the announcement of the proposed acquisition, Biotest Pharmaceutical Corporation, a subsidiary of Biotest US, owned a portion of the outstanding voting securities of ADMA Biologics, Inc. ("ADMA"). Prior to Respondents' proposed acquisition of Biotest US, Biotest US transferred or will have transferred all of the aforementioned voting securities of ADMA to either The Biotest Divestiture Trust or to ADMA. Accordingly, ADMA's voting securities will not be acquired or held by Respondents. The Commission's Bureau of Competition prepared and furnished to Respondents the Draft Complaint reflecting the foregoing transactions, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

Respondents and the Bureau of Competition executed an agreement ("Agreement Containing Consent Orders" or "Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint, (2) a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true, (3) waivers and other provisions as required by the Commission's Rules, and (4) a proposed Decision and Order and Order to Maintain Assets.

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. The Commission duly considered any comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34. Now, in further conformity with the procedure described in Rule 2.34, the Commission hereby makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Grifols, S.A., is a corporation organized, existing, and doing business under and by virtue of the laws of the Kingdom of Spain with its executive offices and principal place of business located at Avinguda de la Generalitat, 152-158, Parc de Negocis Can Sant Joan, Barcelona, Spain 08174. Its United States address for service of process and the Complaint, the Decision and Order, and the Order to Maintain Assets, is as follows: General Counsel, c/o Grifols Shared Services North America, Inc., 2410 Lillyvale Avenue, Los Angeles, California 90032.

2. Respondent Grifols Shared Services North America, Inc. is a corporation organized, existing, and doing business under and by virtue of the laws of the Commonwealth of Virginia with its executive offices and principal place of business located at 2410 Lillyvale Avenue, Los Angeles, California 90032.

3. Biotest US, is a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at 901 Yamato Road, Suite 101, Boca Raton, Florida 33431.

4. The Biotest Divestiture Trust, is a statutory trust organized under the laws of Maryland and pursuant to the terms of a Declaration of Trust, dated January 17, 2018, and an Amended and Restated Declaration of Trust, dated July 8, 2018, by and among Biotest AG (an Aktiengesellschaft organized under the laws of the Federal

Republic of Germany), as grantor, and Eric Rosenbach, a U.S. citizen. The mailing address of The Biotest Divestiture Trust is c/o Eric Rosenbach, Trustee, 402 Norfolk St., Cambridge, Massachusetts 02139. The Trust Agreement for the Biotest Divestiture Trust is contained in Non-Public Appendix I of the Order.

5. The Commission has jurisdiction over the subject matter of this proceeding and over the Respondents, and the proceeding is in the public interest.

ORDER

I.

IT IS HEREBY ORDERED that, as used in the Order, the following definitions shall apply:

A. "Respondents" means, individually and collectively: Grifols, S.A. and Grifols Shared Services North America, Inc.; their directors, officers, employees, agents, representatives, successors, and assigns; and their joint ventures, subsidiaries, divisions, groups, and affiliates, in each case controlled by Grifols, S.A. or Grifols Shared Services North America, Inc. (including, without limitation, Biomat USA), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each. After the Acquisition, Respondents will include Biotest US.

B. "Biotest US" means Biotest US Corporation; its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, divisions, groups, and affiliates, in each case controlled by Biotest US Corporation (including, without limitation, Biotest Pharmaceuticals Corporation), and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Commission" means the Federal Trade Commission.

D. "Acquirer(s)" means the following:

1. a Person specified by name in this Order to acquire particular assets or rights that a Respondent is required to assign, grant, license, divest, transfer, deliver, or otherwise convey pursuant to this Order and that has been approved by the Commission to accomplish the requirements of this Order in connection with the Commission's determination to make this Order final and effective; or

2. a Person approved by the Commission to acquire particular assets or rights that a Respondent is required to assign, grant, license, divest, transfer, deliver, or otherwise convey pursuant to this Order.

E. "Acquisition" means Respondents' acquisition of Biotest US pursuant to the Acquisition Agreement.

F. "Acquisition Agreement" means the *Stock Purchase Agreement* by and between Grifols Shared Services North America, Inc., Biotest US Corporation, Biotest AG, and, solely for the purposes of Section 7.13 of the *Stock Purchase Agreement*, as guarantor, Grifols, S.A. dated December 22, 2017, and the *Amendment* [amendment insert] dated [insert]that were submitted by the Respondents to the Commission in this matter. The Acquisition Agreement is contained in Non-Public Appendix I.

G. "Acquisition Date" means the date on which Respondents acquire fifty percent (50%) or more of the outstanding voting securities of Biotest US.

H. "ADMA" means ADMA Biologics, Inc., a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at 465 State Route 17, Ramsey, New Jersey 07446.

I. "Agency(ies)" means any government regulatory authority or authorities in the world responsible for granting approval(s), clearance(s), qualification(s), license(s), or permit(s) for any aspect of the operation of the Business of a Plasma Donor Center. The term "Agency" includes, without limitation, the United States Food and Drug Administration ("FDA").

J. "Applicant Plasma" means human plasma collected from any of the Plasma Donor Center Divestiture Facilities that has not been fully tested and cleared within the Respondents' donor management system (*i.e.*, Blood Establishment Computer System) for subsequent use or distribution.

K. "Blood Establishment Computer System" means the computer hardware, computer software, peripheral devices, networks, and documentation (*e.g.*, users manuals and standard operating procedures) as required by the FDA pursuant to 21 CFR 211.68, 606.100(b), and 606.160 that apply to blood establishment validation systems, and any other components of such a system as required by the FDA in order to (i) ensure the proper diagnosis of disease or other conditions in donors of human blood or blood components, or (ii) to prevent disease by preventing the release of unsuitable blood and blood components.

L. "Business" means the activities related to the collection and processing of human blood and blood components (*e.g.*, plasma) conducted at Plasma Donor Centers.

M. "Closing Date" means, as to each Plasma Donor Center Divestiture Facility, the date on which a Respondent (or a Divestiture Trustee) consummates a transaction to assign, grant, license, divest, transfer, deliver, or otherwise convey assets related to such Plasma Donor Center Divestiture Facility to an Acquirer pursuant to this Order.

N. "Collection Materials" means materials used under the standard operation procedures for blood collection, handling, and processing at each of the Plasma Donor Center Divestiture Facilities (*e.g.*, plasma collection tubes).

O. "Current Operating Condition" means that, as of the date of delivery to the Acquirer, the machine meets or exceeds all current operational, functional, and productive capabilities required to perform plasmapheresis.

P. "Disposable Medical Supplies" means general medical products regularly used in the conduct of the Business of a Plasma Donor Center that are intended for one-time or temporary use (*e.g.*, gloves, needles, bandages, paper products, syringes, and wipes).

Q. "Divestiture Trustee" means the trustee appointed by the Commission pursuant to Paragraph V of this Order.

R. "Domain Name" means the domain name(s) (uniform resource locators), and registration(s) thereof, issued by any Person or authority that issues and maintains the domain name registration; *provided, however*, "Domain Name" shall not include any trademark or service mark rights to such domain names other than the rights to the Product Trademarks required to be divested.

S. "Government Entity" means any Federal, state, local, or non-U.S. government; any court, legislature, government agency, or government commission; or any judicial or regulatory authority of any government.

T. "Fixtures and Equipment" means all furniture, fixtures, furnishings, machinery, equipment, supplies and other tangible personal property used or held for use in the operation of the Business of each of the Plasma Donor Center Divestiture Facilities respectively, or if leased, the Respondents' leasehold interest therein.

U. "Kedplasma" means (i) Kedplasma LLC, wholly-owned subsidiary of Kedrion S.p.a. and a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at Parker Plaza, 400 Kelby Street, Fort Lee, New Jersey 07024; or (ii) Kedrion S.p.a, a corporation organized, existing, and doing business under and by virtue of the laws of the Italian Republic with its registered office located at Località Ai Conti – 55051 Barga (Lucca) - frazione Castelvecchio Pascoli, Italy and any other subsidiary of Kedrion S.p.a.

V. "Law" means all laws, statutes, rules, regulations, ordinances, and other pronouncements by any Government Entity having the effect of law.

W. "Monitor" means any monitor appointed pursuant to Paragraph IV of this Order or Paragraph III of the related Order to Maintain Assets.

X. "Orders" means this Decision and Order and the related Order to Maintain Assets.

Y. "Order Date" means the date on which the final Decision and Order in this matter is issued by the Commission.

Z. "Order to Maintain Assets" means the Order to Maintain Assets incorporated into and made a part of the Consent Agreement.

AA. "Ownership Interest" means any voting or non-voting stock, share capital, equity, notes convertible into any voting or non-voting stock, or other interest in an entity.

BB. "Person" means any individual, partnership, joint venture, firm, corporation, association, trust, unincorporated organization, or other business or Government Entity, and any subsidiaries, divisions, groups, or affiliates thereof.

CC. "Plasma Donor Center(s)" means a facility used for the collection of whole blood or plasma from human donors that operates in accordance with FDA rules related to the evaluation of the eligibility of potential donors and to the storing, processing, tracking, testing, and shipping of human blood or blood components for further manufacturing and use in blood or plasma-based therapies.

DD. "Plasma Donor Center Approval(s)" means any approvals, registrations, permits, licenses, consents, authorizations, and other approvals, and pending applications and requests therefor, required by applicable Agencies related to the operation of the Business of a Plasma Donor Center.

EE. "Plasma Donor Center Confidential Business Information" means all information owned by, or in the possession or control of, a Respondent that is not in the public domain and that is directly related to the conduct of the Business of the Plasma Donor Center Divestiture Facilities. The term "Plasma Donor Center Confidential Business Information" *excludes*, and Respondents are not required to submit the following information to an Acquirer:

1. information relating to a Respondent's general business strategies or practices that does not discuss with particularity the Business of a particular Plasma Donor Center Divestiture Facility;
2. information specifically excluded from the Plasma Donor Center Divestiture Assets conveyed to the Acquirer;
3. information that is contained in documents, records, or books of a Respondent that is provided to an Acquirer by a Respondent that is unrelated to the Plasma Donor Center Divestiture Facilities acquired by that Acquirer or that is exclusively related to Plasma Donor Centers retained by the Respondents; and
4. information that is protected by the attorney work product, attorney-client, joint defense, or other privilege prepared in connection with the Acquisition and relating to any United States, state, or foreign antitrust or competition Laws.

FF. "Plasma Donor Center Contracts" means all contracts or agreements:

1. pursuant to which a Third Party provides any specialized services necessary to the operation of the Business of the specified Plasma Donor Center Divestiture Facility to a Respondent including, but not limited to, consultation arrangements; and/or

2. pursuant to which a Third Party provides any equipment necessary to the operation of the Business of the specified Plasma Donor Center Divestiture Facility to a Respondent; and

3. pursuant to which a Third Party provides any software necessary to the operation of the Business of the specified Plasma Donor Center Divestiture Facility to a Respondent.

provided, however, that where any such contract or agreement also relates to a Plasma Donor Center(s) that is being retained by the Respondents, a Respondent shall, at the Acquirer's option, assign or otherwise make available to the Acquirer all such rights under the contract or agreement as are related to the specified Plasma Donor Center Divestiture Facility, but concurrently may retain similar rights for the Plasma Donor Centers retained by the Respondents.

GG. "Plasma Donor Center Divestiture Agreement(s)" means the following:

1. *Plasma Center Purchase Agreement* by and between Kedplasma LLC and Biomat USA, Inc., dated June 18, 2018;

2. *Transition Services Agreement* by and between Kedplasma LLC and Biomat USA, Inc., dated June 18, 2018; and

3. all amendments, exhibits, attachments, agreements, and schedules attached to and submitted to the Commission with the foregoing listed agreement(s).

The Plasma Donor Center Divestiture Agreements are contained in Non-Public Appendix II.A. The Plasma Donor Center Divestiture Agreements that have been approved by the Commission to accomplish the requirements of this Order in connection with the Commission's determination to make this Order final and effective are Remedial Agreements.

HH. "Plasma Donor Center Divestiture Assets" means all rights, title, and interest in and to the Business of Respondents related to each of the Plasma Donor Center Divestiture Facilities, to the extent legally transferable and as such assets and rights are in existence as of the date the Respondents sign the Consent Agreement in this matter, and to be maintained by the Respondents in accordance with the Order to Maintain Assets until the Closing Date, including, without limitation, the following:

1. all rights to all of the leasehold interests in the real property at which the Plasma Donor Center Divestiture Facility is located and the building and improvements thereon;

2. all rights to all of the Plasma Donor Center Contracts;

3. all Fixtures and Equipment;

4. all Plasma Donor Center Approvals;

5. at the Acquirer's option, all Applicant Plasma in inventory as of Closing Date;

6. at the Acquirer's option, either (i) all plasmapheresis machines used or held for use in the operation of the Business at each respective Plasma Donor Center Divestiture Facility (which machines shall be delivered to the Acquirer in Current Operating Condition), or (ii) a license for an interim period to use all plasmapheresis machines used or held for use in the operation of the Business at each respective Plasma Donor Center Divestiture Facility (which machines shall be provided to the Acquirer in Current Operating Condition) for a time sufficient to allow the Acquirer to transition to the Acquirer's own plasmapheresis machines;
7. at least two (2) weeks supply (in the ordinary course of business) of Collection Materials at each Plasma Donor Center Divestiture Facility;
8. at least two (2) weeks supply (in the ordinary course of business) of Disposable Medical Supplies at each Plasma Donor Center Divestiture Facility;
9. at least two (2) weeks supply (in the ordinary course of business) of janitorial supplies, including such supplies as are required to prevent exposure to potentially infectious materials;
10. all donor records and registries related to the blood or blood component (*e.g.,* plasma) donations made at the particular Plasma Donor Center Divestiture Facility, including any records made by personnel at that Plasma Donor Center Divestiture Facility relating to the collection of plasma from a donor;
11. all computers and computer equipment, printers, software and databases, routers, servers, switches and timeclocks and documentation related to any of the foregoing used or held for use in the operation of the Business of each Plasma Donor Center Divestiture Facility (all cabling within each center shall remain in place), which shall also include access to any computer databases or donor information connected or related to each Plasma Donor Center Divestiture Facility at the corporate level held outside the respective Plasma Donor Center Divestiture Facility;
12. at the Acquirer's option, a license for an interim period to the Blood Establishment Computer System that was in use in connection with the operation of each Plasma Donor Center Divestiture Facility prior to the Acquisition for a time sufficient to allow the Acquirer to transition to the Acquirer's own Blood Establishment Computer System for that facility;
13. all Website(s) related exclusively to the specified Plasma Donor Center Divestiture Facility;
14. the content related exclusively to the specified Plasma Donor Center Divestiture Facility that is displayed on any Website that is not dedicated exclusively to the specified Plasma Donor Center Divestiture Facility;
15. at the option of the Acquirer, all Plasma Donor Center Contracts related to the specified Plasma Donor Center Divestiture Facility; and
16. all of a Respondent's books, records, and files directly related to the foregoing;

provided, however, that in cases in which documents or other materials included in the assets to be divested contain information: (i) that relates both to the specified Plasma Donor Center Divestiture Facility and a Plasma Donor Center retained by the Respondents and cannot be segregated in a manner that preserves the usefulness of the information as it relates to the specified Plasma Donor Center Divestiture Facility; or (ii) for which any Respondent has a legal obligation to retain the original copies, that Respondent shall be required to provide only copies or relevant excerpts of the documents and materials containing this information. In instances where such copies are provided to the Acquirer, the Respondents shall provide the Acquirer access to original documents under circumstances where copies of documents are insufficient for evidentiary or regulatory purposes. The purpose of this provision is to ensure that the Respondents provide the Acquirer with the above-described information without requiring a Respondent completely to divest itself of information that, in content, also relates to Plasma Donor Centers retained by the Respondents.

II. "Plasma Donor Center Divestiture Facility(ies)" means the Plasma Donor Centers located at the following addresses, individually and collectively:

1. 3160 Wrightsboro Road, Augusta, Georgia 30909;
2. 2002 N Street, Lincoln, Nebraska 68510; and
3. 444 Martin Luther King Jr. Boulevard, Youngstown, Ohio 44502.

JJ. "Plasma Donor Center Employee Information" means the following, for each employee of a Plasma Donor Center Divestiture Facility, as and to the extent permitted by Law:

1. a complete and accurate list containing the name of each employee of a Plasma Donor Center Divestiture Facility (including former employees who were employed by a Respondent within ninety (90) days of the execution date of any Remedial Agreement); and
2. with respect to each such employee, the following information:
    a. direct contact information for the employee, including telephone number;
    b. the date of hire and effective service date;
    c. job title or position held;
    d. a specific description of the employee's responsibilities related to the relevant Plasma Donor Center Divestiture Facility; *provided, however*, in lieu of this description, a Respondent may provide the employee's most recent performance appraisal;
    e. the base salary or current wages;
    f. the most recent bonus paid, aggregate annual compensation for the relevant Respondent's last fiscal year, and current target or guaranteed bonus, if any;

g. employment status (*i.e.*, active or on leave or disability; full-time or part-time);

h. all other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

3. at the Acquirer's option, copies of all employee benefit plans and summary plan descriptions (if any) applicable to the relevant employees.

KK. "Relevant Geographic Markets" means the following:

1. City of Lincoln, Nebraska;

2. City of Augusta, Georgia; and

3. City of Youngstown, Ohio.

LL. "Remedial Agreement(s)" means the following:

1. any agreement between a Respondent and an Acquirer that is specifically referenced and attached to this Order, including all amendments, exhibits, attachments, agreements, and schedules thereto, related to the relevant assets or rights to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed, including, without limitation, any agreement to supply specified products (or components thereof) or services, and that has been approved by the Commission to accomplish the requirements of the Order in connection with the Commission's determination to make this Order final and effective;

2. any agreement between a Respondent and a Third Party to effect the assignment of assets or rights of that Respondent related to a Plasma Donor Center Divestiture Facility(ies) or other Order requirement to the benefit of an Acquirer that is specifically referenced and attached to this Order, including all amendments, exhibits, attachments, agreements, and schedules thereto, that has been approved by the Commission to accomplish the requirements of the Order in connection with the Commission's determination to make this Order final and effective;

3. any agreement between a Respondent and an Acquirer (or between a Divestiture Trustee and an Acquirer) that has been approved by the Commission to accomplish the requirements of this Order, including all amendments, exhibits, attachments, agreements, and schedules thereto, related to the relevant assets or rights to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed, including, without limitation, any agreement by that Respondent to supply specified products (or components thereof) or services, and that has been approved by the Commission to accomplish the requirements of this Order; and/or

4. any agreement between a Respondent and a Third Party to effect the assignment of assets or rights of that Respondent related to a Plasma Donor Center Divestiture Facility(ies) or other Order requirement to the benefit of an Acquirer that has been

approved by the Commission to accomplish the requirements of this Order, including all amendments, exhibits, attachments, agreements, and schedules thereto.

MM. "Third Party(ies)" means any non-governmental Person other than the following: a Respondent; or an Acquirer of particular assets or rights pursuant to this Order.

NN. "Website" means the content of the Website(s) located at the Domain Names, the Domain Names, and all copyrights in such Website(s), to the extent owned by a Respondent; *provided, however*, "Website" shall not include the following: (1) content owned by Third Parties and other Product Intellectual Property not owned by a Respondent that are incorporated in such Website(s), such as stock photographs used in the Website(s), *except* to the extent that a Respondent can convey its rights, if any, therein; or (2) content unrelated to any of the Plasma Donor Center Divestiture Facilities.

II.

IT IS FURTHER ORDERED that:

A. Not later than thirty (30) days after the Order Date, Respondents shall divest the Plasma Donor Center Divestiture Assets, absolutely and in good faith, to Kedplasma pursuant to, and in accordance with, the Plasma Donor Center Divestiture Agreements (which agreements shall not limit or contradict, or be construed to limit or contradict, the terms of this Order, it being understood that this Order shall not be construed to reduce any rights or benefits of Kedplasma or to reduce any obligations of Respondents under such agreements), and each such agreement, if it becomes a Remedial Agreement related to the Plasma Donor Center Divestiture Assets is incorporated by reference into this Order and made a part hereof;

provided, however, that if Respondents have divested the Plasma Donor Center Divestiture Assets to Kedplasma prior to the Order Date, and if, at the time the Commission determines to make this Order final and effective, the Commission notifies Respondents that Kedplasma is not an acceptable purchaser of any of the Plasma Donor Center Divestiture Assets, then Respondents shall immediately rescind the transaction with Kedplasma, in whole or in part, as directed by the Commission, and shall divest the Plasma Donor Center Divestiture Assets within one hundred eighty (180) days after the Order Date, absolutely and in good faith, at no minimum price, to an Acquirer that receives the prior approval of the Commission, and only in a manner that receives the prior approval of the Commission;

provided further, that if Respondents have divested the Plasma Donor Center Divestiture Assets to Kedplasma prior to the Order Date, and if, at the time the Commission determines to make this Order final and effective, the Commission notifies Respondents that the manner in which the divestiture was accomplished is not acceptable, the

Commission may direct Respondents, or appoint a Divestiture Trustee, to effect such modifications to the manner of divestiture of the Plasma Donor Center Divestiture Assets to Kedplasma (including, but not limited to, entering into additional agreements or arrangements) as the Commission may determine are necessary to satisfy the requirements of this Order.

B. Prior to the Closing Date, Respondents shall provide the Acquirer with the opportunity to review all contracts or agreements that are Plasma Donor Center Contracts for the purposes of the Acquirer's determination whether to assume such contracts or agreements.

C. Prior to the Closing Date, Respondents shall secure all consents and waivers from all Third Parties that are necessary to permit Respondents to divest the Plasma Donor Center Divestiture Assets to an Acquirer, and to permit the Acquirer to continue the Business of the Plasma Donor Center Divestiture Facility;

provided, however, Respondents may satisfy this requirement by certifying that the Acquirer has executed all such agreements directly with each of the relevant Third Parties.

D. Respondents shall:

1. submit to the Acquirer, at Respondents' expense, all Plasma Donor Center Confidential Business Information;
2. deliver all Plasma Donor Center Confidential Business Information:
    a. in good faith;
    b. in a timely manner, *i.e.*, as soon as practicable, avoiding any delays in transmission of the respective information; and
    c. in a manner that ensures its completeness and accuracy and that fully preserves its usefulness;
3. pending complete delivery of all such Plasma Donor Center Confidential Business Information to the Acquirer, provide that Acquirer and the Monitor (if any has been appointed) with access to all such Plasma Donor Center Confidential Business Information and employees who possess or are able to locate such information for the purposes of identifying the books, records, and files that contain such Plasma Donor Center Confidential Business Information and facilitating the delivery in a manner consistent with this Order;
4. not use, directly or indirectly, any such Plasma Donor Center Confidential Business Information other than as necessary to comply with the following:
    a. the requirements of this Order;
    b. Respondents' obligations to the Acquirer under the terms of any related Remedial Agreement; or

c. applicable Law;

5. not disclose or convey any Plasma Donor Center Confidential Business Information, directly or indirectly, to any Person except (i) the Acquirer, (ii) other Persons specifically authorized by that Acquirer or staff of the Commission to receive such information, (iii) the Commission, or (iv) the Monitor (if any has been appointed) and *except* to the extent necessary to comply with applicable Law;

6. not provide, disclose or otherwise make available, directly or indirectly, any Plasma Donor Center Confidential Business Information to the employees associated with the Plasma Donor Centers that are being retained by the Respondents; and

7. institute procedures and requirements to ensure that the above-described employees:

   a. do not provide, disclose or otherwise make available, directly or indirectly, any Plasma Donor Center Confidential Business Information in contravention of this Order to Maintain Assets; and

   b. do not solicit, access or use any Plasma Donor Center Confidential Business Information that they are prohibited from receiving for any reason or purpose.

E. Respondents shall:

1. not later than ten (10) days after a request from the Acquirer, provide the Acquirer with the Plasma Donor Center Employee Information;

2. for a period of twelve (12) months after the Closing Date, provide the Acquirer with the opportunity to enter into employment contracts with the employees that work in the locations of each of the Plasma Donor Center Divestiture;

3. until the Closing Date, provide all of the above-described employees with reasonable financial incentives to continue in their positions consistent with past practices and/or as may be necessary to preserve the marketability, viability, and competitiveness of the Business related to each of the Plasma Donor Center Divestiture Facility. Such incentives shall include a continuation of all employee compensation and benefits offered by a Respondent until the Closing Date(s).

F. Until Respondents complete the divestiture of the Plasma Donor Center Divestiture Assets to the Acquirer:

1. Respondents shall take actions as are necessary to:

   a. maintain the full economic viability and marketability of the Business associated with each Plasma Donor Center Divestiture Facility;

   b. minimize any risk of loss of competitive potential for that Business;

   c. prevent the destruction, removal, wasting, deterioration, or impairment of any of the Plasma Donor Center Divestiture Assets;

d. ensure the assets related to each Plasma Donor Center Divestiture Facility are provided to the Acquirer without disruption, delay, or impairment of any regulatory approval processes related to the Business associated with each Plasma Donor Center Divestiture Facility; and

2. Respondents shall not sell, transfer, encumber, or otherwise impair the Plasma Donor Center Divestiture Assets (other than in the manner prescribed in this Order).

G. For a period of ten (10) years beginning on the Order Date, Respondents shall not, directly or indirectly, through subsidiaries, partnerships or otherwise, without providing prior written notification to the Commission:

1. acquire any ownership or leasehold interest in any facility that has operated as a Plasma Donor Center within (6) months prior to the date of such proposed acquisition within any of the Relevant Geographic Markets; or

2. acquire any Ownership Interest in any entity that owns any interest in or operates a Plasma Donor Center, or owned any interest in or operated any Plasma Donor Center within six (6) months prior to such proposed acquisition in any of the Relevant Geographic Markets;

provided however, that advance written notification shall not apply to the construction of new facilities by Respondents or the acquisition of or leasing of a facility that has not operated as a Plasma Donor Center within six (6) months prior to Respondents' offer to purchase or lease.

Said notification shall be given on the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations as amended (hereinafter referred to as "the Notification"), and shall be prepared and transmitted in accordance with the requirements of that part, except that no filing fee will be required for any such notification, notification shall be filed with the Secretary of the Commission, notification need not be made to the United States Department of Justice, and notification is required only of Respondents and not of any other party to the transaction. Respondents shall provide the Notification to the Commission at least thirty (30) days prior to consummating any such transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Respondents shall not consummate the transaction until twenty (20) days after substantially complying with such request. Early termination of the waiting periods in this Paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition; *provided, however*, that the advanced written notification provisions of this Paragraph shall not apply to any transaction for which notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. 18a.

H. The purpose of the divestiture of the Plasma Donor Center Divestiture Assets and the related obligations imposed on the Respondents by this Order is:

1. to ensure the continued use of such assets for the purposes of the Business associated with each Plasma Donor Center Divestiture Facility;
2. to create a viable and effective competitor that is independent of Respondents in the Business of each Plasma Donor Center Divestiture Facility; and
3. to remedy the lessening of competition resulting from the Acquisition as alleged in the Commission's Complaint in a timely and sufficient manner.

III.

IT IS FURTHER ORDERED that:

A. In connection with, or as a result of Respondents' acquisition of the voting securities of Biotest US or pursuant to the Acquisition Agreement, Respondents shall not, directly or indirectly, acquire or hold:

1. any Ownership Interest in ADMA;
2. any rights to nominate or obtain representation on the Board of Directors of ADMA;
3. any rights to exercise dominion or control over ADMA; or
4. any rights to direct, supervise, or manage the business of ADMA (including any rights to participate in the formulation, determination, or direction of any business decisions of ADMA).

B. For a period of ten (10) years beginning on the Order Date, Respondents shall not, directly or indirectly, through subsidiaries, partnerships, or otherwise, without providing advanced written notification to the Commission:

1. acquire any Ownership Interest in ADMA;
2. acquire any rights to nominate or obtain representation on the Board of Directors of ADMA; or
3. acquire any assets or rights owned or controlled by ADMA exclusively used in the research, development, manufacture, distribution, marketing, or sale of hepatitis B immune globulin (*e.g.*, Nabi-HB®), including, without limitation, any FDA applications or approvals (*e.g.*, biological license) related to hepatitis B immune globulin.

Said notification shall be given on the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations as amended (hereinafter referred to as "the Notification"), and shall be prepared and transmitted in accordance with the requirements of that part, except that no filing fee will be required

for any such notification, notification shall be filed with the Secretary of the Commission, notification need not be made to the United States Department of Justice, and notification is required only of Respondents and not of any other party to the transaction. Respondents shall provide the Notification to the Commission at least thirty (30) days prior to consummating any such transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Respondents shall not consummate the transaction until twenty (20) days after substantially complying with such request. Early termination of the waiting periods in this Paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition; *provided, however*, that the advanced written notification provisions of this Paragraph shall not apply to any transaction for which notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. 18a.

C. The purpose of the requirements of Paragraph III is to ensure that the Respondents will not hold the voting securities of ADMA and will not seek to exert, or exert influence over the business operations of ADMA.

IV.

IT IS FURTHER ORDERED that:

A. At any time after the Respondents sign the Consent Agreement in this matter, the Commission may appoint a monitor ("Monitor") to assure that the Respondents expeditiously comply with all of their obligations and perform all of their responsibilities as required by this Order, the Order to Maintain Assets, and the Remedial Agreements.

B. The Commission shall select the Monitor, subject to the consent of Respondents, which consent shall not be unreasonably withheld. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of a proposed Monitor within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed Monitor, Respondents shall be deemed to have consented to the selection of the proposed Monitor.

C. Not later than ten (10) days after the appointment of the Monitor, Respondents shall execute an agreement that, subject to the prior approval of the Commission, confers on the Monitor all the rights and powers necessary to permit the Monitor to monitor each Respondent's compliance with the relevant requirements of the Order in a manner consistent with the purposes of the Order.

D. If a Monitor is appointed, each Respondent shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor each Respondent's compliance with the divestiture and asset maintenance obligations and related requirements of the Order, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of the Order and in consultation with the Commission;

2. The Monitor shall act in consultation with the Commission or its staff, and shall serve as an independent third party and not as an employee or agent of the Respondents or of the Commission; and

3. The Monitor shall serve until Respondents complete each of the divestitures required by this Order and complete any transitional services required to be provided to an Acquirer under this Order or related Remedial Agreement(s), *provided, however,* that the Monitor's service shall not extend more than two (2) years after the Order Date *unless* the Commission decides to extend or modify this period as may be necessary or appropriate to accomplish the purposes of the Orders.

E. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to each Respondent's personnel, books, documents, records kept in the ordinary course of business, facilities, and technical information, and such other relevant information as the Monitor may reasonably request, related to that Respondent's compliance with its obligations under the Orders, including, but not limited to, its obligations related to the relevant assets. Each Respondent shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor that Respondent's compliance with the Orders.

F. The Monitor shall serve, without bond or other security, at the expense of Respondents, on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Respondents, such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities.

G. Respondents shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Monitor.

H. Respondents shall report to the Monitor in accordance with the requirements of this Order and as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by a Respondent, and any reports submitted by the Acquirer with respect to the performance of a Respondent's obligations under the Order or the Remedial Agreement(s). Within thirty (30) days after

the date the Monitor receives these reports, the Monitor shall report in writing to the Commission concerning performance by a Respondent of its obligations under the Order.

I. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however,* that such agreement shall not restrict the Monitor from providing any information to the Commission.

J. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Monitor's duties.

K. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the same manner as provided in this Paragraph.

L. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of the Order.

M. The Monitor appointed pursuant to this Order may be the same Person appointed as a Divestiture Trustee pursuant to the relevant provisions of this Order.

V.

IT IS FURTHER ORDERED that:

A. If the Respondents have not fully complied with the obligations to assign, grant, license, divest, transfer, deliver, or otherwise convey the Plasma Donation Center Divestiture Assets as required by this Order, the Commission may appoint a trustee ("Divestiture Trustee") to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets in a manner that satisfies the requirements of this Order. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Paragraph shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by a Respondent to comply with this Order.

B. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within ten (10) days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

C. Not later than ten (10) days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the divestiture required by this Order.

D. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Paragraph, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the assets that are required by this Order to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed.

2. The Divestiture Trustee shall have one (1) year after the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the one (1) year period, the Divestiture Trustee has submitted a plan of divestiture or the Commission believes that the divestiture(s) can be achieved within a reasonable time, the divestiture period may be extended by the Commission; *provided, however*, the Commission may extend the divestiture period only two (2) times.

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestiture(s). Any delays in divestiture caused by a Respondent shall extend the time for divestiture under this Paragraph in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court.

4. The Divestiture Trustee shall use commercially reasonable efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture(s) shall be made in the manner and to an Acquirer as required by this Order; *provided, however*, if the Divestiture Trustee receives bona fide offers from more than one acquiring Person, and if the Commission determines to approve more than one such acquiring Person, the Divestiture Trustee shall divest to the acquiring Person selected by Respondents from among those approved by the Commission; *provided further, however*, that Respondents shall select such Person within five (5) days after receiving notification of the Commission's approval.

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Divestiture Trustee.

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order; *provided, however*, that the Divestiture Trustee appointed pursuant to this Paragraph may be the same Person appointed as Monitor pursuant to the relevant provisions of this Order or the Order to Maintain Assets in this matter.

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every sixty (60) days concerning the Divestiture Trustee's efforts to accomplish the divestiture.

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however,* that such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

E. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

F. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph.

G. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestiture(s) required by this Order.

VI.

IT IS FURTHER ORDERED that, in addition to any other requirements and prohibitions relating to Confidential Business Information in this Order, each Respondent shall assure that its own counsel (including its own in-house counsel under appropriate confidentiality arrangements) shall not retain unredacted copies of documents or other materials provided to an Acquirer or access original documents provided to an Acquirer, except under circumstances where copies of documents are insufficient or otherwise unavailable, and for the following purposes:

A. to assure such Respondent's compliance with any Remedial Agreement, this Order, any Law (including, without limitation, any requirement to obtain regulatory licenses or approvals, and rules promulgated by the Commission), any data retention requirement of any applicable Government Entity, or any taxation requirements; or

B. to defend against, respond to, or otherwise participate in any litigation, investigation, audit, process, subpoena, or other proceeding relating to the divestiture or any other aspect of the Divestiture Products or the assets and Businesses associated with those Divestiture Products;

provided, however, that a Respondent may disclose such information as necessary for the purposes set forth in this Paragraph pursuant to an appropriate confidentiality order, agreement, or arrangement;

provided further, *however*, that pursuant to this Paragraph, a Respondent needing such access to original documents shall: (i) require those who view such unredacted documents or other materials to enter into confidentiality agreements with the Acquirer (but shall not be deemed to have violated this requirement if that Acquirer withholds such agreement unreasonably); and (ii) use best efforts to obtain a protective order to protect the confidentiality of such information during any adjudication.

VII.

IT IS FURTHER ORDERED that:

A. Any Remedial Agreement shall be deemed incorporated into this Order.

B. Any failure by a Respondent to comply with any term of such Remedial Agreement shall constitute a failure to comply with this Order.

C. Respondents shall include in each Remedial Agreement related to each of the Divestiture Products a specific reference to this Order, the remedial purposes thereof, and provisions to reflect the full scope and breadth of each Respondent's obligation to the Acquirer pursuant to this Order.

D. No Respondent shall seek, directly or indirectly, pursuant to any dispute resolution mechanism incorporated in any Remedial Agreement, a decision the result of which would be inconsistent with the terms of this Order or the remedial purposes thereof.

E. No Respondent shall modify or amend any of the terms of any Remedial Agreement without the prior approval of the Commission, except as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5). Notwithstanding any term of the Remedial Agreement(s), any modification or amendment of any Remedial Agreement made without the prior approval of the Commission, or as otherwise provided in Rule 2.41(f)(5), shall constitute a failure to comply with this Order.

VIII.

IT IS FURTHER ORDERED that:

A. Within five (5) days of the Acquisition Date, Respondents shall submit to the Commission a letter certifying the date on which the Acquisition Date occurred, including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov.

B. Within five (5) days of each Closing Date, Respondents shall submit to Commission staff a letter certifying the date on which that particular divestiture occurred, including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov.

C. Within thirty (30) days after the Order Date, and every thirty (30) days thereafter until Respondents have completed the divestitures required by this Order, Respondents shall submit to the Commission a verified written report setting forth in detail the manner and form in which the Respondents intend to comply, are complying, and have complied with these requirements of this Order. Respondents shall include in their reports, among other things that are required from time to time, a full description of the efforts being made to comply with the relevant paragraphs of the Orders, including:

1. a detailed description of all substantive contacts, negotiations, or recommendations related to (i) the divestiture and transfer of all relevant assets and rights, and (ii) transitional services being provided by Respondents to the Acquirer; and

2. a detailed description of the timing for the completion of such obligations.

D. One (1) year after the Order Date, annually for the next nine (9) years on the anniversary of the Order Date, and at other times as the Commission may require, Respondents shall file a verified written report with the Commission setting forth in detail the manner and form in which it has complied and is complying with the Order.

E. Respondents shall verify each compliance report with a notarized signature or sworn statement of the Chief Executive Officer or other officer or employee specifically authorized to perform this function, or self-verified in the manner set forth in 28 U.S.C. § 1746. Respondents shall submit an original and 2 copies of each compliance report as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a), including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov. In addition, Respondents shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

IX.

IT IS FURTHER ORDERED that each Respondent shall notify the Commission at least thirty (30) days prior to:

A. any proposed dissolution of Grifols, S.A. or Grifols Shared Services North America, Inc.;

B. any proposed acquisition, merger, or consolidation of Grifols, S.A. or Grifols Shared Services North America, Inc.; or

C. any other change in a Respondent including, but not limited to, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of this Order.

X.

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon five (5) days' notice to a Respondent made to its principal place of business as identified in this Order, registered office of its United States subsidiary, or its headquarters address, the notified Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. access, during business office hours of that Respondent and in the presence of counsel, to all facilities and access to inspect and copy all business and other records and all documentary material and electronically stored information as defined in Commission Rules 2.7(a)(1) and (2), 16 C.F.R. § 2.7(a)(1) and (2), in the possession or under the control of that Respondent related to compliance with this Order, which copying services shall be provided by that Respondent at the request of the authorized representative(s) of the Commission and at the expense of that Respondent; and

B. to interview officers, directors, or employees of that Respondent, who may have counsel present, regarding such matters.

XI.

IT IS FURTHER ORDERED that this Order shall terminate on the date ten (10) years after the Order Date.

By the Commission.

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of the proposed acquisition of M&G Resins USA LLC's unfinished polyethylene terephthalate resin production facility in Corpus Christi, Texas and related assets, by Alfa S.A.B. de C.V. ("DAK") and Indorama Ventures Plc ("Indorama"), controlled by Aloke and Suchitra Lohia ("Lohias"), through Corpus Christi Polymers LLC ("CCP"), a planned production joint venture. The Commission continued the investigation after the parties revised the proposed acquisition to include Far Eastern New Century Corporation ("FENC") as a third equal-part joint venture

partner. The Commission's Bureau of Competition prepared and furnished to CCP, DAK, Lohias, Indorama, and FENC (collectively "Respondents") the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

Respondents and the Bureau of Competition executed an agreement ("Agreement Containing Consent Order" or "Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint, (2) a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true, (3) waivers and other provisions as required by the Commission's Rules, and (4) a proposed Decision and Order.

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments. The Commission duly considered any comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34. Now, in further conformity with the procedure described in Rule 2.34, the Commission issues its Complaint, makes the following jurisdictional findings, and issues the following Decision and Order ("Order"):

1. Respondent Alfa S.A.B. de C.V. is a corporation organized, existing, and doing business under, and by virtue of, the laws of Mexico with its executive offices and principal place of business located at Ave. Gómez Morin Sur No. 1111, Col. Carrizalejo, San Pedro Garza Garcia, N.L., Mexico C.P. 66250. Alfa S.A.B. de C.V.'s United States address for service of process in this matter is DAK Americas LLC, 7621 Little Ave., Charlotte, NC 28226 (attention: Veronica Ramirez, Esq.).

2. Respondent Far Eastern New Century Corporation is a corporation organized, existing, and doing business under, and by virtue of, the laws of the Taiwan with its executive offices and principal place of business located at 36F, Taipei Metro Tower 207, Tun Hwa South Road, Sec. 2, Taipei, Taiwan. FENC's United States address for service of process in this matter is APG Polytech USA Holdings, Inc., 27610 Huntington Road, Apple Grove, West Virginia 25502.

3. Respondents Aloke Lohia, Executive Director, Vice Chairman of the Board, and Group Chief Executive Officer of Indorama, and Suchitra Lohia, Executive Director, and Chairperson of the Corporate Social Responsibility Committee of Indorama are natural persons and the ultimate parent entities of Indorama with

their executive offices and principal place of business located at 37th Floor, Ocean Tower 2, Soi Sukhumvit 19, Wattana, Bangkok, Thailand.

4. Respondent Indorama Ventures Plc is a corporation organized, existing, and doing business under, and by virtue of, the laws of the Thailand with its executive offices and principal place of business located at 37th Floor, Ocean Tower 2, Soi Sukhumvit 19, Wattana, Bangkok, Thailand. Indorama's United States address for service of process in this matter is Indorama Ventures Corpus Christi Holdings LLC, 251 Little Falls Drive, Wilmington, DE 19808.

5. Respondent Corpus Christi Polymers LLC is a limited liability company organized, existing, and doing business under, and by virtue of, the laws of the State of Delaware with its executive offices and principal place of business located at 7001 Joe Fulton International Trade Corridor, Corpus Christi, TX 78409.

6. The Federal Trade Commission has jurisdiction over the subject matter of this proceeding and over the Respondents, and the proceeding is in the public interest.

ORDER

THE PURPOSE OF THIS ORDER is to ensure that CCP is operated as a toll manufacturing PET and PTA production plant, independently of each Respondent Member, and to remedy the lessening of competition alleged in the Commission's Complaint.

I. Definitions

IT IS HEREBY ORDERED that, as used in this Order, the following definitions apply:

A. "DAK" means Alfa S.A.B. de C.V, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by DAK, including but not limited to DAK Americas LLC, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "FENC" means Far Eastern New Century Corporation, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by FENC, including but not limited to APG Polytech USA Holdings, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Indorama" means Indorama Ventures Plc and Aloke and Suchitra Lohia, their directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by Indorama, including but not limited to Indorama Ventures Corpus Christi Holdings LLC,

and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

D. "CCP" means Corpus Christi Polymers LLC, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by CCP, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

E. "Base PET Production" means the actual production quantity of PET produced at the Corpus Christi Plant, as defined in the CCP Joint Venture Agreement, *provided, however*, Base PET Production does not include any production quantity from any expansion of PET capacity pursuant to the CCP Joint Venture Agreement.

F. "Base PTA Production" means the actual production quantity of PTA produced at the Corpus Christi Plant, as defined in the CCP Joint Venture Agreement, *provided, however*, Base PTA Production does not include any production quantity from any expansion of PTA capacity pursuant to the CCP Joint Venture Agreement.

G. "CCP Joint Venture Agreement" means the Second Amended and Restated Limited Liability Agreement of Corpus Christi Polymers LLC, dated November 29, 2018, and all ancillary agreements, exhibits and schedules thereto, including but not limited to the Form of Tolling Contract between Corpus Christi Polymers LLC and DAK Americas, LLC, APG Polytech USA Holdings, and Indorama Ventures Corpus Christi Holdings LLC, which are attached as Confidential Appendix A.

H. "CCP Joint Venture Business" means the business conducted by CCP related to the toll manufacture and sale of PET and PTA at the Corpus Christi Plant.

I. "CCP Joint Venture Agreement Date" means the date Respondent Members sign the CCP Joint Venture Agreement.

J. "Corpus Christi Assets" means the Corpus Christi Plant, and certain additional assets as defined in the Asset Purchase Agreement between M&G Resins USA LLC and CCP, dated March 28, 2018 and attached as Exhibit 1 to the court's Order Approving the Sale of Certain Assets, ECF No. 1300, in *In re M&G USA Corp.*, Case No. 17-12307 (Bankr. D. Del. Mar. 29, 2018).

K. "Corpus Christi Plant" means the PET and PTA facility, located at Joe Fulton International Trade Corridor, Corpus Christi, TX 78409.

L. "Confidential Information" means all information relating to the operation of the CCP Joint Venture Business that is not in the public domain, including but not limited to customer lists, customer locations, price lists, plans, contracts, utilization rate, production volumes, production grades, capacity expansions, cost information, marketing methods, and competitively sensitive data or information.

M. "Construction Phase" means the construction of the Corpus Christi Plant, including the construction of assets related to both PET and PTA, as defined and referred to in the CCP Joint Venture Agreement.

N. "Commission" means the Federal Trade Commission.

O. "FENC Appointed Manager" means the fifth manager appointed by FENC in accordance with the CCP Joint Venture Agreement.

P. "Independent Manager" means any person nominated by a Respondent Member and selected by FENC (or nominated by one or more of the Independent Managers in the case of the Fourth Independent Manager) to manage, oversee, or operate CCP in accordance with the CCP Joint Venture Agreement including, but not limited to, the First Independent Manager, the Second Independent Manager, the Third Independent Manager, and the Fourth Independent Manager, as those terms are referred to and defined in the CCP Joint Venture Agreement.

Q. "Initial Independent Manager" means any person selected by Member Managers to work with Member Managers to manage, oversee, or operate CCP during the Construction Phase, as defined and delineated in the CCP Joint Venture Agreement.

R. "PET" means polyethylene terephthalate.

S. "PTA" means purified terephthalic acid.

T. "PET or PTA Production Asset" means any manufacturing facility that produces, or within the last 10 years has produced, virgin PET or PTA.

U. "Respondent Member(s)" means DAK, FENC, and Indorama, individually and collectively.

V. "Respondents" means CCP and Respondent Members.

W. "Member Managers" means any person appointed by any Respondent Member to manage, oversee, or operate CCP during the Construction Phase.

X. "Restricted Employee" means any employee of CCP, any former employee of CCP, and any CCP Secondee.

Y. "Secondee" means any individual that is seconded by a Respondent Member to CCP or that is otherwise made available to CCP (through an employee lease, consulting, or other similar arrangement) by a Respondent Member.

Z. "Separation Date" means (1) the date of termination of any employee or former employee of CCP, and (2) with respect to any Secondee, the date that such person has both ended its relationship with CCP and has ceased providing any services to CCP.

II. Acquisition and Operation

IT IS FURTHER ORDERED that:

A. On and after the CCP Joint Venture Agreement Date, and subject to Paragraph II.C., each Respondent Member shall not acquire, own, or hold more than one-third equity interest in the Corpus Christi Assets owned by CCP.

B. Each Respondent Member shall not acquire, own, or hold tolling rights to more than one-third of the Base PET Production or the Base PTA Production.

Provided, however, if notified by CCP pursuant to the CCP Joint Venture Agreement that a Respondent Member does not claim the entirety of its one-third tolling rights, the other two Respondent Members have a right to the unused capacity, and, if no Respondent Member claims the unused capacity, CCP shall market the available capacity to third parties, in accordance with and as delineated in the CCP Joint Venture Agreement.

C. Each Respondent Member shall not, without the prior approval of the Commission, increase or decrease, directly or indirectly, its one-third equity interest in CCP, as long as CCP is the owner and operator of the Corpus Christi Plant.

III. Confidential Information and Selection of Member Managers

IT IS FURTHER ORDERED that:

A. A Respondent Member shall not receive, or attempt to receive, directly or indirectly, Confidential Information from any person, including but not limited to any Independent Manager, Initial Independent Manager, Member Manager, or other Respondent Member, and shall not use or share any Confidential Information. Any employee of a Respondent Member who receives Confidential Information shall sign a non-disclosure or equivalent agreement providing written acknowledgement of his/her/their responsibilities regarding the restrictions on the use and dissemination of Confidential Information, and a statement attesting that he or she has received a copy of this Order, will comply with its terms, and will take all reasonable steps to assure that employees that report to him or her will comply with its terms;

Provided, however, Respondent Members may receive summary aged and aggregated information and other information necessary for certain reporting obligations and for certain material decisions affecting CCP, or for the Respondent Members and CCP to implement and perform the Form of Tolling Contract between such Respondent Member and CCP, as delineated and permitted in the CCP Joint Venture Agreement. The receipt of such information shall be overseen by the Monitor, and subject to firewalls designed in consultation with the Monitor protecting any Confidential Information from being shared by CCP or the Respondent Members with persons who manufacture and sell PTA and PET for the Respondent Members.

B. A Respondent Member shall not influence, or attempt to influence, directly or indirectly, any Initial Independent Manager, Independent Manager, or FENC Appointed Manager regarding the operation of CCP, including, but not limited to, decisions concerning production grades, production quantities, tolling fees, capacity expansions, the marketing of unused capacity to third parties, the licensing or sale of any intellectual property, or employee or manager hiring or retention.

Provided, however, Respondent Members may provide notice or input to Managers as expressly permitted in the CCP Joint Venture Agreement and may make the decisions requiring the approval of Respondent Members as permitted and delineated in the CCP Joint Venture Agreement.

Provided, further, however, nothing in this provision prohibits Respondent FENC from influencing or communicating with any FENC Appointed Manager.

C. A Respondent Member shall not hire, or enter into negotiations or discussions regarding hiring, an Independent Manager for a period of 12 months after expiration or termination of his or her term as an Independent Manager.

D. Respondent Members shall retain, and identify and describe in a log, all communications with any other Respondent Member relating to the operation and management of CCP (not including communications discussing the construction of the Corpus Christi Plant), or the production and sale of PET and PTA from CCP.

IV. CCP Joint Venture Agreement

IT IS FURTHER ORDERED that:

A. The CCP Joint Venture Agreement shall be incorporated by reference into this Order and made a part hereof, and any failure by Respondents to comply with the terms of the CCP Joint Venture Agreement shall constitute a violation of this Order; *provided, however*, that the CCP Joint Venture Agreement shall not limit, or be construed to limit, the terms of this Order. To the extent any provision in the CCP Joint Venture Agreement varies from or conflicts with any provision in the Order such that Respondents cannot fully comply with both, Respondents shall comply with the Order.

B. Respondents shall not modify, replace, or extend the terms of the CCP Joint Venture Agreement, or reach any other agreement that would have such an effect, after the Commission issues the Order without the prior approval of the Commission, except as otherwise provided in Commission Rule 2.41(f)(5), 16 C.F.R. § 2.41(f)(5).

V. Employees

IT IS FURTHER ORDERED that for a period of 20 years from the date this Order becomes final:

A. Each Respondent Member, so long as it retains ownership interest in CCP and for a period of 12 months from the date that such Respondent Member ceases to be a member of the CCP, shall not:

1. solicit, recruit, or induce any CCP employee to become affiliated with, directly or indirectly, any Respondent Member;

2. assist in the hiring of any such CCP employee by any other Respondent Member; or

3. encourage any CCP employee to terminate his or her employment with CCP.

Provided, however, a Respondent Member may place general advertisements for employees including, but not limited to, in newspapers, trade publications, websites, or other media not targeted specifically at CCP's employees; and may also utilize an independent employment agency or search firm whose efforts are not specifically directed at employees of CCP; *Provided further, however*, a Respondent Member may hire CCP employees who apply for employment with a Respondent Member, as long as such employees were not solicited by the Respondent Member in violation of this Paragraph.

B. If a Respondent Member hires or engages any Restricted Employee, the Respondent Member shall ensure that the Restricted Employee does not have any sales, marketing, pricing, or production decision-making authority for PET or PTA sales in North America, and is not otherwise involved in any such decisions, prior to the first anniversary of such Restricted Employee's Separation Date from the CCP.

VI. Monitor

IT IS FURTHER ORDERED that:

A. Jeffrey W. Brennan shall serve as the Monitor pursuant to the agreement executed by the Monitor and Respondents and attached as Appendix B ("Monitor Agreement") and Non-Public Appendix C ("Monitor Compensation"). The Monitor is appointed to assure that Respondents expeditiously comply with all of their obligations and perform all of their responsibilities as required by this Order.

B. No later than one day after the CCP Joint Venture Agreement Date, Respondents shall transfer to the Monitor all rights, powers, and authorities necessary to permit the Monitor to perform his duties and responsibilities, pursuant to the Order and consistent with the purposes of the Order.

C. Respondents shall enter into an agreement with the Monitor, subject to the prior approval of the Commission, that (i) shall become effective no later than one (1) day after the date the Commission appoints the Monitor, and (ii) confers upon the Monitor all rights, powers, and authority necessary to permit the Monitor to perform his duties and responsibilities on the terms set forth in this Order and in consultation with the Commission:

1. The Monitor shall (i) monitor Respondents' compliance with the obligations set forth in this Order and (ii) act in consultation with the Commission or its staff, and shall serve as an independent third party and not as an employee or agent of any Respondent or of the Commission.

2. Respondents shall (i) ensure that the Monitor has full and complete access to all Respondents' personnel, books, records, documents, and facilities relating to

compliance with this Order or to any other relevant information as the Monitor may reasonably request, and (ii) cooperate with, and take no action to interfere with or impede the ability of, the Monitor to perform his duties pursuant to this Order;

3. The Monitor (i) shall serve at the expense of Respondents, without bond or other security, on such reasonable and customary terms and conditions as the Commission may set, and (ii) may employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities;

4. Respondents shall indemnify the Monitor and hold him harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of his duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from the Monitor's gross negligence or willful misconduct; and

5. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however,* that such agreement shall not restrict the Monitor from providing any information to the Commission.

D. The Monitor shall report in writing to the Commission (i) every 60 days until the expiration of the Construction Phase, (ii) every 90 days after the expiration of the Construction Phase for a period of 3 years, (iii) annually thereafter until the expiration of this Order, and (iv) at any other time as requested by the staff of the Commission, concerning Respondents' compliance with this Order.

E. The Commission may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a confidentiality agreement related to Commission materials and information received in connection with the performance of the Monitor's duties.

F. The Monitor's power and duties shall terminate 10 business days after the Monitor has completed his final report pursuant to Paragraph VI.D. of this Order, or at such other time as directed by the Commission.

G. If at any time the Commission determines that the Monitor has ceased to act or failed to act diligently, or is unwilling or unable to continue to serve, the Commission may appoint a substitute Monitor, subject to the consent of Respondents, which consent shall not be unreasonably withheld:

1. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of the substitute Monitor within 5 days after notice by the staff of the Commission to Respondents of the identity of any substitute Monitor, then Respondents shall be deemed to have consented to the selection of the proposed substitute Monitor; and

2. Respondents shall, no later than 5 days after the Commission appoints a substitute Monitor, enter into an agreement with the substitute Monitor that, subject to the approval of the Commission, confers on the substitute Monitor all the rights, powers, and authority necessary to permit the substitute Monitor to perform his or her duties and responsibilities pursuant to this Order on the same terms and conditions as provided in this Paragraph VI.

H. The Commission may, on its own initiative or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order.

VII. Prior Notice

IT IS FURTHER ORDERED that for a period of 20 years from the date this Order becomes final:

A. Respondents shall not, without providing advance written notification to the Commission in the manner described in this paragraph, acquire, directly or indirectly, through subsidiaries or otherwise, any leasehold, ownership interest, or any other interest, in whole or in part, in any PET or PTA Production Asset located in North America.

With respect to the Notification:

1. The prior notification required by this Paragraph shall be given on the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations as amended (hereinafter referred to as "the Notification"), and shall be prepared and transmitted in accordance with the requirements of that part, except that no filing fee will be required for any such Notification, Notification shall be filed with the Secretary of the Commission, and the Notification need not be made to the United States Department of Justice, and Notification is required only of the Respondents and not of any other party to the transaction.

2. Respondent shall include a detailed description of the proposed acquisition, including but not limited to:

a. a description of the asset(s) being acquired;

b. identifying from whom the assets are purchased;

c. a description of the type of ownership interest being acquired; and

d. identifying whether the asset is a PET or PTA production asset.

3. Respondent shall provide the Notification to the Commission at least 30 days prior to consummating the transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material to the parties to the transaction (within the meaning of 16 C.F.R. § 803.20), Respondent shall not consummate the transaction until 30 days after all parties to the transaction submit such additional information or documentary material.

4. Early termination of the waiting periods in this Paragraph may be requested and, where appropriate, granted by letter from the Bureau of Competition. *Provided, however*, that prior notification shall not be required by this Paragraph for a transaction for which notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a.

VIII. Compliance Reports

IT IS FURTHER ORDERED that:

A. Respondents shall submit the complete CCP Joint Venture Agreement to the Commission at ElectronicFilings@ftc.gov and bccompliance@ftc.gov no later than 30 days after the date the Commission issues this Order, and any other agreements 30 days from being finalized and signed by Respondents.

B. Each Respondent Member and CCP shall submit verified written reports ("compliance reports") in accordance with the following:

1. An interim compliance report 30 days after the Order is issued, every 60 days thereafter until the expiration of the Construction Phase, and every 90 days after the expiration of the Construction Phase for a period of 3 years;

2. Annual compliance reports one year after the date this Order is issued, and annually for the next 19 years on the anniversary of that date; and

3. Additional compliance reports as the Commission or its staff may request.

Provided, however, for purposes of this Paragraph VIII, Respondent Indorama and Respondent Lohias may submit combined compliance reports.

