- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include file number SR–Phlx–2023–26 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–Phlx–2023–26. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than

[17] 15 U.S.C. 78s(b)(3)(A)(ii).

those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–Phlx–2023–26 and should be submitted on or before July 20, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[18]

J. Lynn Taylor,

Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270–456, OMB Control No. 3235–0515]

Proposed Collection; Comment Request; Extension: Schedule TO

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (''Commission'') has submitted to the Office of Management and Budget the request for extension of the previously approved collection of information discussed below.

Schedule TO (17 CFR 240.14d–100) must be filed by a reporting company that makes a tender offer for its own securities. Also, persons other than the reporting company making a tender offer for equity securities registered under Section 12 of the Exchange Act (15 U.S.C. 78l) (which offer, if consummated, would cause that person to own over 5% of that class of the securities) must file Schedule TO. The purpose of Schedule TO is to improve communications between public companies and investors before companies file registration statements involving tender offer statements. Schedule TO takes approximately 44.752 hours per response and is filed by approximately 1,378 issuers annually. We estimate that 50% of the 44.752 hours per response (22.376 hours) is prepared by the issuer for an annual reporting burden of 30,834 hours (22.376 hours per response × 1,378 responses). An agency may conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

The public may view background documentation for this information collection at the following website: *www.reginfo.gov.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice by July 31, 2023 to (i) *www.reginfo.gov/public/do/PRAMain* and (ii) David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street NE, Washington, DC 20549, or by sending an email to: *PRA_Mailbox@sec.gov.*

Dated: June 23, 2023.

J. Lynn Taylor,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–97794; File No. SR–BOX–2023–17]

Self-Regulatory Organizations; BOX Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 7660 (Communications and Equipment)

June 23, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on June 12, 2023, BOX Exchange LLC (the ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7660 (Communications and Equipment). The text of the proposed rule change is available from the principal office of the Exchange, at the Commission's Public Reference Room and also on the Exchange's internet website at *https://rules.boxexchange.com/rulefilings.*

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend Rule 7660 to modernize and clarify the scope of the recordkeeping obligations for Floor Participants[3] relating to communication devices. Specifically, the Exchange is proposing to amend Rule 7660 to: (1) codify that the registration requirement is only applicable to any communication device to be used for business purposes; and (2) explicitly provide that Floor Participants must maintain records of the use of any communication devices on the Trading Floor.[4]

Rule 7660, which applies to the use of electronic communication devices on the Trading Floor, was adopted in 2017

[18] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] The term ''Floor Participant'' means Floor Brokers as defined in Rule 7540 and Floor Market Makers as defined in Rule 8510(b). *See* BOX Rule 100(a)(26).

[4] The term ''Trading Floor'' or ''Options Floor'' means the physical trading floor of the Exchange located in Chicago. The Trading Floor shall consist of one ''Crowd Area'' or ''Pit'' where all option classes will be located. The Crowd Area or Pit shall be marked with specific visible boundaries on the Trading Floor, as determined by the Exchange. A Floor Broker must open outcry an order in the Crowd Area. *See* BOX Rule 100(a)(68).

with the establishment of the BOX Trading Floor. The Exchange is now proposing to update and modernize Rule 7660(k).

Currently Rule 7660(f) provides that Floor Participants must register, prior to use, any new communication device to be used on the Trading Floor. Each device registered with the Exchange must be registered by category of user. If there is a change in the category of any user, the device must be re-registered with the Exchange. At the time of registration, Floor Participant representatives must sign a statement that they are aware of and understand the rules and procedures governing the use of communication devices on the Options Floor. The Exchange is proposing to update Rule 7660(f) to codify that the registration requirement is only applicable to communication devices to be used for business purposes. Specifically, the Exchange is proposing to amend Rule 7660(f) to state: ''Floor Participants must register, prior to use, any new communication device to be used for business purposes on the Trading Floor. Each device registered with the Exchange must be registered by category of user. If there is a change in the category of any user, the device must be re-registered with the Exchange. At the time of registration, Floor Participant representatives must sign a statement that they are aware of and understand the rules and procedures governing the use of communication devices on the Options Floor.''

The proposed updates to Rule 7660(f) are intended to codify an existing requirement that Floor Participants must register, prior to use, any new communication device to be used for business purposes on the Trading Floor. The Exchange is proposing this additional language to clarify that the registration requirement is only applicable to communication devices to be used for business purposes. This requirement is already reflected on the BOX Communication Device Registration Form and the Exchange is not proposing to change the existing practice. The Exchange is looking to codify this existing requirement into the Rulebook to provide additional clarity to Floor Participants. The Exchange believes that this proposed change will help provide greater clarity to the existing practices on the Trading Floor and may reduce the potential for confusion regarding the requirements relating to communication devices on the Trading Floor.

The Exchange notes that proposed Rule 7660(f) is similar in relevant part to an existing rule governing recordkeeping on the trading floor at another exchange.[5]

Currently, Rule 7660(k) provides that Floor Participants must maintain their cellular or cordless telephone records, including logs of calls placed, for a period of not less than three years, the first two in an easily accessible place. The Exchange reserves the right to inspect and/or examine such telephone records. The Exchange is proposing to modernize Rule 7660(k) to make it clear that the recordkeeping obligations are applicable to any registered communication devices and not limited to telephone records. Specifically, the Exchange is proposing to update Rule 7660(k) to state: ''Floor Participants must maintain records of the use of telephones and all other registered communication devices, including, but not limited to, logs of calls, emails, and chats, for a period of not less than three years, the first two in an easily accessible place. The Exchange reserves the right to inspect and/or examine such records.''

The proposed updates to Rule 7660(k) are intended to modernize and clarify that the recordkeeping obligations are applicable to all registered communication devices and that records of Floor Participant's use of any communication devices, including, but not limited to, emails and chats, are also required to be maintained. The Exchange believes that this proposed change will help with the Exchange's surveillance function. Additionally, the Exchange has notified all Participants that their record keeping obligations apply to all communication devices and extend to chats and emails by Regulatory Notice.[6]

The Exchange notes that proposed Rule 7660(k) is similar in relevant part to an existing rule governing recordkeeping on the trading floor at another exchange [7] and to an existing Exchange recordkeeping rule.[8]

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act,[9] in general, and Section 6(b)(5) of the Act,[10] in particular, in that it is designed to promote just and equitable principles of trade and to protect investors and the public interest.

The Exchange believes that the rule change will promote just and equitable principles of trade by making the rules clearer and easier to use. The Exchange is proposing to update Rule 7660(f) to codify the requirement that Floor Participants must register, prior to use, any new communication device to be used for business purposes on the Trading Floor. The Exchange is proposing this additional language to clarify that the registration requirement is only applicable to communication devices to be used for business purposes. As noted above, the proposed amendment to 7660(f) is an effort to codify an existing Exchange practice that is detailed in the BOX Communication Device Policy and is similar in relevant part to a provision governing the registration of devices in the communications and equipment rules at another exchange.[11] The Exchange believes that this proposed update to codify the requirement to register all communication devices that to be used for a business purpose on the Trading Floor will help provide greater

[5] *See* Cboe Exchange, Inc. (''Cboe'') Rule 5.81(a). The registration requirements relating to communication devices and equipment on the trading floor at Cboe explicitly provides that prior to use, all communication devices for business purposes must be registered with the exchange. Proposed Rule 7660(f) states: Floor Participants must register, prior to use, any new communication device to be used for business purposes on the Trading Floor. Each device registered with the Exchange must be registered by category of user. If there is a change in the category of any user, the device must be re-registered with the Exchange. At the time of registration, Floor Participant representatives must sign a statement that they are aware of and understand the rules and procedures governing the use of communication devices on the Options Floor. Cboe Rule 5.81(a) states: (a) Subject to the requirements of this Rule, Trading Permit Holders may use any communication device (*e.g.,* any hardware or software related to a phone, system, or other device, including an instant messaging system, email system, or similar device) on the trading floor and in any trading crowd of the Exchange. Prior to using a communications device for business purposes on the trading floor of the Exchange, Trading Permit Holders must register the communications device by identifying (in a form and manner prescribed by the Exchange) the hardware (*i.e.,* headset, cellular telephone, tablet, or other similar hardware).

[6] *See* Exchange Notice 2023–11. Available at: *https://boxexchange.com/assets/Communications-and-Equipment-Notice_2.28.2023.pdf.*

[7] *See* Cboe Rule 5.81(g). The recordkeeping obligations relating to communication devices and equipment on the trading floor at Cboe explicitly covers all communication devices and includes emails and chats as well. Proposed Rule 7660(k) states: Floor Participants must maintain records of the use of telephones and all other registered communication devices, including, but not limited to, logs of calls, emails, and chats, for a period of not less than three years, the first two in an easily accessible place. The Exchange reserves the right to inspect and/or examine such records. Cboe Rule 5.81(g) states: Trading Permit Holders must maintain records of the use of communication devices, including, but not limited to, (1) logs of calls placed, (2) emails, and (3) chats, for a period of not less than three years, the first two years in an easily accessible place. The Exchange reserves the right to inspect such records pursuant to Rule 13.2.

[8] *See* BOX Rule 7670(a)(1)(G).

[9] 15 U.S.C. 78f(b).

[10] 15 U.S.C. 78f(b)(5).

[11] *See supra* note 5.

clarity into existing practices on the Trading Floor and may reduce the potential for confusion regarding the requirements relating to communication devices on the Trading Floor. As such, the Exchange believes that the proposed changes to codify this existing registration requirement in Rule 7660(f) is in the public interest, and therefore, consistent with the Act.

The Exchange is also proposing to modernize Rule 7660(k) to amend the records retention requirement for telephone records to explicitly provide that, the recordkeeping obligations are applicable to all registered communication devices and that records of Floor Participant's use of any communication devices, including, but not limited to, emails and chats are also required to be maintained for a period of not less than three years, the first two in an easily accessible place. As noted above, these proposed amendments are similar in relevant part to a provision governing recordkeeping in the communications and equipment rules at another exchange [12] and to an existing Exchange recordkeeping rule.[13] The Exchange believes that this modernization and clarification of the scope of the recordkeeping requirements under Rule 7660(k), will help with the Exchange's surveillance function and make the Rule clearer for Participants. As such, the Exchange believes that the proposed changes to modernize and clarify Rule 7660(k) is in the public interest, and therefore, consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. The Exchange believes that the proposed change will not impose a burden on intermarket or intramarket competition, as the proposed change applies equally to all market participants. While the Exchange does not believe that the proposed non-controversial change is a burden on competition, or is competitive in nature, the Exchange believes that proposed updates to codify an existing practice and provide for clearer, modernized recordkeeping obligations will benefit market participants. The Exchange also notes that the proposed updates to 7660(f) are similar in relevant part to an existing provision governing communication device registration in the communications and equipment rules at another options exchange [14] and that the proposed updates to 7660(k) are similar in relevant part to an existing provision governing recordkeeping in the communications and equipment rules at another options exchange [15] and to an existing Exchange recordkeeping rule.[16] As such, the Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act [17] and Rule 19b–4(f)(6) thereunder.[18] Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [19] and Rule 19b–4(f)(6)(iii) thereunder.[20]

A proposed rule change filed under Rule 19b–4(f)(6) [21] normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b–4(f)(6)(iii),[22] the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. As discussed above, the Exchange states that this proposed update to 7660(f) to codify the existing requirement to register all communication devices to be used for a business purpose on the Trading Floor will help provide greater clarity into existing practices on the Trading Floor and may reduce the potential for confusion regarding the requirements relating to communication devices on the Trading Floor. The Exchange believes that the waiver of the operative delay will protect investors by allowing the Exchange to quickly codify existing practices and to modernize and clarify the scope of the recordkeeping requirements under Rule 7660(k). The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest because it will allow the Exchange to immediately codify an existing practice within Rule 7660(f) and amend Rule 7660(k) to modernize the requirements applicable to communication devices. Accordingly, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.[23]

At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) [24] of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–BOX–2023–17 on the subject line.

[19] 15 U.S.C. 78s(b)(3)(A).

[20] 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

[21] 17 CFR 240.19b–4(f)(6).

[22] 17 CFR 240.19b–4(f)(6)(iii).

[23] For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. *See* 15 U.S.C. 78c(f).

[24] 15 U.S.C. 78s(b)(2)(B).

Paper Comments

• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–BOX–2023–17. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–BOX–2023–17 and should be submitted on or before July 20, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[25]

J. Lynn Taylor,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–97792; File No. SR–ICC–2023–008]

Self-Regulatory Organizations; ICE Clear Credit LLC; Order Approving Proposed Rule Change Relating to the ICC Clearing Participant Default Management Procedures

June 26, 2023.

I. Introduction

On May 2, 2023, ICE Clear Credit LLC (''ICC'') filed with the Securities and Exchange Commission (''Commission''), pursuant to Section 19(b)(2) of the Securities Exchange Act of 1934 (the ''Act'') [1] and Rule 19b–4 thereunder,[2] a proposed rule change to amend the ICC Clearing Participant Default Management Procedures. The proposed rule change was published for comment in the **Federal Register** on May 12, 2023.[3] The Commission did not receive comments regarding the proposed rule change. For the reasons discussed below, the Commission is approving the proposed rule change.

II. Description of the Proposed Rule Change

ICC is registered with the Commission as a clearing agency for the purpose of clearing CDS contracts. ICC clears CDS contracts for its members, which it refers to as Clearing Participants.[4] Clearing CDS contracts for Clearing Participants presents certain risks to ICC, such as the risk that a Clearing Participant may default on payments or other obligations it owes to ICC. Accordingly, ICC has developed a comprehensive set of tools to manage and mitigate such risks. These tools include, among other things, collecting margin from Clearing Participants, maintaining a Guaranty Fund, and establishing procedures to manage a Clearing Participant's default.

The proposed rule change relates to the third set of risk management tools—procedures that explain what happens when a Clearing Participant is in default and how ICC responds to the default, which ICC refers to as its Clearing Participant Default Management Procedures (the ''Procedures''). The proposed rule change would amend the Procedures.

The proposed rule change would add Section 4.6 to the Procedures, which would explain how ICC tests both its Recovery Plan and its Wind-Down Plan (together the ''Plans''). ICC would test the Plans at least once every twelve months, and the purpose of these annual tests would be to demonstrate that ICC is ready to execute the Plans when needed. ICC would need to execute the plans, for example, in the following circumstances: (i) to address uncovered credit losses, liquidity shortfalls and general business risk, operational risk, or any other risk that threatens ICC's viability as a going concern and (ii) to wind-down ICC in an orderly manner.

Section 4.6 would detail (i) the ICC personnel responsible for planning and conducting the tests and (ii) the overall scope of the tests. With respect to responsible personnel, the ICC Risk Oversight Officer (''ROO'') would have overall responsibility for planning and coordinating the execution of each test. In doing so, the ROO would work with other members of the Close-Out Team [5] to determine the scope of the test. The proposed scope and format of the test would be presented to the ICC Board of Managers for review prior to execution of the test. After Board review, the Close-Out Team would then be responsible for executing the tests, capturing the results of the tests, and providing the results to the ROO.

Once provided with the results, the ROO would collate the information, summarize any lessons learned, and identify possible revisions that should be made to the Plans. The ROO would then develop a presentation to summarize the tests. The Close-Out Team, ICC Risk Committee, and Board would review this presentation. Going forward, the ROO would maintain a list of work items for the future development and/or enhancement of the business processes and capabilities necessary to execute the Plans.

With respect to the overall scope of each test, this would include choosing the recovery and wind-down scenarios and the recovery tools to test. In choosing the scenarios and tools, ICC would give consideration to scenarios, business processes, and tools which have not been recently tested. In addition, ICC would consider the applicability of new Rules, procedures, or newly implemented ICC capabilities

[3] Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Proposed Rule Change Relating to the ICC Clearing Participant Default Management Procedures; Exchange Act Release No. 97455 (May 8, 2023), 88 FR 30812 (May 12, 2023) (File No. SR–ICC–2023–008) (''Notice'').

[4] Capitalized terms not otherwise defined herein have the meanings assigned to them in the ICC Clearing Participant Default Management Procedures or the ICC Clearing Rules.

[5] The ICC Close-Out Team is comprised of ICC management, the ROO, and the most senior member of the ICC Treasury Department.

(such as new cleared contracts). Finally, Section 4.6 would specify that ICC would always include in the test all three wind-down options set forth in the Wind-Down Plan.

Section 4.6 would also state that ICC could conduct some of the testing as part of its annual default management tests. Specifically, Section 4.6 would explain that ICC may test those parts of the Plans that address a Clearing Participant's default, such as business processes and tools, as part of its annual default management tests. With respect to the business processes and tools to address losses not related to a Clearing Participant's default, however, Section 4.6 would clarify that ICC will test those in a separate table-top exercise. ICC will test those parts of the Plans that relate to non-default losses apart from its annual default management tests.

III. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to such organization.[6] For the reasons given below, the Commission finds that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act[7] and Rules 17Ad–22(e)(2)(i), (e)(2)(v), and (e)(3)(ii)[8] thereunder.

A. Consistency With Section 17A(b)(3)(F) of the Act

Section 17A(b)(3)(F) of the Act requires, among other things, that the rules of ICE Clear Credit be designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions.[9] Based on its review of the record, and for the reasons discussed below, the Commission believes the proposed changes to the Procedures are consistent with the promotion of the prompt and accurate clearance and settlement of securities transactions.

As discussed above, the proposed rule change would modify the Procedures to require that ICC conduct annual testing of the Plans. Section 4.6 also would detail (i) the ICC personnel responsible for planning and conducting the tests and (ii) the overall scope of the tests. The Commission believes that requiring annual testing and establishing relevant responsibilities for conducting the tests would each help to ensure that ICC tests the Plans at least once every twelve months. The Commission further believes that the proposed scope for the tests would help to ensure that the tests identify any possible issues with, or improvements to, the Plans. Thus, the Commission believes that the proposed rule change would help to ensure that ICC maintains and enforces an effective Recovery Plan and an effective Wind-Down Plan.

The Commission believes that ICC's Recovery Plan is designed to help ICC promote the prompt and accurate clearance and settlement of securities transactions, by providing a roadmap for actions it may employ to monitor and manage its risks, and, as needed, to stabilize its financial condition in the event those risks materialize. The Commission similarly believes ICC's Wind-Down Plan is designed to help ICC to promote the prompt and accurate clearance and settlement of securities transactions by providing a roadmap to wind-down as needed. The Commission believes the actions set forth in the Plans would help to ensure the availability of ICC's services to the marketplace in the event of a recovery or wind-down, while reducing disruption to the operations of Clearing Participants and financial markets.[10] The Commission thus believes both Plans would help ICC to avoid disruption to its operations, and therefore promote ICC's ability to promptly and accurately clear and settle transactions.

Because the proposed rule change would help ICC to maintain, enforce, and improve the Plans, and because the Commission believes the Plans would promote the prompt and accurate clearance and settlement of securities transactions, the Commission therefore believes the proposed rule change would promote the prompt and accurate clearance and settlement of securities transactions, consistent with Section 17A(b)(3)(F) of the Act.[11]

B. Consistency With Rules 17Ad–22(e)(2)(i) and (v)

Rules 17Ad–22(e)(2)(i) and (v) require ICC to establish, implement, maintain, and enforce written policies and procedures reasonably designed to, as applicable, provide for governance arrangements that are clear and transparent and specify clear and direct lines of responsibility.[12] The Commission believes the governance arrangements for testing the Plans, as discussed above, would be clear and transparent and would specify clear and direct lines of responsibility. For example, the ROO would, among other things, have overall responsibility for planning and coordinating the execution of each test; work with other members of the Close-Out Team to determine the scope of each the test; and collate and summarize the results of each test. The Close-Out Team would be responsible for executing the tests, capturing the results of the tests, and providing the results to the ROO. The Board would review the scope and format prior to the execution of each test as well as the results of each test. The Commission believes overall these arrangements would be clear and transparent and specify clear and direct responsibilities for the ROO, Close-Out Team, and Board, consistent with Rules 17Ad–22(e)(2)(i) and (v).[13]

C. Consistency With Rule 17Ad–22(e)(3)(ii)

Rule 17Ad–22(e)(3)(ii) requires ICC to establish, implement, maintain, and enforce written policies and procedures reasonably designed to maintain a sound risk management framework for comprehensively managing legal, credit, liquidity, operational, general business, investment, custody, and other risks that arise in or are borne by ICC, which includes plans for the recovery and orderly wind-down of ICC necessitated by credit losses, liquidity shortfalls, losses from general business risk, or any other losses.[14] As discussed above, the Commission believes the proposed rule change would help ICC to maintain, enforce, and improve the Plans. The Commission further believes that the Plans generally would provide for the recovery and orderly wind-down of ICC necessitated by credit losses, liquidity shortfalls, losses from general business risk, or any other losses.[15] The Commission therefore believes that the proposed rule change, in helping to maintain, enforce, and improve the

Plans, would be consistent with Rule 17Ad–22(e)(3)(ii).[16]

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act, and Rules 17Ad–22(e)(2)(i), (e)(2)(v), and (e)(3)(ii) thereunder.[17]

It is therefore ordered pursuant to Section 19(b)(2) of the Act[18] that the proposed rule change (SR–ICC–2023–008), be, and hereby is, approved.[19]

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[20]

J. Lynn Taylor,

Assistant Secretary.

BILLING CODE 8011–01–P

SMALL BUSINESS ADMINISTRATION

Reporting and Recordkeeping Requirements Under OMB Review

AGENCY: Small Business Administration.

ACTION: 30-day notice.

SUMMARY: The Small Business Administration (SBA) is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act and OMB procedures, SBA is publishing this notice to allow all interested member of the public an additional 30 days to provide comments on the proposed collection of information.

DATES: Submit comments on or before July 31, 2023.

ADDRESSES: Written comments and recommendations for this information collection request should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection request by selecting ''Small Business Administration''; ''Currently Under Review,'' then select the ''Only Show ICR for Public Comment'' checkbox. This information collection can be identified by title and/or OMB Control Number.

FOR FURTHER INFORMATION CONTACT: You may obtain a copy of the information collection and supporting documents from the Agency Clearance Office at *Curtis.Rich@sba.gov;* (202) 205–7030, or from *www.reginfo.gov/public/do/PRAMain.*

SUPPLEMENTARY INFORMATION: To obtain the information needed to carry out its oversight responsibilities under the Small Business Investment Act, the Small Business Administration (SBA) requires Small Business Investment Companies (SBICs) to submit financial statements and supplementary information on SBA Form 468. SBA uses this information to monitor SBIC financial condition and regulatory compliance, for credit analysis when considering SBIC leverage applications, and to evaluate financial risk and economic impact for individual SBICs and the program as a whole.

Solicitation of Public Comments

Comments may be submitted on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.

OMB Control Number: 3245–0063.

Title: SBIC Financial Reports.

Description of Respondents: Small Business Investment Companies.

SBA Form Number: 468 (Short Form, Long Form, Reinvest or Reporting Appendix).

Estimated Number of Respondents: 309.

Estimated Annual Responses: 1,047.

Estimated Annual Hour Burden: 26,973.

DEPARTMENT OF STATE

[Public Notice: 12111]

Notice of Determinations; Culturally Significant Objects Being Imported for Exhibition—Determinations: ''Eternal Medium: Seeing the World in Stone'' Exhibition

SUMMARY: Notice is hereby given of the following determinations: I hereby determine that certain objects being imported from abroad pursuant to an agreement with their foreign owner or custodian for temporary display in the exhibition ''Eternal Medium: Seeing the World in Stone'' at the Los Angeles County Museum of Art, Los Angeles, California, and at possible additional exhibitions or venues yet to be determined, are of cultural significance, and, further, that their temporary exhibition or display within the United States as aforementioned is in the national interest. I have ordered that Public Notice of these determinations be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Reed Liriano, Program Coordinator, Office of the Legal Adviser, U.S. Department of State (telephone: 202–632–6471; email: *section2459@state.gov*). The mailing address is U.S. Department of State, L/PD, 2200 C Street NW (SA–5), Suite 5H03, Washington, DC 20522–0505.

SUPPLEMENTARY INFORMATION: The foregoing determinations were made pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), E.O. 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.;* 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, Delegation of Authority No. 236–3 of August 28, 2000, and Delegation of Authority No. 523 of December 22, 2021.

Nicole L. Elkon,

Deputy Assistant Secretary for Professional and Cultural Exchanges, Bureau of Educational and Cultural Affairs, Department of State.

DEPARTMENT OF STATE

[Public Notice: 12107]

60-Day Notice of Proposed Information Collection: Affidavit of Relationship for Minors Who Are Nationals of El Salvador, Guatemala, or Honduras

ACTION: Notice of request for public comment.

SUMMARY: The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. In accordance with the Paperwork Reduction Act of 1995, we are requesting comments on this collection from all interested individuals and organizations. The purpose of this notice is to allow 60 days for public comment preceding submission of the collection to OMB.

DATES: The Department will accept comments from the public up to August 28, 2023.

ADDRESSES: You may submit comments by any of the following methods:

- *Web:* Persons with access to the internet may comment on this notice by going to *www.Regulations.gov.* You can search for the document by entering ''Docket Number: DOS–2023–0020'' in the Search field. Then click the ''Comment Now'' button and complete the comment form.
- *Email: LeCR@state.gov.* You must include 60-Day Submission Comment on ''information collection title'' in the subject line of your message.
- *Regular Mail:* Send written comments to Cassie Le, PRM/A, 2025 E St. NW, Washington, DC 20006.

You must include the DS form number (if applicable), information collection title, and the OMB control number in any correspondence.

SUPPLEMENTARY INFORMATION:

- *Title of Information Collection:* Affidavit of Relationship for Minors who are Nationals of El Salvador, Guatemala, or Honduras.
- *OMB Control Number:* 1405–0217.
- *Type of Request:* Notice of request for public comment.
- *Originating Office:* PRM/A.
- *Form Number:* DS–7699.
- *Respondents:* Those seeking qualified family members to access the U.S. Refugee Admissions Program.
- *Estimated Number of Respondents:* 3,000.
- *Estimated Number of Responses:* 3,000.
- *Average Time per Response:* One hour.
- *Total Estimated Burden Time:* 3,000 hours.
- *Frequency:* On occasion.
- *Obligation to Respond:* Voluntary.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

To obtain biographical information about children overseas who intend to seek access to the USRAP, as well as other eligible family members or caregivers, for verification by the U.S. government. This form also assists DHS's U.S. Citizenship and Immigration Services to verify parent-child relationships during refugee case adjudication. This form is necessary for implementation of this program.

Methodology

Working with a State Department contracted Resettlement Agencies (RA), qualifying individuals in the United States must complete the AOR and submit supporting documentation to: (a) establish that they meet the requirements for being a qualifying individual who currently falls into one of the aforementioned categories; (b) provide a list of qualifying family members who may seek access to refugee resettlement in the United States. Once completed, the form is sent by the RA to the Refugee Processing Center (RPC) for case creation and processing. The information is used by the RPC for case management; by USCIS to determine that the qualifying individual falls into one of the aforementioned categories; and by the Resettlement Support Center (RSC) for case prescreening and further processing after DHS interview. The International Organization for Migration (IOM) administers the RSC in Latin America under a Memorandum of Understanding with the Department to

conduct case prescreening and assist in the processing of refugee applicants.

Sarah R. Cross,

Deputy Assistant Secretary, Bureau of Population, Refugees and Migration, Department of State.

BILLING CODE 4710–05–P

SURFACE TRANSPORTATION BOARD

[Docket No. EP 748]

Indexing the Annual Operating Revenues of Railroads

The Surface Transportation Board (the Board) is publishing the annual inflation-adjusted index and deflator factors for 2022. The deflator factors are used by the railroads to adjust their gross annual operating revenues for classification purposes. This indexing methodology ensures that railroads are classified based on real business expansion and not on the effects of inflation. Classification is important because it determines the extent to which individual railroads must comply with the Board's reporting requirements.

The Board's deflator factors are based on the annual average Railroad Freight Price Index developed by the Bureau of Labor Statistics. The Board's deflator factor is used to deflate revenues for comparison with established revenue thresholds.

RAILROAD REVENUE THRESHOLDS [1]

Year	Factor	Class I	Class II
2018	0.5103	489,935,956	39,194,876
2019 [2]	0.4952	504,803,294	40,384,263
2020 [3]	1.0000	900,000,000	40,400,000
2021	0.9535	943,898,958	42,370,575
2022	0.8721	1,032,002,719	46,325,455

[1] In *Montana Rail Link, Inc., & Wisconsin Central Ltd., Joint Petition for Rulemaking with Respect to 49 CFR part 1201,* 8 I.C.C.2d 625 (1992), the Board's predecessor, the Interstate Commerce Commission, raised the revenue classification level for Class I railroads from $50 million (1978 dollars) to $250 million (1991 dollars), effective for the reporting year beginning January 1, 1992. The Class II threshold was also raised from $10 million (1978 dollars) to $20 million (1991 dollars). In *Montana Rail Link, Inc.—Petition for Rulemaking—Classification of Carriers,* EP 763 (STB served Apr. 5, 2021), the revenue classification level for Class I railroads was raised from $250 million (1991 dollars) to $900 million (2019 dollars), and the Class II threshold was converted and rounded from $20 million (1991 dollars) to $40.4 million (2019 dollars), effective for the reporting year beginning January 1, 2020.

[2] The 2019 values reflect those in *Indexing the Annual Operating Revenues of Railroads,* EP 748 (STB served June 10, 2020).

[3] The 2020 and subsequent values are based on the thresholds established in Docket No. EP 763, and the deflator factor is referenced to the new base year of 2019. As the Railroad Freight Price Index remained the same from 2019 to 2020, the annual deflator factor for 2020 was 1.0000.

DATES: The inflation-adjusted indexes and deflator factors are effective January 1, 2022.

FOR FURTHER INFORMATION CONTACT: Pedro Ramirez at (202) 245–0333. Assistance for the hearing impaired is available through the Federal Relay Service at (800) 877–8339.

Board decisions and notices are available at *www.stb.gov.*

Decided: June 23, 2023.

By the Board, William Brennan, Ph.D., Chief Economist & Director, Office of Economics.

Kenyatta Clay,

Clearance Clerk.

BILLING CODE 4915–01–P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

FEDERAL RESERVE SYSTEM

FEDERAL DEPOSIT INSURANCE CORPORATION

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury; Board of Governors of the Federal Reserve System (Board); and Federal Deposit Insurance Corporation (FDIC).

ACTION: Joint notice and request for comment.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995 (PRA), the OCC, the Board, and the FDIC (the agencies) may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The Federal Financial Institutions Examination Council (FFIEC), of which the agencies are members, has approved the agencies' publication for public comment of a proposal to extend for three years, without revision, the Regulatory Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework (FFIEC 101), which is currently an approved collection of information for each agency. At the end of the comment period for this notice, the FFIEC and the agencies will review any comments received. As required by the PRA, the agencies will then publish a second **Federal Register** notice for a 30-day comment period and submit the final FFIEC 101 to OMB for review and approval.

DATES: Comments must be submitted on or before August 28, 2023.

ADDRESSES: Interested parties are invited to submit written comments to any or all of the agencies. All comments, which should refer to the OMB control number(s), will be shared among the agencies.

OCC: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

- *Email: prainfo@occ.treas.gov.*
- *Mail:* Chief Counsel's Office, Attention: Comment Processing, Office of the Comptroller of the Currency, Attention: 1557–0239, 400 7th Street SW, Suite 3E–218, Washington, DC 20219.
- *Hand Delivery/Courier:* 400 7th Street SW, Suite 3E–218, Washington, DC 20219.

Instructions: You must include ''OCC'' as the agency name and ''1557–0239'' in your comment. In general, the OCC will publish comments on *www.reginfo.gov* without change, including any business or personal information provided, such as name and address information, email addresses, or phone numbers. Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Viewing Comments Electronically: Go to *www.reginfo.gov.* Hover over the ''Information Collection Review'' drop down menu and select ''Information Collection Review.'' From the ''Currently under Review'' drop-down menu, select ''Department of Treasury'' and then click ''submit.'' This information collection can be located by searching by OMB control number ''1557–0239'' or ''Regulatory Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework (FFIEC 101).'' Upon finding the appropriate information collection, click on the related ''ICR Reference Number.'' On the next screen, select ''View Supporting Statement and Other Documents'' and then click on the link to any comment listed at the bottom of the screen.

For assistance in navigating *www.reginfo.gov,* please contact the Regulatory Information Service Center at (202) 482–7340.

Board: You may submit comments, which should refer to ''FFIEC 101,'' by any of the following methods:

- *Agency Website: http://www.federalreserve.gov.* Follow the instructions for submitting comments at: *http://www.federalreserve.gov/generalinfo/foia/ProposedRegs.cfm.*
- *Email: regs.comments@federalreserve.gov.* Include ''FFIEC 101'' in the subject line of the message.
- *Fax:* (202) 452–3819 or (202) 452–3102.
- *Mail:* Ann E. Misback, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

All public comments are available from the Board's website at *https://www.federalreserve.gov/apps/foia/proposedregs.aspx* as submitted, unless modified for technical reasons. Accordingly, your comments will not be edited to remove any identifying or contact information.

FDIC: You may submit comments, which should refer to ''FFIEC 101,'' by any of the following methods:

- *Agency Website: https://www.fdic.gov/resources/regulations/federal-register-publications/.* Follow the instructions for submitting comments on the FDIC's website.
- *Email: comments@FDIC.gov.* Include ''FFIEC 101'' in the subject line of the message.
- *Mail:* Manuel E. Cabeza, Counsel, Attn: Comments, Room MB–3007, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.
- *Hand Delivery:* Comments may be hand delivered to the guard station at the rear of the 550 17th Street NW building (located on F Street NW) on business days between 7 a.m. and 5 p.m.

Public Inspection: All comments received will be posted without change to *https://www.fdic.gov/resources/regulations/federal-register-publications/,* including any personal information provided. Paper copies of public comments may be requested from the FDIC Public Information Center by telephone at (877) 275–3342 or (703) 562–2200.

Additionally, commenters may send a copy of their comments to the OMB desk officers for the agencies by mail to the Office of Information and Regulatory Affairs, U.S. Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503; by fax to (202) 395–6974; or by email to *oira_submission@omb.eop.gov.*

FOR FURTHER INFORMATION CONTACT: For further information about the information collections discussed in this notice, please contact any of the agency staff whose names appear below. In addition, copies of the FFIEC 101 reporting forms and instructions can be obtained at the FFIEC's website (*https://www.ffiec.gov/ffiec_report_forms.htm*).

OCC: Kevin Korzeniewski, Counsel, Chief Counsel's Office, (202) 649–5490, or for persons who are hearing impaired, TTY, (202) 649–5597. If you are deaf, hard of hearing, or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

Board: Nuha Elmaghrabi, Federal Reserve Board Clearance Officer, (202) 452–3884, Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, 20th and C Streets NW, Washington, DC 20551.

Telecommunications Device for the Deaf (TDD) users may call (202) 263–4869.

FDIC: Manuel E. Cabeza, Counsel, (202) 898–3767, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

SUPPLEMENTARY INFORMATION:

Report Title: Regulatory Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework.

Form Number: FFIEC 101.

Frequency of Response: Quarterly.

Affected Public: Business or other for-profit.

OCC:

OMB Control No.: 1557–0239.

Estimated Number of Respondents: 10 national banks and Federal savings associations.

Estimated Time per Response: 674 burden hours per quarter to file for banks and Federal savings associations.

Estimated Total Annual Burden: 26,960 burden hours to file.

Board:

OMB Control No.: 7100–0319.

Estimated Number of Respondents: 4 State member banks; 5 bank holding companies and savings and loan holding companies that complete Supplementary Leverage Ratio (SLR) Tables 1 and 2 only; 9 other bank holding companies and savings and loan holding companies; and 6 intermediate holding companies.

Estimated Time per Response: 674 burden hours per quarter to file for State member banks; 3 burden hours per quarter to file for bank holding companies and savings and loan holding companies that complete Supplementary Leverage Ratio (SLR) Tables 1 and 2 only; 677 burden hours per quarter to file for other bank holding companies and savings and loan holding companies; and 3 burden hours per quarter to file for intermediate holding companies.

Estimated Total Annual Burden: 10,784 burden hours for State member banks to file; 60 burden hours for bank holding companies and savings and loan holding companies that complete Supplementary Leverage Ratio (SLR) Tables 1 and 2 only to file; 24,372 burden hours for other bank holding companies and savings and loan holding companies to file; and 72 burden hours for intermediate holding companies to file.

FDIC:

OMB Control No.: 3064–0159.

Estimated Number of Respondents: 1 insured State nonmember bank and State savings association.

Estimated Time per Response: 674 burden hours per quarter to file.

Estimated Total Annual Burden: 2,696 burden hours to file.

General Description of Report

Each advanced approaches institution [1] is required to report quarterly regulatory capital data on the FFIEC 101. Each top-tier advanced approaches institution and Category III institution [2] is required to report supplementary leverage ratio information on the FFIEC 101. The FFIEC 101 information collections are mandatory for advanced approaches and top-tier Category III banking organizations under the following authorities: 12 U.S.C. 161 (national banks), 12 U.S.C. 324 (State member banks), 12 U.S.C. 1844(c) (bank holding companies), 12 U.S.C. 1467a(b) (savings and loan holding companies), 12 U.S.C. 1817 (insured State nonmember commercial and savings banks), 12 U.S.C. 1464 (Federal and State savings associations), and 12 U.S.C. 1844(c), 3106, and 3108 (intermediate holding companies). Certain data items in this information collection are given confidential treatment under 5 U.S.C. 552(b)(4) and (8).

The agencies use data reported in the FFIEC 101 to assess and monitor the levels and components of each reporting entity's applicable capital requirements and the adequacy of the entity's capital under the Advanced Capital Adequacy Framework [3] and the supplementary leverage ratio,[4] as applicable; to evaluate the impact of the Advanced Capital Adequacy Framework and the supplementary leverage ratio, as applicable, on individual reporting entities and on an industry-wide basis and its competitive implications; and to supplement on-site examination processes. The reporting schedules also assist advanced approaches institutions and top-tier Category III banking organizations in understanding expectations relating to the system development necessary for implementation and validation of the capital rule and the supplementary leverage ratio, as applicable. Submitted data that are released publicly will also provide other interested parties with additional information about advanced approaches institutions' and top-tier Category III institutions' regulatory capital.

Request for Comment

The agencies invite comment on the following related topics to these collections of information:

(a) Whether the information collections are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

(b) The accuracy of the agencies' estimates of the burden of the information collections, including the validity of the methodology and assumption used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Comments submitted in response to this joint notice will be shared among the agencies. All comments will become a matter of public record.

Office of Foreign Assets Control

Notice of OFAC Sanctions Actions

AGENCY: Office of Foreign Assets Control, Treasury.

ACTION: Notice.

SUMMARY: The U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) is publishing the names of one or more persons that have been placed on OFAC's Specially Designated Nationals and Blocked Persons List (SDN List) based on OFAC's determination that one or more applicable legal criteria were satisfied. All property and interests in property

subject to U.S. jurisdiction of these persons are blocked, and U.S. persons are generally prohibited from engaging in transactions with them.

DATES: See **SUPPLEMENTARY INFORMATION** section for applicable date(s).

FOR FURTHER INFORMATION CONTACT: OFAC: Andrea Gacki, Director, tel.: 202–622–2490; Associate Director for Global Targeting, tel.: 202–622–2420; Assistant Director for Licensing, tel.: 202–622–2480; Assistant Director for Regulatory Affairs, tel.: 202–622–4855; or the Assistant Director for Sanctions Compliance & Evaluation, tel.: 202–622–2490.

SUPPLEMENTARY INFORMATION:

Electronic Availability

The SDN List and additional information concerning OFAC sanctions programs are available on OFAC's website (*https://www.treasury.gov/ofac*).

Notice of OFAC Actions

On June 23, 2023, OFAC determined that the property and interests in property subject to U.S. jurisdiction of the following persons are blocked under the relevant sanctions authority listed below.

Individuals

1. POPOV, Yegor Sergeyevich (Cyrillic: ПОПОВ, Егор Сергеевич) (a.k.a. POPOV, Egor Sergeevich; a.k.a. POPOV, Igor; a.k.a. "KONTORA, Egor"; a.k.a. "ZHUKOV, Egor"), Moscow, Russia; DOB 25 Jan 1992; POB Volgograd, Russia; nationality Russia; citizen Russia; Gender Male; National ID No. 1811675248 (Russia) (individual) [RUSSIA-EO14024].

   Designated pursuant to section 1(a)(vii) of Executive Order 14024 of April 15, 2021, "Blocking Property With Respect To Specified Harmful Foreign Activities of the Government of the Russian Federation," 86 FR 20249, 3 CFR, 2021 Comp., p. 542 (Apr. 15, 2021) (E.O. 14024) for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, the Government of the Russian Federation.

2. SUKHODOLOV, Aleksei Borisovich (Cyrillic: СУХОДОЛОВ, Алексей Борисович) (a.k.a. SUKHODOLOV, Alexey Borisovich), Moscow, Russia; DOB 19 Apr 1974; POB Voronezh, Russia; nationality Russia; citizen Russia; Gender Male; Passport 100137518 (Russia) (individual) [RUSSIA-EO14024].

   Designated pursuant to section 1(a)(vii) of E.O. 14024 for being owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, the Government of the Russian Federation.

Dated: June 23, 2023.

Internal Revenue Service

Open Meeting of the Taxpayer Advocacy Panel Joint Committee: Change

AGENCY: Internal Revenue Service (IRS) Treasury.

ACTION: Notice of meeting: Change.

SUMMARY: In the **Federal Register** notice that was originally published on June 5, 2023, the day for this meeting changed from Monday, June 26, 2023, to Monday, July 17, 2023 at 3:00 p.m. Eastern Time. All other meeting details remain unchanged. This meeting will be held via teleconference.

DATES: The meeting will be held Monday, July 17, 2023.

FOR FURTHER INFORMATION CONTACT: Rosalind Matherne at 1–888–912–1227 or 202–317–4115.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that an open meeting of the Taxpayer Advocacy Panel Joint Committee will be held Monday, July 17, 2023, at 3:00 p.m. Eastern Time via teleconference. This meeting was previously announced in the **Federal Register** June 5, 2023 at 88 FR 37141. The public is invited to make oral comments or submit written statements for consideration. For more information, please contact Rosalind Matherne at 1–888–912–1227 or 202–317–4115, or write TAP Office, 1111 Constitution Ave. NW, Room 1503, Washington, DC 20224 or contact us at the website: *http://www.improveirs.org.*

The agenda will include Tax Forms and Publications committee referral #52664 to be discussed. Public input is welcomed.

Dated: June 23, 2023.

Kevin Brown,

Acting Director, Taxpayer Advocacy Panel.

Department of the Interior

Bureau of Ocean Energy Management

30 CFR Parts 550, 556, and 590
Risk Management and Financial Assurance for OCS Lease and Grant Obligations; Proposed Rule

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

30 CFR Parts 550, 556, and 590

[Docket ID: BOEM–2023–0027]

RIN 1010–AE14

Risk Management and Financial Assurance for OCS Lease and Grant Obligations

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of proposed rulemaking and request for comment.

SUMMARY: The Department of the Interior (the Department or DOI), acting through BOEM, proposes to modify its criteria for determining whether oil, gas, and sulfur lessees, right-of-use and easement (RUE) grant holders, and pipeline right-of-way (ROW) grant holders may be required to provide bonds or other financial assurance above the current regulatorily prescribed base bonds to ensure compliance with their Outer Continental Shelf Lands Act (OCSLA) obligations. This proposed rule would also remove existing restrictive provisions for third-party guarantees and decommissioning accounts and would add new criteria under which a bond or third-party guarantee that was provided as supplemental financial assurance may be canceled. Additionally, this proposed rule would clarify bonding requirements for RUEs serving Federal leases. Based on the proposed framework, BOEM estimates that the aggregate amount of supplemental financial assurance required of lessees and grant holders under this proposed rulemaking available to the U.S. government for decommissioning activities would increase by an estimated $9.2 billion over current levels. This value represents less than one-quarter of all offshore decommissioning liabilities, which is currently estimated at $42.8 billion. This proposed rulemaking would not apply to renewable energy activities.

DATES: BOEM must receive your comments on or before August 28, 2023. BOEM has the discretion not to consider comments received after this date. The Office of Management and Budget (OMB) and BOEM must receive your comments on the information collection (IC) burden in this rulemaking on or before July 31, 2023. The IC burden comment opportunity does not affect the deadline for the public to comment to BOEM on the proposed regulations.

ADDRESSES: You may submit comments on the rulemaking by any of the following methods. In your comments, please reference ''Risk Management and Financial Assurance for OCS Lease and Grant Obligations, RIN 1010–AE14.'' Please include your name, and phone number or email address, so we can contact you if we have questions regarding your submission.

- *Federal rulemaking portal: https://www.regulations.gov.* In the entry titled, ''Enter Keyword or ID,'' enter BOEM–2023–0027 then click search. Follow the instructions to submit public comments and view supporting and related materials available for this rulemaking.
- *Mail or delivery service:* Send comments on the BOEM proposed rule to the Department of the Interior, Bureau of Ocean Energy Management, Office of Regulations, Attention: Kelley Spence, 45600 Woodland Road, Mailstop VAM–BOEM DIR, Sterling, VA 20166.

Submit comments on the IC in this proposed rule to *www.reginfo.gov/public/do/PRAMain.* From this main web page, you can find and submit comments on this particular information collection by proceeding to the boldface heading ''Currently under Review,'' selecting ''Department of the Interior'' in the ''Select Agency'' pull down menu, clicking ''Submit,'' then, checking the box ''Only Show ICR for Public Comment'' on the next web page, scrolling to this proposed rule, and clicking the ''Comment'' button at the right margin. Or, you may use the search function to locate the IC request related to the proposed rule on the main web page. Please provide a copy of your comments to the Information Collection Clearance Officer, Office of Regulations, Bureau of Ocean Energy Management, Attention: Anna Atkinson, 45600 Woodland Road, Sterling, Virginia 20166; or by email to *anna.atkinson@boem.gov.* Please reference OMB Control Number 1010–0006 in the subject line of your comments.

Instructions: All submissions received must include the agency name and docket number or Regulatory Information Number (RIN) for this rulemaking (1010–AE14). All comments received will be posted without change to *http://www.regulations.gov,* including any personal information provided. For detailed instructions on sending comments and additional information on the rulemaking process, see the ''Public Availability of Comments:'' heading of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: For access to the docket to read background documents or comments received, go to *www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: Kelley Spence, Office of Regulations, BOEM, at *kelley.spence@boem.gov* or at (984) 298–7345; or Karen Thundiyil, Chief, Office of Regulations, BOEM, at *Karen.Thundiyil@boem.gov* or at (202) 742–0970.

To obtain a copy of the information collection supporting statement, contact: Information Collection Clearance Officer, Office of Regulations, Bureau of Ocean Energy Management, Attention: Anna Atkinson, at *anna.atkinson@boem.gov* or at (703) 787–1025.

SUPPLEMENTARY INFORMATION:

Public Availability of Comments: BOEM may post all submitted comments to *regulations.gov.* Before including your name, return address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in the submittal of your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe in such cover letter any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so. Even if BOEM withholds your information in the context of this rulemaking, your submission is subject to the Freedom of Information Act (FOIA) and any relevant court orders, and if your submission is requested under the FOIA or such court order, your information will only be withheld if a determination is made that one of the FOIA's exemptions to disclosure applies or if such court order is challenged. Such a determination will be made in accordance with the Department's FOIA regulations and applicable law.

Organization of this document. The information in this preamble is organized as follows:

II. Executive Summary

This proposed rule would require that the holders of interests in Outer Continental Shelf (OCS) leases and grants provide financial assurance for their own contractual and regulatory obligations, including decommissioning obligations, to prevent the Federal Government from incurring costs to perform those obligations and to avoid the environmental or safety hazards associated with delayed compliance. This approach adheres to the general principle that the private parties enjoying the benefit of producing the mineral resources of the OCS should not shift the cost of satisfying their contractual and environmental obligations to the public. Based on the proposed framework, BOEM estimates that the aggregate amount of supplemental financial assurance required of lessees and grant holders under this proposed rulemaking available to the U.S. government for decommissioning activities would increase by an estimated $9.2 billion over current levels. This value represents less than one-quarter of all decommissioning liabilities, which is currently estimated at $42.8 billion.

This proposed rule is intended to update BOEM's criteria for determining whether oil, gas, and sulfur lessees, RUE grant holders, and ROW grant holders may be required to provide surety bonds or other financial assurance above the prescribed base financial assurance to ensure compliance with OCSLA. Provisions of this proposed rulemaking would change the existing criteria used to determine whether supplemental financial assurance should be required of OCS oil and gas lessees and grantees. Under the existing regulations, BOEM considers five criteria in making this determination for lessees: financial capacity; projected financial strength; business stability; record of compliance with existing rules and regulations; and reliability. This rulemaking proposes to eliminate those five criteria and replace them with two new criteria: credit rating and the ratio of the value of proved oil and gas reserves on the lease to the lease decommissioning liability associated with those reserves.

Using the credit rating of the lessee (to determine its financial strength) and the value of proved oil and gas reserves available to meet future financial obligations, BOEM would not require supplemental financial assurance in three cases. First, under this proposed rule, a lessee with an investment grade credit rating would not be required to post supplemental financial assurance beyond a base bond to cover its lease and regulatory obligations. These base bonds can range from $50,000 for a lease-specific bond with no approved operational activity to $3 million for an area-wide bond that includes a development production plan. Second, where there are multiple co-lessees on a lease, if any one co-lessee meets the credit rating threshold, none of the other co-lessees would be required to post supplemental financial assurance. Finally, for any lease on which all lessees are rated below investment grade, BOEM would next look to the value of the lease's proved oil and gas reserves relative to lease decommissioning obligations associated with the production of those reserves. For any such lease, if a lease has proved reserves with a value of at least three times that of the estimated decommissioning cost, no supplemental financial assurance would be required. In any case other than the three mentioned here, supplemental financial assurance would be mandatory.

Overall, this proposed rule would impose greater supplemental financial assurance requirements on lessees than the amounts currently required. This proposed rule also contains a provision that would allow phased-in compliance over a period of three years, which could ease burdens on individual lessees and operators in the short term.

This proposed rule would also make other less significant changes. This proposed rule would provide more specific bonding requirements for Federal RUEs and would remove restrictive provisions for third-party guarantees and decommissioning

accounts. Finally, it would add new criteria under which supplemental bonds and third-party guarantees may be cancelled.

On October 16, 2020, BOEM proposed a joint rulemaking with the Bureau of Safety and Environmental Enforcement (BSEE) to update BOEM's financial assurance criteria and other BSEE-administered regulations. On January 20, 2021, President Biden signed Executive Order (E.O.) 13990, ''Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis.'' This Executive order, among other things, instructs agencies to review actions taken between January 20, 2017, and January 20, 2021, and consider publishing a notice of proposed rulemaking suspending, revising, or rescinding that action. Upon conducting such a review of the 2020 proposal and the record postdating the review, BOEM has decided, as an exercise of its judgment and expertise, not to move forward with the BOEM-administered portions of that 2020 proposed rulemaking. BOEM has instead decided to issue this new notice of proposed rulemaking to address its financial assurance policy concerns. BOEM is no longer considering any BOEM-related topics or proposals from that 2020 proposed joint rulemaking that are not discussed in this current proposed rule. BSEE finalized the BSEE-related provisions of the 2020 joint proposed rule on April 18, 2023 (88 FR 23569). This proposed rulemaking takes a new approach to update the financial assurance criteria to ensure that current lessees have sufficient resources to meet their lease and regulatory obligations, therefore providing more protection to the taxpayer. BSEE is expected to continue to exercise its regulatory authority to issue decommissioning orders to predecessor lessees, seek an appropriation, or intervene as necessary to address an environmental or safety risk, regardless of the outcome of this proposed rule. However, without this proposed rule (*i.e.,* without the financial assurance fully in place), it could take longer to arrange for decommissioning, which could result in additional environmental damage or increased obstacles to navigation. A reduction in decommissioning activity lead-time could reduce environmental damage, but BOEM cannot quantify this benefit in this rulemaking.

This proposed rulemaking would not apply to renewable energy activities.

III. Background of BOEM Regulations

A. BOEM Statutory and Regulatory Authority and Responsibilities

BOEM's authority to promulgate this rulemaking is granted by section 5 of OCSLA, 43 U.S.C. 1334. That section authorizes the Secretary of the Interior (Secretary) to issue regulations to administer OCS leasing for mineral development. Section 5(a) of OCSLA (43 U.S.C. 1334(a)) authorizes the Secretary to ''prescribe such rules and regulations as may be necessary to carry out'' the ''provisions of [OCSLA] relating to the leasing of the'' OCS. Section 5(b) of OCSLA (43 U.S.C. 1334(b)) provides that ''compliance with regulations issued under'' OCSLA must be a condition of ''[t]he issuance and continuance in effect of any lease, or of any assignment or other transfer of any lease, under the provisions of'' OCSLA.

43 U.S.C. 1338a reflects Congress' intent to authorize BOEM to collect financial assurance by specifically addressing the forfeiture of bonds and financial assurances by an OCS permittee, lessee, or right-of-way holder that does not fulfill the requirements of its permit, lease, or right-of-way or does not comply with the regulations of the Secretary, which includes defaulting on decommissioning activities.

The Secretary, in Secretary's Order 3299, as amended, delegated the authority to BOEM to carry out offshore conventional energy-related (*e.g.,* oil and gas) and renewable energy-related functions including, but not limited to, activities involving resource evaluation, planning, and leasing. Thus, BOEM is responsible for managing development of the Nation's offshore energy and mineral resources in an environmentally and economically responsible way. Secretary's Order 3299 also assigned authority to BSEE, including, but not limited to, enforcement of a lessee's obligation to perform decommissioning. BSEE provides estimates of decommissioning costs to BOEM so that the financial assurance required by BOEM will be sufficient to cover the estimated cost to perform decommissioning, thereby protecting the Federal Government from incurring financial loss. While BOEM also has program oversight for the financial assurance requirements set forth in 30 CFR parts 551, 581, 582, and 585, this proposed rule pertains only to the financial assurance requirements for oil and gas or sulfur leases under 30 CFR part 556, associated RUE grants and ROW grants under 30 CFR part 550, and appeals of supplemental financial assurance demands under 30 CFR part 590.

B. History of Bonding Regulations and Guidance

BOEM's existing financial assurance requirements for oil and gas leases (30 CFR 556.900 through 556.907) and pipeline ROW grants (30 CFR 550.1011), published by BOEM's predecessor, the Minerals Management Service (MMS), on May 22, 1997 (62 FR 27948),[1] authorize the Regional Director to require bonding for oil and gas leases and pipeline ROW grants. Sections 556.900(a) and 556.901(a) and (b) require lease-specific or area-wide base bonds in prescribed amounts, depending on the level of activity on a lease or leases. Section 556.901(d) authorizes the Regional Director to require supplemental financial assurance for leases above the amounts for lease and area-wide base bonds prescribed in the regulations. Similarly, § 550.1011 authorizes the Regional Director to require an area-wide base surety bond in a prescribed amount and, when determined necessary, supplemental financial assurance above the prescribed amount, for ROW grants.

BOEM's existing bonding regulations for RUE grants (§§ 550.160 and 550.166), published by MMS on December 28, 1999 (64 FR 72756),[2] empower the Regional Director to require surety bonds or other financial assurance for RUE grants. Section 550.160(c) states that an applicant for a RUE serving an OCS lease ''must meet bonding requirements.'' *See* 30 CFR 550.160(c). While no regulation prescribes a particular bond amount for a RUE that applies to an OCS lease, § 550.160 authorizes the Regional Director to require financial assurance if, and in the amount, the Regional Director determines necessary.

Section 550.166(a) requires an applicant for a RUE that serves a State lease to provide a base surety bond of $500,000. Section 550.166(b) provides that the Regional Director may require supplemental financial assurance above the prescribed $500,000 base surety bond from the holder of a such a RUE. MMS and now BOEM have employed the criteria used for determining whether supplemental financial assurance is required for leases to such

[1] The 1997 rule amended 30 CFR parts 250 and 256; 30 CFR parts 550 and 556 did not exist at that time. BOEM published the current regulations in 30 CFR parts 550 and 556 on October 18, 2011, 76 FR 64432. However, the 2011 rule did not make any substantive changes to the bonding and financial assurance requirements that were adopted in 1997; thus, the 1997 rule represents the last substantive update to the regulatory provisions for lessees.

[2] The financial assurance regulations for RUE and ROW grants, then at §§ 250.160 and 250.166, were substantively modified in 1999. These provisions were renumbered in October 2011.

determinations for RUE and ROW grants because specific criteria for grants do not exist in the current regulations.

BOEM regulations at §§ 556.604(d) and 556.605(e) and BSEE regulations at § 250.1701 hold predecessors and current co-lessees responsible for decommissioning when a current lessee is unable to perform. The existing lease bonding regulations under § 556.901(d) provide five criteria [3] that the Regional Director uses to determine whether a lessee's potential inability to carry out present and future financial obligations warrants a demand for supplemental financial assurance. However, the existing regulations do not specifically describe how the agency weighs those criteria. To provide guidance, MMS issued Notice to Lessees (NTL) No. 98–18N, effective December 28, 1998, which provided details on how it would apply the five criteria. This NTL was superseded by NTL No. 2003–N06, effective June 17, 2003, and that NTL was later superseded by NTL No. 2008–N07, which was effective August 28, 2008, but which was superseded on September 12, 2016. The September 12, 2016, NTL was subsequently rescinded.

Pursuant to BOEM's practice under NTL No. 2008–N07, a lessee or grant holder that did not pass established financial thresholds [4] was required to provide supplemental financial assurance to cover its decommissioning liabilities. However, a lessee or grant holder that did pass such thresholds—including an analysis whether its cumulative potential decommissioning liability was less than or equal to 50 percent of its net worth [5]—did not have to provide supplemental financial assurance and was considered ''waived.'' Additionally, if one lessee on a lease was waived, no other co-lessee (regardless of its own financial strength) would be required to provide supplemental financial assurance to cover the decommissioning liability for the lease. In a situation involving multiple lessees and two or more co-lessees that qualified for a waiver, none of the co-lessees was required to provide financial assurance, and the decommissioning liability on the lease was not attributable to any lessee. Because companies in this situation would not have the decommissioning liability associated with their lease(s) attributed to them (*i.e.,* the decommissioning liability would not be attributed to any company), that liability would not have been considered in determining whether that company met the net worth requirements to obtain a waiver.

For a company in this situation, the financial capacity of the lessee would have appeared better than it actually was, because its total decommissioning liability appeared artificially low; the lessee could potentially qualify for a waiver to which it might not otherwise be entitled. Undergirding this rationale was an assumption that the chances of two waived lessees becoming financially distressed was unlikely. This proposed rule addresses that potential risk by allowing BOEM to obtain additional data to take contingent liabilities into consideration.

Since 2009, more than 30 corporate bankruptcies have occurred involving offshore oil and gas lessees with unbonded decommissioning liabilities. The fact that bankruptcies and reorganizations have involved unbonded decommissioning liabilities demonstrates that the waiver criteria in NTL No. 2008–N07 were inadequate to protect the public from potential responsibility for OCS decommissioning liabilities, especially during periods of low oil and gas prices. For example, ATP Oil & Gas was a mid-sized company with a supplemental financial assurance waiver when it filed for bankruptcy in 2012. Similarly, Bennu Oil & Gas, LLC, had a waiver at the time of its bankruptcy filing, and Energy XXI, Ltd., and Stone Energy Corporation obtained waivers within a year of filing for bankruptcy. While most OCS leases affected by the bankruptcies were ultimately sold or retained by the companies reorganized under chapter 11 of the U.S. Bankruptcy Code, these bankruptcies highlighted the weaknesses in BOEM's supplemental financial assurance program, including the waiver criteria in NTL No. 2008–N07, and BOEM's inability to forecast financial distress of these waived operators with sufficient time to require and receive financial assurance.

These bankruptcies involved a total offshore decommissioning liability of approximately $7.5 billion. This figure includes properties with co-lessees and predecessor lessees and properties held by companies that successfully emerged from a chapter 11 reorganization. However, the actual financial risk to the United States is significantly less than the total offshore decommissioning liability associated with offshore corporate bankruptcies. This is in part because other private parties may be responsible for decommissioning costs. Co-lessees and predecessors retain pre-existing obligations to fund or perform decommissioning. Also, a bankrupt company's assets were often sold to financially stronger buyers who assumed those liabilities.

Additionally, if BOEM has insufficient supplemental financial assurance at the time of an operator's bankruptcy, BOEM may pursue legal avenues for obtaining performance or funds in bankruptcy proceedings, such as provisions for decommissioning in the terms of the reorganization, the sale of the leases to financially responsible buyers, or limitations on debtor attempts to abandon environmental problems. However, in pursuing legal avenues, favorable outcomes are not assured, and additional funds may not be obtained to cover decommissioning obligations. It is possible that when there are multiple co-lessees on a lease, only one of them meets the credit rating threshold. It is also possible that co-lessees are not required to provide additional financial assurance and predecessors lack sufficient capital to fulfill unexpected decommissioning obligations. In these scenarios, bankrupt assets may prove less valuable than anticipated and fail to generate new buyers at auction. Components and wells for which the bankrupt party is the only liable party on the lease may further complicate decommissioning efforts. These challenges create a risk of unplugged wells and orphaned infrastructure. The American taxpayer may pay the cost of plugging those wells and reclaiming that abandoned infrastructure. BSEE has identified orphaned infrastructure without a predecessor and no financial assurance to cover the cost of decommissioning. BSEE's fiscal year 2023 budget request included $30 million in order to address this uncovered infrastructure.

On May 27, 2009, MMS issued a proposed rule, ''Leasing of Sulphur or Oil and Gas and Bonding Requirements in the Outer Continental Shelf'' (74 FR 25177), to rewrite the majority of 30 CFR part 256 (now redesignated as 30 CFR part 556).[6] However, BOEM (post MMS restructuring) deferred revision of the bonding regulations to a separate rulemaking. The separate rulemaking

[3] The following are the five criteria: (i) Financial capacity substantially in excess of existing and anticipated lease and other obligations; (ii) Projected financial strength significantly in excess of existing and future lease obligations; (iii) Business stability based on five years of continuous operation and production of oil and gas or sulfur in the OCS or in the onshore oil and gas industry; (iv) Reliability in meeting obligations based on: (A) Credit rating; or (B) Trade references; and (v) Record of compliance with laws, regulations, and lease terms.

[4] The 2008 NTL mandated a minimum net worth of $65 million and imposed a cap on the amount of waived liability at 50% of net worth. Liability covered by two qualified companies was not counted against the 50% cap.

[5] This is not a separate criterion but simply an elaboration of criterion one.

[6] 76 FR 64432, Oct. 18. 2011.

commenced August 19, 2014, with an advance notice of proposed rulemaking (ANPRM), ''Risk Management, Financial Assurance and Loss Prevention'' (79 FR 49027), to solicit ideas for improving the bonding regulations.

In December 2015, the Government Accountability Office (GAO) reviewed BOEM's supplemental financial assurance procedures and issued a report titled ''Offshore Oil and Gas Resources: Actions Needed to Better Protect Against Billions of Dollars in Federal Exposure to Decommissioning Liabilities.'' (GAO Report). While acknowledging BOEM's ongoing efforts to update its policies, the GAO Report recommended, inter alia, that ''BOEM complete its plan to revise its supplemental financial assurance procedures, including the use of alternative measures of financial strength.'' [7]

Following further analysis and a series of stakeholder meetings in 2015 and 2016 to solicit industry input, BOEM attempted to remedy the weaknesses in its supplemental financial assurance program with new NTL No. 2016–N01, ''Requiring Additional Security,'' which became effective September 12, 2016. NTL No. 2016–N01 sought to clarify the procedures and explain how BOEM would use the regulatory criteria to determine if and when supplemental financial assurance would be required for OCS leases and RUE and ROW grants. The NTL used net worth of a lessee as a measure of financial strength, detailed several changes in policy, and refined the criteria used to determine a lessee's or grant holder's financial ability to carry out its obligations. On August 29, 2016, BOEM requested GAO to close the above-stated recommendation in the GAO Report, stating that BOEM had implemented the recommendation by issuance of the NTL. The GAO found that the recommendation had been implemented and closed the audit recommendation later in Fiscal Year 2016.

In December 2016, BOEM began implementing the NTL and issued numerous orders to lessees and grant holders to provide supplemental financial assurance for ''sole liability properties,'' *i.e.,* leases and RUE and ROW grants for which the lessee or grant holder was the only party liable for meeting the lease or grant obligations.

On January 6, 2017, BOEM issued a note to stakeholders extending the implementation timeline for NTL No. 2016–N01 for six months. The extension applied to leases and RUE and ROW grants for which there were co-lessees, predecessors in interest, or both, except where BOEM determined there was a substantial risk of nonperformance of the interest holder's decommissioning obligations. The extension of the implementation timeline allowed BOEM to evaluate which leases and grants would be considered sole liability properties.

BOEM issued a second note to stakeholders on February 17, 2017, further extending the implementation timeline. BOEM also announced in the February note that it would withdraw the December 2016 orders issued on sole liability properties to allow time for the then new administration to review BOEM's supplemental financial assurance program.

In 2017, BOEM began to review its supplemental financial assurance program and NTL No. 2016–N01 to determine whether modifications were necessary and, if so, to what extent. BOEM's objective was ensuring operator compliance with lease terms while minimizing unnecessary burden on industry. As a result of this review, BOEM recognized the need to further develop a comprehensive program to assist in identifying, prioritizing, and managing the risks associated with industry activities on the OCS. This included options for revising or rescinding NTL No. 2016–N01 and revising the financial assurance program through rulemaking.

C. 2020 Joint Notice of Proposed Rulemaking

On October 16, 2020, BOEM and BSEE issued a joint notice of proposed rulemaking to revise certain BSEE policies concerning decommissioning orders and BOEM's financial assurance regulations. (See ''Risk Management, Financial Assurance and Loss Prevention,'' 85 FR 65904). As stated above, under existing regulations, BOEM requires lessees to provide a base bond as financial assurance to ensure that the cost of meeting OCS obligations is not passed to the taxpayer. The Regional Director may also order supplemental financial assurance if necessary to ensure performance of offshore decommissioning obligations.

In the joint proposed rule, BOEM proposed to adjust its supplemental financial assurance criteria to reflect the risk mitigation already provided by the joint and several liability of financially stable co-lessees and predecessor lessees. BSEE and BOEM regulations hold predecessors and current co-lessees responsible for decommissioning when a current lessee is unable to perform.[8] In the joint proposed rule, BOEM would have taken into account the financial stability of predecessor lessees by waiving supplemental financial assurance requirements for a current lessee when there was a financially strong predecessor lessee.

In the joint proposed rule, BOEM also sought to change its methodology for measuring financial strength to focus on a lessee's or its predecessor's credit rating and the value of proved oil and gas reserves. These proposed criteria would have relied on a company's nationally recognized statistical rating organization (NRSRO) credit rating or an equivalent BOEM proxy credit rating determined by evaluating a company's submitted audited financial statements through S&P Global's Credit Analytics credit model or a similar, widely accepted credit rating model. Under the joint proposed rule, a credit rating less than or equal to either BB − from S&P Global's Credit Analytics ratings (S&P), Ba3 from Moody's Investor Service (Moody's) or a proxy credit rating less than or equal to either BB − or Ba3, as determined by the Regional Director, could have constituted grounds for the Regional Director to require a lessee to provide supplemental financial assurance. If a company did not meet the minimum credit rating or proxy credit rating level, BOEM would have inquired into the credit or proxy credit ratings of co-lessees and predecessor lessees, which could be held liable under joint and several liability. If one of these co-lessees or predecessors met the credit rating criteria, BOEM could decide not to require supplemental financial assurance from the lessee. If there were no co-lessee or predecessor lessee that met the credit rating criteria, BOEM would then look to the value of the proved oil and gas reserves on the lease. If the value of those proved reserves was equal to or greater than three times the estimated cost of the decommissioning associated with the production of the reserves on any given lease, supplemental financial assurance would not have been required.

BOEM further proposed to use the same credit rating criteria to determine the financial assurance requirements for RUE grants described in § 550.160 and ROW grants in a revised § 550.1011. This would have included consideration of the credit and proxy credit ratings of co- and predecessor grant holders but would not have considered proved oil and gas reserves, given that neither RUE nor ROW grants entitle the holder to any interest in oil and gas reserves.

[7] *https://www.gao.gov/products/gao-16-40.*

[8] See, for example, 30 CFR 556.604(d), 556.605(e), and 250.1701.

The joint proposed rule would have also applied the same credit rating criteria to its evaluation of potential guarantors. The joint proposed rule also would have removed the requirement for a third-party guarantee to ensure full compliance with the obligations of all lessees, operating rights owners, and operators on the lease and would have allowed a third-party guarantee to be used as supplemental financial assurance for a RUE or ROW grant. The former change would have allowed a guarantor to limit its guarantee to a subset of lease or grant obligations. Additional proposed changes would have applied to third-party guarantees the same terms and conditions that apply to cancellation of supplemental financial assurance surety bonds and return of pledged financial assurance, as well as a clarification to reiterate that ''guarantee'' and ''indemnity agreement'' both refer to the same guarantee agreement.

On January 20, 2021, President Biden signed Executive Order 13990, ''Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis.'' This Executive order, among other things, instructs agencies to review actions taken between January 20, 2017, and January 20, 2021, and consider publishing a notice of proposed rulemaking suspending, revising, or rescinding that action. Upon conducting such a review of the 2020 proposal and the record postdating the review, BOEM has decided, as an exercise of its judgement and expertise, not to move forward with the joint proposed rule and acknowledges that NTL No. 2016–N01 was never fully implemented and has since been rescinded. This NPRM parallels the approach in BOEM's portion of the 2020 proposal but, to increase protection of the taxpayer, it would require a higher threshold credit rating and would not allow a current lessee to avoid posting additional assurance based on a predecessor lessee's strength.

D. Purpose of BOEM's Proposed Rulemaking

This proposed rule is intended to update BOEM's criteria for determining whether oil, gas, and sulfur lessees, RUE grant holders, and ROW grant holders may be required to provide supplemental financial assurance to ensure compliance with their OCS obligations. In its continued efforts to address concerns with the financial assurance program, BOEM has opted to issue this new notice of proposed rulemaking to better protect the taxpayer from bearing the cost of facility decommissioning and other financial risks associated with OCS development, such as oil spill cleanup or other environmental remediation. Although the cases where taxpayers have actually paid costs for decommissioning are rare, some BOEM lessees have entered bankruptcy without the resources to cover decommissioning. In these cases, BOEM is required to negotiate with predecessors, co-lessees, and bankruptcy courts to obtain the funds needed for decommissioning. As mentioned earlier, this process is not always sufficient, as reflected in BSEE's request for additional appropriations to cover decommissioning of facilities for which there is no remaining liable party. BOEM has decided not to set a lower supplemental financial assurance requirement for lessees with financially strong predecessor lessees. Instead, BOEM proposes to require supplemental financial assurance for all leases owned by lessees that do not meet the proposed financial strength threshold or have sufficiently valuable proved oil and gas reserves on their leases that may attract a buyer if the current lessees are in financial distress. The omission of predecessor lessees from this calculus addresses several financial assurance issues. It ensures the current lessees have the financial capability to fulfill its decommissioning obligations, and discourages lessees from ignoring end-of-life decommissioning costs. It also simplifies potential administrative demands, since it obviates the need for parties to distinguish between wells with predecessor lessees and more recent sole-liability wells, side-track wells, and other sole-liability components. This proposed rule would retain the authority to pursue predecessor lessees for the performance of decommissioning; however, this proposed rule would not allow BOEM to rely upon the financial strength of predecessor lessees when determining whether, or how much, supplemental financial assurance should be provided by current OCS leaseholders.

Under this proposed rule, instead of relying primarily on net worth to determine whether a lessee must provide supplemental financial assurance, BOEM's primary consideration would be a lessee's credit rating. Credit rating agencies account for many factors when evaluating a company, including cash flow, debt-to-earnings ratios, debt-to-funds-from-operations ratios, and other financial factors. A credit rating considers the past performance of a company, including, but not limited to, the income statement and cash flow statement, which provide a broad picture of how well a company may be able to meet its liabilities. The rating also considers forward-looking factors, such as the anticipated loss of assets and the anticipated highs and lows of the company's business cycle. Credit ratings provide a measure of the probability of a default on an obligation; studies have shown a very close correlation between the rating level and the probability of default.[9]

On the other hand, a net worth analysis (typically total assets minus total liabilities) uses figures that reflect the last day of the fiscal period. This ''snapshot'' is not adequate to predict a lessee's future financial position because a lessee's financial deterioration can occur quickly due to volatility in oil and gas prices, improper hedging of risks, and other business and economic reasons. Net worth is one financial data point that may not accurately reflect the overall financial risk posed by the company, as compared to the more comprehensive financial review undertaken by the rating agencies. A singular financial ratio analysis may unintentionally penalize some corporate structures where that particular ratio is not as important or relevant to that business, for example midstream master limited partnerships, which the tax code requires to distribute 90% of net income to partners. Relying on the more comprehensive and forward-looking credit rating analysis—both to determine whether supplemental financial assurance may be necessary and to determine whether a company can be a guarantor of the financial obligations of other companies operating on the OCS—would better allow BOEM to demand security before a company becomes financially distressed. For more discussion on credit ratings, see section VI.A (BOEM Evaluation Methodology—Credit Ratings) of this preamble.

After accruing an obligation to decommission certain infrastructure (*e.g.,* well, platform, pipeline), the predecessor lessee remains jointly and severally liable for decommissioning that infrastructure, even in cases where a predecessor lessee has divested its full interest in a lease by assignment to another company. This rulemaking would retain BOEM's existing right to pursue predecessor lessees for the performance of decommissioning; however, this rulemaking would not allow BOEM to rely upon the financial

[9] See for example, ''Ratings vs Default Rates'', Moody's Annual Default Study—February 8, 2022, Douglas J. Lucas, ''Default Correlation and Credit Analysis'', The Journal of Fixed Income Mar 1995, 4 (4) 76–87; DOI: 10.3905/jfi.1995.408124.

strength of predecessor lessees when determining whether, or how much, supplemental financial assurance should be provided by current OCS leaseholders. This change strengthens the financial assurance program by ensuring current lessees have the financial strength or supplemental financial assurance in order to fulfill all their obligations.

In summary, BOEM is proposing this rulemaking to clarify and simplify its financial assurance requirements and to provide greater protection to taxpayers. These proposed regulatory changes provide additional clarity that current grant holders, lessees, and, when appropriate, operating rights holders (sublessees) bear the cost of ensuring compliance with lease obligations, rather than relying on prior owners.

IV. Proposed Revisions to BOEM Supplemental Financial Assurance Requirements

BOEM's existing financial assurance regulatory framework has two main components: (1) Base bonds, generally required in amounts prescribed by regulation, and (2) Supplemental financial assurance, above the prescribed base bond amounts, that may be required upon the Regional Director's determination that an increased amount is necessary to ensure compliance with OCS obligations. BOEM's objective is to ensure that taxpayers do not bear the cost of meeting the obligations of lessees and grant holders on the OCS, particularly the costs of decommissioning that must be met after the cash flow from production ceases. At the same time, BOEM also recognizes the costs and disincentives to additional exploration, development, and production that are imposed on lessees and grant holders by increasing the required amounts of bonds and/or other financial assurance. After taking these considerations into account, BOEM is proposing to: (1) Modify the evaluation process for requiring supplemental financial assurance by clarifying and streamlining the evaluation criteria; and, (2) Remove restrictive provisions for third-party guarantees and decommissioning accounts. This proposed rule would allow the Regional Director to require supplemental financial assurance when a lessee or grant holder poses a substantial risk of becoming financially unable to carry out its obligations under its lease or grant, or when the property may not have sufficient value to be sold to another company that could assume those obligations. In the former case, the risk that the taxpayer might have to take on the financial obligations of a lessee or grant holder is mitigated when there is a co-lessee or co-grant holder that has sufficient financial capacity to carry out the obligations.

A. Leases

Lessees are jointly and severally liable for the lease decommissioning obligations that accrue during their ownership, as well as those that accrued prior to their ownership, which means that each current co-lessee is liable for the full obligation and BSEE may pursue performance from any individual current lessee. *See, e.g.,* 30 CFR 556.604(d). In addition, a lessee that transfers its interest to another party continues to be liable for any unperformed decommissioning obligations that accrued prior to, or during, the time that lessee owned an interest in the lease. *See, e.g.,* 30 CFR 556.710. This transferor liability applies, however, only to those obligations existing at the time of transfer; new facilities, or additions to existing facilities, that were not in existence at the time of any lease transfer are not obligations of a predecessor company and are considered obligations of the party that built such new facilities and its co- and successor lessees.

BOEM's existing supplemental financial assurance evaluation process, contained in § 556.901(d), is based only on the current lessee's ability to carry out present and future obligations. BOEM proposes to codify that this evaluation process includes an evaluation of the ability of a co-lessee to carry out present and future obligations. This codification recognizes that all of the current owners are benefiting from ongoing operations and are jointly and severally liable for compliance with DOI requirements. A current co-lessee is equally liable for present obligations and future obligations that exist while it is a co-lessee, including nonmonetary obligations.

Under BOEM's existing regulations, the Regional Director's evaluation of the need for supplemental financial assurance is based on the following five criteria: financial capacity; projected financial strength; business stability; reliability in meeting obligations based upon credit rating or trade references; and record of compliance with laws, regulations, and lease terms. BOEM is proposing to streamline its evaluation process by using only two criteria to determine whether supplemental financial assurance on a lease may be required: (1) A credit rating, either from an NRSRO, as identified by the United States Securities and Exchange Commission (SEC) pursuant to its grant of authority under the Credit Rating Agency Reform Act of 2006 and its implementing regulations at 17 CFR parts 240 and 249, or a proxy credit rating determined by BOEM based on a company's audited financial statements; [10] or (2) The 3-to-1 ratio of the value of proved oil and gas reserves on a lease to the decommissioning liability associated with these reserves. These criteria better align BOEM's evaluation process with accepted financial risk evaluation methods used by the banking and finance industry. Corporate credit ratings are intended to evaluate the potential for a company to default on its financial obligations and are designed so that the higher the credit rating, the lower the risk of default. Credit ratings and proved oil reserves are good indicators of the likelihood that a company will be able to meet its financial obligations. Eliminating subjective or less precise criteria—such as the length of time in operation to determine business stability, or trade references to determine reliability in meeting obligations—will simplify the process and remove criteria that may not accurately or consistently predict financial distress. For more discussion on credit ratings, see section VI.A (BOEM Evaluation Methodology—Credit Ratings) of this preamble.

BOEM proposes to eliminate the ''business stability'' criterion found in the current version of § 556.901(d)(1)(iii). The existing regulation bases business stability on 5 years of continuous operation and production of oil and gas, but BOEM has determined that there is little correlation between such history and a company's ability to carry out its present and future obligations. BOEM conducted an analysis of offshore bankruptcies, including an assessment of the number of years incorporated prior to bankruptcy, and determined that whether a company was in business for 5 or more years had no relationship to the likelihood of bankruptcy.

BOEM also proposes to eliminate the existing ''record of compliance'' criterion found in the current version of § 556.901(d)(1)(v). BOEM has determined that the number of INCs a company receives correlates with the

[10] In order for BOEM to establish a proxy credit rating, which can be used for the purpose of waiving any supplemental financial assurance requirements that would otherwise be required, BOEM is requiring that any company seeking a proxy credit rating provide audited financial statements. If such statements are not provided, BOEM will require supplemental financial assurance because it will have insufficient basis for concluding that the owners have sufficient capacity to reliably and timely meet their lease obligations.

number of OCS properties it owns, not its financial stability, and therefore, BOEM has concluded that it is not an accurate predictor of its financial health. BOEM reviewed BSEE's Incidents of Non-Compliance (INCs) records and its Increased Oversight List, which represent BSEE's cumulative records of violations of performance standards on the part of OCS operators and lessees and determined that the number of incidents of non-compliance typically increases with the size and complexity of the operator's or lessee's operations, including the ratio of incidents to number of components. Because larger companies (regardless of credit score) tend to have more properties and components and therefore more INCs, BOEM determined that record of compliance criterion does not accurately predict financial default. BOEM's review of this information confirmed the feedback BOEM received in response to the 2016 NTL, namely that companies with a large number of properties and facilities tended to receive a large number of INCs and had more individual properties on the Increased Oversight List.[11] BOEM specifically requests comments regarding the use of fines and violations as a criterion in the determination of a company's ability to fulfill decommissioning obligations, and any data or analysis addressing any correlation between the number of violations and the risk of financial default. BOEM also requests comments on whether the elimination of the INC's criteria would create a disincentive to comply with regulations. BOEM also requests comment on whether or not the cost of decommissioning is likely to increase based on the type, quantity, and magnitude of previous violations.

BOEM proposes to replace the existing ''financial capacity'' and ''reliability'' criteria in existing § 556.901(d)(1) with issuer credit rating or proxy credit rating. BOEM has found credit ratings, which are part of the existing ''reliability'' criterion, to be a more reliable indicator of financial ability to meet obligations than previous financial criteria issued by BOEM via NTLs (ex. NTL 2008–N07, NTL 2016–N01). Issuer credit ratings provided by a NRSRO incorporate a broad range of qualitative and quantitative factors, and a business entity's credit rating most accurately represents its overall ability to meet its financial commitments. An issuer credit rating is a forward-looking opinion about an obligor's overall creditworthiness. This opinion focuses on the obligor's capacity and willingness to meet its financial commitments as they come due.

Under the proposal, if a lessee does not have a credit rating from a NRSRO, the lessee may instead submit audited financial statements, and BOEM will determine a proxy credit rating using a commercially available credit model determined by BOEM to fulfill its financial risk analysis requirements, such as the S&P Global's Credit Analytics credit model. Such audited financial information is currently the basis of one of the five criteria in BOEM's regulations, namely the ''financial capacity'' criterion. Under the proposed rule, this information will be the primary consideration used to evaluate lessees that do not have a NRSRO credit rating. BOEM has concluded that audited financial statements, prepared in accordance with Generally Accepted Accounting Principles (GAAP) and accompanied by an auditor's certificate, provide an accurate representation of the company's economic position and operational performance. Using this audited financial information to generate a proxy credit rating would allow BOEM to accurately determine if supplemental financial assurance is needed when a NRSRO rating is not available.

This proposed rule would provide the Regional Director with the authority to require a lessee to provide supplemental financial assurance if the lessee or its co-lessee does not have an investment grade credit rating, *i.e.,* a credit rating from a NRSRO that is greater than or equal to either BBB- from S&P or Baa3 from Moody's, or its equivalent, or a proxy credit rating greater than or equal to either BBB- or Baa3, as determined by the Regional Director, based on audited financial information with an accompanying auditor's certificate. BOEM has determined that having an investment grade credit rating is important to reliably ensure that a company not pose a substantial risk of default.

Under existing BOEM and BSEE regulations that would not change in this proposed rule, co-lessees are jointly and severally liable for accrued decommissioning obligations, and the risk that the government will be responsible for the decommissioning cost is therefore lower when co-lessees are financially viable. Hence, BOEM will not require supplemental financial assurance for properties where at least one co-lessee has an investment grade credit rating.

If BOEM determines that supplemental financial assurance is required, BOEM bases the amount of supplemental financial assurance required on the BSEE decommissioning cost estimate. Previously, BSEE provided a single algorithm-based deterministic estimate for OCS facilities. In 2020, BSEE updated certain decommissioning costs in the Technical Information Management System (*data.boem.gov*).[12] The new estimates were based on industry-reported decommissioning costs pursuant to NTL 2016–N03—Reporting Requirements for Decommissioning Expenditures on the OCS, later superseded by NTL 2017–N02. Based on the reported data, BSEE has developed three probabilistic estimates of decommissioning costs for each OCS facility on any given lease. The lowest cost estimate would have a fifty percent likelihood of covering the full cost of decommissioning a facility and is thus referred to as ''P50.'' The second lowest cost estimate, P70, would have a seventy percent likelihood of covering the full cost of decommissioning a facility. The third and highest cost estimate, P90, would have a ninety percent likelihood of covering the full decommissioning cost of a facility. These BSEE-generated estimates are based on actual decommissioning expenditures reported by offshore companies.

BOEM proposes to use the P70 value to set the amount of any required supplemental financial assurance. In determining to use the P70 value, BOEM considered using either the P50, P70, or P90 decommissioning liability levels, which respectively represent an approximately 11 percent ($3.5 billion), 30 percent ($9.6 billion), and 55 percent ($17.9 billion) increase in total estimated financial assurances available to address offshore decommissioning liability relative to the previous algorithm-based estimate, based on an analysis of industry-reported decommissioning costs. BOEM weighed the risk of being underfunded (greatest at the P50 level) against the financial impact of requiring more financial assurance (greatest at the P90 level). As an example, a supplemental financial assurance set based on the P70 value means that, based on the uncertainty and risk applied by BSEE to its model, there is a 70% probability of covering the decommissioning cost of the facility (and therefore a 30% probability of exceeding it). The P70 value is not to be confused with the figure representing 70% of the cost of decommissioning a particular facility. Because it is a

[11] The most recent data are available at *https://www.data.bsee.gov/Company/INCs/Default.aspx.*

[12] BSEE decommissioning cost estimates are available at the following URL: *https://www.data.bsee.gov/Leasing/DecomCostEst/Default.aspx.*

statistical concept, it relies on the quality and size of the sample, as well as the uncertainty (variance) existing in these costs. There is also a real possibility that the P70 figure exceeds the actual decommissioning value of many facilities, in which case excess would cover some portion of insufficient assurance in those cases where the assurance is designed to address that entity's full range of liabilities.

BOEM's goal for its financial assurance program continues to be the protection of the American taxpayers from exposure to financial loss associated with OCS development, while ensuring that the financial assurance program does not detrimentally affect offshore investment or position American offshore exploration and production companies at a competitive disadvantage. BOEM's proposal to use P70 would reduce offshore decommissioning risk to taxpayers relative both to previous BSEE decommissioning estimates and to a methodology based on P50, while reducing burden on available capital for offshore investment, including both conventional and renewable energy activities, imposed by the use of P90. BOEM requests comments on potential unknown risks associated with the use of P70. BOEM has examined the impact that the different P values would have on the amount of financial assurance required but lacks the data to estimate the impact that selecting a P90 value might have on offshore capital expenses and investments, and therefore has selected P70 in this proposal. We are also specifically seeking information and data related to these impacts from commenters.

For comparison, at BSEE's P90 levels, the total decommissioning liability is approximately $51.2 billion, compared with $42.8 billion at P70; of that total, the liability estimate associated with lessees who have sub-investment grade credit ratings is approximately $24.7 billion at the P90 level and $20.2 billion at the P70 level. The total liability estimates for properties expected to meet the three times reserves threshold is approximately $9.0 billion at the P90 level and $7.8 billion at P70 level. The difference between the full Tier 2 estimate and that of Tier 2 properties meeting the three times the reserves threshold provides BOEM's total expected bond portfolio value if the rule were to be finalized. For P90 this would be $15.7 billion, reflecting an increase of $3.2 billion in bond demands (increased from $12.5 billion at P70). The annual premium estimate for the forecasted Tier 2 bond portfolio would increase from $380 million to $494 million, an increase of approximately $114 million to bond lessees at the P90 level. This additional burden would be realized by the same population of lessees as at the P70 level but would provide additional certainty of sufficient bonding for that population in the event the facility owners (1) defaulted on their obligations and (2) no viable predecessor is available to fulfill their obligations.

BOEM requests comments and additional data on the costs and benefits of setting the supplemental financial assurance requirements based on each of the P50, P70, and P90 decommissioning liability levels. In particular, BOEM would like information on impacts to offshore capital expenses and investments of each liability level, as well as impacts to potential taxpayer liability. BOEM also solicits comment on whether setting assurance requirements based on different liability levels might be appropriate for different circumstances. BOEM also requests comments on costs and benefits of otherwise considering predecessor lessees or grantees in determining the level of required supplemental financial assurance.

Additionally, BOEM requests comments on the possibility of using a higher BSEE decommissioning estimate (*i.e.,* P90), including on how a P90 estimate would affect small entities.

An offshore oil and gas lease that has a significant reserve-to-liability value that is, a property that can generate a cash flow significantly in excess of the costs associated with the decommissioning of its assets—is likely to be purchased by another company in the event of a default by the current lessee. The acquiring company would then become liable for existing decommissioning obligations, but due to the value of existing reserves, it would acquire sufficient positive cash flow to reduce the risk that the costs associated with the decommissioning of the assets would be borne by the government. BOEM has determined that an adequate threshold for the ratio of reserve value to the level of decommissioning liability should be three to one. This threshold is discussed further in Section VI.B of this preamble. Therefore, supplemental financial assurance will not be required for properties with a value of proved oil and gas reserves (using SEC methodology of reported value in the notes to the publicly traded companies' Form 10–Ks) exceeding three times the decommissioning costs (using the BSEE P70 estimated value) associated with the production of those reserves, as these properties pose minimal risk that the government will be required to bear the cost of decommissioning.

BOEM is proposing to use and is requesting comments on this test as the criterion to replace the existing generalized ''projected financial strength'' criterion found currently at § 556.901(d)(1)(ii), which considers whether the estimated value of a lessee's existing lease production and proved reserves is significantly in excess of the lessee's existing and future lease obligations.

B. Right-of-Use and Easement Grants

BOEM's regulations concerning RUE grants serving a Federal OCS lease or a State lease are found in §§ 550.160 through 550.166. Section 550.160 provides that an applicant for a RUE that serves an OCS lease ''must meet bonding requirements,'' but the regulation does not prescribe a base surety bond amount. The proposed rule would replace this requirement with a cross-reference to the specific criteria governing supplemental financial assurance demands in proposed § 550.166.

BOEM is proposing to revise the bonding regulations to clarify that any RUE grant holder must provide base financial assurance in a specific amount, regardless of whether the RUE serves a State lease or a Federal OCS lease. BOEM is proposing to establish a Federal RUE base financial assurance requirement that matches the existing $500,000 base financial assurance requirement for State RUEs. BOEM is also proposing to establish a requirement for $500,000 area-wide RUE financial assurance, which would satisfy the base financial assurance requirement for any RUE holder that owns one or more RUEs within the same OCS area, regardless of whether the RUE serves a State or Federal lease. BOEM is also proposing to allow any lessee that has posted area-wide lease financial assurance, pursuant to § 556.900(a)(1), 556.901(a)(2), or 556.901(b)(2) for the areas specified in § 556.900(a)(2), to modify that lease surety bond to also cover any RUE(s) in the area owned by the same lessee. The ability to use area-wide lease financial assurance to cover the RUE base financial assurance obligation would be subject to the requirement that the area-wide lease financial assurance would be in an amount equal to or greater than the RUE base financial assurance requirement (*i.e.,* equal to or greater than $500,000). For example, under the proposed regulations a lessee with a $3 million area-wide lease surety bond could establish or acquire any number of Federal or State RUEs in the area

without having to post any additional financial assurance, provided the lessee agrees to modify the terms of its area-wide lease surety bond to also cover any State or Federal RUEs that it owns or acquires. If the existing area-wide bond is not modified, the lessee may satisfy the requirement by providing new financial assurance to cover its RUE(s).

The rule proposes to consider the credit rating or proxy credit rating of a RUE co-grant holder, mirroring the proposed methodology used to determine if a lessee must provide supplemental financial assurance. These credit rating standards provide the most effective and proven method to evaluate a company's financial wherewithal and are widely accepted as a significant demarcation of credit risk between investment and non-investment grade rated companies. BOEM proposes to include consideration of the credit rating or proxy credit rating of co-owners of RUE grants because, like co-lessees, they are jointly and severally liable for accrued decommissioning obligations for facilities and pipelines on their RUE.

These changes to the RUE financial assurance requirements are intended to: (1) Clarify the bonding requirement for Federal RUEs, which is not explicitly defined in the existing regulations; (2) Align the RUE bonding requirements for RUEs serving State and Federal leases; and (3) Ensure that all RUEs are duly covered and that the risk of a RUE holder defaulting on its decommissioning obligations is not transferred to the American taxpayer.

BOEM is also proposing a new regulation to establish the conditions under which the assignment of RUE interests may be disapproved. BOEM may disapprove the assignment of a RUE when the assignee has not satisfied all obligations under the regulations or under any BOEM or BSEE order. BOEM may disapprove the assignment when the assignee has not satisfied the financial assurance requirements.

BOEM is also proposing to revise the financial assurance regulations to clarify that any RUE grant holder, whether the RUE serves a State or Federal lease, may be required to provide supplemental financial assurance for the RUE—above the $500,000 RUE base financial assurance discussed above—if the grant holder does not meet the credit rating or proxy credit rating criteria proposed to be used for lessees. This change aligns the supplemental financial assurance criteria for RUEs with those used in making the same determination for leases. The value of proved oil and gas reserves will not be considered because a RUE grant does not entitle the holder to any interest in oil and gas reserves.

C. Pipeline Right-of-Way Grants

BOEM's bonding requirements for pipeline ROW grants, contained in § 550.1011, prescribe a $300,000 area-wide base surety bond that guarantees compliance with all the terms and conditions of the pipeline ROW grants held by a company in an OCS area. BOEM may require a pipeline ROW grant holder to provide supplemental financial assurance if the Regional Director determines that financial assurance in excess of $300,000 is needed, but, unlike with leases, the regulation provides no factors for the Regional Director's consideration when making this determination. Therefore, BOEM is proposing to revise the financial assurance regulations to provide that the Regional Director will demand that a pipeline ROW grant holder provide supplemental financial assurance when the grant holder does not meet the same credit rating or proxy credit rating criteria proposed to be used for lessees. The value of proved oil and gas reserves will not be considered because a ROW grant does not entitle the holder to any interest in oil and gas reserves.

The rule also proposes to consider the credit rating or proxy credit rating of a co-grant holder. This change would better align BOEM's evaluation process with accepted financial risk evaluation methods used by the banking and finance industry and with the process used to determine if a lessee must provide supplemental financial assurance. BOEM proposes to include consideration of the credit rating or proxy credit rating of co-owners of ROW grants because, like co-lessees, they are jointly and severally liable for accrued decommissioning obligations for facilities and pipelines on their ROW (§ 250.1701(b)).

V. Proposed Revisions to Other Types of Supplemental Financial Assurance

A. Third-Party Guarantees

BOEM is proposing to evaluate a potential guarantor using the same credit rating or proxy credit rating criteria proposed for lessees. The value of proved oil and gas reserves of an associated lease would not be considered because that value is a characteristic of the lease belonging to the guaranteed lessee and not an asset belonging to the guarantor.

The criteria to evaluate a guarantor provided in the existing regulations have proved difficult to apply. For example, § 556.905(a)(3) provides that the guarantor's total outstanding and proposed guarantees may not exceed 25 percent of its unencumbered net worth in the United States. Determining a company's total outstanding and proposed guarantees depends on accurate information provided by the guarantor, and BOEM has no way to confirm whether the 25 percent threshold has been exceeded at the time the guarantee is proffered or afterward. The same provision requires BOEM to consider the unencumbered net worth of the company in the United States, while another provision, § 556.905(c)(2)(iv), requires BOEM to consider the guarantor's unencumbered fixed assets in the United States. Both of these criteria are difficult to apply when the company under evaluation has domestic and international assets that must be separated. Using the same financial evaluation criterion, *i.e.,* issuer credit rating or proxy credit rating, to assess both guarantors and lessees as the most relevant measure of future capacity would provide consistency in evaluations and avoid overreliance on net worth.

To allow more flexibility in the use of third-party guarantees, the proposed rule would allow a third-party guarantee to be used as supplemental financial assurance for a RUE or ROW grant, as well as a lease. Most significantly, in proposed § 556.902(a)(3), this proposed rule would remove the requirement for a third-party guarantee to ensure compliance with the obligations of all lessees, operating rights owners, and operators on the lease, and would allow a guarantee limited to a specific amount, as agreed to by BOEM, or limited to the liabilities of specific parties. Potential guarantors are reluctant to provide a guarantee if they cannot limit the amount of their guarantee or choose the entity for which they are guaranteeing compliance. This change would allow a guarantor to limit its guarantee to a specific amount of the total financial assurance requirement. The remaining amount of required financial assurance must be covered by additional security from the guaranteed lessee/grant holder or its co-lessees or co-grant holders, so the amount of the requirement is fully satisfied. BOEM is proposing this change because the existing regulations do not clearly limit the liability of a guarantor to a fixed monetary amount stated in the guarantee. Therefore, few parties were willing to use third-party guarantees in the past.

By allowing a third-party guarantor to guarantee only the obligations it wishes to cover, BOEM would provide industry with the flexibility to use the guarantee to satisfy supplemental financial

assurance requirements without forcing the guarantor to cover the risks associated with all parties on the lease or grant or operations in which the party they wish to guarantee has no interest and over which the guarantor may have no control. Moreover, the proposal to allow BOEM to accept a third-party guarantee that is limited to specific obligations does not reduce BOEM's protection because the regulations would require that the financial assurance provided secures all lease and grant obligations.

The proposed rule would also allow BOEM to cancel a third-party guarantee under the same terms and conditions that apply to cancellation of other types of financial assurance, as provided in proposed § 556.906(d)(2).

Lastly, the existing regulation refers to both a ''guarantee'' and an ''indemnity agreement'' (which BOEM intended to mean the same thing), and the proposed rule clarifies that the regulations contemplate only one agreement: the guarantee agreement.

B. Decommissioning Accounts

Section 556.904 currently allows lessees to establish a lease-specific abandonment account to satisfy any supplemental financial assurance required by § 556.901(d). BOEM proposes to rename these accounts ''Decommissioning Accounts,'' the terminology used by the industry, to remove any perceived limitation of this type of account to a single lease, and to signify that these accounts may be used to ensure compliance with supplemental financial assurance requirements for a RUE and ROW grant, as well as a lease. To make these accounts more attractive to parties who may desire to use this method of providing supplemental financial assurance, BOEM also proposes to remove the requirement to pledge Treasury securities to fund the account before the funds equal the maximum amount insurable by the Federal Deposit Insurance Corporation (FDIC) (currently capped at $250,000). BOEM notes that, due to this current requirement, lessees may have been unwilling to use decommissioning accounts.

C. Transfers of Lease Interests to Other Lessees or Operating Rights Holders

The proposed rule would update subparts G and H of the Department's existing part 556 regulations to clarify that BOEM will not approve the transfer of a lease interest, whether a record title interest or an operating rights interest, until the transferee complies with all applicable regulations and orders, including the financial assurance requirements. As discussed above, many of the facilities currently on the OCS have decommissioning obligations where the cost of performance greatly exceeds the amount of financial assurance currently available to the Department of the Interior. To address this problem, BOEM is proposing that it may prohibit approval of any new transfer or assignment of any lease interest unless and until the financial assurance demands have been satisfied.

VI. BOEM Evaluation Methodology

A. Credit Ratings

In this rulemaking, BOEM proposes to use an ''Issuer credit rating'' to evaluate the financial health of OCS lessees, grant holders, and guarantors. A review of S&P and Moody's rating methodologies showed that the analyses they perform to determine an issuer credit rating are wide-ranging and include factors beyond corporate financials (such as history, senior management, and commodity price outlook). An issuer credit rating provides the rating agencies' opinions of the entity's ability to honor senior unsecured debt and debt-like obligations. It is common for lessees to have both an issuer credit rating and a bond issuance rating. However, bond issuance ratings are opinions of the credit quality of a specific debt obligation only, which can vary based on the priority of a creditor's claim in bankruptcy or the extent to which assets are pledged as collateral. Due to the varying priority of claims associated with debt and the limited purpose of bond issuance ratings, BOEM proposes to accept only issuer credit ratings from a NRSRO, and references to credit rating in this rulemaking refer only to an issuer credit rating (or a ''proxy rating'' where so noted as appropriate). BOEM proposes to add ''Issuer credit rating,'' as defined by S&P, as a newly defined term in 30 CFR parts 550 and 556.

If an entity does not have an issuer credit rating, BOEM proposes to permit companies to request the Regional Director to determine a proxy credit rating based on audited financial information for the most recent fiscal year, including an income statement, a balance sheet, a statement of cash flows, and the auditor's certificate. By ''most recent fiscal year'' BOEM means a period that includes a 12-month period within the 24 months prior to the Regional Director's determination for which supplemental financial assurance is required. One benefit of this approach is to reduce the adverse effects of the rule on small businesses.

BOEM proposes to use S&P Global's Credit Analytics credit model to calculate proxy credit ratings.[13] However, BOEM proposes to reserve the right to use a different model if it determines that a different model more accurately reflects those factors relevant to the financial evaluation of companies operating on the OCS. The purpose of using S&P Global's Credit Analytics credit models is to provide an accurate and objective method to assess any given company's probability of default on its financial obligations based on its audited financial statements. S&P Global's Credit Analytics credit models would allow BOEM to reliably score and efficiently model BOEM's potential risk exposure from a lessee that could potentially become unable to meet its decommissioning obligations. Credit modeling would allow BOEM to compare the company with similar public companies in the same industry segment. BOEM invites comments on the appropriateness of relying on S&P Global's Credit Analytics credit model, or other similar, widely accepted credit rating models to generate proxy credit ratings. Additionally, BOEM invites comments on the appropriateness of using a proxy credit rating when determining the need to provide financial assurance.

BOEM's financial assurance program is intended to ensure that private companies have the capacity to meet their financial and non-financial (*i.e.,* performance) obligations. In order to both ensure that companies do not ''cause [unmitigated] damage to the environment or to property, or endanger life or health,'' 43 U.S.C. 1332(6), and to promote ''expeditious and orderly development,'' 43 U.S.C. 1332(3), BOEM seeks to balance the financial risk to the government and the taxpayer while minimizing regulatory burdens. See also 43 U.S.C. 1801(7), 1802(1) & (2).

BOEM has determined that establishing an issuer credit rating threshold of BBB- (S&P) or Baa3 (Moody's), an equivalent credit rating provided by another SEC-recognized NRSRO, or an equivalent proxy credit rating, is the best means for accomplishing these objectives. The Moody's Baa3 credit rating is equivalent to the S&P BBB- credit rating. If S&P and Moody's provide different ratings for the same company, BOEM will use the higher rating as the lessee's rating. As discussed in the IRIA, out of the 276 companies analyzed, none of the companies were rated at or above BBB-

[13] *https://www.spglobal.com/marketintelligence/en/documents/mi_risk_609827_credit-analytics_brochure_letter_fd.pdf.*

at the time of bankruptcy nor within 10 years prior to bankruptcy, therefore, BOEM has selected BBB- as the credit rating threshold for providing additional financial assurance. Additionally, under the proposed rule, BOEM would have adequate time to secure needed financial assurance if a company were to drop below the proposed investment grade threshold as BOEM monitors company rating changes throughout the year.

BOEM reviewed historical default rates across the entire credit rating spectrum, as well as the credit profile of oil and gas sector bankruptcies arising from the commodity price downturn in 2014, to determine an appropriate level of risk. As would be expected, the average S&P historical one-year default rates increase significantly with lower ratings. The average S&P one-year default rate [14] for BBB- rated companies from 1981 to 2020 was 0.24 percent. Comparatively, the average one-year default rate for BB- rated companies was 1.21 percent, for B − rated companies was 8.73 percent, and for C rated companies was 24.92 percent. BOEM believes that one-year default rates are an appropriate measure of risk, given BOEM's policy of reviewing the financial status of lessees, ROW holders, and RUE holders at least on an annual basis (the review typically corresponding with the release of audited annual financial statements). In addition, throughout the year, BOEM monitors company credit rating changes, market reports, trade press, articles in major news media and quarterly financial reports to review the financial status of lessees, ROW holders, and RUE holders, and the regulation would not preclude a demand for supplemental financial assurance through the Regional Director's regulatory authority at any time.

BOEM has identified a circumstance in which the use of a proxy credit rating may not adequately account for the potential risk of default. This circumstance would occur in a situation where a company has a substantial contingent liability for decommissioning OCS facilities (*i.e.,* decommissioning exposure by virtue of being a co-lessee) associated with its minority ownership of such facilities if the majority owners are unable or unwilling to meet their obligations. This is particularly the case in the OCS context because existing Department regulations stipulate that all co-owners of any OCS lease, regardless of their ownership share, are jointly and severally liable for all the obligations associated with the lease. Contingent liabilities that are deemed unlikely to financially materialize are not required to be booked as a liability on a balance sheet under Financial Accounting Standards Board (FASB) accounting rules for Asset Retirement Obligations, so would not be included in audited financial statements, and therefore may not be taken into consideration in the generation of proxy credit ratings.

For offshore lessees with a NRSRO issuer credit rating, the current average net worth of investment grade lessees is $115 billion dollars, with average book assets of $155 billion dollars. This implies that the financial risk of non-performance on co-lessee liability exposure from these companies is very low. Given that total U.S. offshore liability is lower than half the average net worth of offshore investment grade companies, such lessees are likely to have the financial capacity to cover the contingent liabilities of co-lessees that have not themselves provided financial assurance.

However, where a non-publicly traded company (*i.e.,* a company without an issuer credit rating) has substantial minority co-ownership interests in OCS leases, the proxy credit rating derived for the minority owner may not adequately represent the risk exposure in circumstances where (1) The ownership interests of the other co-owners are disproportionately large compared to the ownership interest of the minority owner, and; (2) The credit ratings of the majority co-owners are not investment grade. This possibility is relatively likely due to BOEM's historical practice of declining to require supplemental financial assurance from any co-lessees who share ownership of a lease with any company with an investment grade proxy credit rating, regardless of the financial circumstance of the co-owner or the relative ownership share of any co-owner.

In these circumstances, a company may have contingent decommissioning liabilities that are not adequately captured in the company's financial statements. It may be that such decommissioning liabilities amount to a disproportionate share compared to the total assets of the company, such that the company may not have the financial capacity to satisfy these contingent liabilities. If, for example, a small company with a high proxy credit rating were a one percent co-lessee of a lease with financially weak co-lessees, the small company may not have sufficient assets to meet its decommissioning obligations for the remaining ninety-nine percent of the decommissioning costs (which it may be required to satisfy under the joint-and-several liability provisions of the regulations) in the event that its co-lessees were to default on their financial obligations.

For this reason, BOEM is proposing to add a new provision to the regulations that would authorize BOEM to require a company requesting a proxy credit rating to provide information on its ownership of other OCS facilities and leases. This new provision authorizes BOEM to take the contingent liabilities associated with the company's co-ownership of these assets into consideration in determining the appropriate proxy credit rating.

BOEM invites comments on the appropriateness of this approach of relying on lessee and grant holder credit ratings, including whether BOEM has proposed an appropriate credit rating threshold of BBB-, and if not, what threshold or set of thresholds would best protect taxpayer interests while not imposing undue burdens on industry. Also, BOEM invites comments on alternative options for determining the need for financial assurance other than credit ratings. Additionally, BOEM invites comments on whether financial assurance should be required of all companies, regardless of credit rating, and the impacts such a requirement might have on OCS investment and on potential taxpayer liabilities.

B. Valuing Proved Oil and Gas Reserves

Under this proposed rule, if BOEM considers the proved reserves on a particular lease when determining whether supplemental financial assurance is required, BOEM would require the lessee to submit a reserve report for the proved oil and gas reserves (as defined by the SEC regulations at 17 CFR 210.4–10(a)(22)) located on a given lease. The reserve report provided to BOEM would contain the projected future production quantities of proved oil and gas reserves on a per lease basis, the production cost for those reserves also on a per lease basis, and the discounted future cash flows from production. The reserve report would also provide the value of the proved oil and gas reserves per lease, determined under the accounting and reporting standards set forth in SEC Regulation S–X at 17 CFR 210.4–10 and SEC Regulation S–K at 17 CFR, subpart

[14] The one-year default rate represents the percentage of companies having any given credit rating that have failed to meet their financial obligations during any given twelve-month period. For example, for companies having had BBB − rating in 2020, 0.24 percent defaulted on their financial obligations in the subsequent twelve-month period (*i.e.,* approximately one out of every 400 companies having a BBB − credit rating).

229.1200.[15] BOEM proposes to use SEC regulations on reserve reporting because they are commonly accepted and understood by offshore oil and gas companies and are already produced by publicly traded companies. This also allows BOEM to rely on the established SEC regulations on the definitions, qualifications, and requirements for proven reserves, rather than attempting to recreate these regulations. BOEM would use this proved oil and gas reserves per-lease value when determining whether the value of the reserves on any given lease exceeds three times the cost of the P70 decommissioning estimate associated with the production of those reserves.

BOEM believes that a property with a sufficient ''reserves-to-decommissioning cost'' ratio would likely be purchased by another company if a current lessee defaults on its obligations, thereby reducing the risk that decommissioning costs would be borne by the government, and consequently reducing the need for supplemental financial assurance.

A reserves-to-decommissioning cost ratio of one-to-one would mean that the estimated value of remaining oil and gas reserves on a lease is equal to the cost of decommissioning. BOEM does not expect any other company to purchase a lease interest with a ratio of one-to-one, as the new lessee would not receive any return on its investment once it bears the cost of decommissioning. A reserves-to-decommissioning cost ratio below three-to-one might be considered adequate to encourage a new lessee to take on the cost of purchasing the lease and assuming liability for all of the existing decommissioning obligations, however there may be other factors that would reduce the lease's commercial appeal (*e.g.,* macro-economic conditions, maintenance conditions, or higher than typical operating costs).

In BOEM's judgment, a reserves-to-decommissioning cost ratio that meets or exceeds three-to-one provides enough risk reduction to justify a Regional Director determination that the lessee is not required to provide supplemental financial assurance for that lease. Establishing an appropriate reserves-to-decommissioning cost ratio protects the taxpayer during periods of commodity price volatility. If commodity prices decline in a manner similar to late 2014 through early 2016, for example, BOEM believes a ratio of at least three-to-one assures the property would most likely retain its economic viability and financial attractiveness to potential buyers. BOEM requests comment on whether this is an appropriate threshold, or if there are better approaches and/or data sets available for analysis that would provide BOEM with better certainty that taxpayer interests will ultimately be protected.

[15] Unlike this proposed regulation, the SEC regulations at 17 CFR 229.1202(a)(2) say: ''Disclose, in the aggregate and by geographic area and for each country containing 15 percent or more of the registrant's proved reserves, expressed on an oil-equivalent-barrels basis, reserves estimated . . . .'' Although BOEM would require that lessees apply the methodology of the SEC, it would require the analysis on a lease-specific basis.

VII. Phased Compliance With Supplemental Financial Assurance Orders

BOEM recognizes that the proposed regulations may have a significant financial impact on affected companies. For that reason, BOEM is proposing to phase in the new bonding requirements over a three-year period for existing leaseholders. As part of this proposal, BOEM would require that any company receiving a supplemental financial assurance demand post one-third of the total amount by the deadline listed on the demand letter. A second one-third would be required by the end of the second year (*i.e.,* within 24 months of the receipt of the demand letter). The final one-third payment would be due within 36 months of the receipt of the demand letter. If a lessee's credit rating improves to investment grade during the three-year period, BOEM will discontinue collection of the remaining financial assurance and return any supplemental financial assurance previously provided.

BOEM is requesting comments from potentially affected parties about this phased approach and how it could most effectively be implemented to minimize any unnecessarily adverse effects from an increased supplemental financial assurance requirement.

VIII. Appeals Bonds

When BOEM issues a supplemental financial assurance demand, the affected party has the option to appeal the demand to the Department of the Interior's Board of Land Appeals (IBLA). In many cases in which an appeal is filed, it is accompanied by a request to stay BOEM's supplemental financial assurance order pending the outcome of the appeal. Currently, if the stay is granted, BOEM has no ability to ensure that a facility is covered by adequate financial assurance until the appeal is decided. It is important that BOEM ensure that the government's interests are protected immediately because IBLA appeals may continue for several years. If the company appealing the supplemental financial assurance demand declares bankruptcy before its appeal is resolved, BOEM has no financial assurance to cover the costs of corrective action. For this reason, BOEM is proposing a new requirement whereby any company seeking to stay a supplemental financial assurance demand pending appeal must, as a condition of obtaining a stay of the order, post an appeals bond in the amount of supplemental financial assurance required. If the appeal is successful, the amount of the appeals bond in excess of the amount of supplemental financial assurance determined to be required would be released. If the appeal is unsuccessful, the appeals bond could be replaced or converted into bonds to cover the supplemental financial assurance demand.

IX. Proposed Revisions to BOEM Definitions

To implement the changes proposed above, BOEM proposes to add or revise several definitions in 30 CFR parts 550 and 556. For proposed 30 CFR part 550, BOEM proposes to add new terms and definitions for ''Issuer credit rating,'' ''Investment grade credit rating,'' and ''Financial assurance,'' and to revise the definition of ''You.'' BOEM proposes to add a new term and definition for ''Right-of-Use and Easement (RUE)'' and remove the separate definitions of ''Right-of-use'' and ''Easement'' in 30 CFR part 550 because those terms are not used separately in the existing or proposed regulatory text. Similarly, for 30 CFR part 556, BOEM proposes to add definitions for the new term ''Issuer credit rating'' and ''Investment grade credit rating,'' remove the existing term and definition of ''Security or securities,'' add a new term and definition for ''Financial assurance,'' and revise the definitions of ''Right-of-Use and Easement (RUE)'' and ''You,'' all of which will match those in proposed 30 CFR part 550.

Additionally, BOEM is replacing the word ''sulphur'' with the more contemporary spelling of ''sulfur'' throughout the regulatory text where it has not been previously changed. This edit is a technical correction and does not change any meaning or intent of the regulatory provisions. BOEM proposes updating the word ''sulfur'' in §§ 550.101, 550.102, and 550.105.

X. Section-by-Section Analysis

BOEM is proposing to revise the following regulations:

Part 550—Oil and Gas and Sulfur Operations in the Outer Continental Shelf

The terms ''bond,'' ''bonding,'' ''surety bond,'' ''security,'' and ''securities'' would be replaced throughout this part with the new term ''financial assurance.''

Subpart A—General

Section 550.105 Definitions

The proposed rule would add a definition of ''Issuer credit rating,'' which is a newly defined term in 30 CFR part 550, for the reasons set forth above.

BOEM would remove the terms ''Easement,'' and ''Right-of-use,'' neither of which is used separately. In lieu of these two terms, and to define the term actually used in 30 CFR part 550, BOEM would add a definition for ''Right-of-Use and Easement (RUE).''

This proposed rule would also add a new term and definition for ''Financial assurance'' to list the various methods that may be used to ensure compliance with OCS obligations.

The proposed rule would add new definitions for the terms ''Transfer'' and ''Assign'' to clarify that these terms are used interchangeably throughout 30 CFR part 550. This change would also serve to clarify that the related terms ''transferee'' and ''transferor'' are interchangeable with ''assignee'' and ''assignor'' respectively.

The proposed rule would add a new definition for the term ''Investment grade credit rating,'' meaning ''an issuer credit rating of BBB- or higher, or its equivalent, assigned to an issuer of corporate debt by a nationally recognized statistical rating organization as that term defined by the United States Securities and Exchange Commission.'' This definition would become the threshold determination according to which BOEM would define whether financial assurance typically would or would not be required.

BOEM would also revise the definition of the term ''You'' to now include, depending on the context of the regulations, a bidder, a lessee (record title owner), a sublessee (operating rights owner), a Federal or State right-of-use and easement grant holder, a pipeline right-of-way grant holder, an assignor or transferor, a designated operator or agent of the lessee or grant holder, or an applicant seeking to become one of the above. This change to the definition of ''You'' would, in concert with changes proposed in § 550.166, make explicit that any financial assurance provisions applicable to either a State or Federal RUE would apply to the other.

Section 550.160 When will BOEM grant me a right-of-use and easement (RUE), and what requirements must I meet?

The proposed rule would revise the introductory text of this section to clarify that a RUE grant need not cover both leased and unleased lands. Instead, BOEM may grant a RUE on leased lands (*i.e.,* leased to another party), or unleased lands, or both. The paragraph (a) introductory text would be expanded to include additional activities associated with a RUE, such as using or modifying existing devices. The paragraph (a) introductory text would also be expanded to include the words ''seafloor production equipment'' and ''facilities.'' By expanding the RUE requirement to additional activities and devices, BOEM would ensure that all associated activities that may have an impact on the environment of the OCS are included.

BOEM also proposes to revise paragraph (b) to provide that a RUE grant holder must exercise the grant according to the terms of the grant and the applicable regulations of 30 CFR part 550, as well as the requirements of 30 CFR part 250, subpart Q.

BOEM also proposes to revise paragraph (c) to update the cross-reference to BOEM's lessee qualification requirements, §§ 556.400 through 556.402, and to replace the language in this paragraph referencing ''bonding requirements'' with a cross reference to § 550.166, which BOEM also proposes to revise to add specific criteria for financial assurance demands, as provided below.

Section 550.166 If BOEM grants me a RUE, what financial assurance must I provide?

The proposed rule would revise the section heading by removing the reference to ''a State lease'' and replacing ''surety bond'' with ''financial assurance.'' This reflects the change in the text of paragraph (b) of this section that provides that the financial assurance requirements of this section would apply to both a RUE granted to serve a State lease and one serving an OCS lease. The term ''surety bond'' would also be replaced with ''financial assurance'' throughout the section.

BOEM proposes to revise paragraph (a) to require $500,000 in financial assurance that guarantees compliance with the terms and conditions of any OCS RUEs you hold. Previously, paragraph (a) only required $500,000 in financial assurance for RUEs associated with State leases.

BOEM proposes to add paragraph (a)(1) to allow area-wide lease financial assurance to satisfy the requirements of paragraph (a), provided it is in excess of the $500,000 base RUE financial assurance requirement and is amended to guarantee compliance with all the terms and conditions of the RUE(s) it covers.

BOEM proposes to add paragraph (a)(2) to allow the Regional Director to lower the required financial assurance amount for research and other similar types of RUEs, which reflects BOEM's past experience that the total liability exposure can be well below $500,000 for such RUEs.

BOEM proposes to add paragraph (a)(3) to ensure that the financial assurance requirements of § 556.900(d) through (g) and § 556.902 would apply to the requirements stated in paragraph (a).

BOEM would also add to paragraph (b) in this section to provide that, if BOEM grants a RUE that serves either an OCS lease or a State lease, the Regional Director may require the grant holder to provide supplemental financial assurance to ensure compliance with the obligations under the RUE grant. BOEM would use the same issuer credit rating or proxy credit rating criteria found in proposed § 556.901(d)(1) and (2) to evaluate a RUE grant holder as BOEM proposes to apply to lessees, *i.e.,* the Regional Director may require supplemental financial assurance if the grant holder does not have an issuer credit rating or a proxy credit rating that meets the criteria set forth in proposed § 556.901(d)(1). Like lessees, most RUE holders are oil and gas companies, and BOEM would, therefore, use the same financial criteria to determine the need for additional financial assurance from RUE holders to provide consistency.

BOEM proposes to revise paragraph (b)(1) to update the regulatory citation in existing § 550.166(b)(1) to provide that the supplemental financial assurance must meet the requirements for lease surety bonds or other financial assurance provided in § 556.900(d) through (g) and § 556.902.

The proposed rule would also revise § 550.166(b)(2) to include ''BOEM and BSEE orders'' in the list of costs and liabilities, and clarify that RUE holders should also comply with the decommissioning regulations at 30 CFR part 250, subpart Q.

The proposed rule would also add new paragraph (c) to provide that if a RUE grant holder fails to replace any deficient financial assurance upon demand, or fails to provide

supplemental financial assurance upon demand, BOEM may assess penalties, request BSEE to suspend operations on the RUE, and/or initiate action for cancellation of the RUE grant. Proposed paragraph (c) provides for actions similar to those available to BOEM pursuant to proposed § 556.900(h) if a lessee fails to provide sufficient financial assurance.

Section 550.167 How may I obtain or assign my interest in a RUE?

The proposed rule would add § 550.167 to establish the ability to assign a RUE interest. Previously, RUE interests were not assigned, because assignment of RUE interests was not addressed in the existing regulations. This change is being proposed to allow RUE assignments. This new section would also require a RUE assignee to provide the information outlined in existing § 550.161, which currently must be provided only by applicants for a new RUE. Paragraph (a) of § 550.167 would establish that BOEM must approve all assignments of all or part of a RUE interest. Paragraphs (b)(1) through (4) would establish the circumstances in which BOEM may disapprove an assignment of a RUE, mirroring the circumstances under which BOEM may disapprove the assignment of a lease or sublease pursuant to § 556.704. These circumstances are intended to prevent the assignment of a RUE when, for example, the assignment would result in inadequate financial assurance.

Subpart J—Pipelines and Pipeline Rights-of-Way

Section 550.1011 Financial Assurance Requirements for Pipeline Right-of-Way (ROW) Grant Holders

The proposed rule would revise this section in its entirety. The section heading would be revised to read, ''Financial assurance requirements for pipeline right-of-way (ROW) grant holders,'' to clarify that a pipeline ROW grant holder may meet the requirements of this section by providing bonds or other types of financial assurance, in order to expand the language to include forms of financial assurance in addition to bonds.

Currently, § 550.1011(a) requires that an applicant or a holder of a ROW must provide and maintain a $300,000 bond (in addition to bond coverage required in 30 CFR parts 256 and 556), and potentially additional security, if the Regional Director determines the latter is needed. The proposed rule would revise this paragraph to require that assignees, as well as applicants and holders, are required to provide and maintain the $300,000 financial assurance to make clear that financial assurance requirements would apply to an assignment of a ROW grant. The proposed rule would remove the reference to 30 CFR part 256 currently in paragraph (a)(1) because 30 CFR part 256 does not contain pipeline bonding requirements. The proposed rule would clarify that the requirement to provide area-wide financial assurance for a pipeline ROW grant is separate and distinct from the financial assurance coverage required for leases in 30 CFR part 556 and that required for RUEs in 30 CFR part 550. Existing paragraph (a)(2) would be removed because supplemental financial assurance requirements would be covered by proposed paragraph (d).

BOEM would also remove existing paragraph (b), which defines the three recognized OCS areas, because it is made redundant by the reference to § 556.900(b) in revised paragraph (a). BOEM proposes to replace the removed paragraph (b) with a new paragraph (b) to provide that the requirement under paragraph (a) to furnish and maintain area-wide financial assurance may be satisfied if the operator or a co-grant holder provides area-wide pipeline right-of-way financial assurance in the required amount that guarantees compliance with the regulations and the terms and conditions of the grant, as discussed in Section IV.C of this preamble.

BOEM also proposes to revise paragraph (c) with a provision stating that the requirements for lease financial assurance in § 556.900(d) through (g) and § 556.902 would apply to the area-wide financial assurance required in paragraph (a) of this section. This cross-reference incorporates the financial assurance provisions from 30 CFR part 556 that specify the required content, form, and administrative handling of financial assurance. BOEM would remove existing paragraphs (c) and (d), which would be made redundant by proposed new paragraph (f).

BOEM would add paragraph (d) to provide that the Regional Director may determine that supplemental financial assurance is necessary to ensure compliance with the obligations under a pipeline ROW grant based on an evaluation of the grant holder's ability to carry out present and future obligations on the pipeline ROW. BOEM proposes to use the same issuer credit rating or proxy credit rating criteria to evaluate a pipeline ROW grant holder, or co-grant holder, as BOEM proposes to apply to lessees in § 556.901(d)(1). BOEM, as noted earlier in this preamble, has found that reliance on credit ratings better evaluates financial stability, and is thus applying the same financial criteria in evaluating financial stability of grant holders.

BOEM also proposes to add additional supplemental financial assurance requirements in new paragraph (e)(1) stating that the supplemental financial assurance must meet the general requirements for lease surety bonds or other financial assurance, as provided in § 556.900(d) through (f) and the proposed revisions to paragraph (g) and § 556.902. This cross-reference incorporates the financial assurance provisions from 30 CFR part 556 that specify the required content, form, and administrative handling of financial assurance. New paragraph (e)(2) proposes that any supplemental financial assurance for a pipeline ROW would be required to cover liabilities for regulatory compliance and compliance with BOEM and BSEE orders, decommissioning of all pipelines or other facilities, and clearance from the seafloor of all obstructions created by the pipeline ROW operations, in accordance with the regulations set forth in 30 CFR part 250, subpart Q. See Section IV.C of this preamble for further discussion.

The proposed rule would also add new paragraph (f) to provide that if a pipeline ROW grant holder fails to replace any deficient financial assurance upon demand or fails to provide supplemental financial assurance upon demand, the Regional Director may assess penalties, request BSEE to suspend operations on the pipeline ROW, and/or initiate action for forfeiture of the pipeline ROW grant in accordance with § 250.1013.

Part 556—Leasing of Sulfur or Oil and Gas and Bonding Requirements in the Outer Continental Shelf

The proposed rule would make a technical correction to the authority citation for part 556 by removing the citation to 43 U.S.C. 1801–1802, because neither of these two sections contains authority allowing BOEM to issue or amend regulations.

The proposed rule would also remove the citation to 43 U.S.C. 1331 note, which is where the Gulf of Mexico Energy Security Act of 2006 is set forth. While this statute required BOEM to issue regulations concerning the availability of bonus or royalty credits for exchanging eligible leases, the deadline for applying for such a bonus or royalty credit was October 14, 2010; therefore, lessees may no longer apply for such credits. BOEM no longer needs the authority to issue regulations under

that statute and has removed all regulations on this topic from 30 CFR part 556, except for § 556.1000, which provides that lessees may no longer apply for such credits.

The terms ''bond,'' ''bonding,'' and ''surety bond'' would be replaced throughout this part with the new term ''financial assurance,'' as discussed earlier in this preamble. This change includes changing the Title of Part 556 from ''Leasing of Sulphur or Oil and Gas and Bonding Requirements in the Outer Continental Shelf'' to ''Leasing of Sulfur or Oil and Gas and Financial Assurance Requirements in the Outer Continental Shelf.''

Subpart A—General Provisions

Section 556.105 Acronyms and Definitions

The proposed rule would add a definition of ''Issuer credit rating'' and ''Investment grade credit rating,'' which are identical to the proposed additions in § 550.105.

The proposed rule would also revise the definition of ''Right-of-Use and Easement (RUE)'' to include the words ''to construct, secure to the seafloor, use, modify, or maintain platforms, seafloor production equipment.'' This definition would be the same as the definition of ''Right-of-Use and Easement (RUE)'' proposed for § 550.105.

The proposed rule would also add a definition for ''Financial assurance'' to clarify that various methods can be used to ensure compliance with OCS obligations. This definition would be the same as the definition of ''Financial assurance'' proposed for § 550.105.

The proposed rule would add definitions for the new terms ''Transfer'' and ''Assign'' to clarify that these terms are used interchangeably throughout 30 CFR part 556. This change would also serve to clarify that the related terms ''transferee'' and ''transferor'' are interchangeable with ''assignee'' and ''assignor,'' respectively.

The proposed rule would also revise the definition of the term ''You'' to include, depending on the context of the regulations, a bidder, a lessee (record title owner), a sublessee (operating rights owner), a Federal or State right-of-use and easement grant holder, a pipeline right-of-way grant holder, assignor or transferor, a designated operator or agent of the lessee or grant holder, or an applicant seeking to become one of the above. This change to the definition of ''You,'' in concert with changes proposed in § 550.166, would make explicit that any provisions applicable to either a State or Federal RUE would apply to the other, and that any distinctions between the two with respect to financial assurance are being removed. This change is in concert with changes proposed in § 550.105.

Subpart G—Transferring All or Part of the Record Title Interest in a Lease

Section 556.704 When may BOEM disapprove an assignment or sublease of an interest in my lease?

The proposed rule would revise paragraph (a) to clearly state that all parties involved in the assignment of a record title interest in a lease must be in compliance with all applicable regulations and orders, including financial assurance requirements, or BOEM may disapprove an assignment or sublease, consistent with changes to 30 CFR part 550 proposed in this rulemaking. The proposed rule would replace the word ''would'' in the section title with ''may'' to better reflect this discretion.

Subpart H—Transferring All or Part of the Operating Rights in a Lease

Section 556.802 When may BOEM disapprove the transfer of all or part of my operating rights interest?

The proposed rule would revise the existing section heading to replace ''assignment'' with ''transfer'' consistent with the new definitions proposed for both terms. The proposed rule would revise paragraph (a) to clearly state that for the transferee to receive approval for the transfer of operating rights in a lease, the transferee must be in compliance with all applicable regulations and orders to provide financial assurance requirements before BOEM may approve an assignment, consistent with changes to 30 CFR part 550 proposed in this rulemaking. The proposed rule would replace the word ''would'' in the section title with ''may'' to better reflect this discretion.

Subpart I—Bonding or Other Financial Assurance

Section 556.900 Financial Assurance Requirements for an Oil and Gas or Sulfur Lease

The proposed rule would revise the section heading to read, ''Financial assurance requirements for an oil and gas or sulfur lease'' in order to ensure that the term ''bonding'' has been consistently replaced with ''financial assurance'' and to clarify that a number of forms of financial assurance can be provided, and not just surety bonds, consistent with changes to 30 CFR part 550 proposed in this rulemaking.

BOEM proposes to add paragraph (a)(4) to make clear that any supplemental financial assurance required by the Regional Director must be provided before a new lease will be issued or an assignment of a lease approved.

The proposed rule would also revise the introductory text of paragraph (g) to replace the word ''security'' with ''financial assurance,'' and to add the word ''surety'' before ''bond'' in two places to clarify that in those cases the regulation is referring to a ''surety bond.''

The proposed rule would revise the introductory text of paragraph (h) to replace the words ''bond coverage'' with ''financial assurance'' to clarify that surety bonds are not the only means of meeting the requirement. The proposed rule would also revise paragraph (h)(2) in recognition that BSEE, rather than BOEM, is the agency with authority to suspend production or other operations on a lease.

The proposed rule would add paragraph (i) to ensure consistency with the RUE financial assurance requirements by providing that area-wide lease surety bonds pledged to satisfy the financial assurance requirements for RUEs may be called in for performance of obligations on which the holder of a RUE defaults.

Section 556.901 Base Financial Assurance and Supplemental Financial Assurance

The proposed rule would revise the section heading to read, ''Base financial assurance and supplemental financial assurance,'' because this section covers both base financial assurance and supplemental financial assurance requirements.

Section 556.901(a)

The proposed rule would also revise paragraph (a)(1)(i) introductory text to replace the word ''bond'' with ''lease exploration financial assurance'' to be consistent with the terminology used in existing paragraph (a)(1)(ii), which BOEM does not propose to change.

Section 556.901(b)

The proposed rule would eliminate the parenthetical ''(the lessee)'' from the introductory text as it is made redundant by the proposed revised definition of ''You.'' The proposed rule would also revise paragraph (b)(1)(i) introductory text to replace the word ''bond'' with ''lease development financial assurance'' for consistency with the terminology used in existing paragraph (b)(1)(ii), which BOEM does not propose to change.

Section 556.901(c)

The proposed rule would also revise paragraph (c) to remove the words ''authorized officer'' and replace them with ''Regional Director,'' and remove the words ''lease bond coverage'' and ''a lease surety bond'' and replace them in each instance with ''financial assurance'' to clarify that the Regional Director can review whether BOEM would be adequately secured by a surety bond, or another type of financial assurance, for an amount less than the amount proposed in paragraph (b)(1), but not less than the estimated cost for decommissioning.

Section 556.901(d)

BOEM proposes to combine the provisions of the existing paragraph (d) introductory text and the existing introductory paragraph (d)(1) to provide that the Regional Director may determine that supplemental financial assurance is required to ensure compliance with the obligations under a lease if the lessee does not meet at least one of the criteria provided in proposed paragraphs (d)(1) through (4) below. For further discussion, see Section V of this preamble.

Section 556.901(d)(1)

BOEM proposes to revise paragraph (d)(1) to set forth the criteria BOEM would use to evaluate the ability of a lessee to carry out present and future obligations. Under this paragraph, BOEM would use an issuer credit rating from a NRSRO, as defined by the SEC, greater than or equal to either BBB− from Standard & Poor's (S&P) Ratings Service or Baa3 from Moody's Investor Service, or the equivalent from another NRSRO. If different NRSROs provide different ratings for the same company, BOEM would apply the higher rating, as discussed in section IV.A of this preamble.

Section 556.901(d)(2)

BOEM proposes to revise paragraph (d)(2) stating that BOEM could also use a proxy credit rating calculated by BOEM based on audited financial information from the most recent fiscal year (including an income statement, balance sheet, statement of cash flows, and the auditor's certificate) greater than or equal to either BBB− from S&Ps Ratings Service or Ba3 from Moody's Investor Service, or their equivalent from another NRSRO. The proxy credit ratings that BOEM would calculate on behalf of lessees would be structured in the same scale as the standard ratings (*i.e.,* AAA to D). The audited financial information from the most recent fiscal year that BOEM used to determine the proxy credit rating must include a twelve-month period within the twenty-four months prior to the lessee's receipt of the Regional Director's determination that the lessee must provide supplemental financial assurance. When determining a proxy credit rating, the Regional Director will consider any additional liabilities that may encumber a lessee's ability to carry out future obligations. Under the proposed rule, the lessee would be obligated to provide the Regional Director with information regarding its joint-ownership interests and other liabilities associated with OCS leases, which might not otherwise be accounted for in the audited financial information provided to BOEM.

Section 556.901(d)(3)

BOEM proposes to add new paragraph (d)(3) to address the situation where the lessee does not meet the criteria in proposed paragraphs (d)(1) or (2), but one or more co-lessee(s) does meet those criteria. The Regional Director may require a lessee to provide supplemental financial assurance on a lease-by-lease basis if no co-lessee has an issuer credit rating or proxy credit rating that meets the threshold set forth in paragraphs (d)(1) or (2), as discussed in Section IV.A of this preamble.

Section 556.901(d)(4)

BOEM proposes to add new paragraph (d)(4) to set forth the criterion the Regional Director would use if the lessee does not meet the criteria in proposed paragraphs (d)(1), (2), or (3). In this instance, the Regional Director would assess each lease to determine whether the value of the proved oil and gas reserves on the lease exceed three times the estimated cost of the decommissioning associated with the production of those reserves. Under paragraph (d)(4), the Regional Director's assessment would be based on the evaluation of proved oil and gas reserves following the methodology set forth in SEC Regulation S–X at 17 CFR 210.4–10 and SEC Regulation S–K at 17 CFR 229.1200. BOEM also proposes new paragraphs (d)(4)(i) and (ii), which state that, when implementing this criterion, BOEM will use decommissioning cost estimates, including a BSEE-generated probabilistic estimate at the P70 level, when available, or, if such estimate is not available, BOEM will use the BSEE-generated deterministic estimate.

Section 556.901(e)

BOEM proposes to redesignate existing paragraph (d)(2) as paragraph (e) and revise it to provide that a lessee may satisfy the Regional Director's demand for supplemental financial assurance either by increasing the amount of its existing financial assurance or by providing additional surety bonds or other types of acceptable financial assurance.

Section 556.901(f)

BOEM proposes to redesignate existing paragraph (e) as paragraph (f) and revise to remove the word ''bond'' and replace it with ''supplemental financial assurance,'' a term that includes a surety bond or another type of financial assurance. BOEM also proposes to modify the language of new paragraph (f) to establish that, in determining the amount of supplemental financial assurance, the Regional Director will consider the lessee's potential underpayment of royalty and the cumulative decommissioning obligations as established in the manner described in proposed paragraph (d)(3) of this section, *i.e.,* the use of the appropriate BSEE estimate.

Section 556.901(g)

BOEM proposes to redesignate existing paragraph (f) as new paragraph (g) and revise it to replace the word ''security'' with ''financial assurance'' throughout.

Existing 30 CFR 556.901(f)(2) includes a statement to the effect that, if a company requests a reduction of the amount of the original bond required, the Regional Director may agree to such a reduction provided that he or she finds that ''the evidence you submit is convincing.'' BOEM proposes to replace the current regulatory text with the following statement in new paragraph (g)(2): ''Upon review of your submission, the Regional Director may reduce the amount of financial assurance required,'' as discussed in Section IV of this preamble.

Section 556.901(h)

BOEM proposes to add a new paragraph (h) to describe the limited opportunity lessees will have to provide the required supplemental financial assurance in three phased installments during the first three years after the effective date of this regulation, subject to the conditions of proposed paragraphs (h)(1) and (2). A three-year approach would allow companies to raise the relevant capital through operations over a longer period of time, as discussed in section VII of this preamble. Accordingly, it would reduce bankruptcy risk and ensure a greater level of financial protection for the government and taxpayers.

BOEM proposes to add new paragraphs (h)(1)(i) through (iii) to

establish the timing and amounts of phased supplemental financial assurance that would need to be provided. Payments would be required in three installments of one-third that of the demand, the first of which would be required within the timeframe specified in the demand letter, or within 60 calendar days of receiving the demand letter if no timeframe is specified. The second one-third would be required within 24 months from the date of receipt of the original demand letter, and the final payment would be due within 36 months from the date of the receipt of the original demand letter.

BOEM proposes to add a new paragraph (h)(2) to establish a procedure in case a demand that has been approved for phased compliance is not met within the timeframes established by paragraphs (h)(1)(i) through (iii). If a payment is missed, the Regional Director will notify the party of the failure to meet the timeframe and that it will no longer be eligible to meet the supplemental financial assurance demand by using the phased compliance option set forth in proposed paragraph (h). Moreover, the remaining balance of the demand would become due ten calendar days after the Regional Director's notification is received.

Section 556.902 General Requirements for Bonds or Other Financial Assurance

The proposed rule would revise the section heading to read, ''General requirements for bonds or other financial assurance,'' to recognize that other types of financial assurance, such as a dual-obligee bond or a pledge of Treasury securities, may be provided under 30 CFR part 556.

These revisions propose that the same general requirements for surety bonds provided by lessees, operating rights owners, or operators of leases, also apply to surety bonds provided by RUE grant and pipeline ROW grant holders. The proposed rule would therefore also revise paragraph (a) to include ''grant holder'' and to cover surety bonds provided under 30 CFR part 550. The requirements of this section are those that apply broadly to all companies having to provide financial assurance to BOEM for an OCS oil and gas or sulfur lease. Additional requirements appliable specifically to RUEs and ROWs are described in proposed §§ 550.166 and 550.1011, respectively.

The proposed rule would add ''or grant'' after ''lease'' to clarify the change to include grant holders in paragraph (a)(2). The rulemaking would also add compliance with ''all BOEM and BSEE orders'' as a requirement to ensure that providers of financial assurance are aware that such financial assurance guarantees compliance with BOEM and BSEE orders as well as with the regulations and the terms of a lease, ROW, or RUE. This addition is necessary because a requirement to provide supplemental financial assurance arises from a BOEM order. ''BOEM and BSEE orders'' would mean any order issued by the relevant bureau, such as a BSEE order to decommission, or a BOEM order to provide supplemental bond.

The proposed rule would revise paragraph (a)(3) to include the obligations of all record title owners, operating rights owners, and operators on the lease.

The proposed rule would also revise paragraph (e)(2) to clarify that the use of Treasury securities as financial assurance requires a pledge of Treasury securities, as provided in § 556.900(f).

The proposed rule would add a new paragraph (g) to recognize the option to seek an informal resolution of a surety bond demand pursuant to 30 CFR 590.6, which contains information regarding informal resolutions. This paragraph would further provide that a request for an informal resolution of a dispute concerning the Regional Director's decision to require supplemental financial assurance will not affect the applicant's ability to request a phased payment of its supplemental financial assurance demand under proposed § 556.901(h).

The proposed rule would add a new paragraph (h) to address risks arising in connection with the lessee's and grant holder's ability to appeal a demand for supplemental financial assurance to the Interior Board of Land Appeals (IBLA) pursuant to the regulations in 30 CFR part 590. The proposed rule would add an additional requirement to the IBLA appeals process whereby, if an appellant requests that the IBLA stay the supplemental financial assurance demand, the appellant would be required to post an appeals surety bond equal to the amount of supplemental financial assurance that the appellant seeks to stay before any stay could go into effect. Because IBLA appeals may continue for several years, it is important that BOEM ensure that the government's interests are protected. The appeals surety bond requirement would prevent the government from being left with no security if the appellant filed bankruptcy before the appeal process ended.

Section 556.903 Lapse of Financial Assurance

The proposed rule would replace the word ''bond'' in the section title with ''financial assurance'' for consistency with the terminology change made throughout the rulemaking. The proposed rule would revise paragraph (a) to add after the word ''surety'', ''guarantor, or the financial institution holding or providing your financial assurance'' and to include references to the financial assurance requirements for RUE grants (§ 550.166) and pipeline ROW grants (§ 550.1011). The proposed rule would also revise paragraph (a) by removing the words ''terminates immediately'' and substituting ''must be replaced.'' The proposed rule would replace the word ''promptly'' with a specific timeline of within seven calendar days of learning of a negative event for the financial assurance provider and would also add a 30-calendar day timeframe in which the party must provide other financial assurance from a different financial assurance provider.

BOEM also proposes to revise the first sentence of paragraph (b) by inserting ''or financial institution'' after ''guarantor,'' to make the provision apply to all types of financial assurance providers, including those offering decommissioning accounts. BOEM also proposes to revise the second sentence of paragraph (b) for consistency in terminology by inserting the words ''or other financial assurance'' after the word ''bonds'' and inserting the words ''guarantor, or financial institution'' after the word ''surety'', so that all surety bonds or other financial assurance instruments must require all financial assurance providers to notify the Regional Director within 72 hours of learning of an action filed alleging that the lessee or grant holder, or their financial assurance provider, is insolvent or bankrupt.

Section 556.904 Decommissioning Accounts

The proposed rule would revise the section heading and the term ''abandonment accounts'' throughout the section to read ''decommissioning accounts,'' in accordance with BOEM policy and accepted terminology used in the industry. The words ''lease-specific'' would be removed throughout this section to remove the implication that such an account could only pertain to one lease, thereby clarifying that a decommissioning account could be used for one lease or several leases, a RUE grant, or a pipeline ROW grant, or a combination thereof, as discussed in section V.B of this preamble.

BOEM proposes to revise paragraph (a) to remove the term ''lease-specific'' and replace it with ''decommissioning,'' and to add references to the base and

supplemental financial assurance regulation (proposed § 556.901(d)), as well as the financial assurance regulations for RUE grants (proposed § 550.166(b)) and pipeline ROW grants (proposed § 550.1011(d)), consistent with the changes mentioned in the preceding paragraph. Although the paragraph (a) introductory text would continue to allow a lessee or grant holder to establish a decommissioning account at a federally insured financial institution, this proposed rule would eliminate the existing restriction in paragraph (d) that such deposits not exceed the FDIC/FSLIC insurance limits and the reference to paragraph (a)(3), which is being revised and is no longer relevant to withdrawal of funds from a decommissioning account.

The proposed rule would re-arrange the existing sentence constituting § 556.904(a)(1). The proposed rule would also revise paragraph (a)(2) to remove the words ''as estimated by BOEM'' to clarify that BOEM does not estimate decommissioning costs, but rather uses the estimates of decommissioning costs determined by BSEE. The proposed rule would also revise paragraph (a)(2) to require funding of a decommissioning account ''pursuant to a schedule that the Regional Director prescribes,'' as opposed to ''within the timeframe the Regional Director prescribes'' as existing § 556.904(a)(2) now states.

The proposed rule would revise paragraph (a)(3) to remove the requirement to provide binding instructions to purchase Treasury securities for a decommissioning account under certain circumstances. The proposed rule would replace the existing language with a new provision providing that if you fail to make the initial payment or any scheduled payment into the decommissioning account, you must immediately submit, and subsequently maintain, a surety bond or other financial assurance in an amount equal to the remaining unsecured portion of your estimated decommissioning liability. This change reflects BOEM's current policy to order a surety bond or other financial assurance in the event the payments into the decommissioning account are not timely made.

The proposed rule would revise paragraph (b) by removing ''lease-specific'' and substituting ''decommissioning.''

The proposed rule would also remove existing paragraphs (c) and (d), which concern the use of pledged Treasury securities to fund a decommissioning account, as discussed in section V.B of this preamble. Removing the requirement in existing paragraph (d) that the account holder must purchase Treasury securities when the amount in the account equals the maximum amount insurable by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation will make these accounts more attractive to parties who may desire to use this method of providing supplemental financial assurance. The removal of existing paragraphs (c) and (d) would not preclude the use of Treasury securities to fund a decommissioning account. Existing paragraph (e) would be redesignated as paragraph (c) except that the word ''pledged'' would be removed, and ''other revenue stream'' would be added to the list of financial assurance options.

The proposed rule would add a revised paragraph (d), which would describe the Regional Director's discretion to authorize BOEM to provide funds from a decommissioning account to a liable party that performs the decommissioning.

Section 556.905 Third-Party Guarantees

The proposed rule would revise the section heading to read, ''Third-party guarantees.'' The proposed rule would also revise the section throughout to remove the introductory titles of each paragraph to ensure consistency in the proposed rule's format.

Section 556.905(a)

BOEM proposes to revise paragraph (a) to include a cross-reference to proposed § 550.166(b) (related to RUEs) and proposed § 550.1011(d)) (related to pipeline ROWs) in addition to the existing reference to proposed § 556.901(d) (related to base financial assurance for leases), to clarify that a third-party guarantee may be used as a type of supplemental financial assurance for not only leases, but for RUE grants and pipeline ROW grants as well. This is further discussed in Section V.A of this preamble.

BOEM would also revise paragraph (a)(1) to require that the guarantor, not the guarantee, as provided in the existing regulation, must meet the criteria in proposed § 556.901(d)(1), as the factors in proposed § 556.901(d) more properly apply to an entity, such as a guarantor, than to a document, such as a guarantee. See section V.A of this preamble for further discussion. BOEM would retain existing paragraph (a)(2), but would revise it to include a requirement, which is found in existing paragraph (a)(4), that the guarantor or guaranteed party must submit a third-party guarantee ''containing each of the provisions in proposed paragraph (d) of this section.'' As discussed below, paragraph (d) is being revised to no longer use the term ''indemnity agreement'' and to provide instead that the provisions that BOEM previously required a lessee or grant holder to include in indemnity agreements must be included in a third-party guarantee agreement. This terminology is changed to clarify that the government is not required to incur the expenses of decommissioning before demanding compensation from the guarantor. The proposed rule would also remove existing paragraphs (a)(3) and (a)(4), which would be superseded by other revisions to this section.

Section 556.905(b)

The proposed rule would redesignate existing paragraph (b) as paragraph (c) and revise the introductory text to remove the reference to existing paragraph (c)(3) of this section because the requirements in that paragraph would be superseded in this proposed rule. The proposed rule would replace this reference with a reference to paragraph (a)(1) of this section in paragraph (c) as it is proposed to be revised. The proposed rule would add new paragraph (b) to allow guarantors to limit their guarantees to a fixed dollar amount as agreed to by BOEM. BOEM is proposing this change because the existing regulations do not clearly limit the liability of a guarantor to a fixed monetary amount stated in the guarantee. Therefore, few parties were willing to use third-party guarantees in the past. Because the cessation of production is neither desirable nor easily accomplished by an operator, the proposed rule would also revise existing paragraph (b)(2) to remove the requirement that, when a guarantor becomes unqualified, you must ''cease production until you comply with the surety bond coverage requirements of this subpart.'' Instead, the language in revised redesignated paragraph (c) would be revised to provide that you must, within 72 hours, ''[s]ubmit and subsequently maintain a surety bond or other financial assurance covering those obligations previously secured by the third-party guarantee.''

The proposed rule would remove existing paragraph (c) as the language would be superseded by the new language in § 556.905(a).

Section 556.905(d)

The proposed rule would revise paragraph (d)(1) introductory text to read ''If you fail to comply with the terms of any lease or grant covered by the guarantee, or any applicable

regulation, your guarantor must either:'' to be consistent with the revision of paragraph (a) to allow the use of a third-party guarantee for a RUE grant or a pipeline ROW grant.

The proposed rule would revise paragraph (d)(1)(i) to clarify that the corrective action required is to bring the lease or grant into compliance with its terms, or any applicable regulation, to the extent covered by the guarantee.

The proposed rule would revise paragraph (d)(1)(ii) to clarify that the liability only extends to that covered by the guarantee and that payment does not result in the cancelation of the guarantee, but only a reduction in the remaining value equal to the amount provided.

The proposed rule would remove existing subparagraph (d)(2) to be consistent with the revision to remove existing paragraph (c). As a result, existing paragraph (d)(3) would be redesignated as paragraph (d)(2) and existing paragraph (d)(4) would be redesignated as paragraph (d)(3).

The proposed rule would revise the redesignated paragraphs (d)(2)(ii) and (iii) to remove the words ''your guarantor's'' and replace them with the word ''the'' to clarify that redesignated paragraph (d)(2) would apply to the guarantee itself.

The proposed rule would revise proposed paragraph (d)(3) to replace the term ''a suitable replacement security instrument'' with ''acceptable replacement financial assurance'' for clarity and would include the requirement that appears in existing § 556.905(d)(4) that any replacement financial assurance must be provided before the termination of the period of liability of the third-party guarantee.

Section 556.905(e)

The proposed rule would also revise paragraph (e) to provide that BOEM will cancel a third-party guarantee under the same terms and conditions as those proposed in §§ 556.906(b) and (d)(3).

Section 556.905(f) Through (k)

BOEM also proposes to add new paragraphs (f) through (k) to replace the provisions of existing paragraph (e). The new paragraphs mirror the provisions of existing paragraph (e) while making minor adjustments to accommodate the new format and add clarification. The term ''indemnity agreement'' would be replaced with ''third-party guarantee agreement'' throughout.

Section 556.906 Termination of the Period of Liability and Cancellation of Financial Assurance

The proposed rule would replace the words ''security'' and ''surety bond'' with ''financial assurance'' and ''surety'' with ''financial assurance provider'' for consistency with the changes throughout the proposed rule. The section title would also be revised so that ''a bond'' is replaced with ''financial assurance.''

The proposed rule would revise existing paragraph (b)(1) to remove the word ''terminated'' in two instances and replace it with ''cancelled'' to be consistent with the existing paragraph (b) introductory text, which provides that the Regional Director will cancel your previous financial assurance when you provide a replacement, subject to the conditions provided in existing paragraphs (b)(1) through (3). BOEM would also remove the word ''for'' before ''by the bond'' in paragraph (b)(1) for grammatical reasons.

The proposed rule would revise existing paragraph (b)(2) to also add cross-references to § 550.166, which is the financial assurance regulation for RUE grants, and § 550.1011, which is the financial assurance regulation for pipeline ROW grants, and would revise existing paragraph (b)(3) to also reference supplemental financial assurance regulations for RUE grants (proposed § 550.166(b) and pipeline ROW grants (proposed § 550.1011(d)). BOEM proposes to delete the word ''base'' in front of financial assurance in existing paragraph (b)(2) to propose that the new financial assurance would replace whatever financial assurance that previously existed, whether that financial assurance consisted of a base bond and/or any prior supplemental financial assurance.

The proposed rule would revise the paragraph (d) introductory text to cover financial assurance cancellations and return of pledged financial assurance and, in the table, would remove the middle column entitled, ''The period of liability will end,'' because it is redundant with the provisions in proposed paragraphs (a) through (c).

In existing paragraph (d), in the column in the table entitled ''For the following type of bond,'' BOEM proposes to remove the words ''type of bond'' and replace those words with a colon at the top of the table so that this paragraph would apply to surety bonds or other financial assurance, as applicable. Paragraph (d)(1) would also be revised to include a cross-reference to base financial assurance submitted under proposed § 550.166(a) (for RUE grants) and proposed § 550.1011(a) (for pipeline ROW grants). BOEM would also revise paragraph (d)(2) in the same column to include a reference to supplemental financial assurance submitted under proposed § 550.166(b) and proposed § 550.1011(d).

The proposed rule would revise paragraph (d) to amend the heading of the column entitled, ''Your bond will be cancelled,'' to read, ''Your financial assurance will be reduced or cancelled, or your pledged financial assurance will be returned,'' to clarify that financial assurance may be reduced or cancelled and pledged financial assurance, or a portion thereof, may be returned, and to specify other circumstances under which the Regional Director may cancel supplemental financial assurance or return pledged financial assurance. While the existing criteria identify most instances when cancellation of financial assurance is appropriate, occasionally there are other circumstances where cancellation would be warranted. The proposed rule would allow cancellation when BOEM determines, using the criteria set forth in proposed § 556.901(d), 550.166(b), or 550.1011(d), as applicable, that a lessee or grant holder no longer needs to provide supplemental financial assurance for its lease, RUE grant, or pipeline ROW grant when the operations for which the supplemental financial assurance was provided ceased prior to accrual of any decommissioning obligation; or when cancellation of the financial assurance is appropriate because BOEM determines such financial assurance never should have been required under the regulations.

The proposed rule would add a new paragraph (d)(3) in the table in paragraph (d) to address the cancellation of a third-party guarantee. In the past, parties have expressed concern to BOEM that the regulations, although they expressly allow for the termination of the period of liability, do not clearly allow for the cancellation of the guarantee. This addition would allow BOEM to cancel a third-party guarantee under the same terms and conditions that apply to cancellation of other types of financial assurance, as provided in proposed § 556.906(d)(2).

The proposed rule would revise the introductory text in paragraph (e) to remove the words ''or release'' because the term ''release'' is undefined and not used in practice. Likewise, the proposed rule would remove the words ''or released'' from paragraph (e)(2). No substantive change is intended; rather BOEM seeks to clarify the meaning of the existing provision.

The proposed rule would also revise paragraph (e) to reference RUE grants and pipeline ROW grants to provide that the Regional Director may reinstate the financial assurance on the same grounds as currently provided for reinstatement of lease financial assurance.

Section 556.907 Forfeiture of Bonds or Other Financial Assurance

The proposed rule would replace the words ''security,'' ''surety bond,'' or ''third-party guarantee'' with ''financial assurance'' and ''surety'' with ''financial assurance provider'' for consistency with the changes throughout the proposed rule.

The proposed rule would revise the section heading to read, ''Forfeiture of bonds or other financial assurance'' because the use of ''or'' is sufficient in this instance. The proposed rule would revise paragraph (a)(1) to include surety bonds or other financial assurance for RUE grants and pipeline ROW grants, in addition to leases, in the forfeiture provisions of this section. BOEM also proposes to clarify that the Regional Director may call for forfeiture of all or part of a surety bond or other form of financial assurance, or demand performance from a guarantor, if the lessee or grantee covered by the financial assurance refuses or is unable to comply with any term or condition of a lease, a RUE grant, or a pipeline ROW grant, as well as any regulation. Throughout this section, BOEM proposes to add references to a grant, a grant holder, and grant obligations to implement the revisions in proposed paragraph (a)(1). BOEM proposes to revise (a)(2) to replace ''other form of security'' with ''other form of financial assurance'' for consistent terminology.

BOEM proposes to revise paragraph (b) to include surety bonds ''or other financial assurance'' so that BOEM may pursue forfeiture of a surety bond or other financial assurance. The word ''lessee'' would also be replaced with ''record title holder'' to ensure that co-lessees are included.

BOEM proposes to revise paragraph (c)(1) to include ''financial institution holding or providing your financial assurance'' as one of the parties the Regional Director would notify of a determination to call for forfeiture because a bank or other financial institution may hold funds subject to forfeiture.

The proposed rule would revise paragraph (c)(1)(ii) to acknowledge limitations authorized by § 556.902(a)(3) by more precisely stating that the Regional Director will use an estimate of the cost of the corrective action needed to bring a lease into compliance when determining the amount to be forfeited, subject, in the case of a guarantee, to any limitation authorized by proposed § 556.902(a)(3).

BOEM proposes to replace existing paragraphs (c)(2)(ii) and (iii) with a new paragraph (c)(2)(ii) that would specify that to avoid forfeiture by promising to take corrective action, any financial assurance provider would have to agree to, and demonstrate that it will complete the required corrective action to bring the relevant lease into compliance within the timeframe specified by the Regional Director, even if the cost of such compliance exceeds the limit of the financial assurance. The proposed changes make clear that existing paragraphs (c)(2)(ii) and (iii) apply to all forms of financial assurance, including the caveat that corrective action must be completed even if the cost of compliance exceeds the limit of the financial assurance.

BOEM proposes to revise existing paragraphs (d) and (e)(2) by replacing ''leases'' with ''lease or grant'' to extend the applicability of these provisions to include holders of RUE and ROW grants.

BOEM proposes to revise paragraph (f)(1) to include ''grant'' as well as lease. BOEM also proposes to revise paragraph (f)(2) to clarify that BOEM may recover additional costs from a third-party guarantor only to the extent covered by the guarantee. This would be consistent with the change made at § 556.902(a)(3) to allow the use of limited third-party guarantees.

This rulemaking would also reword paragraph (g) for clarity.

In some circumstances, predecessor lessees that have been notified about the failure of their successor organizations to fulfill their decommissioning obligations will initiate the requisite decommissioning activities. In these cases, predecessor lessees or grantees are likely to incur costs that could be funded from financial assurance posted with BOEM on behalf of the current lessee. Some of this financial assurance may be forfeited by the current lessee or by other successor lessees. BOEM proposes to add a paragraph (h) to make clear that BOEM may provide funding collected from forfeited financial assurance to predecessor lessees or grant holders or to third parties taking corrective actions on the lease or grant.

Part 590—Appeal Procedures

Subpart A—Offshore Minerals Management Appeal Procedures

Section 590.4 How do I file an appeal?

BOEM proposes to add paragraph (c) to specify that, while a demand for supplemental financial assurance may be appealed to the IBLA, a stay can only be granted if an appeal surety bond for an amount equal to the demand is posted. This is intended to mitigate the risk to the government that, after the appeal is decided, a company will be unable to perform its obligations because of its financial deterioration during pendency of the appeal.

Severability

BOEM proposes to include in the final rule that, should any court hold unlawful and/or set aside portions of this rulemaking, the remaining portions are severable and therefore should not be remanded to the agency. The proposed rule contains three main components: (1) Streamlining requirements for supplemental financial assurance; (2) Establishing ''P70'' as the relevant estimate for the amount of any supplemental financial assurance, and (3) Making several, less significant changes to, among other things. right-of-use and easement and right-of-way grants and decommissioning accounts. See preamble sections IV.B through V.C.

These three components operate largely independent of each other: the first component considers whether a lessee is at risk of default based on the lessee's credit rating or the proved reserves on the lease; the second component considers the appropriate requirements in light of that risk; and the third component addresses several longstanding and technical matters that do not bear directly on the first two components. Indeed, these three components are sufficiently distinct that their severability does not depend on the specifics of this proposed rule. For example, if, in the final rule, BOEM sets the appropriate level of supplemental financial assurance at a different P-value, that decision would remain severable from the threshold determination regarding *whether* to collect supplemental financial assurance and from the other separate technical changes proposed by this rule.

XI. Additional Comments Solicited by BOEM

In addition to those comment requests stated above, BOEM also requests comments on the topics below:

- BOEM is considering the inclusion of offshore joint and several decommissioning liabilities (of the co-lessees that would otherwise have exempted the lessee from providing supplemental financial assurance) in the determination of a proxy credit rating when these liabilities are ''disproportionately high'' and may encumber that co-lessee's ability to

carry out future obligations. BOEM is requesting comments on the appropriate criteria to determine what constitutes ''disproportionately high'' offshore liabilities, for example, a ratio of decommissioning liabilities to the net worth of the co-lessee above X times, or other financially significant and reasonable criteria on how these liabilities should best be incorporated into the proxy credit rating that BOEM will derive.

- The use of End-of-Life (Years) in the evaluation of asset value as an alternative to using the decommissioning costs ratio. BOEM requests comments on the use of a minimum number of years of production remaining criterion to qualify for an exemption from supplemental financial assurance. Possibly, End-of-Life criteria could be an alternative to the 3:1 ratio of value of reserves to decommissioning costs.
- The consideration of bond issuance ratings, in addition to issuer credit ratings, in determining the financial risk posed by lessees and grant holders. BOEM also invites comments on determining an appropriate threshold for bond issuance ratings, such as general unsecured debt ratings.
- Should BOEM exclude third-party guarantors from the requirement of § 556.902(a)(3) that guarantees must ''guarantee compliance with all obligations of all lessees, operating rights, owners and operators on the lease'' in addition to allowing a third-party guarantee to be limited in amount?

XII. Procedural Matters

A. Executive Order 12866: Regulatory Planning and Review, as Amended by Executive Order 14094—Modernizing Regulatory Review, and Executive Order 13563: Improving Regulation and Regulatory Review

Executive Order 12866, as amend by Executive Order 14094 provides that the Office of Information and Regulatory Affairs (OIRA) in OMB will review all significant rules. OIRA has reviewed this proposed rule and determined that it is a significant action under Executive Order 12866, as amend by Executive Order 14094 Sec 3 (f)(1). This rulemaking will result in an annual effect on the economy of $200 million or more (adjusted every 3 years by the Administrator of OIRA for changes in gross domestic product); or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, territorial, or tribal governments or communities.

Executive Order 13563 reaffirms the principles of Executive Order 12866, as amend by Executive Order 14094, while calling for improvements in the Nation's regulatory system to promote predictability and reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. Executive Order 13563 directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. BOEM has developed this proposed rule in a manner consistent with these requirements.

BOEM's proposed changes are estimated to increase the private cost to lessees in the form of bonding or other financial assurance premiums. BOEM has drafted an initial regulatory impact analysis (IRIA) detailing the estimated impacts of this proposed rule. The IRIA reflects both monetized and non-monetized impacts; the costs and benefits of the non-monetized impacts are discussed qualitatively in the document. BOEM's IRIA is available in the public docket for this rulemaking.

BOEM expects this proposed rule may increase the total amount of financial assurance, increasing the aggregate private cost to lessees of financial assurance premiums. The table below summarizes BOEM's estimate of the cost in financial assurance premiums paid by lessees over a 20-year time horizon if this proposed rule is finalized less the premiums associated with BOEM's existing current financial assurance portfolio. Additional information on the estimated transfers, costs, and benefits can be found in the IRIA posted in the public docket for this proposed rule.

TOTAL ESTIMATED INCREASE IN BONDING FINANCIAL ASSURANCE PREMIUMS ASSOCIATED WITH BOEM'S PROPOSED AMENDMENTS

[2022–2041, 2021$ millions]

2022–2041	Discounted at 3%	Discounted at 7%
Total Compliance Cost	$4,867	$3,379
Annualized Compliance Cost	327.1	318.9

B. Regulatory Flexibility Act (RFA)

The Regulatory Flexibility Act, 5 U.S.C. 601–612, requires agencies to analyze the economic impact of regulations when a significant economic impact on a substantial number of small entities is likely and to consider regulatory alternatives that will achieve the agency's goals while minimizing the burden on small entities. BOEM has provided an initial regulatory flexibility analysis (IRFA), which assesses the impact of this proposed rule on small entities. The IRFA is available in the public docket for this rulemaking.

As defined by the Small Business Administration (SBA), a small entity is one that is ''independently owned and operated and which is not dominant in its field of operation.'' What characterizes a small business varies from industry to industry. The proposed rule would affect OCS lessees and RUE grant holders and pipeline ROW grant holders on the OCS. The analysis shows that this includes roughly 536 companies with ownership interests in OCS leases and grants. Entities that would operate under this proposed rule are classified primarily under North American Industry Classification System (NAICS) codes 211120 (Crude Petroleum Extraction), 211130 (Natural Gas Extraction), and 486110 (Pipeline Transportation of Crude Oil and Natural Gas). For NAICS classifications 211120 and 211130, the SBA defines a small business as one with fewer than 1,250 employees; for NAICS code 486110, a business with fewer than 1,500 employees.

Based on these criteria, approximately 407 (76 percent) of the businesses operating on the OCS subject to this proposed rule are considered small; the remaining businesses are considered large entities. All of the operating businesses meeting the SBA ''small business'' classification are potentially impacted; therefore, BOEM expects that the proposed rule would affect a substantial number of small entities. Small and large oil and gas companies have different business models. Large

oil and gas companies tend to focus their business efforts on new exploration and development projects. Such projects tend to be large in scale, low in frequency, and focused on deep water operations; as a result, the rate of their oil and gas reserve depletion is low. In contrast, most small oil and gas companies tend to focus on late-stage oil and gas production intended to maximize the residual output from established facilities; as a result, the rate of their oil and gas reserve depletion is high. For this reason, smaller companies tend to operate large numbers of old facilities, which are likely to require decommissioning sooner than newer facilities. Accordingly, the prospective decommissioning costs of small oil companies are likely to be high relative to their net tangible assets, making these companies disproportionately susceptible to any change in decommissioning costs and the associated costs of providing supplemental financial assurance. Because BOEM's financial assurance program is intended to ensure that all current lessees meet their obligations, and thereby avoid the need for the taxpayer to assume these obligations in the event of default, any action taken by BOEM to ensure financial responsibility of lessees would necessarily significantly impact smaller companies.

BOEM estimated the annualized increase in private costs to lessees and allocated those costs to small and large entities based on their decommissioning liabilities. BOEM's analysis concludes that the proposed regulatory changes could cause small companies to incur $252.6 million (at a 7 percent discount rate) in annualized compliance costs. BOEM recognizes that there will be incremental cost burdens to most affected small entities. BOEM seeks specific comment and feedback from affected small entities on the costs associated with this rulemaking. Additional information about these conclusions can be found in the IRFA for this proposed rule.

ESTIMATED IMPACT IN PRIVATE COST FOR SMALL LESSEES

[2021, $millions]

2021–2041	Discounted at 3%	Discounted at 7%
Total Compliance Cost	$3,820	$2,676
Annualized Compliance Cost	256.8	252.6

The proposed changes are designed to balance the risk of non-performance with the costs and disincentives to production that are associated with the requirement to provide supplemental financial assurance. The IRIA and the IRFA include three regulatory alternatives which were considered and not selected by BOEM. This section walks through the alternatives (which are discussed in more detail in the IRIA) and discusses how these alternatives impact small businesses and why they were not selected.

Regulatory Alternatives

There are three regulatory alternatives to the proposed action analyzed in the IRIA:

1. *No Action Alternative:* Continue the policies of partial implementation of NTL No. 2016–N01.
2. *More Stringent Regulatory Alternative:* Full implementation of NTL No. 2016–N01.
3. *Less Stringent Regulatory Alternative:* Lower Tier 1 [16] cutoff to BB− and include a waiver for lessees with Tier 1 predecessor lessees.

Under the no action alternative, BOEM would continue to partially implement NTL No. 2016–N01, which only requires high-risk, Tier 2 lessees (lessees with a credit rating below BB−) to provide bonds or other financial assurance and only for their sole liability properties.[17] Only Tier 2 lessees that do not have another lessee in the chain of title would be required to provide supplemental financial assurance. This alternative differs from the proposed rule in that the proposed rule would change the Tier 2 demarcation to those lessees with ratings below BBB−. The proposed rule also would require supplemental financial assurance for Tier 2 lessees who do not have a Tier 1 (low risk) co-lessee, grant holder, or co-grant-holder regardless of the presence of any predecessor lessee or grantee, even a Tier 1 predecessor. This alternative is more fully described in the IRIA as the baseline.

Under the more stringent alternative, BOEM would fully implement NTL No. 2016–N01. The NTL included guidance on how BOEM would evaluate the five criteria for determining a company's ability to meet its OCS obligations for self-insurance, which are described in more detail in the IRIA. The result of NTL No. 2016–N01, as written, was that not even the subsidiaries of highly rated companies could provide sufficient financial assurance for the full amount of their OCS liabilities. More information on the more stringent alternative is included in the IRIA.

Under the less stringent alternative, BOEM analyzed an alternative that would maintain the baseline threshold demarcation between Tier 1 and Tier 2 companies at BB−. The less stringent option also would include the baseline's consideration of predecessor lessees but would require that at least one predecessor lessee be a Tier 1 company in order for the current lessee to avoid having to provide supplemental financial assurance. This alternative would require Tier 2 lessees who have Tier 2 predecessor lessees to provide supplemental financial assurance; they would not be required to do so under the baseline. As opposed to the proposed rule, lessees with a BB−, BB, or BB+ rating would not be required to provide supplemental financial assurance under this alternative. Further, under this alternative, any Tier 2 lessee with a Tier 1 lessee in the chain of title would not be required to provide supplemental financial assurance, unlike under the proposed rule. BOEM fully outlines this alternative in the IRIA.