C. Each compliance report shall set forth in detail the manner and form in which each Respondent intends to comply, is complying, and has complied with this Order. Each compliance report shall contain sufficient information and documentation to enable the Commission to determine independently whether each Respondent is in compliance with

the Order. Conclusory statements that Respondents have complied with their obligations under the Order are insufficient. Each Respondent shall include in its reports, among other information or documentation that may be necessary to demonstrate compliance, a full description of the measures each Respondent has implemented or plans to implement to ensure that they have complied or will comply with each paragraph of the Order, including the following information:

1. Each month in which Respondent Members took other than one-third of the Corpus Christi Plant's Base PET Production or Base PTA Production output, including how much PET and PTA each Respondent Member used, and any steps CCP took to offer unused capacity to third parties;

2. Each instance in which a Respondent Member requested that the Corpus Christi Plant change a particular grade of PET, the resolution of that request, and CCP's efforts to accommodate those requests;

3. Each instance in which a Respondent Member requested to expand PET, PTA, or feedstock capacity at the Corpus Christi Plant, the resolution of that request, and CCP's efforts to accommodate those requests;

4. Each instance in which any person requested to license or acquire intellectual property owned by CCP, and CCP's response;

5. A detailed description of any Confidential Information received by any Respondent Member; and

6. The log required by Paragraph III.D.

D. Each compliance report shall be verified in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or another officer or employee specifically authorized to perform this function. Each Respondent shall submit an original and 2 copies of each compliance report as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a), including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov. In addition, each Respondent shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

IX. Change in Respondent

IT IS FURTHER ORDERED that each Respondent shall notify the Commission at least 30 days prior to:

A. Its proposed dissolution;

B. Its proposed acquisition, merger or consolidation; or

C. Any other change in the Respondent, including assignment and the creation, sale, or dissolution of subsidiaries, if such change may affect compliance obligations arising out of this Order.

X. Access

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, upon written request and 5 days' notice to the relevant Respondent, made to its principal place of business as identified in this Order, registered office of its United States subsidiary, or its headquarters office, the notified Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of the Respondent and in the presence of counsel, to all facilities and access to inspect and copy all business and other records and all documentary material and electronically stored information as defined in Commission Rules 2.7(a)(1) and (2), 16 C.F.R. § 2.7(a)(1) and (2), in the possession or under the control of the Respondent related to compliance with this Order, which copying services shall be provided by the Respondent at the request of the authorized representative of the Commission and at the expense of the Respondent; and

B. To interview officers, directors, or employees of the Respondent, who may have counsel present, regarding such matters.

XI. Term

IT IS FURTHER ORDERED that this Order shall terminate on February 20, 2039.

By the Commission.

In the Matter of	)	
QUAKER CHEMICAL CORPORATION, **a corporation;**	)	
GLOBAL HOUGHTON LTD., **a corporation;**	)	
GULF HOUGHTON LUBRICANTS LTD., **a corporation;**	)	**DECISION AND ORDER** **Docket No. C-4681**
and	)	
AMAS HOLDING SPF, **a private asset management company.**	)	

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of (i) the proposed acquisition by Quaker Chemical Corporation of the voting securities of Global Houghton Ltd., and (ii) the proposed acquisition of newly issued shares of Quaker Chemical Corporation stock by AMAS Holding Spf, the ultimate parent entity of Global Houghton Ltd. and Gulf Houghton Lubricants Ltd. (each a "Respondent," and collectively "Respondents"). The Commission's Bureau of Competition prepared and furnished to Respondents the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint, would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

Respondents and the Bureau of Competition executed an agreement ("Agreement Containing Consent Orders" or "Consent Agreement"), containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint; (2) a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true; (3) waivers and other provisions as required by the Commission's Rules; and (4) a proposed Decision and Order and an Order to Maintain Assets; and

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. Now, in further conformity with the procedure described in Rule 2.34, the Commission makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Quaker Chemical Corporation is a corporation organized, existing, and doing business under and by virtue of the laws of the Commonwealth of Pennsylvania with its executive offices and principal place of business located at One Quaker Park, 901 E. Hector Street, Conshohocken, Pennsylvania 19428-2380.

2. Respondent Global Houghton Ltd. is a corporation organized, existing, and doing business under and by virtue of the laws of the Cayman Islands with its principal place of business located at Whitehall House, 238 North Church St., P.O. Box 1043, George Town Grand Cayman, Cayman Islands, KY1-1102, and its United States address for service of process of the Complaint, the Decision and Order, and the Order to Maintain Assets, as follows: Michael Baxter, Morgan, Lewis & Bockius LLP, 1701 Market Street, Philadelphia, Pennsylvania 19103-2921.

3. Respondent Gulf Houghton Lubricants Ltd. is a corporation organized, existing, and doing business under and by virtue of the laws of the Cayman Islands with its executive offices and principal place of business located at Whitehall House, 238 North Church St., P.O. Box 1043, George Town Grand Cayman, Cayman Islands, KY1-1102, and its United States address for service of process of the Complaint, the Decision and Order, and the Order to Maintain Assets, as follows: Michael Baxter, Morgan, Lewis & Bockius LLP, 1701 Market Street, Philadelphia, Pennsylvania 19103-2921.

3. Respondent AMAS Holding Spf is a *société de gestion de patrimoine familial*, organized, existing, and doing business under and by virtue of the laws of the Grand Duchy of Luxembourg, with its executive offices and principal place of business located at 412F, Route d'Esch, L, 2086, Luxembourg City, Luxembourg,

and its United States address for service of process of the Complaint, the Decision and Order, and the Order to Maintain Assets, as follows: Michael Baxter, Morgan, Lewis & Bockius LLP, 1701 Market Street, Philadelphia, Pennsylvania 19103-2921.

4. The Commission has jurisdiction over the subject matter of this proceeding and over the Respondents, and the proceeding is in the public interest.

ORDER

I. Definitions

IT IS HEREBY ORDERED that, as used in the Orders, the following definitions shall apply:

A. "Quaker" means: Quaker Chemical Corporation; its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates, controlled by Quaker Chemical Corporation, and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each. After the Acquisition, Quaker shall include Houghton.

B. "Houghton" means: Global Houghton Ltd.; its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, divisions, partnerships, groups, and affiliates, controlled by Global Houghton Ltd., and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

C. "Gulf Houghton" means: Gulf Houghton Lubricants Ltd., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, divisions, partnerships, groups, and affiliates, controlled by Gulf Houghton Lubricants Ltd., and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

D. "AMAS" means: AMAS Holding Spf, its directors, officers, members authorized to act on behalf of AMAS Holding Spf or manage AMAS Holding Spf, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, divisions, partnerships, groups, and affiliates, controlled by AMAS Holding Spf, and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

E. "Commission" means the Federal Trade Commission.

F. "Respondents" means Quaker, Houghton, Gulf Houghton, and AMAS, individually and collectively.

G. "Acquirer(s)" means the following:

1. Total; or

2. any other Person approved by the Commission to acquire the Divestiture Product Assets pursuant to this Order.

H. "Acquisition" means Quaker's acquisition of Houghton pursuant to the Acquisition Agreement.

I. "Acquisition Agreement" means the *Share Purchase Agreement* dated as of April 4, 2017, by and among Global Houghton Ltd., Quaker Chemical Corporation, Gulf Houghton Lubricants Ltd., The Other Sellers Party Hereto, and Gulf Houghton Lubricants Ltd., as Seller's Representative. The Acquisition Agreement is contained in Non-Public Appendix I.

J. "Acquisition Date" means the earlier of the following: (i) the date on which Quaker acquires any Ownership Interest in Houghton; or (ii) the date on which AMAS or Gulf Houghton acquires any Ownership Interest in Quaker.

K. "Agency(ies)" means any government regulatory authority or authorities in the world responsible for granting approval(s), clearance(s), qualification(s), license(s), or permit(s) for any aspect of the research, Development, manufacture, marketing, distribution, or sale of a Divestiture Product.

L. "AHRO Product Assets" means all rights, title, and interest in and to all assets related to the Business of Houghton related to AHROs, to the extent the transfer is permitted by Law, including the Categorized Assets related to the AHROs which also include the following:

1. NOA Patent;

2. the following Trademarks or tradenames: Tandemol®; NOA; NOA ARC; Rodshield; and NOALUBRIC.

M. "AHRO(s)" or "Aluminum Hot Rolling Oils" means all Oil Products manufactured, Developed, in Development, marketed, or sold that are used to reduce friction and to prevent metal-to-metal contact between the surfaces of the mill rollers and the aluminum in the Hot Rolling Process of the aluminum. "Aluminum Hot Rolling Oils" include all such Oil Products manufactured, Developed, in Development, marketed, or sold that are used to reduce friction and to prevent metal-to-metal contact between the surfaces of the mill rollers and the aluminum in the Hot Rolling Process of the aluminum at any width or gauge sheet and for any further processing (*e.g.*, printing or coating) or any end-use.

N. "Business" means the research, Development, manufacture, commercialization, distribution, marketing, importation, exportation, advertisement, and sale of a product.

O. "Business Information" means all originals and all copies of any operating, financial, or other information, books, records, documents, data computer files (including files stored on a computer hard drive or other storage media), electronic files, ledgers, papers, instruments, and other materials, wherever located and however stored (*i.e.*, whether stored or maintained in traditional paper format or by means of electronic, optical, or magnetic media or devices, photographic or video images, or any other format or media).

P. "Categorized Assets" means all rights, title, and interest in and to all assets related to the Business of the specified Divestiture Product(s), including the research, Development, manufacture, distribution, marketing, and sale of such Divestiture Product(s), including:

1. all Product Intellectual Property;
2. all Product Approvals;
3. at the Acquirer's option, Manufacturing Equipment;
4. all Manufacturing Technology;
5. all Marketing Materials;
6. all Quality and Safety Reports;
7. all Research and Development Reports;
8. all Website(s);
9. the content related exclusively to a Divestiture Product that is displayed on any Website that is not dedicated exclusively to the Divestiture Product;
10. at the option of the Acquirer, all Product Contracts;
11. for each Divestiture Product:
    a. a list of all Customers for each Divestiture Product and a listing of the net sales (in either units or dollars) of that Divestiture Product to such Customers during the one (1) year period immediately prior to the Divestiture Date, stated on either an annual, quarterly, or monthly basis, including (i) the name of the Customer's employee(s) for each Customer that is or has been responsible for the purchase of the product on behalf of the Customer and that employees business contact information and (ii) the name of Customer's employees at each mill that is or has been the primary contact person at the mill related to the use of the product;
    b. a list for each formulation of each Divestiture Product containing the following: (i) the net price per formulation of the Divestiture Date, *i.e.*, the final price per unit charged by the Respondents net of all customer-level discounts, rebates, or promotions; (ii) the net price per unit charged by the Respondents at the end of each quarter during the one (1) year immediately prior to the Divestiture Date; and (iii) any supply outages by unit during the one (1) year period immediately prior to the Divestiture Date; and
    c. backorders as of the Divestiture Date;
12. for each Divestiture Product, a list of all suppliers of inputs to the Divestiture Product;
13. a description of any disruptions during the three (3) year period immediately prior to the Divestiture Date in the supply of any inputs to any Divestiture Product, for each such disruption: (i) a description of the input(s); (ii) name of the supplier(s);

(iii) the length of time of the disruption; and (iv) the corrective actions taken to remediate the disruption;

14. to the extent available, a list of each Divestiture Product that has had any finished product determined to be out-of-specification during the three (3) year period immediately preceding the Divestiture Date, and, for each such Divestiture Product: (i) a description of the deficiencies; and (ii) the corrective actions taken to remediate the deficiencies in the Divestiture Product;

15. at the option of the Acquirer, all inventory in existence as of the Divestiture Date including raw materials, packaging materials, work-in-process, and finished goods related to the Divestiture Products;

16. the quantity and delivery terms in all unfilled Customer purchase orders for each Divestiture Product as of the Divestiture Date, to be provided to the Acquirer not later than five (5) days after the Divestiture Date;

17. at the option of the Acquirer, the right to fill any or all unfilled Customer purchase orders for each Divestiture Product as of the Divestiture Date; and

18. all of the Respondents' Business Information directly related to the foregoing;

provided, however, that "Divestiture Product Assets" shall not include: (i) documents relating to a Respondent's general business strategies or practices relating to the conduct of its Business outside of the Divestiture Products, where such documents do not discuss with particularity a Divestiture Product; and (ii) information that is exclusively related to the Retained Products;

provided further, however, that in cases in which documents or other materials included in the Divestiture Product Assets contain information: (i) that relates both to a Divestiture Product and to Retained Products or Businesses of a Respondent and cannot be segregated in a manner that preserves the usefulness of the information as it relates to the Divestiture Product; or (ii) for which any Respondent has a legal obligation to retain the original copies, that Respondent shall be required to provide only copies or relevant excerpts of the documents and materials containing this information. In instances where such copies are provided to the Acquirer, the Respondents shall provide the Acquirer access to original documents under circumstances where copies of documents are insufficient for evidentiary or regulatory purposes. The purpose of this provision is to ensure that the Respondents provide the Acquirer with the above-described information without requiring a Respondent completely to divest information that, in content, also relates to Retained Product(s).

Q. "Cold Rolling" means the Rolling of metal at a temperature below its recrystallization temperature.

R. "Compatible Hydraulic Fluids-Aluminum" mean all hydraulic fluids that are composed of the same raw materials as the AHRO fluids manufactured, Developed, in

Development, marketed, or sold that are used in the equipment used to roll Aluminum in the Hot Rolling Process.

S. "Compatible Hydraulic Fluids-Aluminum Assets" means all rights, title, and interest in and to all assets related to the Business of Houghton related to each of the Compatible Hydraulic Fluids-Aluminum, to the extent the transfer is permitted by Law, including the Categorized Assets related to the Compatible Hydraulic Fluids-Aluminum.

T. "Confidential Business Information" means all information owned by, or in the possession or control of, a Respondent that is not in the public domain and that is directly related to the conduct of the Business related to a Divestiture Product(s). The term "Confidential Business Information" *excludes* the following:

1. information relating to a Respondent's general business strategies or practices that does not discuss with particularity the Divestiture Products;

2. information that is contained in documents, records, or books of a Respondent that is provided to an Acquirer by a Respondent that is unrelated to the Divestiture Products or that is exclusively related to Retained Product(s); and

3. information that is protected by the attorney work product, attorney-client, joint defense, or other privilege prepared in connection with the Acquisition and relating to any United States, state, or foreign antitrust or competition Laws.

U. "Contract Manufacture" means the following:

1. to manufacture, or to cause to be manufactured, a Contract Manufacture Product on behalf of an Acquirer (including for the purposes of testing or qualification and/or commercial sales); or

2. to provide, or to cause to be provided, any part of the manufacturing process or shipping/transportation process including the blending, dispensing into containers, and shipping/transporting of a Contract Manufacture Product on behalf of an Acquirer.

V. "Contract Manufacture Product(s)" means the Divestiture Products, individually and collectively, and any ingredient, material, or component used in the manufacture of the foregoing products including the packaging/containers.

W. "Copyrights" means rights to all original works of authorship of any kind directly related to a Divestiture Product and any registrations and applications for registrations thereof within the Geographic Territory.

X. "Customer(s)" means any Person that is a direct purchaser or end-user of any Divestiture Product in the Geographic Territory.

Y. "Development" means all research and development activities, including the following: design (including customized design for a particular Customer(s)); formulation (customized formulation(s) for particular Customers or mills); process development; manufacturing scale-up; development-stage manufacturing; quality assurance/quality control development; statistical analysis and report writing; lubrication and dispersion

properties testing; performance testing; safety testing; and qualification testing for the purpose of obtaining or achieving any and all Product Approvals. "Develop" means to engage in Development.

Z. "Direct Cost" means a cost not to exceed the cost of labor, material, travel, and other expenditures to the extent the costs are directly incurred to provide the relevant assistance or service. "Direct Cost" to the Acquirer for its use of any of a Respondent's employees' labor shall not exceed the average hourly wage rate for such employee.

AA. "Divestiture Agreement(s)" means the following:

1. *Asset Purchase Agreement* by and among Quaker Chemical Corporation, Global Houghton Ltd., and Total Marketing Services, dated as of March 25, 2019;
2. *Transition Service Agreement* by and between Total Marketing Services and Quaker Chemical Corporation to be executed on or before the Divestiture Date;
3. *Patent Assignment Agreement* by and between Houghton Technical Corp. and Total Marketing Services to be executed on or before the Divestiture Date;
4. *Trademark Assignment Agreements* by and between Houghton Technical Corp. and Total Marketing Services to be executed on or before the Divestiture Date;
5. *Partial Assignment and Assumption Agreement* by and among Houghton Technical Corp., Total Marketing Services, and Henkel US Operations Corporation;
6. all amendments, exhibits, attachments, and schedules attached to and submitted to the Commission with the foregoing listed agreements, other than the *License Agreement*; and
7. any other agreement between a Respondent and an Acquirer (or between a Divestiture Trustee and an Acquirer) that has been approved by the Commission to accomplish the requirements of this Order.

The Divestiture Agreements that have been submitted to the Commission by the Respondents prior to the Order Date are contained in Non-Public Appendix II.

BB. "Divestiture Date" means the date on which a Respondent (or a Divestiture Trustee) closes on the sale of the Divestiture Product Assets to an Acquirer.

CC. "Divestiture Product(s)" means all of the following products manufactured, Developed, in Development, marketed, sold, owned, or controlled by Houghton:

1. Aluminum Hot Rolling Oils;
2. Compatible Hydraulic Fluids-Aluminum;
3. Pickle Oils;
4. Steel Cold Rolling Oils; and
5. Steel Cleaners.

DD. "Divestiture Product Asset(s)" means the following, individually and collectively:

1. Aluminum Hot Rolling Oil Assets;
2. Compatible Hydraulic Fluids-Aluminum Assets;
3. Pickle Oil Assets;
4. Steel Cold Rolling Oil Assets; and
5. Steel Cleaner Assets.

EE. "Divestiture Product Core Employees" means:

1. the Sales and Marketing Employees related to each Divestiture Product;
2. the Research and Development Employees related to each Divestiture Product;
3. the Manufacturing Employees related to each Divestiture Product; and
4. the Essential Employees.

FF. "Divestiture Product Business(es)" means the Business related to the Divestiture Product(s).

GG. "Divestiture Product License" means a perpetual, non-exclusive, fully paid-up, and royalty-free license(s) under a Divestiture Agreement with rights to sublicense to all Manufacturing Technology related to general manufacturing know-how that was owned, licensed, held, or controlled by a Respondent:

1. to research and Develop each Divestiture Product(s) and any ingredient, material, or component used in the manufacture of the Divestiture Product(s) for marketing, distribution, or sale within the Geographic Territory;
2. to use, make, have made, distribute, offer for sale, promote, advertise, or sell each Divestiture Product(s) and any ingredient, material, or component used in the manufacture of the Divestiture Product(s) within the Geographic Territory;
3. to import or export each Divestiture Product(s) and any ingredient, material, or component used in the manufacture of the Divestiture Product(s) to or from the Geographic Territory to the extent related to the marketing, distribution, or sale of the Divestiture Products in the Geographic Territory; and
4. to have the Divestiture Product(s) and any ingredient, material, or component used in the manufacture of the Divestiture Product(s) made anywhere in the world for distribution or sale within, or import into the Geographic Territory;

provided, however, that for any Manufacturing Technology that is the subject of a license from a Third Party entered into by a Respondent prior to the Acquisition, the scope of the rights granted hereunder shall only be required to be equal to the scope of the rights granted by the Third Party to that Respondent and rights to any modifications made by the Respondents.

HH. "Divestiture Trustee" means the trustee appointed by the Commission pursuant to Paragraph X of this Decision and Order.

II. "Domain Name" means the domain name(s) (uniform resource locators), and registration(s) thereof, issued by any Person or authority that issues and maintains the domain name registration; *provided, however*, "Domain Name" shall not include any trademark or service mark rights to such domain names other than the rights to the Trademarks required to be divested.

JJ. "Essential Employees" means any Person listed in Non-Public Appendix III attached to this Order.

KK. "Geographic Territory" means the following:

1. United States of America;
2. Canada; and
3. United Mexican States.

LL. "Government Entity" means any Federal, state, local, or non-U.S. government; any court, legislature, government agency, government department, or government commission; or any judicial or regulatory authority of any government.

MM. "Hot Rolling Process" means the Rolling of metal at a temperature above its recrystallization temperature.

NN. "Law(s)" means all laws, statutes, rules, regulations, ordinances, and other pronouncements by any Government Entity having the effect of law.

OO. "Manufacturing Employees" means all employees of a Respondent that have directly participated within the two (2) year period immediately prior to the Divestiture Date in any of the following related to a Divestiture Product:

1. defining the commercial manufacturing process;
2. confirming that the manufacturing process is capable of reproducible commercial manufacturing;
3. formulating the manufacturing process performance qualification protocol;
4. controlling the manufacturing process to assure performance product quality;
5. assuring that during routine manufacturing the process remains in a state of control;
6. collecting and evaluating data for the purposes of providing scientific evidence that the manufacturing process is capable of consistently delivering quality products;
7. managing the operation of the manufacturing process;
8. defining packaging and materials handling procedures; or
9. managing the technological transfer of the manufacturing process from a facility to a different facility, of the Manufacturing Technology of a Divestiture Product;

unless such participation consisted solely of oversight of legal, accounting, tax, or financial compliance.

PP. "Manufacturing Equipment" means all fixtures, equipment (including technical equipment and computers), and machinery that is being used or has been used at any time since the Respondents entered into the Acquisition Agreement, in the research, Development, or manufacture of a Divestiture Product and that is suitable for use in the research, Development, or manufacture of a Divestiture Product as of the Divestiture Date.

QQ. "Manufacturing Technology" means all technology, Trade Secrets, know-how, designs, formulas, ideas, concepts, and proprietary information (whether patented, patentable, or otherwise) used by Respondents to manufacture each Divestiture Product, including:

1. all product specifications, product formulation, and formulation protocols, including the exact formulation, combination, design, array and identity and specifications of all components or ingredients (*e.g.*, synthetic ester oils) that achieve a particular set of application and end-use characteristics in a final Divestiture Product;
2. manufacturing processes, analytical methods, flow diagrams, instructions, and other related manuals and drawings;
3. standard operating procedures;
4. quality assurance and control procedures, and quality manuals;
5. quality system documentation;
6. Customer quality surveys;
7. Customer quality certifications;
8. control history;
9. corrective actions stemming from Customer complaints;
10. non-conformance audits on products or processes used to manufacture products;
11. research and Development records;
12. annual product reviews;
13. supplier lists;
14. labeling and product manuals;
15. manuals and technical information provided to employees, Customers, distributors, suppliers, agents, licensees, including manufacturing, equipment and engineering manuals and drawings;
16. repair and performance records related to the Manufacturing Equipment being acquired by the Acquirer for the two (2) year period immediately preceding the Divestiture Date;

17. records related to the protective workplace safety standards related to the Manufacturing Equipment being acquired by the Acquirer for the two (2) year period immediately preceding the Divestiture Date;

18. audits of manufacturing methods for the Divestiture Products conducted by any Agency, end-use Customer, or any Standards and Certification Organization; and

19. all other information related to the manufacturing process.

RR. "Marketing Materials" means all marketing materials used specifically in the marketing or sale of each Divestiture Product in the Geographic Territory as of the Divestiture Date, including all quality system documentation used for Customer presentations, advertising materials, training materials, product data, mailing lists, sales materials (*e.g*., sales reports, sales funnel or process information, and sales data), marketing information (*e.g.*, competitor information, research data, market intelligence reports, and statistical programs (if any) used for marketing and sales research), Customer information (including Customer net purchase information to be provided on the basis of either dollars and/or units for each month, quarter, or year), sales forecasting models, educational materials, and advertising and display materials, speaker lists, promotional and marketing materials to be provided to distributors and/or end-use Customer (*e.g*. specification sheets, application/use instructions, and technical specifications), Website content and advertising and display materials, artwork for the production of packaging components, television masters, and other similar materials related to each Divestiture Product.

SS. "Monitor" means any monitor appointed pursuant to Paragraph IX of this Decision and Order or Paragraph III of the Order to Maintain Assets.

TT. "NOA Patent" means U.S. Patent No. 6,818,609, including all reissues, additions, divisions, continuations, continuations-in-part, supplementary protection certificates, extensions and reexaminations thereof, all inventions disclosed therein, and all rights therein provided by international treaties and conventions.

UU. "Oil Product(s)" means any product that has a lubricant base of any of the following: petroleum and petroleum derivatives (including mineral oils), natural oils, animal fats and other derivatives, vegetable oils, or synthetic ester oils.

VV. "Order Date" means the date on which the final Decision and Order in this matter is issued by the Commission.

WW. "Order to Maintain Assets" means the Order to Maintain Assets incorporated into and made a part of the Agreement Containing Consent Orders.

XX. "Orders" means this Decision and Order and the related Order to Maintain Assets.

YY. "Ownership Interest" means any voting securities, non-voting securities, share capital, non-corporate equity interest, notes convertible into any voting or non-voting securities, contractual power to designate a director of an entity, equity, or other interest in an entity or its assets.

ZZ. "Patent(s)" means all patents and patent applications, including provisional patent applications, invention disclosures, certificates of invention and applications for certificates of invention, and statutory invention registrations, in each case filed, or in existence, on or before the Divestiture Date (*except* where this Order specifies a different time), and includes all reissues, additions, divisions, continuations, continuations-in-part, supplementary protection certificates, extensions and reexaminations thereof, all inventions disclosed therein, and all rights therein provided by international treaties and conventions.

AAA. "Person" means any individual, partnership, joint venture, firm, corporation, association, trust, unincorporated organization, or other business or Government Entity, and any subsidiaries, divisions, groups, or affiliates thereof.

BBB. "Pickle Oil(s)" means all Oil Products manufactured, Developed, in Development, marketed, or sold to protect the surface of sheet steel during or after the steel has undergone the pickling process (*i.e.*, the surface treatment process that usually uses an acidic solution to remove impurities, such as stains, inorganic contaminants, rust or scale from sheet steel).

CCC. "Pickle Oil Product Assets" means all rights, title, and interest in and to all assets related to the Business of Houghton related to Pickle Oils, to the extent the transfer is permitted by Law, including the Categorized Assets related to the Pickle Oils which includes the following Trademarks and tradenames: Rolkleen®.

DDD. "Product Approval(s)" means all approvals, specifications, certifications, registrations, permits, licenses, consents, authorizations, and other approvals, and pending applications and requests therefor related to the research, Development, manufacture, distribution, finishing, packaging, marketing, sale, storage, or transport of a Divestiture required by:

1. any Customer; and/or
2. any Agency, Standards and Certification Organization, engineering firm, chemical firm, or procurement firm, as applicable.

EEE. "Product Contracts" means all contracts or agreements between a Respondent and a Third Party:

1. that make specific reference to a Divestiture Product and pursuant to which any Third Party is obligated to purchase, or has the option to purchase without further negotiation of terms, that Divestiture Product from a Respondent;
2. pursuant to which a Respondent had or has as of the Divestiture Date the ability to independently purchase the raw materials, inputs, ingredients, or component(s), or had planned to purchase the raw materials, inputs, ingredients, or component(s) from any Third Party, for use in connection with the manufacture of a Divestiture Product;
3. pursuant to which a Third Party manufactures or plans to manufacture a Divestiture Product in order to provide it to a Respondent;

4. pursuant to which a Third Party manufactures or plans to manufacture an input, ingredient or component of a Divestiture Product in order to provide it to a Respondent;

5. pursuant to which a Third Party markets, sells, or distributes a Divestiture Product;

6. pursuant to which a Third Party provides or plans to provide any part of the manufacturing process, including the mixing or packaging of a Divestiture Product;

7. pursuant to which a Third Party provides the Manufacturing Technology related to a Divestiture Product to a Respondent;

8. pursuant to which a Third Party is licensed by a Respondent to use the Manufacturing Technology related to the Divestiture Product;

9. constituting confidentiality agreements related to a Divestiture Product;

10. involving any royalty, licensing, covenant not to sue, or similar arrangement related to a Divestiture Product;

11. pursuant to which a Third Party provides any specialized services necessary to the research, Development, manufacture, or distribution of a Divestiture Product to a Respondent, including consultation arrangements; and/or

12. pursuant to which any Third Party collaborates with a Respondent in the performance of research, Development, marketing, distribution, or selling of a Divestiture Product;

13. pursuant to which a Respondent licenses Software related to the Business of the Divestiture Products;

provided, however, that where any such contract or agreement also relates to a Retained Product(s), a Respondent shall, at the Acquirer's option, assign or otherwise make available to the Acquirer all such rights under the contract or agreement as are related to the Divestiture Product, but concurrently may retain similar rights for the purposes of the Retained Product(s).

FFF. "Product Employee Information" means the following, for each Divestiture Product Core Employee, as and to the extent permitted by Law:

1. a complete and accurate list containing the name of each Divestiture Product Core Employee (including former employees who were employed by a Respondent within ninety (90) days prior to the execution date of any Divestiture Agreement); and

2. with respect to each such employee, the following information:

    a. direct contact information for the employee, including telephone number;

    b. the date of hire and effective service date;

    c. job title or position held;

d. a specific description of the employee's responsibilities related to the relevant Divestiture Product; *provided, however*, in lieu of this description, a Respondent may provide the employee's most recent performance appraisal;

e. the base salary or current wages;

f. the most recent bonus paid, aggregate annual compensation for the relevant Respondent's last fiscal year, and current target or guaranteed bonus, if any;

g. employment status (*i.e.*, active or on leave or disability; full-time or part-time);

h. all other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

3. at the Acquirer's option or the Proposed Acquirer's option (as applicable), copies of all employee benefit plans and summary plan descriptions (if any) applicable to the relevant employees.

GGG. "Product Intellectual Property" means all of the following intellectual property that is used in the Business of any Divestiture Product that is owned, licensed, held, or controlled by a Respondent as of the Divestiture Date:

1. Patents;
2. Copyrights;
3. Software;
4. Trademarks;
5. Trade Dress;
6. Trade Secrets, know-how, techniques, data, inventions, practices, methods, formulations, and other confidential or proprietary technical, business, research, Development information; and
7. rights to obtain and file for patents, trademarks, and copyrights and registrations thereof, and to bring suit against a Third Party for the past, present, or future infringement, misappropriation, dilution, misuse, or other violation of any of the foregoing;

provided, however, that "Product Intellectual Property" does not include the corporate names or corporate trade dress of "Quaker", "Houghton", or "Gulf Houghton" or the related corporate logos thereof, as well as the mark "Houghto Roll"; or the corporate names or corporate trade dress of any other corporations or companies owned or controlled by a Respondent or the related corporate logos thereof; or general registered images or symbols by which Quaker, Houghton, or Gulf Houghton can be identified or defined.

HHH. "Proposed Acquirer" means a Person proposed by a Respondent (or a Divestiture Trustee) to the Commission and submitted for the approval of the Commission to become an acquirer for particular assets or rights required to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed pursuant to this Order.

III. "Quality and Safety Reports" means:

1. descriptions of material events and matters concerning safety related to a Divestiture Product;
2. reports to the Environmental Protection Agency related to a Divestiture Product;
3. summary of product complaints from end-use customers related to a Divestiture Product;
4. product recall reports filed with any Agency or any Standards and Certification Organization related to a Divestiture Product, and all reports, studies, and other documents related to such recalls;
5. investigation reports and other documents related to any out-of-specification results found in a Divestiture Product;
6. reports related to a Divestiture Product from any consultant or outside contractor engaged to investigate or perform testing for the purposes of resolving any product or process issues;
7. reports of vendors of the inputs used to produce a Divestiture Product that relate to the specifications and testing of the production of a Divestiture Product;
8. analytical methods development records related to a Divestiture Product; and
9. manufacturing records related to a Divestiture Product.

JJJ. "Research and Development Employees" means all salaried employees of a Respondent who have directly participated in the research or Development of a Divestiture Product (unless such participation consisted solely of oversight of legal, accounting, tax, or financial compliance) including engineers, technical specialists, or chemists involved in new product development, chemical composition or formulation, design of Software that is used in the Development, manufacture, or use of the Divestiture Product, and Product Approvals within the three (3) year period immediately prior to the Divestiture Date.

KKK. "Research and Development Reports" means all research and Development records relating to the Divestiture Products including:

1. inventory of research and development records, research history, research efforts, research notebooks, research reports, technical service reports, testing methods, invention disclosures, and know-how related to the Divestiture Products;
2. all correspondence with any Agency or Standards and Certification Organizations relating to applications for Product Approvals;
3. all correspondence with Customers relating to Product Approvals;

4. all underlying information, data filings, reports, correspondence or other materials used to obtain or apply for any of the Product Approvals, including, all data submitted to and all correspondence with Customers or any other Person;

5. annual and periodic reports related to the Product Approvals;

6. product labeling or documents provided to Customers; and

7. product usage, product application (*i.e.*, how the product is applied to metal), product installation/dispersal instructions, and technical specifications.

LLL. "Retained Product(s)" means any product(s) other than a Divestiture Product.

MMM. "Rolling" means the process of passing metal stock through one or more pair of mill rollers in order to reduce the thickness of the metal sheet or slab and to make the thickness uniform, or to form a new structure.

NNN. "Sales and Marketing Employees" means all employees of a Respondent who have participated in the sales, marketing, or on-site mill technical support of a Divestiture Product to customers within the two (2) year period immediately prior to the Divestiture Date.

OOO. "Software" means computer programs related to the Business of Respondents, including all software implementations of algorithms, models, and methodologies whether in source code or object code form, databases, and compilations, including any and all data and collections of data, all documentation, including user manuals and training materials, related to any of the foregoing and the content and information contained on any Website; *provided, however*, that "Software" does not include software that is readily purchasable or licensable from sources other than the Respondents and which has not been modified in a manner material to the use or function thereof (other than user preference settings).

PPP. "Standards and Certification Organization(s)" means any non-governmental Person that provides audits and certifications of management systems and/or manufacturing processes or product assessments and certifications related to the Divestiture Products (*e.g.*, ASTM International).

QQQ. "Steel Cleaner(s)" means all products that are cleaners manufactured, Developed, in Development, marketed, or sold to remove rolling lubricant residues from steel.

RRR. "Steel Cleaner Assets" means all rights, title, and interest in and to all assets related to the Business of Houghton related to Steel Cleaners, to the extent the transfer is permitted by Law, including the Categorized Assets related to the Steel Cleaners which also include the following:

1. The following Trademarks or tradenames: Rolkleen®; Mill Clean®; Strip-Kleen®; Cerfa-Kleen®; and,

2. all rights related to Steel Cleaners granted to Houghton and/or Gulf Houghton pursuant to the Steel Cleaner Henkel License.

SSS. "Steel Cleaner Henkel License" means the *License Agreement* by and between Henkel Corporation and Houghton Technical Corp dated as of March 31, 2014. This license is attached as Annex A to the *Partial Assignment and Assumption Agreement* by and among Houghton Technical Corp., Total Marketing Services, and Henkel US Operations Corporation. The *Partial Assignment and Assumption Agreement* is attached as Exhibit G to the *Asset Purchase Agreement* by and among Quaker Chemical Corporation, Global Houghton Ltd., and Total Marketing Services, dated as of March 25, 2019 in Non-Public Appendix I attached to this Order.

TTT. "Steel Cold Rolling Oil(s)" means all Oil Products manufactured, Developed, in Development, marketed, or sold that are used to reduce friction and to prevent metal-to-metal contact between the surfaces of the mill rollers and the steel in the Cold Rolling Process of the steel. "Steel Cold Rolling Oils" include all such Oil Products manufactured, Developed, in Development, marketed, or sold that are used to reduce friction and to prevent metal-to-metal contact between the surfaces of the mill rollers and the steel in the Cold Rolling Process of the steel at any width or gauge sheet and for any further processing (*e.g.*, tinplating or coating with another substance, *e.g.*, zinc, aluminum, or paint) and for any end-use (*e.g*., can bodies, can ends, and other closures for food and beverages, household appliances, such as washers and dryers, automobile or truck parts, or building and construction products).

UUU. "Steel Cold Rolling Oil Assets" means all rights, title, and interest in and to all assets related to the Business of Houghton related to each of the Steel Cold Rolling Oils, to the extent the transfer is permitted by Law, including the Categorized Assets related to the Steel Cold Rolling Oils which also include the following Trademarks or tradenames: Fenella®; Tempershield®; Rollshield®; Rollub®; and Steelshield.

VVV. "Supply Cost" means the actual cost of materials, packaging, direct labor, and direct overhead *excluding* any allocation or absorption of costs for excess or idle capacity, and *excluding* any intracompany transfer profits *plus* the actual cost of shipping and transportation where those costs are incurred by the Respondents.

WWW. "Technical Support" means all capabilities to provide customer-specific technical expertise, modification of products, customizing of products, testing of products, product performance advice, equipment assessment, on-site product assistance, monitoring of inventory levels and product orders/deliveries, and general product issue-solving and trouble-shooting.

XXX. "Technology Transfer Standards" means requirements and standards sufficient to ensure that the information and assets required to be delivered to an Acquirer pursuant to this Order are delivered in an organized, comprehensive, complete, useful, timely (*i.e.*, ensuring no unreasonable delays in transmission), and meaningful manner. Such standards and requirements shall include, *inter alia*:

1. designating employees of a Respondent knowledgeable about the Manufacturing Technology (and all related intellectual property) related to each of the Divestiture Products who will be responsible for communicating directly with the Acquirer,

and the Monitor (if one has been appointed), for the purpose of effecting such delivery *unless* such Persons are hired by the Acquirer;

2. preparing technology transfer protocols and transfer acceptance criteria for both the processes and analytical methods related to the specified Divestiture Product that are acceptable to the Acquirer;

3. preparing and implementing a detailed technological transfer plan that contains, *inter alia*, the transfer of all relevant information, all appropriate documentation, all other materials, and projected time lines for the delivery of all such Manufacturing Technology (including all related intellectual property) to the Acquirer; and

4. to the extent the Persons with the relevant knowledge remain employees of a Respondent (*e.g.*, are not hired by the Acquirer), providing, in a timely manner, assistance and advice to enable the Acquirer to:

    a. manufacture the specified Divestiture Product and any ingredients, *e.g.*, synthetic ester oils, or components of the Divestiture Product that have been or are being made by a Respondent in the quality and quantities achieved by that Respondent;

    b. obtain any Product Approvals necessary for the Acquirer to manufacture, distribute, market, and sell each Divestiture Product in commercial quantities and to meet the requirements of all Product Approvals for such Divestiture Product; and

    c. receive, integrate, and use all such Manufacturing Technology and all such intellectual property related to each Divestiture Product.

YYY. "Third Party(ies)" means any non-governmental Person other than the following: a Respondent; or an Acquirer of particular assets or rights pursuant to this Order.

ZZZ. "Total" means Total S.A., a corporation (*société anonyme*) with its principal executive offices located at 2, place Jean Millier, La Défense 6, 92400 Courbevoie, France, and any Person controlled by or under common control of Total S.A., including Total Marketing Services S.A.

AAAA. "Trade Dress" means the current trade dress of a Divestiture Product, including packaging and the lettering of the product trade name or brand name.

BBBB. "Trade Secret(s)" means information, including a formula, pattern, compilation, program, device, method, technique, or process that: derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, others who can obtain economic value from its disclosure or use (*e.g.*, competitors); and is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

CCCC. "Trademark(s)" means all proprietary names or designations, trademarks, service marks, trade names, and brand names, including registrations and applications for registration

therefor (and all renewals, modifications, and extensions thereof), and all common law rights, and the goodwill symbolized thereby and associated therewith, for a product.

DDDD. "Transition Services" means the provision of Technical Support by the Respondents.

EEEE. "United States of America" means the United States of America, and its territories, districts, commonwealths and possessions.

FFFF. "Website" means the content of the Website(s) located at the Domain Names, the Domain Names, and all Copyrights in such Website(s), to the extent owned by a Respondent; *provided, however*, "Website" shall not include the following: (1) content owned by Third Parties and other Product Intellectual Property not owned by a Respondent that are incorporated in such Website(s), such as stock photographs used in the Website(s), *except* to the extent that a Respondent can convey its rights, if any, therein; or (2) content unrelated to any of the Divestiture Products.

II. Divestiture

IT IS FURTHER ORDERED that:

A. Not later than ten (10) days after the Acquisition Date, Respondents shall divest the Divestiture Product Assets and grant the Divestiture Product License, absolutely and in good faith, to Total pursuant to, and in accordance with, the Divestiture Agreements.

B. If Respondents divest the Divestiture Product Assets to Total prior to the Order Date, and if, at the time the Commission determines to make this Order final and effective, the Commission notifies Respondents that:

1. Total is not an acceptable purchaser of any of the Divestiture Product Assets, then Respondents shall immediately rescind the transaction with Total, in whole or in part, as directed by the Commission, and shall divest the Divestiture Product Assets within one hundred eighty (180) days after the Order Date, absolutely and in good faith, at no minimum price, to an Acquirer that receives the prior approval of the Commission, and only in a manner that receives the prior approval of the Commission;

2. the manner in which the divestiture was accomplished is not acceptable, the Commission may direct Respondents, or appoint a Divestiture Trustee, to effect such modifications to the manner of divestiture of the Divestiture Product Assets to Total (including entering into additional agreements or arrangements) as the Commission may determine are necessary to satisfy the requirements of this Order.

C. Prior to the Divestiture Date, Respondents shall provide the Acquirer with the opportunity to review all contracts or agreements that are Product Contracts for the purposes of the Acquirer's determination whether to assume such contracts or agreements.

D. Prior to the Divestiture Date, Respondents shall secure all consents and waivers from all Third Parties that are necessary to permit Respondents to divest the Divestiture Product Assets to the Acquirer, and to permit the Acquirer to continue the Business of the Divestiture Products;

provided, however, Respondents may satisfy this requirement by certifying that the Acquirer has executed all such agreements directly with each of the relevant Third Parties.

E. Respondents shall provide, or cause to be provided, to the Acquirer in a manner consistent with the Technology Transfer Standards the following:

1. all Manufacturing Technology (including all related intellectual property); and
2. all rights to all Manufacturing Technology (including all related intellectual property) that is owned by a Third Party and licensed to a Respondent.

Respondents shall obtain any consents from Third Parties required to comply with this provision. Respondents shall not enforce any agreement against a Third Party or an Acquirer to the extent that such agreement may limit or otherwise impair the ability of the Acquirer to use or to acquire from the Third Party the Manufacturing Technology (including all related intellectual property). Such agreements include, but are not limited to, agreements with respect to the disclosure of Confidential Business Information related to such Manufacturing Technology. Not later than ten (10) days after the Divestiture Date, Respondents shall grant a release to each Third Party that is subject to such agreements that allows the Third Party to provide the relevant Manufacturing Technology to the Acquirer. Within five (5) days of the execution of each such release, Respondents shall provide a copy of the release to the Acquirer.

F. After the Divestiture Date, Respondents shall not, in the Geographic Territory:

1. use any of the Trademarks related to Divestiture Products or any mark confusingly similar to the Trademarks as a trademark, tradename, or service mark *except* (i) as may be necessary to sell stocks of Divestiture Products in existence as of the Acquisition Date that are not being acquired by the Acquirer or to comply with the Contract Manufacture requirements of this Order, or (ii) as permitted under any license entered into by Respondents pursuant to Paragraph II.N;
2. attempt to register the Trademarks;
3. attempt to register any mark confusingly similar to the Trademarks;
4. challenge or interfere with an Acquirer's use and registration of the Trademarks; or
5. challenge or interfere with an Acquirer's efforts to enforce its trademark registrations for and trademark rights in the relevant Trademarks against Third Parties.

G. After the Divestiture Date, Respondents shall not, in the Geographic Territory, market or sell to, or manufacture for, any Person other than the Acquirer any Aluminum Hot Rolling Oils, Steel Cold Rolling Oils, Compatible Hydraulic Fluids-Aluminum, Pickle

Oils, or Steel Cleaners that are the same formulation or substantially the same formulation as the Divestiture Products *except* that for a transition period beginning immediately after the Divestiture Date, Respondents may manufacture such products within the Geographic Territory solely for delivery to, and use at, customer locations outside the Geographic Territory and only in circumstances wherein Houghton manufactured such products within the Geographic Territory and supplied such products to these customer locations outside the Geographic Territory as of the Divestiture Date. Such transition period:

1. is conditioned on (i) Respondents providing a notification to the Acquirer and the Monitor on a quarterly basis that includes, for each delivery of the product to the customer, the customer's name, volume(s) of the product(s), and delivery location, and (ii) Respondents notifying these customers in writing that the products supplied under these circumstances may not be used within, or imported into, the Geographic Territory;
2. shall terminate on the earlier of (i) two years after the Divestiture Date, or (ii) the date the Respondents complete their requirements to Contract Manufacture pursuant to this Order; and
3. may only be extended with the prior approval of the Commission *except* as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5).

H. This Order does not restrict the Respondents' use of the formulations of the Divestiture Products to make, have made, use, sell, offer for sale, any product outside of the Geographic Territory, but only if such product is made and delivered outside the Geographic Territory and is only for use by the purchasers of such product outside the Geographic Territory and not for import into the Geographic Territory.

I. Respondents shall treat all formulations of the Divestiture Products as Trade Secret information owned by the Acquirer and shall institute all such procedures as are necessary and appropriate to protect this Trade Secret information.

J. Upon reasonable written notice and request from an Acquirer to Respondents, Respondents shall provide, in a timely manner, at no greater than Direct Cost, assistance of knowledgeable employees of Respondents to assist the Acquirer to defend against, respond to, or otherwise participate in any litigation brought by a Third Party related to the Product Intellectual Property related to any of the Divestiture Product(s), if such litigation would have the potential to interfere with the Acquirer's freedom to practice the following: (i) the research, Development, or manufacture anywhere in the world of the Divestiture Product(s) for the purposes of marketing, sale, or offer for sale within the Geographic Territory of such Divestiture Product(s); or (ii) the import, export from one country within the Geographic Territory to another country within the Geographic Territory, use, supply, distribution, sale, or offer for sale of the Divestiture Product(s) into, from, or within the Geographic Territory.

K. Respondents shall not join, file, prosecute, or maintain any suit, in law or equity, against the Acquirer, its licensees, or its Customers under any Patent that was pending or issued on or before the Acquisition Date if such suit would directly limit or impair the Acquirer's freedom to manufacture any Divestiture Product anywhere in the world, or to distribute, market, sell, or offer for sale any Divestiture Product within the Geographic Territory.

L. For any patent infringement suit filed prior to the Divestiture Date in which a Respondent is alleged to have infringed a Patent of a Third Party or any potential patent infringement suit from a Third Party that a Respondent has prepared or is preparing to defend against as of the Divestiture Date, and where such a suit would have the potential directly to limit or interfere with the Acquirer's freedom to practice the following: (i) the research, Development, or manufacture anywhere in the world of the Divestiture Product(s) acquired for the purposes of marketing, sale, or offer for sale within the Geographic Territory of such Divestiture Product(s); or (ii) the import, export, use, supply, distribution, sale, or offer for sale of the Divestiture Product(s) into, from, or within the Geographic Territory, that Respondent shall:

1. cooperate with the Acquirer and provide any and all necessary technical and legal assistance, documentation, and witnesses from that Respondent in connection with obtaining resolution of any pending patent litigation related to that Divestiture Product;

2. waive conflicts of interest, if any, to allow that Respondent's outside legal counsel to represent the Acquirer in any ongoing patent litigation related to that Divestiture Product; and

3. permit the transfer to the Acquirer of all of the litigation files and any related attorney work product in the possession of that Respondent's outside counsel related to that Divestiture Product.

M. Subject to the prior approval of the Commission, Respondents may enter into a license from the Acquirer to make, have made, use, sell, offer for sale, any product that practices any claim of the NOA Patent, but such license shall:

1. be limited to:

   a. products to be offered for sale or sold by the Respondents within or outside the Geographic Territory that are within the following fields-of-use: (i) copper rod, copper wire, or other copper metalworking; (ii) brass rod, brass wire, or other brass metalworking; and (iii) aluminum rod or aluminum wire; or

   b. products to be offered for sale or sold by the Respondents outside the Geographic Territory for delivery outside the Geographic Territory and not for import into, or use within, the Geographic Territory;

2. be non-exclusive;

3. require that any sublicense by the Respondents be subject to the prior approval of the Acquirer;

4. not be modified or amended without the prior approval of the Commission, *except* as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5).

N. Subject to the prior approval of the Commission, and solely for the purposes of products that are either (i) to be offered for sale or sold by the Respondents outside the Geographic Territory or (ii) to be offered for sale or sold by the Respondents within the Geographic Territory that are not a Divestiture Product and do not compete with a Divestiture Product, the Respondents may enter into a license from the Acquirer for a period of up to two (2) years after the Order Date to use certain Trademarks or tradenames divested to the Acquirer pursuant to this Order. Such agreement may not be modified or amended without the prior approval of the Commission, *except* as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5).

III. Divestiture Agreements

IT IS FURTHER ORDERED that:

A. Any Divestiture Agreement shall be deemed incorporated into this Order.

B. Any failure by a Respondent to comply with any term of such Divestiture Agreement shall constitute a failure to comply with this Order.

C. Respondents shall include in each Divestiture Agreement related to each of the Divestiture Products a specific reference to this Order, the remedial purposes thereof, and provisions to reflect the full scope and breadth of each Respondent's obligation to the Acquirer pursuant to this Order.

D. No Respondent shall seek, directly or indirectly, pursuant to any dispute resolution mechanism incorporated in any Divestiture Agreement, or in any agreement related to any of the Divestiture Products, a decision the result of which would be inconsistent with the terms of this Order or the remedial purposes thereof.

E. No Respondent shall modify or amend any of the terms of any Divestiture Agreement without the prior approval of the Commission, except as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5). Notwithstanding any term of the Divestiture Agreement(s), any modification or amendment of any Divestiture Agreement made without the prior approval of the Commission, or as otherwise provided in Rule 2.41(f)(5), shall constitute a failure to comply with this Order.

IV. Contract Manufacturing by Respondents

IT IS FURTHER ORDERED that Respondents shall:

A. Contract Manufacture and deliver, or cause to be manufactured and delivered, to the Acquirer, in a timely manner and under reasonable terms and conditions, a supply of each of the Contract Manufacture Products requested by the Acquirer at no greater than Supply Cost, for a period of time sufficient to allow the Acquirer (or the Manufacturing Designee of the Acquirer) to: (i) obtain all of the relevant Product Approvals necessary to manufacture the Contract Manufacture Product(s), (ii) manufacture such products in commercial quantities independently of Respondents, and (iii) secure sources of supply of the specialized ingredients and necessary components from Persons other than Respondents;

B. Make representations and warranties to the Acquirer that the Contract Manufacture Product(s) supplied by Respondents pursuant to a Divestiture Agreement meet the relevant Product Approvals;

C. For the Contract Manufacture Product(s) to be marketed or sold in the Geographic Territory, agree to indemnify, defend, and hold the Acquirer harmless from any and all suits, claims, actions, demands, liabilities, expenses, or losses alleged to result from the failure of the Contract Manufacture Product(s) supplied to the Acquirer pursuant to a Divestiture Agreement by that Respondent to meet the relevant Product Approvals. This obligation may be made contingent upon the Acquirer giving Respondents prompt written notice of such claim and cooperating fully in the defense of such claim;

provided, however, that the supplying Respondent may reserve the right to control the defense of any such claim, including the right to settle the claim, so long as such settlement is consistent with the supplying Respondent's responsibilities to supply the Contract Manufacture Products in the manner required by this Order;

provided further, however, that this obligation shall not require such Respondent to be liable for any negligent act or omission of the Acquirer or for any representations and warranties, express or implied, made by the Acquirer that exceed the representations and warranties made by the supplying Respondent to the Acquirer in an agreement to Contract Manufacture;

D. Give priority to supplying a Contract Manufacture Product to the Acquirer over manufacturing and supplying of products for Respondents' own use or sale;

E. Agree to hold harmless and indemnify the Acquirer for any liabilities or loss of profits resulting from the failure of the Contract Manufacture Products to be delivered in a timely manner *unless* (i) Respondents can demonstrate that the failure was beyond the control of Respondents and in no part the result of negligence or willful misconduct by Respondents, and (ii) Respondents are able to cure the supply failure not later than thirty (30) days after the receipt of notice from the Acquirer of a supply failure;

F. During the term of any agreement to Contract Manufacture, upon written request of the Acquirer or the Monitor, make available to the Acquirer and the Monitor all records that

relate directly to the manufacture of the relevant Contract Manufacture Products that are generated or created after the Divestiture Date;

G. For each Contract Manufacturer Product for which Respondents purchase the ingredient(s) or components(s) from a Third Party, provide the Acquirer with the actual price paid by Respondents for each ingredient(s) or component(s), respectively, used to manufacture that Contract Manufacture Product;

H. For each Contract Manufacturer Product for which the Respondents are the source of the ingredient(s) or component(s), charge the Acquirer a price no greater than the Respondents' actual cost for such ingredient(s) or component(s) and shall exclude any intracompany transfer profit in calculating the total price for the final finished Contract Manufacture Product to the Acquirer;

I. During the term of any agreement to Contract Manufacture, take all actions as are reasonably necessary to ensure an uninterrupted supply of the Contract Manufacture Product(s);

J. Provide access to all information and facilities, and make such arrangements with Third Parties, as are necessary to allow the Monitor to monitor compliance with the obligations to Contract Manufacture;

K. Not be entitled to terminate any agreement to Contract Manufacture due to an Acquirer filing a petition in bankruptcy, or entering into an agreement with its creditors, or applying for or consenting to appointment of a receiver or trustee, or making an assignment for the benefit of creditors, or becoming subject to involuntary proceedings under any bankruptcy or insolvency Law;

L. Notify the Commission at least sixty (60) days prior to terminating any agreement with an Acquirer to Contract Manufacture for any reason, and shall submit at the same time a copy of such notice to the Monitor; and

M. During the term of any agreement to Contract Manufacture, provide consultation with knowledgeable employees of Respondents and training, at the written request of the Acquirer and at a facility chosen by the Acquirer, for the purposes of enabling the Acquirer (or the Manufacturing Designee of the Acquirer) to obtain all Product Approvals to manufacture the Contract Manufacture Products in the same quality achieved by, or on behalf of, a Respondent and in commercial quantities, and in a manner consistent with the Product Approvals, independently of Respondents and sufficient to satisfy management of the Acquirer that its personnel (or the Manufacturing Designee's personnel) are adequately trained in the manufacture of the Contract Manufacture Products;

N. The foregoing requirements for Respondents to Contract Manufacture shall remain in effect with respect to each Contract Manufacture Product until the earliest of:

1. the date the Acquirer notifies Commission staff in writing that it (or the Manufacturing Designee(s) of the Acquirer) has been qualified by all Customers to manufacture such Contract Manufacture Product for sale in the Geographic

Territory and is able to manufacture such Contract Manufacture Product in commercial quantities, in a manner consistent with the quality achieved by the Respondents, independently of Respondents; or

2. the date the Commission otherwise directs that these requirements to Contract Manufacture are no longer in effect.

V. Transition Services

IT IS FURTHER ORDERED that Respondents shall:

A. Upon written request of the Acquirer, provide Transition Services to the Acquirer in a timely manner and under reasonable terms and conditions at no greater than Direct Cost for a period of time sufficient to allow the Acquirer to obtain all of the relevant Product Approvals necessary to manufacture and sell commercial quantities of the finished Divestiture Products independently of Respondents;

B. Designate employees of Respondents knowledgeable about the Technical Support to advise and provide such services to the Acquirer;

C. During the term of any agreement with the Acquirer to provide Transition Services and pursuant to such agreement and this Order:

1. take all actions as are reasonably necessary to ensure that the provision of Transition Services to the Acquirer are uninterrupted;

2. not limit damages (such as indirect, special, and consequential damages) that the Acquirer would be entitled to receive in the event of Respondents' breach of such agreement;

3. not be entitled to terminate such agreement due to the Acquirer filing a petition in bankruptcy, or entering into an agreement with its creditors, or applying for or consenting to appointment of a receiver or trustee, or making an assignment for the benefit of its creditors, or becoming subject to involuntary proceedings under any bankruptcy or insolvency Law;

4. permit the Acquirer to terminate such agreement at any time upon commercially reasonable notice and without cost or penalty; and

5. upon the Acquirer's request, file with the Commission a written request to extend the time period for any such agreement.

VI. Employees

IT IS FURTHER ORDERED that Respondents shall:

A. For a period of two (2) years after the Divestiture Date, provide the Acquirer with the opportunity to enter into employment contracts with the Divestiture Product Core

Employees. Each of these periods is hereinafter referred to as the "Divestiture Product Core Employee Access Period(s)";

B. Not later than the earlier of the following dates: (i) ten (10) days after notice by staff of the Commission to the relevant Respondent to provide the Product Employee Information; or (ii) ten (10) days after written request by an Acquirer, provide the Acquirer or Proposed Acquirer(s) with the Product Employee Information related to the Divestiture Product Core Employees. Failure by that Respondent to provide the Product Employee Information for any Divestiture Product Core Employee within the time provided herein shall extend the Divestiture Product Core Employee Access Period(s) with respect to that employee in an amount equal to the delay;

provided, however, that the provision of such information may be conditioned upon the Acquirer's or Proposed Acquirer's written confirmation that it will (i) treat the information as confidential and, more specifically, (ii) use the information solely in connection with considering whether to provide, or providing to Divestiture Product Core Employees the opportunity to enter into employment contracts during the Divestiture Product Core Employee Access Period, and (iii) restrict access to the information to such of the Acquirer's or Proposed Acquirer's employees who need such access in connection with the specified and permitted use;

C. During the Divestiture Product Core Employee Access Period(s), not interfere with the hiring or employing by the Acquirer of the Divestiture Product Core Employees and remove any impediments within the control of a Respondent that may deter these employees from accepting employment with the Acquirer, including any noncompete or nondisclosure provision of employment with respect to a Divestiture Product or other contracts with a Respondent that would affect the ability or incentive of those individuals to be employed by the Acquirer. In addition, a Respondent shall not make any counteroffer to any Divestiture Product Core Employee who has received a written offer of employment from the Acquirer;

provided, however, that, subject to the conditions of continued employment prescribed in this Order, this Paragraph shall not prohibit a Respondent from continuing to employ any Divestiture Product Core Employee under the terms of that employee's employment with a Respondent prior to the date of the written offer of employment from the Acquirer to that employee;

D. Until the Divestiture Date, provide all Divestiture Product Core Employees with reasonable financial incentives to continue in their positions and to research, Develop, manufacture, market and/or sell the Divestiture Product(s) consistent with past practices and/or as may be necessary to preserve the marketability, viability, and competitiveness of the Divestiture Product Businesses and to ensure successful execution of the pre-Acquisition plans for the Divestiture Product(s). Such incentives shall include a continuation of all employee compensation and benefits offered by a Respondent until the Divestiture Date(s) for the divestiture of the Divestiture Product Assets has occurred, including regularly scheduled raises, bonuses, and vesting of pension benefits (as permitted by Law);

provided, however, that this Paragraph does not require, nor shall be construed to require, a Respondent to terminate the employment of any employee or to prevent a Respondent from continuing to employ the Divestiture Product Core Employees in connection with the Acquisition;

E. For a period of one (1) year after the Divestiture Date, not: (i) directly or indirectly solicit or otherwise attempt to induce any employee of the Acquirer with any amount of responsibility related to a Divestiture Product ("Divestiture Product Employee") to terminate his or her employment relationship with the Acquirer; or (ii) hire any Divestiture Product Employee;

provided, however, this Order does not prohibit a Respondent from hiring any former Divestiture Product Employee whose employment has been terminated by the Acquirer or who independently applies for employment with that Respondent, as long as that employee was not solicited in violation of the nonsolicitation requirements contained within this Order;

provided further, *however*, this Order allows a Respondent to do the following: (i) advertise for employees in newspapers, trade publications, or other media not targeted specifically at the Divestiture Product Employees; or (ii) hire a Divestiture Product Employee who contacts a Respondent on his or her own initiative without any direct or indirect solicitation or encouragement from that Respondent.

F. From the Divestiture Date until the date that is two (2) years after the Divestiture Date, Respondents shall not:

1. market or sell any Retained Products that compete with any Divestiture Product using the services of any Essential Employee;

2. permit any Essential Employee to participate, directly or indirectly, in the direction, planning, management, or advisement of the Respondents' Business related to the Retained Products that compete with any Divestiture Product; or

3. permit any Essential Employee to provide, disclose, or otherwise make available, directly or indirectly, any current or historical marketing or sales plans, negotiation histories with customers, product Development, or other Confidential Business Information related to any Divestiture Product to any employee of the Respondents that has any responsibilities related to the marketing, management, or sales of any Retained Product that compete with a Divestiture Products.

G. Respondents shall not enforce, or seek to enforce, any restrictions on the work that any Divestiture Product Core Employee is permitted to do as an employee of the Acquirer.

H. Respondents shall provide each Essential Employee who (i) accepts an offer of employment with the Acquirer either on or before the Divestiture Date or within six (6) months after the Divestiture Date, and (ii) who remains with the Acquirer for a period of (1) year, a financial incentive equal to amount specified in Non-Public Appendix III. The Respondents shall pay such financial incentives one (1) year after the commencement of the employee's employment by the Acquirer. On or before the

Divestiture Date, Respondents shall notify each Essential Employee of the provisions of this Paragraph. Respondents shall give the above-described notification to each Essential Employee by e-mail with return receipt requested and keep a file of those receipts for two (2) years after the Divestiture Date. Each Respondent shall provide a copy of the notification to the Acquirer.

VII. Asset Maintenance

IT IS FURTHER ORDERED that:

A. Until Respondents complete the divestitures required by this Order and fully provide, or cause to be provided, the Manufacturing Technology related to each Divestiture Product to the Acquirer Respondents shall take actions as are necessary to:

1. maintain the full economic viability and marketability of the Business associated with that Divestiture Product;
2. minimize any risk of loss of competitive potential for that Divestiture Product Business;
3. prevent the destruction, removal, wasting, deterioration, or impairment of any of the assets related to that Divestiture Product Business;
4. ensure the assets related to each Divestiture Product Business are provided to the Acquirer in a manner without disruption, delay, or impairment of the Product Approval processes related to that Divestiture Product Business;
5. ensure the completeness of the transfer and delivery of the Manufacturing Technology; and

B. Respondents shall not sell, transfer, encumber, or otherwise impair the Divestiture Product Assets (other than in the manner prescribed in this Order), nor take any action that lessens the full economic viability, marketability, or competitiveness of the Divestiture Product Businesses.

VIII. Confidential Business Information

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. transfer and deliver to the Acquirer, at Respondents' expense, all Confidential Business Information:
    a. in good faith;
    b. in a timely manner, *i.e.*, as soon as practicable, avoiding any delays in transmission of the respective information; and

c. in a manner that ensures its completeness and accuracy and that fully preserves its usefulness;

2. pending complete delivery of all such Confidential Business Information to the Acquirer, provide the Acquirer and the Monitor with access to all such Confidential Business Information and employees who possess or are able to locate such information for the purposes of identifying the books, records, and files directly related to the Business of each Divestiture Product that contain such Confidential Business Information and facilitating the delivery in a manner consistent with this Order;

3. not use, directly or indirectly, any such Confidential Business Information other than as necessary to comply with the following:

   a. the requirements of the Orders;

   b. Respondents' obligations to the Acquirer under the terms of any related Divestiture Agreement; or

   c. applicable Law;

4. not disclose or convey any Confidential Business Information, directly or indirectly, to any Person *except*:

   a. the Acquirer;

   b. other Persons specifically authorized by the Acquirer or staff of the Commission to receive such information;

   c. the Commission; or

   d. the Monitor; and

   except to the extent necessary to comply with applicable Law;

5. not provide, disclose or otherwise make available, directly or indirectly, any Confidential Business Information to the employees associated with the business that is being retained, owned, or controlled by the Respondents, other than those employees directly involved in providing Contract Manufacturing or Transition Services to the Acquirer or who are engaged in the transfer and delivery of the Manufacturing Technology to the Acquirer and only for the purposes of providing such products, assistance, and information to the Acquirer;

6. institute procedures and requirements to ensure that the employees providing Contract Manufacturing or Transition Services or who are engaged in the transfer and delivery of the Manufacturing Technology:

   a. do not provide, disclose, or otherwise make available, directly or indirectly, any Confidential Business Information in contravention of the Orders; and

   b. do not solicit, access, or use any Confidential Business Information that they are prohibited from receiving for any reason or purpose; and

7. take all action necessary and appropriate to prevent access to, and the disclosure or use of the Confidential Business Information by or to any Person(s) not authorized to access, receive, and/or use such information pursuant to the terms of the Orders or the Divestiture Agreements, including:

    a. establishing and maintaining appropriate firewalls, confidentiality protections, internal practices, training, communications, protocols and system and network controls and restrictions;

    b. to the extent practicable, maintaining Confidential Business Information separate from other data or information of the Respondents; and

    c. ensuring by other reasonable and appropriate means that the Confidential Business Information is not share with Respondents' personnel engaged in the provision of the same or substantially the same type as the Divestiture Product Businesses;

8. upon the request of the Acquirer, destroy any copies of Confidential Business Information (other than electronic copies of Confidential Business Information created as a result of automatic back-up procedures) within thirty (30) days of such request *except* as otherwise agreed to between the Respondent(s) and the Acquirer or to the extent necessary to comply with applicable Law.

B. Respondents shall require, as a condition of continued employment post-divestiture of the Divestiture Product Assets, that each employee that has had responsibilities related to the Development, marketing, or sales of the Divestiture Products within the one (1) year period prior to the Divestiture Date and each employee that has responsibilities related to the Development, marketing, or sales of those Retained Products that perform the same or similar functions as the Divestiture Products, in each case who have or may have had access to Confidential Business Information (including the specific formulations of the Divestiture Products), and the direct supervisor(s) of any such employee sign a confidentiality agreement pursuant to which that employee shall be required to maintain all Confidential Business Information related to the Divestiture Products as strictly confidential, including the nondisclosure of that information to all other employees, executives, or other personnel of the Respondents (other than as necessary to comply with the requirements of this Order).

C. Not later than thirty (30) days after the Divestiture Date, each Respondent shall provide written notification of the restrictions on the use and disclosure of the Confidential Business Information related to the Divestiture Products by that Respondent's personnel to all of its employees who (i) may be in possession of such Confidential Business Information or (ii) may have access to such Confidential Business Information. Each Respondent shall give the above-described notification by e-mail with return receipt requested or similar transmission, and keep a file of those receipts for one (1) year after the Divestiture Date. Each Respondent shall provide a copy of the notification to the Acquirer. Each Respondent shall maintain complete records of all such notifications at that Respondent's registered office within the United States of America and shall provide

an officer's certification to the Commission affirming the implementation of, and compliance with, the acknowledgement program. Each Respondent shall provide the Acquirer with copies of all certifications, notifications, and reminders sent to that Respondent's personnel.

D. Each Respondent shall assure that its own counsel (including its own in-house counsel under appropriate confidentiality arrangements) shall not retain unredacted copies of documents or other materials provided to an Acquirer (other than electronic copies created as a result of automatic back-up procedures) or access original documents provided to an Acquirer, *except* under circumstances where copies of documents are insufficient or otherwise unavailable, and for the following purposes:

1. to assure such Respondent's compliance with any Divestiture Agreement, this Order, any Law (including any requirement to obtain regulatory licenses or approvals, and rules promulgated by the Commission), any data retention requirement of any applicable Government Entity, or any taxation requirements; or

2. to defend against, respond to, or otherwise participate in any litigation, investigation, audit, process, subpoena, or other proceeding relating to the divestiture or any other aspect of the Divestiture Products or the assets and Businesses associated with those Divestiture Products;

provided, *however*, that a Respondent may disclose such information as necessary for the purposes set forth in this Paragraph pursuant to an appropriate confidentiality order, agreement, or arrangement;

provided further, *however*, that pursuant to this Paragraph, a Respondent needing such access to original documents shall: (i) require those who view such unredacted documents or other materials to enter into confidentiality agreements with the Acquirer (but shall not be deemed to have violated this requirement if the Acquirer withholds such agreement unreasonably); and (ii) use best efforts to obtain a protective order to protect the confidentiality of such information during any adjudication.

IX. Monitor

IT IS FURTHER ORDERED that:

A. James B. Mynaugh shall serve as the Monitor to observe and report on Respondents' compliance with all of Respondents' obligations as required by the Orders and the Divestiture Agreements.

B. Not later than one (1) day after the Acquisition Date, Respondents shall confer on the Monitor all the rights, powers, and authorities necessary to monitor each Respondent's compliance with the Orders.

C. Respondents shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor each Respondent's compliance with the divestiture and asset maintenance obligations and related requirements of the Orders, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of the Orders and in consultation with the Commission or its staff.
2. The Monitor shall act in consultation with the Commission or its staff, and shall serve as an independent Third Party and not as an employee or agent of the Respondents or of the Commission; and
3. The Monitor shall serve until Respondents complete the following in a manner as required by this Order:
    a. the transfer and delivery of all of the Divestiture Product Assets to the Acquirer;
    b. the transfer and delivery of all the Manufacturing Technology to the Acquirer;
    c. the transfer and delivery of all Confidential Business Information to the Acquirer;
    d. the provision of all Transition Services to the Acquirer; and
    e. the Acquirer or its Manufacturing Designee is able to manufacture the Divestiture Products in the same quality as the Respondents and in commercial volumes, independently of the Respondents.

    provided, however, that the Monitor's service shall not extend more than four (4) years after the Order Date *unless* the Commission extends this period.

D. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to each Respondent's personnel, books, documents, records kept in the ordinary course of business, facilities, and technical information, and such other relevant information as the Monitor may reasonably request, related to that Respondent's compliance with its obligations under the Orders, including its obligations related to the relevant assets.

E. Each Respondent shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor that Respondent's compliance with the Orders.

F. The Monitor shall serve, without bond or other security, at the expense of Respondents, on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Respondents, such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities.

G. Respondents shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the

performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Monitor.

H. Respondents shall report to the Monitor in accordance with the requirements of the Orders and as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by a Respondent, and any reports or communications submitted by the Acquirer with respect to the performance of a Respondent's obligations under the Orders. The Monitor shall evaluate the reports submitted to the Monitor by a Respondent, and any reports submitted by the Acquirer with respect to the performance of a Respondent's obligations under the Orders. Within thirty (30) days after Order Date and every ninety (90) days thereafter, and at such other times as may be requested by staff of the Commission, the Monitor shall report in writing to the Commission concerning performance by the Respondents of the Respondents' obligations under the Orders.

I. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement;

provided, however, that such agreement shall not restrict the Monitor from providing any information to the Commission.

J. The Commission, among other things, may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Monitor's duties.

K. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the following manner:

1. the Commission shall select the substitute Monitor, subject to the consent of Respondent Quaker, which consent shall not be unreasonably withheld. If Respondent Quaker has not opposed, in writing, including the reasons for opposing, the selection of a proposed Monitor within ten (10) day after notice by the staff of the Commission to Respondent Quaker of the identity of any proposed Monitor, Respondents shall be deemed to have consented to the selection of the proposed Monitor;

2. not later than ten (10) days after the appointment of the Monitor, Respondent Quaker shall execute an agreement that, subject to the prior approval of the Commission, confers on the Monitor all the rights, powers, and authorities necessary to permit the Monitor to monitor Respondents' compliance with the Orders in a manner consistent with the purposes of the Orders.

L. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of the Orders.

M. The Monitor may be the same Person appointed as a Divestiture Trustee pursuant to the relevant provisions of this Order.

X. Divestiture Trustee

IT IS FURTHER ORDERED that:

A. If the Respondents have not fully complied with the obligations to assign, grant, license, divest, transfer, deliver, or otherwise convey the Divestiture Product Assets as required by this Order, the Commission may appoint a trustee ("Divestiture Trustee") to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets in a manner that satisfies the requirements of this Order. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Paragraph shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by a Respondent to comply with this Order.

B. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within ten (10) days after notice by the staff of the Commission to a Respondent of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

C. Not later than ten (10) days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the divestiture required by this Order.

D. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Paragraph, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the assets that are required by this Order to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed.

2. The Divestiture Trustee shall have one (1) year after the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the one (1) year period, the Divestiture Trustee has submitted a plan of divestiture or the Commission believes that the divestiture(s) can be achieved within a reasonable time, the divestiture period may be extended by the Commission;

   provided, however, the Commission may extend the divestiture period only two (2) times.

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestiture(s). Any delays in divestiture caused by a Respondent shall extend the time for divestiture under this Paragraph in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court.

4. The Divestiture Trustee shall use commercially reasonable efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture(s) shall be made in the manner and to an Acquirer as required by this Order;

   provided, however, if the Divestiture Trustee receives bona fide offers from more than one acquiring Person, and if the Commission determines to approve more than one such acquiring Person, the Divestiture Trustee shall divest to the acquiring Person selected by Respondents from among those approved by the Commission;

   provided further, however, that Respondents shall select such Person within five (5) days after receiving notification of the Commission's approval.

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other

representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Divestiture Trustee.

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order; *provided, however,* that the Divestiture Trustee appointed pursuant to this Paragraph may be the same Person appointed as Monitor pursuant to the relevant provisions of this Order or the Order to Maintain Assets in this matter.

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every sixty (60) days concerning the Divestiture Trustee's efforts to accomplish the divestiture.

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *provided, however,* that such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

E. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

F. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph.

G. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional

orders or directions as may be necessary or appropriate to accomplish the divestiture(s) required by this Order.

XI. Compliance Reports

IT IS FURTHER ORDERED that:

A. Within five (5) days of the Acquisition Date, Respondents shall submit to the Commission a letter certifying the date on which the Acquisition Date occurred, including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov.

B. Within five (5) days of the Divestiture Date, Respondents shall submit to the Commission a letter certifying the date on which the divestiture occurred, including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov.

C. Within thirty (30) days after the Order Date, and every ninety (90) days thereafter until Respondents have completed all of the following:

1. the transfer and delivery of all Divestiture Product Assets to the Acquirer;
2. transfer and delivery of all of the Manufacturing Technology to an Acquirer;
3. the provision of Transition Services; and
4. the provision of Contract Manufacture of the Divestiture Products, all in a manner that fully satisfies the requirements of this Order;

Respondents shall submit to the Commission and, at the same time, to the Monitor, a verified written report setting forth in detail the manner and form in which they intend to comply, are complying, and have complied with the requirements of the Orders ("Compliance Reports").

D. Each Compliance Report shall contain sufficient information and documentation to enable the Commission independently to determine whether the Respondents are in compliance with the Orders. Conclusory statements that Respondents have complied with their obligations under the Orders are insufficient. Respondents shall include in their Compliance Reports, among other things that are required from time to time, a full description of their efforts being made to comply with the Orders, including:

1. a detailed description of all substantive contacts, negotiations, actions, or recommendations related to:
    a. the transfer and delivery of all Divestiture Product Assets to the Acquirer;
    b. transfer and delivery of all of the Manufacturing Technology to the Acquirer;

c. the provision of Transition Services to the Acquirer; and

d. the provision of Contract Manufacture of the Divestiture Products to the Acquirer; and

2. a detailed description of the timing for the completion of such obligations.

E. One (1) year after the Order Date, annually for the nine (9) years on the anniversary of the Order Date, and at other times as the Commission may require, Respondents shall file a verified written report with the Commission setting forth in detail the manner and form in which they have complied and are complying with the Order.

F. Respondents shall verify each Compliance Report in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or other officer or employee specifically authorized to perform this function. Respondents shall submit an original and 2 copies of each Compliance Report as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a), including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov. In addition, Respondents shall provide a copy of each Compliance Report to the Monitor.

XII. Change in Respondents

IT IS FURTHER ORDERED Respondents shall notify the Commission at least thirty (30) days prior to:

A. any proposed dissolution of: Quaker Chemical Corporation; Global Houghton Ltd.; Gulf Houghton Lubricants Ltd.; or AMAS Holding Spf;

B. any proposed acquisition, merger, or consolidation of: Quaker Chemical Corporation, Global Houghton Ltd.; Gulf Houghton Lubricants Ltd.; or AMAS Holding Spf; or

C. any other change in a Respondent including assignment and the creation, sale, or dissolution of subsidiaries, if such change might affect compliance obligations arising out of the Orders.

XIII. Access

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon five (5) days' notice to a Respondent made to its principal place of business as identified in the Orders, registered office of its United States subsidiary, or its headquarters address, the notified Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. access, during business office hours of the Respondent and in the presence of counsel, to all facilities and access to inspect and copy all business and other records and all

documentary material and electronically stored information as defined in Commission Rules 2.7(a)(1) and (2), 16 C.F.R. § 2.7(a)(1) and (2), in the possession or under the control of the Respondent related to compliance with this Order, which copying services shall be provided by the Respondent at the request of the authorized representative of the Commission and at the expense of that Respondent; and

B. to interview officers, directors, or employees of that Respondent, who may have counsel present, regarding such matters.

XIV. Purpose

IT IS FURTHER ORDERED that the purpose of the divestiture of the Divestiture Product Assets and the related obligations imposed on the Respondents by this Order is:

A. to ensure the continued use of such assets for the purposes of the Business of Divestiture Products within the Geographic Territory;

B. to create a viable and effective competitor that is independent of Respondents in the Business of the Divestiture Products within the Geographic Territory; and

C. to remedy the lessening of competition resulting from the Acquisition as alleged in the Commission's Complaint in a timely and sufficient manner.

XV. Term

IT IS FURTHER ORDERED that this Order shall terminate on September 9, 2029.

By the Commission.

Rebecca Kelly Slaughter
Christine S. Wilson

In the Matter of **Illumina, Incorporated** **a corporation,** **And** **Pacific Biosciences of California, Incorporated (PacBio)** **a corporation.**	**Docket No. 9387** **PUBLIC**

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act ("FTC Act"), and by virtue of the authority vested in it by said Act, the Federal Trade Commission ("FTC" or "Commission"), having reason to believe that Respondents Illumina, Inc. ("Illumina") and Pacific Biosciences of California, Inc. ("Pacific Biosciences" or "PacBio"), have executed an agreement for the acquisition of PacBio by Illumina (the "Acquisition"), which, if consummated, would violate Section 2 of the Sherman Act, 15 U.S.C. § 2, Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint pursuant to Section 5(b) of the FTC Act, 15 U.S.C. § 45(b), and Section 11(b) of the Clayton Act, 15 U.S.C. § 21(b), stating its charges as follows:

I.

NATURE OF THE CASE

1. Illumina is a monopolist. It is the self-proclaimed leader in DNA sequencing and dominates DNA sequencing markets in the United States and worldwide. Its name is often considered synonymous with "next-generation sequencing" ("NGS"), the technology that allows researchers and clinicians quickly, accurately, and efficiently to identify the order of the component blocks—called nucleotides—in a DNA sample. In the United States, Illumina has complete dominance over the market for these products, with a share of over 90%. Historically, Illumina has faced little competition for its NGS instruments and consumables (collectively, "systems").

2. PacBio is one of the few firms that has managed to gain a foothold in the NGS market. PacBio sells a DNA sequencing system that offers substantial benefits over Illumina's systems, including longer individual sequence read lengths, but is a lower throughput and more expensive alternative.

3. Due to the benefits provided by PacBio's technology, some Illumina customers have shifted certain sequencing projects (or parts of projects) from Illumina to PacBio despite the differences in cost and throughput.

4. Respondents' internal documents show that PacBio and Illumina consistently and routinely refer to each other as competitors. These include many internal strategy documents, technical assessments, and sales support documents prepared over a period of years.

5. In the past two years, PacBio has made significant technological advancements, including the release of its "Sequel II" instrument in 2019. These advancements have brought down the cost of sequencing using PacBio systems and increased the accuracy and throughput of PacBio's instruments. Collectively, these improvements have made PacBio a closer alternative to Illumina than ever before.

6. In advance of the Sequel II's release, PacBio positioned its improved technology as an ever closer competitor to Illumina. By 2018, PacBio executives instructed its marketing department to [redacted] In October 2018, one PacBio marketing executive explained, [redacted]

7. Illumina has monitored PacBio as [redacted] and [redacted] from its inception. But as it learned details about PacBio's recent product improvements and the PacBio system's trajectory, Illumina recognized PacBio as [redacted].

8. Illumina now proposes to acquire PacBio and extinguish it as a competitive threat. Per an agreement executed November 1, 2018, Illumina will pay $1.2 billion for PacBio, a 71% premium over PacBio's share price at the time.

9. This Acquisition will eliminate competition between the two companies now and in the future. Accordingly, it will substantially lessen competition and further insulate Illumina's monopoly from PacBio's increasing competitive threat.

II.

BACKGROUND

A. Jurisdiction

10. Respondents are, and at all relevant times have been, engaged in commerce or in activities affecting "commerce" as defined in Section 4 of the FTC Act, 15 U.S.C. § 44, and Section 1 of the Clayton Act, 15 U.S.C. § 12.

11. The Acquisition constitutes an acquisition subject to Section 7 of the Clayton Act, 15 U.S.C. § 18.

B. Respondents

12. Respondent Illumina is a publicly traded Delaware corporation, headquartered in San Diego, California. Illumina develops, manufactures, and markets life sciences tools. Illumina's main product offerings are instruments used for DNA sequencing and associated consumable chemistry kits. Illumina offers seven DNA sequencing systems at a range of different price points and throughput levels. Its primary customers are leading genomic research centers, academic institutions, government laboratories, and hospitals, as well as companies in the pharmaceutical, biotechnology, agrigenomic, commercial diagnostics, and consumable genomics industries. Illumina was founded in 1998 and has 7,300 employees worldwide, with commercial offices located in Europe, Asia, Australia, and the Americas. In 2018, Illumina's worldwide revenue was $3.33 billion, approximately 55% of which was from U.S. sales.

13. Respondent PacBio is a publicly traded Delaware corporation, headquartered in Menlo Park, California. PacBio sells DNA sequencing instruments and consumable chemistry kits. It targets these products toward scientists striving to resolve complex and novel issues in genetics. PacBio's customer base is broadly similar to that of Illumina and includes research institutions, commercial laboratories, genome centers, pharmaceutical companies, and agricultural companies. PacBio was founded in 2004 and has about 400 full-time employees, almost all of whom are located in the United States. In 2018, PacBio's worldwide revenue was $78.6 million, approximately 45% of which was North American sales.

C. The Proposed Acquisition

14. Illumina agreed to acquire PacBio on November 1, 2018, for approximately $1.2 billion. The price per share represents a 71% premium to PacBio's share price as of market close on October 31, 2018. This agreement (the "Agreement") was set to expire on December 31, 2019. On September 25, 2019, Illumina and PacBio executed an amendment to this agreement to allow Illumina the unilateral right to extend the end date to March 31, 2020.

D. Background on Sequencing Technologies

15. DNA sequencing is the process of determining the order of nucleotides in DNA molecules from a biological sample. Scientists use DNA sequencing to ascertain the sequence of individual genes, larger genetic regions, full chromosomes, or the entire genome of any organism. DNA sequencing is foundational to research spanning the fields of molecular biology, evolutionary biology, genomics, medicine, pharmacology, ecology, and epidemiology. Other uses for DNA sequencing include clinical medical diagnostics, forensics, biometrics, and consumer genetics. Additionally, scientists can use DNA sequencing systems to sequence RNA, which has unique scientific utility for research and clinical use.

16. From the 1970s until the mid-2000s, the Sanger method was the predominant method of sequencing. It was, however, time consuming, costly, and labor intensive.

17. In the mid-2000s, new technologies—dubbed next-generation sequencing ("NGS")—began to appear. NGS systems offered much lower cost and higher throughput, with the ability to generate a large number of sequences at once. This technology rapidly eclipsed Sanger as the primary tool for genetic sequencing.

18. Illumina's technology is known as "short-read" sequencing. Short-read technology has been the predominant NGS technology for the last decade.

19. NGS sequencing also includes "long-read" sequencers. Long-read sequencing became commercially available in 2011. PacBio has been the leading system of this type since this technology emerged.

20. Short-read and long-read sequencing systems—and Illumina and PacBio in particular—currently differ on several metrics that drive the ways in which customers use them. Illumina's short-read systems currently have an advantage over PacBio's long-read systems on cost, number of sequence reads, and throughput. PacBio's system far surpasses Illumina's in terms of the length of DNA that it can cover in each individual sequence read. Both systems are capable of delivering highly accurate sequence reads.

21. The characteristics of PacBio's systems have been converging with those offered by Illumina. As PacBio has improved the individual sequence read length, cost, and throughput of its products over the years, it has become a closer substitute for Illumina's short-read technology for some customers in some projects. PacBio expects to continue to improve the cost and throughput of its system in the future. Historically, Illumina's short-read sequencing has been cheaper than long read on a cost per genome basis. However, because of the inherent benefits of long-read sequencing over short-read sequencing for certain applications, use cases, and projects, customers have been willing to pay a price premium to use PacBio for some sequencing projects. And, as PacBio's cost per genome decreases, customers expect to sequence more samples on PacBio and fewer samples on Illumina.

22. Sequencing is used for a number of different applications, use cases, projects, and sample sets within projects. Today, certain applications are best served by short-read systems, other applications are adequately served only by long-read systems, and some applications may be served by either short-read or long-read technology depending upon the objectives, budget, and time for a particular use case or project. As the cost of PacBio's long-read sequencing has decreased and its accuracy and throughput have increased, sequencing volume has shifted from short read to long read, as long read is able to fit the needs of more use cases and projects within several applications. Market participants expect this trend to continue for a broader set of projects and use cases.

III.

THE NGS PRODUCT MARKET

23. A relevant product market in which to assess the competitive impact of the proposed Acquisition is no broader than all next-generation sequencing systems (the "NGS Market").

24. The NGS Market comprises highly differentiated systems, including those of Illumina, PacBio, and a few other small participants.

25. In internal documents, both Illumina and PacBio routinely recognize the existence of an NGS market, consistently refer to each other as competitors in that market, and refer to competition across NGS systems. These documents include investor presentations, SEC filings, strategic planning documents, sales plans, and technical assessments.

26. Other market participants also recognize the existence of an NGS market, and other sequencing companies consider themselves to be competing in the NGS Market. Industry analysts also assess and monitor the NGS Market.

27. PacBio's long-read systems have characteristics and uses similar to those of Illumina's short-read systems for certain projects and use cases. As PacBio continues to improve the cost, accuracy, and throughput of its long-read systems, their characteristics and uses will become even more similar to those of Illumina's short-read systems.

28. In some instances, customers have switched sequencing volume from Illumina to PacBio as a result of past improvements in the cost, accuracy, and throughput of PacBio's systems. PacBio expects to continue improving its system's cost, accuracy, and throughput in the future, and customers expect to switch additional volume from Illumina to PacBio as a result of those improvements.

29. Sanger sequencing systems, the only other technology capable of sequencing DNA, are properly excluded from the NGS Market. It costs much less to sequence DNA with NGS than Sanger sequencing, and the legacy Sanger approach is so much slower that it is impractical for almost all purposes for which scientists employ NGS.

30. Non-sequencing products, such as microarrays, are properly excluded from the NGS Market. Microarrays do not sequence DNA. They merely identify known single nucleotide variants in a genome. These products lack the throughput and technical capabilities of NGS products, qualities that customers require for their sequencing work.

IV.

THE RELEVANT GEOGRAPHIC MARKET

31. The United States is the relevant geographic market in which to assess the competitive effects of the proposed Acquisition.

32. U.S. NGS customers cannot practically turn to suppliers that do not have a U.S. presence to purchase an NGS system. NGS customers require local service and support networks. Reflecting the reality of regional competitive differences, Illumina [redacted]

33. Intellectual property is a significant barrier to entry in the NGS Market. The strength of incumbent NGS companies' patent portfolios differs depending on the region. Using intellectual property, incumbent U.S. NGS suppliers (namely, Illumina) exclude other firms from selling NGS products in the United States, including some companies that supply NGS products elsewhere in the world. Accordingly, intellectual property creates a unique set of entry conditions in the United States.

V.

MARKET STRUCTURE

34. Illumina is the dominant manufacturer of NGS systems in the United States, where it enjoys a market share of more than 90%. PacBio is one of three other companies manufacturing and selling NGS systems in the United States. All of the companies that could, theoretically, enter the U.S. NGS Market at some point in the future [redacted].

A. Illumina

35. Illumina describes itself as the "global leader in DNA sequencing" and has enjoyed an enduring dominance in the sale of sequencers. Market participants describe Illumina as "synonymous with sequencing" because its technology generates more than 90% of the world's sequencing data. Illumina has sustained its dominance for years.

36. Illumina has possessed since at least 2009, and continues to possess today, monopoly power in the markets in which it sells its DNA sequencing systems, including in the NGS Market.

37. Substantial direct evidence demonstrates Illumina's durable monopoly power. For many projects and use cases, customers have few, if any, commercially reasonable alternatives to Illumina.

38. Customers recognize that they have few commercially reasonable alternatives and lack bargaining leverage to obtain lower prices or better contract terms from Illumina. When Illumina has implemented price increases, those increases have been profitable and have not driven sales toward other DNA sequencing systems.

39. Illumina's own documents provide evidence of its monopoly power. An internal 2016 document answers the question [redacted]. It also states that [redacted] but explains that [redacted].

40. Illumina is so dominant that it sees limited sales left to compete for. Illumina's Vice President of Regional Sales and Marketing for the Americas explained in an email [redacted]

41. Illumina's monopoly power may also be established through indirect evidence. Illumina possesses an extremely high share of the NGS Market. It has had a share of over 80% since at least 2013, and over 90% since 2015.

42. Substantial barriers to entry prevent other firms from competing with Illumina in the sale of DNA sequencing systems. DNA sequencing is complex, and any new entrant would need to overcome significant scientific, commercial, and intellectual property barriers to develop and commercialize a new NGS system successfully. Since 2013, only one new firm, Oxford Nanopore, has entered and remained in the U.S. NGS Market, and three years later it holds only a [redacted]% market share.

B. PacBio

43. PacBio systems use an innovative "Single-Molecule, Real-Time" ("SMRT") sequencing approach. With its ability to generate accurate long reads, PacBio can provide more comprehensive and higher quality information than short-read sequencing systems like Illumina's. While PacBio's system offers advantages over short read, it currently has substantially lower throughput and higher costs than Illumina.

44. PacBio has continually improved its system with the goal of converting ever more sequencing volume from short-read systems to its long-read technology. Some Illumina customers have switched samples, projects, or entire applications from Illumina to PacBio already.

45. PacBio's innovations and sequencing advances over the past two years have enabled the company to deliver significantly higher quality sequencing at dramatically lower prices, bringing its offerings closer to those of Illumina in terms of both capability and price.

46. PacBio's share of the NGS Market is 2-3% today. Both PacBio and Illumina project [redacted]. Some of that [redacted].

C. Other Market Participants

47. Oxford Nanopore Technologies ("Oxford Nanopore") is a U.K.-based NGS company that markets native long-read sequencing systems based on a nanopore technology. This technology, which functions differently than PacBio's, generates longer—but significantly less accurate—reads than other systems. Oxford Nanopore [redacted] a unique device that is portable and serves only niche use cases. The low accuracy of Oxford Nanopore's technology has limited its acceptance among customers.

48. Thermo Fisher Scientific ("Thermo Fisher") markets short-read, benchtop sequencing systems. Thermo Fisher is the second-leading provider of NGS systems, albeit well behind Illumina. Thermo Fisher's systems have significant technological limitations that constrain the company's ability to compete for business outside the application of targeted sequencing for clinical use. Thermo Fisher's technology is not an option for most customers of NGS products and services.

49. No other firm attempting to develop a sequencing system [redacted]. One firm, Beijing Genomics Institute ("BGI"), currently provides sequencing instruments outside of the United States, but it is deterred from participating in the U.S. NGS Market due to Illumina's claims that BGI's instruments infringe Illumina's patents.

D. Market Shares

50. Illumina makes the dominant NGS system and earns revenues [redacted] greater than those of the next-largest firm.

51. Illumina, which has held its dominant position for years, currently maintains a share of more than 90% of the U.S. NGS Market. PacBio holds a share approximately 2-3% of the NGS Market in the United States.

VI.

CONDITIONS OF ENTRY OR EXPANSION

52. Entry into the U.S. NGS Market is time consuming and extremely difficult. A new entrant into the NGS Market would need to overcome significant scientific, legal, and commercial barriers.

53. DNA sequencing systems are highly complex systems comprising advanced chemistry, sensitive optics, and powerful semiconductors. Integrating these components into a system that delivers value and performance sufficient to compete with existing systems, is scalable, and is cost effective to manufacture and operate is an immense challenge that requires considerable investment of capital and time.

54. The intellectual property landscape surrounding existing sequencing technologies is broad, dense, and difficult to invent around. Illumina has an extensive patent portfolio—with hundreds of U.S. patent registrations—that it devotes considerable resources to enforcing. Illumina's patent enforcement efforts have prevented, and likely will continue to prevent, new competitors from emerging in the United States. PacBio, which also owns a substantial patent portfolio, uses a different sequencing technology than Illumina. Accordingly, PacBio is not vulnerable to a patent infringement suit from Illumina, but both Illumina and PacBio have a long history of asserting their patents to exclude competitive technologies from the U.S. NGS Market, and the combined firm will have a strong incentive to exclude any firm seeking to enter the United States with a new long-read or short-read product.

55. Gaining acceptance in the marketplace after launching a product takes significant time and effort. A new system must prove itself reliable and robust before it can expect significant sales to customers in the research and clinical communities. New entrants typically must convince key opinion leaders to use their technology and publish papers to support the use of their products by other researchers, which takes a significant amount of time and creates uncertainty about whether new products, even after they are launched, would be able to compete effectively with existing, proven products.

VII.

HARM TO COMPETITION

A. The Acquisition Removes PacBio as a Competitive Threat to Illumina

56. By late 2018, improvements to PacBio's sequencing system had positioned PacBio as a significant threat to Illumina's longstanding monopoly.

57. As early as 2014, Illumina identified PacBio in internal documents as [redacted] and recognized that [redacted]

58. As PacBio's continued innovation produced incrementally better sequencing offerings, Illumina became increasingly concerned. In 2016, Illumina characterized PacBio as a [redacted] and one executive commented that, [redacted]

59. Internally, Illumina refers to PacBio specifically as a [redacted], with the frequency of references to PacBio as [redacted].

60. Illumina identified two companies as [redacted]. Of those two companies, only PacBio sells sequencing systems in the United States.

61. Respondents' internal documents demonstrate intensifying head-to-head competition and a mutual recognition of the threat that an independent PacBio posed to Illumina going forward. As PacBio's CEO told investors in August 2018, PacBio was getting close to "demonstrat[ing] that a high-quality PacBio analysis of the human genome can be performed at a comparable cost [to short-read technologies]," a "milestone" where it "anticipate[s] seeing larger cohorts of population sequencing samples shift over [from short read] to PacBio."

62. In early 2018, PacBio senior executives contacted Illumina's top executives to explore potential partnership opportunities, which afforded Illumina the ability to evaluate the sequencing data generated by PacBio's new chemistry. An Illumina Principal Scientist [redacted]—describing it internally as [redacted]

63. In light of PacBio's improving technology and the increasing threat to its monopoly, Illumina in 2018 contemplated specific competitive responses, including discounting its NGS products to protect its market position and developing new products that could compete with PacBio, which Illumina recognized was [redacted]

64. Instead of discounting or accelerating its internal innovation projects to maintain its market share in the face of PacBio's significant advancements, Illumina began evaluating PacBio as an acquisition target, as it had done before with [redacted] In 2017, Illumina determined that [redacted].

65. By August 2018, Illumina recognized [redacted]" because of recent PacBio product improvements.

66. Illumina and PacBio agreed to merge on November 1, 2018, and shortly after, Illumina executives explained in the company's [redacted] that PacBio was [redacted]

B. The Proposed Acquisition Extinguishes All Current and Future Competition Between Illumina and PacBio

67. The proposed Acquisition will eliminate significant current and future competition between Illumina and PacBio, substantially harming consumers. As PacBio has improved its technology, customers have benefitted from these cost and quality improvements and moved sequencing volume from Illumina to PacBio systems in certain projects, use cases, and applications.

68. Respondents, customers, and other market participants recognize that, as an independent company, PacBio is poised to take increasing sequencing volume from Illumina in the future. In the absence of the merger, Illumina's response to that competition would likely include discounting the prices of its systems, improving their quality, and developing innovative new products.

69. When the parties entered into the Acquisition agreement, PacBio expected its Sequel II instrument and related chemistry improvements to be an inflection point for the company. The Sequel II will expand the projects and use cases for which customers could use PacBio, and will position PacBio as a much closer alternative to Illumina.

70. PacBio expected the Sequel II would [redacted] the NGS space. In 2018, as PacBio was planning to introduce a significant chemistry improvement, its executives directed the company's marketing department to [redacted] As a marketing executive described PacBio's focus in October 2018, [redacted]

71. The merger would harm consumers, in part, by hampering competition, particularly innovation competition. Both PacBio and Illumina have engaged in innovation efforts to compete with each other for years, they were engaged in such efforts at the time of the merger announcement, and both expected to compete against each other with new products in the future.

72. PacBio is continually improving its system to reduce costs, increase throughput, and take market share from Illumina. Illumina, in turn, is [redacted], motivated in large part by the competitive threat posed by PacBio.

73. The merger reduces the combined firm's incentives to innovate and develop new products relative to the incentives PacBio and Illumina faced as independent competitors. Post-acquisition, Illumina will have reduced incentives to develop new long-read systems that would cannibalize its existing short-read business, and Illumina will have little or no incentive to continue its efforts to launch new long-read products after acquiring PacBio's long-read business. As a result, consumers will have fewer innovative products to choose from, and they will lose the price and quality benefits that competition between Illumina's and PacBio's new products would have created absent the merger.

C. The Acquisition Presumptively Harms Competition in the NGS Market

74. The 2010 Department of Justice and Federal Trade Commission Horizontal Merger Guidelines ("Horizontal Merger Guidelines") and courts measure concentration using the Herfindahl-Hirschman Index ("HHI"). HHI levels are calculated by totaling the squares of the market shares of each firm in the relevant market. A relevant market is "highly concentrated" if it has an HHI level of 2,500 or more. A merger or acquisition is presumed likely to create or enhance market power—and presumptively illegal—when the post-merger HHI exceeds 2,500 and the merger increases the HHI by more than 200 points.

75. Post-Acquisition U.S. NGS market concentration, and the change in concentration caused by the Acquisition, will exceed the thresholds established in the Horizontal Merger Guidelines. Pre-Acquisition, the U.S. NGS Market is highly concentrated, with an HHI of 8,290, which far exceeds the threshold level in the Horizontal Merger Guidelines. The Acquisition will increase the HHI of the U.S. NGS market by 443 points. Post-Acquisition, the HHI of the U.S. NGS Market will be 8,733.

76. The Acquisition is presumptively unlawful under the Horizontal Merger Guidelines and relevant case law.

VIII.

EFFICIENCIES AND PROCOMPETITIVE JUSTIFICATIONS

77. Respondents cannot verify or substantiate any merger-specific efficiencies. Even if Respondents could identify some efficiencies that would result from the Acquisition, they could not show that such savings would likely be passed on to customers. In any event, any cognizable efficiencies are far outweighed by the Acquisition's harm and do not justify the Acquisition.

78. Respondents' procompetitive justifications for the Acquisition are pretextual. To the extent that there are any procompetitive effects flowing from the Acquisition at all, those effects could be accomplished through other means, without eliminating all competition between Illumina and PacBio.

IX.

VIOLATIONS

COUNT I—MONOPOLIZATION

79. The allegations of Paragraphs 1 through 78 above are incorporated by reference.

80. Respondent Illumina has, and at all relevant times had, monopoly power in the U.S. NGS Market, as well as in any other market in which it sells DNA sequencing systems.

81. The Acquisition, if consummated, would eliminate the nascent competitive threat that an independently owned PacBio poses to Illumina's monopoly power. The Acquisition is anticompetitive conduct because it eliminates competition between Illumina and PacBio. The Acquisition is anticompetitive conduct reasonably capable of contributing significantly to Illumina's maintenance of monopoly power.

82. Illumina's claimed procompetitive justifications are pretextual and, in any event, do not outweigh the anticompetitive effect of the Acquisition.

83. The Acquisition constitutes monopolization in violation of Section 2 of the Sherman Act, 15 U.S.C. § 2, and thus constitutes an unfair method of competition in violation of Section 5(a) of the FTC Act, as amended, 15 U.S.C. § 45(a).

COUNT II—ILLEGAL ACQUISITION

84. The allegations of Paragraphs 1 through 78 above are incorporated by reference.

85. Respondents currently compete with each other in the highly concentrated NGS Market. Competition between Respondents has been increasing over time and will increase substantially in the future. Respondents cannot show that any cognizable efficiencies are of a character and magnitude such that the Acquisition is not likely to be anticompetitive.

86. The Acquisition, if consummated, may substantially lessen current and future competition in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and thus constitutes an unfair method of competition in violation of Section 5(a) of the FTC Act, as amended, 15 U.S.C. § 45(a).

NOTICE

Notice is hereby given to the Respondents that the eighteenth day of August 2020, at 10:00 a.m., is hereby fixed as the time, and the Federal Trade Commission offices at 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580, as the place, when and where an evidentiary hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission Act and the Clayton Act to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth (14th) day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted. If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material facts to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint and, together with the complaint, will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under Rule 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions, and a final order disposing of the proceeding.

The Administrative Law Judge shall hold a prehearing scheduling conference not later than ten (10) days after the Respondents file their answers. Unless otherwise directed by the Administrative Law Judge, the scheduling conference and further proceedings will take place at the Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580. Rule 3.21(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (but in any event no later than five (5) days after the Respondents file their answers). Rule 3.31(b) obligates counsel for each party, within five (5) days of receiving the Respondents' answers, to make certain initial disclosures without awaiting a discovery request.

NOTICE OF CONTEMPLATED RELIEF

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the Acquisition challenged in this proceeding violates Section 2 of the Sherman Act, Section 7 of the Clayton Act, as amended, and/or Section 5 of the Federal Trade Commission Act, as amended, the Commission may order such relief against the Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. If the Acquisition is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores two or more distinct and separate, viable and independent businesses in the relevant market, with the ability to offer such products and services as Illumina and PacBio were offering and planning to offer prior to the Acquisition.

2. A prohibition against any transaction between Illumina and PacBio that combines their businesses in the relevant market, except as may be approved by the Commission.

3. A requirement that, for a period of time, Illumina and PacBio provide notice to the Commission of acquisitions, merger, consolidations, or any other combinations of their businesses in the relevant market with any other company operating in the relevant market.

4. A requirement to file periodic compliance reports with the Commission.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C., this seventeenth day of December, 2019.

By the Commission.

In the Matter of	)	
Agnaten, SE, **a corporation,**	)	
Veterinary Specialists of North America, LLC **a limited liability company,**	)	
and	)	**Docket No. C-4707**
NVA Parent, Inc., **a corporation.**	)	

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of the proposed acquisition by Respondent Agnaten, SE, ("Agnaten"), the owner of Veterinary Specialists of North America and Compassion-First Pet Hospitals, of Respondent NVA Parent, Inc. ("NVA"), collectively "Respondents." The Commission's Bureau of Competition prepared and furnished to Respondents the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

Respondents and the Bureau of Competition executed an Agreement Containing Consent Orders ("Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint, (2) a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional

facts, are true, (3) waivers and other provisions as required by the Commission's Rules, and (4) a proposed Decision and Order and Order to Maintain Assets.

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a Complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. Now, in further conformity with the procedure described in Rule 2.34, the Commission makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent Agnaten is a corporation organized, existing, and doing business under and by virtue of the laws of Austria, with its office and principal place of business located at Rooseveltplaz 4-5/Top 10, A-1090 Vienna, Austria, with its United States office for service of process located at 1701 Pennsylvania Ave., NW, Suite 801, Washington, DC 20006.

2. Respondent Veterinary Specialists of North America is a limited liability company organized, existing, and doing business under and by virtue of the laws of the state of Delaware, with its office and principal place of business located at 106 Apple St, Tinton Falls, NJ 07724.

3. Respondent NVA is a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware, with its office and principal place of business located at 2000 Avenue of the Stars, 12th Floor, Los Angeles, CA 90067.

4. The Federal Trade Commission has jurisdiction over the subject matter of this proceeding and of Respondents, and this proceeding is in the public interest.

ORDER

I. Definitions

IT IS ORDERED that, as used in this Order, the following definitions shall apply and all other definitions used in the Order to Maintain Assets, shall apply:

A. "Agnaten" means Agnaten, SE, its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by Agnaten SE, including, but not limited to, Veterinary Specialists of North America, Compassion-First Pet Hospitals, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "NVA" means NVA Parent, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and its joint ventures, subsidiaries,

partnerships, divisions, groups, and affiliates controlled by NVA Parent, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "MedVet" means MedVet Associates, LLC, a limited liability company organized, existing, and doing business under, and by virtue of, the laws of the State of Ohio, with its executive offices and principal place of business located at 350 East Wilson Bridge Road, Worthington, OH 43085.

D. "Acquirer" means: means:

1. MedVet; or

2. Any other Person the Commission approves to acquire the Divestiture Clinics pursuant to this Decision and Order.

E. "Acquisition" means the proposed acquisition by Agnaten of NVA, described in the Stock Purchase Agreement by and among NVA Group, L.P., NVA Parent, Inc., Dino Grandparent, Inc., Petcare Acquisition Co., and JAB Holdings, B.V., dated June 3, 2019.

F. "Acquisition Date" means the date Respondents consummate the Acquisition.

G. "Business Records" means all information, books and records, documents, files, correspondence, manuals, computer printouts, databases, and other documents, including all hard copies and electronic records wherever stored, including without limitation, client and customer lists, patient and payor information, referral sources, research and development reports, production reports, service and warranty records, maintenance logs, equipment logs, operating guides and manuals, documents relating to policies and procedures, financial and accounting records and documents, creative materials, advertising materials, promotional materials, studies, reports, correspondence, financial statements, financial plans and forecasts, operating plans, price lists, cost information, supplier and vendor contracts, marketing analyses, customer lists, customer contracts, employee lists and contracts, salaries and benefits information, physician lists and contracts, supplier lists and contracts, and, subject to legal requirements, copies of all personnel files.

H. "Clinic Assets" means all of Respondents' rights, title, and interest in all property and assets, tangible or intangible, of whatever nature and wherever located, relating to or used in connection with the Divestiture Clinics, including, without limitation, all:

1. Real property interests (including fee simple interests and real property leasehold interests, whether as lessor or lessee), wherever located, including all easements, appurtenances, licenses, and permits, together

with all buildings and other structures, facilities, and improvements located thereon, owned, leased, or otherwise held;

2. Tangible Personal Property, including, without limitation, any Tangible Personal Property removed from and not replaced at the Divestiture Clinics, if such property was used by or in connection with the provision of veterinarian services at the Divestiture Clinics on or after June 3, 2019;

3. Rights under any and all contracts and agreements (e.g., leases, service agreements such as supply agreements, procurement contracts), including, but not limited to, contracts and agreements with physicians and other veterinary health care providers and support staff, suppliers, sales representatives, distributors, agents, personal property lessors, personal property lessees, licensors, licensees, consigners, and consignees;

4. Rights and title in and to use the name or part of the name of the Divestiture Clinic on a permanent and exclusive basis (even as to Respondents), including, but not limited to, the name "Veterinary Care Center," the name "REACH Veterinary Specialists," and the name "The Veterinary Referral Center;"

5. Approvals, consents, licenses, certificates, registrations, permits, waivers, or other authorizations issued, granted, given, or otherwise made available by or under the authority of any governmental body or pursuant to any legal requirement, and all pending applications therefore or renewals thereof, to the extent assignable;

6. All consumable or disposable inventory kept in the normal course of business, including, but not limited to, janitorial, office, and medical supplies, and pharmaceuticals;

7. Accounts receivable;

8. Rights under warranties and guarantees, express or implied; and

9. Business Records.

PROVIDED, HOWEVER, that Clinic Assets do not include Excluded Assets.

PROVIDED FURTHER, HOWEVER, that Respondents may retain a copy of Business Records to the extent necessary to comply with applicable law, regulations, and other legal requirements.

I. "Commission" means the Federal Trade Commission.

J. "Confidential Business Information" means information not in the public domain

that is related to or used in connection with the Divestiture Clinics, except for any information that was or becomes generally available to the public other than as a result of disclosure by Respondents, and includes, but is not limited to, pricing information, marketing methods, market intelligence, competitor information, commercial information, management system information, business processes and practices, bidding practices and information, procurement practices and information, supplier qualification and approval practices and information, and training practices.

K. "Direct Cost" means cost not to exceed the cost of labor, material, travel, and other expenditures to the extent the costs are directly incurred to provide Transitional Services. "Direct Cost" to an Acquirer for its use of any of Respondents' employees' labor shall not exceed the then-current average wage rate for such employee, including benefits.

L. "Divestiture Agreement(s)" means:

1. Divestiture Agreement by and among Respondents and MedVet, dated October 25, 2019, and all amendments, exhibits, attachments, agreements, and schedules thereto, attached to this Decision and Order as Non-Public Appendix E;

2. Divestiture Agreement by and among Veterinary Specialists of North America and MedVet, dated November 22, 2019, and all amendments, exhibits, attachments, agreements, and schedules thereto, attached to this Decision and Order as Non-Public Appendix E; or

3. Any agreement between Respondents (or a Divestiture Trustee appointed pursuant to this Order) and an Acquirer to purchase the Divestiture Clinics, and all amendments, exhibits, attachments, agreements, and schedules thereto.

M. "Divestiture Clinics" means the following veterinary clinics owned and operated by Respondents:

1. REACH Veterinary Specialists, located at 677 Brevard Road, Asheville, NC 28806;

2. The Veterinary Care Center, located at 129 Glover Avenue, Norwalk, CT 06850; and

3. The Veterinary Referral Center, 8614 Centreville Road, Manassas, VA 20110.

N. "Divestiture Date" means the date on which Respondents (or a Divestiture Trustee appointed pursuant to this Order) consummate the divestiture of the

Divestiture Clinics as required by Paragraph II of this Order.

O. "Divestiture Trustee" means the person appointed pursuant to Paragraph VII of this Order.

P. "Emergency Veterinary Clinic" means a veterinary clinic that offers 24-hour or overnight service with the primary function of receiving, treating, and monitoring emergency patients during its specified hours of operation. A veterinarian is in attendance at all hours of operation and sufficient staff is available to provide timely and appropriate care. Veterinarians, support staff, instrumentation, medications, and supplies must be sufficient to provide an appropriate level of emergency care.

Q. "Excluded Assets" means:

1. Tax and medical records related to the Divestiture Clinics to the extent they are nontransferable by law;

2. Cash generated by the Divestiture Clinics prior to the Divestiture Date;

3. Intellectual Property;

4. Software, including, any third-party practice management software (to the extent not assignable);

5. Employee benefit plans;

6. Employee records (a) for any Relevant Employee that is not transferred to Acquirer, or (b) prohibited to be transferred by law; and

7. Compassion-First's Strontium-90 probe and the related Radioactive Materials License No. 6-35037-01 held by CF PC.

R. "Government Approvals" means any permissions or sanctions issued by any government or governmental organization, including, but not limited to, licenses, permits, accreditations, authorizations, registrations, certifications, certificates of occupancy, and certificates of need.

S. "Intellectual Property" means intellectual property of any kind including, but not limited to, patents, patent applications, mask works, trademarks, service marks, copyrights, trade dress, commercial names, internet web sites, internet domain names, inventions, discoveries, written and unwritten know-how, trade secrets, and proprietary information.

T. "Monitor" means the person appointed as Monitor in this Order.

U. "Person" means any individual, partnership, firm, corporation, association, trust, unincorporated organization, or other entity or governmental body.

V. "Relevant Notice Area" means the areas and veterinary clinics identified in Non-Public Appendix B to this Order.

W. "Relevant Employees" means any and all full-time employees, part-time employees, or contract employees, including but not limited to veterinarians, who work or worked at the Divestiture Clinics at any time during the 90 days preceding the date the Acquisition is completed or at any time after the date the Acquisition is completed, and whose duties relate or related to the Divestiture Clinic.

X. "Respondents" means Agnaten and NVA, collectively or individually.

Y. "Specialty Veterinarian" means a veterinarian who (i) legally holds himself or herself out as a specialist in veterinary medicine, and (ii) has board certification, in one, or more, of the following specialties: internal medicine, neurology, oncology, ophthalmology, radiation oncology, or surgery.

Z. "Specialty Veterinary Clinic" means a clinic where a Specialty Veterinarian practices.

AA. "Tangible Personal Property" means all machinery, equipment, spare parts, tools and tooling, fixtures, vehicles, furniture, inventories, office equipment, computer hardware, supplies and materials, and all other items of tangible personal property of every kind owned or leased by Respondents, wherever located, together with any express or implied warranty by the manufacturers, sellers, or lessors of any item or component part thereof and all maintenance records and other documents relating thereto.

BB. "Transitional Services" means support services regarding the transfer and operation of the Divestiture Clinics, including, but not limited to, administrative assistance, assistance relating to billing, accounting, governmental regulation, human resources management, information systems, clinical assistance, and purchasing, as well as providing assistance in acquiring and obtaining access to all software used in the provision of such services.

II. Divestiture

IT IS FURTHER ORDERED that:

A. Respondents shall, within 10 days after the Acquisition Date, absolutely and in good faith, divest the Divestiture Clinics to MedVet, including all Clinic Assets related to those clinics, pursuant to and in accordance with the Divestiture Agreements, as ongoing businesses.

PROVIDED, HOWEVER, if, at the time the Commission determines to make this Order final, the Commission notifies Respondents that MedVet is not an acceptable Acquirer then, after receipt of such written notification: (1) Respondents shall immediately notify the unacceptable Acquirer of the notice received from the Commission and shall as soon as practicable, but no later than 5 business days, effect the rescission of the relevant Divestiture Agreement; and (2) Respondents shall, within 6 months of the date Respondents receive notice of such determination from the Commission, divest the Divestiture Clinics and Clinic Assets, as applicable, absolutely and in good faith, at no minimum price, as ongoing businesses to an Acquirer or Acquirers that receive the prior approval of the Commission and only in a manner that receives the prior approval of the Commission.

PROVIDED FURTHER, HOWEVER, that if, at the time the Commission determines to make this Order final, the Commission notifies Respondents that the manner in which any of the divestitures accomplished is not acceptable, the Commission may direct Respondents, or appoint a Divestiture Trustee, to effect such modifications to the manner of divestiture including, but not limited to, entering into additional agreements or arrangements, as the Commission may determine are necessary to satisfy the requirements of this Order.

B. Respondent Agnaten shall not acquire Respondent NVA until it has obtained for all the Divestiture Clinics:

1. All approvals for the assignment to the Acquirer of the rights, title, and interest to each lease for real property of each Divestiture Clinic; and

2. Any and all Governmental Approvals necessary for the Acquirer to operate each Divestiture Clinic, as of the Divestiture Date, in substantially the same manner as the applicable Respondent operated such Divestiture Clinic.

C. At the option of the Acquirer, Respondents shall grant the Acquirer a royalty-free, worldwide, non-exclusive license for the use, without any limitation, of any Intellectual Property necessary to operate the Divestiture Clinics, including but not limited to, any hospital management software, to use for a period of 1 year following the Divestiture Date.

D. Respondents:

1. Shall not disclose Confidential Business Information relating exclusively to any of the Divestiture Clinics to any Person other than the Acquirer of the Divestiture Clinics; and

2. After the Divestiture Date:

a. Shall not use Confidential Business Information relating exclusively to any of the Divestiture Clinics for any purpose other than for complying with the terms of this Order, for complying with any law, or for the purposes of billing and collections; and

b. Shall destroy all records of Confidential Business Information relating exclusively to any of the Divestiture Clinics, except to the extent that: (i) Respondents are required by law to retain such information, and (ii) Respondents' inside or outside attorneys may keep one copy solely for archival purposes, but may not disclose such copy to the rest of Agnaten or NVA, respectively.

E. The purpose of the divestiture is to ensure the continuation of the Divestiture Clinics as ongoing viable businesses engaged in the same business in which the assets were engaged at the time of the announcement of the Acquisition, and to remedy the lessening of competition resulting from the Acquisition as alleged in the Commission's Complaint in this matter.

III. Divestiture Agreements

IT IS FURTHER ORDERED that**:**

A. The Divestiture Agreements shall be incorporated by reference into this Order and made a part hereof, and any failure by Respondents to comply with the terms of the Divestiture Agreements shall constitute a violation of this Order; provided, however, that the Divestiture Agreements shall not limit, or be construed to limit, the terms of this Order. To the extent any provision in the Divestiture Agreements varies from or conflicts with any provision in the Order such that Respondents cannot fully comply with both, Respondents shall comply with the Order.