[16] The IRIA alternatives describe lessees as Tier 1 or Tier 2 depending on whether BOEM would require the lessee to provide supplemental financial assurance. Tier 1 lessees are considered low risk and would not be required to provide supplemental financial assurance, while Tier 2 lessees are considered high risk and would be required to do so.

[17] This does not fully reflect the current policy, and therefore is not literally a ''no action'' alternative: BOEM broadened the scope of its financial assurance requirement relative to a partial implementation of NTL No. 2016–N01 last year. See BOEM Expands Financial Assurance Efforts | Bureau of Ocean Energy Management, *https://www.boem.gov/newsroom/notes-stakeholders/boem-expands-financial-assurance-efforts.* However, there have been relatively few companies affected by the new policy to date, and it is too recent for this policy change to have had a discernible impact on financial assurance demands; therefore, the alternative used in the IRIA best estimates the baseline.

Discussion of Regulatory Alternatives

Under the no action alternative, the current level of financial risk would remain the same. However, BOEM reviewed NTL No. 2016–N01 after several recent bankruptcies and determined that changes were necessary to comprehensively identify, prioritize, and manage the health, safety, and environmental risks associated with industry activities on the OCS.

In its IRIA analysis, BOEM estimates that implementation of the more stringent alternative would significantly increase the compliance cost over the baseline and over the proposed rule. BOEM acknowledges that there could be some additional risk reduction by bonding a greater number of liabilities, but, given joint and several liability with multiple co-lessees and predecessor lessees, the relative risk reduction from this alternative would be very small. Although the more stringent option would reduce the risk that the U.S. Government might have to assume performance of the lessee's obligations, the $647 million annualized compliance cost of this alternative could be a significant cost burden on the U.S. offshore oil and gas industry.

The less stringent alternative would differ in two problematic ways from the proposed action. First, the less stringent option would maintain the baseline demarcation between Tier 1 and Tier 2, which is lower than that of the proposed rule. This would not meaningfully help to mitigate default risk to the taxpayer on decommissioning liabilities. Second, the less stringent alternative would not require financial assurance should a Tier 1 predecessor lessee be in the chain of title. Although the less stringent alternative would result in lower bonding costs for industry and small businesses than the proposed rule, consideration of predecessor lessees and grantees encourages moral hazard by incentivizing current lessees to pass risk to predecessors rather than proactively prepare for decommissioning and related obligations. Therefore, BOEM did not select this alternative. See the IRIA for more detailed information about the alternative bonding and risk profiles.

BOEM decided against the less stringent alternative. Instead, BOEM will require supplemental financial assurance from all financially weak lessees that lack either financially strong co-lessees or sufficiently valuable proved oil and gas reserves to attract a buyer if needed. Eschewing reliance on predecessor lessees ensures that financial responsibility for decommissioning rests with current lessees and encourages those lessees to financially prepare for decommissioning costs, rather than pass those expenses to predecessor lessees and possibly the taxpayer. BOEM finds the less stringent alternative would not adequately reduce default risk and would not require all lessees to fully internalize the cost of decommissioning. This alternative is also discussed in more detail below and in the IRIA.

As part of this less stringent alternative, potential adverse impacts to small businesses could be reduced if BOEM kept the Tier 2 threshold at BB− relative to the proposed rule, which increases such threshold to BBB− to match the investment grade standard. BOEM has determined that the use of an investment grade standard for waiving supplemental financial assurance is the most appropriate threshold because this approach minimizes credit default risk to the taxpayer without overburdening offshore companies with the cost of providing financial assurance in low credit risk scenarios.

BOEM finds that the less stringent alternative would slightly increase the likelihood that decommissioning costs would be borne by the taxpayer as lowering the floor of Tier 1 would expand the number of companies not subject to financial assurance to include those with higher 1-year default rates.

Although credit ratings are objective criteria that are intended to accurately reflect the risk of default and the potential that the Federal Government could be forced to undertake performance obligations of OCS lessees, BOEM recognizes that the proportion of small companies adversely affected by the proposed rule would be higher than that of large companies. However, this disproportionate effect on small companies is not attributable to the proposed rule, but results from the need to ensure that decommissioning obligations are fulfilled.

This less stringent alternative also relies on predecessor lessees and grantees when determining if and how much supplemental financial assurance will be required, which BOEM's proposed rule does not. By not allowing reliance on predecessors to excuse supplemental financial assurance, BOEM requires that all lessees take into account the full cost of decommissioning as they will have provided financial assurance that prevents the need to turn to predecessor lessees. Any entity that owned a lease at any point in time is jointly and severally liable for the costs of decommissioning facilities on that lease during their tenure, along with the current and prior owners, until such time as the facility has been permanently decommissioned. Therefore, if the current lessee is unable or unwilling to decommission it at the end of its useful life, BSEE can order the prior lessee to complete the decommissioning obligations for facilities that existed on the lease at the time of ownership. If BOEM were to take into account the financial capacity of predecessor lessees in determining the amount of supplemental financial assurance required of a current owner, the financial burden on small companies would be substantially reduced compared to that resulting from the proposed rule, because a much smaller number of them would be required to post supplemental financial assurance. Given that the required amount of supplemental financial assurance relative to the net assets of such companies is often substantial, and considering that the premiums on the underlying bonds can be significant relative to the net income of such companies, taking into account predecessor lessee strength could substantially reduce the potential adverse impacts of requiring financial assurance from small business.

Though allowing the presence of a predecessor lessee or grantee to change financial assurance requirements would reduce the potential adverse impacts to small businesses, BOEM does not recommend waiving supplemental financial assurance from current lessees based only on the existence of financially viable predecessor lessees. Financial consideration for the decommissioning liability has already been discounted from the asset purchase price paid by the current lessee. As a corollary, a lessee knows that BOEM may demand supplemental financial assurance from it to cover its obligations, including decommissioning obligations for which it shares liability with a predecessor lessee. Armed with this knowledge, all lessees can plan ahead and include the possible need to provide supplemental financial assurance in their business plans. Therefore, there is no need to insulate current lessees from supplemental financial assurance demands by relying on the financial ability of strong predecessor lessees. Along the same lines, allowing current lessees not to provide supplemental financial assurance based on a predecessor lessee's strength may incentivize current lessees to not consider decommissioning costs in their business decisions or to take risks they would not have otherwise taken if they had financial resources at risk in the event

of non-performance. This ''moral hazard'' could distort the market for lease transfers by allowing a buyer and seller to conduct a transaction without calculating in end-of-life decommissioning cash outflows, the buyer relying on end-of-life bankruptcy instead of decommissioning, and may ultimately result in predecessor lessees and grantees having to perform decommissioning for which they had not planned.

While waiving supplemental financial assurance for companies having financially viable predecessor lessees and grantees would mitigate the impact the proposed rule on small businesses, BOEM has determined that this benefit would not be acceptable given that, under these circumstances, lessees may not always fully internalize the cost of their decommissioning obligations into their operations as they can rely on the predecessor lessee if needed and avoid having to pay financial assurance premiums. Additional moral hazard implications of implementing such a retroactive policy are described in more detail in the IRIA. Reliance on predecessor lessees would likely also cause them to require the buyer provide them financial assurance prior to selling their leases to new owners (which would also result in a cost for small businesses). For these reasons, BOEM has determined that any waiver of financial responsibility based on business relationships should be limited to situations where the liable party voluntarily becomes a current co-lessee or co-grantee and therefore, knowingly assumes its liabilities.

C. Small Business Regulatory Enforcement Fairness Act

This proposed rule would revise the financial assurance requirements for OCS lessees and grant holders and would require supplemental financial assurance where the risk is highest. BOEM's proposed changes would: (1) Modify the evaluation process for requiring additional security, (2) Simplify and strengthen the evaluation criteria, and (3) Remove restrictive provisions for third-party guarantees and decommissioning accounts. These proposed changes reflect an interest in relying on current lessees and grant holders to provide required financial assurance, aligning the evaluation criteria with banking and finance industry practices, providing greater flexibility for industry, and protecting taxpayers from exposure to the consequences of noncompliance with DOI regulations and OCS lease obligations, particularly the nonperformance of decommissioning obligations.

This proposed rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act, because implementation of this rulemaking will have an annual effect on the economy of $100 million or more.

For more information on the small business impacts, see the IRFA analysis and the discussion in section XII.B of this preamble. Small businesses may send comments on the actions of Federal employees who enforce or otherwise determine compliance with Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman, and to the Regional Small Business Regulatory Fairness Board. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of BSEE or BOEM, call 1–888–REG–FAIR (1–888–734–3247).

D. Unfunded Mandates Reform Act (UMRA)

This proposed rule does not impose an unfunded mandate on State, local, or tribal governments of $85 million per year.[18] This proposed rule does not have a significant or unique effect on State, local, or tribal governments. Moreover, the proposed rule would not have disproportionate budgetary effects on these governments.

BOEM has determined that this proposed rule would impose costs on the private sector of more than $182 million in a single year. The IRIA includes information on the costs of the proposed rule and its alternatives. The UMRA (2 U.S.C. 1531 *et seq.*) requires BOEM to perform a cost-benefit assessment and to provide the legal authority for the rulemaking, a description of the macro-economic effects, and a summary of the State, local, or tribal government concerns. These items are described in more detail in the IRIA.

Because all of the anticipated private sector expenditures that may result from the proposed rule are analyzed in the IRIA and IRFA (*i.e.,* expenditures of the offshore oil and gas industry), these documents satisfy the UMRA requirement to estimate any disproportionate budgetary effects of the proposed rule on a particular segment of the private sector. As explained in the IRIA, the rulemaking is anticipated to have annualized net estimated compliance costs of $319 million annually (7 percent discounting) but provides strengthened financial assurance to protect taxpayers from the costs of decommissioning offshore infrastructure. Under the proposed action, BOEM will evaluate the financial strength of OCS lessees and grant holders that could affect their ability to meet OCS obligations. The IRIA outlines both a less stringent and more stringent regulatory alternative. The more stringent option was not selected as the added benefits did not justify the increased compliance burden. BOEM's less stringent option includes a lower credit rating of BB − to be classified as low risk and allows predecessor lessee or grantee strength to be included in the financial assurance evaluation. This alternative was not selected as BB rated companies are considered speculative and below investment grade and relying on predecessor lessees and grantees introduces a moral hazard and does not require each current lessee to internalize its decommissioning obligations.

E. Executive Order 12630: Governmental Actions and Interference With Constitutionally Protected Property Rights

This proposed rule does not affect a taking of private property or otherwise have takings implications under Executive Order 12630. Therefore, a takings implication assessment is not required.

F. Executive Order 13132: Federalism

Under the criteria in section 1 of Executive Order 13132, this proposed rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. Therefore, a federalism summary impact statement is not required.

G. Executive Order 12988: Civil Justice Reform

This proposed rule complies with the requirements of Executive Order 12988. Specifically, this proposed rule:

(1) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and

(2) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

H. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 defines policies that have tribal implications as

[18] 2021 values are available here: *https://crsreports.congress.gov/product/pdf/R/R40957.*

regulations, legislative comments or proposed legislation, and other policy statements or actions that will or may have a substantial direct effect on one or more Indian Tribes, or on the relationship between the Federal Government and one or more Indian Tribes.

BOEM strives to strengthen its government-to-government relationships with American Indian and Alaska Native Tribes through a commitment to consultation with those tribes and recognition of their right to self-governance and tribal sovereignty. The DOI's consultation policy for Tribal Nations, as described in Departmental Manual part 512 chapter 4, expands on the above definition from E.O. 13175, and defines a Departmental Action with Tribal Implications as—

''[a]ny regulation, rulemaking, policy, guidance, legislative proposal, plan, programmatic or operational activity, or grant or funding formula change that may have a substantial direct effect on a Tribe in matters including but not limited to: (1) Tribal cultural practices; lands; treaty rights; resources; ancestral lands; sacred sites, including sites that are submerged; and lands Tribes were removed from, or access to traditional areas of cultural or religious importance on Federally managed lands and waters; (2) the ability of a Tribe to govern or provide services to its members; (3) a Tribe's formal relationship with the Department, be it nation-to-nation or beneficiary-to-trustee; or, (4) any action planned by a non-federal entity that involves funding, approval, or other final agency action provided by the Department, unless the Tribe is a party to the action. Substantial direct effects on Tribes may include, but are not limited to, effects as shown in the Consensus-Seeking Model (Figure 1).'' 512 DM 4.3.B. (November 30, 2022). DOI's procedures for consultation with Tribal Nations also provide that:

''Bureaus/Offices must invite Indian Tribes early in the planning process to consult whenever a Departmental plan or action with Tribal Implications arises. Bureaus/Offices should operate under the assumption that all actions with land or resource use or resource impacts may have Tribal implications and should extend consultation invitations accordingly.'' 512 DM 5.4. (November 30, 2022).

Additionally, we are also respectful of our responsibilities for consultation with Alaska Native Claims Settlement Act (ANCSA) Corporations. The DOI's consultation policy defines a Departmental Action with ANCSA Corporation Implications as—

''[a]ny regulation, rulemaking, policy, guidance, legislative proposal, grant funding formula changes, or operational activity that may have a substantial direct effect on an ANCSA Corporation, including but not limited to: (1) any activity that may substantially affect land, water, areas, or resources owned or selected by ANCSA Corporation; (2) any activity that may impact the ability of an ANCSA Corporation to participate in Departmental programs for which it qualifies; (3) any activity that may impact the ability of ANCSA shareholders to access and use ANCSA lands, water areas, or resources; (4) any activity that may impact the ability of Alaska Native people to maintain their traditional way of life and subsistence practices on ANCSA Corporation lands, waters, or adjacent federal lands; or, (5) any activity that may have a direct effect on the ability of an ANCSA Corporation to fulfil the purposes for which it was established under ANCSA.'' 512 DM 6.3.C. (November 30, 2022).

DOI consultation procedures for ANSCA corporations also provides: ''Bureaus and Offices should operate under the assumption that all actions with land or resource use or resource impacts may have ANCSA Corporation implications and should extend consultation invitations accordingly. When ANCSA Corporations indicate that there is substantial and direct effect of the Departmental Action with ANCSA Corporation Implications, the Department must engage in consultation.'' 512 DM 7.4.A. (November 30, 2022).

This rulemaking proposes to modify the criteria for determining whether oil, gas, and/or sulfur lessees, RUE grant holders, and pipeline ROW grant holders may be required to provide bonds or other financial assurance, above the current regulatorily prescribed base bond amounts, to ensure compliance with their OCSLA obligations. It also proposes to remove certain restrictive provisions for third-party guarantees and decommissioning accounts and would add new criteria under which a bond, or third-party guarantee, that was provided as supplemental financial assurance, may be cancelled. Additionally, this proposed rule would clarify bonding requirements for RUEs serving Federal leases.

We have evaluated this proposed rule under the DOI's consultation policy and under the criteria in Executive Order 13175, and have determined that, while this rulemaking will likely not cause any substantial direct effects on environmental or cultural resources, there may be resource or economic impacts to one or more federally recognized Indian tribes or ANCSA Corporations as a result of this proposed rule.

In developing the 2020 Joint Notice of Proposed Rulemaking (85 FR 65924), BOEM determined that the rulemaking would have no substantial direct effects on environmental or cultural resources. However, BOEM determined there was the potential for economic impacts to one Tribal Nation and one ANCSA Corporation. In August 2018, BOEM invited consultation with this Tribal Nation and the ANCSA Corporation. BOEM consulted with the Tribal Nation in September 2018. The ANCSA Corporation did not request to consult. At that time, BOEM discussed the possible impacts from the 2020 proposal, as documented in the memorandum to the docket titled ''2018 Outreach on the Financial Assurance Proposal.''

On March 31, 2023, BOEM sent letters to all Tribes and ANCSA Corporations to ensure they are aware of this preparation for a new proposed rulemaking, to answer any immediate questions they may have, and to invite formal consultation if they would like to consult. To date, only one Tribe has requested consultation, however we will formally consult with any Tribes or ANCSA corporations at any stage in this rulemaking as it advances if consultation is requested.

I. Paperwork Reduction Act (PRA)

This proposed rule references existing information collections (ICs) previously approved by OMB and adds new IC requirements for BOEM regulations that require OMB review and approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Therefore, an information collection request for BOEM is being submitted to OMB for review and approval. The ICs related to this rulemaking concern the requirements under 30 CFR parts 550 and 556. BOEM may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

OMB has reviewed and approved the information collection requirements associated with risk management and financial assurance for OCS lease and grant obligations and assigned the following OMB control numbers:

- 1010–0006 (BOEM), ''Leasing of Sulfur or Oil and Gas in the Outer Continental Shelf (30 CFR parts 550, Subpart J; 556, Subparts A through I, and K; and 560, Subparts B and E) (expires 03/31/2026), and
- 1010–0114 (BOEM), ''30 CFR 550, Subpart A, General, and Subpart K, Oil and Gas Production Requirements (expires 05/31/2026).

This proposed rule would modify collections of information under 30 CFR part 550, subparts A and J, and 30 CFR part 556, subpart I, concerning financial assurance requirements (such as bonding) for leases, pipeline ROW grants, and RUE grants. OMB has reviewed and approved the information collection requirements associated with financial assurance regulations for leases (30 CFR 556.900 through 907), pipeline ROW grants (30 CFR 550.1011), and RUE grants (30 CFR 550.160 and 550.166).

BOEM estimates that the number of information collection burden hours for the proposed rule overall are close to the same as for the existing regulatory framework. If this proposed rule becomes final and effective, the new and changed provisions would increase the overall annual burden hours for OMB Control Number 1010–0006 by 77 hours (totaling 19,131 annual burden hours) and 268 responses (totaling 10,575 responses) as justified below. The changed provisions for OMB Control Number 1010–0114 would add new and revise requirements in 30 CFR part 550, subpart A, but would not impact the overall burden hours for this control number because the burdens for these provisions are counted under OMB Control Number 1010–0006. However, the regulatory descriptions of new and modified requirements would be extensive enough to require an update of the OMB control number.

When needed, BOEM would submit future burden changes (either increases or decreases) of the OMB control numbers with reasoning to OMB for review and approval. Every 3 years, BOEM would also review the burden numbers for changes, seek public comment, and submit any request for changes to OMB for approval.

Title of Collection: 30 CFR part 550, ''Oil and Gas and Sulfur Operations in the Outer Continental Shelf,'' and 30 CFR part 556, ''Leasing of Sulfur or Oil and Gas and Bonding Requirements in the Outer Continental Shelf.''

OMB Control Number: 1010–0006 and 1010–0114.

Form Number: None.

Type of Review: Revision of currently approved collections.

Respondents/Affected Public: Federal OCS oil, gas, and sulfur operators and lessees, and RUE grant and pipeline ROW grant holders.

Total Estimated Number of Annual Responses: 10,575 responses for 1010–0006, and 5,302 responses for 1010–0114.

Total Estimated Number of Annual Burden Hours: 19,131 hours for 1010–0006, and 18,323 hours for 1010–0114.

Respondent's Obligation: Responses to these collections of information are mandatory or are required to obtain or retain a benefit.

Frequency of Collection: The frequency of response varies but is primarily on the occasion or as per the requirement.

Total Estimated Annual Non-hour Burden Cost: No additional non-hour costs.

The following is a brief explanation of how the proposed regulatory changes would affect the various subparts' hour and non-hour cost burdens for OMB Control Number 1010–0114.

Right-of-Use and Easement

BOEM's existing regulations concerning RUE grants for an OCS lessee and a State lessee are found in 30 CFR 550.160 through 550.166. The burdens related to 30 CFR 550.160 and 550.166 are identified in OMB Control Number 1010–0114 but accounted for in OMB Control Number 1010–0006.

Section 550.160 provides that an applicant for a RUE that serves an OCS lease must meet bonding requirements, but the regulation does not prescribe a base surety bond amount. The proposed rule would replace this requirement with a cross-reference to the specific criteria governing financial assurance demands in proposed § 550.166. Therefore, BOEM is proposing to establish a Federal RUE base financial assurance requirement matching the existing base surety bond requirement for State RUEs. The annual burden hour likely would not change since RUEs that serve OCS leases are currently already meeting bonding requirements under BOEM's agreement-specific conditions of approval. The proposed regulations will be more specific and clarify the meaning of ''meeting bonding requirements.''

BOEM is proposing to establish a $500,000 area-wide RUE financial assurance requirement for any RUE-holder that owns one or more RUEs, regardless of whether they serve a State or Federal lease. BOEM is also proposing to allow any lessee that has posted an area-wide lease surety bond to modify that lease surety bond to also cover any RUE(s) held by the same entity.

BOEM is also proposing to revise the RUE regulations to clarify that any RUE grant holder, whether the RUE serves a State or Federal lease, may be required to provide supplemental financial assurance for the RUE if the grant holders do not meet the credit rating or proxy credit rating criteria. The existing regulations authorized demands for supplemental financial assurance but specified no criteria. The annual burden hour would not change based on these clarifications.

The following is the revised burden table and a brief explanation of how the proposed regulatory changes would affect the various subparts' hour and non-hour cost burdens for OMB Control Number 1010–0006:

BILLING CODE P

Burden Table

[*Italics show expansion of existing requirements*; **bold indicates new requirements**; regular font shows current requirements. Where applicable, updated estimates from the current collection are being used instead of those in the proposed rulemaking.]

BILLING CODE C

Pipelines and Pipeline Right-of-Way Grants

Proposed § 550.1011(d) relates to BOEM's determination of whether supplemental financial assurance is necessary to ensure compliance with the obligations under a pipeline ROW grant. This determination would be based on whether pipeline ROW grant holders have the ability to carry out present and future obligations. The criteria proposed for the financial determination include an issuer credit rating or a proxy credit rating. The issuer credit rating and the audited financial information on which BOEM determines a proxy credit rating already exist. The burden of determining a proxy credit rating falls on BOEM. The annual burdens placed on the grant holder would be minimal (providing to BOEM information the grant holder already has) and would be included in the burden estimates for 30 CFR 556.901(d).

Proposed § 550.1011(d)(2) provides that BOEM would consider the issuer credit rating or proxy credit rating of a co-grant holder, because they are liable

for accrued decommissioning obligations for facilities and pipelines on their ROW. The burden for determining credit rating falls mostly on BOEM. The annual burdens placed on the grant holder would be minimal (providing to BOEM information the grant holder already has) and would be included in the burden estimates for 30 CFR 556.901(d).

Bond or Other Financial Assurance Requirements for Leases

Proposed § 556.900(a)(4) proposes to add that supplemental financial assurance required by the Regional Director must be provided before a new lease is issued or an assignment of a lease is approved. The burden increase for this requirement would be included in OMB Control Number 1010–0006. Supplemental financial assurance required by this provision would likely not significantly impact the burdens due to low occurrence, but BOEM would account for the change in the burden table.

Base Financial Assurance and Supplemental Financial Assurance

Proposed § 556.901(d) relates to BOEM's determination of whether supplemental financial assurance is necessary to ensure compliance with the obligations under a lease. New proposed § 556.901(d)(1) would base this determination on an issuer credit rating or a proxy credit rating determined by BOEM based on audited financial information.

New § 556.901(d)(2) provides that BOEM would consider the issuer credit rating or proxy credit rating of a co-lessee, and new § 556.901(d)(3) provides that BOEM would consider the net present value of proved oil and gas reserves on the lease. Lessees' submission of information on proved reserves would account for additional annual burden hours. The lessee would not need to submit proved reserve information if supplemental financial assurance is not required based on its issuer credit rating or proxy credit rating, or those of its co-lessees.

The existing OMB-approved hour burden for each respondent to prepare and submit the information for the existing evaluation criteria requirements is 3.5 hours. In this proposed rule, the revision of the evaluation criteria would likely result in requiring less time for the respondents to prepare and submit the information, particularly for issuer credit rating. If companies choose to demonstrate that the net present value of proved oil and gas reserves on the lease exceeds three times the decommissioning cost associated with production of those reserves, then the time necessary for companies to prepare and submit information on the proved oil and gas reserves would likely be greater than 3.5 hours. Therefore, BOEM proposes to retain the average 3.5-hour burden to reflect the decrease in time required to prepare and submit issuer credit ratings and audited financials and the increase in time required for preparing and submitting information on proved reserves. When the final rule becomes effective, the related burden hours for all respondents (lessee, co-lessee, grant holder, and co-grant holder) would be included in OMB Control Number 1010–0006.

The OMB-approved number of respondents who currently submit financial information under the existing provision is 166 respondents. Recently, BOEM has seen the number of leases decrease in the Gulf of Mexico. BOEM estimates the new number of respondents would be between 150 and 160 respondents. For this request, BOEM will use the higher number of 160 respondents (-6 respondents). This number will be reviewed during the next IC renewal process. When the final rule becomes effective, BOEM will include the new number of respondents in OMB Control Number 1010–0006.

The existing OMB-approved annual burden hours for § 556.901 related to demonstrating financial worth/ability to carry out present and future financial obligations is 581 hours (166 respondents $\times$ 3.5 hours). With the changes provided in the proposed rule and described above, BOEM estimates that the annual hour burden would decrease by approximately 21 annual burden hours, and total annual burden hours would be 560 hours (160 respondents $\times$ 3.5 hours). This decrease in annual burden hours would be reflected in OMB Control Number 1010–0006 when the final rule becomes effective.

BOEM proposes to add paragraph (h) to § 556.901 to establish the limited opportunity to provide the required supplemental financial assurance demanded in three installments during the first 3 years after the effective date of this regulation. This provision would establish the timing and proportions of phased supplemental financial assurance that would be required in each installment. The lessee would have the option to submit the supplemental financial assurance once or in installments. If the lessee chooses to provide supplemental financial assurance in installments, the number of submissions of supplemental financial assurance would likely increase, but only for the first 3 years after the effective date of this regulation. OMB has currently approved 45 annual burden hours for supplemental financial assurance submissions (135 submissions which take 20 minutes each to submit). BOEM estimates the burden hours for the proposed installment submissions provision to be 135 annual burden hours (405 submissions $\times$ 20 minutes), which is an increase of 90 hours over existing OMB approval.

General Requirements for Bonds and Other Financial Assurance

The scope of proposed § 556.902(a) would include ''grant holder'' and financial assurance posted under the requirements of 30 CFR part 550. This change would clarify that the same general requirements for financial assurance provided by lessees, operating rights owners, or operators also apply to financial assurance provided by RUE and pipeline ROW grant holders. BOEM proposes to keep the burdens the same as the existing OMB burdens.

Decommissioning Accounts

Proposed revisions to § 556.904 would allow the Regional Director to authorize a RUE grant holder and a pipeline ROW grant holder, as well as a lessee, to establish a decommissioning account as supplemental financial assurance required under § 556.901(d), or 550.166(b) or 550.1011(d). Because this change represents a new opportunity for grant holders, there are no existing burdens related to this provision under the current OMB approval. BOEM is capturing the requirement to establish decommissioning accounts in the burden table. BOEM estimates 24 annual burden hours for grant holders and/or lessees to establish their decommissioning account.

A new provision is proposed under § 556.904(a)(3), which would require immediate submission of a surety bond or other financial assurance in the amount equal to the remaining unsecured portion of the supplemental financial assurance demand if the initial payment or any scheduled payment into the decommissioning account is not timely made. In the context of paperwork-burden, this provision replaces the existing provision that requires submission of binding instructions. The annual burden hours will remain the same but will shift to the proposed requirement and would be reflected in OMB Control Number 1010–0006.

Third-Party Guarantees

Proposed § 556.905(a) relates to the guarantor's ability to carry out present

and future obligations. Proposed § 556.905(a)(2) would require the guarantor to submit a third-party guarantee agreement. Paragraph (d) would provide that the terms which the existing regulation requires for indemnity agreements must be included in a third-party guarantee agreement. This change is to avoid any inference that the government must incur the expenses of decommissioning before being indemnified by the guarantor. It is a change of the name of the agreement and does not change the associated burden.

Proposed § 556.905(c)(2) would eliminate the requirement that a lessee must cease production until supplemental financial assurance coverage requirements are met when a guarantor becomes unqualified. The regulatory provision would be replaced with a requirement to immediately submit and maintain a substitute surety bond or other financial assurance. Both the existing and proposed provisions require the lessee to provide replacement surety bond coverage; however, BOEM's current OMB Control Number 1010–0006 does not quantify the burdens. Therefore, BOEM would add approximately 8 annual burden hours to OMB Control Number 1010–0006 for any lessee whose guarantor became unqualified.

Proposed § 556.905(b) would remove the requirement that a guarantee ensure compliance with all lessees' or grant holders' obligations and the obligations of all operators on the lease or grant. This revision would allow a third-party guarantor to limit the obligations covered by the third-party guarantee. In some situations, this change could result in additional paperwork burden due to additional surety bonds or other financial assurance that must be provided to BOEM to cover obligations previously covered by a third-party guarantee. BOEM estimates the number of additional financial assurance demands resulting from this revision to be low and the annual burdens would be included in the existing burden estimates for OMB Control Number 1010–0006, and revised in future IC requests, if needed.

Proposed § 556.905 would replace the indemnity agreement with a third-party guarantee agreement with comparable provisions. This change would not impact annual burden hours. Proposed § 556.905(e) would provide that a lessee or grant holder and the guarantor under a third-party guarantee may request BOEM to cancel a third-party guarantee. BOEM would cancel a third-party guarantee under the same terms and conditions provided for cancellation of additional surety bonds in proposed § 556.906(d)(2). The current OMB-approved burden under §§ 556.905(d) and 556.906 is 189 annual burden hours. BOEM proposes to keep the burdens the same as the current OMB approved burdens at 189 annual burden hours.

Termination of the Period of Liability and Cancellation of Financial Assurance

Proposed § 556.906(d)(2) would be revised to add additional circumstances when BOEM may cancel supplemental financial assurance. Proposed § 556.906(d)(2) would require a cancellation request from the lessee or grant holder, or the surety, based on assertions that one of the stated circumstances is present. BOEM already receives these types of requests and has approved the requests, where warranted, as a departure from the regulations. These burdens are already counted in the existing OMB burden estimate for OMB Control Number 1010–0006.

If this proposed rule becomes effective and OMB approves the information, BOEM would revise the existing OMB control numbers to reflect the changes. The IC does not include questions of a sensitive nature. BOEM will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and DOI implementing regulations (43 CFR part 2), 30 CFR 556.104, *Information collection and proprietary information,* and 30 CFR 550.197, *Data and information to be made available to the public or for limited inspection.*

The PRA requires agencies to estimate the total annual reporting and recordkeeping non-hour cost burden resulting from the collection of information, and we solicit your comments on this item. For reporting and recordkeeping only, your response should split the cost estimate into two components: (1) total capital and startup cost component; and (2) annual operation, maintenance, and purchase of service component. Your estimates should consider the cost to generate, maintain, and disclose or provide the information. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Generally, your estimates should not include equipment or services purchased: (1) before October 1, 1995; (2) to comply with requirements not associated with the information collection; (3) for reasons other than to provide information or keep records for the Government; or (4) as part of customary and usual business or private practices.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on any aspect of this information collection, including:

(1) Is the proposed information collection necessary or useful for BOEM to properly perform its functions?

(2) Are the estimated annual burden hour increases and decreases resulting from the proposed rule reasonable?

(3) Is the estimated annual non-hour cost burden resulting from this information collection reasonable?

(4) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(5) Is there a way to minimize the information collection burden on those who must respond, such as by using appropriate automated digital, electronic, mechanical, or other forms of information technology?

Send your comments and suggestions on this information collection by the date indicated in the **DATES** section to the Desk Officer for the Department of the Interior at OMB–OIRA at (202) 395–5806 (fax) or via the *www.reginfo.gov* portal (online). You may view the information collection request(s) at *http://www.reginfo.gov/public/do/PRAMain.* Please provide a copy of your comments to the BOEM Information Collection Clearance Officer (see the **ADDRESSES** section). You may contact Anna Atkinson, BOEM Information Collection Clearance Officer at (703) 787–1025 with any questions. Please reference Risk Management, Financial Assurance and Loss Prevention (OMB Control No. 1010–0006), in your comments.

J. National Environmental Policy Act (NEPA)

A detailed environmental analysis under NEPA is not required because the proposed rule is covered by a categorical exclusion (see 43 CFR 46.205). This proposed rule meets the criteria set forth at 43 CFR 46.210(i) for a Departmental categorical exclusion in that this proposed rule is ''of an administrative, financial, legal, technical, or procedural nature.'' We have also determined that the proposed rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

K. Data Quality Act

In developing this proposed rule, we did not conduct or use a study, experiment, or survey requiring peer review under the Data Quality Act (Pub. L. 106–554, app. C, sec. 515, 114 Stat. 2763, 2763A–153–154).

L. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

Under Executive Order 13211, agencies are required to prepare and submit to OMB a Statement of Energy Effects for ''significant energy actions.'' This should include a detailed statement of any adverse effects on energy supply, distribution, or use (including a shortfall in supply, price increases, and increased use of foreign supplies) expected to result from the action and a discussion of reasonable alternatives and their effects.

This action, which is a significant regulatory action under Executive Order 12866,[19] is likely to have a significant effect on the supply, distribution, or use of energy. BOEM has prepared a Statement of Energy Effects for this action. BOEM estimates that stronger supplemental financial assurance requirements will increase compliance costs for non-investment grade companies operating on the OCS by approximately $319 million annually (7 percent discounting). Pursuant to OMB's memorandum M–01–27,[20] BOEM recognizes that this action may ''adversely affect[ ] in a material way the productivity, competition, or prices in the energy sector.'' By increasing industry compliance costs, the regulation could adversely make the U.S. offshore oil and gas sector less attractive than regions with lower operating costs. Additionally, increased costs may depress the value of offshore assets or cause continuing production to become uneconomic sooner, leading to shorter-than-otherwise useful life and potentially a loss of production. For additional discussion on the energy effects and regulatory alternatives, please refer to the IRIA for this proposal.

M. Clarity of This Regulation

BOEM is required by Executive Order 12866, Executive Order 12988, and by the Presidential memorandum of June 1, 1998, to write all rules in plain language. This means that each rule BOEM publishes must:

(1) Be logically organized;

(2) Use the active voice to address readers directly;

(3) Use clear language rather than jargon;

(4) Be divided into short sections and sentences; and

(5) Use lists and tables wherever possible.

If you feel that BOEM has not met these requirements, send comments by one of the methods listed in the **ADDRESSES** section. To better help BOEM revise the proposed rule, your comments should be as specific as possible. For example, you should specify the numbers of the sections or paragraphs that you find unclear, which sections or sentences are too long, and the sections where you feel lists or tables would be useful.

List of Subjects

30 CFR Part 550

Administrative practice and procedure, Continental shelf, Government contracts, Investigations, Mineral resources, Oil and gas exploration, Oil pollution, Outer continental shelf, Penalties, Pipelines, Public lands—rights-of-way, Reporting and recordkeeping requirements, Rights-of-way, Sulfur.

30 CFR Part 556

Administrative practice and procedure, Continental shelf, Environmental protection, Government contracts, Intergovernmental relations, Mineral resources, Oil and gas exploration, Outer continental shelf, Public lands, Reporting and recordkeeping requirements, Rights-of-way.

30 CFR Part 590

Administrative practice and procedure.

Laura Daniel-Davis,

Principal Deputy Assistant Secretary, Land and Minerals Management.

For the reasons stated in the preamble, the Bureau of Ocean Energy Management (BOEM) proposes to amend 30 CFR chapter V as follows:

PART 550—OIL AND GAS AND SULFUR OPERATIONS IN THE OUTER CONTINENTAL SHELF

■ 1. The authority citation for part 550 continues to read as follows:

Authority: 30 U.S.C. 1751; 31 U.S.C. 9701; 43 U.S.C. 1334

■ 2. Revise the heading to part 550 to read as set forth above.

Subpart A—General

■ 3. Amend § 550.101 by revising the introductory paragraph to read as follows:

§ 550.101 Authority and applicability.

The Secretary of the Interior (Secretary) authorized the Bureau of Ocean Energy Management (BOEM) to regulate oil, gas, and sulfur exploration, development, and production operations on the Outer Continental Shelf (OCS). Under the Secretary's authority, the Director requires that all operations:

* * * * *

■ 4. Amend § 550.102 by revising paragraphs (a) and (b)(16) to read as follows:

§ 550.102 What does this part do?

(a) This part contains the regulations of the BOEM Offshore program that govern oil, gas, and sulfur exploration, development, and production operations on the OCS. When you conduct operations on the OCS, you must submit requests, applications, and notices, or provide supplemental information for BOEM approval.

(b) * * *

TABLE—WHERE TO FIND INFORMATION FOR CONDUCTING OPERATIONS

For information about	Refer to
* * * * *	
(16) Sulfur operations	30 CFR part 250, subpart P.
* * * * *	

■ 5. Amend § 550.105 by:

■ a. Adding the definition ''Assign'' in alphabetical order;

■ b. Revising the definitions ''Criteria air pollutant'' and ''Development geological and geophysical (G&G) activities'';

■ c. Removing the definition ''Easement'';

■ d. Revising the definitions ''Exploration'' and ''Facility'';

■ e. Adding the definition ''Financial assurance'' in alphabetical order;

[19] According to E.O. 31211, ''For purposes of this order: (a) ''Regulation'' and ''rule'' have the same meaning as they do in Executive Order 12866 or any successor order. (b) ''Significant energy action'' means any action by an agency (normally published in the **Federal Register**) that promulgates or is expected to lead to the promulgation of a final rule or regulation, including notices of inquiry, advance notices of proposed rulemaking, and notices of proposed rulemaking: (1)(i) that is a significant regulatory action under Executive Order 12866 or any successor order,''.

[20] *https://www.whitehouse.gov/wp-content/uploads/2017/11/2001-M-01-27-Guidance-for-Implementing-E.O.-13211.pdf.*

■ d. Revising the definition ''Geological and geophysical (G&G) exploration'';
■ e. Adding the definitions ''Investment grade credit rating'' and ''Issuer credit rating'' in alphabetical order;
■ f. Revising the definitions ''Minerals'', ''Nonattainment area'', ''Pipelines'', and ''Production areas'';
■ g. Removing the definition ''Right-of-use'';
■ h. Adding the definition ''Right-of-Use and Easement (RUE)'' in alphabetical order;
■ i. Removing the definition ''Right-of-way pipelines'';
■ j. Adding the definition ''Right-of-way (ROW) pipelines'';
■ k. Adding the definition ''Transfer'' in alphabetical order;
■ l. Revising the definition ''You'';
■ m. Adding the definition ''Waste of oil, gas, or sulfur'' in alphabetical order; and
■ n. Removing the definition ''Waste of oil, gas, or sulphur.

The revisions and additions read as follows:

§ 550.105 Definitions.

* * * * *

Assign means to convey an ownership interest in an oil, gas, or sulfur lease, ROW grant or RUE grant. For the purposes of this part, ''assign'' is synonymous with ''transfer'' and the two terms are used interchangeably.

* * * * *

Criteria air pollutant means any air pollutant for which the United States Environmental Protection Agency (USEPA) has established a primary or secondary National Ambient Air Quality Standard (NAAQS) pursuant to section 109 of the Clean Air Act.

* * * * *

Development geological and geophysical (G&G) activities means those G&G and related data-gathering activities on your lease or unit that you conduct following discovery of oil, gas, or sulfur in paying quantities to detect or imply the presence of oil, gas, or sulfur in commercial quantities.

* * * * *

Exploration means the commercial search for oil, gas, or sulfur. Activities classified as exploration include but are not limited to:

(1) Geophysical and geological (G&G) surveys using magnetic, gravity, seismic reflection, seismic refraction, gas sniffers, coring, or other systems to detect or imply the presence of oil, gas, or sulfur; and

(2) Any drilling conducted for the purpose of searching for commercial quantities of oil, gas, and sulfur, including the drilling of any additional well needed to delineate any reservoir to enable the lessee to decide whether to proceed with development and production.

Facility, as used in § 550.303, means all installations or devices permanently or temporarily attached to the seabed. They include mobile offshore drilling units (MODUs), even while operating in the ''tender assist'' mode (*i.e.,* with skid-off drilling units) or other vessels engaged in drilling or downhole operations. They are used for exploration, development, and production activities for oil, gas, or sulfur and emit or have the potential to emit any air pollutant from one or more sources. They include all floating production systems (FPSs), including column-stabilized-units (CSUs); floating production, storage and offloading facilities (FPSOs); tension-leg platforms (TLPs); spars, etc. During production, multiple installations or devices are a single facility if the installations or devices are at a single site. Any vessel used to transfer production from an offshore facility is part of the facility while it is physically attached to the facility.

Financial assurance means a surety bond, a pledge of Treasury securities, a decommissioning account, a third-party guarantee, or another form of security acceptable to the BOEM Regional Director, that is used to ensure compliance with obligations under the regulations and under the terms of a lease, a RUE grant, or a pipeline ROW grant.

* * * * *

Geological and geophysical (G&G) explorations means those G&G surveys on your lease or unit that use seismic reflection, seismic refraction, magnetic, gravity, gas sniffers, coring, or other systems to detect or imply the presence of oil, gas, or sulfur in commercial quantities.

* * * * *

Investment grade credit rating means an issuer credit rating of BBB- or higher, or its equivalent, assigned to an issuer of corporate debt by a nationally recognized statistical rating organization (NRSRO) as that term defined by the United States Securities and Exchange Commission (SEC).

Issuer credit rating means a credit rating assigned to an issuer of corporate debt by Standard and Poor's (S&P) Ratings Services (or any of its subsidiaries), by Moody's Investors Service Incorporated (or any of its subsidiaries) or by another NRSRO, as that term is defined by the United States SEC.

* * * * *

Minerals include oil, gas, sulfur, geopressured-geothermal and associated resources, and all other minerals that are authorized by an Act of Congress to be produced.

* * * * *

Nonattainment area means, for any criteria air pollutant, an area which is show by monitored data or which is calculated by air quality modeling (or other methods determined by the Administrator of the USEPA to be reliable) to exceed any primary or secondary NAAQS established by the USEPA.

* * * * *

Pipelines are the piping, risers, and appurtenances installed for transporting oil, gas, sulfur, and produced waters.

* * * * *

Production areas are those areas where flammable petroleum gas, volatile liquids or sulfur are produced, processed (*e.g.,* compressed), stored, transferred (*e.g.,* pumped), or otherwise handled before entering the transportation process.

* * * * *

Right-of-Use and Easement (RUE) means a right to use a portion of the seabed, at an OCS site other than on a lease you own, to construct, secure to the seafloor, use, modify, or maintain platforms, seafloor production equipment, artificial islands, facilities, installations, or other devices to support the exploration, development, or production of oil, gas, or sulfur resources from an OCS lease or a lease on State submerged lands adjacent to or accessible from the OCS.

Right-of-way (ROW) pipelines are those pipelines that are contained within:

(1) The boundaries of a single lease or unit, but are not owned and operated by a lessee or operator of that lease or unit;

(2) The boundaries of contiguous (not cornering) leases that do not have a common lessee or operator;

(3) The boundaries of contiguous (not cornering) leases that have a common lessee or operator but are not owned and operated by that common lessee or operator; or

(4) An unleased block(s).

* * * * *

Transfer means to convey an ownership interest in an oil, gas, or sulfur lease, ROW grant or RUE grant. For the purposes of this part, ''transfer'' is synonymous with ''assign'' and the two terms are used interchangeably.

* * * * *

You, depending on the context of the regulations, means a bidder, a lessee (record title owner), a sublessee

(operating rights owner), a Federal or State RUE grant holder, a pipeline ROW grant holder, an assignor or transferor, a designated operator or agent of the lessee or grant holder, or an applicant seeking to become one of the above.

Waste of oil, gas, or sulfur means:

(1) The physical waste of oil, gas, or sulfur;

(2) The inefficient, excessive, or improper use, or the unnecessary dissipation of reservoir energy;

(3) The locating, spacing, drilling, equipping, operating, or producing of any oil, gas, or sulfur well(s) in a manner that causes or tends to cause a reduction in the quantity of oil, gas, or sulfur ultimately recoverable under prudent and proper operations or that causes or tends to cause unnecessary or excessive surface loss or destruction of oil or gas; or

(4) The inefficient storage of oil.

* * * * *

■ 6. Amend § 550.160 by

■ a. Revising the section heading;

■ b. Revising the introductory text; and

■ c. Revising paragraphs (a) introductory text, (b), and (c).

The revisions read as follows:

§ 550.160 When will BOEM grant me a right-of-use and easement (RUE), and what requirements must I meet?

BOEM may grant you a RUE on leased or unleased lands on the OCS, if you meet these requirements:

(a) You must require the RUE to construct, secure to the seafloor, use, modify, or maintain platforms, seafloor production equipment, artificial islands, facilities, installations, or other devices at an OCS site other than an OCS lease you own, that are:

* * * * *

(b) You must exercise the RUE according to the terms of the grant and the regulations of this part, as well as the regulations in 30 CFR part 250, subpart Q.

(c) You must meet the qualification requirements at 30 CFR 556.400 through 556.402 and the financial assurance requirements in § 550.166 and 30 CFR part 556, subpart I.

* * * * *

■ 7. Revise § 550.166 to read as follows:

§ 550.166 If BOEM grants me a RUE, what financial assurance must I provide?

(a) Before BOEM grants you a RUE on the OCS, you must maintain financial assurance of $500,000 that guarantees compliance with the regulations and the terms and conditions of the RUEs you hold.

(1) You are not required to submit and maintain the financial assurance of $500,000 pursuant to this paragraph (a) if you furnish and maintain area-wide lease financial assurance in excess of $500,000 pursuant to 30 CFR 556.901(a), provided that the area-wide lease financial assurance also guarantees compliance with all the terms and conditions of the RUEs you hold.

(2) The Regional Director may reduce the amount required in this paragraph (a) upon a determination that the reduced amount is sufficient to guarantee compliance with the regulations and the terms and conditions of the RUE grant.

(3) The requirements for financial assurance in 30 CFR 556.900(d) through (g) and 30 CFR 556.902 apply to the financial assurance required under this paragraph (a).

(b) If BOEM grants you a RUE that serves either an OCS lease or a State lease, the Regional Director may require supplemental financial assurance, above the amount required by paragraph (a) of this section, to ensure compliance with the obligations under your RUE grant based on an evaluation of your ability to carry out present and future obligations on the RUE using the criteria set forth in 30 CFR 556.901(d)(1) and (2). This supplemental financial assurance must:

(1) Meet the requirements of 30 CFR 556.900(d) through (g) and 30 CFR 556.902; and

(2) Cover costs and liabilities for compliance with regulations, compliance with BOEM and the Bureau of Safety and Environmental Enforcement (BSEE) orders, and well abandonment, platform and structure removal, and site clearance of the seafloor of the RUE, in accordance with the regulations at 30 CFR part 250, subpart Q.

(c) If you fail to replace any deficient financial assurance upon demand or fail to provide supplemental financial assurance upon demand, the Regional Director may:

(1) Assess penalties under subpart N of this part;

(2) Request BSEE to suspend operations on your RUE; and/or

(3) Initiate action for cancellation of your RUE grant.

■ 8. Add § 550.167 under the undesignated center heading ''Right-of-Use and Easement'' to read as follows:

§ 550.167 How may I obtain or assign my interest in a RUE?

(a) To obtain or assign a RUE, you must file an application and provide the information contained in § 550.161 and you must obtain BOEM's approval.

(b) BOEM may disapprove an assignment in the following circumstances:

(1) When the assignee has unsatisfied obligations under the regulations in this chapter or in 30 CFR chapters II or XII, or under any BOEM or BSEE order;

(2) When an assignment is not acceptable as to form or content (*e.g.,* containing incorrect legal description, not executed by a person authorized to bind the corporation, assignee does not meet the requirements of 30 CFR 556.401 through 556.405);

(3) When the assignment does not comply with or would conflict with these regulations, or any other applicable laws or regulations (*e.g.,* Departmental debarment rules);

(4) When the assignee does not meet the applicable financial assurance requirements in § 550.166 and 30 CFR 556.900 through 556.907, or an order issued thereunder, with respect to the interest being assigned.

■ 9. Amend § 550.199 by revising paragraph (b) to read as follows:

§ 550.199 Paperwork Reduction Act statements—information collection.

* * * * *

(b) Respondents are OCS oil, gas, and sulfur lessees and operators. The requirement to respond to the information collections in this part is mandated under the Act (43 U.S.C. 1331 *et seq.*) and the Act's Amendments of 1978 (43 U.S.C. 1801 *et seq.*). Some responses are also required to obtain or retain a benefit or may be voluntary. Proprietary information will be protected under § 550.197, *Data and information to be made available to the public or for limited inspection;* 30 CFR parts 551 and 552; and the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations at 43 CFR part 2.

* * * * *

Subpart J—Pipelines and Pipeline Rights-of-Way

■ 10. Revise § 550.1011 to read as follows:

§ 550.1011 Financial assurance requirements for pipeline right-of-way (ROW) grant holders.

(a) When you apply for, attempt to assign, or are the holder of a pipeline right-of-way (ROW) grant, you must furnish and maintain $300,000 of area-wide financial assurance that guarantees compliance with the regulations and the terms and conditions of all the pipeline ROW grants you hold in an OCS area as defined in 30 CFR 556.900(b). The requirement to furnish and maintain area-wide financial assurance for a pipeline ROW grant is separate and distinct from the requirement to provide financial assurance for a lease or right-of-use and easement (RUE).

(b) The requirement to furnish and maintain area-wide pipeline ROW financial assurance under paragraph (a) of this section may be satisfied if your operator or a co-grant holder provides such financial assurance in the required amount that guarantees compliance with the regulations and the terms and conditions of the grant.

(c) The requirements for lease financial assurance in 30 CFR 556.900(d) through (g) and 30 CFR 556.902 apply to the area-wide financial assurance required in paragraph (a) of this section.

(d) The Regional Director, using the criteria set forth in 30 CFR 556.901(d)(1) and (2), may require supplemental financial assurance (*i.e.,* above the amount required by paragraph (a) of this section) to ensure compliance with the obligations under your pipeline right-of-way grant based on an evaluation of your ability to carry out present and future obligations on the pipeline ROW.

(e) The supplemental financial assurance required under paragraph (d) of this section must:

(1) Meet the requirements of 30 CFR 556.900(d) through (g) and 30 CFR 556.902, and

(2) Cover costs and liabilities for regulatory compliance and compliance with BOEM and BSEE orders, decommissioning of all pipelines or other facilities, and clearance from the seafloor of all obstructions created by your pipeline ROW operations in accordance with the regulations at 30 CFR part 250, subpart Q.

(f) If you fail to replace any deficient financial assurance upon demand or fail to provide supplemental financial assurance upon demand, the Regional Director may:

(1) Assess penalties under subpart N of this part;

(2) Request BSEE to suspend operations on your pipeline ROW; and/or

(3) Initiate action for forfeiture of your pipeline ROW grant in accordance with 30 CFR 250.1013.

PART 556—LEASING OF SULFUR OR OIL AND GAS AND FINANCIAL ASSURANCE REQUIREMENTS IN THE OUTER CONTINENTAL SHELF

■ 11. The authority citation for part 556 is revised to read as follows:

Authority: 31 U.S.C. 9701; 42 U.S.C. 6213; 43 U.S.C. 1334.

■ 12. Revise the heading to part 556 to read as set forth above.

Subpart A—General Provisions

■ 13. Amend § 556.105 by:

■ a. In paragraph (a), removing the acronym ''EPA''; and

■ b. In paragraph (b):

■ i. Adding the definition ''Assign'' in alphabetical order;

■ ii. Revising the definition ''Eastern Planning Area'';

■ iii. Adding the definitions ''Financial assurance'', ''Investment grade credit rating'', and ''Issuer credit rating'' in alphabetical order;

■ iv. Revising the definition ''Right-of-Use and Easement (RUE)'';

■ v. Removing the definition ''Security or securities'';

■ vi. Adding the definition ''Transfer''; and

■ vii. Revising the definition ''You''.

The revisions and additions read as follows:

§ 556.105 Acronyms and definitions.

* * * * *

(b) * * *

Assign means to convey an ownership interest in an oil, gas, or sulfur lease, ROW grant or RUE grant. For the purposes of this part, ''assign'' is synonymous with ''transfer'' and the two terms are used interchangeably.

* * * * *

Eastern Planning Area means that portion of the Gulf of Mexico that lies southerly and westerly of Florida.

* * * * *

Financial assurance means a surety bond, a pledge of Treasury securities, a decommissioning account, a third-party guarantee, or another form of security acceptable to the BOEM Regional Director, that is used to ensure compliance with obligations under the regulations and under the terms of a lease, a RUE grant, or a pipeline ROW grant.

* * * * *

Investment grade credit rating means an issuer credit rating of BBB − or higher, or its equivalent, assigned to an issuer of corporate debt by a nationally recognized statistical rating organization (NRSRO) as that term defined by the United States Securities and Exchange Commission (SEC).

* * * * *

Issuer credit rating means a credit rating assigned to an issuer of corporate debt by Standard and Poor's (S&P) Rating Services (or any of its subsidiaries), by Moody's Investors Service Incorporated (or any of its subsidiaries), or by another NRSRO as that term is defined by the United States SEC.

* * * * *

Right-of-Use and Easement (RUE) means a right to use a portion of the seabed at an OCS site other than on a lease you own, to construct, secure to the seafloor, use, modify, or maintain platforms, seafloor production equipment, artificial islands, facilities, installations, or other devices to support the exploration, development, or production of oil, gas, or sulfur resources from an OCS lease or a lease on State submerged lands adjacent to or accessible from the OCS.

* * * * *

Transfer means to convey an ownership interest in an oil, gas, or sulfur lease, ROW grant or RUE grant. For the purposes of this part, ''transfer'' is synonymous with ''assign'' and the two terms are used interchangeably.

* * * * *

You, depending on the context of the regulations, means a bidder, a lessee (record title owner), a sublessee (operating rights owner), a Federal or State RUE grant holder, a pipeline ROW grant holder, an assignor or transferor, a designated operator or agent of the lessee or grant holder, or an applicant seeking to become one of the above.

Subpart G—Transferring All or Part of the Record Title Interest in a Lease

■ 14. Amend § 556.704 by revising the section heading, and paragraphs (a) introductory text and (a)(1) to read as follows:

§ 556.704 When may BOEM disapprove an assignment or sublease of an interest in my lease?

(a) BOEM may disapprove an assignment or sublease of all or part of your lease interest(s):

(1) When the transferor, transferee, or sublessee is not in compliance with all applicable regulations and orders, including financial assurance requirements;

* * * * *

Subpart H—Transferring All or Part of the Operating Rights in a Lease

■ 15. Amend § 556.802 by revising the section heading, introductory text, and paragraph (a) to read as follows:

§ 556.802 When may BOEM disapprove the transfer of all or part of my operating rights interest?

BOEM may disapprove a transfer of all or part of your operating rights interest:

(a) When the transferee is not in compliance with all applicable regulations and orders, including financial assurance requirements;

* * * * *

Subpart I—Bonding or Other Financial Assurance

■ 16. Amend § 556.900 by:
■ a. Revising the section heading and introductory text;
■ b. Revising paragraph (a)(3), and adding paragraph (a)(4);
■ c. Revising paragraphs (g) introductory text and (h); and
■ d. Adding paragraph (i).

The revisions and additions read as follows:

§ 556.900 Financial assurance requirements for an oil and gas or sulfur lease.

This section establishes financial assurance requirements for the lessee of an OCS oil and gas or sulfur lease.

(a) * * *

(3) Maintain a lease or area-wide bond in the amount required in § 556.901(a) or (b); and

(4) Provide any supplemental financial assurance required by the Regional Director.

* * * * *

(g) You may provide alternative types of financial assurance instead of providing a surety bond if the Regional Director determines that the alternative financial assurance protects the interests of the United States to the same extent as a surety bond.

* * * * *

(h) If you fail to replace deficient financial assurance or to provide supplemental financial assurance upon demand, the Regional Director may:

(1) Assess penalties under part 550, subpart N of this subchapter;

(2) Request BSEE to suspend production and other operations on your lease in accordance with 30 CFR 250.173; and/or

(3) Initiate action to cancel your lease.

(i) In the event you amend your area-wide surety bond covering lease obligations, or obtain a new area-wide lease surety bond, to cover the financial assurance requirements for any RUE(s), your area-wide lease surety bond may be called in whole or in part to cover any or all the obligations on which you default that are associated with your RUE(s) located in the area covered by such area-wide lease surety bond.

■ 17. Amend § 556.901 by:
■ a. Revising the section heading;
■ b. Revising paragraphs (a) introductory text and (a)(1)(i);
■ c. Revising paragraphs (b) introductory text and (b)(1)(i);
■ d. Revising paragraphs (c) through (f); and
■ e. Adding paragraphs (g) and (h).

The revisions and additions read as follows:

§ 556.901 Base financial assurance and supplemental financial assurance.

(a) This paragraph (a) explains what financial assurance you must provide before lease exploration activities commence.

(1) * * *

(i) You must furnish the Regional Director $200,000 in lease exploration financial assurance that guarantees compliance with all the terms and conditions of the lease by the earliest of:

* * * * *

(b) This paragraph (b) explains what financial assurance you must provide before lease development and production activities commence.

(1) * * *

(i) You must furnish the Regional Director $500,000 in lease development financial assurance that guarantees compliance with all the terms and conditions of the lease by the earliest of:

* * * * *

(c) If you can demonstrate to the satisfaction of the Regional Director that you can satisfy your decommissioning and other lease obligations for less than the amount of financial assurance required under paragraphs (a)(1) or (b)(1) of this section, the Regional Director may accept financial assurance in an amount less than the prescribed amount but not less than the amount of the cost for decommissioning.

(d) The Regional Director may determine that supplemental financial assurance (*i.e.,* financial assurance above the amounts prescribed in 30 CFR 550.166(a), 30 CFR 550.1011(a), § 556.900(a) or paragraphs (a) and (b) of this section) is required to ensure compliance with your lease obligations, including decommissioning obligations; the regulations in this chapter; and the regulations in 30 CFR chapters II and XII. The Regional Director may require you to provide supplemental financial assurance if you do not meet at least one of the following criteria:

(1) You have an Investment grade issuer credit rating. If any SEC-recognized NRSRO provides a credit rating that differs from any other SEC-recognized NRSRO credit rating, BOEM will apply the highest rating for the purposes of determining your financial assurance requirements.

(2) You have a proxy credit rating determined by the Regional Director, which must be based on audited financial information for the most recent fiscal year (which must include an income statement, balance sheet, statement of cash flows, and the auditor's certificate).

(i) The audited financial information for your most recent fiscal year must cover a continuous twelve-month period within the twenty-four-month period prior to the lessee's receipt of the Regional Director's determination that you must provide supplemental financial assurance.

(ii) In determining your proxy credit rating, the Regional Director may include the value of the contingent liabilities associated with any lease(s) or grants in which you have an ownership interest. Upon the request of the Regional Director, you must provide the information that the Regional Director determines is necessary to properly evaluate your contingent liabilities, including joint ownership interests and liabilities associated with your OCS leases and grants.

(3) Your co-lessee or co-grant-holder has an issuer credit rating or a proxy credit rating that meets the criteria set forth in paragraph (d)(1) of this section; however, the Regional Director may require you to provide supplemental financial assurance for decommissioning obligations for which such co-lessee or co-grant-holder is not liable.

(4) There are proved oil and gas reserves on the lease, as defined by the SEC Regulation S–X at 17 CFR 210.4–10 and SEC Regulation S–K at 17 CFR 229.1200, the value of which exceeds three times the estimated cost of the decommissioning associated with the production of those reserves, and that value must be based on reserve reports submitted to the Regional Director and reported on a per-lease basis. BOEM will determine the decommissioning costs associated with the production of your reserves on a per-lease basis, and will use the following decommissioning cost estimates:

(i) Where BSEE-generated probabilistic estimates are available, BOEM will use the estimate at the level at which there is a 70 percent probability that the actual cost of decommissioning will be less than the estimate (P70).

(ii) If there is no BSEE probabilistic estimate available, BOEM will use the BSEE-generated deterministic estimate.

(e) You may satisfy the Regional Director's demand for supplemental financial assurance by increasing the amount of your existing financial assurance or providing additional surety bonds or other types of acceptable financial assurance.

(f) The Regional Director will determine the amount of supplemental financial assurance required to guarantee compliance. In making this determination, the Regional Director will consider potential underpayment of royalty and cumulative

decommissioning obligations using the methodology set forth in paragraph (d)(3) of this section.

(g) If your cumulative potential obligations and liabilities either increase or decrease, the Regional Director may adjust the amount of supplemental financial assurance required.

(1) If the Regional Director proposes an adjustment, the Regional Director will:

(i) Notify you and your financial assurance provider of any proposed adjustment to the amount of financial assurance required; and

(ii) Give you an opportunity to submit written or oral comment on the adjustment.

(2) If you request a reduction of the amount of supplemental financial assurance required, or oppose the amount of a proposed adjustment, you must submit evidence to the Regional Director demonstrating that the projected amount of royalties due to the United States Government and the estimated costs of decommissioning are less than the required financial assurance amount. Upon review of your submission, the Regional Director may reduce the amount of financial assurance required.

(h) At any time during the first three years from the effective date of this regulation, you may request that the Regional Director allow you to provide, in three equal installments payable according to the schedule provided under this paragraph (h), the full amount of supplemental financial assurance required.

(1) If the Regional Director allows you to provide the amount required on such a phased basis, you must comply with the following:

(i) You must provide the initial one-third of the total supplemental financial assurance required within the timeframe specified in the demand letter or, if no timeframe is specified, within 60 calendar days of the date of receipt of the demand letter.

(ii) You must provide the second one-third of the required supplemental financial assurance to BOEM within 24 months of the date of receipt of the demand letter.

(iii) You must provide the final one-third of the required supplemental financial assurance to BOEM within 36 months of the date of receipt of the demand letter.

(2) If the Regional Director allows you to meet your supplemental financial assurance requirement in a phased manner, as set forth in this section, and you fail to timely provide the required supplemental financial assurance to BOEM, the Regional Director will notify you of such failure. You will no longer be eligible to meet your supplemental financial assurance requirement in the manner prescribed in this paragraph (h), and the remaining amount due will become due 10-calendar days after such notification is received.

■ 18. Amend § 556.902 by revising the section heading, paragraphs (a) and (e)(2), and adding paragraphs (g) and (h) to read as follows:

§ 556.902 General requirements for bonds or other financial assurance.

(a) Any surety bond or other financial assurance that you, as record title owner, operating rights owner, grant holder, or operator, provide under this part, or under 30 CFR part 550, must:

(1) Be payable upon demand to the Regional Director;

(2) Guarantee compliance with all your obligations under the lease or grant, the regulations under 30 CFR chapters II and XII, and all BOEM and BSEE orders; and

(3) Guarantee compliance with the obligations of all record title owners, operating rights owners, and operators on the lease, and all grant-holders on a grant.

* * * * *

(e) * * *

(2) A pledge of Treasury securities as provided in § 556.900(f).

* * * * *

(g) If you believe that BOEM's supplemental financial assurance demand is unjustified, you may request an informal resolution of your dispute in accordance with the requirements of 30 CFR 590.6. Your request for an informal resolution will not affect your right to request to meet your supplemental financial assurance requirement in a phased manner under § 556.901(h).

(h) You may file an appeal of a supplemental financial assurance demand with the Interior Board of Land Appeals (IBLA) pursuant to the regulations in 30 CFR part 590. However, if you request that the IBLA stay the demand pending a final ruling on your appeal, you must post an appeal surety bond equal to the amount of the demand that you seek to stay before any such stay is effective.

■ 19. Revise § 556.903 to read as follows:

§ 556.903 Lapse of financial assurance.

(a) If your surety, guarantor, or the financial institution holding or providing your financial assurance becomes bankrupt or insolvent, or has its charter or license suspended or revoked, any financial assurance coverage from such surety, guarantor, or financial institution must be replaced. You must notify the Regional Director within 7 calendar days of learning of such event, and, within 30 calendar days of learning of such event, you must provide other financial assurance from a different financial assurance provider in the amount required under §§ 556.900, 556.901, 30 CFR 550.166, or 30 CFR 550.1011.

(b) You must notify the Regional Director within 72 hours of learning of any action filed alleging that you are insolvent or bankrupt or that your surety, guarantor, or financial institution is insolvent or bankrupt or has had its charter or license suspended or revoked. All surety bonds or other financial assurance must require the surety, guarantor, or financial institution to timely provide this required notification both to you and directly to BOEM.

■ 20. Revise § 556.904 to read as follows:

§ 556.904 Decommissioning accounts.

(a) The Regional Director may authorize you to establish a decommissioning account(s) in a federally insured financial institution to satisfy a supplemental financial assurance demand made pursuant to § 556.901(d), 30 CFR 550.166(b) or 30 CFR 550.1011(d). The decommissioning account must be set up in such a manner that funds may not be withdrawn without the written approval of the Regional Director.

(1) Funds in the account must be pledged to meet your decommissioning obligations and payable upon demand to BOEM.

(2) You must fully fund the account, pursuant to a schedule that the Regional Director prescribes, to cover all decommissioning costs estimated by BSEE.

(3) If you fail to make the initial payment or any scheduled payment into the decommissioning account, you must immediately submit, and subsequently maintain, a surety bond or other financial assurance in an amount equal to the remaining unfulfilled portion of the supplemental financial assurance demand.

(b) Any interest paid on funds in a decommissioning account will become part of the principal funds in the account unless the Regional Director authorizes in writing the payment of the interest to the party who deposits the funds.

(c) The Regional Director may require you to create an overriding royalty, production payment obligation, or other revenue stream for the benefit of an account established as financial

assurance for the decommissioning of your lease(s) or RUE or pipeline right-of-way grant(s). The required obligation may be associated with oil and gas or sulfur production from a lease other than a lease or grant secured through the decommissioning account.

(d) BOEM may provide funds from the decommissioning account to the liable party that performs the decommissioning to cover the costs thereof.

■ 21. Revise § 556.905 to read as follows:

§ 556.905 Third-party guarantees.

(a) The Regional Director may accept a third-party guarantee to satisfy a supplemental financial assurance demand made pursuant to § 556.901(d), 30 CFR 550.166(b), or 30 CFR 550.1011(d), if:

(1) The guarantor meets the credit rating or proxy credit rating criterion set forth in § 556.901(d)(1); and

(2) The guarantor or guaranteed party submits a third-party guarantee agreement containing each of the provisions in paragraph (d) of this section.

(b) A third-party guarantor may limit its cumulative obligations to a fixed dollar amount as agreed to by BOEM at the time the third-party guarantee is provided.

(c) If, during the life of your third-party guarantee, your guarantor no longer meets the criterion referred to in paragraph (a)(1) of this section, you must, within 72 hours of so learning:

(1) Notify the Regional Director; and

(2) Submit, and subsequently maintain a surety bond or other financial assurance covering those obligations previously secured by the third-party guarantee.

(d) Your third-party guarantee must contain each of the following provisions:

(1) If you fail to comply with the terms of any lease or grant covered by the guarantee, or any applicable regulation, your guarantor must either:

(i) Take corrective action to bring the lease or grant into compliance with its terms or any applicable regulation, to the extent covered by the guarantee; or

(ii) Be liable under the third-party guarantee agreement to provide, within seven calendar days, sufficient funds for the Regional Director to complete such corrective action to the extent covered by the guarantee. Such payment does not result in the cancellation of the guarantee, and instead reduces the remaining value of the guarantee in an amount equal to the payment.

(2) If your guarantor wishes to terminate the period of liability under its guarantee, it must:

(i) Notify you and the Regional Director at least 90-calendar days before the proposed termination date;

(ii) Obtain the Regional Director's approval for the termination of the period of liability for all or a specified portion of the guarantee; and

(iii) Remain liable for all liabilities that accrued prior to the termination and responsible for all work and workmanship performed during the period of liability.

(3) Before the termination of the period of liability of the third-party guarantee, you must provide acceptable replacement financial assurance.

(e) If you or your guarantor request BOEM to cancel your third-party guarantee, BOEM will cancel the guarantee under the same terms and conditions provided for cancellation of supplemental financial assurance and return of pledged financial assurance in § 556.906, paragraphs (b) and/or (d)(3).

(f) The guarantor or guaranteed party must submit a third-party guarantee agreement that meets the following criteria:

(1) The third-party guarantee agreement must be executed by your guarantor and all persons and parties bound by the agreement.

(2) The third-party guarantee agreement must bind, jointly and severally, each person and party executing the agreement.

(3) When your guarantor is a corporate entity, two corporate officers who are authorized to bind the corporation must sign the third-party guarantee agreement.

(g) Your corporate guarantor and any other corporate entities bound by the third-party guarantee agreement must provide the Regional Director copies of:

(1) The authorization of the signatory corporate officials to bind their respective corporations;

(2) An affidavit certifying that the agreement is valid under all applicable laws; and

(3) Each corporation's corporate authorization to execute the third-party guarantee agreement.

(h) If your third-party guarantor or another party bound by the third-party guarantee agreement is a partnership, joint venture, or syndicate, the third-party guarantee agreement must:

(1) Bind each partner or party who has a beneficial interest in your guarantor; and

(2) Provide that each member of the partnership, joint venture, or syndicate is jointly and severally liable for those obligations secured by the guarantee.

(i) When forfeiture is called for under § 556.907, the third-party guarantee agreement must provide that your guarantor will either:

(1) Take corrective action to bring your lease or grant into compliance with its terms, and the regulations, to the extent covered by the guarantee; or

(2) Provide sufficient funds within seven calendar days to permit the Regional Director to complete such corrective action to the extent covered by the guarantee.

(j) The third-party guarantee agreement must contain a confession of judgment. It must provide that, if the Regional Director determines that you are in default of the lease or grant covered by the guarantee or not in compliance with any regulation applicable to such lease or grant, the guarantor:

(1) Will not challenge the determination; and

(2) Will remedy the default to the extent covered by the guarantee.

(k) Each third-party guarantee agreement is deemed to contain all terms and conditions contained in paragraphs (d), (f), and (j) of this section, even if the guarantor has omitted these terms from the third-party guarantee agreement.

■ 22. Revise § 556.906 to read as follows:

§ 556.906 Termination of the period of liability and cancellation of financial assurance.

This section defines the terms and conditions under which BOEM will terminate the period of liability of financial assurance. Terminating the period of liability ends the period during which obligations continue to accrue, but does not relieve the financial assurance provider of the responsibility for obligations that accrued during the period of liability. Canceling a financial assurance instrument relieves the financial assurance provider of all liability. The liabilities that accrue during a period of liability include obligations that started to accrue prior to the beginning of the period of liability and had not been met, and obligations that begin accruing during the period of liability.

(a) When you or your financial assurance provider request termination:

(1) The Regional Director will terminate the period of liability under your financial assurance within 90 calendar days after BOEM receives the request; and

(2) If you intend to continue operations, or have not met all decommissioning obligations, you must provide replacement financial assurance of an equivalent amount.

(b) If you provide replacement financial assurance, the Regional Director will cancel your previous

financial assurance and the previous financial assurance provider will not retain any liability, provided that:

(1) The amount of the new financial assurance is equal to or greater than that of the financial assurance that was cancelled, or you provide an alternative form of financial assurance, and the Regional Director determines that the alternative form of financial assurance provides a level of security equal to or greater than that provided by the financial assurance that was cancelled;

(2) For financial assurance submitted under § 556.900(a), § 556.901(a) or (b), 30 CFR 550.166(a), or 30 CFR 550.1011(a) the new financial assurance provider agrees to assume all outstanding obligations that accrued during the period of liability that was terminated; and

(3) For supplemental financial assurance submitted under § 556.901(d), 30 CFR 550.166(b), or 30 CFR 550.1011(d), the issuer of such financial assurance agrees to assume that portion of the outstanding obligations that accrued during the period of liability that was terminated and that the Regional Director determines may exceed the coverage of the base financial assurance. The Regional Director will notify the provider of the new financial assurance of the amount required.

(c) This paragraph (c) applies if the period of liability is terminated, but the financial assurance is not replaced with an equivalent amount. The financial assurance provider will continue to be responsible for accrued obligations:

(1) Until the obligations are satisfied; and

(2) For additional periods of time in accordance with paragraph (d) of this section.

(d) BOEM will cancel the financial assurance for your lease or grant, and the Regional Director will return any pledged financial assurance, as shown in the following:

TABLE 1 TO PARAGRAPH (d)

For the following:	Your financial assurance will be reduced or cancelled, or your pledged financial assurance will be returned:
(1) Financial assurance submitted under § 556.900(a), § 556.901(a) or (b), 30 CFR 550.166(a), or 30 CFR 550.1011(a).	7 years after the lease or grant expires or is terminated, 6 years after the Regional Director determines that you have completed all covered obligations, or at the conclusion of any appeals or litigation related to your covered obligations, whichever is the latest. The Regional Director will reduce the amount of your financial assurance or return a portion of your pledged financial assurance if the Regional Director determines that you need less than the full amount of the financial assurance or pledged financial assurance to cover any potential obligations.
(2) Financial assurance submitted under § 556.901(d), 30 CFR 550.166(a), or 30 CFR 550.1011(d).	(i) When the lease or grant expires or is terminated and the Regional Director determines you have met your covered obligations, unless the Regional Director: (A) Determines that the future potential liability resulting from any undetected problem is greater than the amount of the financial assurance submitted under § 556.900(a), § 556.901(a) or (b), 30 CFR 550.166(a), or 30 CFR 550.1011(a); and (B) Notifies the provider of financial assurance submitted under § 556.901(d), 30 CFR 550.166(b), or 30 CFR 550.1011(d) that the Regional Director will wait 7 years before canceling all or a part of such financial assurance (or longer period as necessary to complete any appeals or judicial litigation related to your secured obligations). (ii) At any time when: (A) BOEM has determined, using the criteria set forth in § 556.901(d)(1) of this part, as applicable, that you no longer need to provide the supplemental financial assurance for your lease, RUE grant, or pipeline ROW grant. (B) The operations for which the supplemental financial assurance was provided ceased prior to accrual of any decommissioning obligation; or, (C) Cancellation of the financial assurance is appropriate because, under the regulations, BOEM determines such financial assurance never should have been required.
(3) Third-party Guarantee under § 556.901(d), 30 CFR 550.166(b), or 30 CFR 550.1011(d).	When the Regional Director determines you have met your obligations secured by the guarantee (or longer period as necessary to complete any appeals or judicial litigation related to your obligations secured by the guarantee).

(e) For all financial assurance, the Regional Director may reinstate your financial assurance as if no cancellation had occurred if:

(1) A person makes a payment under the lease, RUE grant, or pipeline ROW grant, and the payment is rescinded or must be returned by the recipient because the person making the payment is insolvent, bankrupt, subject to reorganization, or placed in receivership; or,

(2) The responsible party represents to BOEM that it has discharged its obligations under the lease, RUE grant, or pipeline ROW grant and the representation was materially false when the financial assurance was cancelled.

■ 23. Revise § 556.907 to read as follows:

§ 556.907 Forfeiture of bonds or other financial assurance.

This section explains how a bond or other financial assurance may be forfeited.

(a) The Regional Director will call for forfeiture of all or part of the bond, or other form of financial assurance, including a guarantee you provide under this part, if:

(1) You, or any party with the obligation to comply refuse to comply with any term or condition of your lease, RUE grant, pipeline ROW grant, or any applicable regulation, or the Regional Director determines that you are unable to so comply; or

(2) You default on one of the conditions under which the Regional Director accepts your bond, third-party guarantee, and/or other form of financial assurance.

(b) The Regional Director may pursue forfeiture of your surety bond or other financial assurance without first making demands for performance against any other record title owner, operating rights owner, grant holder, or other person

authorized to perform lease or grant obligations.

(c) The Regional Director will:

(1) Notify you, your surety, guarantor, or the financial institution holding or providing your financial assurance, of a determination to call for forfeiture of your financial assurance, whether it takes the form of a surety bond, guarantee, funds, or other type of financial assurance.

(i) This notice will be in writing and will provide the reason for the forfeiture and the amount to be forfeited.

(ii) The Regional Director will determine the amount to be forfeited based upon an estimate of the total cost of corrective action to bring your lease or grant into compliance, subject in the case of a guarantee to any limitation in the guarantee authorized by § 556.902(a)(3).

(2) Advise you and your financial assurance provider that forfeiture may be avoided if, within five business days:

(i) You agree to and demonstrate that you will bring your lease or grant into compliance within the timeframe the Regional Director prescribes; or

(ii) The provider of your financial assurance agrees to and demonstrates that it will complete the corrective action to bring your lease or grant into compliance within the timeframe the Regional Director prescribes, even if the cost of compliance exceeds the amount of that financial assurance.

(d) If the Regional Director finds you are in default, the Regional Director may cause the forfeiture of any financial assurance provided to ensure your compliance with the terms and conditions of your lease or grant and the regulations in this chapter and 30 CFR chapters II and XII.

(e) If the Regional Director determines that your financial assurance is forfeited, the Regional Director will:

(1) Collect the forfeited amount; and

(2) Use the funds collected to bring your lease or grant into compliance and to correct any default.

(f) If the amount the Regional Director collects under your financial assurance is insufficient to pay the full cost of corrective actions, the Regional Director may:

(1) Take or direct action to obtain full compliance with your lease or grant and the regulations in this chapter; and

(2) Recover from you, any co-lessee, operating rights owner, grant holder or, to the extent covered by the guarantee, any third-party guarantor responsible under this subpart, all costs in excess of the amount the Regional Director collects under your forfeited financial assurance.

(g) If the amount that the Regional Director collects under your forfeited financial assurance exceeds the cost of taking the corrective action required to bring your lease or grant into compliance with its terms and the regulations in this chapter and 30 CFR chapters II and XII, the Regional Director will return the excess funds to the party from whom they were collected.

(h) The Regional Director may pay the funds from the forfeited financial assurance to a co- or predecessor lessee or third party who is taking the corrective action required to obtain partial or full compliance with the regulations and the terms of your lease or grant.

Subchapter C—Appeals

PART 590—APPEAL PROCEDURES

■ 24. The authority citation for part 590 continues to read as follows:

Authority: 5 U.S.C. 301 *et seq.;* 31 U.S.C. 9701; 43 U.S.C. 1334.

Subpart A—Offshore Minerals Management Appeal Procedures

■ 25. Amend § 590.4 by adding paragraph (c) to read as follows:

§ 590.4 How do I file an appeal?

* * * * *

(c) You may file an appeal of a BOEM supplemental financial assurance demand with the IBLA. However, if you request that the IBLA stay the demand pending a final ruling on your appeal, you must post an appeal surety bond equal to the amount of the demand that you seek to stay before any such stay is effective.

Part III

Federal Trade Commission

16 CFR Parts 801 and 803
Premerger Notification; Reporting and Waiting Period Requirements; Proposed Rule

FEDERAL TRADE COMMISSION

16 CFR Parts 801 and 803

RIN 3084–AB46

Premerger Notification; Reporting and Waiting Period Requirements

AGENCY: Federal Trade Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Pursuant to Section 7A(d) of the Clayton Act, the Federal Trade Commission (''FTC'' or ''Commission'') is proposing amendments to the premerger notification rules (''the Rules'') that implement the Hart-Scott-Rodino Antitrust Improvements Act (''the Act'' or ''HSR'') and to the Premerger Notification and Report Form (the ''Form'') and Instructions (''Instructions''). These proposed changes would result in a redesign of the premerger notification process through both a reorganization of the information currently required and the addition of new information and document requirements. In addition, these changes would implement the Merger Filing Fee Modernization Act of 2022. The proposed amendments would involve changes to both the Rules and the Instructions, and the Commission proposes explanatory and ministerial changes to the Rules as well as necessary amendments to the Instructions to effect the proposed changes.

DATES: Comments must be received on or before August 28, 2023.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Invitation to Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write ''16 CFR Parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300'' on your comment. File your comment online at *https://www.regulations.gov/* by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Suite CC–5610, (Annex H), Washington, DC 20580.

SUPPLEMENTARY INFORMATION:

Overview

The Act and Rules currently require the parties to certain mergers and acquisitions to submit premerger notification filings (''HSR Filings'') to the Commission and to the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice (''the Assistant Attorney General'') (collectively, ''the Agencies''), and to wait a short period of time before consummating such transactions. The reporting and waiting period requirements are intended to enable the Agencies to determine whether a proposed merger or acquisition may violate the antitrust laws, including Section 7 of the Clayton Act, 15 U.S.C. 18, if consummated and, when appropriate, to seek an injunction in federal court in order to enjoin anticompetitive acquisitions prior to consummation.

Section 7A(d)(1) of the Clayton Act, 15 U.S.C. 18a(d)(1), directs the Commission, with the concurrence of the Assistant Attorney General, in accordance with the Administrative Procedure Act, 5 U.S.C. 553, to require that premerger notification be in such form and contain such information and documentary material as may be necessary and appropriate to determine whether the proposed transaction may, if consummated, violate the antitrust laws. In addition, Section 7A(d)(2) of the Clayton Act, 15 U.S.C. 18a(d)(2), grants the Commission, with the concurrence of the Assistant Attorney General, in accordance with 5 U.S.C. 553, the authority to define the terms used in the Act, exempt classes of transactions that are not likely to violate the antitrust laws, and prescribe such other rules as may be necessary and appropriate to carry out the purposes of Section 7A.

In this notice of proposed rulemaking (''NPRM''), the Commission proposes amending the Rules (Part 801 and Part 803 and its appendices), the Form, and the Instructions to reorganize the information currently required with an HSR Filing and to require additional information critical to the Agencies' initial review. These changes would improve the efficiency and effectiveness of that initial review by providing the information the Agencies need to identify during the initial 30-day waiting period any transaction that may pose competition concerns and potentially narrow the scope of any investigation or reduce the need to conduct a more in-depth investigation of the proposed transaction. These amendments also incorporate the changes to implement the collection of information mandated by the Merger Filing Fee Modernization Act of 2022 (''2022 Amendments'') contained within the Consolidated Appropriations Act, 2023 (Pub. L. 117–328, 136 Stat. 4459) to Section 7(a) of the Clayton Act, 15 U.S.C. 18a. Finally, the Commission proposes explanatory and ministerial changes to the Rules as well as necessary amendments to the Instructions to effect the proposed changes.

Background

The premerger notification program is designed to provide the Commission and the Assistant Attorney General with the information and documentary material necessary and appropriate for an initial evaluation of the potential anticompetitive impact of transactions. The HSR premerger notification program is an essential tool for effective and efficient merger enforcement because it enables the Agencies to investigate acquisitions that may substantially lessen competition or tend to create a monopoly in violation of Section 7 of the Clayton Act and to challenge them before they are consummated and the businesses of the two companies are ''scrambled'' or integrated such that effective post-merger relief is much more difficult. Congress intended that premerger review would ''strengthen the enforcement of Section 7 by giving the government antitrust agencies a fair and reasonable opportunity to detect and investigate large mergers of questionable legality before they are consummated.'' [1] Premerger notification and review, including a mandatory waiting period during which they cannot consummate the transaction, gives the Agencies the procedural tools necessary to seek to prevent mergers in court before they cause harm or the operations of the firms become so integrated that the premerger state of competition cannot be restored.

The HSR Act and Rules specify that transactions subject to the HSR Act cannot be consummated until 30 days for most transactions (cash tender offers and certain types of bankruptcies observe a 15-day waiting period) [2] after the parties submit an HSR Filing to the Agencies. These statutory deadlines for conducting an initial review are extraordinarily short, and the Agencies must work quickly to determine whether to take steps to prevent the consummation of potentially anticompetitive transactions. During the initial waiting period, the FTC's

[1] H.R. Rep. No. 94–1373 at 5 (1976).

[2] 15 U.S.C. 18a(b)(1)(B); 11 U.S.C. 363(b)(2).

Premerger Notification Office (''PNO'') staff must review each HSR Filing to ensure it complies with the HSR Rules. Staff at both Agencies initially review the information and documents for substantive antitrust concerns, identify and assess the relevant facts, conduct a preliminary antitrust analysis, form preliminary recommendations regarding the investigation's direction, and communicate those recommendations within each Agency. As staff formulate recommendations, they must also initiate clearance from the other agency for those transactions that merit collection of additional information to avoid any duplication of effort and ensure that only one agency investigates the transaction. Senior leadership at the investigating agency must review staff's recommendations and determine whether to issue a Request for Additional Information (''Second Request''),[3] which starts the second phase of the agency's merger investigation. If there are other jurisdictions investigating, Agency staff coordinate with relevant state Attorneys General or international counterparts. All of this must happen during the initial waiting period, which is typically 30 days.

Given the large number of HSR Filings submitted each year, the Agencies must use their resources efficiently and effectively to focus primarily on transactions that may harm competition. Information submitted as part of the HSR premerger notification process is a key starting point, and the information contained in the HSR Filing should be sufficient to allow the Agencies to conduct a thorough but quick evaluation of whether the proposed transaction is one that requires more in-depth investigation through the issuance of Second Requests.

However, after a comprehensive review of the premerger notification process and based on the Agencies' experience conducting in-depth investigations of challenged mergers, the Commission believes that the information currently reported in an HSR Filing is insufficient. In fact, the challenges of premerger review have expanded considerably over time as result of several factors. First, there has been tremendous growth in sectors of the economy that rely on technology and digital platforms to conduct business and, given the dynamic nature of these markets and the importance of acquisition strategies to success and market growth, mergers and acquisitions in these sectors present a unique challenge for the Agencies.[4] In these sectors, some transactions involve firms whose premerger relationship is not clearly horizontal or vertical; rather, merger activity in these sectors increasingly involves firms in related business lines where the Agencies must closely examine the potential for direct competition in the future.

In addition, the very nature of HSR-reportable transactions has become more complex over time. Transaction structures have evolved to include not only the Ultimate Parent Entity (UPE) and its acquiring entity,[5] but also other entities within the acquiring person. For instance, there can be numerous entities between the UPE and acquiring entity, and other investors can have a stake in any one of these entities. As a result, these investors could have a direct role in effectuating the transaction. Individuals or entities other than the those directly involved in the transaction may be able to exert influence over the transaction as well. The existence of subsidies or loans, among other means, may subject the buyer to additional pressures from individuals or entities not directly a party to the reportable transaction. Indeed, the use of board observers has become a more frequent way for outside players to gain direct access to company strategy. Each of these factors can affect a transaction's impact on the competitive landscape.

Consistent with this concern, the Commission's NPRM also proposes changes to implement the collection of information about certain subsidies, as mandated by the 2022 Amendments. Congress determined that foreign subsidies can distort the competitive process or otherwise change the incentives of the firm in ways that undermine competition following an acquisition and are particularly problematic when provided by entities or countries that are strategic or economic threats to the United States.[6] The proposed changes require filing parties to provide information about subsidies received from foreign entities of concern, as discussed in more detail below.

Another factor that has an impact on the complexity of premerger review is that consistent with the law and binding judicial precedent, the Agencies have stepped up efforts to review transactions for *all* their potential competitive impacts. The Agencies are responding to evidence that the U.S. economy is becoming increasingly concentrated overall.[7] This concentration may reflect decreased competition, which can result in higher prices for consumers, decreased innovation, reduction in output, and lower wages for workers. For example, economists have estimated that workers' share of national income has fallen sharply since 2000, such that the workers' share of income today is now 6 to 8 percentage points below the 1980 level.[8] These findings reveal that despite the Agencies' efforts to prevent market consolidation through merger enforcement, many markets suffer from a lack of robust competition and mergers continue to cause harm.[9] As President Biden noted in his Executive Order on Promoting Competition, industry consolidation and weakened competition ''deny Americans the benefits of an open economy,'' with ''workers, farmers, small businesses, and consumers paying the price.'' Continued

Each year, many of the transactions that are investigated by the Agencies are also investigated by another jurisdiction under their laws and procedures and this adds to the complexity of premerger review. Moreover, the Agencies' experience gained while cooperating with international competition agencies that are conducting their own merger investigation reveals that better information can help address the increased complexity of premerger review and improve its efficiency. As compared to the Form, most international jurisdictions have merger filing forms that ask filers to provide significantly more information that their staff considers relevant to the competition analysis, including details about the transaction's structure and rationale, horizontal overlaps, vertical and other relationships, and more detailed sales data. Importantly, many other jurisdictions rely on narrative responses from the parties that contain basic information about business lines or company operations, and several require the parties to self-report overlaps.

For all these reasons, the Commission believes that the information currently collected by the Form is insufficient for the Agencies to conduct an effective and efficient initial evaluation of a transaction's likely competitive impact on all of those who might be affected, including consumers, small businesses, and workers. In the Agencies' experience, the current Form does not provide their staff with complete information, including information about the transaction; the filers' business operations and those of any related entities; the premerger relationship between the acquiring person and the acquired entity; individuals or entities that may have influence over the operation of the relevant business lines; the full range of potential competitive implications of the transaction, including effects on workers; and prior acquisitions.

To supplement the shortcomings of HSR Filings, Agency staff must often rely on voluntary cooperation from third parties—customers and competitors of the merging parties—during the initial waiting period to learn basic information about the parties' business dealings and the markets in which they compete. In addition, staff needs to conduct independent research using publicly available information to supplement the modest amount of material submitted with the HSR Filing. Neither of these is reliable as a substitute for information provided by the parties themselves and certified as a complete response. Moreover, the additional effort required to discover basic business information about the parties to the transaction and their premerger relationship is inefficient and can result in both too few in-depth investigations when the information collected does not uncover a significant premerger competitive relationship as well as in-depth investigations that are either too broad or too narrow due to the insufficient detail about those relationships that is currently provided in HSR Filings. The information collected by the parties for their own premerger assessment of the transaction is paramount for the Agencies' antitrust assessment and should be collected and submitted with the initial filing.[11] The Commission therefore proposes additional questions and document requests to provide the Agencies with the information necessary to facilitate their initial review, as discussed further in this NPRM.

At the same time, it has become clear to the Commission that certain required information currently submitted in the Form to aid the Agencies' review is not as helpful as originally intended. For instance, as a general screening tool, reporting revenue by specific dollar amounts for specific industry codes, as defined by the North America Industry Classification System (''NAICS''), does not materially assist the Agencies in their initial review. Reporting revenue ranges for the NAICS codes, would sufficiently convey which lines of business of the filing person generate the most revenue. In addition, the requirement to report manufacturing revenues at a granular level has become less helpful to the Agencies during their initial review as a result of changes made by the United States Census Bureau (''Census'') to one of its revenue classification systems. Finally, the Commission believes that the identification of minority investors in target entities, other than those that will ''roll over'' their investments post-consummation, is of limited use. The Commission therefore proposes deleting these requirements, as discussed in further detail below.

The Commission anticipates that the proposed reorganization and collection of additional information in HSR Filings would greatly enhance the Agencies' ability to complete the review of a reportable transaction in a short period of time, and that they are necessary and appropriate in order for the Agencies to vigorously enforce the nation's antitrust laws. The changes would improve the efficiency and effectiveness of the Agencies' initial review process and reduce the need to rely on the voluntary submission of additional information by the parties and third-party industry sources during the initial waiting period.

Finally, the Commission notes that since the implementation of the Act and Rules in the late 1970s, there has never been a large-scale reorganization of the information required in an HSR Filing. As a result, the Commission is proposing a comprehensive redesign of the premerger notification process through both a reorganization of the information currently required and the addition of new information requirements. As the Agencies are currently working to complete an electronic filing (''e-filing'') platform, the exact structure of the redesign is unclear at this time. The Commission believes that the development and roll-out of an e-filing platform will mark a significant improvement in the submission and processing of HSR Filings, with benefits for both filers and the Agencies. Thus, in this NPRM, the Commission is providing an overview of the proposed reorganization of the information currently required and the proposed new information requirements. The exact form of the redesign and how filers will submit this information will be more clearly laid out in any Final Rule after the Commission reviews all comments to this NPRM.

Proposed Changes to the Rules

I. Proposed Changes to Part 801

A. Section 801.1: Proposed Definitions of ''Foreign Entity or Government of Concern'' and ''Subsidy''

On December 29, 2022, the President signed into law the Consolidated Appropriations Act, 2023, which included amendments to the HSR Act in t2022 Amendments. Public Law 117–328, 136 Stat. 4459. Congress found that foreign subsidies, particularly those from ''countries or entities that constitute a strategic or economic threat

economy/ (noting that ''Economists find that as competition declines, productivity growth slows, business investment and innovation decline, and income, wealth, and racial inequality widen.'').

[11] ''The House conferees contemplate that, in most cases, the Government will be requesting the very data that is already available to the merging parties, and has already been assembled and analyzed by them. If the merging parties are prepared to rely on it, all of it should be available to the Government.'' 122 Cong. Rec. H30877 (Sept. 16, 1976) (remarks of Rep. Rodino).

to United States interests,'' [12] ''can distort the competitive process by enabling the subsidized firm to submit a bid higher than other firms in the market, or otherwise change the incentives of the firm in ways that undermine competition'' [13] post-merger. The 2022 Amendments require the Commission, with concurrence of the Assistant Attorney General, and in consultation with Chairperson of the Committee on Foreign Investment in the United States, the Secretary of Commerce, the Chair of the United States International Trade Commission, the United States Trade Representative, and heads of other appropriate agencies (''Relevant Agencies''), to promulgate a rule to require persons making an HSR Filing to disclose subsidies received from countries or entities that are strategic or economic threats to the United States. Congress identified those threats as ''foreign entities of concern'' as defined in section 40207 of the Infrastructure and Jobs Act, 42 U.S.C. 18741(a), and required the Commission to collect information about subsidies from these entities as part of HSR Filings.

After conducting its own internal diligence to draft a rule and in consultation with the Relevant Agencies on this topic, the Commission proposes amending § 801.1 to add proposed paragraphs (r)(1) and (2), which define ''foreign entity or government of concern'' and ''subsidy,'' respectively.

1. Section 801.1(r)(1) Foreign Entity or Government of Concern

In the 2022 Amendments, Congress found that foreign subsidies are particularly problematic when granted by countries or entities that constitute a strategic or economic threat to U.S. interests. To identify such subsidies, the Commission proposes new rule § 801.1(r)(1). This proposed rule defines, in proposed subsection (i), subsidies that would have to be disclosed, per Congress' mandate, if received from a ''foreign entity of concern'' as the term is defined in section 40207 of the Infrastructure Investment and Jobs Act (''IIJ Act''), 42 U.S.C. 18741(a). The Commission therefore proposes adopting this definition in § 801.1(r)(1)(i).

The Commission recognizes, however, that the definition of a ''foreign entity of concern'' in the IIJ Act does not explicitly include foreign governments or government agencies. To the extent that HSR filers have received any subsidy directly from the government of a country designated by 42 U.S.C. 18741(a)(5)(C), the Commission believes that including these subsidies would be consistent with Congress' mandate to capture information regarding subsidies when granted by entities posing a strategic and economic threat to the United States. Indeed, the Agencies' understanding of the subsidies' competitive significance would be incomplete without including subsidies granted by foreign governments or government agencies of foreign countries that are covered nations under 42 U.S.C. 18741(a)(5)(C). Therefore, the Commission proposes requiring persons making an HSR Filing to report subsidies received from governments (and their agencies) of foreign countries that are covered nations under 42 U.S.C. 18741(a)(5)(C) in proposed § 801.1(r)(1)(ii).

Finally, the Commission proposes that proposed §§ 801.1(r)(1)(i) and (ii) retain the references to the respective sections of the IIJ Act rather than incorporating the current text of these sections to assure that the proposed rule remains consistent with any subsequent amendments to these sections within the IIJ Act.

2. Section 801.1(r)(2) Subsidy

The 2022 Amendments found that ''[f]oreign subsidies, which can take the form of direct subsidies, grants, loans (including below-market loans), loan guarantees, tax concessions, preferential government procurement policies, or government ownership or control, can distort the competitive process.'' [14] Thus, the 2022 Amendments require the Commission to collect information about such subsidies to enable the Agencies to determine whether the transaction, if consummated, would violate the antitrust laws. But the statute does not define the term ''subsidy'' and its specific definition has, in fact, been heavily debated and negotiated in both U.S. legislation and international treaties in other contexts. The Commission is mindful of the relevant caselaw and expertise of other U.S. agencies that have developed over decades and, after consultation with the Relevant Agencies on this topic, the Commission proposes the adoption of the definition of subsidies in Title VII of the Tariff Act of 1930 (''Tariff Act''), 19 U.S.C. 1677(5)(B).

The Tariff Act definition of ''subsidy'' is consistent with the definition in the World Trade Organization's Agreement on Subsidies and Countervailing Measures (''SCM''), to which the United States is a party.[15] The Commission believes that because this definition is found both in U.S. law and in the SCM, both U.S. and foreign filing parties, or the law firms that represent them, should be familiar with and able to apply. The Commission also believes this definition is consistent with the Congressional mandate in the 2022 Amendments.

The Commission thus proposes adopting this definition in § 801.1(r)(2) and that the proposed rule retain the reference to the Tariff Act definition rather than incorporating the current text of that section to assure that the proposed rule remains consistent with any subsequent amendments to the Tariff Act.

The incorporation of this proposed change into the Instructions is discussed below at III.E.1.

II. Proposed Changes to Part 803

A. Sections 803.2, 803.5, and 803.10: Adoption of Electronic Filing

The Commission proposes amending §§ 803.2(e) and (f); 803.5(a)(1), (3), and (b); and 803.10(c)(1)(i) and (ii) to eliminate references to paper and DVD filings to physical offices. In March 2020, the COVID–19 pandemic and resulting closures of federal office buildings prevented the Commission and Assistant Attorney General from physically accepting HSR Filings, as had been the practice since the original adoption of the Rules in 1978. As a result, on March 17, 2020, the Agencies began accepting filings electronically.[16] Given the success of that system, the Commission proposes amending the Rules as noted above to adopt electronic filing and eliminate references to paper and DVD filings. This change benefits both the Agencies and filing parties by reducing reliance on the delivery and acceptance of paper filings or DVDs.

B. Section 803.2: Requiring Separate Forms for Acquiring and Acquired Persons

The Commission proposes amending § 803.2(a) and deleting § 803.2(b)(1)(v) so that filing persons that are both the acquiring and acquired person are required to make separate filings. Currently, the Rules, Instructions, and Form permit filers that are both an acquiring and an acquired person in a transaction to file only one Form. This

[12] Title II of the Merger Filing Fee Modernization Act of 2022, Public Law 117–329, Div. GG, sec. 201(a)(2) at 3826, 136 Stat. 4459.

[13] *Id.* at sec. 201(a)(1).

[14] *Id.*

[15] 19 U.S.C. 3511(d)(12).

[16] Press Release, Fed. Trade Comm'n, Premerger Notification Office Implements Temporary e-Filing System (March 13, 2020), *https://www.ftc.gov/news-events/news/press-releases/2020/03/premerger-notification-office-implements-temporary-e-filing-system.*

scenario arises most commonly when a seller will receive voting securities of the buyer as consideration for the sale of the target. In such transactions, both the acquisition of the target by the buyer and the acquisition of the buyer's voting securities by the seller may be reportable. Thus, the buyer and seller can each be an acquiring and an acquired person.

Although the Rules permit filers to use one Form for the two transactions in these cases, § 803.2(b)(1)(v) requires that separate responses be provided for Items 5 through 8, one set of responses as the acquiring person and one set as the acquired person. In the Commission's experience, filers that opt to combine the information on a single Form often do not include everything that is required, and these filings are, in fact, very confusing for the Agencies to review. In contrast, when filers choose to submit two separate Forms for such transactions, these filings provide all the required information and in a much clearer format. The Commission thus proposes amending § 803.2(a) and deleting § 803.2(b)(1)(v) to require acquiring persons and acquired persons to submit separate HSR Filings, one as the acquiring person and one as an acquired person, in instances where filers qualify as both. This proposed approach would make the Agencies' initial review much easier by more clearly separating information related to the acquiring person from the acquired person. No new information would be required, and technology allows parties to save copies of filings to reduce the need to input repetitive information.

C. Section 803.5(b): Requiring Draft Agreements or Term Sheets

The Commission proposes amending § 803.5(b) to require filers who have not executed a definitive transaction agreement before making an HSR Filing to submit a draft agreement or term sheet that describes with sufficient detail the scope of the entire transaction that will be consummated after observing the waiting period required by the Act. Section 803.5(b) currently allows filers in any non-§ 801.30 acquisition to file on the basis of ''a contract, agreement in principle or letter of intent to merge or acquire [that] has been executed'' and an affidavit attesting to that execution as well as the good faith intention to complete the transaction. In permitting parties to file before the signing of a definitive agreement, the Commission has relied on the assumption that the filings would ''contain sufficiently definitive information about the transaction to permit accurate analysis.'' [17] In the Commission's experience, however, filings submitted on the basis of bare preliminary agreements, such as an indication of interest, non-binding letter of intent, or agreement in principle (''Preliminary Agreements''), typically do not meet this standard.

Often, Preliminary Agreements reflect only very early discussions between the parties, and since there is currently no obligation to file a draft or final agreement once the HSR Filing is submitted, the Agencies must spend time during the initial waiting period simply trying to discover the scope and timing of the transaction. Moreover, given the preliminary nature of such a filing, the parties have often not yet undertaken a robust analysis of the transaction and therefore have drafted few, if any, documents responsive to Items 4(c) or 4(d) of the current Form. Permitting parties to submit an HSR Filing prior to a complete substantive analysis of the transaction, and at times even before the parties have done diligence on rationales or justifications for the transaction, puts the Agencies at a distinct disadvantage during the initial waiting period in determining what the transaction is and whether it may violate the antitrust laws if consummated.

Additionally, HSR Filings made during the early phases of negotiations may be too uncertain to merit review. The original Statement of Basis and Purpose from 1978 (''1978 SBP'') provides clear guidance that ''[b]ecause of the time and resource constraints upon the agency staffs,'' the Agencies should not expend resources to review transactions so lacking in specifics that they could be considered merely ''hypothetical.'' [18] Yet allowing for the submission of a filing on the basis of a Preliminary Agreement often triggers the use of limited resources for hypothetical transactions, first to discover the full range of potential viable transactions, and then to assess the competitive impact of those potential iterations.

The Commission therefore proposes amending § 803.5(b) to eliminate the ability to submit an HSR Filing on any Preliminary Agreement without providing a term sheet or draft agreement that reflects sufficient detail about the proposed transaction to allow the Agencies to understand the scope of the transaction and to confirm that the transaction is more than hypothetical. The Commission also proposes a corresponding change to the Instructions, as noted at III.C.6. Because detailed term sheets or draft agreements are often prepared in the ordinary course of deal negotiations, the Commission does not expect this change would impose a significant burden on filing parties. However, the Commission recognizes that eliminating the parties' ability to make filings prior to the negotiation of such documents may change the timing of filing and would likely result in more robust filings that would take additional time to prepare. On balance, the Commission believes that this proposed change is consistent with the original intent of the Rules to prevent expending scarce Agency resources on hypothetical transactions and would allow the Agencies to focus on transactions definitive enough to permit accurate analysis.

D. Section 803.8: Translation of Documents

The Commission proposes amending § 803.8 to require submission of English-language translations for all foreign-language documents submitted with the initial HSR Filing. Section 803.8(a) currently provides that parties need not translate foreign-language materials submitted with the initial filing, and that English-language outlines, summaries, extracts, or verbatim translations need only be provided if they already exist. Section 803.8(b), in contrast, has required since 1983 that all foreign-language documents responsive to a Second Request be provided with English translations.[19]

In the Commission's experience since the early 1980s when Rule 803.8 was first adopted, it is no longer enough to require translations of only those foreign-language documents submitted in response to Second Requests because today's HSR Filings quite frequently contain foreign-language materials. These materials typically include key documents, such as the transaction agreements submitted in response to current Item 3(b) of the Form, the relevant financials submitted in response to current Item 4(b), and the documents submitted in response to current Items 4(c) and 4(d) of the Form. Parties often submit foreign-language materials in their HSR Filings with no translation at all or with only rough English-language outlines, summaries, or extracts, which may not accurately and fully convey the contents of the foreign-language document. As a result, the Agencies must either obtain their

[17] 43 FR 33450, 33511 (July 31, 1978).

[18] *Id.* at 33510–511.

[19] The Commission proposed mandatory translation in 1981, 46 FR 38710 (July 29, 1981), and issued a final rule in 1983, 48 FR 34427 (July 29, 1983).

own translations of these documents or miss out on potentially critical information, leaving the Agencies at a disadvantage during their initial review. Given the wide variety of foreign languages the Agencies typically see, it would be very costly for the Agencies to retain translation services for each filing that may contain some foreign-language material. Further, obtaining translations adds significant delay within the already time-constrained initial waiting period and would not allow for filing parties to review the translations for errors. These translations may be especially important for those transactions that report foreign subsidies.

To address this issue, the Commission proposes combining §§ 803.8(a) and 803.8(b). Proposed § 803.8 would therefore be one paragraph requiring that verbatim English translations be provided with all foreign-language materials submitted as part of an HSR Filing or in response to a Second Request. For either an initial HSR Filing or in response to a Second Request, both the original document and the English translation would need to be submitted. Proposed § 803.8 would not require any particular method of translation but would specify that, whatever translation method the parties choose, all verbatim translations must be understandable, accurate, and complete. This proposed change would also be reflected in the Instructions, as specified below in III.A.4.

Although the Commission noted in its 1983 final rulemaking that requiring translations created a burden for filing parties,[20] the Commission now believes that translation tools available to the parties have become more abundant and that these tools provide many options for translation that should significantly reduce the burden of providing translations. Translations of foreign-language documents would greatly benefit the Agencies in allowing staff to know the content of responsive documents submitted in a foreign language. The Commission invites comment on whether there are categories of documents identified in this NPRM that would present a significant burden to translate and what other alternatives might achieve the Commission's goal of being able to understand and assess foreign-language documents while creating less burden for filing parties.

[20] 48 FR 34427, 34440 (July 29, 1983).

E. Section 803.10: Commencement of Waiting Periods

The Commission proposes amending § 803.10(c)(1)(i) to clarify when filings made electronically are to be credited as received by the Agencies. Specifically, the Commission proposes amending this rule to clarify that compliant filings will be credited as received on the date filed if: (i) the electronic submission is complete by 5:00 p.m. Eastern Time; and (ii) such date is not a Saturday, Sunday, legal public holiday (as defined in 5 U.S.C. 6103(a)), or the observed date of such legal public holidays.

These clarifications are consistent with current and historical practices. Of course, historically, the Rules did not need to specify this information, since the receipt of physical filings (either on paper or DVD) required the offices of the Assistant Attorney General and Commission to be open. But because electronic filing platforms can allow submission of filings even when Agency staff is not available to receive the filings, the proposed amendments make clear that filings are only credited as received during regular business hours on regular business days. These proposed changes would provide clarity and thus benefit both filing parties and the Agencies.

F. Section 803.12: Information To Be Updated With Refiling

The Commission proposes amending § 803.12(c) to specify which responses to the items in the proposed Instructions would need to be updated if the acquiring person chooses to withdraw its HSR Filing and refile it (an ''Updated HSR Filing''). The procedure for voluntary withdrawal and refiling permits the acquiring person to restart the initial waiting period, so long as no material changes have been made to the transaction, to provide the Agencies an additional 15 or 30 days (depending on the transaction type) to review the transaction without issuing a Second Request. If the Updated HSR Filing is received within two business days of withdrawal, no new fee is required, but filers currently must provide a new affidavit and certification and update current Item 4 of the Form to provide the Agencies with more recent information that is likely relevant to the continued review.

The Commission proposes eliminating the requirement to provide updated financials, currently required by Item 4(a) and (b), in the Updated HSR Filing. The Commission's experience has shown that, given that the withdraw and refile procedure is completed within approximately one month of the original filing, the financial documents required by Item 4(a) and (b) are rarely changed and therefore updating them is not essential in this phase of its investigation.

The Commission proposes requiring updated Transaction-Related Documents with the Updated HSR Filing, which, as discussed below in III.D.1.a., would comprise the current Item 4(c) and (d) documents subject to proposed modifications of the custodians and clarifications. Documents responsive to current Item 4(c) and (d) typically reflect the most relevant thinking of key individuals with knowledge of the transaction within the acquiring person and are required as part of an Updated HSR Filing. Therefore, the Commission believes these documents are essential to the Agencies' initial antitrust assessment of the transaction.

The Commission also proposes adding two new requirements for the Updated HSR Filing: updated transaction agreements and updated information about subsidies from Foreign Entities of Concern. Though the voluntary withdrawal and refiling process is only available if the transaction is materially the same, the Commission believes that the Agencies would benefit from having a complete understanding of all aspects of the status of and rationale for the transaction, including any changes that have occurred since the day the HSR Filing was submitted. Therefore, the Commission proposes requiring that the Updated HSR Filing include the latest version of the transaction agreements, including the most recent drafts, if a final version has not been executed. The Commission believes this proposed requirement would not impose a substantial burden, since this would be a limited set of documents that should be readily available to the acquiring person.

The Commission also proposes requiring that the Updated HSR Filing include updated information regarding Subsidies from Foreign Entities or Governments of Concern, which is discussed below at III.E.1. The Commission believes that most updated HSR Filings would reflect no new information related to subsidies given the short period of time since the original HSR Filing. However, if new information about subsidies from foreign entities of concern were to become available, the Commission believes that it would be consistent with Congressional intent for the Agencies to have access to this information.

Proposed Changes to the Instructions

III. Part 803 Appendix A and Appendix B

As mentioned above, the Agencies are developing an e-filing platform through which filers would submit information required by the HSR Rules via an online portal. As a result, this NPRM does not contain a new draft Form. Instead, this NPRM presents the information requirements as Instructions for collecting and submitting documents and information required by the HSR Rules. The proposed Instructions reorganize the information to reflect the planned layout of the e-filing platform in development, which would be described in any final rule. Prior to the implementation of the e-filing platform, the proposed Instructions contemplate filers would submit the proposed requests for information and narratives via uploads in a standard format such as PDF and Excel.

The proposed changes to the information that filing parties would be required to provide are detailed below. The Commission recognizes that, in total, these proposed changes would be significant and impose additional burden on some filing parties. Some proposed changes ask for additional information or documents that the Commission believes are in the possession of the filing persons in a form that could be readily uploaded into the e-filing platform. Other proposed changes would require filing parties to compile or generate the requested information specifically for the HSR Filing, such as items requesting narrative responses, which would involve additional effort. As explained below, the Commission has determined that the additional burden associated with these proposed changes is justified because the requested documentary material and information is necessary and appropriate for effective and efficient review of HSR Filings to determine within the initial waiting period whether the transaction may, if consummated, violate the antitrust laws.[21]

Based on the Agencies' experience conducting merger investigations, and as discussed above, the Commission believes that the limited information currently available to the Agencies in the HSR Filing is no longer sufficient to conduct an effective initial screening of the transaction for all types of competitive harm that may result from the transaction. The proposed set of reorganized revenue information, additional documents, and narrative responses would create a much more complete, accurate, and robust basis on which to screen the transaction for the various potential competitive effects, including those that arise from non-horizontal transactions or combinations involving competing employers. These proposals would also provide a more reliable and robust set of information to determine when the transaction does not warrant an in-depth investigation, which often requires a substantial investment of time and resources for both the investigating agency and the merging parties. Based on the Agencies' experience in reviewing and challenging illegal mergers, the proposals target the information that is most relevant and readily available to filing persons and would require it to be presented in a coherent and organized way that will facilitate quick antitrust review by the Agencies during the initial waiting period. But the Commission welcomes comments on the burden associated with and the appropriate balance of having to provide information in the form of revenues, documents, and narratives as part of the proposed changes in this NPRM and invites alternative proposals that meet the objectives described below.

At their core, the proposed changes are motivated by the fundamental purpose of the HSR Act, which is to allow the Agencies, within a short period of time to review the information submitted with the Filing and identify potentially problematic transactions prior to consummation, and, where appropriate, initiate an in-depth review by issuing Second Requests. The fact that the Agencies must conduct their evaluation in an initial waiting period of 15 or 30 days, depending on the transaction type, means that the Agencies must have enough information to consider a wide range of potential effects on competition on an expedited basis. Based on the cumulative learning of the Commission and Assistant Attorney General over the course of decades of investigations, the Commission proposes requiring new information and narratives to address particular areas where the Agencies have found specific deficiencies in the type of information currently required by the Form. In addition, this NPRM would implement changes required by the 2022 Amendments, which are consistent with the need for sufficient information to screen for all types of competitive concerns.

Despite the added burden for filing persons, on balance, the Commission believes that the benefit to the Agencies' merger review would be significant and would help address information asymmetries between Agency staff and the filing persons in the initial waiting period. The Agencies expend substantial resources during the initial waiting period to discover and confirm basic business information about the filing persons, information that is well-known to them but not to Agency staff and is not available from any other source. These information asymmetries have become more acute as deals and companies have become more complex. In the Commission's experience, the inefficiency created by information asymmetries can overwhelm the initial review process, especially when the volume of HSR reportable transactions is high.[22] The proposed changes would also benefit filing persons where information contained in an HSR Filing would demonstrate to the Agencies that the transaction at issue does not need further investigation. Indeed, both the Agencies and filing persons have an interest in ensuring that HSR Filings are robust enough for the Agencies to quickly identify transactions that do not require further investigation during the initial waiting period. It is the Commission's aim to be cognizant of all such interests in proposing the substantial changes contained in this NPRM.

For ease of reference, the Commission includes the following materials regarding the proposed changes in this NPRM:

- An outline of the reorganization contemplated in the proposed Instructions,
- A chart that identifies proposed new locations of the current Items of the Form including whether substantive changes are proposed, and
- A chart of proposed new categories of required information.

These materials appear immediately below.

Proposed Instructions Outline

  - UPE Details
  - Organization Structure
- Transaction Information
  - Parties
  - Filing Fee
  - Transaction Details

[21] 15 U.S.C. 18a(d).

[22] The Agencies experienced a surge in HSR reportable transactions during 2021 and 2022. For instance, FY 2021 HSR reportable transactions were double those of FY 2020 (1,637 versus 3,520), and in FY 2022, reportable HSR transactions remained high, at over 3,200. The pace and volume of HSR filings (generally two filings per transaction) during that time (in addition to on-going merger investigations) required the Agencies to adjust their HSR review process, including suspending the granting of requests for early termination of the waiting period.

PROPOSED NEW REQUIREMENTS AND CATEGORIES OF INFORMATION—Continued

Proposed new sections	Location
Identification of Minority Held Entities with Revenue Overlaps	Competition and Overlaps/Minority-Held Entity Overlaps.
Provision of Geolocation for Certain Locations of Operations	Competition and Overlaps/Controlled-Entity Overlaps.
Identification of Additional Prior Acquisitions	Competition and Overlaps/Prior Acquisitions.
Disclosure of Subsidies from Foreign Entities or Governments of Concern	Additional Information.
Identification of Certain Defense or Intelligence Contracts	Additional Information.
Identification of Communications and Messaging Systems	Additional Information.
Mandatory Disclosure of Foreign Filings	Additional Information.
Voluntary Waivers for International Competition Authorities	Additional Information.
Voluntary Waivers for State Attorneys General	Additional Information.
Statement of Penalties for False Statements	Certification.
Prevention of Destruction of Documents	Certification.

The following discussion of the proposed changes in this NPRM tracks the Proposed Instructions Outline above, explaining which information requirements are materially the same as those currently included in the Form and Instructions, which the Commission proposes changing, and which are proposed new categories of required information.

Throughout the proposed Instructions, references to paper and DVDs have been eliminated, as discussed in II.A. above.

A. General Instructions and Information

The Commission proposes creating a General Instructions and Information section within the proposed Instructions that would largely parallel the General section of the current Instructions but would be significantly reorganized. Within the proposed General Instructions and Information section, the Commission proposes substantive changes to the following sections: Filing Person, Definitions, Responses, and Translations, as detailed below.

1. Definitions and Explanation of Terms

The Commission proposes creating two new definitions and deleting an existing definition within the proposed Instructions.

a. Economic Research Service's (ERS's) Commuting Zones (CZ)

The Commission proposes adding a definition for Economic Research Service's Commuting Zones. As discussed below at III.D.2.c., the Commission proposes new questions that would require the submission of information about the filing person's employees to aid the Agencies' evaluation of the potential impact of proposed transactions on labor markets. These proposed questions would require data to be submitted using the Department of Agriculture's Economic Research Service Commuting Zones for the year 2000. These codes are available at *https://www.ers.usda.gov/data-products/commuting-zones-and-labor-market-areas/.*

b. North American Product Classification System (NAPCS) Data

The Commission proposes eliminating the reporting of 10-digit North American Product Classification System (''NAPCS'') based codes, as discussed in more detail below at III.D.3. Thus, the Commission proposes deleting the NAPCS definition from the proposed Instructions.

c. Standard Occupational Classification

The Commission proposes adding a definition for Standard Occupational Classification. As discussed below at III.D.2.c., the Commission proposes new questions that would require the submission of information about the filing person's employees to aid the Agencies' evaluation of the impact of proposed transactions on competition for workers in labor markets. The proposed definition of Standard Occupational Classification (''SOC'') would require filers to submit data by the first six digits of the relevant code, as published by the United States Bureau of Labor Statistics, available at *https://www.bls.gov/soc/2018/#classification.*

2. Filing

As discussed above at II.B., the Commission proposes amending § 803.2 and deleting § 803.2(b)(1)(v) to require filing persons to submit separate forms when filing as an acquiring and acquired person. The proposed Instructions would also reflect this proposed change.

3. Responses

The Commission proposes replacing the current Responses section with a new Responses section that would provide details on how to provide the information responsive to the proposed new questions. This would include eliminating instructions that are specific to filings made on paper or DVD, see above at II.A. The proposed revised Responses section would also describe the information that filing persons would need to provide in a log of responsive documents and narrative responses to be submitted with an HSR Filing. This information would generally be the same as the information currently required for documents submitted in response to Items 4(c) and 4(d) of the current Form, with two proposed expansions.

First, the Commission proposes requiring the filing person to identify the request(s) to which the document would be responsive. Though the proposed Instructions do not include item numbers at this time, indented and bolded headings in the proposed Instructions should each be considered a separate request. The Commission routinely requires this type of referencing for document submissions pursuant to compulsory process, including in response to a Second Request, and it is extraordinarily helpful in quickly identifying materials responsive to a specific request. This proposed requirement would allow the Agencies to understand the content of filings more quickly by providing a cross-reference between information and documents, facilitating a more efficient review.

Second, the Commission proposes modifying the requirements for identification of authors of documents prepared by third parties. For documents prepared by third parties at the request of a filing person, such as market studies, quality of earnings analyses, confidential information memoranda, management presentations, or board presentations, the Commission proposes that, in addition to providing the name of the third party that prepared the document, the filing person would be required to provide the name, title, and company of the individual within the filing person who supervised the preparation of the document or for whom the document

was prepared. Understanding who, within the filing person, was responsible for overseeing or receiving the work of outside consultants would materially assist the Agencies in identifying key decision-makers for the transaction. In the case of documents that were not commissioned by the filing person, such as subscription market reports, unsolicited banker's books, or documents received from the other filing person, the Commission proposes that the filing person would only be required to list the document title and name of the third party that prepared the document.

These proposed changes would allow the Agencies to quickly assess which documents were key to the decision to pursue the transaction and who within the filing person coordinated the assessment that resulted in that decision.

4. Translations

As noted above at II.D., the Commission proposes amending § 803.8 to require the filing person to submit English translations of all foreign-language documents. The proposed Instructions would also reflect this change.

B. Ultimate Parent Entity Information

The Commission proposes the creation of an Ultimate Parent Entity (UPE) Information section within the proposed Instructions. Currently, information about the structure of the acquiring and acquiring persons is required in various sections of the Form: Item 1 contains basic contact information; Item 2 identifies the ultimate parent entities; Item 3 identifies the acquiring and acquired entities; and Item 6 identifies certain controlled and minority-held entities, as well as certain minority holders of the filing person. The Commission proposes the reorganization, clarification, and expansion of these items to require additional information about the acquiring person and acquired entity(s) in order for the Agencies to receive a more complete picture of the scope of the operations of each, and to identify points of contact for questions about the HSR Filing or potential Second Requests, as well as key interest holders. These proposed changes, discussed below, would fall within the following proposed categories: UPE Details and Organization Structure.

1. UPE Details

The proposed UPE Details section within the proposed Instructions would contain most of the information currently required in Item 1 of the Form. The Commission proposes adding a new Size of Person Stipulation item that would allow the filing person to stipulate that the size of person test is met, when applicable, making it easier for staff to determine that the size of person test is met and streamlining the review process as a result.

The Commission also proposes clarifying which financials are required from acquiring persons who are natural persons. As a result of feedback from filers over the years, the Commission is aware that this item causes confusion. The proposed language in the Instructions would make it clear that natural persons who are acquiring persons must include the annual reports and/or annual audit reports of (1) the acquiring entity(s) and any entity controlled by the natural person whose dollar revenues contribute to a NAICS overlap, and (2) the highest-level entity(s) the natural person controls. It is the intent of the Commission that the Instructions require this information from natural persons, and the proposed change would make that intent clear.

Finally, the Commission proposes requiring all filing persons to identify the person to whom Second Requests should be addressed. Current Item 1(g) requires the identification of two individuals to contact regarding the HSR Filing, and current Item 1(h) requires the identification of an individual located within the United States for the limited purpose of receiving a notice of a Second Request. But the Instructions currently limit application of Item 1(h) to filings made by foreign persons, so for U.S. filers, Second Requests are sent to the person identified in Item 1(g). The Commission now understands that U.S. filing persons sometimes have separate points of contact to answer questions regarding the HSR Filing as compared to questions regarding the receipt of Second Requests. Therefore, the Commission proposes requiring all filing persons to separately provide contacts for questions related to the HSR Filing and Second Requests.

These proposed changes would provide clarity for filing persons, and the Agencies would benefit from receiving more precise information about the UPE.

2. Organization Structure

The proposed Organization Structure section within the proposed Instructions would expand the required information about how the UPE is organized and the identity of other individuals and entities that may have influence over business decisions or access to confidential business information. The proposal would require the identification of entities within the acquiring person or acquired entity, minority shareholders, and other non-controlling entities, and create new requirements to identify certain other interest holders that may exert influence, as well as officers, directors, and board observers.

a. Entities Within the Acquiring Person and Acquired Entity

The proposed Entities Within the Acquiring Person and Acquired Entity section would contain information currently required by Items 1(f) and 6(a) of the Form. Item 1(f) requires the identification of the acquiring entity(s) or acquired entity(s) (as appropriate). Item 6(a) requires the acquiring person to list all entities it controls with total assets of $10 million or more (though foreign entities with no sales into the United States may be omitted). The acquired person currently has the same obligation, but the scope is limited to the acquired entity(s); the acquired person is not required to provide information about entities that are not part of the transaction. The Commission proposes requiring additional information about the reported entities within the filing persons.

First, the Commission proposes requiring filing persons to organize the list of controlled entities by operating company or business. As filing persons have become more complex, an alphabetically or geographically organized list of the controlled entities, which is currently permitted by Item 6(a) of the Form, often does not provide the Agencies with a sufficient overview of the scope of the businesses that the acquiring person and acquired entity(s) control. Some filers currently organize the list of entities held by the acquiring person or acquired entity by operating company, and in the Commission's experience, this is a much more useful way to present the information. Understanding which companies are part of an operating group or portfolio company would allow staff to identify the actual market participants from among all legal entities. The Commission thus proposes requiring that lists of controlled entities be submitted in this manner to aid the Agencies' review during the initial waiting period.

Second, for each such operating company or business, the Commission proposes that filers identify the name(s) by which the company or business does business, as well as any name(s) by which it formerly did business within the three years prior to filing. While it remains important for the Agencies to receive legal entity names, these names

are often unrelated to the names used in the marketplace and may be unfamiliar to industry participants. Being able to connect the legal names to the ''doing business as'' and ''formerly known as'' names would greatly assist the Agencies in understanding the scope of the operations of the acquiring person and acquired entity and allow the identification of other public information about the entity during the initial waiting period.

b. Minority Shareholders and Other Non-Controlling Entities

The proposed Minority Shareholders and Other Non-Controlling Entities section would contain information currently required by Item 6(b) of the Form, which requires identification of holders of 5% or more, but less than 50%, of the acquiring UPE and acquiring entity by the acquiring person, and of the acquired entity(s) by the acquired person. In order to provide the Agencies with a more complete understanding of the individuals or entities that have significant investments in the filing persons, the Commission proposes amending the current Item 6(b) requirements and expanding them to require the identification of additional minority interest holders.[23]

The identification of certain minority holders of the filing persons has been required since the first iteration of the Form in 1978, though the level of detail that has been required has changed over time.[24] Prior to 2011, Item 6(b) only required the identification of holders of minority interests in voting securities. In 2011, Item 6(b) was amended to require the identification of holders of 5% or more but less than 50% of unincorporated entities.[25] The Commission, however, made an exception for limited partnerships and only required the identification of the general partner. At that time, the Commission understood that limited partners had no control over the operations of the fund or portfolio companies and therefore did not see them as essential to the Agencies' initial review.[26] Since that time, the Commission has come to understand that the Agencies would benefit from more complete information about all minority holders of the filing parties, including the identification of limited partners. As a result, the Commission proposes collecting information about minority holders of all entities within the acquiring person that are related to the transaction and requiring the identification of certain limited partners.

The current limitation on providing minority holder information for only the acquiring ultimate parent entity and acquiring entity often prevents the identification of key interest holders. For example, co-investors often do not invest at the UPE or acquiring entity level but may hold a 5% or greater interest in an entity that is in between the UPE and the acquiring entity in the ownership structure. In particular, when funds make acquisitions, it can be the case that more than one fund may be substantively involved in the acquisition, using a variety of corporate or unincorporated entity types. The identification of not only the controlling person but also significant minority investors can be an important component of the Agencies' evaluation of the potential competitive effects of the transaction during the initial waiting period,[27] and obtaining a broader picture of relevant minority investments, where they exist, would aid the Agencies in their assessment of the nature of competitive decision-making within the relevant entity.

In the case of limited partnerships, Item 6(b) currently does not require the identification of limited partners, even if they hold 5% or more. At the time this item was adopted, the Commission understood that limited partners had no control over the operations of the fund or portfolio companies and therefore did not see them as essential to the Agencies' initial review.[28] However, after more than a decade, the Commission now believes that it is inappropriate to make generalizations regarding the role of investors in limited partnership structures. Identification of limited partners can provide valuable information about co-investors and lead to the identification of potentially problematic overlapping investments resulting from the transaction that could violate Section 7.[29] Thus, it is important that the Agencies know the identities of limited partners to understand the transaction in its entirety and to uncover investment relationships that may have competitive significance.

Accordingly, for the acquiring person, the Commission proposes the reporting of certain minority holders of (1) the acquiring entity, (2) any entity directly or indirectly controlled by the acquiring entity, (3) any entity that directly or indirectly controls the acquiring entity, and (4) any entity within the acquiring person that has been or will be created in contemplation of, or for the purposes of, effectuating the transaction. For entities affiliated with a master limited partnership, fund, or investment group, the ''doing business as'' or ''street name'' of that group would also be required.

Under these proposals, minority holders that would have to be reported would include all entities or individuals, including limited partners, that hold 5% or more of the voting securities or non-corporate interests of one of the identified entities. To be clear, the Commission proposes requiring limited partnerships to identify all holders of 5% or more, but less than 50%, to harmonize the requirement for limited partnerships with the requirements for limited liability companies and corporations. The requirement to identify the general partner of a limited partnerships would remain the same.

The Commission acknowledges that these proposed requirements may require significant additional information from investment entities, such as funds and master limited partnerships, for which organizational structures are often more complex. But the Commission believes that the disparate treatment of LLCs as compared to limited partnerships is no longer appropriate. Further, the complexity of these organizational structures makes it all the more important that the filing person provide this information with the HSR Filing. The complex structure of investment entities is not adequately captured by the current Form, and there is often no other source for Agencies to learn of these relationships. Though the introduction of the definition of ''associate'' in 2011[30] provides the Agencies with some valuable information with which to identify competitively significant relationships that exist through related holdings, it does not provide enough detail about all of the potential players involved in the structure of the acquiring person. As a result, the Commission believes that the

[23] The acquisition of a minority position may be reportable under the Act, and failure to make an HSR Filing and observe the waiting period may result in significant civil penalties. 15 U.S.C. 18a(g).

[30] 76 FR 42471 (July 19, 2011).

proposed identification of all minority investors of 5% or more in entities related to the transaction would allow the Agencies to more quickly identify potential competitive issues related to these holdings during the initial waiting period.

To reduce the additional burden associated with these proposed changes, the Commission proposes limiting the information about minority holders collected from the acquired person. Currently, the acquired person must list certain minority interest holders of the acquired entity(s), but this requirement does not distinguish between minority holders that will be cashed out as a result of the transaction, and those that will continue investment after the transaction. On balance, the Commission believes that identifying only the minority holders that would continue to have an interest in the acquired entity(s), directly or indirectly, would provide the most relevant information to the Agencies during the initial waiting period. Therefore, the Commission proposes that the acquired person only be required to identify minority holders of the acquired entity(s) that will continue to hold interest in the acquired entity(s) or will acquire interests in any entity within the acquiring person as a result of the transaction. The Commission recognizes that in certain transactions to which § 801.30 applies, the acquired person might not have this information. In such cases, it would be permissible for the acquired person to indicate that the information is unknown.

c. Other Types of Interest Holders That May Exert Influence

The proposed Other Types of Interest Holders that May Exert Influence section would require the identification of entities or individuals that may have material influence on the management or operations of the acquiring person beyond those with the minority interests discussed above. Because these other interest holders retain the ability to influence decision-making by the acquiring person after the transaction, it is important for the Agencies to know about these relationships during the initial waiting period.

The Commission has long recognized the potential influence of minority holders and the possibility that they may seek to change competitive decisions of the target firm.[31] In the 1978 SBP, the Commission explained that competitors, customers, or suppliers holding a significant interest in one of the parties can raise antitrust concerns.[32] As originally conceived, minority holdings reported in Item 6 were designed to alert the Agencies to situations in which the potential antitrust impact of the transaction does not result solely or directly from the transaction itself, but may arise from direct or indirect shareholder relationships between the parties to the transaction.[33]

As entity structures have evolved and become more complex, the Commission now believes that relationships beyond those created by holding voting securities or non-corporate interests can give rise to similar and significant competitive concerns. For instance, some credit arrangements permit the creditor to exercise rights and influence similar to those of equity holders. Additionally, some equity interests that do not provide rights to vote for the board of directors can, nevertheless, provide rights to vote on or influence business practices of the company, including investments in future product or service lines. Further, contractual arrangements allowing individuals or entities to nominate directors or board observers have proliferated. In addition, some entities outsource the management of operations to third parties that do not beneficially own interests in the company. Each of these relationships can be relevant to understanding the transaction and its potential competitive effects. Without information about these relationships, the Agencies cannot easily identify those transactions where these relationships exist and may affect the competitive dynamics before and after the transaction.

As a result, the Commission proposes that the acquiring person identify certain individuals (other than employees of the acquiring person) or entities that, in relation to the acquiring entity or any entity it directly or indirectly controls or is controlled by, (i) provide credit; (ii) hold non-voting securities, options, or warrants; (iii) are board members or board observers, or have nomination rights for board members or board observers; or (iv) have agreements to manage entities related to the transaction. Credit relationships would be limited to creditors that have, or would have, in conjunction with or result of the transaction, provided credit totaling 10% or more of the value of the entity in question. Holders of non-voting securities, warrants, or options would be limited to those the value of which equals or exceeds 10% of the entity or could be converted to 10% or more of the voting securities or non-corporate interests of the company.

The Commission recognizes that the compilation of this information would add to the burden of preparing an HSR Filing for an acquiring person with a complicated investment structure, but it is important that the HSR Filing contain this information because individuals or entities that fall into any of the four categories described above can have a material influence on the operations or strategy of the acquiring person. As with minority investors, these relationships can affect the competition analysis of the transaction, and the proposed identification of these individuals or entities would allow the Agencies to know the identity of those in a position to influence post-merger competition decisions.

d. Officers, Directors, and Board Observers

The proposed Officers, Directors, and Board Observers section would require the identification of the officers, directors, or board observers (or in the case of unincorporated entities, individuals exercising similar functions) of all entities within the acquiring person and acquired entity, as well as the identification of other entities for which these individuals currently serve, or within the two years prior to filing had served, as an officer, director, or board observer (or in the case of unincorporated entities, roles exercising similar functions). This information would allow the Agencies to know of existing, prior, or potential interlocking directorates and to assess the competitive implications of such relationships under both Sections 7 and 8 of the Clayton Act.[34]

Section 8 of the Clayton Act generally prohibits a person from serving as an officer or director of competing corporations, subject to certain categorical and de minimis exceptions. This section of the Clayton Act aims to prevent information sharing and coordination between competitors through a per se ban that prohibits the same individual from serving as an

[31] *See United States* v. *E.I. du Pont de Nemours & Co.,* 353 U.S. 568 (1957) (du Pont's 23% stake in General Motors violated Section 7 by giving it an advantage over other suppliers and thereby resulting in a substantial lessening of competition). In considering the proper remedy, the Supreme Court found that divestiture of only voting rights was insufficient due to the on-going ''special relationship'' could still result in competitive harm. *United States* v. *E.I. du Pont de Nemours & Co.,* 366 U.S. 316, 332 (1961).

[32] 43 FR 33450, 33531–32 (July 31, 1978).

[33] *Id.* at 33531.

[34] Although Section 8 does not technically apply to unincorporated entities, information sharing and coordination can still raise concerns under Section 1 of the Sherman Act.

officer or director of two competing firms.[35]

In the Agencies' experience, many acquiring persons have board members who also serve on the boards of other companies. As a result, the Agencies often investigate existing board relationships as well as potential interlocks that would result from the transaction as part of its initial review. Section 8 bars interlocks that arise through rights to appoint board members to a competitor[36] or officers or directors serving on the boards of competing companies. Investment entities that acquire board seats across a diverse portfolio of companies may be particularly likely to encounter Section 8 compliance issues via a merger or acquisition.[37]

Currently, filers are not required to disclose the identity of the members of their boards of directors, and this makes it difficult for the Agencies to complete their assessment of potential Section 8 issues during the initial waiting period. Having information about potential interlocking directorates in the HSR Filing would allow the Agencies to take steps to prevent the sharing of board-level confidential information much more quickly. This information is also relevant to the competition analysis of the transaction, as well as concerns about potential gun-jumping, which may violate the Act or Section 1 of the Sherman Act.[38] This is particularly important given that post-merger enforcement of Section 8's *per se* ban can be ineffective after the individual has been privy to the confidential business information of two competitors: Section 8 provides a one-year grace period to remedy an illegal interlock that arises after the individual is elected or chosen to be an officer or director.[39] Moreover, Section 8 does not provide for civil penalties or other monetary relief, only injunctions barring the individual from serving on the two boards.

Information about board observers can also be relevant to the Agencies' analysis of the proposed transaction. Board observers are not subject to the Section 8 ban on interlocking directorates, and yet may have access to the same materials that are shared with officers and directors. In December 2020, the Commission issued an advance notice of proposed rulemaking (''ANPRM'') that, among other things, sought to gather information about sources of influence on corporate decision-making outside the scope of voting securities.[40] The Commission noted the possibility that there are ways to gain influence over a company other than through the acquisition of voting rights, for instance through board observers, and pointed to the increasing use of board observers as part of the governance structure. Because the acquisition of rights to be a board observer is not a reportable event under the HSR Act, the Commission sought information about whether having rights as a board observer provides opportunities to influence an issuer's business decisions.[41]

The Commission received two comments in response to the ANPRM that discuss the role of board observers, and each comment indicated that individuals serving as board observers typically receive the same information as the board of directors, although there may be ways to exclude them from reviewing privileged or competitively sensitive information.[42] In the Commission's experience, board observers have become more prevalent and could be privy to the same information as members of the board. For that reason, information about who these individuals are and whether they also serve as officers, directors, or board observers with other companies is important for understanding other sources of influence on the company's competitive decision-making and whether such individuals could share information between competitors. The Commission believes that having this information available during the initial waiting period would permit the Agencies to take steps to minimize the sharing of information prior to consummation.

The Commission thus proposes that filing persons provide information about the officers, directors, and board observers (or in the case of unincorporated entities, individuals exercising similar functions) of the acquired entity(s) and entities within acquiring person(s), as applicable, for the prior two years, and for each individual, identify any other companies for which those individuals would serve or have served during the prior two years as officers, directors, or board observers. The Commission also proposes requiring the same information for the prospective officers, directors, or board observers of the acquired and acquiring entities after the transaction, as well as for any officers, directors, or board observers of new entities created as a result of the transaction (and, in each case, for unincorporated entities, individuals serving those functions). If it would be impossible to identify the specific officers, directors, and board observers, filers should describe who would have the authority to choose them. Information received through these proposals would help the Agencies identify individuals with the ability to participate in or influence competitively relevant decision-making related to the filing persons or with access to confidential business information, allowing the Agencies to engage in more effective enforcement of the antitrust laws. The Commission believes that this information should be known to or readily accessible by the filing parties, and in some cases already

[35] Like Section 7, Section 8 was designed to ''nip in the bud incipient violations of the antitrust laws by removing the opportunity or temptation to such violations through interlocking directorates.'' *United States* v. *Sears, Roebuck & Co.,* 111 F. Supp. 614, 616 (S.D.N.Y. 1953).

[36] *See, e.g.,* Complaint, *United States* v. *CommScope Inc.,* 1:07–cv–2200 (D.D.C.) (Dec. 6, 2007) *https://www.justice.gov/atr/case-document/complaint-69* (alleging violations of Sections 7 and 8 where buyer also acquired rights to appoint members to the board of its competitor). See also Press Release, U.S. Dep't of Just., Tullett Prebon and ICAP Restructure Transaction after Justice Department Expresses Concerns about Interlocking Directorates, (Jul. 14, 2016). The Department of Justice has announced its intent to reinvigorate Section 8 enforcement, after seven directors resigned from corporate board positions. collected as part of an incorporated entity's antitrust compliance program.

C. Transaction Information

The Commission proposes the creation of a Transaction Information section within the proposed Instructions. Currently, information about the transaction is required in several sections of the Form: the initial portion of the current Form requires information about the filing fee and whether early termination of the waiting period is requested; Item 2(a) requires identification of the ultimate parent entities of the acquiring and acquired persons; Item 2(b) identifies the type of transaction; Item 2(c) identifies the § 801.1(h) threshold that will be crossed; Item 2(d) seeks information about the percentage and value of the voting securities, non-corporate interests, and/or assets to be required; Item 3(a) asks for identification of the acquiring and acquired persons and entities, as well as a description of the transaction; Item 3(b) requires the listing and attaching of the most recent transaction agreement, or letter of intent; and Item 5(b) requires information about joint ventures and formations. The Commission proposes the reorganization, clarification, and expansion of these items to require information that will aid the Agencies in understanding the totality of the transaction during the initial waiting period. These proposed changes, discussed below, would require information about the transaction to be reported in the following proposed categories: Parties, Filing Fee, Transaction Details, and Transaction Description.

1. Parties

The proposed Parties section within the proposed Instructions would require the identification of the acquiring and acquired persons and the acquiring and acquired entities. This information is currently collected in Item 3(a) of the Form, and the Commission is not proposing any material changes to this requirement.

2. Filing Fee

The proposed Filing Fee section within the proposed Instructions would require identification of the total filing fee required for the transaction and information about the payment, including identification of the paying entity and the Electronic Wire Transfer confirmation number.[43] This information is currently collected in the Fee Information section of the Form, and the Commission is not proposing any material changes to this requirement.

3. Transaction Details

The proposed Transaction Details section within the proposed Instructions would require the same information currently required by Items 2(b)–2(d) of the Form that detail whether the transaction involves the acquisition of voting securities, non-corporate interests or assets, and the approximate value of each, as well as whether a notification threshold is crossed. The Commission is not proposing any material changes to these requirements.

4. Transaction Description

The Commission proposes creating a Transaction Description section within the proposed Instructions to reorganize information currently required in the Transaction Description portion of Item 3(a) of the Form, and to expand the required information, as described below.

a. Business of the Acquiring Person

The Commission proposes requiring the acquiring person to describe its business operations. Currently, Item 3(a) of the Form requires filing persons to briefly describe the transaction, including whether assets, voting securities, or non-corporate interests (or some combination) are to be acquired. Filers must also describe the business operation being acquired or what the assets being acquired comprise.[44] Although this information helps the Agencies understand what is proposed to be acquired, it does not provide any insight into the full range of business operations or other entities involved in the transaction on the part of the acquiring person. In the Commission's experience, understanding the scope of the acquiring person's business operations is critically important to determining whether the transaction poses any potential competition concern. Although this information is well known to the acquiring person, it is often not easily or quickly collected and confirmed from public sources during the initial waiting period.

As a result, the Commission proposes requiring the acquiring person to briefly describe the business operations of all entities within the acquiring person to provide a clear overview of all aspects of the acquiring person's pre-transaction business to facilitate the Agencies' antitrust review during the initial waiting period. Many businesses have pre-prepared descriptions of their operations for use in press releases, marketing materials, and investor materials. Unlike the requirement to describe the entities or assets to be acquired, which would apply to both the acquiring and acquired person, the requirement to describe business operations would be limited to the acquiring person.

b. Business of the Acquired Entity

As noted above, Item 3(a) of the Form requires filing parties to briefly describe the transaction, including whether assets, voting securities, or non-corporate interests (or some combination) are to be acquired. Filing persons must also describe the business operation being acquired or what the assets being acquired comprise. The Commission is not proposing any material changes to this requirement.

c. Non-Reportable UPE(s)

Item 2(a) of the Form currently requires the identification of any UPE that is not required to file, and the Commission is not proposing any material changes to this requirement.

d. Transaction Description

Item 3(a) of the Form currently requires a brief description of the transaction. The Commission is not proposing any material changes to this requirement.

e. Transaction Rationale

The Commission proposes adding a new requirement that filing persons provide a narrative that would identify and explain each strategic rationale for the transaction. As helpful as the documents responsive to current Items 4(c) and 4(d) of the Form can be, they do not always convey each filing person's cumulative views on the rationale(s) for the transaction. Indeed, such documents (when they are submitted and when they discuss rationales) often contain differing, and at times conflicting or mutually exclusive, statements regarding the transaction depending on when they were prepared or by whom. For example, different members of the deal team might have different perspectives on the potential motivations for the transaction at different times, and the submitted documents do not resolve the filing person's ultimate thinking regarding the topic. Since documents responsive to Items 4(c) and 4(d) do not consistently provide an overview of the rationale(s) for the transaction, it would be of immense value for the Agencies to have during the initial waiting period a

[43] If electronic wire transfers are not available to the filing party, the Instructions would continue to provide instructions for paying by check.

[44] 81 FR 60257 (Sept. 1, 2016).

statement that discusses each the strategic rationale(s) from the perspective of each filing person.

The Commission thus proposes that the acquiring and acquired person be required to submit a narrative describing all strategic rationales for the transaction, including, for example, those related to competition for current or known planned products or services that would or could compete with a current or known planned product or service of the other reporting person, expansion into new markets, hiring the sellers' employees (so-called acqui-hires), obtaining certain intellectual property, or integrating certain assets into new or existing products, services or offerings. The Commission also proposes that the filing person identify which documents submitted with the HSR Filing support the rationale(s) described in the narrative. This proposed requirement would help ensure that the provided narrative is grounded in the filers' ordinary-course documents and not mere advocacy designed to portray a favorable view of the transaction. Moreover, any cited documents that support the narrative would also provide additional context for the Agencies as they assess the parties' stated rationale(s) in relation to any potential competitive consequences of the transaction. Understanding the business reason(s) for pursuing the transaction can materially affect the course and direction of the Agencies' antitrust review during the initial waiting period.

f. Transaction Diagram

The Commission proposes a new requirement that the filing persons provide a diagram of the deal structure along with a corresponding chart that would explain the relevant entities and individuals involved in the transaction. The brief narrative currently required in Item 3(a) of the Form does not require filers to explain all the relevant entities or identify steps involved in the transaction and their sequence. As a result, the Agencies frequently request a more detailed account of these steps during the initial waiting period, but these submissions are voluntary, not uniform in their detail, and often lack important aspects of the transaction that may bear on the competitive analysis and the determination of whether the transaction warrants in-depth review. In the Commission's experience, particularly in the case of complex or multi-step transactions, diagrams are generally more helpful than simple narratives in conveying the relationships of the relevant entities and the deal structure.

The Commission's proposal that filing persons submit a diagram of the deal structure along with a corresponding chart explaining the entities involved in the transaction would further assist the Agencies' conceptualization of the transaction and save considerable time in obtaining basic information about the entities involved and how the transaction would affect the operations of those entities. Such diagrams are often prepared by companies in the ordinary course of business for other purposes, such as for transaction diligence requirements.

g. Related Transactions

While Item 3(a) of the current Form asks parties to indicate whether there are additional filings related to the transaction, filers sometimes overlook this requirement. The proposed Instructions would clarify that filing persons must identify related transactions. The proposed Instructions would also provide a list of common circumstances in which multiple filings are required to guide filing parties in their responses. These proposed changes would provide clarity for both filing persons and the Agencies.

h. Early Termination

The proposed Early Termination section would ask whether the filing party requests early termination of the waiting period. This question is currently asked on page one of the Form, and the Commission is not proposing any material changes to this requirement.

5. Joint Ventures

The proposed Joint Ventures section within the proposed Instructions would require information about transactions structured as a joint venture or formation pursuant to §§ 801.40 or 801.50. This information is currently collected in Item 5(b) of the Form and requires information about the contributions each person will make to the entity, what consideration will be received, the business in which the new entity will engage, and an allocation of revenue to industry codes. As discussed in section III.A.1.b. above and III.D.3. below, the Commission is proposing eliminating the use of 10-digit NAPCS codes. Therefore, the Commission proposes also eliminating the requirement to identify the NAPCS codes in which the joint venture will derive revenue. The Commission is not proposing any other material changes to this requirement.

6. Agreements and Timeline

The proposed Agreements and Timeline section within the proposed Instructions would require filing persons to provide a term sheet or draft agreement that reflects sufficient detail about the proposed transaction to demonstrate the transaction is more than hypothetical, if a definitive agreement has not been executed, as described above in the proposed amendments to § 803.5(b) at II.C. In addition, the Commission proposes additional changes regarding which agreements must be submitted. These proposed changes, discussed below, include a requirement to submit the entirety of all agreements related to the transaction and a new requirement to submit other agreements between the filing persons that are not related to the transaction, as well as a timetable for the transaction.

a. Transaction-Specific Agreements

The Commission proposes requiring that all transaction-specific agreements be submitted with HSR Filings. Currently, Item 3(b) of the Form requires the submission of all documents that constitute the agreement(s) among the acquiring person(s) and the person(s) whose assets, voting securities, or non-corporate interests are to be acquired, as well as agreements not to compete and other agreements between the parties. The production of schedules to agreements is not currently required, unless the schedules contain agreements.[45] In the Commission's experience, the structure of transactions has become increasingly complex, often comprising not only multiple agreements between the filing persons but agreements with third parties. Understanding the entirety of the transaction, including but not limited to non-competition and non-solicitation agreements and other agreements negotiated with key employees, suppliers, or customers in conjunction with the transaction, is crucial to determining the totality of the transaction and assessing during the initial waiting period the transaction's potential competitive impact. Moreover, schedules increasingly include descriptions of key terms and provisions.

The Commission thus proposes requiring filing persons to produce all agreements, inclusive of schedules, exhibits, and the like, that relate to the transaction, regardless of whether both parties to the transaction are signatories. It is the Commission's understanding

[45] 16 CFR 803 Appendix Notification and Report Form Instructions at page V.

that these documents are collected and are typically included in materials necessary for closing. Having a complete set of transaction-related agreements would provide the Agencies with a more complete understanding of the transaction under review.

b. Other Agreements Between the Parties

The Commission also proposes requiring filing persons to submit all agreements between any entity within the acquiring person and any entity within the acquired person in effect at the time of filing or within the year prior to the date of filing. Understanding the scope of any existing contractual relationships between the filers would materially assist the Agencies' review by revealing any business interactions or relationships that exist prior to the transaction and that may be affecting premerger competition. These might include licensing agreements, supply agreements, non-competition or non-solicitation agreements, purchase agreements, distribution agreements, or franchise agreements, among others. Understanding the full extent of the filing parties' existing contractual relationships would allow the Agencies to identify those relationships that contribute to the premerger competitive dynamics, which is material to assessing how the transaction may affect post-merger competition.

c. Timeline

The Commission also proposes that filing persons provide a narrative timeline of key dates and conditions for closing. Just as it is critical for the Agencies to understand the totality of the transaction during the initial waiting period, it is also critical to understand the timing of key milestones and the conditions to closing, which are often complex and not easily understood from the transaction documents themselves. The Agencies often cannot confirm basic deadlines for the transaction from the transaction documents and in those cases, the Agencies expend a great deal of time and effort to confirm with filers key dates, including the timing of pre-closing conditions, during the initial waiting period. Understanding deal timing is critical to each Agency's decisions regarding how to manage its merger workload on a priority basis, focusing available resources on those deals whose closing dates are imminent. This basic information about the timing of the transaction is not adequately captured in the current Form, and, to the extent the filing person knows at the time of the HSR Filing and can readily provide it, this information would help the Agencies understand key deal milestones and better manage the timing and focus of the investigation during the initial waiting period.

D. Competition and Overlaps

The Commission proposes creating a Competition and Overlaps section within the proposed Instructions. This section would collect, in one place, information that reveals any existing business relationships between the filing persons that requires the Agencies to take a closer look to determine whether the transaction warrants an in-depth investigation, which is the primary purpose of premerger notification and review. Information collected in this section would include information and documents currently collected in several parts of the Form: in Items 4(c) and 4(d), which require the production of certain documents created in conjunction with the evaluation of the transaction; Item 5(a), which requires the allocation of revenue from U.S. operations to industry and product codes; Item 6(c), which identifies certain minority-held entities of the filer; Item 7, which provides information about industries in which the acquiring person and acquired entity both participate; and Item 8, which requires the identification of certain prior acquisitions made by the acquiring person. The Commission proposes expanding and reorganizing the information and requiring additional documents that would bear directly on the premerger competitive relationship between the filing persons. The proposed Competition and Overlaps section would provide a new source of relevant information related to horizontal overlaps, as well as new information about supply relationships and employees, which would enable to Agencies to quickly identify and assess the potential impact of the transaction across many dimensions of competition. These proposed changes, discussed below, would be organized in the following proposed categories: Business Documents, Competition Analysis, NAICS Codes, Controlled-Entity Overlaps, Minority-Held Entity Overlaps, and Prior Acquisitions.

1. Business Documents

The proposed Business Documents section within the proposed Instructions would require the submission of documents currently required by Items 4(c) and 4(d) of the Form and additional categories of documents. The Commission's proposal for requiring additional documents is informed by a comparison of documents submitted by filing persons with the HSR Filing and those submitted during the Agencies' in-depth investigations that are not required by the current Form but would have been highly probative to the initial antitrust assessment of the transaction during the initial waiting period. The specific types of proposed business documents are discussed below.

a. Transaction-Related Documents

The proposed Transaction-Related Documents section would comprise the same types of documents currently required by Item 4(c) of the Form, which the Commission proposes to expand to include documents prepared by or for the supervisory deal team leads, and Item 4(d), which the Commission proposes to clarify without material changes. The Commission also proposes requiring the submission of certain previous draft versions of these documents.

i. Documents Prepared by or for Officers, Directors, or Supervisory Deal Team Lead(s)

In the proposed Documents Prepared by or for Officers, Directors, or the Supervisory Deal Team Lead section, the Commission proposes expanding the scope of requested documents evaluating the transaction by adding a requirement to submit such documents prepared by or for the supervisory deal team lead(s). Currently, Item 4(c) requires filing persons to provide all studies, surveys, reports, plans, and analyses prepared by or for officers or directors to evaluate the acquisition with respect to market shares, competition, competitors, markets, potential for sales growth, or expansion into products or geographic markets. These transaction-specific assessments of competition, past and future, provide the Agencies with invaluable insights into each party's view of how the transaction could change the competitive landscape and, most importantly, narrow the inquiry to particular markets and companies that each party believes to be its competitors. Since the beginning of the premerger notification program, 4(c) documents have been a key screening tool for the Agencies to identify those transactions that require more than a cursory review during the initial waiting period. The proposed section would retain the same definition of transaction-related documents to be submitted but add the supervisory deal team lead(s) to the list of individuals to whom this item would apply.

In some companies, an officer may lead the day-to-day activities of the deal team and would be considered the supervisory deal team lead, resulting in

no change to the documents currently required as part of Item 4(c) of the Form. But someone other than an officer or director often functionally leads the deal team. In the Commission's experience, in those cases, responses to current Item 4(c) often do not contain documents with sufficient information about the filing person's analysis of the competitive implications of the transaction to enable the Agencies to identify potentially problematic transactions. In fact, based on documents submitted in response to Second Requests, it is the Agencies' experience that individuals other than officers and directors are often the authors or recipients of documents that are otherwise responsive to Item 4(c) of the Form but are not required to be submitted with the HSR Filing because they were not prepared by or for an officer or director. These documents, typically in the possession of the supervisory deal team lead(s), often include information that would have been crucial to the Agencies' analysis of the transaction during the initial waiting period.

The Commission thus proposes that in addition to requiring documents prepared by or for officer and directors, filing persons must also submit these transaction-related documents prepared by or for supervisory deal team lead(s). Identification of any supervisory deal team lead would not be based upon title alone. The Commission proposes that the filing person determine the individual or individuals who functionally lead or coordinate the day-to-day process for the transaction at issue. A supervisory deal team lead need not have ultimate decision-making authority but would have responsibility for preparing or supervising the assessment of the transaction and be involved in communicating with the individuals, such as officers or directors, that have the authority to authorize the transaction. Any such individual(s) might be the leader(s) of an investment committee, tasked with heading the analysis of mergers and acquisitions, or otherwise given supervisory capacity over the flow of information and documents related to transaction.

The Commission believes this proposal strikes a balance between the interests of the Agencies and those of filing persons in requesting additional documents responsive to Item 4(c) of the Form. Requiring filing persons to include materials prepared by and for supervisory deal team lead(s) would allow the Agencies to receive additional key materials relevant to the analysis of the transaction without requiring information from all deal team members, in light of the opportunity to obtain additional documents through the issuance of Second Requests.

ii. Confidential Information Memoranda

The proposed Confidential Information Memoranda section would collect the information currently required by Item 4(d)(i) of the Form. The Commission is not proposing any material changes to this requirement.

iii. Studies, Surveys, Analyses, and Reports

The proposed Studies, Surveys, Analyses, and Reports section would collect the information currently required by Item 4(d)(ii) of the Form. The Commission is not proposing any material changes to this requirement.

iv. Synergies and Efficiencies

The proposed Synergies and Efficiencies section would collect the information currently required by Item 4(d)(iii) of the Form, and the Commission proposes to clarify that forward-looking analyses are responsive. Currently, Item 4(d)(iii) asks for all studies, surveys, analyses, and reports evaluating or analyzing synergies, and/or efficiencies prepared by or for any officer(s) or director(s) (or, in the case of unincorporated entities, individuals exercising similar functions) for the purpose of evaluating or analyzing the acquisition. The Commission proposes to specifically include a reference to models and financial projections to make clear that filers should submit forward-looking assessments of synergies or efficiencies. This information is especially important for screening the competitive impact of products or services not yet generating revenue but projected to do so. As before, financial models without stated assumptions would not need to be provided. For many transactions, especially those involving markets in which competition occurs via on-going innovative efforts, these forward-looking assessments will materially benefit the Agencies' identification of transactions that warrant in-depth review.

v. Drafts

Along with expanding the required Transaction-Related Documents as described above, the Commission also proposes requiring the submission of drafts responsive to these requests. It has been a long-standing position of the Commission's PNO that the submission of draft versions of documents responsive to Item 4(c) or 4(d) is not required unless there is no final version, in which case the most recent draft has been required, or unless a draft was sent to the board of directors. Under this guidance, if a draft version of a document is sent to the Board, it ceases to be a ''draft'' and must be submitted, even if a final version is also submitted. As a result, the Commission has not typically received many draft documents as part of HSR filings.

The Agencies routinely ask for and receive draft documents in response to Second Requests and, in the Agencies' experience, these drafts often reveal additional information about the transaction that would have been important to the Agencies' review during the initial waiting period, such as references to specific product markets or competitors that were removed in subsequent versions. In addition, these drafts can contain highly relevant, probative, or candid statements about the competitive impact not reflected in the final version of the document. In some cases, it appears that the draft documents have been edited to remove candid assessments of factors relevant to competition prior to circulation to officers or directors. In others, the dates of the documents suggest that otherwise responsive drafts were not finalized or shared with officers or directors until after making an HSR Filing.

The Commission therefore proposes clarifying in the Instructions that drafts of responsive transaction-related documents must be submitted if that document was provided to an officer, director, or supervisory deal team lead(s). This proposed change would ensure that the Agencies have access to documents that reflect pre-transaction assessments of business realities, as opposed to ''sanitized'' versions, to aid in their analysis during the initial waiting period. The addition of the supervisory deal team leader(s) to this requirement should capture draft materials important to managing the transaction but avoid the burden of having to submit prior versions that were not reviewed by senior managers or decision-makers. As stated elsewhere in this NPRM, the Commission aims to strike a balance between the Agencies' need to obtain material information about the transaction and the burden on filing parties, so the scope of this request is limited so as not to require filing parties to search numerous company personnel beyond officers, directors, and supervisory deal team lead(s).

The Commission recognizes that requiring draft transaction-related documents creates an additional burden for filing parties to collect and submit more documents to the Commission with their HSR filings and that, to some

degree, previous versions of submitted documents may contain repetitive information. Moreover, HSR filings that contain large document submissions could overwhelm the Agencies and undermine the goal of effective and efficient screening for transactions that require an in-depth investigation. For this reason, the Commission seeks comment on a potential alternate approach in which filing parties collect draft Transaction-Related Documents as part of preparing HSR filings but do not submit these documents until and unless agency staff reviewing the transaction requests the draft documents during the initial waiting period. In the event that agency staff requests the draft documents, the filing person would be required to submit them within 48 hours in order to retain the initial waiting period. The Commission invites comment on whether this alternative approach would reduce the burden for the parties and the Agencies compared with submitting all versions with the HSR Filing as described above, whether there are logistical issues with providing the collected draft documents within 48 hours, and the estimated volume of drafts collected.

b. Periodic Plans and Reports

The proposed Periodic Plans and Reports section would require filing persons to submit certain high-level strategic business documents that were not created in contemplation of the transaction but still contain information relevant to the antitrust analysis. As a result of decades of experience, the Agencies are aware that, as part of diligence for a potential transaction, companies often collect a targeted set of ordinary course documents that do not need to be submitted as part of an HSR Filing. Such documents typically include strategic plans and documents that are useful to those negotiating or evaluating the transaction because they discuss general market dynamics, competitors, or other potential mergers and acquisitions. The Commission understands that these documents are collected to provide key transaction decision-makers with the company's internal assessment of commercial realities of the premerger marketplace.

The Commission therefore proposes requiring certain plans and reports created in the ordinary course of business and not prepared solely for the purpose of evaluating the proposed transaction to be submitted as part of the HSR Filing. Periodic plans and reports created in the ordinary course of a company's business often contain detailed assessments of core business segments, markets, competitors, other acquisition targets, and projections about future competitive dynamics—insights that have direct bearing on the Agencies' antitrust assessment of the transaction in the initial waiting period. The Commission proposes requiring the submission of semi-annual and quarterly plans and reports that discuss market shares, competition, competitors, or markets of any product or service that is provided by both the acquiring person and acquired entity, if those documents were shared with a chief executive of an entity involved in the transaction, or with certain individuals who report directly to a chief executive. The Commission also proposes requiring the submission of all plans and reports submitted to the board of directors (or, in the case of unincorporated entities, individuals exercising those functions) that discuss market shares, competition, competitors, or markets of any product or service that is provided by both the acquiring person and acquired entity.

These proposed new document requirements would be limited in certain specific ways to minimize the overall number of documents submitted with the HSR Filing. First, the new Periodic Plans and Reports section would not require documents that analyze ''the potential for sales growth or expansion into product or geographic markets'' as is required by current Item 4(c). Additionally documents responsive to this item would be limited to those prepared or modified within one year of the date of the HSR Filing. The Commission believes that the submission of a limited set of ordinary course business documents that were not prepared specifically to evaluate the transaction but discuss premerger and future competitive dynamics and strategies broadly would provide valuable insight and context for the transaction-related documents submitted with the HSR Filing. These ordinary course business documents are routinely submitted during in-depth investigations in response to Second Requests and routinely contain unique information about the state of premerger competition, which if available during the initial review period would help the Agencies determine if an in-depth review is warranted and if so, its proper scope.

The Commission is aware that this new requirement has the potential to result in the submission of a large number of documents for complex or large transactions. The Commission is also aware of the potential impact on the filing persons and on the Agencies of large document submissions. The Commission seeks to balance these interests and invites comment on how or whether narrowing the set of custodians for periodic reports and plans, or any other proposed limits, would still generate information about the premerger state of competition that is not specific to the transaction while reducing any burden on filers and the Agencies.

Finally, the Commission notes that filing persons should not exchange additional information with respect to planned products or services to provide a response to this proposed requirement but should respond instead on the basis of regular diligence and the knowledge or belief of the filing person. The Commission recognizes that an acquired person would have limited information about the acquiring person's operations, including products under development, and the Commission does not intend these proposed changes to encourage additional information sharing of this type of information.

c. Organizational Chart of Authors

As the final part of its proposed Business Documents section, the Commission proposes requiring filing persons to identify the authors of all responsive documents submitted with the HSR Filing and to provide additional information about each individual. Given the short period of time for review during the initial waiting period, it is crucial for the Agencies to have a clear understanding of how authors of key documents fit into the organization or entities of each filing person to determine the importance and perspective of the responsive documents submitted with the HSR Filing and to identify key employees within the organizations. Thus, the Commission proposes requiring an organizational chart(s) that would reflect the position(s) within the filing person's organization held by identified authors, and for privileged documents, the recipients of each document submitted with the HSR Filing. The Commission also proposes requiring the filer to identify the individuals searched for responsive documents. It would be sufficient to indicate by notation on the organization chart(s) which individuals were searched.

Providing a chart will help contextualize reporting relationships, as well as the relative seniority, of the authors and recipients and allow the Agencies to more quickly assess which documents contain high-level assessments from key employees. The benefit of being able to identify important decision-makers within the filing person and having context for key documents would allow the Agencies to

quickly assess the probative value of the documents

2. Competition Analysis

The Commission proposes creating a new Competition Analysis section within the proposed Instructions. This proposed section would create new requirements for filing persons to provide narratives that would, among other things, describe their basic business lines and provide product or service information for all related entities; identify current and potential future horizontal overlaps and supply relationships between the filing persons; and provide information about their employees and what services these employees provide. These proposed narrative requests would provide the Agencies with crucial information about current and future competitive relationships between the filing parties, including whether they compete to hire employees, which is information that is not required by the current Form.

a. Horizontal Overlap Narrative

The Commission proposes creating a new Horizontal Overlap Narrative section that would require each filing person to provide an overview of its principal categories of products and services (current and planned) as well as information on whether it currently competes with the other filing person. Such information is core to the Agencies' substantive antitrust analysis during the initial waiting period and is not readily accessible from sources other than the filers themselves. In drafting the Horizontal Overlap Narrative, each filing person would describe its current and planned principal categories of products and services in the way that those business lines are referred to in the company's day-to-day operations so that the Agencies could more readily understand the information in the context of current market realities. If any of the submitted documents support the information contained in the narrative, the filing person would also identify such documents.

The products or services offered by the filing persons that currently or potentially compete with each other are often referred to by antitrust professionals as ''horizontal overlaps.'' The identification and assessment of such horizontal overlaps is an essential starting point for the Agencies' substantive review of any transaction to determine whether it has the potential to violate the antitrust laws. As discussed elsewhere, NAICS code reporting can result in underreporting of horizontal overlaps, and not every HSR Filing contains 4(c) documents that could potentially reveal overlaps not identified by NAICS code reporting. In such cases, the HSR Filing does not contain basic screening information that the Agencies need to determine whether the transaction merits closer scrutiny during the initial waiting period. Premerger notification is intended to allow the Agencies to scrutinize any transaction that eliminates competition between existing or potential competitors, and it is important for every HSR Filing to identify any existing or potential horizontal overlap created by the transaction.

As a result, the Commission proposes that within the Horizontal Overlap Narrative, each filing person would be required to list each current or known planned product or service that competes with (or could compete with) a current or known planned product of the other filer. For each such overlapping product or service, the filing person would provide sales, customer information (including contacts), a description of any licensing arrangements, and any non-compete or non-solicitation agreements applicable to employees or business units related to the product or service.

The proposed requirement for this information about each filing person's market presence in overlapping products or services would enable the Agencies to quickly identify and assess the significance of the filers' respective businesses both in relative and absolute terms. Proposed customer information would enable the Agencies to understand the customer base of the overlapping businesses and to promptly conduct, at the beginning of the initial waiting period, further industry research with customers likely to be affected by the transaction or those who are particularly knowledgeable about the parties' business operations, relevant industry dynamics, and other market participants. Contacting customers to confirm basic market dynamics is a key step in the antitrust analysis conducted by Agency staff during the initial waiting period, and the parties are frequently asked to provide this information on a voluntary basis once one Agency has granted clearance to the other to conduct an initial investigation of the transaction. However, since this information is not compulsory, the Agencies do not always receive it in a timely fashion during the initial waiting period, hampering the ability of the Agencies to use that period to effectively screen for transactions that merit the issuance of Second Requests.

The proposed requirement to describe any licensing, non-compete, or non-solicitation agreements involving the overlapping products or services would enable the Agencies to assess specific categories of existing contracts that are likely to affect how the transaction will impact competition for those products or services. These existing relationships bear on premerger market conditions and may reflect that the filers already view themselves as competitors (in the case of non-compete or non-solicitation agreements) or as key trading partners (in the case of licensing agreements).

The Commission acknowledges the burden drafting the proposed Horizontal Overlap Narrative could create for some filers, especially for transactions involving close competitors with multiple overlapping product or service lines. But identifying those transactions that present broad and complex competition issues is a critical first step for the Agencies. Once identified, the Agencies must then properly manage their review, first determining which markets could be impacted by the transaction and then deciding which of those necessitate in-depth review. On balance, this proposed requirement would significantly improve the information available to the Agencies to identify any existing or potential horizontal overlap to assess the competitive implications of a transaction during the initial waiting period. The Commission notes that in the Agencies' experience, companies who are horizontal competitors prior to the transaction frequently assess the antitrust risk associated with the transaction prior to making an HSR Filing, and therefore the information required by this proposal may already be available, in whole or part, to include with the HSR Filing. Although the Agencies have not previously required this type of narrative to be submitted as part of the Form, other jurisdictions have required such narratives for many years.

b. Supply Relationships Narrative

The Commission proposes creating a Supply Relationships Narrative section that would require each filing person to provide information about existing or potential vertical, or supply, relationships between the filing persons. A prior version of the Form required similar information about vertical vendor-vendee relationships, but the requirement was eliminated in 2001 because the type of information collected did not prove useful enough to the Agencies as a screen for potential non-horizontal relationships to justify

the burden of providing it at that time.[46] Based on the Agencies' experience investigating vertical mergers in the intervening decades, the Commission believes that the current proposal would provide sufficiently robust information to allow the Agencies to identify vertical and other non-horizontal issues, including those presented by diagonal mergers. Non-horizontal relationships can be hard to detect in certain sectors where supply chains are not well defined, for instance in the provision of services rather than physical products. The Agencies have an interest in knowing whether a transaction in which the filing persons operate in related markets would result in any change in market structure or incentives that might affect post-merger competition. Early identification of potential non-horizontal competitive issues is critical to determining whether further investigation is needed, as structural changes in these relationships require additional fact development to determine the nature and scope of potential non-horizontal competitive concerns, which can often be complex and unique. These issues are difficult to discern from the information currently required by the Form, and filing parties are in a unique position to identify existing or future non-horizontal business relationships between them.