B. Respondents shall not modify or amend the terms of the Divestiture Agreements after the Commission issues the Order without the prior approval of the Commission, except as otherwise provided in Commission Rule 2.41(f)(5), 16 C.F.R. § 2.41(f)(5).

IV. Asset Maintenance

IT IS FURTHER ORDERED that, until the Divestiture Date, Respondents shall:

A. Maintain each of the Divestiture Clinics and all Clinic Assets in substantially the same condition (except for normal wear and tear) as they existed at the time Respondents sign the Consent Agreement;

B. Take such actions that are consistent with the past practices of Respondents in connection with each Divestiture Clinic and all the Clinic Assets, and that are

taken in the ordinary course of business and in the normal day-to-day operations of the Divestiture Clinics;

C. Keep available the services of the current officers, employees, and agents of Respondents; and maintain the relations and goodwill with suppliers, veterinarians, landlords, patients, employees, agents, and others having business relations with the Divestiture Clinics and the Clinic Assets; and

D. Preserve the Divestiture Clinics and Clinic Assets as ongoing businesses and not take any affirmative action, or fail to take any action within Respondents' control, as a result of which the viability, competitiveness, and marketability of the Divestiture Clinics and Clinic Assets would be diminished.

V. Employees

IT IS FURTHER ORDERED that, Respondents:

A. Shall, no later than 10 days after a request from an Acquirer, provide the Acquirer with the following information for each Relevant Employee, and, to the extent known and applicable, each independent contractor who has worked at a Divestiture Clinic since June 3, 2019, as and to the extent permitted by law (unless such information has already been provided):

1. Name, job title or position, date of hire, and effective service date;

2. Specific description of the employee's responsibilities;

3. The base salary or current wages;

4. Most recent bonus paid, aggregate annual compensation for Respondents' last fiscal year, and current target or guaranteed bonus, if any;

5. Employment status (*i.e.*, active or on leave or disability; full-time or part-time);

6. Any other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

7. At the Acquirer's option, copies of all employee benefit plans and summary plan descriptions (if any) applicable to the Relevant Employee.

B. Shall, within a reasonable time after a request from an Acquirer, provide to the Acquirer an opportunity to meet personally and outside the presence or hearing of any employee or agent of any Respondent, with any one or more of the Relevant Employees, and to make offers of employment to any one or more of the Relevant Employees.

C. Shall not interfere, directly or indirectly, with the hiring or employing by the

Acquirer of any Relevant Employees, not offer any incentive to such employees to decline employment with the Acquirer, and not otherwise interfere with the recruitment of any Relevant Employee by the Acquirer; *PROVIDED, HOWEVER,* that Respondents may:

1. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at Relevant Employees; or

2. Hire Relevant Employees who apply for employment with Respondents, as long as such employees were not solicited by Respondents in violation of this Paragraph V; *PROVIDED FURTHER, HOWEVER,* that this Paragraph V shall not prohibit Respondents from making offers of employment to or employing any Relevant Employee if the Acquirer has notified Respondents in writing that the Acquirer does not intend to make an offer of employment to that employee, or where such an offer has been made and the employee has declined the offer, or where the employee's employment has been terminated by the Acquirer.

D. Shall remove any impediments within the control of Respondents that may deter Relevant Employees from accepting employment with an Acquirer, including, but not limited to, removal of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by an Acquirer, and shall not make any counteroffer to a Relevant Employee who receives a written offer of employment from an Acquirer; *PROVIDED, HOWEVER*, that nothing in this Order shall be construed to require Respondents to terminate the employment of any employee or to prevent Respondents from continuing the employment of any employee.

E. Shall provide reasonable financial incentives for Relevant Employees, as identified by Respondents and any Acquirer, to continue in their positions. Such incentives may include, but are not limited to, guaranteeing a retention bonus for the veterinarians at the Divestiture Clinics to assure their continued employment at such clinic, a continuation of all employee benefits, including the funding of regularly scheduled raises and bonuses, and the vesting of pension benefits (as permitted by law and for those Relevant Employees covered by a pension plan), offered by Respondents.

F. Shall not, for a period of one (1) year following the Divestiture Date of the particular Divestiture Clinic, hire a Relevant Employee that is a doctor of veterinary medicine to work at any of Respondents' veterinary clinics in the areas identified in Appendix A, related to that particular Divestiture Clinic.

PROVIDED HOWEVER, Respondent Agnaten may offer part-time contract hours to a doctor of veterinary medicine at a particular Divestiture Clinic, who has been

working as a part-time contract veterinarian for Respondent Agnaten or NVA in the areas identified in Appendix A related to that particular Divestiture Clinic, if the part-time contract hours offered by Respondent Agnaten would not, in any way, interfere with the veterinarian's ability to fulfill his or her employment responsibilities to the Acquirer.

PROVIDED FURTHER, HOWEVER, that this Paragraph V shall not prohibit Respondents from making offers of employment to or employing any Relevant Employee that is a doctor of veterinary medicine if an Acquirer has notified Respondents in writing that the Acquirer does not intend to make an offer of employment to that employee, or where the employee's employment has been terminated by the Acquirer.

G. Shall not, for a period of 2 years following the Divestiture Date of any Divestiture Clinic, directly or indirectly, solicit or otherwise attempt to induce any of the Relevant Employees who have accepted offers of employment with an Acquirer to terminate his or her employment with the Acquirer; *PROVIDED, HOWEVER,* that Respondents may:

1. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at Relevant Employees; or

2. Subject to Paragraph V.F, above, hire Relevant Employees who apply for employment with Respondents, as long as such employees were not solicited by Respondents in violation of this Paragraph V; *PROVIDED FURTHER, HOWEVER,* that this Paragraph V shall not prohibit Respondents from making offers of employment to or employing any Relevant Employee if an Acquirer has notified Respondents in writing that the Acquirer does not intend to make an offer of employment to that employee, or where such an offer has been made and the employee has declined the offer, or where the employee's employment has been terminated by the Acquirer.

VI. Transition Assistance

IT IS FURTHER ORDERED that, at the request of an Acquirer, for a period not to exceed one (1) year, or as otherwise approved by the Commission, and in a manner (including pursuant to an agreement) that receives the prior approval of the Commission:

A. Respondents shall provide Transitional Services to the Acquirer sufficient to enable the Acquirer to operate the Divestiture Clinics, and to provide veterinary services at the Divestiture Clinics in substantially the same manner that Respondents have operated the Divestiture Clinics; and

B. Respondents shall provide the Transitional Services required by this Paragraph VI

at substantially the same level and quality as such services are provided by Respondents at the Divestiture Clinics.

PROVIDED, HOWEVER, that Respondents shall not (i) require any Acquirer to pay compensation for Transitional Services that exceeds the Direct Cost of providing such goods and services, or (ii) terminate their obligation to provide Transitional Services because of a breach by the Acquirer of any agreement to provide such assistance unless Respondents are unable to provide such services due to such breach.

VII. Monitor

IT IS FURTHER ORDERED that:

A. Thomas Carpenter shall be appointed Monitor to ensure that Respondents expeditiously comply with all of their obligations and perform all of their responsibilities as required by the Order.

B. No later than one (1) day after the Acquisition Date, Respondents shall, pursuant to the Monitor Agreement, attached as Appendix C and Non-Public Appendix D (Compensation) to this Order, transfer to the Monitor all the rights, powers, and authorities necessary to permit the Monitor to perform his duties and responsibilities in a manner consistent with the purposes of this Order.

C. In the event a substitute Monitor is required, the Commission shall select the Monitor, subject to the consent of Agnaten, which consent shall not be unreasonably withheld. If Agnaten has not opposed, in writing, including the reasons for opposing, the selection of a proposed Monitor within 10 days after notice by the staff of the Commission to Agnaten of the identity of any proposed Monitor, Agnaten shall be deemed to have consented to the selection of the proposed Monitor. Not later than ten 10 days after appointment of a substitute Monitor, Agnaten shall execute an agreement that, subject to the prior approval of the Commission, confers on the Monitor all the rights and powers necessary to permit the Monitor to monitor Respondent's compliance with the terms of this Order and the Divestiture Agreements in a manner consistent with the purposes of this Order.

D. Respondents shall consent to the following terms and conditions regarding the powers, duties, authorities, and responsibilities of the Monitor:

1. The Monitor shall have the power and authority to monitor Respondents' compliance with the terms of this Order and the Divestiture Agreements, and shall exercise such power and authority and carry out the duties and responsibilities of the Monitor in a manner consistent with the purposes of this Order and in consultation with the Commission, including, but not limited to:

a. Ensuring that Respondents expeditiously comply with all obligations and perform all responsibilities as required by this Order, and the Divestiture Agreements;

b. Monitoring any transition services agreements; and

c. Ensuring that Confidential Business Information is not received or used by Respondents, except as allowed in this Order.

2. The Monitor shall serve as an independent third party and not as an employee or agent of any Respondent or of the Commission.

3. The Monitor shall serve for such time as is necessary to monitor Respondents' compliance with the provisions of this Order and the Divestiture Agreements.

4. Subject to any demonstrated legally recognized privilege, the Monitor shall have full and complete access to Respondents' personnel, books, documents, records kept in the ordinary course of business, facilities and technical information, and such other relevant information as the Monitor may reasonably request, related to Respondents' compliance with their obligations under this Order and the Divestiture Agreements. Respondents shall cooperate with any reasonable request of the Monitor and shall take no action to interfere with or impede the Monitor's ability to monitor Respondents' compliance with this Order and the Divestiture Agreements.

5. The Monitor shall serve, without bond or other security, at the expense of Respondents, on such reasonable and customary terms and conditions as the Commission may set. The Monitor shall have authority to employ, at the expense of Respondent Agnaten, such consultants, accountants, attorneys and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities. The Monitor shall account for all expenses incurred, including fees for services rendered, subject to the approval of the Commission.

6. Respondent Agnaten shall indemnify the Monitor and hold the Monitor harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Monitor's duties, including all reasonable fees of counsel and other reasonable expenses incurred in connection with the preparations for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Monitor.

7. Respondent Agnaten shall report to the Monitor in accordance with the requirements of this Order and/or as otherwise provided in any agreement approved by the Commission. The Monitor shall evaluate the reports submitted to the Monitor by Respondent Agnaten, and any reports submitted by the Acquirer with respect to the performance of Respondent's obligations under this Order and the Divestiture Agreements.

8. Within one (1) month from the date the Monitor is appointed pursuant to this Paragraph VII, every 60 days thereafter, and otherwise as requested by the Commission, the Monitor shall report in writing to the Commission concerning performance by Respondents of their obligations under this Order, and the Divestiture Agreements.

9. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER*, such agreement shall not restrict the Monitor from providing any information to the Commission.

E. The Commission may, among other things, require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants, to sign an appropriate confidentiality agreement relating to Commission materials and information received in connection with the performance of the Monitor's duties.

F. If the Commission determines that the Monitor has ceased to act or failed to act diligently, the Commission may appoint a substitute Monitor in the same manner as provided in this Paragraph VII.

G. The Commission may on its own initiative, or at the request of the Monitor, issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order and the Divestiture Agreements.

H. A Monitor appointed pursuant to this Order may be the same Person appointed as a Divestiture Trustee pursuant to this Order.

VIII. Divestiture Trustee

IT IS FURTHER ORDERED that:

A. If Respondents have not fully complied with the obligations imposed by Paragraph II of this Order, the Commission may appoint a Divestiture Trustee to divest any remaining Divestiture Clinics, and perform Respondents' other obligations in a manner that satisfies the requirements of this Order. In the event that the Commission or the Attorney General brings an action pursuant to Section

5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to divest the required assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Paragraph VIII shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to Section 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by Respondents to comply with this Order.

B. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, and stated in writing their reasons for opposing, the selection of any proposed Divestiture Trustee within ten 10 days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

C. Not later than ten 10 days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effectuate the divestitures required by, and satisfy the additional obligations imposed by, this Order.

D. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Paragraph VIII, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to effectuate the divestitures required by, and satisfy the additional obligations imposed by, this Order.

2. The Divestiture Trustee shall have one (1) year after the date the Commission approves the trust agreement described herein to effectuate the required divestitures, which shall be subject to the prior approval of the Commission. If, however, at the end of the one (1) year period, the Divestiture Trustee has submitted a plan to divest, or believes the divestitures can be achieved within a reasonable time, the divestiture period may be extended by the Commission, or, in the case of a court-appointed Divestiture Trustee, by the court; *PROVIDED, HOWEVER,* the Commission may extend the divestiture period only 2 times.

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be

divested by this Order and to any other relevant information, as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestiture. Any delays caused by Respondents shall extend the time for divestiture under this Paragraph VIII for a time period equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court.

4. The Divestiture Trustee shall use commercially reasonable efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. Each divestiture shall be made in the manner and to an Acquirer as required by this Order; *PROVIDED, HOWEVER,* if the Divestiture Trustee receives bona fide offers from more than one acquiring Person, and if the Commission determines to approve more than one such acquiring Person, the Divestiture Trustee shall divest to the acquiring Person selected by Respondents from among those approved by the Commission; *PROVIDED FURTHER, HOWEVER,* that Respondents shall select such Person within 5 days after receiving notification of the Commission's approval.

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the

preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence, willful or wanton acts, or bad faith by the Divestiture Trustee.

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order.

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every 30 days concerning the Divestiture Trustee's efforts to accomplish the divestiture.

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement; *PROVIDED, HOWEVER,* such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

10. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, representatives, and assistants to sign an appropriate confidentiality agreement relating to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties and responsibilities.

E. If the Commission determines that the Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph VIII.

F. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestitures required by this Order.

IX. Prior Notice

IT IS FURTHER ORDERED that:

A. For a period of 10 years from the date this Order is issued, Respondent Agnaten shall not, without providing advance written notification to the Commission in the manner described in this Paragraph IX:

1. Acquire any assets of, or financial interest in, any veterinary clinic identified, or located in, the Relevant Notice Areas; or

2. Enter into any contract to participate in the management, operation, or

control of any veterinary clinic identified, or located in, the Relevant Notice Areas.

B. Said notification shall be given on the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations as amended (herein referred to as "the Notification"), 16 C.F.R. § 803 App., and shall be prepared and transmitted in accordance with the requirements of that Part, except that no filing fee will be required for any such notification, notification shall be filed with the Secretary of the Commission, notification need not be made to the United States Department of Justice, and notification is required only of Respondents and not of any other party to the transaction. Respondents shall provide the Notification to the Commission at least 30 days prior to consummating the transaction (hereinafter referred to as the "first waiting period"). If, within the first waiting period, representatives of the Commission make a written request for additional information or documentary material (within the meaning of 16 C.F.R. § 803.20), Respondents shall not consummate the transaction until 30 days after submitting such additional information or documentary material. Early termination of the waiting periods in this Paragraph IX may be requested and, where appropriate, granted by letter from the Bureau of Competition. *PROVIDED, HOWEVER*, that prior notification shall not be required by this Paragraph IX for a transaction for which Notification is required to be made, and has been made, pursuant to Section 7A of the Clayton Act, 15 U.S.C. § 18a.

X. Compliance

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. Notify Commission staff via email at bccompliance@ftc.gov of the Acquisition Date and of the Divestiture Date no later than 5 days after the occurrence of each; and

2. Submit the complete Divestiture Agreement to the Commission at ElectronicFilings@ftc.gov and bccompliance@ftc.gov no later than 30 days after the Divestiture Date.

B. Respondent Agnaten shall file verified written reports ("compliance reports") in accordance with the following:

1. Respondents shall submit interim compliance reports 30 days after the Order is issued, and every 60 days thereafter until Respondents have fully complied with the provisions of Paragraph II and Paragraph V (where applicable); annual compliance reports one year after the date this Order is issued, and annually for the next 5 years on the anniversary of that date;

and additional compliance reports as the Commission or its staff may request;

2. Each compliance report shall contain sufficient information and documentation to enable the Commission to determine independently whether Respondents are in compliance with the Order. Conclusory statements that Respondents have complied with their obligations under the Order are insufficient. Respondents shall include in their reports, among other information or documentation that may be necessary to demonstrate compliance:

   a. a full description of the measures Respondents have implemented or plan to implement to ensure that they have complied or will comply with each paragraph of the Order; and

   b. an identification of any and every Relevant Employee hired by Respondents, including a detailed explanation as to why hiring that Relevant Employee does not violate this Order.

3. Respondent Agnaten shall retain all material written communications with each party identified in the compliance report and all non-privileged internal memoranda, reports, and recommendations concerning fulfilling Respondent's obligations under the Order and provide copies of these documents to Commission staff upon request.

4. Respondent Agnaten shall verify each compliance report in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or another officer or employee specifically authorized to perform this function. Respondent shall submit an original and 2 copies of each compliance report as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a), including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov. In addition, Respondent shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

XI. Change in Respondents

IT IS FURTHER ORDERED that Respondent Agnaten shall notify the Commission at least 30 days prior to:

A. Any proposed dissolution of Agnaten SE;

B. Any proposed acquisition, merger, or consolidation of Agnaten SE; and

C. Any other change in Respondent Agnaten including, but not limited to,

assignment and the creation or dissolution of subsidiaries, if such change may affect compliance obligations arising out of this Order.

XII. Access

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon 5 days' notice to the applicable Respondent made to its principal United States offices, registered office of their United States subsidiaries, or headquarters addresses, such Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of such Respondent and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of such Respondent related to compliance with this Order, which copying services shall be provided by such Respondent at the request of the authorized representative(s) of the Commission and at the expense of such Respondent; and

B. The opportunity to interview officers, directors, or employees of such Respondent, who may have counsel present, related to compliance with this Order.

XIII. Term

IT IS FURTHER ORDERED that this Order shall terminate on April 9, 2030.

By the Commission.

April J. Tabor
Acting Secretary

FTC Approves Otto Bock HealthCare North America, Inc.'s Application to Divest Assets It Gained through Acquisition of FIH Group Holdings, LLC

Divestiture preserves competition for microprocessor prosthetic knees

December 1, 2020

Tags: Competition | Bureau of Competition | Merger | Horizontal | Health Care | Medical Equipment and Devices

The Federal Trade Commission has approved an application by prosthetics manufacturer Otto Bock HealthCare North America, Inc. to divest to Proteor, Inc. certain assets it acquired when it consummated its acquisition of FIH Group Holdings, LLC, also known as Freedom Innovations, including all microprocessor prosthetic knee, or MPK, products and technology.

The application notes that Proteor, a French company with U.S. headquarters in Tempe, Arizona, is a well-established and reputable worldwide manufacturer and supplier of lower-limb prosthetic devices. Additionally, according to the divestiture application, the proposed divestiture would accomplish the final order's purposes by ensuring the continued operation of Freedom Innovations' MPK business within Proteor and by remedying the lessening of competition that was alleged in the complaint.

In November 2019, upholding an administrative law judge's decision, the Federal Trade Commission unanimously found that the merger was anticompetitive, and it issued the final order requiring Ottobock to divest the Freedom Innovations business, with limited exceptions. Upon approval of the divestiture application by the Commission, Ottobock will immediately withdraw its petition for re[illegible] which is currently stayed by the U.S. Court of Appeals for the D.C. Circuit.

AR_001071

The Commission vote to approve the application was 5-0.

In the Matter of

The Procter & Gamble Company,
a corporation

and

Billie, Inc.,
a corporation.

Docket No. 9400

PUBLIC VERSION

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act ("FTC Act"), and by virtue of the authority vested in it by the FTC Act, the Federal Trade Commission ("Commission"), having reason to believe that Respondents The Procter & Gamble Company ("P&G") and Billie, Inc. ("Billie") have executed a merger agreement in violation of Section 5 of the FTC Act, 15 U.S.C. § 45, which if consummated would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint pursuant to Section 5(b) of the FTC Act, 15 U.S.C. § 45(b), and Section 11(b) of the Clayton Act, 15 U.S.C. § 21(b), stating its charges as follows:

I. NATURE OF THE CASE

1. In late 2017, Billie, Inc. launched an online only, direct-to-consumer challenge to P&G's women's razor dominance. Among other things, Billie charged a low price, employed savvy marketing designed to draw attention to the "pink tax"—that is, the practice of charging a premium for razors marketed to women that are substantially similar to razors marketed to men—and positioned the Billie product as "anti-Venus."

2. Two years later, Billie had grown substantially and at P&G's expense. P&G now seeks to acquire Billie on the eve of Billie's expansion into brick-and-mortar retail. As P&G's CEO for Grooming observed, the "big" value from this acquisition to P&G is the "removal of the competitive threat." The removal of Billie as an independent competitor eliminates important and growing head-to-head competition between P&G and Billie, and is likely to harm consumers through higher prices, among other harms.

3. P&G is the market leader in the sale of women's and men's wet shave razors. Wet shave razors require the use of water and, typically, a shave prep product such as shaving cream, shave gel, or shave soap. Nearly all wet shave razors are system or disposable razors. System razors consist of a reusable handle and a detachable razor cartridge that a consumer can replace with refill cartridges. Disposable razors comprise a handle with permanently affixed blades that consumers throw away after use.

4. Launched in 2017, and backed by venture capital firms including Goldman Sachs and celebrity investors Venus and Serena Williams, Billie is a fast-growing online company that sells a mid-tier women's system razor. Billie built its brand by finding an underserved customer base of Generation Z and Millennial women. Billie won their business by, among other things, offering a low price and attacking the incumbents' perceived practice of charging a pink tax for women's razors. Billie also emphasized a "female-first" message. Billie challenged traditional portrayals of women's razors. Billie became the first brand to use advertisements that normalized female body hair, which many saw as a critique of P&G Venus's advertising. Billie targeted P&G from the start, with a vision to "[d]ethrone Gillette Venus to become the number one women's razor brand in the U.S." Billie's objective was to shake up the women's shaving category, and even P&G recognized Billie as "anti-Venus."

5. The Proposed Acquisition is likely to result in significant harm by eliminating competition between the market leader and an important and growing head-to-head competitor. The Proposed Acquisition arrests Billie's progress as it was on the cusp of expanding into brick-and-mortar retail stores, which would have greatly heightened the already fierce competition between P&G and Billie.

6. P&G's CEO of Grooming viewed the "big" value from this acquisition as the "removal of the competitive threat." P&G's Senior Vice President of Grooming in North America encouraged others to "think of" the value created by acquiring Billie in terms of the "reduction of the competitive threat."

7. The Proposed Acquisition would significantly increase concentration in relevant antitrust markets that are already highly concentrated today. As a result, the Proposed Acquisition is presumptively anticompetitive. Current market share statistics and concentration measures understate Billie's future competitive significance, however, because Billie is a fast-growing brand that would grow even faster after its expansion into brick-and-mortar retail.

8. Respondents cannot show that the Proposed Acquisition will induce new entry or repositioning by existing razor suppliers that would be timely, likely, or sufficient to counteract the anticompetitive effects of the Proposed Acquisition. Billie's first-mover advantage targeting Millennial and Gen Z women online, the high costs of and challenges inherent in establishing a razor brand, the rising costs of online advertising, and the now crowded space at brick-and-mortar retailers (due to P&G's launch of Joy, Harry's launch of Flamingo, and Billie's likely addition to [redacted] among other things, combine to make entry or repositioning in response to the merger unlikely.

9. Respondents cannot show cognizable, merger-specific efficiencies that would offset the likely and substantial competitive harm resulting from the Proposed Acquisition.

II. JURISDICTION

10. Respondents are, and at all relevant times have been, engaged in activities in or affecting "commerce" as defined in Section 4 of the FTC Act, 15 U.S.C. § 44, and Section 1 of the Clayton Act, 15 U.S.C. § 12.

11. The Acquisition constitutes a merger subject to Section 7 of the Clayton Act, 15 U.S.C. § 18.

III. RESPONDENTS

12. P&G is a publicly held company, headquartered in Cincinnati, Ohio, that specializes in the manufacture and sale of consumer goods. P&G generated net sales across all business units of approximately $71 billion for the fiscal year ending June 30, 2020. P&G manufactures, produces, and sells a variety of razors and shave products online and in brick-and-mortar retail, under brands that include Gillette, Venus, Joy, Braun, Bevel, and The Art of Shaving. P&G generated approximately $6 billion in FY 2020 net sales from its Global Grooming business unit, which encompasses most of its razors and ancillary products. From January 2020 to March 2020, P&G generated approximately [redacted] in revenue in wet shave products, [redacted] of which was attributable to women's wet shave razors.

13. Billie, Inc. ("Billie") is a privately held company based in New York, New York, that sells a five-blade wet shave systems razor through its DTC platform under the Billie brand. Billie [redacted] Billie also sells shave cream, body wash, lotion, lip balm, dry shampoo, and facial wipes. Billie's 2019 sales of women's system razors accounted for [redacted] in net sales. [redacted]

IV. THE ACQUISITION

14. On December 31, 2019, P&G and Billie signed an Agreement and Plan of Merger, pursuant to which P&G will acquire 100 percent of the voting securities of Billie for approximately [redacted]

V. RELEVANT MARKETS

15. A relevant market in which to evaluate the effects of the Proposed Acquisition is no broader than production and sale of wet shave system razors and disposable razors ("wet shave razors") sold in the United States.

16. It is also appropriate to analyze the effects of the Proposed Acquisition in at least two narrower relevant markets within the wet shave razor market: (1) the market for the production and sale of women's wet shave razors in the United States and (2) the market for the production and sale of wet shave system razors in the United States.

A. Relevant Product Markets

17. The relevant product market is no broader than the production and sale of wet shave razors, which includes system and disposable razors [redacted] that is, customers purchase razors both online and in brick and mortar retail stores.

18. System razors consist of a reusable handle and a detachable razor cartridge. Consumers typically replace the razor cartridge with refill cartridges sold by the same manufacturer without the need to replace the handle.

19. Disposable razors comprise a single assembly of handle with permanently affixed blade(s). Consumers discard disposable razors after they finish using them.

20. Other forms of hair removal, such as electric (or "dry") shaving razors and alternative hair removal products (*e.g.*, hair removal creams or waxes) are not close substitutes for wet shave razors. Industry participants and Respondents recognize that wet shave razors are distinct from dry shave razors and alternative hair removal products and sell these products at distinct price points to distinct consumers.

21. Customers would not switch from wet shave razors to dry shave razors or alternative hair removal products in sufficient numbers to defeat a small but significant non-transitory increase in price ("SSNIP") by a hypothetical monopolist of wet shave razors.

22. The Proposed Acquisition would produce anticompetitive effects within at least two narrower relevant markets, in addition to producing anticompetitive effects in the broader wet shave razor market. The Proposed Acquisition would harm competition in narrower relevant markets for the production and sale of: (i) women's wet shave razors and (ii) system razors (including both women's and men's).

23. Industry participants recognize narrower product markets divided along gender lines (women's or men's) and by product type (system or disposable). Industry participants recognize each segment as distinct from others and conduct their business accordingly.

24. In each of these narrower relevant markets, a hypothetical monopolist could profitably impose a SSNIP on purchasers of the relevant product.

B. Relevant Geographic Market

25. The relevant geographic market in which to analyze the Proposed Acquisition is no broader than the United States. Razor suppliers negotiate distinct terms of sale with customers for different countries and, in some cases, offer distinct product assortments in different countries. Respondents and other industry participants generally do not make granular or distinctive purchasing or sale decisions for smaller regions within the United States.

26. A hypothetical monopolist of wet shave razors in the United States profitably could impose a SSNIP on U.S. customers. Customers based in the United States cannot defeat a price increase in the United States via arbitrage or substitution.

VI. MARKET PARTICIPANTS

27. P&G is the leading manufacturer of branded systems razors globally and in the United States. P&G is also a major producer of disposable razors. P&G's razor brands include the Gillette family (including the Joy and Venus women's razor brands), Braun, Bevel, and The Art of Shaving. P&G holds a dominant market position in the sale of wet shave razors, accounting for more than [redacted] of sales by revenue in some relevant markets. P&G manufactures its own blades and cartridges for its wet shave razor brands.

28. Billie is a fast-growing, digitally-native company that began selling a five-blade women's system razor in November 2017. [redacted]

29. Edgewell is a consumer products company that sells a full line of system and disposable razors marketed separately to men and women. Edgewell owns over 25 established brand names, including razor brands Schick and Personna/American Safety Razor. Edgewell also sells private label wet shave products and components in North America through its Private Brands Group to retailers and non-integrated razor companies [redacted].

30. Société BiC ("BiC") manufactures and sells consumer products including disposable lighters, pens, and razors. [redacted] of BiC's wet shave razor sales in the United States are men's and women's disposable razors, although BiC also sells a system razor. [redacted]

31. Harry's Inc. ("Harry's") manufactures and sells five-blade men's and women's system razors. Harry's sells its men's system razor under the Harry's brand and its women's system razor under the Flamingo brand. The vast majority of Harry's branded razor sales are made under the Harry's brand. [redacted] Harry's does not manufacture or sell disposable razors.

32. Dollar Shave Club, Inc. ("Dollar Shave Club"), now owned by Unilever plc/Unilever N.V. ("Unilever"), sells system razors purchased predominantly by men. Dollar Shave Club does not manufacture or sell disposable razors.

VII. THE PROPOSED ACQUISITION IS PRESUMPTIVELY ILLEGAL

33. Under the 2010 U.S. Department of Justice and Federal Trade Commission Horizontal Merger Guidelines ("Merger Guidelines"), a post-acquisition market concentration level above 2500 points, as measured by the Herfindahl-Hirschman Index ("HHI"), and an increase in HHI of more than 200 points renders an acquisition presumptively unlawful. Transactions resulting in highly concentrated markets—markets with an HHI above 2500 points—with an HHI increase of more than 100 points potentially raise significant competitive concerns and warrant scrutiny. The HHI is calculated by totaling the squares of the market shares of every firm in the relevant market.

34. The market for the production and sale of wet shave razors in the United States is already highly concentrated, with an HHI of over 3000. The Proposed Acquisition increases the

concentration by more than 125 points and therefore potentially raises significant competitive concerns and warrants scrutiny.

35. The market for the production and sale of women's wet shave razors in the United States is already highly concentrated, with an HHI of more than 2500. The Proposed Acquisition increases the concentration in this market by more than 300 points and is therefore presumptively illegal.

36. The market for the production and sale of women's and men's wet shave system razors in the United States is already highly concentrated, with an HHI of over 4000. The Proposed Acquisition increases the concentration in this market by more than 200 points and is therefore presumptively illegal.

37. Changes in HHI based on current market shares understate the competitive significance of the Proposed Acquisition because Billie is rapidly growing. Billie was about to expand its sales into additional channels, particularly brick-and-mortar retail, before the Proposed Acquisition arrested its progress.

VIII. ANTICOMPETITIVE EFFECTS

38. In each of the relevant markets, the Proposed Acquisition would eliminate substantial and growing head-to-head competition between P&G and Billie, likely leading to higher prices and other harm for consumers.

39. P&G has long been the market leader in sales of women's and men's wet shave system razors. Billie saw an opportunity to attack P&G's position and shake up the category by entering the market positioned as an "anti-Venus" razor fighting the practice of charging women a "pink tax."

A. Billie Competes Aggressively Against P&G Today

40. In November 2017, Billie began selling a $9 woman's system razor through an online direct-to-consumer ("DTC") platform. Billie targeted Generation Z and Millennial women as customers, with "female first" messaging that challenged traditional marketing approaches to women's razors.

41. Billie successfully built its brand through marketing campaigns focused on fighting the pink tax and normalizing body hair on women. As Billie's website explains, "[w]e noticed that women were overpaying for razors and shamed for having body hair. Kind of a double whammy, when you think about it. So, we did away with the Pink Tax and put body hair on the big screen."

42. Billie grew from [redacted] in net sales in 2017 to [redacted] in net sales in 2018. Billie's growth caught P&G's attention, especially after Harry's and Dollar Shave Club's recent

disruption of P&G's stable market leadership in men's wet shave razors.[1] A mid-2018 draft memorandum discussing [redacted]

43. By August 2018, P&G set up a women's system razor DTC business, called Venus Direct, as a competitive response to Billie. Venus Direct offered customers a subscription service featuring the same line-up of Venus razors available in brick-and-mortar stores.

44. P&G's new DTC business did not stop Billie's growth. [redacted]

45. From the start, Billie positioned its product to attack P&G's Gillette Venus product. Billie told its initial investors that its goal was to "Dethrone Gillette Venus." P&G noted the attack: "Billie has positioned itself as notably 'anti-Venus,' with negative references to portraying women as 'a goddess just for shaving.'"

46. P&G, for its part, was "being proactively paranoid," according to its CEO of Grooming. In addition to its DTC offering, in March 2019, P&G launched its Joy razor exclusively with Walmart. Joy became part of P&G's plan to offer a youthful-oriented mid-tier female razor, much like Billie. [redacted] P&G launched Joy quickly as an online DTC brand [redacted]

47. Joy and Billie target a similar age group. P&G hoped that they could get Generation Z and Millennial women to join the Joy family before Billie (or Flamingo) could sign them up.

48. Joy's branding has a number of resemblances to the Billie product. Upon seeing the Joy razor, Billie's cofounder wrote that Joy "just ripped off a bunch of our stuff," even "the tile choice of the bathroom." Industry observers likewise recognize that Joy and Billie are close competitors.

49. P&G considered Billie's vocal stance on the "pink tax" and Billie's pricing before setting Joy's suggested retail price, among other factors. In response to Joy's launch, Billie's cofounder guessed that Joy [redacted]

50. Joy was priced at $8.97 at Walmart (Joy prices at other locations vary). Billie prices its razor at $9.

[1] *See In the Matter of Edgewell Personal Care Company and Harry's, Inc.*, FTC Docket No. 9390, Complaint (Filed Feb. 3, 2020) (describing disruption by Harry's and Dollar Shave Club in men's razors).

B. The Proposed Acquisition Halted Billie's Expansion Into Brick-And-Mortar Retail, Which Would Have Increased Competition Between P&G And Billie

51. Billie was poised to expand into brick-and-mortar [redacted] prior to the P&G deal.

52. Billie and [redacted] understood that Billie needed to transition from a DTC-only brand to one that is available at brick-and-mortar retailers as well. [redacted] believed that expanding into brick-and-mortar stores would help Billie achieve profitability. [redacted]

53. [redacted]

[redacted] P&G worried about Billie's expansion into retail and took steps with retailers with the hope of delaying or blocking Billie's expansion. [redacted]

55. Nevertheless, Billie was close to completing negotiations to expand into retail before the Proposed Acquisition abruptly halted its talks. [redacted]

56. [redacted]

57. [redacted] If Billie were to resume those negotiations, there is no reason to doubt that Billie would successfully conclude its negotiations to expand into brick-and-mortar retail stores. [redacted] Regardless of the Proposed Acquisition, Billie will successfully expand into brick and mortar retail.

58. If Billie expands into brick-and-mortar retail, it will do so at P&G's (and others') expense. Regardless of which retailer or retailers agree to carry Billie, Billie is likely to take significant sales and shelf space from P&G. [redacted]

59. P&G's senior grooming executives recognize the heightened competition that would follow Billie's expansion into brick-and-mortar retail. They viewed preventing Billie's retail expansion—in a posture where Billie was a competitor to P&G—as a primary motivation for pursuing the Proposed Acquisition.

60. In mid-2019, P&G Senior Vice President of Grooming provided a list of ways in which P&G would "create value from this [the purchase of Billie]." He included on his list the "reduction of the competitive threat." P&G's CEO of Grooming responded to the list: "The big one is removal of the competitive threat." A P&G analyst observed that the proposed transaction would remove a significant disruptor from the market: "This is big news!"

61. [redacted]

IX. LACK OF COUNTERVAILING FACTORS

62. Respondents cannot demonstrate that new entry or expansion by existing firms would be timely, likely, or sufficient to offset the anticompetitive effects of the Acquisition.

63. Operating a successful DTC business requires a product or service that is delivering an unmet need in a category. Among other things, Billie enjoyed a first-mover advantage that led to success in the DTC channel, which, in turn, led to interest from brick-and-mortar retailers that a new entrant could not easily replicate. Billie identified and exploited a previously unsatisfied consumer need for a mid-tier women's system razor appealing to Generation Z and Millennial women. Billie earned its loyal customer base and reputation through its marketing campaigns against P&G and other incumbents' practice of charging a pink tax, among other things.

64. In the words of one of Billie's co-founders: "it's harder to enter into the market as a second mover." Any new entrant will find it difficult to secure a sufficient return on investment because Billie already secured the most readily available DTC online customers. Attracting new online customers will now require higher advertising spend. A new entrant is unlikely to be able to enter through retailers because retailers are typically not interested in carrying a razor supplier that has not previously shown an ability to secure sales online. A new entrant is also unlikely to be able to enter as an online DTC brand to pave a path to retailers as did Harry's and Billie because of the high cost of online advertising and Billie's first-mover advantage.

65. In addition, the costs of online advertising are increasing significantly year over year. Any new DTC entrant would face higher costs than Billie did. These growing costs are a stronger entry barrier than Billie faced.

66. The failure of current "second movers" to replicate Billie's significance in the woman's razor space confirms that successful new entry or repositioning is unlikely. No DTC company has been able to replicate Billie's online success to date. Established razor manufacturers Harry's and P&G followed Billie's successful online launch with launches of women's system razors at similar price points (Flamingo and Joy, respectively). Despite backing from established razor companies and access to mass retailers, these products have lagged behind

Billie in market share and sales. The space is now crowded, further impeding entry or repositioning in response to the anticompetitive effect of the acquisition.

67. Respondents cannot demonstrate cognizable and merger-specific efficiencies that would be sufficient to rebut the presumption and evidence of the Proposed Acquisition's likely anticompetitive effects.

68. Respondents also cannot demonstrate that Billie's business will fail and that its assets will exit the market absent the proposed acquisition.

X. VIOLATION

Count I – Illegal Agreement

69. The allegations of Paragraphs 1 through 68 above are incorporated by reference as though fully set forth.

70. The Merger Agreement constitutes an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

Count II – Illegal Acquisition

71. The allegations of Paragraphs 1 through 70 above are incorporated by reference as though fully set forth.

72. The Merger, if consummated, may substantially lessen competition in the relevant markets in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and is an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

NOTICE

Notice is hereby given to the Respondents that the twenty-second day of June, 2021, at 10:00 a.m., is hereby fixed as the time, and the Federal Trade Commission offices at 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580, as the place, when and where an evidentiary hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission Act and the Clayton Act to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth (14th) day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted. If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material facts to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint and, together with the complaint, will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under Rule 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions, and a final order disposing of the proceeding.

The Administrative Law Judge shall hold a prehearing scheduling conference not later than ten (10) days after the Respondents file their answers. Unless otherwise directed by the Administrative Law Judge, the scheduling conference and further proceedings will take place at the Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580. Rule 3.2l(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (but in any event no later than five (5) days after the Respondents file their answers). Rule 3.3l(b) obligates counsel for each party, within five (5) days of receiving the Respondents' answers, to make certain initial disclosures without awaiting a discovery request.

NOTICE OF CONTEMPLATED RELIEF

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the Merger challenged in this proceeding violates Section 5 of the Federal Trade Commission Act, as amended, and/or Section 7 of the Clayton Act, as amended,

the Commission may order such relief against Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. If the Merger is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores two or more distinct and separate, viable and independent businesses in the relevant markets, with the ability to offer such products and services as P&G and Billie were offering and planning to offer prior to the Merger.

2. A prohibition against any transaction between P&G and Billie that combines their businesses in the relevant markets, except as may be approved by the Commission.

3. A requirement that, for a period of time, P&G and Billie provide prior notice to the Commission of acquisitions, mergers, consolidations, or any other combinations of their businesses in the relevant markets with any other company operating in the relevant markets

4. A requirement to file periodic compliance reports with the Commission.

5. Any other relief appropriate to correct or remedy the anticompetitive effects of the transaction or to restore Billie as a viable, independent competitor in the relevant markets.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C., this eighth day of December, 2020.

By the Commission, Commissioner Wilson dissenting.

In the Matter of	)	
DaVita Inc.,	)	**DECISION AND ORDER**
a corporation, and	)	**Docket No. C-**
Total Renal Care, Inc.,	)	
a corporation.	)	

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of the proposed acquisition by Respondent Total Renal Care, Inc., a wholly owned subsidiary of Respondent DaVita Inc. ("Respondents"), of certain assets comprising dialysis clinics owned and operated by the University of Utah. The Commission's Bureau of Competition prepared and furnished to Respondents the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45 (collectively "Acts").

Respondents and the Bureau of Competition executed an Agreement Containing Consent Orders ("Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint, (2) a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true, (3) waivers and other provisions as required by the Commission's Rules, and (4) a proposed Decision and Order and Order to Maintain Assets.

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. The Commission duly

considered any comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34. Now, in further conformity with the procedure described in Rule 2.34, the Commission makes the following jurisdictional findings and issues the following Decision and Order ("Order"):

1. Respondent DaVita Inc. is a corporation organized, existing, and doing business under, and by virtue of, the laws of the State of Delaware, with its executive offices and principal place of business located at 2000 16th Street, Denver, Colorado 80202.

2. Respondent Total Renal Care, Inc. is a corporation organized, existing, and doing business under, and by virtue of, the laws of the State of California, with its executive offices and principal place of business located at 601 Hawaii Street, Segundo, California 90245.

.

3. The Federal Trade Commission has jurisdiction over the subject matter of this proceeding and of Respondents, and this proceeding is in the public interest.

ORDER

I. Definitions

IT IS ORDERED that, as used in this Order, the following definitions shall apply:

A. "DaVita" or "Respondent" means DaVita Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, including Total Renal Care, Inc., partnerships, divisions, groups, and affiliates controlled by DaVita Inc., and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

B. "Total Renal Care" or "Respondent" means Total Renal Care, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by Total Renal Care, Inc., and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

C. "University of Utah" means the public research University of the State of Utah, with its office and principal place of business located at 201 Presidents Circle, Salt Lake City, Utah 84112-9018.

D. "Respondents" means both DaVita and Total Renal Care.

E. "Commission" means the Federal Trade Commission.

F. "Acquirer" means: (1) Sanderling or (2) any other Person that acquires the Divestiture Clinic Assets pursuant to this Order.

G. "Acquisition" means the proposed acquisition described in the Asset Purchase Agreement dated September 24, 2021, between Total Renal Care, Inc., a corporation owned by DaVita Inc., and the University of Utah.

H. "Acquisition Date" means the date the Acquisition is consummated.

I. "Business Information" means books, records, data, and information, wherever located and however stored, including electronic medical records, documents, written information, graphic materials, and data and information in electronic format. Business Information includes records and information relating to sales, marketing, advertising, personnel, accounting, business strategy, information technology systems, customers, suppliers, research and development, registrations, licenses, permits (to the extent transferable), and operations. For clarity, Business Information includes rights and control of any owner of a Divestiture Clinic over information and material provided to any other Person.

J. "Clinic" means a facility that provides outpatient hemodialysis or peritoneal dialysis services to patients suffering from kidney disease.

K. "Clinic Physician Contract" means all agreements to provide the services of a Physician to a Clinic, regardless of whether any of the agreements are with a Physician or with a medical group, including, agreements for the services of a medical director for the Clinic and "joinder" agreements with Physicians in the same medical practice as a medical director of the Clinic.

L. "Confidential Business Information" means all Business Information not in the public domain that is related to or used in connection with the Divestiture Clinic Assets or the Dialysis Business of any Divestiture Clinic, except for any information that was or becomes generally available to the public other than as a result of disclosure by Respondents.

M. "Consent" means any approval, consent, ratification, waiver, or other authorization.

N. "Contract" means an agreement, contract, mutual understanding, arrangement, license agreement, lease, consensual obligation, commitment, promise and undertaking (whether written or oral and whether express or implied), whether or not legally binding.

O. "Dialysis Business" means all activities relating to the business of a Clinic, including:

1. Attracting patients to such Clinic for dialysis services;

2. Providing dialysis services to patients of such Clinic, and dealing with their physicians, including, services relating to hemodialysis and peritoneal dialysis;

3. Providing medical products to patients of such Clinic;

4. Maintaining the equipment on the premises of such Clinic, including, the equipment used in providing dialysis services to patients (which machines shall be delivered to the Acquirer in a condition that meets or exceeds all current operational, functional, and productive capabilities required to perform dialysis);

5. Purchasing supplies and equipment for such Clinic;

6. Negotiating leases for the premises of such Clinic;

7. Providing counseling and support services to patients receiving products or services from such Clinic;

8. Contracting for the services of medical directors for such Clinic;

9. Dealing with Payors, including, negotiating contracts with such Payors and submitting claims to such Payors; and

10. Obtaining or maintaining Governmental Permits relating to such Clinic or otherwise dealing with government entities that regulate operations of the Clinic.

P. "Direct Cost" means a cost not to exceed the actual cost of labor, materials, travel, and other expenditures. The cost of any labor included in Direct Cost shall not exceed the then-current average hourly wage rate for the employee providing such labor.

Q. "Divestiture Agreement" means

1. Asset Purchase Agreement by and between Sanderling and Total Renal Care, dated September 24, 2021, and all amendments, exhibits, attachments, agreements, and schedules thereto, attached to this Order as Nonpublic Appendix I; or

2. Any other agreement between a Respondent or the Divestiture Trustee and an Acquirer to purchase the Divestiture Clinic Assets, and all amendments, exhibits, attachments, agreements, and schedules thereto.

R. "Divestiture Clinic" means any one, or all, of the following:

1. University of Utah's Provo, UT Clinic, located at 1675 N Freedom Boulevard, Suite 15, Provo, Utah, 84604;

2. University of Utah's Payson, UT Clinic, located at 15 S 1000 E, Suite 50, Payson, Utah, 84651; and

3. University of Utah's American Fork, UT Clinic, located at 1159 E 200 N, Suite 150, American Fork, Utah, 84003.

S. "Divestiture Clinic Assets" means the rights, title, and interest in and to all property and assets, real, personal, or mixed, tangible and intangible of every kind and description, wherever located, used in or relating to the Dialysis Business of each Divestiture Clinic, other than the Excluded Assets, including:

1. All rights under the Clinic's Physician Contracts;

2. All rights to all of the leasehold interest in the real property at which the Divestiture Clinic is located and the building and improvements thereon (including rights in any related parking facility or lot);

3. At least a three-week supply of all general medical products regularly used in the conduct of the Dialysis Business at the Divestiture Clinic that are intended for one-time or temporary use (*e.g.*, gloves, needles, paper products, syringes, and wipes) and any other medical supplies, including dialysis supplies and pharmaceuticals including erythropoietin;

4. At least a three-week supply of janitorial supplies, including such supplies as are required to prevent exposure to potentially infectious materials;

5. All Fixtures and Equipment;

6. All computers and computer equipment, printers, software and databases, routers, servers, switches and time clocks and documentation relating to any of the foregoing used or held for use in the operation of the Dialysis Business of each of the Divestiture Clinics (all cabling within each facility shall remain in place), which shall also include access to any computer databases or patient information connected or related to each Divestiture Clinic held outside the respective Divestiture Clinic;

7. All Intellectual Property;

8. All Business Information;

9. Respondents' Medicare and Medicaid provider numbers, to the extent transferable;

10. All permits and licenses, to the extent transferable; and

11. Any other assets that are used in, or necessary for, the Dialysis Business of a Divestiture Clinic.

Provided, however, that "Divestiture Clinic Assets" do not include Excluded Assets.

T. "Divestiture Clinic Employee" means any full-time, part-time, or contract individual employed in the Dialysis Business of the Divestiture Clinic, as of September 1, 2020.

U. "Divestiture Date" means the date on which Respondents (or the Divestiture Trustee) close on a transaction to divest the Divestiture Clinic Assets.

V. "Divestiture Trustee" means the Person appointed by the Commission pursuant to Section IX of this Order.

W. "Employee Information" means for each Divestiture Clinic Employee, to the extent permitted by law, the following information summarizing the employment history of each employee that includes:

1. Name, job title or position, date of hire, and effective service date;

2. Specific description of the employee's responsibilities;

3. The base salary or current wages;

4. Most recent bonus paid, aggregate annual compensation for Respondent's last fiscal year, and current target or guaranteed bonus, if any;

5. Written performance reviews for the past three years, if any;

6. Employment status (*i.e.,* active or on leave or disability; full-time or part-time);

7. Any other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

8. At the Acquirer's option, copies of all employee benefit plans and summary plan descriptions (if any) applicable to the employee.

X. "Excluded Assets" means those assets listed on Appendix II.

Y. "Fixtures and Equipment" means all furniture, fixtures, furnishings, machinery (including dialysis machines), equipment, supplies and other tangible personal property used or held

for use in the operation of the Dialysis Business of each of the Divestiture Clinics respectively, or if leased, the leasehold interest therein.

Z. "Governmental Permit" means all Consents, licenses, permits, approvals, registrations, certificates, rights, or other authorizations from any governmental entity necessary to effect the complete transfer and divestiture of the Divestiture Clinic Assets to the Acquirer and for such Acquirer to operate the Divestiture Clinic.

AA. "Intellectual Property" means intellectual property of any kind including patents, patent applications, mask works, trademarks, service marks, copyrights, trade dress, commercial names, internet web sites, internet domain names, inventions, discoveries, written and unwritten know-how, trade secrets, and proprietary information.

BB. "License" means a royalty-free, fully paid-up, perpetual, irrevocable, transferable, and sub-licensable license and such tangible embodiments of the licensed rights (including physical and electronic copies) as may be necessary or appropriate to enable the licensee to use the rights.

CC. "Monitor" means any Person appointed by the Commission to serve as a monitor pursuant to the Orders.

DD. "Orders" means this Order and the Order to Maintain Assets entered in this action.

EE. "Payor" means any Person that administers, pays, or insures health or medical expenses on behalf of beneficiaries or recipients including the following: government entities (*e.g.*, Medicare or Medicaid), health insurance companies; preferred provider organizations; point of service organizations; prepaid hospital, medical, or other health service plans; healthcare maintenance organizations; employers or other persons providing or administering self-insured health benefits programs; and patients who purchase medical goods or services for themselves.

FF. "Person" means any individual, partnership, corporation, business trust, limited liability company, limited liability partnership, joint stock company, trust, unincorporated association, joint venture, or other entity or a governmental body.

GG. "Physician" means a doctor of allopathic medicine ("M.D.") or a doctor of osteopathic medicine ("D.O.").

HH. "Policies and Procedures" means the dialysis policies and procedures manual, whether in hard copy or electronic copy, that have been in effect at the Divestiture Clinic.

II. "Real Property" means the real property on which, or in which, any Divestiture Clinic is located, including real property used for parking and for other functions related to the Divestiture Clinic.

JJ. "Sanderling" means (1) Sanderling Renal Services-USA LLC, a limited liability company organized, existing and doing business under the laws of the State of Delaware with its executive offices and principal place of business located at 511 Union Street, #1800, Nashville, Tennessee 37219, (2) SRS-Utah, LLC, a limited liability company organized, existing and doing business under the laws of the State of Delaware with its executive offices and principal place of business located at 511 Union Street, #1800, Nashville, Tennessee 37219, and (3) any Person controlled by or under common control of Sanderling Renal Services-USA LLC or SRS-Utah, LLC.

KK. "Transition Assistance" means technical services, personnel, assistance, training, and other logistical, administrative, and other transitional support as required by the Acquirer to facilitate the transfer of the Divestiture Clinic Assets to the Acquirer, including training, personnel, and support related to: audits, finance and accounting, accounts receivable, accounts payable, employee benefits, payroll, pensions, human resources, general medical products supply, purchasing, quality control, transfer of information technology and related systems, maintenance and repair of facilities and Fixtures and Equipment, use of any name or brand used in the Dialysis Business of the respective Divestiture Clinic for transitional purposes, Governmental Permits, regulatory compliance, sales and marketing, patient services, and supply chain management and patient transfer logistics.

LL. "University of Utah Medical Protocols" means medical protocols promulgated by the University of Utah, whether in hard copy or electronic copy, that are or have been in effect at a Divestiture Clinic, *provided, however*, "University of Utah Medical Protocols" does not mean medical protocols adopted or promulgated, at any time, by any Physician or by any Acquirer, even if such medical protocols are identical, in whole or in part, to medical protocols promulgated by the University of Utah.

II. Divestiture

IT IS FURTHER ORDERED that:

A. No later than 10 days after the Acquisition Date, Respondents shall divest the Divestiture Clinic Assets, absolutely and in good faith, as an ongoing business, to Sanderling.

Provided, however, that, if within 12 months after the date the Commission issues this Order, the Commission determines, in consultation with the Acquirer and the Monitor (if one has been appointed), the Acquirer needs one or more of the Excluded Assets to operate the Dialysis Business of the Divestiture Clinics in a manner that achieves the purpose of this Order, Respondents shall divest or license, absolutely and in good faith, such needed Excluded Assets to the Acquirer.

B. If Respondents have divested the Divestiture Clinic Assets to Sanderling prior to the date this Order becomes final, and if, at the time the Commission determines to make this Order final, the Commission notifies Respondents that:

1. Sanderling is not acceptable as the acquirer of the Divestiture Clinic Assets, then Respondents shall immediately rescind the Divestiture Agreement, and shall divest the Divestiture Clinic Assets no later than 120 days from the date this Order is issued, absolutely and in good faith, at no minimum price, to a Person that receives the prior approval of the Commission and in a manner that receives the prior approval of the Commission; or

2. The manner in which the divestiture of the Divestiture Clinic Assets to Sanderling was accomplished is not acceptable, the Commission may direct Respondents, or appoint a Divestiture Trustee, to effect such modifications to the manner of divestiture of the Divestiture Clinic Assets as the Commission may determine are necessary to satisfy the requirements of this Order.

C. Respondents shall assist the Acquirer to conduct a due diligence investigation of the Divestiture Clinic Assets that the Acquirer seeks to purchase, including by providing sufficient and timely access to all information customarily provided as part of a due diligence process, and affording the Acquirer and its representatives (including prospective lenders and their representatives) full and free access, during regular business hours, to the personnel, assets, Contracts, and Business Information, with such rights of access to be exercised in a manner that does not unreasonably interfere with the operations of Respondents.

D. Respondents shall grant to Acquirer, absolutely and in good faith, a royalty-free, fully paid-up, perpetual, irrevocable, transferable, and sub-licensable license and such tangible embodiments of the licensed rights (including physical and electronic copies) as may be necessary or appropriate to enable the licensee to use the rights, for the use, without any limitation, of all Policies and Procedures related to the Divestiture Clinics, including the University of Utah Medical Protocols for the Divestiture Clinics.

E. Respondents shall not consummate the Acquisition until they have obtained for all the Divestiture Clinics:

1. All approvals for the assignment to the Acquirer of the rights, title, and interest to each lease for Real Property of each Divestiture Clinic;

2. All approvals for the assignment to the Acquirer of the Clinic Physician Contracts related to each Divestiture Clinic; and

3. All Governmental Permits.

F. Respondents shall:

1. Place no restrictions on the use by the Acquirer of any of the Divestiture Clinic Assets to be divested to such Acquirer, or interfere with or otherwise attempt to interfere with any Acquirer's use of any of the Divestiture Clinic Assets to be divested to such Acquirer, including seeking or requesting the imposition of governmental restrictions on the Acquirer's business operations relating to the Divestiture Clinic Assets.

2. Assign to the Acquirer all of the Clinic Physician Contracts related to each Divestiture Clinic.

   Provided, however, that (i) if the Acquirer enters into a Clinic Physician Contract for a Divestiture Clinic before such Clinics are divested pursuant to Paragraph II.A of this Order, and (ii) the Acquirer certifies its receipt of such contract and attaches it as part of the Divestiture Agreement, then Respondents shall not be required to make the assignment for such Clinics as required by Section II.

3. With respect to all contracts included in the Divestiture Clinic Assets other than Clinic Physician Contracts, at the Acquirer's option and on the Divestiture Date of each Divestiture Clinic:

   a. if such contract can be assigned without third party approval, assign Respondents' rights under the contract to the Acquirer; and

   b. if such contract can be assigned to the Acquirer only with third party approval, assist and cooperate with the Acquirer in obtaining such third party approval and in assigning the contract to the Acquirer, or in obtaining a new contract.

G. For 2 years following the Divestiture Date, Respondents shall not solicit the business of any patient who received any goods or services from the Divestiture Clinics between September 1, 2020, and the Divestiture Date.

Provided, however, Respondents may (i) make general advertisements for the business of such patients including in newspapers, trade publications, websites, or other media not targeted specifically at such patients, and (ii) provide advertising and promotions directly to any patient that initiates discussions with, or makes a request to, any employee of Respondents.

III. Divestiture Agreement

IT IS FURTHERED ORDERED that:

A. Each Divestiture Agreement shall be incorporated by reference into this Order and made a part hereof, and any failure by Respondents to comply with the terms of a Divestiture Agreement shall constitute a violation of this Order; *provided, however*, that no Divestiture Agreement shall limit, or be construed to limit, the terms of this Order. To the extent any provision in the Divestiture Agreement varies from or conflicts with any provision in the Order such that Respondents cannot fully comply with both, Respondents shall comply with the Order.

B. Respondents shall not modify or amend the terms of the Divestiture Agreement after the Commission issues the Order without the prior approval of the Commission, except as otherwise provided in Commission Rule 2.41(f)(5), 16 C.F.R. § 2.41(f)(5).

IV. Transition Assistance

IT IS FURTHER ORDERED that:

A. At the option of the Acquirer, Respondents shall provide the Acquirer with Transition Assistance sufficient to (1) efficiently transfer the Divestiture Clinic Assets and the related Dialysis Business to the Acquirer, and (2) assist the Acquirer in operating the Divestiture Clinics in all material respects in the manner in which they were operated prior to the Acquisition.

B. Respondents shall provide such Transition Assistance:

1. As set forth in the Divestiture Agreement, or as otherwise reasonably requested by the Acquirer (whether before or after the Divestiture Date);

2. At the price set forth in the Divestiture Agreement, or if no price is set forth, at Direct Cost; and

3. For a period sufficient to meet the requirements of Section IV, which shall be, at the option of the Acquirer, the later of (1) up to one year after the Divestiture Date, or (2) the date the Acquirer has its own Centers for Medicare & Medicaid Service billing numbers for each of the Divestiture Clinic locations, unless the Acquirer terminates the provision of such Transition Assistance at an earlier date. *Provided however,* that upon the Acquirer's request, Respondents must file with the Commission a written request to extend the time period.