The Commission thus proposes to collect, in a narrative response, information for related sales and purchases between the filing persons or with other companies that use the filing person's products, services, or assets to compete with the other filing person. Filing persons would report sales to the other filing person and to any other business that, to the best of the filing person's knowledge, uses its product, service, or asset as an input for a product or service that competes or is intended to compete with the other filing person's products or services. Filing persons would also provide information (including contact information and a description of the supply agreement) for other customers that use the product, service, or asset to compete with other filing person. Filing persons would provide similar information for purchases made from the other filing person and from any other business that, to the best of the filing person's knowledge, competes with the other filing party to provide a substantially similar product, service, or asset. This information would allow the Agencies to identify whether the transaction would create opportunities for post-merger foreclosure of rivals arising from vertical or diagonal relationships.

The Commission acknowledges that this will increase the burden on filers whose transaction involves existing supply relationships or who supply or purchase from companies that compete with the other filing party. But the Commission believes that requiring filing parties to provide a narrative that reveals existing and potential supply relationships between the acquiring person and acquired entity is important for the Agencies because it would allow them to quickly identify those transactions that raise concerns about non-horizontal competitive effects.

c. Labor Markets Information

The Commission proposes creating a new Labor Markets section that would require each filing person to provide certain information about its workers in order to screen for potential labor market effects arising from the transaction. The Agencies have increasingly recognized the importance of evaluating the effect of mergers and acquisitions on labor markets and have stepped up efforts to identify and investigate potential labor market effects arising from reportable transactions. Transactions have been challenged on the basis that consummation would result in labor market harms,[47] and consent agreements have included provisions that stop the use of certain non-compete clauses that limit the ability of potential market entrants to hire key employees.[48]

In transactions that involve two firms that purchase labor from the same labor market(s), the Agencies consider whether the transaction may substantially lessen competition for buyers of labor services. Every firm competes for labor in at least one labor market and, more commonly, in multiple labor markets. Companies that compete in the same product market may also compete in the same labor market. Employers, however, may compete in the same labor market even when they do not compete in the same product or input market.

Yet the Form does not collect any information about employees that would allow the Agencies to conduct an initial screening for potential labor market effects, which has materially hampered their ability to protect employees from the harmful effects of mergers. To identify whether the filing persons compete to employ the same types of workers in a particular geographic area, the Commission proposes requiring certain information concerning each filing person's workers before the transaction and any plans that would affect workers post-consummation. This proposed section would identify potential labor market overlaps and allow the Agencies to engage with the filers on potential labor market issues during the initial waiting period.

i. Largest Employee Classifications

The Commission proposes creating a Largest Employee Classifications section that would serve as a screening tool based on the SOC system, developed by the Bureau of Labor Statistics, which classifies workers into occupational categories. Labor markets have two dimensions: the type or features of work performed, and the location of the work. Because describing every relevant feature of each job would be burdensome for parties, the Commission proposes requiring filing persons to classify their workers into occupational categories based on the SOC system, a widely used system for reporting worker statistics. While SOC categories do not always provide exact comparisons, SOC codes would nevertheless provide the Agencies with an objective classification standard which can be used as an initial screen for potential labor market overlaps. The use of these codes as a screening tool is not intended to endorse their use for any other purpose, such as defining a relevant labor market. To implement this proposed screening

[46] The Form originally required information about any vendor-vendee relationship between the reporting parties regarding manufactured product during the most recent year; this information was intended to help the Agencies identify supply relationships that could give rise to concerns about foreclosure or other competitive consequences of vertical integration. The Commission eliminated this requirement in 2001 because it was not effective in identifying vertical issues, not because vertical acquisitions present no potential competitive risks. 66 FR 8680, 8686–87 (Feb. 1, 2001). Since 2001, the Form has not collected specific information related to vertical relationships.

tool, the Commission proposes requiring filers to list their five largest categories of workers by the relevant 6-digit SOC classification and to provide the total number of employees for each 6-digit code identified.

ii. Geographic Market Information for Each Overlapping Employee Classification

The Commission proposes creating a Geographic Market Information for Each Overlapping Employee Classification section that would serve as a screen for the geographic component of labor markets based on the United States Department of Agriculture's ERS system. The ERS commuting zones were designed to delineate local economies based on where people live and work.[49] Filers would be required to identify the top five largest 6-digit SOC codes in which both parties employ workers. This should provide enough information for the Agencies to use SOC classifications as an initial proxy for labor issues while balancing the burden on filers by limiting the request to their five largest categories of workers. Also, for each of the five largest SOC codes in which both parties employ workers, this section would require filing persons to list the overlapping ERS-defined commuting zone(s) from which the employees commute and the total number of employees within each commuting zone. This proposed requirement would be limited to overlapping geographies, expressed as commuting zones, to capture sufficient information to identify potential labor market concerns without requiring filing parties to provide a complete list of all commuting zones in which they have workers.

This information would represent a material improvement in the data available to the Agencies during the initial waiting period. By relying on existing metrics that are familiar to U.S. companies and by limiting the request to the top five SOC classifications, the Commission's intent is to minimize the burden on filers. Nonetheless, the Commission seeks comment on whether this information would be difficult or costly to collect, and any alternative means by which the Commission could screen HSR Filings for potential labor market overlaps, for example by collecting information on the number and types of workers employed at each of the filing person's facilities.

iii. Worker and Workplace Safety Information

The Commission proposes creating a Worker and Workplace Safety Information section that would require filing persons to identify any penalties or findings that were issued against the acquiring person or acquired entity by the U.S. Department of Labor's Wage and Hour Division, the National Labor Relations Board, or the Occupational Safety and Health Administration during the five-year period before the filing. If a firm has a history of labor law violations, it may be indicative of a concentrated labor market where workers do not have the ability to easily find another job. The proposed five-year period limitation would capture the most relevant information for analysis during the initial waiting period while lessening the burden on filers to search through older files. This information is not always publicly available but is known to the filers and is relevant to identifying potential labor market effects.

3. NAICS Codes

The Commission proposes creating a NAICS section within the proposed Instructions. This section proposes changes to certain information currently required by Item 5(a) of the Form, which now asks filing persons to submit information regarding dollar revenues and lines of commerce with respect to operations conducted within the United States during the most recently completed fiscal year. This includes products manufactured in the United States, regardless of where they are sold, products manufactured outside the United States but sold into the United States or through a U.S. entity, and products or services derived from U.S. operations, whether sold to a U.S. or foreign customer.

The current version of Item 5 of the Form requires the reporting of revenue by industry and product codes developed by Census to track economic activity in the United States. Over the years, the Commission has revised Item 5 as it sought to balance the need to receive filing persons' revenue information with the burden on filers to provide that revenue information.[50] As part of the redesign of the premerger notification process contemplated in this NPRM, the Agencies reviewed the totality of revenue information currently required in Item 5(a) to determine which information is especially valuable, which is due for an update, and which is not sufficiently reliable or needed to conduct a robust initial assessment of reported transactions. As a result, the Commission now believes that it can further revise revenue reporting requirements to make reported revenue information more informative for the Agencies and less burdensome for filing parties. The Commission thus proposes a substantively different approach to revenue information through six proposed changes. The Commission also proposes a ministerial change to adopt the 2022 version of the NAICS codes, which are the most recent released by Census. Through these proposed changes, the Commission would expand and clarify the industry and product codes that filing persons would have to report, as well as limit the requirements on how revenue must be reported.

First, the Commission proposes eliminating the requirement that filing persons provide the precise amount of revenue attributed to each NAICS code. The Commission intends for the proposed change to streamline revenue reporting for filers and result in figures that would be just as useful to the Agencies for identifying important business lines of each person. It is the Commission's understanding that many businesses do not maintain detailed revenue information by NAICS code in the ordinary course of business and generating this information can require great effort. In fact, even obtaining estimates of revenue to the nearest $100,000, as is currently required, can still be burdensome for filers. The Commission therefore proposes that filing persons would only need to estimate revenue at five levels: pre-revenue (for certain products and services, as described below); less than $10 million; between $10 million and $100 million; between $100 million and $1 billion; and more than $1 billion. The Commission anticipates these ranges would provide the Agencies with an important overview of the magnitude of revenue generated by particular products and services, an important factor in the analysis of transactions during the initial waiting period, while at the same time reducing the burden of reporting revenues for filers. The Commission welcomes comments on

[49] *See* U.S. Dep't of Agric., ERS Commuting Zones and Labor Market Areas, *https://www.ers.usda.gov/data-products/commuting-zones-and-labor-market-areas/*.

[50] *See* 43 FR 33450, 33520 (July 31, 1978) (revenue reporting based upon Standard Industrial Classification codes of the U.S. Bureau of the Census); 66 FR 35541 (July 6, 2001) (amending the Form and Instructions to report revenue by North American Industry Classification System codes of the U.S. Bureau of the Census); 76 FR 42471 (July 19, 2011) (elimination of the requirement to report ''base year'' data); 84 FR 30595 (June 27, 2019) (amending the Form and Instructions to report manufacturing revenue by North American Product Classification System-based codes of the U.S. Bureau of the Census).

the proposed ranges, as well as other potential ways to capture the relative magnitude of the business of the acquiring person or acquired entity attributable to each NAICS code.

Second, the Commission proposes that NAICS codes be reported on a descriptive basis, encompassing all U.S. operations. Revenue reporting in Item 5(a) currently relies on the filing persons' ordinary course financial records. In the Commission's experience, reliance on these financial records often results in under-reporting or reporting in codes that may not actually be descriptive of the products or services provided. To address this issue, the Commission proposes requiring individuals familiar with the business operations of each operating company (or subdivision) to review the available NAICS codes to select the codes that would best describe the full line of products and services related to U.S. operations, regardless of whether the company tracks revenue by such codes in the ordinary course of business or relies on them for other reporting requirements. The Commission intends for this change to shift the collection of NAICS codes from how a company records revenue to align more closely with the full range of products and services offered. Because the Commission proposes to eliminate the requirement to specifically quantify the amount of revenue attributable to the codes, as described above, the Commission does not anticipate that this change will substantially increase the burden of collecting the information. Further, codes related to non-manufacturing activities estimated to have generated less than $1 million in the last fiscal year would not need to be listed, unless they overlap with a code reported by the other filing person.

Additionally, the Commission recognizes that some NAICS codes are imprecise, which can result in two filing persons engaged in similar businesses using different NAICS codes. Therefore, the Commission proposes that if more than one code might be appropriate, the filing persons would be required to list all the codes that describe the products or services offered and use end notes as needed to clarify selections and any potential overlap where the same revenues are reported in more than one NAICS code. This would assist the Agencies in understanding the businesses of the filing persons during the initial waiting period and address some of the shortcomings of NAICS code reporting.

Third, the Commission proposes changing how NAICS codes should be organized. Currently, filing persons must aggregate revenue across all entities within the acquiring person or acquired entity. But often the acquiring person or acquired entity comprises multiple operating companies or units, which may be engaged in multiple lines of business. For example, large companies can contain multiple operating units or subsidiaries that do business under separate brands and offer diverse products or services. Similarly, funds that file as acquiring persons may control many different operating companies. The Commission thus proposes to require acquiring persons and acquired entities with more than one operating company or unit to identify which entity(s) derives revenue in each code. This proposed requirement would facilitate efficient review and quickly identify the operating company(s) that may or may not be relevant to the antitrust analysis. From this information, the Agencies could quickly identify which entity within the filing person has competing or related business activities with the other filing party.

Fourth, the Commission proposes requiring the reporting of certain NAICS codes for certain pipeline or pre-revenue products. Currently, filers are not required to provide information about products or services that did not derive revenue in the last fiscal year. Yet these pre-revenue or early revenue activities are often core to the transaction rationale and essential to understanding the potential competitive impact of the transaction during the initial waiting period. This information is known to the filing person and is not available from other sources, as it is typically highly sensitive. As a result, the Commission proposes adding a requirement for acquiring and acquired persons to report NAICS codes for certain pipeline or pre-revenue products. The acquiring person would be required to identify any NAICS codes for products and services under development if those codes would overlap with the codes for current or known pipeline products or services of the acquired entity(s). The acquired person would identify the NAICS codes that would apply to the products or services of the acquired entity(s) that are under development or pre-revenue and anticipated to have annual revenue totaling more than $1 million within the following two years. The Commission believes the benefit to the Agencies would be substantial and anticipates that the burden associated with the collection of these codes would be minimal, as identification of these products and services would likely be completed during ordinary diligence. The Commission understands that the acquired person may have limited knowledge about the planned or under-development products of the acquiring person and does not intend the filing persons to divulge this information for the purpose of making an HSR Filing.

Fifth, the proposed NAICS code section would clarify that the acquired person must report the NAICS codes relevant to the acquired entity(s) at the time of closing. While most filers currently report in this manner, others have asserted that when an acquired entity is merely a shell at the time of the HSR Filing due to anticipated pre-consummation reorganization, no NAICS codes are required. This is not the intent of the revenue reporting requirements in the current Form, and the Commission proposes clarifying this issue by requiring NAICS reporting that reflects the operations of the acquired entity(s) upon consummation. This would provide clarity and make NAICS code reporting more reliable for both filing persons and the Agencies.

Finally, the Commission proposes eliminating the requirement for filing persons engaged in manufacturing to provide revenue by NAPCS-based codes. The requirement to allocate revenue to product codes dates from the promulgation of the Rules in 1978 and has been updated to reflect various product code formats implemented by Census over the years. The most recent Census industry code format is the 6-digit NAICS format.[51] Initially, Census also created 10-digit NAICS-based codes to provide more detail about the products within the 6-digit NAICS industry codes, and these were adopted by the Commission for use in HSR Filings in 2001.[52] In 2018, Census discontinued the use and updating of 10-digit NAICS-based codes in favor of 10-digit NAPCS-based codes. As a result, in 2019, the Commission amended the Form and Instructions to require use of the NAPCS-based codes for manufactured products.[53]

However, these new NAPCS-based codes have been less useful for the Agencies' analysis than the discontinued 10-digit NAICS-based codes and have created significant confusion for both filers and the Agencies. The NAICS-based system provided 6, 8, and 10-digit codes, with the description of the products becoming more precise as the number of

[51] NAICS Codes were first published in 1997 and first used in the HSR Form in 2001. *See* 66 FR 23561 (May 9, 2001).

[52] 66 FR 35541 (July 6, 2001).

[53] 84 FR 30595 (June 27, 2019).

digits in the code increased. But the 10-digit NAPCS-based codes created by Census correspond to a combination of former 8-digit and 10-digit NAICS-based manufactured product codes. As a result, some parties inadvertently report revenue using a NAPCS code that corresponds to an 8-digit NAICS code. When this happens, the Agencies lack the more granular and descriptive nature of the NAPCS-based codes that correlate to the former 10-digit NAICS-based code that would allow the Agencies to more accurately identify mergers of companies that produce similar types of products. Additionally, when one filing party uses a NAPCS-based code that corresponds to an 8-digit NAICS-based code and the other filing person uses a NAPCS-based code that corresponds to a 10-digit NAICS-based code, the filing may not properly capture codes in which both parties report revenues. This could result in filings that should report revenue overlap code(s) but do not, limiting the Agencies' ability to rely on the codes to conduct an initial screen for competitive overlaps.

Because the proposed Horizontal Overlap section of the proposed Instructions would require the identification of overlapping products or services, as discussed in III.D.2., the Commission believes that additional identification of products by NAPCS code would no longer be necessary. The elimination of NAPCS-based revenue reporting would lessen the burden on filers to collect and report these figures, which have become less useful to the Agencies as a tool for identifying horizontal overlaps.

4. Controlled-Entity Overlaps

The Commission proposes creating a Controlled-Entity Overlaps section within the proposed Instructions. This section would continue to require the submission of information currently required by Item 7 of the Form, such as the identification of certain entities within the filing person that derive revenue in the same NAICS codes as the other filing person and geographic information regarding the operations and sales of such entities, but the Commission proposes certain changes to what information would be collected and reported. As explained below, specific information related to entities controlled by the filing person is critical to the Agencies' initial antitrust review as it serves as the primary tool for identifying horizonal overlaps between the parties to the transaction and their controlled entities, especially for transactions involving a UPE with complex corporate structures and multiple entities under its control. Compared to the current HSR Form, this proposed section would: (i) add a requirement to provide the name(s) by which entities have done business within the last three years, (ii) require the filing person to identify the overlapping entity within its own person, rather than the other filing person, (iii) update the NAICS codes that require geographic reporting at the street address level, (iv) require the identification of locations of franchisees for certain NAICS codes, and (v) add a requirement to provide geolocation data.

a. NAICS Overlaps of Controlled Entities

The Commission proposes that the new Controlled-Entity Overlaps section include the information currently required by Item 7(a), which requires the identification of the overlapping NAICS codes for the acquiring person (or an associate) and acquired entity, and Item 7(b), which requires the identification of the entities that derived revenue in overlapping NAICS codes within the UPE of the other filing person and, for the acquiring person, its associates. The Commission understands that filing persons often do not identify for the other filing person the entities that report in overlapping NAICS codes. Therefore, the Commission believes that it would be less of a burden for each filing person to only report entities within its own person that derive revenue in the overlapping NAICS codes. The Commission thus proposes requiring the acquiring person to identify the entity(s) within its own person that has operations in the same NAICS code as the acquired entity(s), and for the acquired person to identify the entity(s) within the acquired entity(s) that has operations in the same NAICS codes as the acquiring person. This proposed change would refine NAICS code reporting to provide the Agencies with a reliable source for identifying whether any entity within each filing person generates revenues in the same or related codes. As this information, unlike the current information required by Item 7(b), is known to the filing parties, the Commission anticipates that the burden of responding to this request will be diminished.

The Commission proposes two additional changes to the current requirements of Item 7(b). First, the Commission proposes requiring the identification of ''doing business as'' or ''formerly known as'' names used within the last three years by entities with U.S. operations in overlapping NAICS codes. This information would allow the Agencies to more efficiently collect information about the overlapping entities in publicly available resources during the initial waiting period by connecting each entity with any name by which it is known to other market participants. This information is known to filers and limited to a three-year look back period.

In addition, the Commission proposes that filing persons be required to identify the entity(s) that have U.S. operations in the overlapping NAICS code(s). For acquiring persons, this would include entities controlled by associates that have U.S. operations in a NAICS code in which the acquired entity(s) report. Currently some filers voluntarily match the overlapping NAICS codes to the entities within the acquiring person (or its associates) or acquired entity. In the Commission's experience, this information aids the Agencies in quickly identifying the entities within the filing person that may be relevant to the competitive analysis during the initial waiting period.

b. Geographic Market Information

The Commission proposes creating a Geographic Market Information section to collect the information currently required by Items 7(c) and 7(d) of the Form, which require, for each overlapping NAICS code, the identification of geographic markets where the entities controlled by the acquiring person (and its associates) and the acquired entity(s) do business. The Commission proposes to modify these requirements by updating the NAICS industries in which street-level reporting is required, requiring geolocation information for these addresses, and requiring the reporting of franchisees' locations.

The Commission periodically reviews which NAICS codes require more granular street, city, and state address information and which NAICS codes need only be reported at the state level.[54] Recognizing the burden that providing the street-level address for each location of an entity can require, the Commission differentiates between (1) NAICS industry codes that either do not tend to involve small local or regional markets or involve local markets but nonetheless can adequately be reviewed if the parties specify only the state in which revenue is derived, and (2) those which do tend to involve local markets for which knowing the areas served by each filing person is important to identify locations where

[54] *See, e.g.,* 75 FR 57110 (Sept. 17, 2010), adopted by 76 FR 42471 (July 19, 2011).

both parties compete for sales (*i.e.,* geographic overlaps). As part of this proposed rulemaking, the Agencies have reviewed the list of NAICS industries for which such street-level information is required and have adjusted the list of sectors which, based on their experience, require more granular geographic information than state-level information. The Commission thus proposes updating the list of NAICS codes for which locations need only be identified at the state level and NAICS codes for which street-level information would be required.

The Commission proposes removing the Nondepository Credit Intermediation NAICS codes (codes beginning with 5222) from the list of codes for which street-level information is required. In the Agencies' experience, these industries tend not to be locally focused. Therefore, for these codes, the Commission proposes requiring filing persons to list only the states within which they conduct operations, rather than street address as is now required. This proposal should reduce the burden on those filing persons who report sales in these NAICS codes.

The Commission proposes that filers be required to provide street-level reporting for the following additional codes (codes with asterisks indicate that all NAICS codes that begin with the preceding numbers are included).

113*** Forestry and Logging
2211** Electric Power Generation, Transmission and Distribution
2212** Natural Gas Distribution
3115** Dairy Product Manufacturing
311611 Animal (except Poultry) Slaughtering
311613 Rendering and Meat Byproduct Processing
311615 Poultry Processing
31181* Bread and Bakery Product Manufacturing
321*** Wood Product Manufacturing
32221* Paperboard Container Manufacturing
324*** Petroleum and Coal Products Manufacturing
325110 Petrochemical Manufacturing
325130 Synthetic Dye and Pigment Manufacturing
325180 Other Basic Inorganic Chemical Manufacturing
325193 Ethyl Alcohol Manufacturing
325194 Cyclic Crude, Intermediate, and Gum and Wood Chemical Manufacturing
325199 All Other Basic Organic Chemical Manufacturing
325211 Plastics Material and Resin Manufacturing
3271** Clay Product and Refractory Manufacturing
3272** Glass and Glass Product Manufacturing
327310 Cement Manufacturing
327390 Other Concrete Product Manufacturing
42331* Lumber, Plywood, Millwork, and Wood Panel Merchant Wholesalers
42333* Roofing, Siding, and Insulation Material Merchant Wholesalers
42344* Other Commercial Equipment Merchant Wholesalers
42345* Medical, Dental, and Hospital Equipment and Supplies Merchant Wholesalers
42346* Ophthalmic Goods Merchant Wholesalers
42349* Other Professional Equipment and Supplies Merchant Wholesalers
4239** Miscellaneous Durable Goods Merchant Wholesalers
4241** Paper and Paper Product Merchant Wholesalers
4242** Drugs and Druggists' Sundries Merchant Wholesalers
42441* General Line Grocery Merchant Wholesalers
42442* Packaged Frozen Food Merchant Wholesalers
42451* Grain and Field Bean Merchant Wholesalers
42452* Livestock Merchant Wholesalers
4247** Petroleum and Petroleum Products Merchant Wholesalers
4248** Beer, Wine, and Distilled Alcoholic Beverage Merchant Wholesalers
42491* Farm Supplies Merchant Wholesalers
42495* Paint, Varnish, and Supplies Merchant Wholesalers
44911* Furniture Retailers
493*** Warehousing and Storage
54138* Testing Laboratories and Services
54194* Veterinary Services
562*** Waste Management and Remediation Services
7132** Gambling Industries
71394* Fitness and Recreational Sports Centers

These are codes that represent industries in which the Agencies often determine that competition occurs on a local or regional basis. For those codes that represent regional competition, the Commission believes that there would be few individual addresses that would need to be provided, and therefore the burden would not be significantly higher than reporting the overlaps at the state level. The Commission acknowledges that for those industries where competition occurs on a very localized level, for example where customers travel to the company's location to purchase goods or services, providing street-level revenue information can be challenging. However, because businesses often face different competitors in each of these markets, the Agencies have learned that businesses often track sales at the local level in the ordinary course of business for these sectors. Knowing where within a state the filer's facilities are located is an important screening tool for the Agencies to quickly identify existing and potential geographic overlaps, and that benefit justifies requiring street-level reporting for these NAICS codes. Providing the Agencies with information to screen for geographic overlaps during the initial waiting period also benefits filing persons by reducing need to issue Second Requests to determine if there are such overlaps.

The Commission recognizes that providing the street address of tens, hundreds, or, in certain cases, thousands of locations can impose a burden on filers. Therefore, the Agencies have reviewed the NAICS codes closely to identify only those codes for which the Agencies would most benefit from street-level information. For these transactions that require more than a cursory review, attempts to collect this information from the parties during the initial waiting period slows down the review and delays the decision on whether an in-depth investigation of the transaction is needed. Further, the Commission believes that such information should be available in an accessible manner for most businesses that have a large number of facilities. Nonetheless, the Commission welcomes comments that identify, with rationales, NAICS codes that should either be added to or deleted from the list of codes for which state-level information is required.

The Commission also proposes requiring filers to report latitude and longitude information for street addresses so that the Agencies can easily and quickly use that information to populate mapping software and create maps to better identify possible geographic overlaps between the acquiring person and the acquired entity. Street addresses alone can be inadequate or inaccurate for isolating the exact location of facilities. Converting street addresses to coordinates is difficult due to abbreviations such as BLVD or ST, and street addresses often lack important information, such as South or North, or contain errors, such as mislabeling a Street address for an Avenue. Latitude and longitude information is unique, which reduces the likelihood of errors. Any errors in generating maps displaying the locations of the relevant facilities may affect screening for local markets, resulting in over- or under-identification of geographic overlaps. Since filing persons are familiar with the location of their own establishments, the Commission believes that they would be in best position to validate the accuracy of the locations through more precise latitude and longitude reporting.

The Commission also proposes requiring filers to list locations where franchisees of the acquiring or acquired person (as appropriate) generate revenue

in overlapping NAICS codes that require street-level reporting. Currently, there is no information submitted with the Form that allows the Agencies to begin this analysis for companies that do business through franchisees. Yet all company locations at issue in the transaction that generate revenues, both directly and indirectly through franchisees, must be accounted for when the Agencies analyze the existence and extent of competition between the filing persons. These proposed changes would provide the Agencies with all company locations to begin assessing geographic overlaps during the initial waiting period. Because franchisors must approve the location of franchisee operations and get regular sales reports from those operations, the Commission believes filers with these relationships will have this information about their franchisees.

5. Minority-Held Entity Overlaps

The Commission proposes creating a Minority-Held Entity Overlaps section within the proposed Instructions that would amend certain information that is currently required by Item 6(c) of the Form. Item 6(c) currently requires filing persons to list all of the entities in which the acquiring person and associates of the acquiring person, or the acquired entity (as appropriate), holds a minority interest of 5% or more. As originally proposed by the Commission in 2010, this item was intended to focus on only those minority-held investments that provide products or services that report in the same NAICS code as the other filing person, but in the final version of the rule, in order to limit burden, the Commission permitted filers to list all minority-held companies rather than limiting the list to those that created a NAICS code overlap.[55] However, in the Agencies' experience with information collected in Item 6(c), permitting parties to list all minority-held companies instead of only those that are in the same line of business or NAICS code has hindered the Agencies' ability to determine which entities may be relevant to the competitive analysis of the transaction during the initial waiting period. Unlike the filing persons, which have likely done diligence on the companies in which they invest, the Agencies have no basis to determine from the entire list of minority-held companies which ones have competitively significant relationships with the other filing person as this information is not available from any other source.

The Commission thus proposes eliminating the option to list all the minority-held entities of the acquiring person and its associates or acquired entity (as appropriate) and proposes once again to require identification of those that, to the filing person's knowledge or belief, would derive revenue in the same NAICS codes or have operations in the same industry as the other filing person. The Commission also proposes requiring filers to provide the names by which the listed entities do business. As noted above, the d/b/a or f/k/a names of the businesses are especially helpful to the Agencies in conducting additional research about the entities using public or third-party sources. These proposed changes would significantly assist the Agencies in determining which minority-held entities may be relevant to the competitive analysis of the transaction during the initial waiting period. In the Agencies' experience, there has been an increase in the number and type of companies in which the acquiring person and acquired entity have minority investments, and where they exist, understanding the business lines of these related companies can be important for determining any significant premerger competitive relationship between the filing persons that may be affected by the transaction. This is especially true where the important competitive relationship is not at the UPE level but arises from within the corporate structure or holdings of the filing persons. While the Commission recognizes that investors have more limited information regarding entities in which only a minority interest is held, the proposed Instructions would continue to permit filing persons to rely on their knowledge or belief. The Commission believes that filers have done some level of diligence to determine the business lines prior to investing in these entities, and should have some basis to identify overlaps.

6. Prior Acquisitions

The Commission proposes creating a Prior Acquisitions section within the proposed Instructions that would include the information currently required by Item 8 of the Form, as well as additional information. At present, Item 8 requires the acquiring person to identify all NAICS codes in which the acquiring person derived $1 million or more in revenue and the acquired entity(s) or assets also derived $1 million or more. For such codes, the acquiring person is required to report acquisitions made within the five years prior to filing that (i) resulted in control of entities that had net sales or total assets of greater than $10 million in the year prior to acquisition, or (ii) was an acquisition of assets valued at or above the statutory size-of-transaction threshold. The Commission proposes expanding the scope of prior acquisitions that would be identified and making the requirement applicable to the acquired entity as well.

Information about prior acquisitions has always been important for the Agencies, allowing them to identify strategies to gain market share through acquisitions rather than internal expansion or more vigorous competition. Filers have been required to provide information about prior acquisitions from the beginning of the premerger notification program.[56] This information can be especially important in sectors where acquisitions are typically not HSR-reportable but nonetheless can cause competitive harm and alter the market dynamics for the reported transaction.[57] The Agencies have taken steps to address concerns about acquisition strategies that premerger review does not routinely capture. For instance, when the Commission identifies a company that has violated Section 7 and is engaging in a strategy of rolling up competitors, if it is likely that future acquisitions may not require an HSR Filing, the Commission may order the firm to provide prior notice or obtain prior approval for any future non-reportable acquisition.[58]

As the minimum threshold for making an HSR Filing has been adjusted over time (in accord with changes in gross national product)[59] from $50 million to its current $111 million, many acquisitions do not require premerger

[59] Section 7A(a)(2) of the Act requires the FTC to revise thresholds annually based on the change in gross national product, in accordance with 15 U.S.C. 19(a)(5).

notification, especially in certain sectors.[60] A recent Commission study revealed that five of the largest technology companies in the United States completed 819 acquisitions that were not reported to the Agencies over a ten-year period from 2010–2019.[61] The Commission has thus identified a need to know more during the initial waiting period about prior acquisitions that may raise concerns about the filings parties' acquisition or roll-up strategies.[62]

Acquisitions of small companies can cause harm, including in sectors where competition occurs on a local level. When the Agencies determine that a firm is violating Section 7 through a pattern of serial acquisitions that fuels consolidation by eliminating local competitors, they can seek to prevent future violations but this is often insufficient to prevent widespread harm.[63] A pattern of serial acquisitions may also affect competition among innovative firms by consolidating innovation efforts into the hands of market leaders or other firms attempting to control the pace or direction of innovation.[64] A history of acquisitions in the same or related business lines may be especially important information where market boundaries are fluid and firms engage in a significant number of nonreportable transactions. This is potentially true of both the acquiring person and the acquired entity. The Agencies endeavor to identify such strategies [65] but need more robust tools for identifying firms that are engaging in a strategy of consolidation through transactions that may violate Section 7.

Thus, the Commission proposes several changes to expand the requirements for information related to prior acquisitions beyond what is currently required by Item 8. First, the Commission proposes requiring both the acquiring person and the acquired entity to provide information about prior acquisitions. The purpose of collecting information on all prior acquisitions by both filers is to assist the Agencies in identifying a potential pattern of acquisitions in a particular industry that has contributed to a trend toward concentration or vertical integration that affects the competitive dynamics for the parties to the transaction, as well as the commercial realities of post-merger competition.[66]

Second, the Commission proposes extending the time frame to report on prior acquisitions from five to ten years because the current five-year requirement for prior acquisitions is often insufficient to meaningfully identify patterns of serial acquisitions or a trend toward concentration or vertical integration. In 1987, the Agencies changed the reporting time period from ten years to five years.[67] At the time, it was thought five years reporting of past acquisitions would be sufficient to put the Agencies on notice of possible trends towards consolidation in the affected industries.[68] But based on decades of experience since then, along with changes to the economy and the varied acquisition strategies of filing parties, the Commission believes ten years would once again provide for a better framework to allow the Agencies to engage in a more detailed consideration of how numerous past acquisitions, including those in related sectors, affect the competitive landscape of the current transaction under review.

Third, the Commission proposes eliminating the threshold for listing prior acquisitions, which currently limits reporting to only acquisitions of entities with annual net sales or total assets greater than $10 million in the year prior to the acquisition. Limiting the reporting requirement to acquisitions of entities with annual net sales or total assets over $10 million may not capture acquisitions of new entrants or other nascent competitors that, despite not yet having widespread commercial success, nonetheless are poised to affect competition among existing firms or disrupt market dynamics. In fact, the Commission's technology acquisition study revealed that between 39.3% and 47.9% of transactions were for target entities that were less than five years old at the time of their acquisition.[69] Given the relative nascency of these acquired companies, the Commission believes that excluding prior acquisitions of firms that have not yet had the chance to gain commercial traction to achieve $10 million in net sales or assets does not provide a comprehensive picture of each filer's acquisition strategy. Learning more about the existence and patterns of these additional past acquisitions by both the acquiring person and the acquired entity, including acquisitions of companies that had not yet generated revenue, would help the Agencies better identify during the initial waiting period transactions that may, on their own or as part of a pattern of serial acquisitions, violate the antitrust laws.

Fourth, the Commission proposes treating asset transactions involving the prior acquisition of substantially all of the assets of a business in the same manner as prior acquisitions of voting securities or non-corporate interests. Currently, Item 8 provides separate thresholds for acquisitions of control of entities and acquisitions of assets. This distinction, however, does not recognize that some asset transactions functionally reflect the acquisition of substantially all of the assets of an entity as opposed to the acquisition of a distinct asset such as a manufacturing plant or an exclusive license. Thus, the current rule treats acquisitions of an entity or business differently depending on the form of the agreement. The proposed Instructions would continue to require that the acquisition of a distinct asset be reported only if the then-in-place size-of-transaction threshold was exceeded, but they would also require that a prior acquisition involving substantially all of the assets be reported in the same manner as prior acquisitions involving

voting securities or non-corporate interests.

While the Commission expects that the expanded reporting requirements of past acquisitions would create additional burden for filing parties, the proposed Instructions would continue to limit the reporting to only acquisitions in industries for which the filers have reported horizontal overlaps, as identified by overlapping NAICS codes or in the filer's Horizontal Overlaps Narrative. This limitation still provides the Agencies with sufficient information to identify transactions that may further a trend toward concentration or patterns of acquisitions that may, alone or in combination, substantially lessen competition. Moreover, given the difficulties in determining the value of small or nascent companies, the Commission believes it would be less burdensome for filers to report all acquisitions rather than expend additional time in assessing their value in terms of net sales or assets. The Commission invites comment on ways to limit the burden and exclude de minimis acquisitions of no competitive significance while still capturing acquisitions of entities worth less than $10 million and allowing the Agencies to conduct a robust screening for acquisition strategies that further consolidation trends.

E. Additional Information

1. Subsidies From Foreign Entities or Governments of Concern

As discussed in I.A. above, the 2022 Amendments direct the Commission, with the concurrence of the Assistant Attorney General, and in consultation with the Relevant Agencies, to require persons making an HSR Filing to disclose information about foreign subsidies from countries or entities that threaten U.S. strategic or economic interests. Along with the proposed definitions discussed above, the Commission proposes changes to the Instructions to implement this mandate from Congress.

The Commission proposes creating a Subsidies from Foreign Entities or Governments of Concern section within the proposed Instructions. This proposed section would include three questions. The first proposed question would track the requirements and stated purpose of the 2022 Amendments by requiring the acquiring and acquired person (as appropriate) to identify and describe certain subsidies, as defined by proposed § 801.1(r)(2), received or that are anticipated to be received by any entity within its person from a foreign entity or government of concern, as defined by proposed § 801.1(r)(1). Given the complexity of subsidies, the Commission proposes stating that the question should be answered upon the knowledge or belief of the filing person. This would relieve the filing person of the obligation to conduct a complex legal analysis. The filing person, however, must conduct good faith diligence.

In proposing this question, the Commission believes it is also consistent with Congressional intent to create reasonable limits to the required information on subsidies to benefit both the Agencies and filing parties. The Commission's proposed two-year limitation would identify the subsidies most likely to affect the Agencies' competitive analysis of a proposed transaction because those subsidies are most likely to affect current or future conduct of the parties. The Commission believes that this practical qualifier, coupled with the use of an existing definition of ''subsidy,'' as discussed in I.A.2. above, would provide the Agencies with the most pertinent information for the analysis of proposed transactions, while reasonably limiting the information required from filing parties. The Commission seeks comment on the temporal limitation for subsidies, as well as whether a de minimis value should be set, and if so, what administrable levels might be appropriate.

The Commission believes that requiring information on countervailing duties [70] would be extremely useful in providing a complete picture of the potential impact of subsidies per Congress's mandate and screening for subsidies that bear on whether the transaction may violate the antitrust laws. Thus, the Commission's second proposed question would require the acquiring or acquired person (as appropriate) to identify any of its products produced in a country that is a covered nation under 42 U.S.C. 18741(a)(5)(C) that are subject to countervailing duties in any jurisdiction. The Commission would also ask the filing party to list the countervailing duty imposed and the jurisdiction that imposed the duty. Such information about the countervailing duties and relevant products would help the Agencies determine in their initial analysis of a transaction whether subsidies from foreign entities or governments of concern might affect some aspect of competition in the future. The Commission believes that information about countervailing duties imposed by the United States should be readily available to filers because the Department of Commerce issues fact sheets that contain an overview of final subsidy findings and are available on its ''recent case announcements'' web page (*https://www.trade.gov/case-announcements-archives* (case announcements for the prior year)) and on the International Trade Commission's website (*https://legacy.trade.gov/enforcement/operations/scope/index.asp* (older determinations)), and that information about countervailing duties imposed by other jurisdictions should be readily available to filing persons from similar sources as well.

The Commission's third proposed question would require the acquiring or acquired person (as appropriate) to identify, to its knowledge or belief, any of its products produced in whole or in part in a country that is a covered nation under 42 U.S.C. 18741(a)(5)(C) that are the subject of an investigation by any jurisdiction for potential countervailing duties. The Commission would also ask the filing person to list the jurisdiction conducting the investigation. Such information would help the Agencies identify products that may be subject to active subsidies and assist the Agencies in their assessment of the subsidies' impact on competition. It is the Commission's understanding, however, that the investigating agencies do not always inform all producers or market participants of an investigation; thus, the Commission proposes limiting the scope of this third question to the filing person's knowledge or belief. The Commission believes that limiting this reporting requirement to the knowledge or belief of the filing person would provide filers with enough flexibility to respond to the question and certify the HSR Filing without having to confirm with various relevant agencies that no such investigation exists.

The Congressional mandate to collect information about foreign subsidies is consistent with the Agencies' desire to better understand whether there are significant ties to individuals or entities that may affect the Agencies' assessment of the potential competitive risks associated with the transaction. For instance, a foreign government or entity

[70] Countervailing duties are duties intended to offset the price effect of significant foreign government subsidies on a product or good. In the United States, the International Trade Administration of the Department of Commerce investigates whether imported products are subject to significant foreign government subsidies. The amount of the subsidies that the foreign producer receives from its government is the basis for the rate by which the subsidy is offset, or ''countervailed,'' through higher import duties enforced by U.S. Customs and Border Protection. *See, e.g.,* Int'l Trade Admin., *https://www.trade.gov/us-antidumping-and-countervailing-duties.*

could have a financial relationship that gives it the ability to sway the filing person to make different choices in the marketplace than it would without the subsidy. As discussed in III.B., Agencies would benefit from more complete information about individuals and entities, including governments, that have the ability to control or influence competitive decision making. The Commission believes that, taken together, information about minority holdings, individuals with influence, officers, directors, and board observers, as well as information about foreign subsidies may reveal significant constraints on the competitiveness of the affected company that should be taken into account during the Agencies' initial review.

2. Defense or Intelligence Contracts

The Commission proposes creating a Defense or Intelligence Contracts section within the proposed Instructions that would require filing persons to report certain contracts with defense or intelligence agencies. The Agencies regularly review filings from companies that supply the Department of Defense (''DoD'') or the intelligence community (''IC'') with products or services. During the initial waiting period, it is important for the Agency to quickly contact DoD and IC staff to collect key insights and information to prevent mergers that may have an anticompetitive impact on taxpayers through purchases made through DoD and IC programs. Yet without information about specific DoD or IC contracts or knowledge of which unit handles that contract, the Agencies often face difficulty and delay in identifying appropriate relevant personnel or stakeholders with knowledge of the contracts, programs, or products or services at issue. Such delays hinder the identification and evaluation of competition issues that would impact DoD or IC programs or budget during the initial waiting period.

The Commission thus proposes adding a requirement that both the acquiring and acquired person identify whether they have existing or pending defense or intelligence procurement contracts, as defined by 10 U.S.C. 101(a)(6) and 50 U.S.C. 3033(4), valued at $10 million or more, and provide identifying information about the award and relevant DoD or IC personnel. For filings from companies that supply DoD or the IC with products or services, this information would greatly enhance the Agencies' ability to identify and contact appropriate stakeholders within DoD or IC to seek their input as customers that might be impacted by the proposed transaction. This information is well known to the companies that do business with these government entities.

3. Identification of Communications and Messaging Systems

In conjunction with the proposed requirement that filing persons certify they have taken steps to prevent destruction of relevant information, as discussed in III.F. below, the Commission also proposes that filers identify and list all communications systems or messaging applications on any device used by the acquiring or acquired person (as appropriate) that could be used to store or transmit information or documents related to its business operations. Companies have increasingly been relying on new forms of communication—beyond email and other traditional document formats—to engage in business discussions and make key operational decisions. These systems can encompass internal chat technologies (such as so-called ephemeral messaging) or document management systems, including where content exchanged between the individuals is automatically deleted.

In the Agencies' experience, these communications systems contain highly relevant information on the transaction itself, as well as on topics that are critical for the Agencies' assessment of the transaction such as competition, competitors, markets, customers, and industry characteristics. Company employees' more frequent use of these communications systems and messaging applications, particularly in lieu of other traditional forms of communication such as email, has meant that these systems and applications have become an important part of Agencies' investigations. Moreover, to the extent that these communications systems are being used to evade document retention and preservation requirements that exist for more traditional forms of communication, the Commission believes it is important for the parties to understand that their preservation and retention obligations apply to these systems as well. As yet, many parties do not appear to fully understand and/or comply with document preservation obligations for these new modalities. For these reasons, the Agencies would greatly benefit from having a complete and transparent picture of the filer's applicable communication systems at the filing stage. The Commission further believes that this information is readily available to the filing person and that identifying these systems in use by the company with the HSR Filing would impose minimal burden.

4. Other Jurisdictions

The Commission proposes creating a new Other Jurisdictions section within the proposed Instructions. This section proposes to amend the requirements concerning antitrust filings outside of the United States and add a voluntary waivers section to allow for the sharing of HSR information with other enforcers.

a. Transactions Subject to International Antitrust Notification

The Commission proposes creating a Transactions Subject to International Antitrust Notification section that would require the identification of other jurisdictions that may be conducting a competition review. Currently, page one of the Form asks filing persons to voluntarily identify other jurisdictions where the transaction will trigger premerger notification under the laws of that jurisdiction. The Commission first proposed collecting information about filing in other jurisdictions in 1994, when it proposed a mandatory requirement.[71] In 1999, the Commission noted that it was still considering the proposals included in its 1994 proposed rulemaking.[72] The Commission then proposed a voluntary requirement in 2001[73] and the final rule was adopted in 2003.[74] The Commission now proposes making the disclosure of international filing obligations a mandatory requirement.

Since 2001, and certainly since 1994, merger enforcement by other competition authorities has become more robust as more jurisdictions have adopted competition laws that impose mandatory or voluntary premerger notification requirements. At the same time, a larger percentage of HSR-reportable transactions now involve companies with international reach. As a result, more transactions are likely to be subject to review in multiple jurisdictions around the world. Even though the number of transactions subject to premerger notifications in multiple jurisdictions has increased over the years, most filers do not voluntarily disclose on the Form that their transactions will be subject to non-U.S. notification requirements.

For many years, the Agencies have cooperated with numerous competition authorities on cases of common concern to help identify issues of common interest, gain a better understanding of relevant facts, and achieve, where possible, consistent or, at a minimum,

[71] 59 FR 30545, 30547 (June 14, 1994).
[72] 64 FR 1203 (Jan. 8, 1999).
[73] 66 FR 8680, 8684 (Feb. 1, 2001).
[74] 68 FR 2425, 2429 (Jan. 17, 2003).

non-conflicting outcomes. In order to fully benefit from inter-agency consultations, the Agencies need to know which foreign jurisdictions may also be evaluating the proposed transaction as early as possible. The delay associated with confirming whether there will be reviews or investigations by other competition authorities undermines effective cooperation during the initial waiting period, when sharing expertise and knowledge with other competition enforcers would be especially helpful in identifying which transactions need more in-depth review. Moreover, review by other jurisdictions can often affect the timing, pace, or ability to close the transaction, especially for jurisdictions that also require suspension of the transaction until the competition review is completed.

The Commission thus proposes a mandatory requirement to identify the jurisdictions where each filing person has already filed or is preparing notifications to be filed as well as a list of the jurisdictions where it has a good faith belief it will file. The Commission believes that upon execution of a definitive agreement, filers often know the jurisdictions where competition filings will be made. However, to account for the possibility that, at the time of the HSR Filing, parties may not have yet identified all the other jurisdictions where they will file, the proposed rule provides flexibility by stating that parties should respond based on their ''good faith belief.''

b. Voluntary Waivers for International Competition Authorities and State Attorneys General

The Commission proposes the creation of a voluntary waivers check box within an Other Jurisdictions section to allow filing persons to indicate that they agree to waive the confidentiality provisions of the Act, 15 U.S.C. 18a(h), for any jurisdiction identified by the filing person. As discussed above, transactions are often reviewed by non-U.S. competition authorities, or by one or more State Attorneys General. But the Act's confidentiality provision contains limits on disclosing material collected as part of the Agencies' HSR review of the transaction. As a result, merging parties and third parties waive statutory confidentiality protections so that the investigating Agency can share certain limited information with foreign or state competition authority counterparts, enabling the Agency to make more informed, consistent decisions, and investigate the transaction more effectively, often expediting review.[75]

The Commission proposes amending the Instructions to allow filing persons to waive the confidentiality provision contained in the Act, 15 U.S.C. 18a(h), for any non-U.S. competition authorities or State Attorneys General they identify. Allowing filers to waive the confidentiality protections in the HSR Filing would provide an efficient mechanism for filers to consent to limited waivers of confidentiality at the outset to facilitate early cooperation among competition enforcers. The proposed voluntary waiver would allow the Agencies to disclose the existence of an HSR Filing and the information contained in the HSR filing, but only for those ex-U.S. competition authorities or State Attorneys General selected by the filing person. The Commission also proposes modifying the language that would inform filers about potential disclosures based on the waivers to track the language of the Act more closely. The waivers would be optional for the parties, but the Commission expects that some filers will benefit from providing these limited waivers of confidentiality.

F. Certification

The Commission proposes amending the language of the certification that filing persons must submit with HSR Filings to require affirmation that the filing person has taken the necessary steps to prevent the destruction of documents and information related to the transaction. When parties submit premerger notification filings, this triggers a Congressionally mandated initial phase investigation regarding the potential competitive effects of the proposed transaction. When making an HSR Filing, filers should be aware that the Agencies may, prior to the expiration of the initial waiting period, issue Second Requests to further investigate the proposed transaction.[76] If issued, a Second Request requires the recipient to produce documents and information relevant to the transaction. If, as part of a filing person's ordinary course business operations, relevant information is deleted or destroyed during the initial waiting period, this could lead to a loss of information that may be critical to the investigating Agency and undermine its ability to conduct a full in-depth investigation pursuant to the Act to determine if the transaction is likely to violate Section 7 or any other antitrust law and to seek to prevent its consummation. Therefore, the Commission proposes adding to the certification an acknowledgement that the Agencies may require the submission of additional information or documents in response to a Second Request and a confirmation that the officer, director, or other individual described in § 803.6, as appropriate, has taken the necessary steps to prevent the destruction of documents and information related to the proposed transaction before the expiration of any waiting period. Such steps could include, for example, the suspension of auto-delete policies in place at any entity within the filing person.

The Commission also proposes the addition of language in the Instructions that would serve to remind filers that there are criminal penalties under other federal statutes that prohibit various deceptive practices aimed at frustrating or impeding the legitimate functions of government departments or agencies. In recent years, the Agencies have observed an increasing number of instances where, in the course of an investigation or later litigation challenging the transaction, the filing parties disclaim or modify statements or information submitted as part of the Form, notwithstanding numerous federal laws that prescribe criminal penalties for submitting false information to the government, including as part of an HSR Filing. While the Commission's proposed language does not intend to change any existing obligation to comply with other laws, it would provide notice to filers that the Commission takes those obligations seriously and may refer filers who do not comply with those obligations for potential criminal proceedings. The Commission does not expect this proposed reminder, which does not require any additional information or obligation, to result in additional burden for filing persons.

G. Affidavit

As discussed in the proposed changes to § 803.5(b) above at II.C., the Commission proposes requiring filings for transactions without definitive agreements to include a term sheet or draft agreement that describes with specificity the scope of the transaction that would be consummated. As a result, the Commission proposes that

[75] The Agencies have developed a model waiver of confidentiality for use in civil matters involving non-U.S. competition agencies that has been in use for 10 years. Similarly, the Agencies have developed a protocol for coordination in merger investigations with State Attorneys General. *See* Fed. Trade Comm'n, *https://www.ftc.gov/policy/international/international-competition/international-waivers-confidentiality-ftc-antitrust-investigations* and *https://www.ftc.gov/advice-guidance/competition-guidance/protocol-coordination-merger-investigations.*

[76] 15 U.S.C. 18a(e); 16 CFR 803.20.

parties making such filings attest in their affidavit that a term sheet or draft agreement that describes with specificity the scope of the transaction that will be consummated has been submitted with the executed letter of intent or agreement in principle.

Severability

Section 803.90 provides that, if any provision of the Rules (including the Form) or the application of any such provision to any person or circumstances is held invalid, the other provisions of the Rules and their application to other persons or circumstances shall be unaffected. This severability (or separability) provision would apply to any modifications of the HSR Filing requirements that the Commission adopts as final after issuing this NPRM and considering the public comments received. If a regulatory provision is severable, and one part of the provision is invalidated by a court, the court may allow the other parts of the provision to remain in effect.[77] When analyzing whether a provision is severable, courts consider both (a) the agency's intent and (b) whether severing the invalid parts of the provision would impair the function of the remaining parts.[78] The Commission is not proposing any changes to the separability provision in § 803.90 but is confirming its intent that, if a court were to invalidate any of the HSR requirements, including any modifications that the Commission finalizes at the end of the rulemaking proceeding, the other requirements would remain in effect.

Communications by Outside Parties to Commissioners and Their Advisors

Written communications and summaries or transcripts of oral communications respecting the merits of this proceeding, from any outside party to any Commissioner or Commissioner's advisor, will be placed on the public record. *See* 16 CFR 1.26(b)(5).

Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995 (''PRA''), 44 U.S.C. 3501 *et seq.,* federal Agencies must obtain approval from the Office of Management and Budget (''OMB'') for each collection of information they conduct or sponsor. The term ''collection of information'' means agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). The current rule contains various provisions that constitute information collection requirements as defined by 5 CFR 1320.3(c), the definitional provision within OMB regulations implementing the PRA. 44 U.S.C. chapter 35. The existing information collection requirements in the HSR Rules and Form have been reviewed and approved by OMB (OMB Control No. 3084–0005). The current clearance expires on February 28, 2026. Because the rule amendments proposed in this NPRM would change existing reporting requirements, the Commission will submit this notice of proposed rulemaking and the associated Supporting Statement to OMB for review under the PRA.

Increased Time Collecting Data for and Preparing an HSR Filing

The proposed amendments are primarily changes to the information reported on the Notification and Report Form and do not affect the reportability of a transaction. Thus, the same number of filings projected for fiscal year 2023 in the most recent Supporting Statement submitted to OMB and also appearing in the associated **Federal Register** publication [79] will be used for these burden hour calculations.

Some of the proposed changes are intended to reduce the burden of filing. The Commission anticipates that the proposals to report NAICS codes in ranges rather than by specific dollar amount would reduce the burden on almost all filers. Additionally, the proposed change to eliminate the requirement for filers that derive revenue from manufacturing operations to report NAPCS code revenues is also anticipated to reduce the burden for those filers. Finally, the Commission also proposes to limit the reporting of minority investors of the acquired entity.

Some of the proposed changes offer clarifications to the current rules and are unlikely to change the burden on filers. These include the proposed changes to eliminate references to paper and DVD filings (§§ 803.2, 803.5, and 803.10) and to specifically discuss the commencement of the waiting period (§ 803.10).

Certain proposed changes would require the acquiring person to collect and report information that the Commission believes is held in the acquiring person's ordinary course of business records. These include proposed requirements for the acquiring person to describe its own business(es); report minority investors in additional entities related to the transaction; disclose relationships with individuals or entities that provide credit, hold non-voting securities, have the right to appoint board observers, or have management agreements with entities related to the transaction; and to identify members of boards of directors. Once collected, the Commission anticipates that the burden associated with some of these proposals will lessen for subsequent filings by the same acquiring person, as the information would only need to be updated.

Many of the proposed changes would increase the burden on all filers. These include new document collection requirements to produce transaction-related documents from supervisory deal team members; business documents that relate to competition topics but were not produced specifically for the transaction; drafts of responsive documents; other agreements between the acquiring and acquired persons, and to log the request to which documents are responsive. Additionally, the proposed requirements to provide narratives regarding transaction rationale, diagrams of the transaction, and organizational charts for custodians of documents would be applicable to all filers.

Some of the proposed changes would significantly increase the burden on only certain filers. These include those filers whose businesses have existing horizontal, non-horizontal, or labor market overlaps or relationships, with the largest burden falling on filers whose transaction involves many such relationships; transactions that involve a large number of foreign language documents; filing persons or transactions that have a complex structure; transactions that are filed on letters of intent or agreements in principle; and filing persons that receive subsidies from foreign entities of concern.

PNO staff canvassed current Agency staff who had previously prepared HSR filings while in private practice to estimate the projected change in burden due to the proposed amendments to the Instructions. All have considerable experience with the HSR rules and with preparing HSR Filings for the types of transactions that are most likely to be affected by the proposed changes.

These experts were asked to estimate the incremental increase in time to prepare HSR Filings, for both the company and its outside counsel, taking into account that transactions range in complexity—from relatively simple transactions with no overlaps and few

[77] *See, e.g., Davis Cnty. Solid Waste Mgmt.* v. *EPA,* 108 F.3d 1454, 1459 (D.C. Cir. 1997).

[78] *Id.* at 1460.

[79] 88 FR 3413, 3414 (Jan. 19, 2023).

documents (such as ones only involving executive compensation or other stock purchases by an individual), to moderately complex transactions (such as a fund buying or selling a portfolio company with limited overlaps) to very complex (for example, a strategic acquisition by a large company that sells many overlapping products in competition with the seller). The ranges from canvassed officials estimated that the proposed changes would result in approximately 12 to 222 additional hours per filing, depending on the complexity of the filing at issue. In the past five years, approximately 45% of filings had reported overlaps. To estimate an average number of additional hours, the Commission conservatively assumes that 45% of the filings may require an additional 222 hours to prepare and 55% may require an additional 12 hours to prepare. Thus, the Commission estimates an average of 107 additional hours (rounded to the nearest hour) will be allocated to non-index filings.[80] Added to the current estimate 37 hours,[81] the total estimated hours would be 144 per filing.

Net Effect

The proposed Rule and Notification and Report Form changes only affect non-index filings[82] which, for FY 2023, the FTC projects will total 7,096. As described above, the Commission estimates that he amendments to the HSR Rules and Notification and Report Form would increase the time required to prepare responses for non-index filings, with an estimated net increase of 107 hours per filing. Thus, the total estimated additional hours burden is 759,272 (7,096 non-indexed filing × 107 hours/each).

Applying the revised estimated hours, 759,272, to the previous assumed hourly wage of $460 for executive and attorney compensation, yields approximately $350,000,000 in labor costs. The amendments are expected to impose either minimal or no additional capital or other non-labor costs, as businesses subject to the HSR Rules generally have or obtain necessary equipment for other business purposes. Staff believes that the above requirements necessitate ongoing, regular training so that covered entities stay current and have a clear understanding of federal mandates, but that this would be a small portion of and subsumed within the ordinary training that employees receive apart from that associated with the information collected under the HSR Rules and the corresponding Instructions.

Request for Comments

The Commission invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of these information collections on respondents.

Comments on the proposed reporting requirements subject to PRA review by OMB should additionally be submitted to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. The *reginfo.gov* web link is a United States Government website produced by OMB and the General Services Administration (GSA). Under PRA requirements, OMB's Office of Information and Regulatory Affairs (OIRA) reviews Federal information collections.

Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601–612, requires that the agency conduct an initial and final regulatory analysis of the anticipated economic impact of the proposed amendments on small entities, except where the Commission certifies that the regulatory action will not have a significant economic impact on a substantial number of small entities. 5 U.S.C. 605. Because of the size of the transactions necessary to invoke an HSR Filing, the premerger notification rules rarely, if ever, affect small entities.[83] The 2000 amendments to the Act exempted all transactions valued at $50 million or less, with subsequent automatic adjustments to take account of changes in Gross National Product resulting in a current threshold of $111 million. Further, none of the proposed amendments expands the coverage of the premerger notification rules in a way that would affect small entities. Accordingly, the Commission certifies that these proposed amendments will not have a significant economic impact on a substantial number of small entities. This document serves as the required notice of this certification to the Small Business Administration.

Invitation To Comment

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before August 28, 2023. Write ''16 CFR parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300'' on your comment. Your comment—including your name and your state—will be placed on the public record of this proceeding, including, to the extent practicable, on the *https://www.regulations.gov/* website.

Because of the agency's security screening, postal mail addressed to the Commission will be subject to delay. We strongly encourage you to submit your comment online through *https://www.regulations.gov/.* To ensure the Commission considers your online comment, please follow the instructions on the web-based form.

If you file your comment on paper, write ''16 CFR parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300'' on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Suite CC–5610, (Annex H), Washington, DC 20580. If possible, please submit your paper comment to the Commission by overnight service.

Because your comment will be placed on the publicly accessible website, *https://www.regulations.gov/,* you are solely responsible for making sure that your comment does not include any sensitive or confidential information. In particular, your comment should not contain sensitive personal information, such as your or anyone else's Social Security number; date of birth; driver's license number or other state identification number or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also responsible for making sure your comment does not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any ''trade secret or

[80] Clayton Act section 7A(c)(6) and (c)(8) exempt from the requirements of the premerger notification program certain transactions that are subject to the approval of other agencies, but only if copies of the information submitted to these other agencies are also submitted to the FTC and the Assistant Attorney General. Thus, parties must submit copies of these ''index'' filings, but completing the task requires significantly less time than non-exempt transactions that require ''non-index'' filings. The proposed changes would not require any additional information from indexed filings.

[81] 88 FR 3413, 3414 (Jan. 19, 2023).

[82] Id.

List of Subjects in 16 CFR Parts 801 and 803

Antitrust.

For the reasons stated in the preamble, the Federal Trade Commission proposes amending 16 CFR parts 801 and 803 as set forth below:

PART 801—COVERAGE RULES

■ 1. The authority citation for part 801 continues to read as follows:

Authority: 15 U.S.C. 18a(d).

■ 2. Amend § 801.1 by adding paragraph (r) to read as follows:

§ 801.1 Definitions

* * * * *

(r)(1) *Foreign entity or government of concern.* The term *foreign entity or government of concern* means: (i) An entity that is a foreign entity of concern as that term is defined in section 40207 of the Infrastructure Investment and Jobs Act (42 U.S.C. 18741(a)(5)); or

(ii) A government, or an agency thereof, of a foreign country that is a covered nation as that term is defined in section 40207 of the Infrastructure Investment and Jobs Act (42 U.S.C. 18741(a)(5)(C)).

(2) *Subsidy.* The term *subsidy* has the meaning given the term in Part IV of Title VII of the Tariff Act of 1930 (19 U.S.C. 1677(5)(B)).

PART 803—TRANSMITTAL RULES

■ 3. The authority citation for part 803 continues to read as follows:

Authority: 15 U.S.C. 18a(d).

■ 4. Amend § 803.2 by:
■ a. Redesignating paragraph (a) as (a)(1) and adding paragraph (a)(2);
■ b. Removing paragraph (b)(1)(v); and
■ c. Revising paragraphs (e) and (f). The revisions and additions read as follows:

§ 803.2 Instructions applicable to Notification and Report Form.

(a)(1) The notification required by the act shall be filed by the preacquisition ultimate parent entity, or by any entity included within the person authorized by such preacquisition ultimate parent entity to file notification on its behalf. In the case of a natural person required by the act to file notification, such notification may be filed by his or her legal representative: *Provided however,* That notwithstanding §§ 801.1(c)(2) and 801.2 *of this chapter,* only one notification shall be filed by or on behalf of a natural person, spouse and minor children with respect to an acquisition as a result of which more than one such natural person will hold voting securities of the same issuer.

Example:

Jane Doe, her husband, and minor child collectively hold more than 50 percent of the shares of family corporation F. Therefore, Jane Doe (or her husband or minor child) is the ''ultimate parent entity'' of a ''person'' composed to herself (or her husband or minor child) and F; see paragraphs (a)(3), (b) and (c)(2) of § 801.1 *of this chapter.* If corporation F is to acquire corporation X, under this paragraph only one notification is to be filed by Jane Doe, her husband, and minor child collectively.

(2) Persons that are both acquiring and acquired persons should submit separate forms, one as the acquiring person and one as the acquired person, following the appropriate instructions for each.

* * * * *

(e) For documents required by item 4(b) of the Notification and Report Form, a person filing the notification may, instead of submitting a document, provide a cite to an operative internet address directly linking to the document, if the linked document is complete and payment is not required to access the document. If an internet address becomes inoperative during the waiting period, or the document is otherwise rendered inaccessible or incomplete, upon notification by the Commission or Assistant Attorney General, the parties must make the document available to the agencies by either referencing an operative internet address where the complete document may be accessed or by providing electronic copies to the agencies as provided in § 803.10(c)(1) by 5 p.m. on the next regular business day. Failure to make the document available, by the internet or by providing electronic copies, by 5 p.m. on the next regular business day, will result in notice of a deficient filing pursuant to § 803.10(c)(2).

(f) Filings must comply with all format requirements set forth at the Premerger Notification Office pages at *https://www.ftc.gov.* The use of any format not specified as acceptable, or any other failure to comply with the applicable format requirements, shall render the entire filing deficient within the meaning of § 803.10(c)(2).

■ 5. Amend § 803.5 by revising paragraphs (a)(1), (3) and (b) to read as follows:

§ 803.5 Affidavits required.

(a)(1) *Section 801.30 acquisitions.* For acquisitions to which § 801.30 of this chapter applies, the notification required by the act from each acquiring person shall contain an affidavit attesting that the issuer or unincorporated entity whose voting securities or non-corporate interests are to be acquired has received written notice delivered to an officer (or a person exercising similar functions in the case of an entity without officers) by email, certified or registered mail, wire, or hand delivery, at its principal executive offices, of:

* * * * *

(3) The affidavit required by this paragraph must have attached to it a copy of the written notice received by the acquired person pursuant to paragraph (a)(1) of this section.

(b) *Non-section 801.30 acquisitions.* For acquisitions to which § 801.30 of

this chapter does not apply, the notification required by the act shall contain an affidavit attesting that a contract, agreement in principle, or letter of intent to merge or acquire has been executed, and further attesting to the good faith intention of the person filing notification to complete the transaction. If a definitive agreement is not provided, the affidavit must attest that a term sheet or draft agreement that describes with specificity the scope of the transaction that will be consummated has been submitted with the executed letter of intent or agreement in principle.

■ 6. Revise § 803.8 to read as follows:

§ 803.8 Foreign language documents.

Documentary materials or information in a foreign language required to be submitted at the time of filing a Notification and Report Form and in response to a request for additional information or documentary material must be submitted with verbatim English language translations. All verbatim translations must be understandable, accurate, and complete.

■ 7. Amend § 803.10 by revising paragraphs (c)(1)(i) and (ii) to read as follows:

§ 803.10 Running of time.

* * * * *

(c)(1)(i) The date of receipt shall be the date of electronic submission if such date is not a Saturday, Sunday, a legal public holiday (as defined in 5 U.S.C. 6103(a)), or a legal public holiday's observed date, and the submission is completed by 5:00 p.m. eastern time. In the event electronic submission is unavailable, the FTC and DOJ may designate procedures for the submission of the filing. Notification of the alternate delivery procedures will normally be made through a press release and, if possible, on the *https://www.ftc.gov* website.

(ii) Delivery effected after 5 p.m. eastern time on a business day, or at any time on any day other than a business day, shall be deemed effected on the next following business day. If submission of all required filings is not effected on the same date, the date of receipt shall be the latest of the dates on which submission is effected.

* * * * *

■ 8. Amend § 803.12 by revising paragraph (c)(1)(iii) to read as follows:

§ 803.12 Withdraw and refile notification.

* * * * *

(c) * * *

(1) * * * (iii) The resubmitted notification is recertified, and the submission, as it relates to Transaction-specific Agreements (including the latest drafts, if definitive agreements have not been signed), Transaction-Related Documents (including Documents Prepared by or for Officers, Directors or Supervisory Deal Team Leads; Confidential Information Memorandum; Studies, Surveys, Analyses, and Reports; Synergies and Efficiencies) and Subsidies from Foreign Entities of Concern in the Instructions, is updated to the date of the resubmission;

* * * * *

■ 9. Revise Appendices A and B to part 803 to read as follows:

[INSERT GENERAL INSTRUCTIONS AND INFORMATION]

Antitrust Improvements Act Notification for Certain Mergers and Acquisitions

General Instructions And Information

These instructions specify the information that must be submitted pursuant to § 803.1(a) of the premerger notification rules, 16 CFR parts 801–803 (''the Rules''). Submitted materials must be provided to the Federal Trade Commission (''FTC'') and to the Antitrust Division of the Department of Justice (''DOJ'') (together, ''the Agencies'').

Information

The central office for information and assistance concerning the Rules is: Premerger Notification Office Federal Trade Commission, Room #5301, 400 7th Street SW, Washington, DC 20024, Phone: (202) 326–3100, Email: *HSRhelp@ftc.gov* for rules questions, *Premerger@ftc.gov* for filing information.

Copies of these Instructions, the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (''the Act''), the Rules, **Federal Register** publications issuing the Rules and Rule amendments (''Statements of Basis and Purpose''), as well as information to assist in submitting the required information are available at the FTC's Premerger Notification Office (''PNO'') *website.*

Definitions and Explanation of Terms

Unless otherwise indicated, the definitions provided in the Rules apply to these Instructions.

Dollar Values

All financial information should be expressed in millions of dollars rounded to the nearest hundred thousand.

Economic Research Service's Commuting Zones

When submitting information by the Economic Research Service's (''ERS's'') Commuting Zones (''CZ''), refer to the U.S. Department of Agriculture's Economic Research Service Commuting Zones for the year 2000, available at *https://www.ers.usda.gov/data-products/commuting-zones-and-labor-market-areas/.*

Fee Information

The filing fee is based on the aggregate total value of assets, voting securities, and controlling non-corporate interests to be held as a result of the acquisition. Filing fee tiers are adjusted annually pursuant to 15 U.S.C. 18a(a)(note) based on the change in gross national product, in accordance with 15 U.S.C. 19(a)(5). For each fiscal year commencing after September 30, 2023, filing fees will increase by the percentage increase, if any, in the consumer price index (''CPI'') over the CPI for the fiscal year ending September 30, 2022, pursuant to 15 U.S.C. 18a(a)(note). For current thresholds and fee information, see the *PNO website.*

North American Industry Classification System (NAICS) Data

When reporting information by 6-digit NAICS code, refer to the North American Industry Classification System—United States, 2022, published by the Executive Office of the President, Office of Management and Budget, available at *https://www.census.gov/naics/.* This website also provides guidance in choosing the proper code(s).

Person Filing and Filing Person

The terms ''person filing'' or ''filing person'' mean the ultimate parent entity (''UPE''). See § 801.1(a)(3). The terms are used herein interchangeably.

Standard Occupational Classification

When reporting information by 6-digit Standard Occupational Classification (''SOC'') code, refer to the 2018 SOC System, available at *https://www.bls.gov/soc/2018/#classification.*

Thresholds

Notification thresholds are adjusted annually based on the change in gross national product, in accordance with 15 U.S.C. 19(a)(5). See § 801.1(h). The current threshold values can be found at *Current Filing Thresholds.*

Year

All references to ''year'' refer to calendar year. If data are not available on a calendar year basis, supply the requested data for the fiscal year reporting period that most nearly corresponds to the calendar year specified. References to ''most recent year'' mean the most recent calendar or fiscal year for which the requested information is available.

Filing

If the UPE is both an acquiring and acquired person, separate filings must be submitted, one as the acquiring person and one as the acquired person, following the appropriate instructions for each. See § 803.2(a)(2).

Filings should be submitted electronically consistent with the instructions on the PNO website. If the electronic submission platform is unavailable, the Agencies may announce sites for delivery through the media and, if possible, at the PNO website.

Responses

Items that require the submission of documents or narrative responses should be produced in (1) searchable PDF format from which text can be copied or (2) Excel formats.

All documents should be logged in an Excel File. The log should list all responsive

documents, regardless of whether the document is redacted or withheld for privilege. For each document, indicate:

1. The document number;
2. Request(s) to which the document is responsive;
3. Title;
4. Date;
5. Authors and job titles; and
6. Whether the document is privileged.

Indented and bolded headings in these Instructions should each be considered a separate request.

If a group of people prepared the document, list all the authors and their titles, identifying the principal authors. Alternatively, it is acceptable to indicate that the document was prepared under the supervision of the lead author and to provide the name and title of that author. If the filing person engaged a third party to prepare a document, provide the name of the third party, and the name, title, and company name for the individual within the filing person who supervised the creation of the document, or for whom the document was prepared. For materials received from a third party that was not engaged by the filing person, only the name of the third party is required.

If parties submit documents in addition to what is required, such documents should be identified as ''Voluntary''. See § 803.1(b).

Submit only one copy of identical responsive documents.

For each narrative response, indicate the document number for each document that supports the narrative and the request to which the narrative is responsive.

Privilege

For privileged documents, the filing person must also provide the following in the Responses log:

1. The privilege type (redacted or withheld);
2. The privilege claim;
3. Addressee(s) and all recipients, with company name and title, of the original and any copies;
4. Subject matter;
5. Document's present location; and
6. Who has control over it.

If a privileged document was circulated to a group, such as the board or an investment committee, the name of the group is sufficient, but the filing person should be prepared to disclose the names and titles/positions of the individual group members, if requested.

If the claim of privilege is based on advice from inside and/or outside counsel, the name of the inside and/or outside counsel providing the advice (and the law firm, if applicable) must be provided. If several lawyers participated in providing advice, identifying lead counsel is sufficient. In identifying who controls a document, the name of the law firm is sufficient.

Translations

Materials or information in a foreign language must be translated into English, with the English translation attached to the foreign language version. See § 803.8.

Non-Compliance

If unable to answer any item fully, provide such information as is available and a statement of reasons for non-compliance as required by § 803.3. If exact answers to any item cannot be given, enter best estimates and indicate the source or basis of such estimates. Add an endnote with the notation ''est.'' to any item where data are estimated.

Limited Response

Information need not be supplied regarding assets, voting securities, or non-corporate interests currently being acquired when their acquisition is exempt under the Act or Rules. See § 803.2(c).

Ultimate Parent Entity Information

UPE Details

Name

Provide the name, headquarters address, and website (if one exists) of the person filing notification. The name of the person filing is the name of the UPE. See § 801.1(a)(3).

Entity Type

Specify whether the UPE is a corporation, unincorporated entity, natural person, or other entity type (specify). See § 801.1.

Acquiring or Acquired Person

Indicate whether the filing is being made as an acquiring or acquired person.

Filing Made on Behalf of the UPE

If the filing is being made on behalf of the UPE by another entity within the same person that is authorized by the UPE to file the notification on its behalf pursuant to § 803.2(a), or filed pursuant to § 803.4 on behalf of a foreign person, provide the name and mailing address of the entity filing the notification on behalf of the UPE.

Contact Information

Provide the name and title, firm name, address, telephone number, and email address of two individuals (primary and secondary) to contact regarding the filing. See § 803.20(b)(2)(ii).

Second Request Contact Information

Provide the name, firm name, address, telephone number, and email address of an individual located in the United States designated for the limited purpose of receiving notice of the issuance of a request for additional information or documentary material. See § 803.20(b)(2).

Annual Reports and Financial Information

Central Index Key

Provide the names of all entities within the person filing the notification, including the UPE, that file annual reports (Form 10–K or Form 20–F) with the United States Securities and Exchange Commission, and provide the Central Index Key (CIK) number for each entity.

Annual Reports and Audit Reports

Provide the most recent annual reports and/or annual audit reports (or, if audited is unavailable, unaudited) of the person filing notification.

The acquiring person should also provide the most recent reports of the acquiring entity(s) and any entity controlled by the acquiring person whose revenues contribute to a NAICS overlap or any overlap identified in the Horizontal Overlap Narrative.

The acquired person should also provide the most recent reports of the acquired entity(s).

Natural person UPEs should not provide personal balance sheets or tax returns. Natural person UPEs should instead provide the most recent reports for the highest-level entity(s) they control.

The person filing notification may incorporate a document responsive to this item by reference to an internet address directly linking to the document. See § 803.2(e).

Size of Person

If applicable, indicate whether the UPE stipulates that it meets the size of person test. See 15 U.S.C. 18a(a).

Organization Structure

If the acquisition includes only assets that do not comprise substantially all the assets of an operating unit, the acquired person should not complete the questions in this section. Otherwise, the acquired person must complete these questions for the portion of the transaction related to the voting securities, non-corporate interests, and assets that comprise substantially all the assets of an operating unit.

Entities Within the Acquiring Person and Acquired Entity

List the name, city, state/country, and zip code of all U.S. entities, and all foreign entities that have sales in or into the United States, that are included within the acquiring person, or acquired entity (as appropriate). Entities with total assets of less than $10 million may be omitted. Alternatively, the acquiring person or acquired entity (as appropriate) may report all entities within it. Also list all names under which the entities do business or have done business within the past 3 years (*e.g.,* d/b/a or f/k/a names).

The list of entities should be organized by operating company or operating business/unit (''top-level entity''), if applicable.

Minority Shareholders and Other Non-Controlling Entities

Acquiring Person

Provide a narrative response describing the ownership structure of the acquiring entity.

For transactions where a fund or master limited partnership is the UPE, also provide an organizational chart sufficient to identify and show the relationship of all entities that are affiliates or associates. See § 801.1(d).

Additionally, list the name, headquarters mailing address, and approximate percentage of holdings for any individual or entity that currently holds, or will hold as a result of the transaction, 5% or more but less than 50% of the voting securities or non-corporate interests of (1) the acquiring entity, (2) any entity directly or indirectly controlled by the acquiring entity, (3) any entity that directly or indirectly controls the acquiring entity, and (4) any entity within the acquiring person that has been or will be created in contemplation of, or for the purposes of, effectuating the transaction. Entities related

to master limited partnerships, funds, investment groups, or similar entities that do business under a common name should also have the d/b/a or ''street name'' of such group listed.

For limited partnerships, the general partner(s), regardless of percentage held, should also be listed.

If the identity of minority investors or percentage to be held is not finalized at time of filing, provide good faith estimates and explain.

Acquired Person

Provide a narrative response, describing the ownership structure of the acquired entity(s).

Additionally, list the name, headquarters mailing address, and approximate percentage held for any holders of 5% or more but less than 50% of (1) the acquired entity(s), and (2) any entity within the acquired entity(s), but only if such holder will continue to hold an interest (whether voting securities or non-corporate interests) in such entity(s), or will acquire an interest in any entity within the acquiring person as a result of the transaction.

For limited partnerships, the general partner(s), regardless of percentage held, should also be listed.

Other Types of Interest Holders That May Exert Influence

For the Acquiring Person Only: Identify every entity and individual (other than those employed by the acquiring person or an entity it controls) that, upon consummation or as a result of agreements related to consummation:

1. Provides, has provided (and still is a creditor), or will provide credit to the acquiring entity, an entity the acquiring entity directly or indirectly controls, or an entity that directly or indirectly controls the acquiring entity. Do not list individuals or entities if the amount of credit they have provided or will provide is less than 10% of the value of that entity;

2. Holds non-voting securities (including options or warrants) of the acquiring entity, an entity the acquiring entity directly or indirectly controls, or an entity that directly or indirectly controls the acquiring entity, where such non-voting securities are valued at more than 10% of that entity;

3. Is a board member or board observer or has the right to nominate or appoint a board member or board observer of the acquiring entity, an entity the acquiring entity directly or indirectly controls, or an entity that directly or indirectly controls the acquiring entity; or

4. Has an agreement to manage the acquiring entity, an entity the acquiring entity directly or indirectly controls, or an entity that directly or indirectly controls the acquiring entity.

For every individual or entity identified, provide the name, contact information, the percent of voting securities or non-corporate interests owned (if any), and a description of the relevant relationship(s) above.

Officers, Directors, and Board Observers

For each entity within the acquiring person or acquired entity (as applicable), list by entity all current officers, directors, and board observers (or in the case of unincorporated entities, individuals exercising similar functions), as well as those who have served in the position within the past 2 years.

Additionally, list all individuals who will or are likely to serve as an officer, director, or board observer of an entity within the acquiring person as a result of or as contemplated by the transaction. Organize the response by entity and include entities that are not yet created but are expected to be created as a result of or as contemplated by the transaction. If the identities of the prospective officers, directors, and board observers are unknown, briefly describe who will have the authority to select them.

For each officer, director and board observer identified, list all other entities for which the individual serves, or has served within the last two years, as an officer, director, or board observer.

Transaction Information

Parties

List the name and mailing address of each acquiring and acquired person, and acquiring and acquired entity, whether or not required to file a notification. Do not list entities controlled by an acquired entity.

Acquiring UPE

Provide the name, headquarters address, and website (if one exists) of the acquiring person.

Acquiring Entity

If an entity other than the acquiring UPE is making the acquisition, provide the name, mailing address, and website of that entity.

Acquired UPE

Provide the name, headquarters address, and website (if one exists) of the acquired person.

Acquired Entity

If the assets, voting securities, or non-corporate interests of an entity other than the acquired UPE are being acquired, provide the name, mailing address, and website of that entity.

Filing Fee

Total Expected Filing Fee

Indicate the value of the total required fee for the transaction.

Parties Paying the Fee

Indicate which filing party(s) is paying the filing fee and, if applicable, whether the portion of the fee being paid by the filer is being paid by multiple entities associated with the filer. For each entity paying a portion of the fee, provide the name of payer, the amount paid, the payment method, and the Electronic Wire Transfer (EWT) confirmation number or check number.

Note on Paying by EWT: In order for the FTC to track payment, the payer must provide information required by the Fedwire Instructions to the financial institution initiating the EWT. A template of the Fedwire Instructions is available at the PNO website on the *Filing Fee Information page.*

Note on Paying by Check: The FTC strongly discourages check payments. However, if an EWT cannot be arranged, the FTC will accept a check, sent to Financial Operations. Cashiers' or certified checks are preferred. Make the check payable to the Federal Trade Commission and deliver to: Federal Trade Commission, Financial Operations Division, 600 Pennsylvania Ave., Drop H–790, Washington, DC 20580.

Please note that the waiting period may be delayed until the fee has been confirmed.

Transaction Details

801.30 Transaction:

Indicate whether the transaction is subject to § 801.30.

Transaction Type

Indicate whether the transaction is a(n):

- Acquisition of voting securities;
- Acquisition of non-corporate interests;
- Acquisition of assets;
- Merger (see § 801.2);
- Consolidation (see § 801.2);
- Formation of a joint venture, other corporation, or unincorporated entity (see §§ 801.40 and 801.50);
- Bankruptcy that is subject to Section 363(b) of the Bankruptcy Code (11 U.S.C. 363);
- Cash Tender Offer;
- Acquisition subject to § 801.31;
- Secondary acquisition subject to § 801.4;
- Acquisition subject to § 801.2(e); and/or
- Acquisition consummated in violation of the HSR Act.

Acquisition Details

Provide the requested information for the value and percentage of assets, voting securities, and non-corporate interests to be acquired. If a combination of assets, voting securities, and/or non-corporate interests are being acquired and allocation is not possible, note such information in an endnote.

For determining percentage of voting securities, evaluate total voting power per § 801.12.

For determining percentage of non-corporate interests, evaluate the economic interests per § 801.1(b)(1)(ii).

- State the value of voting securities already held by the acquiring person. See § 801.10.
- State the percentage of voting securities already held by the acquiring person. See § 801.12.
- State the total value of voting securities to be held by the acquiring person as a result of the acquisition. See § 801.10.
- State the total percentage of voting securities to be held by the acquiring person as a result of the acquisition. See § 801.12.
- State the value of non-corporate interests already held by the acquiring person. See § 801.10.
- State the percentage of non-corporate interests already held by the acquiring person. See § 801.1(b)(1)(ii).
- State the total value of non-corporate interests to be held by the acquiring person as a result of the acquisition. See § 801.10.
- State the total percentage of non-corporate interests to be held by the acquiring person as a result of the acquisition. See §§ 801.10 and 801.1(b)(1)(ii).
- State the value of assets to be held by the acquiring person as a result of the acquisition. See § 801.10.

• State the aggregate total value of assets, voting securities, and non-corporate interests of the acquired person to be held by the acquiring person as a result of the acquisition. See §§ 801.10, 801.12, 801.13 and 801.14.

Notification Threshold

This item should only be completed by the acquiring person when voting securities are being acquired. If more than voting securities are being acquired, respond to this item only regarding voting securities. Indicate the highest applicable threshold for which notification is being filed. See § 801.1(h).

• $50 million (as adjusted);
• $100 million (as adjusted);
• $500 million (as adjusted);
• 25% (if the value of voting securities to be held is greater than $1 billion, as adjusted);
• 50%;
• N/A.

Note that the 50% notification threshold is the highest threshold and should be used for any acquisition of 50% or more of the voting securities of an issuer, regardless of the value of the voting securities. For instance, an acquisition of 100% of the voting securities of an issuer valued in excess of $500 million (as adjusted) would cross the 50% notification threshold, not the $500 million (as adjusted) threshold.

Transaction Description

Business of the Acquiring Person

Acquiring Person Only: Describe the business operation(s) of all entities within the acquiring person.

Business of the Acquired Entity

Describe the business operation(s) being acquired. If assets, describe the assets and whether they comprise a business operation.

Non-Reportable UPE(s)

Provide the names of any non-reportable UPE(s).

Transaction Description

Briefly describe the transaction, indicating whether assets, voting securities, or non-corporate interests (or some combination) are to be acquired. Indicate what consideration will be received by each party and the scheduled consummation date of the transaction. Also identify any special circumstances that apply to the filing, such as whether part of the transaction is exempt under one of the exemptions found in Part 802.

If any attached transaction documents use code names to refer to the parties, provide an index identifying the codes.

Transaction Rationale

Identify and explain each strategic rationale for the transaction discussed or contemplated by the filing person, or any of its officers, directors, or employees. If the acquiring entity is different from the UPE, submit an explanation for each entity. Identify each document produced in the filing that confirms or discusses the stated rationale(s).

Transaction Diagram

Submit a diagram of the transaction and provide a chart explaining the relationship between all entities and/or natural persons involved in the transaction.

Related Transactions

Indicate whether the transaction that is the subject of this filing has related filings because the transaction:

• Is a principal transaction that triggers one or more shareholder backside transactions;
• Is a shareholder backside transaction;
• Has more than one acquiring UPE;
• Has more than one acquired UPE;
• Has more than one reportable step;
• Is a joint venture;
• Is a consolidation;
• Is an exchange of assets; or
• Has other circumstance that requires more than one filing.

Provide additional details regarding the related transaction(s), such as party names and transaction numbers.

Early Termination

Indicate whether the filing person requests early termination. Notification of each grant of early termination will be published in the **Federal Register**, as required by 15 U.S.C. 18a(b)(2), and on the PNO website. Note that if either party in any transaction requests early termination, it may be granted and published.

Joint Ventures

See §§ 801.40 and 801.50.

Contributions

List the contributions that each person forming the joint venture corporation or unincorporated entity has agreed to make, specifying when each contribution is to be made and the value of the contribution as agreed by the contributors.

Consideration

Describe fully the consideration that each person forming the joint venture corporation or unincorporated entity will receive in exchange for its contribution(s).

Business Description

Describe generally the business in which the joint venture corporation or unincorporated entity will engage, including its principal types of products or activities, and the geographic areas in which it will do business.

NAICS Codes

Identify each 6-digit NAICS industry code in which the joint venture corporation or unincorporated entity will derive dollar revenues.

Agreements and Timeline

Transaction-Specific Agreements

Furnish copies of all documents that constitute the agreement(s) related to the transaction, including, but not limited to, exhibits, schedules, side letters, agreements not to compete or solicit, and other agreements negotiated in conjunction with the transaction.

Documents that constitute the agreement(s) (*e.g.,* Agreement and Plan of Merger, Letter of Intent, Purchase and Sale Agreement, Asset Purchase Agreement, Stock/Securities Purchase Agreement) must be executed, while supporting agreements, such as employment agreements and agreements not to compete may be provided in draft form if that is the most recent version. If there is no definitive executed agreement, provide a copy of the most recent draft agreement or term sheet that provides sufficient detail about the scope of the entire transaction that the parties intend to consummate. See § 803.5.

Note that transactions subject to § 801.30 and bankruptcies under 11 U.S.C. 363(b) do not require an executed agreement. For bankruptcies, provide the order from the bankruptcy court.

Other Agreements Between the Parties

Provide all other agreements between the acquiring and acquired person, including but not limited to, non-compete or non-solicitation agreements, supply agreements, or licensing agreements including current agreements and those that expired, have terminated, or were canceled within one year of the filing.

Timeline

Provide a detailed timetable for the transaction, including when the signatories intend to consummate the transaction, or implement all closing conditions, integration, affiliation, or other purchase agreements, and any other important deadlines for closing or terminating the merger agreement. Identify all provisions in the agreement that govern the extension of these deadlines and explain the conditions for extending deadlines and how long they may be extended. Also, if applicable, provide a description of any fee or other consideration paid or to be paid at key dates of the transaction or upon closing, including but not limited to termination fees, break fees, ticking fees, and any other arrangement intended to serve in lieu of a break fee.

Competition and Overlaps

Business Documents

Transaction-Related Documents

Documents Prepared by or for Officers, Directors, or Supervisory Deal Team Lead(s)

Provide all studies, surveys, analyses, and reports prepared by or for any officer(s), director(s), or supervisory deal team lead(s) for the purpose of evaluating or analyzing the acquisition with respect to market shares, competition, competitors, markets, potential for sales growth, or expansion into product or geographic markets. For unincorporated entities, provide such documents prepared by or for individuals exercising similar functions as officers and directors, as well as the supervisory deal team lead(s).

Confidential Information Memoranda

Provide all confidential information memoranda prepared by or for any officer(s) or director(s) (or, in the case of unincorporated entities, individuals exercising similar functions) of the UPE of the acquiring or acquired person or of the acquiring or acquired entity(s) that specifically relate to the sale of the acquired entity(s) or assets. If no such confidential information memorandum exists, submit any document(s) given to any officer(s) or

director(s) of the buyer meant to serve the function of a confidential information memorandum. This does not include ordinary course documents and/or financial data shared in the course of due diligence, except to the extent that such materials served the purpose of a confidential information memorandum when no such confidential information memorandum exists.

Documents responsive to this item are limited to those produced within one year before the date of filing.

Studies, Surveys, Analyses, and Reports

Provide all studies, surveys, analyses and reports prepared by investment bankers, consultants, or other third party advisors (''third party advisors'') for any officer(s) or director(s) (or, in the case of unincorporated entities, individuals exercising similar functions) of the UPE of the acquiring or acquired person or of the acquiring or acquired entity(s) for the purpose of evaluating or analyzing market shares, competition, competitors, markets, potential for sales growth or expansion into product or geographic markets that specifically relate to the sale of the acquired entity(s) or assets. This item requires only materials developed by third party advisors during an engagement or for the purpose of seeking an engagement.

Documents responsive to this item are limited to those produced within one year before the date of filing.

Synergies and Efficiencies

Provide all studies, surveys, analyses, models, and reports evaluating or analyzing synergies, financial projections, and/or efficiencies prepared by or for any officer(s) or director(s) (or, in the case of unincorporated entities, individuals exercising similar functions) for the purpose of evaluating or analyzing the acquisition. Financial models without stated assumptions need not be provided.

Drafts

For each responsive Transaction-Related Document, provide drafts of the document that were sent to an officer, director, or supervisory deal team lead(s).

Periodic Plans and Reports

Provide all semi-annual or quarterly plans and reports that were provided to the Chief Executive Officer (CEO) of the acquiring or acquired entity (as appropriate) and any entity that it controls or is controlled by and individuals who report directly to each such CEO (but excluding individuals responsible solely for environmental, tax, human resources, pensions, benefits, ERISA, or OSHA issues) that analyze market shares, competition, competitors, or markets pertaining to any product or service also produced, sold, or known to be under development by the other party (acquiring person or acquired entity as appropriate). Documents responsive to this item are limited to those prepared or modified within one year of the date of filing.

Provide all plans and reports (including semi-annual or quarterly) that were provided to the Board of Directors of the acquiring or acquired entity (as appropriate) and any entity that it controls or is controlled by that analyze market shares, competition, competitors, or markets pertaining to any product or service also produced, sold, or known to be under development by the other party (acquiring person or acquired entity as appropriate). Documents responsive to this item are limited to those prepared or modified within one year of the date of filing.

Organizational Chart of Authors and Recipients

Provide an organizational chart(s) that identifies the position(s) held by authors, and for privileged documents, recipients, of all business documents submitted. Filing persons should indicate on the organizational chart(s) the individuals whose files were searched for documents responsive to these Instructions.

Competition Analysis

Horizontal Overlap Narrative

Describe each of the principal categories of products and services (as defined in the day-to-day operations) of the acquiring person or acquired entity (as applicable).

In addition, list and describe each of the current or known planned products or services of the acquiring person or acquired entity (as appropriate) that competes with (or could compete with) a current or known planned product or service of the other party (acquiring person or acquired entity as appropriate). Current or known planned products or services include those that the acquiring person or acquired entity researches, develops, manufactures, produces, sells, offers, provides, supplies, or distributes. For each such product or service listed, provide:

1. The sales (in units and dollars) for each of the past two fiscal years. For those products or services not generating revenue or whose performance is not measured by revenue in the ordinary course of business, provide projected revenue, estimates of the volume of products to be sold, time spent using the service, or any other metric by which the acquiring person or acquired entity (as appropriate) measures performance (*e.g.,* daily users, new signups).

2. A description of all categories of customers of the acquiring person or acquired entity (as appropriate) that purchase or use the product or service (*e.g.,* retailer, distributor, broker, government, military, educational, national account, local account, commercial, residential, or institutional), and an estimate of how much of the product or service each customer category purchased or used monthly for the last fiscal year. If no customers have yet used the product or service, provide the date that development of the product or service began; a description of the current stage in development, including any testing and regulatory approvals and any planned improvements or modifications; the date that development (including testing and regulatory approvals) was or will be completed; and the date that the product or service is expected to be sold or otherwise commercially launched.

3. Contact information (including individual's name, title, phone, and email) for the acquiring person's or acquired entity's (as appropriate) top 10 customers in the last fiscal year (as measured in both units and dollars), and the top 10 customers for each customer category identified.

4. A description of any licensing arrangements.

5. A description, including duration, of any non-compete or non-solicitation agreement applicable to employees or business units related to the product or service.

Supply Relationships Narrative

Related Sales: List and describe each product, service, or asset (including data) that the acquiring person or acquired entity (as applicable) has sold, licensed, or otherwise supplied in the last two fiscal years (1) to the other party (acquiring person or acquired entity as appropriate), or (2) to any other business that, to the filing person's knowledge or belief, uses its product, service, or asset to compete with the other party's products or services, or as an input for a product or service that competes or is intended to compete with the other party's products or services.

For each product, service, or asset listed, provide:

1. The sales (in units and dollars and any other appropriate measure) for each of the past two fiscal years, separately to (1) the other party (acquiring person or acquired entity as appropriate) and (2) any other business that, to the filing person's knowledge or belief, uses its product, service, or asset to compete with the other party's products or services, or as an input for a product or service that competes or is intended to compete with the other party's products or services.

2. The top 10 customers (as measured in both units and dollars) of the acquiring person or acquired entity (as appropriate) that use the acquiring person's or acquired entity's (as appropriate) product, service, or asset to compete with the other party's (acquiring person or acquired entity as appropriate) products or services, or as an input for a product or service that competes or is intended to compete with the other party's products or services. For each such customer, provide contact information (including title, phone, and email) and a description of the acquiring person's or acquired entity's (as appropriate) supply or licensing agreement (or other comparable terms of supply).

Related Purchases: List and describe each product, service, or asset (including data) that the acquiring person or acquired entity (as appropriate) incorporates as an input into any product or service and that the acquiring person or acquired entity (as appropriate) has purchased, licensed, or otherwise obtained in the last two years (1) from the other party (acquiring person or acquired entity as appropriate) or (2) from any other business that, to the filing person's knowledge or belief, competes with the other party to provide a substantially similar product, service, or asset.

For each product, service, or asset listed, provide:

1. The purchased amount (in units and dollars and any other appropriate measure) for each of the last two fiscal years, separately for (1) the other party and (2) any other business that, to the filing person's

knowledge or belief, competes with the other party to provide a substantially similar product, service, or asset.

2. The top 10 suppliers (as measured in both units and dollars) for the associated input product, service, or asset, with contact information (including title, phone, and email) and a description of the acquiring person's or acquired entity's (as appropriate) purchase or licensing agreement (or other comparable terms of purchase).

Labor Markets Information

This section requests information about the largest categories of workers employed by the acquiring person or acquired entity (as appropriate) and the geographic area(s) where these employees work.

Largest Employee Classifications

Provide the aggregate number of employees of the acquiring person or acquired entity (as appropriate) for each of the five largest occupational categories (as categorized by the first six digits of the relevant SOC classifications).

Geographic Market Information for Each Overlapping Employee Classification

Indicate the five largest 6-digit SOC codes in which both parties (the acquiring person and the acquired entity) employ workers. For each overlapping 6-digit SOC code, list each ERS commuting zone in which both parties employ workers with the 6-digit classification and provide the aggregate number of classified employees in each ERS commuting zone.

Worker and Workplace Safety Information

Identify any penalties or findings issued against the filing person by the U.S. Department of Labor's Wage and Hour Division (WHD), the National Labor Relations Board (NLRB), or the Occupational Safety and Health Administration (OSHA) in the last five years and/or any pending WHD, NLRB, or OSHA matters.

For each identified penalty or finding, provide (1) the decision or issuance date, (2) the case number, (3) the JD number (for NLRB only), and (4) a description of the penalty and/or finding.

NAICS Codes

This item requests information regarding the industry categories of the acquiring person or acquired entity(s) or assets (as appropriate) of products and services that derived revenue in the last fiscal year, as well as for products or services in development that would create overlaps with the other party (acquiring person or acquired entity as appropriate).

NAICS Codes Describing U.S. Operations With Estimates of Revenue

Acquiring Person

Identify all 6-digit NAICS industry codes that describe the U.S. operations of the acquiring person, inclusive of all entities included within the acquiring person at the time the filing is made.

Responses must be organized by NAICS code in ascending order. For each code, provide the name of the operating entity(s) that derive(s) revenue in that code and the estimated revenue range: less than $10 million; $10 million or more but less than $100 million; $100 million or more but less than $1 billion; or $1 billion or more. Identify each 6-digit NAICS code in which both the acquiring person and acquired entity(s) or assets derive revenue.

For products and services that derived revenue in the most recent fiscal year in a non-manufacturing NAICS code, if the revenue is estimated at less than one million dollars, that code may be omitted so long as the code does not overlap with a code in which the acquired entity(s) or assets derived revenue from U.S. operations.

Acquiring persons should also list all NAICS codes for products or services under development by the acquiring person that would overlap with the products or services of the acquired entity(s) or assets, inclusive of products or services that are known to be under development by the acquired entity(s) or assets. NAICS codes that reflect only these pipeline products or services should be identified as ''pre-revenue.''

If more than one NAICS code describes the same operations of the acquiring person, list each code, and provide an estimate of revenue, as described above. End notes may be used to clarify the selection of codes or potential overlaps.

Acquired Person

Identify all 6-digit NAICS industry codes that describe the U.S. operations of the acquired entity(s) or assets, inclusive of all entities and assets anticipated to be included within the acquired entity(s) or assets at the time the transaction will be consummated.

Responses must be organized by NAICS code in ascending order. For each code, provide the name of the operating entity(s) that derive(s) revenue in that code and the estimated revenue range: less than $10 million; $10 million or more but less than $100 million; $100 million or more, but less than $1 billion; or $1 billion or more. Identify each 6-digit NAICS code in which both the acquiring person and acquired entity(s) or assets derive revenue.

For products and services that derived revenue in the most recent fiscal year in a non-manufacturing NAICS code, if the revenue is estimated at less than one million dollars, that code may be omitted so long as the code does not overlap with a code in which the acquiring person derived revenue from U.S. operations.

Acquired persons should also list all NAICS codes for products or services under development by the acquired entity(s) or assets and expected to have annual revenue greater than $1 million within two years. NAICS codes that reflect only these pipeline products or services should be identified as ''pre-revenue.''

If more than one NAICS code describes the same operations of the acquired entity(s) or assets, list each code, and provide an estimate of revenue, as described above. End notes may be used to clarify the selection of codes or potential overlaps.

No Revenue

If there is no revenue to report, explain why.

Controlled-Entity Overlaps

If, to the knowledge or belief of the person filing notification, the acquiring person, or any associate (see § 801.1(d)(2)) of the acquiring person, derived any amount of dollar revenues in the most recent year from operations:

1. In industries within any 6-digit NAICS industry code in which any acquired entity also derived any amount of dollar revenues in the most recent year; or

2. In which a joint venture corporation or unincorporated entity will derive dollar revenues;

then for each such 6-digit NAICS industry code follow the instructions below for this section.

Note that if the acquired entity is a joint venture, the only overlaps that should be reported are those between the assets to be held by the joint venture and any assets of the acquiring person or its associates not contributed to the joint venture.

If the acquiring person reports an associate overlap only, the acquired person does not need to respond to this section.

NAICS Overlaps of Controlled Entities

Acquiring Person

List the name of each entity within the acquiring person or associate of the acquiring person, that has U.S, operations in the same code as an acquired entity or assets. For each such entity, list the name(s) by which the entity does or has within the last 3 years done business, whether the listed entity is controlled by the filing person or an associate of the filing person, the overlapping NAICS code(s), NAICS description(s), and provide the appropriate Geographic Market Information, based upon the NAICS code. Organize responses by NAICS code.

Acquired Person

List the name of each entity within the acquired entity that has U.S. operations in the same code as the acquiring person. For each such entity, list the name(s) by which the entity does or has within the last 3 years done business, the overlapping NAICS code(s), NAICS description(s), and provide the appropriate Geographic Market Information, based upon the NAICS code. Organize responses by NAICS code.

Geographic Market Information

For each identified overlapping NAICS code, provide geographic information, as described below. Use the 2-digit postal codes for states and territories and provide the total number of states and territories at the end of the response.

Except in the case of those NAICS industries in the sectors, subsectors, and codes that require street-address level reporting, the person filing notification may respond with the word ''national'' if business is conducted in all 50 states.

State-Level Reporting

Manufacturing Industries

For each 6-digit NAICS code within the industry sector, subsector, or code listed below, list the states in which, to the knowledge or belief of the person filing the notification, the products in that 6-digit

NAICS industry code produced by the person filing notification are sold without a significant change in their form (whether they are sold by the person filing notification or by others to whom such products have been sold or resold).

31**** through 33**** Manufacturing, *except:*
- 3115** Dairy Product Manufacturing
- 311611 Animal (except Poultry) Slaughtering
- 311613 Rendering and Meat Byproduct Processing
- 311615 Poultry Processing
- 31181* Bread and Bakery Product Manufacturing
- 321*** Wood Product Manufacturing
- 32221* Paperboard Container Manufacturing
- 324*** Petroleum and Coal Products Manufacturing
- 3251** Basic Chemical Manufacturing
- 325521 Plastics Materials and Resin Manufacturing
- 3271** Clay Product and Refractory Manufacturing
- 3272** Glass and Glass Product Manufacturing
- 3273** Cement and Concrete Product Manufacturing

Wholesale Trade

For each 6-digit NAICS code within the industry sector, subsector, or code listed below, list the states or, if desired, portions thereof in which the customers of the person filing notification are located.

42**** Wholesale Trade, *except:*
- 42331* Lumber, Plywood, Millwork, and Wood Panel Merchant Wholesalers
- 42333* Roofing, Siding, and Insulation Material Merchant Wholesalers
- 42344* Other Commercial Equipment Merchant Wholesalers
- 42345* Medical, Dental, and Hospital Equipment and Supplies Merchant Wholesalers
- 42346* Ophthalmic Goods Merchant Wholesalers
- 42349* Other Professional Equipment and Supplies Merchant Wholesalers
- 4239** Miscellaneous Durable Goods Merchant Wholesalers
- 4241** Paper and Paper Product Merchant Wholesalers
- 4242** Drug and Druggists' Sundries Merchant Wholesalers
- 42441* General Line Grocery Merchant Wholesalers
- 42442* Packaged Frozen Food Merchant Wholesalers
- 42451* Grain and Field Bean Merchant Wholesalers
- 42452* Livestock Merchant Wholesalers
- 4247** Petroleum and Petroleum Products Merchant Wholesalers
- 4248** Beer, Wine, and Distilled Alcoholic Beverage Merchant Wholesalers
- 42491* Farm Supplies Merchant Wholesalers
- 42495* Paint, Varnish, and Supplies Merchant Wholesalers

Insurance Carriers

For the 6-digit NAICS code within the industry subsector listed below, list the state(s) in which the person filing notification is licensed to write insurance.

5241** Insurance Carriers

Other NAICS Sectors

For each 6-digit NAICS code within the industry sector, subsector, or code listed below, list the states or, if desired, portions thereof in which the person filing notification conducts such operations.

11**** Agriculture, Forestry, Fishing, and Hunting, *except:*
- 113*** Forestry and Logging

21**** Mining, Quarrying, and Oil and Gas Extraction, *except:*
- 2123** Nonmetallic Mineral Mining and Quarrying

2213** Water, Sewage, and Other Systems
23**** Construction
44912* Home Furnishing Retailers
4492** Electronics and Appliance Retailers
48**** and 49**** Transportation and Warehousing, *except:*
- 493*** Warehousing and Storage

51**** Information, *except:*
- 512*** Motion Picture and Sound Recording Industries

5222** Nondepository Credit Intermediation
523*** Securities, Commodity Contracts, and Other Financial Investments and Related Activities
5242** Agencies, Brokerages, and Other Insurance Related Activities
525*** Funds, Trusts, and Other Financial Vehicles
531*** Real Estate
533*** Lessors of Nonfinancial Intangible Assets (Except Copyrighted Works)
54**** Professional, Scientific and Technical Services, *except:*
- 54138* Testing Laboratories and Services
- 54194* Veterinary Services

55**** Management of Companies and Enterprises
561*** Administrative and Support Services
61**** Educational Services
71**** Arts, Entertainment, and Recreation, *except:*
- 7132** Gambling Industries
- 71394* Fitness and Recreational Sports Centers

7212** RV (Recreational Vehicle) Parks and Recreational Camps
7213** Rooming and Boarding Houses, Dormitories, and Workers' Camps
8114** Personal and Household Goods Repair and Maintenance
813*** Religious, Grantmaking, Civic, Professional, and Similar Organizations
814*** Private Households

Street-Level Reporting

For each 6-digit NAICS code within the industry sector, subsector, or code listed below, provide the street address, arranged by state, county and city or town, and latitude and longitude (each in degrees up to at least five decimal places) of each establishment from which dollar revenues were derived (either directly or by a franchisee) in the most recent year by the person filing notification.

113*** Forestry and Logging
2123** Nonmetallic Mineral Mining and Quarrying
22**** Utilities, *except:*
- 2213** Water, Sewage and Other Systems

3115** Dairy Product Manufacturing
311611 Animal (except Poultry) Slaughtering
311613 Rendering and Meat Byproduct Processing
311615 Poultry Processing
31181* Bread and Bakery Product Manufacturing
321*** Wood Product Manufacturing
32221* Paperboard Container Manufacturing
324*** Petroleum and Coal Products Manufacturing
3251** Basic Chemical Manufacturing
325521 Plastics Materials and Resin Manufacturing
3271** Clay Product and Refractory Manufacturing
3272** Glass and Glass Product Manufacturing
3273** Cement and Concrete Product Manufacturing
42331* Lumber, Plywood, Millwork, and Wood Panel Merchant Wholesalers
42333* Roofing, Siding, and Insulation Material Merchant Wholesalers
42344* Other Commercial Equipment Merchant Wholesalers
42345* Medical, Dental, and Hospital Equipment and Supplies Merchant Wholesalers
42346* Ophthalmic Goods Merchant Wholesalers
42349* Other Professional Equipment and Supplies Merchant Wholesalers
4239** Miscellaneous Durable Goods Merchant Wholesalers
4241** Paper and Paper Product Merchant Wholesalers
4242** Drug and Druggists' Sundries Merchant Wholesalers
42441* General Line Grocery Merchant Wholesalers
42442* Packaged Frozen Food Merchant Wholesalers
42451* Grain and Field Bean Merchant Wholesalers
42452* Livestock Merchant Wholesalers
4247** Petroleum and Petroleum Products Merchant Wholesalers
4248** Beer, Wine, and Distilled Alcoholic Beverage Merchant Wholesalers
42491* Farm Supplies Merchant Wholesalers
42495* Paint, Varnish, and Supplies Merchant Wholesalers
44**** and 45**** Retail Trade, *except:*
- 44912* Home Furnishings Retailers
- 4492** Electronics and Appliance Retailers

493*** Warehousing and Storage
512*** Motion Picture and Sound Recording Industries
521*** Monetary Authorities—Central Bank
5221** Depository Credit Intermediation
5223** Activities Related to Credit Intermediation
532*** Rental and Leasing Services
54138* Testing Laboratories and Services
54194* Veterinary Services
562*** Waste Management and Remediation Services
62**** Health Care and Social Assistance

7132** Gambling Industries
71394* Fitness and Recreational Sports Centers
72**** Accommodation and Food Services, *except:*
7212** RV (Recreational Vehicle) Parks and Recreational Camps
7213** Rooming and Boarding Houses, Dormitories, and Workers' Camps
811*** Repair and Maintenance, except
8114** Personal and Household Goods Repair and Maintenance
812*** Personal and Laundry Services

Minority-Held Entity Overlaps

This section requires the disclosure of holdings of 5% or more but less than 50% of certain entities that derive dollar revenues in any 6-digit NAICS code reported by the other person filing notification. Holdings in those entities that have total assets of less than $10 million may be omitted.

If NAICS codes are unavailable, holdings in entities that have operations in the same industry, based on the knowledge or belief of the filing person, should be listed. Holdings in those entities that have total assets of less than $10 million may be omitted.

Minority Holdings of Acquiring Person and Its Associates

If the acquiring person holds 5% or more but less than 50% of the voting securities of any issuer or non-corporate interests of any unincorporated entity that derived dollar revenues in the most recent year from operations in industries within any 6-digit NAICS code(s) reported by the acquired entity(s) or assets, provide such 6-digit NAICS code(s), the entity within the acquiring person that holds the minority interests, the name and d/b/a names (if known) of the minority held-entity, and percentage of voting securities or non-corporate interests held.

Additionally, based on the knowledge or belief of the acquiring person, for each associate (see § 801.1(d)(2)) of the acquiring person holding:

1. 5% or more but less than 50% of the voting securities or non-corporate interests of an acquired entity; and/or

2. 5% or more but less than 50% of the voting securities of any issuer or non-corporate interests of any unincorporated entity that derived dollar revenues in the most recent year from operations in industries within any 6-digit NAICS industry code in which the acquired entity(s) or assets also derived dollar revenues in the most recent year,

list the associate, the name and d/b/a names (if known) of the minority-held entity, and percentage of voting securities or non-corporate interests held.

Responses should be organized alphabetically by the name of the entity in which minority interests are held.

The acquiring person may rely on its regularly prepared financials that list its investments, and those of its associates that list their investments, provided the financials are no more than three months old.

Minority Holdings of the Acquired Entity

If an acquired entity holds 5% or more but less than 50% of the voting securities of any issuer or non-corporate interests of any unincorporated entity that derived dollar revenues in the most recent year from operations in industries within any 6-digit NAICS industry code(s) reported by the acquiring person, provide such 6-digit NAICS code(s), the entity within the acquired entity that holds the minority interests, the name and d/b/a names (if known) of the minority-held entity, and percentage of voting securities or non-corporate interests held.

Responses should be organized alphabetically by the name of the entity in which minority interests are held.

Prior Acquisitions

This item should be completed for the acquiring person and the acquired entity, and pertains only to prior acquisitions of U.S. entities or assets and foreign entities or assets with sales in or into the U.S. that (i) derived revenue in an identified 6-digit NAICS industry code overlap *or* (ii) provided or produced a competitive overlap product or service as described in the Horizontal Overlap Narrative.

Identify all such acquisitions of entities or assets made within the ten years prior to filing in which (i) 50% or more of the voting securities of an issuer, (ii) 50% or more of non-corporate interests of an unincorporated entity, or (iii) all or substantially all the assets of an operating unit were acquired. Additionally, identify all such acquisitions of assets that did not constitute all or substantially all of an operating unit but were valued at or above the statutory size-of-transaction test at the time of their acquisition.

For each such acquisition, supply:

1. the 6-digit NAICS code(s) (by number and description) identified above in which the acquired entity derived dollar revenues, or the competitive overlap product(s) or service(s) provided;

2. the name of the entity from which the voting securities, non-corporate interests, or assets were acquired;

3. the headquarters address of that entity prior to the acquisition;

4. whether voting securities, non-corporate interests, or assets were acquired;

5. the consummation date of the acquisition; and

6. whether all or substantially all of the acquired voting securities, non-corporate interests, or assets are still held at the time of filing.

Additional Information

Subsidies From Foreign Entities or Governments of Concern

To the knowledge or belief of the filing person, within the two years prior to filing, has the acquiring or acquired person (as appropriate) received any subsidy (or a commitment to provide a subsidy in the future) from any foreign entity or government of concern (see § 801.1(r))? If yes, list each entity or government from which such subsidy was received and provide a brief description of the subsidy.

For products the acquiring or acquired person (as appropriate) produced in whole or in part in a country that is a covered nation under 42 U.S.C. 18741(a)(5)(C), is any product subject to countervailing duties imposed by any jurisdiction? If yes, list each product, the countervailing duty imposed, and the jurisdiction that imposed the duty.

To the knowledge or belief of the filing person, for products the acquiring or acquired person (as appropriate) produced in whole or in part in a country that is a covered nation under 42 U.S.C. 18741(a)(5)(C), is any product the subject of a current investigation for countervailing duties in any jurisdiction? If yes, list each product and the jurisdiction conducting the investigation.

Defense or Intelligence Contracts

Identify pending or active procurement contracts with the U.S. Department of Defense or any member of the U.S. intelligence community, as defined by 10 U.S.C. 101(a)(6) or 50 U.S.C. 3033(4) valued at $10 million or more. The acquiring person should limit its response to the acquiring entity and any entity within the acquiring person that directly or indirectly controls the acquiring entity. The acquired person should limit its response to the acquired entity(s) and/or assets. Include (1) the name of the entity within the filing person (2) the contracting office, as defined by 48 CFR 2.101(b); (3) the Contracting Office ID; (5) the Award ID; (5) and the NAICS code(s), if any, listed in the System for Award Management database.

Identification of Communications and Messaging Systems

List all communications systems or messaging applications on any device used by the acquiring or acquired person (as appropriate) that could be used to store or transmit information or documents related to its business operations.

Other Jurisdictions

Transactions Subject to International Antitrust Notification

If, to the knowledge or belief of the filing person at the time of filing, a non-U.S. antitrust or competition authority has been or will be notified of the transaction, list the name of each such authority. Identify, to the knowledge or belief of the filing person at the time of filing, any jurisdiction where (1) a merger notification has been filed, (2) a merger notification is being prepared for filing, or (3) the parties have a good faith belief that a merger notification will be made, along with the dates of the filing or planned filing.

HSR Confidentiality Waiver for International Competition Authorities (VOLUNTARY)

Indicate whether the filing person agrees to waive the disclosure exemption contained in the Hart-Scott-Rodino Act, 15 U.S.C. 18a(h) to permit the DOJ and FTC to disclose to non-U.S. competition authority/authorities listed by the filing person below (1) the fact that a notification was filed, (2) the waiting period associated with the notification, and (3) information and documents filed with the notification. This waiver will not cover materials provided in response to a request for additional information issued pursuant to 15 U.S.C. 18a(e) and does not preclude the filing person from providing a full waiver as provided for under *FTC and DOJ practice as*

reflected in the Model Waiver. The filing person should list the jurisdictions to which the waiver applies. This item is voluntary.

HSR Confidentiality Waiver for State Attorneys General (VOLUNTARY)

Indicate whether the filing person agrees to waive the disclosure exemption contained in the Hart-Scott-Rodino Act, 15 U.S.C. 18a(h) to permit the DOJ and FTC to disclose to State Attorneys General listed by the filing person below (1) the fact that a notification was filed, (2) the waiting period associated with the notification, and (3) information and documents filed with the notification. This waiver will not cover materials provided in response to a request for additional information issued pursuant to 15 U.S.C. 18a(e) and does not preclude the filing person from providing a full waiver as provided for under *FTC and DOJ practice as reflected in the Model Waiver.* The filing person should list the jurisdictions to which the waiver applies. This item is voluntary.

Certification

See § 803.6 for requirements.

The certification must be notarized or use the language found in 28 U.S.C. 1746 relating to unsworn declarations under penalty of perjury.

Penalties for False Statements

Federal law provides criminal penalties, including up to twenty years imprisonment, for any person who knowingly alters, destroys, mutilates, conceals, covers up, falsifies, or makes a false entry in any record, document, or tangible object with the intent to impede, obstruct, or influence an ongoing or anticipated federal investigation (see, *e.g.,* Section 1519 of Title 18, United States Code.). It is also a criminal offense to knowingly make a false statement in a federal investigation, obstruct a federal investigation, or conspire to obstruct justice or obstruct or impede the lawful functioning of the government (see, *e.g.,* Sections 371, 1001, and 1505 of Title 18, United States Code).

Certification

This NOTIFICATION AND REPORT FORM, together with any and all appendices and attachments thereto, was prepared and assembled under my supervision in accordance with instructions issued by the Commission. Subject to the recognition that, where so indicated, reasonable estimates have been made because books and records do not provide the required data, the information is, to the best of my knowledge, true, correct, and complete in accordance with the statute and rules.

I acknowledge that the Commission or the Assistant Attorney General of the Antitrust Division of the Department of Justice may, prior to the expiration of the initial waiting period pursuant to 15 U.S.C. 18a, require the submission of additional information or documentary material relevant to the proposed transaction. I have taken the necessary steps to prevent the destruction of documents and information related to the proposed transaction before the expiration of any waiting period.

Affidavits

Affidavit(s) required by § 803.5 must be notarized or use the language found in 28 U.S.C. 1746 relating to unsworn declarations under penalty of perjury. If an entity is filing on behalf of the acquiring or acquired person, the affidavit must still attest to the good faith of the UPE.

In non-§ 801.30 transactions, the affidavit(s) (submitted by both persons filing) must attest that a definitive agreement to merge or acquire has been executed, or if a definitive agreement has not been executed, that a term sheet or draft agreement that describes with specificity the scope of the transaction that will be consummated has been submitted. The affidavit(s) must further attest to the good faith intention of the person filing notification to complete the transaction. (See § 803.5(b)).

In § 801.30 transactions, the affidavit (submitted only by the acquiring person) must attest:

1. That the issuer whose voting securities or the unincorporated entity whose non-corporate interests are to be acquired has received notice, as described below, from the acquiring person;

2. In the case of a tender offer, that the intention to make the tender offer has been publicly announced; and

3. The good faith intention of the person filing notification to complete the transaction.

Acquiring persons in § 801.30 transactions are also required to submit a copy of the notice received by the acquired person pursuant to § 803.5(a)(3) along with the filing. This notice must include:

1. The identity of the acquiring person and the fact that the acquiring person intends to acquire voting securities of the issuer or non-corporate interests of the unincorporated entity;

2. The specific notification threshold that the acquiring person intends to meet or exceed in an acquisition of voting securities;

3. The fact that the acquisition may be subject to the Act, and that the acquiring person will file notification under the Act;

4. The anticipated date of receipt of such notification by the Agencies; and

5. The fact that the person within which the issuer or unincorporated entity is included may be required to file notification under the Act. (See § 803.5(a)).

Privacy Act Statement

Section 18a(a) of Title 15 of the U.S. Code authorizes the collection of this information. Our authority to collect Social Security numbers is 31 U.S.C. 7701. The primary use of information submitted on this Form is to determine whether the reported merger or acquisition may violate the antitrust laws. Taxpayer information is collected, used, and may be shared with other agencies and contractors for payment processing, debt collection and reporting purposes. Furnishing the information on the Form is voluntary. Consummation of an acquisition required to be reported by the statute cited above without having provided this information may, however, render a person liable to civil penalties up to the amount listed in 16 CFR 1.98(a) per day.

We also may be unable to process the Form unless you provide all of the requested information.

Disclosure Notice

Public reporting burden for this report is estimated to vary from 20 to 382 hours per response, with an average of 144 hours per response, including time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this report, including suggestions for reducing this burden to:

Premerger Notification Office, Federal Trade Commission, Room #5301, 400 7th Street SW, Washington, DC 20024

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503

Under the Paperwork Reduction Act, as amended, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The operative OMB control number, 3084–0005, appears within the Notification and Report Form and these Instructions.

By the direction of the Commission.

April J. Tabor,

Secretary.

BILLING CODE 6750–01–P

FEDERAL REGISTER

Vol. 88 Thursday,
No. 124 June 29, 2023

Part IV

Department of Education

Privacy Act of 1974; System of Records; Notice

DEPARTMENT OF EDUCATION

[Docket ID ED–2023–FSA–0113]

Privacy Act of 1974; System of Records

AGENCY: Federal Student Aid, U.S. Department of Education.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (Privacy Act), the U.S. Department of Education (Department) publishes this notice of a new system of records titled ''FUTURE Act System (FAS)'' (18–11–23). The Fostering Undergraduate Talent by Unlocking Resources for Education (FUTURE Act) amended the Internal Revenue Code (IRC) to authorize the U.S. Department of the Treasury, Internal Revenue Service (IRS), to disclose to the Department certain Federal tax information (FTI) of an individual, upon approval being provided by the individual to the Department, for the purpose of determining eligibility for, or repayment obligations under, Income-Driven Repayment (IDR) plans under title IV of the Higher Education Act of 1965, as amended (HEA), with respect to loans under part D of title IV of the HEA, and determining eligibility for, and amount of Federal student financial aid under, a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA. The Department and the IRS have entered into a computer matching agreement (CMA) pursuant to which the IRS will disclose FTI to the Department, to maintain and secure the FTI obtained in this system.

DATES: Submit your comments on this new system of records notice on or before July 31, 2023.

This new system of records notice will become applicable upon publication in the **Federal Register** on June 29, 2023, unless it needs to be changed as a result of public comment, except for the routine uses. The routine uses, listed in the section titled ''ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES,'' will become effective on July 31, 2023, unless they need to be changed as a result of public comment. The Department will publish any significant changes to the new system of records notice or routine uses resulting from public comment.

ADDRESSES: Comments must be submitted via the Federal eRulemaking Portal at *regulations.gov*. However, if you require an accommodation or cannot otherwise submit your comments via *regulations.gov*, please contact the program contact person listed under **FOR FURTHER INFORMATION CONTACT**. The Department will not accept comments submitted by fax or by email, or comments submitted after the comment period closes. To ensure that the Department does not receive duplicate copies, please submit your comments only once. In addition, please include the Docket ID at the top of your comments.

- *Federal eRulemaking Portal:* Go to *www.regulations.gov* to submit your comments electronically. Information on using *Regulations.gov*, including instructions for accessing agency documents, submitting comments, and viewing the docket, is available on the site under the ''FAQ'' tab.

Privacy Note: The Department's policy is to make all comments received from members of the public available for public viewing in their entirety on the Federal eRulemaking Portal at *www.regulations.gov*. Therefore, commenters should be careful to include in their comments only information that they wish to make publicly available.

Assistance to Individuals with Disabilities in Reviewing the Rulemaking Record: On request, we will provide an appropriate accommodation or auxiliary aid to an individual with a disability who needs assistance to review the comments or other documents in the public rulemaking record for this notice. If you want to schedule an appointment for this type of accommodation or aid, please contact the program contact person listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Pardu Ponnapalli, Technology Directorate, Federal Student Aid, U.S. Department of Education, Union Center Plaza, 830 First Street NE, Washington, DC 20202–5454. Telephone: 202–377–4006. Email: *Pardu.Ponnapalli@ed.gov*.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), you may call the Federal Relay Service, toll free, at 1–800–877–8339.

SUPPLEMENTARY INFORMATION:

Introduction

The FAS provides a confined platform consisting of three specific FSA information technology systems (namely, the FTI Module, FTI Datamart, and FTI Student Aid internet Gateway (SAIG), described in greater detail below), within which the Department uses and maintains FTI that the Department receives from the IRS in accordance with the IRC, including sections 6103(l)(13)(A), (C), and(D) therein.

The FAS allows the Department to: (1) enhance the Free Application for Federal Student Aid (FAFSA®)experience by enabling the Department to obtain FTI from the IRS for each applicant, parent, or spouse who provides approval for the purposes set forth in section 6103(l)(13)(C) of the IRC; (2) improve program integrity for Income Driven Repayment (IDR) plans by enabling the Department to obtain FTI faster, and in a secure manner, from the IRS for individuals who provide approval for the purposes set forth in section 6103(l)(13)(A) and (C) of the IRC; and (3) provide an improved experience to applicable aid applicants and aid recipients, along with their spouses and parents, through the establishment of a matching program between the IRS and the Department.

To the extent that the Department determines it to be required by law or essential to the conduct of its matching program with the IRS, the Department may also use the FTI that the IRS discloses to the Department for the foregoing purposes for the following additional purposes permitted by section 6103(l)(13)(D)(i) of the IRC: (a) reducing the net cost of improper payments: (i) under IDR plans, and (ii) relating to awards of Federal student financial aid under a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA; (b) the Department's OIG's oversight activities as authorized by chapter 4 of title 5 of the United States Code, except for the purpose of conducting criminal investigations or prosecutions; and (c) conducting analyses and forecasts for estimating costs related to: (i) IDR plans, and (ii) awards of Federal student financial aid under a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA. This will improve the Department's administration of programs authorized under title IV of the HEA by enhancing the FAFSA verification experience and eliminating multi-year certification for IDR plan applicants and aid recipients, which simplifies both online application experiences and prevents many aid recipients from defaulting on their Federal student loans.

The three FSA information technology systems comprising the FAS are as follows:

(i) FTI Module—The FTI Module is a centralized and secured platform that interfaces with the IRS to collect and maintain FTI via a matching program. It also serves as a database that contains

FTI where authorized Department users can view FTI and perform all FTI-related business functions. The FTI Module also houses the non-FTI information (*e.g.,* last name, SSN/TIN, unique identifier, consent/affirmative approval information, date, and time stamp) needed to engage in the applicable matching program. In particular, the Department uses the FTI Module to perform calculations required for the Department to determine eligibility for, and amount of, Federal student financial aid under subpart 1 of part A, part C, or part D of title IV of the HEA, and eligibility for, and repayment obligations under, IDR plans with respect to loans under part D of title IV of the HEA, as permitted under sections 6103(l)(13)(A) and (C) of the IRC. More specifically, the Department uses the FTI Module to calculate the Student Aid Index (SAI), verify financial information, conduct eligibility determination checks, and calculate the IDR plan monthly payment amount. Further, the. The FTI Module produces outputs to FSA systems outside of the FTI Module's boundary that address those systems' required business needs, as permitted by applicable law and in a manner that complies with IRS Publication 1075, ''Tax Information Security Guidelines for Federal, State, and Local Agencies.'' For example, the SAI calculation that is derived from FTI within the FTI Module boundary is transmitted to the FAFSA Processing System (FPS) covered by the Department's system of records notice entitled ''Aid Awareness and Application Processing'' (18–11–21). In addition, to determine eligibility requirements for loan repayment plans, the FTI Module calculates a monthly loan payment amount derived from FTI which is then transmitted to the Common Origination and Disbursement (COD) System covered by the Department's system of records notice entitled ''Common Origination and Disbursement (COD)System'' (18–11–02);

(ii) FTI Datamart—The FTI Datamart is a secure data warehouse that contains FTI maintained by the Department and utilizes analytics frameworks to support data analytics, budget service, and auditing analysis. A set of analytical tools included in the FTI Datamart provides users the ability to analyze data based on the users' needs and to the extent such analysis is authorized by sections 6103(l)(13)(D)(i)(I) through (III) of the IRC; and

(iii) FTI SAIG—The FTI SAIG is used for title IV, HEA data transmissions that contain FTI, as permitted by section 6103(l)(13)(D)(iii) of the IRC and provided the Department has obtained the written consent of the taxpayer, to certain institutions of higher education (IHE),IHEs) State higher education agencies, and certain scholarship organizations solely for use in the application, award, and administration of financial aid awarded by the Federal government, by an IHE that participates in a program under subpart 1 of part A, part C, or part D of title IV of the HEA, by a State higher education agency, or by a scholarship organization designated by the Secretary of Education prior to December 19, 2019, under section 483(a)(3)(E) of the HEA.

Additionally, the FTI SAIG allows users the ability to send and receive files while maintaining complete compliance with applicable law and the requirements of IRS Publication 1075 regarding the transfer and storage of FTI.

Accessible Format: On request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT**, individuals with disabilities can obtain this document in an accessible format. The Department will provide the requestor with an accessible format that may include Rich Text Format (RTF) or text format (txt), a thumb drive, an MP3 file, braille, large print, audiotape, or compact disc, or other accessible format.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. You may access the official edition of the **Federal Register** and the Code of Federal Regulations at *www.govinfo.gov.* At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Portable Document Format (PDF). To use PDF, you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at *www.federalregister.gov.* Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Richard Cordray,

Chief Operating Officer, Federal Student Aid.

For the reasons discussed in the preamble, the U.S. Department of Education (Department or ED) publishes a notice of a new system of records to read as follows:

SYSTEM NAME AND NUMBER:

FUTURE Act System (FAS) (18–11–23).

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Amazon Web Services (AWS) GovCloud West-1, 875 Howard Street, San Francisco, CA 94103–3009. (AWS GovCloud hosts the infrastructure that supports the FAS.) Federal Student Aid (FSA), U.S. Department of Education, Union Center Plaza, 830 First Street NE, Washington, DC 20202–5454.

SYSTEM MANAGER(S):

FUTURE Act System Manager, Technology Directorate, Federal Student Aid (FSA), U.S. Department of Education, Union Center Plaza, 830 First Street NE, Washington, DC 20202–5454.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title IV of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1070 *et seq.*); section 141(f) of the HEA (20 U.S.C. 1018(f)), and 6103(1)(13) and p(4) of the IRC and IRS Publication 1075 Tax Security Guidelines for Federal, State, and Local Agencies. The collection of Social Security numbers (SSNs) and Taxpayer Identification numbers (TINs) of individuals (including parents of dependent applicants and spouse(s) of independent applicants), who apply for or receive Federal student financial assistance under programs authorized by title IV of the HEA is also authorized by 31 U.S.C. 7701 and Executive Order 9397, as amended by Executive Order 13478 (November 18, 2008).

PURPOSE(S) OF THE SYSTEM:

The information contained in this system is maintained for the following purposes related to aid applicants and recipients under title IV of the HEA:

(1) To provide an aid applicant's or aid recipient's financial aid history to aid applicants or aid recipients, IHEs, Tribes, and Federal, State higher education agencies, or local agencies, and third-party servicers;

(2) To assess the administration of title IV, HEA program funds;

(3) To identify, recoup, and prevent improper payments in title IV, HEA programs;

(4) To help Federal, State, Tribal and local government agencies exercise their supervisory and administration powers (including, but not limited to licensure, examination, discipline, regulation, or oversight of IHEs, Department contractors, guaranty agencies, lenders and loan holders, and third-party servicers);

(5) To respond to aid applicant or aid recipient complaints submitted

regarding the practices or processes of the Department and/or the Department's contractor;

(6) To update information and correct errors contained in Department records regarding the aid applicant's or aid recipient's title IV, HEA program funds;

(7) To support the investigation of possible fraud and abuse and detect and prevent fraud and abuse in title IV, HEA program funds;

(8) To determine an applicant's eligibility for the award of aid under title IV of the HEA, State postsecondary education assistance, and aid by eligible IHEs or other entities that have been designated by the Secretary, as currently permitted by Section 483(a)(3)(E) of the HEA (20 U.S.C. 1090(a)(3)(E)), and to administer those awards.

Pursuant to sections 6103(l)(13)(A) and (C) of the Internal Revenue Code (IRC) the Department will use the Federal tax information (FTI) disclosed to the Department by the U.S. Department of the Treasury, Internal Revenue Service (IRS), that the Department maintains in this system for the purpose of determining eligibility for, or repayment obligations under, Income-Driven Repayment (IDR) plans under title IV of the HEA, with respect to loans under part D of title IV of the HEA; and determining eligibility for, and amount of Federal student financial aid under, a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA.

To the extent that the Department determines it to be required by law or essential to the conduct of its matching program with the IRS, the Department may also use the FTI that the Department maintains in this system for the foregoing purposes for the following additional purposes permitted by section 6103(l)(13)(D)(i) of the IRC:

(1) reducing the net cost of improper payments:

(a) under IDR plans, and

(b) relating to awards of Federal student financial aid under a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA;

(2) the Department's Office of Inspector General's (OIG's) oversight activities as authorized by chapter 4 of title 5 of the United States Code, except for the purpose of conducting criminal investigations or prosecutions; and (3) conducting analyses and forecasts for estimating costs related to:

(a) IDR plans, and

(b) awards of Federal student financial aid under subpart 1 of part A, part C, or part D of title IV of the HEA.

The Department also uses the FTI that the Department maintains in this system to produce a Student Aid Report (SAR)/FAFSA Submission Summary (FSS), Institutional Student Information Record (ISIR) and, as permitted by section 6103(l)(13)(D)(iii) of the IRC and provided the Department has obtained the applicable individual's written consent, to distribute the ISIR to authorized institutions of higher education (IHEs), State higher education agencies, and certain scholarship organizations solely for the use in the application, award, and administration of financial aid awarded by the Federal Government, by an IHE that participates in a program under subpart 1 of part A, part C, or part D of title IV of the HEA, by a State higher education agency, or by a scholarship organization designated by the Secretary of Education prior to December 19, 2019, under section 483(a)(3)(E) of the HEA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system of records maintains records on aid applicants, aid recipients, and participants (*i.e.,* parent(s) of dependent applicants and spouse(s) of independent applicants) who apply for repayment of their obligations under IDR plans under title IV of the HEA with respect to loans under part D of title IV of the HEA, or who apply for Federal student financial aid under a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records maintains information provided by aid applicants for and aid recipients, or participants (as defined above) of, title IV, HEA program assistance on the Free Application for Federal Student Aid (FAFSA®) including, but not limited to, the applicant's last name, date of birth, SSN and/or TIN, unique identifier, consent/affirmative approval information, and the date/time stamp of the consent/affirmative approval provided for the purposes set forth in section 6103(l)(13)(C) of the IRC, clauses (iii), (iv), (v), and (vi) of section 6103(l)(13)(D) of the IRC, and under section 494(a) of the HEA (20 U.S.C. 1098h(a)). This system also maintains similar information provided about participants (as defined above) on the FAFSA. For an aid applicant or aid recipient who is married, this system of records also maintains spousal income and asset information. For an aid applicant or aid recipient who is a dependent student, this system of record maintains their income and asset information as well as the income and asset information of their parent(s).

In addition, this system maintains data related to FTI transmission processing, such as when FTI batch data was transmitted and received by the FTI SAIG.

This system also maintains the following data on IDR applicants and their spouses, if applicable, to calculate and produce the output calculation of the monthly repayment amount for IDR-related plans: the applicant's last name, date of birth, SSN and/or TIN, and unique identifier, and the consent/affirmative approval including date/time stamp provided for the purposes set forth in section 6103(l)(13)(A) of the IRC, clauses (iii), (iv), (v), and (vi) of section 6103(l)(13)(D) of the IRC, and under section 494(a) of the HEA (20 U.S.C. 1098h(a)).

Further, this system maintains the following FTI to determine eligibility for, and amount of, Federal student financial aid under a program authorized under subpart 1 of part A, part C, or part D of title IV of the HEA: SSA/TIN; tax year; last name; filing status code; adjusted gross income (AGI) amount; total number of tax exemptions; total number of dependents; income earned from work (sum of wages, farm income, Schedule C income); total amount of income tax paid; total allowable education tax credits; sum of untaxed IRA contributions and other payments to qualified plans; tax-exempt interest received; sum of untaxed pensions and annuities; net profit/loss from Schedule C; and indicator of filing for Schedules A, B, D, E, F, and H. This FTI will be used to generate a Student Aid Index (SAI), which will also be maintained in this system.

This system maintains the following FTI to determine eligibility for, or repayment of obligations under, IDR plans under title IV of the HEA with respect to loans under part D of title IV of the HEA: SSN/TIN, tax year; last name; filing status code; AGI amount; total number of exemptions; and total number of dependents. This FTI will be used to calculate monthly payment amounts, which will also be maintained in this system.

Note: With the consent/affirmative approval of the applicants, an ISIR will be provided to the IHEs identified on the applicant's FAFSA indicating the applicant's SAI, application results, whether there is discrepant or insufficient data, or FPS assumptions that affect FAFSA processing. The SAI will be used by IHEs to determine the student's eligibility for Federal and institutional program assistance, by State higher education agencies to determine the student's eligibility for State aid, and, if provided by the aid applicant or aid recipient, the Bureau of Indian Affairs (BIA) for tribal assistance.

RECORD SOURCE CATEGORIES:

Information maintained in this system is obtained from aid applicants or aid recipients, the parent(s) of dependent aid applicants or aid recipients (for FAFSA purposes only), and the spouse(s) of independent aid applicants or aid recipients for title IV, HEA program assistance; the authorized employees or representatives of IHEs, institutional third-party servicers, and State higher education agencies; and other persons or entities from which information is disclosed following a disclosure of records under the routine uses set forth below.

This system maintains information added during FTI processing and receives information from other Department information technology systems or their successor systems, such as the National Student Loan Data System (NSLDS) (covered by the Department's system of records notice entitled ''National Student Loan Data System (NSLDS)'' (18–11–06)); Common Origination and Disbursement (COD) System (covered by the Department's system of records notice entitled ''Common Origination and Disbursement (COD) System'' (18–11–02); Enterprise Data Management and Analytics Platform Services (EDMAPS) (covered by the Department's system of records notice entitled ''Enterprise Data Management and Analytics Platform Services'' (18–11–22)); Person Authentication Service (PAS) (covered by the Department's system of records notice entitled ''Person Authentication Service (PAS)'' (18–11–12)); Postsecondary Education Participants System (PEPS) (covered by the Department's system of records notice entitled ''Postsecondary Education Participants System (PEPS)'' (18–11–09)); and all information technology systems covered by the Department's system of records entitled ''Aid Awareness and Application Processing'' (18–11–21).

Information maintained in this system is also obtained through a matching program with the IRS.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

The Department may disclose information maintained in a record in this system of records under the routine uses listed in this system of records without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. These disclosures may be made on a case-by-case basis or pursuant to a computer matching agreement that meets the requirements of the Privacy Act of 1974, as amended (Privacy Act) (5 U.S.C. 552a). However, any FTI maintained in a record in this system of records may only be disclosed without the consent of the individual under the routine uses listed in this system of records notice if the disclosure is compatible with the purposes for which the record was collected and if the disclosure is permissible under section 6103(l)(13) of the IRC. Section 483(a)(3)(E) of the HEA, which will be in effect until June 30, 2024, also restricts the use of the information collected by the electronic FAFSA to the application, award, and administration of aid awarded under title IV of the HEA or of aid awarded by States, eligible IHEs, or such entities as the Secretary of Education may designate. Thus, until July 1, 2024, any such FAFSA information may only be disclosed under the routine uses listed in this system of records notice if the disclosure is compatible with the purposes for which the record was collected and if the disclosure is for the application, award, and administration of aid awarded under title IV of the HEA or of aid awarded by States, eligible IHEs, or such entities as the Secretary of Education may designate.

Program Disclosures. The Department may disclose records from this system of records for the following program purposes:

(a) To provide an aid applicant's or aid recipient's financial aid history, the Department may disclose records to IHEs, Tribes, and Federal, State higher education agencies, or local agencies, and third-party servicers;

(b) To facilitate receiving application and recertification information, calculating IDR plans monthly payment amounts, and calculating SAI, the Department may disclose records to IHEs, and Federal, State higher education agencies, or local agencies, Tribes, and third-party servicers;

(c) To assist the Department in assessing the administration of title IV, HEA program funds, the Department may disclose records to IHEs, third-party servicers, and Federal and State agencies;

(d) To support the Department in identifying, preventing, and recouping, improper payments in title IV, HEA programs, the Department may disclose records to IHEs, third-party servicers, Tribes, and Federal, State, or local agencies, State higher education agencies, and fiscal/financial agent designated by the U.S. Department of Treasury include employees, agents, or contractors of such agent;

(e) To help Federal, State, Tribal, and local governmental agencies exercise their supervisory and administrative powers (including, but not limited to licensure, examination, discipline, regulation, or oversight of educational institutions, Department contractors, guaranty agencies, eligible lenders, and third-party servicers) or to investigate, respond to, or resolve complaints submitted regarding the practices or processes of the Department and/or the Department's contractors, the Department may disclose records to governmental entities at the Federal, State, Tribal, and local levels. These records may include all aspects of records relating to loans and grants made under title IV of the HEA, to permit these governmental entities to verify compliance with debt collection, consumer protection, financial, and other applicable statutory, regulatory, or local requirements. Before making a disclosure to these Federal, State, local, or Tribal governmental entities, the Department will require them to maintain safeguards consistent with the Privacy Act to protect the security and confidentiality of the disclosed records;

(f) To support the investigation of possible fraud and abuse and to detect and prevent fraud and abuse in title IV, HEA program funds, the Department may disclose records to IHEs, third-party servicers, Tribal, and Federal, State, or local agencies; and

(g) To determine an aid applicant's eligibility for the award of aid under title IV of the HEA, and to assist with the awarding and administration of aid, State postsecondary education assistance, and aid by eligible IHEs or other entities designated by the Secretary of Education and to administer those awards, the Department may disclose records to State agencies, eligible IHEs, third-party servicers, Tribal, Federal, State, or local agencies, and other entities that award aid to students that have been designated by the Secretary of Education.

(2) *Enforcement Disclosure.* If information in this system of records indicates, either on its face or in connection with other information, a violation or potential violation of any applicable statute, regulation, or order of a competent authority, the Department may disclose the relevant records to the appropriate agency, whether Federal, State, Tribal, or local, charged with investigating or prosecuting that violation or charged with enforcing or implementing the statute, regulation, or order issued pursuant thereto.

(3) *Litigation and Alternative Dispute Resolution (ADR) Disclosure.*

(a) *Introduction.* In the event that one of the parties listed in sub-paragraphs (i) through (v) is involved in judicial or administrative litigation or ADR, or has an interest in judicial or administrative litigation or ADR, the Department may disclose certain records to the parties described in paragraphs (b), (c), and (d) of this routine use under the conditions specified in those paragraphs:

(i) The Department or any of its components;

(ii) Any Department employee in their official capacity;

(iii) Any Department employee in their individual capacity where the U.S. Department of Justice (DOJ) agrees to or has been requested to provide or arrange for representation of the employee;

(iv) Any Department employee in their individual capacity where the Department has agreed to represent the employee; and

(v) The United States, where the Department determines that the litigation is likely to affect the Department or any of its components.

(b) *Disclosure to the DOJ.* If the Department determines that disclosure of certain records to the DOJ is relevant and necessary to judicial or administrative litigation or ADR, the Department may disclose those records as a routine use to the DOJ.

(c) *Adjudicative Disclosure.* If the Department determines that disclosure of certain records to an adjudicative body before which the Department is authorized to appear or to a person or entity designated by the Department or otherwise empowered to resolve or mediate disputes is relevant and necessary to judicial or administrative litigation or ADR, the Department may disclose those records as a routine use to the adjudicative body, person, or entity.

(d) *Disclosure to Parties, Counsel, Representatives, and Witnesses.* If the Department determines that disclosure of certain records is relevant and necessary to judicial or administrative litigation or ADR, the Department may disclose those records as a routine use to the party, counsel, representative, or witness.

(4) *Freedom of Information Act (FOIA) and Privacy Act Advice Disclosure.* The Department may disclose records to the DOJ or to the Office of Management and Budget (OMB) if the Department determines that disclosure would help in determining whether records are required to be disclosed under the FOIA or the Privacy Act.

(5) *Contract Disclosure.* If the Department contracts with an entity to perform any function that requires disclosing records to the contractor's employees, the Department may disclose the records to those employees. As part of such a contract, the Department shall require the contractor to agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records.

(6) *Congressional Member Disclosure.* The Department may disclose records to a Member of Congress in response to an inquiry from the Member made at the written request of and on behalf of the individual whose records are being disclosed. The Member's right to the information is no greater than the right of the individual who requested it.

(7) *Employment, Benefit, and Contracting Disclosure.*

(a) *For Decisions by the Department.* The Department may disclose a record to a Federal, State, Tribal, or local agency or to another public authority or professional organization, maintaining civil, criminal, or other relevant enforcement or other pertinent records, if necessary to obtain information relevant to a Department decision concerning the hiring or retention of an employee or other personnel action, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

(b) *For Decisions by Other Public Agencies and Professional Organizations.* The Department may disclose a record to a Federal, State, Tribal, local, or other public authority or professional organization, in connection with the hiring or retention of an employee or other personnel action, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit, to the extent that the record is relevant and necessary to the receiving entity's decision on the matter.

(8) *Employee Grievance, Complaint, or Conduct Disclosure.* If a record is relevant and necessary to an employee grievance, complaint, or disciplinary action involving a present or former employee of the Department, the Department may disclose a record from this system of records in the course of investigation, fact-finding, or adjudication to any party to the grievance, complaint, or action; to the party's counsel or representative; to a witness; or to a designated fact-finder, mediator, or other person designated to resolve issues or decide the matter.

(9) *Labor Organization Disclosure.* The Department may disclose records from this system of records to an arbitrator to resolve disputes under a negotiated grievance procedure or to officials of labor organizations recognized under 5 U.S.C. chapter 71 when relevant and necessary to their duties of exclusive representation.

(10) *Disclosure to the DOJ.* The Department may disclose records to the DOJ to the extent necessary for obtaining DOJ advice on any matter relevant to an audit, inspection, or other inquiry related to the programs covered by this system.

(11) *Research Disclosure.* The Department may disclose records to a researcher if the Department determines that the individual or organization to which the disclosure would be made is authorized and qualified to carry out specific research related to functions or purposes of this system of records. The Department may disclose records from this system of records to that researcher solely for the purpose of carrying out that research related to the functions or purposes of this system of records. The researcher shall be required to agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records.

(12) *Disclosure to the OMB and Congressional Budget Office (CBO) for Federal Credit Reform Act (FCRA) Support.* The Department may disclose records to OMB and CBO as necessary to fulfill FCRA requirements in accordance with 2 U.S.C. 661b.

(13) *Disclosure in the Course of Responding to a Breach of Data.* The Department may disclose records to appropriate agencies, entities, and persons when (a) the Department suspects or has confirmed that there has been a breach of the system of records; (b) the Department has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, the Department (including its information systems, programs, and operations), the Federal Government, or national security; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Department's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

(14) *Disclosure in Assisting another Agency in Responding to a Breach of Data.* The Department may disclose records from this system to another Federal agency or Federal entity, when the Department determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (a) responding to a suspected or confirmed breach or (b) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the

Federal Government, or national security, resulting from a suspected or confirmed breach.

(15) *Disclosure to the National Archives and Records Administration (NARA).* The Department may disclose records from this system of records to NARA for the purpose of records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12): The Department may disclose the following information to a consumer reporting agency regarding a valid, overdue claim of the Department: (1) the name, address, TIN, and other information necessary to establish the identity of the individual responsible for the claim; (2) the amount, status, and history of the claim; and (3) the program under which the claim arose. The Department may disclose the information specified in this paragraph under 5 U.S.C. 552a(b)(12) and the procedures contained in subsection 31 U.S.C. 3711(e). A consumer reporting agency to which these disclosures may be made is defined at 15 U.S.C. 1681a(f) and 31 U.S.C. 3701(a)(3).

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Electronic applicant records, which may include optically imaged documents, are stored on Direct Access Storage Device (DASD) disks in a virtual disk library, in the computer facilities controlled by the Federal Student Aid Data Center.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records in this system pertaining to a title IV, HEA loan aid applicant or aid recipient are indexed and retrieved by a single information element or a combination of the following information elements: SSN/TIN, name, date of birth, and/or the academic year in which the aid applicant applied for title IV, HEA program assistance.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records that constitute FTI that are maintained in this system are primarily retained and disposed of in accordance with the following records schedules:

(a) The Department will maintain FTI that the Department receives from the IRS pursuant to section 6103(l)(13)(A) of the IRC for the purpose of determining eligibility for, or repayment obligations under, IDR plans under title IV of the HEA with respect to loans under part D of title IV of the HEA, in accordance with ED Records Schedule 072, ''FSA Application, Origination, and Disbursement Records'' (DAA–0441–2013–0002)(ED 072); ED Records Schedule 075, ''FSA Loan Servicing, Consolidation, and Collections Records'' (DAA–N1–441–09–016) (ED 075); and ED Records Schedule 051, ''FSA National Student Loan Data System(NSLDS)'' (DAA–0441–2017–0004) (ED 051). The Department has proposed amendments to ED 072, ED 051, and ED 075 for NARA's consideration and will not destroy records covered by these records schedules until such amendments are in effect, as applicable;

(b) The Department will maintain FTI that the Department receives from the IRS pursuant to sections 6103(l)(13)(A) and/or (C) of the IRC that the Department uses for the purpose of reducing the net cost of improper payments under such IDR plans and relating to such awards, and pursuant to section 6103(l)(13)(C) of the IRC for the purpose of determining eligibility for, and amount of, Federal student financial aid under the programs authorized under subpart 1 of part A, part C, or part D of title IV of the HEA in accordance with ED Records Schedule 052, ''Ombudsman Case Files'' (N1–441–09–21) (ED 052). The Department has proposed amendments to ED 052 for NARA's consideration and will not destroy records covered by this records schedules until such amendments are in effect, as applicable;

(c) The Department will maintain FTI that the Department receives from the IRS pursuant to sections 6103(l)(13)(A) and/or (C) of the IRC that the Department uses for the purpose of oversight by the Department's OIG as authorized by chapter 4 of title 5 of the United States Code, except for the purpose of conducting criminal investigations or prosecutions, in accordance with OIG ''Office of Inspector General Simplified Records Schedule'' (DAA–0441–2021–0001); and

(d) The Department will maintain FTI that the Department receives from the IRS pursuant to IRC sections 6103(l)(13)(A) and/or (C) of the IRC that the Department uses for the purpose of conducting analyses and forecasts for estimating costs related to IDR plans and/or awards of Federal student financial aid under the Pell Grant, FWS or Direct Loan, programs authorized under subpart 1 of part A, part C, or part D of title IV of the HEA in accordance with ED Records Schedule 057, ''Office of the Secretary, Deputy Secretary and Under Secretary,'' (DAA–441–97–1) (ED 057), item 16a; and General Records Schedule 1.3, ''Budgeting Records,'' items 040 and 041. The Department proposed amendments to ED 057 for NARA's consideration and will not destroy records covered by this records schedule until such amendments are in effect, as applicable.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

All users of the system will have a unique user ID with a password. All physical access to the data housed at system locations is controlled and monitored by security personnel who check each individual entering the building for their employee or visitor badge. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention with firewalls, encryption, and password protection. This security system limits data access to Department and contract staff on a ''need-to-know'' basis, and controls individual users' ability to access and alter records within the system. All interactions by users of the system are recorded.

In accordance with the Federal Information Security Management Act of 2002 (FISMA), as amended by the Federal Information Security Modernization Act of 2014, every Department system must receive a signed Authorization to Operate (ATO) from a designated Department official. The ATO process includes a rigorous assessment of security and privacy controls, a plan of actions and milestones to remediate any identified deficiencies, and a continuous monitoring program.

FISMA controls implemented are comprised of a combination of management, operational, and technical controls, and include the following control families: access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, personnel security, privacy, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management. The Department will maintain all FTI obtained from the matching program in accordance with section6103(p)(4) of the IRC and comply with the safeguards requirements set forth in IRS Publication 1075, Tax Information Security Guidelines for Federal, State, and Local Agencies, which is the IRS published guidance for security guidelines and other safeguards

for protecting FTI pursuant to section6103(p)(4) of the IRC and 26 CFR 301.6103(p)(4)–1.

RECORD ACCESS PROCEDURES:

If you wish to gain access to a record in this system, FAFSA applicants and contributors are encouraged to contact their IHE financial aid administrators to access their record most efficiently. IDR applicants, and those recertifying their IDR benefits, may access their non-FTI information by contacting their Federal student loan servicer. Either set of individuals may gain access to their complete records from this system, including FTI, by contacting the system manager at the address listed above. You must provide necessary particulars such as your name, SSN/TIN, date of birth, and any other identifying information requested by the Department while processing the request to distinguish between individuals with the same name. Alternatively, to gain access to a record in the system, you can make a Privacy Act request through the Department's FOIA Service Center at *https://www2.ed.gov/policy/gen/leg/foia/request_privacy.html* by completing the applicable request forms.

Requests by an individual for access to a record must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURES:

If you wish to contest or change the content of a record about you in the system of records, provide the System Manager with your name, date of birth, SSN/TIN, and any other identifying information requested by the Department, while processing the request, to distinguish between individuals with the same name. Identify the specific items to be changed and provide a justification for the change.

Requests to amend a record must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.7.

NOTIFICATION PROCEDURES:

If you wish to determine whether a record exists about you in the system of records, contact the system manager at the address listed above. You must provide necessary particulars such as your name, SSN/TIN, date of birth, and any other identifying information requested by the Department while processing the request to distinguish between individuals with the same name. Alternatively, you can make a Privacy Act request through the Department's FOIA Service Center at *https://www2.ed.gov/policy/gen/leg/foia/request_privacy.html* by completing the applicable request forms.

Requests for notification about whether the system of records contains information about an individual must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

None.

FEDERAL REGISTER

Vol. 88 Thursday,
No. 153 August 10, 2023

Pages 54223–54486

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097–6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see *www.federalregister.gov.*

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at *www.govinfo.gov*, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 1, 1 (March 14, 1936) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, *gpocusthelp.com.*

The annual subscription price for the **Federal Register** paper edition is $860 plus postage, or $929, for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $330, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register,** including postage, is based on the number of pages: $11 for an issue containing less than 200 pages; $22 for an issue containing 200 to 400 pages; and $33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for $3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see *bookstore.gpo.gov.*

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 88 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register
Vol. 88, No. 153
Thursday, August 10, 2023

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2023–1650; Project Identifier AD–2023–00795–T; Amendment 39–22517; AD 2023–15–05]

RIN 2120–AA64

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for all The Boeing Company Model 737 airplanes equipped with CFM International, S.A. (CFM) Model LEAP–1B series turbofan engines. This AD was prompted by a report indicating that use of engine anti-ice (EAI) in dry air for more than five minutes during certain environmental and operational conditions can cause overheating of the engine inlet inner barrel beyond the material design limit, resulting in failure of the engine inlet inner barrel and severe engine inlet cowl damage. This AD requires revising the existing airplane flight manual (AFM) to limit the use of EAI in certain conditions and revising the operator's existing minimum equipment list to prohibit dispatch under a certain item. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective August 25, 2023.

The FAA must receive comments on this AD by September 25, 2023.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to *regulations.gov.* Follow the instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at *regulations.gov* by searching for and locating Docket No. FAA–2023–1650; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The street address for Docket Operations is listed above.

FOR FURTHER INFORMATION CONTACT: James Laubaugh, Aviation Safety Engineer, FAA, 2200 South 216th St., Des Moines, WA 98198; phone: 206–231–3622; email: *james.laubaugh@faa.gov.*

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written data, views, or arguments about this final rule. Send your comments to an address listed under **ADDRESSES**. Include Docket No. FAA–2023–1650 and Project Identifier AD–2023–00795–T at the beginning of your comments. The most helpful comments reference a specific portion of the final rule, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this final rule because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to *regulations.gov,* including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this final rule.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this AD contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this AD, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as ''PROPIN.'' The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this AD. Submissions containing CBI should be sent to James Laubaugh, Aviation Safety Engineer, FAA, 2200 South 216th St., Des Moines, WA 98198; phone: 206–231–3622; email: *james.laubaugh@faa.gov.* Any commentary that the FAA receives that is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

The FAA has received a report in June 2023 indicating that flight testing and analysis revealed that the use of EAI in dry air for more than five minutes during certain combinations of altitude, total air temperature, and N1 settings can result in engine inlet cowl temperatures exceeding design limits when not in visible moisture. Excessive heat buildup can cause overheat of the engine inlet inner barrel beyond the material design limit, resulting in failure of the engine inlet inner barrel and severe engine inlet cowl damage. There have been no reports of in-service failures of the engine inlet inner barrel to date.

This condition as previously described, if not addressed, could result in departure of the inlet and potential fan cowl failure and departure from the airplane. The departure of the inlet may cause fuselage and/or window damage, potentially resulting in decompression and hazard to window-seated passengers aft of the wing and/or impact damage to the wing, flight control surfaces, and/or empennage, which could result in loss of control of the airplane. Inlet loss also causes significantly increased aerodynamic drag and asymmetric lift due to wing blanking, which risks fuel exhaustion on certain flights, resulting in a forced off-airport landing and injury to passengers. The FAA is issuing this AD to address the unsafe condition on these products.

FAA's Determination

The FAA is issuing this AD because the agency has determined the unsafe condition described previously is likely to exist or develop in other products of the same type design.

AD Requirements

This AD requires revising the existing AFM to limit the use of engine anti-ice in certain conditions. This AD also requires revising the operator's existing minimum equipment list (MEL) to prohibit dispatch under Master Minimum Equipment List (MMEL) Item 30–21–01B (EAI valve locked open). Further analysis of this item is necessary to determine whether continued use will cause failure of the engine inlet inner barrel.

Compliance With AFM Revision

Section 91.9 prohibits any person from operating a civil aircraft without complying with the operating limitations specified in the AFM. FAA regulations also require operators to furnish pilots with any changes to the AFM (14 CFR 121.137) and pilots in command to be familiar with the AFM (14 CFR 91.505).

MMEL Revision

This AD refers to Item 30–21–01B (Engine (Cowl) Anti-Ice Valves), Boeing 737 MAX (B–737–7/-8/-8200/-9) MMEL, Revision 5, dated June 3, 2022; this item is also included in an operator's FAA-approved minimum equipment list (MEL). This AD prohibits dispatch or release of the airplane under conditions currently allowed by that item in the MMEL. The FAA plans to revise the MMEL to remove that item in a future revision; operators would then be required to also remove that item from their existing FAA-approved MEL.

Interim Action

The FAA considers this AD to be an interim action. The manufacturer is currently developing a modification that will address the unsafe condition identified in this AD. Once this modification is developed, approved, and available, the FAA might consider additional rulemaking.

Justification for Immediate Adoption and Determination of the Effective Date

Section 553(b)(3)(B) of the Administrative Procedure Act (APA) (5 U.S.C. 551 *et seq.*) authorizes agencies to dispense with notice and comment procedures for rules when the agency, for ''good cause,'' finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under this section, an agency, upon finding good cause, may issue a final rule without providing notice and seeking comment prior to issuance. Further, section 553(d) of the APA authorizes agencies to make rules effective in less than thirty days, upon a finding of good cause.

An unsafe condition exists that requires the immediate adoption of this AD without providing an opportunity for public comments prior to adoption. The FAA has found that the risk to the flying public justifies forgoing notice and comment prior to adoption of this rule because operating EAI in dry air for more than five minutes during certain environmental and operational conditions can cause overheating of the engine inlet inner barrel beyond the material design limit, resulting in failure of the engine inlet inner barrel and severe engine inlet cowl damage. If not addressed, this could result in departure of the inlet and potential fan cowl failure and departure from the airplane. The departure of the inlet may cause fuselage and/or window damage, potentially resulting in decompression and hazard to window-seated passengers aft of the wing and/or impact damage to the wing, flight control surfaces, and/or empennage, which could result in loss of control of the airplane. Further, inlet loss causes significantly increased aerodynamic drag and asymmetric lift due to wing blanking, which risks fuel exhaustion on certain flights, resulting in a forced off-airport landing and injury to passengers. Accordingly, notice and opportunity for prior public comment are impracticable and contrary to the public interest pursuant to 5 U.S.C. 553(b)(3)(B).

In addition, the FAA finds that good cause exists pursuant to 5 U.S.C. 553(d) for making this amendment effective in less than 30 days, for the same reasons the FAA found good cause to forgo notice and comment.

Regulatory Flexibility Act

The requirements of the Regulatory Flexibility Act (RFA) do not apply when an agency finds good cause pursuant to 5 U.S.C. 553 to adopt a rule without prior notice and comment. Because the FAA has determined that it has good cause to adopt this rule without notice and comment, RFA analysis is not required.

Costs of Compliance

The FAA estimates that this AD affects 402 airplanes of U.S. registry. The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
AFM/MEL revision	1 work-hour × $85 per hour = $85	$0	$85	$34,170

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866, and

(2) Will not affect intrastate aviation in Alaska.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2023–15–05 The Boeing Company: Amendment 39–22517; Docket No. FAA–2023–1650; Project Identifier AD–2023–00795–T.

(a) Effective Date

This airworthiness directive (AD) is effective August 25, 2023.

(b) Affected ADs

None.

(c) Applicability

This AD applies to all The Boeing Company Model 737 airplanes equipped with CFM International, S.A. (CFM) Model LEAP–1B series turbofan engines, certificated in any category.

(d) Subject

Air Transport Association (ATA) of America Code 30, Ice and Rain Protection; 71, Powerplant.

(e) Unsafe Condition

This AD was prompted by a report indicating that use of engine anti-ice (EAI) in dry air for more than five minutes during certain environmental and operational conditions can cause overheating of the engine inlet inner barrel beyond the material design limit, resulting in failure of the engine inlet inner barrel and severe engine inlet cowl damage. The FAA is issuing this AD to address use of EAI in certain environmental and operational conditions. The unsafe condition, if not addressed, could result in departure of the inlet and potential fan cowl failure and departure from the airplane. The departure of the inlet may cause fuselage and/or window damage, potentially resulting in decompression and hazard to window-seated passengers aft of the wing and/or impact damage to the wing, flight control surfaces, and/or empennage, which could result in loss of control of the airplane. Inlet loss also causes significantly increased aerodynamic drag and asymmetric lift due to wing blanking, which risks fuel exhaustion on certain flights, resulting in a forced off-airport landing and injury to passengers.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Airplane Flight Manual (AFM) Revision

Within 15 days after the effective date of this AD: Revise the Limitations Section of the existing AFM to include the information specified in figure 1 to paragraph (g) of this AD. This may be done by inserting a copy of figure 1 to paragraph (g) of this AD into the existing AFM.

Figure 1 to paragraph (g) - *Engine anti-ice AFM revision*

(Required by AD 2023-15-05)

Engines – Anti-Ice System

Do not operate Engine Anti-Ice (EAI) in-flight when not in actual or anticipated icing conditions.

CAUTION: Operation of EAI when not in actual or anticipated icing conditions may result in severe engine inlet damage or failure.

(h) Minimum Equipment List (MEL) Revision

Within 15 days after the effective date of this AD or upon completion of the AFM revision required by paragraph (g) of this AD, whichever occurs first: Revise the operator's existing FAA-approved MEL to prohibit dispatch under the MEL item corresponding with Master Minimum Equipment List (MMEL) Item 30–21–01B (Engine (Cowl) Anti-Ice Valves).

(i) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520, Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (j) of this AD. Information may be emailed to: *9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the Manager, AIR–520, Continued Operational Safety Branch, FAA, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(j) Related Information

For more information about this AD, contact James Laubaugh, Aviation Safety Engineer, FAA, 2200 South 216th St., Des Moines, WA 98198; phone: 206–231–3622; email: *james.laubaugh@faa.gov.*

(k) Material Incorporated by Reference

None.

Issued on July 31, 2023.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

[Docket No. FAA–2023–1010; Airspace Docket No. 23–AGL–15]

RIN 2120–AA66

Amendment of Class E Airspace; Yankton, SD

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace at Yankton, SD. This action is the result of an airspace review caused by the decommissioning of the Yankton very high frequency omnidirectional range (VOR) as part of the VOR Minimum Operating Network (MON) Program.

DATES: Effective 0901 UTC, November 30, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at *www.regulations.gov* using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: Jeffrey Claypool, Federal Aviation Administration, Operations Support Group, Central Service Center, 10101 Hillwood Parkway, Fort Worth, TX 76177; telephone (817) 222–5711.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class E surface airspace and the Class E airspace extending upward from 700 feet above the surface at Chan Gurney Municipal Airport, Yankton, SD, to support instrument flight rule operations at this airport.

History

The FAA published an NPRM for Docket No. FAA–2023–1010 in the **Federal Register** (88 FR 29568; May 8, 2023) proposing to amend the Class E airspace at Yankton, SD. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace designations are published in paragraphs 6002 and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71:

Modifies the Class E surface area to within a 5.1-mile (increased from a 4.1-mile) radius of Chan Gurney Municipal Airport, Yankton, SD; removes the Yankton VOR/DME and all associated extensions from the airspace legal description; and removes the city associated with the airport in the header of the airspace legal description to comply with changes to FAA Order JO 7400.2P, Procedures for Handling Airspace Matters;

And modifies the Class E airspace extending upward from 700 feet above the surface to within a 7.6-mile (decreased from a 7.8-mile) radius of Chan Gurney Municipal Airport; and removes the city associated with the airport in the header of the airspace legal description to comply with changes to FAA Order JO 7400.2P.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6002 Class E Airspace Areas Designated as a Surface Area.

* * * * *

AGL SD E2 Yankton, SD [Amended]

Chan Gurney Municipal Airport, SD
(Lat 42°55′00″ N, long 97°23′09″ W)

Within a 5.1-mile radius of the Chan Gurney Municipal Airport.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL SD E5 Yankton, SD [Amended]

Chan Gurney Municipal Airport, SD
(Lat 42°55′00″ N, long 97°23′09″ W)

That airspace extending upward from 700 feet above the surface within a 7.6-mile radius of Chan Gurney Municipal Airport.

* * * * *

Issued in Fort Worth, Texas, on August 3, 2023.

Martin A. Skinner,

Acting Manager, Operations Support Group, ATO Central Service Center.

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Columbus, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: A final rule was published in the **Federal Register** on June 30, 2023, amending Class D airspace, Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface for Golden Triangle Regional Airport, Columbus, MS, by updating the airport's description header and geographic coordinates, as well as the geographic coordinates of Columbus AFB, Columbus-Lowndes County Airport, Oktibbeha Airport, and McCharen Field. This action corrects the Class E airspace extending upward from 700 feet above the surface description by correcting the geographic coordinates of Oktibbeha Airport.

DATES: Effective 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Ave., College Park, GA 30337; Telephone (404) 305–6364.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

History

The FAA published a final rule in the **Federal Register** (88 FR 42227, June 30, 2023) for Doc. No. FAA–2023–1352, updating the geographic coordinates of Golden Triangle Regional Airport, Columbus AFB, Columbus-Lowndes County Airport, Oktibbeha Airport, and McCharen Field. After publication, the FAA found the geographic coordinates for Oktibbeha Airport were inadvertently transposed. This action corrects this error.

Correction to the Final Rule

Pursuant to the authority delegated to me, the amendment of Class E airspace extending upward from 700 feet above the surface for Columbus, MS, in Docket No. FAA–2023–1352, as published in the **Federal Register** on June 30, 2023 (88 FR 42227), is corrected as follows:

§ 71.1 [Corrected]

■ 1. On page 42228, in the second column, correct the geographic coordinates for Oktibbeha Airport to read:

(Lat 33°29′52″ N, long 88°40′53″ W)

Issued in College Park, Georgia, on August 2, 2023.

Andreese C. Davis,

Manager Airspace & Procedures Team South, Eastern Service Center, Air Traffic Organization.

Amendment of Class E Airspace; Greenville, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E surface airspace and Class E airspace extending upward from 700 feet above the surface for the Greenville, NC area, as a new instrument approach procedure has been designed for ECU Health Medical Center Heliport. This action also makes an editorial change.

DATES: Effective 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at *www.regulations.gov* using the FAA Docket number. Electronic retrieval helps and guidelines are available on the website. It is available 24 hours a day, 365 days a year.

FAA Order JO 7400.11G Airspace Designations and Reporting Points and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it amends Class E airspace in Greenville, NC, to support IFR operations in the area.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA 2023–1004 in the **Federal Register** (88 FR 29557; May 8, 2023), proposing to amend Class E airspace for Greenville, NC. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace designations are published in paragraphs 6002 and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, incorporated by reference in 14 CFR 71.1 annually. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES**

section of this document. These amendments will be published in the next FAA Order JO 7400.11 update.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by:

We are amending the Class E surface airspace for Pitt-Greenville Airport, Greenville, NC, by increasing the radius to 4.6 miles (previously 4.4 miles) and replacing the outdated term Notice to Airmen with the term Notice to Air Missions.

Amending the Class E airspace extending upward from 700 feet above the surface by increasing the radius of the Pitt-Greenville Airport to 7.1 miles (previously 6.4 miles) and establishing an extension of 1.1 miles on each side of the Pitt-Greenville Airport's 008° bearing extending from the airport's 7.1-mile radius to 13.4 miles northeast of the airport. In addition, this action establishes Class E airspace extending upward from 700 feet above the surface within a 6.2-mile radius of ECU Health Medical Center.

Controlled airspace is necessary for the area's safety and management of instrument flight rules (IFR) operations.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' paragraph 5–6.5a.

This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances warrant the preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as Paragraph 6002. Class E Surface Airspace.

Paragraph 6002 Class E Surface Airspace.

* * * * *

ASO NC E2 Greenville, NC [Amended]

Pitt-Greenville Airport, NC
(Lat 35°38′09″ N, long 77°23′03″ W)

That airspace extending upward from the surface within a 4.6-mile radius of Pitt-Greenville Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Air Missions. The effective date and time will be continuously published in the Chart Supplement.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the

agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class E airspace, extending upward from 700 feet above the surface, at Rush City Regional Airport, Rush City, MN, to support instrument flight rule operations at this airport.

History

The FAA published an NPRM for Docket No. FAA–2023–0919 in the **Federal Register** (88 FR 34459; May 30, 2023) amending the Class E airspace at Rush City Regional Airport, Rush City, MN. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace designations are published in paragraphs 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71modifies the Class E airspace extending upward from 700 feet above the surface within a 6.4-mile (decreased from a 6.5-mile radius) of Rush City Regional Airport, Rush City, MN; removes the Rush City NDB from the airspace legal descriptions; and updates the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL MN E5 Rush City, MN [Amended]

Rush City Regional Airport,WI
(Lat 45°41′50″ N, long 92°57′08″ W)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Rush City Regional Airport.

RIN 2120–AA66

Amendment of Class E Airspace; Covington, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet above the surface for Covington Municipal Airport, Covington, TN, as a new instrument approach procedure has been designed for this airport.

DATES: Effective 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at *www.regulations.gov* using the FAA Docket number. Electronic retrieval helps, and guidelines are available on the website. It is available 24 hours a day, 365 days a year.

FAA Order JO 7400.11G Airspace Designations and Reporting Points and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/*. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: John Fornito,Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Avenue, College Park, GA 30337; Telephone: (404) 305–6364.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in

Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it amends Class E airspace in Covington, TN, to support IFR operations in the area.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA 2023–1082 in the **Federal Register** (88 FR 29579; May 08, 2023), proposing to amend Class E airspace for Covington Municipal Airport, Covington, TN. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace designations are published in Paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, incorporated by reference in 14 CFR 71.1 annually. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next FAA Order JO 7400.11 update.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by amending Class E airspace extending upward from 700 feet above the surface for Covington Municipal Airport, Covington, TN, to accommodate area navigation (RNAV) global positioning system (GPS) standard instrument approach procedures (SIAPs) serving this airport. This amendment supports a new instrument approach at this airport. The existing radius would be increased to 10.2 miles (previously 7 miles). Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' paragraph 5–6.5a.

This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances warrant the preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005—Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASO TN E5—Covington, TN [Amended]

Covington Municipal Airport, TN
(Lat 35°35′00″ N, long 89°35′14″ W)

That airspace extends upward from 700 feet above the surface within a 10.2-mile radius of Covington Municipal Airport.

RIN 2120–AA66

Amendment of Class C Airspace; Palm Beach International Airport, West Palm Beach, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, correction.

SUMMARY: This action corrects a final rule published by the FAA in the **Federal Register** on July 18, 2023, that amends the Palm Beach International Airport, FL Class C airspace description as published in FAA Order JO 7400.11G, dated August 19, 2022. In the rule, the text describing Area C of the Class C airspace area was inadvertently omitted from the Palm Beach, FL Class C airspace description. This action restores the text for Area C to the Class C description.

DATES: Effective date 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the final rule, this final rule correction, and all background material may be viewed online at *www.regulations.gov* using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/*. You may also contact the Rules and Regulations Group, Office of

Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: Brian Vidis, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the **Federal Register** for Docket No. FAA–2023–1533 (88 FR 45812; July 18, 2023) that amended the text header in the Palm Beach International Airport, FL Class C airspace description as published in FAA Order JO 7400.11G. The change removed the words ''Palm Beach International Airport'' from the first line in the Class C description and replaced them with the words ''West Palm Beach''. This change aligned with the current formatting standard which requires that the city location of the airport be stated on the first line of the description and the airport name be stated on the second line. In the regulatory text of the rule, the text describing Area C of the Class C airspace area was inadvertently omitted. This action reinserts Area C in the Class C description.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, in Docket No. FAA–2023–1533, as published in the **Federal Register** of July 18, 2023 (88 FR 45812), FR Doc. 2023–15147, is corrected as follows:

Amend the West Palm Beach, FL Airspace Class C description by adding Area C to the description, to read as follows:

§ 71.1 [Corrected]

* * * * *

ASO FL C West Palm Beach, FL [Corrected]

Palm Beach International Airport, FL
(Lat. 26°40′59″ N, long. 80°05′44″ W)
Palm Beach County Park Airport
(Lat. 26°35′35″ N, long. 80°05′06″ W)

Boundaries.

Area A. That airspace extending upward from the surface to and including 4,000 feet MSL within a 5-mile radius of the Palm Beach International Airport, excluding that airspace within a 2-mile radius of the Palm Beach County Park Airport.

Area B. That airspace extending upward from 1,600 feet MSL to and including 4,000 feet MSL within an area bounded on the north by a line direct from the intersection of the Florida Turnpike (highway 91) and Lantana Road to the intersection of a 5-mile radius of the Palm Beach International Airport and a 2-mile radius west of the Palm Beach County Park Airport and a 2-mile radius north of the Palm Beach County Park Airport, on the east by a line direct from the intersection of a 5-mile radius of the Palm Beach International Airport and a 2-mile radius east of the Palm Beach County Park Airport to the intersection of a 10-mile radius of the Palm Beach International Airport and U.S. 1, on the south by a 10-mile radius of the Palm Beach International Airport, and on the west by the Florida Turnpike.

Area C. That airspace extending upward from1,200 feet MSL to and including 4,000 feet MSL within a 10-mile radius of the Palm Beach International Airport, excluding area B.

Establishment of United States Area Navigation (RNAV) Route T–386 in the Vicinity of Fairbanks, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: The FAA is correcting a final rule published by the FAA in the **Federal Register** on July 25, 2023, that establishes United States Area Navigation (RNAV) T-route T–386 in the vicinity of Fairbanks, AK, in support of a large and comprehensive T-route modernization project for the state of Alaska. The geographical coordinates listed in the route description are incorrect.

DATES: Effective date 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at *https://www.faa.gov/air_traffic/publications/.* For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

Amendment of Class E Airspace; Nashville, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: A final rule was published in the **Federal Register** on July 24, 2023, amending Class E airspace designated as an extension to a Class C surface area and Class E airspace extending upward from 700 feet above the surface in Nashville, TN. This action corrects the geographic coordinates of Nashville International Airport and Nashville VORTAC under the Class E airspace designated as an extension to a Class C surface area.

DATES: Effective 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Ave., College Park, GA 30337; Telephone (404) 305–6364.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

History

The FAA published a final rule in the **Federal Register** (88 FR 47362, July 24, 2023) for Doc. No. FAA–2023–0995, amending Class E airspace designated as an extension to the Class C surface area of Nashville International Airport. After publication, the FAA found the geographic coordinates for Nashville International Airport and Nashville VORTAC were displayed incorrectly. This action corrects this error.

Correction to the Final Rule

Accordingly, pursuant to the authority delegated to me, the amendment of Class E airspace designated as an extension to the Class C surface area for Nashville International Airport, TN, in Docket No. FAA–2023–0995, as published in the **Federal Register** on July 24, 2023 (88 FR 47362), is corrected as follows:

§ 71.1 [Corrected]

■ 1. On page 47363, in the second column, under ASO TN E3 Nashville, TN [Amended], correct the geographic coordinates for Nashville International Airport to read:

* * * * *

(Lat 36°07′28″ N, long 86°40′41″ W)

* * * * *

■ 2. On page 47363, in the second column, under ASO TN E3 Nashville, TN [Amended], correct the geographic coordinates for Nashville VORTAC to read:

* * * * *

(Lat 36°08′13″ N, long 86°41′05″ W)

* * * * *

Issued in College Park, Georgia, on August 2, 2023.

Amendment of Class E Airspace; Ruston, LA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace at Ruston, LA. This action is the result of an airspace review caused by the decommissioning of the Ruston non-directional beacon (NDB). The geographic coordinates of the airport are also being updated to coincide with the FAA's aeronautical database.

DATES: Effective 0901 UTC, November 30, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at *www.regulations.gov* using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class E airspace extending upward from 700 feet above the surface at Ruston Regional Airport, Ruston, LA, to support instrument flight rule operations at this airport.

History

The FAA published an NPRM for Docket No. FAA–2023–0735 in the **Federal Register** (88 FR 36979; June 6, 2023) amending the Class E airspace at Ruston, LA. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace designations are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order Jo 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71 modifies the Class E airspace extending upward from 700 feet above the surface to within a 6.5-mile radius of Ruston Regional Airport, Ruston, LA, and updates the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASW LA E5 Ruston, LA [Amended]

Ruston Regional Airport, LA
(Lat 32°30′48″ N, long 92°35′18″ W)

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Ruston Regional Airport.

* * * * *

Issued in Fort Worth, Texas, on August 3, 2023.

DEPARTMENT OF COMMERCE

Census Bureau

15 CFR Part 30

[Docket No. 230802–0181]

RIN 0607–AA61

Foreign Trade Regulations (FTR): State Department Directorate of Defense Trade Controls Filing Requirement and Clarifications to Current Requirements

AGENCY: Census Bureau, Commerce Department.

ACTION: Final rule.

SUMMARY: The Census Bureau issues this final rule amending its regulations to reflect new export reporting requirements related to the State Department, Directorate of Defense Trade Controls (DDTC) Category XXI Determination Number. Specifically, the Census Bureau is adding a conditional data element, DDTC Category XXI Determination Number, when ''21'' is selected in the DDTC USML Category Code field in the Automated Export System (AES) to represent United States Munitions List (USML) Category XXI. In addition, this rule makes remedial changes to the Foreign Trade Regulations (FTR) to update International Traffic in Arms Regulations (ITAR) references in existing data elements: DDTC Significant Military Equipment Indicator and DDTC Eligible Party Certification Indicator. This rule also makes other remedial changes to the FTR.

DATES: This final rule is effective November 8, 2023.

FOR FURTHER INFORMATION CONTACT: Omari S. Wooden, Assistant Division Chief, Data User and Respondent Outreach, Economic Management Division, Census Bureau by phone (301) 763–3829 or by email *omari.s.wooden@census.gov.*

SUPPLEMENTARY INFORMATION:

Background

The Census Bureau is amending the Foreign Trade Regulations (FTR) to add a conditional data element, Directorate of Defense Trade Controls (DDTC) Category XXI Determination Number, when ''21'' (see Appendix L of the Automated Export System Trade Interface Requirements (AESTIR)) is selected in the DDTC United States Munitions List (USML) Category Code field in the Electronic Export Information (EEI). The FTR defines the DDTC USML Category Code as the USML category of the article being exported (22 CFR) part 121).

Public Law 106–113 amended 13 U.S.C. 301, to add subsection ''(h)'' directing the Secretary of Commerce to require, by regulation, the mandatory electronic filing of export information through the Automated Export System (AES) for items identified in the Commerce Control List (CCL) and the USML. Under the authorities in chapter 9 of title 13, U.S.C., the Secretary of Commerce will collect additional data on the export of items under DDTC USML Category Code ''21'' to identify and validate commodities for which DDTC USML Category Code ''21'' is cited.

The DDTC Category XXI Determination Number is a unique number issued by DDTC in conjunction with a notification that a specific commodity is described in USML Category XXI. Information on valid USML Category XXI determinations and the prospective AES error code may be found in the Frequently Asked Questions section of DDTC's website (*www.pmddtc.state.gov*).

The Census Bureau published a Notice of Proposed Rulemaking (NPRM) in the **Federal Register** on May 3, 2023 (88 FR 27815) to add the conditional data element, DDTC Category XXI Determination Number, when ''21'' is selected in the DDTC USML Category Code field in the Automated Export System (AES) as well as to make the remedial changes originally proposed in the NPRM published December 15, 2021 in the **Federal Register** (86 FR 71187). Comments to these remedial changes were favorable.

Finally, the U.S. Department of Homeland Security and the U.S. Department of State concur with the revisions to the FTR as required by 13 U.S.C. 302 and Public Law 107–228, division B, title XIV, section 1404.

Response to Comments

The Census Bureau received three comments on the NPRMs published in the **Federal Register** on December 15, 2021 (86 FR 71187) and May 3, 2023 (88 FR 27815). A summary of the comments and the Census Bureau's response are provided below.

Comment. The commenter stated that it is unclear if the Census Bureau proposed to update the published penalty amount in § 30.71 as it still states $10,000 and has not been $10,000 for years. The commentor suggested to update the correct current amount, in conjunction with the footnote update proposed.

Response. The Census Bureau has reviewed this comment and disagrees that the amount shown in § 30.71 should reflect the current amount with the footnote to address the adjustment for inflation. The $10,000 referenced in § 30.71 is consistent with 13 U.S.C. 305. The current penalty amounts are published in 15 CFR 6.3(d).

Comment. The commenter recommends that the Census Bureau eliminate the Dun and Bradstreet Number (DUNS) for reporting the U.S. Principal Party in Interest Identification Number (USPPI ID) because reporting the DUNS requires the company to also report their Employer Identification Number (EIN) and adds to reporting burden and filing mistakes thus increasing risks of incurring a fine and/or penalty. The commenter also recommended that the Census Bureau review and publish the percentage of shipments where the DUNS is used as the filer ID. The commenter also stated that if the Census Bureau decides to keep the DUNS as a USPPI ID, then § 30.3(e)(1)(ii) needs to reflect that when the USPPI uses the DUNS as their filer ID, they must also provide the FPPI's authorized agent their EIN. As currently proposed in the NPRM, the USPPI either provides the EIN or DUNS.

Response. The Census Bureau has reviewed this comment and disagrees with removing the DUNS as an option for reporting the USPPI ID. USPPIs who have postdeparture filing privileges support the use of the DUNS as the USPPI ID because USPPIs prefer to have the less sensitive DUNS rather than the EIN shown on the front page of bills of

lading/air waybills and other commercial documents as part of the postdeparture filing citation. However, as a result of this comment, FTR Appendix B to Part 30—AES Filing Citation, Exemption and Exclusion Legends (II and III) will be changed from USPPI EIN to USPPI Identification Number to allow either the EIN or DUNS. In regard to the comment of the USPPI using the DUNS as the filer ID, the Census Bureau agrees and has changed § 30.3(e)(1)(ii) to reflect the requirement to provide the USPPI Identification Number as defined under § 30.6(a)(1)(iii).

Comment. The commenter expressed appreciation for the clarification of § 30.6(a)(1)(iii); specifically, clarifying that, when the DUNS is reported as the USPPI ID type, the EIN is also required. The commenter stated that the use of the DUNS and EIN as the USPPI ID has been a mystery to most EEI filers and many EEI transmission software systems are not programmed to accommodate this requirement. According to the commenter, the users of many transmission software systems select USPPI ID type as either DUNS or EIN and then enter a number. Selecting the DUNS option alone fails. As a result, users typically select the ''EIN'' option and then enter a DUNS number. Alternatively, filers will obtain an EIN and only report that number. Therefore, the commenter stated that the practice is that many, if not most, filers do not report both the DUNS and EIN. The commenter believes that it is unlikely, even with this clarification, that EEI filers will begin to transmit both DUNS and EIN or that software providers will change their systems. The commenter stated that it would be helpful if Census could provide further information on the reason and value of receiving the DUNS number.

Response. The Census Bureau historically has given USPPIs the option of providing the DUNS or EIN as the USPPI ID. The option of reporting the less sensitive DUNS instead of the EIN became more favorable to USPPIs who were approved for the postdeparture filing program because the postdeparture filing exemption contains the USPPI ID which is visible on the front of commercial documents. However, when the DUNS is reported as the USPPI ID in the AES, the Census Bureau also requires an EIN. The Census Bureau must have the EIN to link to the Business Register to collect information for the Profile of U.S. Exporting Companies statistical release.

Changes to the Proposed Rule Made by This Final Rule

As discussed above, after consideration of the comments received on the proposed rule, the Census Bureau includes in this final rule an additional change to § 30.3(e)(1)(ii) to reference the USPPI Identification Number instead of USPPI EIN or DUNS. This change will provide consistency with § 30.6(a)(1)(iii), which states that, if the USPPI Identification Number is reported as a DUNS, the submission of the EIN of the USPPI also is required. Additionally, FTR Appendix B to Part 30—AES Filing Citation, Exemption and Exclusion Legends (II and III) will be changed from USPPI EIN to USPPI Identification Number to allow further consistency with § 30.6(a)(1)(iii).

Program Requirements

Pursuant to the Foreign Relations Act, Public Law 107–228 and 13 U.S.C. 302, the Census Bureau is amending relevant sections of the FTR to revise or clarify export reporting requirements. Therefore, the Census Bureau is amending 15 CFR part 30 by making the following revisions:

- Revise § 30.2(d)(3) to remove the language, ''(See subpart B of this part for export control requirements for these types of transactions.),'' as the exclusion overrides the export control requirements.
- Revise § 30.3(e)(1)(ii) to remove USPPI EIN or DUNS and replace with USPPI Identification Number.
- Revise § 30.6(a)(1)(iii) to clarify that, when the Dun and Bradstreet Number (DUNS) is reported as the U.S. Principal Party in Interest (USPPI) Identification Number, the Employer Identification Number (EIN) of the USPPI also is required to be reported in the Automated Export System.
- Revise § 30.6(b)(3) to amend the Foreign Trade Zone (FTZ) identifier to allow for nine digits. The increased number of digits is required because of the increase in the number of subzones.
- Revise § 30.6(b)(16)(ii) to amend the DDTC Significant Military Equipment (SME) indicator by updating the ITAR references as a result of DDTC relocating certain ITAR provisions to improve the overall structure of the ITAR.
- Revise § 30.6(b)(16)(iii) to amend the DDTC eligible party certification indicator by updating the ITAR references as a result of DDTC relocating certain ITAR provisions to improve the overall structure of the ITAR.
- Revise § 30.6(b)(16)(ix) to add the conditional data element ''DDTC Category XXI Determination Number.'' The ''DDTC Category XXI Determination Number'' will be the unique number issued by DDTC to a member of the regulated community (usually the original equipment manufacturer) in conjunction with a notification that a specific commodity is described in USML Category XXI. This number is required only when citing Category XXI as an export classification and is used to confirm that an authoritative DDTC USML Category XXI determination is being referenced to do so.
- Revise § 30.37(u) to remove and reserve the exemption for technical data. This exemption is covered under § 30.2(d)(3), making the exemption redundant.
- Revise § 30.55 to remove the citation ''19 CFR 103.5'' and add in its place ''19 CFR part 103.''
- Revise § 30.71 to amend the Note to paragraph (b) to address the yearly adjustments for civil penalties as a result of inflation.
- Revise § 30.74 to amend paragraph (c)(5) to remove information that may become outdated and referencing the Census Bureau website to obtain the most current method for submitting a Voluntary Self-Disclosure.
- Revise FTR Appendix B to Part 30—AES Filing Citation, Exemption and Exclusion Legends (II and III) to remove USPPI EIN and add in its place USPPI Identification Number.

Rulemaking Requirements

Regulatory Flexibility Act

The Chief Counsel for Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration that this rule will not have a significant economic impact on a substantial number of small entities. There were no comments on this certification in the proposed rule.

In the current Foreign Trade Regulations, the Electronic Export Information (EEI) shall be filed through the Automated Export System (AES) for all exports of physical goods. The AES is the electronic system for collecting Shipper's Export Declaration (SED) (or any successor document) information from persons exporting goods from the United States, Puerto Rico, Foreign Trade Zones located in the United States and Puerto Rico, the U.S. Virgin Islands, between the U.S. and Puerto Rico, and to the U.S. Virgin Islands from the United States or Puerto Rico. Under this final rule, export shipments with ''21'' in the DDTC USML Category Code field will be required to report the DDTC Category XXI Determination Number.

In calendar year 2022, authorized agents and U.S. Principal Parties in

Interest reported the DDTC USML Category Code of ''21'' on 0.6% of EEI records. A large majority of the EEI records involved export shipments of defense articles from branches of the Department of Defense. Based on these statistics, the Census Bureau believes this rule will not create any economic impact on companies including a substantial number of small entities. As a result, a final regulatory flexibility analysis is not required, and none has been prepared.

Executive Orders

This rule has been determined to not be significant for purposes of Executive Order 12866. This rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 13132.

Paperwork Reduction Act

Notwithstanding any other provisions of law, no person is required to respond to, nor shall a person be subject to, a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a valid Office of Management and Budget (OMB) control number.

The information collection requirements included in this rule will be submitted to OMB for review under OMB Control Number 0607–0152. The information collection associated with that control number was approved after 60-day and 30-day public comment periods (87 FR 70777; 88 FR 7680). This rule changes existing requirements for the information collection but will not impact the current reporting-hour burden approved under that control number. Public comment is sought regarding: whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the burden estimate; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information, including through the use of automated collection techniques or other forms of information technology. Submit comments on these or any other aspects of the collection of information to *www.reginfo.gov/public/do/PRAMain.* Find this collection under OMB Control Number 0607–0152—AES Program.

Robert L. Santos, Director, Census Bureau, approved the publication of this notification in the **Federal Register**.

List of Subjects in 15 CFR Part 30

Economic statistics, Exports, Foreign trade, Reporting and recordkeeping requirements.

For the reasons set out in the preamble, the Census Bureau is amending 15 CFR part 30 as follows:

PART 30—FOREIGN TRADE REGULATIONS

■ 1. The authority citation for 15 CFR part 30 continues to read as follows:

Authority: 5 U.S.C. 301; 13 U.S.C. 301–307; Reorganization plan No. 5 of 1990 (3 CFR 1949–1953 Comp., p. 1004); Department of Commerce Organization Order No. 35–2A, July 22, 1987, as amended, and No. 35–2B, December 20, 1996, as amended; Public Law 107–228, 116 Stat. 1350.

■ 2. Amend § 30.2 by revising paragraph (d)(3) to read as follows:

§ 30.2 General requirements for filing Electronic Export Information (EEI).

* * * * *

(d) * * *

(3) Electronic transmissions and intangible transfers.

* * * * *

■ 3. Amend § 30.3 by revising paragraphs (e)(1)(ii) to read as follows:

§ 30.3 Electronic Export Information filer requirements, parties to export transactions, and responsibilities of parties to export transactions.

* * * * *

(e) * * *

(1) * * *

(ii) USPPI Identification Number.

* * * * *

■ 4. Amend § 30.6 by revising paragraphs (a)(1)(iii), (b)(3), (b)(16)(ii) and (iii), and adding paragraph (b)(16)(ix) to read as follows:

§ 30.6 Electronic Export Information data elements.

* * * * *

(a) * * *

(1) * * *

(iii) *USPPI identification number.* Report the Employer Identification Number (EIN) of the USPPI. If the USPPI has only one EIN, report that EIN. If the USPPI has more than one EIN, report the EIN that the USPPI uses to report employee wages and withholdings, and not the EIN used to report only company earnings or receipts. Use of another company's EIN is prohibited. If a USPPI reports a DUNS, the EIN is also required to be reported. If a foreign entity is in the United States at the time goods are purchased or obtained for export, the foreign entity is the USPPI. In such situations, when the foreign entity does not have an EIN, the authorized agent shall report a border crossing number, passport number, or any number assigned by CBP on behalf of the foreign entity.

* * * * *

(b) * * *

(3) *FTZ identifier.* If goods are removed from a FTZ and not entered for consumption, report the FTZ identifier. This is the unique 9-digit alphanumeric identifier assigned by the Foreign Trade Zone Board that identifies the FTZ, subzone or site from which goods are withdrawn for export.

* * * * *

(16) * * *

(ii) *DDTC Significant Military Equipment (SME) indicator.* A term used to designate articles on the USML (22 CFR part 121) for which special export controls are warranted because of their capacity for substantial military utility or capability. See sections 120.36 and 120.10(c) of the ITAR (22 CFR parts 120 through 130) for a definition of SME and for items designated as SME articles, respectively.

(iii) *DDTC eligible party certification indicator.* Certification by the U.S. exporter that the exporter is an eligible party to participate in defense trade. See 22 CFR 120.16(c). This certification is required only when an exemption is claimed.

* * * * *

(ix) *DDTC Category XXI Determination Number.* The unique number issued by DDTC to a member of the regulated community (usually the original equipment manufacturer) in conjunction with a notification that a specific commodity is described in USML Category XXI. This number is required only when citing USML Category XXI as an export classification and is used to confirm that an authoritative USML Category XXI determination is being referenced to do so.

* * * * *

§ 30.37 [Amended]

■ 5. Amend § 30.37 by removing and reserving paragraph (u).

■ 6. Amend § 30.55 by revising the introductory text to read as follows:

§ 30.55 Confidential information, import entries, and withdrawals.

The contents of the statistical copies of import entries and withdrawals on file with the Census Bureau are treated as confidential and will not be released without authorization by CBP, in accordance with 19 CFR part 103 relating to the copies on file in CBP offices. The importer or import broker must provide the Census Bureau with

information or documentation necessary to verify the accuracy or resolve problems regarding the reported import transaction.

* * * * *

■ 7. Amend § 30.71 by revising the note to paragraph (b) to read as follows:

§ 30.71 False or fraudulent reporting on or misuse of the Automated Export System.

* * * * *

Note 1 to paragraph (b): The civil monetary penalties are adjusted for inflation annually based on The Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101–410; 28 U.S.C. 2461), as amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104–134) and the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Section 701 of Pub. L. 114–74). In accordance with this Act, as amended, the penalties in title 13, chapter 9, sections 304 and 305(b), United States Code are adjusted and published each year in the **Federal Register** no later than January 15th.

■ 8. Amend § 30.74 by revising paragraph (c)(5) to read as follows:

§ 30.74 Voluntary self-disclosure.

* * * * *

(c) * * *

(5) *Where to make voluntary self-disclosures.* The information constituting a Voluntary Self-Disclosure or any other correspondence pertaining to a Voluntary Self-Disclosure may be submitted to the U.S. Census Bureau, Branch Chief, Trade Regulations Branch by methods permitted by the Census Bureau. See *www.census.gov/trade* for more details.

* * * * *

■ 9. Amend appendix B by revising the entries for ''II. Postdeparture Citation—USPPI'' and ''III. Postdeparture Citation–Agent'' to read as follows

Appendix B to Part 30—AES Filing Citation, Exemption and Exclusion Legend

* * * * *

II. Postdeparture Citation—USPPI, USPPI is filing the EEI	AESPOST USPPI Identification Number Date of Export (mm/dd/yyyy). Example: AESPOST 12345678912 01/01/2017.
III. Postdeparture Citation—Agent, Agent is filing the EEI	AESPOST USPPI Identification Number—Filer ID Date of Export (mm/dd/yyyy). Example: AESPOST 12345678912—987654321 01/01/2017.

* * * * *

Dated: August 3, 2023.

Shannon Wink,

Program Analyst, Policy Coordination Office, U.S. Census Bureau.

BILLING CODE 3510–07–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG–2023–0634]

Safety Zones; Annual Events in the Captain of the Port Buffalo Zone

AGENCY: Coast Guard, DHS.

ACTION: Notification of enforcement of regulations.

SUMMARY: The Coast Guard will enforce a safety zone that encompasses certain navigable waters on Lake Erie, for D-Day Conneaut, in Conneaut, OH. This action is necessary and intended for the safety of life and property on navigable waters during this event. During the enforcement period, no person or vessel may enter the respective safety zone without the permission of the Captain of the Port Buffalo or a designated representative.

DATES: The regulations in 33 CFR 165.939, entry (c)(2) of Table to § 165.939, will be enforced from 1:45 p.m. through 5:45 p.m. each day from August 17, 2023, through August 19, 2023.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notice of enforcement, call or email Lieutenant Jared Stevens, Waterways Management Division, U.S. Coast Guard Marine Safety Unit Cleveland; telephone 216–937–0124, email *D09-SMB-MSUCLEVELAND-WWM@uscg.mil.*

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce Safety Zones; Annual Events in the Captain of the Port Buffalo Zone, as listed in 33 CFR 165.939, Table 165.939(c)(2) in Conneaut, OH on all U.S. waters of Conneaut Township Park, Lake Erie, within an area starting at 41°57.71′ N, 080°34.18′ W, to 41°58.36′ N, 080°34.17′ W, to 41°58.53′ N, 080°33.55′ W, to 41°58.03′ N, 080°33.72′ W (NAD 83), and returning to the point of origin.

Pursuant to 33 CFR 165.23, entry into, transiting, or anchoring within the safety zone during an enforcement period is prohibited unless authorized by the Captain of the Port Buffalo or a designated representative. Those seeking permission to enter the safety zone may request permission from the Captain of Port Buffalo via channel 16, VHF–FM. Vessels and persons granted permission to enter the safety zone shall obey the directions of the Captain of the Port Buffalo or his designated representative. While within a safety zone, all vessels shall operate at the minimum speed necessary to maintain a safe course.

This notice of enforcement is issued under authority of 33 CFR 165.939 and 5 U.S.C. 552(a). In addition to this notice of enforcement in the **Federal Register**, the Coast Guard will provide the maritime community with advance notification of this enforcement period via Broadcast Notice to Mariners or Local Notice to Mariners. If the Captain of the Port Buffalo determines that the safety zone need not be enforced for the full duration stated in this notice, they may use a Broadcast Notice to Mariners to grant general permission to enter the respective safety zone. This notification is being issued by the Coast Guard Sector Buffalo Prevention Department Head at the direction of the Captain of the Port.

Dated: August 2, 2023.

Jeff B. Bybee,

Commander, U.S. Coast Guard, Sector Buffalo Prevention Department Head.

RIN 1625–AA87

Safety Zone; HBPW James DeYoung Powerplant Explosive Demolition; Macatawa

AGENCY: Coast Guard, Department of Homeland Security (DHS).

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone for the James DeYoung Powerplant Explosive Demolition on August 10, 2023. This safety zone is located on all waters of

the Macatawa River within a circle with a 1000-foot radius from the demolition site located at the James DeYoung Powerplant in position 42°47.726′ N 086°6.81′ W. During the enforcement period, the operator of any vessel in the regulated area must comply with directions from the Patrol Commander or any Official Patrol displaying a Coast Guard ensign.

DATES: This rule is effective from 8:30 a.m. through 9:45 a.m. August 10, 2023.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to *https://www.regulations.gov,* type USCG–2023–0607 in the search box and click ''Search.'' Next, in the Document Type column, select ''Supporting & Related Material.''

FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Petty Officer Brianna Southard, USCG SECTOR Lake Michigan—Waterways Management Division, U. S. Coast Guard; telephone 414–747–7188, email *D09-SMB-SECLakeMichigan-WWM@uscg.mil.*

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the event sponsor changed the date of the demolition and did not provide the Captain of the Port enough notice to accommodate the comment period. It is impracticable to conduct a notice-and-comment rulemaking and have this temporary rule in place by August 10, 2023.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable because immediate action is needed to ensure the safety vessels during the James DeYoung Powerplant Explosive Demolition on August 10, 2023.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The Captain of the Port Sector Lake Michigan (COTP) has determined that potential hazards associated with the explosive demolition, will be a safety concern for anyone within a 1000-foot radius of the demolition site. This rule is needed to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone during the demolition.

IV. Discussion of the Rule

This rule establishes a safety zone from 8:30 a.m. until 9:45 a.m. on August 10, 2023. The safety zone will cover all navigable waters within a 1000-foot radius of position 42°47.726′ N 086°6.81′ W in the vicinity of the James DeYoung Powerplant on the Macatawa River, Holland, MI. The duration of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters during the demolition. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a ''significant regulatory action,'' under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location and duration of the safety zone. The safety zone will impact a small part of the waterway and is designed to minimize impact on navigable waters. This rule will prohibit entry into certain navigable waters of Macatawa River in Holland, MI, and is not anticipated to exceed 1 hour in duration. Moreover, under certain conditions vessels may still transit through the safety zone when permitted by the COTP Lake Michigan.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves safety zone with a 1000-foot radius on the Macatawa River around position 42°47.726′ N 086°6.81′ W on August 10, 2023, from 8:30 a.m. until 9:45 a.m. It is categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051, 70124; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3.

■ 2. Add § 165.T09–0607 to read as follows:

§ 165.T09–0607 Safety Zone; Macatawa River, Holland, MI.

(a) *Location.* Holland, MI. In the vicinity of the James DeYoung Power Plant near the Macatawa River within 1000-feet of the demolition site in position 42°47.726′ N 086°6.8′ W.

(b) *Regulations.* The following regulations apply to this safety zone.

(1) The general regulations in § 165.23.

(2) All vessels must obtain permission from the Captain of the Port (COTP) Lake Michigan or his or her designated representative to enter, move within, or exit a safety zone established in this section when the safety zone is enforced. Vessels and persons granted permission to enter one of the safety zones listed in this section must obey all lawful orders or directions of the COTP Lake Michigan or his or her designated representative. Upon being hailed by the U.S. Coast Guard by siren, radio, flashing light or other means, the operator of a vessel must proceed as directed.

(c) *Enforcement period.* The regulation in this section will be enforced from 8:30 a.m. through 9:45 a.m. on August 10, 2023. The Captain of the Port Sector Lake Michigan, or a designated representative may suspend enforcement of the safety zone at any time.

Dated: August 4, 2023.

Joseph B. Parker,

Captain, U.S. Coast Guard, Captain of the Port Sector Lake Michigan.

BILLING CODE 9110–04–P

POSTAL SERVICE

39 CFR Part 111

Intelligent Mail Package Barcode Compliance Quality

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is amending *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) to add an additional Intelligent Mail® package barcode (IMpb®) validation under the ''Barcode Quality'' compliance category.

DATES: *Effective* October 1, 2023.

FOR FURTHER INFORMATION CONTACT: Steven Jarboe at (202) 268–7690, Devin Qualls at (202) 268–3287, or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: On June 28, 2023, the Postal Service published a notice of proposed rulemaking (88 FR 41871–41872) to add an additional IMpb validation. In response to the proposed rule, the Postal Service did not receive any formal comments.

The Postal Service is adding a third validation under the ''Barcode Quality'' compliance category that will require that an IMpb must include a valid, unique 3-digit STC that accurately represents the mail class, product, and service combination on the physical label affixed to the package. Additionally, the IMpb on the package must also correspond with electronic package level details and Extra Services Code(s) contained within the Shipping Services File (SSF). Any variance in the data presented in the electronic submission of a parcel or a variance with the physical aspect of the label affixed to a parcel presented for mailing will be subject to the IMpb noncompliance fee if a mailer falls below the 98 percent threshold.

We believe this revision will ensure IMpb quality enabling the Postal Service to provide customers with a more efficient mailing experience.

The Postal Service adopts the described changes to *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM), incorporated by reference in the *Code of Federal Regulations.*

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.

List of Subjects in 39 CFR Part 111

Administrative practice and procedure, Postal Service.

Accordingly, 39 CFR part 111 is amended as follows:

PART 111—[AMENDED]

■ 1. The authority citation for 39 CFR part 111 continues to read as follows:

Authority: 5 U.S.C. 552(a); 13 U.S.C. 301–307; 18 U.S.C. 1692–1737; 39 U.S.C. 101, 401–404, 414, 416, 3001–3018, 3201–3220, 3401–3406, 3621, 3622, 3626, 3629, 3631–3633, 3641, 3681–3685, and 5001.

■ 2. Revise the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM) as follows:

Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)

* * * * *

200 Commercial Letters, Flats, and Parcels

* * * * *

204 Barcode Standards

* * * * *

2.0 Standards for Package and Extra Service Barcodes

2.1 Intelligent Mail Package Barcode

* * * * *

2.1.8 Compliance Quality Thresholds

* * * * *

EXHIBIT 2.1.8—IMpb COMPLIANCE QUALITY THRESHOLDS

Compliance categories	Compliance codes	Validations				Compliance thresholds
*	*	*	*	*	*	*
Barcode Quality * * *.						
*	*	*	*	*	*	*

[Revise the text in the ''Barcode Quality'' compliance category under the ''Validation'' column by adding a third validation to read as follows:]

• The IMpb must include a valid, unique 3-digit Service Type Code that accurately represents the mail class, product, and service combination on the physical label affixed to the package and the electronic package level details and Extra Services Code(s) in the Shipping Services File.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R10–OAR–2022–0731, FRL–10545–02–R10]

Air Plan Approval; WA; Smoke Management Plan Update

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving Washington State Implementation Plan (SIP) revisions submitted on August 10, 2022. The submitted revisions incorporate the most recent updates to Washington's Smoke Management Plan and reflect state legislative and regulatory changes. The EPA is approving the revisions based on our determination that the revisions are consistent with Clean Air Act requirements.

DATES: This final rule is effective September 11, 2023.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R10–OAR–2022–0731. All documents in the docket are listed on the *https://www.regulations.gov* website. Although listed in the index, some information is not publicly available, *e.g.,* Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available at *https://www.regulations.gov,* or please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Randall Ruddick, EPA Region 10, 1200 Sixth Avenue (Suite 155), Seattle, WA 98101, (206) 553–1999, *ruddick.randall@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this document wherever ''we'' or ''our'' is used, it means the EPA.

Table of Contents

I. Background

On March 23, 2023, the EPA proposed to approve Washington's August 10, 2022, SIP submission revising the Washington Smoke Management Plan (88 FR 17481). The reasons for our proposed approval are included in the proposal and will not be restated here. The public comment period closed on April 24, 2023. We received one anonymous comment in support of our proposed action; therefore, we are finalizing our action as proposed.

II. Final Action

The EPA is approving and incorporating by reference, where appropriate, Washington's 2022 submitted revisions into the Washington SIP 40 CFR part 52, subpart WW as discussed in our March 23, 2023, proposed approval (88 FR 17481). Once this approval becomes effective, the Washington SIP will include the following statutes and regulations:

• RCW 52.12.103, Burning Permits—Issuance—Contents (state effective March 27, 1984);

• RCW 52.12.104, Burning Permits—Duties of permittee (state effective March 27, 1984);

• RCW 76.04.005, Definitions. (1) ''Additional fire hazard'' (5) ''Department protected lands'' (9) ''Forest debris'' (11) ''Forestland'' (12) ''Forestland owner,'' ''owner of forestland,'' ''landowner,'' or ''owner'' (13) ''Forest material'' (15) ''Landowner operation'' (18) ''Participating landowner'' (20) ''Slash'' (21) ''Slash burning'' (23) ''Unimproved lands'' (state effective July 24, 2015);

• RCW 76.04.205, Burning Permits—Civil Penalty (state effective July 25, 2021);
• RCW 70A.15.1030, Definitions. (21) ''Silvicultural burning'' (state effective June 11, 2020);
• RCW 70A.15.5000, Definition of ''outdoor burning'' (state effective July 26, 2020);
• RCW 70A.15.5010, (2) Outdoor burning—Fires prohibited—Exceptions (state effective June 11, 2020);
• RCW 70A.15.5020, Outdoor burning—Areas where prohibited—Exceptions—Use for management of storm or flood-related debris—Silvicultural burning, except (3) (state effective June 11, 2020);
• RCW 70A.15.5120, Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction on silvicultural operations—Issuance—Fees (state effective June 11, 2020);
• RCW 70A.15.5130, Silvicultural forest burning—Reduce statewide emissions—Exemption—Monitoring program (state effective July 28, 2019);
• RCW 70A.15.5140, Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction on silvicultural operations—Conditions for issuance and use of permits—Air quality standards to be met—Alternate methods to lessen forest debris (state effective June 11, 2020);
• RCW 70A.15.5150, Cooperation between department of natural resources and state, local, or regional air pollution authorities—Withholding of permits (state effective June 11, 2020);
• RCW 70A.15.5190, Outdoor burning allowed for managing storm or flood related debris (state effective June 11, 2020);
• WAC 332–24–201, Burning Permit Program—Requirements and Exceptions (state effective June 30, 1992);
• WAC 332–24–205, General rules—minimum requirements for all burning, except (13) (state effective November 22, 2019);
• WAC 332–24–211, Specific rules for small fires not requiring a written burning permit (solely for the purpose of establishing the size threshold for burns covered by the Smoke Management Plan) (state effective June 30, 1992);
• WAC 332–24–217, Burning permit—penalty (state effective June 30, 1992);
• WAC 332–24–221, Specific rules for burning that requires a written burning permit (state effective February 1, 2012).

In addition, the EPA is proposing to approve, but not incorporate by reference, into the Washington SIP at 40 CFR part 52, subpart WW the Department of Natural Resources Smoke Management Plan, state effective May 10, 2022 (including all Appendices to such plan), as such plan applies to silvicultural burning regulated by DNR.

We note that, as provided in 40 CFR 52.2476 of the Washington SIP, any variance or exception to the 2022 SMP granted by DNR or Ecology must be submitted by Washington for approval to EPA in accordance with the requirements for revising SIPs in 40 CFR 51.104 and any such variance or exception does not modify the requirements of the federally approved Washington SIP until approved by EPA as a SIP revision.

III. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of regulatory provisions described in section II of this preamble and set forth in the amendments to 40 CFR part 52 in this document. The EPA has made, and will continue to make, these materials reasonably available through *https://www.regulations.gov* and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the Clean Air Act as of the effective date of the final rule of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.[1]

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a ''significant regulatory action'' subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
• Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
• Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
• Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
• Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

Executive Order 12898 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address ''disproportionately high and adverse human health or environmental effects'' of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as ''the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.'' The EPA further defines the term fair treatment to mean that ''no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.''

The air agency did not evaluate environmental justice considerations as part of its SIP submittal; the Clean Air Act and applicable implementing regulations neither prohibit nor require such an evaluation. The EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the

[1] 62 FR 27968 (May 22, 1997).

nature of this action, it is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of Executive Order 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

In addition, the SIP is not approved to apply on any Indian reservation land in Washington except as specifically noted below and is also not approved to apply in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law. Washington's SIP is approved to apply on non-trust land within the exterior boundaries of the Puyallup Indian Reservation, also known as the 1873 Survey Area. Under the Puyallup Tribe of Indians Settlement Act of 1989, 25 U.S.C. 1773, Congress explicitly provided state and local agencies in Washington authority over activities on non-trust lands within the 1873 Survey Area. Consistent with EPA policy, the EPA provided a consultation opportunity to potentially affected tribes in a letter dated May 24, 2022.

This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 10, 2023. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: July 12, 2023.

Casey Sixkiller,

Regional Administrator, Region 10.

For the reasons set forth in the preamble, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart WW—Washington

■ 2. Amend § 52.2470 as follows:

■ a. In paragraph (c), table 1, by adding:

■ i. The heading ''Washington Administrative Code, Chapter 332–24—Forest Protection'' and the entries ''332–24–201'', ''332–24–205'', ''332–24–211'', ''332–24–217'', and ''332–24–221'' immediately after the entry ''173–492–100'';

■ ii. The heading ''Revised Code of Washington, Chapter 52.12—Fire Protection Districts, Powers—Burning Permits'' and the entries ''52.12.103'' and ''52.12.104'' immediately after newly added entry ''332–24–221'';

■ iii. The heading ''Revised Code of Washington, Chapter 70A.15—Washington Clean Air Act'' and the entries ''70A.15.1030(21)'', ''70A.15.5000'', ''70A.15.5010(2)'', ''70A.15.5020'', ''70A.15.5120'', ''70A.15.5130'', ''70A.15.5140'', ''70A.15.5150'', ''70A.15.5190'' immediately after newly added entry ''52.12.104''; and

■ iv. The heading ''Revised Code of Washington, Chapter 76.04—Washington Clean Air Act'' and the entries ''76.04.005'' and ''76.04.205'' immediately after newly added entry ''70A.15.5190''; and

■ b. In paragraph (e), table 2, by adding the heading ''Smoke Management Planning'' and the entry ''Department of Natural Resources 2022 Smoke Management Plan'' immediately after the entry for ''Regional Haze Progress Report''.

The additions read as follows:

§ 52.2470 Identification of plan.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA–HQ–OPP–2018–0158; FRL–11022–01–OCSPP]

(2S)-5-Oxopyrrolidine-2-carboxylic Acid (L–PCA); Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for residues of (2S)-5-Oxopyrrolidine-2-carboxylic Acid (L–PCA) in or on all food commodities when used as a plant growth regulator in accordance with label directions and good agricultural practices. Exponent, on behalf of Verdesian Life Sciences U.S., LLC, submitted a petition, pursuant to the Federal Food, Drug, and Cosmetic Act (FFDCA), asking the EPA to amend its regulations to establish an exemption from the requirement of a tolerance for residues of the pesticide, when used as a plant growth regulator on agricultural crops, turf and ornamental plants. Instead, EPA is establishing an exemption from the requirement of a tolerance for residues L–PCA in or on all food commodities when applied in buffered end-use products and used in accordance with label directions and good agricultural practices. This regulation eliminates the need to establish a maximum permissible level for residues of L–PCA when used in accordance with this exemption.

DATES: This regulation is effective August 10, 2023. Objections and requests for hearings must be received on or before October 10, 2023 and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2018–0158, is available at *https://www.regulations.gov* or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room, and the OPP Docket is (202) 566–1744. For the latest status information on EPA/DC services and docket access, visit *https://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: Madison Le, Biopesticides and Pollution Prevention Division (7511P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; main telephone number: (202) 566–1400; email address: *BPPDFRNotices@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, greenhouse owner, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of 40 CFR part 180 through the Office of the Federal Register's e-CFR site at *https://www.ecfr.gov/current/title-40.*

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a(g), any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA–HQ–OPP–2018–0158 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing and must be received by the Hearing Clerk on or before October 10, 2023. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA–HQ–OPP–2018–0158, by one of the following methods:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically

any information you consider to be CBI or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001.
- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at *https://www.epa.gov/dockets/where-send-comments-epa-dockets.*

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at *https://www.epa.gov/dockets.*

II. Background and Statutory Findings

In the **Federal Register** of May 18, 2018 (83 FR 23247) (FRL–9976–87), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide tolerance petition (PP 8F8663) by Exponent, on behalf of Verdesian Life Sciences U.S., LLC, 1001 Winstead Dr., Suite 480, Cary, NC 27513. The petition requested that 40 CFR part 180 be amended to establish an exemption from the requirement of a tolerance for residues of L–PCA, when used as a plant growth regulator on agricultural crops, turf, and ornamental plants, in accordance with label directions and good agricultural practices. That document referenced a summary of the petition prepared by the petitioner, Verdesian Life Sciences U.S., LLC, which is available in docket EPA–HQ–OPP–2018–0158 at *https://www.regulations.gov.* No substantive comments were received in response to this Notice of Filing.

III. Aggregate Risk Assessment and Determination of Safety

Section 408(c)(2)(A)(i) of FFDCA allows EPA to establish an exemption from the requirement for a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the exemption is ''safe.'' Section 408(c)(2)(A)(ii) of FFDCA defines ''safe'' to mean that ''there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information.'' This includes exposure through drinking water and in residential settings but does not include occupational exposure. Pursuant to FFDCA section 408(c)(2)(B), in establishing or maintaining in effect an exemption from the requirement of a tolerance, EPA must take into account the factors set forth in FFDCA section 408(b)(2)(C), which require EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and to ''ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue. . . .'' Additionally, FFDCA section 408(b)(2)(D) requires that the Agency consider ''available information concerning the cumulative effects of a particular pesticide's residues'' and ''other substances that have a common mechanism of toxicity.''

EPA establishes exemptions from the requirement of a tolerance only in those cases where it can be clearly demonstrated that the risks from aggregate exposure to pesticide chemical residues under reasonably foreseeable circumstances will pose no harm to human health. If EPA is able to determine that a tolerance is not necessary to ensure that there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, an exemption from the requirement of a tolerance may be established.

Consistent with FFDCA section 408(c)(2)(A), and the factors specified in FFDCA section 408(c)(2)(B), EPA has reviewed the available scientific data and other relevant information in support of this action. EPA has sufficient data to assess the hazards of and to make a determination on aggregate exposure for L–PCA including exposure resulting from the exemption established by this action. EPA's assessment of exposures and risks associated with L–PCA follows.

A. Toxicological Profile

L–PCA is derived from L-glutamic acid via an intramolecular condensation reaction. L–PCA is naturally found in mammalian tissues. L–PCA has a non-toxic mode of action and can effectively enhance upregulation of the glutamine synthesis pathway. When applied to plants, it has demonstrated effects, such as increased growth, increased nodulation, and greater fresh weight. It also has seed priming properties. L–PCA has a long history of use in consumer products, including dietary supplements and cosmetic products.

L–PCA can be applied in various forms (free acids or salts), but it releases a common moiety that is the pesticidally-active component and serves as the basis for risk assessment and tolerance regulation. Since L–PCA is a strong acid, buffered solutions will contain some salt form, but not enough at any moment in time to be toxicologically relevant.

In the field, the above rationale continues to apply when active ingredient is in solution. If the products dry out on plants and then someone touches them, there would likely be some exposure from the salt form, however, it will not change the toxicology since it would not stay in the salt form once it was solubilized upon ingestion/contact with water.

With regard to the overall toxicological profile, L–PCA is of low toxicity. Acute toxicity data indicate that L–PCA is of low acute oral, dermal, and inhalation toxicity. However, with its low pH (2), it is likely corrosive. The available data suggest it is not a skin sensitizer.

Studies from the open scientific literature on the sodium salt analog, Na–PCA, were submitted to satisfy the 90-day oral for L–PCA. The Na–PCA toxicity database is considered appropriate for use in L–PCA risk assessment when EP formulations are buffered. There is an expectation that EP formulations for use as plant growth regulators will be buffered because unbuffered solutions will not be effective as a plant growth regulator, *i.e.,* unbuffered solutions would likely destroy the plant due to the acidity of L–PCA. This is because buffered L–PCA behaves similarly to Na–PCA. There is comparable acute toxicity between the proposed EP formulations and Na–PCA. Further, both L–PCA and Na–PCA are naturally occurring and are products of human metabolism. Using a weight of the evidence (WOE) approach, these studies allowed EPA to establish a no-observed-adverse-effect-level (NOAEL) of 849 mg/kg/day for subchronic oral toxicity for L–PCA in buffered end-use products.

For developmental toxicity, a non-guideline 1-generation reproduction toxicity screening study was submitted on Na–PCA in lieu of a developmental toxicity study. The study showed no treatment-related effects on offspring body weights, body weight gains or on post-implantation losses, mean litter size, numbers of live and dead pups born, sex ratio, or the birth or survival indices. No gross or microscopic pathology of the reproductive tract was seen, and reproductive performance was not affected by treatment. While this study is not a guideline developmental toxicity study, EPA has determined that the screening study is acceptable to satisfy the prenatal developmental toxicity data at this time for the specified products. This decision is based on the fact that no observable toxicity was produced at the limit dose

level in this study and an effect would not be expected from structurally related compounds.

EPA determined that 90-day inhalation toxicity and 90-day dermal studies were not required to assess the risks from L–PCA for the following reasons: (1) physical and chemical properties of the buffered formulations of L–PCA are similar to those of Na–PCA; (2) estimated margins of error (MOEs) are more than 10X the level of concern (LOC); and (3) no irritation was observed in studies conducted using the buffered end-use products.

The available data indicates that the active ingredient is non-mutagenic.

B. Toxicological Points of Departure/ Levels of Concern

Based on the toxicological profile, EPA did not identify any toxicological endpoints of concern for *L–PCA.*

C. Exposure Assessment

1. *Dietary exposure from food, feed uses, and drinking water.* No toxicological endpoint of concern was identified for L–PCA, and therefore, a quantitative assessment of dietary exposure is not necessary. As part of its qualitative risk assessment for L–PCA, the Agency considered the potential for dietary exposure to residues of the chemical. EPA concludes that dietary (food and drinking water) exposures are possible. However, due to the lack of a toxicological endpoint, dietary risk is not of concern.

2. *Non-dietary exposure.* The term ''residential exposure'' is used in this document to refer to non-occupational, non-dietary exposure (*e.g.,* textiles (clothing and diapers), carpets, swimming pools, and hard surface disinfection on walls, floors, tables). There are currently no proposed residential uses for this active ingredient, therefore a residential exposure assessment is not necessary.

3. *Cumulative effects from substances with a common mechanism of toxicity.* Section 408(b)(2)(D)(v) of FFDCA requires that, when considering whether to establish, modify, or revoke a tolerance, the Agency consider ''available information'' concerning the cumulative effects of a particular pesticide's residues and ''other substances that have a common mechanism of toxicity.'' EPA has not found that L–PCA shares a common mechanism of toxicity with any other substances, and it does not appear to produce a toxic metabolite produced by other substances. For the purposes of this tolerance action, therefore, EPA has assumed L–PCA does not have a common mechanism of toxicity with other substances. For information regarding EPA's efforts to determine which chemicals have a common mechanism of toxicity and to evaluate the cumulative effects of such chemicals, see EPA's website at *https://www.epa.gov/pesticide-science-and-assessing-pesticide-risks/cumulative-assessment-risk-pesticides.*

D. Safety Factor for Infants and Children

FFDCA Section 408(b)(2)(C) provides that EPA shall retain an additional tenfold (10X) margin of safety for infants and children in the case of threshold effects to account for prenatal and postnatal toxicity and the completeness of the database on toxicity and exposure unless EPA determines based on reliable data that a different margin of safety will be safe for infants and children. This additional margin of safety is commonly referred to as the Food Quality Protection Act (FQPA) Safety Factor (SF). In applying this provision, EPA either retains the default value of 10X, or uses a different additional safety factor when reliable data available to EPA support the choice of a different factor. An FQPA safety factor is not required at this time for L–PCA because there are no threshold effects; no dietary endpoints have been selected based on the lack of human-relevant adverse effects at limit doses in the 90-day oral toxicity study and prenatal developmental toxicity study.

E. Aggregate Risk

Based on the available data and information, EPA has concluded that a qualitative aggregate risk assessment is appropriate to support the pesticidal use of L–PCA in buffered end-use products, and that risks of concern are not anticipated from aggregate exposure to the substance in this manner. This conclusion is based on the low toxicity of the active ingredient and its salts, which release a common moiety that is the basis for the risk assessment. Due to the lack of toxicity, EPA concludes that there is no aggregate risk from exposure to L–PCA.

A full explanation of the data upon which EPA relied and its risk assessment based on those data can be found within the September 20, 2022, document entitled ''Product Chemistry Review and Human Health Risk Assessment for FIFRA Section 3 Registrations of (2S)-5-Oxopyrrolidine-2-carboxylic Acid (L–PCA) Technical, containing 99.1% L–PCA, VLS 2002–03, Containing 25.0% L–PCA and VLS 2002–03–0.10, Containing 10.0% L–PCA.'' This document, as well as other relevant information, is available in the docket for this action as described under **ADDRESSES**.

IV. Determination of Safety for U.S. Population, Infants and Children

Based on the Agency's assessment, EPA concludes that there is reasonable certainty that no harm will result to the U.S. population, including infants and children, from aggregate exposure to residues of L–PCA.

V. Other Considerations

Analytical Enforcement Methodology

An analytical method is not required for enforcement purposes since the Agency is establishing an exemption from the requirement of a tolerance without any numerical limitation.

VI. Conclusions

Therefore, EPA is establishing an exemption for residues of L–PCA in or on all food commodities when used as a plant growth regulator in accordance with label directions and good agricultural practices.

VII. Statutory and Executive Order Reviews

This action establishes an exemption from the requirement of a tolerance under FFDCA section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled ''Regulatory Planning and Review'' (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled ''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use'' (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled ''Protection of Children from Environmental Health Risks and Safety Risks'' (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.,* nor does it require any special considerations under Executive Order 12898, entitled ''Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations'' (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the

Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, the Agency has determined that this action will not have a substantial direct effect on States or Tribal Governments, on the relationship between the National Government and the States or Tribal Governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled ''Federalism'' (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled ''Consultation and Coordination with Indian Tribal Governments'' (65 FR 67249, November 9, 2000) do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

VIII. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: August 4, 2023.

Edward Messina,

Director, Office of Pesticide Programs.

Therefore, for the reasons stated in the preamble, EPA is amending 40 CFR part 180 as follows:

PART 180—TOLERANCES AND EXEMPTIONS FOR PESTICIDE CHEMICAL RESIDUES IN FOOD

■ 1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), 346a and 371.

■ 2. Add § 180.1404 to subpart D to read as follows:

§ 180.1404 (2S)-5-Oxopyrrolidine-2-carboxylic Acid (L–PCA); exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for residues of the pesticide, (2S)-5-Oxopyrrolidine-2-carboxylic Acid (L–PCA) in or on all food commodities when used as a plant growth regulator in accordance with label directions and good agricultural practices.

[FR Doc. 2023–17135 Filed 8–9–23; 8:45 am]

BILLING CODE 6560–50–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

42 CFR Part 73

Select Agent Determination Concerning Coxiella burnetii Phase II, Nine Mile Strain, Plaque Purified Clone 4 With Reversion to Wildtype cbu0533

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Determination.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS), has determined that an excluded attenuated strain, *Coxiella burnetii* Phase II, Nine Mile Strain, plaque purified clone 4, has, in one instance, been shown to spontaneously mutate when passaged *in vivo.* The resulting mutant, *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 with reversion to wildtype *cbu0533,* has enhanced pathogenicity and virulence. Therefore, *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 with reversion to wildtype *cbu0533* is not an excluded strain but is a select agent and subject to the HHS select agent and toxin regulations.

DATES: This determination is effective August 10, 2023.

FOR FURTHER INFORMATION CONTACT: Samuel S. Edwin Ph.D., Director, Division of Select Agents and Toxins, Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H21–4, Atlanta, Georgia 30329, Telephone: (404) 718–2000.

SUPPLEMENTARY INFORMATION: *Coxiella burnetti* is a select agent that is regulated pursuant to the HHS select agent and toxin regulations (42 CFR part 73). *C. burnetii* is a gram-negative intracellular bacterium that causes Q Fever. Q Fever is a zoonotic disease that causes flu-like symptoms in humans, including fever, chills, fatigue, and muscle pain. Humans become infected when they are in close contact with infected animal fluids and products.

The HHS select agent regulations (42 CFR part 73) established a process by which an attenuated strain of a select biological agent that does not have the potential to pose a severe threat to public health and safety may be excluded from the requirements of the regulations. On October 15, 2003, *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 was excluded from HHS select agent regulations as it does not pose a significant threat to public health and safety (*https://selectagents.gov/sat/exclusions/hhs.htm*).

As set forth under 42 CFR 73.4(e)(2), if an excluded attenuated strain is subjected to any manipulation that restores or enhances its virulence, the resulting select agent will be subject to the requirements of the regulations. On March 20, 2023, an entity informed CDC of a reversion whereby *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 spontaneously mutated. The *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 with reversion to wildtype *cbu0533* displayed increased pathogenicity and virulence. The entity stated that after the excluded strain was injected into guinea pigs, a spontaneous reversion occurred that resulted in a mutant strain of the agent and the guinea pigs subsequently exhibited elevated fever and weight loss. The genetic mutation that led to the mutant strain was the reversion and restoration of a deletion in the *cbu0533 gene.* CDC subject matter experts have determined that this reversion in *cbu0533* restored virulence and pathogenicity. Therefore, *C. burnetii* Phase II, Nine Mile Strain, plaque purified clone 4 with reversion to wildtype *cbu0533* is determined to be a select agent and subject to 42 CFR part 73.

Xavier Becerra,

Secretary, Department of Health and Human Services.

Proposed Rules

Federal Register
Vol. 88, No. 153
Thursday, August 10, 2023

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2023–1692; Airspace Docket No. 23–AEA–13]

RIN 2120–AA66

Establishment of Class E Airspace; Warrenton, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes establishing Class E airspace extending upward from 700 feet above the surface in Warrenton, VA, as new instrument approach procedures have been designed for Fauquier Hospital Emergency Transport Heliport, Warrenton, VA.

DATES: Comments must be received on or before September 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–1692 and Airspace Docket No. 23–AEA–13 using any of the following methods:

* *Federal eRulemaking Portal:* Go to *www.regulations.gov* and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at *www.regulations.gov* anytime. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

FAA Order JO 7400.11G Airspace Designations and Reporting Points and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: John Goodson, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Avenue, College Park, GA 30337; Telephone: (404) 305–5966.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would establish Class E airspace in Warrenton, VA.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the proposal's overall regulatory, aeronautical, economic, environmental, and energy-related aspects. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only once if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives and a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without editing, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded online at *www.regulations.gov.* Recently published rulemaking documents can be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except for Federal holidays. An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except on federal holidays at the office of the Eastern Service Center, Federal Aviation Administration, Room 350, 1701 Columbia Avenue, College Park, GA 30337.

Incorporation by Reference

Class E airspace designations are published in Paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, incorporated by reference in 14 CFR 71.1 annually. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and

effective September 15, 2022. These updates will be published in the next FAA Order JO 7400.11 update. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6.0-mile radius of Fauquier Hospital Emergency Transport Heliport, Warrenton, VA, as new instrument approach procedures have been designed for the heliport.

Controlled airspace is necessary for the area's safety and management of instrument flight rules (IFR) operations. This action is necessary to support IFR operations in the area.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any FAA final regulatory action.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

[Docket No. FAA–2023–1674; Airspace Docket No. 23–ASO–33]

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Eastman, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace and Class E airspace extending upward from 700 feet above the surface for Heart of Georgia Regional Airport, Eastman, GA. This action would increase the radius of the Class D airspace and the Class E airspace extending upward from 700 feet above the surface, as well as amend verbiage in the Class D description. This action would also update the airport's name and geographic coordinates for the Class E airspace extending upward from 700 feet above the surface.

DATES: Comments must be received on or before September 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–1674 and Airspace Docket No. 23–ASO–33 using any of the following methods:

* *Federal eRulemaking Portal:* Go to *www.regulations.gov* and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at *www.regulations.gov* anytime. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A,

Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend Class D and Class E airspace in Eastman, GA. An airspace evaluation determined that this update is necessary to support IFR operations in the area.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the proposal's overall regulatory, aeronautical, economic, environmental, and energy-related aspects. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only once if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives and a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at *www.regulations.gov.* Recently published rulemaking documents can be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the office of the Eastern Service Center, Federal Aviation Administration, Room 210, 1701 Columbia Ave., College Park, GA 30337.

Incorporation by Reference

Class D and Class E airspace designations are published in Paragraphs 5000 and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 annually. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022. These updates will be published in the next FAA Order JO 7400.11 update. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 to amend Class D airspace and Class E airspace extending upward from 700 feet above the surface for Heart of Georgia Regional Airport, Eastman, GA, by increasing the Class D radius to 4.6-miles (previously 4.4 miles) and the Class E airspace extending upward from 700 feet above the surface to 7.1-miles (previously 7.0 miles), and update the geographic coordinates to coincide with the FAA's database. This action would also replace Notice to Airmen with Notice to Air Missions and Airport/Facility Directory with Chart Supplement in the Class D description. Finally, this action would update the airport name to Heart of Georgia Regional Airport (formerly Eastman-Dodge County Airport) in the Class E airspace extending upward from 700 feet above the surface. Controlled airspace is necessary for the area's safety and management of instrument flight rules (IFR) operations.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any FAA final regulatory action.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 5000 Class D Airspace.

* * * * *

ASO GA D Eastman, GA [Amended]

Heart of Georgia Regional Airport, GA
(Lat. 32°12′59″ N, long. 83°07′43″ W)

That airspace extends upward from the surface to and including 2,500 feet MSL within a 4.6-mile radius of the Heart of Georgia Regional Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Air Missions. The effective date and time will thereafter be continuously published in the Chart Supplement.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASO GA E5 Eastman, GA [Amended]

Heart of Georgia Regional Airport, GA
(Lat. 32°12′59″ N, long. 83°07′43″ W)

That airspace extending upward from 700 feet above the surface within a 7.1-mile radius of Heart of Georgia Regional Airport.

* * * * *

Issued in College Park, Georgia, on August 2, 2023.

Amendment of Alaskan Very High Frequency (VHF) Omnidirectional Range (VOR) Federal Airway V–333 in the Vicinity of Shishmaref, AK, and Revocation of Alaskan VOR Federal Airway V–401 in the Vicinity of Ambler, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Alaskan VOR Federal Airway V–333 and to revoke Alaskan VOR Federal Airway V–401. The FAA is taking this action due to the pending decommissioning of the Shishmaref, AK, and Ambler, AK, Nondirectional Radio Beacons (NDB). The identifier V–333 is also used as an identifier for Domestic VOR Federal Airway V–333 in the vicinity of Rome, GA. The identifier V–401 is also used as an identifier for Domestic VOR Federal Airway V–401 in the vicinity of Worland, WY. This proposed airspace action only pertains to the Alaskan V–333 and V–401. The V–333 near Rome, GA and V–401 near Worland, WY, would not be affected by this proposed airspace action.

DATES: Comments must be received on or before September 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–1147 and Airspace Docket No. 22–AAL–55 using any of the following methods:

An informal docket may also be examined during normal business hours at the office of the Western Service Center, Federal Aviation 2200 South 216th St., Des Moines, WA 98198.

Incorporation by Reference

Alaskan VOR Federal airways are published in paragraph 6010(b) of FAA Order JO 7400.11, Airspace Designations and Reporting Points,

which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

In 2003, Congress enacted the Vision 100-Century of Aviation Reauthorization Act (Pub L., 108–176), which established a joint planning and development office in the FAA to manage the work related to the Next Generation Air Transportation System (NextGen). Today, NextGen is an ongoing FAA-led modernization of the nation's air transportation system to make flying safer, more efficient, and more predictable.

In support of NextGen, this proposal is part of an ongoing, large and comprehensive T-route modernization project in the state of Alaska. The project mission statement states: ''To modernize Alaska's Air Traffic Service route structure using satellite-based navigation development of new T-routes and optimization of existing T-routes will enhance safety, increase efficiency and access, and will provide en route continuity that is not subject to the restrictions associated with ground-based airway navigation.''

As part of this initiative, the Shishmaref, AK, and Ambler, AK, NDBs are scheduled to be decommissioned. As a result, portions of Alaskan V–333 and V–401 in its entirety will become unusable. This airspace action proposes to amend the Alaskan V–333 by removing the portion of the airways that rely on the Shishmaref NDB and revoke Alaskan V–401 airway it its entirety. The mitigations to these amendments are already in place. United States Area Navigation (RNAV) route T–228 overlays Alaskan VOR Federal Airway V–333. Alaskan VOR Federal Airway V–401 extends between Ambler, AK, NDB, Kotzebue, AK, VOR distance measuring equipment (VOR/DME) and Shishmaref, AK, NDB. T–233 is near V–401 to the south between the Ambler, AK, NDB and the Kotzebue, AK, VOR/DME. RNAV route T–364 overlies the V–401 between Kotzebue, AK, VOR/DME and Shishmaref, AK, NDB.

The VOR Federal airway identifier V–333 is used in Alaska and in the Rome, GA, area. The VOR Federal airway identifier V–401 is used in Alaska and in the Worland, WY, area. This proposed airspace action only pertains to the Alaskan V–333 and V–401. It would not affect the V–333 near Rome, GA or the V–401 near Worland, WY.

The Proposal

The FAA proposes to amend 14 CFR part 71 by amending Alaskan VOR Federal airway V–333 and revoking Alaskan VOR Federal airway V–401 in its entirety. The Domestic VOR Federal airways V–333 and V–401 would remain unchanged. The proposed airspace actions are described below.

V–333: The Alaskan V–333 currently extends between the Hooper Bay, AK, VOR/DME, Nome, AK, VOR/DME, and the Shishmaref, AK, NDB. The FAA proposes to revoke the portion of the Alaskan V–333 that extends between the Nome, AK, VOR/DME and the Shishmaref, AK, NDB. As amended, Alaskan V–333 would extend between the Hooper Bay, AK, VOR/DME and the Nome, AK, VOR/DME. The Domestic route V–333 would remain unchanged.

V–401: The Alaskan V–401 extends between the Ambler, AK, NDB, Kotzebue, AK, VOR/DME, and the Shishmaref, AK, NDB. The FAA proposes to revoke the Alaskan V–401 in its entirety. The domestic V–401 would remain unchanged.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures'' prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6010(b) Alaskan VOR Federal Airways.

* * * * *

V–333 [Amended]

From Hooper Bay, AK; to Nome, AK.

* * * * *

The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at *www.regulations.gov.* Recently published rulemaking documents can also be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198.

Incorporation by Reference

Class E5 airspace designations are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to modify the Class E airspace extending upward from 700 feet above the surface at Minden-Tahoe Airport, Minden, NV.

The southern portion should have an extension .5 miles past the radius on a 180 bearing with a width of 1.2 miles on each side to better contain arriving IFR operations below 1,500 feet above the surface. Additionally, the northern portion of the existing Class E airspace should have an extension .2 miles past the 6.5-mile radius on a 359 bearing with a width of 1.8 nautical miles on each side to better contain departing IFR operations until they reach 1,200 feet above the surface.

Finally, the FAA proposes administrative modifications to the airport's associated legal descriptions. The geographic coordinates located on line three of the text header should be updated to match the FAA's database.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive

Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AWP NV E5 Minden, NV [Amended]

Minden-Tahoe Airport, NV
(Lat. 39°00′02″ N, long. 119°45′04″ W)

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Minden-Tahoe Airport and 1.8 miles on each side of a 359° bearing from the airport extending from the 6.5-mile radius to 6.57 miles north of the airport and 1.2 miles on each side of a 180 bearing from the airport extending from the 6.5-mile radius to 7 miles south of the airport.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2023–1736; Airspace Docket No. 23–AEA–14]

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Lynchburg, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace, Class E surface airspace, and Class E airspace designated as an extension to a Class D surface area for Lynchburg Regional Airport/Preston Glenn Field, Lynchburg, VA. This action would increase the radius for this airport, as well as amending verbiage in the descriptions.

DATES: Comments must be received on or before September 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–1736 and Airspace Docket No. [23–AEA–14) using any of the following methods:

* *Federal eRulemaking Portal:* Go to *www.regulations.gov* and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at *www.regulations.gov* anytime. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

FAA Order JO 7400.11G Airspace Designations and Reporting Points and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Avenue, College Park, GA 30337; Telephone: (404) 305–6364.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend Class D and Class E airspace in Lynchburg, VA. An airspace evaluation determined that this update is necessary to support IFR operations in the area.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only once if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives and a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting

on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edits, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at *www.regulations.gov.* Recently published rulemaking documents can be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during regular business hours at the office of the Eastern Service Center, Federal Aviation Administration, Room 210, 1701 Columbia Ave., College Park, GA 30337.

Incorporation by Reference

Class D and Class E airspace designations are published in Paragraphs 5000, 6002, and 6004 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 annually. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022. These updates would subsequently be published in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 to amend Class D airspace and Class E surface airspace by:

- Updating the airport name to Lynchburg Regional Airport/Preston Glenn Field (previously Lynchburg Regional-Preston Glenn Field Airport).
- Increasing the radius to 4.6 miles (previously 4.5 miles).
- Removing the city name from the airport header.
- Removing the state name from the Falwell Airport header.
- Replacing the terms Notice to Airmen with Notice to Air Missions and Airport/Facility Directory with Chart Supplement.
- Removing the Lynchburg VORTAC from the description, as it is unnecessary in describing the airspace.

The FAA proposes an amendment to 14 CFR part 71 to amend Class E airspace designated as an extension to a Class D surface area by:

- Updating the airport name to Lynchburg Regional Airport/Preston Glenn Field
- Removing the Lynchburg VORTAC from the description is unnecessary in describing the airspace.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any FAA final regulatory action.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 5000 Class D Airspace.

* * * * *

AEA VA D Lynchburg, VA [Amended]

Lynchburg Regional Airport/Preston Glenn Field, VA
(Lat. 37°19′31″ N, long. 79°12′04″ W)
Falwell Airport
(Lat. 37°22′41″ N, long. 79°07′20″ W)

That airspace extending upward from the surface to and including 3,400 feet MSL within a 4.6-mile radius of Lynchburg Regional Airport/Preston Glenn Field, excluding the portion within a .5-mile radius of Falwell Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Air Missions. The effective date and time will thereafter be published continuously in the Chart Supplement.

* * * * *

Paragraph 6002 Class E Surface Airspace.

* * * * *

AEA VA E2 Lynchburg, VA [Amended]

Lynchburg Regional Airport/Preston Glenn Field, VA
(Lat. 37°19′31″ N, long. 79°12′04″ W)
Falwell Airport
(Lat. 37°22′41″ N, long. 79°07′20″ W)

That airspace extending upward from the surface within a 4.6-mile radius of Lynchburg Regional Airport/Preston Glenn Field, excluding the portion within a .5-mile radius of Falwell Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Air Missions. The effective date and time will thereafter be published continuously in the Chart Supplement.

* * * * *

Paragraph 6004 Class E Airspace Designated as an Extension to Class D or Class E Surface Area.

* * * * *

AEA VA E4 Lynchburg, VA [Amended]

Lynchburg Regional Airport/Preston Glenn Field, VA
(Lat. 37°19′31″ N, long. 79°12′04″ W)

That airspace extending upward from the surface within 1.6-miles each side of the 028° bearing of Lynchburg Regional Airport/

Preston Glenn Field, extending from the 4.6-mile radius to 7.1 miles northeast of the airport, and within 1.2-miles each side of the 208° bearing of the airport, extending from the 4.6-mile radius to 6.5-miles southwest of the airport.

BILLING CODE 4910–13–P

FEDERAL TRADE COMMISSION

16 CFR Parts 801 and 803

RIN 3084–AB46

Premerger Notification; Reporting and Waiting Period Requirements

AGENCY: Federal Trade Commission.

ACTION: Notice of proposed rulemaking; extension of comment period.

SUMMARY: The Federal Trade Commission (''FTC'' or ''Commission'') is extending the deadline for filing comments on its notice of proposed rulemaking (''NPRM'') regarding the Premerger Notification; Reporting and Waiting Period Requirements.

DATES: For the NPRM published in the **Federal Register** on June 27, 2023 (88 FR 42178), the comment deadline is extended from August 28, 2023, to September 27, 2023.

ADDRESSES: Interested parties may file a comment online or on paper by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write ''16 CFR parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300''' on your comment, and file your comment online at *https://www.regulations.gov,* by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Suite CC–5610, (Annex H), Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Robert L. Jones, Assistant Director, Premerger Notification Office, Bureau of Competition, Federal Trade Commission, 400 7th Street SW, Room CC–5301, Washington, DC 20024.

SUPPLEMENTARY INFORMATION:

I. Comment Period Extension

On June 27, 2023, the Commission announced and made public its notice of proposed rulemaking regarding the Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules (''HSR Form Change''), including its request for public comment on all aspects of the proposed rule. The NPRM was subsequently published in the **Federal Register**, with August 28, 2023, established as the deadline for the submission of comments. *See* 88 FR 42178 (June 29, 2023).

Interested parties have requested an extension of the public comment period to give them additional time to respond to the NPRM's request for comment. While the Commission believes that the current 60-day period—which is 62 days after public release of the notice of proposed rulemaking—is sufficient for meaningful comment and public participation, the Commission agrees to allow the public additional time to prepare and file comments. The Commission therefore extends the comment period to September 27, 2023, to provide commenters a total of 92 days from the public release of the NPRM on June 27, 2023. This is a 30-day extension of the 60-day comment period from publication in the **Federal Register** on June 29, 2023.

II. Request for Comment

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before September 27, 2023. Write ''16 CFR parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300'' on your comment. Your comment—including your name and your state—will be placed on the public record of this proceeding, including, to the extent practicable, on the *https://www.regulations.gov* website.

Because of the agency's security screening, postal mail addressed to the Commission will be subject to delay. We strongly encourage you to submit your comment online through *https://www.regulations.gov.* To ensure the Commission considers your online comment, please follow the instructions on the web-based form.

If you file your comment on paper, write ''16 CFR parts 801–803—Hart-Scott-Rodino Coverage, Exemption, and Transmittal Rules, Project No. P239300'' on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Suite CC–5610, (Annex H), Washington, DC 20580. If possible, please submit your paper comment to the Commission by overnight service.

Because your comment will be placed on the publicly accessible website, *https://www.regulations.gov,* you are solely responsible for making sure that your comment does not include any sensitive or confidential information. In particular, your comment should not contain sensitive personal information, such as your or anyone else's Social Security number; date of birth; driver's license number or other state identification number or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also responsible for making sure your comment does not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any ''trade secret or any commercial or financial information which . . . is privileged or confidential,''—as provided in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16 CFR 4.10(a)(2)—including, in particular, competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled ''Confidential,'' and must comply with FTC Rule 4.9(c), 16 CFR 4.9(c). The written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request, and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule 4.9(b). Your comment will be kept confidential only if the General Counsel grants your request in accordance with the law and the public interest. Once your comment has been posted publicly at *https://www.regulations.gov*—as legally required by FTC Rule 4.9(b), 16 CFR 4.9(b)—we cannot redact or remove your comment, unless you submit a confidentiality request that meets the requirements for such treatment under FTC Rule 4.9(c), 16 CFR 4.9(c), and the General Counsel grants that request.

Visit the Commission's website, *www.ftc.gov,* to read this publication and the news release describing it. The FTC Act and other laws that the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives on or

before September 27, 2023. For information on the Commission's privacy policy, including routine uses permitted by the Privacy Act, see *https://www.ftc.gov/site-information/privacy-policy.*

By direction of the Commission.

April J. Tabor,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R09–OAR–2022–0604; FRL–10574–01–R9]

Air Plan Approval; CA; San Joaquin Valley Air Pollution Control District; Removal of Excess Emissions Provisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve State Implementation Plan (SIP) revisions to the San Joaquin Valley Air Pollution Control District (SJVAPCD) portion of the California State Implementation Plan (SIP). The revisions were submitted by the California Air Resources Board (CARB), on behalf of SJVAPCD, in response to EPA's May 22, 2015, finding of substantial inadequacy and SIP call for certain provisions in the SIP related to exemptions and affirmative defenses applicable to excess emissions during startup, shutdown, and malfunction (SSM) events. EPA is proposing approval of the SIP revisions because the Agency has determined that they are in accordance with the requirements for SIP provisions under the Clean Air Act (CAA or the Act).

DATES: Comments must be received on or before September 11, 2023.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–OAR–2022–0604 at *https://www.regulations.gov.* For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.,* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit *https://www.epa.gov/dockets/commenting-epa-dockets.* If you need assistance in a language other than English or if you are a person with disabilities who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Christine Vineyard, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105. By phone: (415) 947–4125 or by email at *vineyard.christine@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this document wherever ''we'' or ''our'' is used, it refers to EPA.

Table of Contents

I. Background

On February 22, 2013, the EPA issued a Federal Register notice of proposed rulemaking outlining EPA's policy at the time with respect to SIP provisions related to periods of SSM. EPA analyzed specific SSM SIP provisions and explained how each one either did or did not comply with the CAA with regard to excess emission events.[1] For each SIP provision that EPA determined to be inconsistent with the CAA, EPA proposed to find that the existing SIP provision was substantially inadequate to meet CAA requirements and thus proposed to issue a SIP call under CAA section 110(k)(5). On September 17, 2014, EPA issued a document supplementing and revising what the Agency had previously proposed on February 22, 2013, in light of a D.C. Circuit decision that determined the CAA precludes authority of the EPA to create affirmative defense provisions applicable to private civil suits. EPA outlined its updated policy that affirmative defense SIP provisions are not consistent with CAA requirements. EPA proposed in the supplemental proposal document to apply its revised interpretation of the CAA to specific affirmative defense SIP provisions and proposed SIP calls for those provisions where appropriate (79 FR 55920, September 17, 2014).

On June 12, 2015, pursuant to CAA section 110(k)(5), EPA finalized ''State Implementation Plans: Response to Petition for Rulemaking; Restatement and Update of EPA's SSM Policy Applicable to SIPs; Findings of Substantial Inadequacy; and SIP Calls to Amend Provisions Applying to Excess Emissions During Periods of Startup, Shutdown and Malfunction,'' (80 FR 33839, June 12, 2015), hereafter referred to as the ''2015 SSM SIP Action.'' The 2015 SSM SIP Action clarified, restated, and updated EPA's interpretation that SSM exemption and affirmative defense SIP provisions are inconsistent with CAA requirements. The 2015 SSM SIP Action found that certain SIP provisions in 36 states were substantially inadequate to meet CAA requirements and issued a SIP call to those states to submit SIP revisions to address the inadequacies. EPA established an 18-month deadline by which the affected states had to submit such SIP revisions. States were required to submit corrective revisions to their SIPs in response to the SIP calls by November 22, 2016.

EPA issued a Memorandum in October 2020 (2020 Memorandum), which stated that certain provisions governing SSM periods in SIPs could be viewed as consistent with CAA requirements.[2] Importantly, the 2020 Memorandum stated that it ''did not alter in any way the determinations made in the 2015 SSM SIP Action that identified specific state SIP provisions that were substantially inadequate to meet the requirements of the Act.'' Accordingly, the 2020 Memorandum had no direct impact on the SIP call issued to SJVAPCD in 2015. The 2020 Memorandum did, however, indicate EPA's intent at the time to review SIP calls that were issued in the 2015 SSM SIP Action to determine whether EPA should maintain, modify, or withdraw

[1] State Implementation Plans: Response to Petition for Rulemaking; Findings of Substantial Inadequacy; and SIP Calls to Amend Provisions Applying to Excess Emissions During Periods of Startup, Shutdown, and Malfunction, 78 FR 12460 (Feb. 22, 2013).

[2] October 9, 2020 memorandum ''Inclusion of Provisions Governing Periods of Startup, Shutdown, and Malfunctions in State Implementation Plans,'' from Andrew R. Wheeler, Administrator.

particular SIP calls through future agency actions.

On September 30, 2021, EPA's Deputy Administrator withdrew the 2020 Memorandum and announced EPA's return to the policy articulated in the 2015 SSM SIP Action (2021 Memorandum).[3] As articulated in the 2021 Memorandum, SIP provisions that contain exemptions or affirmative defense provisions are not consistent with CAA requirements and, therefore, generally are not approvable if contained in a SIP submission. This policy approach is intended to ensure that all communities and populations, including minority, low-income, and indigenous populations overburdened by air pollution, receive the full health and environmental protections provided by the CAA.[4] The 2021 Memorandum also retracted the prior statement from the 2020 Memorandum of EPA's plans to review and potentially modify or withdraw particular SIP calls. That statement no longer reflects EPA's intent. EPA intends to implement the principles laid out in the 2015 SSM SIP Action as the agency takes action on SIP submissions, including this SIP submittal provided in response to the 2015 SIP call.

With regard to the SJVAPCD SIP, in the 2015 SSM SIP Action, the EPA determined that the rules in the following table were substantially inadequate to meet CAA requirements (80 FR 33840, 33973):

District	Rule number	Adopted	Submitted	Rule title
San Joaquin Valley APCD (Fresno County APCD)	110	2/17/2022	4/14/2022	Equipment Breakdown.
San Joaquin Valley APCD (Stanislaus County APCD)	110	2/17/2022	4/14/2022	Equipment Breakdown.
San Joquin Valley APCD (Kern County APCD)	111	2/17/2022	4/14/2022	Equipment Breakdown.
San Joaquin Valley APCD (Kings County APCD)	111	2/17/2022	4/14/2022	Equipment Breakdown.
San Joaquin Valley APCD (Tulare County APCD)	111	2/17/2022	4/14/2022	Equipment Breakdown.
San Joaquin Valley APCD (Madera County APCD)	113	2/17/2022	4/14/2022	Equipment Breakdown.

Each of these SIP provisions provide an affirmative defense available to sources for excess emissions that occur during a breakdown condition (*i.e.,* malfunction). The rationale underlying EPA's determination that the provisions were substantially inadequate to meet CAA requirements, and therefore to issue a SIP call to SJVAPCD to remedy the provisions, is detailed in the 2015 SSM SIP Action and the accompanying proposals.

CARB, on behalf of SJVAPCD, submitted the SIP revisions on April 14, 2022, in response to the SIP call issued in the 2015 SSM SIP Action. In its submission, California is requesting that EPA revise the SJVAPCD SIP by removing the rules in the table above from the California SIP.

II. Analysis of SIP Submission

EPA is proposing to approve SJVAPCD's April 14, 2022 SIP submission. Affirmative defense provisions like these are inconsistent with CAA requirements and removal of these provisions would strengthen the SIP. This action, if finalized, would remove the affirmative defense provisions from the SJVAPCD portion of the EPA-approved SIP for California. EPA is proposing to find that these revisions are consistent with CAA requirements and that they adequately address the specific deficiencies that EPA identified in the 2015 SSM SIP Action with respect to the SJVAPCD portion of the California SIP.

III. Proposed Action

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). EPA is proposing to approve California's April 14, 2022 SIP submission requesting removal of (i) Fresno County ''Rule 110 Equipment Breakdown''; (ii) Kern County ''Rule 111 Equipment Breakdown''; (iii) Kings County ''Rule 111 Equipment Breakdown''; (iv) Madera County ''Rule 113 Equipment Breakdown''; (v) Stanislaus County ''Rule 110 Equipment Breakdown''; and (vi) Tulare County ''Rule 111 Equipment Breakdown'' from the California SIP. We are proposing approval of the SIP revisions because we have determined that they are consistent with the requirements for SIP provisions under the CAA. EPA is further proposing to determine that such SIP revisions correct the deficiencies identified in the May 22, 2015 SIP call. EPA is not reopening the 2015 SSM SIP Action and is only taking comment on whether these SIP revisions are consistent with CAA requirements and whether they address the ''substantial inadequacy'' of the specific SJVAPCD SIP provisions identified in the 2015 SSM SIP Action.

IV. Incorporation by Reference

In this document, EPA is proposing to amend regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, and as described in section I of the preamble, EPA is proposing to remove provisions from Fresno County, Kern County, Kings County, Madera County, Stanislaus County, and Tulare County portions of the California SIP. EPA has made, and will continue to make, these documents generally available through *https://www.regulations.gov* and at the EPA Region 9 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this proposed action merely approves removal of State law not meeting Federal requirements and does not impose additional requirements beyond those already imposed by State law. For that reason, this proposed action:

- Is not a ''significant regulatory action'' subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011).
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).
- Is certified as not having a significant economic impact on a

[3] September 30, 2021, memorandum ''Withdrawal of the October 9, 2020, Memorandum Addressing Startup, Shutdown, and Malfunctions in State Implementation Plans and Implementation of the Prior Policy,'' from Janet McCabe, Deputy Administrator.

[4] 80 FR 33985.

substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999).
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997).
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001).

Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, Feb. 16, 1994) directs Federal agencies to identify and address ''disproportionately high and adverse human health or environmental effects'' of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as ''the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.'' EPA further defines the term fair treatment to mean that ''no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.''

The State did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

Air Plan Approval; Washington; Southwest Clean Air Agency; Emission Standards and Controls for Sources Emitting Gasoline Vapors

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve a revision to the Washington State Implementation Plan (SIP) for the Southwest Clean Air Agency (SWCAA) jurisdiction as it relates to the ozone National Ambient Air Quality Standard. This proposed revision updates SWCAA's requirements in the SIP for Stage I and Stage II vapor recovery systems at gasoline dispensing facilities including: decommissioning existing Stage II systems incompatible with onboard refueling vapor recovery systems on or before January 1, 2023; allowing removal from service of Stage II vapor recovery equipment compatible with onboard refueling vapor recovery on or after January 1, 2023; and removing the requirement for Stage II vapor recovery at new installations. The proposed revisions to the SIP also include, among other changes, revised requirements for installation of enhanced conventional nozzles, installation of low permeation hoses, and annual testing based on facility throughput. SWCAA's submittal, in coordination with the Washington Department of Ecology, incudes a demonstration that such removal of Stage II requirements is consistent with the Clean Air Act and EPA guidance.

DATES: Comments must be received on or before September 11, 2023.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R10–OAR–2023–0341 at *https://www.regulations.gov.* Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov.* The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.,* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit *https://www.epa.gov/dockets/commenting-epa-dockets.*

FOR FURTHER INFORMATION CONTACT: Jeff Hunt, EPA Region 10, 1200 Sixth Avenue—Suite 155, Seattle, WA 98101, at (206) 553–0256, or *hunt.jeff@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this document whenever ''we,'' ''us,'' or ''our'' is used, it is intended to refer to the EPA.

I. Background

Ozone is a gas composed of three oxygen atoms. Ground-level ozone is generally not emitted directly from a vehicle's exhaust or an industrial smokestack but is created by a chemical reaction between nitrogen oxides (NO_X) and volatile organic compounds (VOC) in the presence of sunlight and high ambient temperatures. VOC and NO_X emissions often are referred to as ''precursors'' to ozone formation. Thus, ozone is known primarily as a summertime air pollutant. Motor vehicle exhaust and industrial emissions, gasoline vapors, chemical solvents and natural sources can emit or contain NO_X and/or VOC. Urban areas tend to have high concentrations of ground-level ozone, but areas without

significant industrial activity and with relatively low vehicular traffic are also subject to increased ozone levels because wind carries ozone and its precursors hundreds of miles from their sources. In 1979, under section 109 of the Clean Air Act (CAA or the Act), the EPA established the primary and secondary National Ambient Air Quality Standards (NAAQS) for ozone at 0.12 parts per million (ppm) averaged over a 1-hour period (44 FR 8202, February 8, 1979). In 1997, we revised the primary and secondary NAAQS for ozone to set the acceptable level of ozone in the ambient air at 0.08 ppm, averaged over an 8-hour period (62 FR 38856, July 18, 1997). In 2008, we further revised the primary and secondary ozone NAAQS to 0.075 ppm, averaged over an 8-hour period (73 FR 16436, March 27, 2008). In 2015, we again revised the primary and secondary ozone NAAQS to 0.070 ppm, averaged over an 8-hour period (73 FR 16436, March 27, 2008). For additional information on ozone, visit *https://www.epa.gov/ozone-pollution.*

Stage II vapor recovery is an air pollution control technology for automobiles and other on-road mobile sources. When an automobile or other vehicle is brought into a gas station to be refueled, the empty portion of the gas tank on the vehicle contains gasoline vapors, which are VOCs. When liquid gasoline is pumped into the partially empty gas tank in the vehicle the vapors are displaced out of the tank as the tank fills with liquid gasoline. Where air pollution control technology is not used, these vapors are emitted into the air. In the atmosphere, these VOCs can, in the presence of sunlight, react with NO_X and VOCs from other sources to form ozone. The Stage II system consists of special nozzles and coaxial hoses at each gas pump that capture vapor from the vehicle's fuel tank and route them to underground or above ground storage tanks during the refueling process. Stage II vapor recovery systems are specifically installed at gasoline dispensing facilities and capture the refueling fuel vapors at the gasoline pump nozzle. The system directs the displaced vapors back to the underground storage tank at the gasoline dispensing facility to prevent the vapors from escaping to the atmosphere.

Onboard refueling vapor recovery (ORVR) is another emission control system that can capture fuel vapors from vehicle gas tanks during refueling. ORVR systems are carbon canisters installed directly on automobiles to capture the fuel vapors displaced from the gasoline tank before they are released to the atmosphere. The fuel vapors captured in the carbon canisters are then combusted in the engine when the automobile is started and operated after refueling.

Stage II vapor recovery systems and vehicle ORVR systems were initially both required by the 1990 Amendments to the CAA, with Stage II requirements applying to certain nonattainment areas. Under CAA section 182(b)(3) ozone nonattainment areas classified as moderate and above were required to adopt Stage II requirements. CAA section 202(a)(6), requires an onboard system of capturing vehicle refueling emissions, commonly referred to as an ORVR system. In 1994, the EPA promulgated ORVR standards (59 FR 16262, April 6, 1994). Section 202(a)(6) of the CAA required that the EPA's ORVR standards apply to light-duty vehicles manufactured beginning in the fourth model year after the model year in which the standards were promulgated, and that ORVR systems provide a minimum evaporative emission capture efficiency of 95 percent.[1] ORVR equipment has been phased in for new light duty vehicles (passenger vehicles) beginning with model year 1998 and starting with model year 2001 for light-duty trucks and most heavy-duty gasoline powered vehicles. Since 2006, ORVR has been a required emissions control on nearly all new gasoline-powered highway vehicles having less than 14,000 pounds gross vehicle weight rating. CAA section 202(a)(6) provides discretionary authority to the Administrator, by rule, to revise or waive the application of the Stage II requirements for areas classified as Serious, Severe, or Extreme for ozone, as appropriate, after such time as the Administrator determines that onboard emissions control systems are in widespread use throughout the motor vehicle fleet.

On May 16, 2012, the EPA issued a national rulemaking making the finding that ORVR systems are in ''widespread use'' and determined that emission reductions from ORVR alone are essentially equal to and will soon surpass the emission reductions achieved by Stage II alone (see 77 FR 28772 at 28772). In the May 16, 2012 action, we noted that each year, non-ORVR-equipped vehicles continue to be replaced with ORVR-equipped vehicles and Stage II and ORVR systems capture the same VOC emissions and thus, are redundant. *Id.* The EPA also determined that ORVR systems are in widespread use and waived the Stage II requirement for gasoline dispensing facilities if doing so did not interfere with attaining or maintaining the ozone standards. *Id.* at 28776–28779. The EPA also noted that any state currently implementing Stage II vapor recovery programs may submit SIP revisions that would allow for the phase-out of Stage II vapor recovery systems including a CAA section 110(l) analysis showing that its removal did not interfere with attaining or maintaining the ozone standards. *Id.*

The Portland/Vancouver area was designated an interstate ozone nonattainment area in 1978. On November 15, 1990, the CAA Amendments of 1990 were enacted. (Pub. L. 101–549, 104 Stat. 2399, codified at 42 U.S.C. 7401–7671q). Under section 181(a)(1) of the 1990 CAA, the area was further classified as a ''Marginal'' ozone nonattainment area. This interstate nonattainment area consisted of the southern portion of Clark County, Washington, and portions of Multnomah, Clackamas, and Washington Counties in Oregon. In 1997, the EPA redesignated the Portland/Vancouver area to attainment (62 FR 27204, May 19, 1997). The Portland/Vancouver area was designated as ''unclassifiable/attainment'' due to the data showing the area was below the new NAAQS for subsequent updates, including the 1997 8-hour ozone NAAQS (69 FR 23857, April 30, 2004), the 2008 8-hour ozone NAAQS (77 FR 30088, May 21, 2012), and the 2015 8-hour ozone NAAQS (82 FR 54232, November 16, 2017).

The Portland/Vancouver area was not subject to Stage II requirements under the 1990 Clean Air Act Amendments as it was classified as Marginal nonattainment for the 1-hour NAAQS for ozone, rather than Moderate or above. However, SWCAA in coordination with the Washington Department of Ecology submitted SWAPCA 491 ''Emission Standards and Controls for Sources Emitting Gasoline Vapors'' (state effective November 21, 1996, subsequently renamed to SWCAA 491) which contained Stage II requirements as a SIP-strengthening measure approved concurrently with redesignation of the Portland/Vancouver area to attainment (see proposed rulemaking, 62 FR 10501, March 7, 1997, at page 10507). On August 11, 2015 (80 FR 48033), the EPA approved SWCAA's maintenance plan update for the Vancouver portion of the Portland/Vancouver area that specifically anticipated and modeled widespread use of ORVR and the full decommissioning of Stage II in the modeling demonstration of continued attainment through 2015. The SWCAA maintenance plan update and the

[1] Unlike Stage II, which is a requirement only in certain ozone nonattainment areas, ORVR requirements apply to vehicles everywhere.

modeling demonstration are included in the docket for this action.

II. SWCAA's SIP Revision

On June 22, 2023, SWCAA, in coordination with the Washington Department of Ecology as the Governor's designee for revisions to the SIP, submitted the current version of SWCAA 491 ''Emission Standards and Controls for Sources Emitting Gasoline Vapors'' (state effective February 7, 2020) for EPA approval. Since the EPA's last approval of SWCAA 491, SWCAA revised the regulations four times. Effective June 24, 2000, SWCAA updated the regulations to revise applicability of the Stage II vapor recovery program, which is now replaced by the applicability provisions of the current SWCAA 491. Other changes to SWCAA 491, effective June 24, 2000, are generally SIP-strengthening in nature including the addition of gasoline marine vessel loading and unloading vapor control requirements, which are now contained in the current version of SWCAA 491. The exact revisions in 2000 are in redline/strikeout format included in the docket for this action under WSR 00–11–149. Effective March 18, 2001 (WSR 01–05–067), SWCAA made minor changes to SWCAA 491 to reflect the name change from ''Southwest Pollution Control Authority'' to ''Southwest Clean Air Agency.'' Effective June 18, 2017 (WSR 17–11–080), SWCAA consolidated all agency fees into a single location and updated the cross reference in SWCAA 491–030 accordingly. We note that the 2000, 2001, and 2017 revisions to SWCAA 491 were not previously submitted as updates to the SIP. However, to the extent these revisions are retained in the current version of SWCAA 491 submitted for approval, we are proposing to determine that these relatively minor changes since our last update to the SIP in 1997 are approvable.

The most substantive changes to SWCAA 491 since the EPA's last approval are detailed in WSR 20–03–031, state effective February 7, 2020. Among other changes, this revision to SWCAA 491 included the following: added a requirement to install enhanced conventional (ECO) nozzles; added a requirement that low permeation hoses be installed on higher volume gasoline dispensing facilities without balance type Stage II vapor recovery equipment by no later than January 1, 2023; added a requirement for annual testing of Stage I vapor recovery systems; [2] added a requirement that new or upgraded gasoline storage tanks be equipped with Stage I enhanced vapor recovery equipment; removed a requirement that gasoline dispensing facilities install Stage II vapor recovery equipment; allowed removal from service of Stage II vapor recovery equipment compatible with ORVR on or after January 1, 2023; allowed removal from service of Stage II vapor recovery equipment incompatible with ORVR on or after January 3, 2020; required removal from service of Stage II vapor recovery equipment incompatible with ORVR no later than January 1, 2023; and revised the applicability threshold for low flow nozzles to align SWCAA rules with Federal rules. In the SIP submittal, SWCAA provided a demonstration that VOC emission reductions from enhanced conventional nozzles and low permeation hoses will outweigh the annual emissions impact of removing Stage II requirements. Therefore, SWCAA requested removal of Stage II vapor recovery system requirements in the SIP for SWCAA's jurisdiction.

III. The EPA's Evaluation of the Revision

The EPA's primary consideration for determining the approvability of SWCAA's revisions to remove Stage II vapor control requirements and provide for decommissioning of Stage II equipment within SWCAA's jurisdiction is whether these revisions comply with section 110(l) of the Act. Section 110(l) requires that a revision to the SIP not interfere with any applicable requirement concerning attainment and reasonable further progress (RFP), or any other applicable requirement of the Act. The EPA can approve a SIP revision that removes or modifies control measures in the SIP once the state or local agency makes a ''noninterference'' demonstration that such removal or modification will not interfere with attainment of the NAAQS, RFP, or any other CAA requirement.

The EPA reviewed SWCAA's submittal with the revised SWCAA 491 regulatory text as well as the accompanying analysis of emissions impacts. We propose to determine that SWCAA's June 22, 2023, SIP revision addresses the EPA's Widespread Use for Onboard Refueling Vapor Recovery and Stage II Waiver (77 FR 28772) and is consistent with the EPA's ''Guidance on Removing Stage II Gasoline Vapor Control Programs from State Implementation Plans and Assessing Comparable Measures'' (EPA–457/B–12–001, August 7, 2012).[3] In accordance with the EPA 2012 Guidance on Removing Stage II, SWCAA submitted a demonstration that the Stage II decommissioning will not interfere with attainment or maintenance of the ozone NAAQS. This demonstration was based on an analysis of precursor VOC emissions from removal of Stage II controls at GDFs, as well as emission reduction benefits from other changes to the regulations such as requirements for enhanced conventional nozzles and low permeation hoses. SWCAA estimated emissions impacts using the guidance methodologies from the EPA 2012 Guidance showing an overall benefit to air quality and a reduction of VOC emissions upon full implementation of the rule requirements in 2023. SWCAA estimated the impact on emissions from decommissioning Stage II in its jurisdiction by using EPA approved equations from the same 2012 guidance, to assess compliance with CAA 110(l). A detailed spreadsheet with the equation calculations and supporting inputs is included in the docket for this action.

The demonstration indicates that the emissions benefit of retaining Stage II requirements is rapidly diminishing with vehicle fleet turnover and ORVR penetration. As discussed in the EPA 2012 Guidance, the EPA has developed equations to assist states in evaluating the emissions consequences of phasing out existing Stage II programs. These equations may be used to calculate an ''increment,'' which identifies the area-wide emission control gained from Stage II installations as ORVR technology phases in. For example, using the equations in the EPA 2012 Guidance, SWCAA calculated the increment declining from 4.0% in 2020 to 1.1% in 2023 for Clark County, the most populous county in SWCAA's jurisdiction. Projecting these increments to full implementation of the rule in 2023, the removal of Stage II vapor recovery systems would result in minimal increases in VOC emissions of 18.31 tons per year (tpy) for SWCAA's entire jurisdiction. Additionally, SWCAA calculated the emission reduction benefits of enhanced conventional nozzles and low permeation hoses. These emission reduction benefits are estimated to be 33.84 tpy, outweighing the emissions increase from decommissioning Stage II

[2] Stage I vapor recovery is a system in which gasoline vapors are forced from the storage tank into a vapor-tight gasoline tank truck or vapor collection and control system through direct displacement by the gasoline loaded into the storage tank.

[3] The guidance document is available at: *https://www3.epa.gov/ttn/naaqs/aqmguide/collection/cp2/20120807_page_stage2_removal_guidance.pdf.*

requirements. Overall, the 2020 regulatory changes are projected to result in a net reduction of 15.99 tpy VOC with full implementation of the rule. In addition, the EPA expects that market saturation of ORVR-equipped vehicles will remain static or increase in the years after 2023, meaning the air quality benefits of these changes will continue into the future.

Lastly, the removal of Stage II is consistent with the current maintenance plan update for the Vancouver portion of the Portland/Vancouver ozone area (80 FR 48033, August 11, 2015). As previously discussed, this maintenance plan update was approved by the EPA in 2015. The associated modeling, included in the docket for this action, anticipated the decommissioning of Stage II in the projection of continued ozone attainment for the 1997 8-hour ozone NAAQS.[4] For the 2008 and 2015 ozone NAAQS, all counties within SWCAA's jurisdiction are designated attainment/unclassifiable. We believe that removal of Stage II vapor recovery systems would have a negligible impact on ozone levels which are offset by the emission reduction benefits of other requirements in the revised SWCAA 491. Thus, we proposed to determine that approval of the SIP revision would not interfere with any applicable requirement concerning attainment and maintenance of any ozone standard and is compliant with CAA section 110(l).

IV. Proposed Action

We are proposing to find that SWCAA's demonstration for removal of Stage II equipment meets section 110(l) of the Act. Therefore, we are proposing to approve and incorporate by reference SWCAA 491 ''Emission Standards and Controls for Sources Emitting Gasoline Vapors'' state effective February 7, 2020. This version of the regulation removes from the Washington SIP the requirement for Stage II vapor recovery systems in SWCAA's jurisdiction and adds additional VOC controls such as the installation of enhanced conventional nozzles and low permeation hoses, as well as other historic changes since the EPA's last approval as discussed in section II of this preamble.

V. Incorporation by Reference

In this document, the EPA is proposing to include in a final rule, regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference SWCAA 491 discussed in section IV of this preamble. The EPA has made, and will continue to make, these documents generally available through *https://www.regulations.gov* and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

VI. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address ''disproportionately high and adverse human health or environmental effects'' of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as ''the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.'' EPA further defines the term fair treatment to mean that ''no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.''

The Southwest Clean Air Agency did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

RIN 1018–BH13

Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for Sacramento Mountains Checkerspot Butterfly

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), propose to designate critical habitat for the Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*), a butterfly from New Mexico, under the Endangered Species Act of 1973, as amended (Act). In total, approximately 1,636.9 acres (662.4 hectares) in Otero County, New Mexico, fall within the boundaries of the proposed critical habitat designation. We also announce the availability of a draft economic analysis of the proposed designation of critical habitat for the Sacramento Mountains checkerspot butterfly.

DATES: We will accept comments received or postmarked on or before October 10, 2023. Comments submitted electronically using the Federal eRulemaking Portal (see ADDRESSES, below) must be received by 11:59 p.m. eastern time on the closing date. We must receive requests for a public hearing, in writing, at the address shown in **FOR FURTHER INFORMATION CONTACT** by September 25, 2023.

ADDRESSES: You may submit comments by one of the following methods:

(1) *Electronically:* Go to the Federal eRulemaking Portal: *https://www.regulations.gov.* In the Search box, enter FWS–R2–ES–2023–0023, which is the docket number for this rulemaking. Then, click on the Search button. On the resulting page, in the panel on the left side of the screen, under the Document Type heading, check the Proposed Rule box to locate this document. You may submit a comment by clicking on ''Comment.''

(2) *By hard copy:* Submit by U.S. mail to: Public Comments Processing, Attn: FWS–R2–ES–2023–0023, U.S. Fish and Wildlife Service, MS: PRB/3W, 5275 Leesburg Pike, Falls Church, VA 22041–3803.

We request that you send comments only by the methods described above. We will post all comments on *https://www.regulations.gov.* This generally means that we will post any personal information you provide us (see Information Requested, below, for more information).

Availability of supporting materials: For this proposed critical habitat designation, the coordinates or plot points or both from which the maps are generated are included in the decision file for this critical habitat designation and are available, along with other supporting materials, at *https://www.regulations.gov* at Docket No. FWS–R2–ES–2023–0023 and on the Service's website at *https://www.fws.gov/about/region/southwest.*

FOR FURTHER INFORMATION CONTACT: Shawn Sartorius, Field Supervisor, U.S. Fish and Wildlife Service, New Mexico Ecological Services Field Office, 2105 Osuna NE, Albuquerque, NM 87113; telephone 505–346–2525. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Executive Summary

Why we need to publish a rule. Under the Act, when we determine that any species is an endangered or threatened species, we are required to designate critical habitat, to the maximum extent prudent and determinable. Designations of critical habitat can be completed only by issuing a rule through the Administrative Procedure Act rulemaking process (5 U.S.C. 551 *et seq.*).

What this document does. We propose to designate critical habitat for the Sacramento Mountains checkerspot butterfly, which is listed as an endangered species under the Act.

The basis for our action. Under section 4(a)(3) of the Act, if we determine that a species is an endangered or threatened species we must, to the maximum extent prudent and determinable, designate critical habitat. Section 3(5)(A) of the Act defines critical habitat as (i) the specific areas within the geographical area occupied by the species, at the time it is listed, on which are found those physical or biological features (I) essential to the conservation of the species and (II) which may require special management considerations or protections; and (ii) specific areas outside the geographical area occupied by the species at the time it is listed, upon a determination by the Secretary that such areas are essential for the conservation of the species. Section 4(b)(2) of the Act states that the Secretary must make the designation on the basis of the best scientific data available and after taking into consideration the economic impact, the impact on national security, and any other relevant impacts of specifying any particular area as critical habitat.

Information Requested

We intend that any final action resulting from this proposed rule will be based on the best scientific and commercial data available and be as accurate and as effective as possible. Therefore, we request comments or information from other governmental agencies, Native American Tribes, the scientific community, industry, or any other interested parties concerning this proposed rule. We particularly seek comments concerning:

(1) Specific information on:

(a) The amount and distribution of Sacramento Mountains checkerspot butterfly habitat;

(b) Any additional areas occurring within the range of the species in Otero County, New Mexico, that should be included in the designation because they (i) are occupied at the time of listing and contain the physical or biological features that are essential to the conservation of the species and that may require special management considerations, or (ii) are unoccupied at the time of listing and are essential for the conservation of the species;

(c) Special management considerations or protection that may be needed in critical habitat areas we are proposing, including managing for the potential effects of climate change; and

(d) To evaluate the potential to include areas not occupied at the time of listing, we particularly seek comments regarding whether occupied areas are adequate for the conservation of the species. Additionally, please provide specific information regarding whether or not unoccupied areas would, with reasonable certainty, contribute to the conservation of the species and contain at least one physical or biological feature essential to the

conservation of the species. We also seek comments or information regarding whether areas not occupied at the time of listing qualify as habitat for the species.

(7) Land use designations and current or planned activities in the subject areas and their possible impacts on proposed critical habitat.

(8) Any probable economic, national security, or other relevant impacts of designating any area that may be included in the final designation, and the related benefits of including or excluding specific areas.

(9) Information on the extent to which the description of probable economic impacts in the draft economic analysis is a reasonable estimate of the likely economic impacts and the description of the environmental impacts in the draft environmental assessment is complete and accurate and any additional information regarding probable economic impacts that we should consider.

(10) Whether any specific areas we are proposing for critical habitat designation should be considered for exclusion under section 4(b)(2) of the Act, and whether the benefits of potentially excluding any specific area outweigh the benefits of including that area under section 4(b)(2) of the Act, in particular for those on Tribal lands. We are considering the land owned by the Mescalero Apache Tribe in Unit 3 (Spud Patch Canyon) for exclusion. If you think we should exclude any additional areas, please provide information supporting a benefit of exclusion.

(11) Whether we could improve or modify our approach to designating critical habitat in any way to provide for greater public participation and understanding, or to better accommodate public concerns and comments.

Please include sufficient information with your submission (such as scientific journal articles or other publications) to allow us to verify any scientific or commercial information you include.

Please note that submissions merely stating support for, or opposition to, the action under consideration without providing supporting information, although noted, do not provide substantial information necessary to support a determination. Section 4(b)(2) of the Act directs that the Secretary shall designate critical habitat on the basis of the best scientific data available.

You may submit your comments and materials concerning this proposed rule by one of the methods listed in **ADDRESSES**. We request that you send comments only by the methods described in **ADDRESSES**.

If you submit information via *https://www.regulations.gov,* your entire submission—including any personal identifying information—will be posted on the website. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on *https://www.regulations.gov.*

Comments and materials we receive, as well as supporting documentation we used in preparing this proposed rule, will be available for public inspection on *https://www.regulations.gov.*

Because we will consider all comments and information we receive during the comment period, our final designation may differ from this proposal. Based on the new information we receive (and any comments on that new information), our final designation may not include all areas proposed, may include some additional areas that meet the definition of critical habitat, or may exclude some areas if we find the benefits of exclusion outweigh the benefits of inclusion and exclusion will not result in the extinction of the species.

Public Hearing

Section 4(b)(5) of the Act provides for a public hearing on this proposal, if requested. Requests must be received by the date specified in **DATES**. Such requests must be sent to the address shown in **FOR FURTHER INFORMATION CONTACT**. We will schedule a public hearing on this proposal, if requested, and announce the date, time, and place of the hearing, as well as how to obtain reasonable accommodations, in the **Federal Register** and local newspapers at least 15 days before the hearing. We may hold the public hearing in person or virtually via webinar. We will announce any public hearing on our website, in addition to the **Federal Register**. The use of virtual public hearings is consistent with our regulations at 50 CFR 424.16(c)(3).

Previous Federal Actions

On January 25, 2022, we published a proposed rule in the **Federal Register** (87 FR 3739) to list the Sacramento Mountains checkerspot butterfly as an endangered species (16 U.S.C. 1531 *et seq.*). At the time of our proposal, we determined that designation of critical habitat was prudent but not determinable because we lacked specific information on the impacts of our designation. In our proposed listing rule, we stated we were in the process of obtaining information on the impacts of the designation. We published the final listing rule on January 31, 2023. Please refer to the proposed and final listing rules (87 FR 3739, January 25, 2022; 88 FR 6177; January 31, 2023) for a detailed description of previous Federal actions concerning this butterfly.

Peer Review

An assessment team prepared a current condition assessment report for the Sacramento Mountains checkerspot butterfly. The assessment team was composed of Service biologists, in consultation with other species experts. The current condition assessment report represents a compilation of the best scientific and commercial data available concerning the status of the species, including the impacts of past and present factors (both negative and beneficial) affecting the species.

In accordance with our joint policy on peer review published in the **Federal Register** on July 1, 1994 (59 FR 34270), and our August 22, 2016, memorandum updating and clarifying the role of peer review of listing actions under the Act, we solicited independent scientific review of the information contained in the Sacramento Mountains checkerspot butterfly current condition assessment report. We sent the report to five independent peer reviewers and received three responses. Results of this structured peer review process can be found at *https://www.regulations.gov* at Docket No. FWS–R2–ES–2021–0069, which is the docket for the listing rules for the Sacramento Mountains checkerspot butterfly, or Docket No. FWS–R2–ES–2023–0023, which is the docket number for this rulemaking. In preparing this proposed rule, we incorporated the results of these reviews, as appropriate, into the current condition assessment report, which is the foundation for this proposed rule.

Background

The Sacramento Mountains checkerspot butterfly (butterfly) is a subspecies of the Anicia checkerspot, or variable checkerspot, in the Nymphalidae (brush-footed butterfly) family that is native to the Sacramento Mountains in south-central New Mexico. The Sacramento Mountains checkerspot butterfly inhabits high-altitude meadows in the upper-montane and subalpine zone at elevations between 2,380 and 2,750 meters (m) (7,800 and 9,000 feet (ft)) within the Sacramento Mountains, which is an isolated mountain range in south-central New Mexico (Service 2005 et al., p. 9). The species requires host plants for

larvae, nectar sources for adults, and climatic moisture.

Since 1998, populations have been known from 10 meadow units on U.S. Forest Service (Forest Service) land (Forest Service 1999, p. 2). The meadows cover the occupied areas within the species' range and give the most accurate representation of species and habitat conditions available. These meadow units include Bailey Canyon, Pines Meadow Campground, Horse Pasture Meadow, Silver Springs Canyon, Cox Canyon, Sleepygrass Canyon, Spud Patch Canyon, Deerhead Canyon, Pumphouse Canyon, and Yardplot Meadow. The species has been extirpated from several of these meadows recently. The Yardplot Meadow was sold and developed, while suitable habitat in Horse Pasture Meadow was eliminated by logging (Forest Service 2017, p. 3) but has since become somewhat revegetated. No adults or caterpillars have been detected within Pumphouse Canyon since 2003, and the species has likely been extirpated at that site (Forest Service 2017, p. 3). In 2020, all 10 meadows were surveyed for butterflies and larvae; a total of 8 butterflies were detected in only Bailey Canyon and Pines Meadow Campground combined (Forest Service 2020a, p. 3), and no larval tents were found at any site (Forest Service 2020a, pp. 1–3; Hughes 2020, pers. comm.).

Critical habitat is defined in section 3 of the Act as:

(1) The specific areas within the geographical area occupied by the species, at the time it is listed in accordance with the Act, on which are found those physical or biological features

(a) Essential to the conservation of the species, and

(b) Which may require special management considerations or protection; and

(2) Specific areas outside the geographical area occupied by the species at the time it is listed, upon a determination that such areas are essential for the conservation of the species.

Our regulations at 50 CFR 424.02 define the geographical area occupied by the species as an area that may generally be delineated around species' occurrences, as determined by the Secretary (*i.e.,* range). Such areas may include those areas used throughout all or part of the species' life cycle, even if not used on a regular basis (*e.g.,* migratory corridors, seasonal habitats, and habitats used periodically, but not solely by vagrant individuals).

Conservation, as defined under section 3 of the Act, means to use and the use of all methods and procedures that are necessary to bring an endangered or threatened species to the point at which the measures provided pursuant to the Act are no longer necessary. Such methods and procedures include, but are not limited to, all activities associated with scientific resources management, such as research, census, law enforcement, habitat acquisition and maintenance, propagation, live trapping, and transplantation, and, in the extraordinary case where population pressures within a given ecosystem cannot be otherwise relieved, may include regulated taking.

Critical habitat receives protection under section 7 of the Act through the requirement that Federal agencies ensure, in consultation with the Service, that any action they authorize, fund, or carry out is not likely to result in the destruction or adverse modification of critical habitat. The designation of critical habitat does not affect land ownership or establish a refuge, wilderness, reserve, preserve, or other conservation area. Such designation also does not allow the government or public to access private lands. Such designation does not require implementation of restoration, recovery, or enhancement measures by non-Federal landowners. Where a landowner requests Federal agency funding or authorization for an action that may affect a listed species or critical habitat, the Federal agency would be required to consult with the Service under section 7(a)(2) of the Act. However, even if the Service were to conclude that the proposed activity would likely result in destruction or adverse modification of the critical habitat, the Federal action agency and the landowner are not required to abandon the proposed activity, or to restore or recover the species; instead, they must implement ''reasonable and prudent alternatives'' to avoid destruction or adverse modification of critical habitat.

Under the first prong of the Act's definition of critical habitat, areas within the geographical area occupied by the species at the time it was listed are included in a critical habitat designation if they contain physical or biological features (1) which are essential to the conservation of the species and (2) which may require special management considerations or protection. For these areas, critical habitat designations identify, to the extent known using the best scientific data available, those physical or biological features that are essential to the conservation of the species (such as space, food, cover, and protected habitat).

Under the second prong of the Act's definition of critical habitat, we can designate critical habitat in areas outside the geographical area occupied by the species at the time it is listed, upon a determination that such areas are essential for the conservation of the species.

Section 4 of the Act requires that we designate critical habitat on the basis of the best scientific data available. Further, our Policy on Information Standards Under the Endangered Species Act (published in the **Federal Register** on July 1, 1994 (59 FR 34271)), the Information Quality Act (section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Pub. L. 106–554; H.R. 5658)), and our associated Information Quality Guidelines provide criteria, establish procedures, and provide guidance to ensure that our decisions are based on the best scientific data available. They require our biologists, to the extent consistent with the Act and with the use of the best scientific data available, to use primary and original sources of information as the basis for recommendations to designate critical habitat.

When we are determining which areas should be designated as critical habitat, our primary source of information is generally the information from the current condition assessment report (Service 2022, entire) and information developed during the listing process for the species. Additional information sources may include any generalized conservation strategy, criteria, or outline that may have been developed for the species; the recovery plan for the species; articles in peer-reviewed journals; conservation plans developed by States and counties; scientific status surveys and studies; biological assessments; other unpublished materials; or experts' opinions or personal knowledge.

Habitat is dynamic, and species may move from one area to another over time. We recognize that critical habitat designated at a particular point in time may not include all of the habitat areas that we may later determine are necessary for the recovery of the species. For these reasons, a critical habitat designation does not signal that habitat outside the designated area is unimportant or may not be needed for recovery of the species. Areas that are important to the conservation of the species, both inside and outside the critical habitat designation, will continue to be subject to: (1) Conservation actions implemented

under section 7(a)(1) of the Act; (2) regulatory protections afforded by the requirement in section 7(a)(2) of the Act for Federal agencies to ensure their actions are not likely to jeopardize the continued existence of any endangered or threatened species; and (3) the prohibitions found in section 9 of the Act. Federally funded or permitted projects affecting listed species outside their designated critical habitat areas may still result in jeopardy findings in some cases. These protections and conservation tools will continue to contribute to recovery of the species. Similarly, critical habitat designations made on the basis of the best available information at the time of designation will not control the direction and substance of future recovery plans, habitat conservation plans (HCPs), or other species conservation planning efforts if new information available at the time of those planning efforts calls for a different outcome.

Physical or Biological Features Essential to the Conservation of the Species

In accordance with section 3(5)(A)(i) of the Act and regulations at 50 CFR 424.12(b), in determining which areas we will designate as critical habitat from within the geographical area occupied by the species at the time of listing, we consider the physical or biological features that are essential to the conservation of the species and which may require special management considerations or protection. The regulations at 50 CFR 424.02 define ''physical or biological features essential to the conservation of the species'' as the features that occur in specific areas and that are essential to support the life-history needs of the species, including, but not limited to, water characteristics, soil type, geological features, sites, prey, vegetation, symbiotic species, or other features.

A feature may be a single habitat characteristic or a more complex combination of habitat characteristics. Features may include habitat characteristics that support ephemeral or dynamic habitat conditions. Features may also be expressed in terms relating to principles of conservation biology, such as patch size, distribution distances, and connectivity. For example, physical features essential to the conservation of the species might include gravel of a particular size required for spawning, alkaline soil for seed germination, protective cover for migration, or susceptibility to flooding or fire that maintains necessary early-successional habitat characteristics. Biological features might include prey species, forage grasses, specific kinds or ages of trees for roosting or nesting, symbiotic fungi, or absence of a particular level of nonnative species consistent with conservation needs of the listed species. The features may also be combinations of habitat characteristics and may encompass the relationship between characteristics or the necessary amount of a characteristic essential to support the life history of the species.

In considering whether features are essential to the conservation of the species, we may consider an appropriate quality, quantity, and spatial and temporal arrangement of habitat characteristics in the context of the life-history needs, condition, and status of the species. These characteristics include, but are not limited to, space for individual and population growth and for normal behavior; food, water, air, light, minerals, or other nutritional or physiological requirements; cover or shelter; sites for breeding, reproduction, or rearing (or development) of offspring; and habitats that are protected from disturbance.

Summary of Essential Physical or Biological Features

We derive the specific physical or biological features essential to the conservation of Sacramento Mountains checkerspot butterfly from studies of the species' habitat, ecology, and life history as described below. Additional information can be found in the current condition assessment report (Service 2022, entire; available on *https://www.regulations.gov* at Docket No. FWS–R2–ES–2023–0023).

The main larval host plant for the Sacramento Mountains checkerspot butterfly is the New Mexico beardtongue (*Penstemon neomexicanus*) (Ferris and Holland 1980, p. 7), also known as New Mexico penstemon. The larvae rely nearly entirely upon the New Mexico beardtongue during pre- and post-diapause. Because of the Sacramento Mountains checkerspot butterfly's dependency on New Mexico beardtongue, it is vulnerable to any type of habitat degradation that reduces the host plant's health and abundance (Service et al. 2005, p. 9). New Mexico beardtongue is a member of the Plantaginaceae, or figwort, family (Oxelman et al. 2005, p. 425). These perennial plants prefer wooded slopes or open glades in ponderosa pine and spruce/fir forests at elevations between 1,830 and 2,750 m (6,000 and 9,000 ft) (New Mexico Rare Plant Technical Council 1999, entire). New Mexico beardtongue is native to the Sacramento Mountains within Lincoln and Otero Counties (Sivinski and Knight 1996, p. 289). The plant is perennial, has purple or violet-blue flowers, and grows to be half a meter tall (1.9 ft). New Mexico beardtongue occurs in areas with loose soils or where there has been recent soil disturbance, such as eroded banks and pocket gopher burrows (Pittenger and Yori 2003, p. ii).

The preferred adult nectar source is orange sneezeweed (*Hymenoxys hoopesii*), a native perennial forb (Service et al. 2005, p. 9). To contribute to the species' viability, orange sneezeweed must bloom at a time that corresponds with the emergence of adult Sacramento Mountains checkerspot butterflies. Although orange sneezeweed flowers are most frequently used, the butterfly has been observed collecting nectar on various other native nectar sources (Service et al. 2005, pp. 9–10). If orange sneezeweed is not blooming during the adult flight period (*i.e.,* experiencing phenological mismatch), the butterfly's survival and fecundity could decrease.

Before human intervention, the habitat of the Sacramento Mountains checkerspot butterfly was dynamic, with meadows forming and reconnecting due to natural wildfire regimes (Service et al. 2005, p. 21). These patterns would have facilitated natural dispersal and recolonization of meadow habitats following disturbance events, especially when there was high butterfly population density in adjacent meadows (Service et al. 2005, p. 21). Currently, spruce-fir forests punctuate suitable butterfly habitat (*i.e.,* mountain meadows), creating intrinsic barriers to butterfly dispersal and effectively isolating populations from one another (Pittenger and Yori 2003, p. 1). Preliminary genetic research suggested there is extremely low gene flow across the species' range or between meadows surveyed (Ryan 2021, pers. comm.). If new sites are to become colonized or recolonized by the butterfly, meadow areas will need to be connected enough to allow dispersal from occupied areas. Therefore, habitat connectivity is needed for genetically healthy populations across the species' range (Service 2022, p. 11).

We have determined that the following physical or biological features are essential to the conservation of the Sacramento Mountains checkerspot butterfly:

(1) Open meadow, grassland habitat within the larger mixed-conifer forest in high-altitude areas within the upper-montane and subalpine zones at elevations between 2,380 and 2,750 meters (m) (7,800 and 9,000 feet (ft))

within the Sacramento Mountains of southern New Mexico.

(2) The larval food plant (host plant), primarily New Mexico beardtongue (*Penstemon neomexicanus*), or other potential host plants such as other *Penstemon* species and tobacco root (*Valeriana edulis*), is present as:

(a) Patches of plants clustered together;

(b) Large, robust individual plants; and/or

(c) Stands of plants adjacent to other tobacco root plants.

(3) Access to nectar sources, primarily orange sneezeweed (*Hymenoxys hoopesii*), native Asteraceae species, and other native flowering plants.

(4) Habitat connectivity consisting of up to 890 m (2,920 ft) between populations or areas of suitable habitat to allow for dispersal and gene flow.

(5) Less than 5 percent canopy cover.

Special Management Considerations or Protection

When designating critical habitat, we assess whether the specific areas within the geographical area occupied by the species at the time of listing contain features which are essential to the conservation of the species and which may require special management considerations or protection.

A detailed discussion of activities influencing the Sacramento Mountains checkerspot butterfly and its habitat can be found in the proposed listing rule (87 FR 3739; January 25, 2022). It is possible all areas of critical habitat may require some level of management to address the current and future threats to the physical or biological features. The features essential to the conservation of this species may require special management considerations or protection to reduce the following threats: incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change (*i.e.,* drought, altered precipitation regime), and altered fire regime. Management activities that could ameliorate these threats include, but are not limited to, erecting exclosures or other methods to remove browse pressure from large ungulates; growing and transplanting nectar sources, including orange sneezeweed, New Mexico beardtongue, and other native nectar sources; managing invasive plant species; reducing recreational use; and instituting fire management aimed at reducing tree stocking within forested areas surrounding meadows. These management activities may protect the physical or biological features for the species by improving and protecting suitable habitat and connectivity throughout the range of the butterfly.

Criteria Used To Identify Critical Habitat

As required by section 4(b)(2) of the Act, we use the best scientific data available to designate critical habitat. In accordance with the Act and our implementing regulations at 50 CFR 424.12(b), we review available information pertaining to the habitat requirements of the species and identify specific areas within the geographical area occupied by the species at the time of listing and any specific areas outside the geographical area occupied by the species to be considered for designation as critical habitat. We are proposing to designate critical habitat in areas within the geographical area occupied by the species at the time of listing. We also are proposing to designate specific areas outside the geographical area occupied by the species because we have determined that a designation limited to occupied areas would be inadequate to ensure the conservation of the species. Occupied areas are inadequate for the conservation of this species because the species needs to have sufficient quality and quantity of habitat for adequately resilient populations, numerous populations to create redundancy to survive catastrophic events, and enough genetic diversity to allow for adaptations to changing environmental conditions (representation) to achieve viability. Currently, the Sacramento Mountains checkerspot butterfly is extant in two locations, representing only two metapopulation units, which is insufficient to support a robust, functioning metapopulation structure and, therefore, the viability of the species. We are reasonably certain that the unoccupied areas will contribute to the conservation of the species and contain one or more of the physical or biological features and are, therefore, considered habitat for the species. Additionally, the unoccupied units qualify as ''habitat'' for the species because they contain the resources necessary (*i.e.,* open meadow, grassland habitat with nectar sources) to support the life processes of the Sacramento Mountains checkerspot butterfly.

To identify critical habitat units for the Sacramento Mountains checkerspot butterfly, we used a variety of sources for species data. We used literature published on the species (Ferris and Holland 1980, entire; Forest Service 1999, entire; Pittenger and Yori 2003, entire) and the conservation plan developed by the Service (2005, entire) to determine habitat needs and locations of the butterfly. We also relied on annual Forest Service survey reports and data collected between 1999 and 2020 (Forest Service 1999, entire; Forest Service 2017, entire; Forest Service 2020a, entire) and associated mapping data (Forest Service 2020b, unpaginated) provided by the Forest Service for areas currently occupied by the Sacramento Mountains checkerspot butterfly and areas surveyed regularly. We supplemented this information with expert knowledge gathered during the development of the current condition assessment report (Service 2022, entire).

We determined that an area (in this case a meadow) was occupied at the time of listing for Sacramento Mountains checkerspot butterfly if:

(1) The meadow is located within the historical range of the species;

(2) The meadow contains at least physical or biological features (1) through (3), and (5), as described above under *Summary of Essential Physical or Biological Features;*

(3) Adults have been observed during surveys from 3 or more of the most recent consecutive years (2021 and earlier); and

(4) There is evidence of reproduction during one of the three most recent consecutive surveys (2021 and earlier).

Therefore, if meadows do not meet these criteria, we determined that those areas were unoccupied at the time of listing. The sources of data for our occupied proposed critical habitat units for the Sacramento Mountains checkerspot butterfly were the original digitized polygons provided by the Forest Service.

For areas outside the geographical area occupied by the species at the time of listing, we delineated critical habitat unit boundaries using the original digitized polygons provided by the Forest Service and the 2020 National Agricultural Imagery Program (NAIP) 0.6-meter imagery. We resampled the NAIP imagery to 1 meter using ESRI ArcGIS Pro and classified that data into two classes: open space or tree cover. We were then able to identify areas that had greater than 95 percent open canopy, as required by the species. Using the Focal Statistics results (95–100 percent) as a guide, we digitized new polygons at the 1:5000 scale and updated the original Forest Service polygons to include and connect areas that meet the definition of critical habitat for the Sacramento Mountains checkerspot butterfly.

In summary, for areas outside the geographical area occupied by the species at the time of listing, we delineated critical habitat unit boundaries using the following criteria:

(1) Areas within the historical range of the species (*i.e.,* areas where the butterfly was detected by Forest Service surveys, but not necessarily in the past 3 consecutive years).

(2) Areas with 95 percent or greater open canopy.

(3) Areas not currently occupied but presumed to be suitable habitat because they contain at least some of the essential physical or biological features.

(4) Habitat that provides connectivity due to its proximity between currently occupied and/or unoccupied areas.

When determining proposed critical habitat boundaries, we made every effort to avoid including developed areas such as lands covered by buildings, pavement, and other structures because such lands lack physical or biological features necessary for the Sacramento Mountains checkerspot butterfly. The scale of the maps we prepared under the parameters for publication within the Code of Federal Regulations may not reflect the exclusion of such developed lands. Any such lands inadvertently left inside critical habitat boundaries shown on the maps of this proposed rule have been excluded by text in the proposed rule and are not proposed for designation as critical habitat. Therefore, if the critical habitat is finalized as proposed, a Federal action involving these lands would not trigger section 7 consultation with respect to critical habitat and the requirement of no adverse modification unless the specific action would affect the physical or biological features in the adjacent critical habitat.

We propose to designate as critical habitat lands that we have determined are occupied at the time of listing (*i.e.,* currently occupied) and that contain one or more of the physical or biological features that are essential to support life-history processes of the species. We have determined that occupied areas are inadequate to ensure the conservation of the species. Therefore, we have also identified, and propose for designation as critical habitat, unoccupied areas that are essential for the conservation of the species.

Units are proposed for designation based on one or more of the physical or biological features being present to support the Sacramento Mountains checkerspot butterfly's life-history processes. Some units contain all of the identified physical or biological features and support multiple life-history processes. Some units contain only some of the physical or biological features necessary to support the Sacramento Mountains checkerspot butterfly's particular use of that habitat.

The proposed critical habitat designation is defined by the map or maps, as modified by any accompanying regulatory text, presented at the end of this document under Proposed Regulation Promulgation. We include more detailed information on the boundaries of the critical habitat designation in the preamble of this document. We will make the coordinates or plot points or both on which each map is based available to the public on *https://www.regulations.gov* at Docket No. FWS–R2–ES–2023–0023 and on our internet site *https://www.fws.gov/about/region/southwest.*

Proposed Critical Habitat Designation

We are proposing nine units as critical habitat for the Sacramento Mountains checkerspot butterfly. The critical habitat areas we describe below constitute our current best assessment of areas that meet the definition of critical habitat for the Sacramento Mountains checkerspot butterfly. The nine areas we propose as critical habitat are: (1) Bailey Canyon; (2) Pines Meadow Campground; (3) Spud Patch Canyon; (4) Silver Springs Canyon; (5) Horse Pasture Meadow; (6) Sleepygrass Canyon; (7) Pumphouse Canyon; (8) Deerhead Canyon; and (9) Cox Canyon. Table 1 shows the proposed critical habitat units, the approximate area, land ownership, and occupancy of each unit.

TABLE 1—PROPOSED CRITICAL HABITAT UNITS FOR SACRAMENTO MOUNTAINS CHECKERSPOT BUTTERFLY

[Area estimates reflect all land within critical habitat unit boundaries, including areas being considered for exclusion]

Unit name	Occupied	Land ownership * acres (hectares)			Total
		Federal	Tribal	Private	
1. Bailey Canyon	Yes	200.5 (81.1)			200.5 (81.1)
2. Pines Meadow Campground	Yes	62.2 (25.2)		0.2 (0.08)	62.4 (25.2)
3. Spud Patch Canyon	No	203.9 (82.5)	22.4 (9.1)	50.9 (20.6)	277.2 (112.2)
4. Silver Springs Canyon	No	132.9 (53.8)		70.5 (28.5)	203.4 (82.3)
5. Horse Pasture Meadow	No	82.4 (33.4)			82.4 (33.4)
6. Sleepygrass Canyon	No	123.5 (50.0)		100.0 (40.5)	223.5 (90.5)
7. Pumphouse Canyon	No	134.4 (54.4)		2.2 (0.9)	136.6 (55.3)
8. Deerhead Canyon	No	22.1 (8.9)		11.0 (4.5)	33.1 (13.4)
9. Cox Canyon	No	132.1 (53.5)		285.7 (115.6)	417.8 (169.0)
Total		1,093.9 (442.7)	22.4 (9.1)	520.5 (210.6)	1,636.9 (662.4)

* **Note:** Area sizes may not sum due to rounding.

We present brief descriptions of all units, and reasons why they meet the definition of critical habitat for the Sacramento Mountains checkerspot butterfly, below. All areas in the unoccupied units (Units 3 through 9) meet the definition of critical habitat because they are outside the geographical area occupied by the species at the time of listing, were historically occupied by the Sacramento Mountains checkerspot butterfly, and are essential for the conservation of the species (see each unit description below for details). Units 3 through 9 qualify as habitat for the species because they contain the resources necessary (*i.e.,* open meadow, grassland habitat with nectar sources) to support the life processes of the Sacramento Mountains checkerspot butterfly. The Forest Service is assessing the unoccupied meadows to prioritize them for habitat restoration efforts that would benefit the Sacramento Mountains checkerspot butterfly. Once restored, these areas will be used to establish future occupancy via translocations and reintroductions. Establishing new populations in suitable habitat through captive rearing

and reintroduction or translocation is part of our recovery planning efforts for the Sacramento Mountains checkerspot butterfly. Individuals from extant meadows (Bailey Canyon and Pines Meadow Campground) may be translocated to currently unoccupied meadows once they contain suitable habitat. Additionally, captive rearing efforts are ongoing from which we plan to reintroduction individuals to restored meadows. We are reasonably certain that these areas will contribute to the conservation of the Sacramento Mountains checkerspot butterfly because these areas were historically occupied by the species and, since the species is currently restricted to two canyon systems, it is necessary to expand the existing population into other areas to reach recovery. Furthermore, we are working closely with the Forest Service, where a majority of the proposed critical habitat falls on Forest Service-managed lands, to ensure conservation measures and habitat restoration are conducted and ongoing in all areas possible to support the species for translocations and reintroductions. Additionally, the threats specified in each unit (see descriptions below), can be managed in ways to ensure survival and future reproduction of reintroduced populations. Site-specific reasons that we are reasonably certain that each area will contribute to the conservation of the species are explained below.

Unit 1: Bailey Canyon

Unit 1 consists of approximately 200.5 ac (81.1 ha) and is in the Sacramento Ranger District in the northwestern portion of the butterfly's range. The unit is occupied and is located entirely on the Lincoln National Forest. This unit contains physical or biological features (1) through (3) and (5), as described above under *Summary of Essential Physical or Biological Features.*

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service is actively managing this unit by surveying for the butterfly during the active period, erecting exclosures to allow habitat to recover, and planting New Mexico beardtongue and other native nectar sources. This unit may require special management considerations to control invasive plant species, reduce recreational use, and reduce or remove browse pressure from large ungulates.

Unit 2: Pines Meadow Campground

Unit 2 consists of approximately 62.4 ac (25.2 ha) and is located in the northwestern portion of the butterfly's range. The unit is primarily in the Sacramento Ranger District. The unit is occupied and contains all of the physical or biological features described above under *Summary of Essential Physical or Biological Features.*

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service is actively managing some areas of this unit by surveying for the butterfly during the species' active period and erecting exclosures to allow habitat to recover. This unit may require special management considerations to control invasive plant species, reduce recreational use, and reduce or remove browse pressure from f large ungulates.

Unit 3: Spud Patch Canyon

Unit 3 consists of a total of approximately 277.2 ac (112.2 ha) and is located in the northeastern portion of the butterfly's historical range. The unit is primarily within the Sacramento Ranger District. This unit contains physical or biological features (1) through (3) and (5), as described above under *Summary of Essential Physical or Biological Features.* This unit is unoccupied and is essential for the conservation of the species because it contains most of the physical or biological features essential to the species and was historically occupied by the species. This unit would provide a suitable reintroduction site for the species and once established, would increase the species redundancy and representation by serving as a separate source population should any catastrophic events impact the other meadows proposed for designation as critical habitat. The Forest Service is currently conducting riparian restoration in this area, which will help expand and revitalize habitat for the Sacramento Mountains checkerspot butterfly through the reestablishment of native plant species. Because this unit is mostly located on Federal land and would contribute to metapopulation dynamics and genetic rescue should a population be reestablished, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service is surveying for adult butterflies annually in some of the areas on the Lincoln National Forest in this unit. Within this unit, a total of 22.4 ac (9.1 ha) of land owned by the Mescalero Apache Tribe is being considered for exclusion.

Unit 4: Silver Springs Canyon

Unit 4 consists of approximately 203.4 ac (82.3 ha) in the north-central portion of the butterfly's historical range and lies to the northeast of the village of Cloudcroft. The unit is partly within the Sacramento Ranger District and is unoccupied. This unit contains physical or biological features (1), (3), and (5), as described above under *Summary of Essential Physical or Biological Features.* This unit is essential for the conservation of the species because it contains most of the physical or biological features essential to the conservation of the species and would increase species redundancy and representation by serving as a separate population from the other meadows proposed for designation as critical habitat if a population is reestablished in this areas in the future, contributing to metapopulation dynamics while enhancing connectivity between meadows with recently detected butterflies and meadows that contain suitable habitat. Because this unit is primarily on federally owned lands and abuts areas that are currently occupied by the Sacramento Mountains checkerspot butterfly, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service is also surveying the areas on the Lincoln National Forest in this unit annually for adult butterflies.

Unit 5: Horse Pasture Meadow

Unit 5 consists of approximately 82.4 ac (33.4 ha) and is located in the central portion of the butterfly's historical range. It lies to the east of the village of Cloudcroft. This unit is unoccupied, contains all of the physical or biological features described above under *Summary of Essential Physical or Biological Features,* and is entirely on the Lincoln National Forest in the Sacramento Ranger District. This unit is essential for the conservation of the species because it contains all of the physical or biological features essential to the conservation of the species and would increase species redundancy by serving as a separate population from other meadows proposed for designation as critical habitat should a

population be reestablished in this area in the future, contributing to metapopulation dynamics while enhancing connectivity between meadows with recently detected butterflies and meadows that contain suitable habitat. Because this unit abuts an area that is currently occupied by the Sacramento Mountains checkerspot butterfly, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. Suitable habitat in Horse Pasture Meadow was previously eliminated by logging to create a helicopter pad. The butterfly has not been detected in this unit since construction of the helicopter pad, which was constructed for helicopters that transport people and supplies to fight forest fires. The helicopter pad is no longer there, and there is open meadow habitat. This unit has been somewhat revegetated, and New Mexico beardtongue and nectar sources now exist in this area. Additional habitat restoration techniques could be used to restore butterfly habitat in this area. Forest Service is planning to actively manage this former habitat to encourage species recovery.

Unit 6: Sleepygrass Canyon

Unit 6 consists of approximately 223.5 ac (90.5 ha) and is located in the central portion of the butterfly's historical range, east of the village of Cloudcroft. This unit is unoccupied; 55.3 percent of the unit is located on the Lincoln National Forest in the Sacramento Ranger District, and 44.7 percent is located on privately owned land. This unit contains all of the physical or biological features described above under *Summary of Essential Physical or Biological Features.* This unit is essential for the conservation of the species because it contains all of the physical or biological features and would increase species redundancy by serving as a separate population from other meadows proposed for designation as critical habitat should a population be reestablished in this area in the future, while enhancing connectivity between meadows with recently detected butterflies and meadows that contain suitable habitat. Because this unit would contribute to metapopulation dynamics should a population be reestablished, is located partially on Federal land, and abuts two other areas that contain several of the essential physical or biological features for the Sacramento Mountains checkerspot butterfly, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. Forest Service is surveying areas on the Lincoln National Forest in this unit annually for adult butterflies.

Unit 7: Pumphouse Canyon

Unit 7 consists of a total of approximately 136.6 ac (55.3 ha) and is located in the southern portion of the butterfly's range, southeast of the village of Cloudcroft. The unit is unoccupied and contains physical or biological features (1) through (3) and (5), as described above under *Summary of Essential Physical or Biological Features.* This unit is essential for the conservation of the species because it contains several of the physical or biological features essential to the conservation of the species and would increase species redundancy and representation by, while enhancing connectivity between meadows with recently detected butterflies and meadows that contain suitable habitat, and serving as a separate population from other meadows proposed for designation as critical habitat should a population be reestablished in this area in the future. Because this unit abuts an area that contains several of the essential physical or biological features for the Sacramento Mountains checkerspot butterfly, and is located mostly on Federal lands, we are reasonably certain that the unit will contribute to the conservation of the species.

A portion of this unit is part of an active grazing allotment. The Forest Service consults on active grazing allotment permits every 5 years. Threats that are occurring in this area include incompatible grazing by large ungulates (including livestock), recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service restored this area using invasive species management, and native habitat has already been established. The Forest Service is also surveying the portions of this unit located on the Lincoln National Forest for adult butterflies annually.

Unit 8: Deerhead Canyon

Unit 8 consists of approximately 33.1 ac (13.4 ha) and is southeast of the village of Cloudcroft in the southern portion of the butterfly's historical range. This unit is unoccupied and contains physical or biological features (1) through (3) and (5), as described above under *Summary of Essential Physical or Biological Features.* This unit is essential for the conservation of the species because it contains most of the physical or biological features essential to the conservation of the species, and would increase species redundancy and representation by serving as a separate source population should any catastrophic events impact the other meadows proposed for designation as critical habitat should a population be reestablished in this area in the future, while enhancing connectivity between meadows with suitable habitat. Because this unit is mostly located on Federal land and would contribute to metapopulation dynamics and genetic rescue if a population were to be reestablished in this area, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and nonnative plants, climate change, and altered fire regime. The Forest Service is surveying the portions of this unit on the Lincoln National Forest for adult butterflies annually.

Unit 9: Cox Canyon

Unit 9 consists of approximately 417.8 ac (169.0 ha) and is located in the southern portion of the butterfly's historical range, south of the village of Cloudcroft. This unit is unoccupied; 31.62 percent is located on the Lincoln National Forest, and 68.38 percent is located on privately owned land. This unit contains physical or biological features (1) through (3) and (5), as described above under *Summary of Essential Physical or Biological Features.* This unit is essential for the conservation of the species because it contains most of the physical or biological features essential to the conservation of the species and would increase species redundancy and representation by serving as a separate source population from other meadows proposed for designation as critical habitat if a population were to be reestablished here, while enhancing connectivity between meadows with recently detected butterflies and meadows that contain suitable habitat. Because this unit would contribute to metapopulation dynamics should a population be reestablished, we are reasonably certain that the unit will contribute to the conservation of the species.

Threats that are occurring in this area include incompatible grazing by large ungulates, recreation, invasive and

nonnative plants, climate change, and altered fire regime. Forest Service is surveying the portions of this unit on the Lincoln National Forest for adult butterflies annually.

Effects of Critical Habitat Designation

Section 7 Consultation

Section 7(a)(2) of the Act requires Federal agencies, including the Service, to ensure that any action they fund, authorize, or carry out is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of designated critical habitat of such species. In addition, section 7(a)(4) of the Act requires Federal agencies to confer with the Service on any agency action which is likely to jeopardize the continued existence of any species proposed to be listed under the Act or result in the destruction or adverse modification of proposed critical habitat.

We published a final rule revising the definition of destruction or adverse modification on August 27, 2019 (84 FR 44976). Destruction or adverse modification means a direct or indirect alteration that appreciably diminishes the value of critical habitat as a whole for the conservation of a listed species.

If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency (action agency) must enter into consultation with us. Examples of actions that are subject to the section 7 consultation process are actions on State, Tribal, local, or private lands that require a Federal permit (such as a permit from the U.S. Army Corps of Engineers under section 404 of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or a permit from the Service under section 10 of the Act) or that involve some other Federal action (such as funding from the Federal Highway Administration, Federal Aviation Administration, or the Federal Emergency Management Agency). Federal actions not affecting listed species or critical habitat—and actions on State, Tribal, local, or private lands that are not federally funded, authorized, or carried out by a Federal agency—do not require section 7 consultation.

Compliance with the requirements of section 7(a)(2) is documented through our issuance of:

(1) A concurrence letter for Federal actions that may affect, but are not likely to adversely affect, listed species or critical habitat; or

(2) A biological opinion for Federal actions that may affect, and are likely to adversely affect, listed species or critical habitat.

When we issue a biological opinion concluding that a project is likely to jeopardize the continued existence of a listed species and/or destroy or adversely modify critical habitat, we provide reasonable and prudent alternatives to the project, if any are identifiable, that would avoid the likelihood of jeopardy and/or destruction or adverse modification of critical habitat. We define ''reasonable and prudent alternatives'' (at 50 CFR 402.02) as alternative actions identified during consultation that:

(1) Can be implemented in a manner consistent with the intended purpose of the action,

(2) Can be implemented consistent with the scope of the Federal agency's legal authority and jurisdiction,

(3) Are economically and technologically feasible, and

(4) Would, in the Service Director's opinion, avoid the likelihood of jeopardizing the continued existence of the listed species and/or avoid the likelihood of destroying or adversely modifying critical habitat.

Reasonable and prudent alternatives can vary from slight project modifications to extensive redesign or relocation of the project. Costs associated with implementing a reasonable and prudent alternative are similarly variable.

Regulations at 50 CFR 402.16 set forth requirements for Federal agencies to reinitiate consultation on previously reviewed actions. These requirements apply when the Federal agency has retained discretionary involvement or control over the action (or the agency's discretionary involvement or control is authorized by law) and, subsequent to the previous consultation: (a) if the amount or extent of taking specified in the incidental take statement is exceeded; (b) if new information reveals effects of the action that may affect listed species or critical habitat in a manner or to an extent not previously considered; (c) if the identified action is subsequently modified in a manner that causes an effect to the listed species or critical habitat that was not considered in the biological opinion or written concurrence; or (d) if a new species is listed or critical habitat designated that may be affected by the identified action. The reinitiation requirement applies only to actions that remain subject to some discretionary Federal involvement or control. As provided in 50 CFR 402.16, the requirement to reinitiate consultations for new species listings or critical habitat designation does not apply to certain agency actions (*e.g.,* land management plans issued by the Bureau of Land Management in certain circumstances.

Application of the ''Destruction or Adverse Modification'' Standard

The key factor related to the destruction or adverse modification determination is whether implementation of the proposed Federal action directly or indirectly alters the designated critical habitat in a way that appreciably diminishes the value of the critical habitat for the conservation of the listed species. As discussed above, the role of critical habitat is to support the physical or biological features essential to the conservation of a listed species and provide for the conservation of the species.

Section 4(b)(8) of the Act requires us to briefly evaluate and describe, in any proposed or final regulation that designates critical habitat, activities involving a Federal action that may violate section 7(a)(2) of the Act by destroying or adversely modifying such habitat, or that may be affected by such designation.

Activities that we may, during a consultation under section 7(a)(2) of the Act, consider likely to destroy or adversely modify critical habitat include, but are not limited to:

(1) Actions that would remove or alter Sacramento Mountains checkerspot butterfly's native food plants (New Mexico beardtongue, orange sneezeweed, and other native nectar sources), or tobacco root. Such activities could include, but are not limited to, grading, leveling, plowing, mowing, burning, herbicide or pesticide spraying, incompatible grazing, or otherwise disturbing non-forested openings that result in the death of or injury to eggs, larvae, or adult Sacramento Mountains checkerspot butterflies. These activities could significantly impair or eliminate the habitat necessary for the taxon's breeding, foraging, sheltering, or other essential life functions.

(2) Actions that would alter the soil structure on which native food plants are dependent. Such activities could include, but are not limited to, erosion control activities, such as the installation of structures or vegetation and grading for construction purposes. These activities could significantly impair or eliminate the habitat that is essential for the survival and reproduction of Sacramento Mountains checkerspot butterfly's native food plants.

Exemptions

Application of Section 4(a)(3) of the Act

Section 4(a)(3)(B)(i) of the Act (16 U.S.C. 1533(a)(3)(B)(i)) provides that the Secretary shall not designate as critical habitat any lands or other geographical areas owned or controlled by the Department of Defense (DoD), or designated for its use, that are subject to an integrated natural resources management plan (INRMP) prepared under section 101 of the Sikes Act Improvement Act of 1997 (16 U.S.C. 670a), if the Secretary determines in writing that such plan provides a benefit to the species for which critical habitat is proposed for designation. No DoD lands with a completed INRMP are within the proposed critical habitat designation.

Consideration of Impacts Under Section 4(b)(2) of the Act

Section 4(b)(2) of the Act states that the Secretary shall designate and make revisions to critical habitat on the basis of the best available scientific data after taking into consideration the economic impact, national security impact, and any other relevant impact of specifying any particular area as critical habitat. The Secretary may exclude an area from designated critical habitat based on economic impacts, impacts on national security, or any other relevant impacts. Exclusion decisions are governed by the regulations at 50 CFR 424.19 and the Policy Regarding Implementation of Section 4(b)(2) of the Endangered Species Act (hereafter, the ''2016 Policy''; 81 FR 7226, February 11, 2016), both of which were developed jointly with the National Marine Fisheries Service (NMFS). We also refer to a 2008 Department of the Interior Solicitor's opinion entitled, ''The Secretary's Authority to Exclude Areas from a Critical Habitat Designation under Section 4(b)(2) of the Endangered Species Act'' (M–37016).

In considering whether to exclude a particular area from the designation, we identify the benefits of including the area in the designation, identify the benefits of excluding the area from the designation, and evaluate whether the benefits of exclusion outweigh the benefits of inclusion. If the analysis indicates that the benefits of exclusion outweigh the benefits of inclusion, the Secretary may exercise discretion to exclude the area only if such exclusion would not result in the extinction of the species. In making the determination to exclude a particular area, the statute on its face, as well as the legislative history, are clear that the Secretary has broad discretion regarding which factor(s) to use and how much weight to give to any factor. In our final rules, we explain any decision to exclude areas, as well as decisions not to exclude, to demonstrate that the decision is reasonable. We describe below the process that we use for taking into consideration each category of impacts and any initial analyses of the relevant impacts.

Consideration of Economic Impacts

Section 4(b)(2) of the Act and its implementing regulations require that we consider the economic impact that may result from a designation of critical habitat. To assess the probable economic impacts of a designation, we must first evaluate specific land uses or activities and projects that may occur in the area of the critical habitat. We then must evaluate the impacts that a specific critical habitat designation may have on restricting or modifying specific land uses or activities for the benefit of the species and its habitat within the areas proposed. We then identify which conservation efforts may be the result of the species being listed under the Act versus those attributed solely to the designation of critical habitat for this particular species. The probable economic impact of a proposed critical habitat designation is analyzed by comparing scenarios both ''with critical habitat'' and ''without critical habitat.''

The ''without critical habitat'' scenario represents the baseline for the analysis, which includes the existing regulatory and socio-economic burden imposed on landowners, managers, or other resource users potentially affected by the designation of critical habitat (*e.g.,* under the Federal listing as well as other Federal, State, and local regulations). Therefore, the baseline represents the costs of all efforts attributable to the listing of the species under the Act (*i.e.,* conservation of the species and its habitat incurred regardless of whether critical habitat is designated). The ''with critical habitat'' scenario describes the incremental impacts associated specifically with the designation of critical habitat for the species. The incremental conservation efforts and associated impacts would not be expected without the designation of critical habitat for the species. In other words, the incremental costs are those attributable solely to the designation of critical habitat, above and beyond the baseline costs. These are the costs we use when evaluating the benefits of inclusion and exclusion of particular areas from the final designation of critical habitat should we choose to conduct a discretionary 4(b)(2) exclusion analysis.

Executive Orders (E.O.s) 12866 and 13563 direct Federal agencies to assess the costs and benefits of available regulatory alternatives in quantitative (to the extent feasible) and qualitative terms. Consistent with the E.O. regulatory analysis requirements, our effects analysis under the Act may take into consideration impacts to both directly and indirectly affected entities, where practicable and reasonable. If sufficient data are available, we assess to the extent practicable the probable impacts to both directly and indirectly affected entities Section 3(f) of E.O. 12866 identifies four criteria when a regulation is considered a ''significant regulatory action'' and requires additional analysis, review, and approval if met. The criterion relevant here is whether the designation of critical habitat may have an economic effect of $200 million or more in any given year (section 3(f)(1)). Therefore, our consideration of economic impacts uses a screening analysis to assess whether a designation of critical habitat for Sacramento Mountains checkerspot butterfly is likely to exceed the economically significant threshold.

For this particular designation, we developed an incremental effects memorandum (IEM) considering the probable incremental economic impacts that may result from this proposed designation of critical habitat. The information contained in our IEM was then used to develop a screening analysis of the probable effects of the designation of critical habitat for the Sacramento Mountains checkerspot butterfly (IEc 2023, entire). We began by conducting a screening analysis of the proposed designation of critical habitat in order to focus our analysis on the key factors that are likely to result in incremental economic impacts. The purpose of the screening analysis is to filter out particular geographical areas of critical habitat that are already subject to such protections and are, therefore, unlikely to incur incremental economic impacts. In particular, the screening analysis considers baseline costs (*i.e.,* absent critical habitat designation) and includes any probable incremental economic impacts where land and water use may already be subject to conservation plans, land management plans, best management practices, or regulations that protect the habitat area as a result of the Federal listing status of the species. Ultimately, the screening analysis allows us to focus our analysis on evaluating the specific areas or sectors that may incur probable incremental economic impacts as a result of the designation.

The presence of the listed species in occupied areas of critical habitat means that any destruction or adverse modification of those areas is also likely to jeopardize the continued existence of the species. Therefore, designating occupied areas as critical habitat typically causes little if any incremental impact above and beyond the impact of listing the species. As a result, we generally focus the screening analysis on areas of unoccupied critical habitat (unoccupied units or unoccupied areas within occupied units). Overall, the screening analysis assesses whether designation of critical habitat is likely to result in any additional management or conservation efforts that may incur incremental economic impacts. This screening analysis combined with the information contained in our IEM constitute what we consider to be our draft economic analysis (DEA) of the proposed critical habitat designation for the Sacramento Mountains checkerspot butterfly; our DEA is summarized in the narrative below.

As part of our screening analysis, we considered the types of economic activities that are likely to occur within the areas likely affected by the critical habitat designation. In our evaluation of the probable incremental economic impacts that may result from the proposed designation of critical habitat for the Sacramento Mountains checkerspot butterfly, first we identified, in the IEM dated November 3, 2022, probable incremental economic impacts associated with the following categories of activities: (1) Fire management (*i.e.,* fuels reduction projects, controlled burns); (2) habitat restoration (*i.e.,* growing and planting native plants, building and maintaining exclosures, selective watering); (3) erosion control; (4) invasive plant management; (5) recreation management; (6) road construction and maintenance; and (7) grazing. We considered each industry or category individually. Additionally, we considered whether their activities have any Federal involvement. Critical habitat designation generally will not affect activities that do not have any Federal involvement; under the Act, designation of critical habitat affects only activities conducted, funded, permitted, or authorized by Federal agencies. In areas where the Sacramento Mountains checkerspot butterfly is present, Federal agencies are already required to consult with the Service under section 7 of the Act on activities they fund, permit, or implement that may affect the species. If we finalize this proposed critical habitat designation, Federal agencies would be required to consider the effects of their actions on the designated habitat, and if the Federal action may affect critical habitat, our consultations will include an evaluation of measures to avoid the destruction or adverse modification of critical habitat.

In our IEM, we attempted to clarify the distinction between the effects that would result from the species being listed and those attributable to the critical habitat designation (*i.e.,* difference between the jeopardy and adverse modification standards) for the Sacramento Mountains checkerspot butterfly's critical habitat. The IEM outlines our rationale concerning this limited distinction between baseline conservation efforts and incremental impacts of the designation of critical habitat for this species. This evaluation of the incremental effects has been used as the basis to evaluate the probable incremental economic impacts of this proposed designation of critical habitat.

The proposed critical habitat designation for the Sacramento Mountains checkerspot butterfly includes approximately 1,636.9 acres (662.4 hectares) in nine units in Otero County, New Mexico. Two of the units are occupied, and seven of the units are unoccupied, by the Sacramento Mountains checkerspot butterfly. The unoccupied areas comprise 84 percent of the total proposed critical habitat area. Approximately 32 percent of the total proposed designation is located on private lands, 67 percent on Federal lands, and 1 percent on Tribal lands.

For the areas that are occupied by the species (16 percent of the proposed critical habitat designation), the economic impacts of designating critical habitat under section 7 of the Act are likely limited to additional administrative efforts to consider adverse modification under section 7. This is because any activities occurring in these areas and that require Federal approval or funding will be subject to section 7 consultation requirements regardless of critical habitat designation because the species may be present and any recommended project modifications to avoid adversely modifying critical habitat are the same as those needed to avoid jeopardizing the species.

For the areas unoccupied by the species (84 percent of the proposed critical habitat designation), incremental section 7 costs may include the administrative costs of consultation, as well as the costs of developing and implementing conservation measures for the species. This may include invasive species management activities, feral horse/large ungulate management activities (including fencing), and other land management activities by the Forest Service on the Lincoln National Forest. On private lands, consultation activities and related conservation actions are anticipated to be limited. Because a portion of Unit 3 (Spud Patch Canyon) is on Mescalero Apache Tribal land, we are considering that area for exclusion. Therefore, the probable economic impact may be less than anticipated for this unit.

The overall incremental costs of critical habitat designation for the Sacramento Mountains checkerspot butterfly are anticipated to be less than $117,000 per year during the next 10 years. In total, fewer than one programmatic consultation, one formal consultation, two informal consultations, and six technical assistance efforts are anticipated to occur annually in proposed critical habitat areas. The incremental administrative costs of consultations are approximately $32,000 per year (2022 dollars). Project modifications in unoccupied habitat for the Sacramento Mountains checkerspot butterfly have the potential to increase conservation in these areas, resulting in an incremental benefit. Data limitations preclude our ability to monetize these benefits; however, project modifications are unlikely to exceed $200 million in a given year. Data limitations impede our ability to confidently estimate the total incremental costs of establishing critical habitat for the Sacramento Mountains checkerspot butterfly. However, available information suggests it is unlikely that the incremental costs will reach $200 million in a given year based on the estimated annual number of consultations and per-unit consultation costs. The designation is unlikely to trigger additional requirements under State or local regulations and is not expected to affect property values.

We are soliciting data and comments from the public on the DEA discussed above. During the development of a final designation, we will consider the information presented in the DEA and any additional information on economic impacts we receive during the public comment period to determine whether any specific areas should be excluded from the final critical habitat designation under the authority of section 4(b)(2) of the Act, our implementing regulations at 50 CFR 424.19, and the 2016 Policy. We may exclude an area from critical habitat if we determine that the benefits of excluding the area outweigh the benefits of including the area, provided the exclusion will not result in the extinction of this species.

Consideration of National Security Impacts

Section 4(a)(3)(B)(i) of the Act may not cover all DoD lands or areas that pose potential national-security concerns (*e.g.,* a DoD installation that is in the process of revising its INRMP for a newly listed species or a species previously not covered). If a particular area is not covered under section 4(a)(3)(B)(i), then national-security or homeland-security concerns are not a factor in the process of determining what areas meet the definition of ''critical habitat.'' However, the Service must still consider impacts on national security, including homeland security, on those lands or areas not covered by section 4(a)(3)(B)(i) because section 4(b)(2) requires the Service to consider those impacts whenever it designates critical habitat. Accordingly, if DoD, Department of Homeland Security (DHS), or another Federal agency has requested exclusion based on an assertion of national-security or homeland-security concerns, or we have otherwise identified national-security or homeland-security impacts from designating particular areas as critical habitat, we generally have reason to consider excluding those areas.

However, we cannot automatically exclude requested areas. When DoD, DHS, or another Federal agency requests exclusion from critical habitat on the basis of national-security or homeland-security impacts, we must conduct an exclusion analysis if the Federal requester provides information, including a reasonably specific justification of an incremental impact on national security that would result from the designation of that specific area as critical habitat. That justification could include demonstration of probable impacts, such as impacts to ongoing border-security patrols and surveillance activities, or a delay in training or facility construction, as a result of compliance with section 7(a)(2) of the Act. If the agency requesting the exclusion does not provide us with a reasonably specific justification, we will contact the agency to recommend that it provide a specific justification or clarification of its concerns relative to the probable incremental impact that could result from the designation. If we conduct an exclusion analysis because the agency provides a reasonably specific justification or because we decide to exercise the discretion to conduct an exclusion analysis, we will defer to the expert judgment of DoD, DHS, or another Federal agency as to: (1) Whether activities on its lands or waters, or its activities on other lands or waters, have national-security or homeland-security implications; (2) the importance of those implications; and (3) the degree to which the cited implications would be adversely affected in the absence of an exclusion. In that circumstance, in conducting a discretionary section 4(b)(2) exclusion analysis, we will give great weight to national-security and homeland-security concerns in analyzing the benefits of exclusion.

In preparing this proposal, we have determined that the lands within the proposed designation of critical habitat for the Sacramento Mountains checkerspot butterfly are not owned or managed by the DoD or DHS, and, therefore, we anticipate no impact on national security or homeland security.

Consideration of Other Relevant Impacts

Under section 4(b)(2) of the Act, we consider any other relevant impacts, in addition to economic impacts and impacts on national security discussed above. To identify other relevant impacts that may affect the exclusion analysis, we consider a number of factors, including whether there are permitted conservation plans covering the species in the area—such as HCPs, safe harbor agreements (SHAs), or candidate conservation agreements with assurances (CCAAs)—or whether there are non-permitted conservation agreements and partnerships that may be impaired by designation of, or exclusion from, critical habitat. In addition, we look at whether Tribal conservation plans or partnerships, Tribal resources, or government-to-government relationships of the United States with Tribal entities may be affected by the designation. We also consider any State, local, social, or other impacts that might occur because of the designation.

When analyzing other relevant impacts of including a particular area in a designation of critical habitat, we weigh those impacts relative to the conservation value of the particular area. To determine the conservation value of designating a particular area, we consider a number of factors, including, but not limited to, the additional regulatory benefits that the area would receive due to the protection from destruction or adverse modification as a result of actions with a Federal nexus, the educational benefits of mapping essential habitat for recovery of the listed species, and any benefits that may result from a designation due to State or Federal laws that may apply to critical habitat.

In the case of the Sacramento Mountains checkerspot butterfly, the benefits of critical habitat include public awareness of the presence of the Sacramento Mountains checkerspot butterfly and the importance of habitat protection, and, where a Federal nexus exists, increased habitat protection for the Sacramento Mountains checkerspot butterfly due to protection from destruction or adverse modification of critical habitat. Continued implementation of an ongoing management plan that provides conservation equal to or more than the protections that result from a critical habitat designation would reduce those benefits of including that specific area in the critical habitat designation.

After identifying the benefits of inclusion and the benefits of exclusion, we carefully weigh the two sides to evaluate whether the benefits of exclusion outweigh those of inclusion. If our analysis indicates that the benefits of exclusion outweigh the benefits of inclusion, we then determine whether exclusion would result in extinction of the species. If exclusion of an area from critical habitat will result in extinction, we will not exclude it from the designation.

Tribal Lands

Several Executive Orders, Secretary's Orders, and policies concern working with Tribes. These guidance documents generally confirm our trust responsibilities to Tribes, recognize that Tribes have sovereign authority to control Tribal lands, emphasize the importance of developing partnerships with Tribal governments, and direct the Service to consult with Tribes on a government-to-government basis.

A joint Secretary's Order that applies to both the Service and NMFS—Secretary's Order 3206, *American Indian Tribal Rights, Federal–Tribal Trust Responsibilities, and the Endangered Species Act* (June 5, 1997) (S.O. 3206)—is the most comprehensive of the various guidance documents related to Tribal relationships and Act implementation, and it provides the most detail directly relevant to the designation of critical habitat. In addition to the general direction discussed above, the appendix to S.O. 3206 explicitly recognizes the right of Tribes to participate fully in any listing process that may affect Tribal rights or Tribal trust resources; this includes the designation of critical habitat. Section 3(B)(4) of the appendix requires the Service to consult with affected Tribes, ''when considering the designation of critical habitat in an area that may impact Tribal trust resources, Tribally-

owned fee lands, or the exercise of Tribal rights.'' That provision also instructs the Service to avoid including Tribal lands within a critical habitat designation unless the area is essential to conserve a listed species, and it requires the Service to ''evaluate and document the extent to which the conservation needs of the listed species can be achieved by limiting the designation to other lands.''

Our implementing regulations at 50 CFR 424.19 and the 2016 Policy are consistent with S.O. 3206. When we undertake a discretionary exclusion analysis under section 4(b)(2) of the Act, in accordance with S.O. 3206, we consult with any Tribe whose Tribal trust resources, tribally owned fee lands, or Tribal rights may be affected by including any particular areas in the designation. We evaluate the extent to which the conservation needs of the species can be achieved by limiting the designation to other areas and give great weight to Tribal concerns in analyzing the benefits of exclusion.

However, S.O. 3206 does not override the Act's statutory requirement of designation of critical habitat. As stated above, we must consult with any Tribe when a designation of critical habitat may affect Tribal lands or resources. The Act requires us to identify areas that meet the definition of ''critical habitat'' (*i.e.,* areas occupied at the time of listing that contain the essential physical or biological features that may require special management considerations or protection and unoccupied areas that are essential to the conservation of a species), without regard to land ownership. While S.O. 3206 provides important direction, it expressly states that it does not modify the Secretary's statutory authority under the Act or other statutes. The proposed critical habitat designation includes Mescalero Apache Tribal lands.

Mescalero Apache Tribal Resources— The Mescalero Apache Tribe owns 22.4 ac (9.1 ha) of land in the Spud Patch Canyon Unit (Unit 3). The Mescalero Apache Tribe does not have any conservation plans regarding the Sacramento Mountains checkerspot butterfly. We solicited information from the Mescalero Apache Tribe within the range of the Sacramento Mountains checkerspot butterfly to inform the development of the current condition assessment report, but we did not receive a response. We also provided the Mescalero Apache Tribe the opportunity to review a draft of the current condition assessment report and provide input prior to making our final determination on the status of the Sacramento Mountains checkerspot butterfly. The Mescalero Apache Tribe is a valued partner in endangered species conservation within the State of New Mexico. We have recently invited the Mescalero Apache Tribe to participate in conducting surveys for the Sacramento Mountains checkerspot butterfly on Forest Service land. We recognize and endorse their fundamental right to provide for Tribal resource management activities and we will continue to coordinate with the Mescalero Apache Tribe on this rulemaking.

Summary of Exclusions Considered Under 4(b)(2) of the Act

We are considering excluding the following areas under section 4(b)(2) of the Act from the final critical habitat designation for the Sacramento Mountains checkerspot butterfly: 22.4 ac (9.1 ha) of land owned by the Mescalero Apache Tribe in Unit 3 of the Spud Patch Canyon Unit based on Tribal resources and government-to-government relationships of the United States with Tribal entities. We specifically solicit comments on the inclusion or exclusion of such areas. If through this proposed rule's public comment period (see **DATES**, above) we receive information that we determine indicates that there are potential economic, national security, or other relevant impacts from designating particular areas as critical habitat, then as part of developing the final designation of critical habitat, we will evaluate that information and may conduct a discretionary exclusion analysis to determine whether to exclude those areas under authority of section 4(b)(2) of the Act and our implementing regulations at 50 CFR 424.19. If we receive a request for exclusion of a particular area and after evaluation of supporting information we do not exclude, we will fully describe our decision in the final rule for this action.

Required Determinations

Clarity of the Rule

We are required by E.O.s 12866 and 12988 and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule we publish must:

(1) Be logically organized;

(2) Use the active voice to address readers directly;

(3) Use clear language rather than jargon;

(4) Be divided into short sections and sentences; and

(5) Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the methods listed in **ADDRESSES**. To better help us revise the rule, your comments should be as specific as possible. For example, you should tell us the numbers of the sections or paragraphs that are unclearly written, which sections or sentences are too long, the sections where you feel lists or tables would be useful, etc.

Regulatory Planning and Review—Executive Orders 12866, 13563, and 14094

Executive Order 14094 reaffirms the principles of E.O. 12866 and E.O. 13563 and states that regulatory analysis should facilitate agency efforts to develop regulations that serve the public interest, advance statutory objectives, and are consistent with E.O. 12866, E.O. 13563, and the Presidential Memorandum of January 20, 2021 (Modernizing Regulatory Review). Regulatory analysis, as practicable and appropriate, shall recognize distributive impacts and equity, to the extent permitted by law. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this final rule in a manner consistent with these requirements.