C. Respondents shall allow the Acquirer to terminate, in whole or part, any Transition Assistance provisions of the Divestiture Agreement upon commercially reasonable notice and without cost or penalty.

D. Respondents shall not cease providing Transition Assistance due to a breach by the Acquirer of the Divestiture Agreement, and shall not limit any damages (including indirect, special, and consequential damages) that the Acquirer would be entitled to receive in the event of Respondents' breach of the Divestiture Agreement.

V. Employees

IT IS FURTHER ORDERED that:

A. Until 6 months after the Divestiture Date, Respondents shall cooperate with and assist the Acquirer of the Divestiture Clinic Assets to evaluate independently and offer employment to the Divestiture Clinic Employees.

B. Until 90 days after the Divestiture Date, Respondents shall:

1. No later than 10 days after a request from the Acquirer, provide to the Acquirer a list of all Divestiture Clinic Employees and provide Employee Information for each;

2. No later than 10 days after a request from the Acquirer, provide the Acquirer an opportunity to meet outside the presence or hearing of any employee or agent of any Respondent with any of the Divestiture Clinic Employees, and to make offers of employment to any of the Divestiture Clinic Employees;

3. Remove any impediments within the control of Respondents that may deter Divestiture Clinic Employees from accepting employment with the Acquirer, including removal of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by the Acquirer, and shall not make any counteroffer to a Divestiture Clinic Employee who receives an offer of employment from the Acquirer; *provided, however*, that nothing in this Order shall be construed to require Respondents to terminate the employment of any employee or prevent Respondents from continuing the employment of any employee;

4. Continue to provide Divestiture Clinic Employees compensation and benefits, including regularly scheduled raises and bonuses and the vesting of benefits while they are employed by Respondents;

5. Provide reasonable financial incentives for Divestiture Clinic Employees to

continue in their positions, and as may be necessary, to facilitate the employment of such Divestiture Clinic Employees by the Acquirer; and

6. Not interfere, directly or indirectly, with the hiring or employing by the Acquirer of any Divestiture Clinic Employee, not offer any incentive to such employees to decline employment with the Acquirer, and not otherwise interfere with the recruitment of any Divestiture Clinic Employee by the Acquirer.

C. Respondents shall not, for a period of 180 days following the Divestiture Date, directly or indirectly, solicit or otherwise attempt to induce any of the Divestiture Clinic Employees who have accepted offers of employment with the Acquirer to terminate his or her employment with the Acquirer; *provided, however*, Respondents may:

1. Hire an employee whose employment has been terminated by the Acquirer;

2. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at one or more Divestiture Clinic Employees; or

3. Hire an employee who has applied for employment with Respondents, as long as such application was not solicited or induced in violation of Section V.

D. With respect to each Physician who has provided services to a Divestiture Clinic pursuant to any of the Clinic Physician Contracts in effect at any time during the 4 months preceding the Divestiture Date of the Divestiture Clinic ("Contract Physician"), Respondents shall not, for a period of 180 days, offer any incentive to the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group to decline to provide services to a Divestiture Clinic acquired by the Acquirer, and shall eliminate any confidentiality restrictions that would prevent the Contract Physician, the Contract Physician's practice group, or other members of the Contract Physician's practice group from using or transferring to the Acquirer any information related to the operation of a Divestiture Clinic.

E. Respondents:

1. Shall not enforce, directly or indirectly, any non-compete provision or agreement, and not enter into any new non-compete provision or agreement, with any Physician employed by the University of Utah, that limit the Physician's right to be a medical director at any Clinic owned or operated by a Person other than the Respondents within the State of Utah; *provided, however*, Respondents may require, directly or indirectly, any University of Utah nephrologist serving under a Respondent's Clinic Physician Contract at a dialysis clinic operated by Respondents to abide by a non-compete provision or agreement effective solely to restrict such nephrologist from simultaneously being a medical director at a clinic

not operated by Respondents; and

2. Shall give each Physician affected by Paragraph V.E.1 written notice of Paragraph V.E.1. Such notice shall include the contents of Paragraph V.E.1 and a description of its terms, including notice that Respondents cannot enforce any non-compete that prevents the Physician from serving as a medical director, at any time and without penalty, at a Clinic owned or operated by a Person other than the Respondents except as provided above, in Paragraph V.E.1.

F. Respondents shall not enter into any agreement with the Acquirer that restricts the Acquirer from soliciting Respondents' employees for employment at the Acquirer.

VI. Asset Maintenance

IT IS FURTHER ORDERED that until the Divestiture Clinic Assets have been fully transferred to the Acquirer, Respondents shall, subject to their obligations under the Order to Maintain Assets, ensure that the Divestiture Clinic Assets and Divestiture Clinics are operated and maintained in the ordinary course of business consistent with past practices, and shall:

A. Take such actions as are necessary to maintain the full economic viability, marketability, and competitiveness of the Divestiture Clinic Assets and Divestiture Clinics, to minimize any risk of loss of competitive potential of the Divestiture Clinic Assets and Divestiture Clinics, to operate the Divestiture Clinic Assets and Divestiture Clinics in a manner consistent with applicable laws and regulations, and to prevent the destruction, removal, wasting, deterioration, or impairment of the Divestiture Clinic Assets and Divestiture Clinics, except for ordinary wear and tear. Respondents shall not sell, transfer, encumber, or otherwise impair the Divestiture Clinic Assets and Divestiture Clinics (other than in the manner prescribed in the Orders), nor take any action that lessens the full economic viability, marketability, or competitiveness of the Divestiture Clinic Assets and Divestiture Clinics; and

B. Not terminate the Dialysis Business of the Divestiture Clinics, and shall conduct or cause to be conducted the Dialysis Business of the Divestiture Clinics in the ordinary course of business and in accordance with past practice (including regular repair and maintenance efforts) and as may be necessary to preserve the full economic viability, marketability, and competitiveness of the Divestiture Clinic Assets and Divestiture Clinics, and shall use best efforts to preserve the existing relationships with suppliers, customers, employees, governmental authorities, vendors, landlords, and others having business relationships with the Divestiture Clinics.

Provided, however, that Respondents may take actions that the Acquirer has requested or agreed to in writing and that has been approved in advance by Commission staff, in all cases to facilitate the Acquirer's acquisition of the Divestiture Clinic Assets and consistent with the purposes of the Orders.

VII. Confidentiality

IT IS FURTHER ORDERED that:

A. Respondents shall (x) not disclose (including as to Respondents' employees), and (y) not use, for any reason or purpose, any Confidential Business Information received or maintained by Respondents, *provided, however,* that Respondents may disclose or use such Confidential Business Information in the course of:

1. Performing their obligations or as permitted under the Orders or any Divestiture Agreement; or

2. Complying with financial reporting requirements, historical record-keeping for audit purposes, obtaining legal advice, prosecuting or defending legal claims, investigations, or enforcing actions threatened or brought against the Divestiture Clinic Assets or Divestiture Clinics, or as required by law, rule or regulation.

B. Respondents shall only disclose Confidential Business Information to an employee or any other Person if disclosure is permitted in Paragraph VII.A and the employee or other Person has signed an agreement to maintain the confidentiality of such information and not violate the disclosure requirements of this Order.

C. Respondents shall enforce the terms of Section VII and take necessary actions to ensure that their employees or other Persons comply with its terms, including implementing access and data controls, training of employees, and taking other actions that Respondents would take to protect their own trade secrets and proprietary information.

VIII. Monitor

IT IS FURTHER ORDERED that:

A. The Commission appoints Richard Shermer of R. Shermer & Co. as the Monitor to observe and report on Respondents' compliance with their obligations as set forth in the Orders.

B. The Respondents and the Monitor may enter into an agreement relating to the Monitor's services. Any such agreement:

1. Shall be subject to the approval of the Commission;

2. Shall not limit, and the signatories shall not construe it to limit, the terms of Section VIII or the Section relating to the Monitor in the Order to Maintain Assets ("Monitor Sections"), and to the extent any provision in the agreement varies

from or conflicts with any provision in the Monitor Sections, Respondents and the Monitor shall comply with the Monitor Sections; and

3. Shall include a provision stating that the agreement does not limit, and the signatories shall not construe it to limit, the terms of the Orders in this matter, and to the extent any provision in the agreement varies from or conflicts with any provision in the Orders, Respondents and the Monitor shall comply with the Orders.

C. The Monitor shall:

1. Have the authority to monitor Respondents' compliance with the obligations set forth in the Orders;

2. Act in consultation with the Commission or its staff;

3. Serve as an independent third party and not as an employee or agent of Respondents or of the Commission;

4. Serve without bond or other security;

5. At the Monitor's option, employ such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities;

6. Enter into a non-disclosure or other confidentiality agreement with the Commission related to Commission materials and information received in connection with the performance of the Monitor's duties and require that each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants shall also enter into a non-disclosure or other confidentiality agreement with the Commission;

7. Notify staff of the Commission, in writing, no later than 5 days in advance of entering into any arrangement that creates a conflict of interest, or the appearance of a conflict of interest, including a financial, professional or personal conflict. If the Monitor becomes aware of a such a conflict only after it has arisen, the Monitor shall notify the Commission as soon as the Monitor becomes aware of the conflict;

8. Report in writing to the Commission concerning Respondents' compliance with the Orders on a schedule set by Commission staff and at any other time requested by Commission staff; and

9. Unless the Commission or its staff determine otherwise, the Monitor shall serve until Commission staff determines that Respondents have satisfied all obligations under Sections II, IV, and VI, and file a final report.

D. Respondents shall:

1. Cooperate with and assist the Monitor in performing his or her duties for the purpose of reviewing Respondents' compliance with their obligations under the Orders, including as requested by the Monitor, (a) providing the Monitor full and complete access to personnel, information and facilities; and (b) making such arrangements with third parties to facilitate access by the Monitor;

2. Not interfere with the ability of the Monitor to perform his or her duties pursuant to the Orders;

3. Pay the Monitor's fees and expenses as set forth in an agreement approved by the Commission, or if such agreement has not been approved, pay the Monitor's customary fees, as well as expenses the Monitor incurs performing his or her duties under the Orders, including expenses of any consultants, accountants, attorneys, and other representatives and assistants that are reasonably necessary to assist the Monitor in carrying out his or her duties and responsibilities;

4. Not require the Monitor to disclose to Respondents the substance of the Monitor's communications with the Commission or any other Person or the substance of written reports submitted to the Commission pursuant to the Orders; and

5. Indemnify and hold the Monitor harmless against any loss, claim, damage, liability, and expense (including attorneys' fees and out of pocket costs) that arises out of, or is connected with, a claim concerning the performance of the Monitor's duties under the Orders, unless the loss, claim, damage, liability, or expense results from gross negligence or willful misconduct by the Monitor.

E. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to enter into a customary confidentiality agreement, so long as the agreement does not restrict the Monitor's ability to access personnel, information, and facilities or provide information to the Commission, or otherwise observe and report on the Respondents' compliance with the Orders.

F. If the Monitor resigns or the Commission determines that the Monitor has ceased to act, has failed to act diligently, or is otherwise unable to continue serving as a Monitor due to the existence of a conflict or other reasons, the Commission may appoint a substitute Monitor. The substitute Monitor shall be afforded all rights, powers, and authorities and shall be subject to all obligations of the Monitor Sections of the Orders. The Commission shall select the substitute Monitor, subject to the consent of the Respondents.

Respondents:

1. Shall not unreasonably withhold consent to the appointment of the selected substitute Monitor;

2. Shall be deemed to have consented to the selection of the proposed substitute Monitor if, within 10 days of notice by staff of the Commission of the identity of the proposed substitute Monitor, Respondents have not opposed in writing, including the reasons for opposing, the selection of the proposed substitute Monitor; and

3. May enter into an agreement with the substitute Monitor relating to the substitute Monitor's services that either (a) contains substantially the same terms as the Commission-approved agreement referenced in Paragraph VIII.B; or (b) receives Commission approval.

G. The Commission may on its own initiative or at the request of the Monitor issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of the Orders.

IX. Divestiture Trustee

IT IS FURTHER ORDERED that:

A. If Respondents have not fully complied with the obligations to assign, grant, license, divest, transfer, deliver, or otherwise convey the Divestiture Clinic Assets as required by this Order, the Commission may appoint a trustee ("Divestiture Trustee") to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets in a manner that satisfies the requirements of this Order.

B. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(l), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under Section IX shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by the Respondents to comply with this Order.

C. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a person with experience and expertise in acquisitions and divestitures. If

Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within 10 days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

D. Not later than 10 days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the relevant divestiture or other action required by the Order.

E. If a Divestiture Trustee is appointed by the Commission or a court pursuant to Section IX, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the assets that are required by this Order to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed;

2. The Divestiture Trustee shall have one year from the date the Commission approves the trustee trust agreement described herein to accomplish the divestitures, which shall be subject to the prior approval of the Commission. If, however, at the end of the one year period, the Divestiture Trustee has submitted a plan of divestiture or the Commission believes that the divestitures can be achieved within a reasonable time, the divestiture period may be extended by the Commission,

   Provided, however, the Commission may extend the divestiture period only 2 times;

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information, as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestitures. Any delays in divestitures caused by Respondents shall extend the time for divestitures under Section IX in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court;

4. The Divestiture Trustee shall use commercially reasonable best efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestitures shall be made in the manner and to Acquirers that receive the prior approval of the Commission as required by this Order,

   Provided, however, if the Divestiture Trustee receives bona fide offers from more than one acquiring person for a divestiture, and if the Commission determines to approve more than one such acquiring person for the divestiture, the Divestiture Trustee shall divest to the acquiring person selected by Respondents from among those approved by the Commission,

   Provided further, however, that Respondents shall select such person within 5 days of receiving notification of the Commission's approval;

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of the Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order;

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence or willful misconduct by the Divestiture Trustee;

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the Divestiture Clinic Assets required to be divested by this Order;

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every 30 days concerning the Divestiture Trustee's efforts to accomplish the divestiture; and

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement,

Provided, however, that such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

F. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

G. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in Section IX, and who will have the same authority and responsibilities of the original Divestiture Trustee pursuant to Section IX.

H. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestitures and other obligations or action required by this Order.

X. Prior Approval

IT IS FURTHERED ORDERED that Respondents shall not, directly or indirectly, through subsidiaries, partnerships, or otherwise, without the prior approval of the Commission:

A. Acquire any ownership or leasehold interest in any facility that has operated as a Clinic, within the 6 months prior to the date of such proposed acquisition, within the State of Utah;

B. Acquire any ownership interest in any Person that owns any interest in or operates a Clinic within the State of Utah, *provided, however*, Respondents are not required to obtain the prior approval of the Commission if the only Clinic ownership interest is a Clinic owned or operated by Respondents within the State of Utah; and

C. Enter into any contract for Respondents to participate in the management or Dialysis Business of a Clinic located in within the State of Utah;

Provided however, that Respondents are not required to obtain the prior approval of the Commission for the Respondents' construction, opening, or participation in the management of new facilities.

Provided further, however, that if Respondents propose to acquire any ownership interest in any Person that owns any interest in or operates Clinics within both the State of Utah and other states, including if such an acquisition requires a Hart-Scott-Rodino premerger notification, this Section applies only to the Clinics within the State of Utah.

XI. Compliance Reports

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. Notify Commission staff via email at bccompliance@ftc.gov of the Acquisition Date and each Divestiture Date no later than 5 days after the occurrence of each; and

2. Submit the complete Divestiture Agreement to the Commission at ElectronicFilings@ftc.gov and bccompliance@ftc.gov no later than 30 days after the relevant Divestiture Date.

B. Respondents shall submit verified written reports ("compliance reports") in accordance with the following:

1. Respondents shall submit:

   a. Interim compliance reports 30 days after the Order is issued, and every 60 days thereafter until Respondents have fully complied with the provisions of Sections II, IV, and VI;

   b. Annual compliance reports one year after the date this Order is issued, and annually for the next 9 years on the anniversary of that date; and

   c. Additional compliance reports as the Commission or its staff may request.

2. Each compliance report shall contain sufficient information and documentation to enable the Commission to determine independently whether Respondents are in compliance with this Order. Conclusory statements that Respondents have complied with their obligations under this Order are insufficient. Respondents shall include in their reports, among other information or documentation that may be necessary to demonstrate compliance, a full description of the measures

Respondents have implemented and plan to implement to comply with each paragraph of the Orders.

3. For a period of 5 years after filing a Compliance Report, each Respondent shall retain all material written communications with each party identified in the compliance report and all non-privileged internal memoranda, reports, and recommendations concerning fulfilling Respondents' obligations under the Orders and provide copies of these documents to Commission staff upon request.

4. Respondents shall verify each compliance report in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or another officer or employee specifically authorized to perform this function. Respondents shall submit an original and 2 copies of each compliance report as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a), including a paper original submitted to the Secretary of the Commission and electronic copies to the Secretary at ElectronicFilings@ftc.gov and to the Compliance Division at bccompliance@ftc.gov*; provided, however*, that Respondents need only file electronic copies of the interim reports required by Paragraph XI.B.1 (a). In addition, Respondents shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

XII. Change in Respondent

IT IS FURTHER ORDERED that each Respondent shall notify the Commission at least 30 days prior to:

A. The proposed dissolution of DaVita Inc. or Total Renal Care Inc., respectively;

B. The proposed acquisition, merger, or consolidation of DaVita Inc. or Total Renal Care Inc., respectively; or

C. Any other change in Respondents, including assignment and the creation, sale, or dissolution of subsidiaries, if such change may affect compliance obligations arising out of this Order.

XIII. Access

IT IS FURTHER ORDERED that, for the purpose of determining or securing compliance with this Order, and subject to any legally recognized privilege, and upon written request and upon 5 days' notice to Respondents, Respondents shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of the Respondents and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts,

correspondence, memoranda and all other records and documents in the possession, or under the control, of the Respondents related to compliance with this Order, which copying services shall be provided by the Respondents at their expense; and

B. To interview officers, directors, or employees of the Respondents, who may have counsel present, regarding such matters.

XIV. Purpose

IT IS FURTHER ORDERED that the purpose of this Order is to remedy the harm to competition the Commission alleged in its Complaint and ensure the Acquirer can operate the Dialysis Business related to each of the Divestiture Clinics and Divestiture Clinic Assets at least equivalent in all material respects to the manner in which the Dialysis Business was operated prior to the Acquisition.

XV. Term

IT IS FURTHER ORDERED that this Order shall terminate 10 years from the date it is issued.

By the Commission.

April J. Tabor
Secretary

ISSUED:

NONPUBLIC APPENDIX I

Divestiture Agreements

APPENDIX II

Excluded Assets

1. All cash, cash equivalents, and short term investments of cash, securities and other instruments;

2. Accounts receivable and rights to bill (including all proceeds thereof) for all services delivered or performed and products provided in connection the business of a Clinic before a Clinic is divested to an Acquirer or which remain outstanding and unpaid before a Clinic is divested to an Acquirer;

3. General ledgers and accounting records of University of Utah;

4. Income tax refunds and tax deposits due to Respondents;

5. Unbilled costs and fees, recoupments, claims, demands, deposits, rebates, and bad debt recovery claims against any Payor including Medicare, arising before a Clinic is divested to an Acquirer;

6. Rights to the names "DaVita" and "University of Utah" and any variation of those names (unless otherwise licensed to an Acquirer pursuant to the Order) and other copyrights, trademarks, trade names, service marks, and logos relating to the "DaVita" and "University of Utah" names;

7. Insurance policies and all benefits and claims thereunder;

8. Rights in connection with and assets of University Health Plans;

9. Minute books, personnel records, (other than governing body minute books of a Clinic), tax returns, and other corporate books and records;

10. Any inter-company balances due to or from Respondents or its affiliates;

11. All employee benefits plans;

12. All writings and other items that are protected by the attorney-client privilege, the attorney work product doctrine or any other cognizable privilege or protection, except to the extent such information is necessary to the operation of a Clinic;

13. All DaVita or University of Utah software;
14. DaVita and University of Utah e-mail addresses, websites, and domain names;

15. Office equipment and furniture that (a) is not, in the ordinary course of business, physically located at any University of Utah Clinic, (b) is shared with Clinics other than the Divestiture Clinics, and (c) is not necessary to the operation of a Divestiture Clinics;

16. All assets of (i) University Hospitals and Clinics; and (ii) the evaluation and maintenance clinic, primary care provider, and hospital assets in the University of Utah's hospital building, including computers and furniture;

17. Licensed intangible property;

18. University of Utah Policies and Procedures, including medical protocols, subject to the licensing provisions in this Order;

19. Strategic planning documents that (a) related to the operation of a Clinic other than a Divestiture Clinic and (b) are not located on the premises of a Divestiture Clinic;

20. Telephone numbers that cannot be transferred;

21. Utility accounts for telephone, television, waste disposal, gas, and electrical services;

22. Rights under agreements with suppliers that do not relate exclusively to any Divestiture Clinic, that are not assignable even if the University and Respondent approve such assignment, or for which Acquirer has not elected to take assignment;

23. All employer numbers, national provider identification numbers, payer identification numbers, payer licenses, business licenses, or fire clearances issued to the University for any University Clinic, except for the University's Medicare and Medicaid provider numbers and CLIA Certificates;

24. Acute dialysis services agreements;

25. Servers, domains, data storage services, software licenses, and vehicles belonging to the University that do not relate exclusively to any Divestiture Clinic;

26. Business operations and other services provided by the University;

27. Purchase orders placed by the University; and

28. Computer hardware, telecommunications systems and equipment, and information systems equipment that Acquirer has elected not to take.

29. Assets of the University that are not transferring to DaVita under the Asset Purchase Agreement between Total Renal Care, Inc., a corporation owned by DaVita, Inc. and the University of Utah.

UNITED STATES OF AMERICA
BEFORE THE FEDERAL TRADE COMMISSION

COMMISSIONERS: **Lina M. Khan, Chair**

Christine S. Wilson

In the Matter of	)	
DTE Energy Company,	)	
a corporation,	)	**Docket No. C-4691**
Enbridge Inc.,	)	
a corporation, and	)	
NEXUS Gas Transmission LLC,	)	
a limited liability corporation.	)	

ORDER REOPENING AND MODIFYING ORDER

DTE Energy Company ("DTE") submitted a petition to the Commission on September 21, 2021, to request that the Decision and Order ("Order") in this matter be set aside as to it, and continue as to its successor, DT Midstream, Inc. DTE bases its request on the fact that it spun off its non-utility natural gas pipeline, storage, and gathering business, including its ownership interest in Respondent NEXUS Gas Transmission, LLC ("Nexus"), to DT Midstream. DTE no longer has any natural gas pipeline transportation assets or business in the area addressed by the Order, i.e., Lucas, Ottawa, and Wood counties in northwest Ohio ("Relevant Area"). DT Midstream, a standalone publicly traded company, acknowledges itself as successor of DTE for purposes of complying with the Order.

DTE's petition was available for public comment for thirty days until November 5, 2021, and no public comments were filed. For the reasons stated below, the Commission has determined to grant DTE's petition and reopen and modify the Order as requested.

BACKGROUND

The Commission issued the Order on November 21, 2019, to remedy the anticompetitive effects resulting from Nexus's acquisition of Generation Pipeline LLC ("Generation") from North Coast Gas Transmission LLC ("NCGT") and its joint owners. DTE held a 50% ownership interest in Nexus at the time of the transaction. The Commission did not find the transaction to

substantially lessen competition in natural gas pipeline transportation. However, the Commission found that a non-compete provision in the parties' purchase agreement unreasonably restrained trade by prohibiting NCGT from competing for new natural gas pipeline transportation business in the Relevant Area three years post-close.

Nexus, along with its parents at the time, DTE and Enbridge, were named as Respondents to the Order. The Order addressed the concern relating to the non-compete by requiring the parties to remove the provision from the purchase agreement, and the parties to the agreement executed an amendment that eliminated the non-compete prior to closing of Nexus's acquisition of Generation. The Order also prohibits Respondents from entering into, enforcing, or soliciting any agreements with a "Pipeline Competitor" that restrict competition for natural gas pipeline transportation in the Relevant Area, absent prior Commission approval. The Order defines "Pipeline Competitor" as a firm that owns, operates, or markets capacity on a natural gas pipeline in the Relevant Area. The Order further requires Respondents to provide prior notice of intent to acquire an interest in NCGT's pipeline or another natural gas transportation pipeline in the Relevant Area, and to file annual compliance reports. The Order terminates on November 21, 2029.

STANDARD FOR REOPENING AND MODIFYING A FINAL ORDER

A final order may be reopened and modified on the grounds set forth in Section 5(b) of the Federal Trade Commission Act and Section 2.51(b) of the Commission's Rules of Practice and Procedure.[1] Section 5(b) and Commission Rule 2.51(b) provide that the Commission must reopen an order to consider whether it should be modified if the respondent makes either "a satisfactory showing that changed conditions of law or fact require the rule or order to be altered, modified or set aside" or if the public interest so requires.[2] A satisfactory showing sufficient to require reopening is made when a request demonstrates in detail the nature of the changed conditions and the reasons why these changes eliminate the need for the order or make continued application of it inequitable or harmful to competition, or provides specific reasons why the public interest would be served by the requested modification.[3] The requester's showing must be supported by evidence that is credible and reliable. Commission Rule 2.51(b) requires, for example, affidavits setting forth admissible facts, and that all information and material that the requester would like the Commission to consider be contained in the request at the time of filing.[4] The requester's burden is not a light one given the broad public interest in the finality of Commission orders.[5]

---

[1] 15 USC §45(b); 16 C.F.R. 2.51(b).
[2] *Id.*
[3] S. Rep. No. 96-500, 96th Cong., 2d Sess. 9 (1979) (significant changes or changes causing unfair disadvantage); *Louisiana-Pacific Corp.*, Docket No. C-2956, Letter to John C. Hart (June 5, 1986), at 4 (unpublished) ("Hart Letter"). *See also United States v. Louisiana-Pacific Corp.*, 967 F.2d 1372, 1376-77 (9th Cir. 1992) ("A decision to reopen does not necessarily entail a decision to modify the Order. Reopening may occur even where the petition itself does not plead facts requiring modification.").
[4] 16 C.F.R. § 2.51 (b).
[5] *See, e.g., Federated Department Stores, Inc. v. Moitie*, 425 U.S. 394 (1981) (strong public interest considerations support repose and finality).

DTE'S PETITION

DTE's petition establishes that DTE experienced a significant change in circumstances after the Order was issued. DTE exited the natural gas pipeline transportation business in the Relevant Area pursuant to its spin-off of DT Midstream on July 1, 2021. Therefore, DTE no longer holds an ownership interest in Respondent Nexus or in Generation, nor does it hold an ownership interest in DT Midstream.[6] DTE's Senior Vice President and Chief Legal Officer, who has been responsible for overseeing DTE's compliance with the Order, affirms in an affidavit that DTE is no longer a competitor for natural gas pipeline transportation in the Relevant Area and has no plans to re-enter the market that it has recently exited.[7]

As a result of the spin-off of DT Midstream, DTE's petition explains that requiring DTE to continue to comply with the Order's obligations is not needed to protect the public interest.[8] The potential harm that the Order seeks to prevent is related to agreements that may restrict competition for natural gas pipeline transportation in the Relevant Area. DTE, however, no longer has any natural gas pipeline transportation assets or business in the Relevant Area; DT Midstream has assumed this business. DT Midstream acknowledges and agrees to assume the Order's obligations as DTE's successor.[9]

THE ORDER WILL BE REOPENED AND MODIFIED

DTE has made the requisite showing that changed conditions and the public interest support setting aside the Order as to DTE. DTE's spin-off of its non-utility natural gas assets, including its ownership interest in Respondent Nexus, to DT Midstream is a material change of fact. DT Midstream is successor to DTE under the Order and is in the best position to fulfill the continuing obligations of the Order. Further, DT Midstream acknowledges and agrees to assume DTE's obligations under the Order. DTE has no ownership interest in DT Midstream or in any natural gas pipeline transportation assets or business in the Relevant Area, and as such, does not have the ability or incentive to interfere with the remedial purposes of the Order. Neither the interests of the Commission nor the public interest requires DTE to remain subject to the Order. Setting aside the Order as to DTE, but not as to DT Midstream, is consistent with past Commission rulings on similar petitions.[10]

In the Matter of

Nvidia Corporation,
a corporation,

Softbank Group Corporation,
a corporation,

and

Arm, Ltd.,
a corporation.

Docket No. 9404

REDACTED-PUBLIC VERSION

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act ("FTC Act"), and by virtue of the authority vested in it by the FTC Act, the Federal Trade Commission ("Commission"), having reason to believe that Respondents Nvidia Corporation ("Nvidia"), Softbank Group Corporation ("Softbank"), and Arm Ltd. ("Arm") have executed a merger agreement in violation of Section 5 of the FTC Act, 15 U.S.C. § 45, which if consummated would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint pursuant to Section 5(b) of the FTC Act, 15 U.S.C. § 45(b), and Section 11(b) of the Clayton Act, 15 U.S.C. § 21(b), stating its charges as follows:

NATURE OF THE CASE

1. Nvidia is one of the world's largest and most valuable computing companies. Nvidia proposes to acquire Arm, the world's largest and most significant licensor of designs and architectures for computer processors, in a deal valued at more than $40 billion (the "Proposed Acquisition"). If consummated, the Proposed Acquisition would allow the combined firm to use its control of Arm to harm Nvidia's rivals in ways that substantially lessen competition—including innovation, price, and feature competition—in multiple markets.

2. Arm develops and licenses central processing unit ("CPU") designs and architectures ("Arm Processor Technology"). Arm Processor Technology consists of specific designs for CPUs that Arm develops and licenses to others and a CPU instruction set architecture that Arm licenses to others who want to develop their own specific CPU designs. As part of the Arm Processor Technology business, Arm also provides customers with corresponding services, support, and ancillary products. Through the combination of its advanced technology and neutral licensing business model, Arm has become a de facto industry standard for CPU processor technology contained in billions of computer chips worldwide. According to Nvidia's CEO, Arm is "the world's most popular computing platform."

3. Arm Processor Technology is at the foundation of many innovative products of our modern digital age, including nearly every smartphone on the market, advanced driver assistance features in recent and upcoming cars, web servers that can provide significantly better cost performance over the most comparable non-Arm servers, and many other examples. In these products, Arm Processor Technology is a critical input. The wide deployment of Arm's Processor Technology has fostered a vibrant ecosystem of software and hardware developers, software, and devices.

4. Arm does not make or sell computer chips ("chips") or chip-based devices. Rather, Arm licenses Arm Processor Technology, also referred to in the industry as CPU intellectual property or "IP," using an industry-described neutral, open licensing approach. Arm is often dubbed the "Switzerland" of the semiconductor industry for this approach. Arm partners with its licensees to promote and support Arm's technologies, even as those partners compete with each other to sell chips and devices relying on Arm Processor Technology in downstream markets (the "Downstream Markets"). Arm's partnerships with its licensees regularly result in Arm receiving sensitive business information from its licensees. The fact that Arm does not itself compete in the Downstream Markets gives its partners a high level of trust in Arm as a critical input supplier that will not exploit its control over those inputs to gain a competitive advantage against its partners.

5. Unlike Arm, Nvidia supplies and markets finished chips and devices. Nvidia is best known as the dominant supplier of standalone graphics processing units ("GPUs") for personal computers ("PCs") and datacenters, which are computing facilities with large numbers of server computers. GPUs are widely used for artificial intelligence ("AI") processing and graphics processing, among other computational tasks.

6. For years, Nvidia has licensed Arm's Processor Technology to create a wide range of computing products, many of which compete with products of other Arm licensees. For

example, Nvidia and its competitors alike use Arm Processor Technology to create chips for advanced driver assistance systems for passenger cars. Nvidia and other companies also develop additional categories of Arm-based products, including advanced networking products and datacenter CPUs, among other products. While Nvidia's designs for standalone GPUs do not incorporate Arm Processor Technology, Nvidia integrates or plans to integrate its GPU technology with Arm Processor Technology in certain products, such as its chips for advanced driver assistance systems for passenger cars.

7. The Proposed Acquisition will substantially lessen competition in multiple markets because it will create a combined firm that has both the ability and the incentive to use its control of Arm to diminish competition by undermining Nvidia's rivals.

8. Post-Acquisition, Nvidia will have the ability to disadvantage its rivals through its control of Arm through various mechanisms, including by manipulating levers such as Arm's pricing, the terms and timing of access to Arm's Processor Technology (including withholding or delaying access), Arm's technological developments and features, and Arm's provision of service and support, among other mechanisms.

9. Post-Acquisition, Nvidia will have strong incentives to harm its Arm-reliant rivals. In markets in which Nvidia competes using Arm Processor Technology, the profits on additional sales that Nvidia would earn as a chip supplier are generally higher than the profits that Arm would earn from licensing its Processor Technology to Nvidia's rivals. Here, this relationship gives Nvidia a strong economic incentive to preference winning business for its own downstream products over licensing Arm Processor Technology or providing the same level of support, access, and investment to its own rivals after the Proposed Acquisition.

10. In addition to the harm Nvidia can directly inflict on its rivals, aligning Arm with Nvidia will likely result in further harms due to a critical loss of trust in Arm by its own licensees, and overall investment and innovation in the Arm ecosystem will likely be reduced. Today, for example, Arm's licensees—including Nvidia's rivals—share competitively sensitive information with Arm. Recognizing that Nvidia would be able to misuse this information for Nvidia's own competitive purposes, Nvidia's rivals will be less likely to share competitively sensitive information with Arm if the Proposed Acquisition closes. Innovation and other procompetitive actions that otherwise would have occurred through the open sharing of information with Arm will be chilled.

11. The Proposed Acquisition also will likely further harm innovation because, today, Arm regularly receives innovative ideas from its licensees across the semiconductor industry and pursues new technological developments that it believes will yield the most benefit to its business. But Nvidia would be less likely to dedicate Arm's resources toward otherwise beneficial innovative developments of Arm Processor Technology that would harm Nvidia.

12. These effects are likely to be felt throughout the computing industry. Among the markets affected, the Proposed Acquisition is likely to substantially lessen competition in key emerging and quickly-developing markets for products used in datacenters, including for networking and central processing, and in advanced driver assistance systems that are increasingly used in the automotive industry.

JURISDICTION

13. Respondents Nvidia, Arm, and Softbank are each "corporations" as defined in Section 4 of the Federal Trade Commission Act, 15 U.S.C. § 44, and in Section 1 of the Clayton Act, 15 U.S.C. § 12.

14. Respondents are engaged in activities in or affecting "commerce" as defined in Section 4 of the Federal Trade Commission Act, 15 U.S.C. § 44, and in Section 1 of the Clayton Act, 15 U.S.C. § 12.

15. The Proposed Acquisition constitutes a merger subject to Section 7 of the Clayton Act, 15 U.S.C. § 18.

RESPONDENTS AND THE PROPOSED ACQUISITION

16. Respondent Nvidia is a publicly-traded Delaware corporation, headquartered in Santa Clara, California, and founded in 1993. Its total revenues in the fiscal year ended January 31, 2021 were $16.68 billion. Nvidia develops and markets microprocessor products and associated software. Nvidia is the leading global supplier of standalone GPUs and has consistently maintained its position as the dominant supplier of such products. Nvidia also develops and markets chips, devices, and associated software for other applications, including advanced networking products, advanced driver assistance systems, datacenter CPUs, and other product lines.

17. Respondent Arm is a corporation, headquartered in Cambridge, United Kingdom, and founded in 1990. Arm's total revenues in 2020 were $1.86 billion. Arm is currently owned by SoftBank, which acquired Arm in 2016. Arm develops semiconductor processor technology, licenses it to chip designers, and provides related service and support. Arm describes itself as [redacted] As of January 2020, Arm had over [redacted] licensees.

18. Respondent Softbank is a corporation, headquartered in Tokyo, Japan, and established in 1986. Softbank owns Arm. Softbank operates as a strategic investment holding company, aiming to invest in "a diverse group of companies with outstanding technologies or business models in their respective fields." As of March 31, 2021, Softbank counted 335 subsidiaries and affiliates among its group companies. Softbank's net sales in fiscal year 2020 were 5,204.4 billion yen (approximately $47 billion). Softbank began exploring the sale of Arm in [redacted] In June 2020, Arm's CEO described the company in an email to a Softbank board member as [redacted]

19. Ultimately, Softbank and affiliated entities entered into a Share Purchase Agreement to sell Arm to Nvidia on September 13, 2020. The deal was valued at $40 billion at signing. Due to increases in the value of Nvidia's stock since then, it is now valued at over $50 billion.

20. Before the merging parties entered into the Share Purchase Agreement, the merging parties and industry analysts recognized that the Proposed Acquisition was likely to face significant antitrust scrutiny. In recognition of this problem, Nvidia agreed to pay Arm's owner, Softbank, a $1.25 billion fee if the transaction terminates after a failure to obtain antitrust approvals.

BACKGROUND

21. This case is about Nvidia's proposed takeover of Arm. Arm Processor Technology is incorporated in billions of chips and devices sold today—including products from Nvidia's competitors as well as Nvidia itself. If the Proposed Acquisition were allowed to proceed, Nvidia would gain control of Arm's Processor Technology, a critical input that currently enables these competitors to compete vigorously with Nvidia. Nvidia will have the ability and incentive to use its control of Arm's Processor Technology to undermine its competitors, reducing competition and ultimately resulting in reduced product quality, reduced innovation, higher prices, and less choice, harming the millions of Americans who benefit from products that incorporate Arm's Processor Technology.

I. Arm and Its Neutral Licensing Model

22. Arm licenses Arm Processor Technology to more than a thousand licensees. These range from innovative startups who have yet to make their first sale to large, established technology companies. Many of Arm's licensees, including Nvidia, are "fabless" semiconductor companies. This means that they design and market computer chips (or products containing chips) but outsource the physical manufacturing of these chips to specialized manufacturers.

23. Arm achieved its status as a foundational technology for so many innovative products because of its neutral licensing business model that fosters trust, collaboration, and engagement between Arm and its licensees. As Arm's longtime chief architect has explained, [redacted]

24. Arm's licensing model is based on upfront license fees and royalties. Arm offers two basic categories of technology licenses: architectural licenses and implementation licenses. Architectural licenses grant holders the right to create their own Arm-based CPU designs using Arm's instruction set architecture ("ISA"). Implementation licenses grant holders the right to use Arm's own specific CPU designs in their products. Arm's business model is based on its current commercial incentives and has contributed substantially to the growth, innovation, and success of Arm and the Arm ecosystem.

25. Arm typically profits when its licensees sell more units. Thus, Arm has an incentive to expand the usage of Arm Processor Technology under its royalty-based model. Arm therefore devotes considerable effort to enabling its licensees to succeed. According to Arm's president, [redacted]

26. Arm actively solicits input from its licensees for enhancing Arm's ISA and implementation designs. Arm also collaborates with licensees on the development of major features. Licensees regularly suggest new features to Arm, expecting that if Arm agrees to implement their suggestion, Arm will incorporate the feature in a manner that permits the new feature's proponent to benefit, while also generally making the improvement available to other licensees. This joint innovation and research and development benefits the computing industry and, ultimately, consumers.

27. Licensees routinely share confidential and commercially sensitive information with Arm when collaborating. Licensees share information such as strategic plans, project timelines and development schedules, manufacturing process plans, use cases, customer requirements, and product bugs or challenges. This type of information sharing depends on trust, enables licensees to bring better products to market faster, and is critical to Arm's success and history of innovation.

28. Arm also collaborates and works with licensees to develop, produce, troubleshoot, and implement the licensees' Arm-based products. For instance, Arm may advise licensees that a particular technical decision is unlikely to succeed, thereby steering the licensee away from a costly error. Arm also helps its licensees by explaining aspects of the Arm architecture and resolving technical difficulties.

29. In tandem with collaborating with licensees on product innovation and development, Arm also dedicates time, effort, and resources to promoting the adoption of Arm-based products in Downstream Markets that include multiple licensees' products. Arm interacts with its licensees' customers to understand their markets, explain Arm's capabilities and benefits, and help sell licensees' products. Arm's actions to promote its licensees' Arm-based products today involve supporting and promoting the products of multiple licensees who themselves are competitors.

II. Computer Processors

30. There are different types of computer processors. According to Nvidia, three of the most important are central processing units ("CPUs"), graphics processing units ("GPUs"), and data processing units ("DPUs"). Nvidia's CEO has described the CPU, GPU, and DPU as "the three most important," "central," "fundamental" technologies in a computer.

31. CPUs are processors that execute the primary computing instructions for electronic computing devices such as laptops, smartphones, datacenter servers, and chips supporting advanced driver assistance features in a passenger vehicle. When one or more CPUs are combined on a single chip with additional circuitry for performing other functions of a computer system, such as memory or co-processors, the resulting chip is sometimes termed a "system-on-a-chip" or "SoC." CPUs may consist of one or more CPU "cores," which are the individual processing units within a CPU chip. Multiple cores may be combined into one multi-core "CPU" chip or SoC. At times, however, the terms "cores" and "CPUs" are used interchangeably in the industry.

32. CPUs are based on an instruction set architecture ("ISA"). CPU ISAs include the Arm ISA, the x86 ISA, the RISC-V ISA, and the MIPS ISA, among others.

33. Software written for use by CPUs based on one ISA is generally not natively compatible with CPUs based on a different ISA. Each ISA has its own ecosystem of associated and natively compatible software, hardware, developers, and users. An ecosystem is generally more attractive if it has more software, hardware, developers, and users for any given computing market.

34. The x86 ISA has predominantly been deployed in CPUs for laptops, desktops, and servers. Intel created the x86 ISA, and Intel and AMD are the only two suppliers of x86 CPUs. Historically, the x86 ISA has not been licensable, and Intel and AMD have designed and marketed their own chips based on the x86 ISA. In 2021, Intel indicated that it planned to make some x86 technology available for license by customers of its chip manufacturing plants under certain circumstances. [redacted] involves limitations, including the apparent requirement to use Intel manufacturing plants and relying on a potentially competing chip supplier, Intel, for a critical input.

35. RISC-V is a free, open-source ISA that researchers at the University of California, Berkeley first developed. RISC-V was released to the public in 2011. Development of the RISC-V ISA is managed by a nonprofit foundation. The RISC-V ISA has predominantly been deployed in less complex applications, such as for low-end, embedded processors that do not run external software applications—for instance, processors found in relatively simple 'Internet of Things' devices like 'smart' doorbells or other 'smart' appliances. Many Arm licensees view the RISC-V technology and software ecosystem as inferior to Arm Processor Technology and the Arm ecosystem for many applications.

36. MIPS is an ISA that MIPS Computer Systems developed and that Wave Computing owns today. The MIPS architecture is declining in relevance and Wave Computing has announced that it will no longer develop MIPS in the future.

37. CPUs based on the Arm ISA are found in billions of chips worldwide, making Arm "the world's most popular computing platform" and [redacted] according to Nvidia. Arm-based CPUs, which are known in particular for their low power consumption, are found in the vast majority of smartphones, tablets, and other low-powered computing devices.

38. Arm-based CPUs also are increasingly found in laptop and desktop personal computers (PCs), and in datacenter servers. For example, in 2020, Apple began switching its entire line of Mac laptops and desktops from Intel x86 CPUs to an Arm-based SoC that Apple designed (called the "M1"). When Apple launched the M1, it emphasized its high performance and low power consumption, describing it as "the world's best CPU performance per watt," enabling significant computing performance increases "all while enabling battery life up to 2x longer than previous-generation Macs." Arm-based CPUs from chip suppliers such as MediaTek and Qualcomm are also deployed in laptops, and [redacted] Similarly, large cloud service providers, such as [redacted] are now deploying or planning to deploy Arm-based CPUs in datacenter servers. Because cloud datacenters often consume large amounts of electricity, the lower power consumption of Arm-based CPUs is seen as particularly attractive.

39. Most of the chip suppliers competing to supply SoCs for high-level automotive advanced driver assistance systems (ADAS) use Arm-based chip designs, including Nvidia. High-Level ADAS systems for passenger vehicles offer computer-assisted driving functions, such as automated lane changing, lane keeping, highway entrance and exit, and collision prevention, as discussed below.

40. Some computing devices also contain one or more GPUs to assist in certain tasks. As the name suggests, GPUs were originally developed to perform specific graphics tasks in applications such as video games. However, because GPUs excel more generally at parallel processing tasks, GPUs are now deployed in many other applications including in datacenters for accelerating tasks like machine learning algorithms (a type of artificial intelligence processing). Nvidia also integrates or plans to integrate its GPUs into other devices, such as its ADAS SoCs. GPUs do not run on their own without a host CPU. Nvidia anticipates GPUs to be central in "modern AI — the next era of computing — with the GPU acting as the brain of computers, robots and self-driving cars that can perceive and understand the world."

41. DPUs or DPU SmartNICs (also referred to as infrastructure processing units ("IPUs")) are an important emerging category of networking devices designed for datacenters and other networked environments. As Nvidia describes it, "The DPU places a 'computer in front of the computer' for each server, delivering separate, secure infrastructure provisioning that is isolated from the server's application domain." More specifically, a DPU is a network interface device that incorporates software-programmable CPU cores for offloading and isolating networking, security, virtualization, and other datacenter support tasks from the server's main (or "host") CPU. By isolating these tasks away from the host CPU, DPUs provide added security and free up the host CPU to focus on running users' desired applications, rather than datacenter infrastructure functions. Nvidia, in its internal documents, refers to DPUs as one of the "three pillars" or the "holy trinity" of computing, along with CPUs and GPUs, and Nvidia believes that eventually every server will incorporate a DPU. Nvidia's DPUs rely on Arm Processor Technology, as do those of most other competitors.

III. Nvidia and Its Arm-Based Products Today

42. Nvidia is one of the largest and most valuable chip suppliers in the world. Nvidia competes in a wide range of computing markets today and expects to compete in more markets in the future.

43. Nvidia has been an Arm licensee for many years. During that time, Nvidia has successfully developed and sold chips that incorporate Arm-based designs that Nvidia developed itself using an architectural license from Arm as well as chips that incorporate Arm-based designs that Nvidia obtained from Arm via implementation licenses.

44. Nvidia can already receive the benefits of Arm Processor Technology without acquiring Arm. Nvidia has invested in the Arm ecosystem over many years and continually developed innovative, cutting-edge products by combining Arm Processor Technology with Nvidia's proprietary technology. For example:

a. Nvidia's Orin product is an Arm-based SoC for High-Level advanced driver assistance systems (ADAS) that is "the new mega brain of the software-defined

vehicle," capable of "power[ing] all the intelligent computing functions inside vehicles."

b. Nvidia's Grace product is an Arm-based CPU that Nvidia views as the "basic building block of the modern data center." According to Nvidia, this product is capable of "deliver[ing] 10x the performance of today's fastest servers on the most complex AI and high performance computing workloads."

c. Nvidia's Bluefield-3 product is an Arm-based DPU SmartNIC that "delivers the most powerful software-defined networking, storage and cybersecurity acceleration capabilities available for data centers," with processing equivalent to "up to 300 CPU cores, [thereby] freeing up valuable CPU cycles to run business-critical applications."

d. Nvidia makes other Arm-based computing products, including chips for video gaming consoles, high-performance "Internet of Things" industrial devices, and more.

45. Nvidia committed to developing a wide variety of Arm-based products long before pursuing this Proposed Acquisition. On September 14, 2020, Nvidia's CEO told investors (in a public investor call announcing the Proposed Acquisition) that "last year"—before Softbank had even offered Arm for sale—Nvidia had already "decided [for datacenters] that we would adopt and support the Arm architecture for the full NVIDIA stack, and that was a giant commitment." "The day we decided to do that," he continued, "we realized this is going to be for as long as we shall live. And the reason for that is because once you start supporting the ecosystem, you can't back out."

IV. The Proposed Acquisition Will Result in an Anticompetitive Change in Incentives

46. Prior to the Proposed Acquisition, Arm's incentive has been to expand broadly the use of Arm Processor Technology because Arm typically profits when its licensees sell more units. To that end, Arm partners with its licensees to develop competitive products. This collaboration includes development of major features of Arm Processor Technology, support for licensees' own efforts to innovate using Arm Processor Technology, and promotion (and other sales help) for its licensees as they compete to sell their products. In short, Arm's incentives as an independent firm cause it to encourage the success of Arm licensees in the Downstream Markets.

47. Nvidia's incentives are starkly different than Arm's. Nvidia competes to sell its products against many of Arm's other licensees. Nvidia makes profits when it makes a sale and loses profits when another Arm licensee makes a sale in its place.

48. After the Proposed Acquisition, the combined firm will not have Arm's same premerger incentive to enable its licensees' success in the Downstream Markets. Instead, the combined firm will have the incentive to engage in foreclosure strategies. Foreclosure strategies involve withholding a critical input from rivals, delaying or degrading access to the input (including delaying or degrading service and support), unfavorably changing the terms on which the input is made available to rivals, or otherwise using the critical input to raise their costs or

disadvantage them. In each relevant market at issue in this case, Nvidia already has a strategic imperative to win sales from its rivals, and Nvidia's profits on additional sales in the downstream market are likely to be larger than the profits from continuing to neutrally license Arm's Processor Technology or to provide the same level of support, access, and investment to licensees. Moreover, because of the evolving nature of computing markets, Nvidia's incentives to use Arm to harm its rivals are amplified by the benefits of preventing innovations in Arm Processor Technology that could lead to greater future competition against Nvidia, including competition with Nvidia's GPU business.

49. Arm employees recognize the problematic change in incentives that the Proposed Acquisition will cause. For example, in response to the Proposed Acquisition, Arm employees asked (or predicted licensees would ask) questions highlighting the basic conflicts of interest associated with Nvidia buying Arm, such as:

a. [redacted]

b. [redacted]

c. [redacted]

d. [redacted]

50. Arm's CEO likewise has recognized that [redacted] He further recognized that [redacted]

51. Nvidia insiders also recognized the anticompetitive change in incentives. For example, insiders asked:

a. [redacted]

b. [redacted]

c. [redacted]

d. [redacted]

e. [redacted]

f. [redacted]

52. Nvidia insiders also [redacted] For example, a Bank of America Securities analyst noted "[a]ny potential deal could face intense and prolonged regulatory scrutiny given ARM's currently neutral position as a technology enabler for the entire semis industry including many of [Nvidia's] competitors." An analyst from another large investment firm wrote: "[T]here could be a myriad of conflict of interest issues whereby [Nvidia] could have access to competitor strategies/technologies in a variety of [Nvidia] markets, notably Auto and perhaps to an increasing extent, datacenter."

53. Post-Acquisition, the combined firm will also have the ability to harm Nvidia's Arm-reliant rivals. There are numerous full or partial foreclosure strategies that it can use to disadvantage its rivals—sometimes without the rival ever knowing the strategy was executed.

RELEVANT MARKETS AND ANTICOMPETITIVE EFFECTS

54. The Proposed Acquisition is likely to substantially lessen competition in multiple relevant antitrust markets, resulting in reduced innovation and more expensive or lower quality products.

55. The Proposed Acquisition will result in a combined firm with the ability and incentive to use foreclosure strategies involving a critical input to undermine its rivals in one or more relevant markets, and the Acquisition will not produce cognizable procompetitive effects.

56. The transaction is likely to substantially lessen competition in relevant antitrust markets for DPU SmartNICs, High-Level Automotive ADAS Central Compute SoCs, and Arm-Based Datacenter CPUs for Cloud Computing Service Providers.

57. In addition, the transaction is likely to harm competition by giving Nvidia access to the competitively sensitive information of Arm's licensees and by decreasing the incentive for Arm to pursue innovations in its Processor Technology that are perceived to conflict with Nvidia's business interests.

I. DPU SmartNICs are a Relevant Product Market

58. DPU SmartNICs are a relevant product market for evaluating the likely competitive effects of the Proposed Acquisition. The corresponding relevant geographic market is worldwide.

59. DPU SmartNICs are network interface devices that incorporate software-programmable CPU cores for offloading and isolating processing tasks related to networking, security, virtualization, and other datacenter support services from the server's main CPU (also called the "host" CPU). DPU SmartNICs increase server compute efficiency and security.

60. The DPU SmartNIC market is nascent but growing rapidly.

61. Nvidia is a significant, aggressive, and rapidly growing participant in this market with its Arm-based Bluefield product line.

62. Nvidia competes against several other companies currently vying to supply DPU SmartNIC solutions, including Pensando, [redacted] Xilinx, Broadcom, Marvell, and Intel. All of these suppliers use Arm-based designs for DPU SmartNIC products, including Intel, despite its unfettered access to the x86 architecture.

63. There are no commercially reasonable interchangeable substitutes for DPU SmartNICs. For example, Network Interface Controllers (NICs) that lack software-programmable CPU cores are not reasonably interchangeable substitutes. These products are part of a spectrum of network devices that range from "basic" NICs with no offload capabilities to more advanced NICs that also perform some networking acceleration processing tasks but lack software-programmable CPU cores. DPU SmartNICs have distinct features and functionality compared to such products. For instance, DPU SmartNICs allow valuable network security features by isolating computing workloads to protect applications running on the main server CPU from attacks. DPU SmartNICs also have distinct (and higher) prices compared to other NIC products.

II. The Proposed Acquisition is Likely to Harm Competition for DPU SmartNICs

64. The Proposed Acquisition would result in a combined firm with the ability and incentive to engage in foreclosure strategies targeting Nvidia's rivals in the market for DPU SmartNICs.

65. After the Proposed Acquisition, the combined firm would have the ability to harm Nvidia's rivals for DPU SmartNICs. Arm Processor Technology is a critical input for DPU SmartNIC products. Virtually all major DPU SmartNIC suppliers, including Nvidia and its direct competitors, incorporate Arm Processor Technology and rely on the Arm architecture as a critical component in their products. According to Nvidia's own definition, DPUs include "[a]n industry-standard, high-performance, software-programmable, multi-core CPU, ***typically based on the widely used Arm architecture***. . . ." (emphasis added).

66. DPU SmartNICs depend on Arm Processor Technology for multiple reasons, including, but not limited to:

a. Arm Processor Technology offers the ability to build high-performance CPU cores that are customizable and scalable.

b. Arm-based cores offer the necessary high performance without the cost of increased power usage. Efficient power usage is critical for DPU SmartNIC applications because these applications often have power constraints.

c. Significant investments have been made in Arm-compliant software, which would be costly and risky to reinvent. Arm has developed and delivered on a vibrant roadmap, which has sparked the development of a rich set of tools and applications comprising the Arm ecosystem.

d. Arm provides broad support for product development and improvement. Arm collaborates with and provides assistance to its partners on the development and deployment of DPU SmartNICs, including on design, features, production, testing, marketing, sales, and other activities.

67. There are no close substitutes for Arm Processor Technology for DPU SmartNICs. Even if there were a close alternative to Arm, switching, in and of itself, is a large cost to impose on Arm's customers. Such architectural switches are time and resource intensive and expensive.

68. Other CPU architectures are not close alternatives to Arm for DPU SmartNICs. MIPS is an ISA whose use in the computing industry has been declining and which lacks a vibrant ecosystem, especially compared to Arm. RISC-V lacks the performance, support, and advanced software ecosystem that characterize Arm. x86 CPUs are not well suited for DPU SmartNIC applications. Even Intel, the company that introduced and owns the x86 CPU ISA, is using Arm Processor Technology in certain Intel DPU SmartNIC products.

69. The Proposed Acquisition would give the combined firm the ability to use foreclosure strategies to disadvantage rivals in the market for DPU SmartNICs through a variety of mechanisms, including by controlling Arm's pricing, the terms and timing of access to its Processor Technology, its technological development and features, and its provision of services and support, among other mechanisms. Arm already has such abilities today, but it does not have the incentive to use such mechanisms to undermine Nvidia's rivals.

70. The Proposed Acquisition also would give the combined firm the incentive to use foreclosure strategies to harm Nvidia's DPU SmartNIC rivals. Nvidia already views winning the DPU SmartNIC market as a key strategic priority. As Nvidia's CEO put it in one email, [redacted]

71. Nvidia's dedication makes good sense. The DPU SmartNIC market is expected to grow rapidly into a multi-billion dollar market as the DPU SmartNIC takes its place as what Nvidia views as the third pillar in datacenters next to CPUs and GPUs.

72. Post-Acquisition, the combined firm would likely have a substantial incentive to engage in foreclosure strategies because profits from additional sales of DPU SmartNICs would

be higher than any foregone proceeds of licensing Arm Processor Technology to Nvidia's DPU SmartNIC rivals.

73. Current competition with Arm licensees has already forced Nvidia to lower its DPU SmartNIC prices and drives Nvidia to improve its product. [redacted] Internal business documents confirm Nvidia's Bluefield [redacted] Internal documents also show that [redacted]

74. The Proposed Acquisition will create a firm with the incentive and ability to harm rivals in the DPU SmartNIC market using foreclosure strategies. Consequently, the Proposed Acquisition is likely to result in a substantial lessening of competition in the DPU SmartNIC market leading to reduced innovation and more expensive or lower quality products.

75. DPU SmartNICs are a relevant antitrust market. The anticompetitive effects of the Proposed Acquisition alleged in the paragraphs above are also likely to occur in any relevant antitrust market that contains DPU SmartNICs.

III. High-Level Automotive Advanced Driver Assistance System Central Compute SoCs are a Relevant Product Market

76. High-Level Advanced Driver Assistance System ("ADAS") Central Compute SoCs ("High-Level ADAS market") are a relevant product market for evaluating the competitive effects of the Proposed Acquisition. The corresponding relevant geographic market is worldwide.

77. The level of automation in a given vehicle is generally categorized using an industry-wide standard set by SAE International, a professional standard setting organization in the mobility industry. SAE specifies six levels of automation for a given vehicle, ranging from L0 (minimal driver assistance such as lane departure and blind spot warnings) to L5 (a fully automated vehicle driving itself with no restrictions).