E.O. 12866, as reaffirmed by E.O. 13563 and E.O. 14094, provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) will review all significant rules. OIRA has determined that this rule is not significant.

Regulatory Flexibility Act (5 U.S.C. 601 et seq.)

Under the Regulatory Flexibility Act (RFA; 5 U.S.C. 601 *et seq.*), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA; 5 U.S.C. 801 *et seq.*), whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effects of the rule on small entities (*i.e.,* small businesses, small organizations, and small government jurisdictions). However, no regulatory flexibility analysis is required if the head of the agency certifies the rule will not have a significant economic impact on a substantial number of small entities. The SBREFA amended the RFA to require Federal agencies to provide a certification statement of the factual basis for certifying that the rule will not

have a significant economic impact on a substantial number of small entities.

According to the Small Business Administration, small entities include small organizations such as independent nonprofit organizations; small governmental jurisdictions, including school boards and city and town governments that serve fewer than 50,000 residents; and small businesses (13 CFR 121.201). Small businesses include manufacturing and mining concerns with fewer than 500 employees, wholesale trade entities with fewer than 100 employees, retail and service businesses with less than $5 million in annual sales, general and heavy construction businesses with less than $27.5 million in annual business, special trade contractors doing less than $11.5 million in annual business, and agricultural businesses with annual sales less than $750,000. To determine whether potential economic impacts to these small entities are significant, we considered the types of activities that might trigger regulatory impacts under this designation as well as types of project modifications that may result. In general, the term ''significant economic impact'' is meant to apply to a typical small business firm's business operations.

Under the RFA, as amended, and as understood in light of recent court decisions, Federal agencies are required to evaluate the potential incremental impacts of rulemaking on those entities directly regulated by the rulemaking itself; in other words, the RFA does not require agencies to evaluate the potential impacts to indirectly regulated entities. The regulatory mechanism through which critical habitat protections are realized is section 7 of the Act, which requires Federal agencies, in consultation with the Service, to ensure that any action authorized, funded, or carried out by the agency is not likely to destroy or adversely modify critical habitat. Therefore, under section 7, only Federal action agencies are directly subject to the specific regulatory requirement (avoiding destruction and adverse modification) imposed by critical habitat designation. Consequently, it is our position that only Federal action agencies would be directly regulated if we adopt the proposed critical habitat designation. The RFA does not require evaluation of the potential impacts to entities not directly regulated. Moreover, Federal agencies are not small entities. Therefore, because no small entities would be directly regulated by this rulemaking, the Service certifies that, if made final as proposed, the proposed critical habitat designation will not have a significant economic impact on a substantial number of small entities.

In summary, we have considered whether the proposed designation would result in a significant economic impact on a substantial number of small entities. For the above reasons and based on currently available information, we certify that, if made final, the proposed critical habitat designation will not have a significant economic impact on a substantial number of small business entities. Therefore, an initial regulatory flexibility analysis is not required.

Energy Supply, Distribution, or Use—Executive Order 13211

Executive Order 13211 (Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use) requires agencies to prepare statements of energy effects when undertaking certain actions. In our economic analysis, we did not find that this proposed critical habitat designation would significantly affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action, and no statement of energy effects is required.

Unfunded Mandates Reform Act (2 U.S.C. 1501 et seq.)

In accordance with the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*), we make the following finding:

(1) This proposed rule would not produce a Federal mandate. In general, a Federal mandate is a provision in legislation, statute, or regulation that would impose an enforceable duty upon State, local, or Tribal governments, or the private sector, and includes both ''Federal intergovernmental mandates'' and ''Federal private sector mandates.'' These terms are defined in 2 U.S.C. 658(5)–(7). ''Federal intergovernmental mandate'' includes a regulation that ''would impose an enforceable duty upon State, local, or Tribal governments'' with two exceptions. It excludes ''a condition of Federal assistance.'' It also excludes ''a duty arising from participation in a voluntary Federal program,'' unless the regulation ''relates to a then-existing Federal program under which $500,000,000 or more is provided annually to State, local, and Tribal governments under entitlement authority,'' if the provision would ''increase the stringency of conditions of assistance'' or ''place caps upon, or otherwise decrease, the Federal Government's responsibility to provide funding,'' and the State, local, or Tribal governments ''lack authority'' to adjust accordingly. At the time of enactment, these entitlement programs were: Medicaid; Aid to Families with Dependent Children work programs; Child Nutrition; Food Stamps; Social Services Block Grants; Vocational Rehabilitation State Grants; Foster Care, Adoption Assistance, and Independent Living; Family Support Welfare Services; and Child Support Enforcement. ''Federal private sector mandate'' includes a regulation that ''would impose an enforceable duty upon the private sector, except (i) a condition of Federal assistance or (ii) a duty arising from participation in a voluntary Federal program.''

The designation of critical habitat does not impose a legally binding duty on non-Federal Government entities or private parties. Under the Act, the only regulatory effect is that Federal agencies must ensure that their actions are not likely to destroy or adversely modify critical habitat under section 7. While non-Federal entities that receive Federal funding, assistance, or permits, or that otherwise require approval or authorization from a Federal agency for an action, may be indirectly impacted by the designation of critical habitat, the legally binding duty to avoid destruction or adverse modification of critical habitat rests squarely on the Federal agency. Furthermore, to the extent that non-Federal entities are indirectly impacted because they receive Federal assistance or participate in a voluntary Federal aid program, the Unfunded Mandates Reform Act would not apply, nor would critical habitat shift the costs of the large entitlement programs listed above onto State governments.

(2) We do not believe that this rule would significantly or uniquely affect small governments because it will not produce a Federal mandate of $100 million or greater in any year, that is, it is not a ''significant regulatory action'' under the Unfunded Mandates Reform Act. The designation of critical habitat imposes no obligations on State or local governments. Therefore, a small government agency plan is not required.

Takings—Executive Order 12630

In accordance with E.O. 12630 (Government Actions and Interference with Constitutionally Protected Private Property Rights), we have analyzed the potential takings implications of designating critical habitat for the Sacramento Mountains checkerspot butterfly in a takings implications assessment. The Act does not authorize the Service to regulate private actions on private lands or confiscate private property as a result of critical habitat designation. Designation of critical

habitat does not affect land ownership, or establish any closures, or restrictions on use of or access to the designated areas. Furthermore, the designation of critical habitat does not affect landowner actions that do not require Federal funding or permits, nor does it preclude development of habitat conservation programs or issuance of incidental take permits to permit actions that do require Federal funding or permits to go forward. However, Federal agencies are prohibited from carrying out, funding, or authorizing actions that would destroy or adversely modify critical habitat. A takings implications assessment has been completed for the proposed designation of critical habitat for the Sacramento Mountains checkerspot butterfly, and it concludes that, if adopted, this designation of critical habitat does not pose significant takings implications for lands within or affected by the designation.

Federalism—Executive Order 13132

In accordance with E.O. 13132 (Federalism), this proposed rule does not have significant Federalism effects. A federalism summary impact statement is not required. In keeping with Department of the Interior and Department of Commerce policy, we requested information from, and coordinated development of this proposed critical habitat designation with, appropriate State resource agencies. From a federalism perspective, the designation of critical habitat directly affects only the responsibilities of Federal agencies. The Act imposes no other duties with respect to critical habitat, either for States and local governments, or for anyone else. As a result, the proposed rule does not have substantial direct effects either on the States, or on the relationship between the Federal government and the States, or on the distribution of powers and responsibilities among the various levels of government. The proposed designation may have some benefit to these governments because the areas that contain the features essential to the conservation of the species are more clearly defined, and the physical or biological features of the habitat necessary for the conservation of the species are specifically identified. This information does not alter where and what federally sponsored activities may occur. However, it may assist State and local governments in long-range planning because they no longer have to wait for case-by-case section 7 consultations to occur.

Where State and local governments require approval or authorization from a Federal agency for actions that may affect critical habitat, consultation under section 7(a)(2) of the Act would be required. While non-Federal entities that receive Federal funding, assistance, or permits, or that otherwise require approval or authorization from a Federal agency for an action, may be indirectly impacted by the designation of critical habitat, the legally binding duty to avoid destruction or adverse modification of critical habitat rests squarely on the Federal agency.

Civil Justice Reform—Executive Order 12988

In accordance with E.O. 12988 (Civil Justice Reform), the Office of the Solicitor has determined that the rule would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the Order. We have proposed designating critical habitat in accordance with the provisions of the Act. To assist the public in understanding the habitat needs of the species, this proposed rule identifies the physical or biological features essential to the conservation of the species. The proposed areas of critical habitat are presented on maps, and the proposed rule provides several options for the interested public to obtain more detailed location information, if desired.

Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.)

This rule does not contain information collection requirements, and a submission to OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) is not required. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

National Environmental Policy Act (42 U.S.C. 4321 et seq.)

Regulations adopted pursuant to section 4(a) of the Act are exempt from the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) and do not require an environmental analysis under NEPA. We published a notice outlining our reasons for this determination in the **Federal Register** on October 25, 1983 (48 FR 49244). This includes listing, delisting, and reclassification rules, as well as critical habitat designations. In a line of cases starting with *Douglas County* v. *Babbitt,* 48 F.3d 1495 (9th Cir. 1995), the courts have upheld this position.

However, when any of the areas that meet the definition of ''critical habitat'' for the species are in States within the Tenth Circuit, such as that of the Sacramento Mountains checkerspot butterfly, we undertake a NEPA analysis for that critical habitat designation consistent with the Tenth Circuit ruling in *Catron County Board of Commissioners* v. *U.S. Fish and Wildlife Service,* 75 F.3d 1429 (10th Cir. 1996). We invite the public to comment on the extent to which this proposed critical habitat designation may have a significant impact on the human environment or fall within one of the categorical exclusions for actions that have no individual or cumulative effect on the quality of the human environment. We will complete our analysis, in compliance with NEPA, before finalizing this proposed rule.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994 (Government-to-Government Relations with Native American Tribal Governments; 59 FR 22951), E.O. 13175 (Consultation and Coordination with Indian Tribal Governments), and the Department of the Interior's manual at 512 DM 2, we readily acknowledge our responsibility to communicate meaningfully with federally recognized Tribes on a government-to-government basis. In accordance with Secretary's Order 3206 of June 5, 1997 (American Indian Tribal Rights, Federal-Tribal Trust Responsibilities, and the Endangered Species Act), we readily acknowledge our responsibilities to work directly with Tribes in developing programs for healthy ecosystems, to acknowledge that Tribal lands are not subject to the same controls as Federal public lands, to remain sensitive to Indian culture, and to make information available to Tribes. We solicited information from the Mescalero Apache Nation within the range of the Sacramento Mountains checkerspot butterfly to inform the development of the current condition assessment report, but we did not receive a response. We will continue to work with Tribal entities during the development of a final rule for the designation of critical habitat for the Sacramento Mountains checkerspot butterfly.

Proposed Regulation Promulgation

Accordingly, we propose to amend part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, as set forth below:

PART 17—ENDANGERED AND THREATENED WILDLIFE AND PLANTS

■ 1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 1531–1544; and 4201–4245, unless otherwise noted.

■ 2. In § 17.95, amend paragraph (i) by adding an entry for ''Sacramento Mountains Checkerspot Butterfly (*Euphydryas anicia cloudcrofti*)'' following the entry for ''Quino Checkerspot Butterfly (*Euphydryas editha quino*)'' to read as follows:

§ 17.95 Critical habitat—fish and wildlife.

* * * * *

(i) *Insects.*

* * * * *

Sacramento Mountains Checkerspot Butterfly (*Euphydryas anicia cloudcrofti*)

(1) Critical habitat units are depicted for Otero County, New Mexico, on the maps in this entry.

(2) Within these areas, the physical or biological features essential to the conservation of the Sacramento Mountains checkerspot butterfly consist of the following components:

(i) Open meadow, grassland habitat within the larger mixed-conifer forest in high-altitude areas within the upper-montane and subalpine zones at elevations between 2,380 and 2,750 meters (m) (7,800 and 9,000 feet (ft)) within the Sacramento Mountains of southern New Mexico.

(ii) The larval food plant (host plant), primarily New Mexico beardtongue (*Penstemon neomexicanus*), or other potential host plants such as other *Penstemon* species and tobacco root (*Valeriana edulis*), is present as:

(A) Patches of plants clustered together;

(B) Large, robust individual plants; and/or

(C) Stands of plants adjacent to other tobacco root plants.

(iii) Access to nectar sources, primarily orange sneezeweed (*Hymenoxis hoopesii*), native Asteraceae species, and other native flowering plants.

(iv) Habitat connectivity consisting of less than 890 m (2,920 ft) between populations or areas of suitable habitat to allow for dispersal and gene flow.

(v) Less than 5 percent canopy cover.

(3) Critical habitat does not include manmade structures (such as buildings, aqueducts, runways, roads, and other paved areas) and the land on which they are located existing within the legal boundaries on the effective date of the final rule.

(4) Data layers defining map units were created using U.S. Department of Agriculture, Forest Service shapefiles delimiting the known range of the species based on surveys. Then additional areas were mapped using satellite imagery of meadow habitat within the appropriate elevation (2,380 to 2,750 m (7,800 to 9,000 feet)). The maps in this entry, as modified by any accompanying regulatory text, establish the boundaries of the critical habitat designation. The coordinates or plot points or both on which each map is based are available to the public at the Service's internet site at *https://www.fws.gov/about/region/southwest,* at *https://www.regulations.gov* at Docket No. FWS–R2–ES–2023–0023, and at the field office responsible for this designation. You may obtain field office location information by contacting one of the Service regional offices, the addresses of which are listed at 50 CFR 2.2.

BILLING CODE 4333–15–P

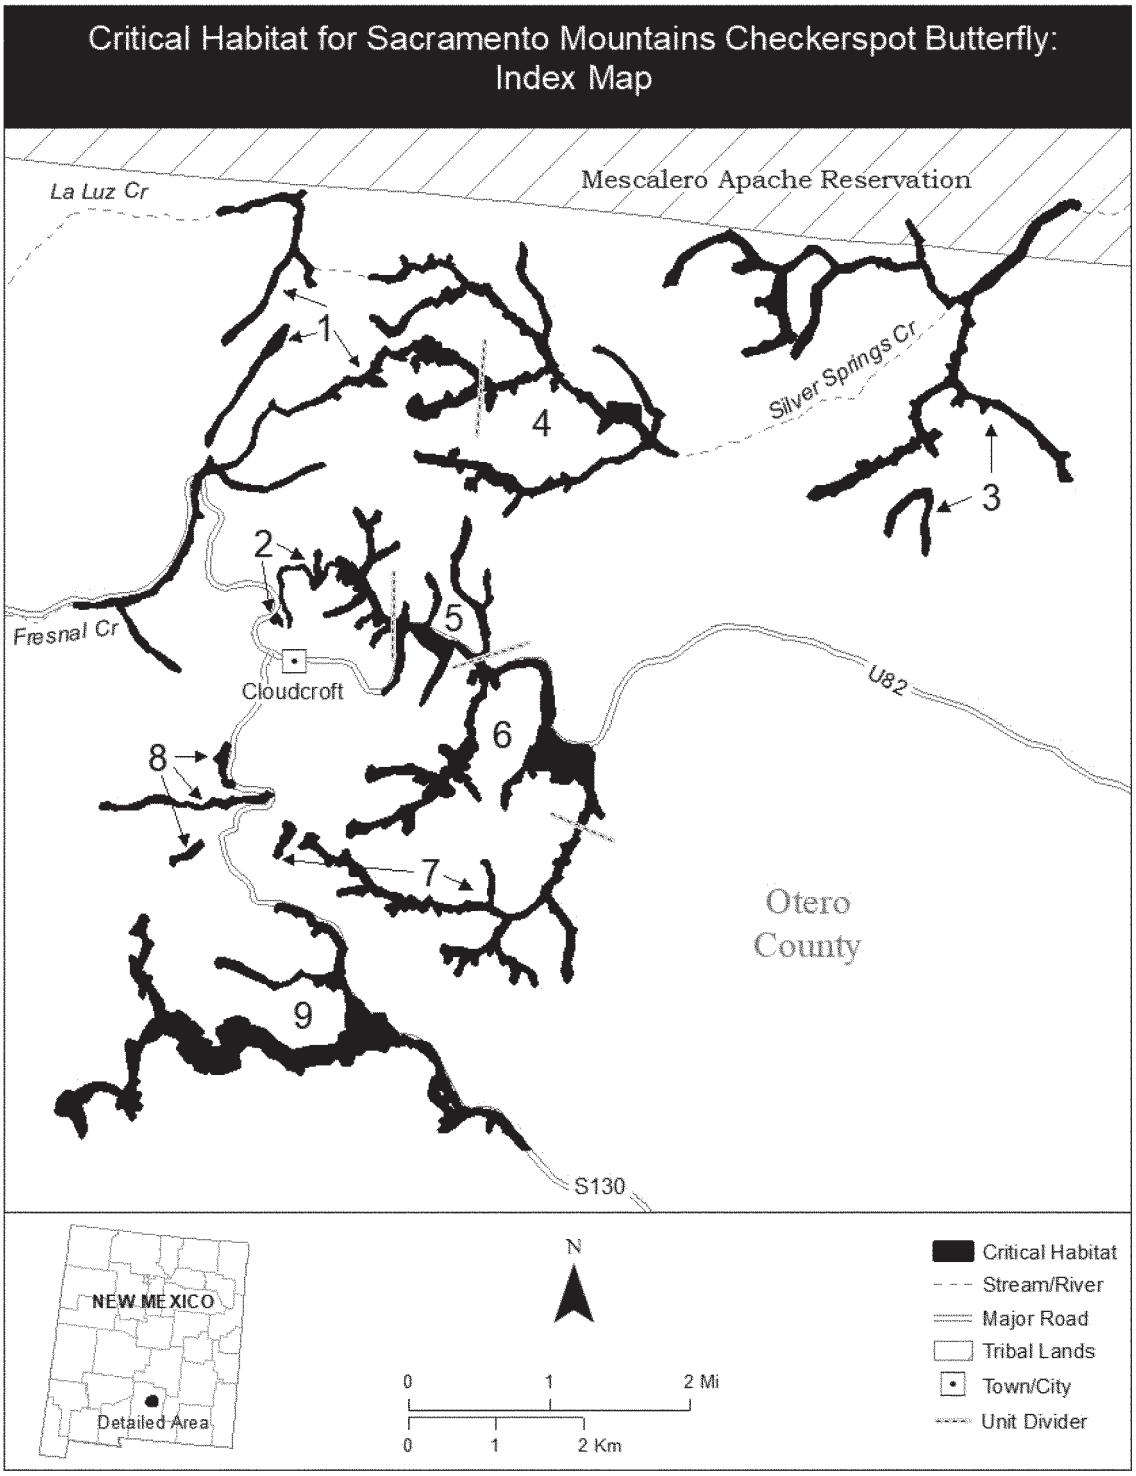

Figure 2 to Sacramento Mountains Checkerspot Butterfly (*Euphydryas anicia cloudcrofti*) paragraph (6)(ii)

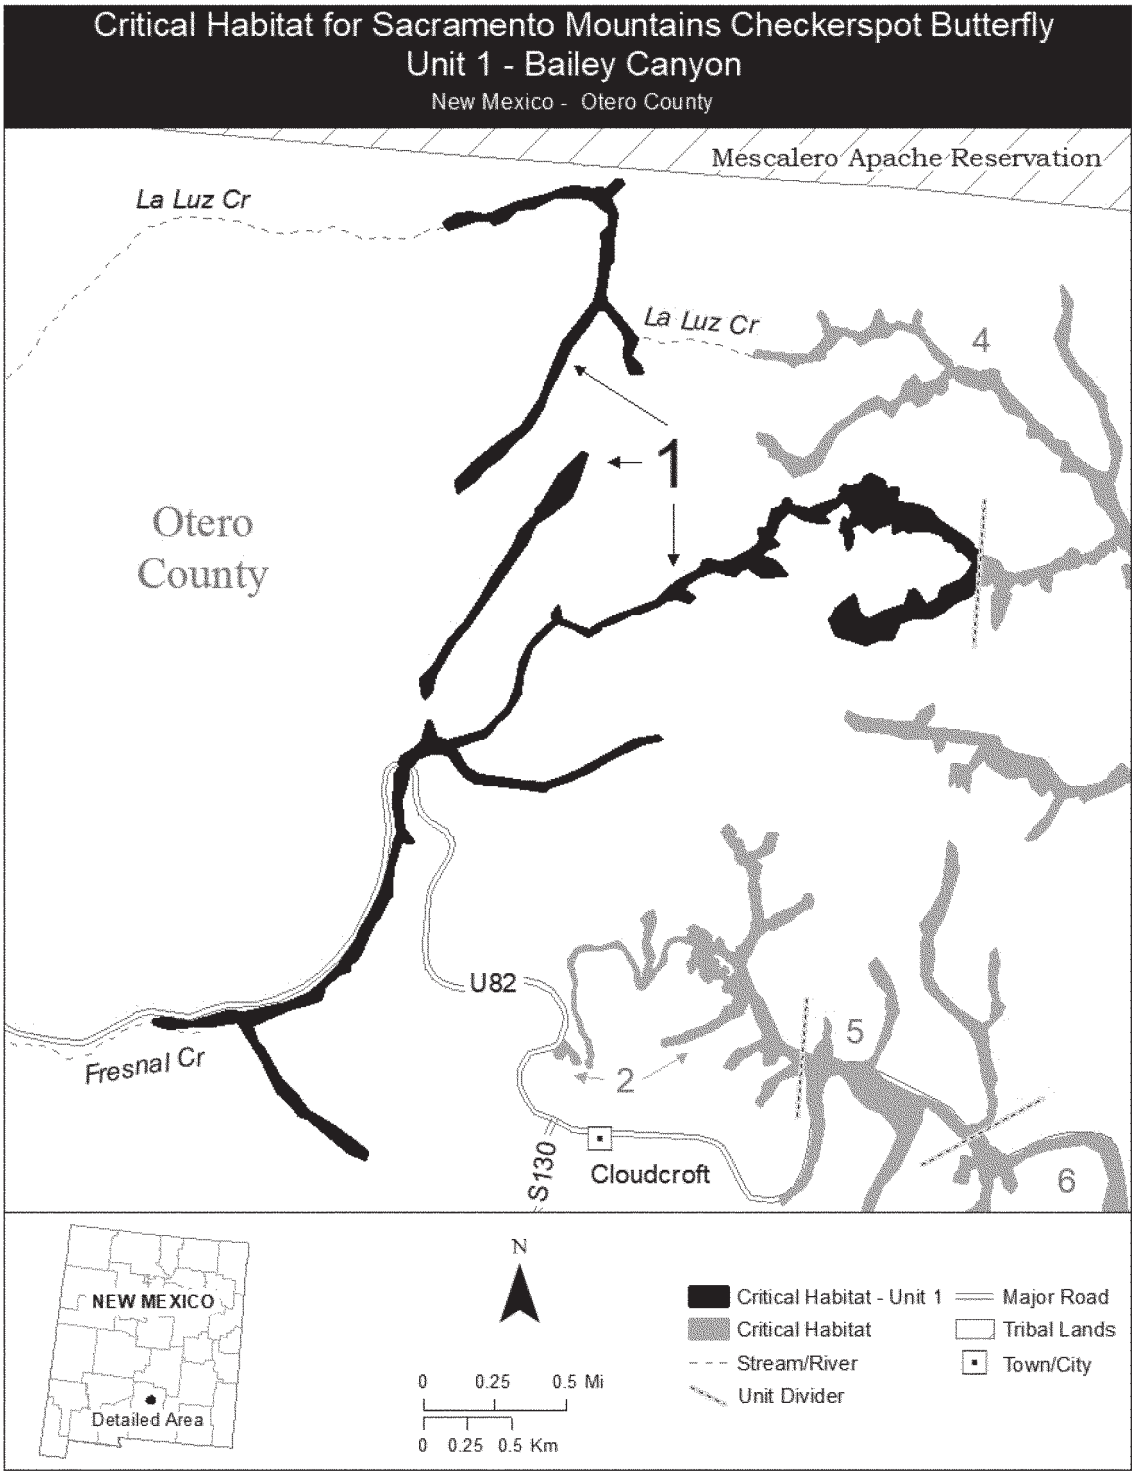
(6) Unit 1: Bailey Canyon; Otero County, New Mexico.

(i) Unit 1 consists of 200.5 ac (81.1 ha) in Otero County and is composed of lands entirely in Federal ownership.

(ii) Map of Unit 1 follows:



(7) Unit 2: Pines Meadow Campground; Otero County, New Mexico.

(i) Unit 2 consists of 62.4 ac (25.2 ha) in Otero County and is composed of lands in Federal (62.2 ac (25.2 ha)) and private (0.2 ac (0.08 ha)) ownership.

(ii) Map of Unit 2 follows:

Figure 3 to Sacramento Mountains Checkerspot Butterfly (*Euphydryas anicia cloudcrofti*) paragraph (7)(ii)

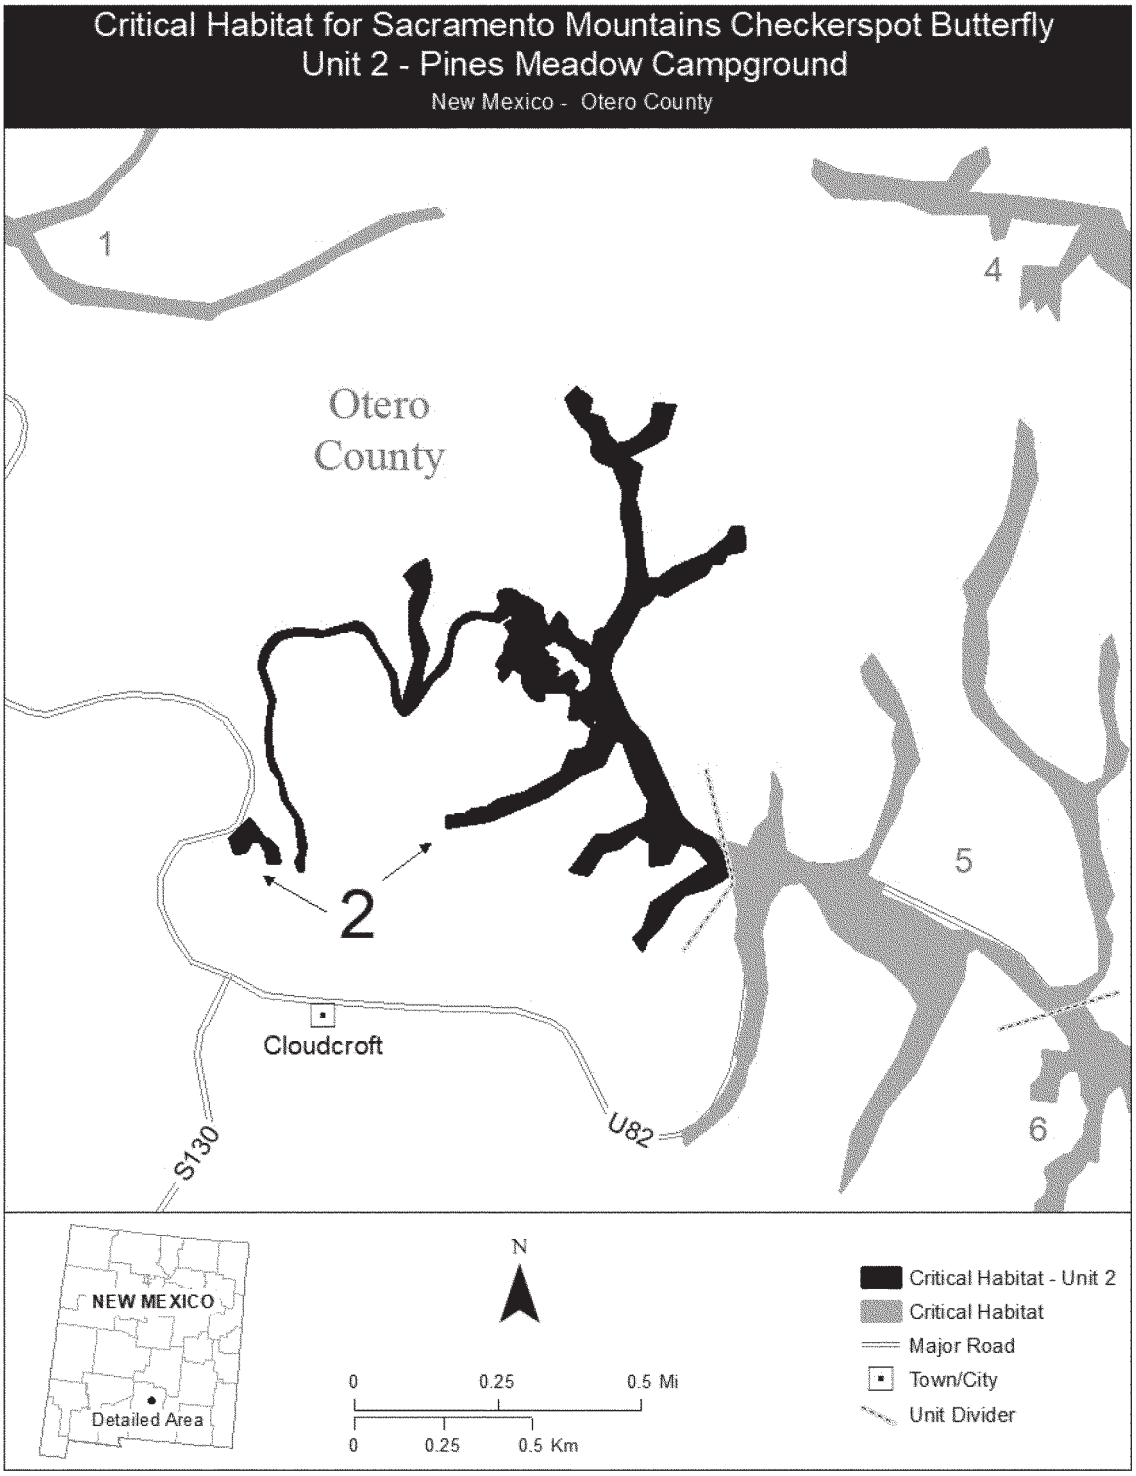


Figure 4 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (8)(ii)

(8) Unit 3: Spud Patch Canyon; Otero County, New Mexico.

(i) Unit 3 consists of 277.2 ac (112.2 ha) in Otero County and is composed of lands in Federal (203.9 ac (82.5 ha)), Tribal (22.4 ac (9.1 ha)), and private (50.9 ac (20.6 ha)) ownership.

(ii) Map of Unit 3 follows:

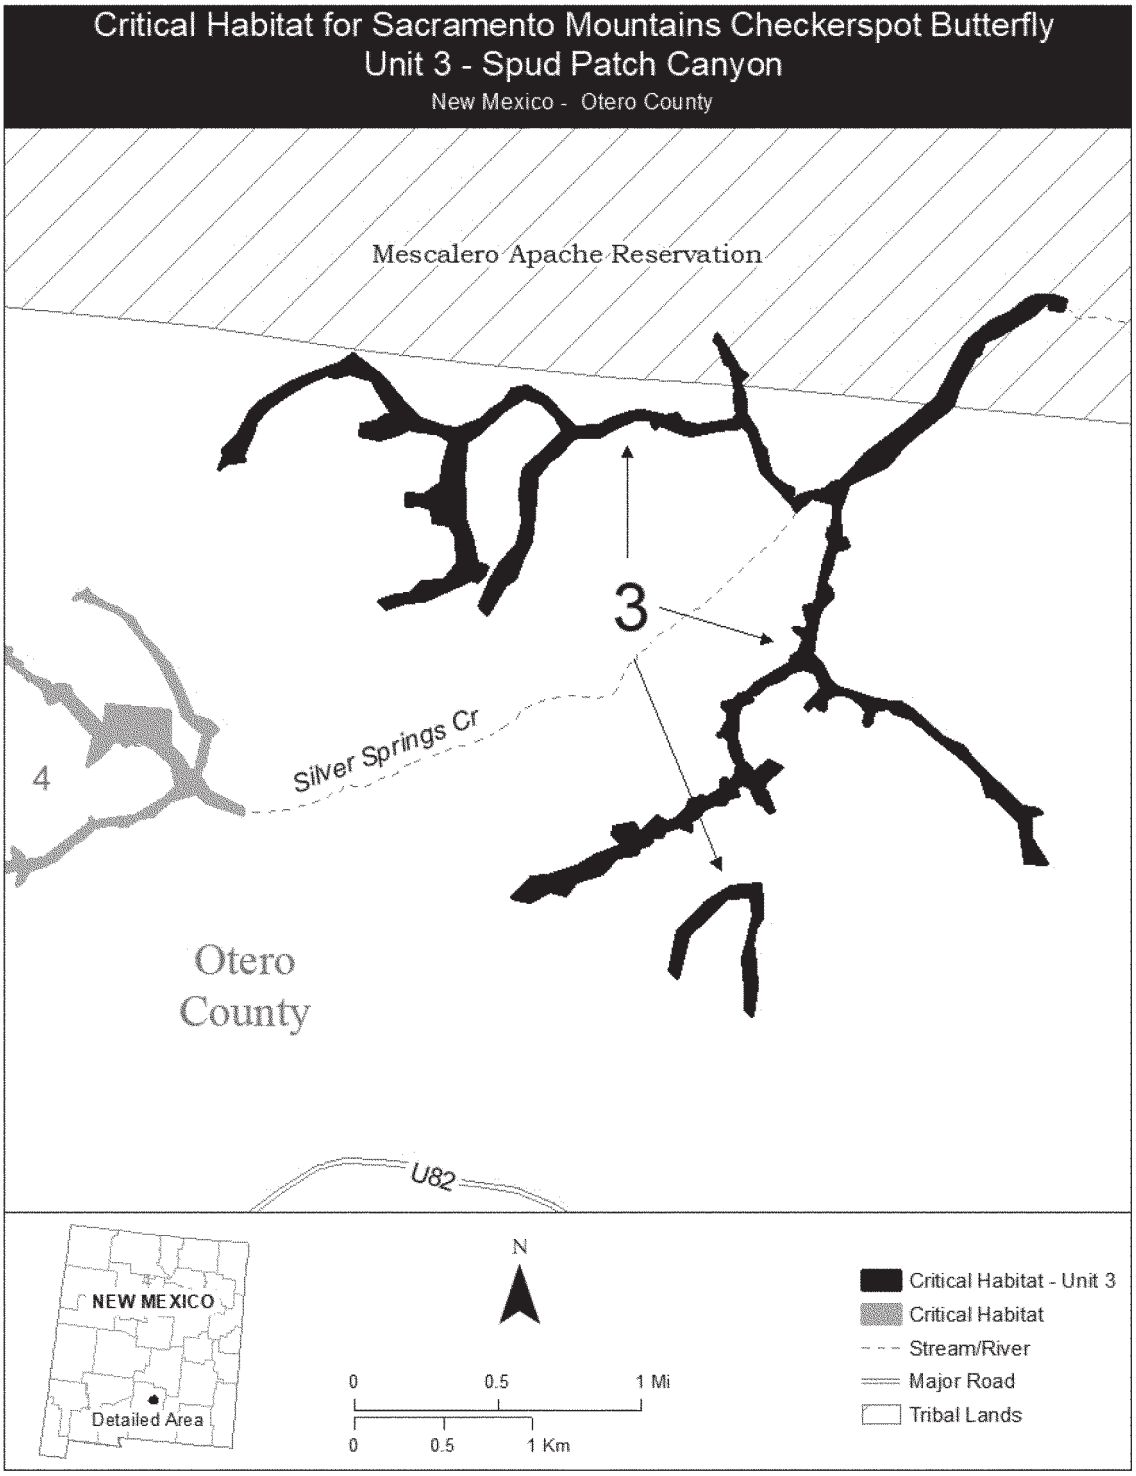

Figure 5 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (9)(ii)

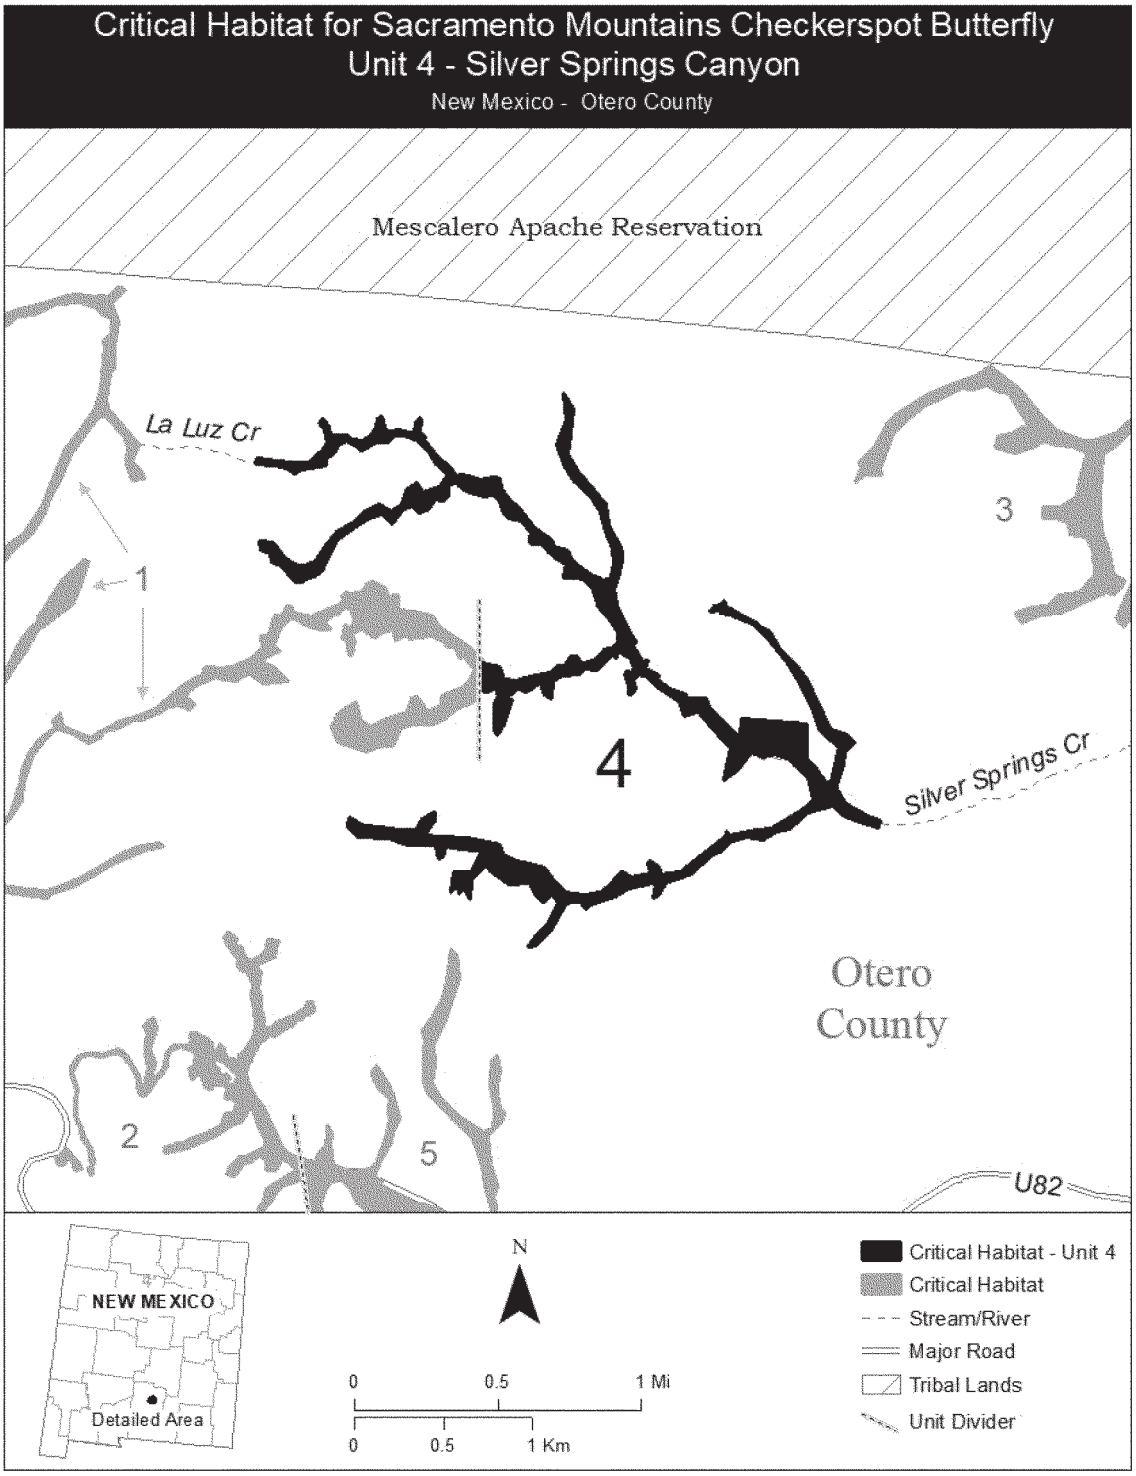
(9) Unit 4: Silver Springs Canyon; Otero County, New Mexico.

(i) Unit 4 consists of 203.4 ac (82.3 ha) in Otero County and is composed of lands in Federal (132.9 ac (53.8 ha)) and private (70.5 ac (28.5 ha)) ownership.

(ii) Map of Unit 4 follows:

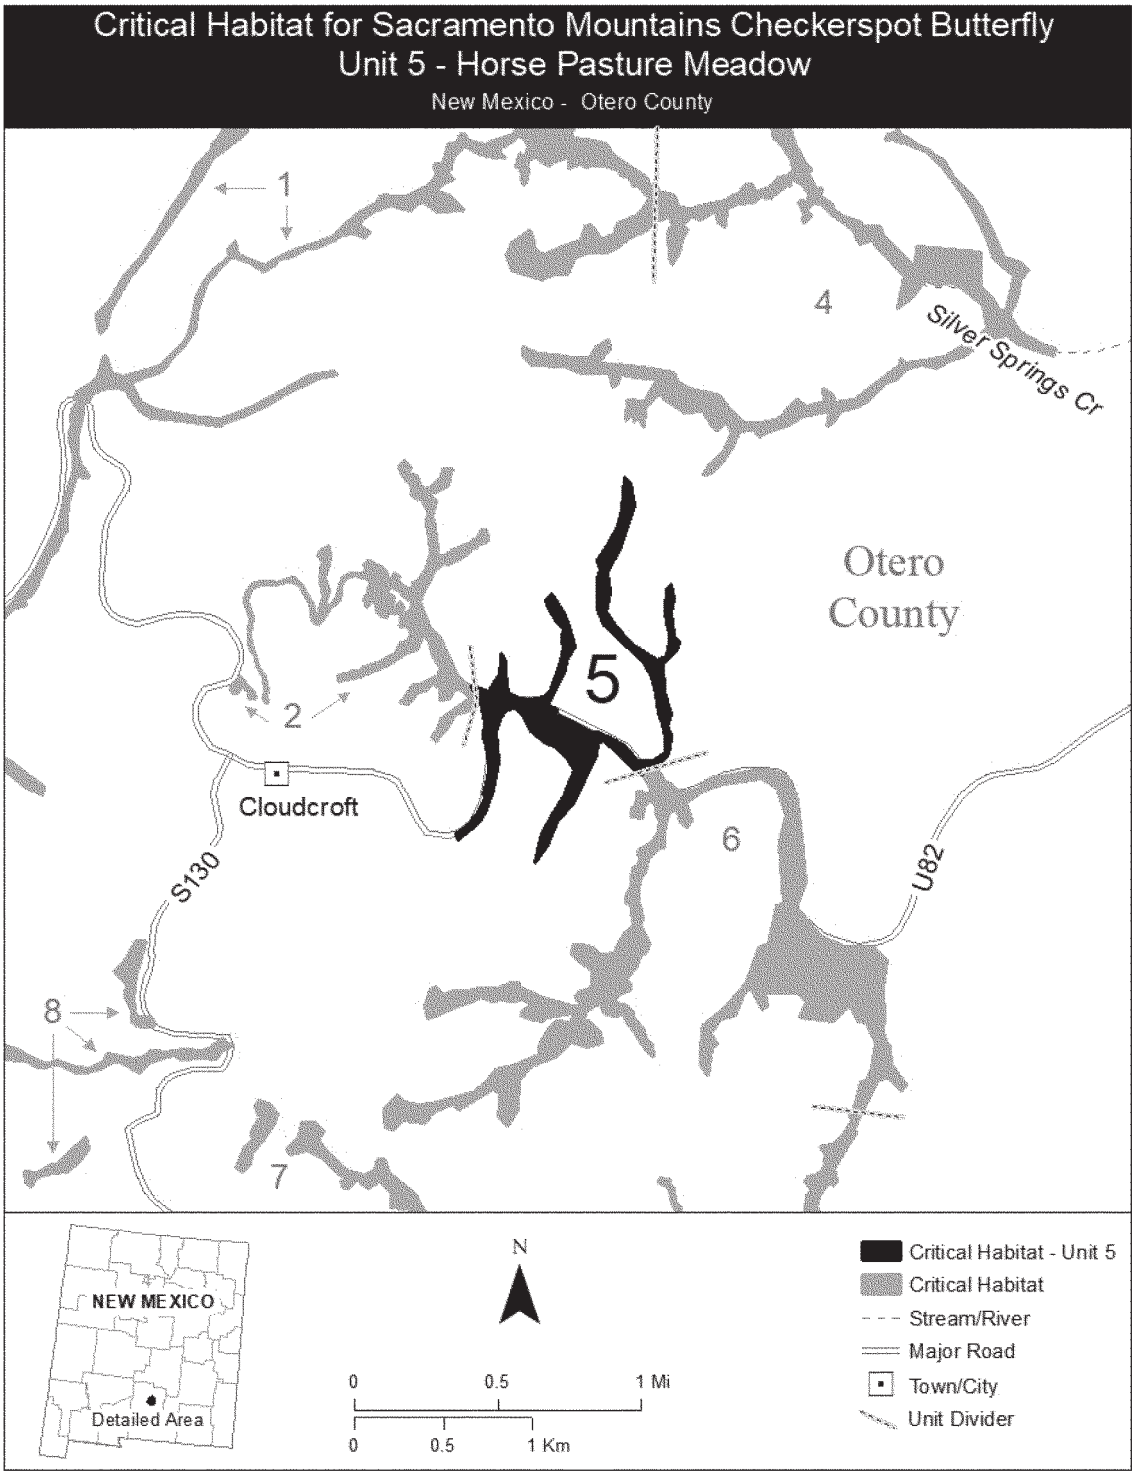


(10) Unit 5: Horse Pasture Meadow; Otero County, New Mexico.

(i) Unit 5 consists of 82.4 ac (33.4 ha) in Otero County and is composed of lands entirely in Federal ownership.

(ii) Map of Unit 5 follows:

Figure 6 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (10)(ii)

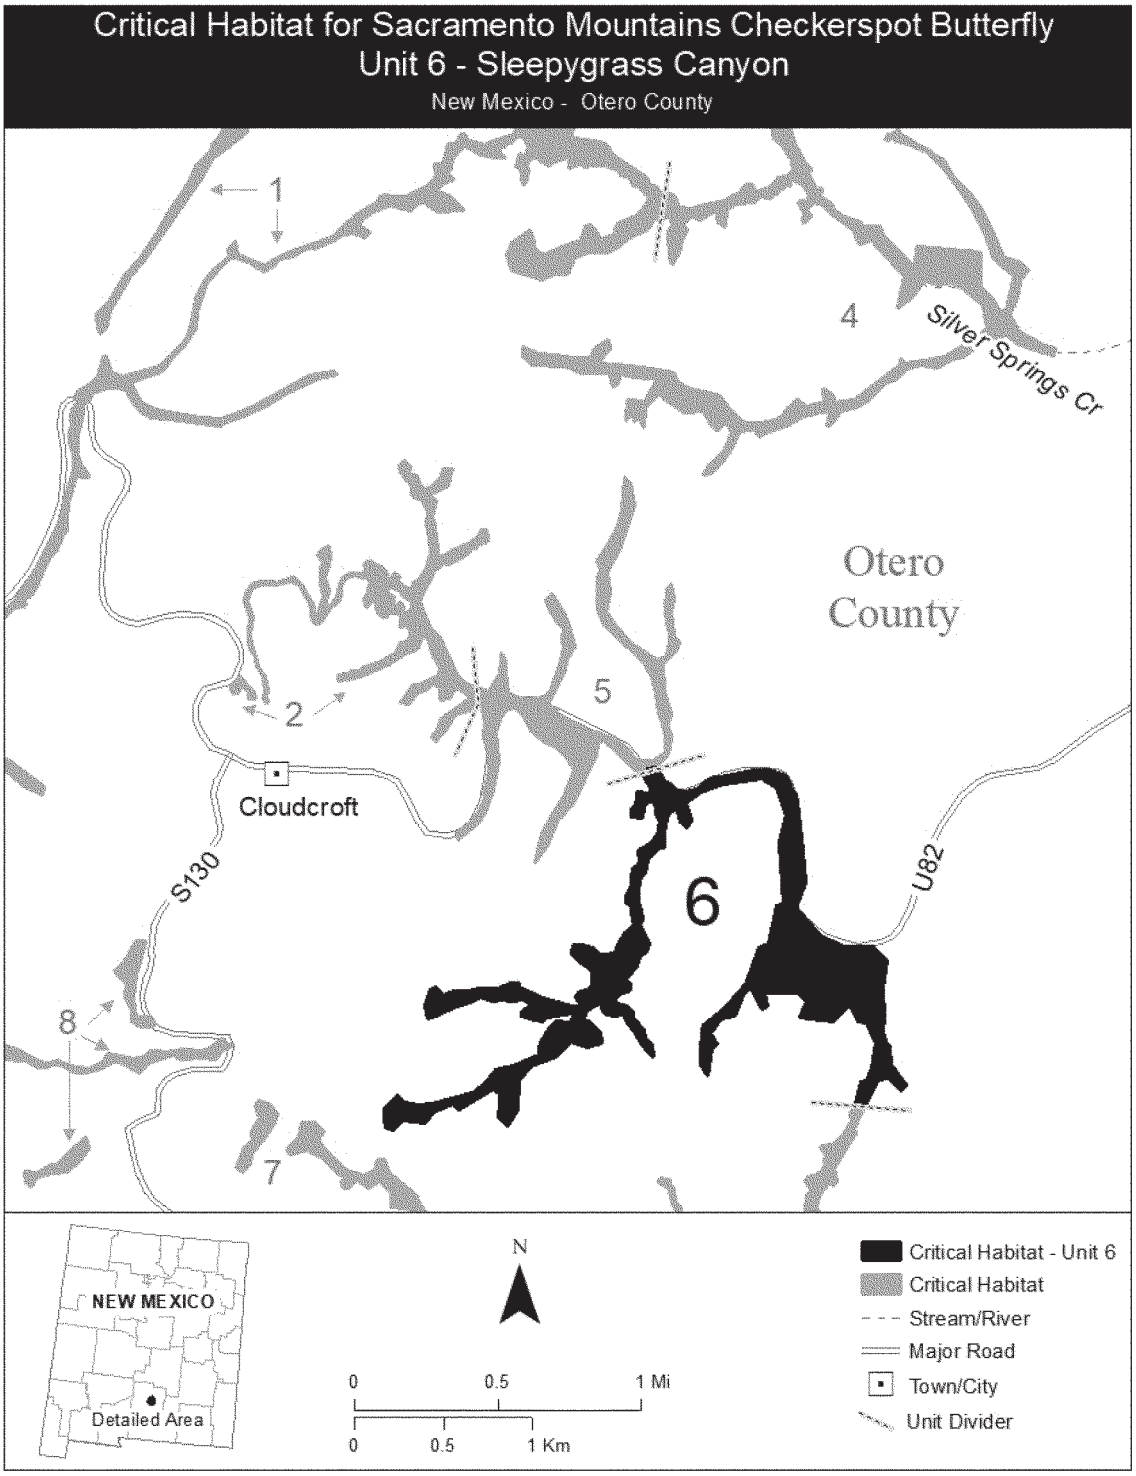


(11) Unit 6: Sleepygrass Canyon; Otero County, New Mexico.

(i) Unit 6 consists of 223.5 ac (90.5 ha) in Otero County and is composed of lands in Federal (123.5 ac (50.0 ha)) and private (100.0 ac (40.5 ha)) ownership.

(ii) Map of Unit 6 follows:

Figure 7 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (11)(ii)



(12) Unit 7: Pumphouse Canyon; Otero County, New Mexico.

(i) Unit 7 consists of 136.6 ac (55.3 ha) in Otero County and is composed of lands in Federal (134.4 ac (54.4 ha)) and private (2.2 ac (0.9 ha)) ownership.

(ii) Map of Unit 7 follows:

Figure 8 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (12)(ii)

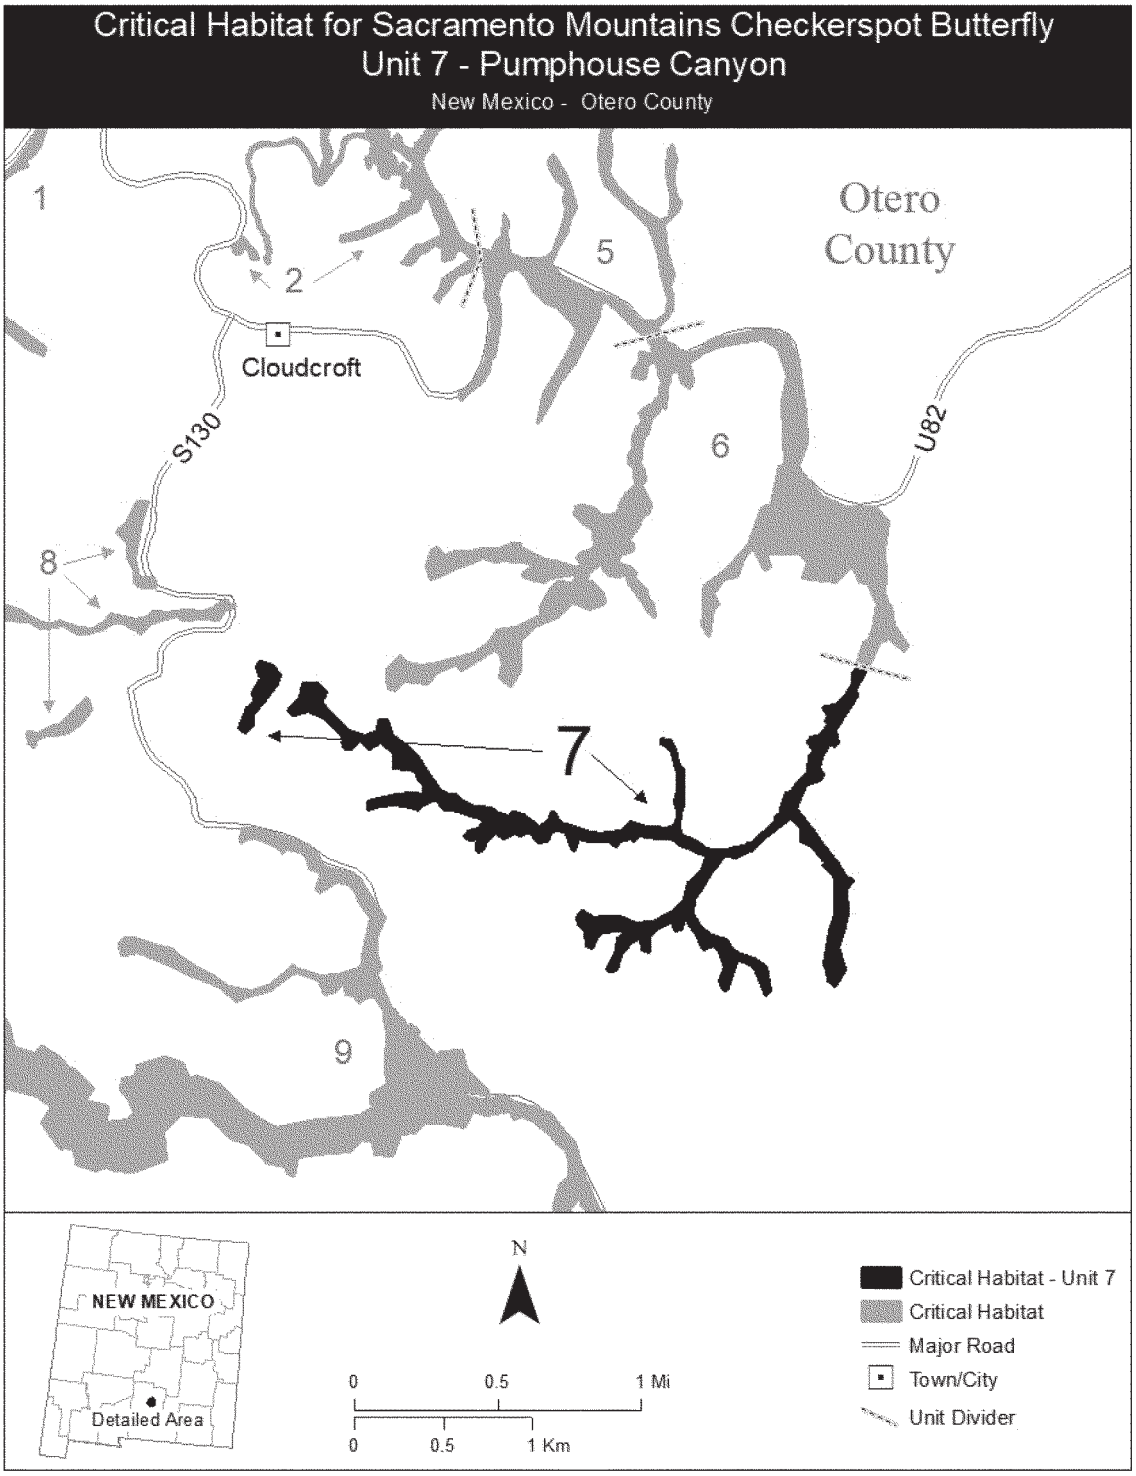


Figure 9 to Sacramento Mountains checkerspot butterfly (*Euphydryas anicia cloudcrofti*) paragraph (13)(ii)

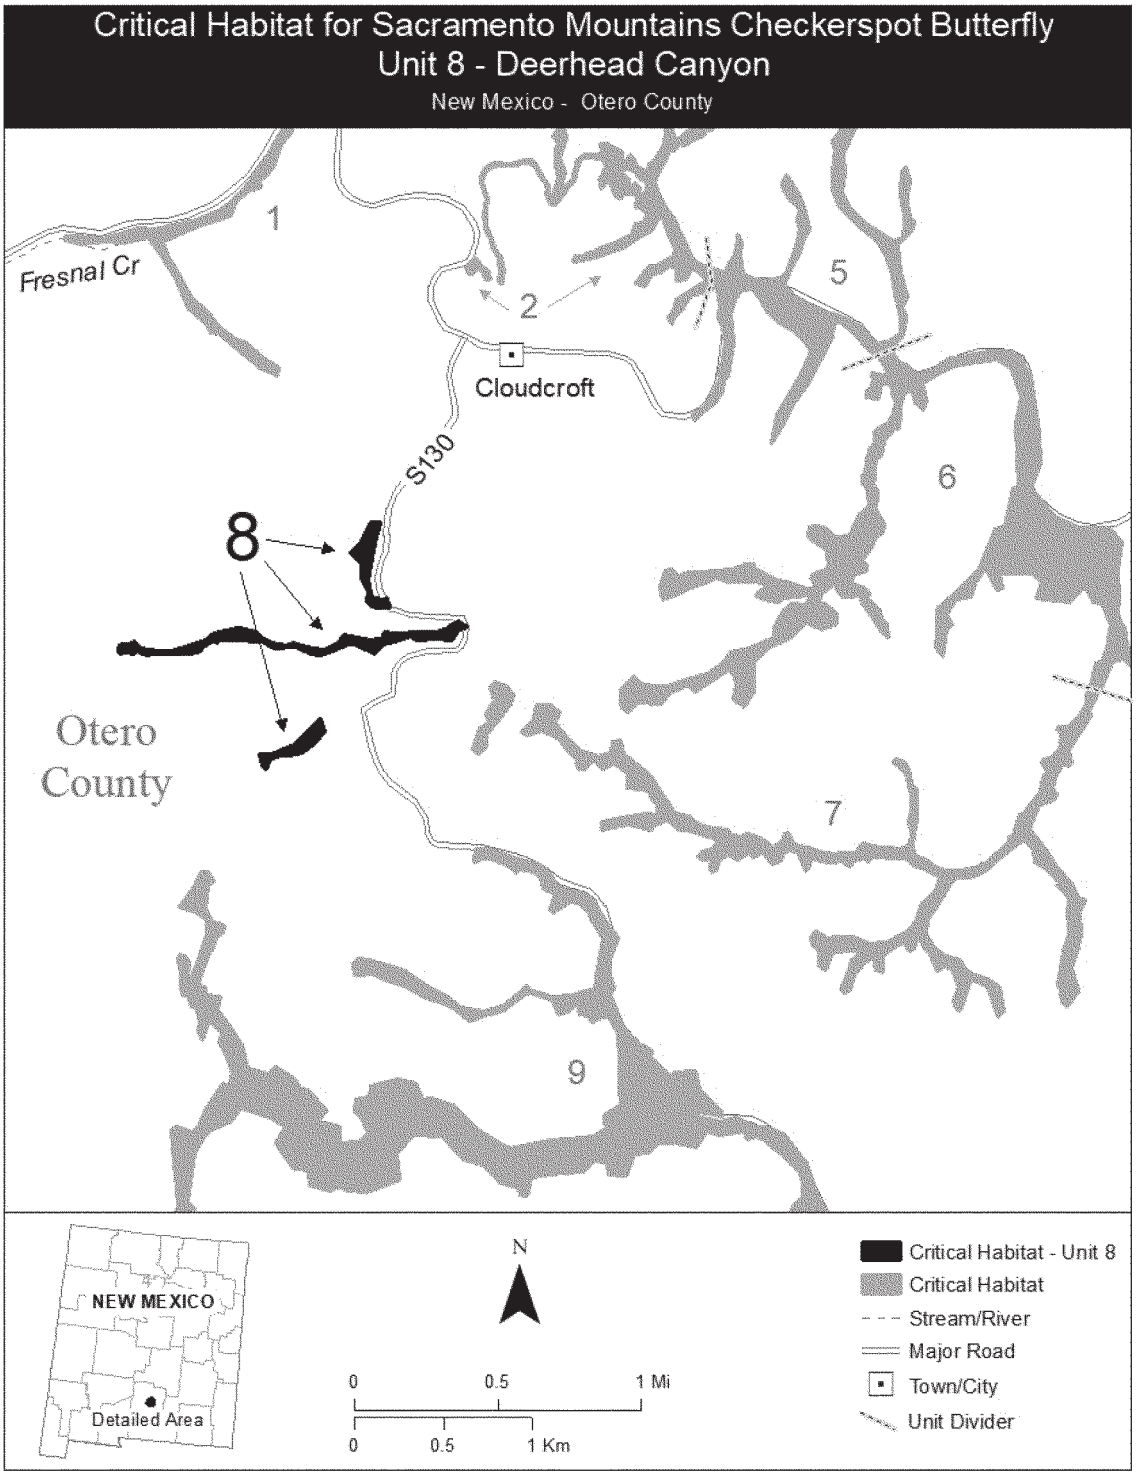
(13) Unit 8: Deerhead Canyon; Otero County, New Mexico.

(i) Unit 8 consists of 33.1 ac (13.4 ha) in Otero County and is composed of lands in Federal (22.1 ac (8.9 ha)) and private (11.0 ac (4.5 ha)) ownership.

(ii) Map of Unit 8 follows:



(14) Unit 9: Cox Canyon; Otero County, New Mexico.

(i) Unit 9 consists of 417.8 ac (169.0 ha) in Otero County and is composed of lands in Federal (132.1 ac (53.5 ha)) and private (285.7 ac (115.6 ha)) ownership.

(ii) Map of Unit 9 follows:

BILLING CODE 4333–15–C

Notices

Federal Register
Vol. 88, No. 153
Thursday, August 10, 2023

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 11, 2023 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR 4280—Common Forms Package for Financial Assistance Forms for Loans/Grants.

OMB Control Number: 0575–NEW.

Summary of Collection: The Rural Housing Service (RHS), Rural Business and Cooperative Service (RBCS) and Rural Utilities service (RUS) agencies within the Rural Development mission area, hereinafter referred to as Agency, is the credit Agency for agriculture and rural development for the United States Department of Agriculture. The Agency offers loans, grants and loan guarantees to help create jobs and support economic development and essential services such as housing; health care; first responder services and equipment; and water, electric and communications infrastructure.

The Authorities that allow the Rural Housing Service (RHS), Rural Business and Cooperative Service (RBCS) and Rural Utilities service (RUS), Agencies within Rural Development (RD) are as follows:

The RHS is authorized under various sections of Title V of the Housing Act of 1949, as amended, to provide financial assistance to construct, improve, alter, repair, replace, or rehabilitate dwellings, which will provide modest, decent, safe, and sanitary housing to eligible individuals in rural areas. The Consolidated Farm and Rural Development Act, as amended, authorizes the credit programs of the RHS, RBCS and RUS to provide financial assistance for essential community facilities such as construction of community facilities and water and waste systems; and the improvement, development, and financing of businesses, industries, and employment.

Need and Use of the Information: The information will be collected through the use of forms that can be accessed electronically (or in hard copy) for use as attachments to financial assistance applications. The information is collected once and is not typically shared, unless by a FOIA request. (USDA agencies and staff offices will have the option of adding the forms to their individual application packages on the *Grants.gov* website that is managed by the U.S. Department of Health and Human Services. The formal process of having the forms added to *Grants.gov* will occur after they are approved by the Office of Management and Budget (OMB)).

Description of Respondents: Businesses or other for-profits; farms; not-for-profit institutions.

Number of Respondents: 1.

Frequency of Responses: Annually.

Total Burden Hours: 1.

Rural Housing Service

Title: 7 CFR 1910–B and C, Federal Debt and Employment Verification Compliance Requirements.

OMB Control Number: 0575–NEW.

Summary of Collection: The Rural Housing Service (RHS), Rural Business and Cooperative Service (RBCS) and Rural Utilities service (RUS) agencies within the Rural Development mission area, hereinafter referred to as Agency, is the credit Agency for agriculture and rural development for the United States Department of Agriculture. The Agency offers offer loans, grants and loan guarantees to help create jobs and support economic development and essential services such as housing; health care; first responder services and equipment; and water, electric and communications infrastructure on an equal opportunity basis.

The information collection under OMB Number 0575-New will enable the Agencies to effectively monitor a recipient's compliance with the federal debt reporting and to determine employment verification and eligibility for Federal financial assistance.

The Agencies offer supervised credit programs to build modest housing and essential community facilities in rural areas. Section 517 (d) of Title V of the Housing Act of 1949, as amended, provides the authority for the Secretary of Agriculture to issue loan guarantees for the acquisition of new or existing dwellings and related facilities to provide decent, safe, and sanitary living conditions and other structures in rural areas.

Need and Use of the Information: This information collection will be utilized by the Rural Housing Service (RHS), Rural Business and Cooperative Service (RBCS) and Rural Utilities service (RUS), Agencies within Rural Development (RD) for various loan and grant making activities. Information requested can include financial documents such as confirmation of household income, assets and liabilities,

a credit record, evidence the borrower has adequate repayment ability for the loan amount requested and if the condition and location of the property meet program guidelines. All information is necessary to confirm the borrower qualifies for all assistance for which they are eligible.

Description of Respondents: Businesses or other for-profits; Not-for-profit institutions.

Number of Respondents: 1.

Frequency of Responses: Annually.

Total Burden Hours: 4.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410–XV–P

DEPARTMENT OF AGRICULTURE

U.S. Codex Office

[Docket No. USDA–2023–0011]

International Standard-Setting Activities

AGENCY: Trade and Foreign Agricultural Affairs (TFAA), USDA.

ACTION: Notice.

SUMMARY: This notice informs the public of the sanitary and phytosanitary (SPS) standard-setting activities of the Codex Alimentarius (Codex), in accordance with section 491 of the Trade Agreements Act of 1979, as amended, and the Uruguay Round Agreements Act. This notice also provides a list of other standard-setting activities of Codex, including commodity standards, guidelines, codes of practice, and revised texts. This notice, which covers Codex activities during the time periods of June 1, 2022 to May 31, 2023 and June 1, 2023 to May 31, 2024, seeks comments on standards under consideration and recommendations for new standards.

DATES: Comments must be received on or before October 13, 2023.

ADDRESSES: The U.S. Codex Office (USCO) invites interested persons to submit their comments on this notice. Comments may be submitted by one of the following methods:

- *Federal e-Rulemaking Portal:* This website provides the ability to type short comments directly into the comment field on this web page or attach a file for lengthier comments. Go to *http://www.regulations.gov.* Follow the on-line instructions at the website for submitting comments.
- *Mail:* Send to Docket Clerk, U.S. Department of Agriculture, Trade and Foreign Agricultural Affairs, U.S. Codex Office, 1400 Independence Avenue SW, Mailstop S4861, Washington, DC 20250–3700.
- *Hand- or courier-delivered submittals:* Deliver to 1400 Independence Avenue SW, Room 4861, Washington, DC 20250–3700.

Instructions: All items submitted by mail or email are to include the Agency name (*i.e.,* USCO) and docket number USDA–2023–0011. Comments received in response to this docket will be made available for public inspection and posted without change, including any personal information to *http://www.regulations.gov.*

Please state that your comments refer to Codex. If your comments relate to specific Codex committees, please identify the committee(s) in your comments and submit a copy of your comments to the U.S. delegate to the committee.

Docket: For access to background documents or comments received, email *uscodex@usda.gov* to schedule an appointment.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Frances Lowe, United States Manager for Codex Alimentarius, U.S. Department of Agriculture, Office of the Under Secretary for Trade and Foreign Agricultural Affairs, U.S. Codex Office, 1400 Independence Avenue SW, Room 4861, Washington, DC 20250–3700, Email: *uscodex@usda.gov,* Telephone: 202–205–7760.

For information pertaining to committees, contact the U.S. delegate for that committee. A complete list of delegates and alternate delegates is accessible via the internet at: *https://www.usda.gov/sites/default/files/documents/us-codex-program-officials.pdf.* Documents pertaining to Codex and specific committee agendas are accessible via the internet at *http://www.fao.org/fao-who-codexalimentarius/meetings/en/.* The U.S. Codex Office also maintains a website at *http://www.usda.gov/codex,* a link that offers an email subscription service providing access to information related to Codex. Customers can add or delete their subscription themselves and have the option to password protect their accounts.

SUPPLEMENTARY INFORMATION:

Background

The World Trade Organization (WTO) was established on January 1, 1995, as the common international institutional framework for the conduct of trade relations among its members in matters related to the Uruguay Round Trade Agreements. The WTO is the successor organization to the General Agreement on Tariffs and Trade (GATT). United States membership in the WTO was approved and the Uruguay Round Agreements Act (Uruguay Round Agreements) was signed into law by the President on December 8, 1994, Public Law 103–465, 108 Stat. 4809. The Uruguay Round Agreements became effective with respect to the United States on January 1, 1995. The Uruguay Round Agreements amended the Trade Agreements Act of 1979. Pursuant to section 491 of the Trade Agreements Act of 1979, as amended, the President is required to designate an agency to be ''responsible for informing the public of the sanitary and phytosanitary (SPS) standard-setting activities of each international standard-setting organization'' (19 U.S.C. 2578). The main international standard-setting organizations are the Codex Alimentarius (Codex), the World Organisation for Animal Health (WOAH, founded as OIE), and the International Plant Protection Convention (IPPC). The President, pursuant to Proclamation No. 6780 of March 23, 1995, (60 FR 15845), designated the U.S. Department of Agriculture as the agency responsible for informing the public of the SPS standard-setting activities of each international standard-setting organization. The Secretary of Agriculture has delegated to the Trade and Foreign Agricultural Affairs Mission Area the responsibility to inform the public of the SPS standard-setting activities of Codex. The Trade and Foreign Agricultural Affairs Mission Area has, in turn, assigned the responsibility for informing the public of the SPS standard-setting activities of Codex to the U.S. Codex Office (USCO).

Codex was created in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the principal international organization for establishing standards for food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers, ensure fair practices in the food trade, and promote coordination of food standards work undertaken by international governmental and nongovernmental organizations. In the United States, U.S. Codex activities are managed and carried out by the United States Department of Agriculture (USDA); the Food and Drug Administration (FDA), Department of

Health and Human Services (HHS); the National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC); and the Environmental Protection Agency (EPA).

As the agency responsible for informing the public of the SPS standard-setting activities of Codex, the USCO publishes this notice in the **Federal Register** annually. *Attachment 1: Sanitary and Phytosanitary Activities of Codex* sets forth the following information:

1. The SPS standards under consideration or planned for consideration; and

2. For each SPS standard specified:

a. A description of the consideration or planned consideration of the standard

b. Whether the United States is participating or plans to participate in the consideration of the standard

c. The agenda for United States participation, if any; and

d. The agency responsible for representing the United States with respect to the standard.

To obtain copies of the standards listed in *Attachment 1: Sanitary and Phytosanitary Activities of Codex,* please contact the U.S. delegate or the U.S. Codex Office.

This notice also solicits public comment on standards that are currently under consideration or planned for consideration and recommendations for new standards. The U.S. delegate, in conjunction with the responsible agency, will take the comments received into account in participating in the consideration of the standards and in proposing matters to be considered by Codex.

The U.S. delegate will facilitate public participation in the United States Government's activities relating to Codex. The U.S. delegate will maintain a list of individuals, groups, and organizations that have expressed an interest in the activities of the Codex committees and will disseminate information regarding U.S. delegation activities to interested parties. This information will include the status of each agenda item; the U.S. Government's position or preliminary position on each agenda item; and the time and place of planning meetings and debriefing meetings following the Codex committee sessions. In addition, the USCO makes much of the same information available through its web page at *http://www.usda.gov/codex.* If you would like to access or receive information about specific committees, please visit the web page or notify the appropriate U.S. delegate or the U.S. Codex Office, Room 4861, 1400 Independence Avenue SW, Washington, DC 20250–3700, Email: *uscodex@usda.gov.*

The information provided in *Attachment 1: Sanitary and Phytosanitary Activities of Codex* describes the status of Codex standard-setting activities by the Codex committees for the time periods from June 1, 2022 to May 31, 2023 and June 1, 2023 to May 31, 2024. A list of forthcoming Codex sessions may be found at: *https://www.fao.org/fao-who-codexalimentarius/meetings/en/.*

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, the USCO will announce this **Federal Register** publication on-line through the U.S. Codex web page located at: *https://www.federalregister.gov/agencies/us-codex-office.*

Done at Washington, DC.

Mary Frances Lowe,

U.S. Manager for Codex Alimentarius.

Attachment 1: Sanitary and Phytosanitary Activities of Codex

Codex Alimentarius Commission and Executive Committee

The Codex Alimentarius Commission (Commission or CAC) convened its 45th Session (CAC45) from November 21–25, 2022, in Rome, Italy, with report adoption taking place virtually on December 12–13, 2022 and continued by written procedure. The relevant document is REP22/CAC. The actions taken by the Commission at CAC45 (*e.g.,* adoption and revocation of standards, approval of new work, discontinuation of work, amendments, etc.) are described below under the respective Codex committees.

The Commission is scheduled to convene its 46th Session (CAC46) from November 27 to December 2, 2023. At its 46th Session, the Commission will consider adopting standards recommended by committees at Step 8 or 5/8 (final adoption) and advance the work of committees by adopting draft standards at Step 5 (interim adoption, for further comment and consideration by the relevant committee). The Commission will also consider revocation of Codex texts; proposals for new work; discontinuation of work; amendments to Codex standards and related texts; and matters arising from the Reports of the Commission, the Executive Committee, and subsidiary bodies. Although the agenda for the 46th Session is not yet available, it is expected that the Commission will also consider Codex budgetary and financial matters; FAO/WHO scientific support to Codex (activities, budgetary and financial matters); matters arising from FAO/WHO; reports of side events; election of the chairperson and vice-chairpersons and members of the Executive Committee elected on a geographical basis; designation of countries responsible for appointing the chairpersons of Codex subsidiary bodies; any other business; and adoption of the report.

The Executive Committee (CCEXEC) is composed of the Commission chairperson; vice-chairpersons; seven members elected by the Commission from each of the following geographic regions: Africa, Asia, Europe, Latin America and the Caribbean, Near East, North America, and the South West Pacific; and regional coordinators from the six regional coordinating committees. The United States currently participates as an advisor to Canada, the member elected on a geographical basis from North America.

CCEXEC convened its 82nd Session (CCEXEC82) virtually June 20–24, 2022, with virtual report adoption on June 30, 2022. The relevant document is REP22/EXEC1. CCEXEC82 conducted Critical Review of the standards development work of the Codex Committees on Fats and Oils (CCFO), Nutrition and Foods for Special Dietary Uses (CCNFSDU), Food Hygiene (CCFH), and Residues of Veterinary Drugs in Foods (CCRVDF). CCEXEC82 also considered the progress of three Sub-Committees concerned with (1) the development of practical guidance on the application of the *Statements of Principle concerning the Role of Science in the Codex decision-making process and the extent to which other factors are taken into account,* (2) new food sources and production systems, and (3) a model for future Codex work; reviewed and made recommendations to the Directors General of FAO and WHO on applications from international non-governmental organizations for observer status in Codex; and discussed the status of work under the Codex Strategic Plan 2020–2025 and plans for commemorating the 60th Anniversary of the CAC in 2023. The report and recommendations of CCEXEC82 were considered by the Codex Alimentarius Commission at its 45th Session (CAC45, November 2022).

CCEXEC convened its 83rd Session (CCEXEC83) from November 14 to 18, 2022, in Rome, Italy. The relevant document is REP22/EXEC2. In addition to making recommendations to CAC45 on the work of Codex committees, CCEXEC83 discussed practical guidance

on the application of the *Statements of Principle concerning the Role of Science in the Codex decision-making process and the extent to which other factors are taken into account;* new food sources and production systems; the Future of Codex; the Codex Strategic Plan 2020–2025; and the 60th anniversary of the Commission.

CCEXEC convened its 84th Session (CCEXEC84) from July 10–14, 2023, in Geneva, Switzerland. The relevant document is REP23/EXEC1. In addition to discussing recommendations to CAC46 on the work of Codex committees, CCEXEC84 discussed the Blueprint on the Future of Codex; recommendations on the Future of Codex in the context of 60th anniversary celebrations; monitoring the implementation of the Codex Strategic Plan 2020–2023; and plans for the development of the Codex Strategic Plan for 2026–2031. The Executive Committee also considered the following agenda items: applications from international non-governmental organizations for observer status in Codex; and regional standards. The Executive Committee agenda for the 85th Session (CCEXEC85, November 2023) is not yet available.

Responsible Agency: USDA/TFAA/USCO.

U.S. Participation: Yes, as advisor to Canada (current CCEXEC member elected on a geographical basis from North America).

Codex Committee on Contaminants in Foods

The Codex Committee on Contaminants in Foods (CCCF) establishes or endorses permitted maximum levels (MLs) and guideline levels (GLs) for contaminants and naturally occurring toxicants in food and feed; prepares priority lists of contaminants and naturally occurring toxicants for risk assessment by the Joint FAO/WHO Expert Committee on Food Additives (JECFA); considers and elaborates methods of analysis and sampling for the determination of contaminants and naturally occurring toxicants in food and feed; considers and elaborates standards or codes of practice for related subjects; and considers other matters assigned to it by the Commission in relation to contaminants and naturally occurring toxicants in food and feed.

The Committee had the following items which were considered and approved by the 45th Session of the Codex Alimentarius Commission (CAC45) in November 2022:

Final Adoption at Step 8 or Step 5/8

- *Code of Practice for the Prevention and Reduction of Cadmium Contamination in Cocoa Beans* (CXC 81–2022)
- ML for cadmium in cocoa powder (100% cocoa solids on a dry matter basis)
- MLs for lead in cereal-based foods for infants and young children, white and refined sugar, corn and maple syrups, honey and sugar-based candies
- MLs for methylmercury in orange roughy and pink cusk eel
- MLs for total aflatoxins (AFT) in maize grain, destined for further processing; flour meal, semolina and flakes derived from maize; husked rice; polished rice; sorghum grain, destined for further processing; cereal-based food for infants and young children (excluding foods for food aid programs); and cereal-based food for infants and young children for food aid programs

Interim Adoption at Step 5

- ML for lead in ready-to-eat meals for infants and young children
- Draft Code of Practice for Prevention and Reduction of Mycotoxin Contamination in Cassava and Cassava-Based Products

Discontinuation

- Work on MLs for lead in fresh eggs, dried garlic, and molasses

The CCCF convened its 16th Session (CCCF16) from April 17–21, 2023, in Utrecht, Netherlands, with report adoption taking place virtually on April 26, 2023. The relevant document is REP23/CF16. CCCF16 advanced the following items for consideration by the CAC46 in November 2023:

For final adoption at Step 8 and Step 5/8

- MLs for lead for soft brown, raw, and non-centrifugal sugars
- MLs for lead for ready-to-eat meals for infants and young children
- Code of Practice for Prevention and Reduction of Mycotoxin Contamination in Cassava and Cassava-Based Products
- Sampling plans for total aflatoxins in certain cereals and cereal-based products including foods for infants and young children
- MLs for Ochratoxin A (OTA) in chili pepper, paprika and nutmeg; and
- MLs for total aflatoxins (AFT) in chili pepper and nutmeg

For Approval as New Work

- Code of Practice/Guidelines for the Prevention or Reduction of Ciguatera Poisoning

For Discontinuation

- Work on AFT in ginger, paprika, black and white pepper, and turmeric.

The CCCF is scheduled to convene its 17th session (CCCF17) from April 15–19, 2024. The CCCF17 location and agenda are currently unavailable.

The Committee is expected to continue working on:

- ML for total aflatoxins in ready to-eat (RTE) peanuts and associated sampling plan (definition of RTE peanuts)
- Sampling plans for OTA and AFT (chili pepper, paprika, and nutmeg)
- New work on a Code of Practice/Guidelines for the prevention or reduction of ciguatera poisoning
- Discussion paper on pyrrolizidine alkaloids
- Discussion paper on new measures supporting the revision of the *Code of Practice for the Prevention and Reduction of Aflatoxin Contamination in Peanuts* (CXC 55–2004)
- Discussion paper on new measures supporting the revision of the *Code of Practice for the Reduction of Aflatoxin B1 in Raw Materials and Supplemental Feeding Stuffs for Milk-Producing Animals* (CXC 45–1997)
- Discussion paper on the need and feasibility of possible follow up actions on tropane alkaloids
- Discussion paper on possible risk management measure(s) for acrylamide in foods, taking into account the most recent JECFA evaluations
- Discussion paper on the development of a Code of Practice for the Prevention and Reduction of Cadmium Contamination in Foods
- General guidance on data analysis for development of maximum levels and improved data collection
- Review of Codex standards for contaminants
- Follow-up work to the outcomes of JECFA evaluations and FAO/WHO expert consultations
- Reconsider the opportunity to develop discussion papers on the need and feasibility of possible follow-up actions on ergot alkaloids and trichothecenes (T–2, HT–2 and DAS)
- Priority list of contaminants for evaluation by JECFA

Responsible Agencies: HHS/FDA; USDA/Food Safety and Inspection Service (FSIS).

U.S. Participation: Yes.

Codex Committee on Fats and Oils

The Codex Committee on Fats and Oils (CCFO) is responsible for elaborating worldwide standards for fats

and oils of animal, vegetable, and marine origin, including margarine and olive oil.

The Committee had the following items which were considered and approved by CAC45 in November 2022:

Final Adoption at Step 8 and Step 5/8

- Revision to the *Standard for Named Vegetable Oils* (CXS 210–1999): Essential composition of sunflower seed oils

Interim Adoption at Step 5

- Draft revision to the *Standard for Named Vegetable Oils* (CXS 210–1999): Inclusion of avocado oil

Approved as New Work

- Amendment/revision to the *Standard for Named Vegetable Oils* (CXS 210–1999) to include camellia seed oil; sacha inchi oil; and high oleic acid soya bean oil
- Amendment/revision to the *Standard for Fish Oils* (CXS 329–2017) to include Calanus oil

The CCFO is scheduled to convene for its 23rd Session (CCFO23) from February 19–23, 2024, in Kuala Lumpur, Malaysia. The CCFO23 agenda is currently unavailable.

The Committee is expected to continue work on:

- Amendment/Revision of the *Standard for Named Vegetable Oils* (CXS 210–1999): inclusion of avocado oil
- Revision of the *Standard for Olive Oils and Pomace Olive Oils* (CXS 33–1981)
- Amendment/Revision of the *Standard for Named Vegetable Oils* (CXS 210–1999): inclusion of camellia seed oil
- Amendment/Revision of the *Standard for Named Vegetable Oils* (CXS 210–1999): inclusion of sacha inchi oil
- Amendment/Revision of the *Standard for Named Vegetable Oils* (CXS 210–1999): inclusion of high oleic acid soya bean oil
- Amendment/Revision of the *Standard for Fish Oils* (CXS 329–2017): inclusion of Calanus oil
- Consideration of proposals on new substances to be added to the List of Acceptable Previous Cargoes

Responsible Agencies: HHS/FDA/Center for Food Safety and Applied Nutrition (CFSAN); USDA/Agricultural Research Service (ARS).

U.S. Participation: Yes.

Codex Committee on Fish and Fishery Products

The Committee on Fish and Fishery Products (CCFFP) is responsible for elaborating standards for fresh, frozen, and otherwise processed fish, crustaceans, and mollusks. The CCFFP is working by correspondence and is expected to complete its pending work by October 1, 2023.

The Committee is working on:

- The *Standard for Canned Sardines and Sardine-Type Products* (CXS 94–1981), inclusion of the fish species *S. lemuru* (Bali Sardinella) in the list of *Sardinella* species under Section 2.1

Responsible Agencies: HHS/FDA; DOC/NOAA/National Marine Fisheries Service (NMFS).

U.S. Participation: Yes.

Codex Committee on Food Additives

The Codex Committee on Food Additives (CCFA) establishes or endorses acceptable MLs for individual food additives; prepares a priority list of food additives for risk assessment by the JECFA; assigns functional classes to individual food additives; recommends specifications of identity and purity for food additives for adoption by the Codex Alimentarius Commission; considers methods of analysis for the determination of additives in food; and considers and elaborates standards or codes of practice for related subjects such as the labeling of food additives when sold as such.

The CCFA convened its 53rd Session (CCFA53) from March 27–31, 2023, in Hong Kong, China. The relevant document is REP23/FA. CCFA53 advanced the following items for consideration by the CAC46 in November 2023:

For Final Adoption at Step 8 and Step 5/8

- Inclusion of the provision for trisodium citrate (INS 331(iii)) in FC 01.1.1 in the *General Standard for Food Additives (GSFA)* (CXS 192–1995)
- Inclusion of the provisions for food additives in FC 14.2.3 (CXS 192–1995)
- Inclusion of the provisions for riboflavin, synthetic (INS 101(i)), riboflavin 5′-phosphate sodium (INS 101(ii)), riboflavin from Bacillus subtilis (INS 101(iii)), riboflavin from Ashbya gossypii (INS 101(iv)) and spirulina extract (INS 134) in Table 3 (CXS 192–1995)
- Proposed draft revision of the *Class Names and the International Numbering System for Food Additives* (CXG 36–1989)
- Proposed draft *Specifications for the Identity and Purity of Food Additives* (CXA 6–2021)

The CCFA is scheduled to convene its 54th Session (CCFA54) from April 22–26, 2024. The CCFA54 agenda is currently unavailable.

The Committee is expected to continue work on:

- The alignment and the endorsement of food-additive provisions referred by commodity committees
- New or revised provisions of the GSFA
- Revision of the *Class Names and the International Numbering System for Food Additives* (CXG 36–1989)
- Proposal for additions and changes to the Priority List of Substances proposed for evaluation by JECFA
- Mapping food categories of the GFSA to the FoodEx2 Database
- Discussion paper on the development of a standard for yeast
- Discussion paper to identify the outstanding issues with respect to avoiding future divergence between the GSFA, commodity standards and other texts

Responsible Agency: HHS/FDA/CFSAN.

U.S. Participation: Yes.

Codex Committee on Food Hygiene

The Codex Committee on Food Hygiene (CCFH) is responsible for developing basic provisions on food hygiene applicable to all food; considering and amending or endorsing provisions on food hygiene contained in Codex commodity standards and Codex codes of practice developed by other committees; considering specific food hygiene problems assigned to it by the Commission; suggesting and prioritizing areas where there is a need for microbiological risk assessment at the international level and developing questions to be addressed by the risk assessors; and considering microbiological risk management matters in relation to food hygiene and in relation to the FAO/WHO risk assessments.

The Committee had the following items which were considered and approved by the CAC45 in November 2022:

Final Adoption at Step 8

- *Guidelines on the Management of Biological Foodborne Outbreaks* (CXG 96–2022)
- Proposed draft Decision Tree as an Annex to the *General Principles of Food Hygiene* (CXC 1–1969)

The CCFH convened its 53rd Session (CCFH53) from November 27–December 2, 2022, in San Diego, California, with report adoption taking place virtually on December 8, 2022. The relevant document is REP 23/FH. CCFH53 advanced the following items for consideration by the CAC46 in November 2023:

For Final Adoption at Step 5/8

- Draft Guidelines for the Control of Shiga Toxin-Producing *Escherichia coli* (STEC) in Raw Beef, Fresh Leafy Vegetables, Raw Milk and Raw Milk Cheeses, and Sprouts (General Section, Annex I on Raw Beef, and Annex III on Raw Milk and Raw Milk Cheeses)
- Draft Guidelines for the Safe Use and Reuse of Water in Food Production and Processing (General Section and Annex I on Fresh Produce)

For Approval as New Work

- Revision of the *Guidelines on the Application of General Principles of Food Hygiene to the Control of Pathogenic Vibrio Species in Seafood* (CXG–73–2010)
- Guidelines for Food Hygiene Control Measures in Traditional Markets for Food

The CCFH is scheduled to convene its 54th Session (CCFH54) from March 11–15, 2024, in Nairobi, Kenya. The CCFH54 agenda is currently unavailable.

The Committee is expected to continue work on:

- Proposed Draft Guidelines for the Control of Shiga Toxin-Producing *Escherichia coli* (STEC) in Raw Beef, Raw Milk and Raw Milk Cheeses, Fresh Leafy Vegetables, and Sprouts: (Annex II on Fresh Leafy Vegetables and Annex IV on Sprouts)
- Proposed Draft Guidelines for the Safe Use and Reuse of Water in Food Production: Annex II on Fisheries and Annex III on Dairy Products)
- Proposed Draft Guidelines for Food Hygiene Control Measures in Traditional Markets for Food
- Revision of the *Guidelines on the Application of General Principles of Food Hygiene to the Control of Pathogenic Vibrio Species in Seafood* (CXG 73–2010)
- Alignment of other CCFH documents with the revised *General Principles of Food Hygiene* (CXC 1–1969)
- Discussion paper on revision of the *Guidelines on the Application of General Principles of Food Hygiene to the Control of Viruses in Food* (CXG 79–2012)
- Discussion paper on revision of the *Guidelines for the Control of Campylobacter and Salmonella in Chicken Meat* (CXG 78–2011)
- Discussion paper on revision of the *Guidelines on the Application of General Principles of Food Hygiene to the Control of Listeria monocytogenes in Foods* (CXG 61–2007)
- New work proposals/forward workplan

Responsible Agencies: HHS/FDA/CFSAN; USDA/FSIS.

U.S. Participation: Yes.

Codex Committee on Food Import and Export Inspection and Certification Systems

The Codex Committee on Food Import and Export Inspection and Certification Systems (CCFICS) is responsible for developing principles and guidelines for food import and export inspection and certification systems, with a view to harmonizing methods and procedures that protect the health of consumers, ensure fair trading practices, and facilitate international trade in foodstuffs; developing principles and guidelines for the application of measures by the competent authorities of exporting and importing countries to provide assurance, where necessary, that foodstuffs comply with requirements, especially statutory health requirements; developing guidelines for the utilization, as and when appropriate, of quality assurance systems to ensure that foodstuffs conform with requirements and promote the recognition of these systems in facilitating trade in food products under bilateral/multilateral arrangements by countries; developing guidelines and criteria with respect to format, declarations, and language of such official certificates as countries may require with a view towards international harmonization; making recommendations for information exchange in relation to food import/export control; consulting as necessary with other international groups working on matters related to food inspection and certification systems; and considering other matters assigned to it by the Commission in relation to food inspection and certification systems.

The Committee had the following item which was considered and approved by the CAC45 in November 2022:

Approved as New Work

- Development of principles and guidelines on the use of remote audit and verification in regulatory frameworks

The CCFICS convened its 26th Session from May 1–5, 2023, in Hobart, Tasmania, Australia. The relevant document is REP 23/FICS. The Committee advanced the following items for consideration by the CAC46 in November 2023:

For Final Adoption at Step 8 and Step 5/8

- Proposed draft guidelines on recognition and maintenance of equivalence of national food control systems (NFCS)
- Proposed draft principles and guidelines on the use of remote audit and inspection in regulatory frameworks

For Approval as New Work

- Project document for the on review and update of the *Principles for Traceability/Product Tracing as a Tool within a Food Inspection and Certification System* (CXG 60–2006)

The CCFICS is scheduled to convene its 27th Session (CCFICS27) from September 16–20, 2024, in Australia. The CCFICS27 agenda is currently unavailable.

The Committee is expected to continue work on:

- Development of guidance on the prevention and control of food fraud
- Proposed draft consolidated Codex guidelines related to equivalence
- Reviewing and updating the list of emerging global issues
- Review and update of the *Principles for Traceability/Product Tracing as a Tool Within a Food Inspection and Certification System* (CXG 60–2006)
- Discussion paper and project document on guidance on appeals mechanisms in the context of rejection of imported food
- Discussion paper and project document on the standardization of sanitary requirements

Responsible Agencies: USDA/FSIS; HHS/FDA/CFSAN.

U.S. Participation: Yes.

Codex Committee on Food Labelling

The Codex Committee on Food Labelling (CCFL) drafts provisions on labeling applicable to all foods; considers, amends, and endorses draft specific provisions on labeling prepared by the Codex committees drafting standards, codes of practice, and guidelines; and studies specific labeling problems assigned to it by the Codex Alimentarius Commission. The Committee also studies problems associated with the advertisement of food with particular reference to claims and misleading descriptions.

The CCFL convened its 47th Session (CCFL47) from May 15–19, 2023, in Gatineau (Ottawa), Canada. The relevant document is REP23/FL. CCCFL47 advanced the following items for consideration by the CAC46 in November 2023:

For Interim Adoption at Step 5

- Proposed draft revision to the *General Standard for the Labelling of Prepackaged Foods* (CXS 1–1985): provisions relevant to allergen labelling
- Proposed draft Guidelines on the Provision of Food Information for Prepackaged Foods to be Offered Via E-Commerce
- Proposed draft Guidelines on the Use of Technology to Provide Food Information

For approval as new work:

- Amendments to the *General Standard for the Labelling of Prepackaged Foods* (CXS 1–1985): labelling of prepackaged foods in joint presentation and multipack formats

In addition, CCFL47 endorsed labeling provisions in standards developed by other Codex committees, including the Codex Committee on Fresh Fruits and Vegetables (CCFFV); the Codex Committee on Spices and Culinary Herbs (CCSCH); and the Codex Coordinating Committee for Asia (CCASIA). For the Standard for Dried Floral Parts—Saffron, CCFL47 agreed to endorse all labeling provisions except those on country of origin and country of harvest, referring these two provisions back to the CCSCH for reconsideration.

The CCFL is scheduled to convene its 48th session (CCFL48) from October 28 to November 1, 2024, in Ottawa, Canada. The CCFL48 agenda is currently unavailable.

The Committee is expected to continue work on:

- Proposed draft Guidelines on the Provision of Food Information for Prepackaged Foods to be Offered via E-Commerce
- Proposed draft revision to the *General Standard for the Labelling of Prepackaged Foods* (CXS 1–1985): Provisions relevant to allergen labeling and guidelines on precautionary allergen labeling
- Proposed draft Guidelines on the Use of Technology to Provide Food Information
- Discussion Paper on the Labelling of alcoholic beverages
- Redrafting of the Discussion Paper on the Application of food labelling provisions in emergencies
- Discussion Paper on Trans Fatty Acids (TFA)
- Redrafted Discussion Paper on Sustainability Labelling Claims: Revision to the *General Guidelines on Claims* (CXG 1–1979)
- Discussion Paper on the Definition for Added Sugars
- Update to the Discussion Paper on Future work and Direction of CCFL and Criteria for the evaluation and prioritization of work of CCFL

Responsible Agencies: HHS/FDA/CFSAN; USDA/FSIS.

U.S. Participation: Yes.

Codex Committee on Fresh Fruits and Vegetables

The Codex Committee on Fresh Fruits and Vegetables (CCFFV) is responsible for elaborating worldwide standards and codes of practice, as may be appropriate, for fresh fruits and vegetables, consulting as necessary, with other international organizations in the standards development process to avoid duplication.

The Committee had the following items which were considered and approved by the CAC45 in November 2022:

Final Adoption at Step 5/8

- *Standard for onions and shallots* (CXS 348–2022)
- *Standard for berry fruits* (not yet published; document number not yet assigned) *Interim adoption at Step 5*
- Proposed draft standard for fresh dates

Approved as New Work

- New regional standard for *Castilla lulo* (approved to be undertaken as a regional standard by the Regional Coordinating Committee for Latin America and the Caribbean)
- New standard for fresh curry leaves

In addition, the Committee agreed to the following item for internal use by the Committee:

- Glossary of terms used in the layout for Codex standards for fresh fruits and vegetables

The date and location of the 23rd Session of the CCFFV (CCFFV23) have not yet been determined. The CCFFV23 agenda is currently unavailable.

The Committee is expected to continue work on:

- New work proposals
- Draft standard for fresh dates
- Draft standard for fresh curry leaves

Responsible Agencies: USDA/Agricultural Marketing Service (AMS), HHS/FDA/CFSAN.

U.S. Participation: Yes.

Codex Committee on General Principles

The Codex Committee on General Principles (CCGP) is responsible for procedural and general matters referred to it by the Codex Alimentarius Commission, including: (a) The review or endorsement of procedural provisions/texts forwarded by other subsidiary bodies for inclusion in the *Procedural Manual* of the Codex Alimentarius Commission; and (b) The consideration and recommendation of other amendments to the Procedural Manual.

The 33rd Session of the CCGP (CCGP33) is scheduled for October 2–6, 2023, in Bordeaux, France.

The Committee is expected to discuss:

- Revisions/amendments to Codex texts
- Format and structure of the Codex *Procedural Manual*
- Review and possible amendments to the rules of procedure on Sessions of the Commission
- Review and possible amendment of the Principles concerning the participation of international non-governmental organizations in the work of the Codex Alimentarius Commission

Responsible Agencies: USDA/TFAA/USCO

U.S. Participation: Yes.

Codex Committee on Methods of Analysis and Sampling

The Codex Committee on Methods of Analysis and Sampling (CCMAS) defines the criteria appropriate to Codex Methods of Analysis and Sampling; serves as a coordinating body for Codex with other international groups working on methods of analysis and sampling and quality assurance systems for laboratories; specifies, on the basis of final recommendations submitted to it by the bodies referred to above, reference methods of analysis and sampling appropriate to Codex standards which are generally applicable to a number of foods; considers, amends if necessary, and endorses as appropriate, methods of analysis and sampling proposed by Codex (commodity) committees, except for those methods of analysis and sampling for residues of pesticides or veterinary drugs in food, the assessment of microbiological quality and safety in food, and the assessment of specifications for food additives; elaborates sampling plans and procedures, as may be required; considers specific sampling and analysis problems submitted to it by the Commission or any committees; and defines procedures, protocols, guidelines or related texts for the assessment of food laboratory proficiency, as well as quality assurance systems for laboratories.

The CCMAS convened its 42nd Session (CCMAS42) from June 12–16, 2023, in Budapest, Hungary, with virtual report adoption on June 20, 2023. The relevant document is REP23/

MAS. The Committee advanced the following items for consideration at the CAC46 in November 2023:

For Final Adoption at Step 8

- Revised *Guideline on Measurement Uncertainty* (CXG 54–2004)

For Revocation

- *General Standard for Methods for Contaminants* (CXS 228–2001)

The CCMAS is scheduled to convene its 43rd Session CCMAS43 from May 13–17, 2024, in Budapest, Hungary. The CCMAS43 agenda is currently unavailable.

The Committee is expected to continue work on:

- Amendments to certain provisions in *Recommended Methods of Analysis and Sampling* (CXS 234–1999)
- Review of methods for fish and fishery products and fruit juices

Responsible Agencies: HHS/FDA/CFSAN; USDA/AMS.

U.S. Participation: Yes.

Codex Committee on Nutrition and Foods for Special Dietary Uses

The Codex Committee on Nutrition and Foods for Special Dietary Uses (CCNFSDU) is responsible for studying nutrition issues referred to it by the Codex Alimentarius Commission. The Committee also drafts general provisions, as appropriate, on nutritional aspects of all foods and develops standards, guidelines, or related texts for foods for special dietary uses in cooperation with other committees where necessary; considers, amends if necessary, and endorses provisions on nutritional aspects proposed for inclusion in Codex standards, guidelines, and related texts.

The Committee had the following item which was considered and approved by the CAC45 in November 2022:

Final Adoption at Step 8

- Guidelines for Ready-to-Use Therapeutic Foods (RUTF)

The CCNFSDU convened its 43rd Session (CCNFSDU43) from March 7–10, 2023, in Dusseldorf, Germany, with virtual report adoption on March 15, 2023. The relevant document is REP23/NFSDU. CCNFSDU43 advanced the following items for consideration by the CAC46 in November 2023:

For Final Adoption at Step 8 and Step 5/8

- Revised *Standard for Follow-up Formula* (renamed as the Standard for Follow-up Formula for Older Infants and Product for Young Children) (CXS156–1987)

For Interim Adoption at Step 5

- General Principles for establishing Nutrient Reference Values (NRVs–R) for persons aged 6 to 36 month*s*

The CCNFSDU is scheduled to convene its 44th Session (CCNFSDU44) from October 2–6, 2024. The CCNFSDU44 location and agenda are currently unavailable.

The Committee is expected to continue work on:

- General Principles for the Establishment of Nutrient Reference Values–Requirements (NRVs–R) for persons aged 6–36 months
- Collection and review of information on the use and use levels for five identified additives and their technological justification
- Redrafting of the prioritization mechanism/emerging issues for new work proposals
- Redrafting a revised Discussion Paper on harmonized probiotic guidelines
- Redrafting the Discussion Paper on Guidelines including General Principles for the Nutritional Composition of Foods and Beverages made from Plant-based and other Alternative Protein Sources

Responsible Agencies: HHS/FDA/CFSAN; USDA/ARS.

U.S. Participation: Yes.

Codex Committee on Pesticide Residues

The Codex Committee on Pesticide Residues (CCPR) is responsible for establishing maximum residue limits (MRLs) for pesticide residues in specific food items or in groups of food; establishing MRLs for pesticide residues in certain animal feeding stuffs moving in international trade where this is justified for reasons of protection of human health; preparing priority lists of pesticides for evaluation by the Joint FAO/WHO Meeting on Pesticide Residues (JMPR); considering methods of sampling and analysis for the determination of pesticide residues in food and feed; considering other matters in relation to the safety of food and feed containing pesticide residues; and establishing maximum limits for environmental and industrial contaminants showing chemical or other similarity to pesticides in specific food items or groups of food.

The Committee had the following items which were considered and approved by the CAC45 in November 2022:

Final Adoption at Step 8 and 5/8

- Over 300 Maximum Residue Limits (MRLs) for different combinations of pesticides/commodities
- Guidelines for the recognition of active substances or authorized uses of active substances of low public health concern that are considered exempted from the establishment of Codex maximum residue limits (MRLs) or do not give rise to residues
- Revision of *Classification of Food and Feed* (CXA 4–1989): definitions for edible offal, fat, meat, and muscle, including the definitions for the portion of the commodity to which MRLs apply and which is analyzed for fat and muscle; consequential amendment to Class D, Processed Food of Plant Origin; inclusion of additional commodities for citrus fruits pulps (dried) and oils (edible) and soya flour

The CAC45 also discontinued work, approved new work, and revoked existing MRLs as recommended by CCPR53, and noted the discontinuation of discussion of review of the international estimated short-term intake (IESTI) equations.

The CCPR convened its 54th Session (CCPR54) in Beijing, China from June 26–July 1, 2023. The relevant document is REP23/PR. CCPR54 advanced the following items for consideration by the CAC46 in November 2023:

For final adoption at Step 8 and 5/8

- Over 400 Maximum Residue Limits (MRLs) for different combinations of pesticides/commodities
- Revision of the *Classification of Food and Feed* (CXA 4–1989):
  - the revised Class B- Primary food commodities of animal origin and Class E -Processed Foods of Animal Origin (All Types) and their respective table of representative commodities;
  - the consequential amendment to Table 2, Subgroup 12C Eggplant and eggplant-like commodities to the *Principles and Guidance on the Selection of Representative Commodities for the Extrapolation of MRLs for Pesticides to Commodity Groups* (CXG 84–2012);
  - the consequential amendment to the revised definition for the portion of the commodity to which MRLs apply and which is analyzed for Group 006—Tropical Fruits of Inedible Peel and 023—Oil fruits; and
  - the consequential amendments to the inclusion of new commodities/commodity codes in Class A—Primary food commodities of plant

origin and Class D—Processed commodities of plant origin

For Revocation

- The *Guidelines on Portion of Commodities to which MRLs Apply and which is Analyzed* (CXG 41–1993), noting that the *Classification of Food and Animal Feeds* (CXA 4–1989) should be the single, authoritative reference of food and feed for the establishment of MRLs for pesticides

For Approval as New Work

- Guidance for monitoring the purity and stability of reference materials of multi-class pesticides during prolonged storage

The CAC46 will also consider discontinuation of work and revocation of existing MRLs as recommended by CCPR54.

The CCPR is scheduled to convene its 55th Session (CCPR55) from June 3–8, 2024, in China. The CCPR55 agenda is currently unavailable.

The Committee is expected to continue work on:

- Coordination of work between CCPR and CCRVDF: Joint CCPR/CCRVDF Working Group on Compounds for Dual Use
- National registration of pesticides
- Management of unsupported compounds without public health concern scheduled for periodic review
- Establishment of Codex schedules and priority lists of pesticides for evaluation/re-evaluation by JMPR
- Enhancement of the operational procedures of CCPR and JMPR

Responsible Agencies: EPA/Office of Chemical Safety and Pollution Prevention (OCSPP)/Office of Pesticide Programs (OPP); USDA/FSIS.

U.S. Participation: Yes.

Codex Committee on Residues of Veterinary Drugs in Foods

The Codex Committee on Residues of Veterinary Drugs in Foods (CCRVDF) determines priorities for the consideration of residues of veterinary drugs in foods and recommends MRLs for veterinary drugs. The Committee also develops codes of practice, as may be required, and considers methods of sampling and analysis for the determination of veterinary drug residues in food.

The Committee had the following item which was considered and approved by the CAC45 in November 2022:

Interim Adoption at Step 5

- MRLs for zilpaterol hydrochloride (cattle kidney, liver, muscle)

The CCRVDF convened its 26th Session (CCRVDF26) from February 13–17, 2023, in Portland, Oregon. The relevant document is REP23/RVDF. CCRVDF26 advanced the following items for consideration at the CAC46 in November 2023:

For Final Adoption at Step 8 and 5/8

- 57 maximum residue limits (MRLs) for 13 veterinary drugs

For Approval

- Priority List of veterinary drugs requiring evaluation or re-evaluation by JECFA

The CCRVDF is scheduled to convene its 27th Session (CCRVDF27) from October 21–25, 2024. The CCRVDF27 location, and agenda are currently unavailable.

The Committee is expected to continue work on:

- Extrapolation of MRLs between species and to edible offal tissues
- Establishment of action levels for residues of veterinary drugs in edible tissues caused by unavoidable and unintended carryover of veterinary drug residues in animal feed
- Coordination between CCRVDF and CCPR on issues affecting both committees (*e.g.,* harmonization of MRLs for similar edible commodities of animal origin; harmonization of risk assessment methodologies; data-sharing for dual-use compounds)
- Priority List of veterinary drugs requiring evaluation or re-evaluation by JECFA

Responsible Agencies: HHS/FDA/Center for Veterinary Medicine (CVM); USDA/FSIS.

U.S. Participation: Yes.

Codex Committee on Spices and Culinary Herbs

The Codex Committee on Spices and Culinary Herbs (CCSCH) is responsible for elaborating worldwide standards for spices and culinary herbs in their dried and dehydrated state in whole, ground, and cracked or crushed form. CCSCH also consults, as necessary, with other international organizations in the standards development process to avoid duplication.

The CCSCH convened its 6th Session (CCSCH6) virtually from September 26 to October 10, 2022. The relevant document is REP22/SCH. The Committee had the following items which were considered and approved by the CAC45 in November 2022:

Final Adoption at Step 8

- Standard for Dried Floral Parts—Saffron (not yet published)
- *Standard for Dried Seeds—Nutmeg* (CXS 352–202)
- Standard for Dried or Dehydrated Chili Pepper and Paprika (not yet published)
- Amendments to the labelling provisions for non-retail containers in the eight existing spices and culinary herb (SCH) standards, for consistency with the new *General Standard for the Labelling of Non-Retail Containers of Foods* (CXS 346–2021)

Interim Adoption at Step 5

- Proposed draft standard for dried small cardamom
- Proposed draft group standard for spices in the form of dried fruits and berries (allspice, juniper berry, star anise and vanilla)

The CCSCH is scheduled to convene its 7th Session (CCSCH7) from January 29–February 2, 2024, in India. The CCSCH7 agenda is currently unavailable.

The committee is expected to continue work on:

- Proposed draft standard for turmeric
- Proposed draft standard for spices in dried fruits and berries—vanilla
- Update to the SCH Grouping Template

Responsible Agencies: USDA/AMS; HHS/FDA/CFSAN.

U.S. Participation: Yes.

Adjourned Codex Commodity Committees

Several Codex Alimentarius Commodity Committees have adjourned *sine die.* The following Committees fall into this category:

Cereals, Pulses and Legumes—adjourned sine die 2020

Responsible Agency: HHS/FDA/CFSAN.

U.S. Participation: Yes.

Cocoa Products and Chocolate—adjourned sine die 2001

Responsible Agency: HHS/FDA/CFSAN.

U.S. Participation: Yes.

Meat Hygiene—adjourned sine die 2003

Responsible Agency: USDA/FSIS.

U.S. Participation: Yes.

Milk and Milk Products—adjourned sine die 2017

Responsible Agency: USDA/AMS; HHS/FDA/CFSAN.

U.S. Participation: Yes.

Natural Mineral Waters—adjourned sine die 2008

Responsible Agency: HHS/FDA/CFSAN.
U.S. Participation: Yes.

Processed Fruits and Vegetables—adjourned sine die 2020

Responsible Agency: USDA/AMS; HHS/FDA/CFSAN.
U.S. Participation: Yes.

Sugars—adjourned sine die 2019

Responsible Agency: HHS/FDA/CFSAN.
U.S. Participation: Yes.

Vegetable Proteins—adjourned sine die 1989

Responsible Agency: USDA/ARS.
U.S. Participation: Yes.

FAO/WHO Regional Coordinating Committees

The FAO/WHO Regional Coordinating Committees define the problems and needs of the regions concerning food standards and food control; promote within the Committee contacts for the mutual exchange of information on proposed regulatory initiatives and problems arising from food control and stimulate the strengthening of food control infrastructures; recommend to the Commission the development of worldwide standards for products of interest to the region, including products considered by the Committees to have an international market potential in the future; develop regional standards for food products moving exclusively or almost exclusively in intra-regional trade; draw the attention of the Commission to any aspects of the Commission's work of particular significance to the region; promote coordination of all regional food standards work undertaken by international governmental and non-governmental organizations within each region; exercise a general coordinating role for the region and such other functions as may be entrusted to them by the Commission; and promote the use of Codex standards and related texts by members.

There are six regional coordinating committees:

- Coordinating Committee for Africa
- Coordinating Committee for Asia
- Coordinating Committee for Europe
- Coordinating Committee for Latin America and the Caribbean
- Coordinating Committee for the Near East
- Coordinating Committee for North America and the South West Pacific

Coordinating Committee for Africa

The Coordinating Committee for Africa (CCAFRICA) convened its 24th Session (CCAFRICA24) virtually from September 5–9, 2022, with report adoption taking place on September 13, 2022.

The CCAFRICA had the following items which were considered and adopted by the CAC45 in November 2022:

Final Adoption at Step 8

- Regional standard for dried meat (not yet published)

Final Adoption at Step 5/8

- *Guidelines for Developing Harmonized Food Safety Legislation for the CCAFRICA Region* (CXG 98–2022)

The CCAFRICA plans to convene its 25th Session (CCAFRICA25) in approximately two years' time. The CCAFRICA25 date, location, and agenda are currently unavailable.

Responsible Party: USDA/TFAA/USCO.
U.S. Participation: Yes (as an observer).

Coordinating Committee for Asia

The Coordinating Committee for Asia (CCASIA) convened its 22nd Session (CCASIA22) virtually from October 12–18, 2022, with report adoption taking place on October 21, 2022.

The CCASIA advanced the following items for consideration at the CAC46 in November 2023:

For Final Adoption at Step 8 or Step 5/8

- Proposed draft regional standard for soybean products fermented with *Bacillus* species
- Proposed draft regional standard for cooked rice wrapped in plant leaves
- Proposed draft regional standard for quick frozen dumpling
- Amendment to the labelling provisions for non-retail containers in relevant CCASIA regional standards

The CCASIA plans to convene its 23rd Session (CCASIA23) in 2024. The CCASIA23 date, location, and agenda are currently unavailable.

Responsible Party: USDA/TFAA/USCO.
U.S. Participation: Yes (as an observer).

Coordinating Committee for Europe

The Coordinating Committee for Europe (CCEURO) did not meet during the time period covered by this notice and has not announced the date or location of its next session (CCEURO33). The CCEURO33 agenda is currently unavailable.

Responsible Party: USDA/TFAA/USCO.
U.S. Participation: Yes (as an observer).

Coordinating Committee for Latin America and the Caribbean

The Coordinating Committee for Latin America and the Caribbean (CCLAC) convened its 22nd Session (CCLAC22) virtually from October 24–28, 2022.

The CCLAC plans to convene its 23rd Session (CCLAC23) in approximately two years' time from CCLAC22. The CCLAC23 date, location, and agenda are currently unavailable.

Responsible Party: USDA/TFAA/USCO.
U.S. Participation: Yes (as an observer).

Coordinating Committee for North America and the South West Pacific

The Coordinating Committee for North America and the South West Pacific (CCNASWP) convened its 16th Session (CCNASWP16) in Nadi, Fiji, from January 30 to February 3, 2023.

The CCNASWP advanced the following item for consideration by the CAC46 in November 2023:

For Final Adoption at Step 8

- Draft regional standard for fermented noni fruit juice

The CCNASWP will convene its 17th Session in approximately two years' time from CCNASWP16. The CCNASWP17 date, location, and agenda are currently unavailable.

Responsible Party: USDA/TFAA/USCO.
U.S. Participation: Yes (as an observer).

Coordinating Committee for the Near East

The Coordinating Committee for the Near East (CCNE) did not meet in 2022. The CCNE plans to convene its 11th Session (CCNE11) at FAO headquarters in Rome, Italy, September 18–22, 2023. The agenda for CCNE 11 includes discussion of the following topics: alignment of regional standards, proposed draft regional standard for maamoul, Codex work relevant to the region, food safety and quality in the region including current and emerging issues—country updates, implementation of the Codex Strategic Plan 2020–2025, Discussion Paper on the development of a standard for halal products, and Nomination of the regional coordinator.

Responsible Party: USDA/TFAA/USCO.

U.S. Participation: Yes (as an observer).

Contact Information

U.S. Codex Office, United States Department of Agriculture, Room 4861, 1400 Independence Avenue SW, Washington, DC 20250–3700, Email: *uscodex@usda.gov.*

BILLING CODE P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Nebraska Advisory Committee; Cancellation

AGENCY: Commission on Civil Rights.

ACTION: Notice; cancellation of community forum meeting.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal Register** concerning a community forum meeting of the Nebraska Advisory Committee. The meeting scheduled for Wednesday, August 9, 2023, at 1:00 p.m. (CST) is cancelled.

FOR FURTHER INFORMATION CONTACT: Victoria Moreno, *vmoreno@usccr.gov,* (434) 515–0204.

SUPPLEMENTARY INFORMATION: The meeting notice was originally published in the **Federal Register** of Thursday, July 27, 2023, in FR Doc. 2023–15886 in the second columns of page 48431 (88 FR 48431).

Dated: August 7, 2023.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

[FR Doc. 2023–17161 Filed 8–9–23; 8:45 am]

BILLING CODE P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the U.S. Virgin Islands Advisory Committee to the U.S. Commission on Civil Rights

AGENCY: U.S. Commission on Civil Rights.

ACTION: Notice of public meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the Federal Advisory Committee Act, that the U.S. Virgin Islands Advisory Committee (Committee) to the U.S. Commission on Civil Rights will hold a public meeting via Zoom. The purpose of the meeting is to discuss and plan on matters related to the Committee's inaugural civil rights project.

DATES: Tuesday, September 5, 2023, from 11:00 a.m.–12:30 p.m. Atlantic Time.

ADDRESSES: The meeting will be held via Zoom.

Meeting Link (Audio/Visual): https://www.zoomgov.com/j/1603920110.

Join by Phone (Audio Only): 1–833–435–1820 USA Toll-Free; Meeting ID: 160 392 0110#.

FOR FURTHER INFORMATION CONTACT: David Barreras, Designated Federal Officer, at *dbarreras@usccr.gov* or 1–202–656–8937.

SUPPLEMENTARY INFORMATION: This Committee meeting is available to the public through the Zoom meeting link above. Any interested member of the public may listen to the meeting. An open comment period will be provided to allow members of the public to make a statement as time allows. Per the Federal Advisory Committee Act, public minutes of the meeting will include a list of persons who are present at the meeting. If joining via phone, callers can expect to incur regular charges for calls they initiate over wireless lines, according to their wireless plan. The Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free telephone number. Closed captioning is available by selecting ''CC'' in the meeting platform. To request additional accommodations, please email *svillanueva@usccr.gov* at least 10 business days prior to the meeting.

Members of the public are entitled to submit written comments; the comments must be received in the regional office within 30 days following the meeting. Written comments may be emailed to David Barreras at *dbarreras@usccr.gov.* Persons who desire additional information may contact the Regional Programs Coordination Unit at 1–202–656–8937.

Records generated from this meeting may be inspected and reproduced at the Regional Programs Coordination Unit Office, as they become available, both before and after the meeting. Records of the meetings will be available via *www.facadatabase.gov* under the Commission on Civil Rights, U.S. Virgin Islands Advisory Committee link. Persons interested in the work of this Committee are directed to the Commission's website, *http://www.usccr.gov,* or may contact the Regional Programs Coordination Unit at *svillanueva@usccr.gov.*

Agenda

I. Welcome & Roll Call
II. Discussion: Committee's Inaugural Civil Rights Project
III. Public Comment
IV. Next Steps
V. Adjournment

Dated: August 7, 2023.

BILLING CODE P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Puerto Rico Advisory Committee to the U.S. Commission on Civil Rights

AGENCY: Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission), and the Federal Advisory Committee Act (FACA), that a meeting of the Puerto Rico Advisory Committee to the Commission will convene by virtual web conference on Monday, August 28, 2023, at 3:30 p.m. Atlantic Time/Eastern Time. The purpose is to continue discussion on their project on the civil rights impacts of the Insular Cases in Puerto Rico.

DATES: August 28, 2023, Monday, at 3:30 p.m. (AT and ET):

ADDRESSES: Meeting will be held via Zoom.

Registration Link (Audio/Visual): https://tinyurl.com/yvabtunr.

Join by Phone (Audio Only): 1–833 435 1820 USA Toll Free; Meeting ID: 160 718 7790#.

FOR FURTHER INFORMATION CONTACT: Email Victoria Moreno, Designated Federal Officer at *vmoreno@usccr.gov,* or by phone at 434–515–0204.

SUPPLEMENTARY INFORMATION: This meeting will take place in Spanish with English interpretation. This committee meeting is available to the public through the registration link above. Any interested member of the public may listen to the meeting. An open comment period will be provided to allow members of the public to make a statement as time allows. Per the Federal Advisory Committee Act, public minutes of the meeting will include a list of persons who are present at the meeting. If joining via phone, callers can expect to incur regular charges for calls they initiate over wireless lines, according to their wireless plan. The Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-

line connections to the toll-free telephone number. Closed captioning will be available for individuals who are deaf, hard of hearing, or who have certain cognitive or learning impairments. To request additional accommodations, please email *ebohor@usccr.gov* at least 10 business days prior to the meeting.

Members of the public are entitled to submit written comments; the comments must be received in the regional office within 30 days following the meeting. Written comments may be emailed to Victoria Moreno at *vmoreno@usccr.gov.* Persons who desire additional information may contact the Regional Programs Coordination Unit at 1–312–353–8311.

Records generated from this meeting may be inspected and reproduced at the Regional Programs Coordination Unit Office, as they become available, both before and after the meeting. Records of the meetings will be available via *www.facadatabase.gov* under the Commission on Civil Rights, Puerto Rico Advisory Committee link. Persons interested in the work of this Committee are directed to the Commission's website, *http://www.usccr.gov,* or may contact the Regional Programs Coordination Unit at *ebohor@usccr.gov.*

Agenda

1. Welcome & Roll Call
2. Committee Discussion on Project Regarding the Civil Rights Impacts of the Insular Cases in Puerto Rico
3. Next Steps
4. Public Comment
5. Other Business
6. Adjourn

Dated: August 7, 2023.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

BILLING CODE P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Additional Protocol to the U.S.—International Atomic Energy Agency Safeguards

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before October 10, 2023.

ADDRESSES: Interested persons are invited to submit comments by email to Mark Crace, IC Liaison, Bureau of Industry and Security, at *mark.crace@bis.doc.gov* or to *PRAcomments@doc.gov.* Please reference OMB Control Number 0694–0135 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Mark Crace, IC Liaison, Bureau of Industry and Security, phone 202–482–8093 or by email at *mark.crace@bis.doc.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

The Additional Protocol requires the United States to submit declaration forms to the International Atomic Energy Agency (IAEA) on a number of commercial nuclear and nuclear-related items, materials, and activities that may be used for peaceful nuclear purposes, but also would be necessary elements for a nuclear weapons program. These forms provides the IAEA with information about additional aspects of the U.S. commercial nuclear fuel cycle, including: mining and milling of nuclear materials; buildings on sites of facilities selected by the IAEA from the U.S. Eligible Facilities List; nuclear-related equipment manufacturing, assembly, or construction; import and export of nuclear and nuclear-related items and materials; and research and development. The Protocol also expands IAEA access to locations where these activities occur in order to verify the form data.

II. Method of Collection

Submitted electronically or in paper form.

III. Data

OMB Control Number: 0694–0135.

Form Number(s): AP–1 through AP–17, and AP–A through AP–Q.

Type of Review: Regular submission, extension of a current information collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 500.

Estimated Time per Response: 23 minutes to 6 hours.

Estimated Total Annual Burden Hours: 920.

Estimated Total Annual Cost to Public: 5,400.

Respondent's Obligation: Mandatory.

Legal Authority: Additional Protocol Implementation Act (Title II of Pub. L. 109–401), Executive Order (E.O.) 13458.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

[RTID 0648–XD203]

Endangered and Threatened Species; Notice of Intent To Prepare a Programmatic Environmental Impact Statement for NOAA's Expenditure of Funds To Increase Prey Availability for Southern Resident Killer Whales

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to prepare an environmental impact statement, request for comments.

SUMMARY: This notice announces an Environmental Impact Statement (EIS) will be prepared in accordance with the National Environmental Policy Act (NEPA) to analyze the impacts to the environment of alternatives related to a funding program addressing species affected by fisheries managed under the Pacific Salmon Treaty (PST). NMFS intends to make funding decisions related to increasing the availability of prey to Southern Resident Killer Whales (SRKWs). This notice is necessary to inform the public of NMFS's intent to prepare this EIS and to provide the public with an opportunity to provide input for NMFS's consideration.

DATES: The NMFS requests comments concerning the scope of the analysis, and identification of relevant information, studies, and analyses. All comments must be received by 11:59 p.m. Eastern Time on September 25, 2023.

ADDRESSES: Send written comments to NOAA Fisheries, 2900 NW Stewart Parkway, Roseburg, OR 97471. Comments may also be sent via email to *hatcheries.public.comment@noaa.gov.* For further information, please see the following website: *https://www.fisheries.noaa.gov/action/review-prey-increase-program-southern-resident-killer-whales.*

Instructions: It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should help NMFS identify potential alternatives, information, and analyses relevant to the proposed action. Comments must be submitted by one of the above methods to ensure they are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record. All personal identifying information (*e.g.,* name, address, *etc.*) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments.

FOR FURTHER INFORMATION CONTACT: Lance Kruzic, NMFS, 541–802–3728, *hatcheries.public.comment@noaa.gov.*

SUPPLEMENTARY INFORMATION:

Purpose and Need for the Proposed Action

The purpose and need of the proposed action is to provide for additional prey (food) for the benefit of SRKWs, which are listed as endangered under the Endangered Species Act (ESA) consistent with applicable laws and treaties.

Preliminary Proposed Action and Alternatives

The United States and Canada have an agreement for the management of Chinook salmon and the fisheries that affect Chinook stocks that is part of the PST. This agreement was renewed in 2019 and is currently in effect through 2028. In association with the renewed agreement, the U.S. section of the Pacific Salmon Commission, the international body that implements the PST, agreed to seek Federal funding for activities to conserve certain species listed under the ESA that are affected by fisheries managed under the PST. Congress has appropriated annual funding for these activities in 2020 through 2023. A portion of the funding has been awarded to hatchery operators in the Pacific Northwest to increase production of Chinook salmon for the purpose of increasing prey for SRKWs.

NMFS is proposing to continue implementation of the funding program to increase prey for the benefit of SRKWs. Beginning in 2020, NMFS funded the production of additional hatchery Chinook salmon in existing hatchery programs in Washington, Oregon, and Idaho. Specific criteria were developed to guide these funding decisions to maximize the benefits to SRKWs, while mitigating potential adverse effects to salmon and steelhead listed under the ESA. NMFS conducted site-specific NEPA analyses for each funding decision or otherwise ensured that effects from funding specific hatcheries were evaluated within existing NEPA analyses. However, in a recent court ruling (*Wild Fish Conservancy* v. *Rumsey,* W.D. Wash., Order Adopting Report and Recommendation, August 8, 2022), the court found that NMFS failed to conduct adequate NEPA analysis for the adoption of the prey increase program. This EIS responds to the court's decision.

We will also be evaluating the effects of a No Action alternative, in which no Federal funding would be used to increase available Chinook prey for the benefit of SRKWs. NMFS is also planning to evaluate other possibilities. For example, instead of funding additional prey for SRKWs in the form of hatchery fish, funding could instead be used to improve the productivity of natural-origin salmon through habitat restoration/enhancement. Another alternative could reduce fishing impacts on select salmon stocks instead of producing additional hatchery fish. Through this notice, we are seeking input on these potential alternatives to help shape the development of our EIS consistent with our purpose and need for the proposed action.

Summary of Expected Impacts

The EIS will evaluate a range of alternatives, and the effects of these alternatives, on the human environment. Key resources to be considered include, but are not limited to, SRKWs and other wildlife species, salmon and steelhead, socioeconomics, and aquatic habitats. Considering a range of alternatives means there is a range of impacts to the key resources specified above that would be evaluated in the EIS, such as different abundances of hatchery salmon available as prey for SRKWs, reduced fishery impacts and corresponding salmon abundances, and effects of additional hatchery salmon production on ESA-listed salmon and steelhead.

Anticipated Permits and Authorizations

The following consultations, permits, and/or other authorizations may be required as part of NMFS' continued funding to increase the availability of prey (food) for SRKWs: ESA Section 7 consultations, ESA Section 4(d) authorizations or Section 10 permits, Magnuson-Stevens Fishery Conservation and Management Act Essential Fish Habitat consultation; and consultation with Indian Tribes.

Schedule for the Decision-Making Process

The draft environmental impact statement is scheduled to be made available for public review in the fall of

2023, and issuance of the final environmental impact statement is scheduled for spring of 2024, with a Record of Decision issued soon thereafter.

Public Scoping Process

This notice of intent initiates the scoping process, which helps guide the development of the EIS. NMFS is hosting public webinars for informational purposes within the scoping period. Information on the webinar dates and times, and instructions for connecting or calling into the webinar will be posted at: *https://www.fisheries.noaa.gov/action/review-prey-increase-program-southern-resident-killer-whales.* Accommodations for persons with disabilities are available; accommodation requests should be directed to Lance Kruzic (see **FOR FURTHER INFORMATION CONTACT**) at least 10 working days prior to the webinar.

Public comments will not be accepted during the webinars.

Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

The primary purpose of the scoping process is for the public to assist NMFS in developing the EIS. NMFS requests that the comments be specific. In particular, we request information regarding: any science that would be relevant in this assessment; significant issues; identification of impacts of concern; review and input regarding monitoring; possible alternatives that meet the purpose and need; effects or impacts to the human environment from the proposed action or alternatives.

Decision Maker

Regional Administrator for the West Coast Region, NMFS.

Nature of Decision To Be Made

If after publication of the Record of Decision, we determine that all requirements are met for NMFS' NEPA and ESA responsibilities, we may continue to provide funding for the production of additional prey for SRKWs.

Authority: 42 U.S.C. 4321 *et seq.;* 40 CFR parts 1500–1508; and Companion Manual for NOAA Administrative Order 216–6A, 82 FR 4306.

Dated: August 7, 2023.

Request for Information; Data for Marine Spatial Studies in Puerto Rico and the U.S. Virgin Islands

AGENCY: National Marine Fisheries Service (NMFS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for information.

SUMMARY: NOAA's National Ocean Service (NOS), National Centers for Coastal Ocean Science (NCCOS) in partnership with the NOAA National Marine Fisheries Service (NMFS), Southeast Fisheries Science Center (SEFSC) and Southeast Regional Office (SERO), hereafter NOAA, are working to build spatial science capacity in the U.S. Caribbean Region. Through this Request for Information, we are seeking public input to identify coastal and marine spatial data or other critical information to inform marine spatial analyses. Additionally, we are seeking feedback on data shortcomings and gaps that should be addressed prior to commencing marine spatial studies. The input we receive from meetings, as well as the responses to the items listed in the **SUPPLEMENTARY INFORMATION** section of this document, will be used to inform potential coastal and ocean development activities in Puerto Rico and the U.S. Virgin Islands (USVI), such as development of renewable energy facilities, aquaculture, and other blue economy sectors.

DATES: Interested persons are invited to provide input in response to this Request for Information through September 30, 2023. Late-filed input will be considered to the extent practicable.

Verbal input will be accepted during two public meetings to be held in St. Croix, USVI on August 28–29 and in San Juan, Puerto Rico on August 31–September 1.

ADDRESSES: Interested persons are invited to provide input using one of the following methods:

Electronic Submission: Submit electronic written public comments via the Federal e-Rulemaking Portal. Go to *https://www.regulations.gov* and enter NOAA–NMFS–2023–0097 in the Search box. Click on the ''Comment'' icon, complete the required fields, and enter or attach your comments. All comments received are a part of the public record and will generally be posted for public viewing on *https://www.regulations.gov* without change. All personal identifying information (*e.g.,* name, address, *etc.*), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NOAA will accept anonymous comments (enter ''N/A'' in the required fields if you wish to remain anonymous).

Verbal submission: NOAA will accept verbal input at two meetings. The first meeting will be held at The Buccaneer Resort in St. Croix, USVI on Monday August 28, 2023 from 8:30am to 5:00pm (AST) and Tuesday, August 29, 2023 from 8:30am to 12:00pm (AST). There will be a registration window from 8:30am to 9:00am (AST) each day before the start of the meeting. The second meeting will be held at the Courtyard Marriott Isla Verde Beach Resort in San Juan, Puerto Rico on Thursday, August 31, 2023 from 8:30am to 5:00pm (AST) and Friday, September 1, 2023 from 8:30am to 12:00pm (AST). There will be a registration window from 8:30am to 9:00am (AST) each day before the start of the meeting. Simultaneous language interpretation in English and Spanish will be provided in the Puerto Rico meetings. Advanced registration is requested for the meetings by completing the registration form at *https://docs.google.com/forms/d/e/1FAIpQLSf1B1QOXhd7EJEDflyok-ATW4ZGLHRloJLSzcntmopDjhd86A/viewform?usp=sf* link or by providing an RSVP to Erica Rule at *erica.rule@noaa.gov*. The registration deadline is Monday, August 21, 2023.

Reports of meeting results will also be published and made available to the public in the weeks following the meetings. If you are unable to provide electronic written comments or participate in the meetings, please contact Jennifer Wright at *jennifer.wright@noaa.gov* or (252)418–1308 for alternative submission methods.

FOR FURTHER INFORMATION CONTACT: James Morris (*james.morris@noaa.gov*), (252)666–7433.

SUPPLEMENTARY INFORMATION:

Background

NOAA is an agency of the United States Federal government that works to conserve and manage coastal and marine ecosystems and resources. We work to make fisheries sustainable and productive, provide safe seafood to consumers, conserve threatened and endangered species and other protected resources, and maintain healthy ecosystems. NOAA has jurisdiction and

responsibility for its trust marine resources in the U.S. Caribbean as well as significant interest in supporting the resilience of coastal and marine-dependent communities in the Territories, and promoting equity and environmental justice. For these reasons, is it important for NOAA to invest in research that informs marine spatial studies in the Caribbean region, including socioeconomic research that ensures meaningful participation of Caribbean communities and supports equitable processes for planning and siting of new and existing marine industries and conservation areas.

NOAA has recently been involved in planning for the expansion of offshore aquaculture in U.S. Federal waters through the development of Aquaculture Opportunity Areas (*https://www.fisheries.noaa.gov/national/aquaculture/aquaculture-opportunity-areas*). NOAA has also been engaged with the Bureau of Ocean Energy Management (BOEM) to support siting and environmental review for offshore wind energy areas in U.S. Federal waters (*https://www.boem.gov/renewable-energy*) to ensure protection of trust resources in any offshore development activities.

Purpose of This Request for Information

The purpose of this Request for Information is to promote data development to inform marine spatial studies in Puerto Rico and the USVI, with an emphasis on data needs for offshore wind energy and aquaculture development. In addition to input received from the public through the electronic and verbal submissions, NOAA aims to inform the public about its coastal and ocean planning processes and capabilities, discuss the current data available for each ocean sector (e.g., military, fisheries, industry, natural resources), and gather ideas for other data sources. NOAA hopes to come out of the meetings with a strengthened relationship with the public and a list of data gaps and needs to pursue going forward.

Specific Information Requested To Inform Marine Spatial Studies in Puerto Rico and USVI

Through this Request for Information, NOAA seeks written public input to inform the marine spatial studies in Puerto Rico and USVI. NOAA is particularly interested in receiving input concerning the items listed below. Responses to this Request for Information are voluntary, and respondents need not reply to items listed. When providing input, please specify if you are providing general feedback on marine spatial studies and/or if you are responding to one of the specific item number(s) below:

(1) Specific datasets related to ocean sectors, natural resources, and/or human activities you recommend NOAA use in marine spatial studies.

(2) Major concerns you have related to use of any specific datasets that may be used in marine spatial studies.

(3) Major concerns you have related to the impacts of new marine industries on ecological systems in Puerto Rico and/or the USVI.

(4) Major concerns you have related to the impact of new marine industries on other ocean industries in Puerto Rico and/or the USVI.

(5) Major concerns you have related to gaps in scientific knowledge or data that could impact marine spatial study efforts.

(6) Specific data or information you recommend NOAA or other partners collect, if it is not currently available or has not been previously collected.

(7) Ways in which NOAA can better engage and collaborate with the public and Territorial communities to promote economic, social, and ecological resilience as well as protect trust resources.

Dated: August 4, 2023.

Samuel D Rauch, III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[0648–XD226]

Notice of Availability of Draft Environmental Assessment on the Effects of Issuing an Incidental Take Permit No. 27106

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of a Draft Environmental Assessment; request for comments.

SUMMARY: NMFS announces the availability of the Draft Environmental Assessment (EA) on the effects of issuing an Incidental Take Permit (ITP) (No. 27106) to North Carolina Department of Environment and Natural Resources, Division of Marine Fisheries (NCDMF), pursuant to the Endangered Species Act (ESA) of 1973, as amended, for the incidental take of ESA-listed sea turtles and sturgeon associated with the otherwise lawful gill net fisheries operating in the inshore waters of North Carolina. The duration of the requested permit is 10 years. NMFS is requesting comment on the draft EA.

DATES: Written comments must be received at the appropriate address or fax number (see **ADDRESSES**) on or before September 11, 2023.

ADDRESSES: The EA is available for download and review at *https://www.fisheries.noaa.gov/national/endangered-species-conservation/incidental-take-permits* under the section heading Related Documents for the Incidental Take Permit to North Carolina Division of Marine Fisheries (Sea Turtles and Sturgeon). The draft EA is also available upon written request (see **FOR FURTHER INFORMATION CONTACT**).

You may submit comments on this document, identified by NOAA–NMFS–2023–0098, by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to *https://www.regulations.gov* and enter NOAA–NMFS–2023–0098 in the Search box. Click on the ''Comment'' icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on *www.regulations.gov* without change. All personal identifying information (*e.g.,* name, address, *etc.*), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter ''N/A'' in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Celeste Stout, NMFS, Office of Protected Resources at *celeste.stout@noaa.gov,* 301–427–8403; Wendy Piniak, NMFS, Office of Protected Resources at *wendy.piniak@noaa.gov,* 301–427–8402.

SUPPLEMENTARY INFORMATION: Publication of this notice begins the official public comment period for this draft EA. Per the National Environmental Policy Act (NEPA), the purpose of the draft EA is to evaluate the potential direct, indirect, and cumulative impacts caused by the issuance of Permit No. 27106 to NCDMF for the incidental take of ESA-listed sea

turtles and sturgeon associated with the otherwise lawful anchored small and large-mesh gill net fisheries operating in the inshore waters of North Carolina. All comments received will become part of the public record and will be available for review.

Section 9 of the ESA and Federal regulations prohibit the 'taking' of a species listed as endangered or threatened. The ESA defines ''take'' to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances to take listed species incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides a mechanism for authorizing incidental take of listed species. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

Species Covered in This Notice

The following species are included in the EA: North Atlantic and South Atlantic Distinct Population Segments (DPSs) of green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*), leatherback (*Dermochelys coriacea*), and Northwest Atlantic Ocean DPS of loggerhead (*Caretta caretta*) sea turtles, Gulf of Maine, New York Bight, Chesapeake, Carolina, and South Atlantic DPSs of Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*), and shortnose sturgeon (*Acipenser brevirostrum*).

Background

NMFS received a draft permit application and conservation plan from NCDMF on June 22, 2022. Based on our review of the draft application, we requested further information and clarification on their mitigation measures and take requests. After several draft submissions and reviews, on December 2, 2022, NCDMF submitted a complete revised application for the incidental take of ESA-listed sea turtles and sturgeon. On December 22, 2022, we published a notice of receipt (87 FR 78659) of application and conservation plan from NCDMF for an incidental take permit. In that notice, we made the ITP application and associated conservation plan available for public comment. Subsequently, we received a request to extend the public comment period. NMFS provided a 30-day extension (88 FR 3971) to the comment period which closed on February 22, 2023. We received 231 comments on the application and conservation plan and responses to these comments are available in the draft EA.

National Environmental Policy Act

This notice is provided pursuant to section 10(c) of the ESA and the National Environmental Policy Act (NEPA) regulations (40 CFR 1506.6). The draft EA was prepared in accordance with NEPA (42 U.S.C. 4321, *et seq.*), 40 CFR 1500–1508 and NOAA policy and procedures (NOAA Administrative Order [NAO] 216–6A and the Companion Manual for the NAO 216–6A).

Alternatives Considered

NMFS' proposed action is issuance of an ITP to NCDMF, which would authorize take of threatened and endangered sea turtle and sturgeon species associated with the otherwise lawful operation of NC commercial inshore large and small-mesh anchored gill net fisheries and require implementation of a conservation plan, in accordance with the requirements of the ESA. In preparing the draft EA, NMFS considered the following two alternatives for the proposed action.

Alternative 1: No Action. In accordance with the NOAA Companion Manual (CM) for NAO 216–6A, Section 6.B.i, NMFS is defining the no action alternative as not authorizing the requested incidental take of ESA-listed sea turtles and sturgeon. This is consistent with our statutory obligation under section 10(a)(1)(B) of the ESA to either: (1) deny the requested ITP or (2) grant the requested ITP and prescribe mitigation, monitoring, and reporting requirements. Under the no action alternative, NMFS would not issue the ITP, in which case, we assume NCDMF would continue to operate the fishery as described in the application without implementing the full suite of specific mitigation measures, monitoring, reporting explained in the Conservation Plan. The Council on Environmental Quality (CEQ) Regulations and the Companion Manual for NAO 216–6A require consideration and analysis of a no action alternative for the purposes of presenting a comparative analysis to the action alternatives. The no action alternative, serves as a baseline against which the impacts of the action alternatives will be compared and contrasted.

Alternative 2: Issue Permit as Requested in Application (Preferred alternative): Under Alternative 2, an ITP would be issued to exempt NCDMF from the ESA prohibition on taking sturgeon and sea turtles during operation of the otherwise lawful NC commercial inshore anchored gill net fisheries. As required under Section 10(a)(1)(B), the ITP would require NCDMF to operate as described in the application and conservation plan to avoid, minimize, and mitigate take of ESA-listed sea turtles and sturgeon.

Final permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all public comments received during the comment period. NMFS will publish a record of its final action in the **Federal Register**.

Dated: August 7, 2023.

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before October 10, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at *NOAA.PRA@noaa.gov.* Please reference OMB Control Number 0648–0047 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or

specific questions related to collection activities should be directed to LT Dustin Picard, Chief, NOAA Corps Recruiting Branch, (301) 713–7717, or *chief.noaacorps.recruiting@noaa.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for revision and extension of an existing information collection.

The NOAA Commissioned Officer Corps is the uniformed service of the National Oceanic and Atmospheric Administration (NOAA), a bureau of the United States Department of Commerce. Officers serve under Senate-confirmed appointments and Presidential commissions (33 U.S.C. chapter 17, subchapter 1, sections 853 and 854). The NOAA Corps provides a cadre of professionals trained in engineering, earth sciences, oceanography, meteorology, fisheries science, and other related disciplines who serve their country by supporting NOAA's mission of surveying the Earth's oceans, coasts, and atmosphere to ensure the economic and physical well-being of the Nation.

NOAA Corps officers operate vessels and aircraft engaged in scientific missions and serve in leadership positions throughout NOAA. Persons wishing to apply for an appointment in the NOAA Commissioned Officer Corps must complete an application package, including NOAA Form 56–42, at least three letters of recommendation, and official transcripts. A personal interview must also be conducted. Eligibility requirements include a bachelor's degree with at least 48 credit hours of science, engineering, or other disciplines related to NOAA's mission, excellent health, and normal color vision with uncorrected visual acuity no worse than 20/400 in each eye (correctable to 20/20).

The revision includes updates which reflect the current status of the NOAA Corps. This includes amending the essay questions and updating the instructions to reflect a new direct-to-aviation recruitment model.

II. Method of Collection

Applicants must utilize the online E-recruit electronic application to complete and digitally submit the form. An in-person interview is also required.

III. Data

OMB Control Number: 0648–0047.

Form Number(s): NOAA 56–42 and NOAA 56–42A.

Type of Review: Regular submission [revision and extension of an existing information collection.]

Affected Public: Individuals or households.

Estimated Number of Respondents: 300.

Estimated Time per Response: Written applications, 2 hours; interviews, 5 hours; references, 15 minutes.

Estimated Total Annual Burden Hours: 2,475.

Estimated Total Annual Cost to Public: $21,750.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: 33 U.S.C. chapter 17, subchapter 1, sections 853 and 854.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

[FR Doc. 2023–17169 Filed 8–9–23; 8:45 am]

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

[Docket No. PTO–T–2023–0028]

Changes to Duration of Attorney Recognition; Notice of Public Listening Session and Request for Comments

AGENCY: United States Patent and Trademark Office, U.S. Department of Commerce.

ACTION: Notice of public listening session; request for comments.

SUMMARY: The United States Patent and Trademark Office (USPTO or Office) seeks public comments on changes to the trademark rule regarding the duration of attorney recognition. In addition, the USPTO is announcing a public listening session on September 26, 2023, titled ''Changes to Duration of Attorney Recognition,'' to offer further opportunity for the public to provide input on this topic.

DATES: The public listening session will take place on September 26, 2023, from 2–3:30 p.m. ET. Anyone wishing to present oral testimony at the hearing, either in person or virtually, must submit a written request for an opportunity to do so no later than September 15, 2023. Persons seeking to attend, either in person or virtually, but not to speak at the event must register by September 18, 2023. Seating is limited for in-person attendance. The USPTO will accept written comments until October 6, 2023.

ADDRESSES:

Public Listening Session

The public listening session will take place in person in the Clara Barton Auditorium at the USPTO, 600 Dulany Street, Alexandria, VA 22314. The session will also be available via live feed for those wishing to attend remotely. Registration is required for both in-person and virtual attendance. Information on registration is available on the USPTO's website at *www.uspto.gov/about-us/events/trademark-public-listening-session-changes-duration-attorney-recognition.*

Request for Comments

For reasons of Government efficiency, commenters must submit their comments through the Federal eRulemaking Portal at *www.regulations.gov.* To submit comments via the portal, enter docket number PTO–T–2023–0028 on the homepage and click ''search.'' The site will provide a search results page listing all documents associated with this docket. Find a reference to this request

for comments and click on the ''Comment'' icon, complete the required fields, and enter or attach your comments. Attachments to electronic comments will be accepted in ADOBE® portable document format (PDF) or MICROSOFT WORD® format. Because comments will be made available for public inspection, information that the submitter does not desire to make public, such as an address or phone number, should not be included in the comments.

Visit the Federal eRulemaking Portal for additional instructions on providing comments via the portal. If electronic submission of comments is not feasible due to a lack of access to a computer and/or the internet, please contact the USPTO using the contact information below for special instructions regarding how to submit comments by mail or by hand delivery.

FOR FURTHER INFORMATION CONTACT: Catherine Cain, Office of the Deputy Commissioner for Trademark Examination Policy, at 571–272–8946 or *TMPolicy@uspto.gov*.

SUPPLEMENTARY INFORMATION:

I. Background

Under the Trademark Rules of Practice, the USPTO will recognize an attorney qualified under 37 CFR 11.14 as an applicant's or registrant's representative if that attorney files a power of attorney, signs a document on behalf of an applicant or registrant who is not already represented, or is otherwise identified in a document submitted on behalf of an applicant or registrant who is not already represented. 37 CFR 2.17(b). Once an attorney is recognized, the USPTO will correspond only with that attorney until recognition ends. 37 CFR 2.18(a)(2). Recognition as to a pending application ends when the mark registers, when ownership changes, or when the application is abandoned. 37 CFR 2.17(g)(1). Recognition as to a registration ends when the registration is canceled or expired, when ownership changes, or upon acceptance or final rejection of a post registration maintenance filing. 37 CFR 2.17(g)(2). The USPTO does not inquire into any engagement agreement between the attorney and the applicant or registrant to determine whether representation continues after the events that trigger the end of recognition under § 2.17(g). Therefore, following such an event, the trademark rules dictate that the USPTO correspond only with the applicant or registrant. 37 CFR 2.18(a). However, past customer feedback indicated that, in most cases, even after the occurrence of an event listed in the current § 2.17(g), representation continued, and the attorney should be the only recipient of the trademark registration certificate, maintenance and renewal reminders, and any other correspondence. For this reason, the USPTO currently sends, as a courtesy, correspondence to the attorney of record, except in connection with petitions to cancel filed with the Trademark Trial and Appeal Board, which are served on the registrant.

For several years, some outside practitioners have expressed concern that the current recognition rule, when read in conjunction with the correspondence rule, is problematic for practitioners whose recognition before the Office ends even though their representation of the applicant or registrant continues based on engagement agreements. These practitioners are concerned about missing response deadlines when representation continues, if they are removed from the record when recognition ends and will no longer receive correspondence from the USPTO regarding their clients' matters following abandonment or registration. Many of these practitioners have instructed their clients to disregard anything sent directly to them about their trademark application or registration to avoid having the clients subjected to a misleading solicitation, which is a growing problem for the USPTO and its customers. If their clients disregard all communications, including USPTO correspondence sent to them pursuant to § 2.18(a), and the practitioner is no longer receiving correspondence from the USPTO, deadlines for taking action would likely be missed. This group would like the USPTO to presume that representation, and therefore recognition, continues until the attorney withdraws or is revoked so that they, and not their clients, will continue to receive correspondence from the USPTO.

Other practitioners have expressed that they did not have any concerns with the current recognition rule because they do not wish to be subject to continuing legal and ethical obligations to the client after a listed event occurs. The current rule works to their advantage because they have no obligation to file a withdrawal form with the USPTO if recognition ends automatically. However, these practitioners have expressed concern as to whether there is an ethical obligation to contact their former clients about correspondence sent to them as a courtesy by the USPTO. As noted above, the USPTO continues to list all practitioners as the attorney of record and to send correspondence to them, even after recognition ended under the rule, because of the concerns over missed response deadlines.

In response to practitioner requests, the USPTO sends the courtesy email reminder that goes out in advance of the due date for a post registration maintenance document to both the owner and the last attorney of record (who is no longer recognized under the current rule and should not receive correspondence). The USPTO implemented this courtesy practice by sending the email reminders to both the applicant/registrant and the attorney as well as the notice of registration, the notice of abandonment, and the notice that an expungement or reexamination petition had been filed against the registration.

However, the practice has caused confusion among practitioners and has created some uncertainty for the USPTO in implementing its regulations. Sending email reminders and notices to attorneys who are no longer recognized under § 2.17(g) constitutes an unofficial waiver of § 2.18(a), which governs the parties with whom the USPTO will correspond in trademark matters. Moreover, despite the obligation under § 2.18(c) to maintain current and accurate correspondence addresses, the USPTO cannot be certain that the correspondence information in its records is still accurate, particularly regarding post registration reminders and notices that are sent 5–10 years or more after registration.

II. Trademark Modernization Act Notice of Proposed Rulemaking

In a notice of proposed rulemaking (NPRM) to implement provisions of the Trademark Modernization Act (TMA), published in the **Federal Register** on May 18, 2021, the USPTO proposed to revise 37 CFR 2.17(g) (86 FR 26862). The suggested revisions indicated that, for purposes of an application or registration, recognition of a qualified attorney as the applicant's or registrant's representative would continue until the owner revoked the appointment or the attorney withdrew from representation, even when there was a change of ownership. Therefore, owners and/or attorneys would be required to proactively file an appropriate revocation or withdrawal document under 37 CFR 2.19 before a new attorney could be recognized. The amendment was proposed to address the issues discussed above.

As noted in the final rule published on November 17, 2021, the USPTO received mixed comments regarding the

proposed revisions to § 2.17(g) (86 FR 64300). While several commenters were generally in favor of ongoing attorney recognition, others preferred the current practice, citing burdens associated with the new rules.

The USPTO also proposed to remove the name of any attorney whose recognition had ended under existing § 2.17(g) from the current attorney-of-record field in the USPTO's database, along with the attorney's bar information and any docketing information. However, the attorney's correspondence information, including any correspondence email address, would be retained so the USPTO could continue to send relevant correspondence and notices to both the formerly recognized attorney and the owner. Most commenters were opposed to removing the attorney information during the transition period, stating that this would cause unnecessary burdens to reappear in records.

Based on the public comments to the TMA NPRM, the USPTO determined that additional time was needed to address the concerns expressed. Therefore, the changes proposed in the TMA NPRM were not included in the TMA final rule. The USPTO now seeks additional input on whether § 2.17(g): (1) should be amended as discussed below, or (2) should not be amended, and all attorney information be removed when recognition ends following a listed event in § 2.17(g).

III. Changes to Duration of Recognition for Representation

The USPTO now seeks additional feedback regarding possible changes to the provisions addressing the duration of recognition for representation in § 2.17(g). The changes under consideration would allow recognition as to a pending application or registration to continue until the applicant, registrant, or party to a proceeding revokes the power of attorney or the representative withdraws from representation.

As noted above, such a rule change would require an attorney who no longer represents an applicant to affirmatively withdraw or be revoked for recognition to end. Shifting the burden to the attorney to withdraw, or to the owner to file a revocation, would give the USPTO greater assurance that it is communicating with the correct party. If stakeholders support the rule change, there are at least two challenges to address:

(1) How to make withdrawal easier.

(2) How to implement the transition in the USPTO database.

Although withdrawal is relatively easy, it is worth exploring whether the USPTO can make it even easier. In addition, the USPTO must ensure that if an attorney is deceased, it can efficiently remove that practitioner from its records. Moreover, the process must be consistent with the Rules of Professional Conduct, which dictate the terms of withdrawal.

The other area of concern is the transition of the USPTO's electronic records from recognition for a set duration to continued recognition following any rule change. Two categories of attorneys would be immediately affected by any rule change: (1) attorneys who are recognized at the time the rule goes into effect, and (2) attorneys whose information remains in the record but who are not currently recognized by virtue of the previous recognition rule. The revisions under consideration would have limited effect on the first set of attorneys because their existing recognition would continue. There would be some impact on attorneys whose representation does not continue past a certain event or date and who no longer wish to be recognized by the Office as the attorney of record because they would have to proactively withdraw to avoid any ambiguity.

The attorneys in the second group for whom recognition has ended under the current rule, even though their information remains of record, cannot be retroactively recognized by implementation of the revisions under consideration even if they prefer recognition to continue. *See Bowen* v. *Georgetown Univ. Hosp.,* 488 U.S. 204, 208, 109 S. Ct. 468, 471–472, 102 L. Ed. 2d 493, 500 (1988). On the date the USPTO recognized these attorneys, the current rule was in effect, and they had no notice that recognition would continue beyond the events listed in § 2.17(g). To avoid this retroactive effect, the USPTO proposed in the TMA NPRM that all attorney information would be removed from the database if a recognition-ending event had already occurred. To be recognized again, these attorneys would need to: (1) reappear by filing a document, and (2) reenter bar and docket information. Some public comments filed in response to this proposal demonstrated a concern with this approach because of the burden this would place on trademark owners and attorneys. However, removal of attorney information comports with the current recognition rule and the attorneys subject to it.

The USPTO is now considering deleting all attorney information, after a listed event, from the records of all applications filed or registrations issued prior to the date of implementation of a change to § 2.17(g) stating that recognition continues until there is a revocation or withdrawal of the recognized attorney of record. The USPTO has considered requests that attorneys be given the opportunity to opt in to remaining of record in such situations. However, the USPTO has neither the staff nor the technological resources to implement an opt-in alternative as to the affected applications and registrations. In addition, such a provision would not reconcile inaccuracies in older records.

IV. Retaining the Current Provisions on Recognition for Representation

If the USPTO does not amend § 2.17(g) to allow continued recognition until there is a revocation or withdrawal of the recognized attorney of record, the USPTO would not continue the courtesy practice of sending notices or reminders to the listed attorney in addition to the applicant or registrant. Pursuant to the plain language of § 2.17(g) that recognition ends when a listed event occurs, all attorney information would be removed when such an event occurs or if it has already occurred. Thus, correspondence and relevant notices would no longer be sent to both the formerly recognized attorney and the owner. Following § 2.18(a), correspondence and notices would be sent to the applicant or registrant or to a newly recognized attorney. This option would also require a transition period during which attorney information would be removed for attorneys whose information remains in the record but who are not currently recognized by virtue of the rule.

V. Listening Session and Questions for Comments

The USPTO is holding a listening session on September 26, 2023, and is requesting public comments on the questions listed below. The USPTO will use a portion of the listening session to provide an overview of the changes under consideration. An agenda will be available approximately five days before the listening session on the USPTO website at *www.uspto.gov/about-us/events/trademark-public-listening-session-changes-duration-attorney-recognition,* which is the same link for registration.

The USPTO poses the following questions for public comment. These questions are not meant to be exhaustive. We encourage interested stakeholders to address these and/or other related issues and to submit research and data that inform and

support their comments on these topics. Commenters are welcome to respond to any or all of the questions, and are encouraged to indicate which questions their comments address.

1. Do you think the current rule should remain unchanged, or are you in favor of the revisions under consideration?

2. Do you have suggestions for handling the transition period during which attorney information is removed from the record whether the current rule is retained or revised?

3. Do you have any suggestions for making withdrawal or re-recognition easier if the rule is revised to continue recognition?

Anyone wishing to participate as a speaker, either in person or virtually, must submit a request in writing no later than September 15, 2023. Requests to participate as a speaker must be submitted to *TMPolicy@uspto.gov* and must include:

1. The name of the person desiring to participate;

2. The organization(s) that person represents, if any; and

3. The person's contact information (address, telephone number, and email).

Speaking slots are limited; the USPTO will give preference to speakers wishing to address one of the questions raised in this request for comments. Speakers will be announced a few days prior to the public listening session. The USPTO will inform each speaker in advance of their assigned time slot. If the USPTO receives more requests to speak than time allows and is unable to assign a time slot as requested, the agency will invite the requestor to submit written comments. Time slots will be at least three minutes and may be longer, depending on the number of speakers registered. A panel of USPTO personnel may reserve time to ask questions of particular speakers after the delivery of a speaker's remarks.

The public listening session will be physically accessible to people with disabilities. Individuals requiring accommodation, such as sign language interpretation or other ancillary aids, should communicate their needs to the individuals listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice at least seven business days prior to the session.

Katherine K. Vidal,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

BILLING CODE 3510–16–P

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; President's Volunteer Service Awards

AGENCY: Corporation for National and Community Service.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Corporation for National and Community Service, operating as AmeriCorps, has submitted a public information collection request (ICR) entitled President's Volunteer Service Awards for review and approval in accordance with the Paperwork Reduction Act.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by September 11, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of this ICR, with applicable supporting documentation, may be obtained by calling AmeriCorps, Rhonda Taylor, at 202–606–6721 or by email to *rtaylor@cns.gov.*

SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions;
- Propose ways to enhance the quality, utility, and clarity of the information to be collected; and
- Propose ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on June 2, 2023 at 88 FR 36284. This comment period ended August 1, 2023. One public comment, from the Iowa Commission on Volunteer Service, was received from this Notice. The comment was positive, mentioning the form is simple to use, and they were in favor of continuing the award option.

Title of Collection: President's Volunteer Service Award.

OMB Control Number: 3045–0086.

Type of Review: Reinstatement.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Responses: 200,000.

Total Estimated Number of Annual Burden Hours: 66,666.

Abstract: AmeriCorps is soliciting comments concerning its proposed renewal of the President's Volunteer Service Awards (PVSA), parts A, B, C, D and E. AmeriCorps seeks to renew the current information collection with without revisions. The information collection will be used in the same manner as the existing application. AmeriCorps also seeks to continue using the current application until the revised application is approved by OMB. The current application was discontinued on July 31, 2023.

Rhonda Taylor,

Director, Partnerships & Program Engagement.

BILLING CODE 6050–28–P

U.S. INTERNATIONAL DEVELOPMENT FINANCE CORPORATION

[DFC–0016]

Submission for OMB Review; Comments Request

AGENCY: U.S. International Development Finance Corporation (DFC).

ACTION: Notice of information collection; request for comment

SUMMARY: Under the provisions of the Paperwork Reduction Act, agencies are required to publish a Notice in the **Federal Register** notifying the public that the agency is renewing an existing information collection for OMB review and approval and requests public review and comment on the submission. Comments are being solicited on the need for the information; the accuracy of the burden estimate; the quality, practical utility, and clarity of the information to be collected; and ways to

minimize reporting the burden, including automated collected techniques and uses of other forms of technology.

DATES: Comments must be received by October 10, 2023.

ADDRESSES: Comments and requests for copies of the subject information collection may be sent by any of the following methods:

- *Mail:* Deborah Papadopoulos, Records Management Specialist, U.S. International Development Finance Corporation, 1100 New York Avenue NW, Washington, DC 20527.
- *Email: fedreg@dfc.gov*.

Instructions: All submissions received must include the agency name and agency form number or OMB form number for this information collection. Electronic submissions must include the agency form number in the subject line to ensure proper routing. Please note that all written comments received in response to this notice will be considered public records.

FOR FURTHER INFORMATION CONTACT: Agency Submitting Officer: Deborah Papadopoulos, (202) 357–3979.

SUPPLEMENTARY INFORMATION: This notice informs the public that DFC will submit to OMB a request for approval of the following information collection.

Summary Form Under Review

Title of Collection: Application for Technical Assistance.

Type of Review: New form.

Agency Form Number: DFC–0017.

OMB Form Number: XXXX–XXXX.

Frequency: Once per applicant per project.

Affected Public: Business or other for-profit; not-for-profit institutions; individuals.

Total Estimated Number of Annual Number of Respondents: 250.

Estimated Time per Respondent: 1.5 hours.

Total Estimated Number of Annual Burden Hours: 375 hours.

Abstract: The Application for Technical Assistance will be the principal document used by DFC to determine the proposed transaction's eligibility for technical assistance grants from the TA unit.

Deborah Papadopoulos,

Records Management Specialist.

BILLING CODE 3210–02–P

DEPARTMENT OF DEFENSE

Department of the Army

Board of Visitors for the U.S. Army Command and General Staff College Meeting Notice

AGENCY: Department of the Army, DoD.

ACTION: Notice of open meeting.

SUMMARY: The Department of the Army is publishing this notice to announce the following Federal advisory committee meeting of the Board of Visitors for the U.S. Army Command and General Staff College (CGSC). This meeting is open to the public.

DATES: The Board of Visitors will meet from 8:30 a.m. to 3:00 p.m. on Tuesday, September 12, 2023, and from 8:30 a.m. to 10:45 a.m. on Wednesday, September 13, 2023.

ADDRESSES: Lewis and Clark Center, Arnold Conference Room, 120 Stovall St., Building 127, Fort Leavenworth, KS 66048.

FOR FURTHER INFORMATION CONTACT: Dr. Dale Spurlin, Alternate Designated Federal Officer for the Committee, by email at *dale.f.spurlin.civ@army.mil,* or by telephone at (913) 684–2742.

SUPPLEMENTARY INFORMATION: The committee meeting is being held under the provisions of the Federal Advisory Committee Act of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), 41 CFR 102–3.140(c), and 41 CFR 102–3.150.

Purpose of the Meeting: The Board of Visitors for the U.S. Army Command and General Staff College is a non-discretionary Federal Advisory Committee chartered to provide the Secretary of Defense, through the Secretary of the Army, independent advice and recommendations on matters pertaining to the Command and General Staff College's mission, specifically academic policies, staff and faculty development, student success indicators, curricula, educational methodology and objectives; other matters relating to the CGSC that the board decides to consider; and other items that the Secretary of Defense determines appropriate. The board provides expert and continuous advice on ways to improve the Command and General Staff College (CGSC) educational program, especially with regard to is master's degree programs and the maintenance of regional academic accreditation by the Higher Learning Commission of the North Central Association of Colleges and Schools. The Secretary of Defense may act on the committee's advice and recommendations.

Agenda: Overview briefing from the CGSC Dean of Academics; updates on CGSC operations, curricula, and educational initiatives; briefing and discussion on current challenges within the CGSC; and presentation of other information appropriate to the board's interests.

Public Accessibility to the Meeting: Pursuant to 5 U.S.C. 552b, as amended, and 41 CFR 102–3.140 through 102–3.165, and subject to the availability of space, this meeting is open to the public. A 30-minute period between 2:30 p.m. to 3:00 p.m. on September 12, 2023, will be available for verbal public comments. Seating is on a first to arrive basis. Attendees are requested to submit their name, affiliation, and daytime phone number seven business days prior to the meeting to Dr. Spurlin, via electronic mail at the address listed in the **FOR FURTHER INFORMATION CONTACT** section. Because the meeting of the committee will be held in a Federal Government facility on a military base, security screening is required. A photo ID is required to enter the base. Please note that security and gate guards have the right to inspect vehicles and persons seeking to enter and exit the installation. The Lewis and Clark Center is fully handicap accessible. Wheelchair access is available in front at the main entrance of the building. For additional information about public access procedures, contact Dr. Spurlin at the email address or telephone number listed in the **FOR FURTHER INFORMATION CONTACT** section.

Written Comments and Statements: Pursuant to 41 CFR 102–3.105(j) and 102–3.140, and section 10(a)(3) of the Federal Advisory Committee Act, the public or interested organizations may submit written comments or statements to the committee, in response to the stated agenda of the open meeting or regarding the committee's mission in general. Written comments or statements should be submitted to Dr. Spurlin via electronic mail at the address listed in the **FOR FURTHER INFORMATION CONTACT** section. Written comments or statements being submitted in response to the agenda set forth in this notice must be received at least five business days prior to the meeting to be considered by the committee. The Designated Federal Officer will review all timely submitted written comments or statements with the committee chairperson, and ensure the comments are provided to all members of the committee before the meeting. Written comments or statements received after this date will

be filed and presented to the committee during its next meeting.

James W. Satterwhite, Jr.,

Army Federal Register Liaison Officer.

BILLING CODE 3711–02–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2023–SCC–0147]

Agency Information Collection Activities; Comment Request; Consolidated State Plan

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before October 10, 2023.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use *http://www.regulations.gov* by searching the Docket ID number ED–2023–SCC–0147. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at *http://www.regulations.gov* by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the *regulations.gov* site is not available to the public for any reason, the Department will temporarily accept comments at *ICDocketMgr@ed.gov.* Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Manager of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W203, Washington, DC 20202–8240.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Melissa Siry, 202–260–0926.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Consolidated State Plan.

OMB Control Number: 1810–0576.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 52.

Total Estimated Number of Annual Burden Hours: 108,155.

Abstract: This collection, currently approved by OMB under control number 1810–0576, covers the consolidated State plan (previously known as the consolidated State application), as well as assessment peer review guidance. Section 8302 of the ESEA, as amended by the ESSA, permits each SEA, in consultation with the Governor, to apply for program funds through submission of a consolidated State plan (in lieu of individual program State plans). The purpose of consolidated State plans as defined in ESEA is to improve teaching and learning by encouraging greater cross-program coordination, planning, and service delivery; to enhance program integration; and to provide greater flexibility and less burden for State educational agencies. This is a request for extension without change for this collection.

Dated: August 7, 2023.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas and Oil Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Docket Numbers: RP23–958–000.

Applicants: Green Plains Atkinson LLC, Sandhill Renewable Energy, LLC.

Description: Joint Petition for Limited Waiver of Capacity Release Regulations, et al. of Green Plains Atkinson LLC, et al.

Filed Date: 8/3/23.

Accession Number: 20230803–5084.

Comment Date: 5 p.m. ET 8/15/23.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

The filings are accessible in the Commission's eLibrary system (*https://elibrary.ferc.gov/idmws/search/fercgensearch.asp*) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: *http://www.ferc.gov/docs-filing/efiling/filing-req.pdf.* For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: August 4, 2023.

For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access

publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or *OPP@ferc.gov.*

Dated: August 4, 2023.

Debbie-Anne A. Reese,

Deputy Secretary.

Federal Energy Regulatory Commission

Combined Notice of Filings #1

Take notice that the Commission received the following exempt wholesale generator filings:

Docket Numbers: EG23–246–000.

Applicants: Shamrock Wind, LLC.

Description: Shamrock Wind, LLC submits Notice of Self—Certification of Exempt Wholesale Generator Status.