78. High-Level ADAS refers to SAE Levels 2 through Level 3, including the industry-recognized "L2+" or "advanced L2" level, which refers to the most advanced L2 capabilities. Within High-Level ADAS, L2+ and L3 are especially important for future competition, as automakers are now developing competing solutions incorporating L2+/L3 features for release in the coming years. High-Level ADAS provides advanced, computerized driving assistance along with various automated features that still require the driver to participate in driving the car (at L2) or to remain ready to take control of the car at a moment's notice (at L3). L2 ADAS typically incorporates features such as using automated lane centering, acceleration, and braking technologies simultaneously, while keeping a human driver in ultimate control of the vehicle. L3 ADAS typically incorporates L2 capabilities as well as higher-level functions capable of location-to-location routing monitored by the automated system when certain traffic conditions are met. While the car is in ultimate control at the L3 level, the driver must be ready to take back control on short notice. High-Level ADAS systems rely on SoCs that

provides the required performance, power efficiency, and programmability to enable the system to run features specific to High-Level ADAS. This complaint refers to SoCs that handle the compute workload necessary to enable the features of High-Level ADAS as "Central Compute SoCs." Market participants may refer to these high-performance ADAS SoCs by a number of names, including "central compute," "brain of the system," and "features" SoCs.

79. High-Level ADAS systems may also incorporate other chips besides the Central Compute SoC. Other chips within High-Level ADAS systems, such as those used for discrete sensor processing (e.g., the Front View Camera), generally do not have to be as high performing or as highly programmable as those used for Central Compute processing. As such, Central Compute SoCs have distinct competitive conditions compared to other chips used for other purposes within High-Level ADAS systems. Therefore, chips for other purposes within High-Level ADAS systems, such as discrete sensor processing, are not included in the relevant market.

80. The Entry-Level (L0/L1) ADAS category is generally characterized by more competitors, lower performance requirements, and lower prices. These Entry-Level systems generally require a lower level of chip performance than High-Level ADAS. Competition for supplying chips for Entry-Level ADAS systems is therefore not included in the relevant market.

81. The Fully Autonomous (L4/L5) category is at an earlier stage of development, and it is not yet technologically viable to implement Fully Autonomous private passenger vehicles on a commercial scale. The Fully Autonomous category is generally characterized by uncertain, though likely higher, performance requirements, additional competitors exclusively focused on developing Fully Autonomous solutions (rather than ADAS), and distinct opportunities wholly separate from High-Level ADAS opportunities. Additionally, the Fully Autonomous category is likely to initially focus on commercial vehicles, such as "robotaxis," rather than private passenger vehicles. In contrast, High-Level ADAS opportunities are generally for private passenger vehicles. Competition for supplying chips for Fully Autonomous (L4/L5) systems is therefore not included in the relevant market.

82. The market for High-Level ADAS Central Compute SoCs consists mainly of competitors selling Arm-based chips. Nvidia competes head-to-head against these other chipmakers who rely on Arm Processor Technology, including Qualcomm and Renesas. These companies all sell High-Level ADAS Central Compute SoCs to automakers or automotive suppliers. [redacted] The only significant chip supplier that Nvidia competes against for High-Level ADAS Central Compute SoCs that does not use Arm Processor Technology for the CPU function in its ADAS SoC is Mobileye, which uses chips based on the MIPS ISA.

IV. The Proposed Acquisition is Likely to Harm Competition for High-Level Automotive Advanced Driver Assistance System Central Compute SoCs

83. The Proposed Acquisition would result in a combined firm with the ability and incentive to engage in foreclosure strategies targeting Nvidia's rivals in the market for High-Level ADAS Central Compute SoCs.

84. After the Proposed Acquisition, the combined firm would have the ability to harm Nvidia's rivals for High-Level ADAS Central Compute SoCs. Arm Processor Technology is a critical input for most competitors in this market. Arm-based SoCs are well-suited to high-performance workloads, while consuming relatively little power, which is important given the limited available power in automobiles. In addition, Arm-based SoCs are highly programmable and support extensive third-party software ecosystems. These are features that many automakers require for their High-Level ADAS Central Compute SoCs.

85. Customers rely on Arm to such a degree that Arm considers itself the [redacted] for L2+ ADAS, and industry participants have acknowledged that the automotive industry is reliant on Arm for ADAS development. Arm has developed a product line of its Processor Technology targeted specifically for automotive end uses, including ADAS, under the "Automotive Enhanced" label, with the goal of [redacted]

86. Other ISAs are not close substitutes for Arm for automotive applications. x86-based CPUs are generally not used for High-Level ADAS. Not even Intel's automotive subsidiary, Mobileye, uses x86-based CPUs for High-Level ADAS. Nor does any significant competitor for High-Level ADAS today use RISC-V-based CPUs. RISC-V-based CPUs generally do not have the level of technical performance that High-Level ADAS system designers require, and, as a less mature architecture, they lack a comparable ecosystem and [redacted] Finally, MIPS, which Intel's Mobileye division uses, is not a viable future architecture for High-Level ADAS chips from other competitors. [redacted] And, the owner of MIPS is expected to phase out the MIPS architecture completely. Thus, while Mobileye currently competes for High Level ADAS Central Compute SoCs with a MIPS-based solution, MIPS is not a viable future architecture for High-Level ADAS for other competitors.

87. The Proposed Acquisition would give the combined firm the ability to foreclose, raise rivals' costs, or otherwise disadvantage rivals in the market for High-Level ADAS Central Compute SoCs through a variety of mechanisms, including by controlling Arm's Processor Technology with respect to its pricing, the terms and timing of access, technological development and features, and provision of services and support, among other mechanisms. Arm already has such abilities today, but it does not have the incentive to use such mechanisms to harm Nvidia's rivals.

88. The Proposed Acquisition would also give the combined firm the incentive to use foreclosure strategies to harm Nvidia's High-Level ADAS Central Compute SoC rivals.

89. Nvidia views winning this growing market as a strategic priority. The market is expected to grow exponentially over the next decade. Projections from a variety of sources, [redacted] indicate that the High-Level ADAS market, while currently small in terms of cars on the road, will grow significantly by 2030. Further, success in this market may provide an installed base that can facilitate successful chip vendors' transition into becoming preferred suppliers for Fully Autonomous vehicle solutions once those become technically feasible for deployment in passenger vehicles.

90. Post-Acquisition, the combined firm would likely have a substantial incentive to engage in foreclosure strategies because profits from additional sales of High-Level ADAS Central Compute SoCs would be higher than any foregone proceeds of licensing Arm Processor Technology to Nvidia's High-Level ADAS rivals.

91. Indeed, within the High-Level ADAS Central Compute SoC market, Nvidia has already competed closely against Arm-based competitors for valuable business opportunities at some of the world's largest automakers. Nvidia will have the incentive to harm Arm-reliant High-Level ADAS rivals as opposed to working collaboratively with them to help them succeed, as Arm does today, because Nvidia competes closely against these rivals for major business opportunities in High-Level ADAS.

92. The Proposed Acquisition will create a firm with the incentive and ability to harm rivals in the High-Level ADAS market using foreclosure strategies. Consequently, the Proposed Acquisition is likely to result in a substantial lessening of competition in the High-Level ADAS market leading to reduced innovation and more expensive or lower quality products.

93. High-Level ADAS Central Compute SoCs are a relevant antitrust market. However, the anticompetitive effects of the Proposed Acquisition alleged in the paragraphs above are likely to occur under any market definition that contains High-Level ADAS Central Compute SoCs.

V. Arm-Based Datacenter CPUs for Cloud Computing Service Providers is a Relevant Product Market

94. Arm-based datacenter CPUs for cloud computing service providers (including customized Arm CPU chips, or "ASICs") is a relevant product market for assessing the effects of the Proposed Transaction. The corresponding relevant geographic market is worldwide.

95. Datacenters consist of large numbers of server computers. Arm-based datacenter CPU technology is a new and emerging technology that leverages Arm's Processor Technology to meet the performance, power efficiency, and customizability needs of modern datacenters providing cloud computing services.

96. "Cloud computing" refers to the increasingly popular computing business model in which large datacenter operators provide computing services remotely and/or directly offer computing resources for rent, as well as provide other support services to customers who can then run applications, host websites, or perform other computing tasks on the leased remote servers—i.e., "the cloud." Cloud service providers ("CSPs") make their computers and associated services available for a price to many different types of computing customers in the general public, including individuals, businesses, and other organizations. CSPs are distinct from enterprise datacenter operators. Enterprise datacenters typically involve businesses, government agencies, or other organizations who operate their own on-premises server computers, while cloud computer service providers typically offer their customers off-premise, remote computing resources and services whose usage the customer can purchase incrementally. In general, cloud computing is growing, and datacenters overall are in transition from the

traditional computing model provided by on-premises enterprise servers to a model in which many computer services are cloud-based.

97. In the past, Arm-based CPUs were perceived as not having powerful enough performance to serve as datacenter server CPUs. As a result, datacenter CPUs have been historically dominated by x86-based products offered by Intel Corporation and AMD.

98. But after many years of research and development, innovation, and investment by Arm and Arm's licensees, datacenter CPUs using Arm Processor Technology have emerged as a distinct and highly attractive product offering capable of powering servers for CSPs. Arm-based CPUs now offer server-class compute performance, while also offering low costs per CPU core, high power efficiency, and a high degree of customizability. These attributes are particularly well-suited to the demands of cloud computing.

99. x86-based datacenter CPUs are more distant competitors to Arm-based datacenter CPUs and are thus properly excluded from the relevant product market. Arm-based datacenter CPUs are distinct from x86-based datacenter CPUs. Because the most fundamental "language" of the CPUs, the Instruction Set Architecture, differs between Arm-based CPUs and x86-based CPUs, these products cannot directly replace one another without significant costs, because they "speak" different "languages." As a result, they also have different associated ecosystems. Arm-based CPUs also typically have greater power efficiency and customizability. Power efficiency is an important product attribute for CSPs because electricity consumption is one of the largest costs for large datacenters and a better environmental footprint is also desirable. Greater customizability in chip design is also valuable to CSPs. Arm-based datacenters CPUs also have distinct prices, typically a significantly lower price per core than relevant x86-based CPUs.

100. Because there are numerous practical distinctions between the needs and capabilities of CSPs and operators of traditional on-premises datacenters at businesses or other organizations, the relevant product market is properly defined as Arm-based datacenter CPUs for CSPs. In particular, the large scale of CSPs' datacenters particularly benefit from the performance, power efficiency, and customizability advantages of Arm-based CPUs. And these CSPs' control over their large-scale datacenters and many computing workloads also makes them well-positioned to overcome the hurdle of ensuring that existing and new software is written to be both compatible and optimized for use with the Arm ISA. Further, Nvidia and other chip suppliers have the ability to easily identify CSP customers, and, through individual negotiations with CSPs, the combined firm would have the ability to engage in price discrimination for CSP customers.

101. Companies designing Arm-based datacenter CPUs today include Marvell, Ampere Computing, and Nvidia. Some CSPs, such as Amazon Web Services, also design their own Arm-based datacenter CPUs.

VI. The Proposed Acquisition Would Harm Competition for Arm-Based Datacenter CPUs for Cloud Computing Service Providers

102. The Proposed Acquisition would result in a combined firm with the ability and incentive to engage in foreclosure strategies targeting Nvidia's rivals in the market for Arm-based datacenter CPUs for CSPs.

103. The Proposed Acquisition would give the combined firm the ability to use foreclosure strategies to disadvantage rivals in the market for Arm-based datacenter CPUs for CSPs through a variety of mechanisms, including by controlling Arm's pricing, the terms and timing of access to its Arm Processor Technology, its technological development and features, and its provision of services and support, among other mechanisms. Arm already has such abilities today, but it does not have the incentive to use such mechanisms to undermine Nvidia's rivals.

104. Arm already has the ability to control whether licensees can produce Arm-based CPUs given its ownership of Arm Processor Technology. But, as with other markets, licensees rely on Arm as a trusted partner to develop and license Processor Technology on a neutral basis and to collaborate and provide support to bring new products to market. Indeed, Arm's support is so important that merely discontinuing it could result in licensees bringing inferior products to market, or licensees' products failing altogether.

105. The Proposed Acquisition would give the combined firm the incentive to use foreclosure strategies to impair the ability of Nvidia's rivals to compete in the market for Arm-based Datacenter CPUs for CSPs.

106. This market is a strategic priority for Nvidia. Nvidia views datacenters as core to its business and future, and espouses the importance of all three "pillars" of computing for datacenters—the CPU, the GPU, and DPU. In April 2021, Nvidia announced its plans to launch an Arm-based datacenter CPU product, called "Grace," which it has touted as the "basic building block of the modern datacenter." Nvidia also seeks to sell customized Arm-based datacenter CPUs to CSPs in the future. Nvidia's announcement of Grace came as multiple CSPs were deploying or planning to deploy Arm-based datacenter CPUs from other sources, [redacted]

107. Nvidia already can provide all three "pillars" of datacenter computing today because it has developed its own Arm-based datacenter CPU, "Grace," and it has the capability to design additional Arm-based CPUs, including custom and semi-custom designs, using its Arm license. Indeed, Nvidia told investors in 2021 that, "With Grace, NVIDIA has a 3-chip strategy with GPU, DPU and now CPU."

108. One of the rationales of the Proposed Acquisition was that the acquisition would [redacted] As Nvidia's CEO wrote to his Board of Directors regarding Arm, [redacted] Further emphasizing the relevance of Arm-based CPUs for CSPs to Nvidia's goals, Nvidia's CEO noted in a December 2020 email that [redacted] But as a

licensee of Arm, Nvidia can already supply such chips on equal footing with Arm's other licensees today. [redacted]

109. Post-Acquisition, the combined firm would likely have a substantial incentive to engage in foreclosure strategies because profits from selling additional Arm-based CPUs to CSPs would be higher than any foregone proceeds of licensing Arm Processor Technology to Nvidia's CPU rivals.

110. The Proposed Acquisition will create a firm with the incentive and ability to harm rivals in the market for Arm-based datacenter CPUs used by CSPs through foreclosure strategies. Consequently, the Proposed Acquisition is likely to result in a substantial lessening of competition in the market for Arm-based datacenter CPUs for CSPs, leading to reduced innovation, and more expensive or lower quality products.

111. Arm-based datacenter CPUs for CSPs is a relevant antitrust market. The anticompetitive effects of the Proposed Acquisition alleged in the paragraphs above are likely to occur in any relevant antitrust market that contains Arm-based datacenter CPUs for CSPs.

VII. The Proposed Acquisition Will Harm Competition By Providing Nvidia with Access to Rivals' Competitively Sensitive Information

112. The Proposed Acquisition will result in an additional substantial lessening of competition due to a critical loss of trust in Arm and its ecosystem. Today, Arm's licensees—including Nvidia's rivals—routinely share competitively sensitive information with Arm. Licensees rely on Arm for support in developing, designing, testing, debugging, troubleshooting, maintaining, and improving their products. As part of this collaborative relationship, Nvidia's rivals routinely share a broad spectrum of competitively sensitive information with Arm. Indeed, effective collaboration between Arm and its licensees often depends on this information sharing because of the competitive importance of innovation, feature competition, and fast time-to-market in the technology industry. Arm licensees are willing to share their competitively sensitive information with Arm because Arm is a neutral partner, not a rival chipmaker.

113. Nvidia's ownership of Arm would fundamentally upend Arm's status as a neutral partner and, at the same time, enable Nvidia to obtain access to its rivals' competitively sensitive information. With the benefit of its rivals' secrets, Nvidia could adjust its activities to undermine competition and harm customers. Recognizing that Nvidia would be able to misuse this otherwise unobtainable information, Nvidia's rivals will likely curtail their highly productive information sharing with Arm and otherwise refrain from making the same procompetitive contributions that they would have absent Nvidia's access to their information. Nvidia's potential misuse of competitively sensitive information and the related chilling effect on collaboration among Arm and its licensees is a further anticompetitive effect of the Proposed Acquisition, and is likely to result in reduced innovation, and more expensive or lower quality products regardless of whether Arm engages in foreclosure strategies.

VIII. The Proposed Acquisition Will Further Harm Innovation By Skewing the Path of Arm Processor Technology Development

114. In addition to the harms to innovation that will result from the foreclosure strategies and the access to competitively sensitive information described above, the Proposed Acquisition is likely to lead to an additional substantial lessening of competition by eliminating innovations that Arm would have pursued but for a conflict with Nvidia's interests.

115. Today, Arm develops its Processor Technology based on input from its licensees and its analysis of the marketplace. Its roadmap for development thus reflects the input of the Arm ecosystem. Absent the transaction, innovation will continue in this direction.

116. But because the transaction would put Nvidia in charge of Arm's Processor Technology roadmap and future development, the merged firm would have less incentive to develop or enable otherwise beneficial new features or innovations if Nvidia determines they are likely to harm Nvidia. The innovation interests of Nvidia are not synonymous with the Arm ecosystem, but the transaction will inevitably skew innovation in the direction of Nvidia's interests. As one Arm executive observed about Nvidia's proposed takeover of Arm, [redacted]

117. Nvidia would have the ability and incentive to ensure that Arm does not develop features or innovations that could threaten its downstream businesses, including its GPU business. For example, in some contexts, CPUs and GPUs compete with each other as alternative processors for handling evolving computing workloads, and Nvidia, for instance, actively markets its GPUs for AI inferencing workloads, which some CPUs, including Arm-based CPUs, also perform. In recent years, Arm expended substantial efforts to add certain built-in AI processing functionality directly into its CPU technology. The development of on-chip AI functions and innovations for CPUs and SoCs that are not tied to Nvidia's proprietary hardware or software is not likely to be in Nvidia's interest.

118. Consequently, innovation is likely to be harmed since Nvidia is unlikely to undertake or permit substantial efforts at attempting CPU innovations that could threaten demand for Nvidia's chips, including GPUs. Post-Acquisition, Nvidia would have the incentive to channel Arm's innovation activities in directions that ensure Arm's CPU technology does not pose any threats to its own chip businesses, including its GPU-centric computing business.

ABSENCE OF ADDITIONAL FACTORS

119. Respondents cannot demonstrate that entry or expansion of products in the Relevant Markets that do not incorporate Arm Processor Technology would be timely, likely, or sufficient to reverse the anticompetitive effects of the Proposed Acquisition.

120. Respondents cannot demonstrate that the Proposed Acquisition would likely generate verifiable, cognizable, merger-specific efficiencies that would reverse the likely competitive harm from the Proposed Acquisition. [redacted] Thus, regardless

of the Proposed Acquisition, Nvidia has and will continue to have access to all Arm Processor Technology, and it can continue to innovate and develop Arm-based products, as it was already planning to do, and as many other companies, including Nvidia's competitors, also do. Indeed, as one Arm executive observed, in response to a report about the potential for the Proposed Acquisition by Nvidia, [redacted]

VIOLATION

COUNT I – ILLEGAL ACQUISITION

121. The allegations above in paragraphs 1 to 120 are incorporated by reference as though fully set forth.

122. The Proposed Acquisition, if consummated, would be likely to lessen competition substantially in interstate trade and commerce in the Relevant Markets throughout the country. If the Proposed Acquisition were to proceed, it would result in substantial harm to competition, including as a result of the combined firm's ability and incentive to disadvantage rival suppliers of downstream products in the Relevant Markets, the chilling effect on innovation induced by the combined firm's access to its rivals' competitively sensitive information supplied to Arm, and the combined firm's ability and incentive to stifle innovations that are unfriendly to its business interests.

123. The Proposed Acquisition violates Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18 and is an unfair method of competition that violates Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

NOTICE

Notice is hereby given to the Respondents that the ninth day of August, 2022, at 10:00 a.m., is hereby fixed as the time, and the Federal Trade Commission offices at 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580, as the place, when and where an evidentiary hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission Act and the Clayton Act to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth (14th) day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted.

If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material facts to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint and, together with the complaint, will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under Rule 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions, and a final order disposing of the proceeding.

The Administrative Law Judge shall hold a prehearing scheduling conference not later than ten (10) days after the Respondents file their answers. Unless otherwise directed by the Administrative Law Judge, the scheduling conference and further proceedings will take place at the Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580. Rule 3.21(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (but in any event no later than five (5) days after the Respondents file their answers). Rule 3.31(b) obligates counsel for each party, within five (5) days of receiving the Respondents' answers, to make certain initial disclosures without awaiting a discovery request.

NOTICE OF CONTEMPLATED RELIEF

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the Acquisition challenged in this proceeding violates Section 5 of the Federal Trade Commission Act, as amended, and/or Section 7 of the Clayton Act, as amended, the Commission may order such relief against Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. A prohibition against any transaction between Nvidia and Arm that combines their businesses, except as may be approved by the Commission.

2. If the Acquisition is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores two or more distinct and separate, businesses, with the ability to offer such products and services as Nvidia and Arm were offering and planning to offer prior to the Acquisition.

3. A requirement that, for a period of time, Nvidia and Arm provide prior notice to the Commission of acquisitions, mergers, consolidations, or any other combinations of their businesses with any other company.

4. A requirement to file periodic compliance reports with the Commission.

5. Requiring that Respondents' compliance with the order may be monitored at Respondents' expense by an independent monitor, for a term to be determined by the Commission.

6. Any other relief appropriate to correct or remedy the anticompetitive effects of the Acquisition or to restore Arm as an independent business.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C., this second day of December, 2021.

By the Commission.

April J. Tabor
Secretary

a corporation;	)	**DECISION AND ORDER**
NOVITIUM PHARMA LLC,	)	**Docket No. C-**
a limited liability company;	)	
and	)	
ESJAY LLC,	)	
a limited liability company.	)	

DECISION

The Federal Trade Commission initiated an investigation of Respondent ANI Pharmaceuticals, Inc.'s proposal to acquire the non-corporate interests of Respondent Novitium Pharma LLC, whose ultimate parent entity is Respondent Esjay LLC (collectively "Respondents"). The Commission's Bureau of Competition prepared and furnished to each Respondent the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45 (collectively "Acts").

Respondents and the Bureau of Competition executed an Agreement Containing Consent Orders ("Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint; (2) a statement that the signing of said Consent Agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true; (3) waivers and other provisions as required by the Commission's Rules; and (4) a proposed Decision and Order and Order to Maintain Assets.

The Commission considered the matter and determined that it had reason to believe that

Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. The Commission duly considered any comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34. Now, in further conformity with the procedure described in Rule 2.34, the Commission makes the following jurisdictional findings, and issues the following Decision and Order ("Order"):

1. Respondent ANI Pharmaceuticals, Inc. is a corporation organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at 210 Main Street West, Baudette, Minnesota 56623.

2. Respondent Novitium Pharma LLC is a limited liability company organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at 70 Lake Drive, East Windsor, New Jersey 08520.

3. Respondent Esjay LLC is a limited liability company organized, existing, and doing business under and by virtue of the laws of the State of Delaware with its executive offices and principal place of business located at 16732 Strasbourg Lane, Delray Beach, Florida 33446.

4. Prasco LLC is a limited liability company organized, existing and doing business under the laws of the State of Ohio with its executive offices and principal place of business located at 6125 Commerce Court, Mason, Ohio 45040.

5. The Commission has jurisdiction over the subject matter of this proceeding and over the Respondents, and the proceeding is in the public interest.

ORDER

I. Definitions

IT IS ORDERED that, as used in the Order, the following definitions shall apply:

A. "ANI" means ANI Pharmaceuticals, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by ANI Pharmaceuticals, Inc., and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

B. "Novitium" means Novitium Pharma LLC, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships,

divisions, groups, and affiliates controlled by Novitium Pharma LLC, and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

C. "Esjay" means Esjay LLC, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, including Novitium Pharma LLC, partnerships, divisions, groups, and affiliates controlled by Esjay LLC, and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

D. "Commission" means the Federal Trade Commission.

E. "Respondents" means ANI, Novitium, and Esjay.

F. "Acquirer(s)" means:

1. Prasco; or
2. Any other Person that the Commission approves to acquire Divestiture Assets pursuant to this Order.

G. "Acquisition" means the proposed acquisition described in agreement titled the *Agreement and Plan of Merger* by and among ANI Pharmaceuticals, Inc., Nile Merger Sub LLC, Novitium Pharma LLC, Esjay LLC, Chali Properties LLC, Chad Gassert, Muthusamy Shanmugam, Thorappadi Vijayaraj, and Shareholder Representative Services LLC, dated as of March 8, 2021.

H. "Acquisition Date" means the date of the closing on the above-referenced *Agreement and Plan of Merger*.

I. "Agency(ies)" means any government regulatory authority or authorities in the world responsible for granting approval(s), clearance(s), qualification(s), license(s), or permit(s) for any aspect of the research, Development, manufacture, marketing, distribution, or sale of a Product. The term "Agency" includes the FDA.

J. "Biosimilar" means any biologic drug product that is highly similar to, and has no clinically meaningful difference from, an existing FDA-approved biologic drug product or that otherwise meets the FDA's criteria for classification as a biosimilar.

K. "Business Information" means all written information, wherever located or stored, relating to or used in a Divestiture Product Business, including documents, graphic materials, and data and information in electronic format. Business Information includes records and information relating to research and development (including copies of Product Development Reports), manufacturing, process technology, engineering, product formulations, production, sales, marketing (including Product Marketing Materials), logistics, advertising, personnel, accounting, business strategy, information technology systems, customers, customer purchasing histories, customer preferences, delivery histories, delivery routing information, suppliers and all other aspects of the Divestiture Product Business. For clarity, Business Information includes any Respondent's rights and control over information and material provided by that Respondent to any other Person. Business Information includes Confidential Business Information.

L. "cGMP" means current Good Manufacturing Practice as set forth in the United States Federal Food, Drug, and Cosmetic Act, as amended, and includes all rules and regulations promulgated by the FDA thereunder.

M. "Confidential Business Information" means all Business Information that is not in the public domain.

N. "Customer" means any Person that is either a direct purchaser or who negotiates price on behalf of a direct purchaser (*e.g.*, group purchasing organization) of any Divestiture Product from a Respondent or the Acquirer.

O. "Development" means all research related to a Product, and all studies of the safety or efficacy of a Product, including: discovery or identification of a new chemical entity, test method development; toxicology; bioequivalency; bioavailability; formulation; process development; manufacturing scale-up; development-stage manufacturing; quality assurance/quality control development; stability testing; statistical analysis and report writing; conducting studies of the safety or efficacy of a Product in animals or humans for the purpose of obtaining any and all approvals, licenses, registrations or authorizations from any Agency necessary for the manufacture, use, storage, import, export, transport, promotion, marketing, labeling, and sale of a Product(including any government price or reimbursement approvals). "Develop" means to engage in Development.

P. "Dexamethasone Products" mean the Products in Development or authorized for marketing or sale in the United States pursuant to ANDA No. 080399, and any supplements, amendments, or revisions to this ANDA, and any other Products that are or were in Development or Developed by ANI as of March 8, 2021 (the date the Respondents signed the *Agreement and Plan of Merger*) that are orally administered tablets and contain, as the active pharmaceutical ingredient, dexamethasone at a 0.75mg strength.

Q. "Dexamethasone Divestiture Assets" means all rights, title and interest in the Divestiture Product Business related to the Dexamethasone Products, including all of the Divestiture Assets related to the Dexamethasone Products.

R. "Direct Cost" means a cost not to exceed the cost of labor, material, travel, and other expenditures to the extent the costs are directly incurred to provide the relevant assistance or service. "Direct Cost" to the Acquirer for its use of any of a Respondent's employees shall not exceed then-current average hourly wage rate for such employee.

S. "Divestiture Agreements" mean:

1. Asset Purchase Agreement by and between Prasco and ANI Pharmaceuticals, Inc. dated as of October 21, 2021; and all amendments, exhibits, attachments, agreements to the above-referenced agreement; and

2. Any other agreement between a Respondent(s) and the Acquirer (or between a Divestiture Trustee and the Acquirer, or between Respondents for the benefit of the Acquirer) that has been approved by the Commission to accomplish the requirements of this Order.

T. "Divestiture Assets" mean Respondents' equitable and legal right, title, and interests in and to all tangible and intangible assets that are not Excluded Assets, wherever located, relating to a Divestiture Product Business, including the following:

1. All Product Approvals;
2. All FDA Authorizations;
3. All Product Development Reports;
4. All Product Intellectual Property;
5. At the option of the Acquirer, Product Manufacturing Equipment;
6. All technological, scientific, chemical, biological, pharmacological, toxicological, regulatory materials and information, including studies of the safety, efficacy, stability, bioequivalency, bioavailability, and toxicology of a Product;
7. All website(s), Domain Names, and social media sites related exclusively to the Divestiture Product and the content thereon related exclusively to the Divestiture Product, and the content related exclusively to the Divestiture Product that is displayed on any website that is not dedicated exclusively to the Divestiture Product;
8. At the option of the Acquirer, Product Contracts;
9. All Business Information;
10. At the option of the Acquirer, all inventory and all ingredients, materials, or components used in the manufacture of the specified Divestiture Product in existence as of the Divestiture Date including, the active pharmaceutical ingredient(s), excipient(s), raw materials, packaging materials, work-in-process, and finished goods related to that Divestiture Product; and
11. At the option of the Acquirer, the right to fill any or all unfilled Customer purchase orders for the specified Divestiture Product as of the Divestiture Date.

U. "Divestiture Date" means the date on which a Respondent (or a Divestiture Trustee) closes on a transaction to assign, grant, license, divest, transfer, deliver, or otherwise convey rights or assets related to a Divestiture Product to the Acquirer as required by Section II of this Order.

V. "Divestiture Products" means the:

1. Dexamethasone Products; and
2. Sulfamethoxazole/Trimethoprim Products.

W. "Divestiture Product Business" means the research, Development, manufacture, commercialization, distribution, marketing, advertisement, importation, and sale related to a Divestiture Product.

X. "Divestiture Trustee" means any Person appointed by the Commission to serve as a divestiture trustee pursuant to the Orders.

Y. "Domain Name" means the domain name(s) and the related uniform resource locator(s) and registration(s) thereof, issued by any Person or authority that issues and maintains the domain name registration.

Z. "Employee Information" means the following, for each Relevant Employee, as and to the extent permitted by law:

1. With respect to each such employee, the following information:
    a. Name, job title or position, date of hire, and effective service date;
    b. Specific description of the employee's responsibilities;
    c. Base salary or current wages;
    d. Most recent bonus paid, aggregate annual compensation for the relevant Respondent's last fiscal year, and current target or guaranteed bonus, if any;
    e. Employment status (*i.e.,* active or on leave or disability; full-time or part-time); and
    f. All other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and
2. At the option of the Acquirer, copies of all employee benefit plans and summary.

AA. "Erythromycin/Ethylsuccinate Products" mean the Products in Development or authorized for marketing or sale in the United States pursuant to ANDA No. 211991, and any supplements, amendments, or revisions to this ANDA, and any other Products in Development or Developed, marketed or sold by any Person other than a Respondent that are orally administered granules (for suspension) and contain, as the active pharmaceutical ingredients, erythromycin and ethylsuccinate at the EQ 200mg, BASE 5ml strengths.

BB. "Excluded Assets" mean:

1. Any real estate and the buildings and other permanent structures located on such real estate;
2. Corporate names or corporate trade dress of a Respondent or the related corporate logos thereof; or the corporate names or corporate trade dress of any other corporations or companies owned or controlled by a Respondent or the related corporate logos thereof; or general registered images or symbols by which a Respondent can be identified or defined;
3. The portion of any Business Information that contains information about any of a Respondent's business other than a Divestiture Product Business, in those cases in which the redaction does not impair the usefulness of the information related to the Divestiture Product Business;
4. Any original document that a Respondent has a legal, contractual, or fiduciary obligation to retain the original; *provided, however,* that Respondents shall provide

copies of the document to the Acquirer and shall provide that Acquirer access to the original document if copies are insufficient for regulatory or evidentiary purposes;

5. Any tax asset relating to (a) the Divestiture Assets for pre-Divestiture Date tax periods or (b) any tax liability that any Respondent is responsible for arising out of the divestiture of the Divestiture Assets;

6. All accounts receivable, notes receivable, rebates receivable and other miscellaneous receivables of any Respondent that are related to the Divestiture Product Business and arising out of the operation of the Divestiture Product Business prior to the Divestiture Date;

7. All cash, cash equivalents, credit cards and bank accounts of any Respondent; and

8. Any records or documents reflecting attorney-client, work product or similar privilege of any Respondent or otherwise relating to the Divestiture Assets as a result of legal counsel representing any Respondent in connection with the divestiture of the Divestiture Assets pursuant to this Order or the Divestiture Agreements.

CC. "FDA" means the United States Food and Drug Administration.

DD. "FDA Authorization(s)" means all of the following: "New Drug Application" ("NDA"), "Abbreviated New Drug Application" ("ANDA"), "Supplemental New Drug Application" ("SNDA"), or "Marketing Authorization Application" ("MAA"), the applications for a Product filed or to be filed with the FDA pursuant to 21 C.F.R. Part 314 et seq., and all supplements, amendments, and revisions thereto, any preparatory work, registration dossier, drafts and data necessary for the preparation thereof, and all correspondence between the holder and the FDA related thereto. "FDA Authorization" also includes an "Investigational New Drug Application" ("IND") filed or to be filed with the FDA pursuant to 21 C.F.R. Part 312, and all supplements, amendments, and revisions thereto, any preparatory work, registration dossier, drafts and data necessary for the preparation thereof, and all correspondence between the holder and the FDA related thereto. "FDA Authorization" also includes any Biologic License Application ("BLA") filed or to be filed with the FDA pursuant to 21 C.F.R. 601.2, et seq., and Section 351 of the Public Health Service Act, and any NDA deemed to be a BLA by the FDA, and all supplements, amendments, revisions thereto, any preparatory work, drafts and data necessary for the preparation thereof, and all correspondence between the Respondents and the FDA or other government regulatory authority relative thereto.

EE. "Licensed Intellectual Property" means; (a) all Product Manufacturing Technology that is used (but not exclusively, predominantly, or primarily used) in the manufacture of a Divestiture Product, and (b) copyrights used (but not exclusively, predominantly, or primarily used), to commercialize, distribute, market, advertise, or sell any Divestiture Product as of the applicable Divestiture Date.

FF. "Manufacturing Designee" means any Person other than a Respondent that has been designated by the Acquirer to perform any part of the manufacturing process, including the finish or packaging of a Divestiture Product on behalf of that Acquirer.

GG. "Monitor" means any Person appointed by the Commission to serve as a monitor pursuant to the Orders.

HH. "NDC Number(s)" means the National Drug Code number, including both the labeler code assigned by the FDA and the additional numbers assigned by the labeler as a product code and package size code for a specific Product.

II. "Order Date" means the date on which the final Decision and Order in this matter is issued by the Commission.

JJ. "Order to Maintain Assets" means the Order to Maintain Assets incorporated into and made a part of the Consent Agreement.

KK. "Orders" means this Decision and Order and the Order to Maintain Assets.

LL. "Patent(s)" means all patents and patent applications, including provisional patent applications, invention disclosures, certificates of invention and applications for certificates of invention, and statutory invention registrations, in each case filed, or in existence, on or before the Divestiture Date (*except* where this Order specifies a different time), and includes all reissues, additions, divisions, continuations, continuations-in-part, supplementary protection certificates, extensions and reexaminations thereof, all inventions disclosed therein, and all rights therein provided by international treaties and conventions.

MM. "Person" means any individual, partnership, joint venture, firm, corporation, association, trust, unincorporated organization, or other business or government entity, and any subsidiaries, divisions, groups, or affiliates thereof.

NN. "Prasco" means Prasco, LLC, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by Prasco, LLC, and the respective directors, officers, general partners, employees, agents, representatives, successors, and assigns of each.

OO. "Product(s)" means any pharmaceutical, biological, or genetic composition containing any formulation or dosage of a compound referenced as its pharmaceutically, biologically, or genetically active ingredient, or that is the subject of an FDA Authorization.

PP. "Product Approval(s)" means any approvals, registrations, permits, licenses, consents, authorizations, and other regulatory approvals, and pending applications and requests therefor, required by applicable Agencies, related to the research, Development, manufacture, distribution, finishing, packaging, marketing, sale, storage, or transport of a Product, and includes, without limitation, all approvals, registrations, licenses, or authorizations granted in connection with any FDA Authorization related to that Product.

QQ. "Product Contracts" means all contracts, agreements, mutual understandings, arrangements, or commitments related to the Divestiture Product Business, including those:

1. Pursuant to which any third party, including a Customer, purchases, or has the option to purchase, a Product from a Respondent or negotiates the purchase price

on behalf of another Customer;

2. Pursuant to which a Respondent had, or has as of the Divestiture Date, the ability to independently purchase the active pharmaceutical ingredient(s) or other necessary ingredient(s) or component(s), or had planned to purchase the active pharmaceutical ingredient(s) or other necessary ingredient(s) or component(s), from any third party for use in connection with the manufacture of a Product;
3. Relating to any study of the safety or efficacy of a Product;
4. With universities or other research institutions for the use of a Product in scientific research;
5. For the marketing of a Product or educational matters relating solely to the Products;
6. Pursuant to which a third party manufactures or plans to manufacture a Product as a finished dosage form on behalf of a Respondent;
7. Pursuant to which a third party provides or plans to provide any part of the manufacturing process, including, without limitation, the finish or packaging of a Product on behalf of a Respondent;
8. Pursuant to which a third party licenses any Product Intellectual Property or Product Manufacturing Technology related to a Product to a Respondent;
9. Pursuant to which a third party is licensed by a Respondent to use any of the Product Intellectual Property or Product Manufacturing Technology;
10. Constituting confidentiality agreements involving a Product;
11. Involving any royalty, licensing, covenant not to sue, or similar arrangement related to a Product;
12. Pursuant to which a third party provides any specialized services necessary to the research, Development, manufacture, or distribution of a Product to a Respondent including, consultation arrangements; and
13. Pursuant to which any third party collaborates with a Respondent in the performance of research, Development, marketing, distribution, or selling of a Product.

RR. "Product Development Reports" means information related to the Development of a Product, including:

1. Pharmacokinetic study reports;
2. Bioavailability study reports;
3. Bioequivalence study reports;
4. All correspondence, submissions, notifications, communications, registrations, or other filings made to, received from, or otherwise conducted with the FDA relating to the FDA Authorization(s);

5. Annual and periodic reports related to the above-described FDA Authorization(s), including any safety update reports;
6. FDA approved labeling or other Agency-approved labeling;
7. Currently used or planned product package inserts (including historical change of controls summaries);
8. FDA approved patient circulars;
9. Adverse event reports, adverse experience information, and descriptions of material events and matters concerning safety or lack of efficacy;
10. Summaries of complaints from physicians or other health care providers;
11. Summaries of complaints from ultimate users of the Product;
12. Summaries of complaints from Customers;
13. Product recall reports filed with the FDA or any other Agency, and all reports, studies, and other documents related to such recalls;
14. Investigation reports and other documents related to any out of specification results for any impurities or defects found in any Product;
15. Reports from any Person (e.g., any consultant or outside contractor) engaged to investigate or perform testing for the purposes of resolving any Product or process issues, including, without limitation, identification and sources of impurities or defects;
16. Reports from vendors of the component(s), active pharmaceutical ingredient(s), excipient(s), packaging component(s), and detergent(s) used to produce any Product that relate to the specifications, degradation, chemical interactions, testing, and historical trends of the production of any Product;
17. Analytical methods development records;
18. Manufacturing batch or lot records;
19. Stability testing records;
20. Change in control history; and
21. Executed validation and qualification protocols and reports.

SS. "Product Intellectual Property" means intellectual property of any kind (other than Licensed Intellectual Property), that is owned, licensed, held, or controlled by a Respondent as of the Divestiture Date, including Patents, patent applications, trademarks, service marks, copyrights, trade dress, commercial names, internet web sites, internet domain names, inventions, discoveries, know-how, trade secrets, and proprietary information.

TT. "Product Manufacturing Equipment" means equipment that is being used, or has been used to manufacture the specified Divestiture Product.

UU. "Product Manufacturing Technology" means all technology, trade secrets, know-how, formulas, and proprietary information (whether patented, patentable, or otherwise) related to the manufacture of a Product, including the following: all product specifications, processes, analytical methods, product designs, plans, ideas, concepts, manufacturing, engineering, and other manuals and drawings, standard operating procedures, flow diagrams, chemical, safety, quality assurance, quality control, research records, clinical data, compositions, annual product reviews, regulatory communications, control history, current and historical information associated with the conformance of any Product Approvals, conformance with any Agency requirements, and cGMP compliance, labeling and all other information related to the manufacturing process, and supplier lists.

VV. "Product Marketing Materials" means all marketing materials used specifically in the marketing or sale of the specified Divestiture Product in the United States as of the Divestiture Date that are owned or controlled by a Respondent, including, without limitation, all advertising materials, training materials, product data, mailing lists, sales materials (*e.g.*, detailing reports, vendor lists, sales data), marketing information (*e.g.*, competitor information, research data, market intelligence reports, statistical programs (if any) used for marketing and sales research), Customer information (including Customer net purchase information to be provided on the basis of dollars and units for each month, quarter or year), sales forecasting models, educational materials, advertising and display materials, speaker lists, promotional and marketing materials, website content, artwork for the production of packaging components, television masters, and other similar materials related to the specified Divestiture Product.

WW. "Product Releasee(s)" means any of the following Persons:

1. The Acquirer;
2. Any Person controlled by or under common control with that Acquirer;
3. Any Manufacturing Designee(s); and
4. Any licensees, sublicensees, manufacturers, suppliers, marketers, distributors, and Customers of that Acquirer, or of such Acquirer-affiliated entities, in each such case, as related to each Divestiture Product acquired by that Acquirer.

XX. "Relevant Employees" includes:

1. Manufacturing Employees means all employees of a Respondent who have participated at any time during the 3-year period immediately prior to the Acquisition Date (irrespective of the portion of working time involved, unless such participation consisted solely of oversight of legal, accounting, tax, or financial compliance) in any of the following related to the specified Divestiture Product: (a) Developing and validating the commercial manufacturing process, (b) formulating the manufacturing process performance qualification protocol, (c) controlling the manufacturing process to assure performance Product quality, (d) assuring that during routine manufacturing the process remains in a state of control, (e) collecting and evaluating data for the purposes of providing scientific evidence that the manufacturing process is capable of consistently delivering quality Products, (f)

managing the operation of the manufacturing process, or (g) managing the transfer of the Product Manufacturing Technology to a different facility; and

2. Marketing Employees means all management-level employees of a Respondent who have participated at any time during the 3-year period immediately prior to the Acquisition date (irrespective of the portion of working time involved, unless such participation consisted solely of oversight of legal, accounting, tax, or financial compliance) in any of the following related to the specified Divestiture Product: sales management, brand management, sales training, market research, or marketing and contracting with any of the following: drug wholesalers or distributers, group purchasing organizations, pharmacy benefit organizations, managed care organizations, or hospitals, *excluding* administrative assistants.

YY. "Retained Product(s)" means any Product(s) other than a Divestiture Product that is manufactured, in Development, marketed, sold, owned, controlled, or licensed by a Respondent anywhere in the world on or before the Acquisition Date and that has not been discontinued or permanently withdrawn from the market.

ZZ. "Sulfamethoxazole/Trimethoprim Products" mean the Products in Development or authorized for marketing or sale in the United States pursuant to the following FDA Authorizations: ANDA No. 077612, and any supplements, amendments, or revisions to this ANDAs.

AAA. "Sulfamethoxazole/Trimethoprim Divestiture Assets" means all rights, title and interest in the Divestiture Product Business related to the Sulfamethoxazole/Trimethoprim Products, including all of the Divestiture Assets related to the Sulfamethoxazole/Trimethoprim.

BBB. "Supply Cost" means the actual cost of materials, ingredients, packaging, direct labor, and direct overhead *excluding* any allocation or absorption of costs for excess or idle capacity, and *excluding* any intracompany transfer profits *plus* the actual cost of shipping and transportation in cases in which those costs are incurred by a Respondent.

CCC. "Technology Transfer Standards" mean requirements and standards sufficient to ensure that the information and assets required to be transferred and delivered are delivered in an organized, comprehensive, complete, useful, timely (*i.e.*, ensuring no unreasonable delays in transmission), and meaningful manner. Such standards and requirements shall include, as related to the specified Divestiture Product(s), *inter alia*:

1. Designating employees or other Persons working on behalf of a Respondent knowledgeable about the Product Manufacturing Technology who will be responsible for communicating directly with the receiving Person, and a Monitor, for the purpose of effecting such delivery;

2. Preparing technology transfer protocols and transfer acceptance criteria for both the processes and analytical methods related to the Product that are acceptable to the receiving Person;

3. Preparing and implementing a detailed technological transfer plan that contains, *inter alia*, the transfer of all relevant information, all appropriate documentation, all

other materials, and projected time lines for the delivery of all such Product Manufacturing Technology to the receiving Person;

4. For any part of the manufacturing process that is performed by a Respondent, permitting employees of the receiving Person to visit the Respondent's facility where that process occurs for the purposes of evaluating and learning that process or discussing the process with employees of the Respondent involved in that process (including, without limitation, use of equipment and components, manufacturing steps, time constraints for completion of steps, and methods to ensure batch or lot consistency); and

5. Providing, in a timely manner, assistance and advice to enable the receiving Person to:

   a. Manufacture the Product in the quality and quantities achieved by a Respondent prior to the Acquisition Date;

   b. Obtain any Product Approvals necessary for the receiving Person to manufacture the Product for the Acquirer in a manner that allows that Acquirer to distribute, market, and sell the Product in commercial quantities and to meet all Agency-approved specifications for the Product; and

   c. Receive, integrate, and use all Product Manufacturing Technology used in, and all Product Intellectual Property that is related to, the manufacture of the Product.

DDD. "Therapeutic Equivalent" means a drug product that is classified by the FDA as being therapeutically equivalent to another drug product or that otherwise meets the FDA's criteria for such classification.

EEE. "United States" means the United States of America, and its territories, districts, commonwealths, and possessions.

II. Divestitures

IT IS FURTHER ORDERED that:

A. No later than 10 days after the Acquisition Date, Respondents shall, absolutely and in good faith, divest the Dexamethasone Divestiture Assets and the Sulfamethoxazole/Trimethoprim Divestiture Assets and grant a perpetual, non-exclusive, fully paid up, fully transferable, and royalty-free license to use the related Licensed Intellectual Property in the related Divestiture Product Business to Prasco.

Provided, however, that, if within 12 months after the Order Date, the Commission determines, in consultation with the Acquirer and a Monitor, the Acquirer needs one or more Excluded Assets to operate any of the Divestiture Product Businesses in a manner that achieves the purposes of this Order, Respondents shall divest or license (as applicable) absolutely and in good faith, the needed Excluded Assets to that Acquirer.

B. If Respondents have divested any of the Divestiture Assets or granted or assigned rights

to the Divestiture Products to Prasco prior to the Order Date, and if, at the time the Commission determines to make this Order final, the Commission notifies Respondents that:

1. The named Acquirer is not an acceptable purchaser of any of the Divestiture Assets or rights related to the Divestiture Products, then Respondents shall immediately rescind the transaction with that Acquirer as directed by the Commission, and shall divest the respective Divestiture Assets or grant or assign the rights related to the Divestiture Products, as applicable, within 180 days after the Order Date, absolutely and in good faith, at no minimum price, to a different Acquirer that receives the prior approval of the Commission, and only in a manner that receives the prior approval of the Commission; or

2. The manner in which the divestiture was accomplished is not acceptable, then Respondents shall make such modifications to the manner of divestiture of the Divestiture Assets or the grant or assignment of rights to the Divestiture Products, as applicable, to the Acquirer named in this Order (including, entering into additional agreements or arrangements) as the Commission determines are necessary to satisfy the requirements of this Order.

C. Prior to the Divestiture Date, Respondents shall provide the Acquirer with the opportunity to review Product Contracts related to each of the Divestiture Products so that the Acquirer can determine whether to assume each Product Contract;

Provided, however, that in cases in which any Product Contract also relates to a Retained Product the Respondent shall, at the option of that Acquirer, assign or otherwise make available to that Acquirer all such rights under the contract or agreement as are related to the specified Divestiture Product.

D. Prior to the Divestiture Date, Respondents shall secure all approvals, consents, ratifications, waivers, or other authorizations from all non-governmental third parties that are necessary to permit Respondents to divest the Divestiture Assets and to grant or assign rights to the Divestiture Products to the Acquirer, and to permit that Acquirer to continue in the related Divestiture Product Business in the United States without interruption or impairment.

E. As related to the Product Manufacturing Technology and any ingredient, material, or component used in the manufacture of the Divestiture Product, Respondents shall not enforce any agreement against a third party or the Acquirer to the extent that such agreement may limit or otherwise impair the ability of that Acquirer to use or to acquire from the third party a license or other right to the Product Manufacturing Technology or any ingredient, material, or component used in the manufacture of the Divestiture Product. Such agreements include agreements that might limit the ability of a third party to disclose Confidential Business Information related to such Product Manufacturing Technology to the Acquirer. No later than 10 days after the Divestiture Date, Respondents shall grant a release to each third party that is subject to any such agreement that allows the third party to provide the Product Manufacturing Technology or any ingredient, material, or component used in the manufacture of the Divestiture Product to

the Acquirer. Within 5 days of the execution of each such release, Respondents shall provide a copy of the release to that Acquirer;

Provided, however, Respondents may satisfy this requirement by certifying that the Acquirer has executed all such agreements directly with each of the relevant third parties.

F. Respondents shall transfer the Product Manufacturing Technology related to the Divestiture Products to the Acquirer, or at the Acquirer's option, to its Manufacturing Designee, in a manner consistent with the Technology Transfer Standards. Respondents shall bear all costs related to these transfers.

G. No later than 10 days after the Divestiture Date, Respondents shall designate employees of Respondents knowledgeable about the marketing, distribution, warehousing, and sale of each of the Divestiture Products to assist the Acquirer of each of the Divestiture Products to transfer and integrate the related Divestiture Product Business.

H. No later than 10 days after the Divestiture Date, Respondents shall provide the following to the relevant Acquirer of each of the Divestiture Products:

1. A list of any finished batch or lot of the relevant Divestiture Product that any Respondent, any manufacturer for a Respondent, or regulatory Agency determined to be out-of-specification at any time during the three-year period immediately preceding the Divestiture Date, and, for each such batch or lot: (a) a detailed description of the known deficiencies or defects (*e.g.*, impurity content, incorrect levels of the active pharmaceutical ingredient, stability failure); (b) the corrective actions taken to remediate any cGMP deficiencies in that Divestiture Product; and (c) to the extent known by any Respondent, the employees (whether current or former) responsible for taking such corrective actions;

2. A list by stock-keeping unit by Customer that contains the current net price per unit as packaged for sale (*i.e.*, the price net of all customer-level discounts, rebates, or promotions) for the relevant Divestiture Product for each order sold to that Customer during the two-year period prior to the Divestiture Date;

3. A list of the inventory levels (weeks of supply) of the relevant Divestiture Product in the possession of each Customer to the extent known or available to any Respondent, as of the date prior to and closest to the Divestiture Date as is available;

4. A list of any pending reorder dates for the relevant Divestiture Product by Customer as of the Divestiture Date to the extent known by any Respondent;

5. A list of all of the NDC Numbers related to the specified Divestiture Product, and rights, to the extent permitted by law, to control, prohibit, or otherwise limit the use, including the use in Customer cross-referencing, of such NDC numbers by the Respondents, *unless* that Divestiture Product has not been marketed or sold in the United States prior to the Divestiture Date; and

6. The quantity and delivery terms in all unfilled Customer purchase orders for the relevant Divestiture Product as of the Divestiture Date.

I. Respondents shall not join, file, prosecute, or maintain any suit, in law or equity, against the Product Releasees under any Patent that was pending or issued on or before the Acquisition Date if such suit would limit or impair the Acquirer's freedom to research and Develop, or manufacture anywhere in the world the Divestiture Product(s), or to distribute, market, sell, or offer for sale within the United States any such Divestiture Product.

J. Upon reasonable written request from the Acquirer to a Respondent, that Respondent shall provide, in a timely manner, assistance of knowledgeable employees of that Respondent (*i.e.*, employees of that Respondent that were involved in the Development of the Divestiture Products) to assist that Acquirer to defend against, respond to, or otherwise participate in any litigation brought by a third party related to the Product Intellectual Property for the Divestiture Products acquired by that Acquirer from a Respondent. A Respondent shall make its employees available to that Acquirer for the fee provided in the relevant Divestiture Agreement, or if no fee is provided, at no greater than Direct Cost.

K. For any patent infringement suit that is filed or to be filed within the United States that is (x) filed by, or brought against, a Respondent prior to the Divestiture Date related to any Divestiture Product or (y) any potential patent infringement suit that a Respondent has prepared, or is preparing, to bring or defend against as of the Divestiture Date that is related to any Divestiture Product, that Respondent shall:

1. Cooperate with the Acquirer and provide any and all necessary technical and legal assistance, documentation, and witnesses from that Respondent in connection with obtaining resolution of such patent infringement suit;

2. Waive conflicts of interest, if any, to allow that Respondent's outside legal counsel to represent the Acquirer in any such patent infringement suit; and

3. Permit the transfer to the Acquirer of all of the litigation files and any related attorney work product in the possession of that Respondent's outside counsel related to such patent infringement suit.

III. Divestiture Agreements

IT IS FURTHER ORDERED that:

A. The Divestiture Agreements shall be incorporated by reference into this Order and made a part hereof, and any failure by a Respondent to comply with any term of the Divestiture Agreements shall constitute a violation of this Order;

Provided, however, that the Divestiture Agreements shall not limit, or be construed to limit, the terms of this Order. To the extent any provision in the Divestiture Agreements varies from or conflicts with any provision in this Order such that the Respondents cannot fully comply with both, Respondents shall comply with this Order.

B. Respondents shall include in the Divestiture Agreements a specific reference to this Order, the remedial purposes thereof, and provisions to reflect the full scope and breadth

of the Respondents' obligations to the Acquirer pursuant to this Order.

C. Respondents shall not modify or amend any of the terms of any Divestiture Agreement without the prior approval of the Commission, *except* as otherwise provided in Rule 2.41(f)(5) of the Commission's Rules of Practice and Procedure, 16 C.F.R. § 2.41(f)(5).

IV. Transition Services and Manufacturing by Respondents

IT IS FURTHER ORDERED that:

A. At the request of the Acquirer, in a timely manner, at no greater than Direct Cost or at such cost as provided in a Divestiture Agreement, Respondents shall provide transition services sufficient to enable the Acquirer of each of the Divestiture Products to operate the related Divestiture Product Business in substantially the same manner that Respondents have operated that Business prior to the Acquisition Date.

B. Upon reasonable written notice and request from the Acquirer, Respondents shall manufacture, deliver and supply, or cause to be manufactured, delivered, and supplied, to the requesting Acquirer, in a timely manner and under reasonable terms and conditions, that Acquirer's requested supply of each of the Divestiture Products and any of the active pharmaceutical ingredients used in the Divestiture Products that are made by a Respondent, as applicable, hereinafter "Supplied Products." The requested supply of Supplied Products shall be provided at no greater than Supply Cost or at such cost as provided in a Divestiture Agreement.

C. The Respondents shall make representations and warranties to the Acquirer that the Supplied Products meet the relevant Agency-approved specifications and, with the consent of the Acquirer, shall amend any agreement between the Respondents and the Acquirer that is related to the quality controls of a Divestiture Product to address any necessary changes to the agreement in order to comply with relevant Agency regulations or recommendations.

D. The Respondents shall agree to indemnify, defend, and hold the Acquirer harmless from any and all suits, claims, actions, demands, liabilities, expenses, or losses alleged to result from the failure of the Supplied Products to meet cGMP, but the Respondents may make this obligation contingent upon the Acquirer giving the Respondents prompt written notice of such claim and cooperating fully in the defense of such claim;

Provided, however, that the Respondents may reserve the right to control the defense of any such claim, including the right to settle the claim, so long as such settlement is consistent with the Respondents' responsibilities to supply the Supplied Products in the manner required by this Order;

Provided further, however, that this obligation shall not require the Respondents to be liable for any negligent act or omission of the Acquirer or for any representations and warranties, express or implied, made by the Acquirer that exceed the representations and warranties made by the Respondents to the Acquirer in a Divestiture Agreement.

E. The Respondents shall agree to hold harmless and indemnify the Acquirer for any liabilities, loss of profits, or consequential damages resulting from the failure of the Respondents to deliver the Supplied Products to the Acquirer in a timely manner *unless* (1) Respondents can demonstrate that the failure was beyond the control of Respondents and in no part the result of negligence or willful misconduct by Respondents, and (2) Respondents are able to cure the supply failure no later than 30 days after the receipt of notice from that Acquirer of a supply failure.

F. The Respondents shall give priority to supplying the Acquirer over the supplying of Products for any Respondent's own use or sale.

G. During the term of any agreement for a Respondent to supply the Supplied Products, upon written request of the Acquirer or a Monitor, the Respondent shall make available to the supplied Acquirer and a Monitor all records generated or created after the Divestiture Date that relate directly to the manufacture of the applicable Supplied Products.

H. The Respondents shall provide the Acquirer with the actual costs incurred or the price paid for active ingredients, components, and excipients the Respondents use to manufacture the applicable Supplied Products.

I. During the term of any agreement for a Respondent to supply the Supplied Products, Respondents shall take all actions as are reasonably necessary to ensure an uninterrupted supply of each of the Supplied Products.

J. Respondents shall not be entitled to terminate any agreement to supply the Supplied Products due to (x) a breach by the Acquirer of a Divestiture Agreement, or (y) that Acquirer filing a petition in bankruptcy, or entering into an agreement with its creditors, or applying for or consenting to appointment of a receiver or trustee, or making an assignment for the benefit of creditors, or becoming subject to involuntary proceedings under any bankruptcy or insolvency law;

Provided, however, that this Paragraph IV.J shall not prohibit a Respondent from seeking compensatory damages from the Acquirer for that Acquirer's breach of its payment obligations to the Respondent under the agreement.

K. The Respondents shall permit the Acquirer to terminate the agreement for the supply of the Supplied Products on a product-by-product basis, at any time, upon commercially reasonable notice, and without cost or penalty (other than costs or penalties due by the Respondent to third parties pursuant to the termination of such agreement, which may be the responsibility of that Acquirer).