Filed Date: 8/4/23.

Accession Number: 20230804–5038.

Comment Date: 5 p.m. ET 8/25/23.

Docket Numbers: EG23–247–000.

Applicants: Pioneer Hutt Wind Energy LLC.

Description: Pioneer Hutt Wind Energy LLC submits Notice of Self—Certification of Exempt Wholesale Generator Status.

Filed Date: 8/4/23.

Accession Number: 20230804–5065.

Comment Date: 5 p.m. ET 8/25/23.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER10–1529–006; ER10–2472–009; ER10–2473–009; ER10–2502–010; ER11–2724–010; ER11–4436–008; ER18–2518–005; ER19–645–004.

Applicants: Black Hills Colorado Wind, LLC, Black Hills Electric Generation, LLC, Black Hills Power, Inc., Black Hills Colorado IPP, LLC, Black Hills Colorado Electric, LLC, Cheyenne Light, Fuel and Power Company, Black Hills Wyoming, LLC, Northern Iowa Windpower, LLC.

Description: Supplement to January 31, 2023, Notice of Non-Material Change in Status of Northern Iowa Windpower, LLC, et al.

Filed Date: 8/1/23.

Accession Number: 20230801–5224.

Comment Date: 5 p.m. ET 8/22/23.

Docket Numbers: ER23–1832–000.

Applicants: Homer City Generation, L.P.

Description: Refund Report: Refund Notice in ER23–1832 to be effective N/A.

Filed Date: 8/4/23.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 7274–035]

Town of Wells; Notice of Application Tendered for Filing With the Commission and Soliciting Additional Study Requests and Establishing Procedural Schedule for Relicensing and a Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* Subsequent License.

b. *Project No.:* 7274–035.

c. *Date filed:* July 31, 2023.

d. *Applicant:* Town of Wells.

e. *Name of Project:* Lake Algonquin Hydroelectric Project.

f. *Location:* On the Sacandaga River in the town of Wells, Hamilton County, New York.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Matthew Taylor, Principle-in-Charge, GZA GeoEnvironmental of New York, 104 West 29th Street, 10th Floor, New York 10001; Phone at (781) 278–5803 or email at *matthew.taylor@gza.com;* or Rebekah Crewell, Supervisor, Town of Wells, P.O. Box 205, Wells, New York 12190; Phone at (518) 924–7912 or email at *supervisor-rebekah-crewell@townofwells.org.*

i. *FERC Contact:* Samantha Pollak at (202) 502–6419, or *samantha.pollak@ferc.gov.*

j. *Cooperating agencies:* Federal, state, local, and tribal agencies with jurisdiction and/or special expertise with respect to environmental issues that wish to cooperate in the preparation of the environmental document should follow the instructions for filing such requests described in item l below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of the environmental document cannot also intervene. *See,* 94 FERC ¶ 61,076 (2001).

k. Pursuant to section 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, Indian Tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for a complete analysis of the application on its merit, the resource agency, Indian Tribe, or person must file a request for a study with the Commission not later than 60 days from the date of filing of the application, and serve a copy of the request on the applicant.

l. *Deadline for filing additional study requests and requests for cooperating agency status:* September 29, 2023.

The Commission strongly encourages electronic filing. Please file additional study requests and requests for cooperating agency status using the Commission's eFiling system at *https://www.ferc.gov/docs-filing/efiling.asp.* For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov,* (866) 208–3676 (toll free), or (202) 502–8659 (TTY).

m. The application is not ready for environmental analysis at this time.

n. *The Lake Algonquin Hydroelectric Project consists of the following facilities:* (1) a 239-foot-long, 26.5-foot-high concrete gravity dam composed of an ogee spillway section at each end and a gated spillway section in the middle with three steel 19-foot-wide by 12-foot-high vertical lift roller gates; (2) an impoundment with a surface area of 275 acres and a storage capacity of 2,557 acre-feet at an elevation of 986.84 feet National Geodetic Vertical Datum of 1929; (3) a 27-foot-high, 21-foot-wide, 52-foot-long intake structure; (4) a 10-foot-diameter, 113-foot-long steel penstock; (5) a 25-foot-wide, 63-foot-long concrete, steel, and masonry powerhouse containing one Kaplan turbine unit with a rated capacity of 740 kilowatts; (6) a 480-volt/4.8-kilovolt (kV) step-up transformer; (7) a 4.8-kV, approximately 50-foot-long overhead transmission line; and (8) appurtenant facilities.

The project operates in a run-of-river mode with a minimum flow of 20 cubic feet per second, or reservoir inflow, whichever is less. The project has an average annual generation of 1.363 megawatt-hours between 2015 and 2020.

o. Copies of the application may be viewed on the Commission's website at *https://www.ferc.gov* using the ''eLibrary'' link. Enter the docket number excluding the last three digits in the docket number field to access the document (P–7274). For assistance, contact FERC Online Support at *FERCOnlineSupport@ferc.gov* or call tollfree, (866) 208–3676 or (202) 502–8659 (TTY).

You may also register online at *https://www.ferc.gov/docs-filing/esubscription.asp* to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or *OPP@ferc.gov.*

p. *Procedural schedule and final amendments:* The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Issue Deficiency Letter (if necessary)	September 2023.
Request Additional Information	October 2023.
Issue Acceptance Letter	December 2023.
Issue Scoping Document 1 for comments	December 2023.
Request Additional Information (if necessary)	January 2024.
Issue Scoping Document 2 (if necessary)	February 2024.
Issue Notice of Ready for Environmental Analysis	February 2024.

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: August 4, 2023.

Kimberly D. Bose,

Secretary.

Federal Energy Regulatory Commission

[Project No. 2444–042]

Northern States Power Corporation—Wisconsin; Notice of Application Tendered for Filing With the Commission and Soliciting Additional Study Requests and Establishing Procedural Schedule for Relicensing and a Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* Subsequent Minor License.

b. *Project No.:* 2444–042.

c. *Date Filed:* July 21, 2023.

d. *Applicant:* Northern States Power Corporation—Wisconsin.

e. *Name of Project:* White River Hydroelectric Project (project).

f. *Location:* On the White River in Ashland and Bayfield Counties, Wisconsin.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Matthew Miller, Northern States Power Company—Wisconsin, 1414 W. Hamilton Avenue, P.O. Box 8, Eau Claire, WI 54702; Phone at (715) 737–1353, or email at *matthew.j.miller@xcelenergy.com*.

i. *FERC Contact:* Taconya D. Goar at (202) 502–8394, or *Taconya.Goar@ferc.gov*.

j. *Cooperating agencies:* Federal, State, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues that wish to cooperate in the preparation of the environmental document should follow the instructions for filing such requests described in item l below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of the environmental document cannot also intervene. *See* 94 FERC ¶ 61,076 (2001).

k. Pursuant to section 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, Indian Tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for a complete analysis of the application on its merit, the resource agency, Indian Tribe, or person must file a request for a study with the Commission not later than 60 days from the date of filing of the application, and serve a copy of the request on the applicant.

l. *Deadline for filing additional study requests and requests for cooperating agency status:* September 19, 2023.

The Commission strongly encourages electronic filing. Please file additional study requests and requests for cooperating agency status using the Commission's eFiling system at *https://ferconline.ferc.gov/FERCOnline.aspx*. For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov,* (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852. All filings must clearly identify the project name and docket number on the first page: White River Hydroelectric Project (P–2444–042).

m. The application is not ready for environmental analysis at this time.

n. *Project Description:* The existing project consists of: (1) an earthen and concrete dam that includes: (a) a 400-foot-long, 37-foot-high north earthen embankment; (b) a concrete section that includes: (i) a north abutment; (ii) a 20-foot-long, 36.5-foot-high intake structure equipped with a trashrack; (iii) a 35-foot-high gated spillway with two 25-foot-long bays that each contain a Tainter gate; and (iv) a south abutment; (c) a 300-foot-long, 37-foot-high south earthen embankment; (2) an impoundment with a surface area of 39.9 acres at an elevation of 711.6 feet National Geodetic Vertical Datum of 1929 (NGVD 29); (3) a 7-foot-diameter, 1,345-foot-long concrete pipe that conveys flows from the intake structure to a 16-foot-diameter, 62-foot-high steel surge tank; (4) two 30-foot-long steel penstocks; (5) a 69-foot-long, 39-foot-wide concrete and brick masonry powerhouse that contains one 700-kilowatt (kW) horizontal Francis turbine-generator unit and one 500-kW horizontal Francis turbine-generator unit, for a total installed capacity of 1,200 kW; and (6) a 220-foot-long, 2.4-kilovolt (kV) electric line that connects the generators to a 2.4/69-kV step-up transformer. The project creates an approximately 1,400-foot-long bypassed reach of the White River. A 1-foot-diameter steel pipe conveys flow from the intake structure to the bypassed reach.

Project recreation facilities include: (1) a boat access site and canoe portage take-out site at the north embankment of the dam; (2) an approximately 2,260 feet canoe portage trail; (3) a canoe put-in site approximately 90 feet downstream of the powerhouse; and (4) a tailrace fishing area.

The current license requires the project to operate in a run-of-river mode, such that outflow from the project approximates inflow to protect aquatic resources in the White River. The current license requires the impoundment to be maintained at an elevation between 710.4 and 711.6 feet NGVD 29. The current license also requires a minimum bypassed reach flow of 16 cubic feet per second (cfs) or inflow to the impoundment, whichever is less, to protect aquatic resources. The minimum and maximum hydraulic capacities of the powerhouse are 50 and 350 cfs, respectively. The average annual generation of the project was 4,927 megawatt-hours from 2017 through 2022.

The applicant proposes the following changes to the project boundary: (1)

revise the project boundary around the impoundment to follow a contour elevation of 711.6 NGVD 29, which would result in a reduction in the total acreage of the project boundary upstream of the dam from 76.5 to 41.2 acres; (2) revise the project boundary downstream of the dam to remove approximately 38.8 acres of land north of the access road to the powerhouse and non-project substation and approximately 12 acres of land northeast of the powerhouse; and (3) revise the project boundary downstream of the dam to include approximately 0.3 acre of land associated with a non-project substation, approximately 0.6 acre of land associated with an access road, approximately 1.3 acres of water downstream of the project, and approximately 0.3 acre east of the south earthen embankment.

The applicant proposes to: (1) continue to operate the project in a run-of-river mode to protect aquatic resources; (2) continue to maintain the impoundment elevation between 710.4 and 711.6 feet NGVD 29; (3) continue to release a minimum flow of 16 cfs or inflow, whichever is less, to the bypassed reach at all times; (4) develop an operation compliance monitoring plan; (5) consult with resource agencies and the Bad River Band of Lake Superior Tribe of Chippewa Indians prior to temporary modifications of project operation, including non-emergency impoundment drawdowns, and file a report with the Commission within 14 days after the planned deviation; (6) conduct shoreline erosion surveys every ten years; (7) develop an invasive species monitoring plan; (8) pass woody debris from the impoundment to the bypassed reach; (9) replace recreational signage; (10) maintain project recreation facilities; (11) implement the State of Wisconsin's broad incidental take permits/authorizations for Wisconsin cave bats and wood turtles; (12) avoid vegetation management and construction activities within 660 feet of bald eagle nests during the nesting season; and (13) develop a historic properties management plan.

o. At this time, the Commission has suspended access to the Commission's Public Reference Room. Copies of the application can be viewed on the Commission's website at *https://www.ferc.gov* using the ''eLibrary'' link. Enter the docket number excluding the last three digits in the docket number field to access the document (P–2444). In addition to publishing the full text of this notice in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this notice, as well as other documents in the proceeding (*e.g.,* license application) via the internet through the Commission's Home Page (*http://www.ferc.gov*) using the ''eLibrary'' link. For assistance, contact FERC at *FERCOnlineSupport@ferc.gov* or call toll-free, (866) 208–3676 or (202) 502–8659 (TTY).

You may also register online at *https://ferconline.ferc.gov/FERCOnline.aspx* to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

p. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or *OPP@ferc.gov.*

q. *Procedural Schedule:* The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Issue Deficiency Letter	August 2023.
Request Additional Information	August 2023.
Issue Scoping Document 1	November 2023.
Request Additional Information (if necessary)	November 2023.
Issue Acceptance Letter	December 2023.
Issue Scoping Document 2	January 2024.
Issue Notice of Ready for Environmental Analysis	January 2024.

r. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: August 4, 2023.

Kimberly D. Bose,

Secretary.

[FR Doc. 2023–17158 Filed 8–9–23; 8:45 am]

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2336–101]

Georgia Power Company; Notice of Waiver of Water Quality Certification

On January 3, 2022, Georgia Power Company (Georgia Power) filed an application for a new license for the Lloyd Shoals Hydroelectric Project (project) in the above captioned docket. On June 24, 2022, Georgia Power filed with the Georgia Department of Natural Resources, Environmental Protection Division (Georgia EPD), a request for water quality certification for the project under section 401(a)(1) of the Clean Water Act.

On July 19, 2022, staff provided the certifying authority with written notice pursuant to 40 CFR 121.6(b) that the applicable reasonable period of time for the state to act on the certification request was one (1) year from the date of receipt of the request, and that the certification requirement for the license would be waived if the certifying authority failed to act by June 24, 2023. Because the state did not act by June 24, 2023, we are notifying you pursuant to 40 CFR 121.9(c), and section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1), that waiver of the certification requirement has occurred.

Dated: August 4, 2023.

Kimberly D. Bose,

Secretary.

[FR Doc. 2023–17159 Filed 8–9–23; 8:45 am]

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–R08–SFUND–2023–0366; FRL–11165–01–R8]

Proposed CERCLA Administrative Cashout Settlement for Peripheral Parties, Colorado Smelter Site, Pueblo, Colorado

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement; request for public comment.

SUMMARY: In accordance with the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (''CERLCA''), notice is hereby given that a proposed CERCLA Cashout Settlement Agreement for Peripheral Parties (''Proposed Agreement'') associated with the Colorado Smelter Superfund Site, Pueblo, Colorado (''Site'') was executed by the U.S. Environmental Protection Agency (''EPA''), Region 8 and is now subject to public comment, after which EPA may modify or withdraw its consent if comments received disclose facts or considerations that indicate that the Proposed Agreement is inappropriate, improper, or inadequate.

DATES: Comments must be submitted on or before September 11, 2023.

ADDRESSES: The Proposed Agreement and additional background information relating to the agreement will be available upon request. Any comments or requests or for a copy of the Proposed Agreement should be addressed to Julie Nicholson, Enforcement Specialist, Superfund and Emergency Management Division, Environmental Protection Agency—Region 8, Mail Code 8SEM–PAC, 1595 Wynkoop Street, Denver, Colorado 80202, telephone number: (401) 714–6143, email address: *nicholson.julie@epa.gov,* and should reference the Colorado Smelter Superfund Site.

You may also send comments, identified by Docket ID No. EPA–R08–SFUND–2023–0366, to *http://www.regulations.gov.* Follow the online instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Sarah Rae, Senior Assistant Regional Counsel, Office of Regional Counsel, Environmental Protection Agency, Region 8, Mail Code 8ORC–LEC, 1595 Wynkoop, Denver, Colorado 80202, telephone number: (303) 312–6839, email address: *rae.sarah@epa.gov.*

SUPPLEMENTARY INFORMATION: The Proposed Agreement would resolve potential EPA claims under section 107(a) of CERCLA, against 1000 South Santa Fe LLC and 1100 South Santa Fe LLC(''Settling Parties'') for EPA response costs at or in connection with the property located at 1101–1109 Santa Fe Avenue and 1045–1049 South Santa Fe Avenue, in Pueblo, Colorado (the ''Property''), which is part of the Colorado Smelter Superfund Site. The settlement is estimated to be $646,100, plus an additional sum for interest on that amount calculated from the effective date through the date of payment (''Payment Amount''). Settling Parties will remit the Payment Amount to EPA upon the transfer of the Property or within three years of the effective date, whichever occurs earlier. The Proposed Settlement Agreement also provides a covenant not to sue or to take administrative action from the United States to the Settling Parties pursuant to sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a) with regard to Operable Unit 02 (OU2).

For thirty (30) days following the date of publication of this document, EPA will receive electronic comments relating to the Proposed Agreement. EPA's response to any comments received will be available for public inspection by request. Please see the **ADDRESSES** section of this document for instructions.

Ben Bielenberg,

Acting Division Director, Superfund and Emergency Management Division, Region 8.

[FR Doc. 2023–17174 Filed 8–9–23; 8:45 am]

BILLING CODE 6560–50–P

EXECUTIVE OFFICE OF THE PRESIDENT

Office of the National Cyber Director

[Docket ID: ONCD–2023–0002]

RIN 0301–AA01

Request for Information on Open-Source Software Security: Areas of Long-Term Focus and Prioritization

AGENCY: Office of the National Cyber Director, Executive Office of the President, Cybersecurity and Infrastructure Security Agency, DHS, National Science Foundation, Defense Advanced Research Projects Agency, and Office of Management and Budget, Executive Office of the President.

ACTION: Request for information (RFI).

SUMMARY: The Office of the National Cyber Director (ONCD), the Cybersecurity Infrastructure Security Agency (CISA), the National Science Foundation (NSF), the Defense Advanced Research Projects Agency (DARPA), and the Office of Management and Budget (OMB) invite public comments on areas of long-term focus and prioritization on open-source software security.

DATES: Comments must be received in writing by 5 p.m. ET October 9, 2023.

ADDRESSES: Interested parties may submit comments through *www.regulations.gov.* For detailed instructions on submitting comments and additional information on this process, see the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Requests for additional information may be sent to: *OS3IRFI@ncd.eop.gov,* Nasreen Djouini, telephone: 202–881–4697.

SUPPLEMENTARY INFORMATION: As highlighted in the National Cybersecurity Strategy (*https://www.whitehouse.gov/wp-content/uploads/2023/03/National-Cybersecurity-Strategy-2023.pdf*), and its Implementation Plan Initiative 4.2.1, the ONCD has established an Open-Source Software Security Initiative (OS3I) to champion the adoption of memory safe programming languages and open-source software security. The security and resiliency of open-source software is a national security, economic, and a technology innovation imperative. Because open-source software plays a vital and ubiquitous role across the Federal Government and critical infrastructure,[1] vulnerabilities in open-source software components may cause widespread downstream detrimental effects. The Federal Government recognizes the immense benefits of open-source software, which enables software development at an incredible pace and fosters significant innovation and collaboration. In light of these factors, as well as the status of open-source software as a free public good, it may be appropriate to make open-source software a national public priority to help ensure the security, sustainability, and health of the open-source software ecosystem.

In 2021, following the aftermath of the Log4Shell vulnerability, ONCD in collaboration with the Office of Management and Budget's (OMB) Office of the Federal Chief Information Officer (OFCIO), established the Open-Source Software Security Initiative (OS3I) interagency working group with the goal of channeling government resources to foster greater open-source software security. Since then, OS3I has welcomed many other interagency partners, including the Cybersecurity Infrastructure Security Agency (CISA), the National Science Foundation (NSF), Defense Advanced Research Projects Agency (DARPA), National Institute of Standards and Technology (NIST),

[1] ''2023 Open-Source Security and Risk Analysis Report,'' Synopsys, February 22, 2023, (*https://www.synopsys.com/software-integrity/resources/analyst-reports/open-source-security-risk-analysis.html?utm_source=bing&utm_medium=cpc&utm_term=&utm_campaign=B_S_OSSRA_BMM&cmp=ps-SIG-B_S_OSSRA_BMM&msclkid=15e8216ad16511c8b01945c7b683c395*).

Center for Medicare & Medicaid Services (CMS), and Lawrence Livermore National Laboratory (LLNL) in order to identify open-source software security priorities and implement policy solutions.

Over the past year, OS3I identified several focus areas, including: (1) reducing the proliferation of memory unsafe programming languages; (2) designing implementation requirements for secure and privacy-preserving security attestations; and (3) identifying new focus areas for prioritization.

This Request for Information (RFI) aims to further the work of OS3I by identifying areas most appropriate to focus government priorities, and addressing critical questions such as:

- How should the Federal Government contribute to driving down the most important systemic risks in open-source software?
- How can the Federal Government help foster the long-term sustainability of open-source software communities?
- How should open-source software security solutions be implemented from a technical and resourcing perspective?

This RFI represents a continuation of OS3I's efforts to gather input from a broad array of stakeholders.

Three-Phase RFI Approach

For this RFI, the Government intends to engage with interested parties in three phases:

Phase I—Addressing Respondent Questions About this RFI

- If you have any questions about the context of the Government's RFI, the processes described, or the numbered topics below, you may send them to *OS3IRFI@ncd.eop.gov* by August 18, 2023.
- By August 28, 2023, the Government will post responses to select questions on *www.regulations.gov,* as appropriate.

Phase II—Submittal of Responses to the RFI by Interested Respondents

- By October 9, 2023, all interested respondents should submit a written RFI response, in MS Word or PDF format, focusing on questions for which they have expertise and insights for the Government (no longer than 10 pages typed, size eleven font) to *OS3IRFI@ncd.eop.gov* with the email subject header ''Open-Source Software Security RFI Response'' and your organization's name.
- Title page, cover letter, table of contents, and appendix are not included within the 10-page limit. In the body of the email, also include contact information for your organization (POC Name, Title, Phone, Email, Organization Name, and Organization Address).

Phase III—Government Review

- The Government reviews and publishes the RFI responses submitted during Phase II. The Government may select respondents to engage with the RFI project team to elaborate on their response to the RFI.

Participation, or lack thereof, in this RFI process has no bearing on a party's ability or option to choose to participate in or receive an award for any future solicitation or procurement resulting from this or any other activity.

Questions for Respondents

We are seeking insights and recommendations as to how the Federal Government can lead, assist, or encourage other key stakeholders to advance progress in the potential areas of focus described below.

Please consider providing input on these areas by addressing the questions below:

- Which of the potential areas and sub-areas of focus described below should be prioritized for any potential action? Please describe specific policy solutions and estimated budget and timeline required for implementation.
- What areas of focus are the most time-sensitive or should be developed first?
- What technical, policy or economic challenges must the Government consider when implementing these solutions?
- Which of the potential areas and sub-areas of focus described below should be applied to other domains? How might your policy solutions differ?

Respondents are not required to respond to every topic and are encouraged to focus on specific areas that meet their specialized expertise.

Potential Areas of Focus

- *Area:* Secure Open-Source Software Foundations
  - *Sub-area:* Fostering the adoption of memory safe programming languages
    - Supporting rewrites of critical open-source software components in memory safe languages
    - Addressing software, hardware, and database interdependencies when refactoring open-source software to memory safe languages
    - Developing tools to automate and accelerate the refactoring of open-source software components to memory safe languages, including code verification techniques
    - Other solutions to support this sub-area
  - *Sub-Area:* Reducing entire classes of vulnerabilities at scale
    - Increasing secure by default configurations for open-source software development
    - Fostering open-source software development best practices, including but not limited to input validation practices
    - Identifying methods to incentivize scalable monitoring and verification efforts of open-source software by voluntary communities and/or public-private partnerships
    - Other solutions to support this sub-area
  - Sub-Area: Strengthening the software supply chain
    - Designing tools to enable secure, privacy-preserving security attestations from software vendors, including their suppliers and open-source software maintainers
    - Detection and mitigation of vulnerable and malicious software development operations and behaviors
    - Incorporating automated tracking and updates of complex code dependencies
    - Incorporating zero trust architecture into the open-source software ecosystem
    - Other solutions to support this sub-area
  - *Sub-Area:* Developer education
    - Integrating security and open-source software education into computer science and software development curricula
    - Training software developers on security best practices
    - Training software developers on memory safe programming languages
    - Other solutions to support this sub-area
- *Area:* Sustaining Open-Source Software Communities and Governance
  - Sustaining the open-source software ecosystem (including developer communities, non-profit investors, and academia) to ensure that critical open-source software components have robust maintenance plans and governance structures
  - Other solutions to support this sub-area
- *Area:* Behavioral and Economic Incentives to Secure the Open-Source Software cosystem
  - Frameworks and models for software developer compensation that incentivize secure software development practices
  - Applications of cybersecurity insurance and appropriately-tailored software liability as mechanisms to incentivize secure software development and operational environment practices
  - Other solutions to support this sub-area

- *Area:* R&D/Innovation
  - Application of artificial intelligence and machine learning techniques to enhance and accelerate cybersecurity best practices with respect to secure software development
  - Other solutions to support this sub-area
- *Area:* International Collaboration
  - Methods for identifying and harmonizing shared international priorities and dependencies
  - Structures for intergovernmental collaboration and collaboration with various open-source software communities
  - Other solutions to support this sub-area

This RFI seeks public input as the Federal Government develops its strategy and action plan to strengthen the open-source software ecosystem. We hope that potential respondents will view this RFI as a civic opportunity to help shape the government's thinking about open-source software security.

Comments must be received no later than 5:00 p.m. ET October 9, 2023.

By October 9, 2023, all interested respondents should submit a written RFI response, in MS Word or PDF format, with their answers to questions on which they have expertise and insights for the Government through *www.regulations.gov.*

The written RFI response should address ONLY the topics for which the respondent has expertise. Inputs that meet most of the following criteria will be considered most valuable:

- Easy for executives to review and understand: Content that is modularly organized and presented in such a fashion that it can be readily lifted (by topic area) and shared with relevant executive stakeholders in an easily consumable format.
- *Expert:* The Government, through this effort, is seeking insights to understand current best practices and approaches applicable to the above topics, as well as new and emerging solutions. The written RFI response should address ONLY the topics for which the respondent has knowledge or expertise.
- *Clearly worded/not vague:* Clear, descriptive, and concise language is appreciated. Please avoid generalities and vague statements.
- *Actionable:* Please provide enough high-level detail so that we can understand how to apply the information you provide. Wherever possible, please provide credible data and specific examples to support your views. If you cite academic or other studies, they should be publicly available to be considered.
- *Cost effective & impactful:* Respondents should consider whether their suggestions have a clear return on investment that can be articulated to secure funding and support.
- *''Gordian Knot'' solutions and ideas:* Occasionally, challenges that seem to be intractable and overwhelmingly complex can be resolved with a change in perspective that unlocks hidden opportunities and aligns stakeholder interests. We welcome these ideas as well.
- All submissions are public records and may be published on *www.regulations.gov.* Do NOT submit sensitive, confidential, or personally identifiable information.

An additional appendix of no more than 5 pages long may also be included. This section should only include additional context about you or your organization.

Privacy Act Statement

Submission of comments is voluntary. The information will be used to determine focus and priority areas for open-source software security and memory-safety. Please note that all comments received in response to this notice will be posted in their entirety to *http://www.regulations.gov,* including any personal and business confidential information provided. Do not include any information you would not like to be made publicly available.

Kemba E. Walden,

Acting National Cyber Director.

[FR Doc. 2023–17239 Filed 8–9–23; 8:45 am]

BILLING CODE 3340–D3–P

EXPORT-IMPORT BANK

[Public Notice: 2023–6040]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Annual Competitiveness Report Survey of Exporters and Lenders

AGENCY: Export-Import Bank of the United States.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Export-Import Bank of the United States (EXIM), invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995. As required by Export-Import Bank Act of 1945 (see section 8A(a)(1) of EXIM's charter), EXIM will survey U.S. exporters and commercial lending institutions to understand their experience with EXIM ''meeting financial competition from other countries whose exporters compete with United States exporters.'' EXIM plans to survey exporters and lenders that have engaged with EXIM on medium- and long-term support over the previous calendar year or responded to at least one of EXIM's last two surveys. The potential respondents will be sent an electronic invitation to participate in the online survey.

DATES: Comments should be received on or before October 10, 2023 to be assured of consideration.

ADDRESSES: Comments may be submitted electronically on *WWW.REGULATIONS.GOV* (EIB 00–02) or by email *Jessica.Ernst@exim.gov* or by mail to Jessica Ernst, Export-Import Bank of the United States, 811 Vermont Ave. NW, Washington, DC 20571 Attn: OMB 3048–14–01.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Jessica Ernst, *Jessica.Ernst@exim.gov,* 202–565–3711.

SUPPLEMENTARY INFORMATION: The proposed survey will ask participants about their potential or completed deals involving EXIM, their opinion of EXIM's policies and procedures, their interaction and perceptions of other export credit agencies, and impacts of overall market conditions on their businesses.

The survey can be reviewed at: *https://img.exim.gov/s3fs-public/EXIM+Competitiveness+Report+Exporter+and+Lender+Survey+2023.pdf.*

Titles and Form Number: EIB 00–02 Annual Competitiveness Report Survey of Exporters and Lenders.

OMB Number: 3048–0004.

Type of Review: Renewal.

Need and Use: The information requested is required by the Export-Import Bank Act of 1945, as amended, 12 U.S.C. 635g–1 (see section 8A(a)(1) of EXIM's charter) and enables EXIM to evaluate and assess its competitiveness with the programs and activities of official export credit agencies and to report on the Bank's status in this regard.

Affected Public:

The number of respondents: 100.

Estimated time per respondent: 15 minutes.

The frequency of response: Annually.

Annual hour burden: 25 total hours.

Dated: August 4, 2023.

Kalesha Malloy,

IT Specialist.

[FR Doc. 2023–17115 Filed 8–9–23; 8:45 am]

BILLING CODE 6690–01–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1222; FR ID 162067]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before October 10, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email *PRA@fcc.gov* and to *nicole.ongele@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060–1222.

Title: Inmate Calling Services (ICS) Provider Annual Reporting, Certification, and Other Requirements, WC Docket Nos. 23–62, 12–375, DA 23–656.

Form Number(s): FCC Form 2301(a) and FCC Form 2301(b).

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 30 respondents; 33 responses.

Estimated Time per Response: 5 hours–220 hours.

Frequency of Response: Annual reporting and certification requirements, third party disclosure and waiver request requirements.

Obligation to Respond: Mandatory. Statutory authority for this collection of information is contained in sections 1, 2, 4(i)–(j), 5(c), 201(b), 218, 220, 225, 255, 276, 403, and 716 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i)–(j), 155(c), 201(b), 218, 220, 225, 255, 276, 403, and 617, and the Martha Wright-Reed Just and Reasonable Communications Act of 2022, Pub. L. 117–338, 136 Stat. 6156

Total Annual Burden: 9,690 hours.

Total Annual Cost: No cost.

Needs and Uses: In 2015, the Commission released the Second Report and Order and Third Notice of Further Proposed Rulemaking, WC Docket No. 12–375, 30 FCC Rcd 12763 (*2015 ICS Order*), in which it required that ICS providers file Annual Reports providing data and other information on their ICS operations, as well as Annual Certifications that reported data are complete and accurate and comply with the Commission's ICS rules. Pursuant to the authority delegated it by the Commission in the *2015 ICS Order,* the Wireline Competition Bureau (WCB) created a standardized reporting template (FCC Form No. 2301(a)) and a related certification of accuracy (FCC Form No. 2301(b)), as well as instructions to guide providers through the reporting process. *See* ICS Annual Reporting Form Word Template (Current), WC Docket No. 12–375 *https://www.fcc.gov/general/ics-data-collections* (last visited August 4, 2023) (Word Template); ICS Annual Reporting Form Excel Template (Current), WC Docket No. 12–375, *https://www.fcc.gov/general/ics-data-collections* (last visited August 4, 2023) (Excel Template); ICS Annual Reporting and Certification Instructions (Current), WC Docket No. 12–375 *https://www.fcc.gov/general/ics-data-collections* (last visited August 4, 2023) (Instructions) (Certification Instructions); ICS Annual Report Certification Form (Current), WC Docket No. 12–375, *https://www.fcc.gov/general/ics-data-collections* (last visited August 4, 2023) (Certification Form).

In 2021, the Commission released the Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking WC Docket No. 12–375, 36 FCC Rcd 9519 (2021). The Commission revised its rules by adopting, among other things, lower interim rate caps for interstate calls, new interim rate caps for international calls, and a new rate cap structure that requires ICS providers to differentiate between legally mandated and contractually required site commissions. The revisions also included expanded consumer disclosure requirements, as well as new reporting requirements for providers seeking waivers of the Commission's interstate and international rates.

In 2022, the Commission released the Fourth Report and Order and Sixth Further Notice of Proposed Rulemaking, WC Docket No. 12–375, FCC 22–76 (Sept. 30, 2022). The Commission adopted numerous requirements to improve access to communications services for incarcerated people with communication disabilities and expanded the scope of the Annual Reports to reflect these new requirements. Specifically, the Commission required ICS providers to report, at a minimum, for each facility served, the types of telecommunications relay services (TRS) that can be accessed from the facility and the number of completed calls and complaints for TTY-to-TTY calls, ASL point-to-point video calls, and each type of TRS for which access is provided. The Commission also eliminated the safe harbor, adopted in 2015, that had exempted ICS providers from any TRS-related reporting requirements if they either (1) operated in a facility that allowed the offering of additional forms of TRS beyond those mandated by the Commission or (2) had not received any complaints related to TRS calls. The Commission found that the safe harbor was no longer appropriate given the expanded reporting requirement for additional forms of TRS, and the importance of transparency regarding the state of accessible communications in incarceration settings.

The Commission also specified a number of provider obligations relating to access to and the provision of TRS. For instance, the Commission required, among other things, that an ICS provider must work with correctional authorities, equipment vendors, and TRS providers to ensure that screen-equipped communications devices such as tablets,

smartphones, or videophones are available to incarcerated people who need to use TRS for effective communication, and all necessary TRS provider software applications are included, with any adjustments needed to meet the security needs of the institution. The Commission required that providers ensure compatibility with institutional communication systems and allow operability over the inmate calling services provider's network.

On January 5, 2023, the President signed into law the Martha Wright-Reed Just and Reasonable Communications Act of 2022, Public Law 117–338, 136 Stat. 6156 (the Martha Wright-Reed Act or the Act), expanding the Commission's statutory authority over communications services between incarcerated people and the non-incarcerated to include ''any audio or video communications service used by inmates . . . regardless of the technology used.'' The new Act also amends section 2(b) of the Communications Act of 1934, as amended (the Communications Act) to make clear that the Commission's authority extends to intrastate as well as interstate and international communications services used by incarcerated people.

The Act directs the Commission to ''promulgate any regulations necessary to implement'' the statutory provisions, including its mandate that the Commission establish a ''compensation plan'' ensuring that all rates and charges for IPCS ''are just and reasonable,'' not earlier than 18 months and not later than 24 months after its January 5, 2023 enactment. The Act also requires the Commission to consider, as part of its implementation, the costs of ''necessary'' safety and security measures, as well as ''differences in costs'' based on facility size, or ''other characteristics.'' It also allows the Commission to ''use industry-wide average costs of telephone service and advanced communications services and the average costs of service a communications service provider'' in determining just and reasonable rates.

On March 17, 2023, pursuant to the directive that the Commission implement the new Act and establish just and reasonable rates for IPCS services, the Commission released *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services,* WC Docket Nos. 23–62, 12–375, Notice of Proposed Rulemaking and Order, FCC 23–19, 88 FR 20804 (*2023 IPCS Notice*) and 88 FR 19001 (Order) (*2023 IPCS Order*). The Commission sought comment on how to interpret the Act's language to ensure that the Commission implements the statute in a manner that fulfills Congress's intent. Because the Commission is now required or allowed to consider certain types of costs, the Act contemplates that it would undertake an additional data collection. To ensure that it has the data necessary to meet its substantive and procedural responsibilities under the Act, the Commission adopted the *2023 IPCS Order* delegating authority to WCB and the Office of Economics and Analytics (OEA) to modify the template and instructions for the most recent data collection to the extent appropriate to timely collect such information to cover the additional services and providers now subject to the Commission's authority. On April 28, 2023, WCB and OEA issued a Public Notice seeking comment on all aspects of the proposed data collection. *WCB and OEA Seek Comment on Proposed 2023 Mandatory Data Collection for Incarcerated People's Communication Services,* WC Docket Nos. 23–62, 12–375, Public Notice, DA 23–355 (WCB/OEA Apr. 28, 2023). On July 26, 2023, WCB and OEA released an Order adopting instructions, a reporting template, and a certification form to implement the 2023 Mandatory Data Collection. *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act, Rates for Interstate Inmate Calling Services,* WC Docket Nos. 23–62, 12–375, Order, DA 23–638 (July 26, 2023).

In the *2023 IPCS Order,* the Commission also reaffirmed and updated its prior delegation of authority to WCB and the Consumer and Governmental Affairs Bureau (CGB) (collectively, the Bureaus) to revise the instructions and reporting templates for the Annual Reports. Specifically, the Commission delegated to the Bureaus the authority to modify, supplement, and update the instructions and templates for the Annual Reports, as appropriate, to supplement the information the Commission will receive in response to the 2023 Mandatory Data Collection.

On August 3, 2023, the Bureaus issued a Public Notice seeking comment on proposed revisions to the instructions, template, and certification form for the Annual Reports, *https://www.fcc.gov/proposed-2023-ipcs-annual-reports,* which are necessary to reflect the revised rules improving access to communications services for incarcerated people with communication disabilities adopted in the *2022 ICS Order* and to help implement the Martha Wright-Reed Act to ensure just and reasonable rates for consumers and fair compensation for providers. *Wireline Competition Bureau and Consumer and Governmental Affairs Bureau Seek Comment on Revisions to IPCS Providers' Annual Reporting and Certification Requirements,* Public Notice, WC Docket Nos. 23–62, 12–375, DA 23–656 (Aug. 3, 2023). *https://www.fcc.gov/document/2023-incarcerated-peoples-communications-services-annual-reports-pn.*

Notice of this document will be published in the **Federal Register**. The Bureaus will consider comments submitted in response to the Public Notice in addition to comments submitted in response to this 60-Day Notice in finalizing this information collection prior to submitting the documents to the Office of Management and Budget.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.

[FR Doc. 2023–17257 Filed 8–9–23; 8:45 am]

BILLING CODE 6712–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket Number CDC–2023–0057, NIOSH–156–F]

Request for Public Comment on the Draft Immediately Dangerous to Life or Health (IDLH) Value Document for Hydrogen Chloride

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Request for comment.

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) in the Centers for Disease Control and Prevention (CDC), an Operating Division of the Department of Health and Human Services (HHS), requests public comment and technical review on the draft Immediately Dangerous to Life or Health (IDLH) Value Profile document for the chemical hydrogen chloride (CAS# 7647–01–0).

DATES: Electronic or written comments must be received by October 10, 2023.

ADDRESSES: You may submit comments, identified by docket number CDC–2023–0057 and docket number NIOSH–156–F, by either of the following methods:

• *Federal eRulemaking Portal: https://www.regulations.gov*. Follow the instructions for submitting comments.

• *Mail:* National Institute for Occupational Safety and Health, NIOSH Docket Office, 1090 Tusculum Avenue, MS C–34, Cincinnati, Ohio 45226–1998.

Instructions: All information received in response to this notice must include the agency name and docket number (CDC–2023–0057; NIOSH–156–F). All relevant comments, including any personal information provided, will be posted without change to *https://www.regulations.gov.* Do not submit comments by email. CDC does not accept comments by email. For access to the docket to read background documents or comments received, go to *https://www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: R. Todd Niemeier, Ph.D., National Institute for Occupational Safety and Health, MS–C15, 1090 Tusculum Avenue, Cincinnati, OH 45226. Telephone: (513) 533–8166.

SUPPLEMENTARY INFORMATION: NIOSH is requesting public comment and technical review on a draft IDLH Value Profile document for the chemical hydrogen chloride. To facilitate the review of this document, NIOSH requests comment on the following specific questions for the draft Profile document:

1. Does this document clearly outline the health hazards associated with acute (or short-term) exposures to the chemical? If not, what specific information is missing from the document?

2. Are the rationale and logic behind the derivation of an IDLH value for a specific chemical clearly explained? If not, what specific information is needed to clarify the basis of the IDLH value?

3. Are the conclusions supported by the data?

4. Are the tables clear and appropriate?

5. Is the document organized appropriately? If not, what improvements are needed?

6. Are you aware of any scientific data reported in government publications, databases, peer-reviewed journals, or other sources that should be included within this document?

The draft IDLH Value Profile was developed to provide the scientific rationale behind derivation of IDLH values for the following chemical:

Document #	Chemical	CAS #
X–XX	Hydrogen Chloride	(#7647–01–0)

The IDLH Value Profile provides a detailed summary of the health hazards of acute exposures to high airborne concentrations of the chemical and the rationale for the IDLH value.

Background: In 2013, NIOSH published Current Intelligence Bulletin (CIB) 66: Derivation of Immediately Dangerous to Life or Health (IDLH) Values [*http://www.cdc.gov/niosh/docs/2014-100/pdfs/2014-100.pdf*] [NIOSH 2013]. The information presented in this CIB represents the scientific rationale and the current methodology used to derive IDLH values. Since the establishment of the IDLH values in the 1970s, NIOSH has continued to review available scientific data to improve the protocol used to derive acute exposure guidelines, in addition to the chemical specific IDLH values.

IDLH values are based on health effects considerations determined through a critical assessment of the toxicology and human health effects data. This approach ensures that the IDLH values reflect an airborne concentration of a substance that represents a high-risk situation that may endanger workers' lives or health.

The primary steps applied in the establishment of an IDLH value include the following:

1. Critical review of human and animal toxicity data to identify potentially relevant studies and characterize the various lines of evidence that can support the derivation of the IDLH value;

2. Determination of a chemical's mode of action or description of how a chemical exerts its toxic effects;

3. Application of duration adjustments (time scaling) to determine 30-minute-equivalent exposure concentrations and the conduct of other dosimetry adjustments, as needed;

4. Experimental or other data to establish a point of departure (POD) such as lethal concentrations (*e.g.,* LC50), lowest observed adverse effect level (LOAEL), or no observed adverse effect level (NOAEL);

5. Selection and application of an uncertainty factor (UF) for POD or critical adverse effect concentration, identified from the available studies to account for issues associated with interspecies and intraspecies differences, severity of the observed effects, data quality, or data insufficiencies; and

6. Development of the final recommendation for the IDLH value from the various alternative lines of evidence, with use of a weight-of-evidence approach to all the data.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2023–N–3103]

Development of Small Dispensers Assessment Under the Drug Supply Chain Security Act; Request for Comments

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; request for comments.

SUMMARY: The Food and Drug Administration (FDA or Agency) is seeking stakeholder comments on the development of a technology and software assessment that examines the feasibility of dispensers with 25 or fewer full-time employees conducting interoperable, electronic tracing of products at the package level. FDA would like to obtain information regarding issues to be addressed in the assessment related to the accessibility of the necessary software and hardware to such dispensers; whether the necessary software and hardware is prohibitively expensive to obtain, install, and maintain for such dispensers; and if the necessary hardware and software can be integrated into business practices.

DATES: Either electronic or written comments on the notice must be submitted by September 11, 2023.

ADDRESSES: You may submit comments as follows. Please note that late, untimely filed comments will not be considered. The *https://www.regulations.gov* electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of September 11, 2023. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are received on or before that date.

Electronic Submissions

Submit electronic comments in the following way:

• *Federal eRulemaking Portal: https://www.regulations.gov*. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*

• If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

• *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

• For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2023–N–3103 for ''Development of Small Dispensers Assessment under the Drug Supply Chain Security Act; Request for Comments.'' Received comments, those filed in a timely manner (see **ADDRESSES**), will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

• Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf*.

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

FOR FURTHER INFORMATION CONTACT: Daniel Bellingham, Office of Compliance, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Silver Spring, MD 20993–0002, 301–796–3130, *daniel.bellingham@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

On November 27, 2013, the Drug Supply Chain Security Act (DSCSA) (Title II of Pub. L. 113–54) was signed into law. The DSCSA outlines steps to achieve interoperable, electronic tracing of products at the package level to identify and trace certain prescription drugs as they are distributed in the United States. Section 202 of the DSCSA added the new sections 581 and 582 to the Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360eee and 360eee–1). Under section 582(g)(3), FDA is required to enter into a contract with a private, independent consulting firm with expertise to conduct a technology and software assessment that looks at the feasibility of dispensers with 25 or fewer full-time employees conducting interoperable, electronic tracing of products at the package level. Under section 582(g)(1), dispensers and other trading partners will be required to, amongst other requirements, exchange transaction information and transaction statements in a secure, interoperable, electronic manner for each package; implement systems and processes for package-level verification, including the standardized numerical identifier; and implement systems and processes to facilitate the gathering of information necessary to produce the transaction information and statement for each transaction going back to the manufacturer if FDA or a trading partner requests an investigation in the event of a recall or for purposes of investigating a suspect or illegitimate product. These enhanced drug distribution security requirements are also referred to as ''enhanced product tracing'' or ''enhanced verification.''

II. Purpose of the Request for Comments

FDA is issuing this request for public comments prior to beginning the assessment, in accordance with section 582(g)(3)(D). The statement of work requires the selected firm to conduct an assessment that will address the proposed questions articulated below. In addition to commenting on the proposed questions below, stakeholders may provide comments on any aspect of the small dispenser assessment under the DSCSA.

Stakeholders that may be interested in responding to this request for information include manufacturers, repackagers, wholesale distributors, dispensers, State and Federal authorities, solution providers, and standards organizations, among others. FDA is particularly interested in receiving comments from the various sectors of the dispenser community, particularly pharmacies. FDA is seeking comments on the following proposed questions for small dispensers (*i.e.,* dispensers with 25 or fewer full-time employees). We are interested in receiving feedback on the questions themselves and whether or not they should be edited to be more useful for the assessment. FDA is also interested in any new questions that stakeholders may recommend.

• Have you begun preparations for DSCSA requirements regarding the interoperable, electronic tracing of products at the package level required under section 582(g)(1) of the FD&C Act (*i.e.,* enhanced product tracing or enhanced verification)?

• How are you currently exchanging data with your trading partners (*e.g.,* by

paper-based methods, electronic methods, or both)?

- If not currently exchanging data with trading partners in a fully electronic manner, will you be able to in the near future? If not, what are the barriers? Elaborate on why or how, as appropriate. Please specify issues related to:
- accessibility of necessary software and hardware;
- cost to obtain, install, and maintain necessary software and hardware, particularly if it is prohibitively expensive;
- integration of necessary software and hardware into business practices, such as with wholesale distributors;
- other relevant information related to feasibility of dispensers with 25 or fewer full-time employees to conduct interoperable, electronic tracing of product at the package level.
- What type of software systems and hardware do you currently utilize to facilitate the electronic exchange of DSCSA-related data for transactions of products?
- What new or modified software systems and hardware do you anticipate putting in place to comply with the interoperable, electronic tracing requirements?
- How likely are you to change and upgrade your existing software systems that are already in use so that you can comply with the interoperable, electronic tracing requirements?
- Have you or do you plan to connect your system(s) with your trading partner(s) (*e.g.,* manufacturer(s), repackager(s), or wholesale distributor(s)) in order to facilitate electronic DSCSA-related data exchange? If so, have you experienced technical issues when attempting to establish connectivity? If not, how do you or how do you plan to manage electronic DSCSA-related data received from an upstream trading partner (*e.g.,* maintain the data in your dispenser system or use a third-party agreement for another entity to confidentially maintain the DSCSA-related data on your behalf (*e.g.,* use of a secure web portal provided by your wholesale distributor))?
- Have you considered data integrity and security concerns when establishing agreements with third-party entities (*e.g.,* solution providers or wholesale distributors) for electronic data exchange and maintenance?
- Have you ever received transaction information from a trading partner, such as your wholesale distributor, that does not match the product that you received? If so, how long did it take to resolve the discrepancy on average? What if any unique challenges arose from these situations? How often does this happen?
- If you currently routinely scan a 2D data matrix barcode, how often do you receive a 2D data matrix barcode of the product identifier that cannot be scanned or read? Why are you unable to scan or read the 2D data matrix barcode (*e.g.,* barcode quality, scanner performance, software issue) and what is your process for handling these situations, including when manual steps are taken by your staff when an automated process was inadequate or failed?
- If you currently routinely scan the 2D data matrix barcode, how often you encounter a 2D data matrix barcode with missing or inaccurate data? What are the reasons for this and what is your process for handling these situations, including when manual steps are taken by your staff when an automated process was inadequate or failed?
- What new demands do you expect the DSCSA requirements in section 582(g)(1) of the FD&C Act to have on your current staff resources?
- How long do you expect it will take to train staff on the new requirements, how to use any new software or hardware, and any process changes? What additional resources do you anticipate needing to comply with the interoperable, electronic tracing requirements?
- Are there additional challenges not already identified when operationalizing new systems and processes for interoperable, electronic tracing of products at the package level required under section 582(g)(1) of the FD&C Act (*i.e.,* enhanced product tracing or enhanced verification)?

Stakeholders may provide other relevant information that may inform the development of the small dispenser assessment under the DSCSA.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

[FR Doc. 2023–17140 Filed 8–9–23; 8:45 am]

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2023–N–1529]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Voluntary Qualified Importer Program

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments (including recommendations) on the collection of information by September 11, 2023.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be submitted to *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under Review—Open for Public Comments'' or by using the search function. The OMB control number for this information collection is 0910–0840. Also include the FDA docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Rachel Showalter, Office of Operations, Food and Drug Administration, Three White Flint North, 10A–12M, 11601 Landsdown St., North Bethesda, MD 20852, 240–994–7399, *PRAStaff@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Voluntary Qualified Importer Program

OMB Control Number 0910–0840—Extension

This information collection supports implementation of FDA's Voluntary Qualified Importer Program (VQIP), a voluntary fee-based program that provides expedited review and import entry of human and animal foods into the United States. Program participants may import products to the United States with greater speed and predictability, avoiding unexpected

delays at the point of import entry. Importers interested in applying can start their application (Form FDA 4041) by submitting a notice of intent to participate after setting up an account through the FDA Industry Systems (FIS) website at *https://www.access.fda.gov,* which includes a VQIP Portal User Guide. To participate, importers must meet eligibility criteria and pay a user fee that covers costs associated with FDA's administration of the program. Consistent with section 743(b)(1) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 379j–31(b)(1)), FDA annually publishes a schedule of fees applicable to VQIP in the **Federal Register**.

Respondents to the information collection are persons that bring food, or cause food to be brought, from a foreign country into the customs territory of the United States (section 806 of the FD&C Act (21 U.S.C. 384b)) as a VQIP importer. A VQIP importer can be located outside the United States. Persons who may be a VQIP importer include the manufacturer, owner, consignee, and importer of record of a food, provided that the importer can meet all the criteria for participation.

To assist respondents with the information collection, we developed the guidance document entitled ''FDA's Voluntary Qualified Importer Program'' (issued November 2016, updated July 2023 to change the Paperwork Reduction Act burden statement address), available at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-industry-fdas-voluntary-qualified-importer-program.* The guidance document is prepared in a question-and-answer format and discusses eligibility criteria; includes instruction for completing a VQIP application; explains conditions that may result in revocation of participation as well as criteria for reinstatement; and communicates benefits VQIP importers can expect to receive under the program. The guidance also discusses preparation of the ''Quality Assurance Program (QAP),'' a compilation of written policies and procedures used to ensure adequate control over the safety and security of foods being imported. The guidance document was developed and issued consistent with FDA good guidance practice regulations in 21 CFR 10.115, which provides for public comment at any time.

In the **Federal Register** of May 11, 2023 (88 FR 30315), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN [1]

Reporting using FIS VQIP portal/form FDA 4041	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Initial VQIP application	5	1	5	180	900
Application Renewals—subsequent year	6	1	6	20	120
Requests for reinstatement	2	1	2	10	20
Total					1,040

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN [1]

VQIP participant records consistent with implementing guidance	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
Quality Assurance Program (QAP) preparation	5	1	5	160	800
QAP maintenance and updates	6	1	6	16	96
Total					896

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimated burden for the information collection reflects an overall adjustment decrease of 1,844 hours and a corresponding decrease of 18 responses. Since our last request for OMB approval of the information collection, we have adjusted our estimate of the number of respondents based on actual participation in the program. We assume the average burden required for the respective reporting and recordkeeping activities for both initial and continued participation in the program remain constant.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

[FR Doc. 2023–17150 Filed 8–9–23; 8:45 am]

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2022–N–2186]

Request for Nominations on the Tobacco Products Scientific Advisory Committee—Small Business Pool

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is requesting that any small business tobacco manufacturing industry organizations interested in participating in the selection of a nonvoting industry representative to serve on the Tobacco Products Scientific Advisory Committee for the Center for Tobacco Products notify FDA in writing. FDA is also requesting nominations for nonvoting industry representatives to be included in a pool of individuals to represent the interests of the small business tobacco manufacturing industry on the Tobacco Products Scientific Advisory Committee. A nominee may either be

self-nominated or nominated by an organization to serve as a nonvoting industry representative. This position may be filled on a rotating, sequential basis by representatives of different small business tobacco manufacturers based on areas of expertise relevant to the topics being considered by the Advisory Committee. Nominations will be accepted for current vacancies effective with this notice.

DATES: Any small business tobacco manufacturing industry organization interested in participating in the selection of appropriate nonvoting members to represent industry interests must send a letter stating that interest to the FDA by September 11, 2023, (see sections I and II of this document for further details). Concurrently, nomination materials for prospective candidates should be sent to FDA by September 11, 2023.

ADDRESSES: All statements of interest from small business tobacco manufacturing industry organizations interested in participating in the selection process of nonvoting industry representative nominations should be sent to CAPT Serina Hunter-Thomas (see **FOR FURTHER INFORMATION CONTACT**). All nominations for nonvoting industry representatives may be submitted electronically by accessing the FDA Advisory Committee Membership Nomination Portal: *https://www.accessdata.fda.gov/scripts/FACTRSPortal/FACTRS/index.cfm.* Information about becoming a member of an FDA advisory committee can also be obtained by visiting FDA's website *http://www.fda.gov/AdvisoryCommittees/default.htm.*

FOR FURTHER INFORMATION CONTACT: Serina Hunter-Thomas, Office of Science, Center for Tobacco Products, Food and Drug Administration, Center for Tobacco Products Document Control Center, Bldg. 71, Rm. G335, 10903 New Hampshire Ave., Silver Spring, MD 20993–0002, 1–877–287–1373 (choose Option 5), or by email: *TPSAC@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: The Agency intends to add nonvoting industry representative(s) to the following advisory committee:

I. Tobacco Products Scientific Advisory Committee

The Tobacco Products Scientific Advisory Committee (the Committee) advises the Commissioner of FDA (the Commissioner) or designee in discharging responsibilities related to the regulation of tobacco products. The Committee reviews and evaluates safety, dependence, and health issues relating to tobacco products and provides appropriate advice, information, and recommendations to the Commissioner.

The Committee includes three nonvoting members who represent industry interests. These members include one representative representing the interests of the tobacco manufacturing industry, one representative representing the interests of tobacco growers, and one representative representing the interests of the small business tobacco manufacturing industry, which may be filled on a rotating, sequential basis by representatives of different small business tobacco manufacturers based on areas of expertise relevant to the topics being considered by the Advisory Committee.

With this notice, nominations are sought for the following positions: A pool of individuals, with varying areas of expertise, to represent the interests of the small business tobacco manufacturing industry on a rotating, sequential basis.

II. Selection Procedure

Any industry organization interested in participating in the selection of an appropriate nonvoting member to represent industry interests should send a letter stating that interest to the FDA contact (see **FOR FURTHER INFORMATION CONTACT**) within 30 days of publication of this document (see **DATES**). Within the subsequent 30 days, FDA will send a letter to each organization that has expressed an interest, attaching a complete list of all such organizations and a list of all nominees along with their current resumes. The letter will also state that it is the responsibility of the interested organizations to confer with one another and to select a candidate, within 60 days after the receipt of the FDA letter, to serve as the nonvoting member to represent industry interests for the committee. The interested organizations are not bound by the list of nominees in selecting a candidate. However, if no individual is selected within 60 days, the Commissioner will select the nonvoting member to represent industry interests.

III. Application Procedure

Individuals may self-nominate and/or an organization may nominate one or more individuals to serve as a nonvoting industry representative. Contact information, a current curriculum vitae, and the name of the committee of interest should be sent to the FDA Advisory Committee Membership Nomination Portal (see **ADDRESSES**) within 30 days of publication of this document (see **DATES**). FDA will forward all nominations to the organizations expressing interest in participating in the selection process for the committee. (Persons who nominate themselves as nonvoting industry representatives will not participate in the selection process).

FDA seeks to include the views of women, and men, members of all racial and ethnic groups and individuals with and without disabilities on its advisory committees and, therefore encourages nominations of appropriately qualified candidates from these groups.

This notice is issued under the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR part 14, relating to advisory committees.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

White Flint North, 10A–12M, 11601 Landsdown St., North Bethesda, MD 20852, 240–994–7399, *PRAStaff@fda.hhs.gov*.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Radioactive Drug Research Committees

OMB Control Number 0910–0053—Extension

This information collection request supports the implementation of statutory and regulatory requirements and associated Agency forms. Sections 201, 505, and 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 355, and 371) establish provisions under which FDA issues regulations governing the use of radioactive drugs for basic scientific research. Specifically, § 361.1 (21 CFR 361.1) sets forth specific regulations about establishing and composing radioactive drug research committees (RDRCs) and their role in approving and monitoring basic research studies using radiopharmaceuticals, including reporting, recordkeeping, and labeling requirements. No basic research study involving any administration of a radioactive drug to research subjects is permitted without the authorization of an FDA-approved RDRC (§ 361.1(d)(7)). The type of research that may be undertaken with a radiopharmaceutical drug must be intended to obtain basic information and not to carry out a clinical trial for safety or efficacy. The types of basic research permitted are specified in the regulations and include studies of metabolism, human physiology, pathophysiology, or biochemistry.

To assist respondents with the applicable reporting requirements, we developed Form FDA 2914 entitled, ''Report on Research Use of Radioactive Drugs: Membership Summary,'' available at *https://www.fda.gov/media/73820/download;* and Form FDA 2915, entitled, ''Report on Research Use of Radioactive Drugs: Study Summary,'' available at *https://www.fda.gov/media/71805/download*.

We also developed the guidance document entitled, ''Radioactive Drug Research Committee: Human Research Without An Investigational New Drug Application'' (August 2010), available at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/radioactive-drug-research-committee-human-research-without-investigational-new-drug-application,* which provides information to help determine whether research studies may be conducted under an FDA-approved RDRC, or whether research studies must be conducted under an investigational new drug application (IND). It also offers answers to frequently asked questions on conducting research with radioactive drugs, and provides information on the membership, functions, and reporting requirements of an RDRC approved by FDA. All Agency guidance documents are issued consistent with our good guidance practice regulations at 21 CFR 10.115.

Types of research studies not permitted under the regulations are also specified and include those intended for immediate therapeutic, diagnostic, or similar purposes or to determine the safety or effectiveness of the drug in humans for such purposes (*i.e.,* to carry out a clinical trial for safety or efficacy). These studies require filing of an IND under 21 CFR part 312, and the associated information collections, are covered in OMB control number 0910–0014.

The primary purpose of this collection of information is to determine whether the research studies are being conducted in accordance with required regulations and that human subject safety is assured. If these studies were not reviewed, human subjects could be subjected to inappropriate radiation or pharmacologic risks. Respondents to this information collection are the chairperson or chairpersons of each individual RDRC, investigators, and participants in the studies.

In the **Federal Register** of March 16, 2023 (88 FR 16272), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN [1]

21 CFR section; FDA form or activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
§ 361.1(c)(3) reports and (c)(4) approval; Form FDA 2914 (Membership Summary).	56	1	56	1	56
§ 361.1(c)(3) reports; Form FDA 2915 (Study Summary)	37	10	370	3	1,110
§ 361.1(d)(8); adverse events	10	1	10	0.5 (30 mins)	5
Total					1,171

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN [1]

21 CFR section; and activity	Number of recordkeepers	Number of records per recordkeepers	Total annual records	Average burden per recordkeeping	Total Hours
§ 361.1(c)(2); RDRC maintains meeting minutes involving use in human research subjects. § 361.1(d)(5); RDRC obtains consent of human research subjects.	56	10.61	594	4.239	2,518
Total					2,518

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

The burden attributed to recordkeeping activities is assumed to be distributed among the individual elements and averaged among respondents. In the burden estimate, we assume an average burden per record of 10 hours for the RDRC respondents to maintain meeting minutes and 0.75 hours (45 minutes) for a subset of the respondents (37 RDRCs) to obtain consent of human research subjects.

Section 361.1(f) sets forth labeling requirements for radioactive drugs. These requirements are not in the burden estimate because they are information supplied by the Federal Government to the recipient for the purposes of disclosure to the public (5 CFR 1320.3(c)(2)).

Our estimated burden for the information collection reflects an overall decrease of 703 hours and a corresponding decrease of 158 responses. We attribute this adjustment to a decrease in the average burden per response, from 3.5 hours to 3 hours per response, associated with the public reporting burden for Form FDA 2915. The decrease is based on our program experience and matches the burden hours reflected on the form. In addition, this adjustment is also attributable to the Agency receiving fewer submissions over the last few years.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2023–N–0918]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Food Labeling Requirements

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments (including recommendations) on the collection of information by September 11, 2023.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be submitted to *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under Review—Open for Public Comments'' or by using the search function. The OMB control number for this information collection is 0910–0381. Also include the FDA docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Domini Bean, Office of Operations, Food and Drug Administration, Three White Flint North, 10 a.m.–12 p.m., 11601 Landsdown St., North Bethesda, MD 20852, 301–796–5733, *PRAStaff@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Food Labeling Requirements

OMB Control Number 0910–0381—Revision

This information collection supports statutory and regulatory requirements that govern food labeling, and information collection recommendations discussed in associated Agency guidance. Sections 4, 5, and 6 of the Fair Packaging and Labeling Act (FPLA) (15 U.S.C. 1453, 1454, and 1455) and sections 201, 301, 402, 403, 409, 411, 701, and 721 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 321, 331, 342, 343, 348, 350, 371, and 379e), establish provisions under which a food product shall be deemed to be misbranded if, among other things, its label or labeling fails to bear certain required information concerning the food product, is false or misleading in any particular, or bears certain types of unauthorized claims. Implementing regulations are codified in parts 101, 102, 104, and 105 (21 CFR parts 101, 102, 104, and 105). While regulations in part 101 set forth general food labeling provisions, requirements pertaining to the common or usual name for nonstandardized foods; guidelines for nutritional quality to prescribe the minimum level or range of nutrient composition appropriate for a given class of food; and requirements for foods for special dietary use are found in parts 102, 104, and 105, respectively. The requirements are intended to ensure the safety of food products produced or sold in the United States and enable consumers to be knowledgeable about the foods they purchase and include corresponding information disclosure requirements, along with the reporting and recordkeeping provisions, subject to enforcement by FDA.

We provide information resources regarding food labeling under the FD&C Act and its amendments on our website at *https://www.fda.gov/food/food-labeling-nutrition.* Food labeling is required for most prepared foods, such as breads, cereals, canned and frozen foods, snacks, desserts, drinks, etc. Nutrition labeling for raw produce (fruits and vegetables) and fish is voluntary. We refer to these products as ''conventional'' foods. For detailed information on dietary supplement labeling requirements visit our website at *https://www.fda.gov/food/dietary-supplements.* Nutrition labeling provides information for use by consumers in selecting a nutritious diet. Other information enables consumers to comparison shop. Ingredient information also enables consumers to avoid substances to which they may be sensitive. Petitions or other requests submitted to us provide the basis for us to permit new labeling statements or to grant exemptions from certain labeling requirements. Recordkeeping requirements enable us to monitor the basis upon which certain label statements are made for food products and whether those statements are in compliance with the requirements of the FD&C Act or the FPLA. Requirements include general content and format for the labeling of food packaging, including nutrition and ingredient information. Additional regulations provide for specific nutrient content claims.

The information collection includes Form FDA 3570 entitled, ''Small Business Nutrition Labeling Exemption Notice,'' for use as applicable and available for download from our website at *https://www.fda.gov/food/labeling-nutrition-guidance-documents-regulatory-information/small-business-nutrition-labeling-exemption-notice-model-form.* We have also developed the following guidance documents to assist respondents with various aspects of the information collection:

- ''*Guidance for Industry:* Notification of a Health Claim or Nutrient Content Claim Based on an Authoritative Statement of a Scientific Body'' (June 1998). The guidance document is available from our website at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-industry-notification-health-claim-or-nutrient-content-claim-based-authoritative-statement.* The guidance document

discusses section 403(r)(2) and (r)(3) (21 U.S.C. 343(r)(2) and (3)) of the FD&C Act and was issued to provide instruction on the submission of information to FDA during the initial phase of implementing these new provisions.

• ''*Questions and Answers:* Labeling of Dietary Supplements as Required by the Dietary Supplement and Nonprescription Drug Consumer Protection Act'' (September 2009). The guidance document is available from our website at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-industry-questions-and-answers-regarding-labeling-dietary-supplements-required-dietary.* The guidance document communicates content elements and FDA enforcement of labeling requirements in section 403(y) of the FD&C Act.

• ''Substantiation for Dietary Supplement Claims Made Under Section 403(r)(6) of the Federal Food, Drug, and Cosmetic Act'' (January 2009). The guidance document is available from our website at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-industry-substantiation-dietary-supplement-claims-made-under-section-403r-6-federal-food.* The guidance document discusses FDA recommendations regarding claims under section 403(r)(6) of the FD&C Act.

For operational efficiency, we are revising the information collection to account for burden that may result from activities associated with the labeling of certain beers, currently approved in OMB Control No. 0910–0728. The Tobacco Tax and Trade Bureau is responsible for the dissemination and enforcement of regulations with respect to the labeling of distilled spirits, certain wines, and malt beverages issued in the Federal Alcohol Administration Act. However, and as discussed in the guidance document ''Labeling of Certain Beers Subject to the Labeling Jurisdiction of the Food and Drug Administration'' (December 2014), certain bottled or otherwise packaged beers are subject to section 403 of the FD&C Act. The guidance document is available for download from our website at *https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-industry-labeling-certain-beers-subject-labeling-jurisdiction-food-and-drug-administration* and provides recommendations regarding applicable labeling requirements for products under FDA's jurisdiction.

We are also revising the information collection to include new requirements applicable to the gluten-free labeling of fermented or hydrolyzed foods established through rulemaking (RIN 0910–AH00) and approved in OMB Control No. 0910–0817.

Description of Respondents: Respondents to this information collection are manufacturers, packers, and distributors of food products, as well as certain food retailers, such as supermarkets and restaurants, subject to statutory and regulatory food labeling requirements.

In the **Federal Register** of April 12, 2023 (88 FR 22045), we published a 60-day notice soliciting comment on the proposed collection of information. No comments were received.

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN [1]

21 CFR section; activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
101.9(c)(6)(i); dietary fiber	28	1	28	1	28
101.9(j)(18) and 101.36(h)(2); procedure for small business nutrition labeling exemption notice using Form FDA 3570	10,000	1	10,000	8	80,000
101.12(h); petitions to establish or amend referenced amounts customarily consumed (RACC)	1	1	1	80	80
101.69; petitions for nutrient content claims	3	1	3	25	75
101.70; petitions for health claims	5	1	5	80	400
101.108; written proposal for requesting temporary exemptions from certain regulations for the purpose of conducting food labeling experiments	1	1	1	40	40
Total			10,038		80,623

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN[1]

21 CFR section; activity	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
101.9(c)(6)(iii); added sugars [2]	31,283	1	31,283	1	31,283
101.9(c)(6)(i); dietary fiber [2]	31,283	1	31,283	1	31,283
101.9(c)(6)(i)(A) [2]; soluble fiber	31,283	1	31,283	1	31,283
101.9(c)(6)(i)(B); insoluble fiber [2]	31,283	1	31,283	1	31,283
101.9(c)(8); vitamin E [3]	31,283	1	31,283	1	31,283
101.9(c)(8); folate/folic acid [3]	31,283	1	31,283	1	31,283
New Products	216	1	216	1	216
101.12(e); recordkeeping to document the basis for density-adjusted RACC.	25	1	25	1	25
101.13(q)(5); recordkeeping to document the basis for nutrient content claims.	300,000	1.5	450,000	0.75 (45 minutes)	337,500
101.14(d)(2); recordkeeping to document nutrition information related to health claims for food products.	300,000	1.5	450,000	0.75 (45 minutes)	337,500
101.22(i)(4); recordkeeping to document supplier certifications for flavors designated as containing no artificial flavors.	25	1	25	1	25
101.100(d)(2); recordkeeping pertaining to agreements that form the basis for an exemption from the labeling requirements of section 403(c), (e), (g)–(i), (k), and (q) of the FD&C Act.	1,000	1	1,000	1	1,000
101.7(t); recordkeeping pertaining to disclosure requirements for food not accurately labeled for quality of contents.	100	1	100	1	100

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN[1]—Continued

21 CFR section; activity	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
101.91; Documentation necessary to verify compliance with gluten free labeling.	5,000	56	280,000	0.45 (~27 minutes)	126,000
Total	.....	.....	1,369,064	.....	990,064

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimate reflects the cumulative average burden we attribute to the reporting and recordkeeping requirements found in the applicable regulations; individual collection activities may not be evenly distributed among respondents and/or the corresponding requirements.

TABLE 3—ESTIMATED ANNUAL THIRD-PARTY DISCLOSURE BURDEN [1]

21 CFR section; activity	Number of respondents	Number of disclosures per respondent	Total annual disclosures	Average burden per disclosure	Total hours
101.3, 101.22, parts 102 and 104; statement of identity labeling requirements.	25,000	1.03	25,750	0.5 (30 minutes)	12,875
101.4, 101.22, 101.100, parts 102, 104 and 105; ingredient labeling requirements.	25,000	1.03	25,750	1	25,750
101.5; requirement to specify the name and place of business of the manufacturer, packer, or distributor and, if the food producer is not the manufacturer of the food product, its connection with the food product.	25,000	1.03	25,750	0.25 (15 minutes)	6,438
101.9, 101.13(n), 101.14(d)(3), 101.62, and part 104; labeling requirements for disclosure of nutrition information.	25,000	1.03	25,750	4	103,000
101.9(g)(9) and 101.36(f)(2); alternative means of compliance permitted	12	1	12	4	48
101.10; requirements for nutrition labeling of restaurant foods	300,000	1.5	450,000	0.25 (15 minutes)	112,500
101.12(b); RACC for baking powder, baking soda, and pectin	29	2.3	67	1	67
101.12(e); adjustment to the RACC of an aerated food permitted	25	1	25	1	25
101.12(g); requirement to disclose the serving size that is the basis for a claim made for the product if the serving size on which the claim is based differs from the RACC.	5,000	1	5,000	1	5,000
101.13(d)(1) and 101.67; requirements to disclose nutrition information for any food product for which a nutrient content claim is made.	200	1	200	1	200
101.13(j)(2) and (k), 101.54, 101.56, 101.60, 101.61, and 101.62; additional disclosure required if the nutrient content claim compares the level of a nutrient in one food with the level of the same nutrient in another food..	5,000	1	5,000	1	5,000
101.13(q)(5); requirement that restaurants disclose the basis for nutrient content claims made for their food.	300,000	1.5	450,000	0.75 (45 minutes)	337,500
101.14(d)(2); general requirements for disclosure of nutrition information related to health claims for food products.	300,000	1.5	450,000	0.75 (45 minutes)	337,500
101.15; requirements pertaining to prominence of required statements and use of foreign language.	160	10	1,600	8	12,800
101.22(i)(4); supplier certifications for flavors designated as containing no artificial flavors.	25	1	25	1	25
101.30 and 102.33; labeling requirements for fruit or vegetable juice beverages.	1,500	5	7,500	1	7,500
101.36; nutrition labeling of dietary supplements	300	40	12,000	4.025	48,300
101.42 and 101.45; nutrition labeling of raw fruits, vegetables, and fish ..	1,000	1	1,000	0.5 (30 minutes)	500
101.45(c); databases of nutrient values for raw fruits, vegetables, and fish.	5	4	20	4	80
101.79(c)(2)(i)(D); disclosure requirements for food labels that contain a folate/neural tube defect health claim.	1,000	1	1,000	0.25 (15 minutes)	250
101.79(c)(2)(iv); disclosure of amount of folate for food labels that contain a folate/neural tube defect health claim.	100	1	100	0.25 (15 minutes)	25
101.100(d); disclosure of agreements that form the basis for exemption from the labeling requirements of section 403(c), (e), (g), (h), (i), (k), and (q) of the FD&C Act.	1,000	1	1,000	1	1,000
101.7 and 101.100(h); disclosure requirements for food not accurately labeled for quantity of contents and for claiming certain labeling exemptions.	25,000	1.03	25,750	0.5 (30 minutes)	12,875
Nutritional labeling for new products	500	1	500	2	1,000
''Labeling of Certain Beers Subject to the Labeling Jurisdiction of the Food and Drug Administration''.	12	1	12	1	12
Total	.....	.....	.....	.....	1,030,270

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

These estimates reflect our continued experience with the information collection. We have made nominal adjustments to reflect the addition of burden associated with gluten and certain bottled or otherwise packaged beer; petition submissions received since our last evaluation of the information collection; and informal communications with industry regarding food product labeling.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2023–N–2986]

Agency Information Collection Activities; Proposed Collection; Comment Request; Color Additive Certification

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA, the Agency, or we) is announcing an opportunity for public comment on the proposed collection of certain information by the Agency. Under the Paperwork Reduction Act of 1995 (PRA), Federal Agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on the information collection provisions of FDA's regulations governing batch certification of color additives manufactured for use in foods, drugs, cosmetics, or medical devices in the United States.

DATES: Either electronic or written comments on the collection of information must be submitted by October 10, 2023.

ADDRESSES: You may submit comments as follows. Please note that late, untimely filed comments will not be considered. The *https://www.regulations.gov* electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of October 10, 2023. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are received on or before that date.

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2023–N–2986 for ''Agency Information Collection Activities; Proposed Collection; Comment Request; Color Additive Certification.'' Received comments, those filed in a timely manner (see **ADDRESSES**), will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

FOR FURTHER INFORMATION CONTACT: Rachel Showalter, Office of Operations, Food and Drug Administration, Three White Flint North, 10A–12M, 11601 Landsdown St., North Bethesda, MD 20852, 240–994–7399, *PRAStaff@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical

utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Color Additive Certification—21 CFR Part 80

OMB Control Number 0910–0216—Extension

This information collection helps support FDA regulations governing certification for color additives used in foods, drugs, cosmetics, and medical devices. All color additives must have FDA-approval for their intended use and be listed in the color additive regulations before they are permitted for use in food, drugs, cosmetics, and many medical devices. Some color additives have an additional requirement: they are permitted only if they are from batches that FDA has certified under section 721(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 379e(a)). This means that FDA chemists have analyzed a sample from the batch and have found that it meets the requirements for composition and purity stated in the regulation, called a ''listing regulation,'' for that color additive. We list color additives that have been shown to be safe for their intended uses in Title 21 of the Code of Federal Regulations (CFR). We require batch certification for all color additives listed in 21 CFR part 74 and for all color additives provisionally listed in 21 CFR part 82. Color additives listed in 21 CFR part 73 are exempted from certification.

The requirements for color additive certification are established in part 80 (21 CFR part 80). Procedures for color additive certification are set forth in part 80, subpart B (§§ 80.21 through 80.39) and communicate required data elements for requests for certification, limitations of certificates, exemptions from certification for color additive mixtures, treatment of batches pending and after certification, and recordkeeping requirements for respondents to whom a certificate is issued. During the batch certification procedure, a manufacturer of color additives must submit a ''request for certification'' that provides information about the batch, accompanied by a representative sample of a new batch of color additive, to us. FDA personnel perform chemical and other analyses of the representative sample and, providing the sample satisfies all certification requirements, issue a certificate that contains a certification lot number for the batch. The batch can then be used in FDA-regulated products marketed in the United States, in compliance with the uses and restrictions in that color additive's listing regulation. If the sample does not meet the requirements, the batch will be rejected. We require manufacturers to keep complete records showing disposal of all of the color additive covered by the certification.

FDA's web-based color certification information system is available for respondents to request color certification online, track their submissions, and obtain account status information. Prior to submitting a request for certification, the manufacturer must open a color certification account by sending a letter, as an email attachment, signed by responsible company representative, to FDA's Office of Cosmetics and Colors at *color.cert@fda.hhs.gov.* System certification results are returned electronically, allowing submitters to sell their certified color before receiving hard copy certificates.

We charge a fee for certification based on the batch weight and require manufacturers to keep records of the batch pending and after certification. The user fees support FDA's color certification program. Additional information about color additive certification is available at: *https://www.fda.gov/industry/color-additives/color-certification.*

The purpose for collecting this information is to help the Agency assure that only safe color additives will be used in foods, drugs, cosmetics, and medical devices sold in the United States.

Description of Respondents: The respondents include businesses engaged in the manufacture of color additives used in FDA-regulated foods, drugs, cosmetics, and medical devices. Respondents are from the private sector (for-profit businesses).

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN [1]

21 CFR Section; activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
80.21 and 80.22; Request for certification accompanied by sample.	67	112	7,504	0.22 (13 minutes)	1,651

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN [1]

21 CFR Section; activity	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
80.39; Record of distribution	67	112	7,504	0.25 (15 minutes)	1,876

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

We base our estimate on our review of the certification requests received over the past 3 years. Using information from industry personnel, we estimate that an average of 0.22 hour per response is required for reporting (preparing certification requests and accompanying samples) and an average of 0.25 hour per response is required for recordkeeping.

Based on a review of the information collection since our last request for OMB approval, we have slightly decreased our burden estimate based on our experience with this program. As a result, although the number of respondents increased, the number of responses per respondent decreased.

Dated: August 7, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Advisory Committee on Seniors and Disasters and National Advisory Committee on Individuals With Disabilities and Disasters Joint Public Meeting

AGENCY: Administration for Strategic Preparedness and Response (ASPR), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The National Advisory Committee on Seniors and Disasters (NACSD) and the National Advisory Committee on Individuals with Disabilities and Disasters (NACIDD) will hold a joint public meeting using an online format on Tuesday, September 19, 2023 (1:00 p.m. to 3:00 p.m. ET). Notice of the meeting is required under section 10 (a) (2) of the Federal Advisory Committee Act (FACA). The NACSD and NACIDD provide expert advice and guidance to the U.S. Department of Health and Human Services (HHS) regarding the specific needs of older adults and people with disabilities, respectively, related to disaster preparedness and response. The Administration for Strategic Preparedness and Response (ASPR) manages and convenes the NACSD and the NACIDD on behalf of the Secretary of HHS.

FOR FURTHER INFORMATION CONTACT: Dr. Maxine Kellman, NACSD and NACIDD Designated Federal Official, (202) 260–0447; *NACSD@hhs.gov* and *NACIDD@hhs.gov.*

SUPPLEMENTARY INFORMATION:

Procedures for Public Participation: The public and expert stakeholders are invited to observe the meeting. Registration for the Zoom meeting is required. The meeting link to register will be posted on the NACSD and NACIDD websites. Anyone may submit questions and comments to the NACSD and the NACIDD by email (*NACSD@hhs.gov* and *NACIDD@hhs.gov*) at least 15 days prior to the meeting. American Sign Language translation and Communication Access Real-Time Translation will be provided. A meeting summary will be available on the NACSD and NACSD websites post meeting.

Dawn O'Connell,

Assistant Secretary for Preparedness and Response.

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Closed Meetings

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel; Integrating Health Disparities into Immuno-Oncology (HDIO).

Date: September 27, 2023.

Time: 10:00 a.m. to 4:30 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute at Shady Grove, 9609 Medical Center Drive, Room 7W248, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Shree Ram Singh, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W248, Rockville, Maryland 20850, 240–672–6175, *singhshr@mail.nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP–1: NCI Clinical and Translational Cancer Research.

Date: September 28, 2023.

Time: 10:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W108, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Clifford W. Schweinfest, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W108, Rockville, Maryland 20850, 240–276–6343, *schweinfestcw@mail.nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; NCI Pancreatic Cancer Detection Consortium U01.

Date: October 17, 2023.

Time: 12:30 p.m. to 6:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W618, Rockville, Maryland 20850 (Telephone Conference Call).

Contact Person: E. Tian, Ph.D., Scientific Review Officer, Research Program Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W618, Rockville, Maryland 20850, 240–276–6611, *tiane@mail.nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; NCI Research Specialist Award (R50) Clinical.

Date: October 19, 2023.

Time: 10:00 a.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W242, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Zhiqiang Zou, M.D., Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W242, Rockville, Maryland 20850, 240–276–6372, *zouzhiq@mail.nih.gov,*

Name of Committee: National Cancer Institute Special Emphasis Panel; Primary Care Needs of Cancer Survivors (U01).

Date: October 19, 2023.

Time: 10:00 a.m. to 6:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W108, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Clifford W. Schweinfest, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W108, Rockville, Maryland 20850, 240–276–6343, *schweinfestcw@mail.nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP–7: NCI Clinical and Translational Cancer Research.

Date: October 19, 2023.

Time: 11:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute at Shady Grove, 9609 Medical Center Drive, Room 7W640, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Saejeong J. Kim, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W640, Rockville, Maryland 20850, 240–276–7684, *saejeong.kim@nih.gov,*

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP–10: NCI Clinical and Translational Cancer Research.

Date: October 24, 2023.

Time: 10:00 a.m. to 7:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W606, Rockville, Maryland 20850 (Telephone Conference Call).

Contact Person: Bruce Daniel Hissong, Ph.D., Scientific Review Officer, Resource and Training Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W606, Rockville, Maryland 20850, 240–276–7752, *bruce.hissong@nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; Assay Validation of Biomarkers (UH2/UH3).

Date: October 26, 2023.

Time: 1:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W120, Rockville, Maryland 20850 (Telephone Conference Call).

Contact Person: Majed M. Hamawy, Ph.D., Scientific Review Officer, Research Programs Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W120, Rockville, Maryland 20850. 240–276–6457, *mh101v@nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP–2: NCI Clinical and Translational Cancer Research.

Date: November 2, 2023.

Time: 10:30 a.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W242, Rockville, Maryland 20850 (Virtual Meeting).

Contact Person: Zhiqiang Zou, M.D., Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W242, Rockville, Maryland 20850, 240–276–6372, *zouzhiq@mail.nih.gov.*

Name of Committee: National Cancer Institute Special Emphasis Panel; Metastasis Research Network (U01).

Date: November 16, 2023.

Time: 11:00 a.m. to 3:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W624, Rockville, Maryland 20850 (Telephone Conference Call)

Contact Person: Tushar Deb, Ph.D., Scientific Review Officer, Resources and Training Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W624, Rockville, Maryland 20850, 240–276–6132, *tushar.deb@nih.gov.*

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institutes of Health (NIH) Office of Science Policy (OSP): Proposed Changes to the NIH Guidelines for Research Involving Recombinant or Synthetic Nucleic Acid Molecules (NIH Guidelines)

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: The National Institutes of Health (NIH) seeks input on a proposal to revise the NIH Guidelines for Research Involving Recombinant or Synthetic Nucleic Acid Molecules (NIH Guidelines) to include specific considerations and requirements for conducting research involving gene drive modified organisms (GDMO) in contained research settings. NIH is proposing to update the NIH Guidelines to clarify minimum containment requirements, propose considerations for performing risk assessments, and define additional institutional responsibilities regarding Institutional Biosafety Committees (IBCs) and Biosafety Officers (BSOs). The proposed revisions are specific to GDMO research subject to the NIH Guidelines, conducted in contained settings and are consistent with the recommendations of

the NIH Novel and Exceptional Technology Research Advisory Committee report, Gene Drives in Biomedical Research (NExTRAC Report). NIH does not currently support research involving potential field release of GDMOs and the NIH Guidelines pertain to contained research; accordingly, no changes regarding potential field release are being proposed in this Notice. NIH is also proposing revisions to the NIH Guidelines to harmonize with the Biosafety in Microbiological and Biomedical Laboratories (BMBL), 6th edition regarding the Risk Group (RG) categorization of West Nile Virus (WNV) and Saint Louis Encephalitis Virus (SLEV).

DATES: To ensure consideration, comments must be submitted in writing by October 10, 2023.

ADDRESSES: Comments may be submitted electronically to *https://osp.od.nih.gov/proposed-amendments-to-the-nih-guidelines-for-research-involving-recombinant-or-synthetic-nucleic-acid-molecules-nih-guidelines/.* Comments are voluntary and may be submitted anonymously. You may also voluntarily include your name and contact information with your response. Other than your name and contact information, please do not include in the response any personally identifiable information or any information that you do not wish to make public. Proprietary, classified, confidential, or sensitive information should not be included in your response. After the Office of Science Policy (OSP) has finished reviewing the responses, the responses may be posted to the OSP website without redaction.

FOR FURTHER INFORMATION CONTACT: Caroline Young, ScM, Acting Director of the Division of Biosafety, Biosecurity, and Emerging Biotechnology Policy, Office of Science Policy, at (301) 496–9838 or *SciencePolicy@od.nih.gov.*

SUPPLEMENTARY INFORMATION: The NIH currently supports basic gene drive research in contained laboratory settings as the technology holds great promise for advancing public health, particularly through the potential to reduce transmission of vector-borne human diseases such as malaria, dengue, or Zika. Under certain conditions, gene drive technology enables researchers to promote the spread of certain genetic traits that has the potential to mitigate disease by driving traits through a specific species population at a faster rate with fewer reproductive cycles.

Gene drive technology presents opportunities for many life sciences applications with potential benefits to public health, agriculture, and the environment but also raise biosafety, ethical, and social concerns. To help consider issues associated with conducting research involving GDMOs safely and responsibly, the NIH charged an advisory committee to the NIH Director, the Novel and Exceptional Technology and Research Advisory Committee (NExTRAC), to consider whether existing biosafety guidance is adequate for contained laboratory research utilizing GDMOs. The NExTRAC made multiple recommendations for strengthening NIH's existing policies and guidance, which were shared for public input and ultimately accepted by the NIH Director. These proposed changes only address the NExTRAC's recommendations pertaining to contained research. NIH does not currently support research involving potential field release of GDMOs and the NIH Guidelines pertain to contained research; as such, no changes are being proposed in this notice regarding field release research of GDMOs.

NIH is seeking input on its proposal to amend the NIH Guidelines to ensure the continued responsible research involving GDMOs in contained research settings. Specifically, NIH proposes to:

(1) clarify minimum containment requirements for research involving GDMOs;

(2) propose considerations for risk assessment;

(3) define additional institutional responsibilities for Institutional Biosafety Committees (IBCs) and Biosafety Officers (BSOs).

In addition to the amendments proposed related to contained research involving GDMOs, the NIH is seeking input on its proposal to:

1. replace the term ''helper viruses'' with the broader term ''helper systems''; and

2. reclassify WNV and SLEV as risk group 2 agents for consistency with containment guidance provided in the Biosafety in Microbiological and Biomedical Laboratories (BMBL), 6th edition.

Current Language and Proposed Amendments to the NIH Guidelines

A definition for gene drive is proposed to be added to Section I–E, specifically:

Section I–E. General Definitions

Section I–E–7. ''Gene drive'' is defined as a technology whereby a particular heritable element biases inheritance in its favor, resulting in the heritable element becoming more prevalent than predicted by Mendelian laws of inheritance in a population over successive generations.

Section II–A–3, which provides guidance for conducting a comprehensive risk assessment, has been updated in the past to provide additional guidance regarding issues that should be considered for research involving emerging technologies (*e.g.,* guidance for research with organisms involving synthetic nucleic acids when the parent organism is not obvious). Robust risk assessment for research with GDMOs may present challenges due to different or increased risks associated with the potential to persist and spread in the environment. To address some of these challenges, Section II–A–3 is proposed to be amended to include considerations for risk assessment.

Section II–A–3 currently states:

Section II–A–3. Comprehensive Risk Assessment

In deciding on the appropriate containment for an experiment, the first step is to assess the risk of the agent itself. Appendix B, Classification of Human Etiologic Agents on the Basis of Hazard, classifies agents into Risk Groups based on an assessment of their ability to cause disease in humans and the available treatments for such disease. Once the Risk Group of the agent is identified, this should be followed by a thorough consideration of how the agent is to be manipulated. Factors to be considered in determining the level of containment include agent factors such as: virulence, pathogenicity, infectious dose, environmental stability, route of spread, communicability, operations, quantity, availability of vaccine or treatment, and gene product effects such as toxicity, physiological activity, and allergenicity. Any strain that is known to be more hazardous than the parent (wild-type) strain should be considered for handling at a higher containment level. Certain attenuated strains or strains that have been demonstrated to have irreversibly lost known virulence factors may qualify for a reduction of the containment level compared to the Risk Group assigned to the parent strain (see Section V–B, Footnotes and References of Sections I–IV).

While the starting point for the risk assessment is based on the identification of the Risk Group of the parent agent, as technology moves forward, it may be possible to develop an organism containing genetic sequences from multiple sources such that the parent agent may not be obvious. In such cases, the risk assessment should include at least two levels of analysis. The first involves a

consideration of the Risk Groups of the source(s) of the sequences and the second involves an assessment of the functions that may be encoded by these sequences (*e.g.,* virulence or transmissibility). It may be prudent to first consider the highest Risk Group classification of all agents that are the source of sequences included in the construct. Other factors to be considered include the percentage of the genome contributed by each parent agent and the predicted function or intended purpose of each contributing sequence. The initial assumption should be that all sequences will function as they did in the original host context.

The Principal Investigator and Institutional Biosafety Committee must also be cognizant that the combination of certain sequences in a new biological context may result in an organism whose risk profile could be higher than that of the contributing organisms or sequences. The synergistic function of these sequences may be one of the key attributes to consider in deciding whether a higher containment level is warranted, at least until further assessments can be carried out. A new biosafety risk may occur with an organism formed through combination of sequences from a number of organisms or due to the synergistic effect of combining transgenes that results in a new phenotype.

A final assessment of risk based on these considerations is then used to set the appropriate containment conditions for the experiment (see Section II–B, Containment). The appropriate containment level may be equivalent to the Risk Group classification of the agent, or it may be raised or lowered as a result of the above considerations. The Institutional Biosafety Committee must approve the risk assessment and the biosafety containment level for recombinant or synthetic nucleic acid experiments described in Sections III–A, Experiments that Require NIH Director Approval and Institutional Biosafety Committee Approval, Before Initiation; III–B, Experiments that Require NIH OSP and Institutional Biosafety Committee Approval Before Initiation; III–C, Experiments Involving Human Gene Transfer that Require Institutional Biosafety Committee Approval Prior to Initiation; III–D, Experiments that Require Institutional Biosafety Committee Approval Before Initiation.

Careful consideration should be given to the types of manipulation planned for some higher Risk Group agents. For example, the RG2 dengue viruses may be cultured under the Biosafety Level (BL) 2 containment (see Section II–B); however, when such agents are used for animal inoculation or transmission studies, a higher containment level is recommended. Similarly, RG3 agents such as Venezuelan equine encephalomyelitis and yellow fever viruses should be handled at a higher containment level for animal inoculation and transmission experiments.

Individuals working with human immunodeficiency virus (HIV), hepatitis B virus (HBV) or other bloodborne pathogens should consult the applicable Occupational Safety and Health Administration (OSHA) (*https://www.osha.gov/*) (regulation, 29 CFR 1910.1030, and OSHA publication 3127 (1996 revised). BL2 containment is recommended for activities involving all blood-contaminated clinical specimens, body fluids, and tissues from all humans, or from HIV- or HBV-infected or inoculated laboratory animals. Activities such as the production of research-laboratory scale quantities of HIV or other bloodborne pathogens, manipulating concentrated virus preparations, or conducting procedures that may produce droplets or aerosols, are performed in a BL2 facility using the additional practices and containment equipment recommended for BL3. Activities involving industrial scale volumes or preparations of concentrated HIV are conducted in a BL3 facility, or BL3 Large Scale if appropriate, using BL3 practices and containment equipment.

Exotic plant pathogens and animal pathogens of domestic livestock and poultry are restricted and may require special laboratory design, operation and containment features not addressed in Biosafety in Microbiological and Biomedical Laboratories (see Section V–C, Footnotes and References of Sections I through IV). For information regarding the importation, possession, or use of these agents see Sections V–G and V–H, Footnotes and References of Sections I through IV.

Risk mitigation strategies employed in contained settings are not likely to differ for GDMOs compared to other gene modified organisms in the laboratory. However, given the relative newness of GDMO technology and its use in biomedical research, any risk assessment is likely to have greater uncertainty regarding potential risks. Section II–A–3 is proposed to be amended to provide additional guidance for conducting these assessments by insertion of new paragraphs five and six:

Section II–A–3 is proposed to be amended to:

In deciding on the appropriate containment for an experiment, the first step is to assess the risk of the agent itself. Appendix B, Classification of Human Etiologic Agents on the Basis of Hazard, classifies agents into Risk Groups based on an assessment of their ability to cause disease in humans and the available treatments for such disease. Once the Risk Group of the agent is identified, this should be followed by a thorough consideration of how the agent is to be manipulated. Factors to be considered in determining the level of containment include agent factors such as: virulence, pathogenicity, infectious dose, environmental stability, route of spread, communicability, operations, quantity, availability of vaccine or treatment, and gene product effects such as toxicity, physiological activity, and allergenicity. Any strain that is known to be more hazardous than the parent (wild-type) strain should be considered for handling at a higher containment level. Certain attenuated strains or strains that have been demonstrated to have irreversibly lost known virulence factors may qualify for a reduction of the containment level compared to the Risk Group assigned to the parent strain (see Section V–B, Footnotes and References of Sections I–IV).

While the starting point for the risk assessment is based on the identification of the Risk Group of the parent agent, as technology moves forward, it may be possible to develop an organism containing genetic sequences from multiple sources such that the parent agent may not be obvious. In such cases, the risk assessment should include at least two levels of analysis. The first involves a consideration of the Risk Groups of the source(s) of the sequences and the second involves an assessment of the functions that may be encoded by these sequences (*e.g.,* virulence or transmissibility). It may be prudent to first consider the highest Risk Group classification of all agents that are the source of sequences included in the construct. Other factors to be considered include the percentage of the genome contributed by each parent agent and the predicted function or intended purpose of each contributing sequence. The initial assumption should be that all sequences will function as they did in the original host context.

The Principal Investigator and Institutional Biosafety Committee must also be cognizant that the combination of certain sequences in a new biological context may result in an organism whose risk profile could be higher than that of the contributing organisms or sequences. The synergistic function of these sequences may be one of the key

attributes to consider in deciding whether a higher containment level is warranted, at least until further assessments can be carried out. A new biosafety risk may occur with an organism formed through combination of sequences from a number of organisms or due to the synergistic effect of combining transgenes that results in a new phenotype.

A final assessment of risk based on these considerations is then used to set the appropriate containment conditions for the experiment (see Section II–B, Containment). The appropriate containment level may be equivalent to the Risk Group classification of the agent or it may be raised or lowered as a result of the above considerations. The Institutional Biosafety Committee must approve the risk assessment and the biosafety containment level for recombinant or synthetic nucleic acid experiments described in Sections III–A, Experiments that Require NIH Director Approval and Institutional Biosafety Committee Approval, Before Initiation; III–B, Experiments that Require NIH OSP and Institutional Biosafety Committee Approval Before Initiation; III–C, Experiments Involving Human Gene Transfer that Require Institutional Biosafety Committee Approval Prior to Initiation; III–D, Experiments that Require Institutional Biosafety Committee Approval Before Initiation.

Research involving gene drive modified organisms may require risk assessments that incorporate a broader scope of considerations because of greater uncertainty of the technology and potential uncertainty of the impact of the newly modified organism. Specific attention must be paid to risks of an unintended release from the laboratory and the potential impact on humans, other populations of organisms, and the environment.

Considerations for conducting risk assessments for research involving gene drive modified organisms might include:

1. The specific types of manipulations based on:

a. Function or intended function of the genetic/gene drive construct (*i.e.,* a designed or engineered assembly of sequences);

b. Source of the genetic material (*e.g.,* sequences of transgenes) in the construct;

c. The modifications to the construct;

d. Whether it is possible to predict the consequences of a construct, including the recognition of an unintended gene drive (*i.e.,* construct not specifically designed as a gene drive but nonetheless having properties of a gene drive) and the possible consequences of escape into the environment;

e. The potential ability of the gene drive to spread or persist in local populations;

2. Options for approaches to risk mitigation for specific types of risks in experiments or when dealing with a high degree of uncertainty about risks;

3. Considerations for implementing more stringent containment measures until biosafety data are accrued to support lowering containment.

Careful consideration should be given to the types of manipulation planned for some higher Risk Group agents. For example, the RG2 dengue viruses may be cultured under the Biosafety Level (BL) 2 containment (see Section II–B); however, when such agents are used for animal inoculation or transmission studies, a higher containment level is recommended. Similarly, RG3 agents such as Venezuelan equine encephalomyelitis and yellow fever viruses should be handled at a higher containment level for animal inoculation and transmission experiments.

Individuals working with human immunodeficiency virus (HIV), hepatitis B virus (HBV) or other bloodborne pathogens should consult the applicable Occupational Safety and Health Administration (OSHA) regulation, 29 CFR 1910.1030, and OSHA publication 3127 (1996 revised). BL2 containment is recommended for activities involving all blood-contaminated clinical specimens, body fluids, and tissues from all humans, or from HIV- or HBV-infected or inoculated laboratory animals. Activities such as the production of research-laboratory scale quantities of HIV or other bloodborne pathogens, manipulating concentrated virus preparations, or conducting procedures that may produce droplets or aerosols, are performed in a BL2 facility using the additional practices and containment equipment recommended for BL3. Activities involving industrial scale volumes or preparations of concentrated HIV are conducted in a BL3 facility, or BL3 Large Scale if appropriate, using BL3 practices and containment equipment.

Exotic plant pathogens and animal pathogens of domestic livestock and poultry are restricted and may require special laboratory design, operation and containment features not addressed in Biosafety in Microbiological and Biomedical Laboratories (see Section V–C, Footnotes and References of Sections I through IV). For information regarding the importation, possession, or use of these agents see Sections V–G and V–H, Footnotes and References of Sections I through IV.

In 2012 when the NIH Guidelines were updated to expand the scope to cover synthetic nucleic acid molecules, Section III–C and Section III–F–1 were amended to exempt research with certain oligonucleotides based on the lower risk posed by their transient nature. These sections also outlined criteria for higher risk nucleic acids that would not be exempt (*e.g.,* nucleic acids that replicated, were transcribed, translated, or integrated etc.). At that time, much research with oligonucleotides was likely to involve a delivery method using a recombinant nucleic acid molecule (*e.g.,* viral vector or plasmid), and thus would still be subject to the NIH Guidelines. Since then, gene editing using CRISPR/Cas systems and non-recombinant delivery methods (*e.g.,* lipid nanoparticles) has come into more common use. Currently, transgenic organisms with the same genetic modification may or may not be subject to the NIH Guidelines depending on the method of generation (*e.g.,* recombinant viral vector delivery and expression of Cas9 and guide RNAs vs. lipid nanoparticle delivery of protein Cas9 and guide RNAs). Because of the higher risks associated with stable genetic modifications to viruses, cells, or organisms, Sections III–C and III–F–1 each have a criterion that precludes the exemption of nucleic acids that integrate, the main method to introduce such changes in 2012. To avoid exempting certain gene editing approaches or GDMOs, the language in Sections III–C and III–F–1 is proposed to be amended to replace the criterion involving integration with a broader criterion covering the introduction of a stable genetic modification.

Section III–C–1 currently states in part:

Section III–C–1. Experiments Involving the Deliberate Transfer of Recombinant or Synthetic Nucleic Acid Molecules, or DNA or RNA Derived From Recombinant or Synthetic Nucleic Acid Molecules, Into One or More Human Research Participants

Human gene transfer is the deliberate transfer into human research participants of either:

1. Recombinant nucleic acid molecules, or DNA or RNA derived from recombinant nucleic acid molecules, or

2. Synthetic nucleic acid molecules, or DNA or RNA derived from synthetic nucleic acid molecules, that meet any one of the following criteria:

a. Contain more than 100 nucleotides; or

b. Possess biological properties that enable integration into the genome (*e.g., cis* elements involved in integration); or

c. Have the potential to replicate in a cell; or

d. Can be translated or transcribed.

This portion of Section III–C–1 1 is proposed to be amended to:

Section III–C–1. Experiments Involving the Deliberate Transfer of Recombinant or Synthetic Nucleic Acid Molecules, or DNA or RNA Derived From Recombinant or Synthetic Nucleic Acid Molecules, Into One or More Human Research Participants

Human gene transfer is the deliberate transfer into human research participants of either:

1. Recombinant nucleic acid molecules, or DNA or RNA derived from recombinant nucleic acid molecules, or

2. Synthetic nucleic acid molecules, or DNA or RNA derived from synthetic nucleic acid molecules, that meet any one of the following criteria:

a. Contain more than 100 nucleotides; or

b. Possess biological properties that enable introduction of stable genetic modifications into the genome (*e.g.,* cis elements involved in integration, gene editing); or

c. Have the potential to replicate in a cell; or

d. Can be translated or transcribed.

Section III–F–1 currently states:

Section III–F–1. Those synthetic nucleic acids that: (1) can neither replicate nor generate nucleic acids that can replicate in any living cell (*e.g.,* oligonucleotides or other synthetic nucleic acids that do not contain an origin of replication or contain elements known to interact with either DNA or RNA polymerase), and (2) are not designed to integrate into DNA, and (3) do not produce a toxin that is lethal for vertebrates at an LD50 of less than 100 nanograms per kilogram body weight. If a synthetic nucleic acid is deliberately transferred into one or more human research participants and meets the criteria of Section III–C, it is not exempt under this Section.

Section III–F–1 is proposed to be amended to:

Section III–F–1. Those synthetic nucleic acids that: (1) can neither replicate nor generate nucleic acids that can replicate in any living cell (*e.g.,* oligonucleotides or other synthetic nucleic acids that do not contain an origin of replication or contain elements known to interact with either DNA or RNA polymerase), and (2) are not designed to introduce a stable genetic modification, and (3) do not produce a toxin that is lethal for vertebrates at an LD50 of less than 100 nanograms per kilogram body weight. If a synthetic nucleic acid is deliberately transferred into one or more human research participants and meets the criteria of Section III–C, it is not exempt under this Section.

To provide guidance on physical containment for research involving GDMOs, Section III–D is proposed to be amended in multiple subsections to require that experiments involving GDMOs be conducted at a minimum of BL2 containment to provide the appropriate laboratory practices, containment equipment, and special laboratory design to protect laboratory workers, the public, and local ecosystems. A section specific to experiments involving GDMOs is proposed to be added as Section III–D–8. Sections III–D–4, III–D–5, and III–E–3, which cover experiments with whole animals, plants, and transgenic rodents, are also proposed to be amended to reference Section III–D–8.

Section III–D–4, which is part of Section III–D, Experiments that Require Institutional Biosafety Committee Approval Before Initiation, currently states:

Section III–D–4. Experiments Involving Whole Animals

This section covers experiments involving whole animals in which the animal's genome has been altered by stable introduction of recombinant or synthetic nucleic acid molecules, or nucleic acids derived therefrom, into the germ-line (transgenic animals) and experiments involving viable recombinant or synthetic nucleic acid molecule-modified microorganisms tested on whole animals. For the latter, other than viruses which are only vertically transmitted, the experiments may *not* be conducted at BL1–N containment. A minimum containment of BL2 or BL2–N is required.

Caution—Special care should be used in the evaluation of containment conditions for some experiments with transgenic animals. For example, such experiments might lead to the creation of novel mechanisms or increased transmission of a recombinant pathogen or production of undesirable traits in the host animal. In such cases, serious consideration should be given to increasing the containment conditions.

Section III–D–4–a. Recombinant or synthetic nucleic acid molecules, or DNA or RNA molecules derived therefrom, from any source except for greater than two-thirds of eukaryotic viral genome may be transferred to any non-human vertebrate or any invertebrate organism and propagated under conditions of physical containment comparable to BL1 or BL1–N and appropriate to the organism under study (see Section V–B, Footnotes and References of Sections I–IV). Animals that contain sequences from viral vectors, which do not lead to transmissible infection either directly or indirectly as a result of complementation or recombination in animals, may be propagated under conditions of physical containment comparable to BL1 or BL1–N and appropriate to the organism under study. Experiments involving the introduction of other sequences from eukaryotic viral genomes into animals are covered under Section III–D–4–b, Experiments Involving Whole Animals. For experiments involving recombinant or synthetic nucleic acid molecule-modified Risk Groups 2, 3, 4, or restricted organisms, see Sections V–A, V–G, and V–L, Footnotes and References of Sections I–IV. It is important that the investigator demonstrate that the fraction of the viral genome being utilized does not lead to productive infection. A U.S. Department of Agriculture permit is required for work with plant or animal pathogens (see Section V–G, Footnotes and References of Sections I–IV).

Section III–D–4–b. For experiments involving recombinant or synthetic nucleic acid molecules, or DNA or RNA derived therefrom, involving whole animals, including transgenic animals, and not covered by Section III–D–1, Experiments Using Human or Animal Pathogens (Risk Group 2, Risk Group 3, Risk Group 4, or Restricted Agents as Host-Vector Systems), or Section III–D–4–a, the appropriate containment shall be determined by the Institutional Biosafety Committee.

Section III–D–4–c. Exceptions under Section III–D–4, Experiments Involving Whole Animals

Section III–D–4–c–(1). Experiments involving the generation of transgenic rodents that require BL1 containment are described under Section III–E–3, Experiments Involving Transgenic Rodents.

Section III–D–4–c–(2). The purchase or transfer of transgenic rodents is exempt from the NIH Guidelines under Section III–F, Exempt Experiments (see Appendix C–VII, The Purchase or Transfer of Transgenic Rodents).

Section III–D–4 is proposed to be amended to state:

Section III–D–4. Experiments Involving Whole Animals

This section covers experiments involving deliberate transfer of recombinant or synthetic nucleic acid

molecules, DNA or RNA derived from recombinant or synthetic nucleic acid molecules, or recombinant or synthetic nucleic acid molecule-modified microorganisms into whole animals and experiments involving whole animals in which the animal's genome has been altered by recombinant or synthetic nucleic acid molecules, or nucleic acids derived therefrom, into the germ-line (transgenic animals). Experiments involving gene drive modified animals or experiments involving viable recombinant or synthetic nucleic acid molecule-modified microorganisms, except for viruses that are only vertically transmitted, may *not* be conducted at BL1–N containment. A minimum containment of BL2 or BL2–N is required (see Section III–D–8).

Caution—Special care should be used in the evaluation of containment conditions for some experiments with transgenic animals. For example, such experiments might lead to the creation of novel mechanisms (*e.g.,* a gene drive; refer to Section III–D–8) or increased transmission of a recombinant pathogen or production of undesirable traits in the host animal. In such cases, serious consideration should be given to increasing the containment conditions.

Section III–D–4–a. Recombinant or synthetic nucleic acid molecules, or DNA or RNA molecules derived therefrom, from any source except for greater than two-thirds of eukaryotic viral genome may be transferred to any non-human vertebrate or any invertebrate organism and propagated under conditions of physical containment comparable to BL1 or BL1–N and appropriate to the organism under study (see Section V–B, Footnotes and References of Sections I–IV). Animals that contain sequences from viral vectors, which do not lead to transmissible infection either directly or indirectly as a result of complementation or recombination in animals, may be propagated under conditions of physical containment comparable to BL1 or BL1–N and appropriate to the organism under study. Experiments involving the introduction of other sequences from eukaryotic viral genomes into animals are covered under Section III–D–4–b, Experiments Involving Whole Animals. For experiments involving recombinant or synthetic nucleic acid molecule-modified Risk Groups 2, 3, 4, or restricted organisms, see Sections V–A, V–G, and V–L, Footnotes and References of Sections I–IV. It is important that the investigator demonstrate that the fraction of the viral genome being utilized does not lead to productive infection. A U.S. Department of Agriculture permit is required for work with plant or animal pathogens (see Section V–G, Footnotes and References of Sections I–IV).

Section III–D–4–b. For experiments involving recombinant or synthetic nucleic acid molecules, or DNA or RNA derived therefrom, involving whole animals, including transgenic animals, and not covered by Section III–D–1, Experiments Using Human or Animal Pathogens (Risk Group 2, Risk Group 3, Risk Group 4, or Restricted Agents as Host-Vector Systems), or Section III–D–4–a, the appropriate containment shall be determined by the Institutional Biosafety Committee. Experiments involving gene drive modified animals generated by recombinant or synthetic nucleic acid molecules shall be conducted at a minimum of BL2 or BL2–N (see Section III–D–8).

Section III–D–4–c. Exceptions under Section III–D–4, Experiments Involving Whole Animals

Section III–D–4–c–(1). Experiments involving the generation of transgenic rodents that require BL1 containment are described under Section III–E–3, Experiments Involving Transgenic Rodents.

Section III–D–4–c–(2). The purchase or transfer of BL1 transgenic rodents is exempt from the *NIH Guidelines* under Section III–F, Exempt Experiments (see Appendix C–VII, The Purchase or Transfer of Transgenic Rodents).

Section III–D–4–c–(3). Experiments involving the generation or use of gene drive modified animals require a minimum of BL2 containment and are covered under III–D–8, Experiments Involving Gene Drive Modified Organisms.

Section III–D–5 currently states in part:

Section III–D–5. Experiments Involving Whole Plants

Experiments to genetically engineer plants by recombinant or synthetic nucleic acid molecule methods, to use such plants for other experimental purposes (*e.g.,* response to stress), to propagate such plants, or to use plants together with microorganisms or insects containing recombinant or synthetic nucleic acid molecules, may be conducted under the containment conditions described in Sections III–D–5–a through III–D–5–e. If experiments involving whole plants are not described in Section III–D–5 and do not fall under Sections III–A, III–B, III–D or III–F, they are included in Section III–E.

This portion of Section III–D–5 is proposed to be amended to:

Section III–D–5. Experiments Involving Whole Plants

Experiments to genetically engineer plants by recombinant or synthetic nucleic acid molecule methods, to use such plants for other experimental purposes (*e.g.,* response to stress), to propagate such plants, or to use plants together with microorganisms or insects containing recombinant or synthetic nucleic acid molecules, may be conducted under the containment conditions described in Sections III–D–5–a through III–D–5–e. If experiments involving whole plants are not described in Section III–D–5 and do not fall under Sections III–A, III–B, III–D or III–F, they are included in Section III–E. Experiments involving the generation or use of gene drive modified organisms require a minimum of BL2 containment and are described under Section III–D–8, Experiments Involving Gene Drive Modified Organisms.

Section III–D–8 is proposed to be added to state:

Section III–D–8. Experiments Involving Gene Drive Modified Organisms

Experiments involving gene drive modified organisms generated by recombinant or synthetic nucleic acid molecules shall be conducted at a minimum of Biosafety Level (BL) 2, BL2–N (Animals) or BL2–P (plant) containment.

Only transgenic rodents that may be contained under BL1 are covered under Section III–E–3. Section III–E–3 is proposed to be amended to reference the new Section III–D–8 to reinforce that research with GDMOs shall be conducted at a minimum of BL2. Section III–E–3, which is part of Section III–E, Experiments that Require Institutional Biosafety Committee Notice Simultaneous with Initiation, states in part:

Section III–E–3. Experiments Involving Transgenic Rodents

This section covers experiments involving the generation of rodents in which the animal's genome has been altered by stable introduction of recombinant or synthetic nucleic acid molecules, or nucleic acids derived therefrom, into the germ-line (transgenic rodents). Only experiments that require BL1 containment are covered under this section; experiments that require BL2, BL3, or BL4 containment are covered under Section III–D–4, Experiments Involving Whole Animals.

This portion of Section III–E–3 is proposed to be amended to:

Section III–E–3. Experiments Involving Transgenic Rodents

This section covers experiments involving the generation or use of rodents in which the animal's genome has been altered by stable introduction of recombinant or synthetic nucleic acid molecules, or nucleic acids derived therefrom, into the germ-line (transgenic rodents). Only experiments that require BL1 containment are covered under this section; experiments that require BL2, BL3, or BL4 containment are covered under Section III–D–4, Experiments Involving Whole Animals or Section III–D–8, Experiments Involving Gene Drive Modified Organisms.

In the NExTRAC report, the committee recommended that NIH should require appropriate expertise in the review of gene drive research by IBC members and BSO. Portions of Section IV–B are proposed to be amended regarding institutional responsibilities for the establishment of IBCs and requirements for BSOs.

Section IV–B–1–c currently states:

Section IV–B–1–c. Appoint a Biological Safety Officer (who is also a member of the Institutional Biosafety Committee) if the institution: (i) conducts recombinant or synthetic nucleic acid molecule research at Biosafety Level (BL) 3 or BL4, or (ii) engages in large-scale (greater than 10 liters) research. The Biological Safety Officer carries out the duties specified in Section IV–B–3.

Section IV–B–1–c is proposed to be amended to:

Section IV–B–1–c. Appoint a Biological Safety Officer (who is also a member of the Institutional Biosafety Committee) if the institution: (i) conducts recombinant or synthetic nucleic acid molecule research at Biosafety Level (BL) 3 or BL4, (ii) engages in large-scale (greater than 10 liters) research or (iii) conducts research involving gene drive modified organisms. The Biological Safety Officer carries out the duties specified in Section IV–B–3.

Section IV–B–2–a, Membership and Procedures of IBCs currently states in part:

Section IV–B–2–a–(1). The Institutional Biosafety Committee must comprise no fewer than five members so selected that they collectively have experience and expertise in recombinant or synthetic nucleic acid molecule technology and the capability to assess the safety of recombinant or synthetic nucleic acid molecule research and to identify any potential risk to public health or the environment. At least two members shall not be affiliated with the institution (apart from their membership on the Institutional Biosafety Committee) and who represent the interest of the surrounding community with respect to health and protection of the environment (*e.g.,* officials of state or local public health or environmental protection agencies, members of other local governmental bodies, or persons active in medical, occupational health, or environmental concerns in the community). The Institutional Biosafety Committee shall include at least one individual with expertise in plant, plant pathogen, or plant pest containment principles when experiments utilizing Appendix L, Physical and Biological Containment for Recombinant or Synthetic Nucleic Acid Molecule Research Involving Plants, require prior approval by the Institutional Biosafety Committee. The Institutional Biosafety Committee shall include at least one scientist with expertise in animal containment principles when experiments utilizing Appendix M, Physical and Biological Containment for Recombinant or Synthetic Nucleic Acid Molecule Research Involving Animals, require Institutional Biosafety Committee prior approval. When the institution conducts recombinant or synthetic nucleic acid molecule research at BL3, BL4, or Large Scale (greater than 10 liters), a Biological Safety Officer is mandatory and shall be a member of the Institutional Biosafety Committee (see Section IV–B–3, Biological Safety Officer). When the institution participates in or sponsors recombinant or synthetic nucleic acid molecule research involving human research participants, the institution must ensure that the Institutional Biosafety Committee has adequate expertise and training (using ad hoc consultants as deemed necessary). Institutional Biosafety Committee approval must be obtained from the clinical trial site.

Section IV–B–2–a–(1) is proposed to be amended to read:

Section IV–B–2–a–(1). The Institutional Biosafety Committee must comprise no fewer than five members so selected that they collectively have experience and expertise in recombinant or synthetic nucleic acid molecule technology and the capability to assess the safety of recombinant or synthetic nucleic acid molecule research and to identify any potential risk to public health or the environment. At least two members shall not be affiliated with the institution (apart from their membership on the Institutional Biosafety Committee) and who represent the interest of the surrounding community with respect to health and protection of the environment (*e.g.,* officials of state or local public health or environmental protection agencies, members of other local governmental bodies, or persons active in medical, occupational health, or environmental concerns in the community). The Institutional Biosafety Committee shall include at least one individual with expertise in plant, plant pathogen, or plant pest containment principles when experiments utilizing Appendix L, Physical and Biological Containment for Recombinant or Synthetic Nucleic Acid Molecule Research Involving Plants, require prior approval by the Institutional Biosafety Committee. The Institutional Biosafety Committee shall include at least one scientist with expertise in animal containment principles when experiments utilizing Appendix M, Physical and Biological Containment for Recombinant or Synthetic Nucleic Acid Molecule Research Involving Animals, require Institutional Biosafety Committee prior approval. When the institution conducts research involving gene drive modified organisms the institution must ensure that the Institutional Biosafety Committee has adequate expertise (*e.g.,* specific species containment, ecological or environmental risk assessment) using *ad hoc* consultants if necessary. When the institution conducts recombinant or synthetic nucleic acid molecule research at BL3, BL4, or Large Scale (greater than 10 liters) or research involving gene drive modified organisms, a Biological Safety Officer is mandatory and shall be a member of the Institutional Biosafety Committee (see Section IV–B–3, Biological Safety Officer). When the institution conducts research with gene drive modified organisms, the impact on ecosystems should be assessed by the Institutional Biosafety Committee (see Section V–N, Footnotes and References of Sections I–IV). When the institution participates in or sponsors recombinant or synthetic nucleic acid molecule research involving human research participants, the institution must ensure that the Institutional Biosafety Committee has adequate expertise and training (using ad hoc consultants if necessary). Institutional Biosafety Committee approval must be obtained from the clinical trial site.

Section IV–B–3, Biological Safety Officer (BSO), states in part:

Section IV–B–3–a. The institution shall appoint a Biological Safety Officer if it engages in large-scale research or

production activities involving viable organisms containing recombinant or synthetic nucleic acid molecules.

Section IV–B–3–a is proposed to be amended to clarify the requirement for a BSO to be a member of the IBC. A new Section IV–B–3–c is proposed to be added to require a BSO for research involving GDMOs. The current IV–B–3–c sections will be re-lettered to IV–B–3–d.

Section IV–B–3–a. The institution shall appoint a Biological Safety Officer if it engages in large-scale research or production activities involving viable organisms containing recombinant or synthetic nucleic acid molecules. The Biological Safety Officer shall be a member of the Institutional Biosafety Committee.

Section IV–B–3–c. The institution shall appoint a Biological Safety Officer if it engages in recombinant or synthetic nucleic acid molecule research that involves gene drive modified organisms. The Biological Safety Officer shall be a member of the Institutional Biosafety Committee.

To emphasize that GDMOs may have an impact on ecosystems, a new footnote and reference for Sections I through IV is proposed to be added.

Section V–N is proposed to state:

Section V–N Determination of whether a gene drive modified organism has a potential for serious detrimental impact on managed (agricultural, forest, grassland) or natural ecosystems should be made by the Principal Investigator and the Institutional Biosafety Committee, in consultation with scientists knowledgeable of gene drive technology, the environment, and ecosystems in the geographic area of the research.

Since research with GDMOs shall be conducted at a minimum of Biosafety Level 2, research involving host vector system organisms modified by a gene drive will not be exempt. Therefore, the exceptions (Appendices C–III–A and C–IV–A) to Appendices C–III and C–IV, *Saccharomyces* and *Kluyveromyces* Host-Vector Systems, respectively, are proposed to be amended.

Appendices C–III–A Exceptions and C–IV–A Exceptions currently state:

The following categories are not exempt from the NIH Guidelines: (i) experiments described in Section III–B which require NIH OSP and Institutional Biosafety Committee approval before initiation, (ii) experiments involving DNA from Risk Groups 3, 4, or restricted organisms (see Appendix B, Classification of Human Etiologic Agents on the Basis of Hazard, and Sections V–G and V–L, Footnotes and References of Sections I through IV) or cells known to be infected with these agents may be conducted under containment conditions specified in Section III–D–2 with prior Institutional Biosafety Committee review and approval, (iii) large-scale experiments (*e.g.,* more than 10 liters of culture), and (iv) experiments involving the deliberate cloning of genes coding for the biosynthesis of molecules toxic for vertebrates (see Appendix F, Containment Conditions for Cloning of Genes Coding for the Biosynthesis of Molecules Toxic for Vertebrates).

Appendices C–III–A Exceptions and C–IV–A Exceptions are proposed to be amended to state:

The following categories are not exempt from the NIH Guidelines: (i) experiments described in Section III–B, which require NIH OSP and Institutional Biosafety Committee approval before initiation; (ii) experiments involving DNA from Risk Groups 3, 4, or restricted organisms (see Appendix B, Classification of Human Etiologic Agents on the Basis of Hazard, and Sections V–G and V–L, Footnotes and References of Sections I through IV) or cells known to be infected with these agents may be conducted under containment conditions specified in Section III–D–2 with prior Institutional Biosafety Committee review and approval; (iii) large-scale experiments (*e.g.,* more than 10 liters of culture), (iv) experiments involving the deliberate cloning of genes coding for the biosynthesis of molecules toxic for vertebrates (see Appendix F, Containment Conditions for Cloning of Genes Coding for the Biosynthesis of Molecules Toxic for Vertebrates), and (v) experiments involving gene drive modified organisms (Section III–D–8). To provide additional guidance on containment for work with arthropods, Appendices G, L, and M are proposed to reference the Arthropod Containment Guidelines, which specifically outline practices and procedures for arthropod research, and the addendum Arthropod Containment Guidelines, which articulates containment practices for gene drive modified arthropods. Appendix G–III and Footnotes and References of Appendix G will also be modified to reference the current edition of the reference source BMBL and to correct an erroneous second citation of the BMBL.

Appendix G–III–A currently states:

Appendix G–III–A. Biosafety in Microbiological and Biomedical Laboratories, 5th edition, U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, Atlanta, Georgia, and National Institutes of Health, Bethesda, Maryland.

Appendix G–III–A is proposed to be amended to state:

Appendix G–III–A. Biosafety in Microbiological and Biomedical Laboratories, 6th edition, U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, Atlanta, Georgia, and National Institutes of Health, Bethesda, Maryland.

Appendix G–III–B currently states:

Appendix G–III–B. Biosafety in Microbiological and Biomedical Laboratories, 3rd edition, May 1993, U.S. DHHS, Public Health Service, Centers for Disease Control and Prevention, Atlanta, Georgia, and NIH, Bethesda, Maryland.

Appendix G–III–B is proposed to be amended to state:

Appendix G–III–B. Arthropod Containment Guidelines, Version 3.2, 2019, and Addendum 1 Containment Practices for Arthropods Modified with Engineered Transgenes Capable of Gene Drive, 2022, American Committee of Medical Entomology, American Society of Tropical Medicine and Hygiene, Arlington, Virginia. Appendices L and M specify containment conditions and practices for plants and animals, respectively, that preclude the use of containment as specified in Appendix G. Both Appendices L and M will be modified to incorporate the Arthropod Containment Guidelines and cross-reference to Appendix G–III–B.

Appendix L–III–C currently states:

Appendix L–III–C. Biological Containment Practices (Macroorganisms)

Appendix L–III–C–1. Effective dissemination of arthropods and other small animals can be prevented by using one or more of the following procedures: (i) use non-flying, flight-impaired, or sterile arthropods; (ii) use non-motile or sterile strains of small animals; (iii) conduct experiments at a time of year that precludes the survival of escaping organisms; (iv) use animals that have an obligate association with a plant that is not present within the dispersal range of the organism; or (v) prevent the escape of organisms present in run-off water by chemical treatment or evaporation of run-off water.

Appendix L–III–C is proposed to be amended to:

Appendix L–III–C. Biological Containment Practices (Macroorganisms)

Appendix L–III–C–1. Effective dissemination of arthropods and other small animals can be prevented by using

one or more of the following procedures: (i) use non-flying, flight-impaired, or sterile arthropods; (ii) use non-motile or sterile strains of small animals; (iii) conduct experiments at a time of year that precludes the survival of escaping organisms; (iv) use animals that have an obligate association with a plant that is not present within the dispersal range of the organism; or (v) prevent the escape of organisms present in run-off water by chemical treatment or evaporation of run-off water. Containment for arthropods is described in the Arthropod Containment Guidelines and Addendum 1 Containment Practices for Arthropods Modified with Engineered Transgenes Capable of Gene Drive (see Appendix G–III–B).

Appendix M–III–D currently states:

Appendix M–III–D. Other research with non-laboratory animals, which may not appropriately be conducted under conditions described in Appendix M, may be conducted safely by applying practices routinely used for controlled culture of these biota. In aquatic systems, for example, BL1 equivalent conditions could be met by utilizing growth tanks that provide adequate physical means to avoid the escape of the aquatic species, its gametes, and introduced exogenous genetic material. A mechanism shall be provided to ensure that neither the organisms nor their gametes can escape into the supply or discharge system of the rearing container (*e.g.,* tank, aquarium, etc.) Acceptable barriers include appropriate filtration, irradiation, heat treatment, chemical treatment, etc. Moreover, the top of the rearing container shall be covered to avoid escape of the organism and its gametes. In the event of tank rupture, leakage, or overflow, the construction of the room containing these tanks should prevent the organisms and gametes from entering the building's drains before the organism and its gametes have been inactivated.

Other types of non-laboratory animals (*e.g.,* nematodes, arthropods, and certain forms of smaller animals) may be accommodated by using the appropriate BL1 through BL4 or BL1–P through BL4–P containment practices and procedures as specified in Appendices G and L.

Appendix M–III–D is proposed to be amended to:

Appendix M–III–D. Research with animals, which may not appropriately be conducted under conditions described in Appendix M, may be conducted safely by applying practices routinely used for controlled culture of these biota. In aquatic systems, for example, BL1 equivalent conditions could be met by utilizing growth tanks that provide adequate physical means to avoid the escape of the aquatic species, its gametes, and introduced exogenous genetic material. A mechanism shall be provided to ensure that neither the organisms nor their gametes can escape into the supply or discharge system of the rearing container (*e.g.,* tank, aquarium, etc.) Acceptable barriers include appropriate filtration, irradiation, heat treatment, chemical treatment, etc. Moreover, the top of the rearing container shall be covered to avoid escape of the organism and its gametes. In the event of tank rupture, leakage, or overflow, the construction of the room containing these tanks should prevent the organisms and gametes from entering the building's drains before the organism and its gametes have been inactivated.

Other types of animals (*e.g.,* nematodes, arthropods, and certain forms of smaller animals) may be accommodated by using the appropriate BL1 through BL4 or BL1–P through BL4–P containment practices and procedures as specified in Appendices G and L. Containment for arthropods is described in the Arthropod Containment Guidelines and Addendum 1 Containment Practices for Arthropods Modified with Engineered Transgenes Capable of Gene Drive (see Appendix G–III–B).

The term ''helper virus'' is used in multiple sections of the NIH Guidelines to refer to the missing functions provided to a defective virus. However, helper systems (*e.g.,* transient transfection systems, packaging cell lines, replicon systems, etc.) are more commonly used than a helper virus. NIH OSP has interpreted the term ''helper virus'' to extend to the use of helper systems because they are also associated with the risk of generation of replication competent virus. To clarify the language in the NIH Guidelines, the term ''helper virus'' will be replaced in Sections III–D–3, and III–E–1 with the term ''helper systems''.

The risk group classification in Appendix B of two viruses, West Nile virus and St. Louis encephalitis virus, are proposed to be changed from RG3 to RG2 to be consistent with the risk assessment that is articulated in the current edition of the BMBL.

Appendix B–III–D currently states in part:

Appendix B–III–D. Risk Group 3 (RG3)—Viruses and Prions.

Alphaviruses (Togaviruses)—Group A Arboviruses currently states in part:

—St. Louis encephalitis virus.

Flaviviruses—Group B Arboviruses currently states in part:

—West Nile virus (WNV).

Appendix B–II–D is proposed to be amended to state:

Appendix B–II–D. Risk Group 2 (RG2)—Viruses.

Alphaviruses (Togaviruses)—Group A Arboviruses.

—St. Louis encephalitis virus.

Flaviviruses—Group B Arboviruses.

—West Nile virus (WNV).

Dated: August 3, 2023.

Tara A. Schwetz,

Acting Principal Deputy Director, National Institutes of Health.

National Institutes of Health

Fogarty International Center; Notice of Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the Fogarty International Center Advisory Board.

This will be a hybrid meeting held in-person and virtually and will be open to the public as indicated below. Individuals who plan to attend in-person or view the virtual meeting and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting. The open session can be accessed from the Fogarty International Center website (*https://www.fic.nih.gov/About/Advisory/Pages/default.aspx*).

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Fogarty International Center Advisory Board.

Date: September 7–8, 2023.

Closed: September 7, 2023, 2:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate the second level of grant applications.

Place: Fogarty International Center, National Institutes of Health, Lawton

Chiles International House (Stone House), 16 Center Drive, Conference Room, Bethesda, MD 20892.

Open: September 8, 2023, 9:00 a.m. to 3:00 p.m.

Agenda: Update and discussion of current and planned Fogarty International Center activities.

Place: Fogarty International Center, National Institutes of Health, Lawton Chiles International House (Stone House), 16 Center Drive, Conference Room, Bethesda, MD 20892 (Virtual Meeting).

Meeting Access: https://www.fic.nih.gov/About/Advisory/Pages/default.aspx.

Contact Person: Kristen Weymouth, Executive Secretary, Fogarty International Center, 31 Center Drive, Room B2C02, Bethesda, MD 20892, 301–495–1415, *kristen.weymouth@nih.gov*.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Persons listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

Information is also available on the Institute's/Center's home page: *http://www.fic.nih.gov/About/Advisory/Pages/default.aspx,* where an agenda and any additional information for the meeting will be posted when available.

(Catalogue of Federal Domestic Assistance Program Nos. 93.106, Minority International Research Training Grant in the Biomedical and Behavioral Sciences; 93.154, Special International Postdoctoral Research Program in Acquired Immunodeficiency Syndrome; 93.168, International Cooperative Biodiversity Groups Program; 93.934, Fogarty International Research Collaboration Award; 93.989, Senior International Fellowship Awards Program, National Institutes of Health, HHS)

Dated: August 4, 2023.

Interagency Coordinating Committee on the Validation of Alternative Methods: Request for Comment on Draft Report on Validation, Qualification, and Acceptance of New Approach Methodologies

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: The Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM) announces availability of the draft document, ''Validation, Qualification, and Regulatory Acceptance of New Approach Methodologies.'' ICCVAM will accept public comments on the document through September 5, 2023; 5:00 p.m. EDT.

DATES:

Document Availability: The draft document is available at *https://ntp.niehs.nih.gov/go/ICCVAM-submit.*

Written Public Comments Submissions: Submit comments to *amber.daniel@inotivco.com* by September 5, 2023; 5:00 p.m. EDT.

FOR FURTHER INFORMATION CONTACT: Dr. Nicole Kleinstreuer, Director, National Toxicology Program (NTP) Interagency Center for the Evaluation of Alternative Toxicological Methods (NICEATM), email: *nicole.kleinstreuer@nih.gov,* telephone: 984–287–3150.

SUPPLEMENTARY INFORMATION:

Background: ICCVAM, a congressionally mandated committee, promotes the scientific validation and regulatory acceptance or qualification of testing methods that accurately assess the chemical safety and hazards of relevant products in an effort to replace, reduce, or refine (enhance animal well-being and lessen or avoid pain and distress) animal use.

Shortly after its establishment as a standing committee in 1997, ICCVAM published a report, ''Validation and Regulatory Acceptance of Toxicological Test Methods,'' which outlined criteria for the validation and regulatory acceptance for new and alternative test methods (62 FR 11901). This and subsequent related documents described a validation model that, while being initially useful, has lately demonstrated limitations such as being lengthy and resource-intensive and not being compatible with many modern approaches to toxicity testing. Furthermore, for some contexts of use, methods may not need to undergo every step of the validation process described by these documents to yield valuable data for a federal agency.

In 2021, ICCVAM established its Validation Workgroup to update the 1997 document and align it with the principles articulated in the 2018 ICCVAM publication, ''A Strategic Roadmap for Establishing New Approaches to Evaluate the Safety of Chemicals and Medical Products in the United States'' (83 FR 7487). The Strategic Roadmap provides a conceptual framework promoting better communication between agencies and test method developers and more flexibility in how confidence is established, to help ensure the adoption of new methods by federal agencies and regulated industries once validated for a specific purpose or context of use.

A draft version of the new document, ''Validation, Qualification, and Regulatory Acceptance of New Approach Methodologies,'' is now available for public comment.

Requests for Comments: ICCVAM invites public comments from all ICCVAM stakeholders on the draft document. The document can be found on the NICEATM website at *https://ntp.niehs.nih.gov/go/ICCVAM-submit.*

Stakeholders may submit comments via email to Ms. Amber Daniel at *amber.daniel@inotivco.com.* Commenters should include their name, affiliation (if any), mailing address, telephone, email, and sponsoring organization (if any) with their comments. Guidelines for public statements submitted to NTP are available at at *http://ntp.niehs.nih.gov/ntp/about_ntp/guidelines_public_comments_508.pdf.* All comments received will be posted on the NICEATM website and identified by the individual's name, affiliation, and sponsoring organization. Comments should be received by September 5, 2023; 5:00 p.m. EDT, to ensure consideration as the draft document is finalized.

Responses to this notice are voluntary. No proprietary, classified, confidential, or sensitive information should be included in statements submitted in response to this notice. This request for input is for planning purposes only and is not a solicitation for applications or an obligation on the part of the U.S. Government to provide support for any ideas identified in response to the request. Please note that the U.S. Government will not pay for the preparation of any information submitted or for its use of that information.

Background Information on ICCVAM and NICEATM: ICCVAM is an interagency committee composed of representatives from 17 federal regulatory and research agencies that require, use, generate, or disseminate toxicological and safety testing information. ICCVAM conducts technical evaluations of new, revised, and alternative safety testing methods and integrated testing strategies with regulatory applicability. ICCVAM also promotes the scientific validation and regulatory acceptance of testing methods that more accurately assess the safety and hazards of chemicals and products and replace, reduce, or refine animal use.

The ICCVAM Authorization Act of 2000 (42 U.S.C. 285*l*–3) establishes ICCVAM as a permanent interagency committee of NIEHS and provides the authority for ICCVAM involvement in activities relevant to the development of alternative test methods. Additional information about ICCVAM can be found at *https://ntp.niehs.nih.gov/go/iccvam.*

NICEATM administers ICCVAM, provides scientific and operational support for ICCVAM-related activities, and conducts and publishes analyses and evaluations of data from new, revised, and alternative testing approaches. NICEATM and ICCVAM work collaboratively to evaluate new and improved testing approaches applicable to the needs of U.S. federal agencies. NICEATM and ICCVAM welcome the public nomination of new, revised, and alternative test methods and strategies for validation studies and technical evaluations. Additional information about NICEATM can be found at *https://ntp.niehs.nih.gov/go/niceatm.*

Dated: August 4, 2023.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at *carlos.graham@samhsa.hhs.gov*.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Project: SAMHSA Generic Clearance for the Collection of Qualitative Research and Assessment

SAMHSA is requesting approval from the Office of Management and Budget (OMB) for their Generic clearance for purposes of conducting qualitative research. SAMHSA conducts qualitative research to gain a better understanding of emerging substance use and mental health policy issues, improve the development and quality of instruments, and to ensure SAMHSA leadership, centers and offices have recent data and information to inform program and policy decision-making. SAMHSA is requesting approval for at least four types of qualitative research: (a) interviews, (b) focus groups, (c) questionnaires, and (d) other qualitative methods.

SAMHSA is the agency within the U.S. Department of Health and Human Services (HHS) that leads public health efforts to advance the behavioral health of the nation and to improve the lives of individuals living with mental and substance use disorders, and their families. It's mission is to lead public health and service delivery efforts that promote mental health, prevent substance misuse, and provide treatments and supports to foster recovery while ensuring equitable access and better outcomes. SAMHSA pursues this mission by providing grant funding opportunities and guidance to states and territories, as well as tribal and local communities; technical assistance to grantees and practitioners; publishing and sharing resources for individuals and family members seeking information on prevention, harm reduction, treatment and recovery; collecting, analyzing, and sharing behavioral health data; collaborating with other Federal agencies to evaluate programs and improve policies; and raising awareness of available resources through educational messaging campaigns and events. Integral to this role, SAMHSA conducts qualitative research and evaluation studies, develops policy analyses, and estimates the cost and benefits of policy alternatives for SAMHSA related programs.

Qualitative research and assessment are the main objectives of the activities included in this clearance. The goal of establishing the SAMHSA Generic Clearance for the Collection of Qualitative Research and Assessment is to help public health officials, policymakers, community practitioners, and the public to understand mental health and substance use trends and how they are evolving; inform the development and implementation of targeted evidence-based interventions; focus resources where they are needed most; and evaluate the success of programs and policies. A key objective is to decrease the burden on stakeholders while expanding and improving data collection, analysis, evaluation, and dissemination. To achieve this objective, SAMHSA is streamlining and modernizing data collection efforts, while also coordinating evaluation across the agency to ensure funding and policies are data driven. Additionally, the agency is utilizing rigorous evaluation and analytical processes that are in alignment with the Foundations for Evidence-Based Policymaking Act of 2018. SAMHSA, using robust methods to collect, analyze, and report valid, reliable, trustworthy, and protected data, is key to improving and impacting behavioral health treatment, prevention, and recovery for communities most in need. By using rigorous methods, and improving the quality and completeness of program data, data can be disaggregated across different population groups to assess disparities within the behavioral health care system. SAMHSA's vision will be accomplished by better leveraging optimal data to inform the agency's policies and programs.

The qualitative research participants will include grant recipients; policy experts; national, state, and local public health representatives; human service, and healthcare providers; and representatives of other health organizations. A variety of instruments and platforms will be used to collect information from respondents. The annual burden hours requested (15,000) are based on the number of collections we expect to conduct over the requested period for this clearance. The burden estimates were calculated based on the amount of IC submissions to the 0930–0393 Fast Track Generic Clearance for the Collection of Qualitative Feedback on the Substance Abuse and Mental Health Services Administration (SAMHSA) Service Delivery that are ineligible for OMB approval under it. This Generic information collection will provide a viable replacement option. Internal assessments of projected IC submission over the next three years estimate the burden hours for this information collection to be

approximately half that of the 0930–0393 Fast Track Generic Clearance for the Collection of Qualitative Feedback on the Substance Abuse and Mental Health Services Administration (SAMHSA) Service Delivery.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Form	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
SAMHSA internal and external stakeholders.	Qualitative Research	15,000	1	1	15,000

Send comments Carlos Graham, SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E57–B, Rockville, Maryland 20857, *OR* email a copy to *Carlos.Graham@samhsa.hhs.gov.* Written comments should be received by October 10, 2023.

Carlos Graham,

Reports Clearance Officer.

BILLING CODE 4162–20–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Proposed Information Collection Activity; Data Security Requirements for Accessing Confidential Data

AGENCY: Substance Abuse and Mental Health Services Administration; Center for Behavioral Health Statistics and Quality; Department of Health and Human Services.

ACTION: Submission for OMB review; comment request.

SUMMARY: Substance Abuse and Mental Health Services Administration (SAMHSA) within the Department of Health and Human Services has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register** on November 22, 2022 and no comments were received. SAMHSA is forwarding the proposed Data Security Requirements for Accessing Confidential Data information collection to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: *http://www.reginfo.gov/public/do/PRAMain.*

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Carlos Graham, SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E57–A, Rockville, Maryland 20857, *OR* email a copy to *Carlos.Graham@samhsa.hhs.gov.*

SUPPLEMENTARY INFORMATION: SAMHSA may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Comments: Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of [agency], including whether the information will have practical utility; (b) the accuracy of [agency's] estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information to be collected, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated or other forms of information technology should be addressed to the points of contact in the **FOR FURTHER INFORMATION CONTACT** section.

Title of collection: Data Security Requirements for Accessing Confidential Data.

OMB Control Number: 3145–0271.

Summary of Collection: Title III of the Foundations for Evidence-Based Policymaking Act of 2018 (44 U.S.C. 3583; hereafter referred to as the Evidence Act) mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under the Confidential Information Protection and Statistical Efficiency Act of 2018 (CIPSEA), it is recognized that other agencies and organizational units within the Executive Branch may benefit from the adoption of the SAP to accept applications for access to confidential data assets. The SAP is to be a process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply to access confidential data assets held by a federal statistical agency or unit for the purposes of developing evidence. With the Interagency Council on Statistical Policy (ICSP) as advisors, the entities upon whom this requirement is levied are working with the SAP Project Management Office (PMO) and with OMB to implement the SAP.

The SAP Portal is to be a single web-based common application designed to collect information from individuals requesting access to confidential data assets from federal statistical agencies and units. When an application for confidential data is approved through the SAP Portal, SAMHSA will collect information to fulfill its data security requirements. This is a required step before providing the individual with access to restricted use microdata for the purpose of evidence building. SAMHSA's data security agreements and other paperwork, along with the corresponding security protocols, allow SAMHSA to maintain careful controls on confidentiality and privacy, as required by law. SAMHSA's collection of data security information will occur outside of the SAP Portal.

The following bullets outline the major components and processes in and around the SAP Portal, leading up to SAMHSA's collection of security requirements.

- *SAP Policy:* At the recommendation of the ICSP, the SAP Policy establishes the SAP to be implemented by statistical agencies and units and incorporates directives from the Evidence Act. The

SAP Policy may be found in OMB Memorandum 23–04.

• *The SAP Portal:* The SAP Portal is an application interface connecting applicants seeking data with a catalog of metadata for data assets owned by the federal statistical agencies and units. The SAP Portal is not a new data repository or warehouse; confidential data assets will continue to be stored in secure data access facilities owned and hosted by the federal statistical agencies and units. The Portal provides a streamlined application process across agencies, reducing redundancies in the application process.

• *Data Discovery:* Individuals begin the process of accessing restricted use data by discovering confidential data assets through the SAP metadata catalog, maintained by federal statistical agencies at *www.researchdatagov.org.*

• *SAP Portal Application Process:* Individuals who have identified and wish to access confidential data assets apply through the SAP Portal. Applicants must create an account and follow all steps to complete the application. Applicants enter personal, contact, and institutional information for the research team and provide summary information about their proposed project.

• *Submission for Review:* Agencies approve or reject an application within a prompt timeframe. Agencies may also request applicants to revise and resubmit their application.

• *Access to Confidential Data:* Approved applicants are notified through the SAP Portal that their proposal has been accepted. This concludes the SAP Portal process. Agencies will contact approved applicants to initiate completion of their security documents. The completion and submission of the agency's security requirements will take place outside of the SAP Portal.

• *Collection of Information for Data Security Requirements:* In the instance of a positive determination for an application requesting access to an SAMHSA-owned confidential data asset, SAMHSA will contact the applicant(s) to initiate the process of collecting information to fulfill its data security requirements. This process allows SAMHSA to place the applicant(s) in a trusted access category.

Estimate of Burden: The amount of time to complete the agreements and other paperwork that comprise SAMHSA's security requirements will vary based on the confidential data assets requested. To obtain access to SAMHSA confidential data assets, it is estimated that the average time to complete and submit SAMHSA's data security agreements and other paperwork is 40 minutes. This estimate does not include the time needed to complete and submit an application within the SAP Portal. All efforts related to SAP Portal applications occur prior to and separate from SAMHSA's effort to collect information related to data security requirements.

The expected number of applications in the SAP Portal that receive a positive determination from SAMHSA in a given year may vary. Overall, per year, SAMHSA estimates it will collect data security information for 15 application submissions that received a positive determination within the SAP Portal. SAMHSA estimates that the total burden for the collection of information for data security requirements over the course of the three-year OMB clearance will be about 30 hours and, as a result, an average annual burden of 10 hours.

Comments: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through the publication of a 60-Day Notice in the **Federal Register** at [insert FR citation]. SAMHSA received [number] comments, to which we here respond.

Updates: This section is needed if there have been any major changes since the first FRN was published, for example, if estimates of burden (in terms of hours or respondents), scope, sampling, etc. were changed. Outline what the initial FRN specified, the new information, and the reason(s) why it changed.

Carlos Graham,

Reports Clearance Officer.

BILLING CODE 4162–20–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA–2023–0019]

Agency Information Collection Activities: ReadySetCyber Initiative Questionnaire

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 60-Day notice and request for comments on a new collection.

SUMMARY: CISA will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance.

DATES: Comments are encouraged and will be accepted until October 10, 2023.

ADDRESSES: You may submit comments, identified by docket number Docket # CISA–2023–0019, at:

○ *Federal eRulemaking Portal: http://www.regulations.gov.* Please follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name and docket number Docket # CISA–2023–0019. All comments received will be posted without change to *http://www.regulations.gov,* including any personal information provided.

Docket: For access to the docket to read background documents or comments received, go to *http://www.regulations.gov.*

SUPPLEMENTARY INFORMATION: Consistent with CISA's authorities to ''carry out comprehensive assessments of the vulnerabilities of the key resources and critical infrastructure of the United States'' at 6 U.S.C. 652(e)(1)(B) and provide federal and non-federal entities with ''operational and timely technical assistance'' at 6 U.S.C. 659(c)(6) and ''recommendation on security and resilience measures'' at 6 U.S.C. 659(c)(7), CISA's ReadySetCyber Initiative will collect information in order to provide tailored technical assistance, services and resources to critical infrastructure (CI) organizations and state, local, tribal, and territorial (SLTT) governments based on the characteristics of their respective cybersecurity programs. CISA seeks to collect this information from US CI and SLTT organizations on a voluntary and fully electronic basis so that each organization can be best supported in receiving tailored cybersecurity recommendations and services.

The overarching goal of CISA's ReadySetCyber Initiative is to help CI and SLTT organizations access information and services that are tailored to their specific cybersecurity needs. In addition, CISA expects this initiative to yield several additional benefits, including:

• Further adoption of CISA's Cybersecurity Performance Goals (CPGs) as the default approach for assessing Organizational progress and identify prioritized cybersecurity gaps;

• Collection of information about organizations' cybersecurity posture and progress, enabling more targeted engagement with sectors, regions, and individual organizations;

• More effective allocation of capacity-constrained services to specific stakeholders;

• Provision of a simplified approach to the guiding stakeholders into enrollment for, scalable services and rapidly expand uptake thereof; and

• Furthering the development of relationships between CI and SLTT organizations and CISA's regional cybersecurity personnel.

CISA's CPGs are a set of voluntary cybersecurity practices which aim to reduce the risk of cybersecurity threats to U.S. CI and SLTT organizations. CISA offers services and resources to aid CI and SLTT organizations in adopting the CPGs and seeks to make accessing appropriate services and resources as efficient as possible, especially for organizations whose cybersecurity programs operate at low levels of capability.

For example, an organization that is unsure of its ability to enumerate all of its internet-facing sites and services could leverage CISA's highly scalable automated testing services to scan its entire network range. Organizations with cybersecurity programs with more advanced characteristics who wish to evaluate their network segmentation controls are better positioned to take advantage of CISA's more resource-intensive architecture assessments. All organizations completing the questionnaire will also be connected with a CISA cybersecurity representative in their jurisdiction to provide direct support and engagement.

To measure adoption of the CPGs and assist CI and SLTT organizations in finding the most impactful services and resources for their cybersecurity programs, CISA is seeking to establish a voluntary information collection that uses respondents' answers to tailor a recommended package of services and resources most applicable to their evaluated level of program capability. Without collecting this information, CISA would be unable to tailor an appropriate suite of services, recommendations, and resources to assist the organization in protecting itself against cybersecurity threats, thereby creating burdens of inefficiency for service requesters and CISA alike.

In addition, receipt of this information is critical to CISA's ability to measure the adoption of CISA's CPGs by CI and SLTT organizations. The information to be collected will address various inquiries, such as: whether an organization keeps a regularly updated inventory of all assets with an internet Protocol address; the types of incident reporting and vulnerability disclosures required by an organizations' contracts with its vendors and suppliers; and whether the entity requires a minimum password strength required for all password-protected assets.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including via the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submissions of responses.

Analysis

Agency: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

Title: ReadySetCyber.

OMB Number:

Frequency: Upon each voluntary request for technical assistance, which CISA expects to occur on an annual basis.

Affected Public: Critical Infrastructure Owners & Operators seeking CISA services.

Number of Respondents: Approximately 2,000 per year.

Estimated Time per Respondent: 20 Minutes.

Total Burden Hours: 666.7 Hours.

Robert J. Costello,

Chief Information Officer, Department of Homeland Security, Cybersecurity and Infrastructure Security Agency.

Notice of Inventory Completion: Oberlin College, Oberlin, OH

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), Oberlin College has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice. The human remains were removed from the Hawaiian Islands, HI.

DATES: Repatriation of the human remains in this notice may occur on or after September 11, 2023.

ADDRESSES: Dr. Amy V. Margaris, Oberlin College, King Building, 10 N. Professor Street, Oberlin, OH 44074, telephone (440) 775–5173, email *amy.margaris@oberlin.edu.*

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of Oberlin College. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by Oberlin College.

Description

Human remains representing, at minimum, one individual were removed from the Hawaiian Islands, HI. Accession #65 in the accession book of the former Oberlin College Museum records that in August of 1875, Mr. E. P. Church of Greenville, Michigan donated to the Museum one ''Skull of Hawaiian, Cave Burial Place, Hawaiian Islands.'' According to records of the Oberlin College Archives, E. P. Church was an 1863 graduate of Oberlin College who lived on O'ahu from 1865–1875. He served as Professor of Mathematics at Oahu College (now Punahou School) in Honolulu, Hawaii (1865–1871) and as President of Oahu College (1871–1875). The human remains were retained by Oberlin College after the Museum's closure in the 1950s, and they are now in the care of the Oberlin College Department of Anthropology. The human remains consist of a skull belonging to an adult of indeterminate age and sex. No associated funerary remains are present.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological, biological, cultural, geographical, and historical.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, Oberlin College has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Hui Iwi Kuamo'o.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after September 11, 2023. If competing requests for repatriation are received, Oberlin College must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. Oberlin College is responsible for sending a copy of this notice to the Native Hawaiian organization identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: August 2, 2023.

Melanie O'Brien,

Manager, National NAGPRA Program.

Notice of Inventory Completion: Indiana State Museum and Historic Sites Corporation, Indianapolis, IN

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Indiana State Museum and Historic Sites Corporation (ISMHS) has completed an inventory of human remains and associated funerary objects and has determined that there is no cultural affiliation between the human remains and associated funerary objects and any Indian Tribe. The human remains and associated funerary objects were removed from Floyd County, IN.

DATES: Disposition of the human remains and associated funerary objects in this notice may occur on or after September 11, 2023.

ADDRESSES: Michele Greenan, Indiana State Museum and Historic Sites Corporation, 650 West Washington Street, Indianapolis, IN 46204, telephone (317) 473–0836, email *mgreenan@indianamuseum.org.*

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the ISMHS. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the ISMHS.

Description

Human remains representing, at minimum, 99 individuals were removed from Floyd County, IN. The site, identified as archeological site 12FL0073, is also referred to as the State Road 111 Slide Correction Project (the Indiana Department of Transportation (INDOT) project (DES #1592476) that resulted in the 2021–2022 removal of human remains from the site). Site 12FL0073 is a Middle–Late Archaic period site located along the Ohio River in Southern Indiana. Diagnostic artifacts associated with the site indicate a date range of approximately 4200 BCE through 1000 BCE, with limited evidence that it may extend earlier to 6000 BCE. Two radiocarbon dates taken from the site, 5350+/- 130 BP (3350 BCE) and 4950 +/-40 BP (2950 BCE), further validates a Middle-Late Archaic period association.

Site 12FL0073 was first recorded in 1998, when human remains were found eroding out of the riverbank. In 1998 and 1999, burial remains were removed under Indiana Division of Historic Preservation and Archaeology (DHPA) accidental discovery number AD 980013 (March 1998) and accidental discovery AD 990032 (July 1999). Between 2001 and 2002, an archeological project was carried out through the University of Kentucky (UK) at the site. Researchers from the University of Indianapolis (UINDY) were asked to assist with burial features and human remains found during these projects. Following these projects, the human remains and associated funerary objects were housed at UINDY and UK. In 2015, the Indiana Department of Transportation (INDOT) began assessing site 12FL0073 as they addressed erosion occurring along the bank of the Ohio River. This erosion was undermining State Road 111. During these assessments, the severity of the erosion was understood, and it was clear that other human remains at site 12FL0073 were in immediate danger. In November 2020, INDOT contacted the ISMHS to help facilitate NAGPRA compliance as they (working through outside contractors) removed these burials. INDOT also requested that the ISMHS include the human remains and associated funerary objects from the site that were housed at the UK and UINDY for inclusion in the inventory. The human remains and associated funerary objects housed at UK were transferred to the ISMHS in May 2021. The human remains and associated funerary objects housed at UINDY, which included the human remains removed under the 1998 and 1999 accidental discovery numbers, were transferred to ISMHS in September 2022. The human remains from the INDOT project were transferred to ISMHS in two groups, one in May of 2021 and the second in late January 2023.

The human remains consist of individual burials and single skeletal elements. The 211 associated funerary objects are 21 hafted bifaces, 21 bifaces, four scrapers, four flake tools, 16 cores, two hematite pestles, two granitic axes, one sandstone bannerstone, six cannel coal beads, two crinoid stem column beads, three sandstone pitted stones, one hematite pitted stone, two granitic or quartzite hammerstones, three granitic hammerstones, one core/tested cobble, one hematite chopper, one bone

atlatl hook/spur, one bone atlatl tubular weight, one incised bone drill, two bone pin fragments, one bone awl fragment, one polished bone fragment, one granitic cobble tool, one lot consisting of unmodified chert blocks, three lots consisting of red ochre particles, eight lots consisting of hematite fragments, five lots consisting of slate fragments, 32 lots consisting of flakes/shatter, one lot consisting of siltstone fragments, four hematite manuports, four granite manuports, one fire-cracked quartzite manuport, two rounded cobble manuports, one limestone manuport, one slate manuport, one sandstone manuport, one siltstone manuport, 25 lots consisting of non-human unburned bone fragments, nine lots consisting of non-human burned bone fragments, one lot consisting of indeterminant seeds, two lots consisting of burned nutshell, four lots consisting of unmodified shell fragments, one lot consisting of charcoal, three lots consisting of fire-cracked rocks, and three lots consisting of unmodified pebbles.

Aboriginal Land

The human remains and associated funerary objects in this notice were removed from known geographic locations. These locations are the aboriginal lands of one or more Indian Tribes. The following information was used to identify the aboriginal land: a final judgment of the Indian Claims Commission or the United States Court of Claims, a treaty, an Act of Congress, or an Executive Order.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes, the ISMHS has determined that:

- The human remains described in this notice represent the physical remains of 99 individuals of Native American ancestry.
- The 211 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- No relationship of shared group identity can be reasonably traced between the human remains and associated funerary objects and any Indian Tribe.
- The human remains and associated funerary objects described in this notice were removed from the aboriginal land of the Absentee-Shawnee Tribe of Indians of Oklahoma; Delaware Nation, Oklahoma; Delaware Tribe of Indians; Eastern Shawnee Tribe of Oklahoma; Miami Tribe of Oklahoma; Peoria Tribe of Indians of Oklahoma; Shawnee Tribe; and The Osage Nation.

Requests for Disposition

Written requests for disposition of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for disposition may be submitted by:

1. Any one or more of the Indian Tribes identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization, or who shows that the requestor is an aboriginal land Indian Tribe.

Disposition of the human remains and associated funerary objects described in this notice to a requestor may occur on or after September 11, 2023. If competing requests for disposition are received, the ISMHS must determine the most appropriate requestor prior to disposition. Requests for joint disposition of the human remains and associated funerary objects are considered a single request and not competing requests. The ISMHS is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9 and 10.11.

Notice of Inventory Completion: University of Georgia Laboratory of Archaeology, Athens, GA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Georgia Laboratory of Archaeology has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice. The human remains and associated funerary objects were removed from Dade County, GA.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after September 11, 2023.

ADDRESSES: Dr. Amanda Roberts Thompson, University of Georgia Laboratory of Archaeology, 1125 E. Whitehall Road, Athens, GA 30605, telephone (706) 542–8373, email *arobthom@uga.edu.*

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the University of Georgia Laboratory of Archaeology. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the University of Georgia Laboratory of Archaeology.

Description

Ancestral remains representing, at minimum, 13 individuals were removed from 9DD25, the Tunacunnhee site, in Dade County, GA. This site is located near Trenton, GA, a few hundred yards east of Lookout Creek and several miles south of the junction of Lookout Creek and the Tennessee River. In 1973, these human remains were excavated during a University of Georgia (UGA) field school led by Joseph R. Caldwell and Richard W. Jefferies. All eight of the mounds at the Tunacunnhee site were tested during the 1973 field season, with a total surface area of 8,000 feet was excavated. Since being removed, the collection has been housed at the University of Georgia Laboratory of Archaeology. The 304 associated funerary objects consist of indigenous ceramics, lithics, copper plates, mica, copper and silver pan pipes, copper earspools, copper pin, copper and silver fragments, woven materials, burnt clay, faunal remains, drilled bear canines, drilled shark teeth, raptor talons, and bone beads.

Ancestral remains representing, at minimum, three individuals were removed from site 9DD57, Dyar Rockshelter, in Dade County, GA, during a survey conducted by Bruce Smith in 1975. At the time the site was surveyed, a collection was made from the surface of the cave as well as from

test pits and areas just outside the cave. Since being removed, the collection has been housed at the University of Georgia Laboratory of Archaeology. No associated funerary objects are present.

Ancestral remains representing, at minimum, one individual were removed from site 9DD35, Bone Cave, in Dade County, GA, during a survey conducted by Bruce Smith in 1975. At the time the site was surveyed, a collection was made from the surface of the site. Since being removed, the collection has been housed at the University of Georgia Laboratory of Archaeology. The human remains belong to an individual of indeterminate age and sex. No associated funerary objects are present.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological and geographical.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the University of Georgia Laboratory of Archaeology has determined that:

- The human remains described in this notice represent the physical remains of 17 individuals of Native American ancestry.
- The 304 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Cherokee Nation; Eastern Band of Cherokee Indians; Kialegee Tribal Town; Poarch Band of Creek Indians; Shawnee Tribe; The Muscogee (Creek) Nation; Thlopthlocco Tribal Town; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after September 11, 2023. If competing requests for repatriation are received, the University of Georgia Laboratory of Archaeology must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The University of Georgia Laboratory of Archaeology is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: August 2, 2023.

Description

CA–BUT–3820/H

Human remains representing, at minimum, two individuals were removed from Butte County, CA. In the spring of 1976, Bidwell Adobe (CA–BUT–3820/H) was excavated by M. Kowta and other archeologists affiliated with California State University, Chico. This site is part of the Bidwell Mansion State Historic Park and under the legal control of the California Department of Parks and Recreation. The human remains, funerary objects, and other items from this excavation are in the custody of California State University, Chico. The 3,822 associated funerary objects are 285 organics, 81 lots consisting of debitage, 15 modified stone fragments, two lots of projectile points, two shell fragments, 1,281 samples of charcoal, one sample of soil, 2,055 faunal elements, 72 modified faunal elements, 20 pieces of clay, three modified fragments of clay, one lot of basalt flakes, one lot of cobble core-tools, one lot of flakes, one lot of beads, and one lot of pestles.

In 1987, Bidwell Adobe (CA–BUT–3820/H) was excavated by Keith Johnson and other archeologists affiliated with California State University, Chico under agreement with the California Department of Parks and

Recreation. This site is part of the Bidwell Mansion State Historic Park and under the legal control of California Department of Parks and Recreation. The funerary objects and other items from this excavation are in the custody of the California Department of Parks and Recreation. The five associated funerary objects are one lot of basalt flakes, one lot of flake scrapers, one lot of glass beads, one lot of hammerstone, and one lot of projectiles. There were no human remains recorded.

Human remains representing, at minimum, one individual were removed from Butte County, CA. In 1990, Bidwell Adobe (CA–BUT–3820/H) was excavated by Keith Johnson and other archeologists affiliated with California State University, Chico under agreement with the California Department of Parks and Recreation. This site is part of the Bidwell Mansion State Historic Park and under the legal control of the California Department of Parks and Recreation. The funerary objects and other items from this excavation are in the custody of the California Department of Parks and Recreation. The three associated funerary objects are one lot of basalt flakes, one lot of obsidian flakes, and one lot of projectile points.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, historical, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the California Department of Parks and Recreation and California State University, Chico have determined that:

- The human remains described in this notice represent the physical remains of three individuals of Native American ancestry.
- The 3,830 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Mechoopda Indian Tribe of Chico Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after September 11, 2023. If competing requests for repatriation are received, the California Department of Parks and Recreation and California State University, Chico must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The California Department of Parks and Recreation and California State University, Chico.is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: August 2, 2023.

Notice of Inventory Completion: Fowler Museum at University of California Los Angeles, Los Angeles, CA, and California Department of Transportation, Sacramento, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the California Department of Transportation (Caltrans) with the assistance of the Fowler Museum at University of California, Los Angeles (UCLA) and has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice. The human remains and associated funerary objects were removed from Los Angeles County, CA.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after September 11, 2023.

ADDRESSES: Emily Castano, California Department of Transportation, P.O. Box 942874 MS 27, Sacramento, CA 94271–0001, telephone (916) 956–0098, email *emily.castano@dot.ca.gov.*

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of Caltrans. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by Caltrans.

Description

In 1997, human remains representing, at minimum, three individuals were removed from site CA–LAN–2233 in Los Angeles County, CA. Caltrans initiated an emergency effort to recover burials located in the path of a construction project to improve State Route 126. Following the recovery, human remains and one associated funerary object were sent to the University of California, Riverside (UCR) radiocarbon dating lab for dating. In August of 2021, UCR sent the human remains and the associated funerary object listed in this notice to the Fowler Museum at UCLA. The one associated funerary object is an elk antler.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes,

peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, geographical, historical, oral traditional, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, Caltrans has determined that:

- The human remains described in this notice represent the physical remains of three individuals of Native American ancestry.
- The one object described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Santa Ynez Band of Chumash Mission Indians of the Santa Ynez Reservation, California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after September 11, 2023. If competing requests for repatriation are received, Caltrans must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. Caltrans is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: August 2, 2023.

Melanie O'Brien,

Manager, National NAGPRA Program.

BILLING CODE 4312–52–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Control Number 1010–NEW; Docket ID: BOEM–2023–0004]

Agency Information Collection Activities; North Atlantic Right Whale Research and Management Activities

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) proposes a new information collection request (ICR).

DATES: Comments must be received by the Office of Management and Budget (OMB) no later than September 11, 2023.

ADDRESSES: Submit your written comments on this ICR to the OMB's desk officer for the Department of the Interior at *www.reginfo.gov/public/do/PRAMain.* From the *www.reginfo.gov/public/do/PRAMain* landing page, find this information collection by selecting ''Currently under Review—Open for Public Comments'' or by using the search function. Please provide a copy of your comments by parcel delivery service or U.S. mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to *anna.atkinson@boem.gov.* Please reference OMB Control Number 1010–NEW in the subject line of your comments. You may also comment by searching the docket number ''BOEM–2023–0004'' at *www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: Anna Atkinson by email at *anna.atkinson@boem.gov* or by telephone at 703–787–1025. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

Title of Collection: ''North Atlantic Right Whale Research and Management Activities''

Abstract: BOEM is working on a project to identify and synthesize current North Atlantic right whale (NARW) research and management activities conducted by State and Federal government researchers, academic institutions, and non-governmental organizations (NGOs). This project includes identification of mitigation efforts to avoid or limit impacts on NARWs from offshore wind energy development. This information will provide essential data and stakeholder feedback so that BOEM managers and scientists are better able to predict, mitigate, and monitor any potential conflicts between NARWs and offshore wind energy development.

An important component of this project is the development of the NARW synthesis report, which will include a summary of: (1) existing sources of information related specifically to understanding presence, distribution, and density of NARWs in and around wind energy areas offshore the U.S. Atlantic coast; (2) current approaches for avoiding or limiting impacts to NARWs during construction and operation of offshore wind energy facilities; (3) a listing of mitigation measures recommended by others but not yet adopted; (4) current monitoring requirements and their implementation; and (5) an accounting of emerging technologies that may allow monitoring at project and regional scales.

In order to develop the synthesis report, BOEM seeks OMB approval for a set of standardized questions for NARW stakeholders regarding their activities to understand impacts from offshore wind energy projects on the whales and to ensure effective mitigation monitoring. The questions are designed to learn of recent and ongoing research and management strategies employed by relevant State and Federal governments, academic

institutions, and NGOs, including outcomes of prior workshops and planning bodies. BOEM has partnered with the Blue World Research Institute to implement the questionnaire. The questionnaire comprises approximately 20 questions that ask respondents about: (1) their organization; (2) information on current monitoring and research activities, such as objective, location, scope, methods, timelines, outcomes and challenges, and on contributions to NARW conservation or impact reduction; (3) related ancillary information, such as type of study, next steps, and suggestions for priority topics for future funding ; and (4) additional comments and discussion. The questionnaire avoids sensitive topics or matters that are commonly considered private. The results will be summarized as part of the NARW synthesis report.

Additionally, BOEM plans to conduct directed interviews of participants who indicate their willingness to provide additional feedback on future research priorities and management needs. This feedback will be compiled in a final report.

OMB Control Number: 1010–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: State (and Federal) government researchers, academic institutions, and NGOs.

Total Estimated Number of Annual Responses: 253 responses (213 questionnaire respondents and 40 interviewees).

Total Estimated Number of Annual Burden Hours: 111 hours (40 annual burden hours for interviews and 71 annual burden hours for questionnaire).

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Non-hour Burden Cost: There is no non-hour cost burden associated with this collection.

A **Federal Register** notice with a 60-day public comment period on this proposed ICR was published on February 24, 2023 (88 FR 11953). BOEM received one public comment that opposed offshore wind energy projects and the use of sonar due to potential impacts on whales and dolphins. BOEM is committed to assessing and, to the extent possible, reducing the effects of potential environmental impacts on marine life and their habitats. The purpose of this strategy is to protect and promote the recovery of the NARW while responsibly developing offshore wind energy. No change in the burden was required as a result of the comment received.

BOEM is again soliciting comments on the proposed ICR. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record and will be available for public review on *www.reginfo.gov.* You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available. Even if BOEM withholds your information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA). If your comment is requested under FOIA, your information will only be withheld if BOEM determines that a FOIA exemption to disclosure applies. BOEM will make such a determination in accordance with the Department of the Interior's (DOI's) FOIA regulations and applicable law.

In order for BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequence of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM protects proprietary information in accordance with FOIA (5 U.S.C. 552) and DOI's implementing regulations (43 CFR part 2).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Karen Thundiyil,

Chief, Office of Regulations, Bureau of Ocean Energy Management.

[FR Doc. 2023–17126 Filed 8–9–23; 8:45 am]

BILLING CODE 4340–98–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA–1243]

Importer of Controlled Substances Application: Caligor Coghlan Pharma Services

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of application.

SUMMARY: Caligor Coghlan Pharma Services has applied to be registered as an importer of basic class(es) of controlled substance(s). Refer to Supplementary Information listed below for further drug information.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants therefore, may submit electronic comments on or objections to the issuance of the proposed registration on or before September 11, 2023. Such persons may also file a written request for a hearing on the application on or before September 11, 2023.

ADDRESSES: The Drug Enforcement Administration requires that all comments be submitted electronically through the Federal eRulemaking Portal, which provides the ability to type short comments directly into the comment field on the web page or attach a file for lengthier comments. Please go to *https://www.regulations.gov* and follow the online instructions at that site for submitting comments. Upon submission of your comment, you will receive a Comment Tracking Number. Please be aware that submitted comments are not instantaneously available for public view on *https://www.regulations.gov.* If you have received a Comment Tracking Number, your comment has been successfully submitted and there is no need to resubmit the same comment. All requests for a hearing must be sent to: (1) Drug Enforcement Administration, Attn: Hearing Clerk/OALJ, 8701 Morrissette Drive, Springfield, Virginia 22152; and (2) Drug Enforcement Administration, Attn: DEA **Federal Register** Representative/DPW, 8701 Morrissette Drive, Springfield, Virginia 22152. All requests for a hearing should also be sent to: Drug Enforcement Administration, Attn: Administrator, 8701 Morrissette Drive, Springfield, Virginia 22152.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.34(a), this is notice that on July 11, 2023, Caligor Coghlan Pharma Services, 1500 Business Park Drive, Unit B, Bastrop, Texas 78602, applied to be registered as an importer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
Lysergic acid diethylamide	7315	I
5-Methoxy-N,N-dimethyltryptamine.	7431	I
Tapentadol	9780	II

The company plans to import the listed controlled substances as finished dosage units for use in clinical trials. No other activities for these drug codes are authorized for this registration.

Approval of permit applications will occur only when the registrant's business activity is consistent with what is authorized under 21 U.S.C. 952(a)(2). Authorization will not extend to the import of Food and Drug Administration-approved or non-approved finished dosage forms for commercial sale.