L. In the event that that a Respondent becomes (x) unable to supply or produce a Supplied Product from the facility that has been supplying the Acquirer, and (y) any Respondent has a different facility that is listed on the FDA Authorization for that Supplied Product and is still suitable for use to manufacture the Supplied Product, or any Respondent has a facility that manufactures the Therapeutic Equivalent of such Supplied Product, then such Respondent shall, at the option of the supplied Acquirer, provide a supply of either the Therapeutic Equivalent or the Supplied Product from the other facility under the same

terms and conditions as contained in the Divestiture Agreement to supply.

M. During the term of any agreement for a Respondent to supply the Supplied Products, the Respondents shall provide consultation with knowledgeable employees of Respondents and training, at the written request of the supplied Acquirer and at a facility chosen by the supplied Acquirer, for the purposes of enabling that Acquirer (or its Manufacturing Designee) to obtain all Product Approvals to manufacture the applicable Supplied Products in final form in the same quality achieved by, or on behalf of, Respondents and in commercial quantities, in a manner consistent with cGMP, independently of Respondents and sufficient to satisfy management of that Acquirer that its personnel (or its Manufacturing Designee's personnel) are adequately trained in the manufacture of the applicable Supplied Products.

N. For any Supplied Product that is made in a facility owned by Respondents, Respondents shall transfer such manufacturing to a facility owned, controlled, or operated by the Acquirer or, at the option of the Acquirer, to its Manufacturing Designee. Respondents shall bear all costs for this transfer including the cost to validate the Supplied Products at the changed facility and the costs for any changes in the specifications for any Supplied Product required by the FDA prior to the FDA's granting approval to market such Product from the changed site of manufacture.

O. For any Divestiture Product, at the Acquirer's option, Respondents shall bear the costs to qualify and obtain FDA regulatory approval to change the source of the active pharmaceutical ingredient(s).

V. Asset Maintenance

IT IS FURTHER ORDERED that, until the Respondents have physically transferred the Dexamethasone Divestiture Assets and the Sulfamethoxazole/Trimethoprim Divestiture Assets to the Acquirer pursuant to Section II of this Order, Respondents shall operate and maintain each of the respective Divestiture Assets and each of the respective Divestiture Product Businesses in the ordinary course of business consistent with past practices. Included in these obligations, Respondents shall:

A. Take all actions necessary to maintain the full economic viability, marketability, and competitiveness of such Divestiture Product Businesses, to minimize the risk of loss of competitive potential of such Divestiture Product Businesses, to operate such Divestiture Product Businesses in a manner consistent with applicable laws and regulations, and to prevent the destruction, removal, wasting, or deterioration of any of the Divestiture Assets, except for ordinary wear and tear.

B. Not sell, transfer, encumber, or otherwise impair such Divestiture Assets, or terminate any of the operations of such Divestiture Product Businesses, other than in the ordinary course of business consistent with past practice or as prescribed in the Orders.

C. Make all payments required to be paid under any contract or lease when due, and pay all liabilities and satisfy all obligations associated with such Divestiture Product Businesses.

D. Provide such Divestiture Product Businesses with sufficient working capital to operate at least at current rates of operation, to meet all capital calls, to perform routine or necessary maintenance, to repair or replace facilities and equipment, and to carry on, at least at their scheduled pace, all capital projects, business plans, promotional plans, capital expenditure plans, research and development plans, and commercial activities for such Divestiture Product Businesses.

E. Use best efforts to preserve the existing relationships and goodwill with suppliers, customers, employees, vendors, distributors, landlords, licensors, licensees, government entities, brokers, contractors, and others having business relations with such Divestiture Product Businesses.

F. Maintain the working conditions, staffing levels, and a work force of equivalent size, training, and expertise associated with such Divestiture Product Businesses, including by:

1. Filling vacancies that occur in the regular and ordinary course of business consistent with past practice; and

2. Not transferring any employees from such Divestiture Product Businesses to another of Respondents' businesses.

G. Maintain and preserve the Business Information of such Divestiture Product Businesses.

H. Provide the resources necessary for such Divestiture Product Businesses to respond to competition, prevent diminution in sales, and maintain its competitive strength.

I. Continue providing customary levels of support services to such Divestiture Product Businesses.

J. Maintain all licenses, permits, approvals, authorizations, or certifications used in the operation of such Divestiture Product Businesses, and operate such Divestiture Product Businesses in accordance and compliance with all regulatory obligations and requirements.

K. Maintain the levels of production, quality, pricing, service, or customer support typically associated with such Divestiture Product Businesses.

Provided, however, Respondents may take actions that the Acquirer has requested or agreed to in writing and that has been approved in advance by a Monitor (in consultation with Commission staff), in all cases to facilitate that Acquirer's acquisition of the Divestiture Assets and rights in the Divestiture Products and consistent with the purposes of the Orders.

VI. Employees

IT IS FURTHER ORDERED that:

A. Until 2 years after the Divestiture Date, Respondents shall cooperate with and assist the Acquirer to evaluate independently and offer employment to the Relevant Employees for

the Divestiture Products acquired by that Acquirer.

B. Respondents shall:

1. No later than 10 days after a request from the Acquirer, provide to that Acquirer a list of all Relevant Employees and provide Employee Information for each Relevant Employee;

2. No later than 10 days after a request from the Acquirer, provide that Acquirer or its Manufacturing Designee an opportunity to meet individually and outside the presence or hearing of any employee or agent of Respondents with any of the Relevant Employees, and to make offers of employment to any of the Relevant Employees;

3. Remove any impediments within the control of Respondents that may deter Relevant Employees from accepting employment with the Acquirer or its Manufacturing Designee, including, but not limited to, removal of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by that Acquirer or its Manufacturing Designee, and shall not make any counteroffer to a Relevant Employee who receives an offer of employment from that Acquirer or its Manufacturing Designee;

   Provided, however, that nothing in the Orders shall be construed to require Respondents to terminate the employment of any employee or prevent Respondents from continuing the employment of any employee; and

4. Not interfere, directly or indirectly, with the hiring or employing by that Acquirer or its Manufacturing Designee of any Relevant Employees, not offer any incentive to such employees to decline employment with that Acquirer or its Manufacturing Designee, and not otherwise interfere with the recruitment of any Relevant Employees by that Acquirer.

C. Respondents shall continue to provide Relevant Employees compensation and benefits, including regularly scheduled raises and bonuses, until the Divestiture Date or as may be necessary to comply with the provisions of the Orders to provide manufacturing and supply of Divestiture Products or transition services to the Acquirer.

D. Respondents shall provide reasonable financial incentives for Relevant Employees to continue in their positions, and as may be necessary, to facilitate the employment of such Relevant Employees by the Acquirer.

E. If, at any point within 6 months of the Divestiture Date, the Commission, in consultation with the Acquirer and a Monitor, determines in its sole discretion that the Acquirer or its Manufacturing Designee should have the ability to interview, make offers of employment to, or hire any of Respondents' employees who were not included as Relevant Employees, but who either (1) were involved with any of the Divestiture Products, or (2) provided manufacturing and supply of Divestiture Products or transition services to the Acquirer, then the Commission may notify Respondents that such employees are to be designated as Relevant Employees, and Section VI of this Order shall apply to such

employees as of that notification date.

F. Respondents shall not, for a period of one year following the Divestiture Date, directly or indirectly, solicit or otherwise attempt to induce any of the Relevant Employees who have accepted offers of employment with the Acquirer or its Manufacturing Designee to terminate the employee's employment with the Acquirer or its Manufacturing Designee;

Provided, however, Respondents may:

1. Hire an employee whose employment has been terminated by the Acquirer;
2. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at one or more of Relevant Employees; and
3. Hire an employee who has applied for employment with Respondents, as long as such application was not solicited or induced in violation of Section VI.

VII. Business Information

IT IS FURTHER ORDERED that:

A. Respondents shall transfer and deliver all Business Information related to a Divestiture Product Business to the Acquirer pursuant to the following:

1. Respondents shall deliver the Business Information to that Acquirer, at Respondents' expense, in good faith, in a timely manner (*i.e*. as soon as practicable, avoiding any delays in transmission), and in a manner that ensures the completeness and accuracy of all information and ensures its usefulness;
2. Pending complete delivery of all Confidential Business Information, Respondents shall provide that Acquirer with access to all Business Information and to employees who possess or are able to locate this information for the purposes of identifying the Business Information that contains Confidential Business Information and facilitating the delivery in a manner consistent with the Orders;
3. Not use, directly or indirectly, any such Confidential Business Information other than as necessary to comply with the following:
    a. The requirements of the Orders;
    b. Respondents' obligations to that Acquirer under the terms of the related Divestiture Agreements; or
    c. Applicable law;
4. Not disclose or convey any such Confidential Business Information, directly or indirectly, to any Person *except* (a) that Acquirer, (b) other Persons specifically authorized by that Acquirer or staff of the Commission to receive such information (*e.g.*, employees of a Respondent providing transition services, manufacturing Divestiture Products, or who are engaged in the transfer and delivery of the Product Manufacturing Technology), (c) the Commission, or (d) a Monitor, and *except* to

the extent necessary to comply with applicable law;

5. Not provide, disclose, or otherwise make available, directly or indirectly, any Confidential Business Information to the employees associated with the business that is being retained, owned, or controlled by a Respondent, other than those employees specifically authorized as described above;

6. Institute procedures and requirements to ensure that those employees of a Respondent that are authorized by that Acquirer to have access to such Confidential Business information:

    a. Do not provide, disclose, or otherwise make available, directly or indirectly, any such Confidential Business Information in contravention of the Orders; and

    b. Do not solicit, access, or use any such Confidential Business Information that they are prohibited from receiving for any reason or purpose; and

7. Take all actions necessary and appropriate to prevent access to, and the disclosure or use of, such Confidential Business Information by or to any Person(s) not authorized to access, receive, or use such information pursuant to the terms of the Orders or the Divestiture Agreements, including:

    a. Establishing and maintaining appropriate firewalls, confidentiality protections, internal practices, training, communications, protocols, and system or network controls and restrictions;

    b. To the extent practicable, maintaining such Confidential Business Information separate from other data or information of any Respondent; and

    c. Ensuring by other reasonable and appropriate means that such Confidential Business Information is not shared with a Respondent's personnel engaged in any Business related to the same or substantially the same type of Business as the Divestiture Products, including a Respondent's personnel engaged in the marketing and sale within the United States of Products Developed or in Development for the same or similar indications as the Divestiture Products or that use the same active pharmaceutical ingredients as the Divestiture Products.

B. As a condition of continued employment after the Divestiture Date, Respondents shall require each employee that has had responsibilities related to the marketing or sales of the Divestiture Products within the one-year period prior to the Divestiture Date, and each employee that has responsibilities related to the Development, marketing, or sales of those Retained Products that are Developed or in Development for the same or similar indications as the Divestiture Products, in each case who have or may have had access to Confidential Business Information, and the direct supervisor(s) of any such employee, sign a confidentiality agreement pursuant to which that employee shall be required to maintain all such Confidential Business Information as strictly confidential, including the nondisclosure of that information to all other employees, executives, or other personnel of any Respondent (other than as necessary to comply with the requirements of the

Orders).

C. No later than 30 days after the Divestiture Date, Respondents shall provide written notification of the restrictions on the use and disclosure of the above-described Confidential Business Information by that Respondent's personnel to all of its employees who (1) may be in possession of such Confidential Business Information or (2) may have access to such Confidential Business Information. Respondents shall give the above-described notification by e-mail with return receipt requested or similar transmission, and keep a file of those receipts for 2 years after the Divestiture Date. Respondents shall provide a copy of their notifications to the Acquirer. Respondents shall maintain complete records of all such notifications at the respective Respondent's principal executive offices within the United States and shall provide an officer's certification to the Commission affirming the implementation of, and compliance with, the acknowledgement program. Respondents shall provide that Acquirer with copies of all certifications, notifications, and reminders sent to that Respondent's personnel.

D. Each Respondent shall assure that its own counsel (including its own in-house counsel under appropriate confidentiality arrangements) shall not retain unredacted copies of documents or other materials provided to the Acquirer or access original documents provided to that Acquirer, except under circumstances in which copies of documents are insufficient or otherwise unavailable, and for the following purposes:

1. To assure such Respondent's compliance with any Divestiture Agreement, the Orders, any law (including, without limitation, any requirement to obtain regulatory licenses or approvals, and rules promulgated by the Commission), any data retention requirement of any applicable government entity, or any taxation requirements; or

2. To defend against, respond to, or otherwise participate in any litigation, investigation, audit, process, subpoena, or other proceeding relating to the divestiture or any other aspect of an Divestiture Product, the Divestiture Assets, or the Divestiture Product Business;

Provided, *however*, that a Respondent may disclose such information as necessary for the purposes set forth in this Paragraph VII.D pursuant to an appropriate confidentiality order, agreement, or arrangement;

Provided further, *however,* that pursuant to this Paragraph VII.D, a Respondent needing such access to original documents shall: (1) require those who view such unredacted documents or other materials to enter into confidentiality agreements with the Acquirer (but shall not be deemed to have violated this requirement if that Acquirer withholds such agreement unreasonably); and (2) use best efforts to obtain a protective order to protect the confidentiality of such information during any adjudication.

VIII. Monitor

IT IS FURTHER ORDERED that:

A. The Commission appoints Denise Smart of Smart Consulting Group, LLC as Monitor to

observe and report on Respondents' compliance with the terms of the Orders.

B. The Respondents and the Monitor may enter into an agreement relating to the Monitor's services. Any such agreement shall:

1. Be subject to the approval of the Commission;

2. Not limit, and the signatories shall not construe it to limit, the terms of this Section VIII or Section VII of the Order to Maintain Assets ("Monitor Sections") and to the extent any provision in the agreement varies from or conflicts with any provision in the Monitor Sections, Respondents and the Monitor shall comply with the Monitor Sections; and

3. Include a provision stating that the agreement does not limit, and the signatories shall not construe it to limit, the terms of the Orders in this matter, and to the extent any provision in the agreement varies from or conflicts with any provision in the Orders, Respondents and the Monitor shall comply with the Orders.

C. The Monitor shall:

1. Have the authority to monitor Respondents' compliance with the obligations set forth in the Orders;

2. Act in consultation with the Commission or its staff;

3. Serve as an independent third party and not as an employee, or agent of the Respondents or of the Commission;

4. Shall serve without bond or other security;

5. At the Monitor's option, employ such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities;

6. Enter into a non-disclosure or other confidentiality agreement with the Commission related to Commission materials and information received in connection with the performance of the Monitor's duties and require that each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants shall enter into a non-disclosure or other confidentiality agreement with the Commission;

7. Notify staff of the Commission, in writing, no later than 5 days in advance of entering into any arrangement that creates a conflict of interest, or the appearance of a conflict of interest, including a financial, professional, or personal conflict. If the Monitor becomes aware of a such a conflict only after it has arisen, the Monitor shall notify the Commission as soon as the Monitor becomes aware of the conflict;

8. Report in writing to the Commission concerning Respondents' compliance with the Orders 30 days after the Order to Maintain Assets is issued, and every 90 days thereafter, and at such other times as may be requested by staff of the Commission; and

9. Unless the Commission or its staff determine otherwise, the Monitor shall serve until Commission staff determines that Respondents obligations to provide manufacturing and supply of Divestiture Products pursuant to this Order have expired or been terminated and files a final report.

D. Respondents shall:

1. Cooperate with and assist the Monitor in performing the Monitor's duties for the purpose of reviewing Respondents' compliance with their obligations under the Orders, including as requested by the Monitor, (a) providing the Monitor full and complete access to personnel, information and facilities; and (b) making such arrangements with third parties to facilitate access by the Monitor;

2. Not interfere with the ability of the Monitor to perform the Monitor's duties pursuant to the Orders;

3. Pay the Monitor's fees and expenses as set forth in an agreement approved by the Commission, or if such agreement has not been approved, pay the Monitor's customary fees, as well as expenses the Monitor incurs performing the Monitor's duties under the Orders, including expenses of any consultants, accountants, attorneys, and other representatives and assistants that are reasonably necessary to assist the Monitor in carrying out the Monitor's duties and responsibilities;

4. Not require the Monitor to disclose to Respondents the substance of the Monitor's communications with the Commission or any other Person or the substance of written reports submitted to the Commission pursuant to the Orders; and

5. Indemnify and hold the Monitor harmless against any loss, claim, damage, liability, and expense (including attorneys' fees and out of pocket costs) that arises out of, or is connected with, a claim concerning the performance of the Monitor's duties under the Orders, unless the loss, claim, damage, liability, or expense results from gross negligence or willful misconduct by the Monitor.

E. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to enter into a customary confidentiality agreement provided that such agreement does not restrict the Monitor's ability to access personnel, information, and facilities or provide information to the Commission, or otherwise observe and report on the Respondents' compliance with the Orders.

F. Respondents shall not require nor compel the Monitor to disclose to Respondents the substance of communications with the Commission, including the Monitor's written reports submitted to the Commission, or any other Person with whom the Monitor communicates in the performance of their duties.

G. If the Monitor resigns or the Commission determines that the Monitor has ceased to act, has failed to act diligently, or is otherwise unable to continue serving as a Monitor due to the existence of a conflict or other reasons, the Commission may appoint a substitute Monitor. The substitute Monitor shall be afforded all rights, powers, and authorities and shall be subject to all obligations of the Monitor Sections of the Orders. The Commission

shall select the substitute Monitor, subject to the consent of the Respondents. Respondents:

1. Shall not unreasonably withhold consent to the appointment of the selected substitute Monitor;
2. Shall be deemed to have consented to the selection of the proposed substitute Monitor if, within 10 days of notice by staff of the Commission of the identity of the proposed substitute Monitor, Respondents have not opposed in writing, including the reasons for opposing, the selection of the proposed substitute Monitor; and
3. May enter into an agreement with the substitute Monitor relating to the substitute Monitor's services that either (a) contains substantially the same terms as the Commission-approved agreement referenced in Paragraph B of the Monitor Sections; or (b) receives Commission approval.

H. The Commission may on its own initiative or at the request of a Monitor issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of the Orders.

IX. Divestiture Trustee

IT IS FURTHER ORDERED that:

A. If the Respondents have not fully complied with the obligations to assign, grant, license, divest, transfer, deliver, or otherwise convey the Divestiture Assets or the rights to the Divestiture Products as required by this Order, the Commission may appoint a trustee ("Divestiture Trustee") to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets in a manner that satisfies the requirements of this Order. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(*l*), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under Section IX shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by a Respondent to comply with the Orders.

B. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents, which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within 10 days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed

Divestiture Trustee.

C. No later than 10 days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the divestiture required by this Order. Any failure by Respondents to comply with a trust agreement approved by the Commission shall be a violation of this Order.

D. If a Divestiture Trustee is appointed by the Commission or a court pursuant to Section IX, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the assets that are required by this Order to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed.

2. The Divestiture Trustee shall have one year after the date the Commission approves the trust agreement described herein to accomplish the divestiture, which shall be subject to the prior approval of the Commission. If, however, at the end of the one-year period, the Divestiture Trustee has submitted a plan of divestiture or the Commission believes that the divestiture(s) can be achieved within a reasonable time, the divestiture period may be extended by the Commission;

   Provided, however, the Commission may extend the divestiture period only 2 times.

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestitures. Any delays in divestiture caused by a Respondent shall extend the time for divestiture under Section IX in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court.

4. The Divestiture Trustee shall use commercially reasonable efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture(s) shall be made in the manner and to the Acquirer that receives the prior approval of the Commission as required by this Order;

   Provided, however, if the Divestiture Trustee receives bona fide offers from more

than one acquiring Person, and if the Commission determines to approve more than one such acquiring Person, the Divestiture Trustee shall divest to the acquiring Person selected by Respondents from among those approved by the Commission;

Provided further, however, that Respondents shall select such Person within 5 days after receiving notification of the Commission's approval.

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order.

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence or willful misconduct by the Divestiture Trustee.

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the relevant assets required to be divested by this Order.

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every 30 days concerning the Divestiture Trustee's efforts to accomplish the divestiture.

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement;

Provided, however, that such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

E. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to enter into a non-disclosure or other confidentiality agreement with the Commission related to Commission materials and information received in connection

with the performance of the Divestiture Trustee's duties.

F. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in Section IX.

G. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestiture(s) required by this Order.

X. Prior Approval

IT IS FURTHER ORDERED that each Respondent shall not, directly or indirectly, through subsidiaries, partnerships, or otherwise, acquire any rights or interests in the Dexamethasone Products, the Sulfamethoxazole/Trimethoprim Products, and the Erythromycin/Ethylsuccinate Products, or the Therapeutic Equivalent or Biosimilar of any of these Products without the prior approval of the Commission.

XI. Prior Approval for Acquirer

IT IS FURTHER ORDERED that:

A. For a period of 3 years after the Divestiture Date, Prasco or any other Acquirer shall not sell or license, through subsidiaries or otherwise, without the prior approval of the Commission, any of the FDA Authorizations that were divested pursuant to Section II, to any Person; and

B. For a period of 7 years after the term of Paragraph XI.A ends, Prasco or any other Acquirer shall not sell or license, through subsidiaries or otherwise, without the prior approval of the Commission, any FDA Authorizations that were divested pursuant to Section II, to any Person who owns, directly or indirectly, an FDA Authorization, or is seeking approval from the FDA for an FDA Authorization, to manufacture and sell a Therapeutic Equivalent of a Divestiture Product.

Provided, however, Prasco is not required to obtain prior approval of the Commission under this Section XI for a change of control, merger, reorganization, or sale of all or substantially all of its business, or for a non-exclusive license to a contract manufacturer for the purpose of manufacturing a Divestiture Product.

XII. Compliance Reports

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. Notify Commission staff via email at bccompliance@ftc.gov of the Acquisition Date and the Divestiture Dates no later than 5 days after the occurrence of each;

and

2. Submit the complete copies of each of the Divestiture Agreements to the Commission at ElectronicFilings@ftc.gov and bccompliance@ftc.gov no later than 30 days after the Divestiture Date.

B. Respondents shall file verified written reports ("Compliance Reports") in accordance with the following:

1. Respondents shall submit interim Compliance Reports within 30 days after the Order to Maintain Assets is issued, and every 90 days thereafter until Respondents have completed all of the following: (a) the transfer and delivery of the Divestiture Assets and the rights to the Divestiture Products to the Acquirer, (b) the transfer and delivery of all of the Product Manufacturing Technology related to the Divestiture Products to the Acquirer or the Acquirer's Manufacturing Designee, (c) the transfer and delivery of all Business Information to the Acquirer, and (d) the Acquirer or the Acquirer's Manufacturing Designee is FDA approved to manufacture each of the Divestiture Products at a facility that is not owned or controlled by Respondents; and Respondents shall submit annual Compliance Reports one year after the Order Date, and annually for the following 4 years on the anniversary of the Order Date; and additional Compliance Reports as the Commission or its staff may request;

2. Each Respondent's Compliance Report shall contain sufficient information and documentation to enable the Commission to determine independently whether the Respondent is in compliance with the Orders. Conclusory statements that the Respondent has complied with its obligations under the Orders are insufficient. Respondents shall include in their Compliance Reports, among other information or documentation that may be necessary to demonstrate compliance:

   a. A detailed description of all substantive contacts, negotiations, or recommendations related to the transfer and delivery to the Acquirer of (i) the Divestiture Assets and the rights to the Divestiture Products, (ii) the Business Information related to each of the Divestiture Product Businesses, and (iii) the provision of manufacturing and supply of Divestiture Products to that Acquirer;

   b. A detailed description of the transfer of the Product Manufacturing Technology related to the Acquirer or the Acquirer's Manufacturing Designee and progress toward the manufacturing of these products at a facility that is not owned or controlled by Respondents; and

   c. A detailed description of the timing for the completion of such obligations.

3. Each annual Compliance Report shall include the previous year's market information for each market alleged in the Complaint including the aggregate size of the market in units and in dollars; the monthly sales in units and in dollars for each market participant; the market share for each market participant calculated based on units and on dollars; and, to the extent known, an explanation of any

significant changes in the total size of the market and any significant adverse impacts to the manufacture or supply of competing products to the market;

4. For a period of 5 years after filing a Compliance Report, each Respondent shall retain all material written communications with each party identified in the Compliance Report and all non-privileged internal memoranda, reports, and recommendations concerning fulfilling Respondent's obligations under the Orders and provide copies of these documents to Commission staff upon request.

C. Respondents shall verify each Compliance Report in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or another officer or employee specifically authorized to perform this function. Respondent shall file its compliance reports with the Secretary of the Commission at ElectronicFilings@ftc.gov and the Compliance Division at bccompliance@ftc.gov, as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a). In addition, Respondent shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

XIII. Change in Respondents

IT IS FURTHER ORDERED that Respondents shall notify the Commission at least 30 days prior to:

A. The dissolution of: ANI Pharmaceuticals, Inc., Novitium Pharma LLC, and Esjay LLC;

B. Any proposed acquisition, merger, or consolidation of ANI Pharmaceuticals, Inc., Novitium Pharma LLC, and Esjay LLC; or

C. Any other change in Respondents including, assignment and the creation or dissolution of subsidiaries, if such change might affect compliance obligations arising out of the Orders.

XIV. Access

IT IS FURTHER ORDERED that, for purposes of determining or securing compliance with the Orders, subject to any legally recognized privilege, upon written request, and upon 5 days' notice to a Respondent made to its principal United States offices, registered office of its United States subsidiary, or its headquarters address, that each Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of that Respondent and in the presence of counsel, to all facilities and access to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and all other records and documents in the possession or under the control of that Respondent related to compliance with the Orders, which copying services shall be provided by that Respondent at the request of the authorized representative(s) of the Commission and at the expense of that Respondent; and

B. To interview officers, directors, or employees of that Respondent, who may have counsel present, regarding such matters.

XV. Purpose

IT IS FURTHER ORDERED that the purpose of this Order is to remedy in a timely and sufficient manner the lessening of competition as alleged in the Commission's Complaint by:

A. Ensuring that the Acquirer can continue to use the Divestiture Assets and rights in the Divestiture Products granted or assigned pursuant to this Order for the purposes of each of the respective Divestiture Product Businesses within the United States; and

B. Creating a viable and effective competitor in the respective Divestiture Product Businesses within the United States.

XVI. Term

IT IS FURTHER ORDERED that this Order shall terminate 10 years from the date it is issued.

By the Commission.

UNITED STATES OF AMERICA
BEFORE THE FEDERAL TRADE COMMISSION

COMMISSIONERS: **Lina M. Khan, Chair**
Noah Joshua Phillips
Rebecca Kelly Slaughter
Christine S. Wilson

In the Matter of	)	
The Golub Corporation, a corporation,	)	**DECISION AND ORDER**
	)	**Docket No. C-4753**
Tops Markets Corporation, a corporation, and	)	**PUBLIC VERSION**
Project P Newco Holdings, Inc., a corporation.	)	

DECISION

The Federal Trade Commission ("Commission") initiated an investigation of the proposed merger of Respondent The Golub Corporation with Respondent Tops Markets Corporation whereby each such entity shall become a subsidiary of Respondent Project P Newco Holdings, Inc. The Commission's Bureau of Competition prepared and furnished to Respondents the Draft Complaint, which it proposed to present to the Commission for its consideration. If issued by the Commission, the Draft Complaint would charge Respondents with violations of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. § 45.

Respondents and the Bureau of Competition executed an Agreement Containing Consent Orders ("Consent Agreement") containing (1) an admission by Respondents of all the jurisdictional facts set forth in the Draft Complaint, (2) a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by Respondents that the law has been violated as alleged in the Draft Complaint, or that the facts as alleged in the Draft Complaint, other than jurisdictional facts, are true, (3) waivers and other provisions as required by the Commission's Rules, and (4) a proposed Decision and Order and Order to Maintain Assets.

The Commission considered the matter and determined that it had reason to believe that Respondents have violated the said Acts, and that a complaint should issue stating its charges in that respect. The Commission accepted the Consent Agreement and placed it on the public record for a period of 30 days for the receipt and consideration of public comments; at the same time, it issued and served its Complaint and Order to Maintain Assets. The Commission duly

considered any comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34. Now, in further conformity with the procedure described in Rule 2.34, the Commission makes the following jurisdictional findings:

1. Respondent The Golub Corporation is a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware with its executive offices and principal place of business located at 461 Nott Street, Schenectady, New York 12308.

2. Respondent Tops Markets Corporation is a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware with its executive offices and principal place of business located at 1760 Wehrle Drive, Williamsville, New York 14221.

3. Respondent Project P Newco Holdings, Inc., is a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware with its executive offices and principal place of business located at 461 Nott Street, Schenectady, New York 12308.

4. C&S Wholesale Grocers, Inc., is a corporation organized, existing, and doing business under and by virtue of the laws of the state of Vermont with its executive offices and principal place of business located at 7 Corporate Drive, Keene, New Hampshire 03431.

5. The Commission has jurisdiction over the subject matter of this proceeding and over the Respondents and the proceeding is in the public interest.

ORDER

I. Definitions

IT IS ORDERED that, as used in this Order, the following definitions shall apply:

A. "Golub" means The Golub Corporation, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by The Golub Corporation, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

B. "Tops" means Tops Markets Corporation, its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by Tops Markets Corporation, and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

C. "Holdco" means Project P Newco Holdings, Inc., its officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, divisions,

groups, and affiliates controlled by Project P Newco Holdings, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

D. "C&S" means C&S Wholesale Grocers, Inc., its directors, officers, employees, agents, representatives, successors, and assigns; and the joint ventures, subsidiaries, partnerships, divisions, groups, and affiliates controlled by C&S Wholesale Grocers, Inc., and the respective directors, officers, employees, agents, representatives, successors, and assigns of each.

E. "Respondents" means Golub, Tops, and Holdco collectively.

F. "Acquirer" means:

1. C&S; or

2. Any other person that the Commission approves to acquire any of the Supermarket Assets pursuant to this Order.

G. "Business Information" means books, records, data, and information, wherever located and however stored, including documents, written information, graphic materials, and data and information in electronic format. Business Information includes books, records, data, and information relating to sales, marketing, logistics, products, pricing, promotions, advertising, personnel, accounting, business strategy, information technology systems, customers, suppliers, vendors, research and development, registrations, licenses, and permits, and operations.

H. "Confidential Information" means all Business Information and knowledge of employees not in the public domain, except for any information that was or becomes generally available to the public other than as a result of disclosure by Respondents.

I. "Consent" means an approval, consent, ratification, waiver, or other authorization.

J. "Contract" means an agreement, contract, lease, license agreement, consensual obligation, promise or undertaking with one or more third parties, whether written or oral and whether express or implied, and whether or not legally binding.

K. "Direct Cost" means the cost of labor, goods and materials, travel, and other expenditures. The cost of any labor included in Direct Cost shall not exceed the hours of labor provided times the then-current average hourly wage rate, including benefits, for the employee providing such labor.

L. "Divestiture Agreement" means:

1. The Second Amended and Restated Asset Purchase Agreement by and between GU Markets LLC, as Buyer, Tops Markets, LLC, as Seller with respect to Markets Store Locations and Tops PT, LLC, as Seller with respect to PT Store

Locations, and all amendments, exhibits, attachments, agreements, and schedules thereto, attached to this Decision and Order as Nonpublic Appendix A; or

2. Any agreement between Respondents (or a Divestiture Trustee appointed pursuant to Section IX of this Order) and an Acquirer to purchase the Supermarket Assets, and all amendments, exhibits, attachments, agreements, and schedules thereto.

M. "Divestiture Date" means the date on which the assets relating to each Supermarket Business are divested. For example, the Divestiture Date in connection with the divestiture of the assets relating to the Cooperstown Supermarket Business would be the date on which the assets for that specific business are divested.

N. "Divestiture Trustee" means the Person appointed by the Commission pursuant to Section IX of this Order.

O. "Employee Information" means for each Supermarket Employee, to the extent permitted by law, the following information summarizing the employment history of each employee that includes:

1. Name, job title or position, date of hire, and effective service date;

2. Specific description of the employee's responsibilities;

3. The employee's base salary or current wages;

4. Most recent bonus paid, aggregate annual compensation for the last fiscal year, and current target or guaranteed bonus, if any;

5. Written performance reviews for the past three years, if any;

6. Employment status (*i.e.,* active or on leave or disability; full-time or part-time);

7. Any other material terms and conditions of employment in regard to such employee that are not otherwise generally available to similarly situated employees; and

8. At the Acquirer's option, copies of all employee benefit plans and summary plan descriptions (if any) applicable to the employee.

P. "Equipment" means all tangible personal property (other than inventories), including all: fixtures, furniture, computer equipment and third-party software, office equipment, telephone systems, security systems, registers, credit card systems, credit card invoice printers and electronic point of sale devices, money order machines and money order stock, shelving, display racks, walk-in boxes, furnishings, signage, parts, tools, supplies, and all other items of equipment or tangible personal property of any nature, together

with any express or implied warranty by the manufacturers or sellers or lessors of any item or component part, to the extent such warranty is transferrable, and all maintenance records and other related documents.

Q. "Governmental Authorization" means a Consent, license, registration, or permit issued, granted, given or otherwise made available by or under the authority of any governmental body or pursuant to any legal requirement.

R. "Intellectual Property" means all intellectual property, including: (1) commercial names, all assumed fictional business names, trade names, "doing business as" (d/b/a names), registered and unregistered trademarks, service marks and applications, and trade dress; (2) all patents, patent applications and inventions and discoveries that may be patentable; (3) all registered and unregistered copyrights in both published works and unpublished works; (4) all rights in mask works; (5) all know-how, trade secrets, confidential or proprietary information, customer lists, software, technical information, data, process technology, plans, drawings, and blue prints; (6) and all rights in internet web sites and internet domain names presently used.

S. "Merger" means the proposed merger described in the Agreement and Plan of Merger by and among (1) The Golub Corporation, (2) The Golub Stockholders Set Forth in Appendix A Hereto, (3) Tops Markets Corporation, (4) The Tops Stockholders Set Forth in Appendix B Hereto, (5) Project P Newco Holdings, Inc., (6) TMC Merger Sub, Inc., (7) Pines Merger Sub, Inc., (8) Shareholders Representative Services LLC, Solely in its Capacity as the Tops Stockholders Representative, and (9) Shareholder Representative Services LLC, Solely in its Capacity as the Golub Stockholders Representative, Dated as of February 8, 2021.

T. "Merger Date" means the date the Respondents consummate the Merger.

U. "Monitor" means any Person appointed by the Commission to serve as a monitor pursuant to this Order or the Order to Maintain Assets.

V. "Person" means any individual, partnership, corporation, business trust, limited liability company, limited liability partnership, joint stock company, trust, unincorporated association, joint venture or other entity or a governmental body.

W. "Relevant Area" means any of these counties in New York: Chenango, Clinton, Cortland, Franklin, Jefferson, Oneida, Otsego, Tioga, or Warren; or Rutland County in Vermont.

X. "Retained Assets" means the assets identified on Exhibit B of this Order.

Y. "Retained Intellectual Property" means any owned or licensed (as licensor or licensee) Intellectual Property (not included in the Retained Assets) relating to both the operation of the Supermarket Business and any other business owned by Tops prior to the Merger.

Z. "Supermarket" means any full-line retail grocery store that enables customers to purchase substantially all of their weekly food and grocery shopping requirements in a single shopping visit with substantial offerings in each of the following product categories: bread and baked goods; dairy products; refrigerated food and beverage products; frozen food and beverage products; fresh and prepared meats and poultry; fresh fruits and vegetables; shelf-stable food and beverage products, including canned, jarred, bottled, boxed, and other types of packaged products; staple foodstuffs, which may include salt, sugar, flour, sauces, spices, coffee, tea, and other staples; other grocery products, including nonfood items such as soaps, detergents, paper goods, other household products, and health and beauty aids; pharmaceutical products and pharmacy services (where provided); and, to the extent permitted by law, wine, beer, and/or distilled spirits.

AA. "Supermarket Assets" means all of Respondents' rights, title, and interest in and to all property and assets, real, personal, or mixed, tangible and intangible, of every kind and description, wherever located, used in, or relating to the Supermarket Business, including:

1. All real property interests (including fee simple interests and real property leasehold interests), including all easements, and appurtenances, together with all buildings and other structures, facilities, and improvements located thereon, owned, leased, or otherwise held;

2. All Equipment;

3. At the Acquirer's option, any or all inventories;

4. All accounts receivable;

5. All Intellectual Property;

6. All Contracts and all outstanding offers or solicitations to enter into any Contract, and all rights thereunder and related thereto;

7. All Governmental Authorizations and all pending applications therefor or renewals thereof, to the extent transferable;

8. All Business Information; and

9. All intangible rights and property, including going concern value, goodwill, and telephone and telecopy listings;

Provided, however, that the Supermarket Assets need not include the (x) Retained Assets or (y) Retained Intellectual Property.

BB. "Supermarket Business" means the Cooperstown Supermarket Business, Cortland Supermarket Business, Norwich Supermarket Business, Owego Supermarket Business, Peru Supermarket Business, Rome Supermarket Business, Rutland Supermarket

Business, Saranac Lake Supermarket Business, Sherrill Supermarket Business, Warrensburg Supermarket Business, Watertown Supermarket Business, and Watertown II Supermarket Business defined in Appendix C of this Order.

CC. "Supermarket Employee" means each full-time, part-time, or contract individual employed by Tops whose job responsibilities relate or related to the Supermarket Business at any time after February 8, 2021.

DD. "Transitional Assistance" means services and support as required by the Acquirer to facilitate the transfer of the Supermarket Business and operation of the Supermarket Assets, including services and support related to payroll, employee benefits, accounting, information technology systems, back-office and front-office systems (including inventory and price management), distribution, warehousing, and use of trademarks or trade names for transitional purposes.

II. Divestiture

IT IS FURTHER ORDERED that:

A. Respondents shall divest the Supermarket Assets, as ongoing businesses, absolutely and in good faith, to C&S as follows:

1. The assets relating to at least 2 of the Supermarket Businesses identified on Appendix C no later than January 17, 2022;

2. The assets relating to at least 4 of the Supermarket Businesses identified on Appendix C no later than January 24, 2022;

3. The assets relating to at least 6 of the Supermarket Businesses identified on Appendix C no later than January 31, 2022;

4. The assets relating to at least 8 of the Supermarket Businesses identified on Appendix C no later than February 7, 2022;

5. The assets relating to at least 10 of the Supermarket Businesses identified on Appendix C no later than February 14, 2022; and

6. The assets relating to all of the Supermarket Businesses identified on Appendix C no later than February 21, 2022.

Provided, however, that, if within 12 months after issuing the Order, the Commission determines, in consultation with the Acquirer and the Monitor, should one be appointed, that the Acquirer needs one or more Retained Assets to operate any of the Supermarket Assets in a manner that achieves the purposes of the Order, Respondents shall divest, absolutely and in good faith, such needed Retained Assets to the Acquirer; and

Provided further, however, that if Business Information relating to any of the Supermarket Assets includes information (1) that also relates to other retained businesses of Respondents and cannot be segregated in a manner that preserves the usefulness of the information as it relates to such Supermarket Assets or (2) where Respondents have a legal obligation to retain the original copies, then Respondents may provide copies of the Business Information (with redactions as appropriate) and shall provide the Acquirer access to the original materials if copies are insufficient for regulatory or evidentiary purposes;

B. If Respondents have divested any of the Supermarket Assets to C&S prior to the date this Order becomes final, and if, at the time the Commission determines to make this Order final, the Commission notifies Respondents that:

1. C&S is not acceptable as the acquirer of the applicable Supermarket Assets, then Respondents shall rescind the divestiture within 5 days of notification, and shall divest such Supermarket Assets no later than 180 days from the date this Order is issued, as ongoing businesses, absolutely and in good faith, at no minimum price, to a Person that receives the prior approval of the Commission and in a manner that receives the prior approval of the Commission; or

2. The manner in which the divestiture to C&S was accomplished is not acceptable, the Commission may direct Respondents, or appoint a Divestiture Trustee, to modify the manner of divestiture of the Supermarket Assets as the Commission may determine is necessary to satisfy the requirements of this Order.

C. Respondents shall grant a license to the Acquirer under any Retained Intellectual Property that is needed for the Acquirer to operate the Supermarket Business.

D. Respondents shall obtain, no later than the applicable Divestiture Date and at their sole expense, all Consents from third parties and all Governmental Authorizations that are necessary to effect the complete transfer and divestiture of the relevant Supermarket Assets to the Acquirer and for the Acquirer to operate any aspect of the relevant Supermarket Business;

Provided, however:

1. Respondents may satisfy the requirement to obtain all Consents from third parties by certifying that the Acquirer has entered into equivalent agreements or arrangements directly with the relevant third party that are acceptable to the Commission, or has otherwise obtained all necessary Consents and waivers; and

2. With respect to any Governmental Authorization relating to any Supermarket Assets that are not transferable, Respondents shall, to the extent permitted under applicable law, allow the Acquirer to operate the relevant Supermarket Assets under Respondents' Governmental Authorization pending the Acquirer's receipt of its own Governmental Authorization, and Respondents shall provide such

assistance as the Acquirer may reasonably request in connection with its efforts to obtain such Governmental Authorization.

E. Respondents shall assist each potential Acquirer to conduct a due diligence investigation of the applicable Supermarket Assets and Supermarket Business, including by providing sufficient and timely access to all information customarily provided as part of a due diligence process, and affording each Acquirer and its representatives (including prospective lenders and their representatives) full and free access, during regular business hours, to the personnel, assets, Contracts, Governmental Authorizations, Business Information, and other documents and data relating to the applicable Supermarket Business, with such rights of access to be exercised in a manner that does not unreasonably interfere with the operations of Respondents.

III. Divestiture Agreement

IT IS FURTHER ORDERED that:

A. The Divestiture Agreement shall be incorporated by reference into this Order and made a part hereof, and any failure by Respondents to comply with the terms of the Divestiture Agreement shall constitute a violation of this Order;

Provided, however, that the Divestiture Agreement shall not limit, or be construed to limit, the terms of this Order. To the extent any provision in the Divestiture Agreement varies from or conflicts with any provision in the Order such that Respondents cannot fully comply with both, Respondents shall comply with the Order.

B. Respondents shall not modify or amend the terms of the Divestiture Agreement after the Commission issues the Order without the prior approval of the Commission, except as otherwise provided in Commission Rule 2.41(f)(5), 16 C.F.R. § 2.41(f)(5).

IV. Transitional Assistance

IT IS FURTHER ORDERED that:

A. Until Respondents have transferred all Business Information included in the Supermarket Assets, Respondents shall ensure that the Business Information is maintained and updated in the ordinary course of business and shall provide the Acquirer with access to records and information (wherever located and however stored) that Respondents have not yet transferred to the Acquirer, and to employees who possess the records and information.

B. At the option of Acquirer, Respondents shall provide the Acquirer with Transitional Assistance sufficient to (1) transfer efficiently the applicable Supermarket Assets to the Acquirer and (2) allow the Acquirer to operate the acquired Supermarket Business and Supermarket Assets in a manner that is equivalent in all material respects to the manner in which Respondents did so prior to the Merger.

C. Respondents shall provide Transitional Assistance:

1. As set forth in the Divestiture Agreement, or as otherwise reasonably requested by the Acquirer (whether before or after the applicable Divestiture Date);

2. At the price set forth in the Divestiture Agreement, or if no price is set forth, at no more than Direct Cost; and

3. For a time period sufficient to meet the requirements of this Paragraph, which shall be, at the option of the Acquirer, for up to 12 months after the applicable Divestiture Date;

Provided, however, that within 15 days after a request by the Acquirer, Respondents shall file with the Commission a request for prior approval to extend the term for providing Transitional Assistance as the Acquirer requests in order to achieve the purposes of this Order.

D. Respondents shall allow the Acquirer to terminate, in whole or part, any Transitional Assistance provisions of the Divestiture Agreement upon commercially reasonable notice and without cost or penalty.

E. Respondents shall not cease providing Transitional Assistance due to a breach by the Acquirer of the Divestiture Agreement, and shall not limit any damages (including indirect, special, and consequential damages) that the Acquirer would be entitled to receive in the event of Respondents breach of the Divestiture Agreement.

V. Employees

IT IS FURTHER ORDERED that:

A. Until 90 days after the applicable Divestiture Date, Respondents shall cooperate with and assist the Acquirer of any of the Supermarket Assets to evaluate independently and offer employment to any Supermarket Employee.

B. Until 90 days after the applicable Divestiture Date, Respondents shall:

1. No later than 10 days after a request from the Acquirer, provide a list of all Supermarket Employees and provide Employee Information for each;

2. No later than 10 days after a request from the Acquirer, provide the Acquirer an opportunity to privately interview any of the Supermarket Employees outside the presence or hearing of any employee or agent of any Respondent, and to make offers of employment to any of the Supermarket Employees;

3. Remove any impediments within the control of Respondents that may deter Supermarket Employees from accepting employment with the Acquirer,

including, but not limited to, removal of any non-compete or confidentiality provisions of employment or other contracts with Respondents that may affect the ability or incentive of those individuals to be employed by the Acquirer, and shall not make any counteroffer to a Supermarket Employee who receives an offer of employment from the Acquirer;

Provided, however, that nothing in this Order shall be construed to require Respondents to terminate the employment of any employee or prevent Respondents from continuing the employment of any employee;

4. Continue to provide Supermarket Employees with compensation and benefits, including regularly scheduled raises and bonuses and the vesting of benefits;

5. Provide reasonable financial incentives for Supermarket Employees to continue in their positions, and as may be necessary, to facilitate the employment of such Supermarket Employees by the Acquirer; and

6. Not interfere, directly or indirectly, with the hiring or employing by the Acquirer of any Supermarket Employee, not offer any incentive to such employees to decline employment with the Acquirer, and not otherwise interfere with the recruitment of any Supermarket Employee by the Acquirer.

C. Respondents shall not, for a period of one year following the applicable Divestiture Date, directly or indirectly, solicit or otherwise attempt to induce any Person employed by the Acquirer to terminate his or her employment with the Acquirer; *provided, however*, Respondents may:

1. Hire any such Person whose employment has been terminated by the Acquirer;

2. Advertise for employees in newspapers, trade publications, or other media, or engage recruiters to conduct general employee search activities, in either case not targeted specifically at one or more Person employed by the Acquirer; or

3. Hire a Person who has applied for employment with Respondents, as long as such application was not solicited or induced in violation of this Section V.

D. Respondent shall not enforce any non-compete provision or non-compete agreement against any individual who seeks or obtains a position with the Supermarket Business or does business with the Supermarket Business.

VI. Asset Maintenance

IT IS FURTHER ORDERED that Respondents shall, subject to their obligations under the Order to Maintain Assets, ensure that the Supermarket Assets relating to each Supermarket Business are operated and maintained in the ordinary course of business consistent with past practices until such assets are fully transferred to the Acquirer, and shall:

A. Take all actions necessary to maintain the full economic viability, marketability, and competitiveness of the Supermarket Business and related Supermarket Assets, to minimize the risk of any loss of their competitive potential, to operate them in a manner consistent with applicable laws and regulations, and to prevent their destruction, removal, wasting, deterioration, or impairment (other than as a result of ordinary wear and tear).

B. Not sell, transfer, encumber, or otherwise impair the Supermarket Business and related Supermarket Assets (other than in the manner prescribed in this Order and the Order to Maintain Assets) or take any action that lessens their full economic viability, marketability, or competitiveness;

C. Not terminate the operations of the Supermarket Business and related Supermarket Assets, and shall conduct or cause to be conducted the operations of the Supermarket Business and related Supermarket Assets in the ordinary course of business and in accordance with past practice (including regular repair and maintenance efforts) and as may be necessary to preserve the full economic viability, ongoing operations, marketability, and competitiveness of the Supermarket Business and related Supermarket Assets; and

D. Use best efforts to preserve the existing relationships with suppliers, customers, employees, governmental authorities, vendors, landlords, and others having business relationships with the Supermarket Business and related Supermarket Assets.

Provided, however, that Respondents may take actions that the Acquirer has requested or agreed to in writing and that have been approved in advance by Commission staff, in all cases to facilitate the Acquirer's acquisition of the Supermarket Assets and consistent with the purposes of this Order and the Order to Maintain Assets.

VII. Confidentiality

IT IS FURTHER ORDERED that:

A. Respondents shall not (x) disclose (including to Respondents' employees) or (y) use for any reason or purpose, any Confidential Information received or maintained by Respondents relating to the Supermarket Assets, Supermarket Business, or post-divestiture Supermarket Business; *provided, however,* that Respondents may disclose or use such Confidential Information in the course of:

1. Performing its obligations or as permitted under this Order, the Order to Maintain Assets, or a Divestiture Agreement; or

2. Complying with financial reporting requirements, obtaining legal advice, prosecuting or defending legal claims, investigations, or enforcing actions threatened or brought against the Supermarket Assets or Supermarket Business, or as required by law or regulation, including any applicable securities exchange rules or regulations.

B. If disclosure or use of any Confidential Information is permitted to Respondents' employees or to any other Person under Paragraph VII.A of this Order, Respondents shall limit such disclosure or use (1) only to the extent such information is required, (2) only to those employees or Persons who require such information for the purposes permitted under Paragraph VII.A., and (3) only after such employees or Persons have signed an agreement to maintain the confidentiality of such information.

C. Respondents shall enforce the terms of this Section VII and take necessary actions to ensure that their employees and other Persons comply with the terms of this Section VII, including implementing access and data controls, training its employees, and other actions that Respondents would take to protect their own trade secrets and proprietary information.

VIII. Monitor

IT IS FURTHER ORDERED that:

A. The Commission appoints Larry Appel to serve as Monitor to observe and report on Respondents' compliance with their obligations as set forth in the Orders.

B. Respondents and the Monitor may enter into an agreement relating to the Monitor's services. Any such agreement:

1. Shall be subject to the approval of the Commission;

2. Shall not limit, and the signatories shall not construe it to limit, the terms of this Section VIII or Section __ of the Order to Maintain Assets ("Monitor Sections"), and to the extent any provision in the agreement varies from or conflicts with any provision in the Monitor Sections, Respondents and the Monitor shall comply with the Monitor Sections; and

3. Shall include a provision stating that the agreement does not limit, and the signatories shall not construe it to limit, the terms of this Order in this matter, and to the extent any provision in the agreement varies from or conflicts with any provision in this Order, Respondents and the Monitor shall comply with this Order.

C. The Monitor shall:

1. Have the authority to monitor Respondents' compliance with the obligations set forth in this Order;

2. Act in consultation with the Commission or its staff;
3. Serve as an independent third party and not as an employee or agent of Respondents or of the Commission;

4. Serve without bond or other security;

5. At the Monitor's option, employ such consultants, accountants, attorneys, and other representatives and assistants as are reasonably necessary to carry out the Monitor's duties and responsibilities;

6. Enter into a non-disclosure or other confidentiality agreement with the Commission related to Commission materials and information received in connection with the performance of the Monitor's duties and require that each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants shall also enter into a non-disclosure or other confidentiality agreement with the Commission;

7. Notify staff of the Commission, in writing, no later than 5 days in advance of entering into any arrangement that creates a conflict of interest, or the appearance of a conflict of interest, including a financial, professional or personal conflict. If the Monitor becomes aware of a such a conflict only after it has arisen, the Monitor shall notify the Commission as soon as the Monitor becomes aware of the conflict;

8. Report in writing to the Commission concerning Respondents' compliance with this Order on a schedule as determined by Commission staff, and at any other time requested by the staff of the Commission; and

9. Unless the Commission or its staff determine otherwise, the Monitor shall serve until Commission staff determines that Respondents have satisfied all obligations under Sections II, IV, and VI of this Order, and files a final report.

D. Respondents shall:

1. Cooperate with and assist the Monitor in performing his or her duties for the purpose of reviewing Respondents' compliance with their obligations under this Order, including as requested by the Monitor, (a) providing the Monitor full and complete access to personnel, information and facilities; and (b) making such arrangements with third parties to facilitate access by the Monitor;

2. Not interfere with the ability of the Monitor to perform his or her duties pursuant to this Order;

3. Pay the Monitor's fees and expenses as set forth in an agreement approved by the Commission, or if such agreement has not been approved, pay the Monitor's customary fees, as well as expenses the Monitor incurs performing his or her duties under this Order, including expenses of any consultants, accountants, attorneys, and other representatives and assistants that are reasonably necessary to assist the Monitor in carrying out his or her duties and responsibilities;

4. Not require the Monitor to disclose to Respondents the substance of the Monitor's communications with the Commission or any other Person or the substance of written reports submitted to the Commission pursuant to this Order; and

5. Indemnify and hold the Monitor harmless against any loss, claim, damage, liability, and expense (including attorneys' fees and out of pocket costs) that arises out of, or is connected with, a claim concerning the performance of the Monitor's duties under this Order, unless the loss, claim, damage, liability, or expense results from gross negligence or willful misconduct by the Monitor.

E. Respondents may require the Monitor and each of the Monitor's consultants, accountants, attorneys, and other representatives and assistants to enter into a customary confidentiality agreement, so long as the agreement does not restrict the Monitor's ability to access personnel, information, and facilities or provide information to the Commission, or otherwise observe and report on the Respondents' compliance with this Order.

F. If the Monitor resigns or the Commission determines that the Monitor has ceased to act, has failed to act diligently, or is otherwise unable to continue serving as a Monitor due to the existence of a conflict or other reasons, the Commission may appoint a substitute Monitor. The substitute Monitor shall be afforded all rights, powers, and authorities and shall be subject to all obligations of the Monitor Sections of this Order. The Commission shall select the substitute Monitor, subject to the consent of the Respondents. Respondents:

1. Shall not unreasonably withhold consent to the appointment of the selected substitute Monitor;

2. Shall be deemed to have consented to the selection of the proposed substitute Monitor if, within 10 days of notice by staff of the Commission of the identity of the proposed substitute Monitor, Respondents have not opposed in writing, including the reasons for opposing, the selection of the proposed substitute Monitor; and

3. May enter into an agreement with the substitute Monitor relating to the substitute Monitor's services that either (a) contains substantially the same terms as the Commission-approved agreement referenced in Paragraph VIII.B.; or (b) receives Commission approval.

G. The Commission may on its own initiative or at the request of the Monitor issue such additional orders or directions as may be necessary or appropriate to assure compliance with the requirements of this Order.

IX. Divestiture Trustee

IT IS FURTHER ORDERED that:

A. If Respondents have not fully complied with the obligations to assign, grant, license, divest, transfer, deliver, or otherwise convey the Supermarket Assets as required by this Order, the Commission may appoint a trustee ("Divestiture Trustee") to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets in a manner that satisfies the requirements of this Order.

B. In the event that the Commission or the Attorney General brings an action pursuant to § 5(*l*) of the Federal Trade Commission Act, 15 U.S.C. § 45(l), or any other statute enforced by the Commission, Respondents shall consent to the appointment of a Divestiture Trustee in such action to assign, grant, license, divest, transfer, deliver, or otherwise convey these assets. Neither the appointment of a Divestiture Trustee nor a decision not to appoint a Divestiture Trustee under this Section shall preclude the Commission or the Attorney General from seeking civil penalties or any other relief available to it, including a court-appointed Divestiture Trustee, pursuant to § 5(*l*) of the Federal Trade Commission Act, or any other statute enforced by the Commission, for any failure by the Respondents to comply with this Order.

C. The Commission shall select the Divestiture Trustee, subject to the consent of Respondents which consent shall not be unreasonably withheld. The Divestiture Trustee shall be a Person with experience and expertise in acquisitions and divestitures. If Respondents have not opposed, in writing, including the reasons for opposing, the selection of any proposed Divestiture Trustee within 10 days after notice by the staff of the Commission to Respondents of the identity of any proposed Divestiture Trustee, Respondents shall be deemed to have consented to the selection of the proposed Divestiture Trustee.

D. Not later than 10 days after the appointment of a Divestiture Trustee, Respondents shall execute a trust agreement that, subject to the prior approval of the Commission, transfers to the Divestiture Trustee all rights and powers necessary to permit the Divestiture Trustee to effect the divestitures required by this Order. Any failure by Respondents to comply with a trust agreement approved by the Commission shall be a violation of this Order.

E. If a Divestiture Trustee is appointed by the Commission or a court pursuant to this Paragraph, Respondents shall consent to the following terms and conditions regarding the Divestiture Trustee's powers, duties, authority, and responsibilities:

1. Subject to the prior approval of the Commission, the Divestiture Trustee shall have the exclusive power and authority to assign, grant, license, divest, transfer, deliver, or otherwise convey the assets that are required by this Order to be assigned, granted, licensed, divested, transferred, delivered, or otherwise conveyed;

2. The Divestiture Trustee shall have one year from the date the Commission approves the trustee trust agreement described herein to accomplish the divestitures, which shall be subject to the prior approval of the Commission. If, however, at the end of the one year period, the Divestiture Trustee has submitted a plan of divestiture or the Commission believes that the divestitures can be achieved within a reasonable time, the divestiture period may be extended by the Commission,

   Provided, however, the Commission may extend the divestiture period only 2 times;

3. Subject to any demonstrated legally recognized privilege, the Divestiture Trustee shall have full and complete access to the personnel, books, records, and facilities related to the relevant assets that are required to be assigned, granted, licensed, divested, delivered, or otherwise conveyed by this Order and to any other relevant information, as the Divestiture Trustee may request. Respondents shall develop such financial or other information as the Divestiture Trustee may request and shall cooperate with the Divestiture Trustee. Respondents shall take no action to interfere with or impede the Divestiture Trustee's accomplishment of the divestitures. Any delays in divestitures caused by Respondents shall extend the time for divestitures under this Paragraph in an amount equal to the delay, as determined by the Commission or, for a court-appointed Divestiture Trustee, by the court;

4. The Divestiture Trustee shall use commercially reasonable best efforts to negotiate the most favorable price and terms available in each contract that is submitted to the Commission, subject to Respondents' absolute and unconditional obligation to divest expeditiously and at no minimum price. The divestiture shall be made in the manner and to an Acquirer that receives the prior approve of the Commission as required by this Order,

   Provided, however, if the Divestiture Trustee receives bona fide offers from more than one acquiring person for a divestiture, and if the Commission determines to approve more than one such acquiring person for the divestiture, the Divestiture Trustee shall divest to the acquiring person selected by Respondents from among those approved by the Commission,

   Provided further, however, that Respondents shall select such person within 5 days of receiving notification of the Commission's approval;

5. The Divestiture Trustee shall serve, without bond or other security, at the cost and expense of Respondents, on such reasonable and customary terms and conditions as the Commission or a court may set. The Divestiture Trustee shall have the authority to employ, at the cost and expense of Respondents, such consultants, accountants, attorneys, investment bankers, business brokers, appraisers, and other representatives and assistants as are necessary to carry out the Divestiture

Trustee's duties and responsibilities. The Divestiture Trustee shall account for all monies derived from the divestiture and all expenses incurred. After approval by the Commission of the account of the Divestiture Trustee, including fees for the Divestiture Trustee's services, all remaining monies shall be paid at the direction of the Respondents, and the Divestiture Trustee's power shall be terminated. The compensation of the Divestiture Trustee shall be based at least in significant part on a commission arrangement contingent on the divestiture of all of the relevant assets that are required to be divested by this Order;

6. Respondents shall indemnify the Divestiture Trustee and hold the Divestiture Trustee harmless against any losses, claims, damages, liabilities, or expenses arising out of, or in connection with, the performance of the Divestiture Trustee's duties, including all reasonable fees of counsel and other expenses incurred in connection with the preparation for, or defense of, any claim, whether or not resulting in any liability, except to the extent that such losses, claims, damages, liabilities, or expenses result from gross negligence or willful misconduct by the Divestiture Trustee;

7. The Divestiture Trustee shall have no obligation or authority to operate or maintain the Divestiture Assets required to be divested by this Order;

8. The Divestiture Trustee shall report in writing to Respondents and to the Commission every 30 days concerning the Divestiture Trustee's efforts to accomplish the divestiture; and

9. Respondents may require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign a customary confidentiality agreement,

Provided, however, that such agreement shall not restrict the Divestiture Trustee from providing any information to the Commission.

F. The Commission may, among other things, require the Divestiture Trustee and each of the Divestiture Trustee's consultants, accountants, attorneys, and other representatives and assistants to sign an appropriate confidentiality agreement related to Commission materials and information received in connection with the performance of the Divestiture Trustee's duties.

G. If the Commission determines that a Divestiture Trustee has ceased to act or failed to act diligently, the Commission may appoint a substitute Divestiture Trustee in the same manner as provided in this Paragraph.

H. The Commission or, in the case of a court-appointed Divestiture Trustee, the court, may on its own initiative or at the request of the Divestiture Trustee issue such additional orders or directions as may be necessary or appropriate to accomplish the divestitures and other obligations or action required by this Order.

X. Prior Approval

IT IS FURTHER ORDERED that Respondents shall not, without the prior approval of the Commission, acquire, directly or indirectly, through subsidiaries, partnerships, or otherwise:

A. Any ownership or leasehold interest in any facility that has operated as a Supermarket in a Relevant Area within 6 months prior to the date of such proposed acquisition; or

B. Any stock, share capital, equity, or other interest in any entity that owns any interest in or operates a Supermarket, or owned any interest in or operated a Supermarket in a Relevant Area within 6 months prior to such proposed acquisition.

Provided however, that Respondents are not required to obtain the prior approval of the Commission for the Respondents' construction or opening of new facilities.

XI. Additional Obligations

IT IS FURTHER ORDERED that Respondents shall neither enter into nor enforce any agreement that restricts the ability of any Person to operate a Supermarket at any location formerly owned or operated by Respondents in a Relevant Area.

XII. Acquirer

IT IS FURTHER ORDERED that:

A. For a period of:

1. 3 years after the Divestiture Date, C&S or any other Acquirer shall not sell, license, or otherwise convey, through subsidiaries or otherwise, without the prior approval of the Commission, any Supermarket that was divested pursuant to Section II to any Person; and

2. 7 years after the term of Paragraph XII.A.1. ends, C&S or any other Acquirer shall not sell, license, or convey, through subsidiaries or otherwise, without the prior approval of the Commission, a Supermarket that was divested pursuant to Section II to any Person who owns, or within 6 months prior to such sale date, owned, directly, or indirectly, through subsidiaries or otherwise, a leasehold, ownership interest, or any other interest in whole or in part, in a Supermarket located in the same Relevant Area as the divested Supermarket;

Provided, however, C&S is not required to obtain prior approval of the Commission under this Paragraph XII.A. for a change of control, merger, reorganization, or sale of all or substantially all of its business.

B. C&S shall neither enter into nor enforce any agreement that restricts the ability of any Person to operate a Supermarket at any location formerly owned or operated by C&S in a Relevant Area.

XIII. Compliance Reports

IT IS FURTHER ORDERED that:

A. Respondents shall:

1. Notify Commission staff via email at bccompliance@ftc.gov of the Merger Date and of the Divestiture Date of the Supermarket Assets relating to each Supermarket Business no later than 5 days after the occurrence of each; and

2. Submit the complete Divestiture Agreement to the Commission at ElectronicFilings@ftc.gov and bccompliance@ftc.gov no later than 30 days after Respondents close on a Divestiture Agreement.

B. Respondents shall file verified written reports ("Compliance Reports") in accordance with the following:

1. Respondents shall submit:

(a) Interim Compliance Reports 30 days after this Order is issued and every 30 days thereafter until Respondents have fully complied with the provisions of Sections II and IV of this Order;

(b) Annual Compliance Reports one year after the date this Order is issued and annually thereafter for the next nine years on the anniversary of that date; and

(c) Additional Compliance Reports as the Commission or its staff may request.

2. Each Compliance Report shall contain sufficient information and documentation to enable the Commission to determine independently whether Respondents are in compliance with the Order. Conclusory statements that Respondents have complied with their obligations under the Order are insufficient. Respondents shall include in their reports, among other information or documentation that may be necessary to demonstrate compliance, a full description of the measures Respondents have implemented or plan to implement to ensure that they have complied or will comply with each paragraph of this Order.

3. For a period of 5 years after filing a Compliance Report, each Respondent shall retain all material written communications with each party identified in each Compliance Report and all non-privileged internal memoranda, reports, and recommendations concerning fulfilling Respondent's obligations under this Order

during the period covered by such Compliance Report. Respondents shall provide copies of these documents to Commission staff upon request.

C. Respondents shall verify each compliance report in the manner set forth in 28 U.S.C. § 1746 by the Chief Executive Officer or another officer or employee specifically authorized to perform this function. Respondents shall file its compliance reports with the Secretary of the Commission at ElectronicFilings@ftc.gov and the Compliance Division at bccompliance@ftc.gov, as required by Commission Rule 2.41(a), 16 C.F.R. § 2.41(a). In addition, Respondents shall provide a copy of each compliance report to the Monitor if the Commission has appointed one in this matter.

XIV. Change in Respondents

IT IS FURTHER ORDERED that Respondents shall notify the Commission at least 30 days prior to:

A. The proposed dissolution of The Golub Corporation, Tops Markets Corporation, or Project P Newco Holdings, Inc.;

B. The proposed acquisition, merger, or consolidation of The Golub Corporation, Tops Markets Corporation, or Project P Newco Holdings, Inc.; or

C. Any other changes in Respondents, including assignment and the creation, sale, or dissolution of subsidiaries, if such changes may affect compliance obligations arising out of the Order.

XV. Access

IT IS FURTHER ORDERED that for purposes of determining or securing compliance with this Order, and subject to any legally recognized privilege, upon written request and 5 days' notice to the relevant Respondent, made to its principal place of business as identified in this Order, registered office of its United States subsidiary, or its headquarters office, the notified Respondent shall, without restraint or interference, permit any duly authorized representative of the Commission:

A. Access, during business office hours of the Respondent and in the presence of counsel, to all facilities and access to inspect and copy all business and other records and all documentary material and electronically stored information as defined in Commission Rules 2.7(a)(1) and (2), 16 C.F.R. § 2.7(a)(1) and (2), in the possession or under the control of the Respondent related to compliance with this Order, which copying services shall be provided by the Respondent at the request of the authorized representative of the Commission and at the expense of the Respondent; and

B. To interview officers, directors, or employees of the Respondent, who may have counsel present, regarding such matters.

XVI. Purpose

IT IS FURTHER ORDERED that the purpose of this Order is to remedy the harm to competition the Commission alleged in its Complaint and to ensure the Acquirer can operate the Supermarket Business in a manner equivalent in all material respects to the manner in which Respondents operated the Supermarket Business prior to the Merger.

XVII. Term

IT IS FURTHER ORDERED that this Order shall terminate on January 20, 2032.

By the Commission.

April J. Tabor
Secretary

COMPLAINT

Pursuant to the Clayton Act and the Federal Trade Commission Act ("FTC Act"), and its authority thereunder, the Federal Trade Commission ("Commission"), having reason to believe that Respondent Lockheed Martin Corporation ("Lockheed"), a corporation subject to the jurisdiction of the Commission, has agreed to acquire Respondent Aerojet Rocketdyne Holdings, Inc. ("Aerojet"), a corporation subject to the jurisdiction of the Commission, in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45, that such acquisition, if consummated, would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45, and it appearing to the Commission that a proceeding in respect thereof would be in the public interest, hereby issues its Complaint, stating its charges as follows:

NATURE OF THE CASE

1. Lockheed, the world's largest defense contractor, proposes to acquire Aerojet, the last significant independent, and, in some instances sole, U.S. supplier of several critical missile propulsion products used as inputs in multiple weapon systems, for $4.4 billion (the "Proposed Acquisition"). If permitted, the Proposed Acquisition would allow the combined firm to use its control of Aerojet to harm Lockheed's rivals in ways that would substantially lessen competition in multiple markets for products critical to the national defense.

2. The United States Department of Defense ("DoD" or the "Department") depends on prime contractors such as Lockheed to design, develop, and produce the weapon systems it requires to defend the United States. Under DoD's acquisition system, a prime contractor is

responsible for sourcing all necessary systems, subsystems, and components either internally or through sub-contracts with qualified outside suppliers.

3. Lockheed currently competes against other firms, including Raytheon Technologies, Inc. ("Raytheon"), Northrop Grumman Corporation ("Northrop" or "NG"), and The Boeing Company ("Boeing"), for prime contracts to design, develop, and produce, all-up missile rounds and/or missile systems ("missiles"), missile defense kill vehicles ("KVs"), and/or hypersonic cruise missiles ("HCMs") (collectively, the "Relevant Products" and the "Relevant Markets") for DoD. The competition among prime contractors for these important weapon systems has provided benefits to DoD, including lower costs, enhanced quality, and greater innovation.

4. After conducting an independent review of the Proposed Acquisition, DoD, the sole customer for the Relevant Products, has "concluded [redacted]

5. Aerojet is a premier provider of multiple critical inputs to the Relevant Products, including solid propellant rocket motors ("SRMs") for missile propulsion, divert-and-attitude control systems ("DACS") that provide the fast and precise maneuvering capabilities for the KVs used to intercept hostile ballistic missile threats, and air-breathing hypersonic propulsion systems, including, but not limited to, the supersonic combustion ramjets ("scramjets") that power HCMs (collectively, "Critical Propulsion Technologies").

6. As a Lockheed executive summarized in Executive Talking Points about the Proposed Acquisition, "propulsion is an absolutely critical element for all future advanced missiles." This executive further explained, [redacted]

7. Aerojet is the only independent, and, in some instances sole, significant U.S. supplier of the Critical Propulsion Technologies. [redacted]

8. Lockheed believed that the Proposed Acquisition [redacted] whereas, if Lockheed did not pursue the acquisition, [redacted]

9. The Proposed Acquisition would reduce competition because it will provide Lockheed with the ability and incentive to foreclose access to, or raise its rivals' cost for, the Critical Propulsion Technologies. Without access to these essential inputs, Lockheed's competitors (and future potential competitors) would be seriously disadvantaged—if not completely foreclosed—from competing for upcoming DoD prime contracts in the Relevant

Markets. Short of refusing to sell or increasing the price of its in-house propulsion products, a combined Lockheed-Aerojet could use multiple other mechanisms to disadvantage its competitors that rely on these critical inputs to design, develop, and produce the Relevant Products, such as making adverse personnel assignments and/or scheduling, investment, or design decisions.

10. Today, as a neutral merchant supplier, Aerojet has the incentive to (and in fact does) compete to supply the Critical Propulsion Technologies to all potential customers. When a prime contract is up for bid, Aerojet currently possesses an incentive to support as many potential prime contractors as possible to maximize the probability that Aerojet will be the supplier of choice for the winning prime contractor.

11. Before agreeing to purchase Aerojet, Lockheed sought unsuccessfully to prevent Aerojet from supplying Critical Propulsion Technologies to other prime contractors on a number of occasions. [redacted] This is not the first time Lockheed made such an attempt. [redacted]

12. If Lockheed acquires Aerojet, the combined firm will no longer have the same incentive to support its rival prime contractors. For example, post-acquisition, Lockheed would earn substantially more by winning a DoD prime contract for a Relevant Product than it would from the sale of Critical Propulsion Technologies to a rival that won the prime contract. Because Lockheed will earn more if it wins the prime contract, it will have an increased incentive to refuse to sell to, or otherwise disadvantage (e.g., by failing to provide pre-acquisition levels of pricing, support, access, or research investment) its rival defense prime contractors in order to shift future prime missile contracts to Lockheed.

13. The Proposed Acquisition will likely result in a decrease in certain research and development ("R&D") investment and innovation in the design, development, and production of missile propulsion systems. Today, Aerojet collaborates closely and shares innovative ideas with all its major customers, including, but not limited to, Lockheed, Raytheon, Boeing, and Northrop. Similarly, Aerojet invests its own resources in R&D to support competing propulsion concepts advanced by multiple prime contractors for a given missile program. Given Aerojet currently is generally agnostic as to which prime wins a given contract (provided Aerojet is the supplier for the winner), Aerojet invests in technologies that it expects will yield the most benefit to its propulsion business without regard to the identity of the prime contractor. Post-acquisition, however, a combined Lockheed-Aerojet will no longer possess the same incentives with respect to R&D. Post-acquisition, the combined firm will earn more if Lockheed wins the prime

contract, and therefore, would have a diminished incentive to devote its resources toward otherwise beneficial, innovative R&D that would advantage Lockheed's rivals or diminish sales of competing Lockheed Relevant Products, ultimately inhibiting DoD's capability to defend the nation.

14. A further anticompetitive effect of the Proposed Acquisition is that it presents new opportunities, and heightens the incentives, for Lockheed to misuse the competitively sensitive, non-public information of rival primes and propulsion suppliers in at least two ways. First, by acquiring Aerojet, Lockheed will gain access to competitively sensitive, non-public information about its rivals' competing missile, KV, or HCM systems to which Aerojet was privy in its role as a supplier of the Critical Propulsion Technologies to those rival primes. If such information is shared, whether intentionally or unintentionally, with Lockheed personnel working on a competing prime proposal, the information exchange could reduce competition for the relevant program. Going forward, rival primes may also be inhibited from sharing necessary information with the former Aerojet propulsion business because they risk the loss of their proprietary information to Lockheed. Second, Lockheed, in its current role as purchaser of Critical Propulsion Technologies, is likely to be privy to competitively sensitive, non-public information relating to Aerojet's only SRM rival, Northrop. Post-acquisition, Lockheed would have an incentive that it did not previously have to exploit that proprietary Northrop information to gain an advantage for its newly acquired in-house propulsion business and to disadvantage Northrop in future SRM competitions. Preventing such potential anticompetitive exchanges of information is necessary to maintain effective competition in the Relevant Markets to ensure that innovation, price, and/or performance for these important U.S. military systems is not negatively impacted.

15. The Proposed Acquisition will substantially lessen competition in all Relevant Markets, likely impacting multiple consequential current and future missile procurement programs. If the Proposed Acquisition is consummated, it will likely result in less innovation by Lockheed and other prime competitors, possible exit by Lockheed's prime competitors, increased barriers to entry in the downstream Relevant Markets, and higher cost and/or lower quality product for DoD.

16. There are no countervailing factors sufficient to offset the likelihood of competitive harm from the Proposed Acquisition. Neither new entry nor expansion by existing market participants will be timely, likely, or sufficient in magnitude, character, and scope to deter or counteract the anticompetitive effects of the Proposed Acquisition.

17. Nor can Respondents demonstrate substantiated, verifiable, cognizable, and merger-specific efficiencies that would offset the Proposed Acquisition's likely significant anticompetitive effects in the Relevant Markets.

RESPONDENTS AND THE PROPOSED ACQUISITION

18. Respondent Lockheed is a Maryland corporation headquartered at 6801 Rockledge Drive, Bethesda, Maryland 20817. The largest defense contractor in the world, Lockheed reported net sales of over $65 billion in 2020, approximately 74 percent of which were from sales to the U.S. Government. Lockheed employs approximately 110,000 people, with the vast majority located in the United States. Lockheed's business is organized into four segments: Aeronautics, Missiles and Fire Control, Rotary and Mission Systems, and Space. At least three of its business segments (Aeronautics, Missile and Fire Control, and Space) research, design, develop, integrate, produce, and/or sustain various classified and unclassified advanced missiles and missile defense systems, including missiles, KVs, and HCMs.

19. Respondent Aerojet is a Delaware corporation headquartered at 222 N. Pacific Coast Highway, Suite 500, El Segundo, California 90245. Aerojet is an aerospace and defense company that specializes in researching, developing, and manufacturing advanced power, propulsion, and armament systems. A major portion of Aerojet's business is devoted to developing and producing liquid and solid rocket propulsion systems for defense and civil space applications. Aerojet is also a leader in developing cutting-edge hypersonic propulsion technologies, including air-breathing hypersonic propulsion systems and solid propellant boost motors for hypersonic weapon systems. Aerojet reported net sales of over $2 billion in 2020, approximately 96 percent of which were sales made, directly or indirectly, to the U.S. Government, including to the military services, the Missile Defense Agency ("MDA"), and the National Aeronautics and Space Administration. As a tier-one subcontractor, Aerojet usually is a direct supplier to a prime contractor customer such as Lockheed. Aerojet considers its remaining performance obligations, or "backlog," to be a key metric of its financial performance. In October 2021, Aerojet's backlog totaled approximately $7 billion and its funded backlog (amounts for which funding has been authorized by a customer and purchase order received), totaled approximately $3.2 billion.

20. Pursuant to an Agreement and Plan of Merger dated December 20, 2020, Lockheed agreed to acquire 100 percent of the issued and outstanding voting securities of Aerojet for approximately $4.4 billion.

JURISDICTION

21. Respondents, and each of their relevant operating entities and subsidiaries are, and at all relevant times have been, engaged in commerce and in activities affecting "commerce" as defined in Section 4 of the FTC Act, 15 U.S.C. § 44, and Section 1 of the Clayton Act, 15 U.S.C. § 12

22. The Proposed Acquisition is subject to Section 7 of the Clayton Act, 15 U.S.C. § 18.

INDUSTRY BACKGROUND

23. The Relevant Products are defense-specific products for which DoD is generally the sole customer. DoD's process for buying a new weapon system is lengthy, highly complex, governed by multiple sets of regulations, and involves numerous decision makers. Each new

weapon system must go through a formal three-step process, which includes (1) identifying the specific military requirements for the new weapon system; (2) planning, programming, budgeting, and execution; and (3) determining how the weapon system will be developed and acquired. This weapon system procurement program—from initial concept to full production of the weapon system—occurs over a number of years.

24. Under the DoD acquisition system, the weapon system integrator or "prime contractor" is typically responsible for designing the new weapon system, assessing the trade-offs inherent in potential designs, maturing the enabling technologies, and planning development, production, and sustainment programs to achieve an operational weapon that meets DoD's performance, cost, and schedule requirements. Because of the enormous complexity of modern weapon systems, only a small number of firms possess the necessary mix of technical, managerial, and industrial capabilities to act as a prime contractor for most DoD acquisition programs for any of the Relevant Products. In the acquisition phase, some common factors that DoD considers before awarding a competitive prime contract include technical capability, cost/price, schedule risk, and the bidders' past performance on similar programs.

25. The prime contractor is, in turn, responsible for selecting subcontractors to manufacture components of the integrated weapon system. These sub-components can vary greatly in complexity and importance. For the Relevant Products, the propulsion provider is a major subcontractor of particular importance because the propulsion sub-system is one of the critical discriminator technologies that determines the weapon system's performance. Propulsion subcontractor evaluations can be based on a multitude of factors including, but not limited to, capabilities, price, performance, past performance/reputation, risk, and delivery schedule. As a result, the design and development of a propulsion sub-system entails a close and lengthy collaboration, including the sharing of significant amounts of proprietary, competitively sensitive information, between the input supplier and the prime throughout the entire length of the acquisition program.

26. The U.S. missile industry is highly concentrated up and down the supply chain. In most cases, there are at most four firms that possess sufficient experience and expertise in designing, developing, and producing missile systems to serve as prime contractors for the Relevant Products: Lockheed, Raytheon, Boeing, and, in some instances, Northrop. There are at most two firms that can competitively supply the Critical Propulsion Technologies to the prime contractors: Aerojet and Northrop.

THE RELEVANT ANTITRUST MARKETS

27. The Proposed Acquisition is likely to lessen competition substantially in multiple relevant product markets, including the design, development, and production of missiles, KVs, and HCMs in the United States.

I. The Relevant Product Markets are the Design, Development, and Production of Missiles, KVs, and HCMs

a. The Design, Development, and Production of Missiles is a Relevant Product Market

28. The first relevant product market in which to analyze the Proposed Acquisition is no broader than the design, development, and production of missiles. A missile is a self-propelled, guided munition that flies through or above the atmosphere to strike a target. Missiles are advanced weapon systems that provide essential national defense capabilities that no other weapon system is as capable of providing.

29. The U.S. military depends on many different missiles to accomplish various specific missions. There are three broad categories of missiles: strategic, tactical, and missile defense interceptors ("MDIs"). U.S. military strategic missiles include nuclear-armed ballistic and cruise missiles intended to achieve strategic nuclear deterrence. These missiles are designed to strike strategic targets at very long ranges. U.S. military tactical missiles are conventional, typically shorter-range weapons used to engage individual military targets to gain tactical advantage on the battlefield. MDIs are specialized missiles designed to intercept and destroy incoming ballistic missile threats.

30. Missiles contain several components that can vary depending on the mission-specific purpose for which the missile is designed. All missiles, however, contain four principle sub-systems: airframe, guidance and control, armament, and propulsion.

31. Most missiles employed by the U.S. military use SRMs for propulsion. The U.S. military also employs a small number of missiles, called "cruise missiles," that use air-breathing jet engines instead of SRMs for primary propulsion. Cruise missiles, which travel at sub-sonic speeds, are not substitutes in most cases for SRM-powered missiles that can travel at high supersonic and even hypersonic (above Mach 5) speeds.

32. Missiles have different characteristics and operational capabilities than other weapon systems employed by the U.S. military. Other munitions—such as gravity bombs, ammunition, mortar rounds, and naval gun rounds—are not close substitutes for most missile applications because they differ substantially from missiles in terms of cost, performance characteristics, and operational capabilities. For example, missiles are uniquely suited to certain missions such as intercepting fast-moving targets, including hostile aircraft and missiles. Missiles also may permit engagement of targets at greater range than other weapon systems, which allows the U.S. military to strike targets while remaining outside of the effective range of enemy counter-fire weapons.

33. The U.S. military has not, and likely would not, switch to any substitute product in response to a small but significant and non-transitory increase in the price of any given missile.

34. The design, development, and production of missiles for the U.S. military is a line of commerce and a relevant product market within the meaning of the Clayton Act.

b. The Design, Development, and Production of KVs is a Relevant Product Market

35. The second relevant product market in which to analyze the Proposed Acquisition is no broader than design, development, and production of KVs. KVs are essential subsystems of the MDIs used in U.S. ballistic missile defense programs. The U.S. Ballistic Missile Defense System consists of technology deployed to counter ballistic missile threats using either the force of a direct collision or an explosive warhead to destroy the enemy missile before it reaches its intended target. Since ballistic missiles have different ranges, speeds, size, and performance characteristics, the Ballistic Missile Defense System utilizes a layered approach that provides multiple opportunities to destroy missiles and their warheads at different altitudes along their flight trajectories. DoD relies on multiple MDI systems to execute this layered approach for missile defense.

36. In most U.S. missile defense systems, the MDI consists of one or more SRM-powered boost stage(s) that propel the interceptor through the earth's atmosphere and a KV that is designed to destroy or neutralize the incoming threat. Launched on the front end of the interceptor, the KV detaches from the interceptor's final booster stage once the interceptor is in range of its intended target, seeks its target, and maneuvers to intercept it. KVs are typically "hit-to-kill" weapons, meaning that they aim to eliminate the threat by using only the kinetic energy produced by physically colliding with the target.

37. There are no substitutes for KVs. All of the ballistic missile defense systems deployed or under advanced development by DoD's MDA and U.S. military services depend on KVs. As a result, DoD has not, and likely would not, switch to any substitute product in response to a small but significant and non-transitory increase in the price of any given KV.

38. The design, development, and production of KVs for the U.S. military is a line of commerce and a relevant product market within the meaning of the Clayton Act.

c. The Design, Development, and Production of HCMs is a Relevant Product Market

39. The third relevant product market in which to analyze the Proposed Acquisition is no broader than design, development, and production of HCMs. A HCM is a hypersonic strike missile powered by an air-breathing hypersonic propulsion system, namely a scramjet engine. The unclassified HCMs currently under development are air-launched cruise missiles that use SRM-powered boost stages to accelerate the HCMs to a sufficiently high speed (approximately Mach 3) at which point scramjet sustainer engines take over to propel the HCMs to their intended targets at hypersonic speeds of Mach 5 or greater.

40. The development and near-term deployment of hypersonic weapon systems is one of the highest national security priorities for DoD, due, in part, to the need to match or deter the threats posed by recent advances in these technologies by potential adversaries of the United States. HCMs are one type of hypersonic weapon that DoD is interested in developing because they would provide the U.S. military with important capabilities that would enhance its ability to strike rapidly targets in highly contested environments. Specifically, HCMs would provide significant advantages over current cruise missiles in terms of speed to target and survivability to attack well-defended targets. Consequently, Lockheed and other major U.S. defense contractors are prioritizing the acquisition and development of hypersonic technologies to capture anticipated future business in high growth markets for hypersonic weapon systems, including HCMs.

41. Lockheed, Raytheon, and Boeing have each won contracts to develop HCMs for the U.S. military and are competing, or likely to compete, for future U.S. military HCM programs. DoD's Defense Advanced Research Projects Agency awarded Lockheed and Raytheon dual prime contracts to develop competing prototype HCM flight vehicles for the Hypersonic Air-breathing Weapon Concept program. A U.S. Air Force program, Southern Cross Integrated Flight Research Experiment ("SCIFiRE"), also seeks to develop a HCM that can be launched from ground-attack fighter aircraft. The SCIFiRE program is in study phase now, and Lockheed, Boeing, and Raytheon were each awarded SCIFiRE preliminary development contracts in 2021. [redacted] In addition to these two unclassified programs, there are other future HCM programs under consideration by various branches of the U.S. military. Aerojet is one of only two competitive suppliers of the scramjets necessary to develop successfully HCMs for the U.S. military.

42. The U.S. military likely would not switch to any substitute product in response to a small but significant and non-transitory increase in the price of any HCM.

43. The design, development, and production of HCMs for the U.S. military is a line of commerce and a relevant product market within the meaning of the Clayton Act.

II. The Relevant Geographic Market is the United States

44. The relevant geographic area in which to analyze the effects of the Proposed Acquisition on competition in each of the Relevant Product markets is the United States.

45. The Relevant Products are purchased almost solely by DoD, which decides which companies are acceptable suppliers and then funds the development and procurement of these weapons through appropriations made by Congress. As a result of federal law, national security, and other considerations, DoD is unlikely to turn to any foreign producers in the face of a small but significant and non-transitory price increase by domestic suppliers of missiles, KVs, or HCMs.

46. For legal, political, economic, practical, and national security reasons, U.S. military prime contractors are unlikely to turn to any foreign producers in the face of a small but

significant and non-transitory price increase by domestic suppliers of SRMs, DACS, or scramjets.

47. The United States is a relevant geographic market within the meaning of the Clayton Act.

ANTICOMPETITIVE EFFECTS

48. The Proposed Acquisition of Aerojet—the last independent domestic missile propulsion supplier (and one of only two significant domestic suppliers)—by a leading supplier of missiles, KVs, and HCMs to the U.S. military is likely to substantially lessen competition for procurements of these products, which are critical to the national security interests of the United States, in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

49. As a result of the Proposed Acquisition, Lockheed would gain the ability and incentive to deny or degrade competitors' access to Critical Propulsion Technologies, which would increase rivals' costs for these inputs or otherwise disadvantage Lockheed's competitors. The U.S. Government, in turn, would be harmed because the cost of the Relevant Products would likely increase, innovation would be lessened, and quality would be reduced.

50. The U.S. missile industry is highly concentrated up and down the supply chain, and it has unique characteristics that make it difficult—if not impossible—for prime contractors to switch to alternative suppliers for Critical Propulsion Technologies. The presence of only two (at most) upstream suppliers and four significant participants (Lockheed, Raytheon, Northrop, and Boeing) in the downstream markets demonstrates the extent to which the Relevant Markets and the related upstream propulsion markets are highly concentrated. The effect of foreclosure by the combined firm following the acquisition would thus only increase or entrench market concentration.

51. Per DoD policy, DoD independently assessed the impact of the Proposed Acquisition [redacted] and concluded that the transaction [redacted]

52. Lockheed feared such foreclosure risk to itself were one of its competing primes to acquire Aerojet. For example, one Lockheed businessperson concluded, [redacted] Another Lockheed executive similarly observed, [redacted] That defensive rationale for the Proposed Acquisition itself substantiates the criticality of the propulsion products Aerojet supplies and validates the concerns that control

of these essential inputs could be wielded effectively to lessen competition by other suppliers of the Relevant Products.

53. Through its acquisition of Aerojet, Lockheed would gain the ability to foreclose, raise costs for, or otherwise disadvantage, its prime contract rivals that rely on Aerojet's Critical Propulsion Technologies to compete effectively in the Relevant Markets. Switching propulsion suppliers is prohibitively expensive, and Aerojet's current customers therefore cannot easily switch to Northrop, the only remaining U.S propulsion supplier of SRMs and scramjets, for existing programs. Moreover, there is no other proven alternative U.S. supplier of DACS to which KV producers could turn. Nor can primes practicably turn to foreign suppliers for propulsion products for DoD programs.

54. The Proposed Acquisition will necessarily alter the combined firm's incentives to supply Critical Propulsion Technologies to Lockheed's prime contractor rivals. Currently, Aerojet has the incentive to supply all potential primes seeking to win DoD contracts in the Relevant Markets to maximize Aerojet's probability of being the Critical Propulsion Technology sub-contractor for the winning prime. Post-acquisition, however, Lockheed's incentive will change because the total profits earned as a prime for a major weapon system almost always outweigh any foregone profits from supplying propulsion inputs to a rival prime. As a result, Lockheed would have a strong post-acquisition incentive to monitor, identify, and disadvantage potential threats to its current missile, KV, and HCM programs, as well as future competitive bids.

55. In many instances, Lockheed will have the ability to lessen competition by withholding Critical Propulsion Technologies from Lockheed's rivals post-acquisition. DoD's ongoing NGI program embodies the extreme vulnerability of Lockheed's rivals post-acquisition. The NGI program is a significant capability upgrade to the United States' primary homeland defense against attack from hostile intercontinental ballistic missiles. For the NGI program, every prime involved relies on Aerojet, which is the sole supplier of the critical DACS component for this important missile defense system. The NGI program alone represents total potential future revenues for the prime contractor of up to $18 billion over the expected life of the program.

56. Because a weapon system procurement program—from initial concept to full production of the weapon system—occurs over a number of years, there are numerous opportunities for a prime contractor that controls a necessary input to partially foreclose its rivals' access to the input. Before awarding a prime contract, DoD assesses a number of factors of each potential prime's bid, including technical merits of the design, the technical capability of the prime and its partners, cost/price, schedule risk, and the bidders' past performance on similar programs. There are numerous mechanisms by which Lockheed could handicap a competitor's performance with respect to each of these factors through a variety of foreclosure strategies for each of the Critical Propulsion Technologies, including:

a. affecting the price of the technology;

b. affecting the quality of the technology;

c. affecting the quality of the engineering team for the technology;

d. affecting the schedule associated with the technology; or

e. affecting the contract terms for the technology.

57. These partial foreclosure mechanisms are less detectable and harder to deter than total foreclosure, especially given the often unique design and complex development pathway for each of the Critical Propulsion Technologies. A given acquisition program for a Relevant Product may have dozens of development milestones, each of which is vulnerable to myriad foreclosure strategies that Lockheed could employ to degrade or delay the performance of a competing prime contractor. Partial foreclosure by the merged firm appears highly likely, given that Lockheed's competitors in the downstream Relevant Markets cannot compete effectively without access to Aerojet's best experts, technology, and timely delivery commitments.

58. Apart from complete or partial foreclosure, a combined Lockheed-Aerojet could also raise its rivals' costs for Critical Propulsion Technologies. Propulsion often comprises a significant portion of the Relevant Product's total bill of materials, which leaves competing primes vulnerable should Lockheed increase the price for the Critical Propulsion Technologies. If Lockheed were to increase the price of Aerojet input products for its prime rivals post-transaction, competition could be lessened in a number of ways: the competing prime could be forced to raise the prices of the downstream Relevant Product to account for increased input costs; it could decide not to compete at all in light of its higher cost position; or foreclosed rivals could have fewer discretionary dollars to invest to win future programs, which, in turn, would decrease competitive pressure on Lockheed. In addition, by gaining insight into a key cost component of a rival's anticipated bid, Lockheed may be able to be incrementally less aggressive with respect to its own bid.

59. The Proposed Acquisition may also impact R&D and innovation. Lockheed, Aerojet, and other defense contractors currently compete on the basis of innovation, often making decisions to allocate company-sponsored or internal research and development ("IRAD") funds from one project or program to another based on the expected return the company can earn on its IRAD investment. Currently, an independent Aerojet has the incentive to direct IRAD investment based on the potential return the funds would generate regardless of which prime it is supporting. Indeed, Aerojet currently maximizes its probability of becoming the winning bidder's supplier by supporting as many competing bidders as possible. The Proposed Acquisition would alter this dynamic, however, as the combined firm would be incentivized to allocate Aerojet investment dollars for the combined firm's benefit alone, to the detriment of Lockheed's downstream rivals who have long relied on an independent Aerojet's IRAD investments to increase the competitiveness of their prime contract proposals.

60. The Proposed Acquisition also increases the likelihood of the acquisition, transfer, misuse, and/or mishandling of competitively sensitive, non-public information. Such an exchange of competitively sensitive information could, in turn, negatively impact current and/or future competitions for the Relevant Products. Primes and their propulsion sub-contractors, through their collaboration for the competitive pursuit of a given program, often exchange sensitive information about technological advancements, cost, schedule, and business strategies,

among other things. The Proposed Acquisition will give Lockheed access to competitively sensitive business information of rival primes that Aerojet acquired as a supplier of Critical Propulsion Technologies to rival primes. In contrast to an independent Aerojet, Lockheed would have an incentive to exploit its access to its rivals' proprietary information to gain an advantage in competitions against those rival primes. The Proposed Acquisition also creates the risk that proprietary, competitively sensitive information relating to Northrop's SRM business—Aerojet's only SRM rival—could be unwittingly, or purposefully, transferred to the formerly independent Aerojet, which could disadvantage Northrop in future competitions against Lockheed's newly acquired SRM business.

61. The Proposed Acquisition would increase entry barriers into the design, development, and production of each of the Relevant Products, making future entry even less likely, timely, and sufficient. If Lockheed were to foreclose supply of the Critical Propulsion Technologies to a potential new downstream entrant post-acquisition, the putative new entrant would likely face substantial development delays as it would need to seek out an alternative propulsion input supplier—if one existed. In the alternative, the new entrant would face the difficult prospect of having to first enter into the design, development, and production of the relevant input product(s)—i.e., Critical Propulsion Technologies—before it could subsequently enter into the downstream market for one of more of the Relevant Products.

I. The Proposed Acquisition is Likely to Harm Competition in the Design, Development, and Production of Missiles for the U.S. Military

62. Lockheed is the largest supplier of missiles to the U.S. military, serving as a prime contractor for various strategic, tactical, and MDI missile programs. The Proposed Acquisition would provide a combined Lockheed-Aerojet with the ability and incentive to foreclose or otherwise disadvantage Lockheed's prime contractor missile rivals, resulting in competitive harm to the market for the design, development, and production of missiles for the U.S. military, which could inhibit DoD's capability to defend the nation.

63. Lockheed accounts for approximately [redacted] of all dollar sales of tactical missiles, at least [redacted] percent of all dollar sales of strategic missiles, and at least [redacted] percent of all dollar sales of MDIs to the U.S. military. Lockheed is the prime contractor for multiple current U.S. military missile programs, including the U.S. Navy's Fleet Ballistic Missile strategic missile system, as well as several tactical missiles, including, among others, Javelin, Hellfire, Guided Multiple Launch Rocket System, Long-Range Anti-Ship Missile, Joint Air to Ground Missile, and Joint Air-to-Surface Standoff Missile. Lockheed also is the prime contractor for the Terminal High Altitude Area Defense ("THAAD") and Patriot Advanced Capability ("PAC-3") MDIs. Lockheed has been awarded development contracts for the NGI MDI program, as well as for several hypersonic missile and hypersonic missile technology demonstrator programs, including Conventional Prompt Strike, Long Range Hypersonic Weapon, Air-Launched Rapid Response Weapon, Operational Fires, and Tactical Boost Glide.

64. The relevant market is highly concentrated, with Lockheed competing primarily against three other firms: Raytheon, Boeing, and Northrop to design, develop, and produce missiles for the U.S. military. Raytheon is the second largest missile supplier to the U.S. military, and its key missile programs include several tactical missiles, such as the Advanced

Medium-Range Air-to-Air Missile, AIM-9X, Rolling Airframe Missile/SeaRAM, Griffin, and Standard Missile ("SM")-2 and SM-6. Raytheon also supplies the SM-3 and SM-6 families of MDIs, as well as a next-generation strategic cruise missile—the Long-Range Stand-Off Weapon. Northrop manufactures one tactical missile: the medium-range air-to-ground Advanced Anti-Radiation Guided Missile. Northrop has also been awarded a sole-source prime contract for the development of the Ground-Based Strategic Defense strategic missile program, and, along with partner Raytheon, a development contract for the NGI missile defense interceptor program (Lockheed was awarded a competing contract). Boeing is the prime contractor for MDA's Ground-based Midcourse Defense ("GMD") program and the Harpoon tactical anti-ship missile.

65. The design of a missile's propulsion system is driven by the specific performance requirements and technical constraints imposed by the missile's intended mission(s). Selecting the optimal propulsion design is a complex task that requires extensive collaboration between the engineering teams of the missile prime contractor and the propulsion subcontractor. Modern missiles are designed around one of three types of propulsion systems: rockets, turbojets, and ramjets/scramjets. Each of these engines has different advantages and disadvantages that must be weighed to select the optimal propulsion technology for a given missile design. Most missiles employ SRMs because they produce high specific thrust.

66. SRMs are used to provide the primary propulsion for the vast majority of U.S. military missiles. The U.S. military currently fields approximately forty missile designs that use SRMs. At a basic level, a SRM is a cylindrical casing filled with solid propellant that, when ignited, expels hot gases through a nozzle to produce thrust. A typical composite solid propellant used for SRMs is a mixture of ammonium perchlorate (oxidizer) and aluminum (fuel) mixed in a binder with other ingredients. This mixture is cast in the motor case, and, when cured, produces a rubbery solid propellant that can be stored relatively safely until the motor is employed. SRMs are differentiated products that are specially designed for a particular missile and can vary greatly in size and power, depending on the platform. Tactical missiles usually require the smallest motors—ranging in size from about 3 inches up to about 24 inches in diameter. Strategic missiles employ larger SRMs of over 40 inches in diameter. MDIs use SRMs that generally fall somewhere in between—ranging in size from 10-inch diameter to over 40-inch diameter (in the case of the Ground-Based Interceptor).

67. SRMs are an essential input to almost all current and upcoming U.S. military missile programs. And all current missile prime contractors, as well as any potential future competitors for future U.S. military missile programs, depend on SRMs for current or future missiles. There is no substitute product that can be used in place of SRMs for missile propulsion. SRMs have important advantages over other technologies for missile applications, including, but not limited to, the ability to store the missile safely in a launch-ready state for extended periods of time until needed. For safety and convenience in handling, among other reasons, SRMs have replaced liquid propellant rocket engines for primary propulsion in modern U.S. missiles. Because of differences in technological capability and cost, missile prime contractors would not substitute to any other technology in place of SRMs, in the event of a small but significant increase in prices for SRMs.

68. The Proposed Acquisition will give Lockheed control over a critical input for most missiles—Aerojet's SRM design, development, and production capabilities. The design,

development, and production of high performance SRMs for U.S. military missiles is highly complex and requires specialized skills, as engineers must carefully balance performance against various constraints, such as cost, weight, volume, pressure, and temperature.

69. Over the past two decades, the number of U.S. companies manufacturing SRMs has consolidated from six to only two: Aerojet and Northrop. This duopoly accounts for over 90 percent of SRM sales in the United States. The only other firm selling a significant number of SRMs in the United States is Nammo Raufoss ("Nammo"), a Norwegian company that sells small tactical SRMs to Raytheon for its AMRAAM, Evolved Sea Sparrow, and Naval Strike missiles. Unique circumstances prompted Raytheon's selection of Nammo as a propulsion provider for these missile systems. Nammo is not a competitive supplier of SRMs for most U.S. missile programs, and the company's U.S. presence and capabilities are extremely limited. Further, as a foreign supplier, Nammo is not preferred by the U.S. Government, especially for critical next-generation and all classified programs. Nammo also lacks the breadth of experience and capabilities Aerojet and Northrop possess across all sizes of SRMs.

70. The Proposed Acquisition follows other acquisitions of SRM suppliers by missile prime contractors. Northrop acquired Orbital ATK, the only other significant U.S. manufacturer of SRMs in 2018. Indeed, Lockheed's rationale, in part, for the Proposed Acquisition was that it presented a [redacted]

71. Aerojet and Northrop compete by constantly looking for innovative ways to increase SRM performance or lower the cost of their production. For example, Aerojet is researching new technologies to [redacted]

72. For some missiles, there may be no close substitutes for Aerojet's SRMs. Even if there were, switching, in and of itself, would impose a large cost on Aerojet's SRM customers. Where Northrop offers a competitive alternative, partial or complete foreclosure by Lockheed would likely still result in competitive harm, because in those situations, Northrop could use its increased leverage as the customer's only option available to extract higher prices for its SRMs.

73. The Proposed Acquisition would give the combined firm the ability to foreclose missile system prime contractor competitors by denying them access to Aerojet's SRMs or by making pricing, personnel, scheduling, investment, design, and other decisions that disadvantage those competitors.

74. The Proposed Acquisition would also give the combined firm the incentive to use foreclosure strategies to harm Lockheed's missile prime contractor competitors. Lockheed views missiles as a core product area and an engine of future profit growth. Post-acquisition, Lockheed would have a substantial incentive to engage in foreclosure strategies that give Lockheed an advantage in competing for a new missile prime contract because the expected profits from winning such a bid typically far exceed the foregone profits from supplying Aerojet SRMs to rival prime contractor bidders.

75. If Lockheed were to withhold effective access to its in-house Aerojet SRMs post-acquisition, or increase the price of those SRMs, to its prime contractor competitors, competition would be lessened because the foreclosed prime contractors would be forced to raise the prices of their missile systems, decide not to compete, or invest less aggressively to win missile programs, which, in turn, would decrease or eliminate competitive pressure on Lockheed, leading to an increase in price and/or decrease in quality or innovation.

II. The Proposed Acquisition is Likely to Harm Competition in the Design, Development, and Production of KVs

76. The Proposed Acquisition would result in a combined firm with the ability and incentive to engage in foreclosure strategies targeting Lockheed's rivals in the market for the design, development, and production of KVs for the MDA and U.S. military. By acquiring Aerojet, Lockheed would gain control over the only established and proven supplier of DACS, a critical input for KVs.

77. Historically, three firms have competed to design, develop, and produce KVs for U.S. missile defense systems: Lockheed, Raytheon, and Boeing. Lockheed supplies the KVs for the THAAD system and has won development contracts for other KVs, including the multiple kill vehicle ("MKV") and Multi Object Kill Vehicle ("MOKV") programs. Raytheon produces the current KVs used on the GMD and SM-3 missile defense systems and has won contracts relating to other KVs, including MKV and MOKV. Boeing is the prime contractor for the current GMD system and has experience developing other KVs, including designs for the Redesigned Kill Vehicle, MKV, and MOKV programs. Each of these competitors, or potential competitors, in turn, depend on Aerojet for DACS, which are a critical input to a KV.

78. DACS are advanced, high performance propulsion systems used to provide fast and precise maneuvering capabilities for KVs. DACS use divert thrusters, which create forceful pulses to quickly and accurately change the KV's trajectory with respect to the target, and smaller attitude control thrusters, which provide very low thrust to make finer pitch, roll, and yaw adjustments to maintain or adjust the KV's orientation.

79. DACS can be designed to utilize either solid or liquid propellant depending on the requirements of the specific missile defense system. Solid DACS ("SDACS") are favored for certain applications, such as deployment on U.S. Navy ships, because the propulsion system is safer to store and maintain. Liquid DACS ("LDACS"), however, can provide higher performance that may be required for a specific KV mission profile. In heritage SDACS, the solid propellant would continuously burn in a single pulse once ignited. Aerojet developed innovative technologies, however, such as throttling solid propellant DACS ("TDACS") or extinguishing solid propellant DACS ("EDACS" or "extinguishing TDACS") that are able to narrow the performance gap between SDACS and LDACS.

80. There is no substitute for DACS, which are an essential component of most KV designs.

81. Aerojet is the only current supplier of DACS for U.S. missile defense programs. Aerojet also possesses the most advanced DACS technology and development know-how of any

potential U.S. supplier, gained through its performance on multiple past and present DACS programs. Aerojet provides the LDACS used for Raytheon's exo-atmospheric kill vehicle as well as for Lockheed's THAAD KV. Aerojet also supplies the TDACS for Raytheon's SM-3 Block IB KV and high divert TDACS for Raytheon's SM-3 Block IIA KV. Orbital ATK (which Northrop acquired in 2018) is the only other company that has supplied DACS for U.S. missile defense programs. Orbital ATK supplied a simple design SDACS for Raytheon's SM-3 Block IA until 2014. Aerojet displaced Orbital ATK as a DACS supplier for the SM-3 Block IB and Block IIA programs, and Northrop is [redacted] As a result, Northrop is relying on Aerojet—rather than in-house Orbital ATK DACS technology—to supply DACS for Northrop's entry in the competition to develop the NGI.

82. Aerojet is currently supporting all of the prime contractors currently competing or preparing to compete for forthcoming missile defense programs. Aerojet supported all three prime contractor teams (Lockheed, Boeing, and Northrop/Raytheon) that competed for initial development contracts for MDA's NGI program. All three teams submitted design proposals based on Aerojet DACS for the KVs. In March 2021, MDA awarded dual contracts to Lockheed and the Northrop/Raytheon team with an estimated combined maximum value of $1.6 billion through fiscal year 2022. The timing on a final down-select to one prime contractor has not been announced but is anticipated to occur [redacted]

83. In addition, Lockheed's rivals will require Aerojet DACS technology and support for future DoD programs intended to defend against attacks by hypersonic missiles, including, but not limited to, MDA's Glide Phase Interceptor program. In November 2021, MDA awarded Lockheed, Northrop, and Raytheon contracts for the accelerated concept design phase of the program, which is aimed at developing MDIs designed for deployment on U.S. Navy Aegis Ballistic Missile Defense destroyers to counter hypersonic weapons during their glide phase of flight. All of these firms will likely require Aerojet's DACS technology for their designs.

84. The Proposed Acquisition would give the combined firm the ability to foreclose rival KV competitors by denying them access to Aerojet's essential DACS technology or by making pricing, personnel, scheduling, investment, design, or other decisions that disadvantage those competitors.

85. The Proposed Acquisition would also give the combined firm the incentive to use foreclosure strategies to harm competing KV suppliers. Post-acquisition, Lockheed would have a substantial incentive to engage in foreclosure strategies that give Lockheed an advantage in competing for a prime contract for a new missile defense system utilizing KVs because the expected profits from winning such a bid typically far exceed the foregone profits from supplying DACS to the winning bidder.

86. If Lockheed were to withhold effective access to its in-house Aerojet DACS technology post-acquisition, or increase the price of those DACS, to its prime contractor competitors, competition would be lessened because the foreclosed prime contractors would be forced to raise the prices of their KV or missile defense systems, decide not to compete, or invest less aggressively to win missile defense system programs, which, in turn, would decrease

competitive pressure on Lockheed, leading to an increase in price and/or decrease in quality or innovation.

III. The Proposed Acquisition is Likely to Harm Competition in the Design, Development, and Production of HCMs

87. The Proposed Acquisition would result in a combined firm with the ability and incentive to engage in foreclosure strategies targeting Lockheed's rivals in the market for the design, development, and production of HCMs for the U.S. military.

88. Scramjets, also referred to as "dual mode ramjets," are an essential enabling technology for development of HCMs. There is no substitute product that could be used in place of a scramjet in current or future U.S. military HCM development programs.

89. A scramjet is a type of air-breathing jet engine. Unlike rocket motors, air-breathing jet engines draw upon oxygen in the atmosphere for combustion, eliminating the need to carry oxidizer in addition to fuel. As a result, air-breathing engines are more efficient than rocket motors, enabling a missile powered by an air-breathing engine potentially to travel longer distances. Scramjets are a critical enabling technology for HCMs and other potential future reusable hypersonic vehicles because the air-breathing turbojet engines that power current sub-sonic cruise missiles are incapable of propelling a vehicle to hypersonic speeds.

90. A scramjet is a technologically advanced type of high-performance ramjet engine. A ramjet uses the high pressure generated by the vehicle's forward motion to compress incoming air, eliminating the turbines used in a conventional turbojet engine. A ramjet engine slows the incoming air to subsonic speed before it enters the combustor where liquid fuel is injected into the airflow and ignited to produce additional thrust. In a scramjet engine, however, the airflow travels at supersonic speed through the combustion chamber—a design that poses several significant technical challenges. Scramjets are the only air-breathing engines capable of propelling a missile to hypersonic speeds in excess of Mach 5.

91. Not only is scramjet technology necessary to produce an HCM, but the designs of the scramjet engine and the missile or other flight vehicle are tightly integrated and interdependent. Simply put, as one Lockheed executive indicated, the [redacted] The necessity for close collaboration between the propulsion provider and missile prime contractor heightens the potential for competitive harm to result from the Proposed Acquisition, as it would increase the volume of competitively sensitive, non-public information that must be shared and amplify Lockheed's ability to undermine its rivals' efforts through foreclosure strategies.

92. Aerojet and Northrop are the only two viable suppliers of scramjets for U.S. military HCM applications. Aerojet and Northrop have both gained extensive technical knowledge and expertise through their participation on several current and past DoD programs. The development of hypersonic propulsion technologies requires specialized expertise and technology, including the development of advanced materials technology and special analytical tools. Both companies have achieved successful flight tests of scramjet-powered hypersonic

flight vehicles. No other U.S. company has scramjet development experience and capabilities commensurate with Aerojet and Northrop.

93. Three prime contractors (Lockheed, Raytheon, and Boeing) are currently developing HCMs, and they all rely on Aerojet or Northrop scramjet engines to support their efforts. These primes are in a race to develop HCMs and to position favorably their companies to secure lucrative potential future production contracts for the missiles.

94. [redacted]

95. The Proposed Acquisition would give the combined firm the ability to foreclose Boeing and other future rival HCM competitors by denying them access to Aerojet's scramjet technology or by making pricing, personnel, scheduling, investment, design, and other decisions that disadvantage Boeing or other competitors.

96. The Proposed Acquisition would also give the combined firm the incentive to use foreclosure strategies to harm competing HCM suppliers. Post-acquisition, Lockheed would have a substantial incentive to engage in foreclosure strategies that give Lockheed an advantage in competing for an HCM prime contract because the expected profits from winning such a bid would exceed the foregone profits from supplying scramjets to the winning bidder.

97. If Lockheed were to withhold effective access to Aerojet's scramjet technology, or increase the price of those scramjets, to Lockheed's prime contractor competitors, competition would be lessened because the foreclosed prime contractors would be forced to raise the prices of their HCMs, decide not to compete, or invest less aggressively to win future HCM programs, which, in turn, would decrease or eliminate competitive pressure on Lockheed, leading to an increase in price and/or decrease in quality or innovation.

LACK OF COUNTERVAILING FACTORS

98. Respondents cannot demonstrate that entry or expansion of products in the Relevant Markets that would not rely upon Critical Propulsion Technologies would be timely, likely, or sufficient in magnitude, character, and scope to deter or counteract the anticompetitive effects of the Proposed Acquisition. Respondents also cannot demonstrate the entry of substitutes for Aerojet's Critical Propulsion Technologies would be timely, likely, or sufficient in magnitude, character, and scope to deter or counteract the anticompetitive effects of the Proposed Acquisition. Successful entry into the design, development, and production of each of the Relevant Products, as well as to each of the Critical Propulsion Technologies, would be difficult, time consuming, and costly. Entry requires specialized know-how, advanced technology, skilled engineers, and specialized equipment and facilities.

99. Respondents cannot demonstrate substantiated, verifiable, cognizable, and merger-specific efficiencies that would offset the Proposed Acquisition's likely significant anticompetitive effects in the Relevant Markets. Nor can Respondents demonstrate that any elimination of double marginalization would offset the harm of this anticompetitive acquisition.

VIOLATIONS CHARGED

COUNT I – ILLEGAL AGREEMENT

100. The allegations of Paragraphs 1 through 99 above are incorporated by reference as though fully set forth.

101. The Acquisition Agreement constitutes an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

COUNT II – ILLEGAL ACQUISITION

102. The allegations of Paragraphs 1 through 99 above are incorporated by reference as though fully set forth.

103. The Proposed Acquisition, if consummated, may substantially lessen competition in the Relevant Markets in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and is an unfair method of competition in violation of Section 5 of the FTC Act, as amended, 15 U.S.C. § 45.

NOTICE

Notice is hereby given to the Respondents that the sixteenth day of June, 2022, at 10 a.m. EST, is hereby fixed as the time, and the Federal Trade Commission offices at 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580, as the place, when and where an evidentiary hearing will be had before an Administrative Law Judge of the Federal Trade Commission, on the charges set forth in this complaint, at which time and place you will have the right under the Federal Trade Commission Act and the Clayton Act to appear and show cause why an order should not be entered requiring you to cease and desist from the violations of law charged in the complaint.

You are notified that this administrative proceeding shall be conducted as though the Commission, in an ancillary proceeding, has also filed a complaint in a United States District Court, seeking relief pursuant to Section 13(b) of the Federal Trade Commission Act, 15 U.S.C. 53(b), as provided by Commission Rule 3.11(b)(4), 16 CFR 3.11(b)(4). You are also notified that the opportunity is afforded you to file with the Commission an answer to this complaint on or before the fourteenth (14th) day after service of it upon you. An answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted. If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material facts to be true. Such an answer shall constitute a

waiver of hearings as to the facts alleged in the complaint and, together with the complaint, will provide a record basis on which the Commission shall issue a final decision containing appropriate findings and conclusions and a final order disposing of the proceeding. In such answer, you may, however, reserve the right to submit proposed findings and conclusions under Rule 3.46 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to file an answer within the time above provided shall be deemed to constitute a waiver of your right to appear and to contest the allegations of the complaint and shall authorize the Commission, without further notice to you, to find the facts to be as alleged in the complaint and to enter a final decision containing appropriate findings and conclusions, and a final order disposing of the proceeding.

The Administrative Law Judge shall hold a prehearing scheduling conference not later than ten (10) days after the Respondents file their answers. Unless otherwise directed by the Administrative Law Judge, the scheduling conference and further proceedings will take place at the Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Room 532, Washington, D.C. 20580. Rule 3.21(a) requires a meeting of the parties' counsel as early as practicable before the pre-hearing scheduling conference (but in any event no later than five (5) days after the Respondents file their answers). Rule 3.31(b) obligates counsel for each party, within five (5) days of receiving the Respondents' answers, to make certain initial disclosures without awaiting a discovery request.

NOTICE OF CONTEMPLATED RELIEF

Should the Commission conclude from the record developed in any adjudicative proceedings in this matter that the Acquisition challenged in this proceeding violates Section 5 of the Federal Trade Commission Act, as amended, and/or Section 7 of the Clayton Act, as amended, the Commission may order such relief against Respondents as is supported by the record and is necessary and appropriate, including, but not limited to:

1. If the Acquisition is consummated, divestiture or reconstitution of all associated and necessary assets, in a manner that restores two or more distinct and separate, viable and independent businesses in the Relevant Markets, with the ability to offer such products and services as Lockheed and Aerojet were offering and planning to offer prior to the Acquisition.

2. A prohibition against any transaction between Respondents that combines their businesses in the Relevant Markets, except as may be approved by the Commission.

3. A requirement that, for a period of time, Respondents provide prior notice to the Commission of acquisitions, mergers, consolidations, or any other combinations of their businesses in the Relevant Markets with any other company operating in the Relevant Markets

4. A requirement to file periodic compliance reports with the Commission.

5. Any other relief appropriate to correct or remedy the anticompetitive effects of the transaction or to restore Aerojet as a viable, independent competitor in the Relevant Markets.

IN WITNESS WHEREOF, the Federal Trade Commission has caused this complaint to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C., this twenty-fifth day of January, 2022.

By the Commission.

April J. Tabor
Secretary

SEAL