Claude Redd,

Acting Deputy Assistant Administrator.

BILLING CODE 4410–09–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA–1242]

Bulk Manufacturer of Controlled Substances Application: Continuus Pharmaceuticals

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of application.

SUMMARY: Continuus Pharmaceuticals has applied to be registered as a bulk manufacturer of basic class(es) of controlled substance(s). Refer to Supplementary Information listed below for further drug information.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants therefore, may submit electronic comments on or objections to the issuance of the proposed registration on or before October 10, 2023. Such persons may also file a written request for a hearing on the application on or before October 10, 2023.

ADDRESSES: The Drug Enforcement Administration requires that all comments be submitted electronically through the Federal eRulemaking Portal, which provides the ability to type short comments directly into the comment field on the web page or attach a file for lengthier comments. Please go to *https://www.regulations.gov* and follow the online instructions at that site for submitting comments. Upon submission of your comment, you will receive a Comment Tracking Number. Please be aware that submitted comments are not instantaneously available for public view on *https://www.regulations.gov.* If you have received a Comment Tracking Number, your comment has been successfully submitted and there is no need to resubmit the same comment.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.33(a), this is notice that on July 6, 2023, Continuus Pharmaceuticals, 256 West Cummings Park, Woburn, Massachusetts 01801, applied to be registered as a bulk manufacturer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
Fentanyl	9801	II

The company plans to bulk manufacture the above listed controlled substance for research and development purposes only. No other activities for these drug codes are authorized for this registration.

Approval of permit applications will occur only when the registrant's business activity is consistent with what is authorized under 21 U.S.C. 952(a)(2). Authorization will not extend to the import of Food and Drug Administration-approved or non-approved finished dosage forms for commercial sale.

NUCLEAR REGULATORY COMMISSION

[NRC–2023–0112]

Discontinuation of the State of New York's Sealed Source and Device Evaluation and Approval Authority

AGENCY: Nuclear Regulatory Commission.

ACTION: Discontinuation of the State of New York's regulatory authority and reassumption of U.S. Nuclear Regulatory Commission's authority.

SUMMARY: Notice is hereby given that effective August 9, 2023, the U.S. Nuclear Regulatory Commission (NRC) has assumed regulatory authority to evaluate and approve sealed source and device (SS&D) applications in the State of New York and approved the Governor of the State of New York's request to relinquish this authority.

DATES: The NRC has assumed regulatory authority for evaluating and approving SS&D applications on August 9, 2023.

ADDRESSES: Please refer to Docket ID NRC–2023–0112 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2023–0112. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Robert Johnson, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–7314, email: *Robert.Johnson@nrc.gov.*

SUPPLEMENTARY INFORMATION: Section 274b. of the Atomic Energy Act (AEA) of 1954, as amended, provides the authority for NRC to enter into agreements with States that allow the States to assume, and the NRC to discontinue, regulatory authority over specified AEA radioactive materials and activities. On October 15, 1962, New York entered a section 274b. Agreement with the Atomic Energy Commission (the predecessor regulatory agency to the NRC) to regulate source material, byproduct material, and special nuclear material in quantities not sufficient to form a critical mass. This Agreement also provides the State regulatory authority to evaluate and approve SS&D applications.

On May 9, 2023, the NRC received a letter from New York Governor Kathy Hochul (ADAMS Accession No. ML23131A254) requesting discontinuation of the State's regulatory authority to evaluate and approve SS&D applications and for reassumption of this authority by the NRC. The Commission approved the request and has notified the State of New York that effective August 9, 2023, the NRC has reassumed authority to evaluate and approve SS&D applications within the State (ADAMS Accession No. ML23138A033). The State of New York will retain authority to regulate the manufacture and use of SS&Ds within the State in accordance with its section 274b. Agreement with the NRC.

Dated: August 3, 2023.

For the Nuclear Regulatory Commission.

Brooke P. Clark,

Secretary of the Commission.

BILLING CODE 7590–01–P

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2023–210 and CP2023–214; MC2023–211 and CP2023–215]

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* August 14, 2023.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at *http://www.prc.gov.* Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (*http://www.prc.gov*). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.[1]

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)

1. *Docket No(s).:* MC2023–210 and CP2023–214; *Filing Title:* USPS Request to Add Priority Mail Express International, Priority Mail International & First-Class Package International Service Contract 24 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* August 4, 2023; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Katalin K. Clendenin; *Comments Due:* August 14, 2023.

2. *Docket No(s).:* MC2023–211 and CP2023–215; *Filing Title:* USPS Request to Add Priority Mail & USPS Ground Advantage Contract 15 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* August 4, 2023; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Christopher C. Mohr; *Comments Due:* August 14, 2023.

This Notice will be published in the **Federal Register**.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98061; File No. SR–CboeEDGX–2023–048]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Enhance Its Drill-Through Protection Processes for Simple Orders and Make Other Clarifying Changes

August 4, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on July 24, 2023, Cboe EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX'') proposes to enhance its drill-through protection processes for simple orders and make other clarifying changes. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/options/regulation/rule_filings/edgx/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. *Purpose*

The purpose of this rule filing is to amend Rule 21.17, Additional Price Protection Mechanisms and Risk Controls, to enhance the drill-through protection process for simple orders and make other clarifying changes.

Drill-through price protection is currently described in Exchange Rule 21.17(a)(4). Under Rule 21.17(a)(4)(A), if a buy (sell) order enters the EDGX Options Book [3] at the conclusion of the opening auction process or would execute or post to the EDGX Options Book at the time of order entry, the System [4] executes the order up to a buffer amount (the Exchange determines the buffer amount on a class and premium basis) above (below) the offer (bid) limit of the Opening Collar or the National Best Offer (''NBO'') (National Best Bid (''NBB'')) that existed at the time of order entry, respectively (the ''drill-through price'').[5]

Current Rule 21.17(a)(4)(B) (as amended, proposed Rule 21.17(a)(4)(C)) [6] establishes an iterative drill-through process, whereby the Exchange permits orders to rest in the Book for multiple time periods and at more aggressive displayed prices during each time period.[7] Specifically, the System enters the order in the Book with a displayed price equal to the drill-through price (unless the terms of the order instruct otherwise).[8] The order (or unexecuted portion) will rest in the Book at the drill-through price for the duration of consecutive time periods (the Exchange determines on a class-by-class basis the length of the time period in milliseconds, which may not exceed three seconds).[9] Following the end of each period, the System adds (if a buy order) or subtracts (if a sell order) one buffer amount (the Exchange determines the buffer amount on a class-by-class basis) to the drill-through price displayed during the immediately preceding period (each new price becomes the ''drill-through price'').[10] The order (or unexecuted portion) rests in the Book at that new drill-through price for the duration of the subsequent period. The System applies a timestamp to the order (or unexecuted portion) based on the time it enters or is re-priced in the Book for priority reasons. The order continues through this iterative process until the earliest of the following to occur: (a) the order fully executes; (b) the User [11] cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the order rests in the Book at its limit price, subject to a User's instructions.

Currently, the above-described iterative drill-through process does not apply to market orders. Specifically, if a buy (sell) market order would execute at the time of order entry, the System executes the order up to the Exchange-determined buffer amount above (below) the NBO (NBB) at the time of order entry and then rejects any remaining amount. For example, suppose a market order to buy two contracts enters the System; assume that the drill-through price buffer for a certain option series is $0.90 and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. One contract in the market order will execute against the 7.00 offer quote. The remaining one contract of the market order is cancelled, because the next best offer of 8.00 is 1.00 above the NBO, which is more than the 0.90 buffer amount.

The Exchange proposes for market orders with a Time-in-Force of Day to go through the iterative drill-through process described above.[12] The Exchange also proposes to amend proposed Rule 21.17(a)(4)(C) [13] to clarify that limit orders with a Time-in-Force of Day, GTC, or GTD also go through the iterative drill-through process. In the above example, rather than cancel the remaining one contract, the System would rest the one contract in the Book at the drill-through price of 7.90 (*i.e.* the NBO plus the buffer amount) for the Exchange-determined time period. At the end of that time period, assuming the market has not changed, the remaining one contract would execute against the 8.00 offer, which is within a buffer amount of the subsequent drill-through price of 8.80. As a result, like super-aggressive limit orders (except for those with Time-in-Force of Immediate-or-Cancel (''IOC'') or Fill-or-Kill (''FOK'')) do today, market orders (except for those with Time-in-Force of IOC) will have additional execution opportunities pursuant to the drill-through process. As the proposed rule change only applies to market orders with a Time-in-Force of Day, and the drill through protections described under current Rule 21.17(a)(4)(C) continue to apply only to those limit orders with a Time-in-Force of Day, GTC, or GTD, the Exchange also proposes to adopt proposed Rule 21.17(a)(4)(B) [14] to specify that the System will cancel or reject any market order with Time-in-Force of IOC (or unexecuted portion) or limit order with a Time-in-Force of IOC or FOK (or unexecuted portion) not executed pursuant to 21.17(a)(4)(A).[15] The Exchange believes it is appropriate to not have a market order with a Time-in-Force of IOC to go through the iteration process, because the iteration process would be inconsistent with the IOC instruction (and thus the user's intent). Further, the Exchange proposes to amend Rule 21.17(a)(4)(A) to more

[3] ''EDGX Book'' means the System's electronic file of orders. *See* Rule 1.5 (definition of, ''EDGX Book'').

[4] ''System'' means the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking, execution and, when applicable, routing away. *See* Rule 1.5 (definition of, ''System'').

[5] *See* Rule 21.17(a)(4)(A).

[6] As part of the rule changes described herein, the Exchange proposes to renumber current subparagraph (a)(4)(B) to be proposed subparagraph (a)(4)(C), and to renumber current subparagraph (a)(4)(C) to be proposed subparagraph (a)(4)(D).

[7] The Exchange will announce to Members the buffer amount and the length of the time periods. The Exchange notes that each time period will be the same length (as designated by the Exchange), and the buffer amount applied for each time period will be the same.

[8] Currently, the drill through protections described under current Rule 21.17(a)(4)(B) apply only to a limit order with a Time-in-Force of Day, Good-til-Cancel (''GTC''), or Good-til-Day (''GTD''). This rule proposal also seeks to clarify which orders are subject to the drill-through protections, as describe herein.

[9] *See* current Rule 21.17(a)(4)(B)(i) (as amended, Rule 21.17(a)(4)(C)(i)). The proposed rule change defines this time period as an ''iteration.''

[10] *See* current Rule 21.17(a)(4)(B)(ii) (as amended, Rule 21.17(a)(4)(C)(ii)).

[11] The term ''User'' shall mean any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3. *See* Rule 1.5.

[12] *See* proposed Rule 21.17(a)(4)(C).

[13] *See* supra note 8.

[14] *See* supra note 8.

[15] There is no change to the handling of market orders with a Time-in-Force of GTC or GTD as a result of this rule change; such orders will continue to be rejected by the Exchange.

generally describe when applicable order types may become subject to drill-through protection. Specifically, the Exchange proposes to specify that the protections described in Rule 21.17(a)(4)(A) become applicable if a buy (sell) order, to which Rule 21.17(a)(4)(A) would apply, (i) enters the Book at the conclusion of opening auction process, or (ii) would execute or post to the Book when it enters the Book.[16]

The Exchange also proposes to amend Rule 21.17(a)(5)(A)(ii) to exclude from the current protections for market orders in no-bid series certain orders that would be otherwise subject to the drill-through protection under the proposed rule changes. Currently, under Rule 21.17(a)(5)(A)(ii), if the System receives a sell market order in a series after it is open for trading with an NBB of zero, and the NBO in the series is greater than $0.50, the System cancels or rejects the market order. The Exchange proposes amending this protection in the event a drill-through process is in progress. Specifically, the Exchange proposes to amend Rule 21.17(a)(5)(A)(ii) to note that in the event the System receives a sell market order in a series after it is open for trading with an NBB of zero and the NBO in the series is greater than $0.50, if the drill-through process is in progress for sell orders and the sell market order would be subject to drill-through protection, then the order would join the on-going drill-through process in the then-current iteration and at the then-current drill-through price, regardless of NBBO. The Exchange believes it is not optimal for these orders to be immediately booked at the minimum tick increment, as under the proposed rule change, such orders would instead, be subject to the drill-through protection mechanism described under Rule 21.17(a)(4), which may allow opportunity for execution at a more beneficial price level than the minimum tick increment.

Further, the Exchange proposes to amend Rule 21.17(a)(1) to specifically exclude orders that would be subject to drill-through protection from the market order NBBO width protections described therein. Currently, under Rule 21.17(a)(1), if a User submits a market order to the System when the NBBO width is greater than x% of the midpoint of the NBBO, subject to a minimum and maximum dollar amount (as determined by the Exchange on a class-by-class basis), the System cancels or rejects the market order. The Exchange proposes amending Rule 21.17(a)(1) to exclude Stop Orders [17] and Market-on-Close orders from this protection. Such orders may intentionally be further away from the NBBO at the time the order is entered, and the protection may cause the orders to be inadvertently rejected pursuant to this check. The Exchange believes it is not optimal for these orders to be subject to the market order NBBO width protection, as the check may inadvertently cause rejections for orders that may otherwise not have an opportunity to execute if they are immediately cancelled due to market width. Under the proposed rule change, such orders would instead, upon entry into the Book (when elected in accordance with their definitions), be subject to the drill-through protection mechanism described under Rule 21.17(a)(4). The Exchange also proposes a clarification to proposed Rule 21.17(a)(4)(D).[18] Currently, under Rule 21.17(a)(4)(D), if multiple Stop (Stop-Loss) or Stop-Limit [19] orders to buy (sell) have the same stop price and are thus triggered by the same trade price or NBBO, and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange proposes to remove the conditional language noting that such Stop (Stop-Loss) or Stop-Limit orders to buy (sell) must have the same stop price, as it is possible that orders with different stop prices may be triggered by the same trade price or NBBO. Further, the Exchange proposes to add language stating that, where multiple orders are simultaneously re-priced, the orders will be prioritized under proposed Rule 21.17(a)(4)(C)(v) [20] and will be sequenced based on the original time each order was entered into the Book.

For example, assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. Additionally, the following Stop orders are being held in the System when Quote 2 is updated to 2 @4.00 × 1 @6.50 (the System received these stop orders in the below sequence):

Order 1: Sell 1 @Market, Stop Price = $6.50

Order 2: Sell 1 @Market, Stop Price = $6.55

Order 3: Sell 1 @$3.95, Stop Price = $6.60

Each of orders 1, 2 and 3 have a stop price less than the NBO, and will therefore be triggered by the 6.50 quote and enter the Book for execution or posting. A drill-through price for all three orders is set at the contra-side NBB of 5.00. Per proposed Rule 21.17(a)(4)(C), the orders will go through the drill-through process as follows:

1. Order 1 will execute against Quote 1 @$5.00.

2. Orders 2 and 3 are posted to sell at $4.10 for the Exchange-determined time period.

3. Drill-through process continues for orders 2 and 3 until they are canceled or executed.

As amended, under Rule 21.17(a)(4)(D), all Stop (Stop-Loss) and Stop-Limit orders elected as a result of the same election trigger (NBBO update or last sale price) will continue to use the same reference price for drill-through (even though they may have different stop prices).

The Exchange proposes to amend Rule 21.17(a)(4)(C)(ii),[21] to specify that if at any time during the drill-through process, the NBO (NBB) changes to be below (above) the current drill-through price, such NBO (NBB) will become the new drill-through price and a new drill-through will immediately begin. As a result, any improvements to the market that occur while the drill-through is in process will be incorporated, thereby providing Users with further opportunity to be priced within the market while still being protected. Under the proposed rule change, any limit order with a price that is less aggressive than the new drill-through price would be entered in the Book at its limit price.

The Exchange also proposes to add Rule 21.17(a)(4)(C)(iv) [22] to provide that if the System receives a market or limit

[16] This includes, for example, when a Stop (Stop-Loss) or Stop-Limit order is elected.

[17] A ''Stop Order'', or Stop (Stop-Loss) Order, is an order that becomes a market order when the stop price is elected. A Stop Order to buy is elected when the consolidated last sale in the security occurs at, or above, the specified stop price. A Stop Order to sell becomes a limit order when the consolidated last sale in the security occurs at, or below, the specified stop price. *See* Rule 21.1(d)(11).

[18] *See* supra note 8.

[19] A ''Stop Limit Order'' is an order that becomes a limit order when the stop price is elected. A Stop Order to buy is elected when the consolidated last sale in the option occurs at or above, or the NBB is equal to or higher than, the specified stop price. A Stop Order to sell is elected when the consolidated last sale in the option occurs at or below, or the NBO is equal to or lower than, the specified stop price. *See* Rule 21.1(d)(12) (definition of ''Stop-Limit'' order).

[20] *See* supra note 8.

[21] *See* supra note 8.

[22] As a result of the additional provisions described herein, the proposed rule change renumbers current subparagraph (iv) to be proposed subparagraph (vi) and current subparagraph (v) to be proposed subparagraph (viii). *See also* supra note 8.

order that would be subject to the drill-through process while a drill-through is in progress in the same series, the order joins the ongoing drill-through process in the then-current iteration and at the then-current drill-through price. Under the proposed rule, orders that come in while a drill-through is in process receive the benefit of joining the drill-through at the NBBO at the time of entry, as opposed to immediately executing or being displayed at a more aggressive price than the drill-through price. By way of illustration, consider the following example:

Assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. The System receives the following orders in the below sequence:

Order 1: Sell 1 @Market, Stop Price = $6.50
Order 2: Sell 1 @Market, Stop Price = $6.55
Order 3: Sell 1 @$3.95, Stop Price $6.60
Order 4: Sell 2 @Market, Stop Price = $4.50

During this time, Quote 2 is updated to: 2 @4.00 × 1 @6.50. Orders 1, 2, and 3 are elected, and the drill-through reference price for all three orders is set to contra-side NBB of 5.00.

1. Order 1 executes Quote 1 @$5.00.

2. Orders 2 and 3 are posted to sell @ $4.10 (drill-through price) for the Exchange-determined time period.

3. Order 4 is elected due to updated best offer of $4.10, and joins Orders 2 and 3 at the iterative drill-through price of $4.10. The offer is updated to 4 @ $4.10.

4. Order 5 (Sell 10 @Market (Day)) and Order 6 (Sell 1 @$4.05 Limit (Day)) enter the Book. Per proposed Rule 21.17(a)(4)(C)(iv), Orders 5 and 6 join the drill-through iteration at the drill-through reference price of $4.10, and the best offer is updated to 15 @$4.10.

5. The drill-through process continues for orders 2, 3, 4, 5, and 6 until the contracts are canceled or executed.

Because the proposed rule change may result in multiple orders going through the drill-through process at the same price and at the same time, the proposed rule change also describes how these orders will be prioritized and allocated when executing against resting interest or incoming interest. Specifically, proposed Rule 21.17(a)(4)(C)(v)[23] states the System prioritizes orders that are part of the same drill-through iteration (A) based on the time the System enters or reprices them in the Book (*i.e.,* in time priority) when, after an iteration, the new drill-through price makes the order(s) marketable against resting orders and (B) in accordance with the applicable base allocation algorithm when executing against any incoming interest. The Exchange believes this is appropriate because incoming marketable orders would ultimately execute in time priority today. Additionally, having multiple orders execute in accordance with the applicable base allocation algorithm when executing against incoming interest is consistent with how resting orders execute against incoming interest.

Continuing from the above example, assume the drill-through process iterates to the next drill-through price, which would be $3.20. In doing so, Order 6 posts at its limit price of $4.05, and the rest of the orders are eligible to execute in time sequence against the resting $4.00 bid. Per proposed Rule 21.17(a)(4)(C)(v), the orders will go through the drill-through process as follows:

1. Order 2 (Sell 1 @Market) will execute against Quote 2 @$4.00

2. Order 3 (Sell 1 @$3.95) will execute against Quote 2 @$4.00

3. The Quote 2 is exhausted, and the next best bid is Quote 1 for 5 @$3.00

4. Remaining drill-through is Order 4 (Sell 2 @Market) and Order 5 (Sell 10 @ Market). Market is now 5 @$3.00 × 12 @$3.20, and the drill-through process continues until these contracts are executed or cancelled.

If, prior to the next drill-through iteration, Order 7 (buy 5 @$3.25) is entered and executes against Orders 4 and 5 at $3.20, the allocation will depend on the allocation algorithm for the relevant class, under the amended Rule.

1. If pro-rata, Order 7 trades 1 contract against Order 4 and 4 contracts against Order 5.

2. If price-time, Order 7 trades 2 contracts against Order 4 and 3 contracts against Order 5.

3. Remaining size on Order 4 (if applicable) and Order 5 will continue to drill-through as described in previous examples.

The Exchange also proposes to amend Rule 21.17(a)(4)(C)(vi).[24] Currently, the rule states that an order will continue through the drill-through process until the earliest of the following to occur: (a) the order fully executes; (b) the User cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the orders rests in the Book at its limit price, subject to a User's instruction. The Exchange proposes to amend part (c) to remove reference to when the order's limit price equals the drill-through price, since under the drill-through process, if a buy (sell) order's limit price equals the drill-through price during the application of the drill-through mechanism it will remain part of the drill-through process, until the order's limit price is less (greater) than the drill-through price, at which point it will rest in the Book at its limit price. The Exchange also proposes to remove reference to a User's instruction, as there is no additional instruction that would allow a User to choose a different order handling option once the buy (sell) order limit price is less (greater) than the drill-through price.

Finally, the Exchange proposes to add Rule 21.17(a)(4)(C)(vii) to specify that the drill-through protection mechanism applies during all trading sessions and to provide clarity as to what happens to orders that are undergoing the drill-through process at the end of a trading session. Under the proposed rule change, if an order(s) (or unexecuted portion(s)) is undergoing the drill-through process at the end of a Global Trading Hours (''GTH'')[25] session, then the drill-through process concludes and the order(s) (or unexecuted portions(s)) enters the Regular Trading Hours (''RTH'')[26] Queuing Book[27] as a market order or limit order (at its limits price) on that same trading day, subject to a User's instructions. If an order(s) (or unexecuted portion(s)) is undergoing the drill-through process at the end of its last eligible trading session for that trading day (*i.e.,* RTH), the drill-through process concludes. Any order (or unexecuted portion) with a Time-in-Force of (i) Day is canceled, and (ii) GTC or GTD enters the Queuing Book for the next eligible trading session (*i.e.,* GTH or RTH) as a market order or limit order (at its limit price).

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of

[23] *Id.*

[24] *Id.*

[25] The Exchange does not currently operate a GTH session. In the event the Exchange were to operate a GTH session, it would begin at 8:30 a.m. and go until 9:15 a.m. ET on Monday through Friday.

[26] *See* Rule 1.5(y) for the definition of Regular Trading Hours.

[27] *See* Rule 21.7 for the definition of Queuing Book.

Section 6(b) of the Act.[28] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [29] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [30] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposed rule change to enhance drill-through protections for simple orders and to make certain market orders eligible for drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors, because it will provide these orders with additional and consistent execution opportunities and protections. The primary purpose of the drill-through price protection is to prevent orders from executing at prices ''too far away'' from the market when they enter the Book for potential execution. The Exchange believes the proposed rule change is consistent with this purpose, because Users who submit market orders with a Time-in-Force of Day will receive the same level of drill-through price protection against execution at potentially erroneous prices that is currently afforded to supermarketable limit orders while receiving the same additional execution opportunities. Supermarketable limit orders currently go through the drill-through process, and market orders with a Time-in-Force of Day are functionally similar to supermarketable limit orders. Therefore, the Exchange believes it is appropriate to provide both types of orders with the same price protection.

Further, the proposed rule change to provide that any new market and limit orders that would be subject to drill-through protection will join any in-progress drill-through iterations and display at the then-current drill-through price (and the corresponding changes regarding allocation and prioritization) allows new orders to receive the same level of price protection as other orders undergoing the drill-through process. The proposed rule change will allow all orders additional execution opportunities while continuing to protect them against execution at potentially erroneous prices. Similarly, the Exchange believes the proposed change to consider changes to the NBO (NBB) during drill-through and to update the drill-through price to such NBO (NBB) should it be lower (higher) than the drill-through price will further provide opportunity for execution at reasonable prices by capturing any market moves that may result in more aggressive prices.

The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders.

Additionally, the Exchange believes changes to specifically exclude from market order NBBO width and market order in no-bid series protections certain orders that would be subject to drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors. Specifically, the Exchange believes the changes to exclude certain orders that would be subject to drill-through protection from market order NBBO width protections may reduce inadvertent rejection of such orders which may be purposely priced far away from the NBBO at the time of entry and may otherwise miss an opportunity for execution if immediately cancelled. The Exchange also believes the changes to exclude certain orders that would be subject to drill-through protection from market order in no-bid series protections may allow opportunity for execution at a more beneficial price level than if they were immediately booked at the minimum tick increment. This proposed rule change may increase execution opportunities for Users that submit such Stop (Stop-Loss) and Market-on-Close orders (in the case of market order NBBO width protections) and sell market orders with an NBB of zero when the NBO in the series is greater than $0.50 (in the case of market orders in no-bid series protections).

The Exchange believes the proposed change to Rule 21.17(a)(4)(D) will protect investors because it clarifies that if multiple Stop (Stop-Loss) and Stop-Limit orders are triggered by the same trade price or NBBO (even if the orders have different stop prices), and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange believes that the proposed rule change will bring greater transparency and clarity to the rulebook, thus benefitting investors.

Finally, the Exchange believes the proposed changes to clarify when an order ceases to remain a part of the drill-through process and to specify what happens to orders undergoing drill-through at the end of a trading session will protect investors by adding transparency to the rules regarding the drill-through functionality and provide greater certainty as to the application of the drill-through process.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the enhanced drill-through protection will apply to all marketable orders in the same manner. Additionally, it will provide the same price protection and execution opportunities to relevant market orders that are currently provided to supermarketable limit orders, which function in a similar manner.

The Exchange does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed enhancement to the drill-through protection is consistent with the current protection and provides relevant market orders with improved protection against execution at potentially erroneous prices through drill-through price protection in accordance with User instructions. Additionally, the proposed rule change relates specifically to a price protection offered on the Exchange and how the System handles orders as part of this price protection mechanism.

[28] 15 U.S.C. 78f(b).

[29] 15 U.S.C. 78f(b)(5).

[30] *Id.*

The Exchange believes the proposed rule change would ultimately provide all market participants with additional execution opportunities when appropriate while providing protection from erroneous execution. The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders. Without adequate risk management tools, Members could reduce the amount of order flow and liquidity they provide. Such actions may undermine the quality of the markets available to customers and other market participants. Accordingly, the proposed rule change is designed to encourage Members to submit additional order flow and liquidity to the Exchange. Accordingly, the proposed rule change is designed to encourage Members to submit additional order flow and liquidity to the Exchange. The proposed flexibility may similarly provide additional execution opportunities, which further benefits liquidity in potentially volatile markets. In addition, providing Members with more tools for managing risk will facilitate transactions in securities because, as noted above, Members will have more confidence protections are in place that reduce the risks from potential system errors and market events.

Finally, the proposed clarifying changes are not intended to have any impact on competition, but rather codify current functionality to add transparency to the Rules.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act[31] and subparagraph (f)(6) of Rule 19b–4 thereunder.[32]

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeEDGX–2023–048 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeEDGX–2023–048. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeEDGX–2023–048 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[33]

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011–01–P

[31] 15 U.S.C. 78s(b)(3)(A)(iii).

[32] 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98058; File No. SR–MIAX–2023–22]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To Amend Exchange Rule 404, Series of Option Contracts Open for Trading, To Implement a Low Priced Stock Strike Price Interval Program

August 4, 2023.

On June 5, 2023, Miami International Securities Exchange LLC filed with the Securities and Exchange Commission (''Commission''), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] a proposed rule change to amend Exchange Rule 404, Series of Option Contracts Open for Trading. The proposed rule change was published for comment in the **Federal Register** on June 22, 2023.[3] The Commission has received one comment on the proposed rule change.[4]

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Securities Exchange Act Release No. 97733 (June 15, 2023), 88 FR 40887.

[4] The comment is available at: *https://www.sec.gov/comments/sr-miax-2023-22/srmiax202322.htm.*

Section 19(b)(2) of the Act[5] provides that within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding, or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is August 6, 2023. The Commission is extending this 45-day time period.

The Commission finds it appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change. Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,[6] designates September 20, 2023 as the date by which the Commission shall either approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change (File No. SR–MIAX–2023–22).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[7]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98057; File No. SR–ISE–2023–14]

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce ISE's Options Regulatory Fee

August 4, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on July 25, 2023, Nasdaq ISE, LLC (''ISE'' or ''Exchange'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend ISE's Pricing Schedule at Options 7, Section 9 to reduce the ISE Options Regulatory Fee or ''ORF''.

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on August 1, 2023.

The text of the proposed rule change is available on the Exchange's website at *https://listingcenter.nasdaq.com/rulebook/ise/rules,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ISE proposes to lower its ORF from $0.0014 to $0.0013 per contract side on August 1, 2023. Previously, ISE lowered or waived its ORF in 2017, 2021 and 2022.[3] After a review of its regulatory revenues and regulatory costs, the Exchange proposes to reduce the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange's total regulatory costs.

Volumes in the options industry went over 900,000,000 in 2023. ISE has taken measures this year as well as in prior years to lower and waive its ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange's total regulatory costs. Despite those prior measures, ISE will need to reduce its ORF again to account for trading volumes in the first half of 2023 that were higher than the Exchange forecast for ORF assessment purposes, which resulted in the collection of more ORF revenues than anticipated in the first half of 2023. At this time, ISE believes that the options volume it experienced in the first half of 2023 is likely to persist. The anticipated options volume would continue to impact ISE's ORF collection which, in turn, has caused ISE to propose reducing the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, would not exceed the Exchange's total regulatory costs.

Collection of ORF

ISE will continue to assess its ORF for each customer option transaction that is either: (1) executed by a Member on ISE; or (2) cleared by an ISE Member at The Options Clearing Corporation (''OCC'') in the customer range,[4] even if the transaction was executed by a non-Member of ISE, regardless of the exchange on which the transaction occurs.[5] If the OCC clearing member is an ISE Member, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA[6]); and (2) if the OCC clearing member is not an ISE Member, ORF is collected only on the cleared customer contracts executed at ISE, taking into account any CMTA instructions which may result in collecting the ORF from a non-Member.[7]

[3] *See* Securities Exchange Act Release Nos. 81345 (August 8, 2017), 82 FR 37939 (August 14, 2017) (SR–ISE–2017–71) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend ISE's Schedule of Fees With Respect to the Options Regulatory Fee); 92577 (August 5, 2021), 86 FR 44092 (August 11, 2021) (SR–ISE–2021–16) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend ISE's Options Regulatory Fee); and 94070 (January 26, 2022), 87 FR 5524 (February 1, 2022) (SR–ISE–2022–02)(Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce ISE's Options Regulatory Fee).

[4] Participants must record the appropriate account origin code on all orders at the time of entry of the order. The Exchange represents that it has surveillances in place to verify that members mark orders with the correct account origin code.

[5] The Exchange uses reports from OCC when assessing and collecting the ORF.

[6] CMTA or Clearing Member Trade Assignment is a form of ''give-up'' whereby the position will be assigned to a specific clearing firm at OCC.

[7] By way of example, if Broker A, an ISE Member, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A's OCC Clearing account, ORF will be collected by ISE from Broker A's clearing account at OCC via direct debit. While this transaction was executed on a market other than ISE, it was cleared by an ISE Member in the member's OCC clearing account in the customer range, therefore there is a regulatory nexus between ISE and the transaction. If Broker A was not an ISE Member, then no ORF should be assessed and collected because there is no nexus;

In the case where a Member both executes a transaction and clears the transaction, the ORF will be assessed to and collected from that Member. In the case where a Member executes a transaction and a different Member clears the transaction, the ORF will be assessed to and collected from the Member who clears the transaction and not the Member who executes the transaction. In the case where a non-Member executes a transaction at an away market and a Member clears the transaction, the ORF will be assessed to and collected from the Member who clears the transaction. In the case where a Member executes a transaction on ISE and a non-Member clears the transaction, the ORF will be assessed to the Member that executed the transaction on ISE and collected from the non-Member who cleared the transaction. In the case where a Member executes a transaction at an away market and a non-Member clears the transaction, the ORF will not be assessed to the Member who executed the transaction or collected from the non-Member who cleared the transaction because the Exchange does not have access to the data to make absolutely certain that ORF should apply. Further, the data does not allow the Exchange to identify the Member executing the trade at an away market.

ORF Revenue and Monitoring of ORF

The Exchange monitors the amount of revenue collected from the ORF to ensure that it, in combination with other regulatory fees and fines, does not exceed regulatory costs. In determining whether an expense is considered a regulatory cost, the Exchange reviews all costs and makes determinations if there is a nexus between the expense and a regulatory function. The Exchange notes that fines collected by the Exchange in connection with a disciplinary matter offset ORF.

Revenue generated from ORF, when combined with all of the Exchange's other regulatory fees and fines, is designed to recover a material portion of the regulatory costs to the Exchange of the supervision and regulation of member customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. Regulatory costs include direct regulatory expenses and certain indirect expenses in support of the regulatory function. The direct expenses include in-house and third-party service provider costs to support the day-to-day regulatory work such as surveillances, investigations and examinations. The indirect expenses include support from such areas as Office of the General Counsel, technology, and internal audit. Indirect expenses were approximately 39% of the total regulatory costs for 2023. Thus, direct expenses were approximately 61% of total regulatory costs for 2023.[8]

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of its Members, including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities.

Proposal

Based on the Exchange's most recent review, the Exchange is proposing to reduce the amount of ORF that will be collected by the Exchange from $0.0014 per contract side to $0.0013 per contract side. The Exchange issued an Options Trader Alert on June 30, 2023 indicating the proposed rate change for August 1, 2023.[9]

The proposed reduction is based on current levels of options volume. The below table displays monthly total volume for 2023.[10]

Month	Total volume	Customer sides
January 2023	919,299,330	802,712,235
February 2023	883,234,837	780,284,838
March 2023	1,052,984,722	915,674991
April 2023	760,808,909	67,3183,772
May 2023	944,534,205	826,490,407
June 2023[11]	909,616,267	801,688,960

Options volumes remained higher in 2023 with March 2023 exceeding 1,000,000,000 total contracts, higher than any month in 2022. With respect to customer options volume, it also remains high in 2023. There can be no assurance that the Exchange's regulatory costs for the remainder of 2023 will not differ materially from the Exchange's budgeted amount, nor can the Exchange predict with certainty whether options volume will remain at the current level going forward. The Exchange notes however, that when combined with regulatory fees and fines, the revenue that may be generated utilizing an ORF rate of $0.0014 per contract side may result in revenue which exceeds the Exchange's estimated regulatory costs for 2023 if options volumes remain at levels higher than forecasted. ISE lowered its ORF in 2022 to account for the options volume in 2022. The Exchange proposes to reduce its ORF to $0.0013 per contract side to ensure that revenue does not exceed the Exchange's estimated regulatory costs in 2023. Particularly, the Exchange believes that reducing the ORF when combined with all of the Exchange's other regulatory fees and fines, would allow the Exchange to continue covering a material portion of its regulatory costs, while lessening the potential for generating excess revenue that may otherwise occur using the rate of $0.0014 per contract side.[12]

The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs. If the Exchange determines regulatory revenues may exceed or are projected to exceed regulatory costs, the Exchange will adjust the ORF by submitting a fee change filing to the Commission and

the transaction did not execute on ISE nor was it cleared by an ISE Member.

[8] These numbers are taken from the Exchange's 2023 Regulatory Budget.

[9] *See* Options Trader Alert 2023–15.

[10] Volume data in the table represents numbers of contracts; each contract has two sides.

[11] June numbers reflect volumes through June 29, 2023.

[12] The Exchange notes that its regulatory responsibilities with respect to Member compliance with options sales practice rules have largely been allocated to FINRA under a 17d–2 agreement. The ORF is not designed to cover the cost of that options sales practice regulation.

notifying [13] its Members via an Options Trader Alert.[14]

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[15] Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,[16] which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its members, and other persons using its facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [17] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes the proposed fee change is reasonable because customer transactions will be subject to a lower ORF fee as of August 1, 2023 and the amount of the lower fee will fund a reasonable portion of the Exchange's regulatory costs. Moreover, the proposed reduction is necessary for the Exchange to avoid collecting revenue, in combination with other regulatory fees and fines, that would be in excess of its anticipated regulatory costs.

The Exchange designed the ORF to generate revenues that would be less than the amount of the Exchange's regulatory costs to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs, which is consistent with the view of the Commission that regulatory fees be used for regulatory purposes and not to support the Exchange's business operations. As discussed above, however, after review of its regulatory costs and regulatory revenues, which includes revenues from ORF and other regulatory fees and fines, the Exchange determined that absent a reduction in ORF, it may collect revenue which would exceed its regulatory costs. Indeed, the Exchange notes that when taking into account the potential that recent options volume persists, it estimates the ORF may generate revenues that would cover more than the approximated Exchange's projected regulatory costs. As such, the Exchange believes it's reasonable and appropriate to reduce the ORF amount from $0.0014 to $0.0013 per contract side.

The Exchange also believes the proposed fee change is equitable and not unfairly discriminatory in that it is charged to all Members on all their transactions that clear in the customer range at OCC.[18] The Exchange believes the ORF ensures fairness by assessing higher fees to those Members that require more Exchange regulatory services based on the amount of customer options business they conduct. Regulating customer trading activity is much more labor intensive and requires greater expenditure of human and technical resources than regulating non-customer trading activity, which tends to be more automated and less labor-intensive. For example, there are costs associated with main office and branch office examinations (*e.g.,* staff expenses), as well as investigations into customer complaints and the terminations of registered persons. As a result, the costs associated with administering the customer component of the Exchange's overall regulatory program are materially higher than the costs associated with administering the non-customer component (*e.g.,* Member proprietary transactions) of its regulatory program. Moreover, the Exchange notes that it has broad regulatory responsibilities with respect to activities of its Members, irrespective of where their transactions take place. Many of the Exchange's surveillance programs for customer trading activity may require the Exchange to look at activity across all markets, such as reviews related to position limit violations and manipulation. Indeed, the Exchange cannot effectively review for such conduct without looking at and evaluating activity regardless of where it transpires. In addition to its own surveillance programs, the Exchange also works with other SROs and exchanges on intermarket surveillance related issues. Through its participation in the Intermarket Surveillance Group (''ISG'') [19] the Exchange shares information and coordinates inquiries and investigations with other exchanges designed to address potential intermarket manipulation and trading abuses. Accordingly, there is a strong nexus between the ORF and the Exchange's regulatory activities with respect to customer trading activity of its Members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal does not create an unnecessary or inappropriate intra-market burden on competition because the ORF applies to all customer activity, thereby raising regulatory revenue to offset regulatory expenses. It also supplements the regulatory revenue derived from non-customer activity. The Exchange notes, however, the proposed change is not designed to address any competitive issues. Indeed, this proposal does not create an unnecessary or inappropriate inter-market burden on competition because it is a regulatory fee that supports regulation in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) [20] of the Act and subparagraph (f)(2) of Rule 19b–4 [21] thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may

[13] The Exchange provides Members with such notice at least 30 calendar days prior to the operative date of the change. *See* Options Trader Alert 2023–15.

[14] The Exchange notes that in connection with this proposal, it provided the Commission confidential details regarding the Exchange's projected regulatory revenue, including projected revenue from ORF, along with projected regulatory expenses.

[15] 15 U.S.C. 78f(b).

[16] 15 U.S.C. 78f(b)(4).

[17] 15 U.S.C. 78f(b)(5).

[18] If the OCC clearing member is an ISE member, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA); and (2) if the OCC clearing member is not an ISE member, ORF is collected only on the cleared customer contracts executed at ISE, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.

[19] ISG is an industry organization formed in 1983 to coordinate intermarket surveillance among the SROs by cooperatively sharing regulatory information pursuant to a written agreement between the parties. The goal of the ISG's information sharing is to coordinate regulatory efforts to address potential intermarket trading abuses and manipulations.

[20] 15 U.S.C. 78s(b)(3)(A).

[21] 17 CFR 240.19b–4(f)(2).

temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) [22] of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–ISE–2023–14 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–ISE–2023–14. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–ISE–2023–14 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[23]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98064; File No. SR–NSCC–2022–802)]

Self-Regulatory Organizations; National Securities Clearing Corporation; Notice of No Objection to Advance Notice Related to Certain Enhancements to the Gap Risk Measure and the VaR Charge

August 4, 2023.

I. Introduction

On December 2, 2022, the National Securities Clearing Corporation (''NSCC'') filed with the Securities and Exchange Commission (''Commission'') advance notice SR–NSCC–2022–802 (''Advance Notice'') pursuant to section 806(e)(1) of Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, entitled Payment, Clearing and Settlement Supervision Act of 2010 (''Clearing Supervision Act'') [1] and Rule 19b–4(n)(1)(i) [2] under the Securities Exchange Act of 1934 (''Exchange Act'') [3] regarding certain enhancements to its gap risk charge and the volatility component of a member's required margin.[4] The Advance Notice was published for comment in the **Federal Register** on December 21, 2022.[5] On January 10, 2023, the Commission issued an extension of the review period for the Advance Notice.[6] On March 27, 2023, the Commission requested additional information from NSCC pursuant to section 806(e)(1)(D) of the Clearing Supervision Act, which tolled the Commission's period of review of the Advance Notice until 120 days [7] from the date the requested information was received by the Commission.[8] The Commission received NSCC's response to the Commission's request for additional information on April 28, 2023. The Commission has received comments regarding the changes proposed in the Advance Notice.[9] The Commission is hereby providing notice of no objection to the Advance Notice.

II. Background [10]

NSCC provides clearing, settlement, risk management, central counterparty services, and a guarantee of completion for virtually all broker-to-broker trades involving equity securities, corporate and municipal debt securities, and unit investment trust transactions in the U.S. markets. A key tool that NSCC uses to manage its credit exposure to its members is collecting an appropriate amount of margin (*i.e.,* collateral) from each member.[11]

A. Overview Regarding NSCC's Margin Methodology

A member's margin is designed to mitigate potential losses to NSCC associated with the liquidation of the member's portfolio in the event that

[6] Exchange Act Release No. 96624 (Jan. 10, 2023), 88 FR 2707 (Jan. 17, 2023).

[7] The Commission may extend the review period for an additional 60 days (to 120 days total) for proposed changes that raise novel or complex issues. *See* 12 U.S.C. 5465(e)(1)(H).

[8] See 12 U.S.C. 5465(e)(1)(E)(ii) and (G)(ii); Memorandum from Office of Clearance and Settlement, Division of Trading and Markets, titled ''Commission's Request for Additional Information'' (dated Mar. 27, 2023), *available at https://www.sec.gov/comments/sr-nscc-2022-802/srnscc2022802-20161718-330589.pdf.*

[9] The Commission received one comment that was not relevant to the proposal in the Advance Notice. *See https://www.sec.gov/comments/sr-nscc-2022-802/srnscc2022802-320764.htm* (commenting on certain aspects of NSCC's operations that are not addressed or changed in this proposal). In addition, the Commission received one comment on the related proposed rule change filed as NSCC–2022–015. *See* Exchange Act Release No. 96511 (Dec. 15, 2022), 87 FR 78157 (Dec. 21, 2022) (''Proposed Rule Change''), with comments at *https://www.sec.gov/comments/sr-nscc-2022-015/srnscc2022015.htm.* Because the proposals contained in the Advance Notice and the Proposed Rule Change are the same, all public comments received on the proposals were considered regardless of whether the comments were submitted with respect to the Advance Notice or the Proposed Rule Change.

[10] Capitalized terms not defined herein are defined in NSCC's Rules & Procedures (''Rules''), *available at https://www.dtcc.com/~/media/Files/Downloads/legal/rules/nscc_rules.pdf.*

[11] Pursuant to its Rules, NSCC uses the term ''Required Fund Deposit'' to denote margin or collateral collected from its members. *See* Rule 4 (Clearing Fund) and Procedure XV (Clearing Fund Formula and Other Matters) of the Rules, *supra* note 10.

member defaults.[12] The aggregate of all members' margin deposits (together with certain other deposits required under the Rules) constitutes NSCC's clearing fund. NSCC would access its clearing fund should a defaulting member's own margin and resources at NSCC be insufficient to satisfy losses to NSCC caused by the liquidation of that member's portfolio.[13]

NSCC employs daily backtesting to determine the sufficiency of each member's margin, by simulating the liquidation gains or losses using the actual unsettled positions in the member's portfolio, and the actual historical returns for each security held in the portfolio. A backtesting deficiency would result if the liquidation losses were greater than the member's margin. NSCC investigates the causes of any backtesting deficiencies, paying particular attention to members with backtesting deficiencies that bring the results for that member below the 99 percent confidence target (*i.e.,* greater than two backtesting deficiency days in a rolling twelve-month period) to determine if there is an identifiable cause of repeat backtesting deficiencies.[14] NSCC also evaluates whether multiple members may experience backtesting deficiencies for the same underlying reason.[15]

Each member's margin consists of a number of applicable components, each of which is calculated to address specific risks faced by NSCC.[16] Each member's start of day required fund deposit is calculated overnight, based on the member's prior end-of-day net unsettled positions.[17] NSCC notifies members early the following morning, and members are required to make deposits by approximately 10:00 a.m. EST.[18]

Generally, the largest portion of a member's margin is the volatility component. The volatility component is designed to reflect the amount of money that could be lost on a portfolio over a given period within a 99th percentile level of confidence. This component represents the amount assumed necessary to absorb losses while liquidating the member's portfolio.

NSCC's methodology for calculating the volatility component of a member's required fund deposit depends on the type of security and whether the security has sufficient pricing or trading history for NSCC to robustly estimate the volatility component using statistical techniques. Generally, for most securities (*e.g.,* equity securities), NSCC calculates the volatility component using, among other things, a parametric Value at Risk (''VaR'') model, which results in a ''VaR Charge.'' [19] The VaR Charge usually comprises the largest portion of a member's required fund deposit.

B. Current Treatment of Gap Risk in NSCC's Margin Methodology

Under NSCC's current Rules, one of the potential methods of calculating the VaR Charge relies on a measure of gap risk. It does not accrue for all portfolios, but instead only serves as the VaR Charge if it is the largest of three potential calculations.[20]

Gap risk events have been generally understood as idiosyncratic issuer events (for example, earning reports, management changes, merger announcements, insolvency, or other unexpected, issuer-specific events) that cause a rapid shift in price volatility levels. The gap risk charge was designed to address the risk presented by a portfolio that is more susceptible to the effects of gap risk events, *i.e.,* those portfolios holding positions that represent more than a certain percent of the entire portfolio's value, such that the event could impact the entire portfolio's value.[21]

The current gap risk charge applies only if a member's overall net unsettled non-index position with the largest absolute market value in the portfolio represents more than a certain percent of the entire portfolio's value, that is, if the net unsettled position exceeds a specified ''concentration threshold.'' The concentration threshold can be set no higher than 30 percent and is evaluated periodically based on members' backtesting results over a twelve month look-back period, and it is currently set at 5%.[22] NSCC's Rules currently calculate a gap risk charge only for ''non-index'' positions, meaning positions in the portfolio other than positions in ETFs that track diversified indices. This is because index-based ETFs that track closely to diversified indices are generally considered less prone to the effects of gap risk events.

The risk of large, unexpected price movements, particularly those caused by a gap risk event, are more likely to have a greater impact on portfolios with large net unsettled positions in securities that are susceptible to those events. Generally, index-based ETFs that track closely to diversified indices are less prone to the effects of gap risk events. Therefore, if the concentration threshold is met, NSCC currently calculates the gap risk charge for positions in the portfolio other than positions in ETFs that track diversified indices, referred to as ''non-index positions.''

To calculate the gap risk charge, NSCC multiplies the gross market value of the largest non-index net unsettled position in the portfolio by a gap risk haircut, which can be no less than 10 percent (''gap risk haircut'').[23] Currently, NSCC determines the gap risk haircut empirically as no less than the larger of the 1st and 99th percentiles of three-day returns of a set of CUSIPs that are subject to the VaR Charge pursuant to the Rules, giving equal rank to each to determine which has the highest movement over that three-day period. NSCC uses a look-back period of not less than ten years plus a one-year stress period, and if the one-year stress period overlaps with the look-back period, only the non-overlapping period would be combined with the look-back period. The resulting haircut is then rounded up to the nearest whole percentage and applied to the largest non-index net unsettled position to determine the gap risk charge.

[12] Under NSCC's Rules, a default would generally be referred to as a ''cease to act'' and could encompass a number of circumstances, such as a member's failure to make a margin payment on time. *See* Rule 46 (Restrictions on Access to Services) of the Rules, *supra* note 10.

[13] *See* Rule 4, *supra* note 10.

[14] *See* National Securities Clearing Corporation, Disclosure Framework for Covered Clearing Agencies and Financial Market Infrastructures, at 61 (Dec. 2022), *available at https://www.dtcc.com/legal/policy-and-compliance.*

[15] *See id.*

[16] *See* Procedure XV of the Rules, *supra* note 10.

[17] *See* Procedure XV, Sections II(B) of the Rules, *supra* note 10.

[18] *See id.* The Rules provide that required deposits to the clearing fund are due within one hour of demand, unless otherwise determined by NSCC. *Id.*

[19] *See* Sections I(A)(1)(a)(i) and I(A)(2)(a)(i) of Procedure XV of the Rules, *supra* note 10.

[20] Specifically, the VaR Charge is the greatest of (1) the larger of two separate calculations based on different underlying estimates that utilize a parametric VaR model, which addresses the market risk of a member's portfolio (referred to as the core parametric estimation), (2) the gap risk calculation, and (3) a portfolio margin floor calculation based on the market values of the long and short positions in the portfolio, which addresses risks that might not be adequately addressed with the other volatility component calculations.

[21] *See* Section I(A)(1)(a)(i)II and I(A)(2)(a)(i)II of Procedure XV of the Rules, *supra* note 10. *See also* Exchange Act Release Nos. 82780 (Feb. 26, 2018), 83 FR 9035 (Mar. 2, 2018) (SR–NSCC–2017–808); 82781 (Feb. 26, 2018), 83 FR 9042 (Mar. 2, 2018) (SR–NSCC–2017–020) (''Initial Filing'').

[22] *See* Section I(A)(1)(a)(i)II and I(A)(2)(a)(i)II of Procedure XV of the Rules, *supra* note 10; *see* Important Notice a9055 (Sept. 27, 2021), at *https://www.dtcc.com/-/media/Files/pdf/2021/9/27/a9055.pdf* (notifying members that the concentration threshold had been changed from 10% to 5%).

[23] *See* Section I(A)(1)(a)(i)II and I(A)(2)(a)(i)II of Procedure XV of the Rules, *supra* note 10.

III. The Advance Notice

NSCC is proposing to make the following changes to the gap risk charge: (1) make the gap risk charge an additive component of the member's total VaR Charge when it is applicable, rather than being applied as the applicable VaR Charge only when it is the largest of three separate calculations, (2) adjusting the gap risk charge to be based on the two largest positions in a portfolio, rather than based on the single largest position, (3) changing the floor of the gap risk haircut from 10 percent to 5 percent for the largest position, adding a floor of the gap risk haircut of 2.5 percent for the second largest position, and providing that gap risk haircuts would be determined based on backtesting and impact analysis, and (4) amending which ETF positions are excluded from the gap risk charge to more precisely include ETFs that are more prone to gap risk, *i.e.,* are non-diversified.

First, NSCC is proposing to make the result of the gap risk charge calculation an additive component of a member's total VaR Charge, rather than applicable as the VaR Charge only when it is the highest result of three calculations. Under the proposal, the VaR Charge would be equal to the sum of (1) the greater of either the core parametric estimation or the portfolio margin floor calculation, neither of which is changing in this proposal,[24] and (2) the gap risk charge calculation. Rather than being applied only when the gap risk charge exceeds the other two calculations, the gap risk charge calculation would apply every time the top two positions exceed the concentration threshold and would always be a portion of the overall VaR Charge in such circumstances. NSCC states that making this charge additive could improve its ability to mitigate idiosyncratic risks that it could face through the collection of the VaR Charge.[25] Based on impact studies, NSCC believes this broader application together with the other proposed changes outlined below would better protect against more idiosyncratic risk scenarios than the current methodology.[26]

Second, NSCC is proposing to make the gap risk charge rely upon the absolute values of the two largest non-diversified net unsettled positions, as opposed to using the absolute value of only the single largest non-diversified net unsettled position. Therefore, the gap risk charge would be calculated by first multiplying each of the two largest non-diversified net unsettled positions with a gap risk haircut, and then adding the sum of the resulting products. The gap risk charge would be applicable if that sum of the resulting products exceeded the concentration threshold.[27] NSCC states that applying the gap risk charge to the two largest non-diversified positions in the portfolio would cover concurrent gap moves involving more than one concentrated position, adding more flexibility and coverage.[28]

Third, NSCC proposes to revise the calculation of the gap risk haircut in response to making the proposal an additive component of a member's VaR Charge. Currently, the gap risk haircut is determined by selecting the largest of the 1st and 99th percentiles of three-day returns of a composite set of equities, using a look-back period of not less than 10 years plus a one year stress period.[29] NSCC believes that this methodology results in implicit overlapping of the risk covered by the core parametric VaR and the gap risk charge.[30] Because the proposal would make the gap risk charge an additive component to the VaR Charge rather than a substitutive component, NSCC does not believe that the current methodology for the gap risk haircut would result in an appropriate level of margin.[31] Under the proposal, NSCC would determine and calibrate the concentration threshold and the gap risk haircut periodically based on backtesting and impact analysis. NSCC states that the concentration threshold and the gap risk haircuts would be selected from various combinations of concentration thresholds and gap risk haircuts based on backtesting and impact analysis across all member portfolios, initially using a five year look-back period.[32] NSCC believes that this would provide more flexibility to set the parameters from time to time to provide improved backtesting performance, broader coverage for idiosyncratic risk scenarios and flexibility for model tuning to balance performance and cost considerations.[33]

In addition, NSCC proposes to revise the determination of the gap risk haircut in response to the proposal's inclusion of the two largest non-diversified net unsettled positions, as opposed to only the one, and to its additive nature. Currently, the percent that is applied to the largest non-index net unsettled position in the portfolio is no less than 10 percent.[34] Because of the proposal's shift to including the two largest positions, NSCC believes it is appropriate to set a lower floor for the gap risk haircut that applies to the largest of those two positions.[35] Moreover, because the gap risk charge would now be additive and would apply more frequently, NSCC believes that the flexibility to set a lower floor for the largest position would be appropriate.[36]

Specifically, NSCC is proposing to lower the gap risk haircut that would be applied to the largest non-diversified net unsettled position to be a percent that is no less than 5 percent. The gap risk haircut that would be applied to the second largest non-diversified net unsettled position in the portfolio would be no larger than the gap risk haircut that would be applied to the largest non-diversified net unsettled position and would be subject to a floor of 2.5 percent. NSCC states that, upon implementation of the proposed rule change, NSCC would set the concentration threshold at 10%, apply a gap risk haircut on the largest non-diversified net unsettled position of 10% and a gap risk haircut on the second largest non-diversified net unsettled position of 5%.[37] NSCC would set the concentration threshold and the gap risk haircuts based on backtesting and impact analysis in accordance with NSCC's model risk management practices and governance set forth in the Model Risk Management Framework.[38] NSCC would provide

[24] *See* note 20 *supra.*

[25] *See* Notice of Filing, *supra* note 5, 87 FR at 78178.

[26] *Id.*

[27] As noted in Section II.B above, the concentration threshold is currently set at 5%, and the Rules define the concentration threshold as no more than 30 percent of the value of the entire portfolio. *See* Section I(A)(1)(a)(i)II and I(A)(2)(a)(i)II of Procedure XV of the Rules, *supra* note 20. The proposed changes would clarify that the concentration threshold is not fixed at 30 percent by defining concentration threshold as a percentage designated by NSCC of the value of the entire portfolio and determined by NSCC from time to time, and that shall be no more than 30 percent. NSCC believes this proposed change will help clarify that the concentration threshold could change from time to time but could not be set to be more than 30 percent. *See* Notice of Filing, *supra* note 5, 87 FR at 78179.

NSCC's model risk management governance

Continued

notice to members by important notice of the concentration threshold and gap risk haircuts that it would be applying.

Fourth, NSCC is proposing to amend what positions are excluded from the gap risk charge calculation. Currently, only ''non-index'' positions and index-based exchange-traded products that track a narrow market index are included in the gap risk charge.[39] Under the proposal, this would be revised to refer to ''non-diversified'' positions instead of non-index positions. The rule text would specify that NSCC would exclude ETF positions from the calculation (that is, it would consider them diversified) if the positions have characteristics that indicate that they are less prone to the effects of gap risk events, including whether the ETF positions track to an index that is linked to a broad based market index, contain a diversified underlying basket, are unleveraged or track to an asset class that is less prone to gap risk. NSCC states that the proposed change would result in certain non-index based ETFs being excluded from the gap risk charge whereas they are currently included, such as unleveraged U.S. dollar based ETFs.[40] NSCC also states that this proposed change would provide greater transparency to members regarding which positions are excluded from this calculation.[41]

NSCC states that certain ETFs, both index based and non-index based, are less prone to the effects of gap risk events as a result of having certain characteristics and, therefore, are less likely to pose idiosyncratic risks that the gap risk charge is designed to mitigate.[42] By contrast, based on the proposed methodology, NSCC would include certain commodity ETFs in the gap risk charge that track to an index that is not a broad-based diversified commodity index; such ETFs are not currently subject to the gap risk charge, but would be subject going forward.

III. Commission Findings and Notice of No Objection

Although the Clearing Supervision Act does not specify a standard of review for an advance notice, the stated purpose of the Clearing Supervision Act is instructive: to mitigate systemic risk in the financial system and promote financial stability by, among other things, promoting uniform risk management standards for systemically important financial market utilities (''SIFMUs'') and strengthening the liquidity of SIFMUs.[43]

Section 805(a)(2) of the Clearing Supervision Act authorizes the Commission to prescribe regulations containing risk management standards for the payment, clearing, and settlement activities of designated clearing entities engaged in designated activities for which the Commission is the supervisory agency.[44] section 805(b) of the Clearing Supervision Act provides the following objectives and principles for the Commission's risk management standards prescribed under section 805(a) :[45]

- to promote robust risk management;
- to promote safety and soundness;
- to reduce systemic risks; and
- to support the stability of the broader financial system.

Section 805(c) provides, in addition, that the Commission's risk management standards may address such areas as risk management and default policies and procedures, among other areas.[46]

The Commission has adopted risk management standards under section 805(a)(2) of the Clearing Supervision Act and section 17A of the Exchange Act (the ''Clearing Agency Rules'').[47] The Clearing Agency Rules require, among other things, each covered clearing agency to establish, implement, maintain, and enforce written policies and procedures that are reasonably designed to meet certain minimum requirements for its operations and risk management practices on an ongoing basis.[48] As such, it is appropriate for the Commission to review advance notices against the Clearing Agency Rules and the objectives and principles of these risk management standards as described in section 805(b) of the Clearing Supervision Act. As discussed below, the Commission believes the changes proposed in the Advance Notice are consistent with the objectives and principles described in section 805(b) of the Clearing Supervision Act,[49] and in the Clearing Agency Rules, in particular Rule 17Ad–22(e)(4)(i) and (e)(6)(i).[50]

A. Consistency With Section 805(b) of the Clearing Supervision Act

The Commission believes that the proposal contained in NSCC's Advance Notice is consistent with the stated objectives and principles of section 805(b) of the Clearing Supervision Act. Specifically, as discussed below, the Commission believes that the changes proposed in the Advance Notice are consistent with promoting robust risk management, promoting safety and soundness, reducing systemic risks, and supporting the stability of the broader financial system.[51]

The Commission believes that the Advance Notice is consistent with promoting robust risk management as well as safety and soundness because, based on the confidential information provided by NSCC and reviewed by the Commission, including the impact study demonstrating the collective impact of the proposed changes on the margin collected both at the overall clearing agency level and on a member-by-member basis and on NSCC's backtesting performance, the proposed changes with respect to the calculation of the gap risk charge provide better margin coverage than the current methodology. The Commission believes that the changes described in the Advance Notice should enable NSCC to better manage its exposure to portfolios with identified concentration risk, which should, in turn, limit its exposure to members in the event of a member default, which is consistent with promoting robust risk management.

The Commission believes that making the gap risk charge an additive component, as opposed to a potential substitutive option applicable only if it exceeds other methodologies for determining the VaR Charge, should help NSCC better protect against more idiosyncratic risk scenarios in concentrated portfolios than the current methodology. In addition, adjusting the gap risk calculation to take into account the two largest positions, as well as to apply two separate haircuts based on backtesting and impact analysis with floors set forth in the Rules, should allow NSCC to cover concurrent gap moves involving more than one concentrated position. Moreover, modifying the criteria for ETF positions subject to the gap risk charge based on

procedures include daily backtesting of model performance, periodic sensitivity analyses of models and annual validation of models. They would also provide for review of the concentration threshold and the gap risk haircuts at least annually.

[39] *See* Section I(A)(1)(a)(i)II and I(A)(2)(a)(i)II of Procedure XV of the Rules, *supra* note 10. *See also* Initial Filing, *supra* note 21.

[46] 12 U.S.C. 5464(c).

[47] 17 CFR 240.17Ad–22. *See* Exchange Act Release No. 68080 (Oct. 22, 2012), 77 FR 66220 (Nov. 2, 2012) (S7–08–11). *See also* Covered Clearing Agency Standards Adopting Release, Exchange Act Release No. 78961 (Sept. 28, 2016), 81 FR 70786 (Oct. 13, 2016). NSCC is a ''covered clearing agency'' as defined in Rule 17Ad–22(a)(5).

[48] 17 CFR 240.17Ad–22.

[49] 12 U.S.C. 5464(b).

[50] 17 CFR 240.17Ad–22(e)(4)(i) and (e)(6)(i).

[51] 12 U.S.C. 5464(b).

whether they are non-diversified rather than whether they are non-index would allow NSCC to more accurately determine which ETFs should be included and excluded from the gap risk charge based on characteristics that indicate that such ETFs are more or less prone to the effects of gap risk events, thereby providing more accurate coverage of the potential exposure arising from such positions.

Further, the Commission believes that, to the extent the proposed changes are consistent with promoting NSCC's safety and soundness, they are also consistent with reducing systemic risk and supporting the stability of the broader financial system. NSCC has been designated as a SIFMU, in part, because its failure or disruption could increase the risk of significant liquidity or credit problems spreading among financial institutions or markets.[52] The Commission believes that the proposed changes would support NSCC's ability to continue providing services to the markets it serves by addressing losses and shortfalls arising out of a member default. NSCC's continued operations would, in turn, help reduce systemic risk and support the stability of the financial system by reducing the risk of significant liquidity or credit problems spreading among market participants that rely on NSCC's central role in the market.

Accordingly, and for the reasons stated above, the Commission believes the changes proposed in the Advance Notice are consistent with section 805(b) of the Clearing Supervision Act.[53]

B. Consistency With Rule 17Ad–22(e)(4)(i) Under the Exchange Act

Rule 17Ad–22(e)(4)(i) under the Exchange Act requires that a covered clearing agency establish, implement, maintain and enforce written policies and procedures reasonably designed to effectively identify, measure, monitor, and manage its credit exposures to participants and those arising from its payment, clearing, and settlement processes, including by maintaining sufficient financial resources to cover its credit exposure to each participant fully with a high degree of confidence.[54]

Based on its review of the record, the Commission believes NSCC's proposal to broaden the scope of the gap risk charge and the related adjustments to its calculation could help improve NSCC's backtesting performance, provide broader coverage for idiosyncratic risk scenarios, and could help address the potential increased risks NSCC may face related to its ability to liquidate a portfolio that is susceptible to such risks in the event of a member default. Specifically, the Commission has reviewed and analyzed NSCC's analysis of the improvements in its backtesting coverage,[55] and agrees that the analysis demonstrates that the proposal would result in better backtesting coverage and, therefore, less credit exposure to its members.

Accordingly, the Commission believes that the proposal would enable NSCC to better manage its credit risks by allowing it to respond regularly and more effectively to any material deterioration of backtesting performances, market events, market structure changes, or model validation findings, thereby helping to ensure that NSCC can take steps to collect sufficient margin to maintain sufficient financial resources to cover its exposure to its members. Therefore, the Commission believes the changes proposed in the Advance Notice are consistent with Rule 17Ad–22(e)(4)(i) under the Exchange Act.

C. Consistency With Rule 17Ad–22(e)(6)(i) Under the Exchange Act

Rule 17Ad–22(e)(6)(i) under the Exchange Act requires that each covered clearing agency that provides central counterparty services establish, implement, maintain and enforce written policies and procedures reasonably designed to cover its credit exposures to its participants by establishing a risk-based margin system that, at a minimum, considers, and produces margin levels commensurate with, the risks and particular attributes of each relevant product, portfolio, and market.[56]

The Commission understands that, as described above, the proposal as a whole is designed to enable NSCC to more effectively address the risks presented by members' concentrated positions in securities more prone to gap risk events and to produce margin levels that are more commensurate with the particular risk attributes of these concentrated holdings, including the market price risk of liquidating large positions in securities that are more prone to gap risk events. The Commission believes that the proposal would improve NSCC's ability to consider, and produce margin levels commensurate with, the risks and particular attributes presented by a portfolio that meets the concentration threshold and, therefore, is more susceptible to the impacts of idiosyncratic risks.

First, the Commission believes that broadening the gap risk charge to an additive feature of the VaR Charge and using the two largest non-diversified positions would help NSCC to more effectively manage the idiosyncratic risks of portfolios with concentrated holdings. Specifically, the proposed changes should result in an overall increase of margin for members that have positions subject to the gap risk charge.[57]

[52] Financial Stability Oversight Council, 2012 Annual Report, Appendix A, *https://home.treasury.gov/system/files/261/2012-Annual-Report.pdf.*

[53] 12 U.S.C. 5464(b).

[54] 17 CFR 240.17Ad–22(e)(4)(i).

[55] NSCC submitted more detailed results of the impact study as confidential Exhibit 3 to the Advance Notice. NSCC requested confidential treatment of Exhibit 3 pursuant to 5 U.S.C. 552(b)(4) and 552(b)(8) and 17 CFR. 200.80(b)(4) and 200.80(b)(8). A commenter raised a concern regarding redacted portions of the filing, which consisted of certain supporting exhibits filed confidentially as Exhibit 3 to the filing. *See https://www.sec.gov/comments/sr-nscc-2022-015/srnscc2022015-320658.htm.* NSCC asserted that this exhibit to the filing was entitled to confidential treatment because it contains: (i) trade secrets and commercial information that is privileged or confidential and which, if disclosed, would be accessible to the DTCC Companies' competitors and could result in substantial competitive injury to the DTCC Companies; and (ii) non-public, confidential information prepared for use by Commission staff. Under section 23(a)(3) of the Exchange Act, the Commission is not required to make public statements filed with the Commission in connection with a proposed rule change of a self-regulatory organization if the Commission could withhold the statements from the public in accordance with the Freedom of Information Act (''FOIA''), 5 U.S.C. 552. 15 U.S.C. 78w(a)(3). The Commission has reviewed the documents for which NSCC requests confidential treatment and concludes that they could be withheld from the public under the FOIA. FOIA Exemption 4 protects confidential commercial or financial information. 5 U.S.C. 552(b)(4). Under Exemption 4, information is confidential if it ''is both customarily and actually treated as private by its owner and provided to government under an assurance of privacy.'' *Food Marketing Institute* v. *Argus Leader Media,* 139 S. Ct. 2356, 2366 (2019). Based on its review of the materials submitted, the Commission believes that the information is the type that would not customarily be disclosed to the public. Specifically, this information consists of an impact study analyzing the effect that the changes to NSCC's margin methodology would have on each member's individual margin requirement to NSCC; information regarding NSCC's analysis and development of the particular changes to the margin methodology, including its consideration of potential alternative haircuts and thresholds; and excerpts from NSCC's non-public detailed margin methodology. In addition, by requesting confidential treatment, NSCC had an assurance of privacy because the Commission generally protects information that can be withheld under Exemption 4. Thus, the Commission has determined to accord confidential treatment to the confidential exhibits.

[56] 17 CFR 240.17Ad–22(e)(6)(i).

[57] The impact study indicated that the proposed changes would have resulted in a 10.88% increase for the daily total VaR Charge on average and would have resulted in a 4.89% increase in the daily total clearing fund on average during that period. *See* Notice of Filing, *supra* note 5, 87 FR at 78176. In addition, the Commission reviewed confidential

Continued

Second, given the proposed additive nature of the gap risk charge, the Commission believes the adjustments to the gap risk charge calculation (*i.e.,* establishing floors for the gap risk haircuts applicable to the two largest positions) are reasonably designed to cover NSCC's exposure to members arising from gap risks. The Commission believes the adjustments to the gap risk charge calculation are reasonable because the record shows the proposal should improve NSCC's ability to mitigate against idiosyncratic risks that NSCC may face when liquidating a portfolio that contains a concentration of positions, while balancing NSCC's consideration of the potential costs to members that may be subject to the gap risk charge.[58] The Commission believes that the established floors for the two haircuts should also help ensure that the gap risk charge collects margin sufficient to cover the potential exposure in a gap risk event.

Third, by providing additional specific objective criteria to determine which positions would be subject to the gap risk charge, the Commission believes that NSCC should be able to better identify those securities that may be more prone to idiosyncratic risks. Specifically, the proposal should ensure that ETFs identified as non-diversified (whether index-based or not) and therefore more prone to idiosyncratic risks will be subject to the gap risk charge.

Taken together, the Commission believes that the proposal should permit NSCC to calculate a gap risk charge that is more appropriately designed to address the gap risks presented by concentrated positions in portfolios. Accordingly, the Commission believes the proposal is consistent with Rule 17Ad–22(e)(6)(i) under the Exchange Act because it is designed to assist NSCC in maintaining a risk-based margin system that considers, and produces margin levels commensurate with, the risks and particular attributes of portfolios with identified concentration risks.[59]

IV. Conclusion

It is therefore noticed, pursuant to section 806(e)(1)(I) of the Clearing Supervision Act, that the Commission DOES NOT OBJECT to Advance Notice (SR–NSCC–2022–802) and that NSCC is AUTHORIZED to implement the proposal as of the date of this notice, or the date of an order by the Commission approving proposed rule change SR–NSCC–2022–015, whichever is later.

By the Commission.

J. Matthew DeLesDernier,

Deputy Secretary.

[FR Doc. 2023–17127 Filed 8–9–23; 8:45 am]

BILLING CODE 8011–01–P

materials submitted to the Commission, which included more granular information, at a member level, of the impacts of this proposal as compared to the current methodology. *See* note 55 *supra.*

[58] As part of the confidential materials submitted to the Commission, NSCC provided analysis of alternative potential haircuts and thresholds that it considered when developing the proposal. *See* note 55 *supra.* The Commission's review of those materials further supports its belief as to the reasonableness of this aspect of the proposal.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98055; File No. SR–ICC–2023–007]

Self-Regulatory Organizations; ICE Clear Credit LLC; Order Approving Proposed Rule Change Relating to the ICC Recovery Plan and the ICC Wind-Down Plan

August 4, 2023.

I. Introduction

On June 5, 2023, ICE Clear Credit LLC (''ICC'') filed with the Securities and Exchange Commission (''Commission''), pursuant to Section 19(b)(2) of the Securities Exchange Act of 1934 (the ''Act'') [1] and Rule 19b–4 thereunder,[2] a proposed rule change to amend its Recovery Plan and Wind-Down Plan. The proposed rule change was published for comment in the **Federal Register** on June 22, 2023.[3] The Commission did not receive comments regarding the proposed rule change. For the reasons discussed below, the Commission is approving the proposed rule change.

II. Description of the Proposed Rule Change

A. Background

ICC is registered with the Commission as a clearing agency for the purpose of clearing CDS contracts.[4] The proposed rule change would amend both the Recovery Plan and the Wind-Down Plan, which serve as plans for the recovery and orderly wind-down of ICC, respectively, if such recovery or wind-down is necessitated by credit losses, liquidity shortfalls, losses from general business risk, or any other losses incurred by ICC. The Recovery Plan is designed to establish ICC's actions to maintain its viability as a going concern by addressing any uncovered credit loss, liquidity shortfall, capital inadequacy, or business, operational or other structural weakness that threatens ICC's viability as a going concern. The Wind-Down Plan is designed to establish how ICC could be wound down in an orderly manner in the event that it cannot continue as a going concern.

[3] Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Proposed Rule Change Relating to the ICC Recovery Plan and the ICC Wind-Down Plan; Exchange Act Release No. 97734 (June 15, 2023), 88 FR 40874 (June 22, 2023) (File No. SR–ICC–2023–007) (''Notice'').

[4] Capitalized terms not otherwise defined herein have the meanings assigned to them in ICC's Clearing Rules.

B. Recovery Plan

ICC proposes general updates and edits to its Recovery Plan to promote clarity and to ensure that the information in it is current. The proposed amendments to the Recovery Plan reflect and relate to changes that impacted ICC in the past year. To that end, the current Recovery Plan includes in the introduction a disclaimer that, unless otherwise specified, all information provided in the plan is current as of December 31, 2021. The proposed rule change would update that date to December 31, 2022. The proposed amendments to the Recovery Plan also would include changes to the coverage amount under the ICC clearing participant (''CP'') default insurance policy (''CP Default Insurance Policy''), and the addition of ICC-specific procedures for financial resource calculations.

Section IV covers key recovery elements. Within this section, the proposed rule change would amend clearing participation (IV.B), management and governance (IV.C), and key performance metrics (IV.D). In Section IV.B, ICC would create a reference to a membership category, Associate Clearing Participant. In Section IV.C, ICC would make a correction to the Management/Governance chart to indicate that the business continuity plan (''BCP'') and disaster recovery (''DR'') Oversight Committee is not a sub-committee of the ICC Audit Committee. In Section IV.C, ICC would update the description of ICE Holding Board Chairman Vincent Tese, who is currently listed as an independent director of both ICE Holding and ICE Inc. The proposed rule change would amend the description to remove his listing as an independent director of Ice Inc. In Section IV.D, ICC would update its revenues, volumes, and expenses for years 2021 and 2022.

The proposed rule change also would amend Section VI of the Recovery Plan, which covers interconnections and interdependencies. Specifically, ICC proposes to amend Sections VI.A

(Operational), VI.B (Financial), and VI.C (Contractual Agreements). The proposed updates to Section VI.A would reflect changes in the last year and would update the descriptions of ICC's personnel and facilities, as well as its in-house systems. Section VI.B currently includes a ''Counterparty Chart'' that lists all of ICC's various counterparties and indicates which function(s) each counterparty performs (*i.e.,* Clearing Participant, Custodian, Depository, etc.) would update the roles in its counterparty chart. The proposed changes to Section VI.B would update that chart to reflect changes to the functions performed by certain counterparties. The only proposed update to Section VI.C would be to the chart of counterparty contractual agreements in that section. Specifically, ICC would remove the reference to a service no longer received from a specific external service provider (*i.e.,* receipt of market data to value FX positions and collateral).

The proposed rule change would make several updates to Section VIII of the Recovery Plan, which addresses ICC's recovery tools, primarily in Section VIII.B. First, the proposed rule change would update the name of the carrier for ICC's CP Default Insurance Policy, which is maintained at the ICE Group level and may be used as a recovery tool in a CP default scenario pursuant to ICC's Rules, provided certain conditions are met. Second, it would amend the amount of coverage to reflect that the Policy coverage amount has increased to $75 million (from $50 million, as reflected in the current Recovery Plan); third, it would update the points of contact for ICC's Default Insurance Policy; and fourth, it would update the coverage amount under the Professional Liability/Cyber (E&O) Insurance Policy from $110 million to $120 million to reflect that coverage amount under that policy has increased since the last update to the Recovery Plan. Fifth, in Section VIII.B.1.iii (Direct Infusion of Cash to ICC from Parent/ICE Group), ICC would update the current description of ICC's, ICE Inc's, and ICE Group's respective year-end cash balances to reflect their most current consolidated balance sheets. Finally, the proposed rule change would add a footnote in Section VIII.B that references and describes ICC's Risk Appetite Statements and Metrics, which define the thresholds ICC has established with respect to regulatory capital requirements and provide for alerts in the event that ICC is nearing a breach of these amounts (*i.e.,* the current alert is triggered if ICC maintains 110% or less of its required regulatory capital). The reference to and description of ICC's Risk Appetite Statements and Metrics is intended to provide further details on how decreases in ICC's regulatory capital will trigger escalation within ICC, which in turn may lead to potential remedial actions, including whether ICC should initiate its plan to raise additional equity.

Section X of the Recovery Plan identifies ICC's Financial Resources for Recovery. The proposed rule change would add details regarding the calculation of ICC's financial resources available for recovery to reflect new ICC-specific Financial Resource Calculation Procedures that ICC has added since the last update to the Recovery Plan. Specifically, the Recovery Plan would specify that ICC completes a voluntary annual calculation of regulatory requirements under European Market Infrastructure Regulation (''EMIR'') guidelines. It would note that ICC's calculation approximates the EMIR requirements and is calculated by ICE Treasury on an annual basis upon the finalization of ICC's statutory audit and financial statements, as well as a discussion of future expectations with the ICC Treasury Director, and specify that the EMIR Estimate includes four elements relating to: winding down/restructuring; operational and legal risks; credit and counterparty risk/market risk; and business risks. The proposed update would also include a reference to the Financial Resource Calculation Procedures and note that the procedures include additional details regarding the calculation of regulatory capital requirements under EMIR guidelines. The proposed rule change also would amend Section X to update the expected costs of recovery and wind-down, including expenses related to legal services, consulting, operations, regulatory capital requirements, and other wind down costs.

Section XI of the Recovery Plan (Financial Information) provides the balance sheet and income statement for ICC and the consolidated balance sheet and income statement for ICE Inc. and its subsidiaries. The proposed rule change would update the financial information in this section to reflect the most current financial statements for both entities.

The proposed rule change would make minor edits to Section XIII, Appendix G, which covers form default insurance proof of loss, by updating the carrier and policy number for ICC's CP Default Insurance Policy. In Section XIV, which contains the index of exhibits, the proposed rule change would update the index of exhibits with the current versions of policies and procedures, consistent with updated footnote references. Finally, the proposed rule change would make non-substantive typographical fixes in the ICC Recovery Plan, as well as conforming changes in the ICC Wind-Down Plan, including updates to entity names, and grammatical and formatting changes.

C. Wind-Down Plan

ICC proposes updates and edits to promote clarity and to ensure that the information provided in the Wind-Down Plan is current. The proposed rule change reflects and relates to changes that have impacted ICC in the past year, including the addition of ICC-specific procedures for financial resource calculations. The current Wind-Down Plan includes in the introduction a disclaimer that, unless otherwise specified, all information provided in the plan is current as of December 31, 2021. The proposed rule change would update that date to December 31, 2022.

Section II of the Wind-Down Plan is an overview of the structure of ICC. Section II.A addresses ownership of ICC. The proposed rule change would add additional language for the headquarter location for ICC. Section IV addresses membership and ICC governance. The proposed rule change would amend the Management and Governance chart in Section IV.B because the previous chart incorrectly indicated that the BCP and DR Oversight Committee are sub-committees of the ICC Audit Committee. Additionally, the proposed rule change would update the description of Vincent Tese in Section IV.B, so that he is listed as just an independent director of ICC, but is no longer listed as an independent director of ICE Inc.

In the beginning of Section VII, which addresses interconnections and interdependencies, the proposed rule change would update ICC revenue. Later in VII.C.2, the proposed rule change would update the number of personnel and facilities. In Section VII.C, which addresses operational services, the proposed rule change would update a list of in-house systems. Section VII.D addresses financial services and the proposed rule change would update the roles on its counterparty chart.

Section IX addresses financial resources to support wind-down. In this section, the proposed rule change would include additional details regarding the calculation of ICC's financial resources available for wind-down to reflect the new ICC-specific Financial Resource

Calculation Procedures. The proposed rule change would add details regarding the calculation of regulatory capital requirements under EMIR guidelines. Similar to the proposed changes in the Recovery Plan, the proposed rule change would specify that calculations are performed by ICE Treasury on an annual basis upon the finalization of ICC's statutory audit and financial statements and include a discussion of future expectations with the ICC Treasury Director. Similar to the proposed changes in the Recovery Plan, the proposed rule change would note that ICC's calculation approximates the EMIR requirements and is calculated by ICE Treasury on an annual basis upon the finalization of ICC's statutory audit and financial statements, as well as a discussion of future expectations with the ICC Treasury Director, and specify that the EMIR Estimate includes four elements relating to: winding down/restructuring; operational and legal risks; credit and counterparty risk/market risk; and business risks. The proposed update would also include a reference to the Financial Resource Calculation Procedures and note that the procedures include additional details regarding the calculation of regulatory capital requirements under EMIR guidelines.

The proposed rule change would update and edit to promote clarity and consistency in the ICC Wind-Down Plan. In the counterparty contractual agreements chart in Section VIII, the proposed rule change would remove the reference to a service no longer received from a specific external service provider (*i.e.,* receipt of market data to value FX positions and collateral). In Section XII, the proposed rule change would update the index of exhibits with the current versions of policies and procedures, consistent with updated footnote references.

III. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to such organization.[5] For the reasons given below, the Commission finds that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act[6] and Rule 17Ad–22(e)(3)(ii).[7]

A. Consistency With Section 17A(b)(3)(F) of the Act

Section 17A(b)(3)(F) of the Act requires, among other things, that the rules of ICC be designed, to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions, as well as to assure the safeguarding of securities and funds which are in the custody or control of ICC or for which it is responsible.[8]

As noted above, the proposed rule change primarily would update the Recovery Plan and Wind-Down Plan with current information about ICC's facilities, finances, operations, and Board. The Commission believes that by providing the most current information for ICC's revenues, volumes, and expenses, the proposed rule change will support ICC's ability to monitor its finances and compare its regulatory capital to its estimated recovery and wind-down costs. This in turn will help ensure ICC has the financial resources to promptly and accurately clear and settle transactions during recovery and, if necessary, conduct an orderly wind-down.

Further, the Commission believes that updating the Counterparty Chart to reflect current roles and changes to the functions performed by certain counterparties will generally support those utilizing the Plans by providing users of the Plans a correct overview of ICC's counterparties. Similarly, the Commission believes that updating the description of ICC's Default Insurance Policy and Professional Liability/Cyber (E&O) Insurance Policy to reflect increase coverage amounts and current points of contact will generally support those utilizing the Plans by providing users of the Plans a correct overview of these insurance policies. The Commission believes that these proposed changes would strengthen both plans by ensuring those utilizing them have information necessary to carry out recovery or an orderly wind-down, which in turn should help ICC to promptly and accurately clear and settle transactions during recovery and, if necessary, conduct an orderly wind-down.

ICC also proposed to include a reference to the thresholds for regulatory capital requirements that would trigger alerts for ICC nearing a capital requirement breach. This may lead to potential remedial actions, including whether ICC should initiate its plan to raise additional equity. The Commission believes that these proposed changes would strengthen the plans by ensuring those utilizing them have all of the information necessary to carry out recovery or an orderly wind-down, which in turn will help ensure ICC can promptly and accurately clear and settle trades and safeguard of securities and funds which are in its custody or control at these times.

For the reasons stated above, the Commission believes that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act.[9]

B. Consistency With Rule 17Ad–22(e)(3)(ii)

Rule 17Ad–22(e)(3)(ii) requires ICC to establish, implement, maintain, and enforce written policies and procedures reasonably designed to maintain a sound risk management framework for comprehensively managing legal, credit, liquidity, operational, general business, investment, custody, and other risks that arise in or are borne by ICC, which includes plans for the recovery and orderly wind-down of ICC necessitated by credit losses, liquidity shortfalls, losses from general business risk, or any other losses.[10]

The Commission believes the proposed changes described above that would add current financial, personnel, and board information support ICC's maintenance of plans for the recovery and orderly wind-down of ICC with updated accurate information. The proposed rule change also would addi details regarding the calculation of ICC's financial resources available for wind-down to reflect the new ICC Financial Resource Calculation Procedures. Additionally, ICC adds a reference to its thresholds for regulatory capital requirements that would trigger alerts for when ICC is nearing a capital requirement breach. The Commission believes that current financial information provides relevant information to those using the Plans to understand the resources available for recovery or an orderly wind-down.

Therefore, the Commission finds that the proposed rule change is consistent with Rule 17Ad–22(e)(3)(ii).[11]

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act, and in particular, with the requirements of

[5] 15 U.S.C. 78s(b)(2)(C).

[6] 15 U.S.C. 78q–1(b)(3)(F).

[7] 17 CFR 240.17Ad–22(e)(3)(ii).

[8] 15 U.S.C. 78q–1(b)(3)(F).

[9] 15 U.S.C. 78q–1(b)(3)(F).

[10] 17 CFR 240.17Ad–22(e)(3)(ii).

Section 17A(b)(3)(F) of the Act[12] and Rule 17Ad–22(e)(3)(ii).[13]

It is therefore ordered pursuant to Section 19(b)(2) of the Act[14] that the proposed rule change (SR–ICC–2023–007), be, and hereby is, approved.[15]

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[16]

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98063; File No. SR–IEX–2023–08]

Self-Regulatory Organizations; Investors Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Pursuant to IEX Rule 15.110 To Amend IEX's Fee Schedule

August 4, 2023.

Pursuant to section 19(b)(1)[1] of the Securities Exchange Act of 1934 (the ''Act''),[2] and Rule 19b–4 thereunder,[3] notice is hereby given that on July 25, 2023, Investors Exchange LLC (''IEX'' or the ''Exchange'') filed with the Securities and Exchange Commission (the ''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Pursuant to the provisions of section 19(b)(1) under the Act,[4] and Rule 19b–4 thereunder,[5] IEX is filing with the Commission a proposed rule change to amend the Exchange's fee schedule applicable to Members[6] (the ''Fee Schedule'') pursuant to IEX Rule 15.110(a) and (c), to modify the fees applicable to executions of and with displayed orders for securities priced at or above $1.00 per share. Changes to the Fee Schedule pursuant to this proposal are effective upon filing,[7] and will be operative on September 1, 2023.

The text of the proposed rule change is available at the Exchange's website at *www.iextrading.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. *Purpose*

The Exchange proposes to modify its Fee Schedule, pursuant to IEX Rule 15.110(a) and (c), to modify the fees applicable to executions of and with displayed orders with an execution price at or above $1.00 per share. The Exchange currently does not charge Members a fee for an execution at or above $1.00 per share that provides displayed liquidity and charges Members $0.0009 per share for an execution at or above $1.00 per share that removes displayed liquidity.[8]

As proposed, for executions at or above $1.00 per share, Members that enter displayed orders that provide liquidity will receive a rebate of $0.0004 per share and Members that enter orders that remove displayed liquidity will be charged a fee of $0.0010 per share, unless a lower fee applies.[9] The proposed fee change would also apply to executions when the adding and removing orders originated from the same Member.

The Exchange provides the following Fee Codes on execution reports to Members for executions of and with displayed liquidity: ''ML'' for orders that provide displayed liquidity, ''MLS'' for orders that provide displayed liquidity that executes against an order that originated from the same Member, ''TL'' for orders that remove displayed liquidity, and ''TLS'' for orders that remove displayed liquidity added by the same Member.[10] These existing Fee Codes will continue to apply.

Specifically, the Exchange is proposing to make the following changes to its Fee Schedule:

- Replace the words ''Effective January 2, 2023'' at the top of the Fee Schedule with the words ''Effective July 25, 2023'' and on the line immediately after, add ''New underlined text and deletions in brackets will be operative on September 1, 2023'' (to indicate the date the fees in this proposal will be operative).
- Modify the first bullet point under the ''Transaction Fees'' header to specify that all fees identify the cost ''or rebate'' per share executed. And add a sentence stating that ''Rebates are indicated by parentheses ().''
- In the ''Base Rates'' table, change the fee for executions at or above $1.00 per share for Fee Code ML from ''FREE'' to ''($0.0004)''.
- In the ''Base Rates'' table, change the fee for executions at or above $1.00 per share for Fee Code TL from ''$0.0009'' to ''$0.0010''.
- In the ''Fee Code Combinations and Associated Fees'' table, change the fee for executions at or above $1.00 per share for Fee Code ML from ''FREE'' to ''($0.0004)''.
- In the ''Fee Code Combinations and Associated Fees'' table, change the fee for executions at or above $1.00 per share for Fee Code TL from ''$0.0009'' to ''$0.0010''.
- In the ''Fee Code Combinations and Associated Fees'' table, change the fee for executions at or above $1.00 per share for Fee Code MLS from ''FREE'' to ''($0.0004)''.
- In the ''Fee Code Combinations and Associated Fees'' table, change the fee for executions at or above $1.00 per share for Fee Code TLS from ''$0.0009'' to ''$0.0010''.

The Exchange is not proposing to change the fees applicable to executions of and with displayed orders with an execution price below $1.00 per share, which would remain free for such orders that provide displayed liquidity and 0.09% of the total dollar volume of the execution for orders that take displayed liquidity. IEX is also not proposing to make any changes to the fees applicable to the execution of

[12] 15 U.S.C. 78q–1(b)(3)(F).

[13] 17 CFR 240.17Ad–22(e)(3)(ii).

[14] 15 U.S.C. 78s(b)(2).

[15] In approving the proposed rule change, the Commission considered the proposal's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

[16] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[9] As discussed *infra,* if a Retail order removes displayed liquidity, the Retail order would not be charged a fee.

[10] *See supra* note 8.

Retail [11] orders that remove displayed liquidity, which will continue to execute for free.

The current fees for orders that provide or take displayed liquidity were adopted in 2021 and designed to attract displayed order flow to the Exchange by offering a fee-based incentive to provide displayed liquidity.[12] The Exchange periodically assesses its fee structure and based upon a recent assessment, the Exchange believes that the proposed pricing change would further incentivize Members to submit displayed orders in securities priced at or above $1.00 per share. The proposed fee change is designed to incentivize posting displayed liquidity on IEX in securities priced at or above $1.00 per share in order to address competitive factors (as discussed more thoroughly in the Statutory Basis section) and facilitate price discovery and price formation, which the Exchange believes benefits all Members and market participants.

2. Statutory Basis

IEX believes that the proposed rule change is consistent with the provisions of section 6(b) [13] of the Act in general, and furthers the objectives of sections 6(b)(4) [14] of the Act, in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange believes that the proposed fee change is reasonable, fair and equitable, and non-discriminatory. The Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The Exchange believes that the proposed fee structure will attract and incentivize displayed order flow as well as order flow seeking to trade with displayed order flow. Moreover, increases in displayed liquidity would contribute to the public price discovery process which would benefit all market participants and protect investors and the public interest.

The Exchange believes that the proposed fee structure for providing and removing displayed liquidity is reasonable and consistent with the Act. Specifically, the Exchange believes that for securities that trade at or above $1.00 per share, it is reasonable to provide a $0.0004 per share rebate for providing displayed liquidity and to modestly increase the fee for removing displayed liquidity to $0.0010 per share. As noted above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. Within that context, charging $0.0010 per share for orders that remove displayed liquidity (coupled with a $0.0004 per share rebate for orders that add displayed liquidity) is designed to keep IEX's displayed trading prices competitive with those of other exchanges. In this regard, IEX notes that while many competing exchanges pay rebates to provide displayed liquidity that are substantially higher than those proposed, others charge fees to provide displayed liquidity for securities that trade at or above $1.00 per share.[15] Further, IEX notes that for securities that trade at or above $1.00 per share, many competing exchanges charge substantially higher fees to remove displayed liquidity than those charged by IEX.[16] Consequently, IEX believes that the proposed fee structure for providing and removing displayed liquidity is within the range charged by competing exchanges and does not raise any new or novel issues not already considered by the Commission in the context of other exchanges' fees.

In addition, IEX believes that it is reasonable and consistent with the Act to apply the proposed fees to executions when the adding and removing order originated from the same Member. IEX believes that the same factors that support the proposed fees overall, are also applicable to such executions.

Specifically, IEX believes that the incentives to send displayed orders to IEX (and orders seeking to execute against displayed orders) will similarly provide an incentive to Members to send orders to IEX that might otherwise be internalized off-exchange, which may increase order interaction on IEX. Internalization on IEX is not guaranteed, and the additional orders that do not internalize are available to trade by all Members.

The Exchange also believes that it is reasonable and consistent with the Act not to modify its displayed fees for sub-dollar executions to synchronize those fees with the proposed fees for executions at or above $1.00 per share. The Exchange believes that the existing fee structure for such executions continues to be reasonably designed to incentivize displayed order flow (and orders seeking to trade with displayed order flow) in such securities.

Further, IEX believes that it is reasonable and consistent with the Act not to change the fees applicable to the execution of Retail orders that remove liquidity, which will continue to execute for free. In this regard, the Exchange believes that the existing fee structure continues to be reasonably designed to incentivize the entry of Retail orders, and notes that the Commission, in approving IEX's Retail Price Improvement Program, acknowledged the value of exchanges' offering incentives to attract both retail investor orders and orders specifically designated to execute only with retail orders.[17]

The Exchange further believes that the proposed fee change is consistent with the Act's requirement that the Exchange provide for an equitable allocation of fees that is also not unfairly discriminatory.

First, the fees for adding and removing displayed liquidity will apply on a per share basis in an equal and nondiscriminatory manner to all Members, without regard to the volume of orders submitted by a Member or other factors.

Second, because the fees would apply on a flat, per share basis—like IEX's existing fees—they will continue to be fully deterministic, in that a Member will be able to determine the Exchange fees for each execution. IEX believes this aspect of its fee proposal will assist all Members in making decisions about routing of orders without the uncertainties associated with volume tiers or other requirements that cannot

be determined at the time of the trade. IEX notes that applying fees in this way is consistent with the purpose of the Commission's proposal to require that exchange fees be set in a manner such that the amount of a fee or rebate related to each trade is determinable at the time of the trade.[18]

Additionally, the Exchange believes that it is reasonable to modify the first bullet under ''Transaction Fees'' to include a reference to rebates and to specify that rebates are indicated by parentheses. Updating this bullet point will avoid any potential confusion as to the applicable fees and rebates for each execution.

Finally, to the extent the proposed change is successful in incentivizing the entry and execution of displayed orders on IEX, such greater liquidity will benefit all market participants by increasing price discovery and price formation as well as market quality and execution opportunities.

B. Self-Regulatory Organization's Statement on Burden on Competition

IEX does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange operates in a highly competitive market in which market participants can readily favor competing venues if fee schedules at other venues are viewed as more favorable. Consequently, the Exchange believes that the degree to which IEX fees could impose any burden on competition is extremely limited, and does not believe that such fees would burden competition between Members or competing venues. Moreover, as noted in the Statutory Basis section, the Exchange does not believe that the proposed changes raise any new or novel issues not already considered by the Commission.

The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because, while different fees are assessed in some circumstances, these different fees are not based on the type of Member entering the orders that match or on the volume of orders submitted by a Member but on the type of order entered, and all Members can submit any type of order and will be subject to the same fee for that type of order. IEX believes that applying a flat, per share fee or rebate for each type of order avoids imposing a burden on competition by ensuring that individual Members do not gain a competitive advantage over other Members based solely on their size or volume of orders they are able to submit to the Exchange. Further, the proposed fee changes continue to be intended to encourage market participants to bring increased order flow to the Exchange, which benefits all market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to section 19(b)(3)(A)[19] of the Act and subparagraph (f)(2) of Rule 19b–4[20] thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under section 19(b)(2)(B)[21] of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–IEX–2023–08 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–IEX–2023–08. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–IEX–2023–08 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[22]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98060; File No. SR–C2–2023–017]

Self-Regulatory Organizations; Cboe C2 Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Enhance Its Drill-Through Protection Processes for Simple Orders and Make Other Clarifying Changes

August 4, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on July 24, 2023, Cboe C2 Exchange, Inc. (the ''Exchange'' or ''C2'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the ''Exchange'' or ''C2'') proposes to enhance its drill-through protection processes for simple orders and make other clarifying changes. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/options/regulation/rule_filings/ctwo/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule filing is to amend Rule 5.34(a), Order and Quote Price Protection Mechanisms and Risk Controls (Simple Orders), to enhance the drill-through protection process for simple orders and make other clarifying changes.

Drill-through price protection is currently described in Exchange Rule 5.34(a)(4)(A). Under Rule 5.34(a)(4)(A), if a buy (sell) order enters the Book[3] at the conclusion of the opening auction process or would execute or post to the Book at the time of order entry, the System[4] executes the order up to a buffer amount (the Exchange determines the buffer amount on a class and premium basis) above (below) the offer (bid) limit of the Opening Collar[5] or the National Best Offer (''NBO'') (National Best Bid (''NBB'')) that existed at the time of order entry, respectively (the ''drill-through price'').[6]

Rule 5.34(a)(4)(C) establishes an iterative drill-through process, whereby the Exchange permits orders to rest in the Book for multiple time periods and at more aggressive displayed prices during each time period.[7] Specifically, for a limit order (or unexecuted portion) with a Time-in-Force of Day, Good-til-Cancelled (''GTC''), or Good-til-Date (''GTD''), the System enters the order in the Book with a displayed price equal to the drill-through price. The order (or unexecuted portion) will rest in the Book at the drill-through price for the duration of consecutive time periods (the Exchange determines on a class-by-class basis the length of the time period in milliseconds, which may not exceed three seconds).[8] Following the end of each period, the System adds (if a buy order) or subtracts (if a sell order) one buffer amount (the Exchange determines the buffer amount on a class-by-class basis) to the drill-through price displayed during the immediately preceding period (each new price becomes the ''drill-through price'').[9] The order (or unexecuted portion) rests in the Book at that new drill-through price for the duration of the subsequent period. The System applies a timestamp to the order (or unexecuted portion) based on the time it enters or is re-priced in the Book for priority reasons. The order continues through this iterative process until the earliest of the following to occur: (a) the order fully executes; (b) the User[10] cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the order rests in the Book at its limit price, subject to a User's instructions.

Currently, the above-described iterative drill-through process does not apply to market orders.[11] Specifically, if a buy (sell) market order would execute at the time of order entry, the System executes the order up to the Exchange-determined buffer amount above (below) the NBO (NBB) at the time of order entry and then rejects any remaining amount.[12] For example, suppose a market order to buy two contracts enters the System; assume that the drill-through price buffer for a certain option series is $0.90 and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. One contract in the market order will execute against the 7.00 offer quote. The remaining one contract of the market order is cancelled, because the next best offer of 8.00 is 1.00 above the NBO, which is more than the 0.90 buffer amount.

The Exchange proposes for market orders with a Time-in-Force of Day to go through the iterative drill-through process described above.[13] In the above example, rather than cancel the remaining one contract, the System would rest the one contract in the Book

[3] ''Book'' means the electronic book of simple orders and quotes maintained by the System, which single book is used during both the regular trading hours and global trading hours trading sessions. *See* Rule 1.1 (definition of, ''Book'').

[4] ''System'' means the Exchange's hybrid trading platform that integrates electronic and open outcry trading of option contracts on the Exchange and includes any connectivity to the foregoing trading platform that is administered by or on behalf of the Exchange, such as a communications hub. *See* Rule 1.1 (definition of, ''System'').

[5] *See* Rule 5.31(a) for the definition of Opening Collar.

[6] *See* Rule 5.34(a)(4)(A).

[7] The Exchange will announce to Trading Permit Holders the buffer amount and the length of the time periods in accordance with Rule 1.5. The Exchange notes that each time period will be the same length (as designated by the Exchange), and the buffer amount applied for each time period will be the same.

[8] *See* Rule 5.34(a)(4)(C). The proposed rule change defines this time period as an ''iteration.''

[9] *See* Rule 5.34(a)(4)(C).

[10] The term ''User'' shall mean any Trading Privilege Holder (TPH) or Sponsored User who is authorized to obtain access to the System pursuant to Rule 5.5.

[11] Rule 5.34(a)(4)(A) and (B).

[12] *Id.*

[13] *See* proposed Rule 5.34(a)(4)(C). The proposed rule change also adds ''a'' prior to the term ''Time-in-Force'' in that provision, which was inadvertently omitted; this is a nonsubstantive grammatical change that conforms the language to that in subparagraph (B).

at the drill-through price of 7.90 (*i.e.* the NBO plus the buffer amount) for the Exchange-determined time period. At the end of that time period, assuming the market has not changed, the remaining one contract would execute against the 8.00 offer, which is within a buffer amount of the subsequent drill-through price of 8.80. As a result, like super-aggressive limit orders (except for those with Time-in-Force of Immediate-or-Cancel (''IOC'') or Fill-or-Kill (''FOK'')) do today, market orders (except for those with Time-in-Force of IOC) will have additional execution opportunities pursuant to the drill-through process. As the proposed rule change only applies to market orders with a Time-in-Force of Day, the Exchange also proposes to amend Rule 5.34(a)(4)(B) to specify that the System will reject any market order with a Time-in-Force of IOC (or unexecuted portion) not executed pursuant to Rule 5.34(a)(4)(A).[14] The Exchange believes it is appropriate to not have a market order with a Time-in-Force of IOC to go through the iteration process, because the iteration process would be inconsistent with the IOC instruction (and thus the user's intent). Further, the Exchange proposes to amend Rule 5.34(a)(4)(A) to more generally describe when applicable order types may become subject to drill-through protection. Specifically, the Exchange proposes to specify that the protections described in Rule 5.34(a)(4)(A) become applicable if a buy (sell) order, to which Rule 5.34(a)(4) would apply, (i) enters the Book at the conclusion of opening auction process, or (ii) would execute or post to the Book when it enters the Book.[15]

The Exchange also proposes to amend Rule 5.34(a)(1)(A)(ii) to exclude from the current protections for market orders in no-bid series certain orders that would be otherwise subject to the drill-through protection under the proposed rule changes. Currently, under Rule 5.34(a)(1)(A)(ii), if the System receives a sell market order in a series after it is open for trading with an NBB of zero, and the NBO in the series is greater than $0.50, the System cancels or rejects the market order. The Exchange proposes amending this protection in the event a drill-through process is in progress. Specifically, the Exchange proposes to amend Rule 5.34(a)(1)(A)(ii) to note that in the event the System receives a sell market order in a series after it is open for trading with an NBB of zero and the NBO in the series is greater than $0.50, if the drill-through process is in progress for sell orders and the sell market order would be subject to drill-through protection, then the order would join the on-going drill-through process in the then-current iteration and at the then-current drill-through price, regardless of NBBO. The Exchange believes it is not optimal for these orders to be immediately booked at the minimum tick increment, as under the proposed rule change, such orders would instead, be subject to the drill-through protection mechanism described under Rule 5.34(a)(4), which may allow opportunity for execution at a more beneficial price level than the minimum tick increment.

Further, the Exchange proposes to amend Rule 5.34(a)(2) to specifically exclude orders that would be subject to drill-through protection from the market order NBBO width protections described therein. Currently, under Rule 5.34(a)(2), if a User submits a market order to the System when the NBBO width is greater than x% of the midpoint of the NBBO, subject to a minimum and maximum dollar amount (as determined by the Exchange on a class-by-class basis), the System cancels or rejects the market order. The Exchange proposes amending Rule 5.34(a)(2) to exclude Stop (Stop-Loss)[16] and Market-on-Close orders from this protection. Such orders may intentionally be further away from the NBBO at the time the order is entered, and the protection may cause the orders to be inadvertently rejected pursuant to this check. The Exchange believes it is not optimal for these orders to be subject to the market order NBBO width protection, as the check may inadvertently cause rejections for orders that may otherwise not have an opportunity to execute if they are immediately cancelled due to market width. Under the proposed rule change, such orders would instead, upon entry into the Book (when elected in accordance with their definitions), be subject to the drill-through protection mechanism described under Rule 5.34(a)(4). The Exchange also proposes a clarification to Rule 5.34(a)(4)(E). Currently, under Rule 5.34(a)(4)(E), if multiple Stop (Stop-Loss) or Stop-Limit[17] orders to buy (sell) have the same stop price and are thus triggered by the same trade price or NBBO, and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange proposes to remove the conditional language noting that such Stop (Stop-Loss) or Stop-Limit orders to buy (sell) must have the same stop price, as it is possible that orders with different stop prices may be triggered by the same trade price or NBBO. Further, the Exchange proposes to add language stating that, where multiple orders are simultaneously re-priced, the orders will be prioritized under subparagraph (C)(v) of Rule 5.34(a)(4) and will be sequenced based on the original time each order was entered into the Book.

For example, assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. Additionally, the following Stop orders are being held in the System when Quote 2 is updated to 2 @4.00 × 1 @6.50 (the System received these stop orders in the below sequence):

Order 1: Sell 1 @Market, Stop Price = $6.50

Order 2: Sell 1 @Market, Stop Price = $6.55

Order 3: Sell 1 @$3.95, Stop Price = $6.60

Each of orders 1, 2 and 3 have a stop price less than the NBO, and will therefore be triggered by the 6.50 quote and enter the Book for execution or posting. A drill-through price for all three orders is set at the contra-side NBB of 5.00. Per proposed Rule 5.34(a)(4)(C), the orders will go through the drill-through process as follows:

1. Order 1 will execute against Quote 1 @$5.00.

2. Orders 2 and 3 are posted to sell at $4.10 for the Exchange-determined time period.

3. Drill-through process continues for orders 2 and 3 until they are canceled or executed.

As amended, under Rule 5.34(a)(4)(E), all Stop (Stop-Loss) and Stop-Limit

[14] There is no change to the handling of market orders with a Time-in-Force of GTC or GTD as a result of this rule change; such orders will continue to be rejected by the Exchange.

[15] This includes, for example, when a Stop (Stop-Loss) or Stop-Limit order is elected.

[16] A ''Stop (Stop-Loss)'' order is an order to buy (sell) that becomes a market order when the consolidated last sale price (excluding prices from complex order trades if outside of the NBBO) or NBB (NBO) for a particular option contract is equal to or above (below) the stop price specified by the User. Users may not designate a Stop Order as All Sessions. Users may not designate bulk messages as Stop Orders. *See* Rule 5.6(c) (definition of ''Stop (Stop-Loss)'' order).

[17] A ''Stop-Limit'' order is an order to buy (sell) that becomes a limit order when the consolidated last sale price (excluding prices from complex order trades if outside the NBBO) or NBB (NBO) for a particular option contract is equal to or above (below) the stop price specified by the User. A User may not designate a Stop-Limit Order as All Sessions. Users may not designate bulk messages as Stop-Limit Orders. A User may not designate a bulk orders as Stop Limit orders. *See* Rule 5.6(c) (definition of ''Stop-Limit'' order).

orders elected as a result of the same election trigger (NBBO update or last sale price) will continue to use the same reference price for drill-through (even though they may have different stop prices).

The Exchange proposes to amend Rule 5.34(a)(4)(c)(ii), to specify that if at any time during the drill-through process, the NBO (NBB) changes to be below (above) the current drill-through price, such NBO (NBB) will become the new drill-through price and a new drill-through will immediately begin. As a result, any improvements to the market that occur while the drill-through is in process will be incorporated, thereby providing Users with further opportunity to be priced within the market while still being protected. Under the proposed rule change, any limit order with a price that is less aggressive than the new drill-through price would be entered in the Book at its limit price.

The Exchange also proposes to add Rule 5.34(a)(4)(C)(iv) [18] to provide that if the System receives a market or limit order that would be subject to the drill-through process while a drill-through is in progress in the same series, the order joins the ongoing drill-through process in the then-current iteration and at the then-current drill-through price. Under the proposed rule, orders that come in while a drill-through is in process receive the benefit of joining the drill-through at the NBBO at the time of entry, as opposed to immediately executing or being displayed at a more aggressive price than the drill-through price. By way of illustration, consider the following example:

Assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. The System receives the following orders in the below sequence:

Order 1: Sell 1 @Market, Stop Price = $6.50
Order 2: Sell 1 @Market, Stop Price = $6.55
Order 3: Sell 1 @$3.95, Stop Price $6.60
Order 4: Sell 2 @Market, Stop Price = $4.50

During this time, Quote 2 is updated to: 2 @4.00 × 1 @6.50. Orders 1, 2, and 3 are elected, and the drill-through reference price for all three orders is set to contra-side NBB of 5.00.

1. Order 1 executes Quote 1 @$5.00.
2. Orders 2 and 3 are posted to sell @ $4.10 (drill-through price) for the Exchange-determined time period.
3. Order 4 is elected due to updated best offer of $4.10, and joins Orders 2 and 3 at the iterative drill-through price of $4.10. The offer is updated to 4 @ $4.10.
4. Order 5 (Sell 10 @Market (Day)) and Order 6 (Sell 1 @$4.05 Limit (Day)) enter the Book. Per proposed Rule 5.34(a)(4)(C)(iv), Orders 5 and 6 join the drill-through iteration at the drill-through reference price of $4.10, and the best offer is updated to 15 @$4.10.
5. The drill-through process continues for orders 2, 3, 4, 5, and 6 until the contracts are canceled or executed.

Because the proposed rule change may result in multiple orders going through the drill-through process at the same price and at the same time, the proposed rule change also describes how these orders will be prioritized and allocated when executing against resting interest or incoming interest. Specifically, proposed Rule 5.34(a)(4)(C)(v) states the System prioritizes orders that are part of the same drill-through iteration (A) based on the time the System enters or reprices them in the Book (*i.e.,* in time priority) when, after an iteration, the new drill-through price makes the order(s) marketable against resting orders and (B) in accordance with the applicable base allocation algorithm when executing against any incoming interest. The Exchange believes this is appropriate because incoming marketable orders would ultimately execute in time priority today. Additionally, having multiple orders execute in accordance with the applicable base allocation algorithm when executing against incoming interest is consistent with how resting orders execute against incoming interest.

Continuing from the above example, assume the drill-through process iterates to the next drill-through price, which would be $3.20. In doing so, Order 6 posts at its limit price of $4.05, and the rest of the orders are eligible to execute in time sequence against the resting $4.00 bid. Per proposed Rule 5.34(a)(4)(C)(v), the orders will go through the drill-through process as follows:

1. Order 2 (Sell 1 @Market) will execute against Quote 2 @$4.00
2. Order 3 (Sell 1 @$3.95) will execute against Quote 2 @$4.00
3. The Quote 2 is exhausted, and the next best bid is Quote 1 for 5 @$3.00
4. Remaining drill-through is Order 4 (Sell 2 @Market) and Order 5 (Sell 10 @Market). Market is now 5 @$3.00 × 12 @$3.20, and the drill-through process continues until these contracts are executed or cancelled.

If, prior to the next drill-through iteration, Order 7 (buy 5 @$3.25) is entered and executes against Orders 4 and 5 at $3.20, the allocation will depend on the allocation algorithm for the relevant class, under the amended Rule.

1. If pro-rata, Order 7 trades 1 contract against Order 4 and 4 contracts against Order 5.
2. If price-time, Order 7 trades 2 contracts against Order 4 and 3 contracts against Order 5.
3. Remaining size on Order 4 (if applicable) and Order 5 will continue to drill-through as described in previous examples.

The Exchange also proposes to amend Rule 5.34(a)(4)(C)(vi).[19] Currently, the rule states that an order will continue through the drill-through process until the earliest of the following to occur: (a) the order fully executes; (b) the User cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the orders rests in the Book at its limit price, subject to a User's instruction. The Exchange proposes to amend part (c) to remove reference to when the order's limit price equals the drill-through price, since under the drill-through process, if a buy (sell) order's limit price equals the drill-through price during the application of the drill-through mechanism it will remain part of the drill-through process, until the order's limit price is less (greater) than the drill-through price, at which point it will rest in the Book at its limit price. The Exchange also proposes to remove reference to a User's instruction, as there is no additional instruction that would allow a User to choose a different order handling option once the buy (sell) order limit price is less (greater) than the drill-through price.

Finally, the Exchange proposes to add Rule 5.34(a)(4)(C)(vii) to specify that the drill-through protection mechanism applies during all trading sessions and to provide clarity as to what happens to orders that are undergoing the drill-through process at the end of a trading session. Under the proposed rule change, if an order(s) (or unexecuted portion(s)) is undergoing the drill-through process at the end of a Global Trading Hours (''GTH'') [20] session, then

[18] As a result of the additional provisions described herein, the proposed rule change renumbers current subparagraph (iv) to be proposed subparagraph (vi).

[19] *Id.*

[20] The Exchange does not currently operate a GTH session. In the event the Exchange were to operate

the drill-through process concludes and the order(s) (or unexecuted portions(s)) enters the Regular Trading Hours (''RTH'') [21] Queuing Book [22] as a market order or limit order (at its limits price) on that same trading day, subject to a User's instructions. If an order(s) (or unexecuted portion(s)) is undergoing the drill-through process at the end of its last eligible trading session for that trading day (*i.e.,* RTH), the drill-through process concludes. Any order (or unexecuted portion) with a Time-in-Force of (i) Day is canceled, and (ii) GTC or GTD enters the Queuing Book for the next eligible trading session (*i.e.,* GTH or RTH) as a market order or limit order (at its limit price).

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[23] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [24] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [25] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposed rule change to enhance drill-through protections for simple orders and to make certain market orders eligible for drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors, because it will provide these orders with additional and consistent execution opportunities and protections. The primary purpose of the drill-through price protection is to prevent orders from executing at prices ''too far away'' from the market when they enter the Book for potential execution. The Exchange believes the proposed rule change is consistent with this purpose, because Users who submit market orders with a Time-in-Force of Day will receive the same level of drill-through price protection against execution at potentially erroneous prices that is currently afforded to supermarketable limit orders while receiving the same additional execution opportunities. Supermarketable limit orders currently go through the drill-through process, and market orders with a Time-in-Force of Day are functionally similar to supermarketable limit orders. Therefore, the Exchange believes it is appropriate to provide both types of orders with the same price protection.

Further, the proposed rule change to provide that any new market and limit orders that would be subject to drill-through protection will join any in-progress drill-through iterations and display at the then-current drill-through price (and the corresponding changes regarding allocation and prioritization) allows new orders to receive the same level of price protection as other orders undergoing the drill-through process. The proposed rule change will allow all orders additional execution opportunities while continuing to protect them against execution at potentially erroneous prices. Similarly, the Exchange believes the proposed change to consider changes to the NBO (NBB) during drill-through and to update the drill-through price to such NBO (NBB) should it be lower (higher) than the drill-through price will further provide opportunity for execution at reasonable prices by capturing any market moves that may result in more aggressive prices.

The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders.

Additionally, the Exchange believes changes to specifically exclude from market order NBBO width and market order in no-bid series protections certain orders that would be subject to drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors. Specifically, the Exchange believes the changes to exclude certain orders that would be subject to drill-through protection from market order NBBO width protections may reduce inadvertent rejection of such orders which may be purposely priced far away from the NBBO at the time of entry and may otherwise miss an opportunity for execution if immediately cancelled. The Exchange also believes the changes to exclude certain orders that would be subject to drill-through protection from market order in no-bid series protections may allow opportunity for execution at a more beneficial price level than if they were immediately booked at the minimum tick increment. This proposed rule change may increase execution opportunities for Users that submit such Stop (Stop-Loss) and Market-on-Close orders (in the case of market order NBBO width protections) and sell market orders with an NBB of zero when the NBO in the series is greater than $0.50 (in the case of market orders in no-bid series protections).

The Exchange believes the proposed change to Rule 5.34(a)(4)(E) will protect investors because it clarifies that if multiple Stop (Stop-Loss) and Stop-Limit orders are triggered by the same trade price or NBBO (even if the orders have different stop prices), and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange believes that the proposed rule change will bring greater transparency and clarity to the rulebook, thus benefitting investors.

Finally, the Exchange believes the proposed changes to clarify when an order ceases to remain a part of the drill-through process and to specify what happens to orders undergoing drill-through at the end of a trading session will protect investors by adding transparency to the rules regarding the drill-through functionality and provide greater certainty as to the application of the drill-through process.

---

a GTH session, it would begin at 8:30 a.m. and go until 9:15 a.m. ET on Monday through Friday.

[21] RTH for transactions in equity options (including options on individual stocks, ETFs, ETNs, and other securities) are the normal business days and hours set forth in the rules of the primary market currently trading the securities underlying the options, except for options on ETFs, ETNs, Index Portfolio Shares, Index Portfolio Receipts, and Trust Issued Receipts the Exchange designates to remain open for trading beyond 4:00 p.m. Eastern Time (ET) but in no case later than 4:15 p.m. ET. RTH for transactions in index options are from 9:30 a.m. to 4:15 p.m. ET, subject to certain exceptions.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the enhanced drill-through protection will apply to all marketable orders in the same manner. Additionally, it will provide the same price protection and execution opportunities to relevant market orders that are currently provided to supermarketable limit orders, which function in a similar manner.

The Exchange does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed enhancement to the drill-through protection is consistent with the current protection and provides relevant market orders with improved protection against execution at potentially erroneous prices through drill-through price protection in accordance with User instructions. Additionally, the proposed rule change relates specifically to a price protection offered on the Exchange and how the System handles orders as part of this price protection mechanism.

The Exchange believes the proposed rule change would ultimately provide all market participants with additional execution opportunities when appropriate while providing protection from erroneous execution. The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders. Without adequate risk management tools, Trading Permit Holders could reduce the amount of order flow and liquidity they provide. Such actions may undermine the quality of the markets available to customers and other market participants. Accordingly, the proposed rule change is designed to encourage Trading Permit Holders to submit additional order flow and liquidity to the Exchange. Accordingly, the proposed rule change is designed to encourage Trading Permit Holders to submit additional order flow and liquidity to the Exchange. The proposed flexibility may similarly provide additional execution opportunities, which further benefits liquidity in potentially volatile markets. In addition, providing Trading Permit Holders with more tools for managing risk will facilitate transactions in securities because, as noted above, Trading Permit Holders will have more confidence protections are in place that reduce the risks from potential system errors and market events.

Finally, the proposed clarifying changes are not intended to have any impact on competition, but rather codify current functionality to add transparency to the Rules.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act[26] and subparagraph (f)(6) of Rule 19b–4 thereunder.[27]

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

[26] 15 U.S.C. 78s(b)(3)(A)(iii).

[27] 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–C2–2023–017 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–C2–2023–017. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–C2–2023–017 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[28]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98056; File No. SR–GEMX–2023–09]

Self-Regulatory Organizations; Nasdaq GEMX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce GEMX's Options Regulatory Fee

August 4, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on July 25, 2023, Nasdaq GEMX, LLC (''GEMX'' or ''Exchange'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend GEMX's Pricing Schedule at Options 7, Section 5 to reduce the GEMX Options Regulatory Fee or ''ORF.''

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on August 1, 2023.

The text of the proposed rule change is available on the Exchange's website at *https://listingcenter.nasdaq.com/rulebook/gemx/rules,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

GEMX proposes to lower its ORF from $0.0013 to $0.0012 per contract side on August 1, 2023. Previously, GEMX lowered or waived its ORF in 2019, 2021, 2022 and 2023.[3] After a review of its regulatory revenues and regulatory costs, the Exchange proposes to reduce the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange's total regulatory costs.

Volumes in the options industry went over 900,000,000 in 2023. GEMX has taken measures this year as well as in prior years to lower and waive its ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange's total regulatory costs. Despite those prior measures, GEMX will need to reduce its ORF again to account for trading volumes in the first half of 2023 that were higher than the Exchange forecast for ORF assessment purposes, which resulted in the collection of more ORF revenues than anticipated in the first half of 2023. At this time, GEMX believes that the options volume it experienced in the first half of 2023 is likely to persist. The anticipated options volume would continue to impact GEMX's ORF collection which, in turn, has caused GEMX to propose reducing the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, would not exceed the Exchange's total regulatory costs.

Collection of ORF

GEMX will continue to assess its ORF for each customer option transaction that is either: (1) executed by a Member on GEMX; or (2) cleared by an GEMX Member at The Options Clearing Corporation (''OCC'') in the customer range,[4] even if the transaction was executed by a non-Member of GEMX, regardless of the exchange on which the transaction occurs.[5] If the OCC clearing member is a GEMX Member, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA [6]); and (2) if the OCC clearing member is not a GEMX Member, ORF is collected only on the cleared customer contracts executed at GEMX, taking into account any CMTA instructions which may result in collecting the ORF from a non-Member.[7]

In the case where a Member both executes a transaction and clears the transaction, the ORF will be assessed to and collected from that Member. In the case where a Member executes a transaction and a different Member clears the transaction, the ORF will be assessed to and collected from the Member who clears the transaction and not the Member who executes the transaction. In the case where a non-Member executes a transaction at an away market and a Member clears the transaction, the ORF will be assessed to and collected from the Member who clears the transaction. In the case where a Member executes a transaction on GEMX and a non-Member clears the transaction, the ORF will be assessed to the Member that executed the transaction on GEMX and collected from the non-Member who cleared the transaction. In the case where a Member executes a transaction at an away market and a non-Member clears the transaction, the ORF will not be

[28] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Securities Exchange Act Release No. 85140 (February 14, 2019), 84 FR 5511 (February 21, 2019) (SR–GEMX–2019–01) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Options Regulatory Fee); 92698 (August 18, 2021), 86 FR 47355 (August 24, 2021) (SR–GEMX–2021–08) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend GEMX's Options Regulatory Fee); 94069 (January 26, 2022), 87 FR 5545 (February 1, 2022) (SR–GEMX–2022–03) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce GEMX's Options Regulatory Fee); and 96598 (January 3, 2023), 88 FR 1308 (January 9, 2023) (SR–GEMX–2022–14) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce GEMX's Options Regulatory Fee).

[4] Participants must record the appropriate account origin code on all orders at the time of entry of the order. The Exchange represents that it has surveillances in place to verify that members mark orders with the correct account origin code.

[5] The Exchange uses reports from OCC when assessing and collecting the ORF.

[6] CMTA or Clearing Member Trade Assignment is a form of ''give-up'' whereby the position will be assigned to a specific clearing firm at OCC.

[7] By way of example, if Broker A, a GEMX Member, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A's OCC Clearing account, ORF will be collected by GEMX from Broker A's clearing account at OCC via direct debit. While this transaction was executed on a market other than GEMX, it was cleared by a GEMX Member in the member's OCC clearing account in the customer range, therefore there is a regulatory nexus between GEMX and the transaction. If Broker A was not a GEMX Member, then no ORF should be assessed and collected because there is no nexus; the transaction did not execute on GEMX nor was it cleared by a GEMX Member.

assessed to the Member who executed the transaction or collected from the non-Member who cleared the transaction because the Exchange does not have access to the data to make absolutely certain that ORF should apply. Further, the data does not allow the Exchange to identify the Member executing the trade at an away market.

ORF Revenue and Monitoring of ORF

The Exchange monitors the amount of revenue collected from the ORF to ensure that it, in combination with other regulatory fees and fines, does not exceed regulatory costs. In determining whether an expense is considered a regulatory cost, the Exchange reviews all costs and makes determinations if there is a nexus between the expense and a regulatory function. The Exchange notes that fines collected by the Exchange in connection with a disciplinary matter offset ORF.

Revenue generated from ORF, when combined with all of the Exchange's other regulatory fees and fines, is designed to recover a material portion of the regulatory costs to the Exchange of the supervision and regulation of member customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. Regulatory costs include direct regulatory expenses and certain indirect expenses in support of the regulatory function. The direct expenses include in-house and third-party service provider costs to support the day-to-day regulatory work such as surveillances, investigations and examinations. The indirect expenses include support from such areas as Office of the General Counsel, technology, and internal audit. Indirect expenses were approximately 39% of the total regulatory costs for 2023. Thus, direct expenses were approximately 61% of total regulatory costs for 2023.[8]

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of its Members, including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities.

Proposal

Based on the Exchange's most recent review, the Exchange is proposing to reduce the amount of ORF that will be collected by the Exchange from $0.0013 per contract side to $0.0012 per contract side. The Exchange issued an Options Trader Alert on June 30, 2023 indicating the proposed rate change for August 1, 2023.[9]

The proposed reduction is based on current levels of options volume. The below table displays monthly total volume for 2023.[10]

Month	Total volume	Customer sides
January 2023	919,299,330	802,712,235
February 2023	883,234,837	780,284,838
March 2023	1,052,984,722	915,674991
April 2023	760,808,909	673,183,772
May 2023	944,534,205	826,490,407
June 2023[11]	909,616,267	801,688,960

Options volumes remained higher in 2023 with March 2023 exceeding 1,000,000,000 total contracts, higher than any month in 2022. With respect to customer options volume, it also remains high in 2023. There can be no assurance that the Exchange's regulatory costs for the remainder of 2023 will not differ materially from the Exchange's budgeted amount, nor can the Exchange predict with certainty whether options volume will remain at the current level going forward. The Exchange notes however, that when combined with regulatory fees and fines, the revenue that may be generated utilizing an ORF rate of $0.0013 per contract side may result in revenue which exceeds the Exchange's estimated regulatory costs for 2023 if options volumes remain at levels higher than forecasted.

GEMX lowered its ORF in the beginning of 2023 to account for options volume in 2022. The Exchange proposes to reduce its ORF to $0.0012 per contract side to ensure that revenue does not exceed the Exchange's estimated regulatory costs in 2023. Particularly, the Exchange believes that reducing the ORF when combined with all of the Exchange's other regulatory fees and fines, would allow the Exchange to continue covering a material portion of its regulatory costs, while lessening the potential for generating excess revenue that may otherwise occur using the rate of $0.0013 per contract side.[12]

The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs. If the Exchange determines regulatory revenues may exceed or are projected to exceed regulatory costs, the Exchange will adjust the ORF by submitting a fee change filing to the Commission and notifying[13] its Members via an Options Trader Alert.[14] The Exchange is also deleting obsolete text in the Exhibit 5 regarding prior ORF rates.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[15] Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,[16] which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its members, and other persons using its

[8] These numbers are taken from the Exchange's 2023 Regulatory Budget.

[9] *See* Options Trader Alert 2023–15.

[10] Volume data in the table represents numbers of contracts; each contract has two sides.

[11] June numbers reflect volumes through June 29, 2023.

[12] The Exchange notes that its regulatory responsibilities with respect to Member compliance with options sales practice rules have largely been allocated to FINRA under a 17d–2 agreement. The ORF is not designed to cover the cost of that options sales practice regulation.

[13] The Exchange provides Members with such notice at least 30 calendar days prior to the operative date of the change. *See* Options Trader Alert 2023–15.

[14] The Exchange notes that in connection with this proposal, it provided the Commission confidential details regarding the Exchange's projected regulatory revenue, including projected revenue from ORF, along with projected regulatory expenses.

[15] 15 U.S.C. 78f(b).

[16] 15 U.S.C. 78f(b)(4).

facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [17] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes the proposed fee change is reasonable because customer transactions will be subject to a lower ORF fee as of August 1, 2023 and the amount of the lower fee will fund a reasonable portion of the Exchange's regulatory costs. Moreover, the proposed reduction is necessary for the Exchange to avoid collecting revenue, in combination with other regulatory fees and fines, that would be in excess of its anticipated regulatory costs.

The Exchange designed the ORF to generate revenues that would be less than the amount of the Exchange's regulatory costs to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs, which is consistent with the view of the Commission that regulatory fees be used for regulatory purposes and not to support the Exchange's business operations. As discussed above, however, after review of its regulatory costs and regulatory revenues, which includes revenues from ORF and other regulatory fees and fines, the Exchange determined that absent a reduction in ORF, it may collect revenue which would exceed its regulatory costs. Indeed, the Exchange notes that when taking into account the potential that recent options volume persists, it estimates the ORF may generate revenues that would cover more than the approximated Exchange's projected regulatory costs. As such, the Exchange believes it's reasonable and appropriate to reduce the ORF amount from $0.0013 to $0.0012 per contract side on August 1, 2023.

The Exchange also believes the proposed fee change is equitable and not unfairly discriminatory in that it is charged to all Members on all their transactions that clear in the customer range at OCC.[18] The Exchange believes the ORF ensures fairness by assessing higher fees to those Members that require more Exchange regulatory services based on the amount of customer options business they conduct. Regulating customer trading activity is much more labor intensive and requires greater expenditure of human and technical resources than regulating non-customer trading activity, which tends to be more automated and less labor-intensive. For example, there are costs associated with main office and branch office examinations (*e.g.,* staff expenses), as well as investigations into customer complaints and the terminations of registered persons. As a result, the costs associated with administering the customer component of the Exchange's overall regulatory program are materially higher than the costs associated with administering the non-customer component (*e.g.,* Member proprietary transactions) of its regulatory program. Moreover, the Exchange notes that it has broad regulatory responsibilities with respect to activities of its Members, irrespective of where their transactions take place. Many of the Exchange's surveillance programs for customer trading activity may require the Exchange to look at activity across all markets, such as reviews related to position limit violations and manipulation. Indeed, the Exchange cannot effectively review for such conduct without looking at and evaluating activity regardless of where it transpires. In addition to its own surveillance programs, the Exchange also works with other SROs and exchanges on intermarket surveillance related issues. Through its participation in the Intermarket Surveillance Group (''ISG'') [19] the Exchange shares information and coordinates inquiries and investigations with other exchanges designed to address potential intermarket manipulation and trading abuses. Accordingly, there is a strong nexus between the ORF and the Exchange's regulatory activities with respect to customer trading activity of its Members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal does not create an unnecessary or inappropriate intra-market burden on competition because the ORF applies to all customer activity, thereby raising regulatory revenue to offset regulatory expenses. It also supplements the regulatory revenue derived from non-customer activity. The Exchange notes, however, the proposed change is not designed to address any competitive issues. Indeed, this proposal does not create an unnecessary or inappropriate inter-market burden on competition because it is a regulatory fee that supports regulation in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) [20] of the Act and subparagraph (f)(2) of Rule 19b–4 [21] thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) [22] of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

[17] 15 U.S.C. 78f(b)(5).

[18] If the OCC clearing member is a GEMX member, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA); and (2) if the OCC clearing member is not a GEMX member, ORF is collected only on the cleared customer contracts executed at GEMX, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.

[19] ISG is an industry organization formed in 1983 to coordinate intermarket surveillance among the SROs by cooperatively sharing regulatory information pursuant to a written agreement between the parties. The goal of the ISG's information sharing is to coordinate regulatory efforts to address potential intermarket trading abuses and manipulations.

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–GEMX–2023–09 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–GEMX–2023–09. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–GEMX–2023–09 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[23]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98059; File No. SR–CboeBZX–2023–053]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Enhance Its Drill-Through Protection Processes for Simple Orders and Make Other Clarifying Changes

August 4, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on July 24, 2023, Cboe BZX Exchange, Inc. (the ''Exchange'' or ''BZX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the ''Exchange'' or ''BZX'') proposes to enhance its drill-through protection processes for simple orders and make other clarifying changes. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/equities/regulation/rule_filings/bzx/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule filing is to amend Rule 21.17, Additional Price Protection Mechanisms and Risk Controls, to enhance the drill-through protection process for simple orders and make other clarifying changes.

Drill-through price protection is currently described in Exchange Rule 21.17(d). Under Rule 21.17(d)(1), if a buy (sell) order enters the BZX Options Book[3] (''Book'') at the conclusion of the opening auction process or would execute or post to the Book at the time of order entry, the System[4] executes the order up to a buffer amount (the Exchange determines the buffer amount on a class and premium basis) above (below) the offer (bid) limit of the Opening Collar[5] or the National Best Offer (''NBO'') (National Best Bid (''NBB'')) that existed at the time of order entry, respectively (the ''drill-through price'').[6]

Current Rule 21.17(d)(2) (as amended, proposed Rule 21.17(d)(3))[7] establishes an iterative drill-through process, whereby the Exchange permits orders to rest in the Book for multiple time periods and at more aggressive displayed prices during each time period.[8] Specifically, the System enters the order in the Book with a displayed price equal to the drill-through price (unless the terms of the order instruct otherwise).[9] The order (or unexecuted portion) will rest in the Book at the drill-through price for the duration of consecutive time periods (the Exchange determines on a class-by-class basis the

[3] ''BZX Book'' means the System's electronic file of orders. *See* Rule 1.5 (e).

[4] ''System'' means the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking, execution and, when applicable, routing away. *See* Rule 1.5 (aa).

[5] *See* Rule 21.7(a) for the definition of Opening Collar.

[6] *See* Rule 21.17(d)(1).

[7] As part of the rule changes described herein, the Exchange proposes to renumber current subparagraph (d)(2) to be proposed subparagraph (d)(3), and to renumber current subparagraph (d)(3) to be proposed subparagraph (d)(4).

[8] The Exchange will announce to Members the buffer amount and the length of the time periods. The Exchange notes that each time period will be the same length (as designated by the Exchange), and the buffer amount applied for each time period will be the same.

[9] Currently, the drill-through protections described under current Rule 21.17(d)(2) apply only to a limit order with a Time-in-Force of Day, Good-til-Cancel (''GTC''), or Good-til-Day (''GTD''). This rule proposal also seeks to clarify which orders are subject to the drill-through protections, as described herein.

length of the time period in milliseconds, which may not exceed three seconds).[10] Following the end of each period, the System adds (if a buy order) or subtracts (if a sell order) one buffer amount (the Exchange determines the buffer amount on a class-by-class basis) to the drill-through price displayed during the immediately preceding period (each new price becomes the ''drill-through price'').[11] The order (or unexecuted portion) rests in the Book at that new drill-through price for the duration of the subsequent period. The System applies a timestamp to the order (or unexecuted portion) based on the time it enters or is re-priced in the Book for priority reasons. The order continues through this iterative process until the earliest of the following to occur: (a) the order fully executes; (b) the User[12] cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the order rests in the Book at its limit price, subject to a User's instructions.

Currently, the above-described iterative drill-through process does not apply to market orders. Specifically, if a buy (sell) market order would execute at the time of order entry, the System executes the order up to the Exchange-determined buffer amount above (below) the NBO (NBB) at the time of order entry and then rejects any remaining amount. For example, suppose a market order to buy two contracts enters the System; assume that the drill-through price buffer for a certain option series is $0.90 and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. One contract in the market order will execute against the 7.00 offer quote. The remaining one contract of the market order is cancelled, because the next best offer of 8.00 is 1.00 above the NBO, which is more than the 0.90 buffer amount.

The Exchange proposes for market orders with a Time-in-Force of Day to go through the iterative drill-through process described above.[13] The Exchange also proposes to amend current Rule 21.17(d)(2) (as amended, proposed Rule 21.17(d)(3)) to clarify that limit orders with a Time-in-Force of Day, GTC, or GTD also go through the iterative drill-through process. In the above example, rather than cancel the remaining one contract, the System would rest the one contract in the Book at the drill-through price of 7.90 (*i.e.* the NBO plus the buffer amount) for the Exchange-determined time period. At the end of that time period, assuming the market has not changed, the remaining one contract would execute against the 8.00 offer, which is within a buffer amount of the subsequent drill-through price of 8.80. As a result, like super-aggressive limit orders (except for those with Time-in-Force of Immediate-or-Cancel (''IOC'') or Fill-or-Kill (''FOK'')) do today, market orders (except for those with Time-in-Force of IOC) will have additional execution opportunities pursuant to the drill-through process. As the proposed rule change only applies to market orders with a Time-in-Force of Day, and the drill through protections described under current Rule 21.17(d)(2) continue to apply only to limit orders with a Time-in-Force of Day, GTC, or GTD, the Exchange also proposes to adopt proposed Rule 21.17(d)(2)[14] to specify that the System will cancel or reject any market order with Time-in-Force of IOC (or unexecuted portion) or limit order with a Time-in-Force of IOC or FOK (or unexecuted portion) not executed pursuant to 21.17(d)(1).[15] The Exchange believes it is appropriate to not have a market order with a Time-in-Force of IOC to go through the iteration process, because the iteration process would be inconsistent with the IOC instruction (and thus the user's intent). Further, the Exchange proposes to amend Rule 21.17(d)(1) to more generally describe when applicable order types may become subject to drill-through protection. Specifically, the Exchange proposes to specify that the protections described in Rule 21.17(d)(1) become applicable if a buy (sell) order, to which Rule 21.17(d)(1) would apply, (i) enters the Book at the conclusion of opening auction process, or (ii) would execute or post to the Book when it enters the Book.[16]

The Exchange also proposes to amend Rule 21.17(e)(1)(B) to exclude from the current protections for market orders in no-bid series certain orders that would be otherwise subject to the drill-through protection under the proposed rule changes. Currently, under Rule 21.17(e)(1)(B), if the System receives a sell market order in a series after it is open for trading with an NBB of zero, and the NBO in the series is greater than $0.50, the System cancels or rejects the market order. The Exchange proposes amending this protection in the event a drill-through process is in progress. Specifically, the Exchange proposes to amend Rule 21.17(e)(1)(B) to note that in the event the System receives a sell market order in a series after it is open for trading with an NBB of zero and the NBO in the series is greater than $0.50, if the drill-through process is in progress for sell orders and the sell market order would be subject to drill-through protection, then the order would join the on-going drill-through process in the then-current iteration and at the then-current drill-through price, regardless of NBBO. The Exchange believes it is not optimal for these orders to be immediately booked at the minimum tick increment, as under the proposed rule change, such orders would instead, be subject to the drill-through protection mechanism described under Rule 21.17(d), which may allow opportunity for execution at a more beneficial price level than the minimum tick increment.

Further, the Exchange proposes to amend Rule 21.17(a) to specifically exclude orders that would be subject to drill-through protection from the market order NBBO width protections described therein. Currently, under Rule 21.17(a), if a User submits a market order to the System when the NBBO width is greater than x% of the midpoint of the NBBO, subject to a minimum and maximum dollar amount (as determined by the Exchange on a class-by-class basis), the System cancels or rejects the market order. The Exchange proposes amending Rule 21.17(a) to exclude Stop Orders[17] and Market-on-Close orders from this protection. Such orders may intentionally be further away from the NBBO at the time the order is entered, and the protection may cause the orders to be inadvertently rejected pursuant to this check. The Exchange believes it is not optimal for these orders to be subject to the market order NBBO width protection, as the check may

[10] *See* current Rule 21.17(d)(2)(A) (as amended, Rule 21.17(d)(3)(A)). The proposed rule change defines this time period as an ''iteration.''

[11] *See* current Rule 21.17(d)(2)(B) (as amended, Rule 21.17(d)(3)(B)).

[12] The term ''User'' shall mean any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3. *See* Rule 1.5(cc).

[13] *See* proposed Rule 21.17(d)(3).

[14] *See* supra note 9.

[15] There is no change to the handling of market orders with a Time-in-Force of GTC or GTD as a result of this rule change; such orders will continue to be rejected by the Exchange.

[16] This includes, for example, when a Stop (Stop-Loss) or Stop-Limit order is elected.

[17] A ''Stop Order'', or Stop (Stop-Loss) Order, is an order that becomes a BZX market order when the stop price is elected. A Stop Order to buy is elected when the consolidated last sale in the security occurs at, or above, the specified stop price. A Stop Order to sell becomes a limit order when the consolidated last sale in the security occurs at, or below, the specified stop price. *See* Rule 11.9(c)(16).

inadvertently cause rejections for orders that may otherwise not have an opportunity to execute if they are immediately cancelled due to market width. Under the proposed rule change, such orders would instead, upon entry into the Book (when elected in accordance with their definitions), be subject to the drill-through protection mechanism described under Rule 21.17(d). The Exchange also proposes a clarification to proposed Rule 21.17(d)(4).[18] Currently, under Rule 21.17(d)(4), if multiple Stop (Stop-Loss) or Stop-Limit[19] orders to buy (sell) have the same stop price and are thus triggered by the same trade price or NBBO, and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange proposes to remove the conditional language noting that such Stop (Stop-Loss) or Stop-Limit orders to buy (sell) must have the same stop price, as it is possible that orders with different stop prices may be triggered by the same trade price or NBBO. Further, the Exchange proposes to add language stating that, where multiple orders are simultaneously re-priced, the orders will be prioritized under proposed Rule 21.17(d)(3)(E)[20] and will be sequenced based on the original time each order was entered into the Book.

For example, assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. Additionally, the following Stop orders are being held in the System when Quote 2 is updated to 2 @4.00 × 1 @6.50 (the System received these stop orders in the below sequence):

Order 1: Sell 1 @Market, Stop Price = $6.50
Order 2: Sell 1 @Market, Stop Price = $6.55
Order 3: Sell 1 @$3.95, Stop Price = $6.60

Each of orders 1, 2 and 3 have a stop price less than the NBO, and will therefore be triggered by the 6.50 quote and enter the Book for execution or posting. A drill-through price for all three orders is set at the contra-side NBB of 5.00. Per proposed Rule 21.17(d)(3), the orders will go through the drill-through process as follows:

1. Order 1 will execute against Quote 1 @$5.00.
2. Orders 2 and 3 are posted to sell at $4.10 for the Exchange-determined time period.
3. Drill-through process continues for orders 2 and 3 until they are canceled or executed.

As amended, under Rule 21.17(d)(4), all Stop (Stop-Loss) and Stop-Limit orders elected as a result of the same election trigger (NBBO update or last sale price) will continue to use the same reference price for drill-through (even though they may have different stop prices).

The Exchange proposes to amend Rule 21.17(d)(3)(B),[21] to specify that if at any time during the drill-through process, the NBO (NBB) changes to be below (above) the current drill-through price, such NBO (NBB) will become the new drill-through price and a new drill-through will immediately begin. As a result, any improvements to the market that occur while the drill-through is in process will be incorporated, thereby providing Users with further opportunity to be priced within the market while still being protected. Under the proposed rule change, any limit order with a price that is less aggressive than the new drill-through price would be entered in the Book at its limit price.

The Exchange also proposes to add Rule 21.17(d)(3)(D)[22] to provide that if the System receives a market or limit order that would be subject to the drill-through process while a drill-through is in progress in the same series, the order joins the ongoing drill-through process in the then-current iteration and at the then-current drill-through price. Under the proposed rule, orders that come in while a drill-through is in process receive the benefit of joining the drill-through at the NBBO at the time of entry, as opposed to immediately executing or being displayed at a more aggressive price than the drill-through price. By way of illustration, consider the following example:

Assume that the drill-through price buffer for a certain option series is $0.90, and that the following quotes are in the Book: Quote 1 (NBBO): 1 @5.00 × 1 @7.00; Quote 2: 2 @4.00 × 1 @8.00. The System receives the following orders in the below sequence:
Order 1: Sell 1 @Market, Stop Price = $6.50
Order 2: Sell 1 @Market, Stop Price = $6.55
Order 3: Sell 1 @$3.95, Stop Price $6.60
Order 4: Sell 2 @Market, Stop Price = $4.50

During this time, Quote 2 is updated to: 2 @4.00 × 1 @6.50. Orders 1, 2, and 3 are elected, and the drill-through reference price for all three orders is set to contra-side NBB of 5.00.

1. Order 1 executes Quote 1 @$5.00.
2. Orders 2 and 3 are posted to sell @ $4.10 (drill-through price) for the Exchange-determined time period.
3. Order 4 is elected due to updated best offer of $4.10, and joins Orders 2 and 3 at the iterative drill-through price of $4.10. The offer is updated to 4 @ $4.10.
4. Order 5 (Sell 10 @Market (Day)) and Order 6 (Sell 1 @$4.05 Limit (Day)) enter the Book. Per proposed Rule 21.17(d)(3)(D), Orders 5 and 6 join the drill-through iteration at the drill-through reference price of $4.10, and the best offer is updated to 15 @$4.10.
5. The drill-through process continues for orders 2, 3, 4, 5, and 6 until the contracts are canceled or executed.

Because the proposed rule change may result in multiple orders going through the drill-through process at the same price and at the same time, the proposed rule change also describes how these orders will be prioritized and allocated when executing against resting interest or incoming interest. Specifically, proposed Rule 21.17(d)(3)(E)[23] states the System prioritizes orders that are part of the same drill-through iteration (A) based on the time the System enters or reprices them in the Book (*i.e.,* in time priority) when, after an iteration, the new drill-through price makes the order(s) marketable against resting orders and (B) in accordance with the applicable base allocation algorithm when executing against any incoming interest. The Exchange believes this is appropriate because incoming marketable orders would ultimately execute in time priority today. Additionally, having multiple orders execute in accordance with the applicable base allocation algorithm when executing against incoming interest is consistent with how resting orders execute against incoming interest.

Continuing from the above example, assume the drill-through process iterates to the next drill-through price, which would be $3.20. In doing so, Order 6 posts at its limit price of $4.05, and the rest of the orders are eligible to execute in time sequence against the resting $4.00 bid. Per proposed Rule 21.17(d)(3)(E), the orders will go through the drill-through process as follows:

[18] *See* supra note 9.

[19] A ''Stop-Limit'' order is an order that becomes a limit order when the stop price is elected. A Stop Limit Order to buy is elected when the consolidated last sale in the security occurs at, or above, the specified stop price. A Stop Limit Order to sell becomes a sell limit order when the consolidated last sale in the security occurs at, or below, the specified stop price. *See* Rule 11.9(c)(17).

[20] *See* supra note 9.

[21] *See* supra note 9.

[22] As a result of the additional provisions described herein, the proposed rule change renumbers current subparagraph (D) to be proposed subparagraph (F) and current subparagraph (E) to be proposed subparagraph (H). *See also* supra note 9.

[23] *Id.*

1. Order 2 (Sell 1 @Market) will execute against Quote 2 @$4.00.

2. Order 3 (Sell 1 @$3.95) will execute against Quote 2 @$4.00.

3. The Quote 2 is exhausted, and the next best bid is Quote 1 for 5 @$3.00.

4. Remaining drill-through is Order 4 (Sell 2 @Market) and Order 5 (Sell 10 @ Market). Market is now 5 @$3.00 × 12 @$3.20, and the drill-through process continues until these contracts are executed or cancelled.

If, prior to the next drill-through iteration, Order 7 (buy 5 @$3.25) is entered and executes against Orders 4 and 5 at $3.20, the allocation will depend on the allocation algorithm for the relevant class, under the amended Rule.

1. If pro-rata, Order 7 trades 1 contract against Order 4 and 4 contracts against Order 5.

2. If price-time, Order 7 trades 2 contracts against Order 4 and 3 contracts against Order 5.

3. Remaining size on Order 4 (if applicable) and Order 5 will continue to drill-through as described in previous examples.

The Exchange also proposes to amend Rule 21.17(d)(3)(F).[24] Currently, the rule states that an order will continue through the drill-through process until the earliest of the following to occur: (a) the order fully executes; (b) the User cancels the order; and (c) the buy (sell) order's limit price equals or is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the orders rests in the Book at its limit price, subject to a User's instruction. The Exchange proposes to amend part (c) to remove reference to when the order's limit price equals the drill-through price, since under the drill-through process, if a buy (sell) order's limit price equals the drill-through price during the application of the drill-through mechanism it will remain part of the drill-through process, until the order's limit price is less (greater) than the drill-through price, at which point it will rest in the Book at its limit price. The Exchange also proposes to remove reference to a User's instruction, as there is no additional instruction that would allow a User to choose a different order handling option once the buy (sell) order limit price is less (greater) than the drill-through price.

Finally, the Exchange proposes to add Rule 21.17(d)(3)(G) to specify that if an order(s) (or unexecuted portion(s)) is undergoing the drill-through process at the end of its last eligible trading session for that trading day (*i.e.,* RTH), the drill-through process concludes. Any order (or unexecuted portion) with a Time-in-Force of (i) Day is canceled, and (ii) GTC or GTD enters the Queuing Book for the next eligible trading session as a market order or limit order (at its limit price).

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[25] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[26] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)[27] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposed rule change to enhance drill-through protections for simple orders and to make certain market orders eligible for drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors, because it will provide these orders with additional and consistent execution opportunities and protections. The primary purpose of the drill-through price protection is to prevent orders from executing at prices ''too far away'' from the market when they enter the Book for potential execution. The Exchange believes the proposed rule change is consistent with this purpose, because Users who submit market orders with a Time-in-Force of Day will receive the same level of drill-through price protection against execution at potentially erroneous prices that is currently afforded to supermarketable limit orders while receiving the same additional execution opportunities. Supermarketable limit orders currently go through the drill-through process, and market orders with a Time-in-Force of Day are functionally similar to supermarketable limit orders. Therefore, the Exchange believes it is appropriate to provide both types of orders with the same price protection.

Further, the proposed rule change to provide that any new market and limit orders that would be subject to drill-through protection will join any in-progress drill-through iterations and display at the then-current drill-through price (and the corresponding changes regarding allocation and prioritization) allows new orders to receive the same level of price protection as other orders undergoing the drill-through process. The proposed rule change will allow all orders additional execution opportunities while continuing to protect them against execution at potentially erroneous prices. Similarly, the Exchange believes the proposed change to consider changes to the NBO (NBB) during drill-through and to update the drill-through price to such NBO (NBB) should it be lower (higher) than the drill-through price will further provide opportunity for execution at reasonable prices by capturing any market moves that may result in more aggressive prices.

The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders.

Additionally, the Exchange believes changes to specifically exclude from market order NBBO width and market order in no-bid series protections certain orders that would be subject to drill-through protection will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors. Specifically, the Exchange believes the changes to exclude certain orders that would be subject to drill-through protection from market order NBBO width protections may reduce inadvertent rejection of such orders which may be purposely priced far away from the NBBO at the time of entry and may otherwise miss an opportunity for execution if immediately cancelled. The Exchange also believes the changes to exclude

[24] *Id.*

[25] 15 U.S.C. 78f(b).

[26] 15 U.S.C. 78f(b)(5).

[27] *Id.*

certain orders that would be subject to drill-through protection from market order in no-bid series protections may allow opportunity for execution at a more beneficial price level than if they were immediately booked at the minimum tick increment. This proposed rule change may increase execution opportunities for Users that submit such Stop (Stop-Loss) and Market-on-Close orders (in the case of market order NBBO width protections) and sell market orders with an NBB of zero when the NBO in the series is greater than $0.50 (in the case of market orders in no-bid series protections).

The Exchange believes the proposed change to Rule 21.17(d)(4) will protect investors because it clarifies that if multiple Stop (Stop-Loss) and Stop-Limit orders are triggered by the same trade price or NBBO (even if the orders have different stop prices), and would execute or post to the Book, the System uses the contra-side NBBO that existed at the time the first order in sequence was entered into the Book as the drill-through price for all orders. The Exchange believes that the proposed rule change will bring greater transparency and clarity to the rulebook, thus benefitting investors.

Finally, the Exchange believes the proposed changes to specify what happens to orders undergoing drill-through at the end of a trading session will protect investors by adding transparency to the rules regarding the drill-through functionality and provide greater certainty as to the application of the drill-through process.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the enhanced drill-through protection will apply to all marketable orders in the same manner. Additionally, it will provide the same price protection and execution opportunities to relevant market orders that are currently provided to supermarketable limit orders, which function in a similar manner.

The Exchange does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed enhancement to the drill-through protection is consistent with the current protection and provides relevant market orders with improved protection against execution at potentially erroneous prices through drill-through price protection in accordance with User instructions. Additionally, the proposed rule change relates specifically to a price protection offered on the Exchange and how the System handles orders as part of this price protection mechanism.

The Exchange believes the proposed rule change would ultimately provide all market participants with additional execution opportunities when appropriate while providing protection from erroneous execution. The Exchange believes the proposal will enhance risk protections, the individual firm benefits of which flow downstream to counterparties both at the Exchange and at other options exchanges, which increases systemic protections as well. The Exchange believes enhancing risk protections will allow Users to enter orders and quotes with further reduced fear of inadvertent exposure to excessive risk, which will benefit investors through increased exposure to liquidity for the execution of their orders. Without adequate risk management tools, Members could reduce the amount of order flow and liquidity they provide. Such actions may undermine the quality of the markets available to customers and other market participants. Accordingly, the proposed rule change is designed to encourage Members to submit additional order flow and liquidity to the Exchange. Accordingly, the proposed rule change is designed to encourage Members to submit additional order flow and liquidity to the Exchange. The proposed flexibility may similarly provide additional execution opportunities, which further benefits liquidity in potentially volatile markets. In addition, providing Members with more tools for managing risk will facilitate transactions in securities because, as noted above, Members will have more confidence protections are in place that reduce the risks from potential system errors and market events.

Finally, the proposed clarifying changes are not intended to have any impact on competition, but rather codify current functionality to add transparency to the Rules.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act[28] and subparagraph (f)(6) of Rule 19b–4 thereunder.[29]

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeBZX–2023–053 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBZX–2023–053. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/*

[28] 15 U.S.C. 78s(b)(3)(A)(iii).

[29] 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeBZX–2023–053 and should be submitted on or before August 31, 2023.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[30]

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011–01–P

SOCIAL SECURITY ADMINISTRATION

[Docket No. SSA 2023–0017]

Notice of Verification Transaction Fee Increase for Consent Based Social Security Number Verification Service

AGENCY: Social Security Administration.

ACTION: Notice of fee increase.

SUMMARY: The Social Security Administration (SSA) is announcing a fee increase for the Consent Based Social Security Number (SSN) Verification (CBSV) service. We provide a fee-based SSN verification service to enrolled private businesses and government agencies who obtain a valid, signed consent form from the Social Security number holder.

DATES: *Applicability date for fee increase:* The verification transaction fee increase will go into effect on October 1, 2023.

FOR FURTHER INFORMATION CONTACT: Vivian Adebayo, Branch Chief, Office of Data Exchange, Policy Publications, and International Negotiations, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235–6401, (866) 395–8801, email *CBSV@ssa.gov.*

For information on eligibility or filing for benefits, call SSA's national toll-free number, 1–800–772–1213 or TTY 1–800–325–0778, or visit SSA's internet site, Social Security Online, at *https://www.socialsecurity.gov.*

SUPPLEMENTARY INFORMATION: Based on the consent forms, we verify the number holders' SSNs for the requesting party. The Privacy Act of 1974 (5 U.S.C. 552a(b)), section 1106 of the Social Security Act (42 U.S.C. 1306) and our regulation at 20 CFR 401.100, establish the legal authority for us to provide SSN verifications to third party requesters based on the written consent of the subject of the record. The CBSV process provides the business community and other government entities with consent-based SSN verifications in high volume. We developed CBSV as a user-friendly, internet-based application with safeguards that will protect the public's information. In addition to the benefit of providing high volume, centralized SSN verification services to the business community in a secure manner, CBSV provides us with cost and workload management benefits.

New Information: Currently, to use CBSV, interested parties must pay a one-time non-refundable enrollment fee of $5,000 and pay a fee of $1.00 per SSN verification transaction in advance of services. This $1.00 fee has been in place since fiscal year (FY) 2017. We calculate our costs periodically for providing CBSV services and adjust the fees as needed. We will notify our customers who currently use the service and allow them to cancel or continue using the service at the new transaction fee. Based on the most recent cost and transaction analysis, we will adjust the FY 2024 fee to $2.25 per SSN verification transaction in advance of services. New customers will still be responsible for the one-time $5,000 enrollment fee.

The primary reason for the fee increase is the declining volume in CBSV services. CBSV transactional volumes have decreased from 3.1 million transactions in FY 2021 to 2.1 million transactions in FY 2022. For FY 2023, we are projecting less than 1 million transactions based on current usage. Due to the significant decline in transactions, the per transaction costs are increasing. We will reevaluate transactional volumes in FY 2024. If the transaction volumes continue to decline, we will issue a subsequent notice to increase the CBSV fees again during FY 2024. We note that any unused advances and any fees collected in excess of our actual costs per transactions each year for CBSV services are refunded after the end of the fiscal year.

Stephen Evangelista,

Acting Deputy Commissioner, Office of Retirement and Disability Policy, Social Security Administration.

BILLING CODE 4191–02–P

SOCIAL SECURITY ADMINISTRATION

[Docket No. SSA–2023–0007]

Privacy Act of 1974; Matching Program

AGENCY: Social Security Administration (SSA).

ACTION: Notice of a new matching program.

SUMMARY: In accordance with the provisions of the Privacy Act, as amended, this notice announces a new matching program with the Bureau of the Fiscal Service (Fiscal Service), Department of the Treasury (Treasury). Under this matching program, Fiscal Service, Treasury will disclose savings security data to SSA. SSA will use the data to determine continued eligibility for Supplemental Security Income (SSI) applicants and recipients SSA will also use the data to determine the correct benefit amount for recipients and deemors who either did not report or who incorrectly reported their ownership of savings securities.

DATES: The deadline to submit comments on the proposed matching program is September 11, 2023. The matching program will be applicable on December 26, 2023, or once a minimum of 30 days after publication of this notice has elapsed, whichever is later. The matching program will be in effect for a period of 18 months.

ADDRESSES: You may submit comments by any one of three methods—internet, fax, or mail. Do not submit the same comments multiple times or by more than one method. Regardless of which method you choose, please state that your comments refer to Docket No. SSA–2023–0007 so that we may associate your comments with the correct regulation. Caution: You should be careful to include in your comments only information that you wish to make publicly available. We strongly urge you not to include in your comments any personal information, such as Social

[30] 17 CFR 200.30–3(a)(12).

Security numbers (SSNs) or medical information.

1. *Internet:* We strongly recommend that you submit your comments via the internet. Please visit the Federal eRulemaking portal at *https://www.regulations.gov.* Use the *Search* function to find docket number SSA–2023–0007 and then submit your comments. The system will issue you a tracking number to confirm your submission. You will not be able to view your comment immediately because we must post each submission manually. It may take up to a week for your comments to be viewable.

2. *Fax:* Fax comments to (833) 410–1631.

3. *Mail:* Matthew Ramsey, Executive Director, Office of Privacy and Disclosure, Office of the General Counsel, Social Security Administration, G–401 WHR, 6401 Security Boulevard, Baltimore, MD 21235–6401, or emailing *Matthew.Ramsey@ssa.gov.* Comments are also available for public viewing on the Federal eRulemaking portal at *https://www.regulations.gov* or in person, during regular business hours, by arranging with the contact person identified below.

FOR FURTHER INFORMATION CONTACT: Interested parties may submit general questions about the matching program to Cynthia Scott, Division Director, Office of Privacy and Disclosure, Office of the General Counsel, Social Security Administration, G–401 WHR, 6401 Security Boulevard, Baltimore, MD 21235–6401, at telephone: (410) 966–1943, or send an email to *Cynthia.Scott@ssa.gov.*

SUPPLEMENTARY INFORMATION: None.

Matthew Ramsey,

Executive Director, Office of Privacy and Disclosure, Office of the General Counsel.

Participating Agencies: SSA and Fiscal Service, Treasury.

Authority for Conducting the Matching Program: This matching agreement is executed in compliance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, and the regulations and guidance promulgated thereunder.

Legal authority for the disclosure under this agreement for SSA to conduct this matching activity is contained in section 1631(e)(1)(B) and (f) of the Social Security Act (42 U.S.C. 1383(e)(1)(B) and (f)).

Purpose(s): This matching agreement sets forth the terms, conditions, safeguards, and procedures under which Fiscal Service, Treasury will disclose savings security data to SSA. SSA will use the data to determine continued eligibility for SSI applicants and recipients, or the correct benefit amount for recipients and deemors who either did not report or who incorrectly reported their ownership of savings securities.

Categories of Individuals: The individuals whose information is involved in this matching program are SSI applicants, recipients, and deemors who either did not report or incorrectly reported ownership of savings securities.

Categories of Records: The finder file SSA provides to Fiscal Service will contain approximately 10 million records of individuals for whom SSA requests data for the administration of the SSI program. Fiscal Service will use files that contain approximately 185 million SSNs, with registration indexes, to match SSA records. Fiscal Service will provide a response record providing matched results to SSA, which will contain approximately 1 million records.

System(s) of Records: The relevant SSA system of records (SOR) is ''Supplemental Security Income Record and Special Veterans Benefits,'' 60–0103. The SOR Notice (SORN) was fully published on January 11, 2006 at 71 FR 1830 and updated on December 10, 2007 at 72 FR 69723; July 3, 2018 (83 FR 31250–31251), and November 1, 2018 (83 FR 54969). The relevant Fiscal Service SOR is Fiscal Service SORN .014 (United States Securities and Access). The SORN was last published on February 27, 2020 at 85 FR 11776.

[FR Doc. 2023–17157 Filed 8–9–23; 8:45 am]

BILLING CODE 4191–02–P

TENNESSEE VALLEY AUTHORITY

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Tennessee Valley Authority (TVA).

ACTION: 60-Day notice of submission of information collection approval and request for comments.

SUMMARY: The proposed information collection described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act of 1995. The Tennessee Valley Authority is soliciting public comments on this proposed collection.

DATES: Comments should be sent to the Public Information Collection Clearance Officer no later than October 10, 2023.

ADDRESSES: Requests for information, including copies of the information collection proposed and supporting documentation, should be directed to the Public Information Collection Clearance Officer: Jennifer A. Wilds, Specialist, Records Compliance, Tennessee Valley Authority, 400 W Summit Hill Dr., CLK–320, Knoxville, Tennessee 37902–1401.

FOR FURTHER INFORMATION CONTACT: Jennifer A. Wilds, Telephone (865) 632–6580 or by email at *pra@tva.gov.*

SUPPLEMENTARY INFORMATION:

Type of Request: New collection.

Title of Information Collection: TVA CUI Program Challenge Request Form.

Frequency of Use: On occasion.

Type of Affected Public: Authorized holders, including any individual or organization who has been provided with CUI and has a lawful government purpose to possess CUI.

Small Businesses or Organizations Affected: No.

Federal Budget Functional Category Code: 455.

Estimated Number of Annual Responses: 12.

Estimated Total Annual Burden Hours: 18.

Estimated Average Burden Hours per Response: 1.5.

Need For and Use of Information: The TVA CUI Program Challenge Request Process, also referred to as the ''CUI Challenge Request Process'' in this document, provides the process used for TVA Controlled Unclassified Information (CUI) authorized holders to challenge the designation of information that has been marked as CUI as improperly or incorrectly designated government purpose to possess the information. Any authorized holder who believes that the designation of specific information as CUI is improper or incorrect, or who believes they have received unmarked CUI, may use this process to formally notify TVA CUI Senior Agency Official (SAO). The process also allows for TVA CUI SAO and CUI Program Manager to process such requests and to issue a Final Decision from the CUI SAO.

The CUI Challenge Request Process is not intended to be used to address all disagreements regarding the proper designation of CUI. Authorized holders are encouraged to seek or utilize less formal means when resolving internal good faith disputes over the proper designation of information as CUI, such as discussion with the creator or designator of the information in dispute. Where resolution cannot be achieved through less formal means, the CUI challenge request process is available.

The CUI Challenge Request Process does not supersede any obligations under law or TVA policy to report information spills.

Rebecca L. Coffey,

Agency Records Officer.

[FR Doc. 2023–17091 Filed 8–9–23; 8:45 am]

BILLING CODE 8120–08–P

TENNESSEE VALLEY AUTHORITY

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Tennessee Valley Authority (TVA).

ACTION: 30-Day notice of submission of information collection renewal approval with minor modifications and request to OMB.

SUMMARY: Tennessee Valley Authority (TVA) provides notice of submission of this information clearance request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). The general public and other federal agencies are invited to comment. TVA previously published a 60-day notice of the proposed information collection reinstatement for public review June 5, 2023 and no comments were received.

DATES: The OMB will consider all written comments received on or before September 11, 2023.

ADDRESSES: Written comments for the proposed information collection reinstatement should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

SUPPLEMENTARY INFORMATION:

Type of Request: Reinstatement, with minor modification, of a previously approved information collection for which approval has expired.

Title of Information Collection: Generic Clearance for the Collection of Qualitative Feedback and Input on Agency Services and Program Delivery and Registration.

OMB Control Number: 3316–0114.

Current Expiration Date: July 31, 2023.

Frequency of Use: On occasion.

Type of Affected Public: Individuals and Households, Businesses and Organizations, State, Local and Tribal Governments.

Small Businesses or Organizations Affected: Yes.

Federal Budget Functional Category Code: 455.

Estimated Number of Annual Responses: 10,000.

Estimated Total Annual Burden Hours: 5000.

Estimated Average Burden Hours per Response: 0.50

Need For and Use of Information: Renewal of this information collection will enable TVA to obtain qualitative customer and stakeholder feedback and input in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery and enable the public to register for public forums, events, and other opportunities. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback and input will provide TVA with insights into customer or stakeholder perceptions, experiences, and expectations; help TVA quickly identify actual or potential problems with how the agency provides services to the public; or focus attention on areas where communication, training, or changes in operations might improve TVA's delivery of its products or services; and engage the public on community needs and concerns to guide the direction of new products and services. These collections will allow for ongoing, collaborative, and actionable communications between TVA and its customers and stakeholders. It will also allow feedback and input to contribute directly to the improvement of program management. TVA will solicit feedback and input in areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, resolution of issues with service delivery, impacts of events, community needs and concerns, and interest in new programs and services. TVA will use the responses to plan and inform its efforts to improve or maintain the quality of service and programs offered to the public and chart the direction of new programs and offerings. TVA will use the registration information for logistical planning for public events, required access control to government property, and connection to service and program offerings. If this information is not collected, TVA will not have access to vital feedback and input from customers and stakeholders about the agency's services and programs and the public will not have access to TVA-sponsored events, programs, or services. TVA will only submit an information collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- The collections are targeted to the solicitation of feedback and input from respondents who have experience with the program or who may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and will not be retained beyond the immediate need;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, TVA will indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information, and the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study. Feedback collected under this generic clearance provides useful information, but will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Rebecca L. Coffey,

Agency Records Officer.

[FR Doc. 2023–17093 Filed 8–9–23; 8:45 am]

BILLING CODE 8120–08–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. 2023–0088]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Airman Knowledge Test Registration Collection

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval of a renewed collection. The collection involves the voluntary submission of information for registration of an Airman Knowledge Test as part of the FAA Airman Certification Process. The information collected is necessary to ensure compliance and proper registration of an individual for the necessary knowledge test for the certification or rating pursued by the individual.

DATES: Written comments should be submitted by September 11, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Ryan C. Smith by email at: *Ryan.C.Smith@faa.gov*, Phone: 405–651–5400.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0792.

Title: Airman Knowledge Test Registration Collection.

Form Numbers: There are no forms associated with this collection.

Type of Review: Renewed information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January, 17, 2023 (88 FR 2752). Individuals pursuing an FAA certificate or rating to operate in the National Airspace System (NAS) must meet the standards established in the FAA regulations specific to the certificate sought by the individual. FAA certification requires that an individual must successfully pass an Airman Knowledge Test as part of the requirements to obtain an FAA certificate or rating. The FAA develops and administers 90 different knowledge tests in many different areas that are required as part of the overall airman certification process.

Airman Knowledge Tests are administered at approved Knowledge Testing Centers by an approved test proctor who is required to administer the appropriate Airman Knowledge Test to the individual pursuing FAA certification. Individuals taking an FAA Airman Knowledge Test must provide the following information to be collected in order to complete the registration process before the administration of the Airman Knowledge Test: Name, FAA Tracking Number (FTN), physical address, Date of Birth, email address, photo identification, phone number, test authorization (credentials of the individual such as an instructor endorsement), and previous number of test attempts.

The information provided by the individual is collected and stored electronically in the application used for test registration and delivery. This information is used to determine the identify and eligibility of the individual for compliance of FAA certification requirements.

Respondents: 224,474 annually.

Frequency: n/a.

Estimated Average Burden per Response: 2 minutes.

Estimated Total Annual Burden: 7,482 hours annually.

224,474 respondents × 2 minutes each = 448,948 minutes,

448,948 minutes/60 minutes in an hour = 7,482 hours annually.

Issued in Oklahoma City, OK, on August 7, 2023.

Ryan C. Smith,

Airman Knowledge Testing Program Manager, Airman Testing Standards Branch (AFS–630).

[FR Doc. 2023–17180 Filed 8–9–23; 8:45 am]

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Action on the Rocky Flats NWR Trails and Rocky Mountain Greenway Connections Project in Colorado

AGENCY: Federal Highway Administration (FHWA), U.S. Department of Transportation.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by FHWA and other Federal agencies that are final. This final agency actions relate to a proposed trail project on and adjacent to the Rocky Flats National Wildlife Refuge (NWR) in Jefferson County, Colorado. The FHWA's Finding of No Significant Impact (FONSI) provides details on the proposed action.

DATES: By this notice, FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(*l*)(1). A claim seeking judicial review of the Federal agency actions on the Rocky Flats NWR Trails and Rocky Mountain Greenway Connections Project will be barred unless the claim is filed on or before January 8, 2024. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Tomasz Kubicz, Project Manager, Federal Highway Administration, Central Federal Lands Highway Division, 12300 W Dakota Avenue, Suite 380, Lakewood, Colorado 80228; telephone: (720) 963–3498, email: *tomasz.kubicz@dot.gov.* Regular office hours are Monday through Friday, 8:00 a.m. to 5:00 p.m. (Mountain Time).

SUPPLEMENTARY INFORMATION: Notice is hereby given that FHWA has taken a final agency action by issuing a FONSI and approving the Rocky Flats NWR Trails and Rocky Mountain Greenway Connections Project in Jefferson County, Colorado.

The project includes the construction of trails and two trail bridges on the Rocky Flats NWR and two road crossings with connecting trails adjacent to the Refuge. The U.S. Fish and Wildlife Service will construct the on-Refuge trails, which will be part of the regional Rocky Mountain Greenway trail system. The FHWA will construct the two trail bridges on the Refuge and the two road crossings and trails off the Refuge. The two road crossings consist of an underpass (concrete box culvert) at

State Highway 128 and a pedestrian bridge across Indiana Street with about 0.6 mile total of connecting trails.

The FHWA's action, related actions by other Federal agencies, and the laws under which such actions were taken, are described in the U.S. Fish and Wildlife Service's Environmental Assessment for Improved Visitor Access at Rocky Flats NWR, published in August 2020; the Service's FONSI, dated November 2020; FHWA's FONSI, dated August 2023; and other documents in the project file. The Service's EA and FONSI are available for download at *https://www.fws.gov/refuge/rocky-flats/library.* The FHWA FONSI is available for download at *https://highways.dot.gov/federal-lands/projects/co/rocky-flats* or can be requested by contacting FHWA at the address provided above.

This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including by not limited to:

1. *General:* National Environmental Policy Act [42 U.S.C. 4321–4351]; Federal-Aid Highway Act [23 U.S.C. 139].

2. *Air:* Clean Air Act [42 U.S.C. 7401–7671(q)].

3. *Land:* Section 4(f) of the Department of Transportation Act of 1966 [49 U.S.C. 303].

4. *Wildlife:* Endangered Species Act [16 U.S.C. 1531–1544 and section 1536], Fish and Wildlife Coordination Act [16 U.S.C. 661–667(d)], Migratory Bird Treaty Act [16 U.S.C. 703–712].

5. *Historic and Cultural Resources:* Section 106 of the National Historic Preservation Act of 1966, as amended [16 U.S.C. 470(f) *et seq.*]; Archeological Resources Protection Act of 1977 [16 U.S.C. 470(aa)–470(ll)]; Archeological and Historic Preservation Act [16 U.S.C. 469–469(c)]; Native American Grave Protection and Repatriation Act [25 U.S.C. 3001–3013].

6. *Social and Economic:* Civil Rights Act of 1964 [42 U.S.C. 2000(d)–2000(d)(1)]; American Indian Religious Freedom Act [42 U.S.C. 1996].

7. *Wetlands and Water Resources:* Clean Water Act (Sections 401, 402, and 404) [33 U.S.C. 1251–1377]; Safe Drinking Water Act [42 U.S.C. 300(f)–300(j)(6)]; Flood Disaster Protection Act [42 U.S.C. 4001–4128].

8. *Hazardous Materials:* Comprehensive Environmental Response, Compensation, and Liability Act [42 U.S.C. 9601–9675]; Superfund Amendments and Reauthorization Act of 1986; Resource Conservation and Recovery Act [42 U.S.C. 6901–6992(k)].

9. *Executive Orders:* E.O. 11990 Protection of Wetlands; E.O. 11988 Floodplain Management; E.O. 12898 Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations; E.O. 11593 Protection and Enhancement of Cultural Resources; E.O. 13007 Indian Sacred Sites; E.O. 13287 Preserve America; E.O. 13175 Consultation and Coordination with Indian Tribal Governments; E.O. 11514 Protection and Enhancement of Environmental Quality; E.O. 13112 Invasive Species.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction.)

Authority: 23 U.S.C. 139 (*l*)(1).

Issued on: August 4, 2023.

BILLING CODE 4910–RY–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2010–0049]

North County Transit District's Request for Approval To Begin Field Testing on Its Positive Train Control Network

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that on July 25, 2023, North County Transit District (NCTD) submitted a request to field test its new Crash Energy Management (CEM) Bi-Level cab cars that have been equipped with NCTD's Interoperable Electronic Train Management System (I–ETMS) technology. FRA is publishing this notice and inviting public comment on NCTD's request to test its positive train control (PTC) system.

DATES: FRA will consider comments received by August 30, 2023. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES:

Comments: Comments may be submitted by going to *https://www.regulations.gov* and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA–2010–0049. For convenience, all active PTC documents are hyperlinked on FRA's website at *https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets.* All comments received will be posted without change to *https://www.regulations.gov;* this includes any personal information.

FOR FURTHER INFORMATION CONTACT: Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816–516–7168, email: *Gabe.Neal@dot.gov.*

SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. On September 21, 2018, FRA certified NCTD's I–ETMS PTC system under 49 CFR 236.1015 and 49 U.S.C. 20157(h). Pursuant to 49 CFR 236.1035, a railroad must obtain FRA's approval before field testing an uncertified PTC system, or a product of an uncertified PTC system, or any regression testing of a certified PTC system on the general rail system. *See* 49 CFR 236.1035(a). NCTD's test request, including a complete description of NCTD's Concept of Operations and its specific test procedures, including the measures that will be taken to ensure safety during testing, are available for review online at *https://www.regulations.gov* in Docket No. FRA–2010–0049.

Interested parties are invited to comment on NCTD's Test Request by submitting written comments or data. During its review of the test request, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying testing of valuable or necessary modifications to a PTC system. *See* 49 CFR 236.1035. FRA, however, may elect not to respond to any particular comment, and under 49 CFR 236.1035, FRA maintains the authority to approve, approve with conditions, or deny the test request at its sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the

commenter provides, to *https://www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *https://www.transportation.gov/privacy.* See *https://www.regulations.gov/privacy-notice* for the privacy notice of *regulations.gov.* To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.

Issued in Washington, DC.

Carolyn R. Hayward-Williams,

Director, Office of Railroad Systems and Technology.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Hazardous Materials: Notice of Actions on Special Permits

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice of actions on special permit applications.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations, notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein.

DATES: Comments must be received on or before September 11, 2023.

ADDRESSES: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Donald Burger, Chief, Office of Hazardous Materials Safety General Approvals and Permits Branch, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH–13, 1200 New Jersey Avenue Southeast, Washington, DC 20590–0001, (202) 366–4535.

SUPPLEMENTARY INFORMATION: Copies of the applications are available for inspection in the Records Center, East Building, PHH–13, 1200 New Jersey Avenue Southeast, Washington, DC.

This notice of receipt of applications for special permit is published in accordance with part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on July 28, 2023.

Donald P. Burger,

Chief, General Approvals and Permits Branch.

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
SPECIAL PERMITS DATA—Granted			
15721–M	Probe Technology Services, Inc.	173.304(a)	To modify the special permit to authorize an additional packaging.
15848–M	Ambri Inc	173.222(c)(1)	To modify the special permit to update the design terminology.
16279–M	Stericycle, Inc	173.196(a)	To modify the special permit to authorize the transportation in commerce of the Marburg virus.
20493–M	Tesla, Inc	172.101(j)	To modify the special permit to authorize additional lithium ion batteries and additional cell type.
21235–M	United States Dept. of Energy	173.413, 173.416	To modify the special permit to authorize return shipments and higher payload containers.
21360–M	ABG Bag, Inc	173.12(b)(2)(ii)(C), 178.707(d)	To modify the special permit to authorize Division 5.2 hazardous materials.
21490–N	Myers Industries, Inc	173.28(b)(2), 178.509(b)(7), 178.601(h).	To authorize the manufacture, mark, sale, and use of jerricans manufactured to a specification not meeting all the requirements for UN 3H1 specification jerricans.
21517–N	Bayerische Motoren Werke Aktiengesellschaft.	172.101(j)	To authorize the transportation in commerce of lithium ion batteries exceeding 35 kg net weight aboard cargo-only aircraft.
21518–N	Bedrock Ocean Exploration, Pbc.	172.101(j)	To authorize the transportation in commerce of prototype lithium batteries exceeding 35 kg via cargo-only aircraft.
21528–N	Honeywell Intellectual Properties Inc.	173.302a(a)(1)	To authorize the manufacture, mark, sale, and use of non-DOT specification welded cylinder that is comparable to DOT specification 3HT cylinder for the transportation in commerce of the hazardous materials authorized by this special permit.
21536–N	WAE Technologies Limited	172.101(j), 173.185(b)(6)	To authorize the transportation in commerce of lithium ion batteries exceeding 35 kg net weight aboard cargo-only aircraft.
21563–N	LG Energy Solution, Ltd	172.102(a), 172.102(b), 172.102(c).	To authorize the transportation in commerce of lithium ion batteries exceeding 35 kg net weight aboard cargo-only aircraft.

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
SPECIAL PERMITS DATA—Denied			
21553–N	Pacific Scientific Energetic Materials Company (california) Llc.	173.21(b), 173.51(a), 173.54, 173.54(a), 173.56(b).	To authorize the one-way transportation in commerce of unapproved explosives originating from Pacific Scientific Energetic Materials Company LLC, and transported to Clean Harbors Waste Facility in Colfax, LA for final disposal by motor vehicle transport only.
SPECIAL PERMITS DATA—Withdrawn			
21569–N	National Air Cargo Group, Inc	172.204(c)(3), 172.101(j), 173.27(b)(2), 173.27(b)(3), 175.30(a)(1).	To authorize the transportation in commerce of certain Class 1 and Division 2.3 materials that are forbidden for transport via cargo-only aircraft by cargo-only aircraft.
21576–N	Neponset Valley Engineering Company, Inc.	173.301(a)(6)	To authorize the transportation in commerce of one DOT 4BA–240 cylinder that is suspected of being overdue for periodic requalification prior to being filled with a hazardous material.
21577–N	Factorial Inc	173.185	To authorize the shipment and receival of damaged, defective or recalled lithium cells/batteries under UN3090.
21583–N	Sidney Lee Welding Supply, Inc.	180.209(b)(1)	To authorize a 10-year requalification interval for certain DOT Specification 3A and 3AA cylinders used for the transportation in commerce of certain Division 2.1 and Division 2.2 gases in bundles.

Pipeline and Hazardous Materials Safety Administration

Hazardous Materials: Notice of Applications for Modification to Special Permits

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of applications for modification of special permits.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations, notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein.

DATES: Comments must be received on or before August 25, 2023.

ADDRESSES: Record Center, Pipeline and Hazardous Materials Safety Administration U.S. Department of Transportation Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Donald Burger, Chief, Office of Hazardous Materials Safety General Approvals and Permits Branch, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH–13, 1200 New Jersey Avenue Southeast, Washington, DC 20590–0001, (202) 366–4535.

SUPPLEMENTARY INFORMATION: Each mode of transportation for which a particular special permit is requested is indicated by a number in the ''Nature of Application'' portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo aircraft only, 5—Passenger-carrying aircraft.

Copies of the applications are available for inspection in the Records Center, East Building, PHH–13, 1200 New Jersey Avenue Southeast, Washington, DC or at *http://regulations.gov*.

This notice of receipt of applications for special permit is published in accordance with part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on July 28, 2023.

Donald P. Burger,

Chief, General Approvals and Permits Branch.

SPECIAL PERMITS DATA

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
12135–M	Daicel Safety Systems Inc	173.301(a)(1), 173.302a, 178.65(c)(3).	To modify the special permit to authorize the use of the cylinders up to 15 years after the date of manufacture. (modes 1, 2, 3, 4).
13102–M	Siemens Large Drives LLC	173.306(a), 173.306(a)(1), 173.322, 173.150(b), 173.222(c).	To change Siemens Large Drives LLC company name to Innomotics LLC. (modes 1, 2, 4).
13211–M	Copperhead Chemical Company, Inc.	172.102(c)(5)	To modify the package in paragraph 7 of the special permit to be 4GV/X11.3/S/**/USA/+CN1216, stock number UN111. (modes 1, 3, 4).
14152–M	Entegris, Inc	173.27(f)	To modify the special permit to authorize an additional hazardous material. (modes 1, 3, 4).
14992–M	VIP Transport, Inc	173.196(a), 173.196(b), 173.199, 178.609.	To modify the special permit to authorize smaller inner packagings. (mode 1).

SPECIAL PERMITS DATA—Continued

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
15882–M	Ryan Air, Inc	172.101, 173.27, 173.243	To add a C–208 to carry bulk fuel in a 476-galon BATT Tank. (mode 4).
15999–M	Lockheed Martin Corporation ..	172.300, 172.400, 173.1	To modify the special permit to authorize an alternative transportation route. (modes 1, 3).
20352–M	Schlumberger Technology Corp.	173.301(f), 173.302(a), 173.304(a).	To modify the special permit to authorize an additional packaging. (modes 1, 2, 3, 4).
20796–M	Sodastream USA Inc	172.400, 172.200, 172.300, 171.2(k), 172.700(a), 172.500.	To modify the special permit to authorize additional outer packagings. (modes 1, 2, 3).
20936–M	CO2 Exchange LLC	171.2(k), 172.200, 172.300, 172.700(a), 172.400, 172.500.	To modify the special permit to authorize cylinders to be packaged within an outer fiberboard box with or without a dispensing machine. (modes 1, 2).
21290–M	Orion Engineered Carbons LLC.	171.23(a)(1), 171.23(b)(10), 173.314.	To modify the special permit to authorize an increase in the annual number of shipments. (modes 1, 3).
21297–M	Luxfer Canada Limited	173.301(i), 178.75	To modify the special permit to authorize mounting of a cylinder within a structural frame during transportation. (modes 1, 2, 3, 4).
21307–M	Packaging and Crating Technologies, LLC.	172.200, 172.300, 172.400, 172.700(a), 172.600, 172.500, 172.102(c)(1), 173.185(d).	To modify the special permit to authorize a higher Wh rating battery. (modes 1, 2).
21460–M	Amerex Corporation	173.309(c)	To modify the special permit to authorize an additional extinguisher model.

DEPARTMENT OF THE TREASURY

Financial Crimes Enforcement Network

Agency Information Collection Activities; Proposed Renewal; Comment Request; Renewal Without Change of Reports of Foreign Financial Accounts Regulations and FinCEN Form 114, Report of Foreign Bank and Financial Accounts

AGENCY: Financial Crimes Enforcement Network (FinCEN), Treasury.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork and respondent burden, FinCEN invites comment on a renewal, without change, of existing information collection requirements concerning reports of foreign financial accounts and FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR). This request for comments is made pursuant to the Paperwork Reduction Act of 1995 (PRA).

DATES: Written comments are welcome and must be received on or before October 10, 2023

ADDRESSES: Comments may be submitted by any of the following methods:

- *Federal E-rulemaking Portal: http://www.regulations.gov.* Follow the instructions for submitting comments. Refer to Docket Number FINCEN–2023–0008 and the Office of Management and Budget (OMB) control number 1506–0009.
- *Mail:* Policy Division, Financial Crimes Enforcement Network, P.O. Box 39, Vienna, VA 22183. Refer to Docket Number FINCEN–2023–0008 and OMB control number 1506–0009.

Please submit comments by one method only. Comments will be reviewed consistent with the PRA [1] and applicable OMB regulations and guidance. All comments submitted in response to this notice will become a matter of public record. Therefore, you should submit only information that you wish to make publicly available.

FOR FURTHER INFORMATION CONTACT: FinCEN's Regulatory Support Section (RSS) at 1–800–767–2825 or electronically at *frc@fincen.gov.*

SUPPLEMENTARY INFORMATION:

I. Statutory and Regulatory Provisions

The legislative framework generally referred to as the Bank Secrecy Act (BSA) consists of the Currency and Foreign Transactions Reporting Act of 1970, as amended by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT Act), Public Law 107–56 (October 26, 2001), and other legislation, including the Anti-Money Laundering Act of 2020 (AML Act).[2] The BSA is codified at 12 U.S.C. 1829b, 12 U.S.C. 1951–1960, and 31 U.S.C. 5311–5314 and 5316–5336, and notes

[1] Public Law 104–13, 44 U.S.C. 3506(c)(2)(A).

[2] The AML Act was enacted as Division F, sections 6001–6511, of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021, Public Law 116–283, 134 stat. 3388 (2021).

thereto, with implementing regulations at 31 CFR chapter X.

The BSA authorizes the Secretary of the Treasury (the ''Secretary''), *inter alia,* to require financial institutions to keep records and file reports that are determined to have a high degree of usefulness in criminal, tax, or regulatory matters, risk assessments or proceedings, or in the conduct of intelligence or counter-intelligence activities to protect against international terrorism, and to implement AML programs and compliance procedures.[3] Regulations implementing the BSA appear at 31 CFR chapter X. The authority of the Secretary to administer the BSA has been delegated to the Director of FinCEN.[4]

Under 31 U.S.C. 5314, the Secretary ''shall require a resident or citizen of the United States or a person in, and doing business in, the United States, to . . . keep records and file reports, when the resident, citizen, or person makes a transaction or maintains a relation for any person with a foreign financial agency.'' The term ''foreign financial agency'' encompasses the activities found in the statutory definition of ''financial agency,'' [5] notably, ''a person acting for a person as a financial institution, bailee, depository trustee, or agent, or acting in a similar way related to money, credit, securities, gold, or a transaction in money, credit, securities, or gold.'' [6] The Secretary is also authorized to prescribe exemptions to the reporting requirement and to prescribe other matters the Secretary considers necessary to carry out 31 U.S.C. 5314.

The regulations implementing 31 U.S.C. 5314 appear at 31 CFR 1010.350, 1010.306, and 1010.420. Section 1010.350 generally requires each U.S. person having a financial interest in, or signature or other authority over, a bank, securities, or other financial account in a foreign country to report such relationship to the Commissioner of Internal Revenue for each year such relationship exists, and to provide and report such information specified in a reporting form prescribed under 31 U.S.C. 5314. The FBAR is used to file the information required by this section and must be filed electronically with FinCEN.[7] 31 CFR 1010.306(c) requires the FBAR to be filed for foreign financial accounts exceeding $10,000 maintained during the previous calendar year. No FBAR is required to be filed if the aggregate value of foreign financial accounts did not exceed $10,000 at any time during the previous calendar year.

The FBAR must be filed on or before April 15 of each calendar year for accounts maintained during the previous calendar year.[8]

31 CFR 1010.420 outlines the recordkeeping requirements associated with foreign financial accounts required to be reported under section 1010.350. Specifically, filers must retain records of such accounts, to include type of account, account number, name of foreign financial institution maintaining the account, address of the foreign financial institution, and maximum value of the account during the calendar year, for a period of five years and make the records available for inspection as authorized by law.

II. Paperwork Reduction Act of 1995

Title: Reports of foreign financial accounts (31 CFR 1010.350), records to be made and retained by persons having financial interests in foreign financial accounts (31 CFR 1010.420), filing of reports (31 CFR 1010.306(c)), and FinCEN Form 114—FBAR.

OMB Control Number: 1506–0009.

Form Number: FinCEN Form 114—FBAR.

Abstract: FinCEN is issuing this notice to renew the OMB control number for the FBAR regulations and form.

Affected Public: Individuals, businesses or other for-profit institutions, and non-profit institutions that qualify as U.S. persons.

Type of Review: Renewal without change of a currently approved information collection.

Frequency: Annual.

Estimated Number of Respondents: 1,503,807 FBAR filers.[9]

Estimated Reporting and Recordkeeping Burden:

The estimated average burden associated with the FBAR reporting and recordkeeping requirements will vary depending on the number of reportable foreign financial accounts and the applicability of special rules provided in the regulations which provide some relief from the full scope of the reporting obligations.[10]

The information required to be reported on the FBAR is basic information U.S. persons will have received on account statements from the foreign financial institutions where the accounts are opened and maintained. Those statements will provide a U.S. person with the information needed to complete and file the FBAR. No special accounting or legal skills are necessary to transfer the basic information required to be reported, such as the name of the foreign financial institution, the type of account, and the account number, to the FBAR.

The special rules located at 31 CFR 1010.350(g) provide a variety of relief to FBAR filers by (1) limiting the information reported in the FBAR to the number of accounts and certain other basic identifying information, if the filer has a financial interest in, or signature or other authority over, 25 or more reportable accounts; (2) allowing for entities to file consolidated FBARs on their own behalf and on behalf of entities for which they have a direct or indirect ownership interest of over 50 percent; and (3) exempting reporting of foreign financial interest in accounts involving certain trust and retirement plans. However, filers reporting financial interest in, or signature authority over, 25 or more foreign financial accounts are required to maintain a record of the detailed account information on each of their foreign financial accounts, including the account number, the name of the foreign financial institution that holds the account, the address of the foreign financial institution, the maximum value of the account during the calendar year, and the type of account.[11]

[3] Section 358 of the USA PATRIOT Act expanded the purpose of the BSA by including a reference to reports and records ''that have a high degree of usefulness in intelligence or counterintelligence activities to protect against international terrorism.'' Section 6101 of the AML Act further expanded the purpose of the BSA to cover such matters as preventing money laundering, tracking illicit funds, assessing risk, and establishing appropriate frameworks for information sharing.

[4] Treasury Order 180–01 (Jan. 14, 2020).

[5] 31 U.S.C. 5312(b)(2).

[6] *See* 31 U.S.C. 5312(a)(1), which exempts from the definition of financial agency a person acting for a country, a monetary or financial authority acting as a monetary or financial authority, or an international financial institution of which the United States Government is a member.

[7] Formerly Form TD–F 90–22.1. FinCEN Form 114 can be completed by accessing FinCEN's BSA E-Filing System website at *http://bsaefiling.fincen.treas.gov/main.html.*

[8] In accordance with section 2006(b)(11) of Public Law 114–41, the filing due date for the report is April 15 effective as of the 2016 reporting year. The statute permits the Secretary to extend the filing due date for up to six months. Filers who submit complete and accurate reports to FinCEN no later than October 15 of the year the report is due will be deemed to have timely filed. FinCEN issued a statement on its website in 2016 noting the FBAR date change as a result of the statutory change. FinCEN intends to revise the FBAR regulations at 31 CFR 1010.306(c) to reflect the statutory date change.

[9] The total number of FBARs filed in 2022 for foreign financial accounts held during calendar year 2021 is 1,503,807. Multiple foreign financial accounts may be reported on a single FBAR.

[10] 31 CFR 1010.350(g).

[11] Filers availing themselves of special rules under 31 CFR 1010.350(g)(1) and (2) involving 25 or more reportable foreign financial accounts are

For the reasons noted above, FinCEN estimates that the approximate FBAR reporting burden will vary depending on the number of reportable foreign financial accounts and will range from approximately 20 minutes to 90 minutes. FinCEN estimates the average reporting burden per FBAR filer will be 55 minutes.

Past estimates of the FBAR recordkeeping requirement took into account time to store paper copies of the FBAR form and estimated that the approximate recordkeeping burden was 30 minutes. Since 2011, FBARs have been filed electronically. Electronically filing the FBAR allows a filer to save an electronic copy of the report, which satisfies the recordkeeping part of the requirement. FinCEN estimates it would take a filer five minutes to save an electronic copy of the FBAR. In addition to maintaining a copy of the form, those filers who take advantage of the special rules related to financial interests in or signature authority over 25 or more accounts would be required to respond to requests for detailed information on those accounts. However, FinCEN believes that in most cases, such information would be maintained by filers in the ordinary course of business in the form of periodic account statements and other business records which would be maintained mostly electronically. There is no requirement in the FBAR regulations to maintain such information in any particular format.

For these reasons, FinCEN estimates that the FBAR recordkeeping burden will be approximately five minutes.

FinCEN estimates the total annual reporting and recordkeeping burden per FBAR filer will be one hour (55 minutes for FBAR reporting, and five minutes for FBAR recordkeeping).

Estimated Total Annual Reporting and Recordkeeping Burden: The estimated total annual PRA burden is 1,503,807 hours (1,503,807 [12] FBARs multiplied by one hour).

Estimated Total Annual Reporting and Recordkeeping Cost: Of the 1,503,807 FBARs filed in calendar year 2022, 1,434,362 were filed by individuals, and 69,445 were filed by entities. FinCEN cannot quantify the cost to individuals who file FBARs on their own behalf. For entities, FinCEN estimates the following annual burden cost: 69,445 hours × $52.55 [13] per hour = $3,649,334.75.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Records required to be retained under the BSA must be retained for five years.

Request for Comments:

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (i) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (ii) the accuracy of the agency's estimate of the burden of the collection of information; (iii) ways to enhance the quality, utility, and clarity of the information to be collected; (iv) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (v) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Himamauli Das,

Acting Director, Financial Crimes Enforcement Network.

[FR Doc. 2023–17092 Filed 8–9–23; 8:45 am]

BILLING CODE 4810–02–P

required to maintain and provide detailed account information for each foreign financial account, if requested by the Secretary or their delegate.

[12] FinCEN received 1,503,807 FBARs in calendar year 2022.

[13] The average hourly wage rate is calculated from the May 2022 U.S. Bureau of Labor Statistics average hourly wage for ''13–1041 Compliance Officer'' of $37.01, plus an additional 42% for benefits to produce a fully-loaded rate of $52.55. The ratio between benefits and wages for private industry workers is $11.86 (hourly benefits)/$28.37 (hourly wages) = 0.42, as of March 2023. The benefit factor is 1 plus the benefit/wages ratio, or 1.42. $37.01 multiplied by 1.42 equals $52.55. See U.S. Bureau of Labor Statistics, *Employer Costs for Employee Compensation: Private Industry dataset* (March 2023), available at *https://www.bls.gov/web/ecec/ecec-private-dataset.xlsx.*

DEPARTMENT OF THE TREASURY

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Multiple Alcohol and Tobacco Tax and Trade Bureau Information Collection Requests

AGENCY: Departmental Offices, U.S. Department of the Treasury.

ACTION: Notice.

SUMMARY: The Department of the Treasury will submit the following information collection requests to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The public is invited to submit comments on these requests.

DATES: Comments should be received on or before September 11, 2023 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of the submissions may be obtained from Melody Braswell by emailing *PRA@treasury.gov,* calling (202)–622–1035, or viewing the entire information collection request at *www.reginfo.gov.*

SUPPLEMENTARY INFORMATION:

Alcohol and Tobacco Tax and Trade Bureau (TTB)

1. OMB Control No. 1513–0041

Title: Distilled Spirits Plants—Records and Monthly Reports of Processing Operations.

TTB Form Number: TTB F 5110.28.

TTB REC Number: TTB REC 5110/03.

Abstract: In general, the Internal Revenue Code of 1986, as amended (IRC), at 26 U.S.C. 5001, imposes a Federal excise tax on distilled spirits produced or imported into the United States. Additionally, the IRC at 26 U.S.C. 5207 requires that distilled spirits plant (DSP) proprietors keep records and submit reports regarding their production, storage, denaturation, and processing operations in such form and manner as the Secretary of the Treasury (the Secretary) by regulation prescribes. Under that IRC authority, the Alcohol and Tobacco Tax and Trade Bureau (TTB) regulations in 27 CFR part 19 require DSP proprietors to keep records regarding their processing operations, as well as any wholesale liquor dealer or taxpaid storeroom operations they conduct. The part 19 regulations also require DSP proprietors to submit monthly reports based on those records, using form TTB F 5110.28. TTB uses the collected information to ensure proper tax collection. TTB also aggregates the collected information to produce generalized distilled spirits statistical reports for public release.

Current Actions: There are no program changes to this information

collection, and TTB is submitting for extension purposes only. As for adjustments, due to a change in agency estimates resulting from continued growth in the number of DSPs in the United States, TTB is increasing the estimated number of annual respondents, total responses, and burden hours associated with this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits; State and local governments.

Number of Respondents: 4,900.

Average Responses per Respondent: 12 (once per month).

Number of Responses: 58,800.

Average Per-Response Burden: 2 hours (1 hour recordkeeping and 1 hour reporting).

Total Burden: 117,600 hours.

2. OMB Control No. 1513–0058

Title: Usual and Customary Business Records Maintained by Brewers.

TTB Recordkeeping Number: TTB REC 5130/1.

Abstract: The IRC at 26 U.S.C. 5415 requires brewers to keep records in such form and containing such information as the Secretary prescribes by regulation as necessary to protect the revenue. In addition, the IRC at 26 U.S.C. 5555 requires any person liable for Federal excise tax on alcohol beverages, including beer, to keep records, render statements, make returns, and comply with rules and regulations as prescribed by the Secretary. Under those IRC authorities, the TTB regulations in 27 CFR part 25 require brewers to keep usual and customary business records that allow TTB to verify various brewery activities. These activities include, for example, the quantities of raw materials received at a brewery, the quantity of beer and cereal beverages produced at and removed from a brewery taxpaid or without payment of tax, and the quantity of beer previously removed subject to tax returned to the brewery.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is increasing the estimated number of annual respondents and responses to this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Number of Respondents: 14,100.

Average Responses per Respondent: 1 (one) per year.

Number of Responses: 14,100.

Average Per-Response and Total Burden: This information collection consists of usual and customary records kept by respondents during the normal course of business, regardless of any regulatory requirement to do so. As such, under 5 CFR 1320.3(b)(2), this information collection imposes no additional burden on respondents.

3. OMB Control No. 1513–0071

Title: Tobacco Products Importer or Manufacturer—Record of Large Cigar Wholesale Prices.

TTB Recordkeeping Number: TTB REC 5230/1.

Abstract: In general, the IRC at 26 U.S.C. 5701 imposes Federal excise taxes on tobacco products and cigarette papers and tubes, and, as described at 26 U.S.C. 5701(a)(2), the excise tax on large cigars is based on a percentage of the price at which such cigars are sold by the manufacturer or importer. The IRC at 26 U.S.C. 5741 also requires every manufacturer and importer of tobacco products to keep records in such manner as the Secretary shall by regulation prescribe. Under those IRC authorities, the TTB regulations at 27 CFR 40.187 and 41.181 require that manufacturers and importers of large cigars maintain certain records regarding the price for which those cigars are sold. The required records are necessary as they provide a basis upon which to verify that the appropriate amount of Federal excise tax is paid on large cigars.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Number of Respondents: 300.

Average Responses per Respondent: 1 (one) per year.

Number of Responses: 300.

Average Per-Response Burden: 2.33 hours.

Total Burden: 699 hours.

Authority: 44 U.S.C. 3501 et seq.

Melody Braswell,

Treasury PRA Clearance Officer.

BILLING CODE 4810–31–P

DEPARTMENT OF VETERANS AFFAIRS

Solicitation of Nominations for the Appointment to the Advisory Committee on Tribal and Indian Affairs

ACTION: Notice; amended.

SUMMARY: The Department of Veterans Affairs (VA), Office of Public and Intergovernmental Affairs (OPIA), Office of Tribal Government Relations (OTGR), is seeking nominations of qualified candidates to be considered for appointment as a member of the Advisory Committee on Tribal and Indian Affairs (''the Committee'') to represent the following Indian Health Service (IHS) Areas: Bemidji; California; Great Plains; Nashville; Navajo; Tucson.

DATES: Nominations for membership on the Committee must be received no later than 5 p.m. EST on August 21, 2023.

ADDRESSES: All nomination packages (Application, should be mailed to the Office of Tribal Government Relations, 810 Vermont Ave. NW, Suite 915H (075), Washington, DC 20420 or emailed to: *tribalgovernmentconsultation@va.gov.*

FOR FURTHER INFORMATION CONTACT: Ms. Stephanie Birdwell and/or Mr. Peter Vicaire, Office of Tribal Government Relations, 810 Vermont Ave. NW, Ste 915H (075), Washington, DC 20420. A copy of the Committee charter can be obtained by contacting *Peter.Vicaire@va.gov* (612–558–7744) or by accessing the website managed by OTGR at: *https://www.va.gov/TRIBALGOVERNMENT/index.asp.*

SUPPLEMENTARY INFORMATION: In carrying out the duties set forth, the Committee responsibilities include, but are not limited to:

(1) Identify for the Department evolving issues of relevance to Indian Tribes, Tribal organizations and Native American Veterans relating to programs and services of the Department;

(2) Propose clarifications, recommendations and solutions to address issues raised at Tribal, regional and national levels, especially regarding any Tribal consultation reports;

(3) Provide a forum for Indian Tribes, Tribal organizations, urban Indian organizations, Native Hawaiian organizations and the Department to discuss issues and proposals for changes to Department regulations, policies and procedures;

(4) Identify priorities and provide advice on appropriate strategies for Tribal consultation and urban Indian organizations conferring on issues at the Tribal, regional, or national levels;

(5) Ensure that pertinent issues are brought to the attention of Indian Tribes, Tribal organizations, urban Indian organizations and Native Hawaiian organizations in a timely manner, so that feedback can be obtained;

(6) Encourage the Secretary to work with other Federal agencies and Congress so that Native American Veterans are not denied the full benefit of their status as both Native Americans and Veterans;

(7) Highlight contributions of Native American Veterans in the Armed Forces;

(8) Make recommendations on the consultation policy of the Department on Tribal matters;

(9) Support a process to develop an urban Indian organization confer policy to ensure the Secretary confers, to the maximum extent practicable, with urban Indian organizations; and

(10) With the Secretary's written approval, conduct other duties as recommended by the Committee.

Authority: The Committee was established in accordance with section 7002 of Public Law 116–315 (H.R. 7105—Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020). In accordance with Public Law 116–315, the Committee provides advice and guidance to the Secretary of Veterans Affairs on all matters relating to Indian Tribes, Tribal organizations, Native Hawaiian organizations and Native American Veterans. The Committee serves in an advisory capacity, makes recommendations to the Secretary on ways the Department can improve the programs and services of the Department to better serve Native American Veterans.

Membership Criteria: OTGR is requesting nominations for the current vacancies on the Committee. The Committee is composed of 15 members. As required by statute, the members of the Committee are appointed by the Secretary from the general public, including:

(1) At least one member of each of the 12 IHS service areas is represented in the membership of the Committee nominated by Indian Tribes or Tribal organization.

(2) At least one member of the Committee represents the Native Hawaiian Veteran community nominated by a Native Hawaiian Organization.

(3) At least one member of the Committee represents urban Indian organizations nominated by a national urban Indian organization.

(4) Not fewer than half of the members are Veterans, unless the Secretary determines that an insufficient number of qualified Veterans were nominated.

(5) No member of the Committee may be an employee of the Federal Government.

In accordance with Public Law 116–315, the Secretary determines the number and terms of service for members of the Committee, which are appointed by the Secretary, except that a term of service of any such member may not exceed a term of two years. Additionally, a member may be reappointed for one additional term at the Secretary's discretion.

Professional Qualifications: In addition to the criteria above, VA seeks—

(1) Diversity in professional and personal qualifications;

(2) Experience in military service and military deployments (please identify your Branch of Service and Rank);

(3) Current work with Veterans;

(4) Committee subject matter expertise; and

(5) Experience working in large and complex organizations.

Requirements for Nomination Submission:

Nominations should be typewritten (one nomination per nominator). Nomination package should include: (1) a letter of nomination that clearly states the name and affiliation of the nominee, the basis for the nomination (*i.e.,* specific attributes which qualify the nominee for service in this capacity), and a statement from the nominee indicating a willingness to serve as a member of the Committee; (2) the nominee's contact information, including name, mailing address, telephone number(s), and email address; (3) the nominee's curriculum vitae or resume, *not to exceed five pages* and (4) a summary of the nominee's experience and qualification relative to the *professional qualifications* criteria listed above.

The individual selected for appointment to the Committee shall be invited to serve a two-year term. All members will receive travel expenses and a per diem allowance in accordance with the Federal Travel Regulations for any travel made in connection with their duties as members of the Committee.

The Department makes every effort to ensure that the membership of its Federal advisory committees is balanced in terms of points of view represented and the committee's function. Every effort is made to ensure that a broad representation of geographic areas, males & females, racial and ethnic minority groups, and Veterans with disabilities are given consideration for membership. Appointment to this Committee shall be made without discrimination because of a person's race, color, religion, sex (including gender identity, transgender status, sexual orientation, and pregnancy), national origin, age, disability, or genetic information. Nominations must state that the nominee is willing to serve as a member of the Committee and appears to have no conflict of interest that would preclude membership. An ethics review is conducted for each selected nominee.

Dated: August 7, 2023.

Jelessa M. Burney,

Federal Advisory Committee Management Officer.

[FR Doc. 2023–17182 Filed 8–9–23; 8:45 am]

BILLING CODE P

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0215]

Agency Information Collection Activity: Request for Information To Make Direct Payment to Child Reaching Majority

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: Veteran's Benefits Administration (VBA), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of a currently approved collection, and allow 60 days for public comment in response to the notice.

DATES: Written comments and recommendations on the proposed collection of information should be received on or before October 10, 2023.

ADDRESSES: Submit written comments on the collection of information through Federal Docket Management System (FDMS) at *www.Regulations.gov* or to Nancy Kessinger, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420 or email to *nancy.kessinger@va.gov.* Please refer to ''OMB Control No. 2900–0215'' in any correspondence. During the comment

period, comments may be viewed online through FDMS.

FOR FURTHER INFORMATION CONTACT: Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 810 Vermont Ave. NW, Washington, DC 20006, (202) 266–4688 or email *maribel.aponte@va.gov.* Please refer to ''OMB Control No. 2900–0059'' in any correspondence.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VBA invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of VBA's functions, including whether the information will have practical utility; (2) the accuracy of VBA's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Authority: Title 38 U.S.C. 1310, 1313, 1542, and 101(4).

Title: Request for Information to Make Direct Payment to Child Reaching Majority (VA Form Letter 21P–863).

OMB Control Number: 2900–0215.

Type of Review: Extension of a currently approved collection.

Abstract: The Department of Veterans Affairs (VA), through its Veterans Benefits Administration (VBA), administers an integrated program of benefits and services established by law for veterans, service personnel, and their dependents and/or beneficiaries.

Title 38 U.S.C. 1310, 1313, 1542, and 101(4) provide for payment of death pension or dependency and indemnity compensation (DIC) to an eligible veteran's child when there is not an eligible surviving spouse and the child is between the ages of 18 and 23 and attending school. Until the child reaches the age of majority, payment is made to a custodian or fiduciary on behalf of the child. An unmarried schoolchild who is not incompetent is entitled to begin receiving direct payment on the age of majority. Regulatory authority is found in 38 CFR 3.403, 3.667, and 3.854.

Form Letter 21P–863 is used to gather the necessary information to determine a schoolchild's continued eligibility to VA death benefits and eligibility to direct payment at the age of majority. If the collection were not conducted, VA would have no means of determining a child's current address, marital status, and school attendance. Without this information, continued entitlement to death benefits and eligibility for direct payment at the age of majority could not be determined, and proper payment would not be made. This is an extension only with no substantive changes and the respondent burden has not changed.

Affected Public: Individuals and households.

Estimated Annual Burden: 3 Hours.

Estimated Average Burden per Respondent: 10 minutes.

Frequency of Response: One time.

Estimated Number of Respondents: 20.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration/Data Governance Analytics, Department of Veterans Affairs.

[FR Doc. 2023–17125 Filed 8–9–23; 8:45 am]

BILLING CODE 8320–01–P

DEPARTMENT OF VETERANS AFFAIRS

Advisory Committee on Former Prisoners of War, Notice of Meeting

The Department of Veterans Affairs (VA) gives notice under the Federal Advisory Committee Act, 5 U.S.C. ch. 10., that the Advisory Committee on Former Prisoners of War (ACFPOW) will conduct a hybrid meeting (in-person and virtual) on August 30, 2023 and August 31, 2023 at various times and multiple locations in Washington, DC. The meeting sessions will begin and end as follows:

Public participation will commence as follows:

Date	Time	Location	Open session
August 30, 2023	8:00 a.m.–4:00 p.m.—Eastern Standard Time (EST).	810 Vermont Avenue NW, Sonny Montgomery Room 230, Washington, DC 20420/Webex Link and Call-in Information Below.	Yes.
August 31, 2023	9:00 a.m.–10:30 a.m. (EDT)	Washington VA Medical Center, 50 Irving Street NW, Washington, DC 20420/Webex Link and Call-in Information Below.	Yes.
August 31, 2023	11:00 a.m.–1:00 p.m. (EDT)	Washington VA Medical Center, 50 Irving Street NW, Washington, DC 20420.	No.
August 31, 2023	1:00 p.m.–5:00 p.m. (EDT)	810 Vermont Avenue NW, Sonny Montgomery Room 230, Washington, DC 20420/Webex Link and Call-in Information Below.	Yes.

Sessions are open to the public, except when the Committee is conducting a tour of VA facilities. Tours of VA facilities are closed, to protect Veterans' privacy and personal information, by 5 U.S.C. 552b(c)(6).

The purpose of the Committee is to advise the Secretary of Veterans Affairs on the administration of benefits under title 38 U.S.C., for Veterans who are Former Prisoners of War (FPOW), and to make recommendations on the needs of such Veterans for compensation, health care and rehabilitation.

On Wednesday, August 30th, the Committee will assemble in open session from 8:00 a.m. to 4:00 p.m. for discussion and briefings from senior leadership with Veterans Affairs Central Office, Veterans Benefits Administration and Veterans Health Administration officials.

On Thursday, August 31st, the Committee will assemble in open session from 9:00 a.m. to 10:30 a.m. for discussion and briefings from VA Washington DC Healthcare and the Baltimore Regional Office officials. The Committee will then convene a closed session from 11:00 a.m.–1:00 p.m. to tour the Washington DC VA Medical Center in conjunction with lunch.

Any member of the public wishing to attend the meeting or seeking additional information should contact, Designated Federal Officer, Department of Veterans Affairs, Advisory Committee on Former

Prisoners of War at *Julian.Wright2@va.gov.*

Any member of the public who wishes to participate in the virtual meeting may use the following Cisco Webex Meeting Links:

37 CFR Part 385

[Docket No. 16–CRB–0003–PR (2018–2022) (Remand)]

Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III)

AGENCY: Copyright Royalty Board, Library of Congress.

ACTION: Final rule and order.

SUMMARY: The Copyright Royalty Judges announce their final determination after remand of the rates and terms for making and distributing phonorecords for the period beginning January 1, 2018, and ending on December 31, 2022.

DATES:

Effective date: August 10, 2023.

Applicability date: The regulations apply to the license period beginning January 1, 2018, and ending December 31, 2022.

ADDRESSES: The final determination after remand is posted in eCRB at *https://app.crb.gov/.* For access to the docket to read the final determination after remand and submitted background documents, go to eCRB and search for docket number 16–CRB–0003–PR (2018–2022) (Remand).

FOR FURTHER INFORMATION CONTACT: Anita Brown, CRB Program Assistant, (202) 707–7658, *crb@loc.gov.*

SUPPLEMENTARY INFORMATION:

Final Determination After Remand

On October 26, 2020, the United States Court of Appeals for the D.C. Circuit (D.C. Circuit) issued its mandate vacating and remanding in part the original Determination [1] issued by the Copyright Royalty Judges (Judges) in the captioned proceeding. *See Johnson* v. *Copyright Royalty Board,* 969 F.3d 363 (D.C. Cir. 2020). In its ruling on appeal, the D.C. Circuit found that in the original Determination, the Judges (1) failed to give adequate notice to participants of their overhaul of the royalty rate structure combined with significantly increased and uncapped rates for section 115 licenses; (2) failed to explain why they rejected a benchmark based on a past settlement agreement [2] in lieu of overhauling of the rate structure and significantly increasing rates; and (3) failed to identify their legal authority to redefine a material term after they promulgated a definition of that term in the original Initial Determination circulated to the participants. *See Johnson,* 969 F.3d at 367, 381; Initial Determination, *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 16–CRB–0003–PR (2018–2022) (Jan. 27, 2018).

After receipt of the D.C. Circuit's ruling and mandate, the Judges consulted with the parties to the appeal and established procedures for the remand proceeding. *See* Order Adopting Schedule for . . . Remand (Dec. 23, 2020).[3] Each side offered opening submissions, responsive submissions, additional evidentiary filings, and further supplemental briefing requested by the Judges. The parties' submissions included legal briefing and incorporated evidence from the original proceeding as well as evidence newly developed for the remand proceeding. After preliminary deliberations, the Judges asked for supplemental briefing from the parties responsive to a proposed alternative rate structure. *See* Notice and *Sua Sponte* Order Directing the Parties to Provide Additional Materials (Dec. 9, 2021). With respect to redefinition of the material term Bundled Revenue, the Judges also sought legal analysis from the parties relating to the D.C. Circuit's directive that the Judges either provide ''a fuller explanation of the agency's reasoning at the time . . .'' or take ''new agency action accompanied by the appropriate procedures.'' *See Johnson,* 969 F.3d at 392 (citing *Department of Homeland Security* v. *Regents of the Univ. of Cal.,* 140 S. Ct. 1891, 1908). On February 9, 2022, the Judges invited additional briefing on the Bundled Revenue definition issue, specifically permitting the parties to offer additional analysis of possible characterization of the Copyright Owners' motion for clarification following the Determination as a motion for rehearing under the Copyright Act, title 17, United States Code at sec. 803(c)(2). *See Sua Sponte* Order Regarding Additional Briefing (Feb. 9, 2022).

At the request of the parties, the Judges agreed to forego live testimony. On March 8, 2022, all parties were afforded an opportunity to present oral argument on all remand issues.[4] On July 1, 2022, the Judges issued an Initial Ruling and Order after Remand (Initial Ruling) [5]—applying *Johnson* and considering the entire record developed pre-remand and post-remand.

In the Initial Ruling, the Judges directed the parties to attempt to submit jointly agreed-upon regulatory provisions implementing the Initial Ruling for the Judges to consider. The Judges further ruled that, if the parties could not agree on all the regulatory language, they should make separate submissions regarding regulatory provisions in dispute. *See* Initial Ruling at 114.

The parties agreed to many regulatory provisions but disagreed as to several such provisions. Accordingly, they filed separate submissions and respective replies regarding the regulatory provisions. Services' Joint Submission of Regulatory Provisions (July 18, 2022); Copyright Owners' Submission of Regulatory Provisions to Implement the Initial Ruling (July 18, 2022); Services' Joint Response to Copyright Owners' Submission of Regulatory Provisions (Aug. 5, 2022); Copyright Owners' Response to Judges' July 27, 2022 Order Soliciting Responses Regarding Regulatory Provisions (Aug. 5, 2022).

The Judges considered those submissions and entered an order addressing the disputed regulatory provisions. *See* Corrected Order regarding Regulatory Provisions

[1] *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 84 FR 1918 (Feb. 5, 2019) (final rule and order) (original Determination); *see also* Final Determination, 16–CRB–0003–PR (2018–2022) (Nov. 5, 2018). The original Determination was issued by two of the Judges (Majority) and was accompanied by a dissenting opinion (Dissent) authored by the third Judge. The Dissent is appended to and part of the same document as the original Determination.

[2] The referenced settlement agreement formed the basis for regulatory terms relating to section 115 musical works royalties and was adopted as a final rule in *Adjustment [or] Determination of Compulsory License Rates for Mechanical and Digital Phonorecords,* Docket No. 2011–3 CRB Phonorecords II, 78 FR 67938 (Nov. 13, 2013). *See also* Technical Amendment at 78 FR 76987 (Dec. 20, 2013).

[3] Following the original remand scheduling order, the Judges amended the remand proceeding schedule by, *e.g.,* permitting additional briefing, changing due dates, and seeking additional input with regard to specific issues. *See, e.g.,* Order . . . Modifying Scheduling Orders (Dec. 13, 2021) (eCRB no. 25973).

[4] Copyright Owners and Services divided the time for oral argument. George Johnson dba GEO Music Group waived oral argument.

[5] The Initial Ruling (eCRB no. 26938) is included in Related Rulings and Orders as section A. The findings and conclusions in the Initial Ruling were adopted by a majority of the Judges, but two Judges filed separate opinions. *See* Initial Ruling at 2 n.5. One Judge, former Chief Judge Suzanne Barnett, dissented from the Majority's conclusion in the Initial Ruling regarding the *Phonorecords II* rate structure (section II of the Initial Ruling), though not from the exception to that benchmark with regard to the headline rate of 15.1% and the imposition of a cap on the TCC rate prong. *See* Dissent in Part re Benchmark (July 1, 2022) (eCRB no. 26943). The other opinion was issued by Judge Strickler, who dissented from the *reasoning* relating to the adoption of the definition of Service Revenue (section V), but concurred in the *adoption* of that definition. *See* Dissent in Part as to Section IV of the Initial Ruling and Order after Remand . . . (July 1, 2022) (eCRB no. 26965).

Following Initial Ruling and Order (after Remand) (Nov. 10, 2022) (November 10th Order).[6]

On November 30, 2022, the parties filed a Joint Submission in which they provided joint regulatory language no longer in dispute that applied the binding rulings of the Judges and the D.C. Circuit.[7] However, the parties identified the single issue in dispute that relates to the ''Total Content Cost'' (''TCC'') rates for nine offerings made by interactive streaming services. Joint Submission . . . Regarding Regulatory Provisions Following Initial Ruling and Order (after Remand) (Nov. 30, 2022) (Joint Submission) (eCRB no. 27337).

Having considered the parties' submissions (including the Joint Submission), the Initial Ruling, and all other pertinent material, the Judges adopted the several TCC rates set forth in the Phonorecords II-based benchmark as proposed by the Services. *See* Order 43 on Phonorecords III Regulatory Provisions (eCRB no. 28210).[8]

Based on the entirety of the record, the Judges adopt *in toto*[9] the Initial Ruling and the Order 43 on Phonorecords III Regulatory Provisions which are set out in this document. Accordingly, those two documents are adopted by reference in this Final Determination After Remand. Additionally, the regulatory terms that will codify this Final Determination After Remand are set out in this document.[10]

On the basis of the foregoing, the Judges propound the rates and terms described in this Final Determination After Remand for the period January 1, 2018, through December 31, 2022.[11] No participant having filed a timely petition for rehearing, the Judges have made no substantive alterations to the body of the Initial Determination After Remand. The Register of Copyrights reviewed the Judges' Final Determination After Remand for legal error in resolving a material issue of substantive law under title 17, United States Code, and has closed her review. Non-substantive typos have been corrected and non-substantive formatting changes have been made to the version reviewed by the Register in order to accommodate the **Federal Register**'s formatting standards. The Librarian shall cause the Judges' Final Determination After Remand, and any correction thereto by the Register, to be published in the **Federal Register** no later than the conclusion of the Register's 60-day review period.

Related Rulings and Orders

*A. Initial Ruling and Order After Remand (Redacted Version With **Federal Register** Naming and Formatting Conventions)*

On October 26, 2020, the United States Court of Appeals for the D.C. Circuit (D.C. Circuit) issued its mandate vacating and remanding in part the Determination[12] issued by the Copyright Royalty Judges (Judges) in the captioned proceeding. *See Johnson* v. *Copyright Royalty Board,* 969 F.3d 363 (D.C. Cir. 2020). In its ruling on appeal, the D.C. Circuit found that in the Determination, the Judges (1) failed to give adequate notice to participants of their overhaul of the royalty rate structure combined with significantly increased and uncapped rates for section 115 licenses; (2) failed to explain why they rejected a benchmark based on a past settlement agreement[13] in lieu of overhauling of the rate structure and significantly increasing rates; and (3) failed to identify their legal authority to redefine a material term after they promulgated a definition of that term in the Initial Determination circulated to the participants. *See Johnson,* 969 F.3d at 367, 381; Initial Determination, *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 16–CRB–0003–PR (2018–2022) (Jan. 27, 2018).

After receipt of the D.C. Circuit's ruling and mandate, the Judges consulted with the parties to the appeal and established procedures for the remand proceeding. *See* Order Adopting Schedule for . . . Remand (Dec. 23, 2020).[14] Each side offered opening submissions, responsive submissions, additional evidentiary filings and further supplemental briefing requested by the Judges. The parties' submissions included legal briefing and incorporated evidence from the original proceeding as well as evidence newly developed for the remand proceeding. After preliminary deliberations, the Judges asked for supplemental briefing from the parties responsive to a proposed alternative rate structure. *See* Notice and *Sua Sponte* Order Directing the Parties to Provide Additional Materials (Dec. 9 Order). The Judges also sought legal analysis from the parties relating to the D.C. Circuit's directive that the Judges either provide ''a fuller explanation of the agency's reasoning at the time . . .'' or take ''new agency action accompanied by the appropriate procedures.'' *See Johnson,* 969 F.3d at 392 (citing *Dep't of Homeland Sec.* v. *Regents of the Univ. of Cal.,* 140 S. Ct. 1891, 1908 (*Regents*)). On February 9, the Judges invited additional briefing on

[6] The November 10th Order corrected an otherwise substantively identical order issued two days earlier, on November 8, 2022, which had inadvertently included a small amount of text. *See* November 10th Order at 1 (eCRB no. 27312).

[7] The Judges largely adopt the regulations in the Joint Submission, which reflect the substance of the Judges' post-remand rulings, the substance and formatting that the Judges had adopted in the pre-remand Final Determination that were not raised as issues on appeal, and updates to references to subparagraphs of Section 115 to conform to statutory amendments made pursuant to the Music Modernization Act in 2018. Any differences in language or style are made for ease of reference, consistent with the parties' post-remand joint filings.

[8] The Judges also found good cause to adopt a joint proposal for modified language regarding late fees, in 37 CFR 385.3. Order 43 on Phonorecords III Regulatory Provisions at 9.

[9] *But see* Judge Strickler's Dissent, cited at n.5 *supra,* in which—although he agrees with the Majority as to the definition of a Service Revenue Bundle—he disagrees as to the legal reasoning supporting that conclusion.

[10] The documents are: Initial Ruling and Order After Remand, designated as Related Rulings and Orders, section A; Order 43 on Phonorecords III Regulatory Provisions, designated as Related Rulings and Orders, section B; Dissent in Part as to Section IV of the Initial Ruling and Order after Remand by Judge David R. Strickler, designated as Related Rulings and Orders, section C; and Dissent in Part re Benchmark, designated as Related Rulings and Orders, section D.

[11] The regulations applicable to the period 2018 through 2022, as set forth following this **SUPPLEMENTARY INFORMATION** section, will appear in the CFR as appendix A to the current regulations. Although these Phonorecords III regulations adopt the substance of the Phonorecords II-based benchmark where the Judges so require, in §§ 385.21 and 385.22, these Phonorecords III regulations are structured, consistent with the parties' Joint Submission, in the same consolidated manner as set forth in the pre-remand Phonorecords III regulations (a structure as to which no party appealed). See Exhibit A to the Joint Submission at 16, n. 47; see also Exhibit B to the Joint Submission at n.17 (red-lined version of Exhibit A, supra).

[12] *Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords III),* 84 FR 1918 (Copyright Royalty Board Feb. 5, 2019) (final rule and order) (''Determination''); *See also* Final Determination, 16–CRB–0003–PR (2018–2022) (Nov. 5, 2018) (citations to the Determination and to the Dissent in this Initial Ruling and Order after Remand (Initial Ruling) are found in this document). The Determination was issued by two of the Judges (Majority) and was accompanied by a dissenting opinion (Dissent) authored by the third Judge. The Dissent is appended to and part of the same document as the Determination.

[13] The referenced settlement agreement formed the basis for regulatory terms relating to section 115 musical works royalties and was adopted as a final rule in *Adjustment of Determination of Compulsory License Rates for Mechanical and Digital Phonorecords,* Docket No. 2011–3 CRB Phonorecords II, 78 FR 67938 (Nov. 13, 2013), Technical Amendment at 78 FR 76987 (Dec. 20, 2013). In this Initial Ruling, references to *Phonorecords II,* PR II, and PR II-based benchmark are references to this final rule.

[14] Following the original remand scheduling order, at the request of parties or on their own motion, the Judges amended the remand proceeding schedule by, *e.g.,* permitting additional briefing, changing due dates, and seeking additional input with regard to specific issues. *See, e.g.,* Order . . . Modifying Scheduling Orders (Dec. 13, 2021).

the service bundle definition issue, specifically permitting the parties to offer additional analysis of possible characterization of the Copyright Owners' motion for clarification following the Determination as a motion for rehearing under the Copyright Act, title 17, United States Code (Act) at sec. 803(c)(2).

At the request of the parties, the Judges agreed to forego live testimony. On March 8, 2022, all parties were afforded an opportunity to present oral argument on all remand issues.[15] Following oral argument, the Judges deliberated and now issue this Initial Ruling after Remand.

After due consideration of all of the evidence and oral argument of counsel, the Judges[16] determine:[17]

(1) With regard to the applicable rates and rate structure, the percent-of-revenue all-in headline royalty rate for the mechanical license shall be set at 15.1%, phased-in, as set forth below:

2018–2022 ALL-IN HEADLINE ROYALTY RATES

	2018	2019	2020	2021	2022
Percent of Revenue	11.4%	12.3%	13.3%	14.2%	15.1%

In all other respects, the rates and rate structure of the *Phonorecords II*-based benchmark proposed by the Services (as that benchmark is defined herein) shall constitute the rates and rate structure for the *Phonorecords III* period.[18]

To be clear: the 15.1% headline percentage rate substitutes for the headline percentage rates in subparts B and C of the Services *Phonorecords II*-based benchmark, and the definition of ''Service Revenue'' for bundles shall be the definition contained in 37 CFR 385.11 (paragraph (5) for the ''Service Revenue'' definition) as proposed in the Services' *Phonorecords II*-based benchmark.

(2) The Services' *Phonorecords II*-based benchmark is the better of the benchmarks proposed by the parties and satisfies the requirements of 17 U.S.C. 801(b)(1) in all respects. However, as noted *supra,* to be consistent with this statutory section and the decision in *Johnson,* the royalty rate of 10.5% in that benchmark shall be replaced with the 15.1% rate set forth in paragraph (1) above.

(3) To reiterate for clarity, consistent with the adoption of the *Phonorecords II*-based benchmark, and for the reasons more fully developed herein, the Judges adopt the definition of ''Service Revenue for Bundled Services'' as it appeared in the Initial Determination in the underlying proceeding. Following are the Judges' analysis and ruling after remand.

I. Preliminary Issue: Burden of Proof

As a preliminary matter, the Judges address the issue of burden of proof raised by both parties. Pursuant to the Administrative Procedure Act (APA), ''the proponent of a rule or order has the burden of proof.'' 5 U.S.C. 556(d). *See also* Initial Remand Submission of Copyright Owners at 48 (Apr. 1, 2021) (''CO Initial Submission'') (citing section 556(d) of the APA as setting forth ''a basic rule of these rate-setting proceedings that a participant is required to provide evidence establishing the propriety of all aspects of its own proposed rates and terms, including all aspects of the participant's proposed rate structure.''). Accordingly, it is clear to the Judges that the Services should continue to bear the burden of proof regarding the sufficiency of their proffered Phonorecords II-based benchmark in this remand proceeding. And, in like fashion, because on remand Copyright Owners have assumed the mantle of pursuing the vacated rate structure and rates, they bear the burden of proof with regard to their proposal.

However, Copyright Owners assert that it is *the Services* who bear the burden of proof as to Copyright Owners' proposal regarding the appropriateness, *vel non,* of an uncapped TCC rate prong. According to Copyright Owners, this burden falls on the Services because ''only the Services . . . proposed TCC prongs at the hearing,'' in the form of the mix of capped and uncapped TCC prongs contained in the Services' Phonorecords II benchmark. *Id.* at 47. The Judges find that the fact that the Phonorecords II-based benchmark advanced by the Services contains this mix of capped and uncapped TCC prongs does not bear on Copyright Owners' duty, under 5 U.S.C. 556(d), to satisfy the burden of proof with regard to the rates and rate structure they are advancing on this remand. Moreover, the D.C. Circuit has already held that the fact that some of the Streaming Services' proposals contemplated continued use of an uncapped total content cost prong for some categories ''does not mean they anticipated that the [Judges] would uncap the total content cost prong *across the board* . . . [which] is quite different.'' *Johnson,* 369 F.3d at 382. The difference, according to *Johnson,* is that ''[u]ncapping the total content cost prong across all categories leaves the Streaming Services exposed to potentially large hikes in the mechanical license royalties they must pay.'' *Id.*

Accordingly, the Judges find that Copyright Owners indeed do bear the burden of proof with regard to the appropriateness of uncapped rate structure and rates they are proposing on remand and the Services bear the burden of proof with regard to the appropriateness of the Phonorecords II-based benchmark they are continuing to advance on remand.

II. Rate Structure and Rates

A. Relevant Rulings in Johnson

In establishing a royalty rate structure and the rates within it in the context of this remand proceeding, the Judges are guided by the rulings in *Johnson.*

1. Percent of Revenue Prong

The D.C. Circuit noted that the Judges found the royalties in the *Phonorecords II* period were too low and that record companies were receiving a disproportionate share of the sum of the mechanical and sound recording royalties. *Johnson,* 969 F.3d at 384–85. The D.C. Circuit acknowledged that ''[t]he Judges . . . then carefully

[15] Copyright Owners and Services divided the time for oral argument. George Johnson dba GEO Music Group waived oral argument.

[16] The findings and conclusions in this Initial Ruling are adopted by a majority of the Judges. One Judge dissents from the adoption of the entirety of the *Phonorecords II* rate structure (section II), though not from the exception to that benchmark with regard to the headline rate of 15.1% and the imposition of a cap on the TCC rate prong. One Judge dissents in part from the reasoning relating to adoption of the definition of Service Revenue (section V), but not from the adoption of that definition.

[17] As addressed *infra,* the Judges also order that the participants in this remand proceeding prepare and submit regulatory provisions consistent with this ruling. *See* Footnote 174.

[18] The Services include in their Joint Rate Proposal a chart summarizing the proposed rates for their offerings. That chart is attached as an Addendum to this Initial Ruling.

analyzed the competing testimony and drew from it rates that were grounded in the record and supported by reasoned analysis.'' *Id.* at 385. The D.C. Circuit found that the Judges acted well within their discretion and not arbitrarily, relying on substantial evidence in establishing the ''zone of reasonableness'' for the rates. *Id.* As the D.C. Circuit noted, the Judges' process was ''the type of *line-drawing and reasoned weighing of the evidence* [that] falls squarely within the [Judges'] wheelhouse as an expert administrative agency.'' *Id.* at 385–86 (emphasis added).

2. Uncapped TCC Prong

The D.C. Circuit found fault, however, in the Judges' determination to establish an uncapped and increased percentage-based total content cost (TCC).[19] *Id.* at 380. This approach ''removed the only structural limitation on how high the [TCC] . . . can climb.'' *Id.* The D.C. Circuit reasoned that uncapping the TCC alternative rate prong across all categories of service exposed the Services to potentially large hikes in the overall mechanical royalties they must pay. *Id.* at 382. The D.C. Circuit noted: ''As the [Judges] acknowledge, sound recording rightsholders have considerable market power *vis-à-vis* interactive streaming service providers . . . . The interactive streaming services are . . . exposed to the labels' market power and record companies could, if they so chose, put those services out of business entirely . . . . [B]y virtue of their oligopoly power, the sound recording copyright holders have extracted 'inflated' royalties. . . .'' *Id.* (cleaned up).

While the Services had advocated uncapping the TCC alternative rate prong for some categories of service, that ''does not mean they anticipated that the [Judges] would uncap the total content cost prong *across the board.* That is quite different.'' *Id.* at 382. The D.C. Circuit found that the Judges ''failed to provide adequate notice of the drastically modified rate structure [they] ultimately adopted.'' *Id.* at 381. The D.C. Circuit emphasized that the failure to provide adequate notice of their intentions ''is no mere formality [because] [i]nterested parties' ability to provide evidence and argument . . . not only protects the parties' interests, it also helps ensure that the [Judges'] ultimate decision is well-reasoned and grounded in substantial evidence.'' *Id.* at 381–82.

To support their adoption of an uncapped TCC rate prong, the Judges ''predicted that the sound recording copyright owners' royalty rates would naturally decline in the course of their negotiations with interactive streaming services.'' *Id.* at 372. The Judges found persuasive the rebuttal testimony of one of Copyright Owners' economic expert witnesses, Professor Watt, that an increase in mechanical royalties payable by the Services would lead to a corresponding decrease in the Services' sound recording royalty obligations. *See* Determination at 73–74 (''[S]ound recording royalty rates in the unregulated market will decline in response to an increase in the compulsory license rate for musical works [and] Professor Watt's bargaining model predicts that the total of musical works and sound recordings royalties would stay ''almost the same'' in response to an increase in the statutory royalty.''). The Services painstakingly criticized this ''see-saw'' theory.

The D.C. Circuit concluded that, on remand, if and when the Judges consider the ''uncapped'' rate structure, they shall address all substantive challenges to that approach raised by the Services, including the issue of whether ''an increase in mechanical license royalties would lead to a decrease in sound recording royalties.'' *Id.* at 383.

Thus, the D.C. Circuit held, the Judges erred procedurally in adopting an uncapped TCC alternative rate prong. The D. C. Circuit therefore instructed the Judges to provide the parties with the opportunity to fully address the issues regarding the uncapped TCC prong, and for the Judges to address the ''substantive challenges'' raised by the Services.

3. Four Itemized Statutory Objectives

The statutory standard found in section 801(b)(1) instructs the Judges to set rates that are not only ''reasonable,'' but also reflective of four itemized objectives, or factors, which, as the D.C. Circuit stated, set forth ''competing priorities.'' 17 U.S.C. 801(b)(1)(A)–(D); *Johnson,* 969 F.3d at 387.[20] With regard to these four priorities, the D.C. Circuit found that the Judges properly analyzed and applied the first objective (Factor A). *Id.* at 387–88. In particular, the D.C. Circuit did not disturb the Judges' ruling that an increase in the royalty rates for mechanical licenses was necessary in order to satisfy Factor A. *Johnson,* 369 F.3d at 387–88. According to *Johnson,* in making this finding, the Judges had engaged in a ''reasonable reading of the record'' and had relied on ''substantial evidence.'' *Id.* at 388. Thus, Factor A (when considered without regard to the other three objectives) indicated that the statutory rate needed to be higher than it was during the *Phonorecords II* period.[21]

With regard to the other three objectives, *Johnson* stated that ''[t]he question whether the [Judges] adequately addressed factors B through D . . . is intertwined with the nature of the rate structure ultimately imposed by the [Judges].'' *Id.* at 389. Accordingly, the D.C. Circuit concluded that it ''need not . . . address whether the [Judges] adequately considered these remaining factors.'' *Id.*[22]

Within the parameters of the holdings in *Johnson,* the Judges consider the record facts and the arguments made in this remand proceeding, together with the pertinent facts and arguments made in the original proceeding.

B. Rate Evidence for the 33-Months From January 2018 Through September 2020

After the Determination was issued, from its effective inception on January 1, 2018, through September 30, 2020—a 33-month period—the parties operated under the rates and rate structure set forth in that ruling. In light of the D.C. Circuit's decision in *Johnson,* as of October 1, 2020, the parties reverted to the *Phonorecords II* rates. The Services have asserted in this remand proceeding that, during the 33-month period when the Majority's new and higher

[19] ''TCC'' refers to ''Total Content Cost,'' and is defined as ''a percentage of the royalties paid by the service . . . to sound recording copyright holders.'' *Johnson,* 969 F.3d at 370; *see also* Determination at 13 n.38 (''TCC'' is an industry acronym for ''Total Content Cost'', a shorthand reference to the extant regulatory language describing generally the amount paid by a service to a record company for the section 114 right to perform digitally a sound recording.'').

[20] These competing objectives are: (A) To maximize the availability of creative works to the public; (B) To afford the copyright owner a fair return for his or her creative work and the copyright user a fair income under existing economic conditions; (C) To reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication; and (D) To minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices. *Id.*

[21] However, as the D.C. Circuit also noted, because the four section 801(b)(1) objectives reflect ''competing priorities, *id*'' at 387, the holding that Factor A militates toward a higher rate is not ultimately dispositive. Rather, it must be weighed with the other statutory factors.

[22] The phrase ''intertwined with the nature of the rate structure'' requires emphasis because the Majority independently considered how to weigh Factors B and C specifically as to the 15.1% revenue rate, without regard to the overall rate structure, as discussed *infra.*

Phonorecords III rates were in effect, [REDACTED]. By contrast, Copyright Owners, on remand, looking at the same data over this 33-month period, aver that they prove the existence of the seesaw theory.

1. Services' Position

According to the Services, [REDACTED]. [REDACTED]. Moreover, according to the Services, [REDACTED]. The Services further maintain that, [REDACTED].

The Services make the [REDACTED]. And, [REDACTED]. Id. ¶¶ 5, 9–13, 16–19, 22–23, 26–27.

The Services claim that [REDACTED]. More particularly, [REDACTED].

[REDACTED]. [REDACTED].

The Services' economic experts rushed to judgment upon learning of these facts, claiming that they disproved the seesaw theory. *See* Katz WDRT ¶¶ 25–27 (relying on testimonies cited *supra* and concluding that seesaw theory was disproved, based on [REDACTED]); Marx WDRT ¶¶ 48–51 (relying on same testimonies and likewise finding because [REDACTED]); Leonard WDRT ¶ 17. ([REDACTED]).

2. Copyright Owners' Position

Copyright Owners analyzed the royalty data over the same 33-month period (January 2018 through September 2020) and reach the opposite conclusion. One of their economic expert witnesses, Dr. Jeffrey Eisenach, testified that [REDACTED]. Moreover, he opined that [REDACTED]. *See* Eisenach RWRT sec. 2(A) & appx. C.

Based on this analysis, Professor Watt declares empirical vindication of his seesaw theory. Watt RWRT ¶¶ 41–42, 46 (''The [Judges'] bargaining theory insights about the relationship between royalty rates were correct. . . . [REDACTED]. . . .'').

3. Analysis and Decision Regarding Evidence of Post-Determination Rates

The Judges are perplexed by the willingness of the expert economic witnesses on both sides to opine that the rate changes from January 2018 through September 2020 can serve as confirmation of their clients' respective positions. The issue to be considered empirically was whether the sound recording rate would decrease in response to the increase in the mechanical rate. That is, if the record labels had previously set royalties at a level that would allow the Services merely to survive, would the record labels agree to lower their sound recording rate if more of the Services' surplus were acquired by Copyright Owners? To answer this question, the economists on both sides applied sophisticated bargaining models and critiques to explain the nature of the negotiations that would ensue.

In the process, the economists lost track of an obvious, elementary point: The *Phonorecords III* rates were being challenged by the Services' appeal, and might not persist. Indeed, the rates were ultimately vacated and the parties returned in October 2020 to the *Phonorecords II* rates.[23] Now, the rates will be changed again by this post-remand Determination, and going forward may be subject to further potential change, consistent with the provisions of title 17. In light of such ongoing fundamental uncertainty, why would any economist or businessman assume that the sound recording companies would agree to adjust their rates in response to a change in the mechanical rate? The Judges are amazed that the economic experts neglected even to raise this uncertainty as a complicating issue, let alone a dispositive one.[24]

Moreover, no party called as a witness any representatives of the Majors, or subpoenaed their testimony or documents, to provide the Judges with evidence of how these record companies perceived the seesaw issue, whether as a permanent phenomenon or as an uncertain matter, given the pendency of the legal proceedings regarding the ultimate mechanical rate. Any of the parties could have requested that the Judges subpoena a sound recording industry witness to give testimony and produce documents as to this issue, pursuant to 17 U.S.C. 803(b)(6)(C)(ix), but none did so. Further, Copyright Owners, who are representing the music publishing interests of *inter alios,* Sony, Universal, Warner, and Merlin, likely could have produced such sound recording witnesses without the need for a subpoena. Witnesses from these entities who negotiated with the Services after the *Phonorecords III* rates and rate structure became effective certainly would have knowledge relevant to the testimony of the Services' witnesses [REDACTED] who claimed that [REDACTED].

Simply put, the period from period from January 2018 through September 2020 was a time the Judges construe as ''33-months of uncertainty,'' *see* 3/8/22 Tr. 87, 91 (Closing Argument) when no party could ascertain with any assuredness the ultimate *Phonorecords III* rates and rate structure. Thus, for the economists and the parties to claim vindication for their arguments by reliance on how the record labels did or did not respond to the challenged and ever-shifting rates during this ''33 months of uncertainty'' reflects the elevation of adversarial zeal over objective judgment.

Accordingly, the Judges place no weight on the purported changes or stability of the sound recording rates during the *Phonorecords III* rate period.

C. Percent-of-Revenue Rate Prong

1. Copyright Owners' Position

In their initial remand submission, Copyright Owners provided no new evidence to support any aspect of the 15.1% revenue-based rate (or for that matter, any new evidence to support the rates or rate structure in the Determination), and elected to rely on the pre-remand record. In fact, in their initial remand submission, Copyright Owners do not so much as mention the 15.1% revenue rate derived by the Judges. However, in their reply remand submission (which the Judges found also to constitute, in part, a substantive *initial* submission [25]) Copyright Owners do address the 15.1% revenue rate. In the reply submission, Copyright Owners simply stated: ''[T]he Circuit affirmed the Board's derivation of rate percentages, including raising the revenue rate to 15.1%.'' Copyright Owners' Reply Brief on Remand (in Reply Remand Submission of Copyright Owners, Vol. 1) at 64, n.48 (July 2, 2021) (''CO Reply''). In a subsequent submission, Copyright Owners added that ''*[t]he narrow mandate on this Remand does not allow for reopening the rate percentage determination in the [ ]Determination.*'' Copyright Owners' Motion for Reconsideration or Clarification at 15 & n.10 (Dec. 17, 2021) (emphasis added) (Dec. 17th Motion).

Thereafter, Copyright Owners asserted that the D.C. Circuit's affirmance of the

[23] There also was uncertainty as to the effective inception date of the *Phonorecords III* rate period, because the Services had appealed (ultimately unsuccessfully) the CRB Judges' finding that the period commenced, retroactively, as of January 1, 2018.

[24] To place this point in the economic context of this proceeding, the Judges characterize the ongoing ''legal uncertainty'' as another ''independent variable'' to add to the economic experts' list of such variables, discussed *infra,* that affect the ''dependent variable,'' *viz.,* the sound recording rate.

[25] *See* Order Denying in Part and Granting in Part Services' Motion to Strike Copyright Owners' Expert Testimony and Granting Services' Request to File Supplemental Testimony and Briefing at 11 (Oct. 1, 2021) (Oct. 1st Order) (The Judges found that ''with one exception . . . the challenged testimonial evidence of Copyright Owners' economic expert witnesses serve the dual purposes of direct and rebuttal statements'' and, as a consequence, ''provide[d] the Services an opportunity to file supplemental testimony and briefing in opposition.

[Judges'] revenue percentage rate calculation was ''strong[ ]'' and ''detailed.'' Copyright Owners' Reply in Further Support of Motion for Reconsideration or Clarification at 4 (January 5, 2022). Moreover, Copyright Owners took note that the Services had relied on substantively identical language in *Johnson* to support their argument that other statements in that D.C. Circuit decision should be deemed affirmed. *See id.* at 4–5 (noting Services' reliance on *Johnson's* description of the Judges' rulings regarding student and family discounts (''*grounded in substantial record evidence . . . based on the weight and credibility of the evidence [and] squarely within the Judges' expertise*)'' as demonstrating that the D.C. Circuit had affirmed those rulings) (emphasis added); *see also* Copyright Owners' Brief in Response to the Additional Materials Orders at 2, 6–7 (Jan. 24, 2022) (''CO Additional Submission'') (again asserting that ''the 15.1% revenue rate . . . was specifically affirmed in detail by *Johnson.*'').

2. Services' Position

In their initial submission after the remand, the Services objected to any continued application by the Judges of the 15.1% revenue rate because, ''as the Majority acknowledged, this particular division of revenues will never happen in the real world because of the complementary oligopoly power of the record labels.'' Services' Joint Opening Brief (in Services' Joint Written Direct Remand Submission at Tab D) at 52 (''Services' Initial Submission'') (Apr. 1, 2021). More particularly in this regard, the Services note that Professor Marx's Shapley Value Model,[26] which served as an input for the generation of the 15.1% revenue rate, also indicated that only [REDACTED]% of the interactive streaming revenue should be paid out as royalties to the sound recording rightsholders, with the remaining [REDACTED]% of these revenues retained by the interactive streaming services. *Id.* (''Both Professor Marx's and Professor Watt's models show lower combined royalties being paid by the services than are currently paid in the marketplace. . . . The discrepancy in total royalties between the models and the real world is explained, in part, by the absence of supranormal complementary oligopoly profits in the Shapley model, and the presence of those profits in the actual market.''). *Id.* (quoting *Phonorecords III,* 84 FR 1952).

By this approach, the Services maintain, ''the Majority awarded the Copyright Owners the full 15.1% of revenue dictated by its model (phased in over time), and left it up to the Services to convince the complementary oligopolist major labels to dramatically lower sound recording rates.'' *Id.* at 54–55. The Services argue that, instead, the Majority should have applied to Professor Marx's [REDACTED]% total royalty obligation what they characterize as ''any of the[ ] real-world ratios in place of the [REDACTED] ratio taken from ''Professor Gans' ''Shapley-inspired'' model. *Id.* at 54. According to the Services, these lower ratios would have reduced the revenue percentage rate well below 15.1%. *Id.*

Alternatively, the Services propose, through Professor Marx's post-remand written testimony, that the Judges now adopt ''a more balanced, burden-sharing approach'' to address what she described as the Majority's ''imbalance'' problem. *Id.* at 57; *see also* Marx WDRT ¶¶ 52–63.[27] Essentially, her proposal begins with an assumption, based on record evidence, that labels typically take specific shares of service revenue, including shares of [REDACTED]%, [REDACTED]% and [REDACTED]%.[28] These shares are significantly higher than the [REDACTED]% that Professor Marx generated from her Shapley model. Next, Professor Marx's post-remand burden-sharing approach uses as inputs the 15.1% of service revenue and the [REDACTED]% of service revenue that would be retained by the musical works owners and the Services respectively.[29] Putting these two factors together, she sets forth the basic math: Using her [REDACTED]% sound recording share as an example, she notes that there is not enough revenue for the labels to take this [REDACTED]% share, if the musical works owners also receive 15.1% and the Services also retain the [REDACTED]% derived from her model ([REDACTED]% + 15.1% + [REDACTED]% = [REDACTED]%, an irrational result). *See* Services' Joint Opening Brief at 57.

Professor Marx engages in an analysis based on the following math and logic (again, using the [REDACTED]% sound recording rate as an example of the fixed amount taken by the labels): (1) [REDACTED]% of the streaming revenues remain available to be split between the services and the musical works copyright owners; (2) adding the 15.1% revenue rate and her [REDACTED]% revenue retention percentage equals [REDACTED]%; and (3) the 15.1% revenue rate, as a percent of this [REDACTED]%, is [REDACTED]%; and (4) [REDACTED]% of the [REDACTED]% available for splitting between the services and the musical works copyright owners is [REDACTED]% (rounded). *Id.* at fig.8.

Thus, she identifies her version of a ''fair'' result: The Services and Copyright Owners would split the residual revenue remaining after the labels have exercised their complementary oligopoly power to take an outsized fixed share—with the split proportional to the 15.1%-to-[REDACTED]% revenue amounts calculated respectively by the Judges (the 15.1% musical works rate) and Professor Marx (the [REDACTED]% service revenue retention). *Id.* 59, table. 8.[30]

In their final post-remand submission, the Services also flatly state: ''[T]he D.C. Circuit did not ''affirm'' the 15.1% rate—it vacated that rate.'' Services' Joint Rebuttal Brief Addressing the Judges' Working Proposal at 2 (Feb. 24, 2022) (''Services' Additional Submission''). However, the Services do not support that quoted statement with any citation to *Johnson. See id.* Further, the Services assert that the 15.1% revenue rate is not immune from post-remand review and reduction because ''the D.C. Circuit withheld judgment ''on whether that final percentage satisfies factors B through D of Section 801(b)(1). . . .'' *Id.* at 3.

[26] Generally, a Shapley Value Model is a game theory analysis. It models a hypothetical bargain that assigns each ''player'' the average marginal value it contributes to the bargain and (after accounting for the costs that each ''player'' would need to recover) the remaining ''surplus'' is allocated among the players according to their relative contributions. *See Johnson,* 969 F.3d at 372. For the reasons discussed *infra,* in the present case, the Shapley surplus from the streaming revenue is split essentially equally by the owners of the sound recording and musical works owners *inter se,* but the royalty rates themselves that would result from their bargaining would be different as between these two inputs, because of their differing costs. *See, e.g.,* Gans WDT ¶ 73.

[27] Claiming consistency with the Majority's analysis, Professor Marx appears to maintain that her ''burden-sharing'' approach generates the statutorily-required ''reasonable'' rate as well as a rate that satisfies the ''fair return''/''fair income'' objectives of statutory Factor B. *See* Marx WDRT ¶ 52 (introducing her correction of the alleged ''imbalance'' problem by noting that ''the ''right'' mechanical royalty rate is one that is ''reasonable'' and achieves the four objectives laid out in Section 801(b)(1).''

[28] *See* Marx WDRT, fig. 7 ([REDACTED]).

[29] The [REDACTED]% of revenue that the services would retain is based on one of Professor Marx's ''Shapley Value Models.'' Shapley Value modeling is discussed *infra.*

[30] Using the same logic and calculation method, Professor Marx finds that the services would retain |[REDACTED]% ÷ [REDACTED]%, which equals |[REDACTED]%. Assuming again that [REDACTED]% of the steaming revenue is available to split (because the labels have appropriated [REDACTED]%), the services would retain [REDACTED]% [REDACTED]% rounded) of the streaming revenue. *Id.*

3. Analysis and Decision Regarding 15.1% Revenue Rate Prong

The Judges determine that they are clearly bound by the D.C. Circuit's decision in *Johnson* to maintain the 15.1% revenue rate, as phased-in by the Determination. Several reasons support this decision.

First, the Judges conclude that the D.C. Circuit's decision in *Johnson* is conclusive and unambiguous regarding the revenue percentage rate. The D.C. Circuit rejected the Services' assertion that the Judges acted ''arbitrarily'' as to this particular issue, noting that the Services had misstated the relevant facts. *Johnson,* 969 F.3d at 385–86 (responding to Services' misdescription of Judges' analysis and explaining what Services described as ''not what happened.''). Moreover, the D.C. Circuit held that with regard to the construction of the 15.1% revenue rate, the Judges had ''engaged in the type of line-drawing and reasoned weighing of the evidence [which] falls squarely within the [Judges'] wheelhouse as an expert administrative agency.'' *Id.* at 386. The D.C. Circuit further noted that the Judges ''proceed[ed] cautiously'' to set the 15.1% revenue rate by establishing a ''zone of reasonableness'' for the revenue rate. *Id.* at 385. Indeed, with regard to each aspect of this revenue rate analysis, the D.C. Circuit found that the Judges' decision making was ''grounded in the record and supported by reasoned analysis'' and that ''[s]ubstantial evidence supports [their] judgment.'' *Id.* at 385.

Second, when the D.C. Circuit reviewed the Determination, it applied ''the same standards set forth in the Administrative Procedure Act, 5 U.S.C. 706.'' *Id.* at 375 (noting that 17 U.S.C. 803(d)(3) cross-references 5 U.S.C. 706); *see also id.* (''[W]e will set aside the [ ] Determination 'only if it is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law, or if the facts relied upon by the agency have no basis in the record.'').

Here, the D.C. Circuit explicitly found that the Judges' analysis and findings in connection with the 15.1% revenue rate are *not* arbitrary and capricious, and that the facts relied upon by the Judges have a sufficient basis in (are ''grounded in'') the record. It seems beyond dispute that the D.C. Circuit affirmed the Judges in their setting of the 15.1% revenue rate as a rate that is reasonable, and thus satisfies that aspect of the section 801(b)(1) standard.[31] Indeed, it would border on the Orwellian to misconstrue the D.C. Circuit's unequivocal and obvious affirmance of the reasonableness of the 15.1% revenue rate as a vacating of that finding.

Third, the Judges note that *Johnson* conspicuously declines to identify the Judges' setting of the 15.1% percent-of-revenue rate as one of the findings to be revisited on remand. Rather, *Johnson* states that the three overarching issues for resolution on remanded are the Majority's failure: (1) ''to provide adequate notice of the rate structure it adopted,'' (2) ''to explain its rejection of a past settlement agreement as a benchmark for rates going forward; and (3) ''[to] identif[y] the source of its asserted authority to substantively redefine a material term after publishing its Initial Determination.'' *Johnson,* 369 F.3d at 367. The Majority's finding that the 15.1% royalty rate is ''reasonable'' was not identified by the D.C. Circuit as a finding that was vacated and subject to further review and, indeed, as noted *supra,* the appellate panel credited what it characterized as the Majority's careful analysis and line-drawing in arriving at that finding.

The clarity of the D.C. Circuit's affirmance of the royalty rate of 15.1% for the percent-of-revenue prong moots the issue of whether Professor Marx's attempt, described *supra,* to correct the so-called ''imbalance'' problem has merit. However, the Judges note that, even if this issue had not been conclusively decided in *Johnson,* they would reject her approach as futile. That is, Professor Marx fails to acknowledge that any surplus that her approach would appear to provide to the Services would be siphoned off by the Majors, given their complementary oligopoly power.

More particularly, the sound recording royalty rates she posits ([REDACTED]%, [REDACTED]% and [REDACTED]%) are all functions of the sound recording companies' understanding of the Services' non-content costs (costs that the Services must recover out of retained revenues in order to remain in operation, *i.e.,* to ''survive'') and the then-existing musical works content (royalty) costs (comprised of the mechanical rate and the performance rate). If, as Professor Marx contemplates, the mechanical rate is reduced so that Copyright Owners ''share the burden'' of the complementary oligopoly effect on sound recording rates, that ''burden sharing'' would increase the revenues retained by the Services (that is the purpose of Professor Marx's approach!). But such an increase would raise the Services' revenue above their ''survival'' rate, as understood by the record labels. Thus, the record labels, given their complementary oligopoly power, would increase the Services' royalty rate above what it otherwise would have been.

Alternately stated, when Professor Marx hypothesizes a given sound recording royalty rate in column 1 of Figure 8 in her WDRT, that rate is assumed, by the logic of the complementary oligopoly theory, to have already allowed the services to cover only their non-content costs and musical works royalties, as understood by the record labels. So, her assumed rate in column 1 is not a fixed parameter, but rather an independent variable, which is a function of, *inter alia,* the costs incurred by the services, *i.e.,* their non-content costs plus their musical works royalty costs.[32] If those service costs decreased (for example, in an attempt to reduce the services' burden of bearing the full brunt of the labels' complementary oligopoly power as in Professor Marx's attempt to correct the imbalance problem), the percentage in column 1 of Figure 8 would increase, as the labels siphoned off that surplus over the services' survival revenue requirements. To find otherwise would be to refute the logic of the dynamics of the complementary oligopoly effect.[33]

Moreover, the defect in Professor Marx's attempt to remedy the so-called ''imbalance'' problem is a consequence of the statutory licensing and royalty scheme. To recap, the licensing of content used by the interactive services is bifurcated. The sound recording royalties paid by the interactive services to the record labels are not regulated, and complementary oligopoly power exists in that market, inflating sound recording royalty rates above an effectively competitive level. *See*

[31] The CRB Judges intentionally distinguish between the ''reasonable'' rate standard in the initial body of section 801(b)(1) and the objectives set forth as Factors A–D of section 801(b)(1). A rate can satisfy the statutory ''reasonable rate'' requirement yet require adjustment (higher or lower) to reflect the balancing of the four additional factors. Accordingly, the Judges defer to a subsequent section, *infra,* a discussion of how Factors A–D should be addressed on this remand.

[32] The interactive services also pay a separate royalty for the performance license necessary to transmit a song. However, under the Judges' ''All-In'' royalty structure, that performance royalty is deducted from the ''All-In'' calculation to determine the mechanical royalty. Also, the performance royalty paid to the largest Performing Rights Organization (PROs) are subject to determination by federal judges in the Southern District of New York (the so-called ''rate court'').

[33] To be clear, the Judges are not stating that the Services' retention of only enough revenue to allow them to cover their noncontent costs and thus merely ''survive'' is indicia of an effectively competitive (or even healthy) market—but are merely acknowledging the state of affairs given the unregulated nature of the sound recording royalties and the complementary oligopoly power that exists in that market.

Determination at 73 (''[T]he existence of complementary oligopoly conditions in the market for sound recordings'' is the basis for ''the record companies' ability to obtain most of the available surplus'' generated by interactive streaming.) [34] However (and to state the obvious), the mechanical rate paid by the interactive services for musical works is regulated, pursuant to 17 U.S.C. 115 and, until the 2018 enactment of the Music Modernization Act,[35] according to the rate standards in 17 U.S.C. 801(b)(1). Thus, there is no statutory or regulatory impediment to prevent record labels from responding to a decrease in the mechanical rate by increasing the unregulated sound recording rate if such an increase is in their economic interest.[36]

Accordingly, any attempt by the Judges to reduce the mechanical royalty rate in order to allow the Services to retain more of the surplus would fail; it would be like pouring water into a bucket with a siphon at its base. More water would not remain in the bucket, but rather would accumulate wherever the siphon leads—in this case, to the record labels. The Judges could keep mechanical royalty rates depressed and allow this to occur, but that would harm Copyright Owners while providing no relief to the Services. And despite the old adage that ''misery loves company,'' the Judges detect no directive under section 801(b)(1) that they harm Copyright Owners without providing a gain for the interactive streaming services—and that they provide a windfall for the record labels, to boot.

Although Professor Marx's attempt to reduce the Services' ''misery'' by sharing it with Copyright Owners is unavailing, the statutory scheme and market forces do appear to combine to mitigate the burden created by the complementary oligopoly power of the sound recording companies. If interactive streaming revenue were to grow over the rate period,[37] then the phase-in to the 15.1% rate will reflect fixed annual percentages of a larger base, allowing services to retain a higher dollar level of the interactive streaming revenues.[38] [REDACTED]. *See, e.g.,* Diab WDRT ¶¶ 10–11 (Google agreements); Mirchandani WDRT ¶¶ 16–17 (Amazon agreements); Bonavia WDRT ¶¶ 8; 14–19 (Spotify agreements); White WDRT ¶¶ 6; 8–14; 19; 24; 27–28 (Pandora agreements). Additionally, the Services' headline sound recording rates [REDACTED]. *Services' Joint Remand Reply Brief* at 40 (and record citations therein). Thus, assuming no increase in non-content costs (or increases smaller than the increases in streaming revenue), the Services will realize increased revenue above and beyond what they needed to survive.

The Services and Copyright Owners recognize the mitigation of harm to the Services generated by these facts (although they may well disagree with the Judges' application of these facts). During colloquy with counsel for Pandora and Spotify during closing arguments on remand, the Judges asked why they should in essence apply the ''misery loves company'' adage:

> [JUDGE STRICKLER] [T]he problem is . . . the sound recording [rates] are unregulated in the interactive market . . . . Congress did not want that to be controlled at all. So every time I see . . . the services' argument about how we have [to] set a rate that's fair even though there's this ability of the sound recording [companies] to take more, my margin note is always this: ''Are they arguing that 'misery loves company?' '' [W]hy shouldn't that misery be shared with Copyright Owners? . . . Isn't that really Professor Marx's argument in her proposed split . . . using the 15.1 percent figure . . . ?
>
> [COUNSEL] [Regarding] Judge Strickler['s] . . . ''misery loves company'' issue. . . . I think . . . the way [Judge Strickler] put it during the trial was, even if I thought rates needed to come down, how would that help you; wouldn't the labels just take all that surplus for themselves based on their complementary oligopoly power? . . . . I want[ ] to address it right off the bat . . . . in open session.
>
> Relat[ed] to . . . the seesaw . . . our point is that *these label rates* are *sticky* in both directions. If you see an increase in musical works rates, *you do not see a quick decrease in label rates, and the opposite is true. These rates are sticky.*
>
> . . .
>
> *There's a lot of friction with respect to the ability of label rates to change quickly* in response to the dynamic marketplace or the dynamic for business reasons or because of regulatory changes in musical works rate. *These are multi-year contracts. They take a long time to negotiate.* They are complex, *et cetera.*
>
> *So, I do think it's right that at a minimum you can buy time where the ratio is more aligned with the 801(b) factors. In other words, you don't have to worry that the labels will take it all right away, even if you believe they will ultimately take that.*
>
> [JUDGE STRICKLER] *So you are saying we have something that reduces misery for a period of time until the misery returns?*
>
> [COUNSEL] *That's right.* And I think that would have been true in 2018 when you were sitting drafting the decision. *It's even more true today in 2022 when the label rates, as I mentioned, are effectively set, bought and paid for.*
>
> 3/8/22 Tr. 29–30, 43–46 (Closing Argument) (emphasis added).

Similarly, on this topic, Copyright Owners' counsel accurately characterized the Judges' adoption of the static 15.1% Shapley-based rate as the inevitable consequence of ''regulatory lag,'' that requires a regulator to keep a rate constant over the statutory term because there is no sufficient data to project future rates. *Id.* at 273–75; *see generally* A. Kahn, 2 *The Economics of Regulation* at 48 (1971) ''The regulatory lag [is] the inevitable delay that regulation imposes in the downward . . . [and] upward adjustments'' to rate levels, and ''thus is to be regarded not as a deplorable imperfection of regulation but as a positive advantage [because] companies can for a time keep the higher profits they reap from a superior performance. . . .'').[39]

[34] As the Judges have consistently noted, this complementary oligopoly power is generated by the concentration of ownership of sound recording licenses for ''Must Have'' repertoires among the three Majors (Sony Music Group, Warner Music Group and Universal Music Group), plus Merlin (a consortium of Indies sometimes referred to as ''the fourth Major''), as indicated by their reported collective 85% share of Spotify's streams in 2018, the first year of the rate period at issue here. *See https://www.midiaresearch.com/blog/smaller-independents-and-artists-direct-grew-fastest-in-2020.*

[35] In subsequent rate periods, the rate remains regulated, but is subject to a different standard—the ''willing buyer-willing seller marketplace standard,'' for shorthand) under 17 U.S.C. 115.

[36] The inverse relationship between changes in the mechanical royalty rate and changes in the sound recording royalty rate has been characterized as the ''seesaw'' effect, which is discussed in further detail infra, with regard to the uncapped TCC rate prong.

[37] Because this proceeding was appealed and remanded, the Judges have the benefit of knowing the ''future'' (beyond 2017), during which U.S. interactive streaming revenues have continued to grow, a fact that is undisputed, and as to which the Judges take administrative notice. *See, e.g.,* RIAA 2018 Year-End Music Industry Revenue Report (available at *https://www.riaa.com/wp-content/uploads/2019/02/RIAA-2018-Year-End-Music-Industry-Revenue-Report.pdf;* RIAA 2020 Year-End Music Industry Revenue Report (available at *https://www.riaa.com/wp-content/uploads/2021/02/2020-Year-End-Music-Industry-Revenue-Report.pdf* (interactive streaming revenue increased within this rate period from (approximately) $1.6 billion in 2018 to $7.7 billion in 2019 and $8.8 billion in 2020).

[38] For example, if a royalty is set at a flat rate of 15.1% when a revenue base is $1,000, then the royalty is $151, leaving $849 in revenues to cover other costs which, for this example, are held constant. If the revenue base doubles to $2,000, the same flat 15.1% royalty rate generates $302 in royalties, leaving $1,698 in revenues to cover other costs which, if constant, allow for the additional revenue ($1,698 − $849 = $849) to generate profits.

[39] The Judges emphasize two points that mitigate any negative impact on Copyright Owners from the static nature of the 15.1% revenue rate. First, as a percent-of-revenue rate, it generates more royalty revenue in a growing market, so the quantum of revenue is not static. Second, Copyright Owners' own economic expert witness, Professor Gans, testified that the data in the ''market observations'' from the Goldman Sachs Report on which he relied were the result of ''negotiated rates in the free market and thus ''presumed to . . . fully consider[ ]

4. Consideration of Factors A–D in Section 801(b)(1)

Finally, the Judges consider the impact of Factors A–D of section 801(b)(1) in connection with the setting of the revenue percentage rate of 15.1%.[40] Regarding Factor A, it cannot be gainsaid that the D.C. Circuit has left this issue unresolved. Rather, *Johnson* unambiguously affirmed the Majority's finding that an increase in the mechanical royalty rate was warranted. Specifically, *Johnson* states that the Majority's decision in this regard met the ''test'' that it be ''supported by substantial evidence [and] reflect a reasonable reading of the record.'' *Johnson, supra,* at 388. Moreover, with regard to the level of the increase, the D.C. Circuit did not disturb the finding by the Majority that ''[t]he rates determined by the Judges represent a 44% increase over the current headline rate, and thus satisfies the Factor A objective. . . .'' Determination at 85.[41]

With regard to Factors B and C,[42] even if *Johnson* were construed as permitting the Judges to revisit this issue, they would not adjust the 15.1% revenue rate on the basis of these two factors. In this regard, the Judges note that the Majority found that the 15.1% revenue rate was not only ''reasonable,'' but also a ''*fair* allocation of revenue between copyright owners and services.'' Determination at 87 (emphasis added). The Majority thus found explicitly that ''with regard to Factors B and C . . . there is no basis to depart from [its] determination of the reasonable . . . rate structure and rates as set forth *supra.*'' *Id.* More particularly, the Majority calculated the 15.1% rate by utilizing the total royalty percentage revenue of only [REDACTED]% as calculated by Spotify's economic expert witness, Professor Marx, whose economic modeling intentionally reflected a conception of fairness by reducing the effect of the labels' complementary oligopoly market power. *See* Determination at 67–68 (noting that Professor Marx testified that this aspect of her model ''represents a *fair outcome* in the absence of market power [and] . . . eliminates . . . market power'' which . . . if left in the economic analysis would ''render[ ] . . . the analysis incompatible with the objectives of *Factors B and C* of section 801(b)(1).)'') (emphasis added).[43]

Accordingly, the Judges find it would be substantively unwarranted to engage in any new consideration on remand of the impact, if any, of Factors B and C on the otherwise reasonable 15.1% revenue rate.[44]

The final itemized statutory factor—Factor (D)—instructs the Judges to consider the ''competing priority'' of ''minimiz[ing] any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.'' 17 U.S.C. 801(b)(1)(D). As with Factors B and C, even if Johnson were construed to allow the Judges to revisit this issue on remand with respect to the 15.1% revenue rate, the Judges would not change the Majority analysis or findings. In the Determination, the Judges adopted the following interpretation of this standard set forth in previous determinations:

> [T]he Judges reiterated their understanding of Factor D, concluding that a rate would need adjustment under Factor D if that rate directly produces an adverse impact that is substantial, immediate and irreversible in the short-run because there is insufficient time for either [party] to adequately adapt to the changed circumstance produced by the rate change and, as a consequence, such adverse impacts threaten the viability of the music delivery service currently offered to consumers under this license.

Determination at 86 (emphasis added).

Also, in order to minimize any economic disturbance to the Services' businesses, the Majority decided to phase-in the 15.1% rate over the five-year rate term, setting annual percent-of-revenue rates as follows: 11.4% in 2018; 12.3% in 2019; 13.3% in 2020; and 14.2% in 2021, before the full 15.1% rate became effective in 2022 the final year of the rate term. *Id.* at 87–88.

On remand, the Services have not made any argument that the rate structure or rates set by the Majority were ''disruptive under this standard.'' [45] In sum, there is insufficient basis for the Judges to change the Majority's application of Factor (D) to the 15.1% revenue rate finding by the Majority.[46]

. . . expectations of future costs and revenues . . . . incorporate[ing] expectations of future values.'' Gans WRT ¶¶ 37–38. On this issue, it is noteworthy that both the Majority and the D.C. Circuit credited Professor Gans's reliance on these projections. *See* Determination at 70 (''The Judges . . . find Professor Gans' reliance on financial analysts' projections for the respective industries to be reasonable.''); *Johnson,* 969 F.3d at 386 (holding that ''[t]he CRB Judges' finding that Gans's . . . reliance on Goldman Sachs' profit projections'' was ''reasonable'' and the] . . . type of line-drawing and reasoned weighing of the evidence [that] falls squarely within the [Copyright Royalty Board's] wheelhouse as an expert administrative agency.'')

Thus, dynamic changes going forward in the rate term are embodied in the 15.1% revenue rate, and dynamic market expectations are incorporated in the modeling data used to establish that rate.

[40] The D.C. Circuit ruled, with regard to the ''*nature of the rate structure,*'' that because it had ''vacat[ed] and remand[ed] . . . for lack of notice'' ''[t]he question whether the [Judges] adequately addressed factors B through D is bound up with the [Judges'] analysis of sound recording rightsholders' likely responses to the new rate structure.'' *Johnson, supra,* at 389. However, the 15.1% revenue rate, viewed separately, is not bound up in the ''rate structure'' issue, which relates to the uncapped TCC prong and how the 15.1% revenue rate may be ''intertwined'' with that second rate prong. As explained *infra,* the Judges are not adopting an uncapped TCC rate prong, so the 15.1% rate is no longer ''bound up'' with the vacated and remanded ''rate structure'' issue, making moot the argument that a new post-remand analysis of Factors B through D is necessary or appropriate. However, on remand, Copyright Owners have placed in issue the ''disruption'' element of Factor D, claiming that the Services have not proven that the uncapped TCC rates and rate prong have or will cause disruption.

[41] The 44% figure cited by the Majority reflects the percentage increase of the headline rate, from 10.5% to 15.1%.

[42] Factors B and C are typically considered jointly, because of the overlap in the objectives of providing a ''fair return'' and a ''fair income'' to the licensors and licensees respectively (the Factor B objectives) and reflecting their relative roles in making the streamed music available to the public (the Factor C objectives). *See Johnson,* 969 at 388 (noting without criticism the joint consideration of Factors B and C; Determination at 85–86 (noting without criticism the several experts' joint consideration of Factors B and C).

[43] Additonal facts support the Majority's finding that the 15.1% revenue rate is fair. The record evidence indicates that the headline percent-of-revenue sound recording rate was between approximately [REDACTED]% to [REDACTED]% in 2017. *See* Marx WDRT ¶ 58, fig 7. When the 15.1% mechanical rate is added to that rate range, the range of the total royalty obligation (based on headline rates) is [REDACTED]% to [REDACTED]%. (Plus, given the phase-in of the rates expressly to avoid disruption, the total royalty obligation would be even lower before 2022, at current sound recording rates.) The evdence pre-remand indicated that the Services were ''surviving'' while incurring noncontent of costs of approximately [REDACTED]% of revenue, leaving about [REDACTED]% of revenue available to pay royalties while still remaining in business. *See* Eisenach WRT ¶ 79 (Copyright Owners' expert economic witness); McCarthy WDT ¶¶ 28–29 (Spotify's Chief Financial Officer.) Thus, even if the Judges were to engage in a *de novo* analysis of the potential applicability of Factors B and C to the 15.1% rate, they would not find any basis sufficient to warrant a downward rate adjustment, beyond the phase-in adopted in the Determination.

[44] However, the Judges take note of their further observation, discussed *supra,* that the combined impact of ''sticky'' sound recording royalty rates and the inevitable regulatory lag provide an additional modicum of fairness with regard to the mechanical royalty rate.

[45] The Judges further discuss the Factor D ''disruption issue *infra* in connection with their analysis of the uncapped TCC prong.

[46] Additional facts further support the Majority's finding that the 15.1% revenue rate is would not be disruptive under Factor D. The record evidence indicates that the headline percent-of-revenue sound recording rate was between approximately [REDACTED]% to [REDACTED]% in 2017. *See* Marx WDRT ¶¶ 14, 19. When the 15.1% mechanical rate is added to that rate range, the range of the total royalty obligation (based on headline rates) is [REDACTED]% to [REDACTED]%. (Plus, given the phase-in of the rates expressly to avoid disruption, the total royalty obligation would be even lower before 2022, at current sound recording rates.) The evidence pre-remand indicated that the Services were ''surviving'' while incurring noncontent costs of approximately [REDACTED]% of revenue, leaving about [REDACTED]% of revenue available to pay royalties while still remaining in business. *See* Eisenach WRT ¶ 79 (Copyright Owners' expert

5. Conclusion Regarding the 15.1% Revenue Rate

For the forging reasons, the Judges do not disturb the Majority's finding that the percent-of-revenue rate at 15.1%, phased-in annually over the rate period, constitutes a ''reasonable'' rate under section 801(b)(1) to be used as the statutory rate for the 2018 to 2022 period.[47]

D. Uncapped TCC Rate Prong

1. Two Post-Remand Rationales for Uncapped TCC Rate Prong

The Determination set forth the following two primary reasons for adopting a ''greater-of' rate structure that also included an uncapped TCC rate prong:

First, the use of an uncapped TCC metric is the most direct means of implementing a key finding . . . by the experts for participants on both sides in this proceeding: the ratio of sound recording royalties to musical works royalties should be lower than it is under the current rate structure. Incorporating an uncapped TCC metric into the rate structure permits the Judges to influence that ratio directly.

Second, an uncapped TCC rate prong effectively imports into the rate structure the protections that record companies have negotiated with services to avoid the diminution of revenue.

Determination at 35–36.[48]

2. Copyright Owners' Position

Copyright Owners claim that the uncapped TCC prong should be adopted. They contend that the D.C. Circuit remand was merely ''procedural'' rather than substantive, and the Judges thus are not precluded from readopting the uncapped TCC prong in this remand proceeding. CO Initial Submission at 35–38 (and record citations therein).

They further contend that the uncapped TCC prong was adopted to provide protection against revenue deferment and displacement occasioned by the Services choosing to elevate the growth of subscribers and other listeners over revenue maximization. *Id.* at 38–43 (and record citations therein). The uncapped TCC prong was first proposed by Google to persuade the Judges to reject Copyright Owners' proposed ''greater-of'' rate structure containing a per-play prong and a per subscriber prong. *Id.* at 43–46 (and record citations therein).

Copyright Owners argue that the uncapped TCC prong should be adopted because: (1) the Services have not shown any actual or threatened ''disruption'' or other harm resulting from the uncapped TCC prong during the 33-month period; (2) the Services actually experienced ''unprecedented growth and profit'' during this period; and (3) the Services paid lower percentages of revenues in mechanical and total royalties when the uncapped TCC prong was in effect. Copyright Owners' Reply Brief on Remand at 34–48 (and record citations therein).

Relatedly, according to Copyright Owners the Services' argument that the ''see-saw'' effect is unsupported by empirical evidence has collapsed, given the evidence relating to market performance. Further Copyright Owners maintain that this argument is irrelevant to the rate structure issue. *Id.* at 48–50 (and record citations therein).

3. Services' Position

The Services argue on remand that the uncapped TCC rate prong must be rejected. The Services reject the ''seesaw'' theory claiming it is disproved by the experience of the parties during the 33-month period. Services' Joint Opening Brief at 48–49; Services' Joint Supplemental Brief at 7–13 (Nov. 15, 2021) (and record citations therein). The Services further contend that Copyright Owners have disavowed the ''seesaw'' theory as understood by the Majority. The Services allege that Copyright Owners now claim that the theory was nothing more than ''a nod'' to certain ''core principles'' of bargaining theory, rather than a specific prediction of a commensurate inverse relationship between increases in the mechanical royalty rate and decreases in the sound recording royalty rate. Services' Joint Supplemental Brief at 2, 5–7 (and record citations therein).

With regard to the uncapped TCC rate prong, the Services assert that Copyright Owners have not even attempted to demonstrate—nor could they demonstrate—that the uncapped TCC rate prong is consistent with all four statutory objectives set forth in section 801(b)(1). Services' Joint Reply Brief at 1, 3–4, 33–34 36 (July 2, 2021) (''Services' Reply''); *see also* Services' Joint Opening Brief at 44–64 (and record citations therein). The Services claim that ''yoking'' the mechanical rate to the ''complementary oligopoly rates extracted by the labels is plainly unreasonable.'' Services' Joint Opening Brief at 44–46. The Services argue that the existence, *vel non,* of any ''disruptive impact'' arising from the uncapped TCC rate prong, is misguided and not dispositive, because it is only one of the four separately itemized factors and, as this factor relates to Copyright Owners' proposed uncapped TCC prong, they bear the burden of proof. Services' Reply at 35–37.

Finally, the Services contend that Copyright Owners have failed to explain their self-contradictory pre-remand argument that ''an uncapped TCC prong 'does nothing to protect Copyright Owners from the Services' revenue

economic witness); McCarthy WDT ¶¶ 28–29 (Spotify's Chief Financial Officer). Thus, even if the Judges were to engage on remand in a *de novo* analysis of the potential applicability of Factor D to the 15.1% rate, they would not find any disruption sufficient to warrant a downward rate adjustment, beyond the phase-in adopted in the Determination.

[47] The Services' assert that the Judges previously found that the reasonableness of the 15.1% rate was subject to revision on remand. In support of this position, the Services cite to the Judges' Order Granting in Part and Denying in Part Copyright Owners' Motion for Reconsideration or, in the Alternative, Clarification at 3, 4 n.7 (January 6, 2022) (Jan. 6th Order). But the Judges said in that interlocutory proposal merely that Copyright Owners were incorrect in their extreme assertion that the Judges could not make an ''alternative rate and rate structure finding . . . except for the re-adoption of the vacated rate and rate structure approach in the *Phonorecords III Determination* [because] . . . [t]hat . . . would . . . be inconsistent with *Johnson* [and] . . . would render the D.C. Circuit's vacating and remanding of the proceeding without force or effect.'' *Id.* at 4, n.7. That did not mean that certain elements of the D.C. Circuit's ruling could be ignored. Further, when the Judges provided the parties with the Judges' *explicitly tentative* ''Working Proposal,'' they did not declare that the 15.1% revenue rate calculation could be revisited. Rather, the Judges ''express[ed] a *concern,* not that the foregoing calculations could be *overridden,* but rather that this analysis . . . is '*incomplete*' . . .'' Jan. 6th Order at 6 (emphasis added). The parties' submissions in response to the Judges' ''Working Proposal'' demonstrated that the 15.1% revenue rate calculation was not ''incomplete'' in the manner that had raised the Judges' concern. Nothing the Judges said in this interlocutory and tentative ''Working Proposal'' constituted a definitive statement regarding the Judges' view of what was and was not subject to review on remand. *See generally merriam-webster.com (defining the adjective* ''*working*'' *in this context as* ''assumed or adopted to permit or facilitate further work or activity . . . a working draft.''). Indeed, a primary purpose of the ''Working Proposal'' was to allow the Judges and the parties to address potential issues and resolutions, without prejudice going forward.

[48] The Majority added two other reasons that are not germane to this remand. In particular, the Majority stated that, compared to the *Phonorecords II* benchmark proposed by the Services, the ''greater-of'' structure with the uncapped TCC rate prong was ''simpler'' to understand than the ''Rube Goldberg-esque'' nature of the *Phonorecords II* rate structure. *Id.* at 36. This issue apparently was not raised on appeal, as it was not mentioned in *Johnson,* and Copyright Owners have not raised the issue on remand. *See* CO Initial Submission, *supra.* (However, the Judges do consider this issue in their analysis of the PR II-based benchmark, *infra.*) The final reason provided by the Majority was that its adoption of an uncapped TCC rate prong was supported by evidence of Google's agreements with labels that included an uncapped rate structure, on which Google had relied to propose, post-hearing, the same greater-of rate structure. *Id.* However, the D.C. Circuit found that Google's proposal was distinguishable, as it was based on a far lower TCC rate (15%) as well as a far lower percent-of-revenue rate (10.5%). The D.C. Circuit thus declined to rely on the Google-based approach as support for the uncapped TCC rate prong. *Johnson,* 969 F.3d at 383.

displacement and deferment.' '' Services' Reply at 43.

4. Application of *Johnson* Findings Regarding Uncapped TCC Rate Prong

The Judges conclude that the D.C. Circuit affirmed the Majority's *derivation and calculation* of the 26.1% TCC rate, but vacated and remanded the Judges' *application and inclusion* of that rate prong in the rate structure. The D.C. Circuit noted that, on appeal, the Services contended that ''it was arbitrary and capricious for the [Judges] to rely on information drawn from different expert analyses in calculating the mechanical royalty rates.'' *Johnson,* 969 F.3d at 384. Thus, the Services were making the same ''information''-based argument in opposition to the calculation of both aspects of the mechanical royalty rates—the revenue percentage prong and the TCC prong. *See also id.* (''the Streaming Services separately leveled objections to the particular percentages adopted by the Copyright Royalty Board to calculate the revenue *and total content cost prongs.*'') (emphasis added)

In fact, both rate prongs were indeed derived from the same analyses. *See* Determination at 75 (table) (showing that both 15.1% revenue rate and 26.2% TCC rate derived from same data—Professor Marx's model showing total royalties as high as [REDACTED]% [Majority's lower bound] and Professor Gans's ''Shapley-inspired'' model showing TCC percent should be [REDACTED]%.)[49]

It is also clear from *Johnson* that the D.C. Circuit found that the Majority had reasonably derived and calculated the 26.2% TCC rate:

> When it came to . . . the ratio of sound recording to musical work royalties that Gans derived from his analysis the [CRB Judges] specifically found . . . reasonable Gans' equal value assumption [for dividing the Shapley surplus . . . between sound recording and musical works owners] and his reliance on Goldman Sachs' profit projections. *That type of line-drawing and reasoned weighing of the evidence falls squarely within the Board's wheelhouse as an expert administrative agency.*

See Johnson, 969 F.3d at 385–86 (cleaned up) (emphasis added). Accordingly, because the identical analysis was performed by the Judges to derive the 26.2% TCC rate as was done to derive the 15.1% revenue rate, the Majority's finding with regard to the *derivation and calculation* of the TCC rate likewise is not subject to further consideration on remand by the Judges.

However, it is equally clear that the D.C. Circuit *vacated* and remanded the Majority's *application and inclusion* of *the 26.2% TCC rate* in a separate ''greater-of'' TCC prong. The defect that generated the vacating on this issue was *procedural*— ''the Streaming Services had no notice that they needed to defend against and create a record addressing such a significant, and significantly adverse, overhaul of the mechanical license royalty scheme . . .'' *Id.* at 382. The consequence of the D.C. Circuit's action, however, was *substantive.* The D.C. Circuit stated:

> This is no mere formality. Interested parties' ability to provide evidence and argument bearing on the essential components and contours of the [Judges'] ultimate decision not only protects the parties' interests, it also helps ensure that the [Judges'] ultimate decision is well-reasoned and grounded in substantial evidence. . . .
>
> The Streaming Services separately challenge the uncapped rate structure as *arbitrary* and *capricious.* In particular, they argue that the rate structure formulated by the [Judges] failed to account for the sound recordings rightsholders' market power. They also object that the [Judges] failed to provide a 'satisfactory explanation, or root in substantial evidence, [their] conclusion that an increase in mechanical license royalties would lead to a decrease in sound recording royalties [the ''inverse relationship'' a/k/a the ''seesaw'' effect].

Id. at 381–83 (cleaned up) (emphasis added). Thus, the D.C. Circuit explicitly declined to address these substantive issues, because of the deficient procedure. Instead, the D.C. Circuit remanded these substantive issues back to the Judges. *Id.* Simply put, *Johnson* found that the absence of notice here could be outcome-determinative. Thus, the Judges categorically reject Copyright Owners' assertion that the remand as to the uncapped TCC rate structure was merely ''procedural.'' The Judges do not accept the notion that the Majority simply committed some ministerial *faux pas* that could be summarily corrected so that the uncapped TCC rate structure could be rubber-stamped on remand. Rather, the Judges' error rendered it impossible for them to consider the pros and cons of such a rate structure without the necessary input from the Services (and, for that matter, Copyright Owners as well).

Because the procedural infirmity precluded the D.C. Circuit from deciding whether the Majority's decision was ''well-reasoned and grounded in substantial evidence,'' there also can be no substantive presumption of the appropriateness of the uncapped TCC rate prong, as suggested by Copyright Owners. To the contrary, the D.C. Circuit's opinion makes it clear that on remand the Judges must engage in a fresh consideration of the statutory appropriateness, *vel non,* of the uncapped TCC rate prong, by weighing and contextualizing the *competing* evidence and testimony entered into the record both before and after the remand.

Accordingly, although Copyright Owners correctly assert that *Johnson* did not find the uncapped TCC rate structure to be ''unfair, unreasonable or inequitable,'' *Johnson* just as clearly did *not* find that structure to be ''fair, reasonable or equitable.'' Rather, the purpose of the remand was for the Judges to make these determinations. Accordingly, the Judges next examine whether setting the statutory mechanical rate as an uncapped TCC rate is ''reasonable,'' as required by section 801(b)(1).[50]

5. Determining Whether Uncapped TCC Rate Prong is ''Reasonable''

a. Rejection of First Rationale for Including Uncapped TCC Rate

Two substantive issues are implicated raised with regard to the issue of reasonableness: (1) whether the ''seesaw'' theory is valid; and (2) if it is valid, whether there exist sufficient data to support the phased-in 26.2% uncapped TCC rate.[51] To demonstrate that this uncapped TCC rate prong and the (phased-in) 26.2% rate are reasonable, Copyright Owners rely on the combined application of two economic models—the Shapley Value model and a Nash Bargaining Model. Accordingly, it is necessary to consider how these two models relate to each other and how these models and their interrelationship impact the setting of the statutory rate.

The D.C. Circuit described the Shapley Value Model methodology:

> The Shapley methodology is a game theory model that seeks to assign to each market player the average marginal value that the player contributes to the market. This methodology first determines the costs that

[49] The reciprocal of Professor Gans's [REDACTED]ratio of sound recording:musical works royalties is [REDACTED], or [REDACTED]%.

[50] The Judges consider *infra* whether any of the four itemized statutory factors require an adjustment to this analysis.

[51] As noted *supr*a, in the Judges' recitation of the parties' remand arguments regarding the uncapped TCC rate prong, they make other arguments as well, specifically regarding: (1)) whether it would be necessary and/or appropriate to adopt this uncapped TCC rate prong to offset revenue deferral and/or displacement by the Services; (2) whether this rate prong has caused, or would cause, economic ''disruption'' to the Services (under Factor D of section 801(b)(1)); (3) whether the uncapped TCC rate prong would satisfy Factors B and C of section 801(b)(1); and (4) whether this rate prong improperly imports the complementary oligopoly power of sound recording licensors. The Judges consider these issues after addressing the issues relating to the ''seesaw'' theory.

each player should recover, then divides the ''surplus'' among the players in proportion to the value of their contributions to the worth of the hypothetical bargain that would be struck.

Johnson, 969 F.3d at 372. The Judges provided a consistent but more detailed definition:

> The Shapley value gives each player his average marginal contribution to the players that precede him, where averages are taken with respect to all potential orders of the players. The Shapley value approach models bargaining processes in a free market by considering all the ways each party to a bargain would add value by agreeing to the bargain and then assigns to each party their average contribution to the cooperative bargain. The idea of the Shapley value is that each party should pay according to its average contribution to cost or be paid according to its average contribution to value. It embodies a notion of fairness. The Shapley model is a game theory model that is ultimately designed to model the outcome in a hypothetical 'fair' market environment. It is closely aligned to bargaining models, when all bargainers are on an equal footing in the process.

Determination at 62–63 (cleaned up).

To apply a Shapley Value Model in a rate proceeding, the economic modeler must obtain usable cost and revenue data to be inputted into the model. More particularly for this proceeding, the modeler must identify the parties' input costs, including the Services' non-content costs, and the revenue derived from interactive streaming.[52] The difference between these revenues and the Services' noncontent costs represents the Shapley ''surplus'' that can be shared among the Services, the sound recording companies and Copyright Owners.

(i) The Shapley Approach of the Parties' Economic Expert Witnesses

(a) Professor Gans's ''Shapley-Inspired'' Model

Professor Gans, Copyright Owners' expert, utilized royalty and profit interactive streaming data for record companies and music publishers that he obtained from ''a [then] recent music industry equity analysis report,'' namely, a Goldman, Sachs Equity Research report dated October 4, 2016 entitled ''Music in the Air, Stairway to Heaven.'' Gans WDT ¶ 76 & n.39. As the Majority summarized Professor Gans's approach, ''[h]e found that, for the music publishers to recover their costs and achieve profits commensurate with those of the record companies under his approach, *the ratio of sound recording royalties to musical works royalties derived from his Shapley-inspired analysis was* [REDACTED] (which attributes equal profits to both classes of rights holders and acknowledges the higher costs incurred by record companies compared to music publishers).'' Determination at 69 (citing Gans WDT ¶ 77 tbl.3) (emphasis added).

Regarding Professor Gans's Shapley-inspired analysis, the Majority stated:

> [T]he Judges find the *ratio* of sound recording to musical work royalties that Professor Gans derived from his analysis to be informative. Professor Gans computed this ratio based on an assumption of equal Shapley values between musical works and sound recording copyright owners. The Judges find this assumption to be reasonable . . . .[53]

Determination at 70. This is part and parcel of the ''line-drawing'' undertaken by the Majority that the D.C. Circuit affirmed. Thus, on remand, the Judges do not find cause to reconsider the Majority's limited adoption of Professor Gans's Shapley-inspired analysis.[54]

(b) Professor Marx's Shapley Value Model

Professor Marx constructed two Shapley Value Models, one of which was relied upon by the Majority. In the model credited by the Majority, Professor Marx assumed one collective owner of sound recording copyrights and one collective owner of musical works. She also assumed the presence of a single interactive service. *See* Determination at 64–68. That approach yielded a total royalty obligation for sound recordings and musical works ranging between [REDACTED]% and [REDACTED]% of the hypothetical service's revenue. Dissent at 133.

Copyright Owners criticized Professor Marx's decision to assume in her model only one interactive streaming service, rather than the multiple services that actually existed. They contend that assumption reduced the market power of the licensors in her model. According to Copyright Owners' economic experts, Professor Marx's approach was a misuse of the Shapley Value Model. They aver that the Shapley Value approach is intended only to eliminate from the rate derivation the bargaining ability of a ''Must Have'' input supplier (like the sound recording companies and Copyright Owners) to ''hold-out'' and thus squeeze licensees for higher royalties. By modeling every possible ''arrival ordering,'' they contend, the ''hold-out'' problem is avoided. They further contend that Professor Marx misconstrued the purpose of the Shapley approach by wrongly modeling market participants in a manner that significantly reduced the actual market power of these ''Must Have'' input suppliers. Determination at 66–67.

The Majority agreed with Professor Marx. The two Judges in the Majority found that her modeling reasonably ''attempts to eliminate a separate factor—market power—that she asserts renders a market-based Shapley Analysis incompatible with the objectives of Factors B and C of section 801(b)(1).'' *Id.* at 68.

Although the Majority ultimately relied upon Professor Marx's modeling in this regard, the Majority found that her data inputs were problematic. Determination at 65. Specifically, Professor Marx relied on 2015 data from Warner/Chappell and Warner Music Group for music publisher sound recording company noncontent costs, respectively. The Majority found that 2015 data was less probative than 2016 data and understated the percentage of revenue to be paid to the two classes of content providers. However, the Majority ultimately found only that this one-year older data served to ''understate'' the allocation of surplus to the upstream content providers, and thus rejected only her lower [REDACTED]% bound for total royalties, The Majority did decide to adopt her upper bound of [REDACTED]% value for total royalties, which could (and ultimately did) ''constitute a lower bound for total royalties in computing a royalty rate,'' applied by the Majority in order to make a downward adjustment to offset the complementary oligopoly effect of ''Must Have'' inputs. *Id.* at 73, 75.

(c) Professor Watt's Criticisms of and Adjustments to Professor Marx's Shapley Modeling

Professor Richard Watt was called by Copyright Owners as a rebuttal witness at the hearing, for the purpose of reviewing Professor Marx's WDT. Watt WRT ¶ 3. He concluded that Professor Marx's Shapley Value Model contains important methodological and data

[52] Identifying useful data is a vexing problem. As one of Copyright Owners' expert economic witnesses, Professor Watt, has written: ''[T]he main problem with the Shapley approach . . . a particularly pressing problem [is] that of data availability.'' R. Watt, *Fair Copyright Remuneration: The Case of Music Radio,* 7 Rev. Econ. Rsch Copyright. Issues at 21, 27 (2010).

[53] The assumption of equal Shapley values is based on the understanding that a sound recording license and a musical works license are both necessary (*i.e.,* perfect complements) in order for a service to stream a song. Determination at 69 & n.122 therein.

[54] Because the ratio of sound recording to musical works royalties that Professor Gans derived from the data and other evidence was the only portion of his testimony on which the Majority relied, and because that reliance was affirmed by the D.C. Circuit, the criticisms of other aspects of Professor Gans's modeling are no longer relevant.

flaws which, in his opinion, caused her to significantly understate the mechanical and overall (musical works + sound recording) royalty rates to be paid by interactive services pursuant to a proper Shapley analysis. *Id.* at ¶ 5.

Professor Watt also criticized her Shapley Value Model for failing to incorporate the fact that ''the different interactive streaming companies—Spotify, Apple Music, Rhapsody/Napster, Google Play Music, Amazon, etc.—do all compete (and rather fiercely) among themselves, offering (perhaps perfectly) substitutable services.'' *Id.* at ¶ 25. Even more strongly in this vein, Professor Watt relied on the following description of the substitutability of the streaming services, *inter se:*

> Each [interactive streaming] service in the increasingly crowded field is working frantically to overcome the perception that the main distinction among the uniformly priced $9.99 a month offering is little more than font style, quirky playlist title and color scheme. . . . [M]usic platforms have long fought against the perception that they're . . . selling a nearly interchangeable product . . . You're getting sold the same car [with] just got a different lick of paint on it.'').

Id. at ¶ 32 n.19.

Professor Watt claimed that incorporating this downstream competition into the model would reduce the Shapley values of the Services and increase the Shapley values for the input suppliers, by recognizing which players provide ''essential inputs'' and which are in competition with other suppliers of substitutable inputs. *Id.*

He further criticized Professor Marx for including in her model ''other distributors'' who are not interactive streaming services. *Id.* at ¶ 27. According to Professor Watt, these other distributors ''do not belong in a properly constructed Shapley Value Model because their presence would ''show up'' in the model as lower revenues for interactive services as their subscribers or listeners left for these other distributors (such as noninteractive services). *Id.*

Additionally, because he criticized Professor Marx's use of 2015 data (as noted *supra*), Professor Watt re-worked Professor Marx's model by examining how the use of 2016 data, as opposed to her 2015 data, would ''better reflect[ ] . . . the reality of the market. *Id.* at ¶ 37*; see also id.* at ¶ 44. When using the (higher) 2016 revenues (and making some relatively more minor adjustments he found necessary), Professor Watt estimated that the share of streaming revenues that would be paid out in total royalties (for musical works + sound recordings) in Professor Marx's model would range from [REDACTED]% to [REDACTED]%. *Id.* at ¶¶ 50–52.[55]

After analyzing these Shapley analyses,[56] the Majority found that the mechanical royalty rate needed to be increased in order to provide Copyright Owners with a reasonable rate as required by section 801(b)(1). As a matter of arithmetic though, if the mechanical rate increased and the sound recording rate did not decrease by a corresponding amount, then the total royalties paid by the Services would increase. That issue brings the Judges to consideration of Professor Watt's bargaining model, on which the Majority relied to posit an inverse relationship (the seesaw effect), by which an increase in the mechanical rate would result in a commensurate reduction in the sound recording rate.

(ii) Professor Watt's Bargaining Model

Professor Watt's Nash Bargaining Model is the linchpin that connects: (a) the higher mechanical royalty rates generated by the Shapley Value results relied upon by the Majority with (b) the assumed lower sound recording rates—a connection that the Majority found to render ''reasonable'' and ''fair'' its uncapped TCC prong. *See* Determination at 73–74 (''As to the issue of applying a TCC percentage to a sound recording royalty rate that is artificially high as a result of musical works rates being held artificially low through regulation, the Judges rely on Professor Watt's insight (demonstrated by his bargaining model) that sound recording royalty rates in the unregulated market will decline in response to an increase in the compulsory license rate for musical works.''). Alternately stated, Professor Watt's bargaining model result, *i.e.,* the seesaw effect, if sufficiently supported in the record, is the phenomenon that would allow the Judges on remand to apply the Shapley results by increasing the mechanical rate, without unduly exposing the Services to the risk of higher total royalties.

More particularly, the Majority recognized a potential problem that those Judges would have to resolve before utilizing the Shapley Value approach to create an uncapped TCC prong: ''This is problematic because the sound recording rate against which the TCC rate would be applied is inflated . . . both by . . . complementary oligopoly [market] conditions . . . and the record companies' ability to obtain most of the available surplus due to the music publishers' absence from the bargaining table.'' Determination at 73.[57] But the Majority found that Professor Watt had provided a rationale which permitted them to resolve the second problem:

> As to the issue of applying a TCC percentage to a sound recording royalty rate that is artificially high as a result of musical works rates being held artificially low through regulation, the Judges rely on Professor Watt's insight . . . that sound recording royalty rates in the unregulated market will decline in response to an increase in the compulsory license rate for musical works. 3/27/17 Tr. 3090 (Watt) (''[T]he reason why the sound recording rate is so very high is because the statutory rate is very low. And if you increase the statutory rate, the bargained sound recording rate will go down.'').

Determination at 73–74; *see also* Watt WRT ¶ 23 n.13 (''[I]in my Appendix 3, I show that . . . if the musical works rate is increased to what would be a realistically fair and reasonable rate, then the negotiated fee for sound recordings would decrease almost dollar for dollar . . . .''); *see also id.* at ¶ 36 (''The statutory rate for mechanical royalties . . . is significantly below the predicted fair rate, and the statutory rate effectively removes the musical works rightsholders from the bargaining table with the services. Since this leaves the sound recording rightsholders as the only remaining essential input, bargaining theory tells us that they will successfully obtain most of the available surplus.'').[58]

[55] As noted *supra,* when the Majority weighed and credited Professor Watt's entire Shapley analysis, in which his estimate of total royalties was [REDACTED]%, those Judges contextualized Professor Marx's [REDACTED]% total royalty calculation as the lower bound of a zone of reasonable rates, and applied it as a measure that, in their analysis, would offset the complementary oligopoly effect of real-world royalties. Determination at 75 (text and tbl.).

[56] Because his testimony was made in rebuttal, leaving the Services no procedural right to file written testimony in opposition, the Majority gave little weight to Professor Watt's total royalty projections and no weight to his proffered ratios of sound recordings-to-musical works royalties. Determination at 75.

[57] The other problem the Majority needed to resolve was how to deflate the market-based sound recording royalty rates to mitigate the complementary oligopoly effect in those rates. *Id.* As discussed *supra,* the Judges resolved this problem by applying the low total royalty payment sum, [REDACTED]%, from Professor Marx's Shapley Value Model.

[58] In full detail, Professor Watt concluded: ''[F]or every dollar that the statutory rate for musical works undercuts a fair and reasonable rate, the freely negotiated rate for sound recordings will increase by an estimated [REDACTED] cents. That is, if the musical works rate is increased to what would be a realistically fair and reasonable rate, then the negotiated fee for sound recordings would decrease almost dollar for dollar, with only a minor change in the total royalty rate for all copyrights combined.'' *Id.* at ¶ 23, n.13; see also *id.,* appx. 3 at 12.

To repeat: *This inverse relationship is what has been described as the ''seesaw'' effect.* The question in this regard on remand is whether the record proves that the seesaw theory is valid and measurable going forward. Alternately stated, does the record prove that Professor Watt's bargaining model serves as the linchpin that would allow the Judges to apply the Shapley results by increasing the mechanical rate, without unduly exposing the Services to the risk of higher total royalties?

To resolve this issue, the Judges examine this bargaining model dispute in detail, as it bears on whether the uncapped TCC rate structure can be incorporated into the statutory rate.

(a) Bargaining Model Dispute

Professor Watt utilized a general Nash Bargaining Model.[59] In his particular application, Professor Watt modeled the streaming services and the labels each as a ''single unit,'' asserting (as is common in Shapley analyses) that this single-unit modeling was done ''for simplicity.'' Watt WRT, appx. 3 at 10. Applying this and other modeling assumptions, Professor Watt posited: ''If there were to be no successful deal, then each of these two bargainers [the assumed ''single'' interactive service and ''single'' label] would earn 0, since in that case the interactive streaming service could not operate.'' *Id.*

In his *oral* testimony at the hearing, Professor Watt did not opine as to whether changes in variables *other than musical works royalties* would also have an impact on the level of sound recording royalty rates, even as higher musical works rates would otherwise place virtually 1:1 downward pressure on the sound recording rate. However, in his *written* rebuttal hearing testimony, *i.e.,* his WRT, Professor Watt *did* make varying assumptions regarding the changes in the Services' non-content costs, by which he did change the total revenue share for content providers. Watt WRT ¶¶ 50–52. He concluded from this varying replication of Professor Marx's Shapley model ''*that the results that it delivers are very dependent upon the amount of total interactive streaming revenue and the fraction of that revenue that is taken up by downstream non-content costs.*'' *Id.* at ¶ 53 (emphasis added).[60]

The Services had no procedural right under part 351 of the Judges' regulations to proffer surrebuttal written testimony from economic witnesses to challenge Professor Watt's assertion, made for the first time in rebuttal, of the seesaw relationship between changes in the musical works royalty rate and the sound recording royalty rate paid by interactive services. Moreover, the Services and their economists also had no opportunity to weigh in on the Majority's application of same (which was not revealed until the Judges rendered their decision). *See Johnson,* 969 F.3d at 381 (''Streaming Services had no notice that they needed to defend against and create a record addressing such a significant, and significantly adverse, overhaul of the mechanical license royalty scheme.'').[61] Now though, on this remand, the Services have been afforded the opportunity to present these criticisms, through their expert witnesses.

(b) Professor Katz's Principal Criticism

Pandora's economic expert, Professor Michael Katz, levied several criticisms of the bargaining model proffered by Professor Watt and applied by the Majority. The most important problem with Professor Watt's analysis, according to Professor Katz, is that the former's model assumes an ''extremely unrealistic'' *zero payoff* to the label in the absence of an agreement with a streaming service—an assumption which is ''far from . . . innocuous.'' Written Direct Remand Testimony of Professor Michael Katz (Katz WDRT) ¶¶ 16, 20.

Professor Katz opines that this *zero payoff* assumption is equivalent to assuming, contrary to undisputed market facts, that: (1) subscribers and listeners to an interactive service would not switch to other interactive services if that service failed to reach an agreement with the labels; and (2) the interactive service is a ''Must-Have'' input supplier. Katz WDRT ¶¶ 17–18. In terms of Nash modeling, according to Professor Katz, Professor Watt's assumption is thus equivalent to ''assum[ing] that the sound recording copyright owners have no *outside option.*'' Katz WDRT ¶ 127 (app. A) (emphasis added).

Moreover, not only does Professor Katz assert the indisputability that such substitution would occur, he points out that *Professor Watt himself* acknowledged in his own testimony that such substitution would occur. Katz WDRT ¶ 19.[62]

Beyond this purported inconsistency, Professor Katz finds Professor Watt's no-substitution assumption to be a serious *modeling* error because, in order to quantify accurately each Nash bargainer's contribution to the net surplus to be divided, the extent of substitutability on each side of the market must be captured by the modeling. Katz WDRT ¶ 20. That is, he opines that ''Professor Watt's assumption that there is no substitution dramatically biases his model toward finding a large seesaw effect and renders his analysis unreliable . . . lead[ing]to a prediction that the share of an increase in musical works royalties that will fall on the streaming services is approximately *eight times* larger than Professor Watt's prediction. *Id.* at ¶ 21.

As a matter of music business dynamics, Professor Katz interprets Professor Watt's substitutability error as follows.

> The assumption that a label receives a zero payoff if it does not reach agreement with a streaming service is equivalent to assuming that, if a streaming service shut down, none of the consumers who would otherwise have used that streaming service will switch to alternative streaming services or other sources of licensed music. The two forms of the assumption are equivalent because, when the services are substitutes, failure to reach an agreement with one service will not drive a label's payoffs from interactive streaming to zero. It will not result in the loss of all of the benefits that could be enjoyed by reaching an agreement. Instead, many consumers would engage in substitution and choose other streaming services, which will allow the label to earn profits from the additional royalties that would be paid to it by those other services.

Id. at ¶ 18.

Professor Katz attempts to adjust Professor Watt's Nash Bargaining Model to account for this substitution effect. In his Appendix A, Professor Katz—acknowledging the reality of multiple interactive services—changes Professor Watt's assumed single label's payoff

[59] The Nash Bargaining Model is one type of game-theoretic approach used by economists to model the distribution of ''gains from trade'' between two parties ''in a manner that reflects 'fairly' the bargaining strength of the different agents. Marx WDRT ¶ 28 n.33 (citing A. Mas-Colell, M. Whinston, and J. Green, *Microeconomic Theory* 838 (1995)). To understand the parties' modeling dispute, it is necessary to appreciate the essential elements of the Nash Bargaining Model, as previously summarized by the Judges: ''In the Nash Framework [for full quotation, see eCRB no. 27063 n.48].'' *SDARS III* Final Determination, 83 FR 65210, 65215 & n.32 therein (Dec. 19, 2018).

[60] The Judges take note here of Professor Watt's presentment of alternative scenarios, because, as discussed *infra,* the Services and their economists accuse Professor Watt of changing his testimony, post-remand, by limiting the scenarios in which his ''seesaw'' argument would apply in order to salvage the credibility of his bargaining model.

[61] The Services could have sought leave to file surrebuttal testimony, and could have challenged the Majority's understanding of Professor Watt's testimony, after the Initial Determination, by filing a Motion for Rehearing pursuant to 37 CFR 353.1. However, a party is not required to engage in either of these procedural approaches, but rather may challenge the Determination on appeal, as has occurred here.

[62] The Judges have quoted Professor Watt's testimony in this regard *supra.*

(designated as parameter ''A'' in the Nash Bargaining Model) from a value of zero to a value equal to ''the share of revenues that would be diverted to other streaming services'' multiplied by ''the royalty rate that the label receives from the other interactive streaming services.'' *Id.* ¶¶ 119, 127. Professor Katz asserts that the diversion to other streaming services represents an ''outside option'' available to a label. *Id.* ¶ 127. Professor Katz incorporates this ''outside option'' in his revised version of Professor Watt's Nash Bargaining Model.

In addition, Professor Katz asserts that Professor Watt's modeling is unreliable because ''his prediction of the size of the see-saw effect is very sensitive to the assumed values of various other parameters.'' *Id.* at ¶ 23. For example, Professor Katz asserts that a change in the royalty rate paid to the labels could materially affect the balance or even the existence of the seesaw effect. *Id.* at ¶ 127. As further support for his opinion, Professor Katz relies on the testimony of one of Copyright Owners' own economic expert witnesses, who gave testimony clearly indicating that the ''seesaw'' effect was not at all likely to occur. *Id.* ¶ 24, n.16 (citing Gans WRT ¶ 32).[63]

In sum, Professor Katz finds Professor Watt's Nash Bargaining Model to be unusable as a foundation to set royalty rates because, although ''there are theoretical reasons to believe that a see-saw effect *may* occur, . . . there are complications and it is difficult to predict how big the effect will be.'' *Id.* ¶ 24 (emphasis added).

(c) Professor Watt's Rebuttal to Professor Katz

In rebuttal to Professor Katz's criticisms, Professor Watt states that ''the record needs to be straight on Nash bargaining theory,'' in order to explain ''the foundational error'' committed by Professor Katz. Watt RWRT ¶ 52. This basic mistake, according to Professor Watt, is Professor Katz's erroneous assertion that the bargaining model must account for a label's ''outside option.'' *Id.* ¶ 53. Relying on economic authority regarding bargaining theory, Professor Watt defines an ''outside option'' as ''the best alternative that a player can command *if he withdraws unilaterally* from the bargaining process.'' *Id.* ¶ 59 (emphasis added); *see also id.* ¶ 53 (''An outside option is a payoff that the label would receive *if negotiations with the service do not result in an agreement.*'') (emphasis added).[64]

Connecting this principle of bargaining theory to economic theory, Professor Watt explains his understanding of the relationship of the ''outside option'' to the more familiar economic concept of ''opportunity cost'':

> An outside option could also be referred to as an ''opportunity cost,'' since it is the value of what would be foregone should a deal with the service actually be struck. It is . . . useful to recognize the equivalence between an outside option and an opportunity cost, because economics in general has a very long history of understanding how opportunity costs weigh in on economic decision making.

Id.

Professor Watt then opines how Professor Katz confused the ''outside option'' with the disagreement (a/k/a threat) point in the Nash Bargaining Model:

> [Professor] Katz claim[s] that the outside option value that the labels would enjoy should they not reach an agreement with the services should be included as part of the ''disagreement point'' within the bargaining model and reimbursed like a cost prior to bargaining. Doing this can dramatically alter the results of the model. It is also definitively not how such an option should be modelled. [Professor] Katz [is] guilty of misunderstanding the Nash bargaining model, and concretely, the meaning of a ''disagreement point,'' and the way that an outside option should be brought into the model.

Id. ¶ 55.

More particularly, according to Professor Watt, these outside options/opportunity costs do not belong in a Nash Bargaining Model, because they are ''not the types of status quo actual financial payments that may be modelled as disagreement points.'' *Id.* ¶ 57. Rather, he asserts that, as Professor Katz essentially acknowledged, they are ''payoffs from *substitution,* [*i.e.,*] an option *instead of* the deal, and they are not actual financial payments, but opportunity costs. *Id.*

Professor Watt then explains that an outside option/opportunity that by definition exists as an alternative to a bargain between two parties lies outside the two parties' bargain, and is thus out-of-place within a proper Nash Bargaining Model:

> In the case at hand, if the parties never stop negotiating and never take up substitute options, then no joint enterprise is offered and there is no surplus to share, so each necessarily gets a payoff equal to 0, just as I assumed in my model.
>
> . . .
>
> [A]gainst this backdrop, an outside option (a potential payoff that is not directly related to a share of the surplus that is being negotiated) . . . comes in [to the model] as a constraint upon the set of feasible deals that could be struck, exactly as an opportunity cost would be treated.

Id. ¶¶ 57–58.

(d) Dr. Leonard's Criticisms of Professor Watt's Bargaining Model

According to Google's economic expert witness, Dr. Gregory Leonard, the Majority wrongly relied on Professor Watt's bargaining model because it is ''highly stylized'' and theoretically ''simplified'' in ways that make it unable to predict that ''an increase in the musical works royalty would be offset nearly dollar-for-dollar by a decrease in the sound recording royalties (the ''seesaw effect''), thus leaving the services virtually unaffected by the proposed increase in musical works royalties.'' Leonard WDRT ¶8.

Pointedly, Dr. Leonard criticizes Professor Watt's bargaining model as comprised of a ''veneer of 'complexity' . . . mathematical formulas and [a] reference to John Nash,'' adopted to provide a rationalization for adoption of his Shapley Value modeling that would significantly increase the mechanical royalty rate.'' *Id.* ¶ 16. These modeling deficiencies, Dr. Leonard asserts, are not merely ''simplifying assumptions [that] better focus on the specific question the model is meant to address,'' but rather ''simplify away economic characteristics . . . entirely abstract[ing] away economic characteristics . . . central to the question at hand.'' *Id.* ¶ 18.

In particular, Dr. Leonard avers that Professor Watt's bargaining model materially abstracts away from, *inter alia:* (1) the nature of consumer demand for streaming services and competing forms of music; (2) how services decide to enter or exit the streaming market; (3) the nature of the oligopolistic interaction among the labels; (4) the nature and timing of the bargaining between each label and each service; (5)

[63] In this regard, Professor Gans testified: ''[When considering] the general distribution of profit when royalty rates for musical works rightsholders are increased[,] [i]n principle, those funds could come from a decrease in service profit, a decrease in sound recording royalties, or an increase in consumer pricing . . . . The general redistribution of profit in response to increased musical works royalties is fundamentally an empirical question. . . .'' Gans WRT ¶ 32.

[64] The phrase ''outside option'' suggests the existence of an ''inside option.'' Indeed, a treatise cited by Professor Watt identifies the ''inside option,'' defining it as ''[t]he payoff the [bargainer] obtains while the parties *temporarily* disagree''—contrasting it with the ''outside option'' as (consistent with Professor Watt's testimony) ''the payoff [the bargainer] obtains if she chooses to *permanently* stop bargaining, and chooses not to reach an agreement with [the counterparty].'' A. Muthoo, *Bargaining Theory with Applications* at 137 (1999).

the potential for ''hold-up'' [65] by labels that perceive the services to be in a vulnerable bargaining position due to their previous industry-specific investments made under their assumption that the pre-existing statutory structure would be maintained; and (6) the failure of Professor Watt's bargaining model to grapple with the complementary oligopoly structure of the sound recording market. *Id.* ¶¶ 18, 20.

These factors, he posited, are ''important for determining how sound recording royalties would *actually* change in response to a change in the statutory musical works royalty.'' *Id.* Professor Leonard concludes that, by not modeling these factors, Professor Watt's ''prediction of a virtual dollar for dollar decrease in sound recording royalties is unreliable as a basis for formulating policy.'' *Id.* ¶ 20.

Regarding the complementary oligopoly structure of the market and its impact on the bargaining process, Professor Leonard emphasizes that an important ''real-world hurdle'' assumed away by Professor Watt's modeling of a single label entity is that ''each label would prefer to have the other labels lower their sound recording royalties while maintaining its own royalties at pre-existing levels . . . .'' *Id.* ¶ 21. More particularly, Dr. Leonard explains that ''even if a label were to recognize that it is more efficient for overall sound recording royalties to be lower, the label may not be willing to lower its royalty rate without assurance that the other labels will do the same,'' a result which he asserts ''is unlikely to happen absent some form of collusive behavior.'' *Id.* Thus, Dr. Leonard maintains that the existence and size of any ''seesaw''-induced decrease in sound recording royalties remains indeterminate, and it remains ''within the realm of theoretical possibility that the labels do not agree to *any* reduction in sound recording royalties even if a reduction in overall royalties would be economically efficient. *Id.*

(e) Professor Watt's Rebuttal to Dr. Leonard's Criticisms

Professor Watt replies with a spirited defense of economic modeling in general and his economic bargaining model in particular. He begins by pointing out that models are not supposed to be ''perfect representations of reality [but rather] are intended to isolate what is important, in order to expose a useful insight on some issue of relevance.'' Watt RWRT ¶ 105. He adds that economic models (not merely his bargaining model) ''*do not necessarily deliver predictions* of situations that are immune to changes in variables outside the model, but rather the results inform conclusions about the relationships between the variables and parameters within the model, [which is] by nature *a crude representation[ ] of reality,* but the lessons and insights that they provide can be very relevant to real-world applications.'' *Id.* ¶¶ 106–07 (emphasis added).

With particular regard to his bargaining model, Professor Watt takes issue with Dr. Leonard's assertion that in the former's model the surplus is a ''fixed constant.'' *See* Watt RWRT ¶¶ 110–111. Rather, Professor Watt avers that his bargaining model assume[s] that when the surplus . . . *whatever value it takes* . . . is to be shared, the parties understand that the amount to be shared is, *at that moment, given*.'' *Id.* ¶ 111 (emphasis added).

Turning to Dr. Leonard's critique regarding the purported distortionary effect of Professor Watt's modeling assumption of a single label and a single interactive service, Professor Watt responds by acknowledging that, if he had modeled multiple labels and services in the bargaining process, that would be ''not particularly enlightening *vis-à-vis* the single bargain setting, as it will not lead to different insights than those distilled by the [Majority].'' *Id.* ¶ 113.[66] Further, Professor Watt characterizes this criticism as ''empty,'' because under either his two-player Nash model or Dr. Leonard's posited multi-player (Nash-in-Nash) model, the labels will not respond to a musical works royalty increase *ipso facto* with a reduction in the sound recording royalty (*i.e.,* the seesaw effect will not occur if there is ''a change in some other variable.''). *Id.* ¶ 114.

(f) Professor Marx's Criticisms of Professor Watt's Bargaining Model

Professor Marx criticizes Professor Watt's application of the Nash Bargaining Model because, in her opinion, its ''precise prediction'' of the nearly one-to-one seesaw relationship ''depends critically on the assumptions that he makes and the numerical inputs that he uses.'' Marx WDRT ¶ 33. First, criticizing his modeling *assumptions,* like Professor Katz, she criticizes his decision to abstract from reality by positing a single label and a single interactive streaming service. She opines that his one label/one service modeling assumption ineluctably leads to his conclusion that each of these two parties ''has a 'disagreement payoff' of zero [meaning that] each party ends up with nothing in the absence of a deal.'' *Id.* ¶ 34. But this zero ''disagreement payoff'' is merely a product of Professor Watt's abstraction from reality, according to Professor Marx, because ''[i]n reality, if interactive streaming went away, a share of the music listening that had occurred through interactive streaming services would migrate to other forms of music distribution, generating revenues for the label . . . *meaning that the disagreement payoff would be positive for the label*). *Id.* (emphasis added).[67] Consistent with Professor Katz, she maintains that Professor Watt himself acknowledged the presence of this substitution effect when he testified that ''[t]he existing interactive streaming companies do not hold an essential input, as first they compete with the non-interactive services . . . .'' *Id.* ¶ 35, n.43 (citing Watt WRT, app. 3).

More particularly, Professor Marx maintains, a record label's disagreement payoff must be considered realistically ''in any accounting of what would happen if record labels and interactive streaming services failed to reach an Agreement . . . .'' Marx RWDT ¶ 35. And, she opines, when this real-world substitution effect is taken into account, the seesaw effect that Professor Watt estimates is reduced dramatically, because ''[t]he greater . . . the substitution between streaming and other forms of distribution, the greater is the revenue that the record label can capture in the event of disagreement

[65] A hold-up problem occurs when: (1) parties to a future transaction must make specific investments prior to the transaction in order to prepare for it; and (2) the exact form of the optimal transaction (*e.g.,* how many units if any, what quality level, the time of delivery) cannot be specified with certainty *ex ante.* W. Rogerson, *Contractual Solutions to the Hold-Up Problem,* Rev. Econ. Stud. 777 (1992). Here, the interactive services may need to commit to paying for long-term investments, even though they cannot know the level of their largest costs (content royalties) beyond a single rate term.

[66] Professor Watt describes Dr. Leonard's multiple simultaneous negotiations in a bargaining model as a ''Nash-in-Nash'' model, but the former does not explain why he concludes that this approach ''will not lead to different insights'' than those the Majority distilled from his two-party Nash model.

[67] Professor Marx's reference to a substitution from a shutdown interactive service to ''other forms of music distribution'' is different from, but analytically analogous to, Professor Katz's assertion that the shutdown of any one interactive service would result in migration of its subscribers and other users to the remaining interactive services. These analogous critiques are complementary. *See* Marx WDRT ¶ 37 (''One would expect the same decrease in the estimated see-saw effect by including a second, competing interactive streaming service in the market instead of just the one that Professor Watt uses. In that case, if no deal is reached, users would migrate to an even closer substitute—a competing interactive streaming service—resulting in an even higher degree of profit migration and thus an even lower estimated see-saw effect'').

and the lower is the estimated see-saw effect.'' *Id.*[68]

Professor Marx opines that modeling the bargaining process without these real-world particulars diminishes the value of Professor Watt's Nash model in several significant ways. First, because his model fails to incorporate the presence of three major record labels, ''each with substantial complementary oligopoly power,'' it fails to capture the fact that ''each record label does not fully internalize the impact of its rates on the viability of the industry.'' *Id.* ¶ 39. She points to the Judges' Final Determination in *Web IV,* where the Judges note how this aspect of complementary oligopoly compromises the value of a rate as a useful benchmark. *Id.* ¶ 39 n.45 (quoting *Web IV* Final Determination). More particularly, she opines that when, as here, ''there are multiple negotiations between multiple record labels and multiple services,'' sound recording rates can be affected ''by the order of negotiations'' among the several label:service negotiating pairs—a factor that Professor Watt's bargaining model fails to capture. Marx WRDRT ¶ 41.

Next, Professor Marx avers that Professor Watt's bargaining model ''does not explain how or over what time frame the market would move to a new equilibrium.'' *Id.* ¶ 40. More particularly, she testifies, because interactive services' ''agreements with record labels often contain multi-year terms and can take many years to negotiate . . . there may be little incentive or practical ability for both sides to move to a new rate before the contract expires''. *Id.* ¶ 41. She takes note that this point was established at the hearing during questioning of Professor Watt from the bench:

> JUDGE STRICKLER: What of the situation . . . that the . . . time period for the existing agreements between the . . . labels and the interactive streamers is such that they've already locked in a particular rate and then we set a rate that's higher for the mechanical to reflect the fact that the sound recording royalty should drop, but it's locked in for a period of time? Are we running the risk, then, of disrupting the market by having a total royalty that's greater than what is indicated by your Shapley testimony, simply because of the disparity of times in which the rates are . . . implemented?
>
> PROFESSOR WATT: That's a very fair point. And I didn't even think of that until you've mentioned it . . . [T]he model I have done is . . . assuming that . . . the bargained thing happens at the same time as the—or in the same general period of time as a change in the statutory rate. You're absolutely correct.

3/27/17 Tr. 3091–92 (Watt); *see* Marx WRDRT ¶ 42, n.46

Third, Professor Marx points out that Professor Watt's Nash model does not attempt to capture the effects of the heterogeneous and asymmetric distribution of information relevant to the bargain available to each party at the time of negotiation. *Id.* ¶ 41.

Lastly, Professor Marx avers that Professor Watt's Nash Bargaining Model fails to address, on a more general basis beyond informational issues, other ''asymmetries among record labels and among services.'' Marx WDRT ¶ 41.

In sum, Professor Marx concludes that these foregoing real-world points all preclude the Judges from relying on Professor Watt's testimony to identify a stable relationship between changes in the mechanical royalty rate and the sound recording royalty rate because they all share a common defect—they ''lie outside Professor Watt's model.'' Marx WRDT ¶ 41.

To be clear, Professor Marx does not criticize Professor Watt for neglecting to include these points in his bargaining model; rather, she acknowledges that ''[t]hese are difficult features to capture in a tractable equilibrium model.'' *Id.* Indeed, she urges *the Judges* to appreciate that relying on such a necessarily limited model, as the Majority did, can have ''dramatic effects'' on the royalty rates derived. *Id.* Professor Marx emphasizes that all of these inherent modeling deficiencies are especially pernicious, if the bargaining model is applied yet again on remand, to set specific rates *over a five-year period,* when other variables will have independent effect on royalty rates. *Id.*

(g) Professor Watt's Rebuttal to Professor Marx

Because Professor Marx's criticisms are of a similar nature to Professor Katz's criticisms, Professor Watt responds to Professor Marx as he did to Professor Katz. To summarize, Professor Watt responds to Professor Marx's points as follows:

- Her criticism is centered on what he characterizes as her ''bogus'' argument that he supposedly had predicted almost a ''dollar for dollar'' sound recording rate reduction in response to an increase in the musical works rate (the seesaw effect). Watt RWRT ¶ 19. Professor Watt finds this argument ''particularly disheartening,'' because Nash bargaining theory explains why the seesaw would apply to the splitting of the surplus based on the available data, and that ''there are quite apparent reasons why available surplus may not decrease even if the musical works rate increased, *because of simultaneous changes to other variables in the model.*'' *Id.* ¶ 34 (emphasis added).
- Professor Marx implicitly contradicts her own reliance on the complementary oligopoly power of the Major labels by modifying his bargaining model through the insertion of a lower value for their bargaining power. *Id.* ¶¶ 19, 22–24, 26.
- Professor Marx misconstrues the purpose of his Nash model, which was to serve ''as a reply'' to Professor Marx's direct testimony, and ''to show bargaining insights that bore upon aspects of the case.'' *Id.* ¶ 29.
- Professor Marx, like Professor Katz, improperly includes in her bargaining model a potential payoff for the label arising from an ''outside option,'' *i.e.,* from an alternative that the label can choose only if the Nash bargaining terminates. *Id.* ¶¶ 53—68.

(h) Professor Marx's Reply to Professor Watt's Criticism[69]

In her supplemental remand testimony, Professor Marx challenged several of Professor Watt's criticisms contained in his remand testimony. First, she takes issue with what he identified as two ''core'' economic principles of bargaining: (1) that all of the available net surplus will be shared; and (2) that neither of the two bargainers will demand a share such that more than the total net surplus is shared. Marx WSRT ¶¶ 7–8.

As an initial matter, she disputes the notion that these are ''core'' principles of bargaining. *Id.* ¶ 8. More particularly, she states that, in the present case, because ''the label does not know with exactitude the precise maximum that a service would be willing to pay (*i.e.,* its ''survival'' rate), and the service likewise does not know the exact minimum that the label would be willing to accept,'' the simple bargaining model must be expanded to address ''the potential for delay and/or bargaining breakdown.'' *Id.*

As a further criticism, Professor Marx avers that ''[i]n the real world, the negotiated royalty outcomes do not involve just two parties, but rather a sequence of overlapping, interrelated,

[68] In the context of the bargaining model, Professor Marx identifies Professor Watt's choice of ''a market structure that is completely symmetric between record labels and services not reflective of the real world'' as forcing his model ''to attribute[ ] all the . . . surplus division to . . . bargaining power . . . and none of it to the market structure.'' *Id.* ¶ 38.

[69] The Judges found that Professor Watt's remand testimony, denoted as ''rebuttal,'' also provided *de facto* ''direct'' testimony, to which the Services could respond with supplemental testimony and argument. Oct. 1st Order at 11–12. Professor Marx's response in the following text was set forth in Spotify's permitted supplemental testimony.

bilateral bargains involving multiple competing services and multiple record labels with complementary oligopoly power.'' *Id.* ¶ 12.[70] This complication, she opines, exacerbates the informational deficit noted in the immediately preceding paragraph, such that negotiations within the several pairings of labels and services ''are affected by uncertainty and private information and . . . Professor Watt's discussion of bargaining theory [thus] does not support any particular real-world see-saw outcome.'' *Id.*

(iii) Resolution of the Bargaining Dispute

(a) Professor Watt's Nash Bargaining Model Does Not Support Adoption of Uncapped TCC Rate

The purpose of Professor Watt's Nash Bargaining Model was to allay the Judges' concern that increasing the mechanical rate would lead to higher total royalties for the Services. His bargaining model was understood by the Majority to show that such higher total royalties would not result, because the model demonstrated the ''seesaw'' effect, whereby the sound recording rate would fall almost dollar-for-dollar with the increase in the mechanical rate. *See* Determination at 73–74 (''[T]he Judges rely on Professor Watt's insight . . . *demonstrated by his bargaining model* that sound recording royalty rates in the unregulated market will decline in response to an increase in the compulsory license rate for musical works. . . . Professor Watt's bargaining model *predicts* that the total of musical works and sound recordings royalties would stay 'almost the same' in response to an increase in the statutory royalty.'') (emphasis added).[71]

On the surface, the economic experts on both sides appear to be at loggerheads regarding the existence and applicability of the seesaw relationship. However, as discussed below, on further analysis of their respective positions, in light of Professor Watt's remand testimony regarding *a key assumption* in his bargaining model, their disagreement narrows considerably and—in an important respect—vanishes completely.[72]

To recap: In his WRT, Professor Watt stated

> [W]ith an appropriately modelled bargaining analysis . . . in my Appendix 3 . . . I show that for every dollar that the statutory rate for musical works undercuts a fair and reasonable rate, the freely negotiated rate for sound recordings will increase by an estimated [REDACTED] cents.
>
> That is, if the musical works rate is increased to what would be a realistically fair and reasonable rate, then the negotiated fee for sound recordings would decrease almost dollar for dollar, with only a minor change in the total royalty rate for all copyrights combined.

Watt WRT ¶ 23 & n.13. But nowhere in his WRT did he qualify this statement by explicitly acknowledging that in his bargaining model there are certain assumptions lurking, *i.e.,* that his ''concrete'' analysis is subject to the ''*ceteris paribus*'' constraint—that all other things are held constant (*i.e.,* equal before and after the change in the musical works rate) other things being equal).[73]

It is only in his later remand testimony—after the D.C. Circuit's remand had compelled him to confront criticism from adverse economists—that Professor Watt expresses this assumption overtly, making explicit the ''understanding'' that he had theretofore only tacitly assumed:

> In other words, a model in which only the two copyright rates are permitted to change . . . as was the *understanding* in my original model, allows the system to derive a clear relationship between those two rates, and that relationship is that an increase in one leads to a decrease in the other, that is, the 'see-saw effect.' But if . . . something else changes along with the musical works rate . . . then *the net effect does not predict that the negotiated rate of the labels will decrease.*''

Watt RWRT ¶ 35 (emphasis added).

Indeed, as noted *supra,* Professor Watt *did* give a nod to the relaxing of his implied *ceteris paribus* assumption in his WRT, by identifying varying ''scenarios'' in which he considered the impact of potential changes in service revenues and service non-content costs, leading to different percentages of royalties paid to content providers. Watt WRT ¶¶ 45–52. Professor Watt then used these several assumptions and scenarios to opine as follows: ''The message that should be taken from this exercise . . . is that the results . . . are very dependent upon the amount of total interactive streaming revenue and the fraction of that revenue that is taken up by downstream non-content costs.'' *Id.* ¶ 53.[74]

Professor Spulber, on behalf of Copyright Owners, likewise emphasizes on remand the importance of the *ceteris paribus* assumption in economic modeling:

> [A]long with an increase in the compulsory license rate, *all other things being equal,* we would expect to see a decrease in sound recording royalty rates.
>
> . . .
>
> ''All other things being equal'' (*ceteris paribus* in Latin), is a central principle for economic modelling. This economic analysis of bargaining highlights an important relationship between two content cost variables. However, that relationship does not exist in a vacuum. *Many other variables affect the bargaining situation and, for any given period, the net effect of all of the different variables may be different than the effect of the modeled variable alone.* Thus, this economic analysis of bargaining will not assure that a streaming service will not face disruption in the real world for any reason.
>
> . . .
>
> Economic modeling is supposed to simplify the situation in order to distill useful principles and teachings.

Spulber RWRT ¶¶ 26–28 (emphasis added).

The Judges agree that the *ceteris paribus* principle[75] is a fundamental

[70] In like manner, Professor Marx opines that Professor Spulber's discussion of bargaining theory is irrelevant to any assessment of ''the complexities affecting real-world negotiations'' and the presence, *vel non,* of a seesaw outcome. *Id.* ¶ 13.

[71] Copyright Owners note the Majority's recognition that, regardless of the rate structure, *i.e.,* uncapped TCC or otherwise, Professor Watt's ''insight'' from ''bargaining theory'' would still apply. *See* Determination at 74, n.138. That being the case, the Majority's first rationale for adopting an uncapped TCC rate is undermined.

[72] This is unsurprising. The difference of opinion among economists often lies in their assumptions, which may be left unstated or opaque (intentionally or not). Once those assumptions are laid upon the table, their differences often evaporate. As the esteemed economist Fritz Machlup noted more than sixty years ago: ''The most prolific source of disagreement lies in differences of factual assumptions. It is not customary for experts to state all the assumptions that underlie their conclusions; it would be much too cumbersome. But when they have reached very different conclusions, then we are forced to go back and find out what implicit assumptions they have made.'' F. Machlup, *Why Economists Disagree,* 109 Proceedings of the American Philosophical Society 1, 3 (1965). In the modern world of more formal economic modeling as well, the obfuscation of assumptions continues to be an important source of dispute, according to a book written by a leading game theorist upon which Professor Watt relies in his testimony. A. Rubinstein, *Economic Fables* at 20 (2012) (''[T]he model's formal mantle enables economists . . . to conceal from the layman the assumptions the model uses.''); *see* J. Schlefer, *The Assumptions Economists Make* at 29 (2012) ([S]ome assumptions made by economists capture important insights, others are insane. All you have to do is decide which capture insights, which are insane, and in which situations.'')

[73] In his oral testimony, Professor Watt likewise did not qualify his opinion by taking note of his *ceteris paribus* assumption. See 3/27/17 Tr. 3026 *et seq.* (Watt).

[74] Further, in his remand testimony, Professor Watt points out that Professor Katz made clear in his testimony that he applied the ''all else equal'' assumption expressly in his own Nash bargaining analysis at the hearing. Watt RWRT ¶ 20 (quoting Katz WRT ¶ 67).

[75] The phrase is often translated into English as ''all other things *equal.*'' However, that is somewhat ambiguous. Equal to what? Not to other things. Rather, every ''thing'' (*i.e.,* every other independent variable) whose effects are not being measured

Continued

principle in economic analysis and modeling. Professor Watt succinctly makes this point, quoting the Nobel laureate economist James Buchanan, for the following proposition:

> At the heart of any analytical process lies simplification or abstraction, the whole purpose of which is that of making problems scientifically manageable. In the economic system we recognize, of course, that 'everything depends on everything else,' and also that 'everything is always changing'.

Watt RWRT ¶ 32 (*quoting* J. Buchanan, *Ceteris paribus: Some Notes on Methodology,* 24 *So. Econ. J.* 259, 259 (1958).

However, Professor Watt does not quote another portion of Professor Buchanan's article that makes a point that looms large in the present proceeding, *to wit,* the *limitations* inherent in applying the necessary *ceteris paribus* condition:

> Real problems require the construction of models, and the skill of the scientist is reflected in the predictive or explanatory value of the model chosen. We simplify reality to construct these models, but the fundamental truth of interdependence must never be forgotten. . . . [However,] *[f]ew, if any, meaningful results may be achieved by using ceteris paribus to eliminate the study of large numbers of variables.* If such variables are closely related, they must be studied simultaneously; there is no escape route open.

Id. at 259–60 (emphasis added); *see also* A. Rubinstein, *Comments on Economic Models, Economics, and Economists: Remarks on Economics Rules by D. Rodrik,* 55 J. Econ. Lit.162, 167 (2017) ''[W]hat matters to the empirical relevance of a model is the realism of its *critical* assumptions'') (emphasis added).[76]

This is not to say that Professor Watt was unaware of this caveat. As noted *supra,* he recognizes the difficulty of extrapolating from a *ceteris paribus* world to the real world. The present panel of Judges likewise recognizes this. However, the Majority missed this distinction in the Determination when it applied Professor Watt's correct but *ceteris paribus* ''insight'' for a constant real-world relationship between sound recording and musical works royalty rates. Again, not a single economist made this improper analytical leap or proposed an uncapped TCC rate in order to set a TCC ratio across the entire rate term. Indeed, on careful inspection, no economist states in his or her remand testimony that Professor Watt's bargaining model provides economic support for the uncapped TCC rate prong.

With the foregoing testimony in mind, the Judges see particularly relevant several additional points in Professor Watt's *remand* rebuttal testimony that pertain to the appropriateness, *vel non,* of a TCC rate prong. Referring to the application of his bargaining model to the present case, Professor Watt made these crucial statements regarding the lack of a seesaw effect that would generate decreases in sound recording rates when the mechanical rate is increased:

> [T]he actual effects one would expect to see several years later would be based on the actual data at that time. Moreover, I would expect many other variables to have a larger effect on the bargains than the relatively small changes in the musical works rate. . . . [U]nderstanding actual market outcomes requires understanding these variables.
>
> . . .
>
> [A]n attempt to capture all aspects of the real world is too complex for a simple statistical exercise involving an econometric regression. There is no obvious data to actually use for some of the independent variables, such as consumer demand equations, costs of entry and exit, a measure of oligopolistic interaction, different timings of different rate bargains, and the actual values of outside options.

Watt WRWT ¶¶ 6(iv), 118.[77]

Although Professor Watt was hardly transparent in *disclosing* his *ceteris paribus* assumption in his original testimony, it seems clear that he always *understood* its presence, and that, when this assumption was relaxed, ''the actual effects . . . several years later would be based on the *actual data at that time* [and] *many other variables [with] a larger effect on the bargains than the relatively small changes in the musical works rate.*'' *Id.* ¶ 6(iv) (emphasis added).

Professor Spulber likewise opined that the absence of an explicit statement of these assumptions in Professor Watt's testimony was unremarkable and appropriate:

> [A]ll other things being equal'. . . should be generally read into economic modeling conclusions or predictions, whether or not the words are repeated in each instance. Economists do not typically repeat these words in each place where they apply, since it would lead to constant repetition.

Spulber RWRT ¶ 46, n.8.
